UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549  
FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2012

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission File Number: 0-27078

HENRY SCHEIN, INC.

(Exact name of registrant as specified in its charter)

Delaware  
(State or other jurisdiction of  
incorporation or organization)

11-3136595  
(I.R.S. Employer Identification No.)

135 Duryea Road  
Melville, New York  
(Address of principal executive offices)  
11747  
(Zip Code)

(631) 843-5500  
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes

No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes

No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting

Edgar Filing: HENRY SCHEIN INC - Form 10-Q

company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

(Do not check if a smaller reporting  
company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes

No

As of July 23, 2012, there were 88,529,318 shares of the registrant’s common stock outstanding.

HENRY SCHEIN, INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(in thousands, except per share data)  
(unaudited)

Note 1 – Basis of Presentation

Our consolidated financial statements include our accounts, as well as those of our wholly-owned and majority-owned subsidiaries. Certain prior period amounts have been reclassified to conform to the current period presentation.

Our accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“U.S. GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnote disclosures required by U.S. GAAP for complete financial statements.

The consolidated financial statements reflect all adjustments considered necessary for a fair presentation of the consolidated results of operations and financial position for the interim periods presented. All such adjustments are of a normal recurring nature. These unaudited interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes to the consolidated financial statements contained in our Annual Report on Form 10-K for the year ended December 31, 2011.

The preparation of financial statements in conformity with U.S. GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities, at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The results of operations for the six months ended June 30, 2012 are not necessarily indicative of the results to be expected for any other interim period or for the year ending December 29, 2012.

Note 2 – Segment Data

We conduct our business through two reportable segments: health care distribution and technology and value-added services. These segments offer different products and services to the same customer base. The health care distribution reportable segment aggregates our global dental, medical and animal health operating segments. This segment consists of consumable products, small equipment, laboratory products, large equipment, equipment repair services, branded and generic pharmaceuticals, vaccines, surgical products, diagnostic tests, infection-control products and vitamins.

Our global dental group serves office-based dental practitioners, schools and other institutions. Our global medical group serves office-based medical practitioners, surgical centers, other alternate-care settings and other institutions. Our global animal health group serves animal health practices and clinics. Our global dental, medical and animal health groups serve practitioners in 24 countries outside of North America.

Our global technology and value-added services group provides software, technology and other value-added services to health care practitioners. Our technology group offerings include practice management software systems for dental and medical practitioners and animal health clinics. Our value-added practice solutions include financial services on a non-recourse basis, e-services and continuing education services for practitioners.

Beginning with the first quarter of 2012, we are reporting net sales and prior-year sales comparisons for each of our global dental, medical, animal health and global technology and value-added services business groups.

This sales reporting is consistent with our new global business groups. These groups have been formed to provide distinct organizational focus for reaching and serving each practitioner segment with the benefits of a global perspective, as well as global product and service offerings and best practices.

We will continue to report financial results for our health care distribution and technology and value-added services reportable segments. The health care distribution segment now comprises three global operating segments (dental, medical and animal health) and the technology and value-added services segment remains unchanged.

## Note 2 – Segment Data – (Continued)

In connection with this change in business groups, goodwill was reallocated to the new reporting units. We reviewed the newly allocated goodwill and determined that there was no impairment.

The following tables present information about our reportable and operating segments:

	Three Months Ended		Six Months Ended	
	June 30, 2012	June 25, 2011	June 30, 2012	June 25, 2011
<b>Net Sales:</b>				
Health care distribution (1):				
Dental	\$ 1,185,919	\$ 1,201,224	\$ 2,341,585	\$ 2,296,588

Total	\$ 154,702	\$ 151,215	\$ 287,997	\$ 275,515

## Note 3 – Debt

## Credit Facilities

On September 5, 2008, we entered into a \$400 million revolving credit facility with a \$100 million expansion feature. The borrowings outstanding under this revolving credit facility were \$55.0 million as of June 30, 2012. The \$400 million credit line expires in September 2013. The interest rate, which was 0.70% during the six months ended June 30, 2012, is based on USD LIBOR plus a spread based on our leverage ratio at the end of each financial reporting quarter. The agreement provides, among other things, that we maintain certain interest coverage and maximum leverage ratios, and contains restrictions relating to subsidiary indebtedness, liens, employee and shareholder loans, disposal of businesses and certain changes in ownership. As of June 30, 2012, there were \$9.6 million of letters of credit provided to third parties.

As of June 30, 2012, we had various other short-term bank credit lines available, of which approximately \$28.5 million was outstanding. During the six months ended June 30, 2012, borrowings under all of our credit lines had a weighted average interest rate of 1.27%.

Certain of our subsidiaries, excluding Butler Animal Health Supply, LLC, or BAHS, maintain credit lines which are collateralized by assets of those subsidiaries with an aggregate net carrying value of \$84.8 million.

(unaudited)

## Note 3 – Debt – (Continued)

## Private Placement Facilities

On August 10, 2010, we entered into \$400 million private placement facilities with two insurance companies. On April 30, 2012, we increased our available credit facilities by \$375 million by entering into a new agreement with one insurance company and amending our existing agreements with two insurance companies. These facilities are available on an uncommitted basis at fixed rate economic terms to be agreed upon at the time of issuance, from time to time during a three year issuance period, through April 26, 2015. The facilities allow us to issue senior promissory notes to the lenders at a fixed rate based on an agreed upon spread over applicable treasury notes at the time of issuance. The term of each possible issuance will be selected by us and can range from five to 15 years (with an average life no longer than 12 years). The proceeds of any issuances under the facilities will be used for general corporate purposes, including working capital and capital expenditures, to refinance existing indebtedness and/or to fund potential acquisitions. The agreement provides, among other things, that we maintain certain maximum leverage ratios, and contains restrictions relating to subsidiary indebtedness, liens, employee and shareholder loans, disposal of businesses and certain changes in ownership.

The components of our private placement facility borrowings as of June 30, 2012 are presented in the following table:

Date of Borrowing	Amount of Borrowing Outstanding	Borrowing Rate	Due Date
September 2, 2010	\$ 100,000	3.79 %	September 2, 2020
January 20, 2012	50,000	3.45	January 20, 2024
January 20, 2012 (1)	50,000	3.09	January 20, 2022
	\$ 200,000		

(1) Annual repayments of approximately \$7.1 million for this borrowing will commence on January 20, 2016.

## Note 3 – Debt – (Continued)

## Butler Animal Health Supply

Effective December 31, 2009, BAHS, a majority-owned subsidiary whose financial information is consolidated with ours, had incurred approximately \$320.0 million of debt (of which \$37.5 million was provided by Henry Schein, Inc.) in connection with our acquisition of a majority interest in BAHS.

On May 27, 2011, BAHS refinanced the terms and amount of its debt in an aggregate principal amount of \$366.0 million (of which \$55.0 million was provided by Henry Schein, Inc.). The refinanced debt consists of the following three components:

	Term Loan A	Term Loan B	Revolver
Original amount of debt (includes \$55.0 million of debt provided by Henry Schein, Inc.)	\$100,000	\$216,000	\$50,000
Number of remaining quarterly installments	9	13	
Quarterly payments from:			
September 30, 2012 through June 30, 2013	6,574

Balance outstanding as of June 30, 2012	83,275	139,045	2,000
	LIBOR plus a margin of	LIBOR plus a margin of	LIBOR plus a margin of
Interest rate on debt	2.75%	3.25%	2.75%
Interest rate on debt - LIBOR floor		1.25	%

During 2011 and 2012, BAHS made prepayments on Term Loans A and B, which resulted in a reduction to the future quarterly and final installment amounts due. Future prepayments by BAHS, if any, will result in reductions to remaining quarterly and final installment amounts due.

The outstanding balance of \$224.3 million (net of unamortized debt discount) is reflected in our consolidated balance sheet as of June 30, 2012. Borrowings incurred as part of the acquisition of BAHS are collateralized by assets of BAHS with an aggregate net carrying value of \$759.1 million.

The debt agreement provides, among other things, that BAHS maintain certain interest coverage and maximum leverage ratios, and contains restrictions relating to subsidiary indebtedness, capital expenditures, liens, employee and shareholder loans, disposal of businesses and certain changes in ownership. In addition, the debt agreement contains provisions which, under certain circumstances, require BAHS to make prepayments based on excess cash flows of BAHS as defined in the debt agreement.

(unaudited)

## Note 4 – Redeemable Noncontrolling Interests

Some minority shareholders in certain of our subsidiaries have the right, at certain times, to require us to acquire their ownership interest in those entities at fair value. Accounting Standards Codification (“ASC”) Topic 480-10 is applicable for noncontrolling interests where we are or may be required to purchase all or a portion of the outstanding interest in a consolidated subsidiary from the noncontrolling interest holder under the terms of a put option contained in contractual agreements. The components of the change in the Redeemable noncontrolling interests for the six months ended June 30, 2012 and the year ended December 31, 2011 are presented in the following table:

	June 30, 2012	December 31, 2011
Balance, beginning of period	\$402,050	\$304,140
Decrease in redeemable noncontrolling interests due to redemptions	(23,169 )	(160,254 )
Increase in redeemable noncontrolling interests due to business acquisitions	14,999	13,618
Net income attributable to redeemable noncontrolling interests	17,311	36,514
Dividends declared	(8,087 )	(15,212 )
Effect of foreign currency translation loss attributable to redeemable noncontrolling interests	(612 )	(889 )
Change in fair value of redeemable securities	(742 )	224,133
Other adjustment to redeemable noncontrolling interests	(42,636 )	-
Balance, end of period	\$359,114	\$402,050

Changes in the estimated redemption amounts of the noncontrolling interests subject to put options are adjusted at each reporting period with a corresponding adjustment to Additional paid-in capital. Future reductions in the carrying amounts are subject to a “floor” amount that is equal to the fair value of the redeemable noncontrolling interests at the time they were originally recorded. The recorded value of the redeemable noncontrolling interests cannot go below the floor level. These adjustments do not impact the calculation of earnings per share.

Some prior owners of such acquired subsidiaries are eligible to receive additional purchase price cash consideration if certain financial targets are met. For acquisitions completed prior to 2009, we accrue liabilities that may arise from these transactions when we believe that the outcome of the contingency is determinable beyond a reasonable doubt. Starting in our 2009 fiscal year, as required by ASC Topic 805, “Business Combinations,” we have accrued liabilities for the estimated fair value of additional purchase price adjustments at the time of the acquisition. Any adjustments to these accrual amounts will be recorded in our consolidated statement of income. For the six months ended June 30, 2012 and June 25, 2011, there were no material adjustments recorded in our consolidated statement of income relating to changes in estimated contingent purchase price liabilities.

## Note 5 – Comprehensive Income

Comprehensive income includes certain gains and losses that, under U.S. GAAP, are excluded from net income as such amounts are recorded directly as an adjustment to stockholders’ equity. Our comprehensive income is primarily comprised of net income, foreign currency translation gains (losses), unrealized gains (losses) on hedging and

investment activity and pension adjustment gains (losses).

Note 6 – Fair Value Measurements

ASC Topic 820 “Fair Value Measurements and Disclosures” (“ASC Topic 820”) establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. ASC Topic 820 applies under other previously issued accounting pronouncements that require or permit fair value measurements but does not require any new fair value measurements.

ASC Topic 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC Topic 820 establishes a fair value hierarchy that distinguishes between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs) and (2) an entity’s own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs).

The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC Topic 820 are described as follows:

- Level 1— Unadjusted quoted prices in active markets for identical assets or liabilities that are accessible at the measurement date.
- Level 2— Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3— Inputs that are unobservable for the asset or liability.

The following section describes the valuation methodologies that we used to measure different financial instruments at fair value.

Cash equivalents and trade receivables

Due to the short-term maturity of such investments, the carrying amounts are a reasonable estimate of fair value.

Long-term investments and notes receivable

There are no quoted market prices available for investments in unconsolidated affiliates and long-term notes receivable; however, we believe the carrying amounts are a reasonable estimate of fair value.

(in thousands, except per share data)  
(unaudited)

Note 6 – Fair Value Measurements – (Continued)

Auction-rate securities

As of June 30, 2012, we have approximately \$8.5 million (\$7.5 million net of temporary impairments) invested in auction-rate securities (“ARS”). These investments are backed by student loans (backed by the federal government) and investments in closed-end municipal bond funds, which are included as part of Investments and other within our consolidated balance sheets. ARS are publicly issued securities that represent long-term investments, typically 10-30 years, in which interest rates had reset periodically (typically every 7, 28 or 35 days) through a “dutch auction” process. Our ARS portfolio is comprised of investments that are rated investment grade by major independent rating agencies. Since the middle of February 2008, ARS auctions have failed to settle due to an excess number of sellers compared to buyers. The failure of these auctions has resulted in our inability to liquidate our ARS in the near term. We are currently not aware of any defaults or financial conditions that would negatively affect the issuers’ ability to continue to pay interest and principal on our ARS. We continue to earn and receive interest at contractually agreed upon rates.

During the six months ended June 30, 2012, we received approximately \$4.0 million of redemptions of our ARS. As of June 30, 2012, we have continued to classify our ARS as Level 3 within the fair value hierarchy due to the lack of observable inputs and the absence of significant refinancing activity.

Based upon the information currently available and the use of a discounted cash flow model, including assumptions for estimated interest rates, timing and amount of cash flows and expected holding period for the ARS portfolio, in accordance with applicable authoritative guidance, our previously recorded cumulative temporary impairment at December 31, 2011 of \$1.2 million related to our ARS decreased by \$0.2 million during the six months ended June 30, 2012. The temporary impairment has been recorded as part of Accumulated other comprehensive income within the equity section of our consolidated balance sheet.

Accounts payable and accrued expenses

Financial liabilities with carrying values approximating fair value include accounts payable and other accrued liabilities. The carrying value of these financial instruments approximates fair value due to their short maturities.

Debt

The fair value of our debt is estimated based on quoted market prices for our traded debt and on market prices of similar issues for our private debt. The fair value of our debt as of June 30, 2012 and December 31, 2011 was estimated at \$535.0 million and \$441.4 million, respectively.

Derivative contracts

Derivative contracts are valued using quoted market prices and significant other observable and unobservable inputs. We use derivative instruments to minimize our exposure to fluctuations in interest rates and foreign currency exchange rates. Our derivative instruments primarily include foreign currency forward agreements related to intercompany loans and certain forecasted inventory purchase commitments with suppliers.

The fair values for the majority of our foreign currency and interest rate derivative contracts are obtained by comparing our contract rate to a published forward price of the underlying market rates, which is based on market rates for comparable transactions and are classified within Level 2 of the fair value hierarchy.

## Note 6 – Fair Value Measurements – (Continued)

## Redeemable noncontrolling interests

Some minority shareholders in certain of our subsidiaries have the right, at certain times, to require us to acquire their ownership interest in those entities at fair value based on third-party valuations. Factors considered in determining the fair value amounts include multiples of financial values, such as earnings. The noncontrolling interests subject to put options are adjusted to their estimated redemption amounts each reporting period with a corresponding adjustment to Additional paid-in capital. Future reductions in the carrying amounts are subject to a “floor” amount that is equal to the fair value of the redeemable noncontrolling interests at the time they were originally recorded. The recorded value of the redeemable noncontrolling interests cannot go below the floor level. These adjustments will not impact the calculation of earnings per share. The values for Redeemable noncontrolling interests are classified within Level 3 of the fair value hierarchy. The details of the changes in Redeemable noncontrolling interests are presented in Note 4.

The following table presents our assets and liabilities that are measured and recognized at fair value on a recurring basis classified under the appropriate level of the fair value hierarchy as of June 30, 2012 and December 31, 2011:

	June 30, 2012			Total
	Level 1	Level 2	Level 3	
<b>Assets:</b>				
Available-for-sale securities	\$ -	\$ -	\$ 7,481	\$ 7,481

 (unaudited)

## Note 6 – Fair Value Measurements – (Continued)

As of June 30, 2012, we have estimated the value of our closed-end municipal bond fund ARS portfolio and our student loan backed ARS portfolio based upon a discounted cash flow model. The assumptions used in our valuation model include estimates for interest rates, timing and amount of cash flows and expected holding periods for the ARS portfolio. As a result of these analyses, our previously recorded cumulative temporary impairment at December 31, 2011 of \$1.2 million related to our ARS decreased by \$0.2 million during the six months ended June 30, 2012.

The following table presents a reconciliation of our assets and liabilities measured at fair value on a recurring basis using unobservable inputs (Level 3):

	Level 3 (1)
Balance, December 31, 2011	\$ 413,379
Change in redeemable noncontrolling interests	(42,936 )
Redemptions at par	(4,025 )
Gain reported in accumulated other comprehensive income	177
Balance, June 30, 2012	\$ 366,595

	Level 3 (1)
Balance, December 25, 2010	\$ 317,507
Change in redeemable noncontrolling interests	120,024
Redemptions at par	(2,150 )
Gain reported in accumulated other comprehensive income	188
Balance, June 25, 2011	\$ 435,569

(1) Level 3 amounts consist of ARS that are backed by student loans (backed by the federal government) and investments in closed-end municipal bond funds and redeemable noncontrolling interests. See Note 4 for the components of the changes in Redeemable noncontrolling interests.

## Note 7 – Business Acquisitions

The operating results of all acquisitions are reflected in our financial statements from their respective acquisition dates.

We completed certain acquisitions during the six months ended June 30, 2012. The operating results of our acquisitions are reflected in our financial statements from their respective acquisition dates. Such acquisitions were immaterial to our financial statements individually and in the aggregate.

(in thousands, except per share data)  
(unaudited)

## Note 8 – Plans of Restructuring

During the six months ended June 30, 2012, we incurred restructuring costs of approximately \$15.2 million (approximately \$10.5 million after taxes) consisting of employee severance pay and benefits related to the elimination of approximately 200 positions, facility closing costs, representing primarily lease terminations and asset write-off costs, and outside professional and consulting fees directly related to the restructuring plan. We recorded additional restructuring charges of \$3.4 million (\$2.2 million after taxes) during the second quarter of 2012 as a result of this restructuring. This restructuring program is complete and we do not expect any additional costs from this program during the remainder of our 2012 fiscal year.

During the first quarter of 2010, we completed a restructuring in order to reduce operating expenses. This restructuring included headcount reductions of 184 positions, as well as the closing of a number of smaller locations.

For the year ended 2010, we recorded restructuring costs of approximately \$12.3 million (approximately \$8.3 million after taxes) consisting of employee severance pay and benefits, facility closing costs, representing primarily lease termination and asset write-off costs, and outside professional and consulting fees directly related to the restructuring plan.

The costs associated with these restructurings are included in a separate line item, “Restructuring costs” within our consolidated statements of income.

The following table shows the amounts expensed and paid for restructuring costs that were incurred during the six months ended June 30, 2012 and the fiscal years 2011, 2010 and 2009 and the remaining accrued balance of restructuring costs as of June 30, 2012, which is included in Accrued expenses: Other and Other liabilities within our consolidated balance sheet:

	Severance Costs (1)	Facility Closing Costs (2)	Total
Balance, December 27, 2008	\$ 14,849	\$ 3,688	\$ 18,537
Provision	1,568	1,452	3,020
Payments and other adjustments	14,150	3,110	17,260
Balance, December 26, 2009	\$ 2,267	\$ 2,030	\$ 4,297
Provision	8,930	3,355	12,285
Payments and other adjustments	9,205	3,034	12,239
Balance, December 25, 2010	\$ 1,992	\$ 2,351	\$ 4,343
Provision	-	-	-
Payments and other adjustments	1,423	1,800	3,223
Balance, December 31, 2011	\$ 569	\$ 551	\$ 1,120
Provision	12,841	2,351	15,192
Payments and other adjustments	6,302	914	7,216
Balance, June 30, 2012	\$ 7,108	\$ 1,988	\$ 9,096

(1)

Edgar Filing: HENRY SCHEIN INC - Form 10-Q

Represents salaries and related benefits for employees separated from the Company and outside professional consulting fees.

- (2) Represents costs associated with the closing of certain smaller facilities (primarily lease termination costs) and property and equipment write-offs.

18

## Note 8 – Plans of Restructuring – (Continued)

The following table shows, by reportable segment, the restructuring costs incurred during the six months ended June 30, 2012 and the fiscal years 2011, 2010 and 2009 and the remaining accrued balance of restructuring costs as of June 30, 2012:

	Health Care Distribution	Technology and Value-Added Services	Total
Balance, December 27, 2008	\$ 18,457	\$ 80	\$ 18,537
Provision	3,020	-	3,020
Payments and other adjustments	17,252	8	17,260
Balance, December 26, 2009	\$ 4,225	\$ 72	\$ 4,297
Provision	12,063	222	12,285
Payments and other adjustments	11,945	294	12,239
Balance, December 25, 2010	\$ 4,343	\$ -	\$ 4,343
Provision	-	-	-
Payments and other adjustments	3,223	-	3,223
Balance, December 31, 2011	\$ 1,120	\$ -	\$ 1,120
Provision	14,981	211	15,192
Payments and other adjustments	7,116	100	7,216
Balance, June 30, 2012	\$ 8,985	\$ 111	\$ 9,096

## Note 9 – Earnings Per Share

Basic earnings per share is computed by dividing net income attributable to Henry Schein, Inc. by the weighted-average number of common shares outstanding for the period. Our diluted earnings per share is computed similarly to basic earnings per share, except that it reflects the effect of common shares issuable for presently unvested restricted stock and units and upon exercise of stock options, using the treasury stock method in periods in which they have a dilutive effect.

A reconciliation of shares used in calculating earnings per basic and diluted share follows:

	Three Months Ended		Six Months Ended	
	June 30, 2012	June 25, 2011	June 30, 2012	June 25, 2011
Basic	88,490	90,766	88,161	90,710
Effect of dilutive securities:				
Stock options, restricted stock and restricted units	2,063	2,680	2,270	2,620
Diluted	90,553	93,446	90,431	93,330

Weighted-average options to purchase 6 shares of common stock at an exercise price of \$69.45 per share that were outstanding during the six months ended June 25, 2011 were excluded from the computation of diluted earnings per

share. In this period, such options' exercise price exceeded the average market price of our common stock, thereby causing the effect of such options to be anti-dilutive.

Table of Contents

HENRY SCHEIN, INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)  
(in thousands, except per share data)  
(unaudited)

Note 10 – Income Taxes

For the six months ended June 30, 2012, our effective tax rate from operations was 31.7% compared to 32.2% for the prior year period. The difference between our effective tax rates and the federal statutory tax rates for both periods primarily relates to state and foreign income taxes.

The total amount of unrecognized tax benefits as of June 30, 2012 was approximately \$24.9 million, all of which would affect the effective tax rate if recognized. It is expected that the amount of unrecognized tax benefits will change in the next 12 months; however, we do not expect the change to have a material impact on our consolidated financial statements.

The total amounts of interest and penalties, which are classified as a component of the provision for income taxes, were approximately \$5.3 million and \$0, respectively, for the six months ended June 30, 2012.

The tax years subject to examination by major tax jurisdictions include the years 2009 and forward by the U.S. Internal Revenue Service, the years 1997 and forward for certain states and the years 2005 and forward for certain foreign jurisdictions.

Note 11 – Derivatives and Hedging Activities

We are exposed to market risks, which include changes in interest rates, as well as changes in foreign currency exchange rates as measured against the U.S. dollar and each other, and changes to the credit markets. We attempt to minimize these risks by primarily using foreign currency forward contracts and by maintaining counter-party credit limits. These hedging activities provide only limited protection against interest rate, currency exchange and credit risks. Factors that could influence the effectiveness of our hedging programs include interest rate volatility, currency markets and availability of hedging instruments and liquidity of the credit markets. All foreign currency forward contracts that we enter into are components of hedging programs and are entered into for the sole purpose of hedging an existing or anticipated interest rate and currency exposure. We do not enter into such contracts for speculative purposes and we manage our credit risks by diversifying our investments, maintaining a strong balance sheet and having multiple sources of capital.

Fluctuations in the value of certain foreign currencies as compared to the U.S. dollar may positively or negatively affect our revenues, gross margins, operating expenses and retained earnings, all of which are expressed in U.S. dollars. Where we deem it prudent, we engage in hedging programs using primarily foreign currency forward contracts aimed at limiting the impact of foreign currency exchange rate fluctuations on earnings. We purchase short-term (i.e., 18 months or less) foreign currency forward contracts to protect against currency exchange risks associated with intercompany loans due from our international subsidiaries and the payment of merchandise purchases to our foreign suppliers. We do not hedge the translation of foreign currency profits into U.S. dollars, as we regard this as an accounting exposure, not an economic exposure. The impact of our hedging activities has historically not had a material impact on our consolidated financial statements. Accordingly, additional disclosures related to derivatives and hedging activities required by ASC Topic 815 have been omitted.

Table of Contents

HENRY SCHEIN, INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)  
(in thousands, except per share data)  
(unaudited)

Note 12 – Stock-Based Compensation

Our accompanying unaudited consolidated statements of income reflect share-based pretax compensation expense of \$11.2 million (\$7.8 million after-tax) and \$20.0 million (\$13.7 million after-tax) for the three and six months ended June 30, 2012, respectively, and \$9.6 million (\$6.5 million after-tax) and \$18.0 million (\$12.2 million after-tax) for the three and six months ended June 25, 2011, respectively.

Stock-based compensation represents the cost related to stock-based awards granted to employees and non-employee directors. We measure stock-based compensation at the grant date, based on the estimated fair value of the award, and recognize the cost (net of estimated forfeitures) as compensation expense on a straight-line basis over the requisite service period. Our stock-based compensation expense is reflected in selling, general and administrative expenses in our consolidated statements of income.

Stock-based awards are provided to certain employees and non-employee directors under the terms of our 1994 Stock Incentive Plan, as amended, and our 1996 Non-Employee Director Stock Incentive Plan, as amended (together, the “Plans”). The Plans are administered by the Compensation Committee of the Board of Directors. Prior to March 2009, awards under the Plans principally included a combination of at-the-money stock options and restricted stock (including restricted stock units). Since March 2009, equity-based awards have been granted solely in the form of restricted stock and restricted stock units, with the exception of stock options for certain pre-existing contractual obligations.

Grants of restricted stock are common stock awards granted to recipients with specified vesting provisions. We issue restricted stock that vests solely based on the recipient’s continued service over time (four-year cliff vesting) and restricted stock that vests based on our achieving specified performance measurements and the recipient’s continued service over time (three-year cliff vesting).

With respect to time-based restricted stock, we estimate the fair value on the date of grant based on our closing stock price. With respect to performance-based restricted stock, the number of shares that ultimately vest and are received by the recipient is based upon our performance as measured against specified targets over a three-year period as determined by the Compensation Committee of the Board of Directors. Although there is no guarantee that performance targets will be achieved, we estimate the fair value of performance-based restricted stock based on our closing stock price at time of grant.

The Plans provide for adjustments to the performance-based restricted stock targets for significant events such as acquisitions, divestitures, new business ventures and share repurchases. Over the performance period, the number of shares of common stock that will ultimately vest and be issued and the related compensation expense is adjusted upward or downward based upon our estimation of achieving such performance targets. The ultimate number of shares delivered to recipients and the related compensation cost recognized as an expense will be based on our actual performance metrics as defined under the Plans.

Restricted stock units are awards that we grant to certain employees that entitle the recipient to shares of common stock upon vesting. We grant restricted stock units with the same time-based and performance-based vesting that we use for restricted stock. The fair value of restricted stock units is determined on the date of grant, based on our closing stock price.

Total unrecognized compensation cost related to non-vested awards as of June 30, 2012 was \$93.4 million, which is expected to be recognized over a weighted-average period of approximately 2.5 years.

## Note 12 – Stock-Based Compensation – (Continued)

The following table summarizes stock option activity under the Plans during the six months ended June 30, 2012:

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life in Years	Aggregate Intrinsic Value
Outstanding at beginning of period	4,059	\$ 44.53		
Granted	-	-		
Exercised	(1,085)	38.19		
Forfeited	(30)	36.02		
Outstanding at end of period	2,944	\$ 46.96	3.7	\$ 92,819
Options exercisable at end of period	2,937	\$ 46.95	3.7	\$ 92,633

The following tables summarize the activity of our non-vested restricted stock/units for the six months ended June 30, 2012:

	Shares/Units	Weighted Average Grant Date Fair Value	Aggregate Intrinsic Value
Outstanding at beginning of period	870	\$ 45,614	
Granted	256	18,774	
Vested	(85)	(5,056)	
Forfeited	(19)	(985)	
Outstanding at end of period	1,022	\$ 58,347	\$ 80,217

	Shares/Units	Weighted Average Grant Date Fair Value	Aggregate Intrinsic Value
Outstanding at beginning of period	1,698	\$ 67,998	
Granted	455	34,957	
Vested	(728)	(25,516)	
Forfeited	(13)	(800)	
Outstanding at end of period	1,412	\$ 76,639	\$ 110,828

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Cautionary Note Regarding Forward-Looking Statements

In accordance with the "Safe Harbor" provisions of the Private Securities Litigation Reform Act of 1995, we provide the following cautionary remarks regarding important factors that, among others, could cause future results to differ materially from the forward-looking statements, expectations and assumptions expressed or implied herein. All forward-looking statements made by us are subject to risks and uncertainties and are not guarantees of future performance. These forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance and achievements or industry results to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. These statements are identified by the use of such terms as "may," "could," "expect," "intend," "believe," "plan," "estimate," "forecast," "project," "anticipate" or other comparable terms.

Risk factors and uncertainties that could cause actual results to differ materially from current and historical results include, but are not limited to: effects of a highly competitive market; our dependence on third parties for the manufacture and supply of our products; our dependence upon sales personnel, customers, suppliers and manufacturers; our dependence on our senior management; fluctuations in quarterly earnings; risks from expansion of customer purchasing power and multi-tiered costing structures; possible increases in the cost of shipping our products or other service issues with our third-party shippers; general global macro-economic conditions; disruptions in financial markets; possible volatility of the market price of our common stock; changes in the health care industry; implementation of health care laws; failure to comply with regulatory requirements and data privacy laws; risks associated with our international operations; transitional challenges associated with acquisitions and joint ventures, including the failure to achieve anticipated synergies; financial risks associated with acquisitions and joint ventures; litigation risks; the dependence on our continued product development, technical support and successful marketing in the technology segment; risks from rapid technological change; risks from disruption to our information systems; certain provisions in our governing documents that may discourage third-party acquisitions of us; and changes in tax legislation. The order in which these factors appear should not be construed to indicate their relative importance or priority.

We caution that these factors may not be exhaustive and that many of these factors are beyond our ability to control or predict. Accordingly, any forward-looking statements contained herein should not be relied upon as a prediction of actual results. We undertake no duty and have no obligation to update forward-looking statements.

Executive-Level Overview

We believe we are the largest distributor of health care products and services primarily to office-based health care practitioners. We serve nearly 775,000 customers worldwide, including dental practitioners and laboratories, physician practices and animal health clinics, as well as government and other institutions. We believe that we have a strong brand identity due to our 80 years of experience distributing health care products.

We are headquartered in Melville, New York, employ nearly 15,000 people (of which over 6,500 are based outside the United States) and have operations in the United States, Australia, Austria, Belgium, Canada, China, the Czech Republic, France, Germany, Hong Kong SAR, Ireland, Israel, Italy, Luxembourg, Mauritius, the Netherlands, New Zealand, Portugal, Slovakia, Spain, Switzerland, Thailand and the United Kingdom. We also have affiliates in Iceland, Saudi Arabia and Turkey.

We have established strategically located distribution centers to enable us to better serve our customers and increase our operating efficiency. This infrastructure, together with broad product and service offerings at competitive prices, and a strong commitment to customer service, enables us to be a single source of supply for our customers' needs. Our infrastructure also allows us to provide convenient ordering and rapid, accurate and complete order fulfillment.

## Table of Contents

We conduct our business through two reportable segments: health care distribution and technology and value-added services. These segments offer different products and services to the same customer base. The health care distribution reportable segment aggregates our global dental, medical and animal health operating segments. This segment consists of consumable products, small equipment, laboratory products, large equipment, equipment repair services, branded and generic pharmaceuticals, vaccines, surgical products, diagnostic tests, infection-control products and vitamins.

Our global dental group serves office-based dental practitioners, schools and other institutions. Our global medical group serves office-based medical practitioners, surgical centers, other alternate-care settings and other institutions. Our global animal health group serves animal health practices and clinics. Our global dental, medical and animal health groups serve practitioners in 24 countries outside of North America and are what we believe to be leading European health care suppliers serving office-based practitioners.

Our global technology and value-added services group provides software, technology and other value-added services to health care practitioners. Our technology group offerings include practice management software systems for dental and medical practitioners and animal health clinics. Our value-added practice solutions include financial services on a non-recourse basis, e-services and continuing education services for practitioners.

### Industry Overview

In recent years, the health care industry has increasingly focused on cost containment. This trend has benefited distributors capable of providing a broad array of products and services at low prices. It also has accelerated the growth of HMOs, group practices, other managed care accounts and collective buying groups, which, in addition to their emphasis on obtaining products at competitive prices, tend to favor distributors capable of providing specialized management information support. We believe that the trend towards cost containment has the potential to favorably affect demand for technology solutions, including software, which can enhance the efficiency and facilitation of practice management.

Our operating results in recent years have been significantly affected by strategies and transactions that we undertook to expand our business, domestically and internationally, in part to address significant changes in the health care industry, including consolidation of health care distribution companies, potential health care reform, trends toward managed care, cuts in Medicare and collective purchasing arrangements.

Our current and future results have been and could be impacted by the current economic environment and uncertainty, particularly impacting overall demand for our products and services.

### Industry Consolidation

The health care products distribution industry, as it relates to office-based health care practitioners, is highly fragmented and diverse. This industry, which encompasses the dental, medical and animal health markets, was estimated to produce revenues of approximately \$28 billion in 2011 in the combined North American, European and Australian/New Zealand markets. The industry ranges from sole practitioners working out of relatively small offices to group practices or service organizations ranging in size from a few practitioners to a large number of practitioners who have combined or otherwise associated their practices.

## Table of Contents

Due in part to the inability of office-based health care practitioners to store and manage large quantities of supplies in their offices, the distribution of health care supplies and small equipment to office-based health care practitioners has been characterized by frequent, small quantity orders, and a need for rapid, reliable and substantially complete order fulfillment. The purchasing decisions within an office-based health care practice are typically made by the practitioner or an administrative assistant. Supplies and small equipment are generally purchased from more than one distributor, with one generally serving as the primary supplier.

We believe that consolidation within the industry will continue to result in a number of distributors, particularly those with limited financial and marketing resources, seeking to combine with larger companies that can provide growth opportunities. This consolidation also may continue to result in distributors seeking to acquire companies that can enhance their current product and service offerings or provide opportunities to serve a broader customer base.

Our trend with regard to acquisitions and joint ventures has been to expand our role as a provider of products and services to the health care industry. This trend has resulted in our expansion into service areas that complement our existing operations and provide opportunities for us to develop synergies with, and thus strengthen, the acquired businesses.

As industry consolidation continues, we believe that we are positioned to capitalize on this trend, as we believe we have the ability to support increased sales through our existing infrastructure.

As the health care industry continues to change, we continually evaluate possible candidates for merger or acquisition and intend to continue to seek opportunities to expand our role as a provider of products and services to the health care industry. There can be no assurance that we will be able to successfully pursue any such opportunity or consummate any such transaction, if pursued. If additional transactions are entered into or consummated, we would incur merger and/or acquisition-related costs, and there can be no assurance that the integration efforts associated with any such transaction would be successful.

### Aging Population and Other Market Influences

The health care products distribution industry continues to experience growth due to the aging population, increased health care awareness, the proliferation of medical technology and testing, new pharmacology treatments and expanded third-party insurance coverage, partially offset by the affects of increased unemployment on insurance coverage. In addition, the physician market continues to benefit from the shift of procedures and diagnostic testing from acute care settings to alternate-care sites, particularly physicians' offices.

The U.S. Census Bureau's "Statistical Abstract of the United States: 2011," reports that, in 2010, more than five million Americans were aged 85 or older, the segment of the population most in need of long-term care and elder-care services. By the year 2050, that number is projected to more than triple to more than 19 million. The population aged 65 to 84 years is projected to more than double in the same time period.

As a result of these market dynamics, annual expenditures for health care services continue to increase in the United States. Given current operating, economic and industry conditions, we believe that demand for our products and services will grow at slower rates. The Centers for Medicare and Medicaid Services, or CMS, published "National Health Expenditure Projections 2011-2021" indicating that total national health care spending reached approximately \$2.7 trillion in 2011, or 17.9% of the nation's gross domestic product, the benchmark measure for annual production of goods and services in the United States. Health care spending is projected to reach approximately \$4.8 trillion in 2021, approximately 19.6% of the nation's gross domestic product.

## Table of Contents

### Government

Certain of our businesses involve the distribution of pharmaceuticals and medical devices, and in this regard we are subject to extensive local, state, federal and foreign governmental laws and regulations applicable to the distribution of pharmaceuticals and medical devices. Additionally, government and private insurance programs fund a large portion of the total cost of medical care. Many of these laws and regulations are subject to change and may impact our financial performance.

### Health Care Reform

For example, the Patient Protection and Affordable Care Act as amended by the Health Care and Education Reconciliation Act, each enacted in March 2010, generally known as the Health Care Reform Law, increased federal oversight of private health insurance plans and included a number of provisions designed to reduce Medicare expenditures and the cost of health care generally, to reduce fraud and abuse, and to provide access to health coverage for an additional 32 million people. The Health Care Reform Law requirements include, for example (i) a 2.3% excise tax on domestic sales of medical devices by manufacturers and importers beginning in 2013, and a fee on branded prescription drugs and biologics that was implemented in 2011, both of which may affect sales, and (ii) mandated pharmacy benefit manager transparency regarding rebates, discounts and price concessions with respect to drug benefits under Medicare Part D, and in 2014 with respect to drug benefits offered through qualified health plans offered through state exchanges, which could affect pricing and competition. A final rule implementing the Medicare Part D disclosure requirements was published on April 12, 2012 by CMS and became effective on June 11, 2012. Such requirements could impact pharmacy benefit management practices and accordingly could affect overall pricing for pharmaceuticals. On June 28, 2012, the United States Supreme Court overturned certain lower federal court decisions to uphold as constitutional a key provision in the Health Care Reform Law, often referred to as the “individual mandate,” which requires individuals without health insurance to pay a penalty. However, the decision also invalidated a provision in the Health Care Reform Law requiring states to expand their Medicaid programs or risk the complete loss of all federal Medicaid funding. The Court held that the federal government may offer states the option of accepting the expansion requirement, but that it may not take away pre-existing Medicaid funds in order to coerce states into complying with the expansion. A number of states have indicated a reluctance to accept the Medicaid expansion, so the full extent of increased health care coverage under the Health Care Reform Law is uncertain.

In addition to the foregoing, the Health Care Reform Law imposed new reporting and disclosure requirements for pharmaceutical and device manufacturers with regard to payments or other transfers of value made to certain practitioners, including physicians, dentists and teaching hospitals, and imposes new reporting and disclosure requirements for pharmaceutical and device manufacturers and group purchasing organizations with regard to certain ownership interests held by physicians in the reporting entity. Under the Health Care Reform Law, data collection obligations were to commence in January 2012, and reporting requirements were to be implemented in 2013. On December 14, 2011, CMS issued proposed regulations to implement these provisions, and sought and received substantial comments. CMS subsequently stated that information collection would not be required prior to January 1, 2013. A final rule is expected to be issued sometime before the end of 2012. These proposed regulations are broadly drafted and still subject to change, and it is possible that when these regulations are finalized, they will treat us or one or more of our subsidiaries as an entity subject to these reporting and disclosure requirements. In addition, through business arrangements we have with drug and device manufacturers, we may be required to collect and report detailed information to these manufactures in order for these manufacturers to comply with the new requirements. In addition, several states require pharmaceutical and/or device companies to report expenses relating to the marketing and promotion of products as well as gifts and payments to individual practitioners in the states, or prohibit certain marketing related activities. Other states, such as California, Nevada, Massachusetts and Connecticut, require pharmaceutical and/or device companies to implement compliance programs or marketing codes. Wholesale distributors are covered by the laws in certain of these states. In others, it is possible that our activities, including on

behalf of manufacturers, or the activities of one or more of our subsidiaries, will subject us to the state's reporting requirements and prohibitions.

## Table of Contents

### Health Care Fraud

Certain of our businesses are subject to federal and state (and similar foreign) health care fraud and abuse, referral and reimbursement laws, and regulations with respect to their operations. Such laws prohibit, among other things, the submission or causing the submission of false or fraudulent claims for reimbursement, and soliciting, offering, receiving or paying remuneration in order to induce the referral of a patient or ordering, purchasing, leasing or arranging for or recommending ordering, purchasing or leasing, of items or services that are paid for by government health care programs (known as “anti-kickback” laws). Violations of these laws could result in civil and criminal penalties. The fraud and abuse laws and regulations have been subject to heightened enforcement activity over the past few years, particularly through “relators,” who serve as whistleblowers by filing complaints in the name of the United States (and if applicable, particular states) under federal and state False Claims Act statutes, and can be entitled to receive up to 30% of total recoveries. Also, violations of the False Claims Act can result in treble damages, and each false claim submitted can be subject to a penalty of up to \$11,000 per claim. These laws and regulations are subject to frequent modification and varied interpretation, and can have a material adverse impact on us if a violation is found. The Health Care Reform Law significantly strengthened the federal False Claims Act, which could lead to the possibility of increased whistleblower or relator suits, and among other things made clear that an anti-kickback law violation can be a basis for False Claims Act liability. We also are subject to certain laws and regulations concerning the conduct of our foreign operations, including the U.S. Foreign Corrupt Practices Act and anti-bribery laws and laws pertaining to the accuracy of our internal books and records, which have been the focus of increasing enforcement activity in recent years.

### Operating and Security Standards

Regulations adopted under the federal Prescription Drug Marketing Act (“PDMA”), effective December 2006, require the identification and documentation of transactions involving the receipt and distribution of prescription drugs, that is, drug pedigree information. These requirements include tracking sales and distribution of prescription drug products from distributors and potentially manufacturers. In early December 2006, the federal District Court for the Eastern District of New York issued a preliminary injunction enjoining the implementation of certain parts of the federal drug pedigree requirements, including the requirement to identify transactions back to the manufacturer. On July 14, 2011, the United States Food and Drug Administration (“FDA”) published a proposed rulemaking that would remove the requirement that a pedigree track back to the manufacturer and that certain information be identified on the pedigree. As a result of the FDA’s intent to resolve these issues, the case was voluntarily dismissed in August 2011. Nonetheless, prescription drug pedigrees are required under federal regulations and the PDMA, and the pedigree must trace back to the last authorized distributor of record that handled the drug. FDA policies in this area continue to evolve.

Many states have implemented or are considering similar drug pedigree laws and regulations. There have been increasing efforts by various levels of government, including state departments of health, state boards of pharmacy and comparable agencies, to regulate the pharmaceutical distribution system in order to prevent the introduction of counterfeit, adulterated or mislabeled pharmaceuticals into the distribution system. A number of states, including Florida, have already implemented pedigree requirements, including drug tracking requirements, which are intended to protect the integrity of the pharmaceutical distribution system. California has enacted a statute that, beginning in 2015, will require manufacturers to identify each package of a prescription pharmaceutical with a standard, machine-readable unique numerical identifier, and will require manufacturers and distributors to participate in an electronic track-and-trace system and provide or receive an electronic pedigree for each transaction in the drug distribution chain. Other states have passed or are reviewing similar requirements. Bills have been proposed in Congress that would impose similar requirements at the federal level.

Table of Contents

The Combat Methamphetamine Enhancement Act of 2010, which became effective in April 2011, requires retail sellers of products containing certain chemicals, such as pseudoephedrine, to self-certify to the Drug Enforcement Administration (“DEA”) that they understand and agree to comply with the laws and regulations regarding such sales. The law also prohibits distributors from selling these products to retailers who are not registered with the DEA or who have not self-certified compliance with the laws and regulations. Various states also impose restrictions on the sale of certain products containing pseudoephedrine and other chemicals. The Secure and Responsible Drug Disposal Act of 2010, signed by President Obama in October 2010, is intended to allow patients to deliver unused controlled substances to designated entities to more easily and safely dispose of controlled substances while reducing the chance of diversion. The law authorizes the DEA to promulgate regulations to allow, but not require, designated entities to receive unused controlled substances.

Regulated Software; Electronic Health Records

The FDA has become increasingly active in addressing the regulation of computer software intended for use in health care settings, and has been developing policies on regulating clinical decision support tools as medical devices. Certain of our businesses involve the development and sale of software and related products to support physician and dental practice management, and it is possible that the FDA could determine that one or more of our products is a medical device, which could subject us or one or more of our businesses to substantial additional requirements with respect to these products.

Certain of our businesses involve access to personal health, medical, financial and other information of individuals, and are accordingly directly or indirectly subject to numerous federal, state, local and foreign laws and regulations that protect the privacy and security of such information, such as the privacy and security provisions of the federal Health Insurance Portability and Accountability Act of 1996, as amended, and implementing regulations (“HIPAA”). HIPAA requires, among other things, the implementation of various recordkeeping, operational, notice and other practices intended to safeguard that information, limit its use to allowed purposes, and notify individuals in the event of privacy and security breaches. Failure to comply with these laws and regulations can result in substantial penalties and other liabilities. As a result of the federal Health Information Technology for Economic and Clinical Health Act (“HITECH Act”), which was enacted in 2009, some of our businesses that were previously only indirectly affected by federal HIPAA privacy and security rules became directly subject to such rules because such businesses serve as “business associates” of HIPAA covered entities, such as health care providers. Additional rules under the HITECH Act are expected to be issued in 2012, further expanding the privacy and security requirements applicable to some of our businesses.

In addition, the HITECH Act established a program of Medicare and Medicaid incentive payments available to certain health care providers including, among others, physicians and dentists, if they meaningfully use certified electronic health record technology (“EHR”). Also, eligible providers that fail to adopt certified EHR systems may be subject to Medicare reimbursement reductions beginning in 2015. Qualification for the incentive payments requires the use of EHRs that are certified as having certain capabilities for meaningful use pursuant to standards adopted by the Department of Health and Human Services. Initial (“stage one”) standards addressed criteria for periods beginning in 2011. CMS has also issued proposed standards for “stage two” criteria, which are more demanding, and new, incrementally more rigorous criteria are expected to be issued for stage three compliance, however final standards have not yet been issued and so the criteria are not yet certain. Certain of our businesses involve the manufacture and sale of certified EHR systems, and so must maintain compliance with these evolving governmental criteria.

Table of Contents

Also, HIPAA requires certain health care providers, such as physicians, to use certain transaction and code set rules for specified electronic transactions, such as transactions involving claims submissions. CMS is requiring that electronic claim submissions and related electronic transactions be conducted under a new HIPAA transaction standard, called Version 5010, commencing July 1, 2012 (the original implementation date was to be January 1, 2012). CMS is requiring this upgrade in connection with another new requirement applicable to the industry, the implementation of new diagnostic code sets to be used in claims submission. The new diagnostic code sets are called the ICD-10-CM. They were originally to be implemented on October 1, 2013, but CMS recently issued a proposed regulation that, if finalized, will extend the implementation date until October 1, 2014. Certain of our businesses provide electronic practice management products that must meet those requirements, and while we believe that we are prepared to timely adopt the new standards, it is possible that the transition to these new standards, particularly the transition to ICD-10-CM, may result in a degree of disruption and confusion, thus potentially increasing the costs associated with supporting this product.

There may be additional legislative initiatives in the future impacting health care.

E-Commerce

Traditional health care supply and distribution relationships are being challenged by electronic online commerce solutions. Our distribution business is characterized by rapid technological developments and intense competition. The advancement of online commerce will require us to cost-effectively adapt to changing technologies, to enhance existing services and to develop and introduce a variety of new services to address the changing demands of consumers and our customers on a timely basis, particularly in response to competitive offerings.

Through our proprietary, technologically-based suite of products, we offer customers a variety of competitive alternatives. We believe that our tradition of reliable service, our name recognition and large customer base built on solid customer relationships position us well to participate in this growing aspect of the distribution business. We continue to explore ways and means to improve and expand our Internet presence and capabilities.

Table of Contents

## Results of Operations

The following table summarizes the significant components of our operating results for the three and six months ended June 30, 2012 and June 25, 2011 and cash flows for the six months ended June 30, 2012 and June 25, 2011 (in thousands):

	Three Months Ended		Six Months Ended	
	June 30, 2012	June 25, 2011	June 30, 2012	June 25, 2011
<b>Operating results:</b>

Net cash used in investing activities			(142,080 )	(160,353 )
Net cash used in financing activities			(43,887 )	(23,172 )

## Plan of Restructuring

During the six months ended June 30, 2012, we incurred restructuring costs of approximately \$15.2 million (approximately \$10.5 million after taxes) consisting of employee severance pay and benefits related to the elimination of approximately 200 positions, facility closing costs, representing primarily lease terminations and asset write-off costs, and outside professional and consulting fees directly related to the restructuring plan. We recorded additional restructuring charges of \$3.4 million (\$2.2 million after taxes) during the second quarter of 2012 as a result of this restructuring. This restructuring program is complete and we do not expect any additional costs from this program during the remainder of our 2012 fiscal year.

Table of Contents

Three Months Ended June 30, 2012 Compared to Three Months Ended June 25, 2011

## Net Sales

Net sales for the three months ended June 30, 2012 and June 25, 2011 were as follows (in thousands):

	June 30, 2012	% of Total	June 25, 2011	% of Total	Increase/(Decrease) \$	%
<b>Health care distribution (1):</b>						
Dental	\$ 1,185,919	53.9 %	\$ 1,201,224	56.4 %	\$ (15,305 )	(1.3 )%
Medical	361,122	16.4	340,872	16.0	20,250	5.9
Animal health	586,258	26.6	526,487	24.7	59,771	11.4
Total health care distribution	2,133,299	96.9	2,068,583	97.1	64,716	3.1
<b>Technology and value-added services (2)</b>						
	68,153	3.1	62,057	2.9	6,096	9.8
<b>Total</b>	<b>\$ 2,201,452</b>	<b>100.0 %</b>	<b>\$ 2,130,640</b>	<b>100.0 %</b>	<b>\$ 70,812</b>	<b>3.3</b>

(1) Consists of consumable products, small equipment, laboratory products, large equipment, equipment repair services, branded and generic pharmaceuticals, vaccines, surgical products, diagnostic tests, infection-control products and vitamins.

(2) Consists of practice management software and other value-added products, which are distributed primarily to health care providers, and financial services, including e-services and continuing education services for practitioners.

Beginning with the first quarter of 2012, we have reported net sales and prior-year sales comparisons for each of our global dental, medical, animal health and global technology and value-added services business groups.

This sales reporting is consistent with our new global business groups. These groups were formed to provide distinct organizational focus for reaching and serving each practitioner segment with the benefits of a global perspective, as well as global product and service offerings and best practices.

We will continue to report financial results for our health care distribution and technology and value-added services reportable segments. The health care distribution segment will now comprise three global operating segments (dental, medical and animal health) and the technology and value-added services segment remains unchanged.

The \$70.8 million, or 3.3%, increase in net sales for the three months ended June 30, 2012 includes an increase of 6.5% in local currency growth (4.6% increase in internally generated revenue and 1.9% growth from acquisitions) partially offset by a decrease of 3.2% related to foreign currency exchange.

The \$15.3 million, or 1.3%, decrease in dental net sales for the three months ended June 30, 2012 includes an increase of 2.6% in local currencies (2.1% increase in internally generated revenue and 0.5% growth from acquisitions) partially offset by a decrease of 3.9% related to foreign currency exchange. The 2.6% increase in local currency sales was due to an increase in dental equipment sales and service revenues of 1.3% (1.1% increase in internally generated revenue and 0.2% growth from acquisitions) and dental consumable merchandise sales growth of 3.0% (2.4% increase in internally generated revenue and 0.6% growth from acquisitions).

The \$20.3 million, or 5.9%, increase in medical net sales for the three months ended June 30, 2012 includes an increase of 6.6% in local currency growth (all internally generated) partially offset by a decrease of 0.7% related to foreign currency exchange.

The \$59.8 million, or 11.4%, increase in animal health net sales for the three months ended June 30, 2012 includes an increase of 14.9% in local currency growth (8.7% internally generated growth and 6.2% growth from acquisitions) partially offset by a decrease of 3.5% related to foreign currency exchange.

The \$6.1 million, or 9.8%, increase in technology and value-added services net sales for the three months ended June 30, 2012 includes an increase of 10.6% in local currency growth (8.6% internally generated growth and 2.0% growth from acquisitions) partially offset by a decrease of 0.8% related to foreign currency exchange.

Table of Contents

## Gross Profit

Gross profit and gross margin percentages by segment and in total for the three months ended June 30, 2012 and June 25, 2011 were as follows (in thousands):

	June 30, 2012	Gross Margin %	June 25, 2011	Gross Margin %	\$	Increase %
Health care distribution	\$ 580,079	27.2 %	\$ 571,990	27.7 %	\$ 8,089	1.4 %
Technology and value-added services	44,316	65.0	40,234	64.8	4,082	10.1
Total	\$ 624,395	28.4	\$ 612,224	28.7	\$ 12,171	2.0

For the three months ended June 30, 2012, gross profit increased \$12.2 million, or 2.0%, from the comparable prior year period. As a result of different practices of categorizing costs associated with distribution networks throughout our industry, our gross margins may not necessarily be comparable to other distribution companies. Additionally, we realize substantially higher gross margin percentages in our technology segment than in our health care distribution segment. These higher gross margins result from being both the developer and seller of software products and services, as well as certain financial services. The software industry typically realizes higher gross margins to recover investments in research and development.

Within our health care distribution segment, gross profit margins may vary from one period to the next. Changes in the mix of products sold as well as changes in our customer mix have been the most significant drivers affecting our gross profit margin. For example, sales of pharmaceutical products are generally at lower gross profit margins than other products. Conversely, sales of our private label products achieve gross profit margins that are higher than average. With respect to customer mix, sales to our large-group customers are typically completed at lower gross margins due to the higher volumes sold as opposed to the gross margin on sales to office-based practitioners who normally purchase lower volumes at greater frequencies.

Health care distribution gross profit increased \$8.1 million, or 1.4%, for the three months ended June 30, 2012 compared to the prior year period. Health care distribution gross profit margin decreased to 27.2% for the three months ended June 30, 2012 from 27.7% for the comparable prior year period. The decrease in our health care distribution gross profit margin is primarily due to growth in sales within our animal health businesses, which typically include a greater percentage of lower-margin pharmaceutical products than our other operating units.

Technology and value-added services gross profit increased \$4.1 million, or 10.1%, for the three months ended June 30, 2012 compared to the prior year period. Technology gross profit margin increased to 65.0% for the three months ended June 30, 2012 from 64.8% for the comparable prior year period, primarily due to changes in the product sales mix. Specifically, revenues generated from electronic services (claims processing, statements generation, etc.) or software sales, which typically generate higher than average gross margins, grew at a greater rate than hardware sales and installations, which generally are completed at a lower than average gross margin.

## Selling, General and Administrative

Selling, general and administrative expenses by segment and in total for the three months ended June 30, 2012 and June 25, 2011 were as follows (in thousands):

June 30,	% of Respective	June 25,	% of Respective	Increase
----------	--------------------	----------	--------------------	----------

Edgar Filing: HENRY SCHEIN INC - Form 10-Q

	2012	Net Sales	2011	Net Sales	\$	%
Health care distribution	\$ 440,826	20.7 %	\$ 437,773	21.2 %	\$ 3,053	0.7 %
Technology and value-added services	25,507	37.4	23,236	37.4	2,271	9.8
Total	\$ 466,333	21.2	\$ 461,009	21.6	\$ 5,324	1.2

33

---

Table of Contents

Selling, general and administrative expenses increased \$5.3 million, or 1.2%, to \$466.3 million for the three months ended June 30, 2012 from the comparable prior year period. As a percentage of net sales, selling, general and administrative expenses decreased to 21.2% from 21.6% for the comparable prior year period.

As a component of selling, general and administrative expenses, selling expenses decreased \$6.0 million, or 2.0%, to \$294.1 million for the three months ended June 30, 2012 from the comparable prior year period. As a percentage of net sales, selling expenses decreased to 13.4% from 14.1% for the comparable prior year period.

As a component of selling, general and administrative expenses, general and administrative expenses increased \$11.3 million, or 7.0%, to \$172.2 million for the three months ended June 30, 2012 from the comparable prior year period. As a percentage of net sales, general and administrative expenses increased to 7.8% from 7.6% for the comparable prior year period.

## Other Expense, Net

Other expense, net, for the three months ended June 30, 2012 and June 25, 2011 were as follows (in thousands):

	June 30, 2012	June 25, 2011	Variance	
			\$	%
Interest income	\$ 3,609	\$ 4,192	\$ (583 )	(13.9 )%
Interest expense	(7,711 )	(7,902 )	191	2.4
Other, net	830	758	72	9.5
Other expense, net	\$ (3,272 )	\$ (2,952 )	\$ (320 )	(10.8 )

Other expense, net increased by \$0.3 million for the three months ended June 30, 2012 compared to the prior year period. Interest income decreased \$0.6 million primarily due to lower investment income, as well as a decrease in late fee income. Interest expense decreased \$0.2 million primarily due to a reduction in borrowings under our bank credit lines, partially offset by increased interest expense related to borrowings under our private placement shelf facilities. Other, net increased by \$0.1 million due primarily to net proceeds received from litigation settlements, partially offset by disposal of fixed assets.

## Income Taxes

For the three months ended June 30, 2012, our effective tax rate was 31.2% compared to 31.9% for the prior year period. The difference between our effective tax rates and the federal statutory tax rates for both periods primarily relates to state and foreign income taxes.

## Net Income

Net income increased \$2.2 million, or 2.1%, for the three months ended June 30, 2012, compared to the prior year period due to the factors noted above.

Table of Contents

Six Months Ended June 30, 2012 Compared to Six Months Ended June 25, 2011

## Net Sales

Net sales for the six months ended June 30, 2012 and June 25, 2011 were as follows (in thousands):

	June 30, 2012	% of Total	June 25, 2011	% of Total	Increase \$	%
<b>Health care distribution (1):</b>						
Dental	\$ 2,341,585	54.5 %	\$ 2,296,588	56.3 %	\$ 44,997	2.0 %
Medical	715,948	16.6	681,941	16.7	34,007	5.0
Animal health	1,111,848	25.9	982,169	24.1	129,679	13.2
Total health care distribution	4,169,381	97.0	3,960,698	97.1	208,683	5.3
<b>Technology and value-added services (2)</b>						
	131,090	3.0	117,703	2.9	13,387	11.4
Total	\$ 4,300,471	100.0 %	\$ 4,078,401	100.0 %	\$ 222,070	5.4

(1) Consists of consumable products, small equipment, laboratory products, large equipment, equipment repair services, branded and generic pharmaceuticals, vaccines, surgical products, diagnostic tests, infection-control products and vitamins.

(2) Consists of practice management software and other value-added products, which are distributed primarily to health care providers, and financial services, including e-services and continuing education services for practitioners.

Beginning with the first quarter of 2012, we have reported net sales and prior-year sales comparisons for each of our global dental, medical, animal health and global technology and value-added services business groups.

This sales reporting is consistent with our new global business groups. These groups are being formed to provide distinct organizational focus for reaching and serving each practitioner segment with the benefits of a global perspective, as well as global product and service offerings and best practices.

We will continue to report financial results for our health care distribution and technology and value-added services reportable segments. The health care distribution segment will now comprise three global operating segments (dental, medical and animal health) and the technology and value-added services segment remains unchanged.

The \$222.1 million, or 5.4%, increase in net sales for the six months ended June 30, 2012 includes an increase of 7.4% in local currency growth (6.2% increase in internally generated revenue and 1.2% growth from acquisitions) partially offset by a decrease of 2.0% related to foreign currency exchange.

The \$45.0 million, or 2.0%, increase in dental net sales for the six months ended June 30, 2012 includes an increase of 4.5% in local currencies (4.1% increase in internally generated revenue and 0.4% growth from acquisitions) partially offset by a decrease of 2.5% related to foreign currency exchange. The 4.5% increase in local currency sales was due to an increase in dental equipment sales and service revenues of 0.8% (0.5% increase in internally generated revenue and 0.3% growth from acquisitions) and dental consumable merchandise sales growth of 5.7% (5.2% increase in internally generated revenue and 0.5% growth from acquisitions).

The \$34.0 million, or 5.0%, increase in medical net sales for the six months ended June 30, 2012 includes an increase of 5.4% in local currency growth (5.1% internally generated growth and 0.3% growth from acquisitions) partially offset by a decrease of 0.4% related to foreign currency exchange.

The \$129.7 million, or 13.2%, increase in animal health net sales for the six months ended June 30, 2012 includes an increase of 15.1% in local currency growth (11.5% internally generated growth and 3.6% growth from acquisitions) partially offset by a decrease of 1.9% related to foreign currency exchange.

The \$13.4 million, or 11.4%, increase in technology and value-added services net sales for the six months ended June 30, 2012 includes an increase of 11.9% in local currency growth (8.8% internally generated growth and 3.1% growth from acquisitions) partially offset by a decrease of 0.5% related to foreign currency exchange.

## Gross Profit

Gross profit and gross margin percentages by segment and in total for the six months ended June 30, 2012 and June 25, 2011 were as follows (in thousands):

	June 30, 2012	Gross Margin %	June 25, 2011	Gross Margin %	\$	Increase %
Health care distribution	\$ 1,149,621	27.6 %	\$ 1,101,030	27.8 %	\$ 48,591	4.4 %
Technology and value-added services	85,353	65.1	77,016	65.4	8,337	10.8
Total	\$ 1,234,974	28.7	\$ 1,178,046	28.9	\$ 56,928	4.8

For the six months ended June 30, 2012, gross profit increased \$56.9 million, or 4.8%, from the comparable prior year period. As a result of different practices of categorizing costs associated with distribution networks throughout our industry, our gross margins may not necessarily be comparable to other distribution companies. Additionally, we realize substantially higher gross margin percentages in our technology segment than in our health care distribution segment. These higher gross margins result from being both the developer and seller of software products and services, as well as certain financial services. The software industry typically realizes higher gross margins to recover investments in research and development.

Within our health care distribution segment, gross profit margins may vary from one period to the next. Changes in the mix of products sold as well as changes in our customer mix have been the most significant drivers affecting our gross profit margin. For example, sales of pharmaceutical products are generally at lower gross profit margins than other products. Conversely, sales of our private label products achieve gross profit margins that are higher than average. With respect to customer mix, sales to our large-group customers are typically completed at lower gross margins due to the higher volumes sold as opposed to the gross margin on sales to office-based practitioners who normally purchase lower volumes at greater frequencies.

Health care distribution gross profit increased \$48.6 million, or 4.4%, for the six months ended June 30, 2012 compared to the prior year period. Health care distribution gross profit margin decreased to 27.6% for the six months ended June 30, 2012 from 27.8% for the comparable prior year period.

Technology and value-added services gross profit increased \$8.3 million, or 10.8%, for the six months ended June 30, 2012 compared to the prior year period. Technology gross profit margin decreased to 65.1% for the six months ended June 30, 2012 from 65.4% for the comparable prior year period, primarily due to changes in the product sales mix. Specifically, revenues generated from hardware sales and installations, which generally are completed at a lower than average gross margin, grew at a greater rate than electronic services (claims processing, statements generation, etc.) or software sales, which typically generate higher than average gross margins.

## Selling, General and Administrative

Selling, general and administrative expenses by segment and in total for the six months ended June 30, 2012 and June 25, 2011 were as follows (in thousands):

	June 30, 2012	% of Respective Net Sales	June 25, 2011	% of Respective Net Sales	\$	Increase %
Health care distribution	\$ 881,372	21.1 %	\$ 857,086	21.6 %	\$ 24,286	2.8 %
Technology and value-added services	50,413	38.5	45,445	38.6	4,968	10.9

Edgar Filing: HENRY SCHEIN INC - Form 10-Q

-------	----	---------	------	----	---------	------	----	--------	-----

Selling, general and administrative expenses increased \$29.3 million, or 3.2%, to \$931.8 million for the six months ended June 30, 2012 from the comparable prior year period. As a percentage of net sales, selling, general and administrative expenses decreased to 21.7% from 22.1% for the comparable prior year period.

Table of Contents

As a component of selling, general and administrative expenses, selling expenses increased \$1.5 million, or 0.3%, to \$589.8 million for the six months ended June 30, 2012 from the comparable prior year period. As a percentage of net sales, selling expenses decreased to 13.7% from 14.4% for the comparable prior year period.

As a component of selling, general and administrative expenses, general and administrative expenses increased \$27.8 million, or 8.8%, to \$342.0 million for the six months ended June 30, 2012 from the comparable prior year period. As a percentage of net sales, general and administrative expenses increased to 8.0% from 7.7% for the comparable prior year period.

## Other Expense, Net

Other expense, net, for the six months ended June 30, 2012 and June 25, 2011 were as follows (in thousands):

	June 30, 2012	June 25, 2011	Variance	
			\$	%
Interest income	\$ 6,939	\$ 8,125	\$ (1,186 )	(14.6 )%
Interest expense	(15,351 )	(15,987 )	636	4.0
Other, net	1,355	1,081	274	25.3
Other expense, net	\$ (7,057 )	\$ (6,781 )	\$ (276 )	(4.1 )

Other expense, net increased by \$0.3 million for the six months ended June 30, 2012 compared to the prior year period. Interest income decreased \$1.2 million primarily due to lower investment income, as well as a decrease in late fee income. Interest expense decreased \$0.6 million primarily due to a reduction in borrowings under our bank credit lines, partially offset by increased interest expense related to borrowings under our private placement shelf facilities. Other, net increased by \$0.3 million due primarily to net proceeds received from litigation settlements.

## Income Taxes

For the six months ended June 30, 2012, our effective tax rate was 31.7% compared to 32.2% for the prior year period. The difference between our effective tax rates and the federal statutory tax rates for both periods primarily relates to state and foreign income taxes.

## Net Income

Net income increased \$8.3 million, or 4.4%, for the six months ended June 30, 2012, compared to the prior year period due to the factors noted above.

Table of Contents

## Liquidity and Capital Resources

Our principal capital requirements include funding of acquisitions, purchases of additional noncontrolling interests, repayments of debt principal, the funding of working capital needs, purchases of securities and fixed assets and repurchases of common stock. Working capital requirements generally result from increased sales, special inventory forward buy-in opportunities and payment terms for receivables and payables. Historically, sales have tended to be stronger during the third and fourth quarters and special inventory forward buy-in opportunities have been most prevalent just before the end of the year, causing our working capital requirements to have been higher from the end of the third quarter to the end of the first quarter of the following year.

We finance our business primarily through cash generated from our operations, revolving credit facilities and debt placements. Our ability to generate sufficient cash flows from operations is dependent on the continued demand of our customers for our products and services, and access to products and services from our suppliers.

Our business requires a substantial investment in working capital, which is susceptible to fluctuations during the year as a result of inventory purchase patterns and seasonal demands. Inventory purchase activity is a function of sales activity, special inventory forward buy-in opportunities and our desired level of inventory. We anticipate future increases in our working capital requirements.

We finance our business to provide adequate funding for at least 12 months. Funding requirements are based on forecasted profitability and working capital needs, which, on occasion, may change. Consequently, we may change our funding structure to reflect any new requirements.

We believe that our cash and cash equivalents, our ability to access private debt markets and public equity markets, and our available funds under existing credit facilities provide us with sufficient liquidity to meet our currently foreseeable short-term and long-term capital needs. We have no off-balance sheet arrangements.

Net cash flow provided by operating activities was \$129.9 million for the six months ended June 30, 2012, compared to \$186.5 million for the comparable prior year period. The net change of \$56.6 million was primarily attributable to changes in net working capital, partially offset by net income improvements.

Net cash used in investing activities was \$142.1 million for the six months ended June 30, 2012, compared to \$160.4 million for the comparable prior year period. The net change of \$18.3 million was primarily due to decreases in payments for equity investments and business acquisitions. We expect to invest approximately \$30 million to \$40 million during the remainder of the fiscal year in capital projects to modernize and expand our facilities and computer systems and to integrate certain operations into our existing structure.

Net cash used in financing activities was \$43.9 million for the six months ended June 30, 2012, compared to \$23.2 million for the comparable prior year period. The net change of \$20.7 million was primarily due to increased repurchases of common stock and an increase in acquisitions of noncontrolling interests in subsidiaries, partially offset by increased net proceeds from debt and an increase in proceeds received from the exercise of stock options.

The following table summarizes selected measures of liquidity and capital resources (in thousands):

	June 30, 2012	December 31, 2011
Cash and cash equivalents	\$87,896	\$147,284
Available-for-sale securities - long-term	7,481	11,329

Edgar Filing: HENRY SCHEIN INC - Form 10-Q

Working capital	1,047,690	1,000,868
Debt:		
Bank credit lines	\$83,454	\$55,014
Current maturities of long-term debt	17,129	22,819
Long-term debt	434,417	363,524
Total debt	\$535,000	\$441,357

38

---

## Table of Contents

Our cash and cash equivalents consist of bank balances and investments in money market funds representing overnight investments with a high degree of liquidity.

### Available-for-sale securities

As of June 30, 2012, we have approximately \$8.5 million (\$7.5 million net of temporary impairments) invested in auction-rate securities (“ARS”), consisting of investments backed by student loans (backed by the federal government) and investments in closed-end municipal bond funds. ARS are publicly issued securities that represent long-term investments, typically 10-30 years, in which interest rates had reset periodically (typically every 7, 28 or 35 days) through a “dutch auction” process. Our ARS portfolio is comprised of investments that are rated investment grade by major independent rating agencies. Since the middle of February 2008, these auctions have failed to settle due to an excess number of sellers compared to buyers. The failure of these auctions has resulted in our inability to liquidate our ARS in the near term. We are currently not aware of any defaults or financial conditions that would negatively affect the issuers’ ability to continue to pay interest and principal on our ARS. We continue to earn and receive interest at contractually agreed upon rates. We believe that the current lack of liquidity related to our ARS investments will have no impact on our ability to fund our ongoing operations and growth opportunities. As of June 30, 2012, we have classified ARS holdings as long-term, available-for-sale and they are included in the Investments and other line within our consolidated balance sheets.

### Accounts receivable days sales outstanding and inventory turns

Our accounts receivable days sales outstanding from operations decreased to 39.9 days as of June 30, 2012 from 41.5 days as of June 25, 2011. Our inventory turns from operations decreased to 6.3 as of June 30, 2012 from 6.4 as of June 25, 2011. Our working capital accounts may be impacted by current and future economic conditions.

### Credit Facilities

On September 5, 2008, we entered into a \$400 million revolving credit facility with a \$100 million expansion feature. The borrowings outstanding under this revolving credit facility were \$55.0 million as of June 30, 2012. The \$400 million credit line expires in September 2013. The interest rate, which was 0.70% during the six months ended June 30, 2012, is based on the USD LIBOR plus a spread based on our leverage ratio at the end of each financial reporting quarter. As of June 30, 2012, we had various other short-term bank credit lines available, of which approximately \$28.5 million was outstanding. During the six months ended June 30, 2012, borrowings under all of our credit lines had a weighted average interest rate of 1.27%. As of June 30, 2012, there were \$9.6 million of letters of credit provided to third parties.

### Private Placement Facilities

On August 10, 2010, we entered into \$400 million private placement facilities with two insurance companies. On April 30, 2012, we increased our available credit facilities by \$375 million by entering into a new agreement with one insurance company and amending our existing agreements with two insurance companies. These facilities are available on an uncommitted basis at fixed rate economic terms to be agreed upon at the time of issuance, from time to time during a three year issuance period, through April 26, 2015. The facilities allow us to issue senior promissory notes to the lenders at a fixed rate based on an agreed upon spread over applicable treasury notes at the time of issuance. The term of each possible issuance will be selected by us and can range from five to 15 years (with an average life no longer than 12 years). The proceeds of any issuances under the facilities will be used for general corporate purposes, including working capital and capital expenditures, to refinance existing indebtedness and/or to fund potential acquisitions. The agreement provides, among other things, that we maintain certain maximum leverage ratios, and contains restrictions relating to subsidiary indebtedness, liens, employee and shareholder loans, disposal of

businesses and certain changes in ownership.

39

---

Table of Contents

The components of our private placement facility borrowings as of June 30, 2012 are presented in the following table:

Date of Borrowing	Amount of Borrowing Outstanding	Borrowing Rate	Due Date
September 2, 2010	\$ 100,000	3.79 %	September 2, 2020
January 20, 2012	50,000	3.45	January 20, 2024
January 20, 2012 (1)	50,000	3.09	January 20, 2022
	\$ 200,000		

(1) Annual repayments of approximately \$7.1 million for this borrowing will commence on January 20, 2016.

## Butler Animal Health Supply

Effective December 31, 2009, Butler Animal Health Supply, LLC, or BAHS, a majority-owned subsidiary whose financial information is consolidated with ours, had incurred approximately \$320.0 million of debt (of which \$37.5 million was provided by Henry Schein, Inc.) in connection with our acquisition of a majority interest in BAHS.

On May 27, 2011, BAHS refinanced the terms and amount of its debt in an aggregate principal amount of \$366.0 million (of which \$55.0 million was provided by Henry Schein, Inc.). The refinanced debt consists of the following three components:

	Term Loan A	Term Loan B	Revolver
Original amount of debt (includes \$55.0 million of debt provided by Henry Schein, Inc.)	\$100,000	\$216,000	\$50,000
Number of remaining quarterly installments	9	13	
Quarterly payments from:			
September 30, 2012 through June 30, 2013	6,574		
September 30, 2013 through June 30, 2014	8,766		
July 1, 2014 through September 30, 2014	2,739		
September 30, 2012 through September 30, 2015		4,592	
Final installment due on December 31, 2014	65,196		
Final installment due on December 31, 2015		135,287	
Balance outstanding as of June 30, 2012	83,275	139,045	2,000
	LIBOR plus a margin of 2.75%	LIBOR plus a margin of 3.25%	LIBOR plus a margin of 2.75%
Interest rate on debt			
Interest rate on debt - LIBOR floor		1.25 %	

During 2011 and 2012, BAHS made prepayments on Term Loans A and B, which resulted in a reduction to the future quarterly and final installment amounts due. Future prepayments by BAHS, if any, will result in reductions to remaining quarterly and final installment amounts due.

The outstanding balance of \$224.3 million (net of unamortized debt discount) is reflected in our consolidated balance sheet as of June 30, 2012.

The debt agreement provides, among other things, that BAHS maintain certain interest coverage and maximum leverage ratios, and contains restrictions relating to subsidiary indebtedness, capital expenditures, liens, employee and shareholder loans, disposal of businesses and certain changes in ownership. In addition, the debt agreement contains provisions which, under certain circumstances, require BAHS to make prepayments based on excess cash flows of BAHS as defined in the debt agreement.

Table of Contents

## Stock Repurchases

From June 21, 2004 through June 30, 2012, we repurchased \$656.9 million, or 11,938,503 shares, under our common stock repurchase programs. On April 18, 2012, our Board of Directors authorized an additional \$200.0 million for additional repurchases of our common stock, \$143.1 million of which is available as of June 30, 2012 for future common stock share repurchases.

## Redeemable Noncontrolling Interests

Some minority shareholders in certain of our subsidiaries have the right, at certain times, to require us to acquire their ownership interest in those entities at fair value. ASC Topic 480-10 is applicable for noncontrolling interests where we are or may be required to purchase all or a portion of the outstanding interest in a consolidated subsidiary from the noncontrolling interest holder under the terms of a put option contained in contractual agreements. The components of the change in the Redeemable noncontrolling interests for the six months ended June 30, 2012 and the year ended December 31, 2011 are presented in the following table:

	June 30, 2012	December 31, 2011
Balance, beginning of period	\$402,050	\$304,140
Decrease in redeemable noncontrolling interests due to redemptions	(23,169 )	(160,254 )
Increase in redeemable noncontrolling interests due to business acquisitions	14,999	13,618
Net income attributable to redeemable noncontrolling interests	17,311	36,514
Dividends declared	(8,087 )	(15,212 )
Effect of foreign currency translation loss attributable to redeemable noncontrolling interests	(612 )	(889 )
Change in fair value of redeemable securities	(742 )	224,133
Other adjustment to redeemable noncontrolling interests	(42,636 )	-
Balance, end of period	\$359,114	\$402,050

Changes in the estimated redemption amounts of the noncontrolling interests subject to put options are adjusted at each reporting period with a corresponding adjustment to Additional paid-in capital. Future reductions in the carrying amounts are subject to a “floor” amount that is equal to the fair value of the redeemable noncontrolling interests at the time they were originally recorded. The recorded value of the redeemable noncontrolling interests cannot go below the floor level. These adjustments do not impact the calculation of earnings per share.

Additionally, some prior owners of such acquired subsidiaries are eligible to receive additional purchase price cash consideration if certain financial targets are met. For acquisitions completed prior to 2009, we accrue liabilities that may arise from these transactions when we believe that the outcome of the contingency is determinable beyond a reasonable doubt. For 2009 and future acquisitions, as required by ASC Topic 805, “Business Combinations,” we have and will accrue liabilities for the estimated fair value of additional purchase price adjustments at the time of the acquisition. Any adjustments to these accrual amounts will be recorded in our consolidated statement of income.

## Critical Accounting Policies and Estimates

There have been no material changes in our critical accounting policies and estimates from those disclosed in Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2011.

Table of Contents

Recently Issued Accounting Standard

In July 2012, the Financial Accounting Standards Board issued Accounting Standards Update (“ASU”) 2012-02, “Intangibles-Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment.” ASU 2012-02 is intended to simplify the performance of impairment testing for indefinite-lived assets by allowing entities to first assess qualitative factors to determine whether it is more likely than not (probability of more than 50%) that an indefinite-lived asset is impaired as a basis for determining whether it is necessary to perform a quantitative impairment test. If we conclude that it is not more likely than not that the indefinite-lived intangible is impaired, no additional steps are necessary at that time. If however, we conclude otherwise, then we are required to determine the fair value of the indefinite-lived asset and perform the quantitative impairment test by comparing the assets fair value to its book value in accordance with the guidance provided in Topic 350. The guidance in this update is similar to that of ASU 2011-08, “Intangibles-Goodwill and Other (Topic 350): Testing Goodwill for Impairment” which was issued in September 2011 and adopted by us at the beginning of our fourth quarter of our 2011 fiscal year. This update is effective for fiscal years beginning after September 15, 2012, with early adoption permitted. We plan to adopt the provisions of this update at the beginning of the fourth quarter of our 2012 fiscal year. We do not expect the adoption of this provision to have a material impact on our consolidated financial statements.

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

There have been no material changes in our exposure to market risk from that disclosed in Item 7A of our Annual Report on Form 10-K for the year ended December 31, 2011.

Table of Contents

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of management, including our principal executive officer and principal financial officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this quarterly report as such term is defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Based on this evaluation, our management, including our principal executive officer and principal financial officer, concluded that our disclosure controls and procedures were effective as of June 30, 2012 to ensure that all material information required to be disclosed by us in reports that we file or submit under the Exchange Act is accumulated and communicated to them as appropriate to allow timely decisions regarding required disclosure and that all such information is recorded, processed, summarized and reported as specified in the SEC's rules and forms.

Changes in Internal Control Over Financial Reporting

The combination of continued acquisition activity and acquisition integrations undertaken during the quarter and carried over from prior quarters, when considered in the aggregate, represents a material change in our internal control over financial reporting.

During the quarter ended June 30, 2012, we completed the acquisition of an animal health business, a technology business and three dental businesses with approximate aggregate annual revenues of \$334.0 million. In addition, post-acquisition related activities continued for two animal health businesses we acquired during 2011 and the first quarter of 2012, representing aggregate annual revenues of approximately \$309.0 million. These acquisitions, which utilize separate information and financial accounting systems, have been included in our consolidated financial statements.

All continued acquisition activity and acquisition integrations involved necessary and appropriate change-management controls that are considered in our annual assessment of the design and operating effectiveness of our internal control over financial reporting.

Limitations of the Effectiveness of Internal Control

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the internal control system are met. Because of the inherent limitations of any internal control system, no evaluation of controls can provide absolute assurance that all control issues, if any, within a company have been detected.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time, we may become a party to legal proceedings, including, without limitation, product liability claims, employment matters, commercial disputes and other matters arising out of the ordinary course of our business. In our opinion, pending matters will not have a material adverse effect on our financial condition or results of operations.

We have various insurance policies, including product liability insurance, covering risks in amounts that we consider adequate. In many cases in which we have been sued in connection with products manufactured by others, the manufacturer provides us with indemnification. There can be no assurance that the insurance coverage we maintain is sufficient or will be available in adequate amounts or at a reasonable cost, or that indemnification agreements will provide us with adequate protection.

As of June 30, 2012, we had accrued our best estimate of potential losses relating to product liability and other claims that were probable to result in a liability and for which we were able to reasonably estimate a loss. This accrued amount, as well as related expenses, was not material to our financial position, results of operations or cash flows. Our method for determining estimated losses considers currently available facts, presently enacted laws and regulations and other external factors, including probable recoveries from third parties.

ITEM 1A. RISK FACTORS

There have been no material changes from the risk factors disclosed in Part 1, Item 1A, of our Annual Report on Form 10-K for the year ended December 31, 2011.

Table of Contents

## ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

## Purchases of equity securities by the issuer

Our current share repurchase program, announced on June 21, 2004, originally allowed us to repurchase up to \$100 million of shares of our common stock, which represented approximately 3.5% of the shares outstanding at the commencement of the program. As summarized in the table below, subsequent additional increases totaling \$700 million, authorized by our Board of Directors, to the repurchase program provide for a total of \$800 million of shares of our common stock to be repurchased under this program.

Date of Authorization	Amount of Additional Repurchases Authorized
October 31, 2005	\$ 100,000,000
March 28, 2007	100,000,000
November 16, 2010	100,000,000
August 18, 2011	200,000,000
April 18, 2012	200,000,000

As of June 30, 2012, we had repurchased \$656.9 million of common stock (11,938,503 shares) under these initiatives, with \$143.1 million available for future common stock share repurchases.

The following table summarizes repurchases of our common stock under our stock repurchase program during the fiscal quarter ended June 30, 2012:

Fiscal Month	Total Number of Shares Purchased (1)	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Our Publicly Announced Program	Maximum Number of Shares that May Yet Be Purchased Under Our Program (2)
04/01/12 through 04/28/12	405,000	\$ 74.98	405,000	2,989,586
04/29/12 through 06/02/12	1,080,755	75.01	1,080,755	2,072,370
06/03/12 through 06/30/12	90,000	\$ 76.57	90,000	1,823,254
	1,575,755		1,575,755	

(1) All repurchases were executed in the open market under our existing publicly announced authorized program.

- (2) The maximum number of shares that may yet be purchased under this program is determined at the end of each month end fiscal period based on the closing price of our common stock at that time.
