BLUE CHIP VALUE FUND

NOTES TO STATEMENT OF INVESTMENTS

September 30, 2008 (Unaudited)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Blue Chip Value Fund, Inc. (the Fund) is registered under the Investment Company Act of 1940, as amended, as a diversified, closed-end management investment company.

The following is a summary of significant accounting policies followed by the Fund in the preparation of its statement of investments.

Security Valuation All securities of the Fund are valued as of the close of regular trading on the New York Stock Exchange (NYSE), currently 4:00 p.m. (Eastern Time), on each day that the NYSE is open. Listed securities are generally valued at the last sales price as of the close of regular trading on the NYSE. Securities traded on the National Association of Securities Dealers Automated Quotation (NASDAQ) are generally valued at the NASDAQ Official Closing Price (NOCP). In the absence of sales and NOCP, such securities are valued at the mean of the bid and asked prices.

Securities having a remaining maturity of 60 days or less are valued at amortized cost which approximates market value.

When market quotations are not readily available or when events occur that make established valuation methods unreliable, securities of the Fund may be valued at fair value determined in good faith by or under the direction of the Board of Directors. Factors which may be considered when determining the fair value of a security include (a) the fundamental data relating to the investment; (b) an evaluation of the forces which influence the market in which the security is sold, including the liquidity and depth of the market; (c) the market value at date of purchase; (d) information as to any transactions or offers with respect to the security or comparable securities; and (e) any other relevant matters.

Investment Transactions Investment transactions are accounted for on the date the investments are purchased or sold (trade date). Realized gains and losses from investment transactions and unrealized appreciation and depreciation of investment are determined on the specific identification basis for both financial statement and federal income tax purposes.

Use of Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and disclosures made in the accompanying notes to the financial statements. Actual results could differ from those estimates.

2. FAS 157 MEASUREMENTS

The Fund adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157), effective January 1, 2008. FAS 157 defines fair value, establishes a three-tier hierarchy to measure fair value based on the extent of use of observable inputs as compared to unobservable inputs for disclosure purposes and requires additional disclosures about these valuations measurements. Inputs refer broadly to the assumptions that market participants would use in pricing a security. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the security developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity s own assumptions about the assumptions market participants would use in pricing the security developed based on the best information available in the circumstances.

The three-tier hierarchy is summarized as follows:

Level 1 quoted prices in active markets for identical investments.

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.).

Level 3 significant unobservable inputs (including the Fund s own assumptions in determining the fair value of investments).

The following is a summary of the inputs used as of September 30, 2008 in valuing the Fund s assets:

Valuation Inputs

	Investme Securitie	ents in es at Value	Other Financial Instruments* - Unrealized Appreciation (Depreciation)	
Level 1 - Quoted Prices	\$	131,395,782	\$	-
Level 2 - Other Significant Observable Inputs	\$		- \$	-
Level 3 - Significant Unobservable Inputs	\$		- \$	-
Total	\$	131,395,782	\$	-

^{*}Other financial instruments include futures, forwards and swap contracts.

All securities of the Fund were valued using Level 1 inputs during the nine months ended September 30, 2008. Thus, a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value is not applicable.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

3. UNREALIZED APPRECIATION AND DEPRECIATION OF INVESTMENTS (TAX BASIS)

As of September 30, 2008:

Gross appreciation (excess of value over tax cost)	\$ 19,141,830
Gross depreciation (excess of tax cost over value)	(10,521,565)
Net unrealized appreciation	\$ 8,620,265
Cost of investments for income tax purposes	\$122,775,517

4. LOAN OUTSTANDING

The Fund has a line of credit with The Bank of New York Mellon (BONY) in which the Fund may borrow up to the lesser of \$15,000,000 or the maximum amount the Fund is permitted to borrow under the Investment Company Act of 1940. The interest rate resets daily at overnight Federal Funds Rate plus 0.825%. The borrowings under the BONY loan are secured by a perfected security interest on all of the Funds assets.

Details of the loan outstanding are as follows:

	As of	Period Ended

5. NEW ACCOUNTING PRONOUNCEMENTS
In March 2008, the FASB issued Statement of Financial Accounting Standards No. 161, Disclosures about Derivative Instruments and Hedging Activities (SFAS 161). SFAS 161 is effective for fiscal years and interim periods beginning after November 15, 2008. SFAS 161 requires enhanced disclosures about Funds derivative and hedging activities. Management of the Fund currently believes that SFAS 161 will have no impact on the Funds sinancial statements.
