This press release contains forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. Such statements are based on the current expectations of the management of NICE Systems Ltd. (the Company) only, and are subject to a number of risk factors and uncertainties, including but not limited to changes in technology and market requirements, decline in demand for the Company's products, inability to timely develop and introduce new technologies, products and applications, difficulties or delays in absorbing and integrating acquired operations, products, technologies and personnel, loss of market share, pressure on pricing resulting from competition, and inability to maintain certain marketing and distribution arrangements, which could cause the actual results or performance of the Company to differ materially from those described therein. We undertake no obligation to update these forward-looking statements. For a more detailed description of the risk factors and uncertainties affecting the company, refer to the Company's reports filed from time to time with the Securities and Exchange Commission.

One of the Largest ISPs in Europe, T-Online, Selects NICE Perform(TM)

Ra'anana, Israel, October 13, 2004 - NICE Systems (NASDAQ: NICE), the global provider of advanced solutions that enable organizations to extract insight from interactions to drive performance, today announced that it received a significant deal from a leading European internet provider to implement NICE Perform(TM) in their contact centers.

In the tough competitive environment of European telecommunications today, this leading ISP needs to ensure it exceeds customer expectations for quality of service. With NICE Perform, T-Online will empower their customer representatives with the knowledge to meet the high service standards required in these environments.

NICE Perform is a fully-integrated suite of solutions that offers innovative ways to generate insight from interactions and drive performance in the contact center and throughout the enterprise. NICE Perform provides multidimensional analytics that go beyond the scope of transactional analytics to help decision makers understand customer intent, market dynamics and identify current and future trends.

"We're very pleased with the high level of enthusiasm already being shown for this recently announced solution," said Zvi Baum, corporate vice president and general manager, product division, NICE Systems. "This ISP joins a growing list of companies around the world that have chosen NICE Perform as a strategic solution to drive their business."

About T-Online International AG

With about 13.3 million registered customers (Q2-2004) in the major European markets and revenue of around EUR 1.9 billion in the 2003 financial year, T-Online International is one of the largest European Internet service providers. With 2,800 employees, the company is represented in France with the brand Club Internet, in Spain with Ya.com and in Portugal with Terravista. It is represented in Austria and Switzerland with the brand T-Online. In Germany, T-Online has one of the most frequently visited page on the Internet with the portal www.t-online.de. (Nielsen//NetRatings, 06-2004).
