The foregoing items of business are more fully described in the proxy statement, which is attached and made a part hereof.

The Board of Directors has fixed the close of business on March 21, 2003 as the record date for determining the stockholders entitled to notice of, and to vote at, the special meeting and any adjournment or postponement thereof. PROXY STATEMENT

May 1, 2003

Special Meeting of Stockholders

General Information

This proxy statement is furnished to stockholders of Saba Software, Inc., a Delaware corporation, in connection with the solicitation by our Board of Directors of proxies in the accompanying form for use in voting at a special meeting of stockholders to be held on May 1, 2003, at 9:00 a.m., Pacific time, at our corporate headquarters located at 2400 Bridge Parkway, Redwood Shores, California 94065-1166, and any adjournment or postponement thereof. The shares represented by the proxies received, properly marked, dated, executed and not revoked will be voted at the special meeting for the purposes set forth in the accompanying notice of special meeting of stockholders.

Revocability of Proxies

Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time before it is exercised by delivering to us (to the attention of Peter E. Williams III, our Secretary) a written notice of revocation or a duly executed proxy bearing a later date, or by attending the special meeting and voting in person.

Solicitation and Voting Procedures

The proxy statement and the enclosed proxy card are being mailed to the stockholders on or about April 1, 2003. This proxy statement and the accompanying proxy card are for use by the stockholders.

The close of business on March 21, 2003 has been fixed as the record date for determining the holders of shares of our common stock entitled to notice of, and to vote, at the special meeting. As of the close of business on the record date, we had _____ shares of common stock outstanding and entitled to vote at the special meeting. The presence at the special meeting of a majority, or _____, of these shares of our common stock, either in person or by proxy, will constitute a quorum for the transaction of business at the special meeting. Each outstanding share of common stock on the record date is entitled to one vote on all matters.

Edgar Filing: SABA SOFTWARE INC - Form PRE 14A

All expenses in connection with the solicitation of proxies will be borne by us. These costs will include the expense of preparing and mailing proxy materials for the special meeting and reimbursements paid to brokerage firms and others for their expenses incurred in forwarding solicitation material regarding the special meeting to beneficial owners of our common stock. We may conduct further solicitation personally, by telephone or by facsimile through our officers, directors and employees, none of who will receive additional compensation for assisting with the solicitation.

An automated system administered by ADP-Investor Communication Services and Mellon Investor Services will tabulate votes cast by proxy at the special meeting, and one of our officers, duly appointed by the Board of Directors, will tabulate votes cast in person at the special meeting.

Under the General Corporation Law of the State of Delaware, an abstaining vote and a broker non-vote are counted as present and are, therefore, included for purposes of determining whether a quorum of shares is present at the special meeting. A broker non-vote occurs when a nominee holding shares for a beneficial owner does not vote on a particular matter because the nominee does not have the discretionary voting power with respect to that matter and has not received instructions from the beneficial owner.

Proposal 1 requires the affirmative vote of a majority of our common stock entitled to vote. Because abstentions and broker non-votes will be included in the tabulation of shares of our common stock entitled to vote for purposes of determining whether a proposal has been approved, abstentions and broker non-votes have the same effect as negative votes.

The shares represented by properly executed proxy cards will be voted at the special meeting as indicated or, if no instructions are given, in favor of proposal 1. We do not presently know of any other business that may come before the special meeting.

PROPOSAL NO. 1

**AMENDMENT OF SABA S AMENDED AND RESTATED CERTIFICATE OF
INCORPORATION TO EFFECT A REVERSE STOCK SPLIT**

Overview

Our Board of Directors has unanimously approved a proposal to amend our certificate of incorporation to effect a reverse stock split of all outstanding shares of our common stock at an exchange ratio ranging from one-to-two to one-to-ten. The Board has recommended that this proposal be presented to our stockholders for approval. You are now being asked to vote upon amendments to our certificate of incorporation to effect this reverse stock split whereby a number of outstanding shares of our common stock between and including two and ten, such number consisting only of whole shares, will be combined into one share of our common stock. Therefore, a vote for Proposal No. 1 will include approval of a 1-for-2, 1-for-3, 1-for-4, 1-for-5, 1-for-6, 1-for-7, 1-for-8, 1-for-9, and 1-for-10 reverse split of our outstanding common stock. Pending stockholder approval, the Board will have the sole discretion pursuant to Section 242(c) of the Delaware General Corporation Law to elect, as it determines to be in the best interests of Saba and its stockholders, whether or not to effect a reverse stock split, and if so, the number of shares of our common stock between and including two and ten which will be combined into one share of our common stock, at any time before the first anniversary of this special meeting of stockholders. The Board believes that stockholder approval of amendments granting the Board this discretion, rather than approval of a specified exchange ratio, provides the Board with maximum flexibility to react to then-current market conditions and, therefore, is in the best interests of Saba and its stockholders.

The text of the forms of proposed amendments to our certificate of incorporation is attached to this proxy statement as Appendix A. By approving these amendments, stockholders will approve a series of amendments to our certificate of incorporation pursuant to which any whole number of outstanding shares between and including two and ten would be combined into one share of our common stock, and authorize the Board to file only one such amendment, as determined by the Board in the manner described herein, and to abandon each amendment not selected by the Board. The Board may also elect not to do any reverse split.

If approved by the stockholders and following such approval the Board determines that effecting a reverse stock split is in the best interests of Saba and its stockholders, the reverse stock split will become effective upon filing one such amendment with the Secretary of State of the State of Delaware. The amendment filed thereby will contain the number of shares selected by the Board within the limits set forth in this proposal to be combined into one share of our common stock.

If the Board elects to effect a reverse stock split following stockholder approval, the number of issued and outstanding shares of common stock would be reduced in accordance with an exchange ratio determined by the Board within the limits set forth in this proposal. Except for adjustments that may result from the treatment of fractional shares as described below, each stockholder will hold the same percentage of our outstanding common stock immediately following the reverse stock split as such stockholder held immediately prior to the reverse stock split. The par value of our common stock would remain unchanged at \$0.001 per share. The amendment would not change the number of authorized shares of common stock.

Reasons for the Reverse Split

Edgar Filing: SABA SOFTWARE INC - Form PRE 14A

The Board believes that a reverse stock split may be desirable for a number of reasons. The Board believes that a reverse stock split may allow us to avoid having our common stock delisted from the Nasdaq National Market. The Board further believes that a reverse stock split could improve the marketability and liquidity of our common stock.

Our common stock is quoted on the Nasdaq National Market. In order for our common stock to continue to be quoted on the Nasdaq National Market, we must satisfy certain listing maintenance standards established by

Nasdaq. Among other things, if the closing bid price of our common stock is under \$1.00 per share for 30 consecutive trading days and does not thereafter reach \$1.00 per share or higher for a minimum of ten consecutive trading days during the 90 calendar days (or such longer period as may be provided in new rules currently being considered by Nasdaq and the Securities Exchange Commission) following notification by Nasdaq, Nasdaq may delist our common stock from trading on the Nasdaq National Market. If our common stock were to be delisted, and our common stock does not qualify for trading on the Nasdaq SmallCap Market, our common stock would trade on the OTC Bulletin Board or in the pink sheets maintained by the National Quotation Bureau, Inc. Such alternative markets are generally considered to be less efficient than, and not as broad as, the Nasdaq National Market.

Our common stock has not met Nasdaq's minimum bid price requirement for 30 consecutive trading days. Although, as of the date of this Proxy Statement, we have not received a letter from Nasdaq advising us that our common stock had not met Nasdaq's minimum bid price requirement, we expect that Nasdaq will forward this letter to us in the near future. Once this letter is received, if the closing bid price of our common stock does not reach \$1.00 per share or higher for a minimum of ten consecutive trading days during the 90 calendar days following receipt of such letter (or such longer period as may be provided in new rules currently being considered by Nasdaq and the Securities Exchange Commission), our common stock would be delisted at that time. The Board expects that a reverse stock split of our common stock will increase the market price of our common stock so that we are able to maintain compliance with the Nasdaq minimum bid price listing standard. However, the effect of a reverse split upon the market price of our common stock cannot be predicted with any certainty, and the history of similar stock split combinations for companies in like circumstances is varied. It is possible that the per share price of our common stock after the reverse split will not rise in proportion to the reduction in the number of shares of our common stock outstanding resulting from the reverse stock split, and there can be no assurance that the market price per post-reverse split share will either exceed or remain in excess of the \$1.00 minimum bid price for a sustained period of time. The market price of our common stock is based also on other factors which are unrelated to the number of shares outstanding, including our future performance. In addition, there can be no assurance that we will not be delisted due to a failure to meet other continued listing requirements even if the market price per post-reverse split share of our common stock remains in excess of \$1.00. Notwithstanding the foregoing, the Board believes that the proposed reverse stock split, when implemented within the proposed exchange ratio range, will result in the market price of our common stock rising to the level necessary to satisfy the \$1.00 minimum bid price requirement.

The Board also believes that the increased market price of our common stock expected as a result of implementing a reverse stock split will improve the marketability and liquidity of our common stock and will encourage interest and trading in our common stock. Because of the trading volatility often associated with low-priced stocks, many brokerage houses and institutional investors have internal policies and practices that either prohibit them from investing in low-priced stocks or tend to discourage individual brokers from recommending low-priced stocks to their customers. Some of those policies and practices may function to make the processing of trades in low-priced stocks economically unattractive to brokers. Additionally, because brokers' commissions on low-priced stocks generally represent a higher percentage of the stock price than commissions on higher-priced stocks, the current average price per share of our common stock can result in individual stockholders paying transaction costs representing a higher percentage of their total share value than would be the case if the share price were substantially higher. It should be noted that the liquidity of our common stock may be adversely affected by the proposed reverse split given the reduced number of shares that would be outstanding after the reverse stock split. The Board is hopeful, however, that the anticipated higher market price will reduce, to some extent, the negative effects on the liquidity and marketability of the Common Stock inherent in some of the policies and practices of institutional investors and brokerage houses described above.

Board Discretion to Implement the Reverse Stock Split

If the reverse stock split is approved by our stockholders, it will be effected, if at all, only upon a determination by the Board that a reverse stock split (with an exchange ratio determined by the Board as

described above) is in the best interests of Saba and its stockholders. Such determination shall be based upon certain factors, including meeting the listing requirements for the Nasdaq National Market, existing and expected marketability and liquidity of our common stock, prevailing market conditions and the likely effect on the market price of our common stock. Notwithstanding approval of the reverse stock split by the stockholders, the Board may, in its sole discretion, abandon all of the proposed amendments and determine prior to the effectiveness of any filing with the Secretary of State of the State of Delaware not to effect the reverse stock split prior to the one year anniversary of this special meeting of stockholders, as permitted under Section 242(c) of the Delaware General Corporation Law. If the Board fails to implement any of the reverse stock splits prior to the one year anniversary of this special meeting of stockholders, stockholder approval again would be required prior to implementing any reverse stock split.

Certain Risks Associated With the Reverse Stock Split

While our Board believes that our common stock would trade at higher prices after the consummation of the reverse stock split, there can be no assurance that the increase in the trading price will occur, or, if it does occur, that it will equal or exceed the price that is the product of the market price of the common stock prior to the reverse stock split times the selected reverse split ratio. In some cases, the total market capitalization of a company following a reverse stock split is lower, and may be substantially lower, than the total market capitalization before the reverse stock split. In addition, the fewer number of shares that will be available to trade will possibly cause the trading market of the common stock to become less liquid, which could have an adverse effect on the price of the common stock. We cannot offer any assurance that our common stock will continue to meet the Nasdaq National Market continued listing requirements following the reverse stock split. The market price of our common stock is based on our performance and other factors, some of which may be unrelated to the number of our shares outstanding.

In addition, there can be no assurance that the reverse stock split will result in a per share price that will attract brokers and investors who do not trade in lower priced stock.

Effects of the Reverse Stock Split

After the effective date of the proposed reverse stock split, each stockholder will own a reduced number of shares of our common stock. However, the proposed reverse stock split will affect all of our stockholders uniformly and will not affect any stockholder's percentage ownership interests in us, except to the extent that the reverse split results in any of our stockholders owning a fractional share as described below. Proportionate voting rights and other rights and preferences of the holders of our common stock will not be affected by the proposed reverse stock split (other than as a result of the payment of cash in lieu of fractional shares). For example, a holder of 2% of the voting power of the outstanding shares of common stock immediately prior to the reverse stock split would continue to hold 2% of the voting power of the outstanding shares of common stock immediately after the reverse stock split. The number of stockholders of record will not be affected by the proposed reverse stock split (except to the extent that any stockholder holds only a fractional share interest and receives cash for such interest after the proposed reverse stock split).

Although the proposed reverse stock split will not affect the rights of stockholders or any stockholder's proportionate equity interest in Saba (subject to the treatment of fractional shares), the number of authorized shares of common stock will not be reduced. This will increase significantly the ability of the Board to issue authorized and unissued shares without further stockholder action. The issuance in the future of such additional authorized shares may have the effect of diluting the earnings per share and book value per share, as well as the stock ownership and voting rights, of the currently outstanding shares of common stock. The effective increase in the number of authorized but unissued shares of common stock may be construed as having an anti-takeover effect by permitting the issuance of shares to purchasers who might oppose a hostile takeover bid or oppose any efforts to amend or repeal certain provisions of our certificate of incorporation or bylaws.

The proposed reverse stock split will reduce the number of shares of common stock available for issuance under our 1997 Stock Incentive Plan, 2000 Stock Incentive Plan and 2000 Employee Stock Purchase Plan in proportion to the exchange ratio selected by the Board within the limits set forth in this proposal. We also have certain outstanding stock options and warrants to purchase shares of our common stock. Under the terms of the outstanding stock options and warrants, the proposed reverse stock split will effect a reduction in the number of shares of common stock issuable upon exercise of such stock options and warrants in proportion to the exchange ratio of the reverse stock split and will effect a proportionate increase in the exercise price of such outstanding stock options and warrants. In connection with the proposed reverse stock split, the number of shares of common stock issuable upon exercise or conversion of outstanding stock options and warrants will be rounded to the nearest whole share and no cash payment will be made in respect of such rounding.

If the proposed reverse stock split is implemented, it will increase the number of stockholders of Saba who own odd lots of less than 100 shares of our common stock. Brokerage commission and other costs of transactions in odd lots are generally higher than the costs of transactions of more than 100 shares of common stock.

Our common stock is currently registered under Section 12(g) of the Securities Exchange Act of 1934, as amended, and we are subject to the periodic reporting and other requirements of the Exchange Act. The proposed reverse stock split will not affect the registration of the common stock under the Exchange Act. If the proposed reverse stock split is implemented, our common stock will continue to be reported on the Nasdaq National Market under the symbol SABA (although Nasdaq would likely add the letter D to the end of the trading symbol for a period of 20 trading days to indicate that the reverse stock split has occurred).

The proposed reverse stock split will not affect the par value of our common stock. As a result, on the effective date of the reverse stock split, the stated capital on our balance sheet attributable to the common stock will be reduced in proportion to the exchange ratio selected by the Board in the manner described above, and the additional paid-in capital account shall be credited with the amount by which the stated capital is reduced. The per share net income or loss and net book value of our common stock will be increased because there will be fewer shares of our common stock outstanding.

Effective Date

The proposed reverse stock split would become effective as of 5:00 p.m. Eastern time on the date of filing of a certificate of amendment to our certificate of incorporation with the office of the Secretary of State of the State of Delaware. Except as explained below with respect to fractional shares, on the effective date, shares of common stock issued and outstanding immediately prior thereto will be combined and converted, automatically and without any action on the part of the stockholders, into new shares of common stock in accordance with reverse stock split ratio determined by the Board within the limits set forth in this proposal.

Payment for Fractional Shares

No fractional shares of common stock will be issued as a result of the proposed reverse stock split. Instead, stockholders who otherwise would be entitled to receive fractional shares, upon surrender to the exchange agent of such certificates representing such fractional shares, will be entitled to receive cash in an amount equal to the product obtained by multiplying (i) the closing sales price of our common stock on the effective date as reported on the Nasdaq National Market by (ii) the number of shares of our common stock held by such stockholder that would otherwise have been exchanged for such fractional share interest.

Exchange of Stock Certificates

As soon as practicable after the effective date, stockholders will be notified that the reverse split has been effected. Our transfer agent will act as exchange agent for purposes of implementing the exchange of stock certificates. We refer to such person as the exchange agent. Holders of pre-reverse split shares will be asked to

surrender to the exchange agent certificates representing pre-reverse split shares in exchange for certificates representing post-reverse split shares in accordance with the procedures to be set forth in a letter of transmittal to be sent by us. No new certificates will be issued to a stockholder until such stockholder has surrendered such stockholder's outstanding certificate(s) together with the properly completed and executed letter of transmittal to the exchange agent. **Stockholders should not destroy any stock certificate and should not submit any certificates until requested to do so.**

Accounting Consequences

The par value per share of our common stock would remain unchanged at \$0.001 per share after the reverse stock split. As a result, on the effective date of the reverse split, the stated capital on our balance sheet attributable to the common stock will be reduced proportionally, based on the exchange ratio of the reverse stock split, from its present amount, and the additional paid-in capital account shall be credited with the amount by which the stated capital is reduced. The per share common stock net income or loss and net book value will be increased because there will be fewer shares of our common stock outstanding. We do not anticipate that any other accounting consequences would arise as a result of the reverse stock split.

No Appraisal Rights

Under the Delaware General Corporation Law, our stockholders are not entitled to dissenter's rights with respect to our proposed amendments to our charter to effect the reverse split and we will not independently provide our stockholders with any such right.

Material Federal U.S. Income Tax Consequences of the Reverse Stock Split

The following is a summary of important tax considerations of the proposed reverse stock split. It addresses only stockholders who hold the pre-reverse split shares and post-reverse split shares as capital assets. It does not purport to be complete and does not address stockholders subject to special rules, such as financial institutions, tax-exempt organizations, insurance companies, dealers in securities, mutual funds, foreign stockholders, stockholders who hold the pre-reverse split shares as part of a straddle, hedge, or conversion transaction, stockholders who hold the pre-reverse split shares as qualified small business stock within the meaning of Section 1202 of the Internal Revenue Code of 1986, as amended (the Code), stockholders who are subject to the alternative minimum tax provisions of the Code, and stockholders who acquired their pre-reverse split shares pursuant to the exercise of employee stock options or otherwise as compensation. This summary is based upon current law, which may change, possibly even retroactively. It does not address tax considerations under state, local, foreign, and other laws. Furthermore, we have not obtained a ruling from the Internal Revenue Service or an opinion of legal or tax counsel with respect to the consequences of the reverse stock split. **Each stockholder is advised to consult his or her tax advisor as to his or her own situation.**

The reverse stock split is intended to constitute a reorganization within the meaning of Section 368 of the Code. Assuming the reverse split qualifies as a reorganization, a stockholder generally will not recognize gain or loss on the reverse stock split, except to the extent of cash, if any, received in lieu of a fractional share interest in the post-reverse split shares. The aggregate tax basis of the post-reverse split shares received will be equal to the aggregate tax basis of the pre-reverse split shares exchanged therefor (excluding any portion of the holder's basis allocated to fractional shares), and the holding period of the post-reverse split shares received will include the holding period of the pre-reverse split shares exchanged.

The tax treatment of cash received in lieu of fractional shares will vary, depending on the circumstances of the holder.

No gain or loss will be recognized by the Company as a result of the reverse stock split.

Required Vote

The affirmative vote of stockholders having a majority of the voting power of all outstanding shares of our capital stock entitled to vote at the special meeting is required to approve the reverse stock split. As a result, abstentions and broker non-votes will have the same effect as negative votes.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE IN FAVOR OF PROPOSAL 1.

**SECURITY OWNERSHIP OF
CERTAIN BENEFICIAL OWNERS AND MANAGEMENT**

The following table sets forth certain information known to us with respect to beneficial ownership of our common stock as of March 15, 2003 by:

each person who is known by us to beneficially own more than 5% of our outstanding shares of common stock,

each of our directors,

our Chief Executive Officer, three other most highly compensated executive officers who were serving as our executive officers at May 31, 2002 and two additional individuals that served as executive officers during a portion, but not at the end, of our fiscal year ended May 31, 2002 (the "Named Executive Officers"), and

all current executive officers and directors as a group.

Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission. In computing the number of shares beneficially owned by a person and the percentage ownership of that person, shares of common stock subject to options held by that person that are currently exercisable or exercisable within 60 days of March 15, 2003 are deemed outstanding. Percentage of beneficial ownership as of March 15, 2003 is based upon 52,994,040 shares of common stock. To our knowledge, except as set forth in the footnotes to this table and subject to applicable community property laws, each person named in the table has sole voting and investment power with respect to the shares set forth opposite such person's name. Except as otherwise indicated, the address of each of the persons in this table is: c/o Saba Software, Inc., 2400 Bridge Parkway, Redwood Shores, California 94065-1166.
