For the quarterly period ended November 30, 2017

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from to

COMMISSION FILE NUMBER 0-22793

PriceSmart, Inc.

(Exact name of registrant as specified in its charter)

Delaware 33-0628530
(State or other jurisdiction of (I.R.S. Employer
incorporation or organization) Identification No.)

Edgar Filing: PRICESMART INC - Form 10-Q

9740 Scranton Road, San Diego, CA 92121

(Address of principal executive offices)

(858) 404-8800

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports); and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Smaller Reporting Company
Non-accelerated filer (Do not check if a Emerging growth company
smaller reporting company)

Edgar Filing: PRICESMART INC - Form 10-Q

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

The registrant had 30,403,542 shares of its common stock, par value \$0.0001 per share, outstanding at December 31, 2017.

Comprehensive income	\$ 21,081	\$ 14,488

(1) Translation adjustments arising in translating the financial statements of a foreign entity have no effect on the income taxes of that foreign entity. They may, however, affect: (a) the amount, measured in the parent entity's reporting currency, of withholding taxes assessed on dividends paid to the parent entity and (b) the amount of taxes assessed on the parent entity by the government of its country. The Company has determined that the reinvestment of earnings of its foreign subsidiaries are indefinite because of the long-term nature of the Company's foreign investment plans. Therefore, deferred taxes are not provided for on translation adjustments related to non-remitted earnings of the Company's foreign subsidiaries.

(2) See Note 7 - Derivative Instruments and Hedging Activities.

See accompanying notes.

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

November 30, 2017

NOTE 1 – COMPANY OVERVIEW AND BASIS OF PRESENTATION

PriceSmart, Inc.’s (“PriceSmart” or the “Company”) business consists primarily of international membership shopping warehouse clubs similar to, but smaller in size than, warehouse clubs in the United States. As of November 30, 2017, the Company had 40 consolidated warehouse clubs in operation in 12 countries and one U.S. territory (seven each in Colombia and Costa Rica; five in Panama; four in Trinidad; three each in Guatemala, the Dominican Republic and Honduras; two each in El Salvador and Nicaragua; and one each in Aruba, Barbados, Jamaica and the United States Virgin Islands), of which the Company owns 100% of the corresponding legal entities (see Note 2 - Summary of Significant Accounting Policies). The Company opened a new warehouse club in Santa Ana, Costa Rica in October 2017, bringing the total warehouse clubs operating in Costa Rica to seven. In June 2017, the Company acquired land in Santo Domingo, Dominican Republic. The Company is currently building a warehouse club on this site and expects to open in the spring of calendar year 2018. This will bring the number of PriceSmart warehouse clubs operating in Dominican Republic to four.

The Company continues to explore other potential sites for future warehouse clubs in Central America, the Caribbean and Colombia.

Basis of Presentation – The interim consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q for interim financial reporting pursuant to the rules and regulations of the U.S. Securities and Exchange Commission (“SEC”). These interim consolidated financial statements should be read in conjunction with the consolidated financial statements and notes included in the Company’s Annual Report on Form 10-K for the fiscal year ended August 31, 2017 (the “2017 Form 10-K”). The interim consolidated financial statements include the accounts of PriceSmart, Inc., a Delaware corporation, and its subsidiaries. Inter-company transactions between the Company and its subsidiaries have been eliminated in consolidation.

Reclassifications to consolidated statement of cash flows recorded during fiscal year 2018 for fiscal year 2017 – Accounting Standards Update (ASU) 2016-18 - The amendments in ASU 2016-18 require that a statement of cash flows explain the change during the period in the total of cash, cash equivalents and amounts generally described as restricted cash or restricted cash equivalents. Thus, amounts generally described as restricted cash and restricted cash

equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and the end-of-period total amounts set forth on the statement of cash flows. The amendments in this ASU are effective for annual periods beginning after December 15, 2017 and interim periods within those fiscal years and will be applied using a retrospective transition method to each period presented. The Company early adopted this ASU as of August 31, 2017. The adoption of this ASU impacted the presentation of cash flows with inclusion of restricted cash flows for each of the presented periods.

Additionally, the Company adopted Accounting Standards Update (ASU) 2016-09, effective as of September 1, 2017. The Company made certain elections and changes to account for share-based payments to employees according to the new standard as follows:

Accounting for policy election to recognize forfeitures as they occur – The Company made a policy election to recognize forfeitures as they occur. Accordingly, the Company applied the modified retrospective transition method, with a cumulative-effect adjustment to prior-year (August 31, 2017) retained earnings. Therefore, the Company recorded an increase to prior-year retained earnings and a decrease to additional paid-in capital of \$367,000 in each case.

	August 31, 2017 balance sheet line item as previously reported	Amount reclassified	August 31, 2017 balance sheet line item as currently reported
Retained earnings	\$ 420,499	\$ 367	\$ 420,866
Additional paid-in capital	\$ 422,762	\$ (367)	\$ 422,395

Table of Contents

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Presentation of excess tax benefits and employee taxes paid on the statement of cash flows

- According to ASU 2016-09, the cash paid to a tax authority when shares are withheld to satisfy the employer’s statutory income tax withholding obligation should be classified as a financing activity on the statement of cash flows, and the full retrospective transition method should be applied. The Company already classifies cash paid for tax withholdings as a financing activity; thus, the adoption did not change the Company’s classification for this activity. However, the Company will change the naming convention from “Purchase of treasury stock” to “Purchase of treasury stock for tax withholding on stock compensation” in the statement of cash flows. There were no such transactions for the three months ended November 30, 2017 and 2016.
- Furthermore, the new standard requires the Company to present excess tax benefits as an operating activity on the statement of cash flows rather than as a financing activity. The Company has adopted and implemented this change, retrospectively, for the three months ended November 30, 2017 and 2016; however, no such transactions have occurred during these periods.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation – The interim consolidated financial statements of the Company included herein include the assets, liabilities and results of operations of the Company’s wholly owned subsidiaries and the Company's investment in, and the Company's share of the income (loss) of, joint ventures recorded under the equity method. All significant inter-company accounts and transactions have been eliminated in consolidation. The interim consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the SEC and reflect all adjustments (consisting of normal recurring adjustments) that are, in the opinion of management, necessary to fairly present the financial position, results of operations and cash flows for the periods presented. The results for interim periods are not necessarily indicative of the results for the full year. As of November 30, 2017, all of the Company's subsidiaries were wholly owned. Additionally, the Company's ownership interest in real estate development joint ventures as of November 30, 2017 is listed below:

	Countries	Ownership	Basis of Presentation
Real Estate Development Joint Ventures			
GolfPark Plaza, S.A.	Panama	50.0 %	Equity(1)

Price Plaza Alajuela PPA, S.A. Costa Rica 50.0 % Equity(1)

(1) Joint venture interests are recorded as investment in unconsolidated affiliates on the consolidated balance sheets.

The Company determines whether any of the joint ventures in which it has made investments is a Variable Interest Entity (“VIE”) at the start of each new venture and if a reconsideration event has occurred. At this time, the Company also considers whether it must consolidate a VIE and/or disclose information about its involvement in a VIE. A reporting entity must consolidate a VIE if that reporting entity has a variable interest (or combination of variable interests) that will absorb a majority of the VIE's expected losses, receive a majority of the VIE's expected residual returns, or both. A reporting entity must consider the rights and obligations conveyed by its variable interests and the relationship of its variable interests with variable interests held by other parties to determine whether its variable interests will absorb a majority of a VIE's expected losses, receive a majority of the VIE's expected residual returns, or both. The reporting entity that consolidates a VIE is called the primary beneficiary of that VIE.

Due to the initial nature of the joint ventures and the continued commitments for additional financing, the Company determined these joint ventures are VIEs. Since all rights, obligations and the power to direct the activities of a VIE that most significantly impact the VIE's economic performance is shared equally by both parties within each joint venture, the Company has determined that it is not the primary beneficiary of the VIEs and, therefore, has accounted for these entities under the equity method. Under the equity method, the Company's investments in unconsolidated affiliates are initially recorded as an investment in the stock of an investee at cost and are adjusted for the carrying amount of the investment to recognize the investor's share of the earnings or losses of the investee after the date of the initial investment.

Use of Estimates – The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

Tax Receivables – The Company pays Value Added Tax (“VAT”) or similar taxes (“input VAT”), income taxes, and other taxes within the normal course of its business in most of the countries in which it operates related to the procurement of merchandise and/or services it acquires and/or on sales and taxable income. The Company also collects VAT or similar taxes on

Table of Contents

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

behalf of the government (“output VAT”) for merchandise and/or services it sells. If the output VAT exceeds the input VAT, then the difference is remitted to the government, usually on a monthly basis. If the input VAT exceeds the output VAT, this creates a VAT receivable. In most countries where the Company operates, the governments have implemented additional collection procedures, such as requiring credit and debit card processors to remit a portion of sales processed via credit and debit card directly to the government as advance payments of VAT and/or income tax. In the case of VAT, these procedures alter the natural offset of input and output VAT and generally leave the Company with a net VAT receivable, forcing the Company to process significant refund claims on a recurring basis. With respect to income taxes paid, if the estimated income taxes paid or withheld exceed the actual income tax due, this creates an income tax receivable. The Company either requests a refund of these tax receivables or applies the balance to expected future tax payments. These refund or offset processes can take anywhere from several months to several years to complete.

In most countries where the Company operates, the tax refund process is defined and structured with regular refunds or offsets. However, as of November 30, 2017, in one country the government has alleged there is not a clearly defined process to allow the tax authorities to refund VAT receivables. As of August 31, 2016, there were three countries that lacked a clearly defined process; however, during the third and fourth quarters of fiscal year 2017, two of these countries clarified the refund mechanism, which we are currently pursuing. The Company, together with its tax and legal advisers, is currently seeking clarification in court in the remaining country without a clearly defined process and expects to prevail. The balance of the VAT receivable in the country with undefined refund mechanisms was approximately \$2.2 million and \$1.2 million as of November 30, 2017 and August 31, 2017, respectively. In another country in which the Company operates warehouse clubs, a new minimum income tax mechanism took effect in fiscal year 2015, which requires the Company to pay taxes based on a percentage of sales rather than income. As a result, the Company is making income tax payments substantially in excess of those it would expect to pay based on taxable income. The current rules (which the Company has challenged in court) do not clearly allow the Company to obtain a refund or to offset this excess income tax against other taxes. As of November 30, 2017 and August 31, 2017, the Company had deferred tax assets of approximately \$2.0 million in this country. Also, the Company had an income tax receivable balance of \$5.3 million and \$4.3 million as of November 30, 2017 and August 31, 2017, respectively, related to excess payments from fiscal years 2015 to 2017. The Company has not placed any type of allowance on the recoverability of these tax receivables or deferred tax assets because the Company believes that it is more likely than not that it will ultimately succeed in its refund requests, related appeals and/or court challenge on this matter.

The Company's policy for classification and presentation of VAT receivables, income tax receivables and other tax receivables is as follows:

- Short-term VAT and Income tax receivables, recorded as Other current assets: This classification is used for any countries where the Company's subsidiary has generally demonstrated the ability to recover the VAT or income tax receivable within one year. The Company also classifies as short-term any approved refunds or credit notes to the

extent that the Company expects to receive the refund or use the credit notes within one year.

- Long-term VAT and Income tax receivables, recorded as Other non-current assets: This classification is used for amounts not approved for refund or credit in countries where the Company's subsidiary has not demonstrated the ability to obtain refunds within one year and/or for amounts which are subject to outstanding disputes. An allowance is provided against VAT and income tax receivable balances in dispute when the Company does not expect to eventually prevail in its recovery. The Company does not currently have any allowances provided against VAT and income tax receivables.

The following table summarizes the VAT receivables reported by the Company (in thousands):

	November 30, 2017	August 31, 2017
Prepaid expenses and other current assets	\$ 9,998	\$ 6,650
Other non-current assets	22,954	24,904
Total amount of VAT receivables reported	\$ 32,952	\$ 31,554

The following table summarizes the Income tax receivables reported by the Company (in thousands):

	November 30, 2017	August 31, 2017
Prepaid expenses and other current assets	\$ 6,910	\$ 6,403
Other non-current assets	13,494	10,492
Total amount of Income tax receivables reported	\$ 20,404	\$ 16,895

Merchandise Inventories – Merchandise inventories, which include merchandise for resale, are valued at the lower of cost (average cost) or net realizable value. The Company provides for estimated inventory losses and obsolescence between physical inventory counts on the basis of a percentage of sales. The provision is adjusted periodically to reflect the trend of actual physical inventory count results, with physical inventories occurring primarily in the second and fourth fiscal quarters. In addition, the Company may be required to take markdowns below the carrying cost of certain inventory to expedite the sale of such merchandise.

Stock Based Compensation – The Company utilizes three types of equity awards: stock options (“options”), restricted stock awards (“RSAs”) and restricted stock units (“RSUs”). The Company adopted ASU 2016-09 – Compensation - Stock Compensation (Topic 718) on September 1, 2017, see Note 1 – Company Overview and Basis of Presentation for more information on the implementation. Compensation related to options is accounted for by applying the valuation technique based on the Black-Scholes model. Compensation related to RSAs and RSUs is based on the fair market value at the time of grant. The Company recognizes the compensation cost related to these awards over the requisite service period as determined by the grant, amortized ratably or on a straight line basis over the life of the grant. As a result of adoption of ASU 2016-09, the Company currently accounts for actual forfeitures as they occur. The Company records the tax savings resulting from tax deductions in excess of expense for stock-based compensation and the tax deficiency resulting from stock-based compensation in excess of the related tax deduction as income tax expense or benefit, based on ASU 2016-09. In addition, the Company reflects the tax savings (deficiency) resulting from the taxation of stock-based compensation as an operating cash flow in its consolidated statement of cash flows.

RSAs have the same cash dividend and voting rights as other common stock and are considered to be currently issued and outstanding shares of common stock. Shares of common stock subject to RSUs are not issued nor outstanding until vested, and RSUs do not have the same dividend and voting rights as common stock. However, all outstanding RSUs have accompanying dividend equivalents, requiring payment to the employees and directors with unvested

RSUs of amounts equal to the dividend they would have received had the shares of common stock underlying the RSUs been actually issued and outstanding. Payments of dividend equivalents to employees are recorded as compensation expense.

Exit or Disposal Cost Obligations – In January 2017, the Company purchased a distribution center in Medley, Miami-Dade County, Florida. The Company transferred its Miami dry distribution center activities that were previously in a leased facility to the new facility during the third quarter of fiscal year 2017. As part of this transaction, the Company has recorded an exit obligation related to the lease of the previous distribution center. The obligation consists of the costs associated with the exit or disposal activity measured initially at its fair value as of May 1, 2017, the date on which the obligation was incurred. These costs are primarily comprised of the costs to terminate the operating lease and other associated costs, including costs to consolidate or close facilities, net of any potential sub-lease income the Company could receive during the remaining lease term. In periods subsequent to initial measurement, changes to the exit obligation, including any changes resulting from a revision to either the timing or the amount of estimated cash flows over the remaining lease period, is measured using the credit-adjusted risk-free rate that was used to measure the initial obligation. During the third quarter of fiscal year 2017, the Company initially recorded an obligation related to this exit activity for approximately \$496,000 within other long-term liabilities. The Company's exit obligation recorded as of August 31, 2017 was approximately \$57,000. The Company's exit obligation recorded as of November 30, 2017 was approximately \$50,000. Exit costs of approximately \$1.4 million were recorded to net warehouse club cost of goods sold for the twelve months ended August 31, 2017. Exit costs of approximately \$338,000 were recorded to net warehouse club cost of goods sold for the three months ended November 30, 2017.

Fair Value Measurements – The Company measures the fair value for all financial and nonfinancial assets and liabilities that are recognized or disclosed at fair value in the consolidated financial statements on a recurring or nonrecurring basis. The fair value of an asset is the price at which the asset could be sold in an orderly transaction between unrelated, knowledgeable and willing parties able to engage in the transaction. A liability's fair value is defined as the amount that would be paid to transfer the liability to a new obligor in a transaction between such parties, not the amount that would be paid to settle the liability with the creditor.

Table of Contents

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The Company has established a three-tier fair value hierarchy, which prioritizes the inputs used in measuring and revaluing fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions. The Company was not required to revalue any assets or liabilities utilizing Level 1 or Level 3 inputs at the balance sheet dates. The Company's Level 2 assets and liabilities revalued at the balance sheet dates, on a recurring basis, consisted of cash flow hedges (interest rate swaps and cross-currency interest rate swaps) and forward foreign exchange contracts. In addition, the Company utilizes Level 2 inputs in determining the fair value of long-term debt. The Company did not make any significant transfers in and out of Level 1 and Level 2 fair value tiers during the periods reported on herein.

Non-financial assets and liabilities are revalued and recognized at fair value subsequent to initial recognition when there is evidence of impairment. For the periods reported, no impairment of such non-financial assets was recorded.

The Company's current and long-term financial assets and liabilities have fair values that approximate their carrying values. The Company's long-term financial liabilities consist of long-term debt, which is recorded on the balance sheet at issuance price and adjusted for any applicable unamortized discounts or premiums and debt issuance costs. There have been no significant changes in fair market value of the Company's current and long-term financial assets, and there have been no material changes to the valuation techniques utilized in the fair value measurement of assets and liabilities as disclosed in the Company's 2017 Form 10-K.

Derivatives Instruments and Hedging Activities – The Company uses derivative financial instruments for hedging and non-trading purposes to manage its exposure to changes in interest and currency exchange rates. In using derivative financial instruments for the purpose of hedging the Company's exposure to interest and currency exchange rate risks, the contractual terms of a hedged instrument closely mirror those of the hedged item, providing a high degree of risk reduction and correlation. Contracts that are effective at meeting the risk reduction and correlation criteria (effective hedge) are recorded using hedge accounting. If a derivative financial instrument is an effective hedge, changes in the fair value of the instrument will be offset in accumulated other comprehensive income (loss) until the hedged item completes its contractual term. If any portion of the hedge is deemed ineffective, the change in fair value of the hedged assets or liabilities will be immediately recognized in earnings during the period. Instruments that do not meet the criteria for hedge accounting, or contracts for which the Company has not elected hedge accounting, are valued at fair value with unrealized gains or losses reported in earnings during the period of the change. The Company did not change valuation techniques utilized in the fair value measurement of assets and liabilities presented on the Company's consolidated balance sheets from previous practice during the reporting period. The Company seeks to manage counterparty risk associated with these contracts by limiting transactions to counterparties with which the Company has an established banking relationship. There can be no assurance, however, that this practice effectively mitigates counterparty risk.

Cash Flow Instruments. The Company is a party to receive floating interest rate, pay fixed-rate interest rate swaps to hedge the interest rate risk of certain U.S. dollar denominated debt within its international subsidiaries. The swaps are designated as cash flow hedges of interest expense risk. These instruments are considered effective hedges and are recorded using hedge accounting. The Company is also a party to receive variable interest rate, pay fixed interest rate cross-currency interest rate swaps to hedge the interest rate and currency exposure associated with the expected payments of principal and interest of U.S. denominated debt within its international subsidiaries whose functional currency is other than the U.S. dollar. The swaps are designated as cash flow hedges of the currency risk related to payments on the U.S. denominated debt. These instruments are also considered to be effective hedges and are recorded using hedge accounting. Under cash flow hedging, the effective portion of the fair value of the derivative, calculated as the net present value of the future cash flows, is deferred on the consolidated balance sheets in accumulated other comprehensive loss. If any portion of an interest rate swap is determined to be an ineffective hedge, the gains or losses from changes in fair value would be recorded directly in the consolidated statements of income. Amounts recorded in accumulated other comprehensive loss are released to earnings in the same period that the hedged transaction impacts consolidated earnings. See Note 7 - Derivative Instruments and Hedging Activities for information on the fair value of interest rate swaps and cross-currency interest rate swaps as of November 30, 2017 and August 31, 2017.

Fair Value Instruments. The Company is exposed to foreign-currency exchange rate fluctuations in the normal course of business. This includes exposure to foreign-currency exchange rate fluctuations on U.S. dollar denominated liabilities within the Company's international subsidiaries whose functional currency is other than the U.S. dollar. The Company manages these fluctuations, in part, through the use of non-deliverable forward foreign-exchange contracts that are intended to offset changes in cash flows attributable to currency exchange movements. The contracts are intended primarily to economically address exposure to U.S. dollar merchandise inventory expenditures made by the Company's international subsidiaries whose functional currency is other than the U.S. dollar. Currently, these contracts are treated for accounting purposes as fair value instruments and do not qualify for derivative hedge accounting, and as such the Company does not apply derivative hedge accounting to record these transactions. As a result, these contracts are valued at fair value with unrealized gains or losses reported in earnings during the period of the change. The Company seeks to mitigate foreign-currency exchange-rate risk with the use of these contracts and

Table of Contents

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

does not intend to engage in speculative transactions. These contracts do not contain any credit-risk-related contingent features and are limited to less than one year in duration. See Note 7 - Derivative Instruments and Hedging Activities for information on the fair value of open, unsettled forward foreign-exchange contracts as of November 30, 2017 and August 31, 2017.

Insurance Reimbursements – Receipts from insurance reimbursements up to the amount of the losses recognized are considered recoveries. These recoveries are accounted for when they are probable of receipt. Insurance recoveries are not recognized prior to the recognition of the related cost. Anticipated proceeds in excess of the amount of loss recognized are considered gains and are subject to gain contingency guidance. Anticipated proceeds in excess of a loss recognized in the financial statements are not recognized until all contingencies related to the insurance claim are resolved.

Self-Insurance – As of October 1, 2017, PriceSmart, Inc. became self-insured for its employee medical health benefits and in doing so the Company has assumed the financial risk for providing health care benefits to its employees. The Company contracted with Cigna Health and Life Insurance Company (“CHLIC”), a third party administrator, to process claims on its behalf under an Administrative Services Only (ASO) agreement. The Company has elected to purchase “Stop Loss Insurance” to cover the risk in excess of certain dollar limits. The Company establishes an estimated accrual for its insurance program based on available comparable claims data, trends and projected ultimate costs of claims. This accrual is based on estimates prepared with the assistance of outside actuaries and the ultimate cost of these claims may vary from initial estimates and established accrual. The actuaries periodically update their estimates and the Company records such adjustments in the period in which such determination is made. The accrued obligation for this self-insurance program is included in “Accrued salaries and benefits” in the consolidated balance sheets and is \$574,000 as of November 30, 2017.

Foreign Currency Translation – The assets and liabilities of the Company’s foreign operations are translated to U.S. dollars when the functional currency in the Company’s international subsidiaries is the local currency and not U.S. dollars. Assets and liabilities of these foreign subsidiaries are translated to U.S. dollars at the exchange rate on the balance sheet date, and revenue, costs and expenses are translated at average rates of exchange in effect during the period. The corresponding translation gains and losses are recorded as a component of accumulated other comprehensive income or loss. These adjustments will affect net income upon the sale or liquidation of the underlying investment. Monetary assets and liabilities denominated in currencies other than the functional currency of the respective entity (primarily U.S. dollars) are revalued to the functional currency using the exchange rate on the balance sheet date. These foreign exchange transaction gains (losses), including transactions recorded involving these monetary assets and liabilities, are recorded as Other income (expense) in the consolidated statements of income.

The following table summarizes the amounts recorded for the three months ended November 30, 2017 and 2016 (in thousands):

	Three Months Ended	
	November 30,	November 30,
	2017	2016
Currency gain (loss)	\$ 278	\$ (928)

Recent Accounting Pronouncements – Not Yet Adopted

FASB ASC 815 ASU 2017-12 Derivatives and Hedging - Targeted Improvements to Accounting for Hedging Activities

The FASB has issued Accounting Standards Update (ASU) No. 2017-12, Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities, which aims to improve the financial reporting of hedging relationships to better portray the economic results of an entity’s risk management activities in its financial statements. The amendments in this ASU are intended to better align an entity’s risk management activities and financial reporting for hedging relationships through changes to both the designation and measurement guidance for qualifying hedging relationships and the presentation of hedge results. To satisfy that objective, the amendments expand and refine hedge accounting for both non-financial and financial risk components, and align the recognition and presentation of the effects of the hedging instrument and the hedged item in the financial statements.

Additionally, the amendments (1) permit hedge accounting for risk components in hedging relationships involving non-financial risk and interest rate risk; (2) change the guidance for designating fair value hedges of interest rate risk and for measuring the change in fair value of the hedged item in fair value hedges of interest rate risk; (3) continue to allow an entity to exclude option premiums and forward points from the assessment of hedge effectiveness; and (4) permit an entity to exclude the portion of the change in fair value of a currency swap that is attributable to a cross-currency basis spread from the assessment of hedge effectiveness. The amendments in this ASU are effective for annual periods beginning after December 15, 2018 and interim

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

periods within those annual periods. The Company will evaluate the impact adoption of this guidance may have on the Company's consolidated financial statements.

FASB ASC 715 ASU 2017-09 - Compensation—Stock Compensation (Topic 718)—Scope of Modification Accounting

The FASB has issued Accounting Standards Update (ASU) No. 2017-09, Compensation—Stock Compensation (Topic 718): Scope of Modification Accounting, which seeks to provide clarity, reduce diversity in practice, and reduce cost and complexity when applying the guidance in Topic 718, Compensation—Stock Compensation, regarding a change to the terms or conditions of a share-based payment award. This ASU provides guidance concerning which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting in Topic 718. Specifically, an entity is to account for the effects of a modification, unless all of the following are satisfied: (1) the fair value (or calculated value or intrinsic value, if such an alternative measurement method is used) of the modified award is the same as the fair value (or calculated value or intrinsic value, if such an alternative measurement method is used) of the original award immediately before the original award is modified; (2) the vesting conditions of the modified award are the same as the vesting conditions of the original award immediately before the original award is modified; and (3) the classification of the modified award as an equity instrument or as a liability instrument is the same as the classification of the original award immediately before the original award is modified. The amendments in this ASU are effective for annual periods beginning after December 15, 2017 and interim periods within those annual periods. Early adoption is permitted. The Company will evaluate the impact adoption of this guidance may have on the Company's consolidated financial statements.

FASB ASC 715 ASU 2017-07- Compensation—Retirement Benefits (Topic 715) — Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost

In March 2017, the FASB issued ASU No. 2017-07, Compensation—Retirement Benefits (Topic 715) — Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost. This ASU is designed to improve guidance related to the presentation of defined benefit costs in the income statement. In particular, ASU 2017-07 requires that an employer report the service cost component in the same line item(s) as other compensation costs arising from services rendered by the pertinent employees during the period. The amendments in this ASU are effective for annual periods beginning after December 15, 2017 and interim periods within those annual periods. Early adoption is permitted. The Company will evaluate the impact adoption of this guidance may have on the Company's consolidated financial statements.

FASB ASC 350 ASU 2017-04- Intangibles—Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment

In January 2017, the FASB issued Intangibles—Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment. This ASU simplifies the manner in which an entity is required to test goodwill for impairment by eliminating Step 2 from the goodwill impairment test. Under the amendments in this ASU, an entity should (1) perform its annual or interim goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount, and (2) recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value, with the understanding that the loss recognized should not exceed the total amount of goodwill allocated to that reporting unit.

Additionally, ASU 2017-04 requires any reporting unit with a zero or negative carrying amount to perform Step 2 of the goodwill impairment test. The amendments in this ASU are effective for annual periods beginning after December 15, 2019. The Company will evaluate the impact adoption of this guidance may have on the Company's consolidated financial statements.

FASB ASC 740 ASU 2016-16- Income Taxes (Topic 740)—Intra-Entity Transfers of Assets Other Than Inventory

In October 2016, the FASB issued ASU No. 2016-16, Income Taxes (Topic 740)—Intra-Entity Transfers of Assets Other Than Inventory. Currently, U.S. GAAP prohibits recognizing current and deferred income tax consequences for an intra-entity asset transfer until the asset has been sold to an outside party. ASU 2016-16 states that an entity should recognize the income tax consequences of an intra-entity transfer of an asset other than inventory when the transfer occurs.

The amendments in this ASU are effective for annual periods beginning after December 15, 2017 and interim periods within those annual periods. Early adoption is permitted. The amendments should be applied on a modified retrospective basis through a cumulative-effect adjustment directly to retained earnings as of the beginning of the period of adoption. The Company will evaluate the impact adoption of this guidance may have on the Company's consolidated financial statements.

Table of Contents

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

FASB ASC 230 ASU 2016-15- Statement of Cash Flows (Topic 230)—Classification of Certain Cash Receipts and Cash Payments (a consensus of the FASB Emerging Issues Task Force)

In August 2016, the FASB issued ASU No. 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments. This ASU addresses stakeholders' concerns regarding diversity in practice in how certain cash receipts and cash payments are presented and classified in the statement of cash flows under Topic 230, Statement of Cash Flows, and Other Topics. In particular, ASU No. 2016-15 addresses eight specific cash flow issues in an effort to reduce this diversity in practice: (1) debt prepayment or debt extinguishment costs; (2) settlement of zero-coupon bonds; (3) contingent consideration payments made after a business combination; (4) proceeds from the settlement of insurance claims; (5) proceeds from the settlement of corporate-owned life insurance policies, including bank-owned life insurance policies; (6) distributions received from equity method investees; (7) beneficial interests in securitization transactions; and (8) separately identifiable cash flows and application of the predominance principle.

The amendments in this ASU are effective for annual periods beginning after December 15, 2017 and interim periods within those annual periods. Early adoption is permitted. The amendments in this ASU should be applied using a retrospective transition method to each period presented. If it is impracticable to apply the amendments retrospectively for some of the issues, the amendments for those issues would be applied prospectively as of the earliest date practicable. The Company will evaluate the impact adoption of this guidance may have on the Company's consolidated financial statements.

FASB ASC 842 ASU 2016-02 -Leases (Topic 842): Amendments to the FASB Accounting Standards Codification

In February 2016, the FASB issued guidance codified in ASC 842, Leases, which supersedes the guidance in ASC 840, Leases. ASC 842 will be effective for the Company on September 1, 2019, and the Company expects to apply the transition practical expedients allowed by the standard. Note 11 – “Leases” provides details on the Company's current lease arrangements. While the Company continues to evaluate the provisions of ASC 842 to determine how it will be affected, the primary effect will be to require recording right-of-use assets and corresponding lease obligations for current operating leases. The Company expects the adoption of this guidance to have a material impact on the Company's consolidated balance sheets, but not on the consolidated statements of income or cash flows.

FASB ASC 606 ASU 2014-09 - Revenue from Contracts with Customers

In May 2014, the Financial Accounting Standards Board (FASB) issued new guidance on the recognition of revenue from contracts with customers. The guidance combines the requirements for reporting revenue and requires disclosures sufficient to describe the nature, amount, timing, and uncertainty of revenue and cash flows arising from these contracts. Transition is permitted either retrospectively or as a cumulative effect adjustment as of the date of adoption. The new standard is effective for fiscal years and interim periods within those years beginning after December 15, 2017. The Company plans to adopt this guidance at the beginning of its first quarter of fiscal year 2019. The Company is evaluating the impact of adoption of this guidance on all potentially significant revenue transactions that will be impacted by the new standard on the Company's consolidated financial statements and related disclosures as a result of adopting this standard.

Recent Accounting Pronouncements Adopted

FASB ASC 718 ASU 2016-09 - Compensation—Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting

In March 2016, the FASB issued new guidance on stock compensation intended to simplify accounting for share-based payment transactions. The guidance will change accounting for income taxes, forfeitures, and minimum statutory tax withholding requirements. The new standard is effective for fiscal years and interim periods within those years beginning after December 15, 2016, with early adoption permitted. The Company adopted this guidance on September 1, 2017.

- The Company determined that the adoption of this guidance did not have a material effect on the result of operations and the calculation of earnings per share. The Company has used the two-step method for the diluted net income per share calculation over the last several years.
- The adoption of this guidance and the amendments related to the presentation of employee taxes paid on the statement of cash flows did not have a material effect on the consolidated statements of cash flows.

Table of Contents

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

· The adoption of this guidance and the amendments related to the timing of when excess tax benefits are recognized, the effect of minimum statutory withholding requirements, forfeitures, and intrinsic value and the adoption of this methodology using the modified retrospective transition method resulted in the Company electing to eliminate the recording of the forfeiture rate on the expense recorded. The elimination of the forfeiture rate required recording a cumulative-effect adjustment by increasing retained earnings and reducing Additional Paid in Capital, at the beginning of the year of adoption, which was September 1, 2017, for the service periods already incurred for unvested shares.

FASB ASC 330 ASU 2015-11 -Inventory (Topic 330): Simplifying the Measurement of Inventory

In July 2015, the FASB issued guidance that will require an entity to measure in-scope inventory at the lower of cost and net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. This amendment applies to entities, like the Company, that measure inventory value using the average cost method. The amendments in this ASU more closely align the measurement of inventory in GAAP with the measurement of inventory in International Financial Reporting Standards.

The amendment in this ASU is effective on a prospective basis for public entities for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. The Company adopted this guidance on September 1, 2017. Adoption of this guidance did not have a material effect on the Company's consolidated financial statements.

FASB ASC 230 ASU 2016-18- Statement of Cash Flows (Topic 230)—Restricted Cash

In November 2016, the FASB issued ASU No. 2016-18, Statement of Cash Flows (Topic 230)—Restricted Cash. This ASU addresses the diversity in practice that exists regarding the classification and the presentation of changes in restricted cash on the statement of cash flows.

The amendments in ASU No. 2016-18 require that a statement of cash flows explain the change during the period in the total of cash, cash equivalents and amounts generally described as restricted cash or restricted cash equivalents. Thus, amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and the end-of-period total amounts set forth on the

statement of cash flows. The amendments in this ASU are effective for annual periods beginning after December 15, 2017 and interim periods within those fiscal years and will be applied using a retrospective transition method to each period presented. The Company early adopted this ASU as of August 31, 2017. The adoption of this ASU impacted the presentation of cash flows with inclusion of restricted cash flows for each of the presented periods.

NOTE 3 – EARNINGS PER SHARE

The Company presents basic net income per share using the two-class method. The two-class method is an earnings allocation formula that treats a participating security as having rights to earnings that otherwise would have been available to common stockholders and that determines basic net income per share for each class of common stock and participating security according to dividends declared (or accumulated) and participation rights in undistributed earnings that would have been available to common stockholders. A participating security is defined as a security that may participate in undistributed earnings with common stock. The Company's capital structure includes securities that participate with common stock on a one-for-one basis for distribution of dividends. These are the restricted stock awards and restricted stock units issued pursuant to the 2013 Equity Incentive Award Plan. The Company determines the diluted net income per share by using the more dilutive of the two class-method or the treasury stock method and by including the basic weighted average of outstanding stock options in the calculation of diluted net income per share under the two-class method and including all potential common shares assumed issued in the calculation of diluted net income per share under the treasury stock method.

Table of Contents

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The following table sets forth the computation of net income per share for the three months ended November 30, 2017 and 2016 (in thousands, except per share amounts):

	Three Months Ended	
	November 30, 2017	November 30, 2016
Net income	\$ 22,490	\$ 24,869
Less: Allocation of income to unvested stockholders	(300)	(420)
Net earnings available to common stockholders	\$ 22,190	\$ 24,449
Basic weighted average shares outstanding	30,078	29,982
Add dilutive effect of stock options (two-class method)	1	5
Diluted average shares outstanding	30,079	29,987
Basic net income per share	\$ 0.74	\$ 0.82
Diluted net income per share	\$ 0.74	\$ 0.82

NOTE 4 – STOCKHOLDERS' EQUITY

Dividends

No dividends were declared by the Company's Board of Directors during the first three months of fiscal year 2018. The following table summarizes the dividends declared and paid during fiscal year 2017.

Declared	Amount	First Payment			Amount	Second Payment			Amount
		Record Date	Date Paid	Date Payable		Record Date	Date Paid	Date Payable	
2/1/2017	\$ 0.70	2/15/2017	2/28/2017	N/A	\$ 0.35	8/15/2017	N/A	8/31/2017	\$ 0.35

The Company anticipates the ongoing payment of semi-annual dividends in subsequent periods, although the actual declaration of future dividends, the amount of such dividends, and the establishment of record and payment dates is subject to final determination by the Board of Directors at its discretion after its review of the Company's financial performance and anticipated capital requirements.

Comprehensive Income and Accumulated Other Comprehensive Loss

The following tables disclose the effects of each component of other comprehensive income (loss), net of tax (in thousands):

	Three Months Ended November 30, 2017

(2) Amounts reclassified from accumulated other comprehensive income (loss) related to the minimum pension liability are included in warehouse club operations in the Company's Consolidated Statements of Income.

Retained Earnings Not Available for Distribution

The following table summarizes retained earnings designated as legal reserves of various subsidiaries which cannot be distributed as dividends to PriceSmart, Inc. according to applicable statutory regulations (in thousands):

	November 30, 2017	August 31, 2017
Retained earnings not available for distribution	\$ 6,557	\$ 6,459

NOTE 5 – COMMITMENTS AND CONTINGENCIES

Legal Proceedings

From time to time, the Company and its subsidiaries are subject to legal proceedings, claims and litigation arising in the ordinary course of business related to the Company's operations and property ownership. The Company evaluates such matters on a case by case basis, and vigorously contests any such legal proceedings or claims which the Company believes are without merit. The Company establishes an accrual for legal proceedings if and when those matters reach a stage where they present loss contingencies that are both probable and reasonably estimable. In such cases, there may be a possible exposure to loss in excess of any amounts accrued. The Company monitors those matters for developments that would affect the likelihood of a loss and the accrued amount, if any, thereof, and adjusts the amount as appropriate. If the loss contingency at issue is not both probable and reasonably estimable, the Company does not establish an accrual, but will continue to monitor the matter for developments that will make the loss contingency both probable and reasonably estimable. If it is at least a reasonable possibility that a material loss will occur, the Company will provide disclosure regarding the contingency. The Company believes that the final disposition of the pending legal proceedings, claims and litigation will not have a material adverse effect on its financial position, results of operations or liquidity. It is possible, however, that the Company's results of operations for a particular quarter or fiscal year could be impacted by changes in circumstances relating to such matters.

Taxes

Income Taxes – The Company accounts for income taxes using the asset and liability method. Under the asset and liability method, deferred tax assets and liabilities are recognized for the future tax consequences attributed to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences and carry-forwards are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is established when necessary to reduce deferred tax assets to amounts expected to be realized.

The Company is required to file federal and state tax returns in the United States and various other tax returns in foreign jurisdictions. The preparation of these tax returns requires the Company to interpret the applicable tax laws and regulations in effect in such jurisdictions, which could affect the amount of tax paid by the Company. The Company, in consultation with its tax advisors, bases its tax returns on interpretations that are believed to be reasonable under the circumstances. The tax returns, however, are subject to routine reviews by the various taxing authorities in the jurisdictions in which the Company files its returns.

Table of Contents

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

As part of these reviews, a taxing authority may disagree with respect to the interpretations the Company used to calculate its tax liability and therefore require the Company to pay additional taxes.

The Company accrues an amount for its estimate of probable additional income tax liability. In certain cases, the impact of an uncertain income tax position on the income tax return must be recognized at the largest amount that is more-likely-than-not to be sustained upon audit by the relevant tax authority. An uncertain income tax position will not be recognized if it has less than 50% likelihood of being sustained. There were no material changes in the Company's uncertain income tax positions as of November 30, 2017 and August 31, 2017.

In evaluating the exposure associated with various non-income tax filing positions, the Company accrues for probable and estimable exposures for non-income tax related tax contingencies. As of November 30, 2017 and August 31, 2017, the Company has recorded within other accrued expenses a total of \$3.2 million and \$3.4 million, respectively, for various non-income tax related tax contingencies.

While the Company believes the recorded liabilities are adequate, there are inherent limitations in projecting the outcome of litigation, in estimating probable additional income tax liability taking into account uncertain tax positions and in evaluating the probable additional tax associated with various non-income tax filing positions. As such, the Company is unable to make a reasonable estimate of the sensitivity to change of estimates affecting its recorded liabilities. As additional information becomes available, the Company assesses the potential liability and revises its estimates as appropriate.

The Company has various appeals pending before tax courts in its subsidiaries' jurisdictions. Any possible settlement could increase or decrease earnings but is not expected to be significant. Audit outcomes and the timing of audit settlements are subject to significant uncertainty. One of the Company's subsidiaries received assessments claiming \$2.7 million of taxes, penalties and interest related to withholding taxes on certain charges for services rendered by the Company. In addition, this subsidiary received assessments totaling \$5.5 million for lack of deductibility of the underlying service charges due to the lack of withholding. Based on a review of the Company's tax advisers' interpretation of local law, rulings and jurisprudence (including Supreme Court precedents with respect to the deductibility assessment), the Company expects to prevail in both instances and has not recorded a provision for these assessments. However, the Company had to submit these amounts as advance payments to the government while it appeals.

In another country in which the Company has warehouse clubs, beginning in fiscal year 2015, a new minimum income tax mechanism took effect, which requires the Company to pay taxes based on a percentage of sales rather than income. As a result, the Company is making income tax payments substantially in excess of those it would expect to pay based on taxable income. The current rules (which the Company has challenged in court) do not clearly allow the Company to obtain a refund or to offset this excess income tax against other taxes. As of November 30, 2017 and August 31, 2017, the Company had deferred tax assets of approximately \$2.0 million in this country. Also, the Company had an income tax receivable balance of \$5.3 million and \$4.3 million as of November 30, 2017 and August 31, 2017, respectively, related to excess payments from fiscal years 2015 and 2017. The Company has not placed any type of allowance on the recoverability of these tax receivables or deferred tax assets, because the Company believes that it is more likely than not that it will succeed in its refund request and/or court challenge on this matter.

The Company has not provided for U.S. deferred taxes on cumulative non-U.S. undistributed earnings as such earnings are deemed by the Company to be indefinitely reinvested. Subsequent to the passage of new US tax legislation described in Note 9 – Subsequent Events, the Company is in the process of calculating the amount of taxes that will be due on these non-U.S. undistributed earnings.

Table of Contents

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Other Commitments

The Company is committed under non-cancelable operating leases for the rental of facilities and land. Future minimum lease commitments for facilities under these leases with an initial term in excess of one year are as follows (in thousands):

Years ended November 30,	Open Locations(1)
2018	\$ 12,113
2019	11,715
2020	10,795
2021	9,339
2022	9,027
Thereafter	113,822
Total	\$ 166,811 (2)

- (1) Operating lease obligations have been reduced by approximately \$883,000 to reflect sub-lease income. Certain obligations under leasing arrangements are collateralized by the underlying asset being leased.
- (2) Future minimum lease payments include \$3.0 million of lease payment obligations for the prior leased Miami distribution center. For the purposes of calculating the minimum lease payments, no reduction was considered for the potential sub-lease income the Company could receive during the remaining lease term. This potential sub-lease income was considered, however, for the purposes of calculating the exit obligation of \$50,000 recorded on the balance sheet as of November 30, 2017. Projected income for any executed sub-leases would be used to reduce the amount reported as minimum lease payments.

In January 2017, the Company purchased a distribution center in Medley, Miami-Dade County, Florida. The Company transferred its Miami dry distribution center activities that were previously in the leased facility to the new facility during the third quarter of fiscal year 2017. Some portions of the vacated previously leased space were subleased (and subsequently returned to the landlord) while the remainder remains available for sublease. As part of the subleases the Company was required to execute and deliver to the landlord of the leased facility a letter of credit (“LOC”) in the amount of \$500,000 which entitles the landlord to draw on the LOC based on a decreasing scale over four years, if certain conditions occur related to nonpayment by the new tenant. Although this agreement is considered a guarantee, in measuring the fair value, the Company considers the risk and probability of default by the

third party tenant as not likely nor probable, based on the Company's review of the third party tenant's financial position as well as the third party's considerable capital investment into the leased facility. Therefore, the Company has not recorded a liability for this guarantee.

The Company is also committed to non-cancelable construction services obligations for various warehouse club developments and expansions. As of November 30, 2017 and August 31, 2017, the Company had approximately \$3.2 million and \$7.9 million, respectively, in contractual obligations for construction services not yet rendered.

The Company has entered into land purchase option agreements that have not been recorded as commitments, for which the Company has recorded within restricted cash and deposits as of November 30, 2017 and August 31, 2017 approximately \$600,000. The land purchase option agreements can be canceled at the sole option of the Company, with the deposits being fully refundable until all permits are issued. The Company does not have a timetable of when or if it will exercise these land purchase options, due to the uncertainty related to the completion of the Company's due diligence reviews. The Company's due diligence reviews include evaluations of the legal status of each property, the zoning and permitting issues related to acquiring approval for the construction and operation of a warehouse club and any other issues related to the property itself that could render the property unsuitable or limit the property's economic viability as a warehouse club site. If the purchase option agreements are exercised, the cash use would be approximately \$20.8 million.

Table of Contents

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The table below summarizes the Company's interest in real estate joint ventures, commitments to additional future investments and the Company's maximum exposure to loss as a result of its involvement in these joint venture as of November 30, 2017 (in thousands):

Entity	% Ownership	Initial Investment	Additional Investments	Net (Loss)/Income Inception to Date	Company's Variable Interest in Entity	Commitment to Future Additional Investments(1)	Company's Maximum Exposure to Loss in Entity(2)
GolfPark Plaza, S.A.	50 %	\$ 4,616	\$ 2,402	\$ 301	\$ 7,319	\$ 99	\$ 7,418
Price Plaza Alajuela, S.A.	50 %	2,193	1,236	33	3,462	785	4,247
Total		\$ 6,809	\$ 3,638	\$ 334	\$ 10,781	\$ 884	\$ 11,665

(1) The parties intend to seek alternate financing for the project, which could reduce the amount of investments each party would be required to provide. The parties may mutually agree on changes to the project, which could increase or decrease the amount of contributions each party is required to provide.

(2) The maximum exposure is determined by adding the Company's variable interest in the entity and any explicit or implicit arrangements that could require the Company to provide additional financial support.

The Company contracts for distribution center services in Mexico. The contract for this distribution center's services expires on August 31, 2020, with the applicable fees and rates to be reviewed at the beginning of each calendar year. Future minimum service commitments related to this contract through the end of the contract term are approximately \$442,000.

The Company contracts for off-site data recovery services as part of its disaster recovery plan. The contract for these data recovery services expires on November 30, 2019. Future minimum service commitments related to this contract are approximately \$372,000 for each of the 12-month periods ending November 30, 2018 and 2019.

NOTE 6 – DEBT

Short-term borrowings consist of lines of credit that are secured by certain assets of the Company and its subsidiaries, which, in some cases, are guaranteed by the Company. The following table summarizes the balances of total facilities, facilities used and facilities available (in thousands):

	Total Amount of Facilities	Facilities Used		Facilities Available	Weighted average interest rate	
		Short-term Borrowing	Letters Credit			
November 30, 2017	\$ 69,000	\$ 2,483	\$ 562	\$ 65,955	4.3	%
August 31, 2017	\$ 69,000	\$ —	\$ 966	\$ 68,034	—	%

As of November 30, 2017 and August 31, 2017, the Company had approximately \$40.0 million of short-term facilities in the U.S. that require compliance with certain quarterly financial covenants. As of November 30, 2017 and August 31, 2017, the Company was in compliance with respect to these covenants. Each of the facilities expires annually and is normally renewed.

Table of Contents

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The following table provides the changes in long-term debt for the three months ended November 30, 2017:

(Amounts in thousands)	Current portion of long-term debt	Long-term debt (net of current portion)	Total
Balances as of August 31, 2017	\$ 18,358	\$ 87,939	\$ 106,297 (1)
Repayments of long-term debt	—	(3,000)	(3,000)
Regularly scheduled loan payments	(225)	(4,554)	(4,779)
Translation adjustments on foreign-currency debt of subsidiaries whose functional currency is not the U.S. dollar (2)	124	(45)	79
Balances as of November 30, 2017	\$ 18,257	\$ 80,340	\$ 98,597 (3)

- (1) The carrying amount of non-cash assets assigned as collateral for these loans was \$128.4 million. No cash assets were assigned as collateral for these loans.
- (2) These foreign currency translation adjustments are recorded within Other comprehensive income.
- (3) The carrying amount of non-cash assets assigned as collateral for these loans was \$121.0 million. No cash assets were assigned as collateral for these loans.

In August 2017, the Company's Panama subsidiary paid off the outstanding principal balance of U.S. \$13.3 million on a loan agreement entered into with Scotiabank. The Company's subsidiary also settled the interest rate swap that it had entered into with Scotiabank related to this loan.

On March 31, 2017, the Company's Trinidad subsidiary entered into a loan agreement with Citibank, N.A. The agreement provides for a \$12.0 million loan to be repaid in eight quarterly principal payments plus interest. The interest rate is set at the 90 day LIBOR rate plus 3%. The loan was funded on March 31, 2017.

In January 2017, the Company finalized its acquisition of a distribution center in Medley, Miami-Dade County, Florida for a total purchase price of approximately \$46.0 million. The Company transferred its Miami distribution

center activities previously located in leased facilities to the new distribution center during the third quarter of fiscal year 2017. To finance the acquisition of this property, the Company entered into a 10-year real estate secured loan with MUFG Union Bank, N.A. (“Union Bank”) for \$35.7 million in January 2017. This loan has a variable interest rate of 30-day LIBOR plus 1.7%, with monthly principal and interest payments maturing in 2027. The monthly principal and interest payments begin in April 2019. The Company also entered into an interest rate hedge with Union Bank for \$35.7 million, the notional amount. Under the hedge, the Company will receive variable interest equal to 30-day LIBOR plus 1.7% and pay fixed interest at a rate of 3.65%, with an effective date of March 1, 2017 and maturity date of March 1, 2027.

As of November 30, 2017, the Company had approximately \$82.8 million of long-term loans in the U.S., Trinidad, Panama, El Salvador, Honduras, Costa Rica, Barbados and Colombia that require these subsidiaries to comply with certain annual or quarterly financial covenants, which include debt service and leverage ratios. As of November 30, 2017, the Company was in compliance with all covenants or amended covenants.

As of August 31, 2017, the Company had approximately \$85.6 million of long-term loans in Trinidad, Panama, El Salvador, Honduras, Costa Rica, Barbados, and Colombia that require these subsidiaries to comply with certain annual or quarterly financial covenants, which include debt service and leverage ratios. As of August 31, 2017, the Company was in compliance with all covenants or amended covenants.

Annual maturities of long-term debt are as follows (in thousands):

Twelve Months Ended November 30,	Amount
2018	\$ 18,257
2019	19,437
2020	21,438
2021	5,805
2022	2,634
Thereafter	31,026
Total	\$ 98,597

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

NOTE 7 – DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

The Company is exposed to interest rate risk relating to its ongoing business operations. To manage interest rate exposure, the Company enters into hedge transactions (interest rate swaps) using derivative financial instruments. The objective of entering into interest rate swaps is to eliminate the variability of cash flows in the LIBOR interest payments associated with variable-rate loans over the life of the loans. As changes in interest rates impact the future cash flow of interest payments, the hedges provide a synthetic offset to interest rate movements.

In addition, the Company is exposed to foreign currency and interest rate cash flow exposure related to non-functional currency long-term debt of three of its wholly owned subsidiaries. To manage this foreign currency and interest rate cash flow exposure, the Company's subsidiaries entered into cross-currency interest rate swaps that convert their U.S. dollar denominated floating interest payments to functional currency fixed interest payments during the life of the hedging instrument. As changes in foreign exchange and interest rates impact the future cash flow of interest payments, the hedges are intended to offset changes in cash flows attributable to interest rate and foreign exchange movements.

These derivative instruments (cash flow hedging instruments) are designated and qualify as cash flow hedges, with the effective portion of the gain or loss on the derivative reported as a component of other comprehensive income (loss) and reclassified into earnings in the same period or periods during which the hedged transaction is determined to be ineffective. There were no such amounts recorded for ineffectiveness for the periods reported herein related to the interest rate or cross-currency interest rate swaps of long-term debt.

The Company is exposed to foreign-currency exchange-rate fluctuations in the normal course of business, including foreign-currency exchange-rate fluctuations on U.S. dollar denominated liabilities within its international subsidiaries whose functional currency is other than the U.S. dollar. The Company manages these fluctuations, in part, through the use of non-deliverable forward foreign-exchange contracts that are intended to offset changes in cash flow attributable to currency exchange movements. These contracts are intended primarily to economically address exposure to U.S. dollar merchandise inventory expenditures made by the Company's international subsidiaries whose functional currency is other than the U.S. dollar. Currently, these contracts do not qualify for derivative hedge accounting. The Company seeks to mitigate foreign-currency exchange-rate risk with the use of these contracts and does not intend to engage in speculative transactions. These contracts do not contain any credit-risk-related contingent features.

Cash Flow Hedges

As of November 30, 2017, all of the Company's interest rate swap and cross-currency interest rate swap derivative financial instruments are designated and qualify as cash flow hedges. The Company formally documents the hedging relationships for its derivative instruments that qualify for hedge accounting.

Table of Contents

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The following table summarizes agreements for which the Company has recorded cash flow hedge accounting for the three months ended November 30, 2017:

Subsidiary	Date Entered into	Derivative Financial Counter-party	Derivative Financial Instruments	Initial US\$ Notional Amount	Bank US\$ loan Held with	Floating Leg (swap counter-party)	Fixed Rate for PSMT Subsidiary	Settlement Dates
PriceSmart, Inc (1)	7-Nov-16	MUFG Union Bank, N.A. ("Union Bank")	Interest rate swap	\$ 35,700,000	Union Bank	Variable rate 1-month Libor plus 1.7%	3.65 %	1st day of each month beginning on April 1, 2017

Colombia	10-Dec-14	Citibank, N.A. ("Citi")	Cross currency interest rate swap	\$ 15,000,000	Citibank, N.A.	Variable rate 3-month Libor plus 2.8%	8.25 %	4th day of March, June, Sept, Dec. beginning on March 4,

Edgar Filing: PRICESMART INC - Form 10-Q

									2015
Panama	9-Dec-14	Bank of Nova Scotia ("Scotiabank")	Interest rate swap	\$ 10,000,000	Bank of Nova Scotia	Variable rate 30-day Libor plus 3.5%	5.16	%	28th day of each month beginning December 29, 2014
Honduras	23-Oct-14	Citibank, N.A. ("Citi")	Cross currency interest rate swap	\$ 5,000,000	Citibank, N.A.	Variable rate 3-month Libor plus 3.5%	11.6	%	22nd day of January, April, July, and October beginning on January 22, 2015
Panama	1-Aug-14	Bank of Nova Scotia ("Scotiabank")	Interest rate swap	\$ 5,000,000	Bank of Nova Scotia	Variable rate 30-day Libor plus 3.5%	4.89	%	21st day of each month beginning on September 22, 2014
Panama	22-May-14	Bank of Nova Scotia ("Scotiabank")	Interest rate swap	\$ 3,970,000	Bank of Nova Scotia	Variable rate 30-day Libor plus 3.5%	4.98	%	4th day of each month beginning on June 4, 2014

(1) The initial notional amount and fixed rate were modified effective January 2017.

For the three months ended November 30, 2017 and 2016, the Company included the gain or loss on the hedged items (that is, variable-rate borrowings) in the same line item—interest expense—as the offsetting gain or loss on the related interest rate swaps as follows (in thousands):

Income Statement Classification	Interest expense on borrowings(1)	Cost of swaps (2)	Total
Interest expense for the three months ended November 30, 2017	\$ 849	\$ 322	\$ 1,171
Interest expense for the three months ended November 30, 2016	\$ 750	\$ 423	\$ 1,173

(1) This amount is representative of the interest expense recognized on the underlying hedged transactions.

(2) This amount is representative of the interest expense recognized on the cross-currency interest rate swaps designated as cash flow hedging instruments.

The total notional balance of the Company's pay-fixed/receive-variable interest rate swaps and cross-currency interest rate swaps was as follows (in thousands):

Floating Rate Payer (Swap Counterparty)	Notional Amount as of	
	November 30, 2017	August 31, 2017
Union Bank	\$ 35,700	\$ 35,700
Citibank N.A.	25,063	26,088
Scotiabank	12,924	13,724
Total	\$ 73,687	\$ 75,512

Cross-currency interest rate swaps	Other long-term liabilities	(342)	114	(228)	(451)	135	(316)
Net fair value of derivatives designated as hedging instruments		\$ 2,932	\$ (1,099)	\$ 1,833	\$ 1,865	\$ (735)	\$ 1,130

Fair Value Instruments

The Company has entered into non-deliverable forward foreign-exchange contracts. These contracts are treated for accounting purposes as fair value contracts and do not qualify for derivative hedge accounting. The use of non-deliverable forward foreign-exchange contracts is intended to offset changes in cash flow attributable to currency exchange movements. These contracts are intended primarily to economically hedge exposure to U.S. dollar merchandise inventory expenditures made by the Company's international subsidiaries whose functional currency is other than the U.S. dollar. The following table summarizes the non-deliverable forward foreign exchange contracts that are open as of November 30, 2017:

Subsidiary	Dates entered into	Financial Derivative (Counterparty)	Derivative Financial Instrument	Notional Amount (in thousands)	Settlement Date	Effective Period of Forward
Colombia	Oct-17	Citibank, N.A.	Forward foreign exchange contracts (USD)	1,000	Dec-17	October 13, 2017 - December 6, 2017
Colombia	Oct-17	Citibank, N.A.	Forward foreign exchange contracts (USD)	1,000	Dec-17	October 17, 2017 - December 13, 2017
Colombia	Oct-17	Citibank, N.A.	Forward foreign exchange contracts (USD)	1,000	Dec-17	October 18, 2017 - December 20, 2017
Colombia	Oct-17	Citibank, N.A.	Forward foreign exchange contracts (USD)	1,000	Dec-17	October 19, 2017 - December 27, 2017

For the three months ended November 30, 2017, the Company included in its consolidated statements of income the forward derivative gain or (loss) on the non-deliverable forward foreign-exchange contracts as follows (in thousands):

Income Statement Classification	Three Months Ended	
	November 30, 2017	November 30, 2016
Other income (expense), net	\$ 93	\$ 219

NOTE 8 – SEGMENTS

The Company and its subsidiaries are principally engaged in the international operation of membership shopping in 40 warehouse clubs located in 13 countries/territories that are located in Central America, the Caribbean and Colombia. In addition, the Company operates distribution centers and corporate offices in the United States. The Company has aggregated its warehouse clubs, distribution centers and corporate offices into reportable segments. The Company's reportable segments are based on management's organization of these locations into operating segments by general geographic location, used by management and the Company's chief operating decision maker in setting up management lines of responsibility, providing support services, and making operational decisions and assessments of financial performance. Segment amounts are presented after converting to U.S. dollars and consolidating eliminations. Certain revenues, operating costs and inter-company charges included in the United States segment are not allocated to the segments within this presentation, as it is impractical to do so, and they appear as reconciling items to reflect the amount eliminated on consolidation of intersegment transactions. From time to time, the Company revises the measurement of each segment's operating income and net income, including certain corporate overhead allocations, and other measures as determined by the information regularly reviewed by the Company's chief operating decision maker. When the Company does so, the previous period amounts and balances are reclassified to conform to the current period's presentation.

The following tables summarize by segment certain revenues, operating costs and balance sheet items (in thousands):

	United States Operations	Central American Operations	Caribbean Operations	Colombia Operations	Reconciling Items(1)	Total
Three Months Ended November 30, 2017

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

NOTE 9 – SUBSEQUENT EVENTS

The Company has evaluated all events subsequent to the balance sheet date of November 30, 2017 through the date of issuance of these consolidated financial statements and has determined that, except as set forth below, there are no subsequent events that require disclosure.

Non-deliverable forward foreign-exchange contracts

The Company has entered into forward exchange contracts during December 2017 for approximately \$5.0 million with settlement dates during January 2018.

New tax legislation

In December 2017, the United States approved new legislation that significantly modifies current tax legislation. The Company is currently assessing the impact of this recent legislation; however, the most significant changes to the Company are:

- a reduction in the U.S. corporate tax rate from 35.0% to 21.0% starting in January 2018. This will likely result in a one-time non-cash expense to be booked in the second quarter of fiscal year 2018 to reduce the value of certain deferred tax assets. On an ongoing basis, it will likely result in a favorable impact on the Company's overall effective tax rate. However, substantially all of the Company's revenue are from foreign sources, much of which attracts foreign withholding taxes. In the past, the Company has generally been able to recover all of the foreign tax credits generated by these withholdings as an offset to U.S. taxes payable. However, the Company currently estimates that foreign tax credits will be higher than 21% of U.S. taxable income and lower than 35%. Therefore, the Company expects to benefit from the reduction of tax rates, but not to the full extent of the rate reduction, as excess foreign tax credits will have to be expensed; and
- a one-time tax on accumulated foreign profits, which will likely result in a tax expense being recorded for the full amount in the second quarter of fiscal 2018, while the payment will be spread over eight years. However, from a cash perspective, the Company expects to be able to offset some of this charge by foreign tax credits accumulated

prior to January 1, 2018.

PRICESMART, INC.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Quarterly Report on Form 10-Q contains forward-looking statements concerning PriceSmart Inc.'s ("PriceSmart", the "Company" or "we") anticipated future revenues and earnings, adequacy of future cash flows, proposed warehouse club openings, the Company's performance relative to competitors and related matters. These forward-looking statements include, but are not limited to, statements containing the words "expect," "believe," "will," "may," "should," "project," "estimate," "anticipated," "scheduled," and like expressions, and the negative thereof. These statements are subject to risks and uncertainties that could cause actual results to differ materially, including the following risks: our financial performance is dependent on international operations, which exposes us to various risks; any failure by us to manage our widely dispersed operations could adversely affect our business; we face significant competition; future sales growth depends, in part, on our ability to successfully open new warehouse clubs and grow sales in our existing locations; we might not identify in a timely manner or effectively respond to changes in consumer preferences for merchandise, which could adversely affect our relationship with members, demand for our products and market share; although we offer limited online shopping to our members in certain markets, our sales could be adversely affected if one or more major international online retailers were to enter our markets or if other competitors were to offer a superior online experience; failure to grow our e-commerce business through the integration of physical and digital retail or otherwise, and the cost of our increasing e-commerce investments, may materially adversely affect our market position, net sales and financial performance; our profitability is vulnerable to cost increases; we face difficulties in the shipment of, and risks inherent in the importation of, merchandise to our warehouse clubs; we are exposed to weather and other natural disaster risks that might not be adequately compensated by insurance; negative economic conditions could adversely impact our business in various respects; our failure to maintain our brand and reputation could adversely affect our results of operations; we face the risk of exposure to product liability claims, a product recall and adverse publicity; we are subject to risks associated with possible changes in our relationships with third parties with which we do business, as well as the performance of such third parties; we could be subject to additional tax liabilities or subject to reserves on the recoverability of tax receivables; we face the possibility of operational interruptions related to union work stoppages; we are subject to volatility in foreign currency exchange rates and limits on our ability to convert foreign currencies into U.S. dollars; we face compliance risks related to our international operations; we rely extensively on computer systems to process transactions, summarize results and manage our business. Failure to adequately maintain our systems and disruptions in our systems could harm our business and adversely affect our results of operations; we may experience difficulties implementing our new global enterprise resource planning system; any failure by us to maintain the security of the information that we hold relating to our company, members, employees and vendors, whether as a result of cybersecurity attacks on our information systems, failure of internal controls, employee negligence or malfeasance or otherwise, could damage our reputation with members, employees, vendors and others, could disrupt our operations, could cause us to incur substantial additional costs and to become subject to litigation and could materially adversely affect our operating results; we are subject to payment related risks; failure to attract and retain qualified employees, increases in wage and benefit costs, changes in laws and other labor issues could materially adversely affect our financial performance; changes in accounting standards and assumptions, projections, estimates and judgments by management related to complex accounting matters could significantly affect our financial condition and results of operations; a few of our stockholders own approximately 25.3% of our voting stock as of November 30, 2017, which may make it difficult to

complete some corporate transactions without their support and may impede a change in control. The risks described above as well as the other risks detailed in the Company's U.S. Securities and Exchange Commission ("SEC") reports, including the Company's Annual Report on Form 10-K filed for the fiscal year ended August 31, 2017 filed on October 26, 2017, pursuant to the Securities Exchange Act of 1934, see "Part I - Item 1A - Risk Factors," could materially and adversely affect our business, financial condition and results of operations. These risks are not the only risks that the Company faces. The Company could also be affected by additional factors that apply to all companies operating globally and in the U.S., as well as other risks that are not presently known to the Company or that the Company currently considers to be immaterial.

The following discussion and analysis compares the results of operations for the three months ended November 30, 2017 and 2016 and should be read in conjunction with the consolidated financial statements and the accompanying notes included therein.

Table of Contents

Our business consists primarily of operating international membership shopping warehouse clubs similar to, but smaller in size than, warehouse clubs in the United States. We operate in 13 countries/territories that are located in Latin America and the Caribbean. Our ownership in all operating subsidiaries as of November 30, 2017 is 100%, and they are presented on a consolidated basis. The number of warehouse clubs in operation as of November 30, 2017 for each country or territory are as follows:

Country/Territory	Number of Warehouse Clubs in Operation as of August 31, 2017	Number of Warehouse Clubs in Operation as of November 30, 2017	Anticipated Warehouse Club Openings In Fiscal Year 2018
Colombia	7	7	—
Costa Rica	6	7	—
Panama	5	5	—
Trinidad	4	4	—
Dominican Republic	3	3	1
Guatemala	3	3	—
Honduras	3	3	—
El Salvador	2	2	—
Nicaragua	2	2	—
Aruba	1	1	—
Barbados	1	1	—
U.S. Virgin Islands	1	1	—
Jamaica	1	1	—
Totals	39	40	1

Our warehouse clubs and local distribution centers are located in Latin America and the Caribbean, and our corporate headquarters, U.S. buying operations and regional distribution centers are located primarily in the United States. Our operating segments are the United States, Central America, the Caribbean and Colombia.

We opened a new warehouse club in Santa Ana, Costa Rica in October 2017, bringing the total warehouse clubs operating in Costa Rica to seven. In June 2017, we acquired land in Santo Domingo, Dominican Republic. We are currently building a warehouse club on this site that we expect to open in the spring of calendar year 2018. This will bring the number of PriceSmart warehouse clubs operating in Dominican Republic to four. We continue to explore other potential sites for future warehouse clubs in Central America, the Caribbean and Colombia.

General Market Factors

Our sales and profits vary from market to market depending on general economic factors, including GDP growth; consumer spending patterns; foreign currency exchange rates; political policies and social conditions; local demographic characteristics (such as population growth); the number of years PriceSmart has operated in a particular market; and the level of retail and wholesale competition in that market.

Currency fluctuations can be the largest variable affecting our overall sales and profit performance, as we experienced in fiscal years 2015 and 2016, because many of our markets are susceptible to foreign currency exchange rate volatility. In the first three months of fiscal year 2018 and during fiscal year 2017, approximately 77% of our net warehouse sales were in currencies other than the U.S. dollar. Of those sales that were currencies other than the U.S. dollar, approximately 52% were comprised of sales of products we purchased in U.S. dollars.

A devaluation of the local currency not only reduces the value of sales and membership income that is generated in that country when translated to U.S. dollars for our consolidated results, but also increases the local currency price of imported merchandise, which impacts demand for a significant portion of the Company's merchandise offering. For example, changes in the value of the Colombian peso ("COP") relative to the U.S. dollar negatively impacted sales and margins in that market during fiscal years 2015 and 2016. A stabilization of the currency during fiscal year 2017 contributed to improving business conditions in Colombia, resulting in good sales growth and a return to operating profitability in our Colombia segment that has continued into the first three months of fiscal year 2018.

Certain of our Central American and Caribbean markets experienced some slowing of overall economic activity during fiscal year 2017, which, to some degree, is continuing into the first three months of fiscal year 2018. In particular, Trinidad, which depends on oil and gas exports as a major source of income, has been experiencing overall difficult economic conditions. These adverse economic conditions, combined with government policies intended to manage foreign currency reserves, have adversely affected consumer spending. Other countries where general market conditions provided a difficult operating environment during

Table of Contents

fiscal year 2017 and continuing into the first three months of fiscal year 2018 include USVI, where Hurricanes Irma and Maria had a severe impact on the infrastructure of the island, and Barbados.

Our capture of retail and wholesale sales can vary from market to market due to competition and the availability of other shopping options for our members. In larger, more developed countries, such as Costa Rica, Panama and Colombia, customers have many alternatives available to them to satisfy their shopping needs, and therefore, our market share is less than in other smaller countries, such as Jamaica and Nicaragua, where consumers have a limited number of shopping options.

Demographic characteristics within each of our markets can also affect both the overall level of sales and also future sales growth opportunities. Island countries such as Aruba, Barbados and the U.S. Virgin Islands offer us limited upside for sales growth given their overall market size. Countries with a smaller upper and middle class consumer population, such as Honduras, El Salvador, Jamaica and Nicaragua, also have a more limited potential opportunity for sales growth as compared to more developed countries with larger upper and middle class consumer populations.

Political and other factors in each of our markets may have significant effects on our business. For example, when national elections are being held, the political situation can introduce uncertainty about how the leadership change may impact the economy and affect near-term consumer spending. As has been the case in recent weeks in Honduras, political turmoil can result in local unrest, resulting in curfews and reduced operating hours and interrupt the normal flow of merchandise to our warehouse clubs. The need for increased tax revenue in certain countries can also cause changes in tax policies affecting consumer's personal tax rates and/or added consumption taxes, such as VAT (value-added taxes), effectively raising the prices of various products.

From time to time we have experienced a lack of availability of U.S. dollars in certain markets (U.S. dollar illiquidity). This impedes our ability to convert local currencies obtained through warehouse sales into U.S. dollars to settle the U.S. dollar liabilities associated with our imported products, increasing our foreign exchange exposure to any devaluation of the local currency relative to the U.S. dollar. During fiscal year 2017 and continuing into the first three months of fiscal year 2018, we experienced this situation in Trinidad ("TT"). We are working with our banks in Trinidad to source tradable currencies (including Euros and Canadian dollars), but until the central bank in Trinidad makes more U.S. dollars available, this illiquidity condition is likely to continue. During part of the first half of fiscal year 2017, we limited shipments of merchandise to Trinidad from our distribution center in Miami to levels that generally aligned with our Trinidad subsidiary's ability to source U.S. dollars to pay for that merchandise. This resulted in a reduced level of shipments, which negatively affected sales in the second quarter, particularly December 2016, although by less than our initial estimate. These actions did not impact the level of merchandise we obtain locally in Trinidad. Starting in the third quarter of fiscal year 2017, we were able to improve our sourcing of tradeable currencies, which, in addition to other steps we took, allowed for a more normalized flow of imported merchandise during the third and fourth fiscal quarters. Over the past three months, however, we have been unable to source a sufficient level of tradeable currencies in Trinidad consistent with the level of merchandise we are importing for the holiday shopping season. As of November 30, 2017, our Trinidad subsidiary had net U.S. dollar denominated liability

exposures of approximately \$12.1 million, an increase of \$16.1 million from August 31, 2017 when our Trinidad subsidiary had net U.S. dollar denominated assets position of approximately \$4.0 million. We are carefully monitoring the situation, which may require us to limit future shipments from the U.S. to Trinidad in line with our ability to exchange Trinidad dollars for tradeable currencies to manage our exposure to any potential devaluation.

Business Strategy

Our business strategy is to operate membership warehouse clubs in Latin America and the Caribbean. We sell a limited number of high volume products and services across a broad range of categories to businesses and families at the lowest possible prices. PriceSmart members pay an annual membership fee, and that fee, combined with volume purchasing and operating efficiencies throughout the supply chain, enable us to operate our business efficiently with lower margins and prices than conventional retail stores and wholesale suppliers.

While our traditional membership warehouse club strategy continues to work well in our markets, we recognize that technology is having an increasingly profound impact on shopping habits throughout the world. We believe our business strategy needs to be broadened to respond to changes in shopping habits so our members will have the shopping experience they desire.

Our longer range strategic objective is to combine the traditional membership warehouse club “brick and mortar” business with online shopping to provide the best shopping experience possible for our members.

Table of Contents

Growth

We measure our growth primarily by the amount of the period-over-period activity in our net warehouse sales, our comparable warehouse club sales (which include the impact of e-commerce sales) and our membership income. At times, we make strategic investments that are focused on the long-term growth of the Company. These investments can impact near-term results, such as when we incur fixed costs in advance of achieving full projected sales, negatively impacting near-term operating profit and net income, or when we open a new warehouse club in an existing market, which can reduce reported comparable warehouse sales due to the cannibalization of sales from existing warehouse clubs.

Current and Future Management Actions

Generally, our operating efficiencies, earnings and cash flow improve as sales increase. Higher sales provide greater purchasing power which often translates into lower cost of merchandise from our suppliers and lower prices for our members. Higher sales, coupled with continuous efforts to improve efficiencies through our distribution network and within our warehouse clubs, also give us the opportunity to leverage our operating costs and reduce prices for our members.

We seek to grow sales by increasing transaction size and shopping frequency of our members by providing high quality, differentiated merchandise at a good value. We also grow sales by attracting new members and improving the capacity of our existing warehouse clubs to serve the growing membership base and level of sales in those locations through physical expansions of the building or adding additional parking or improving the flow of merchandise to and within the warehouse club. Sales growth is also achieved when we add new warehouse clubs with a corresponding increase in members in those markets that can support that growth. Sales during the first three months of fiscal year 2018 were positively impacted by the addition of a new warehouse club that opened in Santa Ana, Costa Rica in October 2017, fiscal year 2018. Although we recognize that opening new warehouse club locations in certain existing markets can have adverse short-term implications for comparable store growth, as the new warehouse club will often attract sales from existing locations, each decision to add a location in an existing market is based on a long-term outlook. Overall, for the first quarter of fiscal year 2018, net warehouse sales increased 4.1% when compared to the same three month period in fiscal year 2017. Finally, we believe that online sales constitute a significant opportunity to grow sales in the future.

One of the distinguishing features of the warehouse club format is the role membership plays, both in terms of pricing and member loyalty. Membership fees are considered a component of overall gross margin and therefore allow us to reduce merchandise prices. In most of our markets, the annual membership fee is the equivalent of U.S. \$35 for both business members and non-business “Diamond” members. In Colombia, the membership fee was 65,000 (COP) (including VAT) since our initial entrance into the Colombian market. The Colombian peso (COP) was trading at

approximately 2,000 COP to \$1.00 US dollar at that time. More recently, the Colombian peso has been trading at approximately 3,000 COP to \$1.00 US dollar so that the converted membership price in U.S. dollars decreased from approximately U.S. \$30 to approximately U.S. \$20. In February 2017, we raised the membership fee in Colombia to 75,000 COP moving the converted membership price to approximately U.S. \$25. In addition to the standard warehouse club membership, we have offered in Costa Rica what we call Platinum membership since 2012 for \$75. A Platinum membership earns a 2% rebate on annual purchases up to a maximum \$500 rebate per year. In September, fiscal year 2018, we introduced the Platinum membership in Panama, and in October, fiscal year 2018, we introduced the Platinum membership in the Dominican Republic.

Logistics and distribution efficiencies are an important part of what allows us to deliver high quality merchandise at low prices to our members. We acquire a significant amount of merchandise internationally, a significant portion of which we receive at our Miami distribution centers. In January 2017, we purchased a distribution center in Medley, Miami-Dade County, Florida, into which we transferred our Miami dry distribution center activities from a leased facility during the third quarter of fiscal year 2017. This new distribution facility has increased our ability to efficiently receive, handle and distribute merchandise. We then ship the merchandise either directly to our warehouse clubs or to regional distribution centers located in some of our larger markets. Our ability to efficiently receive, handle and distribute merchandise to the point where our members put that merchandise into their shopping carts has a significant impact on our level of operating expenses and ultimately how low we can price our merchandise. We continue to explore ways to improve efficiency, reduce costs and ensure a good flow of merchandise to our warehouse clubs. As we continue to refine our logistics and distribution infrastructure, we are investing in regional distribution centers. We recently entered into a long-term lease for a 107,640 square foot distribution center in Costa Rica. We expect to begin operating this distribution center during the fourth quarter of fiscal year 2018. In August of fiscal year 2017, we entered into a long-term lease for a 52,463 square foot distribution center in Panama that we occupied in September 2017. We expect that both these new distribution centers will improve the merchandise flow and in-stock conditions in our warehouse clubs, reduce merchandise costs and facilitate online sales to our members.

Purchasing land and constructing warehouse clubs is generally our largest ongoing capital investment. Securing land for warehouse club locations is challenging within our markets, especially in Colombia, because suitable sites at economically feasible prices are difficult to find. While our preference is to own rather than lease real estate, we have entered into real estate leases in certain cases (most recently our Bogota, Colombia site) and will likely do so in the future. Real estate ownership

Table of Contents

provides a number of advantages as compared to leasing, including lower operating expenses, flexibility to expand or otherwise enhance our buildings, long-term control over the use of the property and the residual value that the real estate may have in future years. In order to secure warehouse club locations, we occasionally have purchased more land than is actually needed for the warehouse club facility. To the extent that we acquire property in excess of what is needed for a particular warehouse club, we generally have looked to either sell or develop the excess property. Excess land at Alajuela (Costa Rica) and Brisas (Panama) is being developed by joint ventures formed by us and the sellers of the property. We are employing a similar development strategy for the excess land at the San Fernando, Trinidad and Arroyo Hondo, Dominican Republic locations where the properties are fully owned by us. The profitable sale or development of excess real estate not required to operate a warehouse club is highly dependent on real estate market conditions.

We are currently engaged in the selection of a new global enterprise resource planning system (ERP) and evaluating other technology-related investments with the long-term objective of offering our members a seamless multi-channel experience. To oversee our efforts to identify and adopt new technologies that can help us better serve our members, our Board of Directors has approved a new committee of the Board, the Innovation Committee. The committee members include Board Chairman Robert Price as Chairman of the committee, our CEO Jose Luis Laparte and two other members of our Board. The Board of Directors has designated an incremental \$3.0 to \$5.0 million of technology-related spending for fiscal year 2018 for evaluation and selection of the ERP vendor and to fund a newly established team to direct our technology investment and preopening spending to develop a new online business that we hope to launch during the summer of 2018. Substantially all of this spending for fiscal year 2018 will be recorded as expenses on the statement of income that will impact earnings during the fiscal year as we pursue these long-term initiatives, which will likely require further investments beyond the current fiscal year.

Financial highlights for the first quarter of fiscal year 2018 included:

- Net warehouse club sales increased 4.1% over the comparable prior-year period. We ended the quarter with 40 warehouse clubs compared to 39 warehouse clubs at the end of the first quarter of fiscal year 2017.
- Comparable warehouse club sales (that is, sales in the warehouse clubs that have been open for greater than 13 1/2 calendar months) for the 13 weeks ended December 3, 2017 increased 2.2%, impacted by the opening of our Santa Ana, Costa Rica warehouse club in October.
- Membership income for the first quarter of fiscal year 2018 increased 5.7% to \$12.4 million over the comparable prior-year period.
- Warehouse gross profits (net warehouse club sales less associated cost of goods sold) increased 0.5% over the comparable prior year period and warehouse gross profits as a percent of net warehouse club sales were 14.5%, a decrease of 51 basis points (0.51%) from the same period last year.
- Operating income for the first quarter of fiscal year 2018 was \$33.2 million, compared to \$38.4 million in the first quarter of fiscal year 2017.
- We recorded a \$278,000 net currency gain from currency transactions in the current quarter compared to a \$928,000 net loss in the same period last year.
- The effective tax rate for the first quarter of fiscal year 2018 was 31.0%, as compared to the effective tax rate for the first quarter of fiscal year 2017 of 31.5%.

- Net income for the first quarter of fiscal year 2018 was \$22.5 million, or \$0.74 per diluted share, compared to \$24.9 million, or \$0.82 per diluted share, in the comparable prior-year period.

COMPARISON OF THE THREE MONTHS ENDED NOVEMBER 30, 2017 AND 2016

The following discussion and analysis compares the results of operations for the three-month period ended on November 30, 2017 with the three-month period ended on November 30, 2016 and should be read in conjunction with the consolidated financial statements and the accompanying notes included elsewhere in this report. Unless otherwise noted, all tables on the following pages present U.S. dollar amounts in thousands. Certain percentages presented are calculated using actual results prior to rounding.

Table of Contents

Net Warehouse Club Sales

The following tables indicate the net warehouse club sales in the segments in which we operate, and the percentage growth in net warehouse club sales by segment during the three months ended November 30, 2017 and 2016.

	Three Months Ended						
	November 30, 2017				November 30, 2016		
	Amount	% of net sales	Increase/ (decrease) from prior year	Change	Amount	% of net sales	
Central America	\$ 443,667	59.5 %	\$ 13,495	3.1 %	\$ 430,172	60.1 %	
Caribbean	211,439	28.4 %	7,534	3.7 %	203,905	28.5 %	
Colombia	90,295	12.1 %	8,293	10.1 %	82,002	11.4 %	
Net warehouse club sales	\$ 745,401	100.0 %	\$ 29,322	4.1 %	\$ 716,079	100.0 %	

Comparison of Three Months Ended November 30, 2017 and 2016

Overall net warehouse sales growth of 4.1% for the first quarter resulted from a 4.6% increase in transactions and a 0.5% decrease in average ticket.

Net warehouse sales in our Central America segment increased 3.1% for the first quarter of fiscal year 2018, with the addition of the Santa Ana warehouse club which opened in October contributing to an overall positive sales growth in Costa Rica. Panama sales were essentially flat, but all other Central American countries recorded positive growth in warehouse sales for the three-month period.

Our Caribbean segment showed improvement in sales growth from the past few quarters. While Trinidad, our largest market in the segment, was essentially flat, this was an improvement from negative sales growth experienced in each

of the prior four quarters. All other countries in the segment recorded positive sales growth, including Barbados which, like Trinidad, had negative sales growth in each of the previous four quarters. Sales in the Company's USVI warehouse club grew 15.3% for the quarter. Despite significant business interruption in September due to the hurricanes that hit the island, the return to normal operations in October and November resulted in strong sales as some other retailers in the market have not recovered.

Net warehouse sales in our Colombia segment experienced growth of 10.1% for the three-month period compared to a year ago. With the stabilization of the exchange rate between the Colombian peso and the U.S. dollar over the past 15 months, we have seen continued sales growth in all of our warehouse clubs in Colombia. Transaction growth of 11.7% accounted for all of the sales increase. Year on year currency changes did not have any material impact on the U.S. dollar reported growth.

Table of Contents

Comparable Sales

We report comparable warehouse club sales on a “same week” basis with 13 weeks in each quarter beginning on a Monday and ending on a Sunday. The periods are established at the beginning of the fiscal year to provide as close a match as possible to the calendar month and quarter that is used for financial reporting purposes. This approach equalizes the number of weekend days and weekdays in each period for improved sales comparison, as we experience higher warehouse club sales on the weekends. Further, each of the warehouse clubs used in the calculations was open for at least 13 ½ calendar months before its results for the current period were compared with its results for the prior period. For example, sales related to the warehouse club opened in Colombia in September 2016 were not used in the calculation of comparable sales until November 2017. Sales related to the warehouse opened in Costa Rica in October 2017 will not be used in the calculation of comparable sales until December 2018.

The following tables indicate comparable net warehouse club sales in the reportable segments in which we operate, and the percentage growth in net warehouse club sales by segment during fiscal years 2017 and 2016.

	Three Months Ended			
	November 30,		November 30, 2016	
	2017		2016	
	% Increase/(decrease)			
	in comparable			
	net	%	net	%
	warehouse	increase	warehouse	increase
	sales	(decrease)	sales	(decrease)
Central America	(0.1)	%	0.7	%
Caribbean	3.3	%	(2.8)	%
Colombia	11.3	%	4.3	%
Consolidated segments	2.2	%	—	%

Comparison of Three Months Ended November 30, 2017 and 2016

Comparable warehouse club sales for those warehouse clubs that were open for at least 13 ½ months for some or all of the 13-week period ended December 3, 2017 grew 2.2%.

Central America comparable warehouse club sales were impacted by the opening of the Company's seventh warehouse club in Costa Rica in an area called Santa Ana. Often times, new warehouse clubs that we open are not far from existing warehouse clubs that are included in the calculation for comparable warehouse club sales resulting in a transfer of some sales from an existing club (in this case Escazu) to the new club. This transfer of sales from existing warehouse clubs that are included in the calculation of comparable warehouse club sales to new warehouse clubs that are not included in the calculation can have an adverse impact on reported comparable warehouse club sales. We estimate that the transfer of sales associated with the Santa Ana opening negatively impacted the comparable warehouse club sales for the Central America segment by 150 basis points (1.50%) for the period. New warehouse clubs attract new members from areas not previously served by us and also create the opportunity for some existing members, particularly those who now find the new clubs closer to their homes, to shop more frequently.

The Caribbean segment experienced positive comparable warehouse sales on improving conditions in all markets compared to the past few quarters, aided by strong growth in USVI.

The calculation of comparable warehouse club sales in Colombia included the Chia warehouse club for five weeks in the 13-week period ending December 3, 2017.

Number of accounts - Colombia	318,680	18,395	6.1			300,285
Number of accounts - Total	1,543,983	44,305	3.0 %			1,499,678

Comparison of Three Months Ended November 30, 2017 and 2016

Membership income is recognized ratably over the one-year life of the membership. The increase in membership income primarily reflects a growth in membership accounts for which income is recognized during the last twelve months. The average number of member accounts during the first quarter of fiscal year 2018 was 2.7% higher than during the same period a year ago. The income recognized per average member account increased 2.9%. In February 2017, we increased the annual membership fee in Colombia by 15.4% to COP 75,000, which had the effect of increasing the membership income per average membership account in Colombia by 9.0% in the quarter compared to the first quarter of last year.

The Company had a net increase of 44,305 membership accounts over the past 12 months. Membership accounts in Colombia increased 18,395 on improving renewal rates and continued new membership sign-ups, mostly associated with the Chia warehouse club. The Company's twelve-month renewal rate for the period ended November 30, 2017 was 85%, which is the same as the rate for the twelve-month period ended August 31, 2017. Excluding Colombia, the twelve-month renewal rate was 87% as of November 30, 2017.

- (1) Certain revenues, operating costs and inter-company charges included in the United States segment are not allocated to the segments within this presentation, as it is impractical to do so, and they appear as reconciling items to reflect the amount eliminated on consolidation of intersegment transactions.
- (2) Warehouse club square feet at period end has been updated to reflect sales floor square feet vs. total building square feet to align with industry standards.

Comparison of Three Months Ended November 30, 2017 and 2016

On a consolidated basis, warehouse club gross margins as a percent of net warehouse sales were generally in line with the past three fiscal quarters at 14.5%, although 51 basis points (0.51%) below the first quarter of fiscal year 2017 which was unusually high at 15.0%. Exit costs associated with our leased distribution facility in Miami and merchandise labeling activity reduced consolidated margins by 8 basis points compared to a year ago, and warehouse club margins were lower in the Central America and Caribbean segments by 31 basis points (0.31%) and 26 basis points (0.26%), respectively, largely from pricing actions to drive sales. Colombia's margins increased 62 basis points (0.62%).

Selling, general, and administrative expenses consist of warehouse club operations, general and administrative expenses, pre-opening expenses, and loss/(gain) on disposal of assets. In total, selling, general and administrative expenses increased \$6.4 million to 11.6% of sales compared to 11.2% of sales in the first quarter of fiscal year 2017. Warehouse club operations expense was 9.3% of sales compared 9.1% a year ago. The added cost of the new warehouse club in Santa Ana, Costa Rica added

Table of Contents

approximately 10 basis points, and hurricane-related costs, including support payments made to our employees in our St. Thomas, USVI club added another 5 basis points. Colombia continued to see a positive trend with a 46 basis point (0.46%) improvement in warehouse club operations expense as a percent of sales compared to same three months in fiscal year 2017. General and administrative expenses grew 12.1% from the first quarter of fiscal year 2017 and 4% sequentially from the prior quarter. The Company continues to grow our buying staff and is now increasingly investing in efforts to evaluate and develop technologies to create a seamless omni-channel experience for our members in the future with expected \$3.0 million to \$5.0 million spending for the current fiscal year, of which, \$735,000 was spent in the first quarter. Expenses incurred before a warehouse club is in operation are captured in pre-opening expenses and during the first three months of fiscal year 2018 included preopening expenses for Santa Ana, Costa Rica. Preopening expenses for the same three months of fiscal year 2017 included the preopening expenses for Chia, Colombia.

Operating income decreased to \$33.2 million for the three months ended November 30, 2017 compared to \$38.4 million for the same period last year on lower merchandise margins as a percent of sales and higher expenses particularly those related to the addition of a new warehouse club and increased corporate-level general and administrative expenses. Higher net warehouse sales and membership income and increased warehouse club gross margins resulted in a \$1.2 million increase in operating profit in Colombia compared to a year ago, while operating profit decreased in other segments on lower merchandise margins, along with new club expenses (Central America), hurricane related costs (Caribbean) and higher corporate spending (United States). Operating profit was also adversely impacted by exit costs associated with our leased facility in Miami (which were recorded to warehouse club costs of goods sold) and a higher level of merchandise labeling activity due to the volume of shipments flowing through Miami to support the upcoming holiday season.

Interest Expense

	Three Months Ended	
	November 30, 2017	November 30, 2016
	Increase/ (decrease) from prior year	
	Amount	Amount
Interest expense on loans	\$ 1,191	\$ (228)
Interest expense related to hedging activity	322	(101)
Less: Capitalized interest	258	70
		188

Net interest expense	\$ 1,255	\$ (399)	\$ 1,654
----------------------	----------	----------	----------

Comparison of Three Months Ended November 30, 2017 and 2016

Interest expense reflects borrowings by PriceSmart, Inc. and our wholly owned foreign subsidiaries to finance new land acquisition and construction for new warehouse clubs and distribution centers, warehouse club and distribution center expansions, the capital requirements of warehouse club operations and ongoing working capital requirements.

Interest expense on loans decreased year-on-year. An increase year-on-year in long-term debt of approximately \$14.1 million, primarily to finance the acquisition of the distribution center in Miami, Florida and an additional loan within our Trinidad subsidiary as part efforts to improve liquidity, were offset by decreases in the payments on various loans held by our subsidiaries. Additionally, interest expense related to hedging activity decreased in the first quarter of fiscal year 2018 compared to the first quarter of fiscal year 2017 due to the pay-off of the various loans held by our subsidiaries that were hedged. Additionally, an increase in capitalized interest in the first quarter of fiscal year 2018 compared to the first quarter of fiscal year 2017 resulted from higher levels of construction activities.

Table of Contents

Other Income (Expense), net

Other income consists of currency gain or loss.

	Three Months Ended November 30, 2017		November 30, 2016	
	Increase			
	from			
	Amount	prior year	%Change	Amount
Other income (expense), net	\$ 278	\$ 1,206	130.0 %	\$ (928)

Monetary assets and liabilities denominated in currencies other than the functional currency of the respective entity (primarily U.S. dollars) are revalued to the functional currency using the exchange rate on the balance sheet date. These foreign exchange transaction gains (losses), are recorded as currency gains or losses.

Receipts from insurance reimbursements up to the amount of the losses recognized are considered recoveries. These recoveries are accounted for when they are probable of receipt. Insurance recoveries are not recognized prior to the recognition of the related cost. Anticipated proceeds in excess of the amount of loss recognized are considered gains and are subject to gain contingency guidance. Anticipated proceeds in excess of a loss recognized in the financial statements are not recognized until all contingencies related to the insurance claim are resolved.

Comparison of Three Months Ended November 30, 2017 and 2016

For the three-month period, we had a net gain associated with foreign currency transactions. These gains resulted from the revaluation of net U.S. dollar assets in markets where the local functional currency devalued against the U.S.

dollar, and from exchange transactions, net of any exchange reserve movements. In particular, in Costa Rica and the Dominican Republic, we experienced strengthening of the local currencies relative to the U.S. Dollar. These benefits were offset in part by higher transaction costs we continue to incur associated with converting Trinidad dollars into available tradeable currencies such as Euros or Canadian dollars before converting them to U.S. dollars. For so long as that situation continues in Trinidad, we plan to take that additional cost into consideration in our pricing model and will limit our shipments from the U.S. to Trinidad to levels that generally align with our Trinidad subsidiary's ability to pay for the merchandise in U.S. dollars.

Provision for Income Taxes

	Three Months Ended		Increase/ (decrease) from prior year	November 30, 2016
	November 30, 2017	Amount		
Current tax expense	\$ 10,464	\$ 11	\$ 10,453	
Net deferred tax provision (benefit)	(349)	(1,333)	984	
Provision for income taxes	\$ 10,115	\$ (1,322)	\$ 11,437	
Effective tax rate	31.0 %		31.5 %	

Table of Contents

Comparison of Three Months Ended November 30, 2017 and 2016

For the three months ended November 30, 2017, the effective tax rate was 31.0%. The decrease in the effective tax rate versus the prior year was primarily attributable to the following factors:

1. An intercompany transaction between PriceSmart, Inc. and our Colombian subsidiary in support of PriceSmart's ongoing market development and growth in Colombia resulted in a favorable year-on-year impact on the effective tax rate of 0.8% due to the reductions to taxable income in the U.S. and a resulting increase in taxable income in our Colombia subsidiary. This income did not generate income tax expense in Colombia because the additional taxable income in Colombia was fully offset by the reversal of valuation allowances on accumulated net losses in that subsidiary. We expect that the favorable impact of this transaction on the consolidated Company's effective tax rate will decrease over the next several quarters.
2. The comparably favorable impact of 0.3% resulting from improved financial results in the Company's Colombia subsidiary for which no tax benefit was recognized, net of adjustment to valuation allowance; and
3. The unfavorable impact of 0.7% in the current period from the effect of changes in foreign currency value.

Other Comprehensive Income (Loss)

	Three Months Ended November 30, 2017		November 30, 2016	
	Increase			
	from			
	Amount	prior year	% Change	Amount
Other comprehensive income (loss)	\$ (1,409)	\$ 8,972	(86.4) %	\$ (10,381)

Comparison of Three Months Ended November 30, 2017 and 2016

Our other comprehensive loss of approximately \$1.4 million for the first quarter of fiscal year 2018 resulted primarily from comprehensive loss of approximately \$2.2 million from foreign currency translation adjustments related to assets and liabilities and the translation of revenue, costs and expenses on the statements of income of our subsidiaries whose functional currency is not the U.S. dollar offset by comprehensive income of approximately \$587,000 related to unrealized gains on changes in derivative obligations. When the functional currency in our international subsidiaries is the local currency and not U.S. dollars, the assets and liabilities of such subsidiaries are translated to U.S. dollars at the exchange rate on the balance sheet date, and revenue, costs and expenses are translated at average rates of exchange in effect during the period. The corresponding translation differences are recorded as a component of accumulated other comprehensive income or loss. These adjustments will not affect net income until the sale or liquidation of the underlying investment. The reported other comprehensive income or loss reflects the unrealized increase or decrease in the value in U.S. dollars of the net assets of the subsidiaries as of the date of the balance sheet, which will vary from period to period as exchange rates fluctuate.

LIQUIDITY AND CAPITAL RESOURCES

Financial Position and Cash Flow

We require cash to fund our operating expenses and working capital requirements, including investments in merchandise inventories, acquisition of land and construction of new warehouse clubs and distribution centers, expansion of existing warehouse clubs and distribution centers, acquisitions of fixtures and equipment, routine upgrades and maintenance of fixtures and equipment within existing warehouse clubs, investments in joint ventures in Panama and Costa Rica to own and operate commercial retail centers located adjacent to the new warehouse clubs, the purchase of treasury stock upon the vesting of restricted stock awards and payment of dividends to stockholders. Our primary sources for funding these requirements are cash and cash equivalents on hand, cash generated from operations and bank borrowings. We evaluate on a regular basis whether we may need to borrow additional funds to cover any shortfall in our ability to generate sufficient cash from operations to meet our operating and capital requirements. We may obtain additional loans and/or credit facilities to provide additional liquidity when necessary.

Table of Contents

The following table summarizes the cash and cash equivalents held by our foreign subsidiaries and domestically (in thousands). Repatriation of cash and cash equivalents held by foreign subsidiaries may require us to accrue and pay taxes. We have no plans at this time to repatriate cash through the payment of cash dividends by our foreign subsidiaries to our domestic operations and, therefore, have not accrued taxes that would be due from repatriation.

	November 30, 2017	August 31, 2017
Cash and cash equivalents held by foreign subsidiaries	\$ 130,648	\$ 139,270
Cash and cash equivalents held domestically	1,894	26,442
Total cash and cash equivalents	\$ 132,542	\$ 165,712

From time to time we have experienced a lack of availability of U.S. dollars in certain markets (U.S. dollar illiquidity). This impedes our ability to convert local currencies obtained through warehouse sales into U.S. dollars to settle the U.S. dollar liabilities associated with our imported products, increasing our foreign exchange exposure to any devaluation of local currency relative to the U.S. dollar. During fiscal year 2017 and continuing into the first three months of fiscal year 2018, we experienced this situation in Trinidad. We are working with our banks in Trinidad to source tradeable currencies (including Euros and Canadian dollars), but until the central bank in Trinidad makes more U.S. dollars available, this illiquidity condition is likely to continue. During part of the first half of fiscal year 2017, we limited shipments of merchandise to Trinidad from our distribution center in Miami to levels that generally aligned with our Trinidad subsidiary's ability to source U.S. dollars to pay for that merchandise. This resulted in a reduced level of shipments, which negatively affected sales in the second quarter, particularly December 2016, although by less than our initial estimate. These actions did not impact the level of merchandise we obtain locally in Trinidad. Starting in the third quarter of fiscal year 2017, we were able to improve our sourcing of tradeable currencies, which, in addition to other steps we took, allowed for a more normalized flow of imported merchandise during the third and fourth fiscal quarters. Over the past three months, however, we have been unable to source a sufficient level of tradeable currencies in Trinidad consistent with the level of merchandise we were importing for the holiday shopping season. As of November 30, 2017, our Trinidad subsidiary had net U.S. dollar denominated liability exposures of approximately \$12.1 million, an increase of \$16.1 million from August 31, 2017 when our Trinidad subsidiary had a net U.S. dollar denominated asset position of approximately \$4.0 million. We are carefully monitoring the situation, which may require us to limit future shipments from the U.S. to Trinidad in line with our ability to exchange Trinidad dollars for tradeable currencies to manage our exposure to any potential devaluation.

Our cash flows are summarized as follows (in thousands):

	Three Months Ended	
	November 30, 2017	November 30, 2016
Net cash provided by (used in) operating activities	\$ (10,163)	\$ 2,115
Net cash provided by (used in) investing activities	(19,732)	(17,365)
Net cash provided by (used in) financing activities	(5,296)	(7,162)
Effect of exchange rates	2,021	(1,650)
Net increase (decrease) in cash and cash equivalents	\$ (33,170)	\$ (24,062)

Table of Contents

Our net cash provided by (used in) operating activities for the three months ended November 30, 2017 and 2016 is summarized below:

	Three Months Ended		Increase/ (Decrease) 2017 to 2016
	November 30, 2017	November 30, 2016	
Net income	\$ 22,490	\$ 24,869	\$ (2,379)
Adjustments to reconcile net income to net cash provided from (used in) operating activities:			
Depreciation and amortization	12,237	11,117	1,120
(Gain) loss on sale of property and equipment	159	407	(248)
Deferred income taxes	(349)	984	(1,333)
Stock-based compensation expenses	2,461	2,442	19
Other non-cash operating activities	(16)	—	(16)
Net non-cash related expenses	\$ 14,492	\$ 14,950	\$ (458)
Net income from operating activities reconciled for non-cash operating activities	36,982	39,819	(2,837)
Changes in operating assets and liabilities not including merchandise inventories	14,322	6,378	7,944
Changes in merchandise inventories	(61,467)	(44,082)	(17,385)
Net cash provided by (used in) operating activities	\$ (10,163)	\$ 2,115	\$ (12,278)

Net income from operating activities reconciled for non-cash operating activities decreased approximately \$2.8 million for the three months ended November 30, 2017 over the same period last year, resulting from a year-on-year decrease in net income of approximately \$2.4 million in the first quarter of fiscal year 2018 compared to the first quarter of fiscal year 2017 and a decrease in deferred income taxes of \$1.3 million quarter-over quarter, due to the improved financial results in the Company's Colombia subsidiary for which no tax benefit was recognized. These decreases were offset by an increase in depreciation expense of approximately \$1.1 million in the first quarter of fiscal year 2018 compared to the first quarter of fiscal year 2017 due to new warehouse club construction and the continued ongoing capital improvements to existing warehouse clubs. In addition to the decrease in net income from operating activities reconciled for non-cash operating activities there was a net cash usage of \$9.4 million primarily related to a higher growth in merchandise inventories during the current three month period compared to the same period a year ago. The Company partially offset this increased inventory with an increase in accounts payable as of November 30, 2017 compared to November 30, 2016 of approximately \$8.5 million.

Our use of cash in investing activities for the three months ended November 30, 2017 and 2016 is summarized below:

	Three Months Ended		Increase/ (Decrease)
	November 30,	November 30,	2017 to
	2017	2016	2016
Cash used for additions of property and equipment:			
Deposits for land purchase option agreements	\$ —	\$ 500	\$ (500)
Warehouse club and distribution center expansion, construction and land improvements	6,283	1,189	5,094
Acquisition of fixtures and equipment	13,469	15,784	(2,315)
Proceeds from disposals of property and equipment	(20)	(108)	88
Net cash flows used by (provided in) investing activities	\$ 19,732	\$ 17,365	\$ 2,367

Net cash used in investing activities increased in the first three months of fiscal year 2018 compared to the first three months of fiscal year 2017 by approximately \$2.4 million. This was primarily due to an increase in cash expenditures for construction activities for a warehouse club in Santa Ana, Costa Rica that opened in September 2017 and construction activities for a warehouse club in Santo Domingo, Dominican Republic that is anticipated to open in the spring of 2018. Continued investments in warehouse club expansion activities related to warehouse expansions in Guatemala, Honduras, El Salvador, Trinidad and Jamaica during the first three months of fiscal year 2018 also increased period-over-period investing activities.

As of November 30, 2017, we had commitments for capital expenditures for new warehouse club construction for approximately \$7.9 million related to our building of a warehouse club in Santo Domingo, Dominican Republic. We expect to spend between \$125.0 million and \$140.0 million in capital expenditures for ongoing replacement of equipment, building/leasehold improvements, expansion projects on existing warehouse clubs and land acquisitions during fiscal year 2018. Future capital expenditures will be dependent on the timing of future land purchases and/or warehouse club construction activity.

Table of Contents

We have entered into land purchase option agreements within our subsidiaries that have not been recorded as commitments, for which we have recorded deposits of approximately \$600,000. The land purchase option agreements can generally be canceled at our sole options with the deposits being fully refundable until all permits are issued. We also entered into a land lease option in one of our markets, for which no deposits have been made. We do not have a timetable of when or if we will exercise these land purchase/lease options due to the uncertainty related to the completion of our due diligence reviews. Our due diligence reviews include evaluations of the legal status of the property, the zoning and permitting issues related to acquiring approval for the construction and operation of a warehouse club and any other issues related to the property itself that could render the property unsuitable or limit the property's economic viability as a warehouse club site. If all of these purchase option agreements are exercised, the cash use for the acquisition of land would be approximately \$20.8 million. We may enter into additional land purchase option agreements in the future.

In January 2017, we finalized our acquisition of a distribution center in Medley, Miami-Dade County, Florida, for a total purchase price of approximately \$46.0 million, and we transferred our Miami dry distribution center activities previously located in our leased facilities to this location. This was completed during the third quarter of fiscal year 2017. The Company has terminated and intends to continue to terminate leases with respect to portions of the existing leased Miami distribution facilities or enter into sublease agreements for portions of the leased facilities.

Net cash (used in) provided by financing activities for the three months ended November 30, 2017 and 2016 is summarized below:

	Three Months Ended		Increase/ (Decrease) 2017 to 2016
	November 30, 2017	November 30, 2016	
New bank loans offset by regularly scheduled payments on existing bank loans (loan activities)	\$ (7,554)	\$ (3,688)	\$ (3,866)
New short-term bank loans, offset by payments	2,258	(3,474)	5,732
Net cash provided by (used in) financing activities	\$ (5,296)	\$ (7,162)	\$ 1,866

Net cash from long-term and short-term loan activities increased approximately \$1.9 million during the first three months of fiscal year 2018 over the first three months of fiscal year 2017. This increase in cash primarily resulted from a period-over-period increase in cash from short-term loans, offset by an increase in loan payments of approximately \$3.9 million primarily resulting from an early loan payment of approximately \$3.0 million within our Trinidad subsidiary.

The following table summarizes the dividends declared and paid during fiscal year 2017. No dividends have been declared or paid during the first three months of fiscal year 2018.

Declared	Amount	First Payment			Amount	Second Payment			Amount
		Record Date	Date Paid	Date Payable		Record Date	Date Paid	Date Payable	
2/1/2017	\$ 0.70	2/15/2017	2/28/2017	N/A	\$ 0.35	8/15/2017	N/A	8/31/2017	\$ 0.35

We anticipate the ongoing payment of semi-annual dividends in subsequent periods, although the actual declaration of future dividends, the amount of such dividends, and the establishment of record and payment dates is subject to final determination by the Board of Directors at its discretion after its review of the Company's financial performance and anticipated capital requirements.

Financing Activities

In August 2017, the Company's Panama subsidiary paid off its outstanding loan balance of U.S. \$13.3 million under a loan agreement entered into with Scotiabank. The Company's subsidiary also settled the interest rate swap that it had entered into with Scotiabank related to this loan.

On March 31, 2017, the Company's Trinidad subsidiary entered into a loan agreement with Citibank, N.A. The agreement provides for a U.S. \$12.0 million loan to be repaid in eight quarterly principal payments plus interest. The interest rate is set at the 90 day LIBOR rate plus 3%. The loan was funded on March 31, 2017.

On January 27, 2017, the Company entered into a 10-year real estate secured loan with MUFG Union Bank, N.A. ("Union Bank"). The loan establishes a credit facility of up to 75% LTV of the acquired property at a variable interest rate of 30-day LIBOR plus 1.7% for a ten-year term, with monthly principal and interest payments, maturing in 2027. The monthly principal and interest payments begin in April 2019. An initial loan amount of \$35.7 million was funded on January 27, 2017. The

Table of Contents

Company entered into an interest rate hedge on November 7, 2016 with Union Bank for \$35.7 million, the notional amount. The Company will receive variable 30-day LIBOR plus 1.7% and pay fixed (3.65%), with an effective date of March 1, 2017 and maturity date of March 1, 2027.

Derivatives

We are exposed to certain risks relating to our ongoing business operations. One risk managed by us using derivative instruments is interest rate risk. To manage interest rate exposure, we enter into hedging transactions (interest rate swaps) using derivative financial instruments. The objective of entering into interest rate swaps is to eliminate the variability of cash flows in the interest payments associated with variable-rate LIBOR loans over the life of the loans. As changes in interest rates impact the future cash flow of interest payments, the hedges provide a synthetic offset to interest rate movements.

In addition, we are exposed to foreign currency and interest rate cash flow exposure related to non-functional currency long-term debt of two of our wholly owned subsidiaries. To manage foreign currency and interest rate cash flow exposure, these subsidiaries enter into cross-currency interest rate swaps that convert their U.S. dollar denominated floating interest payments to functional currency fixed interest payments during the life of the hedging instrument. As changes in foreign exchange and interest rates impact the future cash flow of interest payments, the hedges are intended to offset changes in cash flows attributable to interest rate and foreign exchange movements.

We are also exposed to foreign-currency exchange-rate fluctuations on U.S. dollar denominated liabilities within our international subsidiaries whose functional currency is other than the U.S. dollar. We manage these fluctuations, in part, through the use of non-deliverable forward foreign-exchange contracts that are intended to offset changes in cash flow attributable to currency exchange movements. The contracts are intended primarily to economically address exposure to U.S. dollar merchandise inventory expenditures made by our international subsidiaries whose functional currency is other than the U.S. dollar. We seek to mitigate foreign-currency exchange-rate risk with the use of these contracts and do not intend to engage in speculative transactions. Currently, these contracts do not contain any credit-risk-related contingent features. These contracts do not qualify for derivative hedge accounting. The forward currency hedges are not effective cash flow hedges because the notional amount and maturity date of the forward contract does not coincide with the accounts payable balance and due dates. The hedge ineffectiveness is measured by use of the "hypothetical derivative method," and we record the changes in the fair value of the forward contract related to the re-measurement of the payable at spot exchange rates as exchange rate gains or losses. The implied interest rate included within the forward contract is reflected in earnings as interest expense.

For derivative instruments that are designated and qualify as cash flow hedges, the effective portion of the gain or loss on the derivative is reported as a component of other comprehensive income (loss) and reclassified into earnings in the same period or periods during which the hedged transaction is determined to be ineffective. There were no such

amounts for the periods reported herein.

Table of Contents

The following table summarizes agreements for which the Company has recorded cash flow hedge accounting transactions during the three months ended November 30, 2017:

Subsidiary	Date Entered into	Derivative Financial Counter-party	Derivative Financial Instruments	Initial US\$ Notional Amount	Bank US\$ loan Held with	Floating Leg (swap counter-party)	Fixed Rate for PSMT Subsidiary	Settlement Dates
PriceSmart, Inc (1)	7-Nov-16	MUFG Union Bank, N.A. ("Union Bank")	Interest rate swap	\$ 35,700,000	Union Bank	Variable rate 1-month Libor plus 1.7%	3.65 %	1st day of each month beginning on April 1, 2017
Costa Rica	28-Aug-15	Citibank, N.A. ("Citi")	Cross currency interest rate swap	\$ 7,500,000	Citibank, N.A.	Variable rate 3-month Libor plus 2.50%	7.65 %	28th day of August, November, February, and May beginning on November 30, 2015
Honduras	24-Mar-15	Citibank, N.A. ("Citi")	Cross currency interest rate swap	\$ 8,500,000	Citibank, N.A.	Variable rate 3-month Libor plus 3.25%	10.75 %	24th day of March, June, September, and December beginning on June 24, 2015
El Salvador	16-Dec-14	Bank of Nova Scotia ("Scotiabank")	Interest rate swap	\$ 4,000,000	Bank of Nova Scotia	Variable rate 30-day Libor plus 3.5%	4.78 %	29th day of each month beginning on December 29, 2014
Colombia	10-Dec-14	Citibank, N.A. ("Citi")	Cross currency interest rate swap	\$ 15,000,000	Citibank, N.A.	Variable rate 3-month Libor plus 2.8%	8.25 %	4th day of March, June, Sept, Dec. beginning on March 4, 2015
Panama	9-Dec-14	Bank of Nova Scotia ("Scotiabank")	Interest rate swap	\$ 10,000,000	Bank of Nova Scotia	Variable rate 30-day Libor plus 3.5%	5.16 %	28th day of each month beginning

Edgar Filing: PRICESMART INC - Form 10-Q

									December 29, 2014
Honduras	23-Oct-14	Citibank, N.A. ("Citi")	Cross currency interest rate swap	\$ 5,000,000	Citibank, N.A.	Variable rate 3-month Libor plus 3.5%	11.6	%	22nd day of January, April, July, and October beginn on January 22, 2015
Panama	1-Aug-14	Bank of Nova Scotia ("Scotiabank")	Interest rate swap	\$ 5,000,000	Bank of Nova Scotia	Variable rate 30-day Libor plus 3.5%	4.89	%	21st day of each month beginning on September 22, 2014
Panama	22-May-14	Bank of Nova Scotia ("Scotiabank")	Interest rate swap	\$ 3,970,000	Bank of Nova Scotia	Variable rate 30-day Libor plus 3.5%	4.98	%	4th day of each month beginning on June 4, 2014

(1) The initial notional amount and fixed rate were modified effective January 2017.

We measure the fair value for all financial assets and liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis during the reporting period. We have designated the interest rate swaps and cross-currency interest rate swap agreements as hedging instruments and have accounted for them under hedge accounting rules. Derivatives listed on the table above were designated as cash flow hedging instruments.

The following table summarizes the effect of the fair value of interest rate swap and cross-currency interest rate swap derivative instruments that qualify for derivative hedge accounting and its associated tax effect on accumulated other comprehensive (income) / loss (in thousands):

Derivatives designated as cash flow hedging instruments	Balance Sheet Location	November 30, 2017			August 31, 2017		
		Fair Value	Net Tax Effect	Net OCI	Fair Value	Net Tax Effect	Net OCI
Cross-currency interest rate swaps	Other non-current assets	\$ 2,514	(938)	1,576	\$ 2,547	\$ (950)	\$ 1,597
Interest rate swaps	Other non-current assets	764	(272)	492	—	—	—
Interest rate swaps	Other long-term liabilities	(4)	(3)	(7)	(231)	80	(151)
Cross-currency interest rate swaps	Other long-term liabilities	(342)	114	(228)	(451)	135	(316)
		\$ 2,932	\$ (1,099)	\$ 1,833	\$ 1,865	\$ (735)	\$ 1,130

Net fair value of derivatives
designated as hedging
instruments

From time to time, we enter into non-deliverable forward exchange contracts. These contracts are treated for accounting purposes as fair value contracts and do not qualify for derivative hedge accounting.

45

Table of Contents

The following table summarizes these agreements as of November 30, 2017:

Subsidiary	Dates entered into	Financial Derivative (Counterparty)	Derivative Financial Instrument	Notional Amount (in thousands)	Settlement Date	Effective Period of Forward
Colombia	Oct-17	Citibank, N.A.	Forward foreign exchange contracts (USD)	1,000	Dec-17	October 13, 2017 - December 6, 2017
Colombia	Oct-17	Citibank, N.A.	Forward foreign exchange contracts (USD)	1,000	Dec-17	October 17, 2017 - December 13, 2017
Colombia	Oct-17	Citibank, N.A.	Forward foreign exchange contracts (USD)	1,000	Dec-17	October 18, 2017 - December 20, 2017
Colombia	Oct-17	Citibank, N.A.	Forward foreign exchange contracts (USD)	1,000	Dec-17	October 19, 2017 - December 27, 2017

The following table summarizes the fair value of foreign currency forward contracts that do not qualify for derivative hedge accounting (in thousands):

	November 30, 2017		August 31, 2017	
	Location	Fair Value	Location	Fair Value
Non-deliverable forward foreign exchange contracts				
Foreign currency forward contracts	Other current assets	\$ 71	Other current assets	\$ —
Foreign currency forward contracts	Other accrued expenses	—	Other accrued expenses	—
Net fair value of non-deliverable forward foreign exchange contracts designated as hedging instruments that do not qualify for hedge accounting(1)		\$ 71		\$ —

- (1) The fair value of these financial assets and liabilities measured and recorded using Level 2 inputs, which are inputs other than quoted prices in active markets that are either directly or indirectly observable.

Short-Term Borrowings and Long-Term Debt

Short-term borrowings consist of lines of credit that are secured by certain assets of the Company and its subsidiaries, which, in some cases, are guaranteed by the Company. The following table summarizes the balances of total facilities, facilities used and facilities available (in thousands):

	Total Amount of Facilities	Facilities Used		Facilities Available	Weighted average interest rate	
		Short-term Borrowings	Letters Credit			
November 30, 2017	\$ 69,000	\$ 2,483	\$ 562	\$ 65,955	4.3	%
August 31, 2017	\$ 69,000	\$ —	\$ 966	\$ 68,034	—	%

As of November 30, 2017 and August 31, 2017, the Company had approximately \$40.0 million of short-term facilities in the U.S. that require compliance with certain quarterly financial covenants. As of November 30, 2017 and August 31, 2017, the Company was in compliance with respect to these covenants. Each of the facilities expires annually and is normally renewed.

Table of Contents

The following table provides the changes in our long-term debt for the three months ended November 30, 2017:

(Amounts in thousands)	Current portion of long-term debt	Long-term debt (net of current portion)	Total
Balances as of August 31, 2017	\$ 18,358	\$ 87,939	\$ 106,297 (1)
Repayments of long-term debt	—	(3,000)	(3,000)
Regularly scheduled loan payments	(225)	(4,554)	(4,779)
Translation adjustments on foreign-currency debt of subsidiaries whose functional currency is not the U.S. dollar (2)	124	(45)	79
Balances as of November 30, 2017	\$ 18,257	\$ 80,340	\$ 98,597 (3)

- (1) The carrying amount of non-cash assets assigned as collateral for these loans was \$128.4 million. No cash assets were assigned as collateral for these loans.
- (2) These foreign currency translation adjustments are recorded within Other comprehensive income.
- (3) The carrying amount of non-cash assets assigned as collateral for these loans was \$121.0 million. No cash assets were assigned as collateral for these loans.

As of November 30, 2017, the Company had approximately \$82.8 million of long-term loans in the U.S., Trinidad, Panama, El Salvador, Honduras, Costa Rica, Barbados and Colombia that require compliance with certain annual or quarterly financial covenants, which include debt service and leverage ratios. As of November 30, 2017, the Company was in compliance with all covenants or amended covenants.

As of August 31, 2017, the Company had approximately \$85.6 million of long-term loans in Trinidad, Panama, El Salvador, Honduras, Costa Rica, Barbados and Colombia that require these subsidiaries to comply with certain annual or quarterly financial covenants, which include debt service and leverage ratios. As of August 31, 2017, the Company was in compliance with all covenants or amended covenants.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements that have had, or are reasonably likely to have, a material current or future effect on its financial condition or consolidated financial statements.

Repurchase of Equity Securities and Reissuance of Treasury Shares

At the vesting dates for restricted stock awards to our employees, we repurchase a portion of the shares that have vested at the prior day's closing price per share, with the funds used to pay the employees' minimum statutory tax withholding requirements related to the vesting of restricted stock awards. We do not have a stock repurchase program.

Shares of common stock repurchased by us are recorded at cost as treasury stock and result in the reduction of stockholders' equity in our Consolidated Balance Sheets. We may reissue these treasury shares. When treasury shares are reissued, we use the first in/first out ("FIFO") cost method for determining cost of the reissued shares. If the issuance price is higher than the cost, the excess of the issuance price over the cost is credited to additional paid-in capital ("APIC"). If the issuance price is lower than the cost, the difference is first charged against any credit balance in APIC from treasury stock and the balance is charged to retained earnings.

We did not repurchase any shares during the first three months of fiscal years 2017 and 2016.

	Three Months Ended	
	November 30,	November 30,
	2017	2016
Shares repurchased	—	—
Cost of repurchase of shares (in thousands)	\$ —	\$ —

We have reissued treasury shares as part of our stock-based compensation programs. However, we did not reissue any treasury shares during the first three months of fiscal years 2018 and 2017.

Table of Contents

Critical Accounting Estimates

The preparation of our consolidated financial statements requires that management make estimates and judgments that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Some of our accounting policies require management to make difficult and subjective judgments, often as a result of the need to make estimates of matters that are inherently uncertain. Management continues to review its accounting policies and evaluate its estimates, including those related to contingencies and litigation, income taxes, value added taxes, and long-lived assets. We base our estimates on historical experience and on other assumptions that management believes to be reasonable under the present circumstances. Using different estimates could have a material impact on our financial condition and results of operations.

Income Taxes: We account for income taxes using the asset and liability method. Under the asset and liability method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences and carry-forwards are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is established when necessary to reduce deferred tax assets to amounts expected to be realized. As of November 30, 2017, we evaluated our deferred tax assets and liabilities and determined that a valuation allowance was necessary for certain foreign deferred tax asset balances, primarily because of the existence of significant negative objective evidence, such as the fact that certain subsidiaries are in a cumulative loss position for the past three years, indicating that certain net operating loss carry-forward periods are not sufficient to realize the related deferred tax assets.

We and our subsidiaries are required to file federal and state income tax returns in the United States and various other tax returns in foreign jurisdictions. The preparation of these tax returns requires us to interpret the applicable tax laws and regulations in effect in such jurisdictions, which could affect the amount of tax we pay. In consultation with our tax advisors, we base our tax returns on interpretations that we believed to be reasonable under the circumstances. The tax returns, however, are subject to routine reviews by the various federal, state and foreign taxing authorities in the jurisdictions in which we or one of our subsidiaries file tax returns. As part of these reviews, a taxing authority may disagree with respect to the income tax positions we have taken (“uncertain tax positions”) and, therefore, require us or one of our subsidiaries to pay additional taxes.

We accrue an amount for our estimate of probable additional income tax liability. In certain cases, the impact of an uncertain income tax position on the income tax return must be recognized at the largest amount that is more likely than not to be sustained upon audit by the relevant tax authority. An uncertain income tax position will not be recognized if it has less than 50% likelihood of being sustained. This requires significant judgment, the use of estimates, and the interpretation and application of complex tax laws. When facts and circumstances change, we

reassess these probabilities and record any changes in the consolidated financial statements as appropriate. There were no material changes in our uncertain income tax positions for the periods ended on November 30, 2017 and August 31, 2017. During the first quarter of fiscal year 2015, one of the Company's subsidiaries received assessments claiming \$2.7 million of taxes, penalties and interest related to withholding taxes on certain charges for services rendered by the Company. In addition, this subsidiary received assessments totaling \$5.5 million for lack of deductibility of the underlying service charges due to the lack of withholding. Based on the Company's interpretation of local law, rulings and jurisprudence (including Supreme Court precedents with respect to the deductibility assessment), the Company expects to prevail in both instances and has not recorded a provision for these assessments.

We have not provided for U.S. deferred taxes on cumulative non-U.S. undistributed earnings as we deem such earnings to be indefinitely reinvested. It is not practicable to determine the U.S. federal income tax liability that would be associated with the repatriation earnings because of the complexity of the computation.

Tax Receivables: We pay Value Added Tax ("VAT") or similar taxes ("input VAT"), income taxes, and other taxes within the normal course of our business in most of the countries in which we operate related to the procurement of merchandise and/or services we acquires and/or on sales and taxable income. We also collect VAT or similar taxes on behalf of the government ("output VAT") for merchandise and/or services we sell. If the output VAT exceeds the input VAT, then the difference is remitted to the government, usually on a monthly basis. If the input VAT exceeds the output VAT, this creates a VAT receivable. In most countries where we operate, the governments have implemented additional collection procedures, such as requiring credit card processors to remit a portion of sales processed via credit card directly to the government as advance payments of VAT and/or income tax. In the case of VAT, these procedures alter the natural offset of input and output VAT and generally leave us with a net VAT receivable, forcing us to process significant refund claims on a recurring basis. With respect to income taxes paid, if the estimated income taxes paid or withheld exceed the actual income tax due this creates an income tax receivable. We either request a refund of these tax receivables or apply the balance to expected future tax payments. These refund or offset processes can take anywhere from several months to several years to complete.

Table of Contents

In most countries where the Company operates, the tax refund process is defined and structured with regular refunds or offsets. However, as of November 30, 2017, in one country the government has alleged there is not a clearly defined process to allow the tax authorities to refund VAT receivables. As of August 31, 2016, there were three countries that lacked a clearly defined process; however, during the third and fourth quarters of fiscal year 2017, two of these countries clarified the refund mechanism, which we are currently pursuing. The Company, together with its tax and legal advisers, is currently seeking clarification in court in the country without a clearly defined process and expects to prevail. The balance of the VAT receivable in the country with undefined refund mechanisms was approximately \$1.3 million and \$1.2 million as of November 30, 2017 and August 31, 2017, respectively. In another country in which the Company has warehouse clubs, beginning in fiscal year 2015, a new minimum income tax mechanism took effect, which requires us to pay taxes based on a percentage of sales rather than income. As a result, we are making income tax payments substantially in excess of those we would expect to pay based on taxable income. The current rules (which we have challenged in court) do not clearly allow us to obtain a refund or offset this excess income tax against other taxes. As of November 30, 2017 and August 31, 2017, the Company had deferred tax assets of approximately \$2.0 million in this country. Also, the Company had an income tax receivable balance of \$5.3 million and \$4.3 million as of November 30, 2017 and August 31, 2017, respectively, related to excess payments from fiscal years 2015 to 2017. The Company has not placed any type of allowance on the recoverability of these tax receivables or deferred tax assets because the Company believes that it is more likely than not that it will ultimately succeed in our refund requests, related appeals and/or court challenge on this matter.

The Company's policy for classification and presentation of VAT receivables, income tax receivables and other tax receivables is as follows:

- Short-term VAT and Income tax receivables, recorded as Other current assets: This classification is used for any countries where the Company's subsidiary has generally demonstrated the ability to recover the VAT or income tax receivable within one year. The Company also classify as short-term any approved refunds or credit notes to the extent that the Company expect to receive the refund or use the credit notes within one year.
- Long-term VAT and Income tax receivables, recorded as Other non-current assets: This classification is used for amounts not approved for refund or credit in countries where the Company's subsidiary has not demonstrated the ability to obtain refunds within one year and/or for amounts which are subject to outstanding disputes. An allowance is provided against VAT and income tax receivable balances in dispute when the Company do not expect to eventually prevail in its recovery. The Company does not currently have any allowances provided against VAT and income tax receivables.

Long-lived Assets: We periodically evaluate our long-lived assets for indicators of impairment. Some of the key indicators that an asset may be impaired are:

- the asset's inability to continue to generate income from operations and positive cash flow in future periods;
- loss of legal ownership or title to the asset;

- significant changes in its strategic business objectives and utilization of the asset(s); and
- the impact of significant negative industry or economic trends.

Management's judgments are based on market and operational conditions at the time of the evaluation and can include management's best estimate of future business activity, which in turn drives estimates of future cash flows from these assets. These periodic evaluations could cause management to conclude that impairment factors exist, requiring an adjustment of these assets to their then-current fair market value. Loss/(gain) on disposal of assets recorded during the years reported resulted from improvements to operations and normal preventive maintenance.

Seasonality

Historically, our merchandising businesses have experienced holiday retail seasonality in their markets. In addition to seasonal fluctuations, our operating results fluctuate quarter-to-quarter as a result of economic and political events in markets that we serve, the timing of holidays, weather, the timing of shipments, product mix, and currency effects on the cost of U.S.-sourced products which may make these products more or less expensive in local currencies and therefore more or less affordable. Because of such fluctuations, the results of operations of any quarter are not indicative of the results that may be achieved for a full fiscal year or any future quarter. In addition, there can be no assurance that our future results will be consistent with past results or the projections of securities analysts.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risks relating to our operations result primarily from changes in interest rates and changes in currency exchange rates. There have been no material changes in our market risk factors at November 30, 2017 compared to those disclosed in our Annual Report on Form 10-K for the fiscal year ended August 31, 2017. The gross fair value of our derivative financial instruments designated as cash flow hedges has increased by \$1.1 million since August 31, 2017, primarily due to the fluctuations in interest rates, fluctuations in exchange rates for the currencies that are being hedged, and changes in the scheduled maturities of the underlying instruments during the three months ended November 30, 2017. Movements in currency exchange rates and the related impact on the translation of the balance sheets of the Company's subsidiaries whose functional currency is not the U.S. dollar were the primary cause of the \$2.0 million net loss for the three months ended November 30, 2017 in the foreign currency translation adjustments category of accumulated other comprehensive income (loss).

In addition, the Company's subsidiaries whose functional currency is not the U.S. dollar carry monetary assets and liabilities denominated in currencies other than the functional currency of the respective entity (primarily U.S. dollars) are revalued to the functional currency using the exchange rate on the balance sheet date. These foreign exchange transaction gains (losses), including transactions recorded involving these monetary assets and liabilities, are recorded as currency gain (loss) within Other income (expense) in the consolidated statements of income.

The following table summarizes the amounts recorded for the three months ending November 30, 2017 and 2016 (in thousands):

	Three Months Ended	
	November 30,	November 30,
	2017	2016
Currency gain (loss)	\$ 278	\$ (928)

From time to time we have experienced a lack of availability of U.S. dollars in certain markets (U.S. dollar illiquidity). This impedes our ability to convert local currencies obtained through warehouse sales into U.S. dollars to settle the U.S. dollar liabilities associated with our imported products, increasing our foreign exchange exposure to any devaluation of local currency relative to the U.S. dollar. During fiscal year 2017 and continuing into the first three months of fiscal year 2018, we experienced this situation in Trinidad. We are working with our banks in Trinidad to source tradable currencies (including Euros and Canadian dollars), but until the central bank in Trinidad makes more U.S. dollars available, this illiquidity condition is likely to continue. During part of the first half of fiscal

year 2017, we limited shipments of merchandise to Trinidad from our distribution center in Miami to levels that generally aligned with our Trinidad subsidiary's ability to source U.S. dollars to pay for that merchandise. This resulted in a reduced level of shipments, which negatively affected sales in the second quarter, particularly December 2016, although by less than our initial estimate. These actions did not impact the level of merchandise we obtain locally in Trinidad. Starting in the third quarter of fiscal year 2017, we were able to improve our sourcing of tradeable currencies, which, in addition to other steps we took, allowed for a more normalized flow of imported merchandise during the third and fourth fiscal quarters. Over the past three months, however, we have been unable to source a sufficient level of tradeable currencies in Trinidad consistent with the level of merchandise we were importing for the holiday shopping season. As of November 30, 2017, our Trinidad subsidiary had net U.S. dollar denominated liability exposures of approximately \$12.1 million, an increase of \$16.1 million from August 31, 2017 when our Trinidad subsidiary had a net U.S. dollar denominated asset position of approximately \$4.0 million. We are carefully monitoring the situation, which may require us to limit future shipments from the U.S. to Trinidad in line with our ability to exchange Trinidad dollars for tradeable currencies to manage our exposure to any potential devaluation.

Table of Contents

ITEM 4. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to provide reasonable assurance that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the timelines specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Principal Executive Officer and Principal Financial Officer, as appropriate, to allow timely decision regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can only provide reasonable assurance of achieving the desired control objectives, and in reaching a reasonable level of assurance, management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Also, we have investments in certain unconsolidated entities. Because we do not control or manage those entities, our control procedures with respect to those entities were substantially more limited than those we maintain with respect to our consolidated subsidiaries.

As required by SEC Rules 13a-15(e) or 15d-15(e), we carried out an evaluation as of the end of the period covered by this Quarterly Report on Form 10-Q, under the supervision and with the participation of our management, including our Principal Executive Officer and Principal Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based upon their evaluation, the Principal Executive Officer and Principal Financial Officer concluded that the Company's disclosure controls and procedures were effective at the reasonable assurance level.

In the ordinary course of business, we review our system of internal control over financial reporting and make changes to our systems and processes to improve controls and increase efficiency, while ensuring that we maintain an effective internal control environment. Changes may include such activities as implementing new, more efficient systems and automating manual processes. There has been no change in our internal control over financial reporting (as defined in Rules 13a-15(f) or 15d-15(f) of the Exchange Act) during our most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

The certifications required by Section 302 of the Sarbanes-Oxley Act of 2002 are filed as Exhibit 31.1 and 31.2 to this report.

None.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this Quarterly Report on Form 10-Q, the reader should carefully consider the factors discussed in Part I, “Item 1A. Risk Factors” in the Company’s Annual Report on Form 10-K for the year ended August 31, 2017. There have been no material changes in the Company's risk factors from those disclosed in Part I, Item 1A of the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2017.

Available Information

The PriceSmart, Inc. website or internet address is www.pricessmart.com. On this website the Company makes available, free of charge, its annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and any amendments to those reports, and the annual report to the security holders, as soon as reasonably practicable after electronically filing such material with or furnishing it to the U.S. Securities and Exchange Commission (SEC). The Company’s SEC reports can be accessed through the investor relations section of its website under “SEC Filings.” All of the Company’s filings with the SEC may also be obtained at the SEC’s Public Reference Room at Room 1580, 100 F Street NE, Washington, DC 20549. For information regarding the operation of the SEC’s Public Reference Room, please contact the SEC at 1-800-SEC-0330. Additionally, the SEC maintains an internet site that contains reports, proxy and information statements and other information regarding issuers that file electronically with the SEC at www.sec.gov. The Company made available its annual report on Form 10-K and its annual Proxy Statement for the fiscal year 2017 at the internet address <http://materials.proxyvote.com/741511>.
