General Description and Development of Subsidiary Corporation Business

Vencash Capital Corporation

Vencash Capital Corporation (Vencash Capital) was incorporated in the province of Alberta, Canada on October 2, 1996. In July 1998, Vencash Capital Corporation entered into the non-conventional banking industry otherwise known in the industry as the white label Automated Teller Machine (ATM) marketplace. Vencash Capital became the seventh (7th) Canadian channel authorized to participate within the Canadian INTERAC system.

The white label ATM marketplace as used herein means the privately owned and operated ATMs that dispense cash for a fee, which are unaffiliated by ownership or operation to Canadian Registered Chartered Banks. A channel as used herein means a provider of audit control which channels the fee revenues generated through customer usage of the ATM equipment to settlement accounts of contracted site holders and equipment suppliers.

On December 4, 1998, after a review of opportunities available in the Canadian market due to the deregulation of the Canada Bank Act and the privatization of ATMs and point-of-sale (POS) electronic transfer transaction processing, we entered into an option agreement with an arms-length shareholder of Vencash Capital, 3 Oceans Investment Corporation, a Belize corporation, to acquire a minority interest in Vencash Capital.

The option agreement provided for the exchange of 4,800,000 shares of our common stock for eight (8) shares of the issued and outstanding common stock of Vencash Capital, which equated to eight percent (8%) of the total common stock outstanding of Vencash Capital. The option agreement included the assignment of a promissory note in the amount of \$30,720 (\$48,000 Canadian Dollars (CDN)). We exercised our right under the option agreement on December 12, 1998, and exchanged 4,800,000 shares of our common stock with 3 Oceans Investment Corporation.

4

On December 7, 1998, the Corporation executed a share exchange with Mac Donald Venture Corporation, Mr. Joseph Bowser and Mr. Robert L. Robins to exchange a total of 4,800,000 shares of the Corporation's common stock in exchange for a thirty-three percent (33%) interest in Vencash Capital. The share exchange included the assignment of a promissory note in the amount of \$3,480 (\$6,000 CDN). The exchange of shares was completed on December 12, 1998. (See ***Certain Relationships and Related Party Transactions*** below.)

At the time of this transaction, WestspHERE had no operations or significant assets. Prior to such agreement, WestspHERE's only affiliation with Vencash Capital was through Mr. Mac Donald and Mr. Robins, who were officers and directors of both companies.

On December 17, 1999, WestspHERE acquired the remaining fifty-nine percent (59%) of Vencash Capital from various arms-length shareholders by way of a share exchange whereby WestspHERE issued a total of 1,770,000 common shares for fifty-nine (59) shares of Vencash Capital common stock.

Vencash Capital maintains offices at 2140 Pegasus Way N.E., Calgary, AB T2E 8M5. Vencash Capital has sites located nationally across Canada and as of December 31, 2006, holds under management nine hundred seventy-seven (977) automated teller machines (ATMs) sites in Canada, most notably in the Provinces of British Columbia and Alberta, Saskatchewan, Ontario and Maritimes. A site is described as used herein means a location where an ATM has been placed, and has contracted with Vencash Capital to provide monitoring, reporting and distribution of financial surcharge transaction revenues.

Of the nine hundred seventy-seven (977) ATM sites managed by Vencash Capital & Vencash Capital owns seventy-three (73) and the balance is owned by private purchasers or investors. Vencash Capital is one of several nationwide companies involved in the private ATM market in Canada and presently has two (2) distributors in the Maritime region, three (3) independent distributors in the Metro Toronto area of Ontario, two (2) distributors in the Province of Saskatchewan, one (1) distributor in Kamloops, British Columbia and one (1) distributor in the Greater Vancouver, British Columbia area.

Vencash Capital's principal operations are in Calgary, Alberta with several contracted sales persons and three (3) service and system technicians.

The expansion of the present operations of Vencash Capital have allowed for some integration of other opportunities for the Corporation to supply financial services and related packages, which have been marketed in conjunction with the ATM placement network. (See ***Business of Vencash Capital Corporation*** below.)

ATM Business in Canada

(a) Background of the ATM Business

In the latter part of 1997, the Canadian Banking and Financial sectors of Canadian industry commenced a government deregulation program in which under deregulation of the Canada Bank Act, allowed for the release of certain segments of proprietary control involving banking institutions. One of the preliminary results of the deregulation was the allowance of the private operation of ATMs not associated with Canadian Banking financial institutions. This private ownership and operation of ATM equipment has been described within the industry as the "white label ATM" market.

Canadian Banking Institutions have been participating in the development of new technology, particularly in regard to online computer banking. Advances originating from the introduction of credit card and debit card services evolved into the installation of commercial POS management systems across the country and the development of the Canadian INTERAC system which provided complete online banking services and 24-hour customer banking between the various existing banking institutions. It also provided for full-bank service availability from remote site locations throughout Canada.

Evolving online financial technology being pursued by the institutional banking financial sectors has been confronted by growth of computer-based commerce. The Internet and the expansion of computer generated online commerce shifted a significant amount of consumer financial services from conventional banking and financial institutions to non-traditional and new and innovative virtual-based methods of conducting financial transactions. This on-line or INTERAC connecting of the conventional banking institutions was a significant factor for profits produced by Canadian conventional banking and financial institutions during the last five (5) years.

In late 1997, "non-conventional banking" participation and private ownership of ATMs was authorized through the deregulation process within the Canada Bank Act that allowed for private participation within the Canadian INTERAC system. The implications of private ownership and participation within this technologically based commerce have been significant.

Many Canadian companies pursued participation in the field of marketing, distribution, selling, and leasing cash dispensing equipment recognized in the market place as ATMs, "ABMs" (automated banking machines), "white label machines" (a privately owned and operated cash dispensing machine).

A "switch" as used herein means a computer system that receives requests for financial transactions from ATM terminals, POS or electronic transfer terminals in retail businesses which routes transaction requests to and from ATM devices and financial institutions for final transaction processing and/or authorization. In Canada, the Canadian INTERAC network coordinates this activity. Under recent deregulation, non-financial institutions that are members of INTERAC are allowed to be indirect connectors. These non-financial institutions provide switching services for shared cash dispensing, data processing, and other associated services in connection with the network. Pursuant to the rules and regulations set out by INTERAC and current switch technology, a switch can process up to ten thousand (10,000) transactions at any given time.

The Entry of Vencash into the ATM Business

Vencash Capital identified opportunities resulting from the privatization of the ATM business. During December 1997, the first privately owned ATMs were placed in Western Canada and in July 1998, Vencash Capital entered the "white label" ATM marketplace. Vencash Capital contracted with TNS

8

Smart Network Inc. an Etobicoke, Ontario Corporation, which provides switching services to the industry, and became the 7th Canadian Channel authorized to participate within the "white label" ATM business.

By March 1999, Vencash Capital had ninety (90) ATMs under its management across Canada, primarily in the Provinces of Ontario, British Columbia and Alberta. We reached an agreement with Vencash Capital to fund, by way of lease and loan agreements, the expansion of Vencash Capital's placement of ATMs. By the 1999 year-end and with our financial assistance, Vencash Capital was able to expand its management and ownership of ATMs across Canada, increasing its network to the Maritime Provinces by establishing (2) two new distributorships, one in Prince Edward Island and one in New Brunswick.

By December 2005, Vencash Capital had sites located nationally across Canada and managed nine hundred thirty-two (932) ATMs. As of March 31, 2006, Vencash Capital held nine hundred twenty-five (925) ATM sites under management nationally across Canada, most notably in the Provinces of British Columbia and Alberta, Saskatchewan, Ontario and Maritimes. As of March 31, 2007, Vencash Capital held nine hundred seventy-seven (977) ATM sites under management nationally across Canada, most notably in the Provinces of British Columbia and Alberta, Saskatchewan, Ontario and Maritimes.

Edgar Filing: WESTSPHERE ASSET CORP INC - Form 10KSB

Vencash Capital is one of several nation-wide companies involved in the private ATM market in Canada and presently has two (2) distributors in the Maritime region of Canada, three (3) independent distributors in the Metro Toronto area of Ontario, Canada, one (1) distributor in the Province of Saskatchewan, one (1) distributor in Kamloops, British Columbia and one (1) distributor in the Greater Vancouver, British Columbia area.

At present, Vencash Capital acts as a "channel" which contracts its financial electronic transfer responsibilities with two (2) "switches" (Data West Solutions and Calypso Canada Ltd.). It is our intention to develop our own self sufficient "switch" associated directly with the Canadian INTERAC network.

The "switch" supplies the financial information to the "channel" in relationship to the processing of all surcharge fees that are associated with the customer use of the ATM. The opportunities for Vencash Capital to become a switch are of foremost importance to our management and we continue to give this project high priority.

Current Stage of Corporate Development

Historically, Vencash Capital has provided a large percentage of the cash flow which fuelled its and our other expansion. Our management believes that Vencash Capital will continue to generate positive revenues and returns. We plan to focus on supplying the required funding for the growth of our placement and ownership of equipment to Vencash Capital customers through our relationship with equipment suppliers and our contracted Switching Network to allow for the growth of the Vencash Capital distribution network as well as capitalization of its own switch development.

Growth Strategy and Market Niche

Vencash Capital is an integrated ATM provider offering a complete suite of ATM management services ranging from ATM deployment, maintenance reporting and settlement. Vencash Capital has focused on organic growth over the past three (3) years and its management's plan is to continue to its growth within the ATM market place into the future as follows:

- i. In 2007, Vencash Capital plans to evaluate the management of its ATMs in the Canadian marketplace and focus on maximizing its returns from its existing financial footprint.

9

- ii. Vencash Capital plans to continue to grow its regional ATM distribution network in both sales and servicing of ATMs and to expand its POS presence across the distribution network.
- iii. Vencash Capital plans to establish a corporate based and managed national sales force to augment and enhance its ATM distribution network across Canada.

The Canadian ATM Market

In late 1997, "non-conventional banking" participation and private ownership of ATMs was authorized allowing for participation within the "Canadian INTERAC system". The "Canadian Interac Association" as used herein is a national organization linking enterprises that have proprietary networks to enable them to communicate with each other for purposes of exchanging electronic financial transactions. Five (5) Canadian Banking and Financial Institutions founded the association in 1984. As of March 2006, there were eighty-eight (88) member organizations. INTERAC is the organization responsible for the development of a national network of shared electronic financial services: INTERAC Shared Cash Dispensing Service (SCD) at ATMs and INTERAC Direct Payment Services (IDP), Canada's national debit service. IDP is Canada's national debit card service, available at more than 365,616 merchants across the country.

The business opportunities originating for private ownership and operation of ATMs within the INTERAC system resulting from the Canada Bank Act deregulation in 1998 has matured over the past several years. With the maturity of this aspect of the business, acceptance of the white label ATM placement has become routine, however, saturation is not yet comparable to the United States market experience.

Vencash Capital believes that the Canadian market, enhanced by national access to all regions within Canada through the INTERAC System, provides it with an opportunity to continue its growth through sales and distribution networks.

Competitors

- i DirectCash Income Trust - Canada's largest ATM company in operation. It has offices and distribution centers in all of the major cities across Canada.

Edgar Filing: WESTSPHERE ASSET CORP INC - Form 10KSB

- ii. Frisco Bay - A large ATM corporation with integrated business operations which supplies security systems to major financial corporations and the banking industry.
- iii. Laser Cash (Threshold) - A large ATM operator in service. This corporation also has distribution capabilities across Canada with head offices located in Mississauga, Ontario.
- iv. Cash-Line - A Victoria, B.C. based corporation with ATM machines in service primarily across Western Canada.
- v. Ezee Cash - An Ontario and Quebec centered ATM company that has a national presence.
- vi. Several Regional and National Companies - These companies compete on a regional basis with Vencash Capital's regional distributor network and nationally with Vencash Capital corporately.

Competitive Advantages

Focusing on customer site and consumer service, Vencash Capital has focussed on long-term contractual relationships which provide recurring transactional and fixed revenue streams with a national presence

10

and a diverse customer base, including primarily small and medium retail site locations as well as a secondary presence in national or regional chain accounts.

Vencash Capital's management continues to utilize selective placement and monitoring of ATMs, to obtain maximum value for placement and a higher percentage return per terminal. Service and information dissemination will continue to be a priority for the management team, employees, distributors and strategic partners. Information processing and communications systems will integrate all components of Vencash Capital's internal and external operations.

From its inception to date, Vencash Capital's brand recognition has been positively reinforcing site customer and ATM consumer confidence. The Canadian marketplace has demonstrated that ATM site owners are receptive to positive and dependable customer service. Vencash Capital has increased its marketing and distribution network development with its administrative, operational and service mechanisms and plans to continue its expansion in established and new areas. Vencash Capital's management plans to expand the business operations of Vencash Capital by continuing to support its partnership program with its current distribution network. To add and enhance its network of regional distributors, Vencash Capital intends to establish a corporate based and managed national sales force to augment and enhance its ATM distribution network across Canada.

Vencash Capital's management believes there will be a continued consolidation in the white-label ATM marketplace in 2007. This will likely result in several large national organizations vying for marketplace dominance. The sourcing of acquisitions and business consolidation has been quite active in Canada and remains an option that continues to be reviewed by us.

On June 08, 1998, Vencash Capital signed a supply agreement with Triton Systems, Inc., an ATM manufacturer and supplier. The agreement contains pricing schedules based upon Vencash Capital's volume purchase requirements.

Vencash Capital has processing agreements with the following vendors:

- i. Open Solutions formerly known as Data West and TCS (Canada) Ltd, executed June 24, 1999.
- ii. Calypso Canada Ltd. originally executed on August 1999 and later renegotiated in December 2003.

We have a large customer base and a large geographical area in which to market our products. Vencash Capital presently has eleven (11) distributors of its equipment, products and services under contract across Canada, two (2) contracted sales persons in Vancouver, B.C. and five (5) contracted sales persons in the Province of Alberta, Canada. Vencash Capital is one of several nation-wide companies involved in the private ATM market in Canada. Our management believes that the expansion of the present operations of Vencash Capital will allow for vertical integration of other opportunities for us to supply financial services and packages, which can be marketed in conjunction with the ATM placement network

Risk Assessment

The private "white label" ATM business is highly competitive. We face competition from large numbers of companies engaged in the selling and servicing of ATM products in all areas in which we may attempt to operate. Many of the programs and companies so engaged possess greater financial and personnel resources than us and therefore have greater leverage to use in developing technologies, establishing markets, acquiring prospects, hiring personnel and marketing. Accordingly, a high degree of competition in these areas is expected to continue. The major banks in Canada could aggressively enter the "white

11

label" market and we could not overcome or compete with them due to their financial and corporate strength.

We and our subsidiaries are subject to the terms and conditions applicable to channels as set forth by the INTERAC network system.

b. Business of Westsphere Financial Group Ltd.

Upon Management's 2004 review and reorganization and consolidation of our business operations, we suspended all distribution, software injection and key coding related to point placement on the switch. The sale and distribution systems remain ongoing through our controlled subsidiary, TRAC POS Processing Inc., and the corporate shell was sold in May 2005 after being inactive for a period of six (6) months.

c. Business of Vencash POS Services Inc.

On May 09, 2003, we incorporated Westsphere POS Services Ltd. (Westsphere POS) under the laws of the Province of Alberta for the purpose of providing sales and servicing in the POS market. POS as used herein means an electronic terminal that accepts bank debit cards and credit cards to pay by way of direct settlement to the retailers account from the customers banking or credit card provider on a daily basis for a purchase of goods or services. On January 04, 2006, Westsphere POS changed its name to Vencash POS Services Inc. (Vencash POS) with the intent that Vencash POS would consolidate all of our POS related business activity to date, the consolidation process is ongoing and until such time as the consolidation is completed, there will be limited business activity.

d. Business of Kan-Can Resorts Ltd.

Kan-Can acquired three hundred thirty-two (332) acres of recreational land located on a Province Government Head lease located near the City of Canmore in the Province of Alberta, Canada. The annual cost of the lease was approximately \$5,300 with lease expiry and renewal scheduled for October 31, 2004.

Alpine Resort Haven Ltd. ("Alpine") was formed as a limited partnership with Kan-Can owning a seventy-four percent (74%) interest and acting as the general partner. Alpine constructed and operated a timeshare resort on the leased land, but was petitioned into bankruptcy in April 2000. On October 19, 2001, we purchased an additional fifty-seven percent (57%) interest in Kan-Can from 347830 Alberta Ltd. Westsphere we thereby became acquired a sixty-seven percent (67%) majority owner of 67% interest after the acquisition. Westsphere Our interest in Alpine later increased to then became a ninety-nine percent (99%) owner of Kan Can through as a result of a settlement reached with a corporation established by some of Alpine's Resort's timeshare owners.

On November 26, 2001, Kan-Can sold the head lease to the property for \$465,087 (\$740,000 CDN) along with Kan-Can common stock equaling thirty-two percent (32%) of the outstanding shares before the transaction. A mortgage bearing an interest rate of four-and-a-half percent (4.5%) with monthly payments (principal and interest) of \$5,720 (\$8,982 CDN), is accounted for by us as a debt investment being held to maturity. The shares received were returned to the treasury and cancelled. As a result of this transaction, our ownership percentage of Kan-Can increased to ninety-nine percent (99%) and we accordingly adjusted our equity in the subsidiary by \$1,630. Kan-Can continues to have no business activities other than collecting the monthly mortgage payments resulting from the sale of the head lease on November 26, 2001. In 2004, we were notified by the mortgagee, and subsequently confirmed in documentary form, that the government head lease had been renewed for an additional twenty-five (25) years thereby entitling Kan-Can to the continued receipt of mortgage proceeds. Final payment of our

12

mortgage financing arrangements mature with the last mortgage payment scheduled for August 3, 2007. It is anticipated that the business of Kan-Can will be wound down upon completion of the financial arrangements. On April 1, 2007, Banff Gate Mountain Resort Ltd. has decided to exercise their option to pay the mortgage in full.

e. Business of Westsphere Systems Inc.

Westsphere Systems was formed to provide us with technical services and is focusing its business development primarily on:

- i. Having received approval in March 2007 by INTERAC Association, as an acquirer in the Association's SCD Service and as an acquirer in the Association's IDP Service. This will make Westsphere Systems an indirect connector, thereby resulting in it owning and managing a switch.

- iii. Providing premium in-house web-hosting services to us and other selected customers.
- iv. Providing in-house (or through joint venture relationships) proprietary development space and business support for in-house product development, where certain proprietary rights and development are obtained for services supplied by Westsphere Systems in order to integrate these developments into our present subsidiaries.

f. Business of E-Debit International Inc.

E-Debit initial development stages focused on meeting the payment system needs of current and potential online shoppers. E-Debit's business model was based on an anonymous payment system to protect the identity of the purchaser while allowing for guaranteed payment to the merchant. E-Debit intended to accomplish this system by developing and marketing a secure, anonymous online payment system that could be used by online consumers and merchants.

The events of September 11, 2001 caused our management to seriously evaluate the anonymity factor of the E-debit process, particularly because the E-debit process allowed for the anonymous transfer of currency. The anonymity extended to E-Debit as the E-debit account holder's identity would not be

available to E-Debit once the account numbers had been changed by the individual account holder, thereby allowing currency transfers without any ability to track or trace the account holder.

On February 11, 2004, we entered into a purchase agreement to acquire an additional ten percent (10%) interest in E-Debit from a non-affiliated third party E-Debit shareholder. With this purchase, E-Debit became one of our wholly owned subsidiaries. The function of E-Debit has been expanding in conjunction with the original functionality of the E-debit process. The business model has been amended in order to incorporate and integrate the E-debit process into the aspects of our ATM, POS and Cash Direct Financial Services Inc.'s other financial-based business operations. This project is now pending until determination of its appropriate applications. E-Debit has had no new business activity to date.

g. Business of Cash Direct Financial Services Inc.

Edgar Filing: WESTSPHERE ASSET CORP INC - Form 10KSB

Cash Direct was formed to help expand our non-conventional banking operations branded Personal Financial Solutions.

Non-Conventional Banking Business as used herein means business-related activities normally associated with a privately owned and operated registered chartered bank or bank affiliated financial institution in Canada which is not affiliated with a Canadian Chartered Bank.

The first Personal Financial Solutions storefront commenced business operations on November 1, 2004 supplying short-term cash advance loan agreements under the brand name CashDirect Advance, cheque cashing services, corporate registry and filing and other related services.

Cash Direct generated revenues through its investment in Personal Financial Solutions through its first beta site which grew on a monthly basis during the first full year of operations. Our management believes that this supports the acceptance, convenience, versatility and reliability of our Cash Direct proprietary hardware and related software. As a result, we have established two (2) additional Personal Financial Solutions distributorships one in Edmonton, Alberta and another in Calgary, Alberta.

With the start up of the second Calgary Personal Financial Solutions independent business centre on March 15, 2006, the Calgary beta test store was wound down and its client base was transferred to Personal Financial Solutions Store #3. With continuing development of the proprietary software and the upgrading of the financial component, the national roll out of Personal Financial Solutions stores are underway. We believe that Cash Direct will allow for the continued development of our subsidiary, E-Debit, as well as switch development through Westsphere Systems.

Current Stage of Our Development.

Our group of companies employs twenty-two (22) full-time employees and three (3) contracted consultants working in our offices in Calgary, Alberta.

We were incorporated in Colorado on July 21, 1998, and hold wholly owned subsidiaries which conduct business throughout Canada. We file and prepare our financial information in accordance with U.S. generally accepted accounting principals (GAAP).

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND CHANGES IN FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Edgar Filing: WESTSPHERE ASSET CORP INC - Form 10KSB

Westisphere and its subsidiaries generated a net income of \$139,794 from operations for the twelve month period ending December 31, 2006. During the period of operations ending December 31, 2005, Westisphere and its subsidiaries generated a net income of \$23,444. The increase in year 2006's net income of \$116,350 over the previous year was primarily due to the currency exchange gain of \$111,903 in year 2006. The currency exchange gain was caused by the different exchange rate of approximately \$0.15 used between the time the payable is recorded and the time the payable is paid to an ATM supplier. The payable to the ATM supplier was initially recorded in year 2004 at an exchange rate of \$1USD = \$1.30 CDN. In year 2006, the payable to the ATM supplier was finally resolved and was paid at an exchange rate of \$1USD = \$1.15 CDN.

The net income from 2006 operations of \$139,794 includes an \$111,903 currency exchange gain during the year. As explained in the previous paragraph, the currency exchange gain was caused by the different exchange rate of approximately \$0.15 used between the time the payable was recorded and the time the payable was paid to an ATM supplier.

Also contributing to the increase in year 2006's net income was a net increase of \$176,796 in residual and interchange income from the previous year: in 2005 the net of residual and interchange income totaled

16

\$1,452,959, whereas in 2006, the net of residual and interchange income totaled \$1,629,755. This increase was mainly caused by an increase in the number of placements of ATMs in the latter part in year 2005, and throughout the year 2006. The increase in net of residual and interchange revenue is partially offset against a decrease in net equipment and supplies revenue of \$90,899: in 2005 net of equipment and supplies revenue totaled \$128,124, whereas as in 2006, net of equipment and supplies revenue totaled \$37,225. This significant decrease in net of equipment and supplies sales was due to Westisphere's subsidiary Vencash Capital Corporation mainly focusing on the placement, and finance/lease program offered by an ATM supplier in year 2006. The finance/lease program provides Vencash Capital an opportunity to place more ATMs in the marketplace at a lower cost.

The increase in year 2006's net income is also offset against an increase in salaries and benefits of \$79,413, an increase in consulting fees of \$15,465, an increase in travel, delivery and vehicle expenses of \$12,861, a decrease in other expenses of \$51,961, and an increase in interest income of \$48,689.

An increase in salaries and benefits from the previous year 2005 of \$645,035 to \$724,448 which was primarily due to staffing for Westisphere Systems Inc.'s IT department, two additional staff for the Service department of Vencash Capital Corporation, one receptionist and one junior accountant during year 2005.

An increase in consulting fees was due to hiring a consultant to provide consulting work for Westisphere's subsidiary Cash Direct Financial Services Ltd. during year 2006.

An increase in travel, delivery and vehicle expenses was due to an increase in number of placement of ATMs in the marketplace.

A decrease in other expenses was caused by a decrease in bad debt expense and telephone expense. The decrease in bad debt expense was caused by a more efficient and effective collection system implemented during year 2006. Other expenses included bad debt of \$8,854, ATM insurance of \$34,815, office lease including operating costs of \$140,274, repairs and maintenance of \$19,200, telephone of \$83,168, office supplies of \$54,690, interest and bank charges of \$10,280, and various general and administrative expenses of \$24,959.

An increase in interest income of \$48,689 was primarily collected from a sales-type lease receivable of \$45,823 and bank interest of \$2,866.

During the period of operations ending December 31, 2006, Westisphere received \$4,481 from an employee who exercised his option to purchase 4,767 shares of preferred stock. In December 2006, the four convertible debentures related parties total of \$125,418 exercised their options to convert into preferred stock at \$1 per share. The outstanding debentures are payable to persons who are shareholders of the Company.

In order to grow Westisphere's businesses in ATM machines, in Finance/Lease and in POS machines, Westisphere is dependent upon private placements, loans and/or joint venture arrangements. The profits are expected to be generated by the interchange and surcharges collected from ATM and POS machines, the sale of ATM and POS machines, and from Financing and leasing charges.

Changes in Financial Position

During fiscal year 2005, total assets increased to \$1,918,206 primarily due to an increase in cash, accounts receivable, and inventory of ATM machines and POS machines. The increase in cash is mainly due to a collection of funds from the sales-type lease agreements during the year in the amount of \$209,019. The accounts receivable increase of \$114,561 is primarily due to Westisphere's subsidiary Cash Direct Financial

Edgar Filing: WESTSPHERE ASSET CORP INC - Form 10KSB

Services Ltd. s business operations which consist of distributorship fees of \$24,491, and \$37,903 from cash advances to 1105725 Alberta Ltd. operating as Personal Financial Solutions Store #1, (first Beta site).

17

The remaining balance of the increase in accounts receivable is primarily due to the current portion of minimum lease payment receivables of \$33,092 and Canadian goods and services tax receivables of \$11,344.

The increase in inventory is caused by the purchase of inventory for resale/lease and upgrade kits for ATMs to maintain adequate levels of inventory on hand at year end. As of December 31, 2005, Westsphere's current liabilities consisted of accounts payable of \$935,644 and accounts payable to related parties of \$132,773. Accounts payable includes payables of \$284,929 to suppliers for the purchase of ATM machines and POS machines, \$208,699 is payable for the return of surcharge and interchange, accounting and legal payables in the amount of \$58,688, current portion of lease payable in the amount of \$11,486, long term lease payable to ATM suppliers in the amount of \$211,197, and \$160,645 due for consulting services, office expenses and various other general fees and charges.

Accounts payable to related parties consists of Officers and Directors bonuses payable carried forward from year 2002 in the amount of \$65,671, a loan advanced from Westsphere s President in the amount of \$36,809, a cash advance from KSD Group Ltd. of \$13,052 which is controlled by Westsphere officers, and a cash advance from Westsphere s Vice President in the amount of \$17,241 which was repaid in January 2006.

Long term liabilities as at December 31, 2005 consisted of a bank loan totaling \$72,615 for funds to pay down accounts payable to a major supplier, convertible debentures totaling \$124,979 for funds advanced for general working capital by various related and unrelated parties, and \$256,636 for outstanding accounts due to shareholders of Westsphere. Westsphere's shareholder loans related to TRAC of \$137,896 and a Vencash related loan of \$34,483 have interest rates of 18% and 12%, respectively. They both are demand loans. The remaining balance of shareholder loans total \$84,257 with no specific terms of repayment.

Shareholders' equity as of December 31, 2005 was \$391,188, inclusive of an accumulated loss from operations of \$1,489,537, as compared to shareholders equity of \$294,452 as of the same date from the previous year. Total issued and outstanding share capital as of the year ending December 31, 2004 was 1,731,183 common shares as compared to a total of 621,939 common shares and 1,215,721 preferred shares as of December 31, 2005. The conversion from common to preferred shares during the year is a result of the shareholder s resolution, approved at the Annual Meeting of Shareholders held on December 7, 2002. The Company converted 1,215,721 common shares into 1,215,721 preferred shares during the year. As of March 15, 2006, the Company finalized its conversion and has a total of 1,285,958 preferred shares and 551,702 common shares issued and outstanding.

During fiscal year 2006, total assets decreased to \$1,303,752 primarily due to a decrease in inventory of ATM machines and POS machines of \$96,284, a decrease in prepaid expenses and deposit of \$33,871, and a repayment in mortgage receivables of \$85,898. The decrease in inventory was caused by Westsphere s subsidiary Vencash Capital mainly focusing on the finance/lease program offered by an ATM supplier for the placement of ATMs, therefore, the Company intended to maintain lower levels of inventory for resale/lease for ATMs on hand at year end.

As of December 31, 2006, Westsphere's current liabilities consisted of accounts payable of \$576,621 and accounts payable to related parties of \$122,463. Accounts payable includes a payable of \$12,506 to suppliers for the purchase of ATM machines and POS machines, \$174,740 is payable for the return of surcharge and interchange, long term lease payable to ATM suppliers in the amount of \$197,475, legal and accounting fees of \$32,894, and \$159,006 due for consulting services, office expenses and various other general fees and charges.

Accounts payable to related parties consists of Officers and Directors bonuses payable carried forward from year 2002 in the amount of \$64,624, a loan advanced from Westsphere s President in the amount of \$32,102, and a cash advance from Westsphere s Vice President in the amount of \$25,737 which was repaid in January 2007.

18

Long term liabilities as at December 31, 2006 consisted of a bank loan totaling \$14,125 for funds to pay down accounts payable to a major supplier, and \$223,771 for outstanding accounts due to shareholders of Westsphere. Westsphere's shareholder loans related to TRAC of \$155,183 has an interest rate of 18% per annum. This is a demand loan. The remaining balance of shareholder loans total \$68,588 with no specific terms of repayment.

Shareholders' equity as of December 31, 2006 was \$366,772, inclusive of an accumulated loss from operations of \$1,635,374, as compared to shareholders equity of \$105,557 as of the same date from the previous year. The increase in shareholders equity of \$261,215 was primarily due

to a restatement of year 2004 intangible assets of TRAC POS remainder impairment loss of \$285,631. At December 31, 2004, Westsphere's management evaluated the estimated future cash flows associated with the intangible assets of TRAC POS, and recorded an impairment loss of \$491,205. After further analysis, Westsphere's management determined that the impairment should have included an additional loss of \$285,631 for the fiscal year ending 2004. Retained earnings and the Statement of Stockholders' Equity have been restated for this amount.

Total issued and outstanding share capital as of the year ending December 31, 2005 was 621,939 common shares and 1,215,721 preferred shares as compared to a total of 551,700 common shares and 1,416,143 preferred shares as of December 31, 2006. The conversion from common to preferred shares during the year is a result of the shareholder's resolution, approved at the Annual Meeting of Shareholders held on December 7, 2002.

In December 2006, Westsphere issued 130,185 preferred shares: 4,767 preferred shares issued to a former employee who exercised his option, and 128,418 preferred shares issued to four convertible debentures related parties who exercised their options to convert into preferred stock at \$1 per share. The outstanding debentures are payable to persons who are shareholders of the Company.

On January 26, 2007, the Corporation executed a share exchange agreement with non-affiliated third party TRAC shareholders to exchange a total of 24,142 shares at \$1.62 CDN. per share of the Corporation's common stock in exchange for a nineteen (19%) percent interest in TRAC POS and affiliated TRAC shareholders, Jack Thomson and Brett Border to exchange a total of 6,916 shares at \$1.62 CDN per share of the Corporation's common stock in exchange for a twelve (7%) percent interest in TRAC POS Processing Inc. Mr. Thomson is a member of Westsphere's Board of Directors and Mr. Border is the President of Vencash Capital Corporation and Trac POS Processing Inc. This share exchange resulted in Westsphere holding an 82% majority shareholder position in TRAC. (See "*Business of TRAC POS Processing Inc.*" below.)

On March 8, 2007, 10,025 common shares issued to Westsphere's Vice President, Robert L. Robins who exercised a portion of his 2002 options at \$0.70 per common share.

Liquidity

Westsphere expects that its need for liquidity will increase in 2007 in anticipation of expending funds to develop its growth plan. Westsphere was able to raise \$209,019 from the collection of sales-type lease agreements in the latter part of year 2005. The cash is used for circulation in Vencash's owned ATMs. Westsphere was unable to raise the funds last year necessary to grow Vencash Capital due to the condition of Corporations' financial market. However, in the latter part of year 2006, Westsphere's subsidiary Vencash Capital entered into a finance/lease agreement with an ATM supplier. This finance/lease program enables Vencash Capital to grow its ATM business at a potential lower costs; no

upfront capital to growth the business.

Short Term

On a short term basis, Westsphere's subsidiary Vencash Capital will generate sufficient revenues to meet overhead needs. In order to meet its growth plan, Westsphere will continue to be dependent on equity funds raised, joint venture arrangements and/or loan proceeds. Westsphere believes that it will continue as a going concern with the present revenues from its subsidiary Vencash Capital Corporation but it would be unable to meet its market growth projections without further funding outside of the ongoing revenue from operations of Vencash.

Westsphere's current assets of \$1,002,672 are higher than its current liabilities of \$699,084 as at the year ending December 31, 2006. The current liabilities include the accounts payable to related parties of \$122,463 which consist of the bonuses to Officers and Directors payable carried forward from year 2002 in the amount of \$64,624, a cash advance from Westsphere's President in the amount of \$32,102, and a cash advance from Westsphere's Vice President in the amount of \$25,737; which was repaid in January 2007.

Long Term

As mentioned above, Westsphere believes that its subsidiary, Vencash Capital, generates sufficient ongoing revenue to ensure that Westsphere is a going concern. It is anticipated that operations will have substantial increases in net cash flow at the fiscal year end December 31, 2006. In addition, Westsphere believes that further substantial cost savings will occur with the new program system implemented to improve the effectiveness and efficiency of the operations. Westsphere will remain reliant on the Successful development and marketing of the products related to its business for possibility of future income.

Capital Resources

The primary capital resource of Westsphere is the operations of Vencash Capital, its wholly owned subsidiary.

WestspHERE Asset Corporation, Inc. (Company) was incorporated in Colorado on July 21, 1998 as Newslink Networks TDS, Inc. and changed its name to WestspHERE Asset Corporation Inc. on April 29, 1999.

The Company's primary business is the sale and operation of cash vending (ATM) and point of sale (POS) machines in Canada.

On December 12, 1998, the Company acquired 41% of Vencash Capital Corporation (Vencash), a Canadian Corporation, and then on December 17, 1999 acquired the remaining 59% of the outstanding stock of Vencash. The Vencash stock was acquired by exchanging the Company's common stock with shareholders of Vencash. Vencash is in the business of selling and installing cash vending machines (ATM machines) throughout Canada. Because certain shareholders were shareholders of both corporations, the Company accounted for its acquisition of Vencash as a reverse acquisition, which are a capital transaction and not a business combination.

On May 18, 1999, the Company formed a wholly owned Alberta subsidiary, WestspHERE Financial Group Ltd. (Financial), which was organized to lease cash vending machines. During the period from June 1999 through October 2001 the Company acquired 99% of Kan-Can Resorts Ltd. (Kan-Can), an Alberta company by exchanging stock. On May 16, 2000, Vencash ATM/POS Services Inc., (formerly VC/POS/ATM Services Inc.) (Services) and WestspHERE Systems Inc. (formerly 880487 Alberta Ltd.) (Systems) were incorporated as wholly owned Alberta subsidiaries of the Company. During 2000 and 2001, the Company acquired a 90% interest in E-Debit International Inc. (E-Debit), a company engaged in the development of online payment systems, and which has no other operations. On September 23, 1998, Vencash Capital Corporation incorporated Vencash Financial Corporation (Financial) in Alberta. Vencash Financial has had no business activity. In January of 2003 the company incorporated two wholly owned subsidiaries, WestspHERE Development Corporation to pursue real estate development opportunities, and WestspHERE Entertainment Corporation to pursue opportunities in the entertainment industries, both of which have had no business activity to date. During 2005, the Company formed a wholly owned Alberta subsidiary, Cash Direct Financial Services Ltd (Cash Direct), as a holding company for a 51% interest in 1105725 Alberta Ltd DBA Personal Financial Solutions, an Alberta Corporation, to pursue opportunities in check cashing, payday loans, and similar businesses.

Note 2 Summary of Significant Accounting Policies

These financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and are stated in United States dollars.

Use of Estimates in the Preparation of Financial Statements

28

WESTSPHERE ASSET CORPORATION, INC. Notes to the Consolidated Financial Statements For the Years Ended December 31, 2006 and 2005

The preparation of the Company's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and to report amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid debt instruments with an original maturity of three months or less to be cash equivalents.

Estimated Fair Value of Financial Instruments

The carrying value of accounts receivable, accounts payable and accrued expenses, and loans payable to related parties reflected in the financial statement approximate fair value due to the short-term maturity of the instruments. The fair value of the mortgage receivable (a debt investment being held to maturity), based on estimated current interest rates for comparable instruments, is \$65,715 compared to its carrying value of \$61,290.

Inventory

Inventory consists primarily of cash vending and POS machines, which are valued at the lesser of cost (on a first-in, first-out method) or net realizable value.

Earnings (Loss) per Share

Earnings (loss) per share is computed dividing the net (loss) by the weighted average number of shares outstanding during the periods ended December 31, 2006 and 2005.

Valuation of Long-Lived Assets

The Company periodically analyzes its long-lived assets for potential impairment, assessing the appropriateness of lives and recoverability of unamortized balances through measurement of undiscounted operation cash flows on a basis consistent with accounting principles generally accepted in the United States of America.

Revenue Recognition

Revenues are recognized in accordance with SEC Staff Accounting Bulletin (SAB) No. 101, "Revenue Recognition in Financial Statements." Under SAB 101, product revenues (or service revenues) are recognized when persuasive evidence of an arrangement exists, delivery has occurred (or service has been performed), the sales price is fixed and determinable and collectibility is reasonably assured.

Revenues from sales, leasing and servicing of individual cash vending machines are recognized when substantially all significant events to be provided by the Company have been performed.

WESTSPHERE ASSET CORPORATION, INC. Notes to the Consolidated Financial Statements For the Years Ended December 31, 2006 and 2005

Interchange and residual revenues from the operation of vending and point-of-sale machines are recognized when the transaction is processed and due to the company.

The company rents ATM machines to customers on a month-to-month basis. The carrying value of property rented to customer as of December 31, 2006 is \$32,282. Because all rental agreements are on a month-to-month basis, there are no minimum future rentals.

The Company offers no warranties or right of return beyond manufacturers' warranties.

Foreign Currency

The functional currency of the Company and its subsidiaries is the Canadian dollar. The Company translates amounts into United States dollars using the current rate method. Under this method, assets and liabilities are translated to United States dollars at current exchange rates; revenues and expenses are translated at the average exchange rate during the period, and equity account are translated at the historical rate. Related translation adjustments are reported as other comprehensive income, a component of stockholders' equity.

Income Taxes

The Company records deferred taxes in accordance with Statement of Financial Accounting Standards (SFAS) No. 109, "Accounting for Income Taxes." The statement requires recognition of deferred tax assets and liabilities for temporary differences between the tax bases of assets and liabilities and the amounts at which they are carried in the financial statements, based upon the enacted tax rates in effect for the year in which the differences are expected to reverse. A valuation allowance is established when necessary to reduce deferred tax assets to the amount expected to be realized.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the Company and all of its wholly-owned and majority-owned subsidiaries. All inter-company accounts have been eliminated in the consolidation.

Minority interests in the income and equity of consolidated subsidiaries that are less than wholly-owned are recorded except when the subsidiary has a deficit and there are no agreements for the minority shareholders to contribute additional capital. As of December 31, 2006 all minority-owned subsidiaries had deficits and therefore no minority interest is recorded.

Other

The Company has elected December 31 as its fiscal year end.

The Company expenses advertising costs as incurred and the total amounts for 2006 and 2005 where nominal.

30

Note 3 Restatement of Financial Statements

At December 31, 2004, the Company evaluated the estimated future cash flows associated with the intangible assets of TRAC POS, and recorded an impairment loss of \$491,205. After further analysis, the Company determined that the impairment should have included an additional loss of \$285,631 for the fiscal year ending 2004. Retained earnings and the Statement of Stockholders Equity have been restated for this amount.

Note 6 Common and Preferred Stock

The company has adopted a plan approved by shareholder's resolution at the Annual Meeting of Shareholders held on December 7, 2002 to allow the conversion of common shares for preferred shares one a on-for-one basis. Upon

Note 11 Recent Accounting Pronouncements

In March 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 156, "Accounting for Servicing of Financial Assets--an amendment of FASB Statement No. 140." This statement requires an entity to recognize a servicing asset or servicing liability each time it undertakes an obligation to service a financial asset by entering into a servicing contract in certain specified situations. This statement is effective for fiscal years beginning after September 15, 2006, with early adoption permitted as of the beginning of an entity's fiscal year. Management believes the adoption of this statement will have no impact on the Company's financial condition or results of operations at December 31, 2005.

In July 2006, the FASB issued FIN 48, Accounting for Uncertainty in Income Taxes An Interpretation of FASB Statement No. 109 (FIN 48). FIN 48 provides detailed guidance for the financial statement recognition, measurement and disclosure of uncertain tax positions recognized in an enterprise's financial statements in accordance with SFAS 109. The applicable percentage of ownership for each shareholder is based on 551,702 shares of common stock and 1,285,958 shares of preferred stock outstanding as of March 15, 2007 together with applicable options for that shareholder.
