FORWARD-LOOKING STATEMENTS

This Report on Form 10-KSB contains certain forward-looking statements. These forward looking statements include statements regarding (i) research and development plans, marketing plans, capital and operations expenditures, and results of operations; (ii) potential financing arrangements; (iii) potential utility and acceptance of the Registrant's existing and proposed products; and (iv) the need for, and availability of, additional financing.

The forward-looking statements included herein are based on current expectations and involve a number of risks and uncertainties. These forward-looking statements are based on assumptions regarding the business of Interactive Multimedia Network, Inc., the ("Company"), which involve judgments with respect to, among other things, future economic and competitive conditions and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond the control of the Company. Although the Company believes that the assumptions underlying the forward looking statements are reasonable, any of the assumptions could prove inaccurate and, therefore, actual results may differ materially from those set forth in the forward-looking statements.

THUNDER MOUNTAIN GOLD, INC.

Form 10-KSB

December 31, 2003

**PART I**

**ITEM 1. DESCRIPTION OF BUSINESS**

(A) Business Development

The Company was originally incorporated under the laws of the State of Idaho on November 9, 1935, under the name of Montgomery Mines, Inc. In April, 1978 the Montgomery Mines Corporation was obtained by a group of the Thunder Mountain property holders and changed its name to Thunder Mountain Gold, Inc. with the primary goal to further develop their holdings in the Thunder Mountain Mining District, Valley County, Idaho. In August 1985, the Company's shareholders approved an increase in the authorized common stock, \$0.05 par value, from 7,500,000 shares to 12,000,000 shares. Quotations of the bid and ask prices for the stock are published by the Spokane Quotations Service of Spokane, Washington.

(B) Business Of Issuer

The Company's primary property at Thunder Mountain was placed into operation in the mid-1980s by Coeur 'd Alene Mines (CDA) under a net profits arrangement. Gold and silver production totaled approximately 180,000 ounces gold by CDA from the Sunnyside Deposit by open pit mining and heap leaching. Coeur 'd Alene ceased production in the early 1990s and relinquished the claims back to the Company, and completed required closure and reclamation work that won significant praise from the agencies and outside interests.

In February 1992, a joint venture between the Company and Dewey Mining unified the mining district and provided significant added value to both entity's property positions. Subsequent to the formation of this joint venture, the joint properties were leased to and explored by several major mining companies, with the most extensive work being completed by USMX/Dakota Mining. They expended approximately \$5,000,000 to explore the district and define a significant measured mineral resource Dewey Hill mineralized zone, the historic mining area on the Dewey property. Bankruptcy by Dakota Mines provided an opportunity for the Company and Dewey Mining to acquire the consolidated district, with an improved land package, for future development. USMX/Dakota Mining had initiated an Environmental Impact Statement (EIS), additional baseline studies and other permitting requirements to place the Dewey Hill deposit into production. The Company continued these activities to the extent reasonable.

---

THUNDER MOUNTAIN GOLD, INC.

Form 10-KSB

December 31, 2003

During 2000, the Company and their joint venture partner, Dewey Mining Company, entered into an Option Agreement with Trust for Public Lands to purchase the consolidated mining district. The Trust for Public Lands is a nonprofit organization dedicated to the preservation of nature for human enjoyment and well-being. The Thunder Mountain Mining District is located on a cherry-stem within the Frank Church River of No Return Wilderness that was specifically outlined to allow continued development of the historic mining area. Due to its location, the Company's land position is a candidate for purchase by the United States Forest Service through the Land and Water Conservation Funds and other appropriations. The Option recognizes a minimum acceptable value for the measured mineral resource and real property, and if this is not met, the Company maintains the ability to continue development of the property. All permitting efforts were placed on hold pending the completion of the initial appraisal, which has been delayed due to agency time requirements. At the end of 2003, the Forest Service had agreed to complete and pay for the future appraisal work, this now expected to be completed by mid-2004. The Option Agreement was extended and continued in full force by mutual written agreement between The Trust for Public Land and both the Company and Dewey Mining Company.

The Company is an exploration stage company and there is no assurance that a commercially viable mineral deposit exists on any of its properties. Further exploration efforts will likely be required by the Company or lessor before a final evaluation as to the economic and legal feasibility of conducting further operations is determined.

In addition to the patented claims, the Company also owns unpatented mining claims. The validity of unpatented mining claims is dependent upon inherent uncertainties and conditions. These uncertainties related to such non-record facts as the sufficiency of the discovery of minerals, proper posting and marking of boundaries, whether the minerals discovered were properly locatable as a lode claims or a placer claim as appropriate, the payment of annual claim holding fees of \$100.00 per claim as required by law, and possible conflicts with other claims not determinable from descriptions of record. In the absence of a discovery of valuable minerals, a mining claim may be open to location by others unless the owner is in actual possession of the claim and making the required annual payments. No assurance can be given with respect to unpatented mining claims in the exploratory stage that the requisite discovery of a valuable mineral deposit can be made thereon.

#### PRECIOUS AND OTHER MINERAL PROPERTIES

1. Thunder Mountain Mining District, Valley County, Idaho

Edgar Filing: THUNDER MOUNTAIN GOLD INC - Form 10KSB

The Company and their joint venture partner, Dewey Mining Company, holds 272 unpatented and 50 patented lode claims and fractional claims in the historic Thunder Mountain District of Valley County, Idaho. The Company's claims are located in the Thunder Mountain Mining District, approximately 55 miles east of McCall, Idaho. The approximate location of the property is illustrated on the following map.

---

THUNDER MOUNTAIN GOLD, INC.

Form 10-KSB

December 31, 2003

---

THUNDER MOUNTAIN GOLD, INC.

Form 10-KSB

December 31, 2003

The Registrant and Dewey Mining Company, also an Idaho Corporation, entered into a joint venture agreement in February 1992. The joint venture owns outright a total of 50-patented lode-mining claims (735.5 acres total) and 272 unpatented lode claims (5,245 acres total). With the exception of one small claim block within the Frank Church River of No Return Wilderness (their location pre-dated the wilderness designation), all of the claims are within the cherry-stem that forms a corridor into the wilderness. Mineral development within this cherry-stem is subject to the same regulatory stipulations as the United States Forest Service managed land surrounding the wilderness. Some of the Company's claims within the cherry stem are partially within the wilderness area, but these were, for the most part, located as protection of the land position more central to the cherry-stem that either has mineral resources or exploration potential.

---

THUNDER MOUNTAIN GOLD, INC.

Form 10-KSB

December 31, 2003

Under the terms of the Joint Venture, both Dewey Mining Company and Thunder Mountain Gold joined all resources including patented and unpatented mining claims, mineralized material, water rights and any other right, title and interest on the properties. All costs connected with the effort of marketing the joint properties to environmental interests, mining companies, or other interested parties are shared on a 50-50 basis. All properties and expenditures as of the date of the joint venture agreement are considered equal. All net proceeds generated by, or from the joint properties will be shared on a 50-50 basis. The joint venture agreement does not create a partnership, and each Party will hold the other harmless from any pre-existing obligation and liabilities. Dewey Mining Company retained ownership of their existing 500 ton-per-day gravity gold processing mill, although this facility could be utilized for processing gold-silver mineralization mined from any deposit defined on the joint property.

*Mineralization and Current Activity*

Mineralization within the Thunder Mountain District is hosted in the volcanic rock sequence of the Thunder Mountain Caldera and lies within the northeast-trending Trans-Challis Mineral Belt of central Idaho. The Dewey Deposit is hosted in rhyolitic ash fall tuffs and tuffaceous sediment of the Dewey Sequence, part of the extensive Eocene Challis Volcanic Group. Three gold-silver mineralized zones are defined within the Dewey Deposit: 1) an upper tuffaceous sediment unit; 2) a middle ash fall tuff unit, and; 3) a lower mudflow agglomerate unit. Gold and silver mineralization is both structurally and stratiform controlled, with the better grades occurring along structural zones where hydrothermal fluids concentrated mineralization. Other areas of past production and future potential mineralization within the district are within similar geologic and host rock settings.

Exploration of the Dewey Deposit has been extensive, with work completed by several exploration and mining companies since the 1970s. A mineralized resource has been defined using after the completion of 256 drill holes on 100-foot centers with some areas of 50-foot fill in drilling that resulted in 12,275 assay intervals. Extensive geologic mapping and sampling, with some exploratory drilling, has been done on several other geologic targets within the district. The current mineralized resource defined at the Dewey Deposit is the result of approximately five million dollars of expenditures by USMX and Dakota Mining, this not counting previous exploration drill data compiled by Placer Amex, Copper Lakes and other companies. As a result of this work, a mineralized material of 5,390,000 tons averaging 0.047 ounces per ton gold (using a gold price of \$400 per ounce) is estimated to be present at the Dewey Deposit.

Note: Mineralized material is generally defined as a mineralized body

which has been delineated by appropriately spaced drilling and/or underground sampling to support a

sufficient tonnage and average grade of metals.

Current infrastructure that supports exploration activities and potential future development of the Thunder Mountain Property consists of improvements associated with past mining operations. This includes access road improvements, a potential tailings disposal or heap leach pad area, and a Dewey Mining Company-owned 500 ton-per-day gravity milling facility that was operational in the late

---

THUNDER MOUNTAIN GOLD, INC.

Form 10-KSB

December 31, 2003

1970s and early 1980s, along with support facilities including fuel storage tanks, shop, assay laboratory, electrical equipment, base camp housing, etc.

Costs incurred by the Company include property maintenance activities (claim fees, taxes, etc.), appraisal and other costs associated with the potential sale, site security, monitoring and maintenance of reclamation and sediment control features. All exploration, development and mining activities in the past have been borne by previous operators that had the Thunder Mountain Property under lease arrangement.

All past and future operations would require generation of power on site by the use of diesel-powered generators.

The Thunder Mountain Property is without known and defined reserves pursuant to SEC Industry Guide 7. Significant mineralized material has been drill defined as discussed above. The Property is still in an exploration stage, although sufficient information has been developed to potentially initiate further development activities.

Maintenance of the mining claims consists of payment of the annual claim maintenance fees on unpatented mining claims. Property taxes are paid on all patented and unpatented mining claims.

## 2. Ironside Platinum Group Metals (Pgm) Prospect, Goodsprings Mining District, Clark County, Nevada

The Company's interest Ironside Platinum Group Metals (PGM) prospect located in the Goodsprings Mining District, Clark County, Nevada was dropped during 2003. This was done to focus all financial efforts on the pending sale of the Company's property in the Thunder Mountain Mining District. The Ironside claim position had also failed to generate much interest by other companies, partly because of the then declining price of the platinum group metals.

### (C) Reports To Security Holders:

The registrant does not issue annual or quarterly reports to security holders other than the annual Form 10-KSB and quarterly Forms 10-QSB as electronically filed with the SEC. Interested parties may read and copy any materials filed with the SEC at the SEC's Public Reference Room at 450 Fifth Street, N. W., Washington, D.C. 20549. Information may be obtained on the operation of the Public Reference Room by calling the SEC at 1 (800) SEC-0330. The SEC maintains an Internet site (<http://www.sec.gov>) that contains reports, proxy and information statements and other information.

## **ITEM 2: PROPERTIES**

For continuity and clarity, this information was included in the information set in Item 1(B).

---

THUNDER MOUNTAIN GOLD, INC.

Form 10-KSB

December 31, 2003

**ITEM 3: LEGAL PROCEEDINGS.**

The Company has no legal actions pending against it and it is not a party to any suits in any court of law, nor are the directors aware of any claims which could give rise to or investigations pending by the Securities and Exchange Commission or any other governmental agency. The Company, along with other impacted entities, including companies, municipalities and various irrigation districts, was involved in a legal protest against the Federal Government's claims for certain reserved water rights for Wild and Scenic Rivers Act purposes. The matter is in the Idaho States Federal Court for the District Court of Idaho (SRBA Case No. 39576, District Court of the Fifth Judicial District of the State of Idaho, in and for the County of Twin Falls) assigned to handle the Snake River Basin water rights adjudication. A settlement agreement was reached by all parties to this case during 2003, and the Company retained sufficient water rights for any foreseeable operational needs, or to add value to a sale to the Forest Service. The Company is not involved in any civil rights negotiations or proceedings.

**ITEM 4: SUBMISSION OF MATTERS TO VOTE ON SECURITY HOLDERS.**

No matters were submitted to vote of the Registrant's security holders during 2003.

**PART II**

**ITEM 5: MARKET FOR REGISTRANT'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS.**

(A) Market Information.

The common stock of the Registrant is traded over-the-counter in Spokane, Washington and its bid and asked prices are quoted on a daily basis by the Spokane Quotation Service in Spokane, Washington.

Edgar Filing: THUNDER MOUNTAIN GOLD INC - Form 10KSB

The bid prices for the Registrant's stock for the years 2003, 2002, 2001 and 2000 were as follows:

(B) Holders:

Title of Class	No. of Record Holders
-----	-----
\$0.05 Par Value	2,241 as of December 31, 2003
Common Stock Non -Assessable	

(C) Dividends

The Registrant has not paid any dividends, and does not plan to do so in the foreseeable future as it plans to use its capital to maintain corporate affairs and finalize the potential sale of Thunder Mountain Property.

*Securities Authorized For Issuance Under Equity Compensation Plans*

None.

*Recent Sales Of Unregistered Securities; Use Of Proceeds From Registered Securities*

During the period covered by this report the Company has sold no equity securities that were not registered under the Securities Act of 1933, as amended.

**ITEM 6: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION.**

Liquidity:

The Company has a positive cash-position and maintained its liquid assets in a cash management fund and the Midas gold-based mutual fund. The Company's cash and liquid assets are considered adequate to meet its current and near-term corporate obligations. The Company does not foresee any necessity to raise additional funds during the next twelve-month period, except for the advance from Dewey Mining to defray various appraisal and property maintenance costs on the joint venture properties. Management believes that its funds are sufficient to meet corporate expenses incurred during the next 12 months.

Due to the extended timeframe for the completion of the potential sale through Trust for Public Land, the Company required a source of continued funding to pay their 50% share of mining claim holding fees, security, appraisal costs, and consultant expenses. To this end, a line of credit in the amount of \$150,000 was established in May 2003 to provide for expenses to complete the land sale efforts with Trust for Public Land. The line of credit carries an eight percent interest charge and is secured by the Company's land in the Thunder Mountain Mining District. The note is due and payable in May, 2005. The amount due on this line of credit was approximately \$98,600 at the end of 2003.

It is anticipated that the appraisal process will be completed, and, if acceptable, the initial payments from Trust for Public Land/United State Forest Service will be forthcoming prior to the 2005 due date. In addition, alternative financing arrangements are being evaluated.

---

THUNDER MOUNTAIN GOLD, INC.

Form 10-KSB

December 31, 2003

Expenses for the ensuing year will be incurred for continued maintenance and sales efforts of the Thunder Mountain property, including claim holding fees, site watchman, acquisition of third-party claims, appraisal costs, travel, consultants associated with appraisal efforts, joint water rights litigation, legal review of efforts of sale corporate management fees and administrative costs. It is anticipated that no Directors and discretionary managerial fees will be paid during the upcoming year due to the low cash position of the Company. Any geologic, professional and other technical expertise utilized in Company efforts are generally done by the Directors, who are adequately qualified. Several outside consultants are also utilized, including Dr. Wayne Kemp, PhD Geologist, Dr. Dave Wahl, PhD Geologists, Donald E. Howell, ARA, State Certified Appraiser Utah and Idaho. Daily rates for the geologic consultants range from \$300 per day to \$600 per day, plus expenses. Donald Howell appraisal work is now done on a contractual basis with TPL and the Forest Service. With the exception of Company review by consultants, most of these costs will be borne by the United States Forest Service and TPL during 2004 and through the completion of the sales project.

Any additional exploration efforts undertaken by the Company will be limited to the evaluation of opportunities that may be presented to the Company. The Company did not engage in any research and development activities during 2003.

There were no fees paid to any of the Directors during 2003. Please refer to the financial statements for additional costs and expenditures and other financial information.

Capital Resources: The Company presently did not acquire any equipment during 2003. The Company does not intend to make any capital expenditures from its funds for property or equipment during the next 12 months. The Company also does not presently have any plans to raise capital through debt or equity financing.

Results of Operations: The Company had no production from operations for 2003. Although additional production units are likely, it is impossible to predict with any certainty when and where the next production unit will be developed. For that reason, it is impossible to predict the future production units.

For 2003, gross revenues were \$-0-.

The Company does not currently have any employees, and does not anticipate any for the upcoming calendar year(s). The Directors conduct most of the work related to corporate business on a non-paying basis at the current time. Occasionally, outside consultants are utilized per the above discussion.

The Company's operations were not adversely effected by inflation during 2003. No adverse affect is anticipated during 2004.

Board of Directors

Thunder Mountain Gold, Inc.

Spokane, Washington

The accompanying Balance Sheets of Thunder Mountain Gold, Inc., (an exploration stage company) as of December 31, 2003 and 2002, and the related Statements of Operations, Cash Flows and Changes in Stockholders' Equity for the years then ended were not audited by us and, accordingly we do not express an opinion on them.

The financial statements for the year ended December 1, 2001, were audited by us and we expressed an unqualified opinion on them in our report dated April 24, 2002, but we have not performed any auditing procedures since that date.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As shown in the accompanying financial statements, the Company has suffered recurring losses from operations and the Company's liabilities exceed its assets. These factors raise substantial doubt about its ability to continue as a going concern. Management's plans in regard to these matters are described in the notes to the financial statements. The financial statements do not include any adjustment that might result from the outcome of this uncertainty.

THUNDER MOUNTAIN GOLD, INC.

(An Exploration Stage Company)

NOTES TO FINANCIAL STATEMENTS

1.

Summary of Significant Accounting Policies

Business Operations

Thunder Mountain Gold, Inc., takes its name from the Thunder Mountain Mining District in Valley County, Idaho, where its principal lode mining claims are located.

Accounting Policies

Marketable securities are stated at market value. The market value is based on quoted market prices or other fair value estimates provided by third party portfolio managers.

Exploration Costs

Exploration costs are charged to operations when incurred.

Property and Equipment

Property and equipment are carried at cost. Depreciation is computed using accelerated depreciation methods with useful lives of three to seven years. Major additions and improvements are capitalized. Costs of maintenance and repairs, which do not improve or extend the life of the associated assets are expensed currently. When there is a disposition of property and equipment, the cost and related accumulated depreciation are removed from the accounts and any gain or loss is reflected in net income.

(Unaudited)

---

THUNDER MOUNTAIN GOLD, INC.

(An Exploration Stage Company)

NOTES TO FINANCIAL STATEMENTS

1.

Significant Accounting Policies - (Continued)

Accounting Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Comprehensive Income

In 1998, the Company adopted Statement of Financial Accounting Standards (FAS) 130, Reporting Comprehensive Income, issued by the Financial Accounting Standards Board (FASB). The Company reports accumulated other comprehensive income as a separate component of shareowners' equity. There were no adjustments required for the deferred tax effects of the unrealized gain or loss on securities.

Earnings Per Share

The Company computes basic earnings per common share by dividing the net income by the weighted average number of common shares outstanding during the period. Diluted earnings per share are calculated by including all dilutive potential common shares such as stock options. Dilutive potential common shares were 9,727,852 in 2003, 2002, and 2001. No adjustment to reported net income is required when computing diluted earnings per share.

(Unaudited)

---

THUNDER MOUNTAIN GOLD, INC.

(An Exploration Stage Company)

NOTES TO FINANCIAL STATEMENTS

2.

Investments

The Company has adopted Statement of Financial Accounting Standards (SFAS) No. 115, Accounting for Certain Investments in Debt and Equity Securities. SFAS No. 115 establishes generally accepted accounting principles for the financial accounting and measurement and disclosure principles for (1) investments in equity securities that have readily determinable fair market value and (2) all investments in debt securities. All of the marketable securities held by Thunder Mountain Gold, Inc., consist of securities available-for-sale, as defined by SFAS No. 115. The method used in computing realized gains and losses is the specific identification method.

The Company has been liquidating investments to provide cash flow. Marketable securities are stated at market value. The market value is based on quoted market prices or other fair value estimates provided by third party portfolio managers. Investments in small local mining companies are stated at estimated fair value and classified as non-current investments.

The following information is as of December 31, 2003, 2002, and 2001:

3.

## Mining Claims

Substantially all of the Company's patented and unpatented claims in the Thunder Mountain Mining district were obtained from major stockholders for cash or newly issued stock. The purchase price and capitalized costs of the mining claims have been written off.

4.

## Income Taxes

The Company has losses for income tax purposes and accordingly has no income tax provision.

At December 31, 2003, the Company has \$842,688 in net operating loss carry forward which may be used to offset taxable income generated by operations, which will begin expiring in 2004. The Company also has a general business tax credit carryover in the amount of \$1,283, which may be used to offset future federal income tax liabilities. This credit will expire in 2004. The Company also has a foreign tax credit in the amount of \$343, which may be used to offset future federal income tax liabilities.

The net operating loss and other credits carry forward would normally result in a recorded income tax benefit. As a result of the uncertainty to continue as a going concern as described in Note 5, the income tax benefit is fully reserved and is not reflected herein.

(Unaudited)

---

THUNDER MOUNTAIN GOLD, INC.

(An Exploration Stage Company)

NOTES TO FINANCIAL STATEMENTS

5.

Uncertainty - Going Concern

The Company's continued existence is dependent upon its ability to resolve its liquidity problems, principally by obtaining equity or debt funding, sale of the mining claims or production from the mining claims. While pursuing additional funding or sale of its mining claims, the Company must continue to operate on limited cash. The Company has no revenue from operations and has experienced recurring losses. Management believes that geological, geophysical, and engineering data have identified mineralized material in place on the mining claims in commercial quantities to be of value. The Company is negotiating with the United States Forest Service through the Land and Water Conservation Funds for sale of its position regarding the mining claims.

6.

Litigation

The Company, along with other similarly situated parties, is a protestant against the Federal Government's claims for certain reserved water rights for Wild and Scenic Rivers Act purposes. A settlement has been tentatively reached and legal counsel anticipates the settlement will be favorable to Thunder Mountain Gold, Inc.

7.

Exploration Stage Company

Management reviewed the status of the company and determined that the company has been an exploration stage company from 1991 through 2003. Accordingly, the financial statements and disclosures report the company as an exploration stage enterprise.

THUNDER MOUNTAIN GOLD, INC.

Form 10-KSB

December 31, 2003

**ITEM 8: DISAGREEMENTS ON ACCOUNTING AND FINANCIAL DISCLOSURE**

During the year ended December 31, 2003 there were no disagreements between the Company and its independent certified public accountants concerning accounting and financial disclosure.

**ITEM 8A. CONTROLS AND PROCEDURES**

The Registrant's President and Principal Accounting Officer after evaluating the effectiveness of the Company's disclosure controls and procedures (as defined in the Securities Exchange Act of 1934 Rules 13a-14(c) and 15d-14(c)) as of a date within 90 days of the filing date of this annual report on Form 10-KSB (the "Evaluation Date"), have concluded that as of the Evaluation Date, the Company's disclosure controls and procedures were adequate and effective to ensure that material information relating to the Company would be made known to it by others within the Company, particularly during the period in which this annual report on Form 10-KSB was being prepared.

There were no significant changes in the Registrant's internal controls or, to the knowledge of the management of the Registrant, in other factors that could significantly affect these controls subsequent to the evaluation date, nor any significant deficiencies or material weaknesses in such disclosure controls and procedures requiring corrective actions.

**PART III**

**ITEM 9: DIRECTORS AND EXECUTIVE OFFICERS OF THE REGISTRANT**

(A) Identification of Directors:

E. James Collord, Age 57 - President and Director - Mr. Collord has been an officer and Director of the Registrant since 1978.

Robin S. McRae, Age 63 - Secretary/Treasurer and Director - Dr. McRae has been an officer and Director of the Registrant since 1978.

Pete Parsley, Age 43 - Director and Thunder Mountain Project Manager. Mr. Parsley has been a director since 1999.

Ronald Yanke - passed away early in 2004.

(B) Identification of Executive Officers

This information is contained in paragraph (a) above.

(C) Family Relationships

Dr. Robin S. McRae is the cousin of E. James Collord, the President of the Registrant.

---

THUNDER MOUNTAIN GOLD, INC.

Form 10-KSB

December 31, 2003

(D) Business Experience

E. James Collord has a Masters of Science degree in exploration geology from the Mackay School of Mines, University of Nevada, Reno. He has been a mining professional since 1973, employed as a mill construction superintendent, exploration geologist, mine construction and reclamation manager, and in environmental and lands management. He is currently actively employed as Environmental and Land Superintendent at a large gold mine near Elko, Nevada. He is the grandson of Daniel C. McRae, the original locator of the gold prospects in the Thunder Mountain Gold Mining District.

Robin S. McRae is a graduate of the Pacific College of Optometry and is a retired Boise optometrist. He is also the grandson of Daniel C. McRae, and is the son of Robert J. McRae, author of numerous geological reports concerning the Thunder Mountain Mining District. His knowledge of mining and related exploratory activities is derived from three generations of ownership of the Sunnyside group of claims that the Registrant now owns.

Pete Parsley has a Masters in Science degree in geology from the University of Idaho. He has been a mining professional since 1985 and has experience in gold exploration, mine development, construction, reclamation, and environmental compliance and permitting. He has been associated with the Thunder Mountain Project since 1985, including being the project manager for the exploration program by USMX/Dakota Mining that defined the Dewey mineralization.

Ron Yanke passed away during 2004.

(E) Directorships

None of the directors of the Registrant is a director of any other corporation subject to the requirements of Section 12 or Section 15(d) of the Exchange Act of 1934.

(F) Involvement In Certain Legal Proceedings

None of the Officers and Directors of the Registrant has been involved in any bankruptcy, insolvency, or receivership proceedings as an individual or member of any partnership or corporation; none has ever been convicted in a criminal proceeding or is the subject of a criminal proceeding presently pending. None has been involved in proceedings concerning his ability to act as an investment advisor, underwriter, broker, or dealer in securities, or to act in a responsible capacity for investment company, bank savings and loan association, or insurance company or limiting his activity in connection with the purchase and sale of any security or engaging in any type business practice. None has been enjoined from engaging in any activity in connection with any violation of federal or state securities laws nor been involved in a civil action regarding the violation of such laws.

(G) Promoters and Control Persons

Not applicable

---

THUNDER MOUNTAIN GOLD, INC.

Form 10-KSB

December 31, 2003

(H)

Audit Committee/Code of Ethics

There is no Audit Committee of the Board of Directors, given the current state of the Company. The Board of Directors has determined that it is unable to attract and/or retain independent board members or even if it could, the Company could not retain independent members that could be classified as an "audit committee financial expert" due to the high cost of such Director candidates.

The Board of Directors has not currently adopted a code of ethics at the time of this report. The Board of Directors is undertaking evaluation of a code of ethics and expects to finalize and adopt a code of ethics at the directors meeting to be convened prior to the Annual Shareholders meeting in October, 2004. Proper disclosure will be undertaken subsequent to adoption of a code of ethics by the Board of Directors.

**ITEM 10: EXECUTIVE COMPENSATION**

(A) Cash Compensation

None of the executive officers or Directors received \$50,000 or more during 2000.

None of the officers and Directors received any payment for services during 2003:

(B) Bonuses And Deferred Compensation:

Budgeted Arrangements: None

(C) Other Compensation

There are no remuneration payments to any officer or Director other than those set forth in (a) above.

(D) Compensation Of Directors

Other arrangements: There are no arrangements for remuneration for services as a Director in addition to the standard arrangements.

(E) Termination Of Employment And Change Of Control Arrangement

There are no compensatory plans or arrangements for compensation of any Director in the event of his termination of employment and resignation, retirement, etc.

**ITEM 11: SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT**

(A) Security Ownership Of Certain Beneficial Owners

The following are known to the Registrant to be the beneficial owners of more than five percent (5%) of the Registrant's voting securities:

(B) Reports On Form 8-K

No reports on Form 8-K were filed during the last calendar year 2003.

**ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES**

The Company's board of directors reviews and approves audit and permissible non-audit services performed by Moe, O Shaughnessy & Associates, P.S., as well as the fees charged by Moe, O Shaughnessy & Associates, P.S. for such services. In its review of non-audit service fees and its appointment of Moe, O Shaughnessy & Associates, P.S. as the Company's independent accountants, the board of directors considered whether the provision of such services is compatible with maintaining Moe, O Shaughnessy & Associates, P.S. independence. All of the services provided and fees charged by Moe, O Shaughnessy & Associates, P.S. in 2003 were pre-approved by the board of directors.

***Audit Fees***

The aggregate fees billed by Moe, O Shaughnessy & Associates, P.S. for professional services for the audit of the annual financial statements of the Company and the reviews of the financial statements included in the Company's quarterly reports on Form 10-QSB for 2003 and 2002 were \$4,500 and \$4,500, respectively, net of expenses.

***Audit-Related Fees***

There were no other fees billed by Moe, O Shaughnessy & Associates, P.S. during the last two fiscal years for assurance and related services that were reasonably related to the performance of the audit or review of the Company's financial statements and not reported under "Audit Fees" above.

***Tax Fees***

The aggregate fees billed by Moe, O Shaughnessy & Associates, P.S. during the last two fiscal years for professional services rendered by Moe, O Shaughnessy & Associates, P.S. for tax compliance for 2003 and 2002 were \$750 and \$750, respectively.

***All Other Fees***

There were no other fees billed by Moe, O Shaughnessy & Associates, P.S. during the last two fiscal years for products and services provided by Moe, O Shaughnessy & Associates, P.S.
