t to currency translation risk. A significant part of NYSE Euronext's assets, liabilities, revenues and expenses is recorded in euro and sterling. Assets, liabilities, revenues and expenses of foreign subsidiaries are generally denominated in the local functional currency of such subsidiaries.

NYSE Euronext's exposure to foreign denominated earnings for the nine months ended September 30, 2012 is presented by primary foreign currency in the following table (in millions, except average rates):

	Nine months ended September 30, 2012	
	Euro	Sterling
Average rate in the period	\$ 1.2821	\$ 1.5781
Average rate in the same period one year before	\$ 1.4071	\$ 1.6147
Foreign denominated percentage of		
Revenues	16%	15%
Operating expenses	9%	16%
Operating income	48%	10%
Impact of the currency fluctuations ⁽¹⁾ on		
Revenues	\$ (44.8)	\$ (9.8)
Operating expenses	(21.1)	(8.6)
Operating income	(23.7)	(1.2)

⁽¹⁾ Represents the impact of currency fluctuation for the nine months ended September 30, 2012 compared to the same period in the prior year.

NYSE Euronext's exposure to net investment in foreign currencies is presented by primary foreign currencies in the table below (in millions):

	September 30, 2012	
	Position in euros	Position in sterling
Assets	3,966	£ 2,662
of which goodwill	1,038	1,073
Liabilities	1,939	377
of which borrowings	1,007	
Net currency position before hedging activities	2,027	£ 2,285
Impact of hedging activities	64	175
Net currency position	2,091	£ 2,460
Impact on consolidated equity of a 10% decrease in foreign currency exchange rates	\$ (269)	\$ (397)

At September 30, 2012, NYSE Euronext had net exposure of euro and sterling of 2.1 billion (\$2.8 billion) and £2.5 billion (\$4.0 billion), respectively. NYSE Euronext's borrowings in euro of 1.0 billion (\$1.3 billion) constitute a partial hedge of NYSE Euronext's net investments in foreign entities. As of September 30, 2012, NYSE Euronext also had 284 million (\$367 million) of euro/U.S. dollar and £175 million (\$283 million) of sterling/Euro dollar foreign exchange contracts outstanding. These contracts matured in October 2012. As of September 30, 2012, the fair value of these contracts was a \$2 million liability.

Based on September 30, 2012 net currency positions, a hypothetical 10% decrease of euro against dollar would negatively impact NYSE Euronext's equity by \$269 million and a hypothetical 10% decrease of sterling against dollar would negatively impact NYSE Euronext's equity by \$397 million. For the nine months ended September 30, 2012, currency exchange rate differences had a positive impact of \$127 million on NYSE Euronext's consolidated equity.

Credit Risk

NYSE Euronext is exposed to credit risk in the event of a counterparty default. NYSE Euronext limits its exposure to credit risk by rigorously selecting the counterparties with which it makes investments and executes agreements. Credit risk is monitored by using exposure limits depending on ratings assigned by rating agencies as well as the nature and maturity of transactions. NYSE Euronext's investment objective is to invest in securities that preserve principal while maximizing yields, without significantly increasing risk. NYSE Euronext seeks to substantially mitigate credit risk associated with investments by ensuring that these financial assets are placed with governments, well-capitalized financial institutions and other creditworthy counterparties.

Edgar Filing: Mountain Province Diamonds Inc. - Form SC 13D/A

An ongoing review is performed to evaluate changes in the status of counterparties. In addition to the intrinsic creditworthiness of counterparties, NYSE Euronext's policies require diversification of counterparties (banks, financial institutions, bond issuers and funds) so as to avoid a concentration of risk. Derivatives are negotiated with highly rated banks.

Item 4. Controls and Procedures

As of the end of the period covered by this report, our management carried out an evaluation, under the supervision and with the participation of our principal executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934). Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report. No significant changes were made during the quarterly period ended September 30, 2012 in our internal control over financial reporting or in other factors that have materially affected or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Legal Matters

For the nine months ended September 30, 2012, NYSE Euronext incorporates herein by reference the discussion set forth in Note 16 (Commitments and Contingencies Legal Matters) to Item 8 of the Form 10-K filed by NYSE Euronext for the year ended December 31, 2011, and Note 10 (Commitments and Contingencies) of the Forms 10-Q filed by NYSE Euronext for the periods ended March 31, 2012 and June 30, 2012, respectively, and no other matters were reportable during the period.

In addition to the matters described above and in the prior disclosures incorporated herein by reference, NYSE Euronext is from time to time involved in various legal proceedings that arise in the ordinary course of its business. NYSE Euronext records accrued liabilities for litigation and regulatory matters when those matters represent loss contingencies that are both probable and estimable. In such cases, there may be an exposure to loss in excess of any amounts accrued. When a loss contingency is not both probable and estimable, NYSE Euronext does not establish an accrued liability. As a litigation or regulatory matter develops, NYSE Euronext evaluates on an ongoing basis whether such matter presents a loss contingency that is probable and estimable. NYSE Euronext does not believe, based on currently available information, that the results of any of these various proceedings will have a material adverse effect on its financial statements as a whole.

Item 1A. Risk Factors

For the nine months ended September 30, 2012, there were no material changes from the Risk Factors as previously disclosed in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2011, and Part II, Item 1A of our Quarterly Reports on Form 10-Q for the three months and six months ended March 31, 2012 and June 30, 2012, respectively, which disclosures are incorporated herein by reference, other than the risk discussed below, which supplements the Risk Factors disclosed in such Annual and Quarterly Reports.

Our networks and those of our third-party service providers may be vulnerable to security risks.

The secure transmission of confidential information over public and other networks is a critical element of our operations. Our networks and those of our third-party service providers may be vulnerable to unauthorized access, malware and other security problems. Third parties to whom we provide information, including regulators, may not take proper care with our information and may not employ state of the art techniques for safeguarding data. Our systems have experienced attempts at unauthorized access in the past, and our public websites have in the past been subject to attempted denial of service attacks. While none of these attempts has materially adversely affected our systems or compromised confidential data, and while our systems have not in the past been materially adversely affected by malware or other security incidents, it is possible that our systems may experience security problems in the future that we cannot mitigate and that may materially affect our business. Persons who circumvent security measures could wrongfully access and use our information or our customers' information, or cause interruptions or malfunctions in our operations. Moreover, our security measures are costly, and may prove to be inadequate. Any of these security risks could cause us to incur reputational damage, regulatory sanctions, litigation, loss of trading share, loss of trading volume and loss of revenues, any of which could adversely affect our business, financial condition and operating results.
