2.

Basis of Presentation and Summary of Significant Accounting Policies

Basis of Presentation

The condensed consolidated financial statements contained herein have been prepared in accordance with generally accepted accounting principles for interim financial statements, the instructions to Form 10-QSB and Item 310 of Regulation S-B. Accordingly, these financial statements do not include all the information and footnotes required by generally accepted accounting principles for annual financial statements. In addition, certain comparative figures presented have been reclassified to conform the prior year's data to the Company's current financial statements. In the opinion of management, the accompanying condensed consolidated financial statements contain all the adjustments necessary (consisting only of normal recurring accruals) to fairly present the financial position of the Company at March 3, 2006, and its results of operations and cash flows for the three months ended February 28, 2005 and March 3, 2006. Operating results for the three months ended March 3, 2006, are not necessarily indicative of the results that may be expected for the fiscal year ending December 1, 2006.

The Company determined on February 28, 2006 to change its fiscal year from a calendar year ending November 30, to a 52-53 week period ending on the Friday closest to November 30, and to use a 4-4-5 week basis for quarterly reporting. The Company's first quarter in 2006 will cover the transition period for this change therefore falling on March 3, 2006. Fiscal year end results on Form 10-KSB will end on December 1, 2006 therefore causing a 366 day period for fiscal year ending 2006. The Company does not believe this will materially change the operating results, however it will help the flow of monthly reporting as cut-offs are planned on Fridays for inventory counts.

Principles of Consolidation

The accompanying unaudited condensed consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All significant inter-company balances and transactions have been eliminated.

Customer Base and Credit Concentration

The Company has, over the last four years, developed a large, diverse, and distinguished customer base of traditional retailers that include national as well as large regional chains, specialty retailers, corporate accounts, college bookstores, motor sports, souvenir and gift shops, and golf shops. This expansion has been achieved through the acquisition of CMJ, Lil Fan, Choice, S-2-S, and their respective customer bases, the introduction of additional major product lines and distribution channels, such as the Motor Sports Division, which sells to a national auto dealer market consisting of approximately 9,000 potential customers, as well as expansion of its traditional national retail merchant

customer base. In the three months ended March 3, 2006, sales to the Company's top four customers accounted for 58% of total sales. The Company's management believes that the Company's credit risk exposure is limited based on current information available with respect to the financial strength of its customers and previously recorded reserves. Such estimates could change in the future.

The Company is subject to seasonality in its sales cycle due to the amount of college-licensed products. The seasonality of sales results in the majority of the Company's revenues being generated in the third and fourth quarters.

New Pronouncements

In November 2004, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 151, Inventory Costs—an amendment of ARB No. 43, Chapter 4. This statement clarifies the accounting for abnormal amounts of idle facility expense, freight, handling costs and spoilage. This statement also requires the allocation of fixed production overhead costs be based on normal production capacity. The provisions of SFAS No. 151 are effective for inventory costs incurred during the fiscal years beginning after June 15, 2005. The adoption of this statement did not have a material impact on the Company's consolidated financial statements.

In December 2004, the FASB issued FASB Statement No. 123 (revised 2004), Share-Based Payment, which is a revision of FASB Statement No. 123, Accounting for Stock-Based Compensation. Statement 123(R) supersedes APB Opinion No. 25, Accounting for Stock Issued to Employees, and amends FASB Statement No. 95, Statement of Cash Flows. The approach to accounting for share-based payments in Statement 123(R) is similar to the approach described in Statement 123. However, Statement 123(R) requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values and no longer allows pro forma disclosure as an alternative to financial statement recognition. The Company adopted Statement 123(R) at the beginning of its quarter ending March 3, 2006. The adoption of this statement did not have a material impact on the Company's consolidated financial statements.

In May 2005, the FASB issued SFAS No. 154, Accounting Changes and Error Corrections (SFAS No. 154), which replaces Accounting Principles Board (APB) No. 20 Accounting Changes, and SFAS No. 3 Reporting Accounting Changes in Interim Financial Statements. SFAS No. 154 changes the requirements for the accounting for and reporting of a change in accounting principle. The statement applies to all voluntary changes in accounting principle as well as changes required by an accounting pronouncement. SFAS No. 154 requires retrospective application to prior periods' financial statements of a voluntary change in accounting principle unless it is impracticable to determine the period-specific effects or the cumulative effect of the change. SFAS No. 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2004. The adoption of SFAS No. 154 did not have a material impact on the Company's consolidated financial statements.

In March 2005, the FASB issued Interpretation No. 47, Accounting for Conditional Asset Retirement Obligations, an Interpretation of FASB Statement No. 143: (FIN 47), which clarifies the accounting for conditional asset retirement

obligations as used in SFAS No. 143, Accounting for Asset Retirement Obligations . A conditional asset retirement obligation is an unconditional legal obligation to perform an asset retirement activity in which the timing and/or method of settlement are conditional on a future event that may or may not be within the control of the entity. Under FIN 47, an entity is required to recognize a liability for the fair value of a conditional asset retirement obligations if the fair value of the liability can be reasonably estimated. Any uncertainty about the amount and/or timing of future settlement should be factored into the measurement of the liability when sufficient information exists. FIN 47 also clarifies when an entity would have sufficient information to reasonably estimate the fair value. The provisions of FIN 47 are effective for fiscal years ending after December 15, 2005. The adoption of FIN 47 is not expected to have a material impact on the Company's consolidated financial statements.

3.

Inventories

Inventories are valued at the lower of cost or market. Cost is determined by the first-in, first-out method, and market represents the lower of replacement cost or net realizable value. Inventories as of March 3, 2006, consisted of the following:

Raw materials	\$	3,485,119
Finished goods		1,323,958
	\$	4,809,077

4.

Deferred and Income Taxes

Income taxes have been computed in accordance with SFAS No. 109, Accounting for Income Taxes. This standard requires, among other things, recognition of future tax expenses or benefits, measured using enacted tax rates, attributable to taxable or deductible temporary differences between financial statements and income tax reporting bases of assets and liabilities.

The ultimate realization of deferred tax assets is dependent upon the attainment of forecasted results of operations. Management has taken these and other factors into consideration in recording the deferred tax estimate. The tax effects of temporary differences that give rise to significant portions of the deferred tax asset and liabilities at March 3, 2006, are as follows:

Current asset:

Edgar Filing: NEXT INC/TN - Form 10QSB

Accounts receivable allowance	\$	51,760
Net operating loss carryforwards		1,087,867
Total deferred tax asset	\$	1,139,627

Goodwill and other intangibles		107,975
Total deferred tax liability	\$	371,194
Deferred taxes, net	\$	768,433
Current	\$	300,000
Noncurrent	\$	468,433

5.

Short-Term and Long-Term Debt

Short-term and long-term debt at March 3, 2006 consisted of the following:

	Short Term	Long Term
Revolving credit facility	\$ 3,216,217	\$
Notes payable	744,865	3,424,769
Capital lease obligations	1,995

Total	\$	3,963,077	\$	3,424,769
-------	----	-----------	----	-----------

Various assets collateralize all of the Company's debt and certain amounts are guaranteed by its principal stockholders.

On April 6, 2006, the Company entered into a Subscription Agreement with the following investors: DKR Soundshore Oasis Holding Fund Ltd., Alpha Capital Aktiengesellschaft, Monarch Capital Fund, Ltd., Iroquois Master Fund, Ltd., and Bluegrass Growth Fund, LP (collectively, the Investors), pursuant to which the Company issued to the Investors, as a group, \$984,960 in principal amount of convertible promissory notes (the Notes) and warrants (the Warrants) to purchase 849,103 shares of common stock of the Company (the Common Stock). The Notes require equal monthly payments of cash or stock over a 12-month period starting 115 days after closing and will be fully subordinated to the Company's senior lenders. The Notes are convertible into a total of 1,698,207 shares of Common Stock at a conversion rate of \$.58 in principal amount of the Notes per share. The warrants have a three-year term and an exercise price of \$.68 per share of Common Stock. The Company will file a registration statement with the Securities and Exchange Commission within 45 days of closing for the offer and sale by the Investors of the Common Stock underlying both the Notes and Warrants. In connection with these transactions, the Company will issue to JPC Capital Partners, Inc., as placement agent, warrants to purchase 152,838 shares of Common Stock on the same terms as the Warrants issued to the Investors.

On February 8, 2006, the Company entered into an amendment with National City Bank to change the maturity date of the Company's credit facility from April 1, 2007 to April 30, 2006, and reduce the maximum availability under the revolving line of credit from \$9,500,000 to \$6,500,000. The effective date of the amendment was February 1, 2006. The reduced line of credit is in line with the Company's lower seasonal sales cycle for the first quarter of its fiscal year and does not reduce cash availability below the calculated borrowing base. Pursuant to the amendment, National City waives the Company's non-compliance with certain obligations and covenants of the credit facility. The Company has signed a non-binding agreement with a new lender to replace National City and is in process of working out the respective due diligence and underwriting requirements.

Under the Company's credit facility agreement with National City Bank, the Company may draw up to the sum of 80% of eligible accounts receivable, as defined in the credit facility agreement, and 60% of eligible raw materials and eligible finished goods inventory, as defined in the credit facility agreement. In addition, the credit facility agreement provides for monthly payments of interest at a nationally published prime rate plus .25% (7.5% was the published rate at March 3, 2006). Accounts receivable, inventory, certain personal assets and personal guarantees of the Company's Chief Financial Officer and one board member collateralize the borrowings under the credit facility.

On September 30, 2005, the Company refinanced its credit facility for its main plant in Wabash, Indiana at First Federal Savings Bank of Wabash in the amount of \$3,225,809, which paid off the original loan of \$2,672,922 due in January 2006, the warehouse loan of \$365,479, and an equipment loan of \$155,469. These balances include accrued interest on the respective indebtedness. Also included in the refinancing were loan origination fees of \$31,939. The new loan requires monthly principal and interest payments of \$29,263, over a 5 year term at 7.0% interest.

On July 20, 2005, the Company entered into a subordinated loan agreement with Next Investors, LLC for \$500,000. The purpose of this loan was to provide working capital to be repaid out of future cash flows. The loan has a 7.5% interest rate and maturity date of November 30, 2006. Next Investors, LLC principal partners are comprised of one officer and two directors of the Company. As of March 3, 2006, interest expensed and accrued for this loan totaled \$9,688.

On February 24, 2005, the Company entered into a credit agreement with First Federal Savings Bank of Wabash to finance the purchase of a warehouse in the amount of \$365,000. This loan was subsequently consolidated with the refinancing of the main plant in Wabash on September 30, 2005. The Company has renovated and consolidated all offsite inventories into this building which has reduced rental cost by \$11,500 per month.

On February 11, 2005, the Company entered into a credit agreement for \$250,500 with First Federal Savings Bank of Wabash for certain production equipment purchased in 2005. The Company is required to make principal and interest payments of \$4,895 per month at an interest rate of 6.75%. The maturity date is June 24, 2010.

6.

Stockholders Equity

Stockholders equity was comprised of the following:

	At March 3, 2006 (unaudited)
Common stock, \$.001 par value; 100,000,000 shares authorized, 18,296,740 shares issued and outstanding	\$ 18,297
Additional paid-in capital	7,182,738
Retained earnings	134,593
Unearned compensation	(29,322)
Total stockholders equity	\$ 7,306,306

At November 30, 2004, 1,000,000 shares were reserved for issuance under the Next, Inc. 2002 Stock Option Plan, in addition to the 1,000,000 previously reserved under the same plan. In 2004, the Company issued 286,500 employee options, 51,000 of which have been cancelled or forfeited, at \$1.07 which have a five year expiration from the vesting date and are subject to forfeiture should the grantee fail to be employed by the Company on the vesting date. The options granted in 2004 were all issued at market value and as such no expense was recorded. In 2005, the Company issued 1,037,500 employee options, with 237,500 issued at \$1.50 (13,000 of which have been cancelled or forfeited, with a five year expiration from the vesting date) and 800,000 issued at \$0.85 (with a ten year expiration from the grant date). All options granted in 2005 were vested by the Board of Directors as of November 30, 2005. The options issued in 2005 were all issued at market value and as such no expense was recorded.

On January 12, 2006, the Company's former Chief Executive Officer, William B. Hensley, III, returned 500,000 shares of Next, Inc. common stock to satisfy a promissory note executed for \$510,000 to purchase certain inventory items. These shares were cancelled and taken out of circulation. The transaction was valued at the market price of the stock on November 17, 2005, which was the date the shares were committed to be returned to the Company and validated by the execution of the Promissory Note.

On January 24, 2005, the Company entered into a Securities Purchase Agreement (the Agreement) with Bonanza Master Fund, Ltd. (Bonanza), MidSouth Investor Fund, L.P. (MidSouth) and Itasca Capital Partners LLC (Itasca and collectively with Bonanza and MidSouth, the Purchasers) and raised \$2,990,000 in a private placement. None of the Purchasers has any other material relationship with the Company. Pursuant to the Agreement, the Company issued Bonanza 2,000,000 shares of its common stock and a warrant to purchase 1,000,000 shares, issued to MidSouth 250,000 shares and a warrant to purchase 125,000 shares, and issued to Itasca 50,000 shares and a warrant to purchase 25,000 shares. The shares were issued at \$1.30 per share and the warrants are exercisable at \$1.75 per share for five years. In addition, the Company has issued a warrant to purchase 115,000 shares of common stock to Dougherty & Company, LLC Investment Bankers for its services in connection with the private placement. The warrants are exercisable at \$1.75 per share for five years, but the average closing price of the Company's common stock must be equal to at least \$2.10 for ten consecutive trading days to exercise a purchase. The total offering price was \$2,990,000 in cash, less fees of \$299,000, for a net cash infusion of \$2,691,000.

On January 21, 2005, The William B. and Cindy S. Hensley Family Limited Partnership (the Partnership) cancelled 80,000 shares of common stock and returned these shares to the Company for the purchase of a note issued to a former salesman. Mr. Hensley was the Chief Executive Officer of the Company and a related party. The transaction was valued at the market price or \$122,400; the Partnership or its designee has the right to collect this note related to cash advances to a salesman in the amount of \$121,861.

7.

Earnings (Loss) Per Share

The Company accounts for earnings (loss) per share (EPS) in accordance with SFAS No. 128, Earnings (Loss) Per Share. SFAS 128 requires the presentation of basic and fully diluted EPS. Basic and diluted EPS for the three months

ended February 28, 2005 and March 3, 2006, are calculated on the basis of the weighted average number of common shares outstanding.

8.

Acquisition of Sports-2-Schools, LLC

Pursuant to the terms of an Asset Purchase Agreement (the Agreement), dated August 12, 2005, by and among S-2-S Acquisition Corporation, a Delaware corporation and wholly owned subsidiary of the Company, Sports-2-Schools, LLC, a Kentucky corporation, and Buck Swindle Associates; a Purchase Price Addendum Agreement dated August 12, 2005 by and among Allen Gaddis, Gaddco, Inc., S-2-S and the Company; and a Purchase Price Addendum agreement dated August 12, 2005 by and among Dr. Jim Ingram, S-2-S, and the Company, through its subsidiary S-2-S Acquisition Corporation, acquired certain assets of Sports-2-Schools, LLC, including a customer list, license agreements and a vendor number to a large retailer. The Company assumed \$172,000 in debt as part of the transaction and also assumed \$205,000 in payables owed the Company for merchandise. S-2-S is in the licensed sportswear business.

Consideration for the acquisition was: \$50,000 in cash, 50,000 shares of the Company's common stock and up to an additional \$575,000 worth of common stock, on a deferred basis (November 30, 2006, 2007, 2008) and \$600,000 in cash both pursuant to a performance based earn-out arrangement. The financial terms of the transaction were determined by negotiation between representatives of the Company and Sports-2-Schools, LLC. The cash portion of the purchase price was funded from the Company's line of credit with National City Bank. The Company intends to continue to operate the business of S-2-S, after the acquisition through a new independent sales staff.

The S-2-S acquisition was made to expand the Company's distribution and customer base. Goodwill was acquired since management believes that the future value of the combined profit margins will be enhanced. The results of operations of S-2-S are included in the consolidated financial statement of the Company commencing August 12, 2005. The Company did not acquire any assets other than goodwill, customer list, license agreements, and a vendor number with a large retailer that is a new customer to the company.

Introduction

As noted elsewhere in this report, the Company's principal customers are large national and regional retailers. In order to maintain its relationship with these customers, enhance revenues from them and enable them to improve their revenues and margins, the Company must work closely with these customers to ensure they receive the Company's products expeditiously and economically. The Company works diligently to maintain what Management calls supply chain excellence—a way for the Company to provide value added services to its customers.

In servicing its customers, the Company faces competition from numerous other providers of licensed promotional products. Many of these competitors are larger and better capitalized than the Company. Additionally, if the Company is to continue to grow its business by adding additional products and by making strategic acquisitions, it will require additional capital. Therefore, Management may enter into negotiations with sources of equity in an effort to furnish additional capital.

In assessing the Company's performance, Management focuses on (a) increasing revenues primarily through enhancing its licensing programs and (b) protecting such revenues by diversifying its customer bases regionally and demographically. In order to enhance profitability, Management monitors and seeks to improve gross margins primarily by internal cost controls and through international purchases of raw materials. Management also strives to reduce fixed costs as a percentage of sales, improve inventory turnover and reduce receivables measured by day's sales outstanding, all in an effort to improve profitability and cash flow.

Overview

The Company is a creative and innovative sales and marketing organization that designs, develops, markets, and distributes licensed and branded promotional products and imprinted sportswear primarily through key licensing agreements and the Company's own proprietary designs. Management believes that there are substantial growth opportunities in the promotional products and imprinted sportswear industries. Management believes that the Company is well positioned to take advantage of such growth opportunities. Management believes that the Company has an excellent reputation in the marketplace as a result of its ability to provide quality products and services, on-time

delivery, at competitive prices. In recent years, licensed imprinted sportswear has become very popular. Licensing agreements are available for branded products and services, amateur and professional sports teams, and many other promotional areas. To maximize its potential, the Company has, over the last two years, significantly expanded its license program to include the following:

Approximately 200 licenses and agreements to distribute its **Cadre Athletic™**, and **Campus Traditions USA™** line for most major colleges and universities in the U.S.;

Licensing agreements with **Chevy®**, **Pontiac®**, **Hummer®**, **Cadillac®**, **Dodge®**, **GMC®**, **Ford®** **Plymouth®**, **Jeep®**, and **Chrysler®** for their respective “branded” logos for the **RPM Sports USA™** motor sports line, targeting the automotive dealership network and automotive venue markets;

Licensing and distribution agreements with **Sturgis “Bike Rally”**, **Indianapolis Motor Speedway**, **Professional Bull Riders**, **The 3 Stooges**, **Fellowship of Christian Athletics**, **Legendary Notre Dame Quarterbacks**, and **GRITS (Girls Raised in the South)**.

Proprietary designs including **American Biker™**, **American Wildlife™**, **Ragtops Sportswear™**, **Cadre Athletic™**, and **Campus Traditions USA™**, among others.

Operations and Expansion

The Company is one of the significant companies in the highly fragmented licensed products and imprinted sportswear industries. The Company has implemented its strategy of The Total Solution Company to meet its customers key requirements including: art design and development, manufacturing (for imprinted sportswear), sourcing (for distributed products), warehousing and fulfillment. The Company has, over the last four years, developed a large, diverse, and distinguished customer base of traditional retailers, ranging from national as well as large regional chains, specialty retailers, corporate accounts, college bookstores, motor sports, souvenir and gift shops, and golf shops.

The Company is actively engaged in discussions with various potential acquisition targets and plans to grow through strategic acquisitions of complementary businesses. The Company has embarked on an aggressive acquisition program that targets companies servicing other segments of the promotional products and imprinted sportswear industry not currently serviced by the Company. It is anticipated that such strategic acquisition targets will enable the Company to more effectively utilize its marketing and sales expertise, acquire the ability to cross-distribute its branded products and licenses throughout a wider distribution base, lessen its dependency on the seasonality of retail

customers and reduce overall operating costs by consolidating its services and distribution facilities, to the extent feasible.

The Company has expanded its business to include e-commerce web sites through which some of the Company's most popular licensed products are marketed. The Company has been successful in establishing itself as a premier supplier under various e-commerce web sites, currently the most significant of which are www.campustraditionsusa.comTM; www.rpmsportswearusa.comTM; www.americanwildlifeusa.comTM; and www.americanbiker.comTM. The Company plans to establish additional e-commerce web sites as other product lines are established. Another recent addition includes a corporate website, www.nextinc.net, which gives information to the general public about the Company.

Net Sales

Net sales increased 2.8% to \$4,850,407 for the three months ended March 3, 2006, from \$4,718,012 for the three months ended February 28, 2005. The growth in sales is related to a mix of existing retail customers. Management believes that future sales growth will continue primarily through the diversification and expansion of the Company's customer base and its expanded product offerings.

Cost of Sales

Cost of sales was 75% for the three months ended March 3, 2006, compared to 69% of the Company's sales for the three months ended February 28, 2005. This increase in cost as a percentage of sales relates to raw materials (garments) that were purchased in 2005 at a higher cost than previous year due to the Company's inability to purchase from China until January 1, 2006. The Company utilized existing inventories to fulfill the majority of orders in the first quarter to maximize cash flow. The Company terminated employees associated with art, maintenance, and embroidery departments in December and January but absorbed the severance expense in the first quarter which will not flow into the second quarter. The areas associated with direct cost were re-organized in the first quarter for efficiency. Expenses included in cost of sales were primarily raw materials, labor, shipping supplies, and the depreciation of both the Company's principal manufacturing facility in Indiana and its equipment.

Gross Profit

Gross profit for the three months ended March 3, 2006, was \$1,213,894 or 25% of net sales compared to \$1,467,306 or 31% of net sales for the three months ended February 28, 2005. The decrease in gross profit from 2005 relates to pricing on customer orders which raw materials were already committed to in late 2005. New management has done an extensive review of pricing models based on historical and future cost. The Company has also sought out new, more cost effective suppliers for import orders that will yield higher profit margins for the remainder of 2006 as new orders are released.

Operating and Other Expenses

General and administrative expenses were \$691,853 (14.3% of sales) for the three months ended March 3, 2006, compared to \$655,961 (13.9 % of sales) for the three months ended February 28, 2005. The primary increase in

expenses is related to reorganization expenses and freight cost. The Company terminated employees associated with sales, human resources, and accounting in the first quarter and absorbed the severance cost which will not flow into the second quarter.

Royalty and commission expenses were \$509,061 (10.5% of sales) for the three months ended March 3, 2006, compared to \$495,866 (10.5% of sales) for the three months ended February 28, 2005. The increase in expense was directly related to a higher volume of licensed products sales.

Corporate expenses were \$253,996 for the three months ended March 3, 2006, compared to \$263,404 for the three months ended February 28, 2005. The decrease in corporate expenses was in outside professional fees.

Interest expense relates to the Company's short and long-term debt. Interest expense was \$167,312 for the three months ended March 3, 2006, compared to \$117,235 for the three months ended February 28, 2005. The increase in interest expense is related to higher interest rates than previous year and increased average debt outstanding during the period.

Other income/expense was \$10,878 of expense for the three months ending March 3, 2006, as compared to other income of \$22,660 for the three months ended February 28, 2005. The Company has received incentive payments from Wabash County in prior years based on staffing levels, however due to cut back in staff in the first quarter the Company did not accrue this benefit.

The benefit for income taxes for the three months ended March 3, 2006, was \$167,573, which is attributable to the Company's quarterly operating loss adjusted by book and income tax recognition of temporary differences. The benefit for income taxes for the three-month period ended February 28, 2005, was \$13,129, which was lower related to the pre-tax loss and recognition of book and tax temporary differences.

Financial Position, Capital Resources, and Liquidity March 3, 2006 and November 30, 2005

At March 3, 2006, working capital was \$1,379,693 representing a decrease of \$841,906 from working capital at November 30, 2005 of \$2,221,599. The decrease in working capital was primarily due to the reduction in receivables and inventory from November 30, 2005. The reduction in receivables was due to more timely cash collections, which lowered the number of days in which a sale is outstanding, and the reduction in inventory was the result of management's plan to maximize cash flow by minimizing inventory on hand. The Company is subject to seasonality in its sales cycle due to the amount of college-licensed products. The seasonality of sales results in the majority of the Company's revenues being generated in the third and fourth quarters.

Liquidity and Capital Resources

The Company has historically financed its operations through a combination of earnings and debt. The Company's principal sources of debt financing are its revolving line of credit with National City Bank of Indiana and promissory notes issued by First Federal Savings Bank of Wabash. The credit facility has a maximum limit of \$6,500,000 of which the Company has drawn \$3,216,614 as of March 3, 2006. The credit facility matures on April 30, 2006. The Company is in process of replacing National City with a new senior lender and has signed a non-binding agreement subject to an audit and underwriting. The First Federal Savings Bank Promissory Notes consist primarily of one principal loan in the amount of \$3,225,809 payable in monthly installments of \$29,263 of principal and interest. The balance on this principal loan was \$3,192,427 at March 3, 2006.

The Company's principal use of cash is for operating activities and working capital. Cash provided by operations in the three months ended March 3, 2006, was \$3,362,528 as compared to \$736,266 of cash provided by operations for the three months ended February 28, 2005. The increase in cash provided related primarily to a reduction in receivables, reduction in inventory, and increase in accounts payable offset by higher net loss.

Cash used for investing activities was \$48,339 for the three months ended March 3, 2006, compared to \$708,939 for the three months ended February 28, 2005. The Company's investing activities during the period ending March 3, 2006 were for various intangible assets in the amount of \$45,817, with minimum capital equipment purchases.

Net cash used in financing activities was \$3,380,305 for the three months ended March 3, 2006, compared to \$271,843 for the three months ended February 28, 2005. The proceeds of common stock issued on January 24, 2005 of \$2,691,000 was the primary net change in cash provided between the three months ending March 3, 2006, and February 28, 2005.

On February 8, 2006, the Company entered into an amendment with National City Bank to change the maturity date of the Company's credit facility from April 1, 2007 to April 30, 2006, and reduce the maximum availability under the revolving line of credit from \$9,500,000 to \$6,500,000. The effective date of the amendment was February 1, 2006. The reduced line of credit is in line with the Company's lower seasonal sales cycle for the first quarter of its fiscal year and does not reduce cash availability below the calculated borrowing base. Pursuant to the amendment, National City waives the Company's non-compliance with certain obligations and covenants of the credit facility.

On August 12, 2005, the credit agreement between the Company and National City Bank of Indiana was amended to temporarily increase the Company's line of credit to \$9,500,000, reduce limitations on advances based on eligible inventory, and increase the concentration limits for a specific national customer. On May 26, 2005, the credit agreement between the Company and National City Bank of Indiana was amended to increase the line of credit to \$9,000,000 and extend the term thereof until April 1, 2007. The amendment to the line of credit allowed the Company to reduce the limitation on advances based on eligible inventory. The agreement provides for monthly payments of interest at a nationally published prime rate plus .25% (7.5% was the published rate at March 3, 2006). Accounts receivable, inventory, and certain personal assets and personal guarantees of one of the Company's directors and its Chief Financial Officer collateralize borrowings under the facility.

On January 24, 2005, the Company entered into a Securities Purchase Agreement (the "Agreement") with Bonanza Master Fund, Ltd. ("Bonanza"), MidSouth Investor Fund, L.P. ("MidSouth") and Itasca Capital Partners LLC ("Itasca") and collectively with Bonanza and Mid South, the "Purchasers"), and raised \$2,990,000 in a private placement. None of the Purchasers has any other material relationship with the Company. Pursuant to the Agreement, the Company issued Bonanza 2,000,000 shares of its common stock and a warrant to purchase 1,000,000 shares of common stock, issued to MidSouth 250,000 shares and a warrant to purchase 125,000 shares of common stock, and issued to Itasca 50,000 shares and a warrant to purchase 25,000 shares of common stock. The shares of common stock were issued at \$1.30 per share and the warrants are exercisable at \$1.75 per share for five years. In addition, the Company has issued a warrant to purchase 115,000 shares of common stock to Dougherty & Company, LLC Investment Bankers for its services in connection with the private placement. The warrants are exercisable at \$1.75 per share for five years, but the average closing price of the Company's common stock must be equal to at least \$2.10 for ten consecutive trading days to exercise a purchase. The total offering price was \$2,990,000 in cash, less fees of \$299,000, for a net cash infusion of \$2,691,000.
