Investment Objective and Policy

Babson Capital Corporate Investors (the "Trust") is a closed-end management investment company, first offered to the public in 1971, whose shares are traded on the New York Stock Exchange under the trading symbol "MCI". The Trust's share price can be found in the financial section of most newspapers under either the New York Stock Exchange listings or Closed-End Fund Listings.

The Trust's investment objective is to maintain a portfolio of securities providing a fixed yield and at the same time offering an opportunity for capital gains. The Trust's principal investments are privately placed, below-investment grade, long-term debt obligations with equity features such as common stock, warrants, conversion rights, or other equity features and, occasionally, preferred stocks. The Trust typically purchases these investments, which are not publicly tradable, directly from their issuers in private placement transactions. These investments are typically mezzanine debt instruments with accompanying private equity securities made to small or middle market companies. In addition, the Trust may temporarily invest, subject to certain limitations, in marketable investment grade debt securities, other marketable debt securities (including high yield securities) and marketable common stocks. Below-investment grade or high yield securities have predominantly speculative characteristics with respect to

TO OUR SHAREHOLDERS

April 30, 2012

We are pleased to present the March 31, 2012 Quarterly Report of Babson Capital Corporate Investors (the "Trust").

The Board of Trustees declared a quarterly dividend of 30 cents per share, payable on May 18, 2012 to shareholders of record on May 7, 2012. The Trust paid a 30 cent per share dividend for the preceding quarter (plus a special year-end dividend of 15 cents per share). The Trust earned 32 cents per share of net investment income for the first quarter of 2012, compared to 28 cents per share in the previous quarter.

During the first quarter, the net assets of the Trust increased to \$247,683,642 or \$12.95 per share compared to \$241,943,534 or \$12.69 per share on December 31, 2011. This translates into a 2.1% total return for the quarter, based on the change in the Trust's net assets assuming the reinvestment of all dividends. Longer term, the Trust returned 10.2%, 17.0%, 8.0%, 12.5%, and 12.7% for the 1-, 3-, 5-, 10-, and 25-year time periods, respectively, based on the change in the Trust's net assets assuming the reinvestment of all dividends.

The Trust's share price decreased 7.7% during the quarter, from \$17.99 per share as of December 31, 2011 to \$16.61 per share as of March 31, 2012. The Trust's market price of \$16.61 per share equates to a 28.3% premium over the March 31, 2012 net asset value per share of \$12.95. The Trust's average quarter-end premium for the 3, 5 and 10-year periods was 12.9%, 13.6% and 11.1%, respectively. U.S. equity markets, as approximated by the Russell 2000 Index, increased 12.4% for the quarter. U.S. fixed income markets, as approximated by the Barclays Capital U.S. Corporate High Yield Index, increased 5.3% for the quarter.

The Trust closed six new private placement investments and two "follow-on" investments in existing portfolio companies during the first quarter. The six new investments were in Church Services Holding Company, ELT Holding Company, Healthcare Direct Holding Company, HGGC Citadel Plastics Holdings, RM Holding Company and Safety Infrastructure Solutions, while the two follow-on investments were in FCX Holdings Corporation and FGI Equity LLC. A brief description of these investments can be found in the Consolidated Schedule of Investments. The total amount invested by the Trust in these transactions was \$13.3 million.

U.S. middle market buyout activity was down substantially in the first quarter of 2012 compared to the first quarter of 2011. While the first quarter is typically a slow period for buyout activity, the fall-off in volume versus the prior year was a surprise to most market participants. In light of the market slowdown, we were pleased to be able to add the six new platform investments and two "follow-on" investments noted above to the Trust's portfolio during the quarter. Many market participants expect deal flow to improve throughout the rest of the year, due to factors such as an abundant supply of debt and equity capital, and the proposed changes in capital-gains tax rates due to be enacted in 2013. Our deal flow has remained steady into the second quarter of 2012 and we are optimistic it will remain strong throughout the rest of 2012. Leverage multiples are starting to become a bit of a concern as the scarcity of deal flow has led some lenders to offer higher leverage levels and more aggressive pricing as a way to win deals. We think that is a flawed approach. Instead, we will maintain the same discipline and investment philosophy, based on taking prudent levels of risk and getting paid appropriately for the risks taken, that has served us well for so many years.

We are pleased with the continued improvement in the operating performance of most of our portfolio companies in the first quarter of 2012. Realization activity for the Trust also remains strong. We had three companies sold for nice gains in the first quarter, Milwaukee Gear Company, REI Delaware Holding, Inc., and Savage Sports Holdings, Inc. We have a healthy backlog of companies in the process of being sold and expect 2012 to be a good year for realizations. Refinancing activities, in which the Trust's subordinated note holdings are fully or partially prepaid, continues at a high level, as companies seek to take advantage of lower interest rates and credit availability. As mentioned in prior reports, strong realization and refinancing activity is a double-edged sword, as the resulting loss of income-producing investments could adversely impact the Trust's ability to sustain its dividend level. We have been fortunate that our new investment activity in recent periods has been strong and has had a positive impact on net investment income. We will need to maintain a robust level of new investment activity in the face of expected high levels of realization and refinancing activity.

Thank you for your continued interest in and support of Babson Capital Corporate Investors.

Sincerely,

Michael L. Klofas President
