INTERNET BUSINESS'S INTERNATIONAL, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

1. Description of Business and Change in Control

Prior to December 31, 1997, Internet Business's International, Inc.

Edgar Filing: INTERNET BUSINESS INTERNATIONAL INC - Form 10QSB/A

(the "Company" or "IBUI") was in the food product manufacturing business formerly known as, International Food and Beverage, Inc. In November 1998, new stockholders bought majority control from the previous Chief Executive Officer through a private transaction. Immediately thereafter, the former CEO resigned and the new stockholders assumed the executive management positions. In December 31, 1998, after new management was in place, a decision was made to change the Company's principal line of business from a manufacturing business to a high technology company. In connection with the change in business, the Company changed its name from International Food & Beverage, Inc. to Internet Business's International, Inc., and reincorporated the Company on December 8, 1998 in the state of Nevada. The Company, after January 1, 1999 began plans to offer Internet based e-commerce services. In April of 1999, the Company announce its first e-commerce site and was engaged in the development, operation and marketing of a number of commercial activities. The Company currently owns and operates four reporting segments made up of subsidiaries and or divisions. The four divisions are as follows: Lending on Line (which includes real estate loans and equipment leasing), Internet Service Provider (which includes a national Internet access dial-up service, wireless high speed Internet access in Las Vegas, Nevada and Woodland, California, and Internet web design and hosting), E-commerce (which includes auction sites, B2C and B2B Internet transaction, and reverse auction sites for Europe and the United States), Direct Marketing (which includes the direct marketing of long distance phone services, computers with Internet access, wireless high speed Internet access and bandwidth), and Internet web design hosting). The Company has 6 offices in the US and 1 in Europe and more than 40 employees.

2. Summary of Significant Accounting Policies

Basis of Presentation

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. Significant intercompany balances and transactions are eliminated in consolidation. Affiliated companies in which the Company does not have a controlling interest are accounted for using the equity method.

The Company's consolidated financial statements include Global GPP Corp., an 80% owned subsidiary which operated from March 2000 to March 2001, when it ceased operations. The financial information of Global is included in the E Commerce section of the Company's financial statements, along with the Company's other E Commerce activities.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates include allowances, doubtful accounts, notes receivable, and for mortgage loans receivable. Actual results could differ from those estimates.

Change in Revenue Recognition

Prior to July 1, 2001 the revenue for the Mortgage Division was booked as follows: the mortgage loan amount funded by the Company was booked as revenue on the date of funding. After that date, the net proceeds received from

Edgar Filing: INTERNET BUSINESS INTERNATIONAL INC - Form 10QSB/A

the sale of the mortgage loans were booked as revenue upon receipt of those funds by the Company. This has a significant impact on the revenue for the Company, but does not impact the net income (loss) for the Company. This financial statement has revised figures for June 30, 2001 and September 30, 2000, which incorporate the changes in revenue recognition for the Mortgage Division.

Reclassifications

Certain amounts in the prior year financial statements have been reclassified to conform to the current year classification.

Cash and Cash Equivalents

The Company considers all short-term, highly liquid investments with an original maturity date of three months or less to be cash equivalents.

Mortgage Loans Held for Sale

Loans held for sale include originated mortgage loans intended for sale in the secondary market. Loans held for sale are recorded at the lower of aggregate cost or fair value.

Interest Accrual

Accrued interest ceases upon sale of the Mortgage Loan.

Allowance for Loan Losses

The allowance for loan losses represents management's estimate.

SFAS 134 requires mortgage banking enterprises to classify securities as held-to-maturity, trading, or available-for-sale, depending on the entity's intent and ability to hold the securities. If the mortgage banking enterprise commits to sell a mortgage-backed security before or during the securitization process, the entity must classify the security as trading.

Property and Equipment

Property and equipment is stated at cost and depreciated using the straight-line method over the estimated useful life of the assets, which is generally three to five years for computers and computer related equipment and five to seven years for other non-computer furniture and equipment. Leasehold improvements are amortized using the straight-line method over the shorter of their estimated useful lives or the term of the lease, ranging from one to ten years.

Intangible Assets

Intangible assets consist primarily of acquired customer bases, long-term marketing agreements, goodwill, and other items. Customer bases acquired directly are valued at cost, which approximates fair value at the time of purchase. When material intangible assets, such as customer bases and goodwill are acquired in conjunction with the purchase of a company, IBUI undertakes a study by an independent third party to determine the allocation of the total purchase price to the various assets acquired and the liabilities assumed. The costs assigned to intangible assets are being amortized on a straight-line basis over the estimated useful lives of the assets, which is 36 months for substantially all remaining intangible assets as of June 30, 2001. Goodwill and other intangible assets are periodically

Edgar Filing: INTERNET BUSINESS INTERNATIONAL INC - Form 10QSB/A

reviewed for impairment to ensure they are appropriately valued. Conditions that may indicate an impairment issue exists include an economic downturn, changes in the churn rate of subscribers or a change in the assessment of future operation. In the event that a condition is identified that may indicate an impairment issues exists, an assessment is performed using a variety of methodologies, including cash flow analysis, estimates of sales proceeds and independent appraisals.

Additional Paid In Capital

As of the end of March 2000, the Company issued an additional 7,000,000 shares of common stock in a private placement to a qualified investor with net proceeds provided to the Company of \$3,382,560.

From March 2000 through the end of this quarter ending March 31, 2002 there was no additional paid in capital.

Revenue Recognition

IBUI recognizes revenue when persuasive evidence of an arrangement exists, delivery has occurred, the sales price is fixed or determinable and collectibles is probable.

For ISP services, these criteria are met monthly as our service is provided on a month-to-month basis and collection for the service is generally made within 30 days of the service being provided. Narrowband access revenues consist of monthly fees charged to customers for dial-up Internet access. Narrowband access revenues also include monthly service fees, any associated equipment revenues for the Internet appliance and wireless access services provided as part of the company's marketing initiative and equipment fees. Broadband access revenues consist of fees charged for high-speed, high-capacity access services including DSL, fixed wireless, and dedicated circuit services, installation, termination fees and fees for equipment. Web hosting revenues consist of fees earned by leasing server space and providing web services to companies and individuals wishing to present a web or e-commerce presence. Advertising, content and electronic commerce revenues are recorded as earned.

For lending on line, revenue principally represents closed-loan fees paid by Lenders that closed loans for consumers that originated through our Websites, for example, net2loan.net. Closed-loan fees are recognized at the time the lender reports the closed loan to us. Additional revenue is derived from on line leasing, and is recognized as the services are performed.

Revenue from direct marketing - Fees are earned from products and or services sold are only recognized as revenue upon receipt of those funds.

Advertising Expense

All advertising costs are expensed when incurred.

Concentration of Credit Risk

The Company is subject to credit risk through trade receivables. Monthly Internet access fees and web hosting are generally billed to the customer's credit card, thus reducing the credit risk. The Company routinely assesses the financial strength of significant customers and this assessment, combined with the large number and geographic diversity of its customers, limits the Company's concentration of risk with respect to trade accounts receivable.

Edgar Filing: INTERNET BUSINESS INTERNATIONAL INC - Form 10QSB/A

Income Taxes

The Company accounts for income taxes under the asset and liability approach where deferred income tax assets and liabilities reflect the future tax consequences, based on enacted tax laws, of the temporary differences between financial and tax reporting at the balance sheet date.

Earnings per Share

Basic earnings per share are computed by dividing net income (loss) by the weighted average number of common shares outstanding for the period. Diluted earnings per share are computed by adjusting the weighted average number of shares outstanding during the period for all potentially dilutive shares outstanding during the period.

Recent Accounting Pronouncements

In June 1998, the Financial Accounting Standards Board issued SFAS 133, Accounting for Derivative Investments and Hedging Activities. SFAS 133 establishes a new model for accounting for derivatives and hedging activities and supersedes several existing standards. SFAS 133, as amended by SFAS 137 and SFAS 138, is effective for all fiscal quarters of fiscal years beginning after June 15, 2000. The Company does not expect that the adoption of SFAS 133 will have a material impact on its financial statements.

3. Business Combinations

The Company's business combinations have been accounted for using the purchase method, and, accordingly, the total purchase price of each acquired company was allocated to the tangible assets and liabilities and identifiable intangible assets based on their estimated fair values as of the closing date of the acquisition. The excess purchase price over the fair values is recorded as goodwill. Results of operations for the acquired companies are included prospectively from the date of acquisition.

In February 2002 the Company announced that it plans to spin-off the Global Construction Buying Group to its shareholders by the end of 2002.

In January 2002 the Company decided to sell its E Commerce division and its Mortgage Banking subsidiary, and as of May 2002, has not finalized these sales.

In September 2001 the Company organized Guarantee Capital Group. ("Guarantee") which acquired the computer, furniture and processing equipment from the new owner of Atlas Capital Corporation for \$30,000. In November 2001 Guarantee had exceeded the capacity of its mortgage banking line. This prevented Guarantee from funding the balance of its processed loans and in December 2001, 20 its 24 employees were laid off. Guarantee has a new credit facility and is in the process of rebuilding its staff, which should take place before the end of June 2002.

In September 2001 the Company organized a new marketing subsidiary, 1st2 Market Incorporated and ceased operating its predecessor Allstates Communications Inc. The new subsidiary will only market the Company's products whereas Allstates marketed cell phones for cellular phone companies.

In March 2001 IBUI ceased to operate Global GPP Corporation and closed its corresponding operation in Europe. The Company organized a new

Edgar Filing: INTERNET BUSINESS INTERNATIONAL INC - Form 10QSB/A

corporation, which is a wholly owned subsidiary, Global Construction Buying Group, whose main asset is the equipment acquired from Global GPP Corporation.

In October 2000 IBUI signed an acquisition agreement with Auction-Sales.Com. The Company invested \$180,000 in Auction-Sales.Com and in December 2000 rescinded the acquisition due to undisclosed debts. The Company is currently suing for the return of the funds and believes that if it prevails the debt could be collected.

In October 2000 IBUI acquired the auction web site operations of Sonic Auction Company for a purchase price of approximately \$5,000. With this acquisition, the Company acquired a database and a functioning web auction site. The Company issued 500,000 shares of restricted common stock, to acquire Sonic Auction Company. This site ceased operation in March of 2001.

During the quarter ended September 2000, the Company issued 4,113,871 shares of restricted common stock for services valued at \$41,139.

In April 2000 IBUI acquired all the outstanding stock of Atlas Capital Corporation, a mortgage-banking company, for 600,000 shares of restricted common stock valued at \$6,000. In connection with the acquisition, the Company acquired assets of approximately \$3,183,000 and assumed liabilities of approximately \$3,179,000. The difference was recorded as intangible assets related to acquisition of trade names, websites, workforce-in-place and is being amortized over 5 years. In August 2001 the Company sold Atlas Capital Corporation with its assets and liabilities.

In March 2000 the Company acquired the assets and assumed certain liabilities of Internet 2xtreme, an internet service provider based in northern California. The total purchase price was \$735,000, which consisted of cash of \$17,635 and 124,589 shares of restricted common stock valued at \$186,888. In connection with the acquisition, the Company recorded intangible assets of approximately \$666,000, which consisted of approximately 4,800 customer accounts, website and workforce-in-place, which are being amortized over 5 years.

In March 2000 the Company acquired 80% of the outstanding shares of Global GPP Corporation for \$500,000. Global GPP owns a business-to-business website, equipment and its strategic agreements with IBM Hungary to market business-to-business services in Eastern Europe.

In February 2000 the Company acquired the assets and assumed certain liabilities of Direct Communications, Inc., a wireless communications company. In addition to assuming certain liabilities, the Company paid cash of \$80,000 and issued 30,000 shares of restricted common stock valued at \$300. Intangible assets purchased totaled \$265,000, consisting of customer lists, website and workforce-in-place and is being amortized over 5 years. These assets and liabilities were transferred to the newly formed and wholly owned subsidiary of the Company, Allstates Communications Inc.

In December 1999 the Company entered into a service agreement to market its services on the Internet for 6,000,000 shares of common stock valued at \$60,000.

In November 1999 the Company acquired an E Commerce website Optical Brigade, an on-line sunglass distribution website, for 5,050,000 shares of restricted common stock valued at \$50,500.

Edgar Filing: INTERNET BUSINESS INTERNATIONAL INC - Form 10QSB/A

In August 1999 the Company acquired the website Net 2 Loan, an on-line loan processing website for 400,000 shares of restricted common stock valued at \$4,000.

In July 1999 the Company acquired MBM Capital Group for \$72,000 and 112,667 shares of restricted common stock valued at \$1,127. MBM was sold during the fiscal year of acquisition for a \$150,000 note. After the sale MBM ceased operations and the Company considers the note valueless.

In June 1999, the Company acquired the assets of L.A. Internet, a southern California-based Internet Service Provider, which included customer accounts, trade name, websites, etc. for \$545,000 in exchange for a reduction of the Note Receivable from Iron Horse Holdings, Inc. (see Preferred Stock, Note 8).

5. REVOLVING LINES OF CREDIT

The Company had a master mortgage loan warehousing agreement (credit facility) with a lender that provided a maximum of \$5,000,000 under specified conditions to fund residential mortgages to customers. The residential loans serve as collateral, and funds are advanced up to 98% of the unpaid principal amount of the qualified mortgage loan granted to the customer. The credit facility bears interest at the Prime Rate (9.5% at June 30, 2000) plus 1.0% for loans outstanding for 60 days or less. The interest rate increases to Prime Rate plus 4.0% for loans outstanding between 60 and 120 days, and increases to Prime Rate plus 6.0% for amounts outstanding over 120 days. At June 30, 2001 and 2000, amounts outstanding under the credit facility were \$0 and \$2,579,346, respectively. Subsequent to June 30, 2000, the credit facility was amended to reduce the maximum available facility to

Edgar Filing: INTERNET BUSINESS INTERNATIONAL INC - Form 10QSB/A

\$3,500,000, and the Company did not renew the line when it came up for renewal during the fiscal year ending June 30, 2001.

On February 1, 2000, the Company entered into a Master Repurchase Agreement that provides the Company with a warehouse facility through IMPAC Warehouse Lending Group ("IMPAC"). The IMPAC line provides the Company with an open warehouse credit line (as set forth by IMPAC) for the Company's mortgage originations only. Under the terms of the agreement, the Company must repay the funded amount within 30 days of the date the funds were disbursed with interest at the Prime Rate plus 1.0%. If the funds are not repaid within 30 days, the interest rate increases to Prime Rate plus 3.0% until repaid, and IMPAC reserves the right to sell the loan and any shortfall remains the liability of the Company. The IMPAC line is secured by the mortgage loans funded with the proceeds of such borrowings. The IMPAC line does not have a stated expiration date but is terminable by either party upon written notice. Amounts outstanding under the IMPAC line at June 30, 2001 and 2000 were \$6,183,228 and \$254,217, respectively.

On March of 2001, the Company entered into a Master Repurchase Agreement that provides the Company with a warehouse facility through Imperial Warehouse Lending Group ("Imperial"). The Imperial line provides the Company with an open warehouse credit line (as set forth by Imperial) for the Company's mortgage originations only. Under the terms of the agreement, the Company must repay the funded amount within 30 days of the date the funds were disbursed with interest at the Prime Rate plus 1.0%. If the funds are not repaid within 30 days, the interest rate increases to Prime Rate plus 3.0% until repaid, and Imperial reserves the right to sell the loan and any shortfall remains the liability of the Company. The Imperial line is secured by the mortgage loans funded with the proceeds of such borrowings. The Imperial line does not have a stated expiration date but is terminable by either party upon written notice. Amounts outstanding under the IMPAC line at June 30, 2001 and 2000 were \$ 865,468 and \$ 0, respectively.

In addition, the Company has a bank line of credit that provides for maximum borrowings up to \$125,000. The line of credit is personally secured by certain officers of the Company, and currently bears interest at 11.5% at June 30, 2000 and is due on August 31, 2000. The outstanding balance against the line of credit as of June 30, 2001 and 2000 were \$ 0 and \$125,000, respectively. The Company paid off the line of credit during the fiscal year ending June 30, 2001, because it was no longer required.

All credit facilities and bank line of credit require the Company to maintain certain financial ratios and adhere to specific non-financial requirements. At September 30, 2001, the Company was in compliance with the various covenants contained in the above agreements.

Amounts outstanding under the IMPAC line at December 31, 2001 and June 30, 2001 were \$6,474,470 and \$7,049,096 respectively.

The effective interest rates per quarter for the credit lines listed above were as follows, the interest charge is deducted from the sale proceeds of the funded loans and is booked as a cost of revenue.

6. Long-Term Debt

Long-term debt at June 30, 2001 consists of the following:

	Current Portion	Long-term	Total
Note payable secured by certain Company assets, requiring monthly payments of \$6,494, including interest at 12.25%, due May 5, 2007	\$ 40,506	\$ 283,014	\$323,520

During the fiscal year certain real estate loans defaulted. The Company's subsidiary is making payment to the lender that purchased the defaulted loans. These payments are made at the note rate for each loan. The Company has filed claims with the Company's E&O Insurance carriers and until the claims are either denied or paid the company lists these debts as long-term debt. These notes total \$844,933. Effective September 1, 2001 the Company sold the subsidiary Atlas Capital and these liabilities are included in the sale.

7. Extraordinary Item

The California Code of Civil Procedure Section 337 states; "Within 4 years (four), an action [must be brought] upon any contract, obligation or liability founded upon a written statement or written contract." The debts of the Company's predecessor (see Note 1) identified were greater than 4 years old and not enforceable. Legal counsel Edgar Scheck reviewed the debts and issued an opinion letter that the prior Company's debts were not collectible based upon this Code Section 337. The Company then extinguished these debts and recognized the amount of the debt as extraordinary income. SFAS 125 lists two circumstances under which a liability is not recognized (which are listed below). The second circumstance states the GAAP basis for which the Company extinguished the debt and recognized the debt amount as extraordinary income in the fiscal year ended June 30, 1999.

Per SFAS 125, defeasance does not result in the extinguishments of a liability. A liability is derecognized only if:

1. The creditor is paid and the debtor is relieved of the obligation.
2. The debtor is released legally either by the creditor or judicially from being the primary obligor.

All gains and losses from extinguishments, if material in amount, receive extraordinary item treatment.

8. STOCKHOLDERS' EQUITY

Authorized Shares

During November 2000, the board of directors of the Company amended the articles of incorporation to increase the number of authorized shares of common stock to 349,000,000 shares.

Edgar Filing: INTERNET BUSINESS INTERNATIONAL INC - Form 10QSB/A

Stock Issuance

At December 31, 2001 there were a total of 282,736,029 common shares issued and outstanding of which 94,582,267 were restricted.

Stock Issuance for services;

During the quarter ended December 31, 2001 no additional shares were issued.

During the quarter ended September 30, 2001, the following shares were issued: 15,500,000 as per employment contract.

The Company had issued and outstanding 267,236,029 shares at the end of the fiscal year ended June 30, 2001.

During the fiscal year ended June 30, 2001 IBUI did not issue stock for services.

During the fiscal year ended June 30, 2000 IBUI agreed to issue approximately 30.4 million shares of restricted common stock for development and advertising services over a period of twelve months. Under the agreement, the shares were issued as certain milestones were met, and the fair value of the shares was recorded as prepaid advertising expense and amortized ratably over the term of the contract.

During the fiscal year ended June 30, 1999 IBUI issued approximately 11.2 million shares of restricted common stock to a consultant in lieu of cash for services provided pursuant to a consulting agreement. The fair value of the shares was recorded as prepaid professional services and amortized ratably over the term of the contract.

The Company complies with the provisions of Emerging Issues Task Force ("EITF") Issue No. 96-18, Accounting for Equity Instruments Issued to Other Than Employees for Acquiring, or in Conjunction with, Selling Goods or Services ("EITF 96-18"), with respect to stock issuances to such non-employees, whereby the value of the services was determined as a reliable measurement of fair value.

Stock Issuance for acquisitions see Note 3. Business Combinations.

Preferred Stock

On December 15, 1998, the Company entered into an agreement with Iron Horse Holdings, Inc. ("IHHI"), a privately held company in which officers or family members of the officers of the Company have minority stock ownership, for IHHI to purchase 23,900 shares of the Company's preferred stock with a par value of \$100 per share, in exchange for a promissory note receivable from IHHI in the amount of \$2,500,000. The difference between the par value of the shares and the purchase price is treated as additional paid-in-capital. Shares purchased under the agreement are to be issued to IHHI or its designee. The promissory note receivable bears interest at 9% per annum, and is secured by a blanket security agreement executed by IHHI and perfected by filings as specified by law. Until such note is paid in full, IHHI shall pay the 3% coupon on such shares as are issued under the agreement directly to the shareholder(s) of record at the time such payment is due. During the fiscal year ended June 30, 2001, the Company received payment in full on the note executed by IHHI and IHHI converted the preferred into common stock. There are no preferred shares issued and or outstanding as of June 30, 2001.

Edgar Filing: INTERNET BUSINESS INTERNATIONAL INC - Form 10QSB/A

The Company acquired 100% of LA Internet, Inc. in June 1999 for \$525,000 from IHHI, which was credited towards the note that was owed by IHHI to the Company.

During the fiscal year ended June 30, 2000 the Company received the following payments on the note executed by IHHI,

Date	Balance	Payment	Interest Paid	Form of payment
June 15, 1999		\$240,000		Credit

9. INCOME TAXES

The provision for income taxes for the second quarter ended December 31 and the year ended June 30, 2001 consist of the following (there were no provisions for income taxes on the financial statements due to the net loss carry forward from the previous years operations):

	December 31 2001	June 30 2001
Current income tax expense:		
Federal	\$ 30,930	\$ 269,795
State	0	0
	30,930	269,795
Deferred income tax expense:		
Federal	\$ 0	\$ 0
State	0	0
	0	0
	\$ 0	\$ 0

Edgar Filing: INTERNET BUSINESS INTERNATIONAL INC - Form 10QSB/A

Amounts for deferred income tax assets and liabilities as follows:

Assets	\$	30,930	\$	269,795
Valuation allowance		(30,930)		(269,795)
		0		0
Liabilities		0		0
Net tax asset or liability	\$	0	\$	0

Deferred income tax assets consist primarily of net operating loss carry forwards. The Company has provided for a full valuation allowance on the deferred income tax assets as the realization of such benefits are uncertain. Such carry forwards expire beginning in 2004.

During the second quarter ended December 31, 2001 and the year ended June 30, 2001, the Company excluded the forgiveness of debt income from taxable income pursuant to Internal Revenue Code Section 108(A)(1)(B) and 108(B).

10. COMMITMENTS

The Company leases all of its offices, and the Company moved several of its offices during the first quarter of this fiscal year. This has reduced the its monthly obligations for several locations during the 2nd quarter of this fiscal year. The future minimum rental commitments at December 31, 2001 under these leases are as follows:

Corporate Headquarters

4634 S. Maryland Pky, Suite 107, Las Vegas, Nev. 89119
\$2451 per month ending 6-02 total \$44,118

West Coast Headquarters

Several of these locations house more than one subsidiary. The commitment for the Company based upon the aforementioned leases for the remaining quarters of this fiscal year is \$83,826. The Company also houses equipment at several co-location facilities.

11. SEGMENT INFORMATION

In accordance with SFAS No. 131, "Disclosure about Segments of an

Edgar Filing: INTERNET BUSINESS INTERNATIONAL INC - Form 10QSB/A

Enterprise and Related Information," management has determined that there are four reportable segments based on the customers served by each segment: full service internet service provider (ISP), mortgage banking business, and business-to-business ("B2B") provider and business-to-consumer ("B2C") provider. Such determination was based on the level at which executive management reviews the results of operations in order to make decisions regarding performance assessment and resource allocation.

Full service Internet service provider serves customers requiring Internet access in the western United States through dial-up, high-speed wireless, web hosting and web design. Mortgage banking business includes online mortgage loan origination, processing, servicing and resales. Business-to-business provider primarily provides reverse auction services to foreign companies wishing to purchase materials and supplies in the United States. Business-to-consumer provider primarily consists of cellular phone service origination fees and sales.

Certain general expenses related to advertising and marketing, information systems, finance and administrative groups are not allocated to the operating segments and are included in "other" in the reconciliation of operating income reported below. The accounting policies of the segments are the same as those described in the summary of significant accounting policies (see Note 2). Information on reportable segments is as follows:

12. OTHER EVENTS

a. PMCC

On August 2, 2000, the Company announced that it had entered into an agreement to purchase 2,460,000 shares of common stock of PMCC Financial Corp. ("PMCC"), a full-service mortgage banking company, from PMCC's former chairman of the board, Ronald Friedman, and The

Edgar Filing: INTERNET BUSINESS INTERNATIONAL INC - Form 10QSB/A

Ronald Friedman 1997 Grantor Retained Annuity Trust, which represents 66.36% of the 3,707,000 PMCC shares outstanding. The aggregate purchase price of \$3,198,000 was to be paid in cash to the seller by the Company as follows: \$700,000 at date of closing; \$306,857 for each of the seven installment payments to be paid on the 30th, 60th, 90th, 120th, 150th, 180th and 210th days following the close; \$175,000 on each of the 240th and 270th day after the date of the closing. Shares of PMCC, a listed AMEX company, were not trading at the time of the agreement. In the event that three months after closing, if PMCC's shares were not actively trading on the AMEX or NASDQ exchanges and the Company had not merged PMCC with the Company or any of the Company's subsidiaries, the purchase price was to be reduced by the amount of the final two \$175,000 payments.

Also on July 28, 2000, in a separate transaction, the Company entered into a stock purchase agreement with an unrelated individual whereby the Company would sell up to 370,000 PMCC shares that the Company either owned or would eventually own, for total consideration of \$1,387,500. Shares of PMCC stock sold by the Company would be released to the buyer in proportion to payments received.

As of December 31, 2000, the Company received payments under the July 28, 2000 agreement of \$559,812 and the Company released 149,283 shares of PMCC stock that it owned. The gain on the sale of the PMCC stock of \$410,529 has been included in revenues for the period ended December 31, 2000.

The Company on March 2, 2001 filed an action against Ronald Friedman and The Ronald Friedman 1997 Grantor Retained Annuity Trust in U.S. District Court, in Orange County, California for rescission of the purchase of the PMCC stock agreement and return of \$1,006,857 paid by the Company. On August 16, 2001 Ronald Friedman, Robert Friedman, and The Ronald Friedman 1997 Grantor Retained Annuity Trust filed an action against the Company for the balance of the price under the contract in the amount of \$2,191,143. This action was filed in the U.S. District Court for the Southern District of New York. In February 2002 the New York case was transferred to California and consolidated with the case filed by the Company in Orange County, California. The Company feels that it will prevail in these actions.

b. IBC

On August 11, 2000, the Company entered into an agreement to acquire all of the outstanding shares of International Business Co., a software developer that streamlines B2B e-commerce, in exchange for 2,000,000 shares of restricted Company shares to be held in escrow. Between September 1, 2000 and March 1, 2001, the Company was able to unilaterally cancel the contract if dissatisfied with the seller's performance. The Company canceled the purchase during the cancellation period agreed in the escrow.

c. Auction-Sales.Com, Inc.

On October 19, 2000, the Company entered into a Stock Purchase Agreement with Auction-Sales.Com, Inc. a Delaware corporation, and its majority shareholder, Zahid Rafiq (collectively, "Seller"), for the purchase by the Company of 96.62% of the outstanding and treasury shares of common stock of Auction-Sales.Com, Inc., in exchange for shares of common stock of the Company.

This acquisition was rescinded in December 2000 and the necessary documents were filed with the SEC. The site was retained until the

Edgar Filing: INTERNET BUSINESS INTERNATIONAL INC - Form 10QSB/A

funds invested by the Company are returned which management has very low expectations of occurring.

13. OTHER AGREEMENTS

a. Washington State Hotel and Motel Association.

The agreement, entered into in the ordinary course of business, with the Washington State Hotel and Motel Association, dated October 4, 2000, provides the use of the GGPP reverse auction site as a platform for hotel association members purchasing products needed for their different hotel properties. This method of purchasing allows the suppliers of products the chance to sell products to the buyers in competition with one another; the net effect is that the buyers would select the supplier with the lowest per unit cost. This reduces the cost of supplies and thereby should increase their potential of profit. This agreement covers the modification of the GGPP website for use by the Association, and does not involve any payment by the Company.

b. JWC Construction

The agreement, entered into in the ordinary course of business, with the JWC Construction Company of Poland, dated March 9, 2001 will enable companies to list their purchasing requirements on projects using the reverse auction platform. This method of purchasing allows the suppliers of products the chance to sell products to the buyers in competition with one another; the net effect is that the buyers would select the supplier with the lowest per unit cost. This reduces the cost of supplies and thereby should increase the purchasers potential profit. This agreement covers the modification of the Construction Buying Group website for use by the Construction industry, and does not involve any payment by the Company.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following discussion should be read in conjunction with the financial statements of the Company and notes thereto contained elsewhere in this report.

Current Operations

The Company currently operates four reporting divisions:

Results of Operations - Comparison of Quarter Ended December 31 2001 to Quarter Ended December 31, 2000.

(a) Overall

Prior to July 1, 2001, the Company recognized the gross loan amount funded as revenue; effective July 1, 2001 the Company will only recognize the net proceeds received from the sale of that loan when that loan is sold. This change does not affect the net income (loss) for the period and the net results can be compared to prior periods.

Revenues for the second quarter ended December 31, 2001 of \$4,522,726, is an increase of approximately 196% when compared with revenues of \$2,299,730 in the prior year. This revenue restatement is due to the change in accounting of revenue for the mortgage lending group.

Selling, general and administrative expenses for the second quarter ended December 31, 2001 of \$3,598,865 is an increase 5% of when compared to the same expenses of \$3,423,012 for the same time period for the previous fiscal year.

The resulting profit for the six month period ended December 31, 2001 of \$94,623 was a significant increase when compared to the loss of (\$732,264) reported the comparable quarter ended December 31, 2000. The Company has concentrated on reducing cost and increasing revenue.

(b) Comparison by Segment

Management has determined that there are four reportable segments based on the customers served by each segment: Full service internet service provider (ISP), mortgage banking business, and e-commerce ("B2BC") business-to-business and or to-consumer provider and marketing ("B2B") business-to-business and ("B2C") business-to-consumer. Such determination was based on the level at which executive management reviews the results of operations in order to make

Edgar Filing: INTERNET BUSINESS INTERNATIONAL INC - Form 10QSB/A

decisions regarding performance assessment and resource allocation.

Certain general expenses related to advertising and marketing, information systems, finance and administrative groups are not allocated to the operating segments and are included in "other" in the reconciliation of operating income reported below. Information on reportable segments is as follows:

	Six Months Ended	
	December 31 2001	December 31 2000
Full-service ISP		
Revenue	\$ 2,166,014	\$ 1,402,448

E Commerce (B-to-b/c)		
Revenue	\$ 99,846	\$ 42,816
Operating income	\$ (46,982)	\$ (134,630)
Marketing (B-to-b/c)		
Revenue	\$ 9,973	\$ 457,862
Operating income	\$ (345,836)	\$ (335,065)
Other		
Revenue	\$ 446,534	\$ 190,458
Unallocated expenses	\$ (397,464)	\$ 28,073
Total		
Revenue	\$ 4,522,726	\$ 2,299,730
Operating income	\$ 94,623	\$ (732,264)

The results for the ISP service (see locations and services listed in Current Operations) for the second quarter ended December 31, 2001 of \$2,166,014 is an increase of 154% when compared to the same period ended December 31, 2000 of \$1,402,448. The increase is from concentration on the high-speed Internet accesses and increase in web sale activities. The profits of \$594,2286 for the six months ended December 31, 2001 is an increase of 231 % for the same period of the previous fiscal year which reported profits of \$257,676. The improvement in the profit margins is due to the fact that the profit margins are greater in the wireless Internet access than the standard dial up access.

The results for the Mortgage Division were impacted for the following reasons:

(a) The change in the way revenue is recorded; and

(b) The Mortgage Division generated over \$16,000,000 of mortgage loans that were due to be funded in the last 2 months of the quarter. The IMPAC funding line was at capacity, which prevented the Company from funding those loans, and required the Company to obtain a different funding line with PCFS in December 2001. This new line did not become operational in time to save the \$16,000,000 of loans that were approved and ready to fund. As a result the Company reduced its personnel in that division from over 23 to only three by the end of the second quarter.

Edgar Filing: INTERNET BUSINESS INTERNATIONAL INC - Form 10QSB/A

The results for Mortgage Originations (see location and services listed in Current Operations) for the second quarter ended December 31, 2001 of \$1,800,359 is an increase of 873% when compared to the same period ended December 31, 2000 of \$206,146. The profits of \$290,619 for the six months ended December 31, 2001 is a significant improvement over the same six-month period of the previous fiscal year which reported losses of (\$548,318).

The results for the E Commerce division (see location and services listed in Current Operations) for the second quarter ended December 31, 2001 of \$99,846 was an increase in sales for the same period, ended December 31, 2000 of \$42,816. The loss of (\$46,982) for the six months ended December 31, 2001 is an improvement over the loss for the same period of the previous fiscal year, of (\$99,789). The Company will continue this division's operation and anticipates it becoming profitable by the end of this fiscal year.

The results for the Marketing division (see location and services listed in Current Operations) for the second quarter ended December 31, 2001 of \$9,264 is a decrease of 459% when compared to the same period ended December 31, 2000 of \$457,862. The main reason for the decrease was the decision to stop selling cell phones and begin marketing Company products. The losses of (\$345,836) for the same period are an increase of 9.8 % for the same period of the previous fiscal year, which reported losses of (\$335,065). The increase in losses was also due to the change over in the marketing of products. The Company currently does not use other means of informing the consumer about the products and services that the Company offers other than the Internet. The Company feels that Direct Marketing is the most effective means to market its products and services to the non Internet Consumer. The Company is still trying to develop an effective direct marketing program.

The results for Other Revenue are from service charges that are generated from the new marketing services that are provided by corporate to its clients. The revenue of \$446,534 for this period ended December 31, 2001, is not to be compared to the prior period ended December 31, 2000, which revenue of 190,458 from sources other than the current marketing services. The losses of (\$397,464) for the six months ended December 31, 2001 is a decrease from the profits of \$28,073 reported for the same six month period of the previous fiscal year.

Liquidity and Capital Resources.

Net cash provided by the operations of the Company of \$94,623 for the six months ended December 31, 2001, is a significant improvement when compared to the net cash provided by operating activities of (\$732,262) in the comparable prior year period. The Company plans on expanding its wireless Internet services at an increased rate and therefore it is considering additional sources for raising capital for this expansion. The increased rate for expansion is due to the greater than expected increase in demand for the wireless Internet services in Las Vegas, Nevada and Woodland, California. The Mortgage Division will be in the process of rebuilding during the third quarter and will not be a substantial contributor during that quarter as it has been in the past. The Company has sufficient Capital to rebuild the Mortgage Division during third quarter and expect it to be profitable again in the fourth quarter of this fiscal year.

Capital Expenditures.

Edgar Filing: INTERNET BUSINESS INTERNATIONAL INC - Form 10QSB/A

Other than except for as set forth below, no material capital expenditures were made during the quarter ended December 31, 2001: purchase infrastructure equipment totaling \$245,405.

Forward Looking Statements.

The foregoing Management's Discussion and Analysis of Financial Condition and Results of Operations contains "forward looking statements" within the meaning of Rule 175 of the Securities Act of 1933, as amended, and Rule 3b-6 of the Securities Act of 1934, as amended, including statements regarding, among other items, the Company's business strategies, continued growth in the Company's markets, projections, and anticipated trends in the Company's business and the industry in which it operates. The words "believe," "expect," "anticipate," "intends," "forecast," "project," and similar expressions identify forward-looking statements. These forward-looking statements are based largely on the Company's expectations and are subject to a number of risks and uncertainties, certain of which are beyond the Company's control. The Company cautions that these statements are further qualified by important factors that could cause actual results to differ materially from those in the forward looking statements, including, among others, the following: reduced or lack of increase in demand for the Company's products, competitive pricing pressures, changes in the market price of ingredients used in the Company's products and the level of expenses incurred in the Company's operations. In light of these risks and uncertainties, there can be no assurance that the forward-looking information contained herein will in fact transpire or prove to be accurate. The Company disclaims any intent or obligation to update "forward looking statements."

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk generally represents the risk of loss that may result from the potential change in the value of a financial instrument due to fluctuations in interest rates. Market risk is inherent to both derivative and non-derivative financial instruments, and accordingly, the scope of the Company's market risk management includes all market risk sensitive financial instruments.

The Company uses several tools and risk management strategies to monitor and address interest rate risk. Such tools allow the Company to monitor and evaluate its exposure to these risks and to manage the risk profile of its residual interest portfolio in response to changes in the market risk.

The Company measured the sensitivity of the current value of cost of funds (Prime Rate plus 1.5%) to changes in the mortgage interest rate (bond market plus 1.5%) that the Company charges on funded loans, which is reflected with changes in interest rates. The difference in the cost of funds versus the rate the Company funded the mortgage loans could have benefited the company because the cost of funds was less the mortgage interest rate, or the Company could lose money if the cost of funds was more than the mortgage interest rate.

The following table summarizes the sensitivity analysis of change in the fair value of our cost of funds as compared to the residual

Edgar Filing: INTERNET BUSINESS INTERNATIONAL INC - Form 10QSB/A

interest as of December 31, 2001 and September 30, 2001:

	Change In Fair Value As of:	
	December 31 2001	September 30 2001
Prime Rate	4.750%	6.000%
Our Cost of Funds	1.500%	1.500%
Total	6.250%	7.500%
Bond Market	4.900%	4.575%
Consumer Cost of Funds	1.500%	1.500%
Total	6.400%	6.075%
Net Impact Benefit (Loss)	0.150%	(1.425)%

PART II.

ITEM 1. LEGAL PROCEEDINGS.

Other than as set forth below, the Company is not a party to any material pending legal proceedings other than ordinary routine litigation incidental to the business and, to the best of its knowledge, no such action by or against the Company has been threatened.

The Company on March 2, 2001 filed an action in the United States District Court, Central District of California against Ronald Friedman, and The Ronald Friedman 1997 Grantor Retained Annuity Trust (Case Number SA CV 01-268 DOC (Eex)) for rescission of the purchase of the PMCC stock and return of the \$1,006,857. On August 16, 2001 Ronald Friedman, Robert Friedman, and The Ronald Friedman 1997 Grantor Retained Annuity Trust filed an action in the United States District Court, Southern District of New York against the Company (Case Number CV 01-7637), for the balance of the contract in the amount of \$2,191,143. Each side has filed an answer to the complaints. The Company intends to contest this matter vigorously. Management cannot take any position at this time as to the likely outcome of the matter.
