REPORT ON REVIEW BY INDEPENDENT CERTIFIED PUBLIC ACCOUNTANT

To the Board of Directors
Sonic Jet Performance, Inc and Subsidiary

We have reviewed the accompanying consolidated balance sheet of Sonic Jet Performance, Inc. and Subsidiary as of June 30, 2003, the related consolidated statements of operations (for the three months and six months ended June 30, 2003 and 2002), and the related statements of cash flows for the six months ended June 30, 2003 and 2002 included in the accompanying Securities and Exchange Commission Form 10-QSB for the period ended June 30, 2003. These financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Edgar Filing: SONIC JET PERFORMANCE INC - Form 10QSB

Based on our reviews, we are not aware of any material modifications that should be made to the accompanying financial statements for them to be in conformity with accounting principles generally accepted in the United States.

We have previously audited, in accordance with auditing standards generally accepted in the United States, the balance sheet as of December 31, 2002, and the related consolidated statements of operations, stockholders' equity and cash flows for the year then ended (not presented herein). In our report dated April 20, 2003, we expressed an unqualified opinion on those financial statements. In our opinion, the information set forth in the accompanying balance sheet as of June 30, 2003 is fairly stated in all material respects in relation to the balance sheet from which it has been derived.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following discussion should be read in conjunction with the financial statements of the Registrant and notes thereto contained elsewhere in this report.

Comparison of Three Months and Six Months Ended June 30, 2003 and 2002.

The following table sets forth the Registrant's consolidated statements of operations:

	Three months ended June 30,		Six months ended June 30,	
	2003	2002	2003	2002
Revenues	\$ 606,785	\$ 303,837	\$ 703,134	\$ 366,837

Total other income (expense)	(116,640)	32,482	(116,377)	3,000
Net Loss	(1,972,958)	(530,529)	(3,756,628)	(83,163)

In an effort to focus on Technical Solutions Group, Inc.'s ("TSG") mine protected vehicles and achieve profitable operations in the third quarter, and as a result of the poor performance of the boat division and the long lead times necessary to achieve success in that business, the Registrant has, effective July 1, 2003, downsized and transferred the fire and rescue operations to a new acquired subsidiary, Rockwell Power Systems, Inc. The Registrant has set up adequate financial reserves for the restructuring and expects minimal internal resources to be devoted to Rockwell. Rockwell will either finance the fire and rescue business through an independent public offering or, failing that, find a buyer that can devote the time and resources necessary to penetrate the market and build the business. In any case, the Registrant plans to assure that resources will be available if necessary to complete any warranty incurred, and is adequately reserved for such occurrence.

Sales: Net sales for the three and six months ended June 30, 2003 increased by approximately \$303,000 and 340,000, respectively, compared to the three months and six months ended June 30, 2002.

Edgar Filing: SONIC JET PERFORMANCE INC - Form 10QSB

During 2002, the Registrant acquired TSG, whose sales for the three month and six month periods ended June 30, 2003 were approximately \$605,000 and \$700,000 respectively. Therefore the entire increase in sales is attributable to TSG. Sales of boats actually declined for the six months compared to last year. The reduction in boat sales can primarily be attributed to reduction in the effort to sell recreational boats.

Cost of Sales: Cost of sales for the three months and six months ended June 30, 2003 was approximately \$422,700 and \$ 627,000 higher than the three months and six months of 2002 respectively. Cost of sales percent was 100% and 119% of sales for the three months and six months ended 2003 compared to approximately 60% and 58% for comparative periods in 2002. In the case of TSG, manufacturing period costs are high in comparison to sales due to start up of a government contract. During the three months and six months ended June 30, 2002, this expense related only to the boat division as TSG was acquired on June 30, 2002.

Selling, General and Administrative Expenses: Selling, general and administrative expenses for the three months and six months ending June 30, 2003 increased by approximately \$659,000 and \$1,973,000 respectively compared to the same periods in 2002. The increase is partially the result of TSG selling, general and administrative expenses that were not in last year. The remaining increase can be attributed to: fund raising expenses, business consultants (\$253,000 and \$107,000 higher, respectively), and grants of employee stock (\$301,000 and \$519,000 higher, respectively).

Restructuring expenses. These expenses are related to writing down assets to fair market value and direct expenses and employee termination agreements involved with the reorganization and transfer of the boat business, and the settling of liabilities related to the purchase of TSG in June 2002.

Net Loss: Net loss for three months and six months ended June 31, 2003 increased by approximately \$1,442,429 and \$ 2,924,831 respectively from corresponding periods ending June 30, 2002. The increase is attributed to fund raising, business consultants, employee stock grants and reorganization costs as discussed above.

Operating Activities.

The cash used by operating activities for the three months and six months ended June 30, 2003 was \$1,099,887 and \$2,089,662 respectively, attributable primarily to funding ongoing operations.

Investing Activities.

The Registrant's capital expenditures for the three months and six months ended June 30, 2003 were \$4,460 and \$20,293, respectively, related to investments in office and manufacturing equipment. The Registrant anticipates that its capital expenditures during 2003 will increase because we intend to improve operating efficiencies, and may relocate our principle facility.

Financing Activities.

During the three months ended March 31, 2003 and three months ended June 30, 2003, the Company sold a total of 16,064,300 and 6,760,000 restricted shares of common stock, respectively, to investors pursuant to its private placement memorandum, generating net proceeds of \$1,094,955 and \$502,700, respectively pursuant to the sale of common stock units. For more details about this transaction, see Note 7 - Capital Stock Transactions. The Registrant believes the issuance of the shares and warrants was exempt from registration under the private placement exemption available under Section 4(2) of the 1933 Securities Act.

On May 22, 2003, the company settled a \$50,000 promissory note dated July 2, 2002 with interest at 10%, and entered into an agreement by and between Atlantis Aggressive Growth Co. and Atlantis Partners, Inc. and the Registrant to settle various claims against the registrant by Atlantis Aggressive Growth Co. and Atlantis Partners Inc. arising out of the purchase of TSG in June 2002. For the consideration of paying the note and settling claims, the Registrant issued restricted shares of common stock and warrants (represented by 40,000 units) valued at \$210,000. For more detail of the transaction, see Note 7 - Capital Stock Transactions.

On March 31, 2003, the Registrant began securing capital

Edgar Filing: SONIC JET PERFORMANCE INC - Form 10QSB

commitments through the issuance of promissory notes. Under the terms of the promissory notes the loans are payable in six months with 8% interest; however, at the end of the term the loan has an option to convert into Series C Preferred Stock. As of June 30, 2003, the Registrant had obtained \$706,000 in capital from note holders for 2003.

TSG has entered into agreement with GC Financial Service, Inc. to enter in to a purchase and sale agreement/security agreement by which factor may purchase from debtor certain accounts receivable and other rights, including without limitations, all liens, security interest, warrants and guarantees to secure payments of the accounts receivables. As of June 30, 2003 TSG had drawn \$2,332,185.

Liquidity and Capital Resources.

As of June 30, 2003, cash and cash equivalents were approximately \$100,135 compared to approximately \$144,000 as of December 31, 2002. The Registrant has raised approximately \$1,094,955 and \$502,700 during the three months ended March 31, 2003 and the three months ended June 30, 2003, respectively, through a private placement. The Registrant's principal sources of capital have been cash flow from its operations, the sale of common stock, promissory notes mentioned in financing activities, and borrowings from G.C. Financial Services. Based on its current operating plan, the Registrant anticipates that additional financing will be required to finance its operations and capital expenditures.

Presently, the Registrant is generating sufficient revenue to cover expenses and hire employees commensurate with its mine protected vehicle business. However, the Registrant's future liquidity will depend on its ability to obtain necessary financing from outside sources and its ability to restructure operations to reduce operating losses.

The Registrant's currently anticipated levels of revenues and cash flow are subject to many uncertainties and cannot be assured. Further, unforeseen events may occur causing the Registrant to raise additional funds. The amount of funds required by the Registrant will depend upon many factors, including without limitation, the extent and timing of sales of the Registrant's products, future product costs, the timing and costs associated with the establishment and/or expansion, as appropriate, of the Registrant's manufacturing, development, engineering and customer support capabilities, the timing and cost of the company's product development and enhancement activities and the company's operating results. Until the Registrant generates cash flow from operations that will be sufficient to satisfy its cash requirements, the company will need to seek alternative means for financing its operations and capital expenditures and/or postpone or eliminate certain investments or expenditures. Potential alternative means for financing may include leasing capital equipment, obtaining a line of credit, or obtaining additional debt or equity financing. There can be no assurance that, if and when needed, additional financing will be available, or available on acceptable terms. The inability to obtain additional financing or generate sufficient cash from operations could require the Registrant to reduce or eliminate expenditures for capital equipment, research and development, production or marketing of its products, or otherwise curtail or discontinue its operations, which could have a material adverse effect on the Registrant's business, financial condition and results of operations. Furthermore, if the Registrant raises funds through the sale of additional equity securities, the common stock currently outstanding may be further diluted.

Inflation.

The Registrant does not believe that inflation has had or is likely to have any significant impact on its operations.

Forward Looking Statements.

The foregoing management's discussion and analysis of financial condition and results of operations contains "forward looking statements" within the meaning of Rule 175 of the Securities Act of 1933, as amended, and Rule 3b-6 of the Securities Act of 1934, as amended, including statements regarding, among other items, the Registrant's business strategies, continued growth in the Registrant's markets, projections, and anticipated trends in the Registrant's business and the industry in which it operates. The words "believe," "expect," "anticipate," "intends," "forecast," "project," and similar expressions identify forward-looking statements. These forward-looking statements are based largely on the Registrant's expectations and are subject to a number of risks and uncertainties, certain of which are beyond the Registrant's control. The Registrant cautions that these statements are further qualified by important factors that could cause actual results to differ materially from those in the forward looking statements, including, among others, the following: reduced or lack of increase in demand for the Registrant's products, competitive pricing pressures, changes in the market price of ingredients used in the Registrant's products and the level of expenses incurred in the Registrant's operations. In light of these risks and uncertainties, there can be no assurance that the forward-looking information contained herein will in fact transpire or prove to be accurate. The Registrant disclaims any intent or obligation to update "forward looking statements."

ITEM 3. CONTROLS AND PROCEDURES.

Controls and Procedures.

(a) Evaluation of disclosure controls and procedures.

Within the 90 days prior to the end of the period covered by this report, the Registrant carried out an evaluation of the effectiveness of the design and operation of its disclosure controls and procedures pursuant to Rule 13a-14 under the Securities Exchange Act of 1934 ("Exchange Act"). This evaluation was done under the supervision and with the participation of the Registrant's president and chief financial officer. Based upon that evaluation, they concluded that the Registrant's disclosure controls and procedures are effective in gathering, analyzing and disclosing information needed to satisfy the Registrant's disclosure obligations under the Exchange Act.

(b) Changes in internal controls.

The most significant changes in the Registrant's internal controls or in its factors that could significantly affect those controls was the addition of a chief executive officer and the issuance of an authorization procedure for commitment of resources.

Critical Accounting Policies.

The Securities and Exchange Commission has issued Financial Reporting release No. 60, "Cautionary Advice Regarding Disclosure About Critical Accounting Policies" ("FRR 60"), suggesting companies

Edgar Filing: SONIC JET PERFORMANCE INC - Form 10QSB

provide additional disclosure and commentary on their most critical accounting policies. In FRR 60, the SEC defined the most critical accounting policies as the ones that are most important to the portrayal of a company's financial condition and operating results, and require management to make its most difficult and subjective judgments, often as a result of the need to make estimates of matters that are inherently uncertain. Based on this definition, the Registrant's most critical accounting policies include: non-cash compensation valuation that affects the total expenses reported in the current period. The methods, estimates and judgments the Registrant uses in applying these most critical accounting policies have a significant impact on the results the Registrant reports in its financial statements.

PART II B OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

On June 26, 2003 Albert Mardikian, a majority shareholder and patent holder of certain designs and components of the Registrant's boats, filed a complaint against the Registrant in the Orange County Superior Court. The complaint alleges breach of contract of the license agreement dated December 27, 2001 between Mr. Mardikian, Mardikian Marine Design, and the Registrant. The complaint further alleges breach of an employment and agency agreement between the Registrant and Mr. Mardikian, and fraud, conversion and unfair competition. The Registrant has filed an answer denying these allegations, and on July 28, 2003 filed a cross-complaint against Mr. Mardikian and Mardikian Marine Design. While the Registrant's management believes that the matter will be resolved in its favor, this case is in the early stages of litigation and there can be no assurance as to the outcome of the lawsuit. Litigation is subject to inherent uncertainties, and unfavorable rulings could occur. Were unfavorable rulings to occur, there exists the possibility of a material adverse impact of money damages on the Registrant's financial condition, results of operations, or liquidity of the period in which the ruling occurs, or future periods.
