Notes to Consolidated Condensed Financial Statements

(Unaudited)

(Dollars in thousands, except as otherwise indicated)

1. Basis of Presentation

The accompanying unaudited consolidated condensed financial statements of APAC Customer Services, Inc. and its subsidiaries (collectively, the Company) have been prepared in accordance with generally accepted accounting principles for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the thirteen week period ended April 3, 2005, are not necessarily indicative of the results that may be expected for the fiscal year ending January 1, 2006. The balance sheet at January 2, 2005, has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. For additional information, refer to the financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended January 2, 2005. Copies of the Company's filings are available on a web site maintained by the SEC at <http://www.sec.gov>.

2. Accrued Liabilities

The components of other accrued liabilities included in the consolidated condensed balance sheets are as follows:

	April 3, 2005	January 2, 2005
Accrued worker's compensation	\$ 3,254	\$ 3,122
Accrued professional fees	889	1,007
Restructuring charges	695	391
Accrued relocation	494	400
Accrued property tax	492	752
Telecommunications expenses	487	523
Other	1,906	2,286
Total	\$ 8,217	\$ 8,481

3. Intangible Assets

The identifiable intangible assets of the Company represent acquired customer relationships with a gross carrying value of \$28,493 and accumulated amortization of \$16,392 and \$15,805 as of April 3, 2005, and January 2, 2005,

respectively. Under the provisions of Statement of Financial Accounting Standards No. 142, Goodwill and Other Intangible Assets (SFAS No. 142), identifiable intangible assets with finite lives are amortized. The customer relationship intangible assets are amortized on a straight-line basis over the expected period of benefit of 12 years. Total amortization expense related to intangible assets as of April 3, 2005, and March 28, 2004, was \$587. Annual amortization expense is expected to be \$2.3 million for fiscal 2005 through 2009 and \$1.0 million in fiscal 2010.

Under SFAS No. 142, the Company is required to test all existing goodwill and intangible assets for impairment at least annually. The Company's policy is to test goodwill for impairment as of the end of the fiscal year.

(Dollars in thousands, except per share data or as otherwise indicated)

(Unaudited)

4. Accounting for Stock-Based Compensation

For stock-based employee compensation plans, the Company has elected to use the intrinsic value method prescribed by Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees (APB No. 25). In accordance with APB No. 25, no compensation expense is recognized for stock options issued to employees when the option price equals or exceeds the fair market value of the Company's common shares at the date of grant. Stock-based compensation expense for non-employees is recognized in accordance with Statement of Financial Accounting Standards No. 123, Accounting for Stock Based Compensation (SFAS No. 123).

The following table illustrates the effect on net income and earnings per share if the Company had adopted the fair value recognition provisions of SFAS No. 123.

	Thirteen Weeks Ended	
	April 3, 2005	March 28, 2004
Net loss as reported	\$ (2,382)	\$ (1,653)
Less-compensation expense on stock options, net of income tax benefit	(286)	(420)
Net loss pro forma	\$ (2,668)	\$ (2,073)
Loss per share - basic		
As reported	\$ (0.05)	\$ (0.03)
Pro forma	\$ (0.05)	\$ (0.04)
Loss per share - diluted		
As reported	\$ (0.05)	\$ (0.03)
Pro forma	\$ (0.05)	\$ (0.04)

In order to calculate the pro forma information set forth above, the fair value of each option is estimated on the date of grant based on the Black-Scholes option-pricing model. Assumptions include no dividend yield, risk-free interest rates ranging from 4% to 7%, expected volatility ranging between 45% and 90%, and an expected life ranging from 7 years to 10 years.

5. New Accounting Pronouncements

In the fourth quarter of 2004, the Financial Accounting Standards Board (FASB) issued Statement No. 123 (revised 2004), or SFAS No. 123(R), Share-Based Payment, which replaces SFAS No. 123 Accounting for Stock-Based Compensation, and supersedes Accounting Principles Board Opinion No. 25 (APB), Accounting for Stock Issued to Employees. SFAS No. 123(R) establishes accounting standards for equity instruments that an entity exchanges for goods or services. It also addresses transactions where an entity incurs liabilities in exchange for goods or services that are based on the fair value of the entity's equity instruments or that may be settled by the issuance of those equity instruments. This Statement focuses primarily on accounting for share-based payment transactions as it relates to employee services. SFAS No. 123(R) requires a public entity to measure the value of an award of equity instruments based on the grant-date fair value of the award. That cost is to be recognized

Edgar Filing: APAC CUSTOMER SERVICE INC - Form 10-Q

over the period during which an employee is required to provide service in exchange for the award (usually the vesting period). If an employee terminates before the vesting period expires, any compensation cost recognized to date for that individual's equity instrument is reversed at the date

of termination. The grant-date fair value of share options and similar instruments is to be estimated using option-pricing models adjusted for the unique characteristics of those instruments.

SFAS No. 123(R) eliminates the option to use ABP Opinion 25's intrinsic value method of accounting that was provided in Statement No. 123 as originally issued. Under ABP Opinion 25, issuing stock options to employees generally resulted in recognition of no compensation cost. Statement No. 123 also required pro forma disclosure showing the effect on net income and earnings per share as if the Company had applied the fair value recognition provision of Statement No. 123. After a phase-in period for Statement No. 123(R), this type of disclosure will no longer be allowed.

Although alternative phase-in methods are allowed under Statement No. 123(R), the Company has not yet determined the phase-in method it will use. The Company believes that whatever phase-in method is selected, the adoption of SFAS No. 123(R) is likely to have a material effect on the Company's results of operations and financial position. On April 14, 2005, the Securities and Exchange Commission (SEC) announced the adoption of a rule that defers the required effective date of SFAS 123(R). The SEC rule provides that Statement 123(R) is now effective for registrants as of the beginning of the first fiscal year beginning after June 15, 2005, instead of at the beginning of the first fiscal quarter after June 15, 2005 (as prescribed originally by the FASB Statement).

6. Comprehensive Income (Loss) and Accumulated Other Comprehensive Income (Loss)

Comprehensive loss is as follows:

	Thirteen Weeks Ended	
	April 3, 2005	March 28, 2004
Net loss	\$ (2,382)	\$ (1,653)
Foreign currency translation gain (loss)	41	(47)
Total comprehensive loss	\$ (2,341)	\$ (1,700)

Foreign currency translation gains and losses relate to the impact of a change in exchange rates on net assets located outside of the United States.

7. Legal Proceedings

The Company is a party to an arbitration proceeding with Apogee Enterprises, Inc. and Harmon Glass Solutions, which is described in the Company's Annual Report on Form 10-K for the fiscal year ended January 2, 2005.

The Company is subject to occasional lawsuits, governmental investigations and claims arising out of the normal

conduct of its business. Management does not believe the outcome of any such pending claims will have a material adverse impact on the Company's consolidated financial position, annual results of operations or liquidity. Although the Company does not believe that any of these proceedings will result in a material adverse effect, no assurance to that effect can be given.

8. Long Term Debt

On December 20, 2002, the Company entered into an Amended and Restated Credit Agreement (Credit Agreement) replacing the previous Amended and Restated Credit Facility. Under the terms of the Credit Agreement, the Company has a revolving credit facility, which expires on December 20, 2005. The facility initially provided \$65.0 million of total credit availability which was gradually reduced to \$57.5 million as of September 26, 2004.

On October 26, 2004, the Credit Agreement was amended, reducing the size of the revolver to \$50 million. Under terms of the amendment, availability will vary monthly based on the level of eligible receivables at the end of the preceding month.

The Credit Agreement is secured principally by a grant of a security interest in all personal property and fixtures of the Company. Under the terms of the Credit Agreement, the Company is also required to maintain certain financial covenants which limit the Company's ability to incur additional indebtedness, repurchase outstanding common shares, create liens, acquire, sell or dispose of certain assets, engage in certain mergers and acquisitions and make certain restricted payments.

Borrowings under the Credit Agreement incur a floating interest rate usually based on the LIBOR index rate, although the Company has the option of using an alternate base rate defined in the agreement. In addition, the Company pays a commitment fee on the unused portion of the revolving facility as well as quarterly fees on the outstanding letters of credit.

The Company has received a waiver of certain financial covenants set forth in that agreement. However, this waiver is conditional on the Company's completing its refinancing. On April 18, 2005 the Company received a commitment from LaSalle Bank National Association to replace its current revolving credit agreement. This new three-year \$40 million revolving credit facility will be based on accounts receivable to determine borrowing capacity. If this facility had been in place on April 3, 2005 the Company would have had approximately \$26 million of borrowing capacity. The Company is currently in the process of negotiating the final terms of a definitive loan and security agreement that is expected to be completed by the end of May, 2005. Although the Company believes the agreement will be signed, no assurance to that effect can be given.

9. Restructuring and Other Charges/Asset Impairment Charges

The Company recorded \$0.2 million of restructuring charges in the first quarter of fiscal 2005 related to the closure of one Customer Interaction Center. These charges included severance costs of \$0.1 million and \$0.1 million for the write down of property and lease termination and other costs. Cash charges totaling \$0.1 million relating to the restructuring have been paid through April 3, 2005. The remaining \$0.1 million of cash charges, primarily related to lease costs, are payable over the next year. The Company also recorded \$0.4 million of other severance charges during the first quarter of fiscal 2005, which were partially offset by a \$0.3 million sales and use tax refund.

The Company recorded \$0.9 million of restructuring charges in the first quarter of fiscal 2004 related to the closure of one Customer Interaction Center and the elimination of certain administrative and support positions. These charges included severance costs of \$0.8 million resulting from the elimination of 22 administrative and support positions, and \$0.1 million for the write down of property and lease termination and other costs. The Company also recorded \$2.1 million of asset impairment charges relating to the write-off of unutilized software assets.

Following is a summary of the fiscal 2005 year-to-date activity in the reserves established in connection with the Company's restructuring initiatives:

	January 2, 2005	Charges (Reversals)	2005 Asset Write-down	Cash Payments	April 3, 2005
2002 Restructuring Initiatives					
Lease obligations and other	\$ 12	\$	\$	\$ (2)	\$ 10
2003 Restructuring Initiatives					
Employee severance costs	302			(40)	262
Lease obligations and other	4				4
2004 Restructuring Initiatives					
Employee severance costs	260			(76)	184
Lease obligations and other	65			(47)	18
2005 Restructuring Initiatives					
Employee severance costs		67		(39)	28
Write down of property and equipment		15			15
Lease obligations and other		95		(20)	75
Total	\$ 643	\$ 177	\$	\$ (224)	\$ 596

10. Income Taxes

The Company accounts for income taxes using the asset and liability approach. Under the asset and liability method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Valuation allowances are recorded when management believes it is more likely than not that some portion or all of the deferred tax assets will not be realized in the future. The Company records a reserve for tax contingencies until management believes it is probable that the deductions giving rise to these contingencies will not be successfully challenged. The Company's effective income tax rate is 34.2% and 38.0% for the three months ended April 3, 2005, and March 28, 2004, respectively.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Edgar Filing: APAC CUSTOMER SERVICE INC - Form 10-Q

The Company is a leading provider of customer interaction solutions for market leaders in the communications, financial services, health care, logistics, publishing, insurance and travel and hospitality industries. To help its clients better manage their customer relationships, APAC Customer Services develops and delivers customer care and customer acquisition programs. The Company operates and manages approximately 6,800 workstations in 23 Customer Interaction Centers. The Customer Interaction Centers are managed centrally through the application of telecommunications and computer technology to promote the consistent delivery of quality service. The Company consists of a single operating segment that offers customer interaction solutions to its clients.

The following discussion of the Company's results of operations and liquidity and capital resources should be read in conjunction with the Consolidated Condensed Financial Statements of the Company and related notes thereto appearing elsewhere in this report.

Results of Operations

The following table sets forth the Consolidated Condensed Statements of Operations data as a percent of net revenue for the thirteen week periods ended April 3, 2005, and March 28, 2004, respectively.

	Thirteen Weeks Ended	
	April 3, 2005	March 28, 2004
Net revenues	100.0%	100.0%
Cost of services	89.8	84.2
Gross Profit	10.2	15.8
Operating expenses:		
Selling, general and administrative expenses	15.0	15.2
Restructuring and other charges	.4	1.2
Asset impairment charges		2.9
Total operating expenses	15.4	19.3
Operating income (loss)	(5.2)	(3.5)
Interest expense, net	.3	.2
Loss before income taxes	(5.5)	(3.7)
Income tax benefit	(1.9)	(1.4)
Net loss	(3.6)%	(2.3)%

Comparison of Results of Operations for the thirteen weeks ended April 3, 2005, and March 28, 2004

Net revenue decreased 8.0% to \$65.7 million in the first quarter of fiscal 2005 from \$71.4 million in the same period of fiscal 2004, a decrease of \$5.7 million. The revenue decline from the first quarter of fiscal 2004 is primarily attributable to lower revenue rates in response to competitive pressure and reduced customer acquisition volumes related to customer cutbacks in marketing programs.

Edgar Filing: APAC CUSTOMER SERVICE INC - Form 10-Q

Cost of services decreased \$1.1 million in the first quarter of fiscal 2005, or 1.9%, to \$59.0 million from \$60.1 million in the same period of fiscal 2004. This decrease is primarily due to a reduction in cost of services resulting from lower direct costs associated with the decline in revenue partially offset by increased training and information technology costs.

Gross profit margins decreased to 10.2% in the first three months of fiscal 2005 versus 15.8% in the comparable period of fiscal 2004. This decrease is principally due to the effect of lower revenue rates as previously discussed, lower capacity utilization, higher labor costs, and operational improvement initiatives.

Selling, general and administrative expenses decreased to \$9.9 million in the first quarter of fiscal 2005 from \$10.8 million in the same period of fiscal 2004, a decrease of \$0.9 million or 8.9%. Expenses declined from the prior year primarily due to lower employee incentive expenses. As a percent of net revenue, selling, general and administrative expenses were 15.0% in the first quarter of fiscal 2005 versus 15.2% in the same period of fiscal 2004.

The Company recorded \$0.2 million of restructuring charges in the first quarter of fiscal 2005 related to the closure of one Customer Interaction Center. These charges included severance costs of \$0.1 million and \$0.1 million for the write down of property and lease termination and other costs. Cash charges totaling \$0.1 million relating to the restructuring have been paid through April 3, 2005. The remaining \$0.1 million of cash charges, primarily related to lease costs, are payable over the next year. The Company also recorded \$0.4 million of other severance charges during the first quarter of fiscal 2005, which were partially offset by a \$0.3 million sales and use tax refund.

The Company recorded \$0.9 million of restructuring charges in the first quarter of fiscal 2004 related to the closure of one Customer Interaction Center and the elimination of certain administrative and support positions. These charges included severance costs of \$0.8 million resulting from the elimination of 22 administrative and support positions, and \$0.1 million for the write down of property and lease termination and other costs. The Company also recorded \$2.1 million of asset impairment charges relating to the write-off of unutilized software assets.

The Company generated a net loss of \$2.4 million in the first quarter of fiscal 2005 compared to a \$1.7 million loss for the same period of fiscal 2004. The decrease is primarily due to the lower revenue and gross profit margins, partially offset by a reduction in selling, general and administrative expenses and restructuring and asset impairment charges, as previously discussed.

The Company's effective income tax rate is 34.2% for the three months ended April 3, 2005, versus 38.0% in the prior year period.

Critical Accounting Policies and Estimates

The preparation of the Company's financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. The Company believes its estimates and assumptions are reasonable; however, actual results and the timing of the recognition of such amounts could differ from those estimates. The Company has identified the following critical accounting policies and estimates utilized by management in the preparation of the Company's financial statements: revenue recognition, accounting for long-lived assets, allowance for doubtful accounts, accounting for employee benefits and income taxes. Any deviation from these policies or estimates could have a material impact on the financial statements of the Company.

Revenue recognition

The Company recognizes customer services revenue as services are performed for our clients. Client contracts generally require that clients be billed for the Company's services on the basis of time spent by Company representatives providing services. The Company's services are also increasingly priced on a pay-for-performance basis, pursuant to which the Company typically receives fees that are a combination of base-rate plus fee per sale. The Company is

generally subject to varying client performance standards, such as average handle time, occupancy rate, abandonment rate and sales per hour. The Company's performance against such standards may provide bonus opportunities, or conversely, may subject the Company to penalties, which are recognized as earned or incurred.

Accounting for long-lived assets

The Company's long-lived assets consist primarily of property and equipment, capitalized software and intangible assets. In addition to the original cost of these assets, their recorded value is impacted by a number of estimates made by the Company, including estimated useful lives and salvage values. In addition, any decision by the Company to reduce capacity by closing Customer Interaction Centers or to abandon software may result in a write-off of the net book value of the affected assets. In accordance with SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, the Company records impairment charges on long-lived assets used in operations when events and circumstances indicate that the assets may be impaired and the undiscounted cash flows estimated to be generated by those assets are less than the carrying amount of those assets. In this circumstance, the impairment charge is determined based upon the amount the net book value of the assets exceeds their fair market value. In making these determinations, the Company utilizes certain assumptions, including, but not limited to, the estimated fair market value of the assets, which are based on additional assumptions such as asset utilization, length of time the asset will be used in the Company's operations and estimated salvage values.

Under the provisions of SFAS No. 142, *Goodwill and Other Intangible Assets*, the Company evaluates the remaining useful life of the customer relationships balance at least annually to determine whether events or circumstances warrant a revision to the remaining period of amortization. Based on the Company's evaluation, no changes were made to the amortization period.

The amortization expense related to customer relationships as of April 3, 2005, and March 28, 2004, was \$587. Annual amortization expense is expected to be \$2.3 million for fiscal years 2005 through 2009 and \$1.0 million in fiscal 2010.

Under SFAS No. 142, the Company is required to test all existing goodwill for impairment at least annually. The Company's policy is to test goodwill for impairment as of the end of the fiscal year. The Company tested the goodwill for impairment as of January 2, 2005, resulting in no impairment being recorded.

Allowance for doubtful accounts

The Company records an allowance for doubtful accounts based on a quarterly assessment of the probable estimated losses in trade accounts receivable. This estimate is based on specific allowances for identified problem receivables and an additional allowance for estimated losses on all other receivables based on their age and the Company's collection history.

Accounting for employee benefits

Edgar Filing: APAC CUSTOMER SERVICE INC - Form 10-Q

The Company records an accrued liability for group health and workers compensation claims based on an estimate of claims incurred, but not reported, as well as asserted claims at the end of the period. This estimate is derived from an analysis performed by actuaries hired by the Company who have expertise in this area. Although these estimates are generally reliable, changes in the employee mix and unforeseen events could result in an adjustment to these estimates.

The balances of these accounts at April 3, 2005, and March 28, 2004, were:

	(in thousands)			
	2005		2004	
Group Health Insurance	\$	2,500	\$	3,519
Workers Compensation	\$	3,254	\$	3,097

The decrease in group health insurance from March 28, 2004 is primarily due to a reduction in the level of employee participation in the health insurance plan offered by the Company.

Income taxes

The Company accounts for income taxes using the asset and liability approach. Under the asset and liability method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Valuation allowances are recorded when management believes it is more likely than not that some portion or all of the deferred tax assets will not be realized in the future. The Company records a reserve for tax contingencies until management believes it is probable that the deductions giving rise to these contingencies will not be successfully challenged.

Liquidity and Capital Resources

The following table sets forth consolidated statements of cash flow data for the Company for the thirteen week periods ended April 3, 2005, and March 28, 2004, respectively.

	2005	(In thousands)		2004
Net cash used by operating activities	\$	(2,775)	\$	(2,010)
Net cash used by investing activities		(2,584)		(2,545)
Net cash provided (used) by financing activities		5,198		(83)
Net decrease in cash	\$	(161)	\$	(4,638)

Cash from operating activities in the first three months of fiscal 2005 decreased \$0.8 million versus the first three months of fiscal 2004, primarily due to lower operating margins and an increase in accounts receivable.

Net cash used by investing activities was \$2.6 million in the first three months of fiscal 2005, primarily due to expenditures related to the buildout of additional seats in the Company's call center in the Philippines. Capital expenditures of \$2.5 million in the first three months of fiscal 2004 were primarily related to the buildout of additional seats in the Philippines and computer equipment upgrades.

Net cash from financing activities primarily related to the borrowings under the revolving credit agreement in fiscal 2005 partially offset by capital lease payments. Cash used for financing in fiscal 2004 related to capital lease payments.

The Company is subject to an existing revolving credit agreement, which is due to expire December 20, 2005. The Company has received a waiver of various financial covenants set forth in that agreement. However, this waiver is conditional on the Company's completing its refinancing. On April 18, 2005 the Company received a commitment from LaSalle Bank National Association to replace its current revolving credit agreement. This new three year \$40 million revolving credit facility will be based on accounts receivable to determine borrowing

Edgar Filing: APAC CUSTOMER SERVICE INC - Form 10-Q

capacity. If this facility had been in place on April 3, 2005 the Company would have had approximately \$26 million of borrowing capacity. The Company is currently in the process of negotiating the final terms of a definitive loan and security agreement that is expected to be completed by the end of May, 2005. Although the Company believes the agreement will be signed, no assurance to that effect can be given.

The Company expects that its cash balances, cash flows from future operations and available borrowings under its new credit facility will be sufficient to meet normal operating needs, fund any planned capital expenditures and repay

debt obligations payable during fiscal 2005. However, a significant change in operating cash flow could impact the Company's ability to meet its cash requirement needs and comply with covenants of its new credit facility.

Forward-Looking Statements

The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for certain forward-looking statements. This Report on Form 10-Q and other documents that the Company files with the SEC contain forward-looking statements that reflect the Company's current views with respect to future events and financial performance. These forward-looking statements are subject to certain risks and uncertainties, which could cause future results to differ materially from historical results or those anticipated. The words "believe," "expect," "anticipate," "intend," "estimate," "would," "could," "should," and other expressions which indicate future events and trends identify forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of their dates. If no date is provided, such statements speak only as of the date of this Report on Form 10-Q. Except as required under the federal securities laws and rules and regulations of the SEC, the Company undertakes no obligation to publicly update or revise any forward-looking statements in connection with new information or future events or otherwise. Factors that could cause future results to differ materially from historical results or those anticipated include, but are not limited to, reliance by the Company on a small number of principal clients for a substantial proportion of its total revenue; possible changes in or events affecting the business of the Company's clients, including changes in customers' interest in, and use of, clients' products and services; the effect of the Company's operating losses on the Company's future prospects; fluctuations in quarterly results of operations due to timing of clients' initiation and termination of large programs; risks in conducting business internationally; changes in competitive conditions affecting the Company's industry; the ability of the Company's clients to terminate contracts with the Company on a relatively short notice; changes in the availability and cost of qualified employees; variations in the performance of the Company's automated system and other technological factors; additions or changes to government regulations such as do not call registries, disclosure requirements or other regulations affecting the teleservices and telecommunications industries; and competition from other outside providers of customer interaction solutions and in-house customer interaction operations.

See the Company's filings with the SEC for further discussion of the risks and uncertainties associated with the Company's business, in particular, the discussion under the caption "Information Regarding Forward-Looking Statements" in Item 7 (Management's Discussion and Analysis of Financial Condition and Results of Operations) of the Company's Annual Report on Form 10-K for the fiscal year ended January 2, 2005.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Historically, the Company has been exposed to the impact of U.S. interest rate changes directly related to its normal operating and funding activities. From time to time, the Company has entered into derivatives in order to minimize these risks, but not for trading purposes. The Company does not have any derivative agreements at this time.

The Company prepared a sensitivity analysis of its average debt for the quarter ended April 3, 2005, assuming a one-percentage point adverse change in interest rates. Holding all other variables constant, the hypothetical adverse change would not significantly increase interest expense. The sensitivity analysis assumes no changes in the Company's financial structure.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) under the Securities Exchange Act, as amended (the Exchange Act)) as of the end of the period covered by this report. Based on such evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures are effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act.

Inherent Limitations on the Effectiveness of Controls

Our management, including our Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls and procedures or our internal controls will prevent or detect all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any within the Company have been detected.

These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Projections of any evaluation of controls effectiveness to future periods are subject to risks. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies or procedures.

Internal Control Over Financial Reporting

There have not been changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Part II. Other Information

Item 1. Legal Proceedings

The Company is a party to an arbitration proceeding with Apogee Enterprises, Inc. and Harmon Glass Solutions, which is described in the Company's Annual Report on Form 10-K for the fiscal year ended January 2, 2005.

The Company is subject to occasional lawsuits, governmental investigations and claims arising out of the normal conduct of its business. Management does not believe the outcome of any such pending claims will have a material adverse impact on the Company's consolidated financial position, annual results of operations or liquidity. Although the Company does not believe that any of these proceedings will result in a material adverse effect, no assurance to that effect can be given.

Item 6. Exhibits

(a) The exhibits required by Item 601 of Regulation S-K are listed in the Exhibit Index attached hereto.

Signatures

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
