Boston Scientific's mission is to improve the quality of patient care and increase health care productivity

Boston Scientific's Mission Statement

[GRAPHIC]

Boston Scientific's mission is to improve the quality of patient care and the productivity of health care delivery through the development and advocacy of less-invasive medical devices and procedures.

This is accomplished through the continuing refinement of existing products and procedures and the investigation and development of new technologies that can reduce risk, trauma, cost, procedure time and the need for aftercare.

**Boston Scientific Invests in the Communities
Where We Work and Live**

[GRAPHIC]

As Boston Scientific has grown, so has our commitment to giving back to the communities where we work and live

Through the Boston Scientific Foundation, we support organizations and causes that support individuals and communities by promoting improvements in two critical areas – health and education

Since its inception in 2002, the Foundation has donated approximately \$4 million in grants to more than 150 charitable organizations

Annually, Boston Scientific contributes more than \$25 million towards research, education and local communities

We continue to organize and participate in numerous volunteer programs at Boston Scientific sites worldwide
