Item 1. Reports to Stockholders.

COHEN & STEERS REIT AND PREFERRED INCOME FUND, INC.

August 9, 2007

To Our Shareholders:

We are pleased to submit to you our report for the six months ended June 30, 2007. The net asset value at that date was \$29.39 per common share. The fund's common stock is traded on the New York Stock Exchange and its share price can differ from its net asset value; at year end, the fund's closing price on the NYSE was \$27.03. The total return, including income, for Cohen & Steers REIT and Preferred Income Fund and the comparative benchmarks were:

	Six Months Ended June 30, 2007
Cohen & Steers REIT & Preferred Income Fund at Market Value ^a	9.35%
Cohen & Steers REIT & Preferred Income Fund at Net Asset Value ^a	4.61%
FTSE NAREIT Equity REIT Index ^b	5.89%
S&P 500 Index ^b	6.96%
Merrill Lynch Fixed Rate Preferred Index ^b	0.07%
Blend 50% FTSE NAREIT Equity REIT Index 50% Merrill Lynch Fixed Rate Preferred Index ^b	2.78%

The performance data quoted represent past performance. Past performance is no guarantee of future results. The investment return and the principal value of an investment will fluctuate and shares, if sold, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Performance results reflect the effects of leverage, resulting from the issuance of preferred shares.

Three monthly dividends of \$0.20 per common share were declared and will be paid to common shareholders on July 31, 2007, August 31, 2007 and September 28, 2007.^c

^a As a closed-end investment company, the price of the fund's New York Stock Exchange-traded shares will be set by market forces and at times may deviate from the net asset value per share of the fund.

^b The FTSE NAREIT Equity REIT Index is an unmanaged, market capitalization weighted index of all publicly traded REITs that invest predominantly in the equity ownership of real estate. The index is designed to reflect the performance of all publicly traded equity REITs as a whole. The S&P 500 Index is an unmanaged index of common stocks that is frequently used as a general measure of stock market performance. The Merrill Lynch Fixed Rate Preferred Index is an unmanaged index of preferred securities.

^c Please note that distributions paid by the fund to shareholders are subject to recharacterization for tax purposes. The final tax treatment of these distributions is reported to shareholders after the close of each fiscal year on form 1099-DIV.

COHEN & STEERS REIT AND PREFERRED INCOME FUND, INC.

Investment Review

REIT returns expected to normalize

Following four years of double-digit returns (and seven years of positive returns), REITs had generally negative returns in the first half of 2007, as measured by the FTSE NAREIT Equity REIT Index. The year started off well, with REITs buoyed by a January bidding contest for control of Equity Office Properties (EOP). They struggled over the remainder of the period, declining nearly 20% from February highs over concerns about rising interest rates and potential inflation. Expectations for Federal Reserve monetary easing receded. The possibility that the Fed might in fact raise rates entered the picture, and the yield on the 10-year Treasury bond in June climbed to 5.26%, its highest level in five years; the yield retreated to 5.03% by period end. Growth rates for real estate companies generally stabilized, signaling an end to the stock-multiple expansion phase of the real estate cycle, and setting expectations for more normalized returns for REITs.

Preferreds compete with Treasuries

The Merrill Lynch REIT Preferred Index had a total return of 0.4% for the period. Preferred securities enjoyed a positive first quarter, as investors sought higher-quality, less-volatile investments. In the second quarter, however, they faced rising bond yields and widening credit spreads as markets reacted to risks stemming largely from U.S. subprime mortgages and tighter credit. Both the heightened risk of LBOs which raised concerns about potential acquisition targets and financing and the outlook for heavy new corporate bond supply from recently privatized companies weighed on credit spreads, particularly in the high-yield market, which performed poorly late in the quarter. The relatively high levels of preferred securities issuance also dampened prices in the secondary market as investors exited current positions to take advantage of the higher dividends paid by new issues.

REITs post across-the-board declines

For the six months, the fund underperformed its blended benchmark, hindered by an overweight in the health care sector and underweights in the hotel, specialty and regional mall sectors. On a positive note, the preferred securities (51% of the portfolio as of period end) aided performance. Our underweight in the shopping center and self storage sectors also benefited performance.

Investment Outlook

Opportunities in REITS

We believe the U.S. real estate market has become more attractive based on discounts to underlying net asset values that have widened meaningfully. However, before REITs can manage a sustainable performance recovery, investors may require more clarity on inflation and economic growth. If the economy gains momentum, it would benefit real estate companies; however, it might cause the Fed to raise interest rates, unsettling stock prices,

COHEN & STEERS REIT AND PREFERRED INCOME FUND, INC.

including REITs. A cooling economy, on the other hand, would likely prompt the Fed to cut rates, which could lift stocks, as a rate reduction is not currently expected by the market.

Nonetheless, we believe that REITs, on the whole, are attractively valued with prices that reflect a fair degree of pessimism, including the possibility of some decline in property asset values. REITs are trading at compelling discounts (more than 20% in some cases) to their underlying net asset values, compared with their long-term average of about a 5% premium to NAV. The private equity market continues to value REITs aggressively, as evidenced again by the recent privatizations of real estate companies.

Market conditions benign for preferred securities

We believe that market conditions are generally supportive for preferred securities, which historically outperformed other fixed income instruments in an environment of flat or modestly rising interest rates. The significant increase in bond yields in June followed yet another reassessment of economic growth as markets looked beyond the lackluster 0.7% GDP growth in the first quarter to a period of reaccelerating growth in the second. We do not discount the fact that real yields that is, yields net of inflation rose globally in the first half of the year, indicating that markets are demanding more compensation from debt investments generally. However, we believe that an economic slowdown in growth lies ahead that should keep both inflation and real yields in check.

Regarding preferred selection, we favor quality first, followed by interest-rate defensive characteristics, as we see potential for spreads to widen further in riskier assets. We will seek relatively high income and a lower volatility strategy while pursuing opportunities to deliver attractive total returns. We prefer preferred issues by domestic and foreign banks, REITs and certain life insurance, utilities and telecom companies.

In closing, we believe that a portfolio composed of real estate stocks and preferred securities offers investors the potential for attractive income and long-term total returns. We also believe that the fund has potential diversification benefits, given the historically low correlations between REITs and preferred securities broadly.

COHEN & STEERS REIT AND PREFERRED INCOME FUND, INC.

Our Leverage Strategy
(Unaudited)

While we do not attempt to predict what future interest rates will be, it has been our philosophy to utilize interest rate swap transactions to seek to reduce the interest rate risk inherent in our utilization of leverage. Our leverage strategy involves issuing auction market preferred shares (AMPS) to raise additional capital for the fund, with an objective of increasing the net income available for shareholders. As of June 30, 2007, AMPS represented 34% of the fund's managed assets. Considering that AMPS have variable dividend rates, we seek to lock in the rate on a significant portion of this additional capital through interest rate swap agreements (where we effectively convert our variable rate obligation to a fixed rate obligation for the term of the swap agreements). Specifically, we have fixed the rate on 55% of our borrowings at an average interest rate of 3.8% for an average remaining period of 1.8 years (when we first entered into the swaps, the average term was 5.6 years). By locking in a significant portion of our leveraging costs, we have endeavored to adequately protect the dividend-paying ability of the fund. The use of leverage increases the volatility of the fund's net asset value in both up and down markets. However, we believe that locking in a portion of the fund's leveraging costs for the term of the swap agreements partially protects the fund from any impact that an increase in short-term interest rates may have as a result of the use of leverage.

Leverage Facts^a

Leverage (as a % of managed assets)	34%
% Fixed Rate	55%
% Variable Rate	45%
Weighted Average Rate on Swaps	3.8%
Weighted Average Term on Swaps	1.8 years
Current Rate on AMPS	5.2%

COHEN & STEERS REIT AND PREFERRED INCOME FUND, INC.

NOTES TO FINANCIAL STATEMENTS (Unaudited)

Note 1. Significant Accounting Policies

Cohen & Steers REIT and Preferred Income Fund, Inc. (the fund) was incorporated under the laws of the State of Maryland on March 25, 2003 and is registered under the Investment Company Act of 1940, as amended, as a nondiversified, closed-end management investment company. The fund's investment objective is high current income.

The following is a summary of significant accounting policies consistently followed by the fund in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America (GAAP). The preparation of the financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Portfolio Valuation: Investments in securities that are listed on the New York Stock Exchange are valued, except as indicated below, at the last sale price reflected at the close of the New York Stock Exchange on the business day as of which such value is being determined. If there has been no sale on such day, the securities are valued at the mean of the closing bid and asked prices for the day or, if no asked price is available, at the bid price.

Securities not listed on the New York Stock Exchange but listed on other domestic or foreign securities exchanges or admitted to trading on the National Association of Securities Dealers Automated Quotations, Inc. (Nasdaq) national market system are valued in a similar manner. Securities traded on more than one securities exchange are valued at the last sale price on the business day as of which such value is being determined as reflected on the tape at the close of the exchange representing the principal market for such securities.

Readily marketable securities traded in the over-the-counter market, including listed securities whose primary market is believed by Cohen & Steers Capital Management, Inc. (the investment manager) to be over-the-counter, but excluding securities admitted to trading on the Nasdaq National List, are valued at the official closing prices as reported by Nasdaq, the National Quotation Bureau, or such other comparable sources as the Board of Directors deem appropriate to reflect their fair market value. If there has been no sale on such day, the securities are valued at the mean of the closing bid and asked prices for the day, or if no asked price is available, at the bid price. However, certain fixed-income securities may be valued on the basis of prices provided by a pricing service when such prices are believed by the Board of Directors to reflect the fair market value of such securities. Where securities are traded on more than one exchange and also over-the-counter, the securities will generally be valued using the quotations the Board of Directors believes most closely reflect the value of such securities.

Securities for which market prices are unavailable, or securities for which the investment manager determines that bid and/or asked price does not reflect market value, will be valued at fair value pursuant to procedures approved by the fund's Board of Directors. Circumstances in which market prices may be unavailable include, but are not limited to, when trading in a security is suspended, the exchange on which the security is traded is subject to an unscheduled close or disruption or material events occur after the close of the exchange on which the security

COHEN & STEERS REIT AND PREFERRED INCOME FUND, INC.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

is principally traded. In these circumstances, the fund determines fair value in a manner that fairly reflects the market value of the security on the valuation date based on consideration of any information or factors it deems appropriate. These may include recent transactions in comparable securities, information relating to the specific security and developments in the markets.

The fund's use of fair value pricing may cause the net asset value of fund shares to differ from the net asset value that would be calculated using market quotations. Fair value pricing involves subjective judgments and it is possible that the fair value determined for a security may be materially different than the value that could be realized upon the sale of that security.

Short-term debt securities, which have a maturity date of 60 days or less, are valued at amortized cost, which approximates value.

Security Transactions and Investment Income: Security transactions are recorded on trade date. Realized gains and losses on investments sold are recorded on the basis of identified cost. Interest income is recorded on the accrual basis. Discounts are accreted and premiums are amortized over the life of the respective securities. Dividend income is recorded on the ex-dividend date except for certain dividends on foreign securities, which are recorded as soon as the fund is informed after the ex-dividend date. The fund records distributions received in excess of income from underlying investments as a reduction of cost of investments and/or realized gain. Such amounts are based on estimates if actual amounts are not available, and actual amounts of income, realized gain and return of capital may differ from the estimated amounts. The fund adjusts the estimated amounts of the components of distributions (and consequently its net investment income) as an increase to unrealized appreciation/(depreciation) and realized gain/(loss) on investments as necessary once the issuers provide information about the actual composition of the distributions.

Foreign Currency Translation and Forward Foreign Currency Contracts: The books and records of the fund are maintained in U.S. dollars as follows: (1) the foreign currency market value of investment securities, other assets and liabilities and forward foreign currency contracts (forward contracts) are translated at the exchange rates prevailing at the end of the period; and (2) purchases, sales, income and expenses are translated at the exchange rates prevailing on the respective dates of such transactions. The resultant exchange gains and losses are recorded as realized and unrealized gain/loss on foreign exchange transactions. Pursuant to U.S. federal income tax regulations, certain foreign exchange gains/losses included in realized and unrealized gain/loss are included in or are a reduction of ordinary income for federal income tax purposes. The fund does not isolate that portion of the results of operations arising as a result of changes in the foreign exchange rates from the changes in the market prices of the securities. Forward contracts are valued daily at the appropriate exchange rates. The resultant unrealized exchange gains and losses are recorded as unrealized foreign currency gain or loss. The fund records realized gains or losses on delivery of the currency or at the time the forward contract is extinguished (compensated) by entering into a closing transaction prior to delivery.

COHEN & STEERS REIT AND PREFERRED INCOME FUND, INC.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

Foreign Securities: The fund may directly purchase securities of foreign issuers. Investing in securities of foreign issuers involves special risks not typically associated with investing in securities of U.S. issuers. The risks include possible revaluation of currencies, the ability to repatriate funds, less complete financial information about companies and possible future adverse political and economic developments. Moreover, securities of many foreign issuers and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. issuers.

Interest Rate Swaps: The fund uses interest rate swaps in connection with the sale of preferred shares. The interest rate swaps are intended to reduce the risk that an increase in short-term interest rates could have on the performance of the fund's common shares as a result of the floating rate structure of the preferred shares. In these interest rate swaps, the fund agrees to pay the other party to the interest rate swap (which is known as the counterparty) a fixed rate payment in exchange for the counterparty agreeing to pay the fund a variable rate payment that is intended to approximate the fund's variable rate payment obligation on the preferred shares. The payment obligation is based on the notional amount of the swap. Depending on the state of interest rates in general, the use of interest rate swaps could enhance or harm the overall performance of the common shares. The market value of interest rate swaps is based on pricing models that consider the time value of money, volatility, the current market and contractual prices of the underlying financial instrument. Unrealized gains are reported as an asset and unrealized losses are reported as a liability on the Statement of Assets and Liabilities. The change in value of swaps, including the accrual of periodic amounts of interest to be paid or received on swaps, is reported as unrealized gains or losses in the Statement of Operations. A realized gain or loss is recorded upon payment or receipt of a periodic payment or termination of swap agreements. Swap agreements involve, to varying degrees, elements of market and counterparty risk, and exposure to loss in excess of the related amounts reflected in the Statement of Assets and Liabilities.

Dividends and Distributions to Shareholders: Dividends from net investment income and capital gain distributions are determined in accordance with U.S. federal income tax regulations, which may differ from GAAP. Dividends from net investment income are declared and paid monthly. Net realized capital gains, unless offset by any available capital loss carryforward, are distributed to shareholders annually. Dividends and distributions to shareholders are recorded on the ex-dividend date and are automatically reinvested on the ex-dividend date unless the shareholder has elected to have them paid in cash.

Distributions paid by the fund are subject to recharacterization for tax purposes. Based upon the results of operations for the six months ended June 30, 2007, the investment manager considers it likely that a portion of the dividends will be reclassified to return of capital and distributions of net realized capital gains upon the final determination of the fund's taxable income for the year.

Series M7, Series T7, Series W7, Series TH7 and Series F7 preferred shares pay dividends based on a variable interest rate set at auctions, normally held every seven days. The dividends are declared and recorded for the

COHEN & STEERS REIT AND PREFERRED INCOME FUND, INC.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

subsequent seven day period on the auction date. In most instances, dividends are payable every seven days, on the first business day following the end of the dividend period.

Series T28, Series TH28, Series W28A, Series W28B and Series W28C preferred shares pay dividends based on a variable interest rate set at auctions, normally held every 28 days. The dividends are declared and recorded for the subsequent 28 day period on the auction date. In most instances, dividends are payable every 28 days, on the first business day following the end of the dividend period.

Federal Income Taxes: It is the policy of the fund to continue to qualify as a regulated investment company, if such qualification is in the best interest of the shareholders, by complying with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies, and by distributing substantially all of its taxable earnings to its shareholders. Accordingly, no provision for federal income or excise tax is necessary.

Note 2. Investment Management Fees, Administration Fees and Other Transactions with Affiliates

Investment Management Fees: The investment manager serves as the fund's investment manager pursuant to an investment management agreement (the management agreement). Under the terms of the management agreement, the investment manager provides the fund with day-to-day investment decisions and generally manages the fund's investments in accordance with the stated policies of the fund, subject to the supervision of the Board of Directors.

For the services under the management agreement, the fund pays the investment manager a management fee, accrued daily and paid monthly, at an annual rate of 0.65% of the fund's average daily managed asset value. Managed asset value is the net asset value of the common shares plus the liquidation preference of the preferred shares.

Administration Fees: The fund has entered into an administration agreement with the investment manager under which the investment manager performs certain administrative functions for the fund and receives a fee, accrued daily and paid monthly, at the annual rate of 0.06% of the fund's average daily managed assets up to \$1 billion, 0.04% of the fund's average daily managed assets in excess of \$1 billion up to \$1.5 billion and 0.02% of the fund's average daily managed assets in excess of \$1.5 billion. For the six months ended June 30, 2007, the fund incurred \$472,888 in administration fees. Additionally, the fund has retained State Street Bank and Trust Company as sub-administrator under a fund accounting and administration agreement.

Directors' and Officers' Fees: Certain directors and officers of the fund are also directors, officers, and/or employees of the investment manager. The fund does not pay compensation to any affiliated directors and officers except for the Chief Compliance Officer, who received \$7,271 from the fund for the six months ended June 30, 2007.

COHEN & STEERS REIT AND PREFERRED INCOME FUND, INC.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

Note 3. Purchases and Sales of Securities

Purchases and sales of securities, excluding short-term investments, for the six months ended June 30, 2007, totaled \$655,969,660 and \$670,148,257, respectively.

Note 4. Income Tax Information

As of June 30, 2007, the federal tax cost and net unrealized appreciation on securities were as follows:

Cost for federal income tax purposes	\$ 1,846,930,933
Gross unrealized appreciation	\$ 288,224,959
Gross unrealized depreciation	(17,289,754)
Net unrealized appreciation	\$ 270,935,205

Note 5. Capital Stock

The fund is authorized to issue 100 million shares of common stock at a par value of \$0.001 per share.

During the six months ended June 30, 2007 and the year ended December 31, 2006, the fund issued no shares of common stock for the reinvestment of dividends.

Preferred shares are senior to the fund's common shares and will rank on a parity with shares of any other series of preferred shares, and with shares of any other series of preferred stock of the fund, as to the payment of dividends and the distribution of assets upon liquidation. If the fund does not timely cure a failure to (1) maintain a discounted value of its portfolio equal to the preferred shares basic maintenance amount, (2) maintain the 1940 Act preferred shares asset coverage, or (3) file a required certificate related to asset coverage on time, the preferred shares will be subject to a mandatory redemption at the redemption price of \$25,000 per share plus an amount equal to accumulated but unpaid dividends thereon to the date fixed for redemption. To the extent permitted under the 1940 Act and Maryland Law, the fund at its option may without consent of the holders of preferred shares, redeem preferred shares having a dividend period of one year or less, in whole, or in part, on the business day after the last day of such dividend period upon not less than 15 calendar days and not more than 40 calendar days prior to notice. The optional redemption price is \$25,000 per share plus an amount equal to accumulated but unpaid dividends thereon to the date fixed for redemption.

The fund's common shares and preferred shares have equal voting rights of one vote per share and vote together as a single class, except in certain circumstances regarding the election of directors. In addition, the affirmative vote of the holders of a majority, as defined in the 1940 Act, of the outstanding preferred shares shall be required to (1) approve any plan of reorganization that would adversely affect the preferred shares and (2) approve any matter that materially and adversely affects the rights, preferences, or powers of that series.

COHEN & STEERS REIT AND PREFERRED INCOME FUND, INC.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

Note 6. Other

In the normal course of business, the fund enters into contracts that provide general indemnifications. The fund's maximum exposure under these arrangements is dependent on claims that may be made against the fund in the future and, therefore, cannot be estimated; however, based on experience, the risk of material loss from such claims is considered remote.

Note 7. New Accounting Pronouncements

In July 2006, the Financial Accounting Standards Board (FASB) issued Interpretation 48, Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement 109 (FIN 48). FIN 48 clarifies the accounting for income taxes by prescribing the minimum recognition threshold a tax position must meet before being recognized in the financial statements. FIN 48 is effective for fiscal years beginning after December 15, 2006. An assessment of the fund's tax positions has been made and it has been determined that there is no impact to the fund's financial statements.

In September 2006, Statement of Financial Accounting Standards No. 157, Fair Value Measurements (SFAS 157), was issued and is effective for fiscal years beginning after November 15, 2007. SFAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Management is currently evaluating the impact the adoption of SFAS 157 will have on the fund's financial statements.

COHEN & STEERS REIT AND PREFERRED INCOME FUND, INC.

PROXY RESULTS (Unaudited)

During the six months ended June 30, 2007, Cohen & Steers Reit and Preferred Income Fund shareholders voted on the following proposals at the annual meeting held on April 19, 2007. The description of each proposal and number of shares voted are as follows:

Common Shares

	Shares Voted For	Authority Withheld
To elect Directors		
Richard J. Norman	44,877,270	479,777
Frank K. Ross	44,877,687	479,360

Preferred Shares

	Shares Voted For	Authority Withheld
To elect Directors		
Martin Cohen	24,120	571
Richard J. Norman	24,119	572
Frank K. Ross	24,121	570

COHEN & STEERS REIT AND PREFERRED INCOME FUND, INC.

AVERAGE ANNUAL TOTAL RETURNS

(periods ended June 30, 2007) (Unaudited)

Based on Net Asset Value		Based on Market Value	
One Year	Since Inception (6/27/03)	One Year	Since Inception (6/27/03)
13.39%	16.87	13.45%	13.17%

The performance data quoted represent past performance. Past performance is no guarantee of future results. The investment return will vary and the principal value of an investment will fluctuate and shares, if sold, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Performance results reflect the effect of leverage resulting from the issuance of preferred shares.

REINVESTMENT PLAN

We urge shareholders who want to take advantage of this plan and whose shares are held in 'Street Name' to consult your broker as soon as possible to determine if you must change registration into your own name to participate.

OTHER INFORMATION

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940 that the fund may purchase, from time to time, shares of its common stock in the open market.

A description of the policies and procedures that the fund uses to determine how to vote proxies relating to portfolio securities is available (i) without charge, upon request, by calling 800-330-7348, (ii) on our Web site at cohenandsteers.com or (iii) on the Securities and Exchange Commission's Web site at <http://www.sec.gov>. In addition, the fund's proxy voting record for the most recent 12-month period ended June 30 is available (i) without charge, upon request, by calling 800-330-7348 or (ii) on the SEC's Web site at <http://www.sec.gov>.

The fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The fund's Forms N-Q are available (i) without charge, upon request by calling 800-330-7348, or (ii) on the SEC's Web site at <http://www.sec.gov>. In addition, the Forms N-Q may be reviewed and copied at the SEC's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling 800-SEC-0330.

Please note that the distributions paid by the fund to shareholders are subject to recharacterization for tax purposes. The fund may also pay distributions in excess of the fund's net investment company taxable income and this excess would be a tax-free return of capital distributed from the fund's assets. To the extent this occurs, the fund's shareholders of record will be notified of the estimated amount of capital returned to shareholders for each such distribution and this information will also be available at cohenandsteers.com. The final tax treatment of all distributions is reported to shareholders on their 1099-DIV forms, which are mailed after the close of each calendar year. Distributions of capital decrease the fund's total assets and, therefore, could have the effect of increasing the fund's expense ratio. In addition, in order to make these distributions, the fund may have to sell portfolio securities at a less than opportune time.

COHEN & STEERS REIT AND PREFERRED INCOME FUND, INC.

One of the fund's investment policies has been amended to provide that the fund may invest significantly in securities of companies in the financial sector, although it will not invest more than 25% of its total assets in any single industry within the financial sector. Previously, the fund was permitted to invest up to 25% across the entire financial sector and therefore limited the fund's ability to invest in the individual industries within this sector. Please note that this change does not in any way supercede the core requirements that the fund invest: (i) at least 40%, but no more than 60%, of its total assets in common stocks issued by real estate companies, such as REITs and (ii) at least 40%, but no more than 60%, of its total assets in preferred securities.
