**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**MARCH 31, 2010**

**(UNAUDITED)**

**NOTE 1. SIGNIFICANT ACCOUNTING POLICIES**

*Line of Business:* New England Realty Associates Limited Partnership ( NERA or the Partnership ) was organized in Massachusetts in 1977. NERA and its subsidiaries own and operate various residential apartment buildings, condominium units and commercial properties located in Massachusetts and New Hampshire. NERA has also made investments in other real estate partnerships and has participated in other real estate related activities, primarily located in Massachusetts.

*Accounting Standards:* On July 1, 2009, the Financial Accounting Standards Board ( FASB ) issued the FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles, also known as FASB Accounting Standards Codification ( ASC 105-10 ), General Accepted Accounting Principles ( ASC 105-10 ). ASC 105-10 established the FASB Accounting Standards Codification ( Codification ) as the single source of authoritative U.S. GAAP recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission ( SEC ) under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. The Codification supersedes all existing non-SEC accounting and reporting standards. All other non-grandfathered, non-SEC accounting literature not included in the Codification will become non-authoritative. Following the Codification, the FASB will not issue new standards in the form of Statements, FASB Staff Positions or Emerging Issues Task Force Abstracts. Instead, it will issue Accounting Standards Updates, which will serve to update the Codification, provide background information about the guidance and provide the basis for conclusions on the changes to the Codification. GAAP was not intended to be changed as a result of the FASB's Codification project, but it will change the way the guidance is organized and presented. As a result, these changes will have a significant impact on how companies reference GAAP in their financial statements and in their accounting policies for financial statements issued for interim and annual periods ending after September 15, 2009. The Partnership has implemented the Codification in this report by providing references to the Codification topics, as appropriate.

*Principles of Consolidation:* The consolidated financial statements include the accounts of NERA and its subsidiaries. NERA has a 99.67% to 100% ownership interest in each subsidiary except for the nine limited liability companies (the Investment Properties or Joint Ventures ) in which the Partnership has between a 40 - 50% ownership interest. The consolidated group is referred to as the Partnerships. Minority interests are not recorded, since they are insignificant. All significant intercompany accounts and transactions are eliminated in consolidation. The Partnership accounts for its investment in the above-mentioned Investment Properties using the equity method of consolidation. (See Note 14: Investments in Unconsolidated Joint Ventures).

## Edgar Filing: NEW ENGLAND REALTY ASSOCIATES LIMITED PARTNERSHIP - Form 10-Q

The Partnership accounts for its investments in joint ventures using the equity method of accounting. These investments are recorded initially at cost, as Investments in Unconsolidated Joint Ventures, and subsequently adjusted for equity in earnings and cash contributions and distributions. The authoritative guidance on consolidation provides guidance on the identification of entities for which control is achieved through means other than voting rights ( variable interest entities or VIEs ) and the determination of which business enterprise, if any, should consolidate the VIE (the primary beneficiary ). Generally, the consideration of whether an entity is a VIE applies when either (1) the equity investors (if any) lack one or more of the essential characteristics of a controlling financial interest, (2) the equity investment at risk is insufficient to finance that entity s activities without additional subordinated financial support or (3) the equity investors have voting rights that are not proportionate to their economic interests and the activities of the entity involve or are conducted on behalf of an investor with a disproportionately small voting interest.

On January 1, 2010, the Partnership adopted the updated provisions of ASC 810, pursuant to FASB No. 167, which amends FIN 46® to require ongoing reassessments of whether an enterprise is the primary beneficiary of a variable interest entity. Additionally, FASB No. 167 amends FIN 46® to eliminate the quantitative approach previously required for determining the primary beneficiary of a variable interest entity, which was based on determining which enterprise absorbs the majority of the entity s expected losses, receives a majority of the entity s expected residual returns, or both. FASB No. 167 amends certain guidance in Interpretation 46® for determining whether an entity is a variable interest entity. Also, FASB No. 167 amends FIN 46® to require enhanced disclosures that will provide users of financial statements with more transparent information about an enterprise s involvement in a variable interest entity. The enhanced disclosures are required for any

Table of Contents

enterprise that holds a variable interest in a variable interest entity. The adoption of this guidance did not have a material impact to these financial statements.

*Impairment:* On an annual basis management assesses whether there are any indicators that the value of the Partnership's rental properties or investments in unconsolidated subsidiaries may be impaired. A property's value is impaired only if management's estimate of the aggregate future cash flows (undiscounted and without interest charges) to be generated by the property is less than the carrying value of the property. To the extent impairment has occurred, the loss shall be measured as the excess of the carrying amount of the property over the fair value of the property. The Partnership's estimates of aggregate future cash flows expected to be generated by each property are based on a number of assumptions that are subject to economic and market uncertainties including, among others, demand for space, competition for tenants, changes in market rental rates, and costs to operate each property. As these factors are difficult to predict and are subject to future events that may alter management's assumptions, the future cash flows estimated by management in its impairment analyses may not be achieved. The Partnership has not recognized an impairment loss since 1995.

*Accounting Estimates:* The preparation of the financial statements, in conformity with accounting principles generally accepted in the United State of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Accordingly, actual results could differ from those estimates.

*Revenue Recognition:* Rental income from residential and commercial properties is recognized over the term of the related lease. For residential tenants, amounts 60 days in arrears are charged against income. The commercial tenants are evaluated on a case by case basis. Certain leases of the commercial properties provide for increasing stepped minimum rents, which are accounted for on a straight-line basis over the term of the lease. Concessions made on residential leases are also accounted for on the straight-line basis.

Above-market and below-market lease values for acquired properties are initially recorded based on the present value (using a discount rate which reflects the risks associated with the leases acquired) of the differences between (i) the contractual amounts to be paid pursuant to each in-place lease and (ii) management's estimate of fair market lease rates for each corresponding in-place lease, measured over a period equal to the remaining term of the lease for above-market leases and the initial term plus the term of any below-market fixed-rate renewal options for below-market leases. The capitalized above-market lease values for acquired properties are amortized as a reduction of base rental revenue over the remaining term of the respective leases, and the capitalized below-market lease values are amortized as an increase to base rental revenue over the remaining initial terms plus the terms of any below-market fixed-rate renewal options of the respective leases.

*Rental Properties:* Rental properties are stated at cost less accumulated depreciation. Maintenance and repairs are charged to expense as incurred; improvements and additions are capitalized. When assets are retired or otherwise disposed of, the cost of the asset and related accumulated depreciation is eliminated from the accounts, and any gain or loss on such disposition is included in income. Fully depreciated assets are removed from the accounts. Rental properties are depreciated by both straight-line and accelerated methods over their estimated useful lives. Upon acquisition of rental property, the Partnership estimates the fair value of acquired tangible assets, consisting of land, building and improvements, and identified intangible assets and liabilities assumed, generally consisting of the fair value of (i) above and below market leases, (ii) in-place leases and (iii) tenant relationships. The Partnership allocated the purchase price to the assets acquired and liabilities assumed based on their fair values. The Partnership records goodwill or a gain on bargain purchase (if any) if the net assets acquired/liabilities assumed exceed the purchase consideration of a transaction. In estimating the fair value of the tangible and intangible assets acquired, the Partnership considers information obtained about each property as a result of its due diligence and marketing and leasing activities, and utilizes various valuation methods, such as estimated cash flow projections utilizing appropriate discount and capitalization rates, estimates of replacement costs net of depreciation, and available market information. The fair value of the tangible assets of an acquired property considers the value of the property as if it were vacant.

Other intangible assets acquired include amounts for in-place lease values and tenant relationship values, which are based on management's evaluation of the specific characteristics of each tenant's lease and the Partnership's overall relationship with the respective tenant. Factors to be considered by management in its analysis of in-place lease values include an estimate of carrying costs during hypothetical expected lease-up periods considering current market conditions, and costs to execute similar leases at market rates during the expected lease-up periods, depending on local market conditions. In estimating costs to execute similar leases, management considers leasing commissions, legal and other related expenses. Characteristics considered by management in valuing tenant relationships include the nature and extent of the Partnership's existing business relationships with the tenant, growth prospects for developing new business with the tenant, the tenant's credit quality and expectations of lease renewals. The value of in-place leases are amortized to expense over the remaining

Table of Contents

initial terms of the respective leases. The value of tenant relationship intangibles are amortized to expense over the anticipated life of the relationships.

In the event that facts and circumstances indicate that the carrying value of a rental property may be impaired, an analysis of the value is prepared. The estimated future undiscounted cash flows are compared to the asset's carrying value to determine if a write-down to fair value is required.

*Financing and Leasing Fees:* Financing fees are capitalized and amortized, using the interest method, over the life of the related mortgages. Leasing fees are capitalized and amortized on a straight-line basis over the life of the related lease. Unamortized balances are expensed when the corresponding fee is no longer applicable.

*Income Taxes:* The financial statements have been prepared on the basis that NERA and its subsidiaries are entitled to tax treatment as partnerships. Accordingly, no provision for income taxes has been recorded.

*Cash Equivalents:* The Partnership considers cash equivalents to be all highly liquid instruments purchased with a maturity of three months or less.

*Segment Reporting:* Operating segments are revenue producing components of the Partnership for which separate financial information is produced internally for management. Under the definition, NERA operated, for all periods presented, as one segment.

*Comprehensive Income:* Comprehensive income is defined as changes in partners' equity, exclusive of transactions with owners (such as capital contributions and dividends). NERA did not have any comprehensive income items in 2010 and 2009 other than net income as reported.

*Income Per Unit:* Net income per unit has been calculated based upon the weighted average number of units outstanding during each period presented. The Partnership has no dilutive units and, therefore, basic net income is the same as diluted net income per unit (see Note 7).

*Concentration of Credit Risks and Financial Instruments:* The Partnership's properties are located in New England and the Partnership is subject to the general economic risks related thereto. No single tenant accounted for more than 5% of the Partnership's revenues in 2010 or 2009. The Partnership makes its temporary cash investments with high-credit quality financial institutions. At March 31, 2010, substantially all of the Partnership's cash and cash equivalents were held in interest-bearing accounts at financial institutions, earning interest at rates from 0.05% to 1.44%. At March 31, 2010 and December 31, 2009, respectively approximately \$5,569,000 and \$4,026,000 of cash and cash equivalents, and security deposits included in prepaid expenses and other assets exceeded federally insured amounts.

## Edgar Filing: NEW ENGLAND REALTY ASSOCIATES LIMITED PARTNERSHIP - Form 10-Q

*Advertising Expense:* Advertising is expensed as incurred. Advertising expense was \$16,283 and \$14,384 for the three months ended March 31, 2010 and 2009, respectively.

*Discontinued Operations and Rental Property Held for Sale:* When assets are identified by management as held for sale, the Partnership discontinues depreciating the assets and estimates the sales price, net of selling costs, of such assets. If, in management's opinion, the net sales price of the assets which have been identified as held for sale is less than the net book value of the assets, a valuation allowance is established. Properties identified as held for sale and/or sold are presented in discontinued operations for all periods presented.

If circumstances arise that previously were considered unlikely and, as a result, the Partnership decides not to sell a property previously classified as held for sale, the property is reclassified as held and used. A property that is reclassified is measured and recorded individually at the lower of (a) its carrying amount before the property was classified as held for sale, adjusted for any depreciation (amortization) expense that would have been recognized had the property been continuously classified as held and used, or (b) the fair value at the date of the subsequent decision not to sell.

*Interest Capitalized:* The Partnership follows the policy of capitalizing interest as a component of the cost of rental property when the time of construction exceeds one year. During the three months ended March 31, 2010 and year ended December 31, 2009, there was no capitalized interest.

*Extinguishment of Debt:* When existing mortgages are refinanced with the same lender and it is determined that the refinancing is substantially different then they are recorded as an extinguishment of debt. However if it is determined that the

Table of Contents

refinancing is substantially the same then they are recorded as an exchange of debt. All refinancings qualify as extinguishment of debt.

*Reclassifications:* Certain reclassifications have been made to prior period amounts in order to conform to current period presentation.

*Subsequent Events:* The Partnership has evaluated subsequent events through May 5, 2010, the date the financial statements were issued.

**NOTE 2. RENTAL PROPERTIES**

As of March 31, 2010, the Partnership and its Subsidiary Partnerships owned 2,269 residential apartment units in 20 residential and mixed-use complexes (collectively, the Apartment Complexes). The Partnership also owns 19 condominium units in a residential condominium complex, all of which are leased to residential tenants (collectively referred to as the Condominium Units). The Apartment Complexes and Condominium Units are located primarily in the metropolitan Boston area of Massachusetts.

Additionally, as of March 31, 2010, the Partnership and Subsidiary Partnerships owned a commercial shopping center in Framingham, commercial buildings in Newton and Brookline and mixed-use properties in Boston, Brockton and Newton, all in Massachusetts. These properties are referred to collectively as the Commercial Properties.

The Partnership also owned a 40% or 50% ownership interest in nine residential and mixed use complexes (the Investment Properties) at March 31, 2010 with a total of 798 residential units, two commercial spaces and one parking lot, accounted for using the equity method of consolidation. See Note 14 for summary information on these investments.

Rental properties consist of the following:

**NOTE 12. FAIR VALUE MEASUREMENTS**

Fair Value Measurements on a Recurring Basis:

At March 31, 2010 and December 31, 2009, we do not have any significant financial assets or financial liabilities that are measured at fair value on a recurring basis in our consolidated financial statements.

Financial Assets and Liabilities not Measured at Fair Value:

At March 31, 2010 and December 31, 2009 the carrying amounts of certain of our financial instruments, including cash and cash equivalents, accounts receivable, and note payable, accounts payable and accrued expenses were representative of their fair values due to the short-term nature of these instruments or, the recent acquisition of these items.

At March 31, 2010 and December 31, 2009, we estimated the fair value of our mortgages payable and other notes based upon quoted market prices for the same (Level 1) or similar (Level 2) issues when current quoted market prices are available. We estimated the fair value of our secured mortgage debt that does not have current quoted market prices available by discounting the future cash flows using rates currently available to us for debt with similar terms and maturities (Level 3). The differences in the fair value of our debt from the carrying value are the result of differences in interest rates and/or borrowing spreads that were available to us at March 31, 2010 and December 31, 2009, as compared with those in effect when the debt was issued or acquired. The secured mortgage debt contain pre-payment penalties or yield maintenance provisions that could make the cost of refinancing the debt at lower rates exceed the benefit that would be derived from doing so.

Table of Contents

The following methods and assumptions were used by the Partnership in estimating the fair value of its financial instruments:

- For cash and cash equivalents, other assets, investment in partnerships, accounts payable, advance rents and security deposits: fair value approximates the carrying value of such assets and liabilities.
- For mortgage notes payable: fair value is generally based on estimated future cash flows, which are discounted using the quoted market rate from an independent source for similar obligations. Refer to the table below for the carrying amount and estimated fair value of such instruments.

The following table reflects the carrying amounts and estimated fair value of our debt.

	Carrying Amount	Estimated Fair Value
Mortgage Notes Payable		
Partnership Properties		
At March 31, 2010	\$ 138,341,418	\$ 138,974,025
At December 31, 2009	\$ 137,641,354	\$ 139,997,718
Investment Properties		
At March 31, 2010	\$ 141,220,133	\$ 139,754,958

Disclosure about fair value of financial instruments is based on pertinent information available to management as of March 31, 2010 and December 31, 2009. Although management is not aware of any factors that would significantly affect the fair value amounts, such amounts have not been comprehensively revalued for purposes of these financial statements since December 31, 2009 and current estimates of fair value may differ significantly from the amounts presented herein.

**NOTE 13. TAXABLE INCOME AND TAX BASIS**

Taxable income reportable by the Partnership and includable in its partners' tax returns is different than financial statement income because of a tax free exchanges, accelerated depreciation, different tax lives, and timing differences related to prepaid rents, allowances and intangible assets at significant acquisitions. Taxable income was approximately \$300,000 greater than statement income for the year ended December 31, 2009 and approximately \$7,500,000 less than statement income for the year ended December 31, 2008. The cumulative tax basis of the Partnership's real estate at December 31, 2009 is approximately \$5,200,000 less than the statement basis. The primary reason for the lower tax basis is the acquisition of Linewt and Cypress Street utilizing tax free exchanges in 2008. The Partnership's tax basis in its joint venture investments is approximately \$1,500,000 greater than statement basis. Certain entities included in the Partnership's consolidated financial statements are subject to certain state taxes. These taxes are not significant and are recorded as operating expenses in the accompanying consolidated financial statements.

The Partnership adopted the amended provisions related to uncertain tax provisions of ASC 740, Income Taxes. As a result of the implementation of the guidance, the Partnership recognized no material adjustments regarding its tax accounting treatment. The Partnership

expects to recognize interest and penalties related to uncertain tax positions, if any, as income tax expense, which would be included in general and administrative expense.

In the normal course of business the Partnership or one of its subsidiaries is subject to examination by federal, state and local jurisdictions in which it operates, where applicable. As of March 31, 2010, the tax years that remain subject to examination by the major tax jurisdictions under the statute of limitations is from the year 2003 forward.

On October 28, 2009 the Partnership invested approximately \$15,925,000 in a joint venture to acquire 40% interest in a residential property located in Brookline, Massachusetts. The property, referred to as Dexter Park, is a 409 - unit residential complex. The purchase price was \$129,500,000. The total mortgage is approximately \$89,914,000 with an interest rate of 5.57% and it matures in 2019. The mortgage calls for interest only payments for the first two years of the loan and amortized over 30 years thereafter. In order to fund this investment, the Partnership used approximately \$8,757,000 of its cash reserves and borrowed approximately \$7,168,000 with an interest rate of 6% from HBC Holdings, LLC, an entity owned by Harold Brown and his affiliates. The term of the loan is four years with a provision requiring payment upon six months notice. The Partnership has pledged its ownership in 62 Boylston Street as security for this note. This investment is referred to as Dexter Park.

As required by the lender, the Treasurer of the General Partner has provided a limited repayment guaranty equal to fifty percent (50%) of the outstanding balance for the loan on the for sale units at Hamilton Bay and a limited guaranty of \$1,000,000 for the loan on Hamilton Essex Development. In the event that he is obligated to make payments to the lenders as a result of these guaranties, the Partnership and other investors have, in turn, agreed to indemnify him for their proportionate share of any such payments.

Table of Contents**NOTE 15. IMPACT OF RECENTLY-ISSUED ACCOUNTING STANDARDS****FASB Accounting Standards Update No. 2010-02, Consolidation (Topic 810), Accounting and Reporting for Decreases in Ownership of a Subsidiary – a Scope Clarification**

The objective of this Update is to address implementation issues related to the changes in ownership provisions in the Consolidation – Overall Subtopic (Subtopic 810-10) of *FASB Accounting Standards Codification*, originally issued as FASB Statement No. 160, *Noncontrolling Interests in Consolidated Financial Statements*. Subtopic 810-10 establishes the accounting and reporting guidance for noncontrolling interests and changes in ownership interests of a subsidiary. An entity is required to deconsolidate a subsidiary when the entity ceases to have a controlling financial interest in the subsidiary. Upon deconsolidation of a subsidiary, an entity recognizes a gain or loss on the transaction and measures retained investment in the subsidiary at fair value. The gain or loss includes any gain or loss associated with the difference between the fair value of the retained investment in the subsidiary and its carrying amount at the date the subsidiary is deconsolidated. In contrast, an entity is required to account for a decrease in its ownership interest of a subsidiary that does not result in a change of control of the subsidiary as an equity transaction. The adoption of this Update did not have a material impact on the Partnership's financial position, results of operations and disclosures contained in its financial statements.

**ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following discussion should be read in conjunction with the financial statements and notes thereof appearing elsewhere in this Report. This Report, on Form 10-Q, contains forward-looking statements within the meaning of the securities law. Actual results or developments could differ materially from those projected in such statements as a result of certain factors set forth in the section below entitled "Factors That May Affect Future Results" and elsewhere in this Report.

## Edgar Filing: NEW ENGLAND REALTY ASSOCIATES LIMITED PARTNERSHIP - Form 10-Q

The real estate market in the Greater Boston area has softened, and the Partnership anticipates the climate will remain the same in the foreseeable future. This may result in increases in vacancy rates and/or a reduction in some rents. The Partnership believes its present cash reserves as well as anticipated rental revenue will be sufficient to fund its current operations, finance current planned improvements to its properties, and continue distribution payments in the foreseeable future. Continued deterioration and/or loss of a significant commercial tenant may result in the Partnership recording an impairment loss in the future.

Since the Partnership's long-term goals include the acquisition of additional properties, a portion of the proceeds from the refinancing and sale of properties is reserved for this purpose. The Partnership will consider refinancing or selling existing properties if the Partnership's cash reserves are insufficient to repay existing mortgages or if the Partnership needs additional funds for future acquisitions.

Table of Contents

Management believes that the financial difficulties experienced since the lending crisis in 2007 will continue and recovery will take longer than previous recessions. Management also believes that while the national recession has academically ended and the credit markets have begun to emerge from their dormancy, the recovery at the local level will be slow and steady. The Greater Boston Metropolitan Area, the Partnership's primary market, continues to experience high unemployment levels and continued downsizing by many corporations and we believe the conditions will not improve until the latter half of 2010.

During the three months ended March 31, 2010, the Partnership's rental income decreased approximately 2% from the same quarter in 2009. Management believes that the modest decline will abate by the end of the second quarter and will be offset by a tighter rental market by the beginning of the third quarter of 2010. Occupancy continues to remain above 97% for the quarter and bad debt did not rise to levels previously anticipated by Management. Operating expenses decreased by 1.8%, due primarily to a milder winter which impacted both utilities and snow removal costs. Other aggregation of utility expenses and capital improvements in heating equipment played a significant role in the decline as well. Property management's focus on tenant retention and curb appeal is having an impact on occupancy and lower turnover costs. Management believes that these collective efforts will improve results in the third quarter of 2010. Management is satisfied with the performance of its latest Joint Venture of Dexter Park and the additional depreciation lowering the taxable income of the Partnership.

The Stock Repurchase Program that was initiated in 2007 has purchased 395,945 depository receipts through March 2010. Given the lack of alternative investments, liquidity markets and the current share price, Management continues to support the buyback program and believe it to be accretive to the remaining shareholders. Management continues to be active bidding on commercial real estate within Massachusetts and remains poised to acquire real estate it deems opportune given the current selling and financing environment.

The Partnership has retained The Hamilton Company (Hamilton) to manage and administer the Partnership's and Joint Ventures' Properties. Hamilton is a full-service real estate management company, which has legal, construction, maintenance, architectural, accounting and administrative departments. The Partnership's properties represent approximately 40% of the total properties and 70% of the residential properties managed by Hamilton. Substantially all of the other properties managed by Hamilton are owned, wholly or partially, directly or indirectly, by Harold Brown. The Partnership's Second Amended and Restated Contract of Limited Partnership (the Partnership Agreement) expressly provides that the general partner may employ a management company to manage the properties, and that such management company may be paid a fee of 4% of rental receipts for administrative and management services (the Management Fee). The Partnership pays Hamilton the full annual Management Fee, in monthly installments (2% at Hamilton Park Towers).

At March 31, 2010, Harold Brown, his brother Ronald Brown and the President of Hamilton, Carl Valeri, collectively own approximately 39% of the Depository Receipts representing the Partnership Class A Units (including Depository Receipts held by trusts for the benefit of such persons' family members). Harold Brown also owns 75% of the Partnership's Class B Units, 75% of the capital stock of NewReal, Inc. (NewReal), the Partnership's sole general partner, and all of the outstanding stock of Hamilton. Ronald Brown also owns 25% of the Partnership's Class B Units and 25% of NewReal's capital stock. In addition, Ronald Brown is the President and director of NewReal and Harold Brown is NewReal's Treasurer and a director. Two of NewReal's other directors, Roberta Ornstein and Conrad DiGregorio, also own immaterial amounts of the Partnership's Class A Units or receipts.

In addition to the Management Fee, the Partnership Agreement further provides for the employment of outside professionals to provide services to the Partnership and allows NewReal to charge the Partnership for the cost of employing professionals to assist with the administration of the Partnership's properties. Additionally, from time to time, the Partnership pays Hamilton for repairs and maintenance services, legal services, construction services and accounting services. The costs charged by Hamilton for these services are at the same hourly rate charged to all entities managed by Hamilton, and management believes such rates are competitive in the marketplace.

## Edgar Filing: NEW ENGLAND REALTY ASSOCIATES LIMITED PARTNERSHIP - Form 10-Q

Hamilton accounted for approximately 7% of the repair and maintenance expense paid for by the Partnership for the three months ended March 31, 2010 compared to 10% for the three months ended March 31, 2009. Of the funds paid to Hamilton for this purpose, the great majority was to cover the cost of services provided by the Hamilton maintenance department, including plumbing, electrical, carpentry services, and snow removal for those properties close to Hamilton's headquarters. However, several of the larger Partnership properties have their own maintenance staff. Further, those properties that do not have their own maintenance staff and are located more than a reasonable distance from Hamilton's headquarters in Allston, Massachusetts are generally serviced by local, independent companies.

Hamilton's legal department handles most of the Partnership's eviction and collection matters. Additionally, it prepares most long-term commercial lease agreements and represents the Partnership in selected purchase and sale

Table of Contents

transactions. Overall, Hamilton provided approximately 76% of the legal services paid for by the Partnership during the three months ended March 31, 2010 and for the year ended December 31, 2009.

Additionally, as described in Note 3 to the consolidated financial statements, The Hamilton Company receives similar fees from the Investment Properties.

R. Brown Partners, which is owned by Ronald Brown, managed the condominium association containing five condominium units which were sold in 2008 located in Brookline, Massachusetts. That entity received annual management fees from the five units of approximately \$1,500, and Hamilton reduced its management fees to approximately 2%, so that the total management fee will not exceed the 4% allowed by the Partnership's Partnership Agreement.

The Partnership requires that three bids be obtained for construction contracts in excess of \$5,000. Hamilton may be one of the three bidders on a particular project and may be awarded the contract if its bid and its ability to successfully complete the project are deemed appropriate. For contracts that are not awarded to Hamilton, Hamilton charges the Partnership a construction supervision fee equal to 5% of the contract amount. Hamilton's architectural department also provides services to the Partnership on an as-needed basis. During the three months ended March 31, 2010 and 2009, the construction and architectural service provided to the Partnership by Hamilton was insignificant.

Prior to 1991, the Partnership employed an outside, unaffiliated company to perform its bookkeeping and accounting functions. Since that time, such services have been provided by Hamilton's accounting staff, which consists of approximately 14 people. During the three months ended March 31, 2010, Hamilton charged the Partnership \$31,250 (\$125,000 per year) for bookkeeping and accounting services.

For more information on related party transactions, see Note 3 to the Consolidated Financial Statements.

**CRITICAL ACCOUNTING POLICIES AND ESTIMATES**

The preparation of the consolidated financial statements, in accordance with accounting principles generally accepted in the United States of America, requires the Partnership to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosures of contingent assets and liabilities. The Partnership regularly and continually evaluates its estimates, including those related to acquiring, developing and assessing the carrying values of its real estate properties and its investments in and advances to joint ventures. The Partnership bases its estimates on historical experience, current market conditions, and on various other assumptions that are believed to be reasonable under the circumstances. However, because future events and their effects cannot be determined with certainty, the determination of estimates requires the exercise of judgment. The Partnership's critical accounting policies are those which require assumptions to be made about such matters that are highly uncertain. Different estimates could have a material effect on the Partnership's financial results. Judgments and uncertainties affecting the application of these policies and estimates may result in materially different amounts being reported under different conditions and circumstances. See Note 1 to the Consolidated Financial Statements, Principles of Consolidation.

## Edgar Filing: NEW ENGLAND REALTY ASSOCIATES LIMITED PARTNERSHIP - Form 10-Q

*Revenue Recognition:* Rental income from residential and commercial properties is recognized over the term of the related lease. For residential tenants, amounts 60 days in arrears are charged against income. The commercial tenants are evaluated on a case by case basis. Certain leases of the commercial properties provide for increasing stepped minimum rents, which are accounted for on a straight-line basis over the term of the lease.

*Real Estate and Depreciation:* Real estate assets are stated at the lower of cost or fair value, less accumulated depreciation. Costs related to the acquisition, development, construction and improvement of properties are capitalized, including interest, wages and benefits, real estate taxes and insurance. Capitalization usually begins with commencement of development activity and ends when the property is ready for leasing. Replacements and improvements, such as HVAC equipment, structural replacements, windows, appliances, flooring, carpeting and kitchen/bath replacements and renovations, are capitalized and depreciated over their estimated useful lives as follows:

- Depreciation is computed on the straight-line and accelerated methods over the estimated useful lives of the related assets. In assessing estimated useful lives, the Partnership makes assumptions based on historical experience acquired from both within and outside the Partnership. These assumptions have a direct impact on the Partnership's net income.
- Ordinary repairs and maintenance, such as unit cleaning and painting and appliance repairs, are expensed.

Table of Contents

*Impairment:* On an annual basis management assesses whether there are any indicators that the value of the Company's rental properties may be impaired. A property's value is impaired only if management's estimate of the aggregate future cash flows (undiscounted and without interest charges) to be generated by the property is less than the carrying value of the property. To the extent impairment has occurred, the loss shall be measured as the excess of the carrying amount of the property over the fair value of the property. The Company's estimates of aggregate future cash flows expected to be generated by each property are based on a number of assumptions that are subject to economic and market uncertainties including, among others, demand for space, competition for tenants, changes in market rental rates, and costs to operate each property. As these factors are difficult to predict and are subject to future events that may alter management's assumptions, the future cash flows estimated by management in its impairment analyses may not be achieved. The Partnership has not recognized an impairment loss since 1995.

*Rental Property Held for Sale and Discontinued Operations:* When assets are identified by management as held for sale, the Partnership discontinues depreciating the assets and estimates the sales price, net of selling costs, of such assets. If, in management's opinion, the net sales price of the assets which have been identified as held for sale is less than the net book value of the assets, a valuation allowance is established. Properties identified as held for sale and/or sold are presented in discontinued operations for all periods presented.

*Investments in Partnerships:* The Partnership accounts for its 50% ownership in the Investment Properties under the equity method of accounting, as it exercises significant influence over, but does not control these entities. These investments are recorded initially at cost, as Investments in Partnerships, and subsequently adjusted for the Partnership's share in earnings, cash contributions and distributions. Under the equity method of accounting, our net equity is reflected on the consolidated balance sheets, and our share of net income or loss from the Partnership is included on the consolidated statements of income.

With respect to investments in and advances to the Investment Properties, the Partnership looks to the underlying properties to assess performance and the recoverability of carrying amounts for those investments in a manner similar to direct investments in real estate properties. An impairment charge is recorded if management's estimate of the aggregate future cash flows (undiscounted and without interest charges) to be generated by the property is less than the carrying value of the property.

*Legal Proceedings:* The Partnership is subject to various legal proceedings and claims that arise, from time to time, in the ordinary course of business. These matters are frequently covered by insurance. If it is determined that a loss is likely to occur, the estimated amount of the loss is recorded in the financial statements. Both the amount of the loss and the point at which its occurrence is considered likely can be difficult to determine.

## **RESULTS OF OPERATIONS**

Rental income from continuing operations for the three months ended March 31, 2010 was approximately \$8,197,000, compared to approximately \$8,368,000 for the three months ended March 31, 2009, a decrease of approximately \$171,000 (2%). This decrease in rental income is due to the amortization of approximately \$184,000 in connection with the free rent granted to tenants. Properties with increases in rental income in the first quarter of 2010 compared to 2009 include; Westside Colonial, Hamilton Oaks, School Street, Avon Street, and Westgate Woburn with increases of approximately \$22,000, \$16,000, \$14,000, \$11,000, and \$10,000 respectively.

Expenses from continuing operations for the three months ended March 31, 2010 were approximately \$5,633,000 compared to approximately \$5,735,000 for the three months ended March 31, 2009, a decrease of approximately \$102,000 (1.8%). The most significant factor contributing to this decrease was: a decrease in operating expenses of approximately \$224,000 (15.0%) due to decreases in snow removal and utilities due to a milder winter in 2010; and a decrease in depreciation and amortization expense of approximately \$38,000 (3.0%).

These decreases are offset by an increase in taxes and insurance of approximately \$113,000 (12%) due to the increases in property taxes, and an increase in administrative expenses of approximately \$25,000 (5%) due to an increase in professional fees.

Interest expense increased approximately \$84,000 (4.0%) primarily due to the approximately \$7,000,000 borrowed in October 2009.

Table of Contents

At March 31, 2010, the Partnership has a 40 or 50% ownership interest in nine Investment Properties. See Note 14 to the Consolidated Financial Statements for a detail of the financial information of each Investment Property.

As described in Note 14 to the Consolidated Financial Statements, the Partnership's share of the net loss from the Investment Properties was approximately \$999,000 for the three months ended March 31, 2010 compared to a loss of approximately \$274,000 for the three months ended March 31, 2009, an increase of approximately \$725,000. Included in this loss is depreciation and amortization expense of approximately \$1,379,000. The loss associated with the 2009 acquisition of Dexter Park is approximately \$761,000, of which approximately \$1,016,000 is depreciation and amortization.

Interest income for the three months ended March 31, 2010 was approximately \$800 compared to approximately \$18,000 for the three months ended March 31, 2009, a decrease of approximately \$17,000. This decrease is due to a decrease in the cash available for investment as well as a drop in interest rates.

As a result of the changes discussed above, net loss for the three months ended March 31, 2010 was \$342,951 compared to income of \$520,085 for the three months ended March 31, 2009, a change of \$863,036.

**LIQUIDITY AND CAPITAL RESOURCES**

The Partnership's principal source of cash during 2010 and 2009 was the collection of rents and refinancing of partnership properties. The majority of cash and cash equivalents of \$4,381,130 at March 31, 2010 and \$2,879,663 at December 31, 2009 were held in interest bearing accounts at creditworthy financial institutions.

This increase of \$1,501,467 at March 31, 2010 is summarized as follows:

	<b>Three Months Ended March 31,</b>	
	<b>2010</b>	<b>2009</b>
Cash provided by operating activities	\$ 2,089,940	\$ 2,361,287
Cash (used in) investing activities	(15,745)	(474,870)
Cash (used in) provided by financing activities	698,444	(209,219)
Repurchase of Depositary Receipts, Class B and General Partner Units	(344,746)	(1,278,090)
Distributions paid	(926,426)	(931,500)
Net increase (decrease) in cash and cash equivalents	\$ 1,501,467	\$ (532,393)

The cash provided by operating activities is primarily due to the collection of rents less cash operating expenses. The increase in cash provided by investing activities is due to the increase in the distribution from the joint venture as well as the decrease capital improvements to Partnership properties. The increase in cash provided by financing activities is due to the refinancing of Partnership properties in 2010 resulting in an increase in cash.

During the three months ended March 31, 2010, the Partnership and its Subsidiary Partnerships completed improvements to certain of the properties at a total cost of approximately \$336,000. These improvements were funded from cash reserves and, to some extent, escrow accounts established in connection with the financing or refinancing of the applicable properties. These sources have been adequate to fully fund improvements. The most significant improvements were made at 62 Boylston Street, Westgate Woburn, Hamilton Oaks, and Westside Colonial, at a cost of approximately \$65,000, \$58,000, \$34,000, and \$33,000, respectively. The Partnership plans to invest approximately \$1,757,000 in additional capital improvements in 2010.

In February 2010, the Partnership approved a quarterly distribution of \$7.00 per unit (\$0.70 per receipt) which was paid on March 31, 2010. In April 2010, the Partnership approved a quarterly distribution of \$7.00 per unit (\$0.70 per receipt) payable on June 30, 2010.

In 2009, the Partnership paid quarterly distributions of \$7.00 per unit (\$0.70 per receipt) in March, June, September, and December for a total distribution of \$28.00 per unit (\$2.80 per receipt).

During the three months ended March 31, 2010 the Partnership purchased 4,521 receipts for \$275,850, 107 Class B Units for \$65,462 and 6 General Partnership units for \$3,444.

Table of Contents

In December 2009, the Partnership refinanced Linhart, LLP, located in Newton, Massachusetts. The new loan is \$2,000,000, with a rate of 3.75% over the Libor rate or 4.25% whichever is greater and matures five years from the date of closing. The interest rate as of March 31, 2010 was 4.25%. The loan agreement calls for interest only payments for twenty four months and principal and interest payments for the remainder of the five year period based on a thirty year amortization. The loan proceeds were used to pay off the prior loan of approximately \$1,700,000, and closing costs of approximately \$38,000.

On March 25, 2010, the Partnership refinanced the Brookside Apartments. The new loan is \$2,820,000, matures in 2020 and has an interest rate of 5.81%. The loan is a ten year note however it is being amortized over 30 years. The proceeds of the loan were used to pay off the old mortgage of approximately \$1,900,000. There were no prepayment penalties.

The Partnership anticipates that cash from operations and interest bearing accounts will be sufficient to fund its current operations and to finance current improvements to its properties. The Partnership's net income and cash flow may fluctuate dramatically from year to year as a result of the sale of properties, increases or decreases in rental income or expenses, or the loss of significant tenants.

**Off-Balance Sheet Arrangements-Joint Venture Indebtedness**

As of March 31, 2010, the Partnership had between a 40- 50% ownership in nine joint ventures, all of which have mortgage indebtedness. We do not have control of these partnerships and therefore we account for them using the equity method. At March 31, 2010, our proportionate share of the non-recourse debt related to these investments was equal to approximately \$61,619,000. See Note 14 to the Consolidated Financial Statements.

**Contractual Obligations**

See Notes 5 and 14 to the Consolidated Financial Statements for a description of mortgage notes payable. The Partnerships have no other material contractual obligations to be disclosed.

**Factors That May Affect Future Results**

Certain information contained herein includes forward-looking statements, which are made pursuant to the safe harbor provisions of the Private Securities Liquidation Reform Act of 1995 (the "Act"). While forward looking statements reflect management's good faith beliefs when those statements are made, caution should be exercised in interpreting and relying on such forward looking statements, the realization of which may be impacted by known and unknown risks and uncertainties, events that may occur subsequent to the forward-looking statements, and other factors which may be beyond the Partnership's control and which can materially affect the Partnership's actual results, performance or achievements for 2010 and beyond. Should one or more of the risks or uncertainties mentioned below materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected. We expressly disclaim any responsibility to update our forward looking statements, whether as a result of new information, future events or otherwise. Accordingly, investors should use caution in relying on past forward looking statements, which are based on results and trends at the time they are made, to anticipate future results or trends.

Along with risks detailed from time to time in the Partnership's filings with the Securities and Exchange Commission, some factors that could cause the Partnership's actual results, performance or achievements to differ materially from those expressed or implied by forward-looking statements include but are not limited to the following:

The Partnership depends on the real estate markets where its properties are located, primarily in Eastern Massachusetts and these markets may be adversely affected by local economic market conditions, which are beyond the Partnership's control.

The Partnership is subject to the general economic risks affecting the real estate industry, such as dependence on tenant's financial condition and the need to enter into new leases or renew leases on terms favorable to tenants in order to generate rental revenues and our ability to collect rents from our tenants.

The Partnership is also impacted by changing economic conditions making alternative housing arrangements more or less attractive to the Partnership's tenants, such as the interest rates on single family home mortgages and the availability and purchase price of single-family homes in the Greater Boston metropolitan area.

Table of Contents

The Partnership is subject to significant expenditures associated with each investment, such as debt service payments, real estate taxes, insurance and maintenance costs, which are generally not reduced when circumstances cause a reduction in revenues from a property.

The Partnership is subject to increases in heating and utility costs that may arise as a result of economic and market conditions and fluctuations in seasonal weather conditions.

Civil disturbances, earthquakes and other natural disasters may result in uninsured or underinsured losses.

Actual or threatened terrorist attacks may adversely affect our ability to generate revenues and the value of our properties.

Financing or refinancing of Partnership properties may not be available to the extent necessary or desirable, or may not be available on favorable terms.

The Partnership properties face competition from similar properties in the same market. This competition may affect the Partnership's ability to attract and retain tenants and may reduce the rents that can be charged.

Given the nature of the real estate business, the Partnership is subject to potential environmental liabilities. These include environmental contamination in the soil at the Partnership's or neighboring real estate, whether caused by the Partnership, previous owners of the subject property or neighbors of the subject property, and the presence of hazardous materials in the Partnership's buildings, such as asbestos, mold and radon gas. Management is not aware of any material environmental liabilities at this time.

Insurance coverage for and relating to commercial properties is increasingly costly and difficult to obtain. In addition, insurance carriers have excluded certain specific items from standard insurance policies, which have resulted in increased risk exposure for the Partnership. These include insurance coverage for acts of terrorism and war, and coverage for mold and other environmental conditions. Coverage for these items is either unavailable, or prohibitively expensive.

Market interest rates could adversely affect the market prices for Class A Partnership Units and Depositary Receipts as well as performance and cash flow.
