CHASE CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

In thousands, except share and per share amounts

Note 1 - Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial reporting and instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Therefore, they do not include all information and footnote disclosure necessary for a complete presentation of Chase Corporation's financial position, results of operations and cash flows, in conformity with generally accepted accounting principles. Chase Corporation (the Company, Chase, we, or us) filed audited financial statements which included all information and notes necessary for such presentation for the three years ended August 31, 2009 in conjunction with its 2009 Annual Report on Form 10-K.

The accompanying unaudited consolidated financial statements contain all adjustments (consisting of normal recurring items) which are, in the opinion of management, necessary for a fair presentation of the Company's financial position as of May 31, 2010, the results of operations and cash flows for the interim periods ended May 31, 2010 and 2009, and changes in stockholders' equity for the interim period ended May 31, 2010.

The financial statements include the accounts of the Company and its wholly-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation. The Company uses the U.S. dollar as the reporting currency for financial reporting. The financial position and results of operations of the Company's HumiSeal Europe Ltd and Chase Protective Coatings divisions are measured using the UK pound sterling as the functional currency and the financial position and results of operations of the Company's HumiSeal Europe SARL division in France are measured using euros as the functional currency. Foreign currency translation gains and losses are determined using current exchange rates for monetary items and historical exchange rates for other balance sheet items and are recorded as a change in other comprehensive income.

The Company has evaluated events and transactions subsequent to the balance sheet date. Based on this evaluation, and other than the amendment to the existing credit facility with Bank of America described in Note 10 and the June 2010 sale of its electronic manufacturing services business as detailed in Note 13, the Company is not aware of any other events or transactions that occurred subsequent to the balance sheet date but prior to filing that would require recognition or disclosure in its consolidated financial statements.

The results of operations for the interim period ended May 31, 2010 are not necessarily indicative of the results to be expected for any future period or the entire fiscal year. These interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements for the year ended August 31, 2009, which are contained in the Company's 2009 Annual Report on Form 10-K.

Note 2 - Recent Accounting Policies

Recently Adopted Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board's (FASB) approved the FASB Accounting Standards Codification (ASC or the Codification) as the single source of authoritative nongovernmental U.S. GAAP. The Codification does not change current U.S. GAAP, but is intended to simplify user access to all authoritative U.S. GAAP by providing all the authoritative literature related to

Table of Contents

CHASE CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

In thousands, except share and per share amounts

a particular topic in one place. All existing accounting standard documents will be superseded and all other accounting literature not included in the Codification will be considered nonauthoritative. The Codification became effective for the Company in the quarter ending November 30, 2009 and the adoption did not have any effect on the Company's consolidated financial position, results of operations or cash flows.

In December 2007, the FASB issued new guidance under ASC Topic 805, Business Combinations (ASC 805). The new guidance under ASC 805 establishes principles and requirements for how an acquirer in a business combination recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed and any noncontrolling interest in the acquiree; recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase; expenses acquisition related costs as incurred; and determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. The Company adopted the new guidance under ASC 805 as of September 1, 2009, and its recent acquisitions of C.I.M. Industries, Inc. (C.I.M.) and the ServiWrap® product lines (ServiWrap) were both accounted for under this standard.

In June 2008, the FASB issued guidance within ASC Topic 260, Earnings Per Share (ASC 260), to clarify that unvested share-based payment awards with a right to receive nonforfeitable dividends are participating securities. The standard provides guidance on how to allocate earnings to participating securities and compute earnings per share using the two-class method. The Company adopted the provisions of this standard on September 1, 2009, and the presentation of earnings per share for previously reported periods has been adjusted to reflect the retrospective adoption of this standard. See Note 4 for more information on the additional disclosures required for the Company's adoption of ASC 260.

Recently Issued Accounting Pronouncement

In December 2008, the FASB issued ASC Topic 715, Compensation Retirement Benefits (ASC 715). ASC 715 provides additional guidance on an employer's disclosures about plan assets of a defined benefit pension or other post-retirement plan enabling users of the financial statements to assess the inputs and valuation techniques used to develop fair value measurements of plan assets at the annual reporting date. The guidance requires more detailed disclosures about the assets of a defined benefit pension or other post-retirement plan and is effective for fiscal years ending after December 15, 2009. Since the guidance only requires enhanced disclosures, the Company does not expect the adoption of ASC 715 to have an impact on its consolidated financial position and results of operations.

Note 3 Inventories

Inventories consist of the following as of May 31, 2010 and August 31, 2009:

Edgar Filing: CHASE CORP - Form 10-Q

	May 31, 2010		August 31, 2009

Note 4 Net Income Per Share

The calculation of earnings per share under the recently issued guidance within ASC 260 is as follows:

	Three Months Ended May 31,		Nine Months Ended May 31,	
	2010	2009	2010	2009
Basic Earnings per Share				
Net income	\$ 4,400	\$ 862	\$ 8,148	\$ 3,577
Income allocated to participating securities	119	19	232	79
Net income available to common shareholders	\$ 4,281	\$ 843	\$ 7,916	\$ 3,498
Basic weighted averages shares outstanding	8,816,860	8,544,372	8,720,258	8,406,158
Net income per share - Basic	\$ 0.49	\$ 0.10	\$ 0.91	\$ 0.42
Diluted Earnings per Share				
Net income	\$ 4,400	\$ 862	\$ 8,148	\$ 3,577
Income allocated to participating securities	118	18	230	76
Net income available to common shareholders	\$ 4,282	\$ 844	\$ 7,918	\$ 3,501
Basic weighted averages shares outstanding	8,816,860	8,544,372	8,720,258	8,406,158
Additional dilutive common stock equivalents	66,225	289,626	72,918	273,825
Diluted weighted averages shares outstanding	8,883,085	8,833,998	8,793,176	8,679,983
Net income per share - Diluted	\$ 0.48	\$ 0.10	\$ 0.90	\$ 0.40

For the three and nine months ended May 31, 2010 and 2009, stock options to purchase 250,000 shares of common stock were outstanding, but were not included in the calculation of diluted income per share in any period presented in the table above because the options' exercise prices were greater than the average market price of the common stock and thus their inclusion would be anti-dilutive.

Note 5 Stock Based Compensation

In May 2007, pursuant to authorization by the Board of Directors, the Company's Chief Executive Officer granted a total of 17,600 restricted stock units (RSUs) to approximately 40 non executive officer employees of the Company for service for the period May 2007 through May 2010. RSUs totaling 14,200 vested on May 15, 2010 and were issued in the form of common stock. The remaining 3,400 RSUs were

Edgar Filing: CHASE CORP - Form 10-Q

forfeited in accordance with the RSU agreements. Compensation expense was recognized over the vesting period on a ratable basis.

In August 2008, the Board of Directors of Chase Corporation approved a plan for issuing a performance and service based restricted stock grant of 50,657 shares in the aggregate, subject to adjustment, to key members of management with an issue date of September 1, 2008 and a vesting date of August 31, 2011. Based on the fiscal year 2009 financial results, the aggregate size of the grant was reduced by 15,944 shares of restricted stock subsequent to the end of fiscal year 2009 in accordance with the performance measurement criteria. The adjusted restricted stock award of 34,713 shares was finalized in the quarter ended November 30, 2009 and no further performance-based measurements apply to this award. Compensation expense is being recognized on a ratable basis over the vesting period.

In August 2009, the Board of Directors of Chase Corporation approved a plan for issuing a performance and service based restricted stock grant of 76,874 shares in the aggregate, subject to adjustment, to key members of management with an issue date of September 1, 2009 and a vesting date of August 31, 2012. These shares are subject to a performance measurement based upon the results of fiscal year 2010 which

Table of Contents

CHASE CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

In thousands, except share and per share amounts

will determine the final calculation of the number of shares that will be issued (which may be greater than or less than 76,874 shares). Compensation expense is being recognized on a ratable basis over the vesting period based on quarterly probability assessments.

In December 2009, restricted stock in amounts of 2,377 and 8,421 shares related to the September 2008 and 2009 grants, respectively, were forfeited in conjunction with the retirement of an executive officer of the Company.

As part of their annual retainer, non-employee members of the Board of Directors receive a combined total of \$135,000 of Chase Corporation common stock, in the form of restricted stock valued at the closing price of the day preceding the first day of the new year of Board service which generally coincides with the Company's annual shareholder meeting. The stock award vests one year from the date of grant. In January 2010, non-employee members of the Board received a total grant of 11,092 shares of restricted stock for service for the period from January 30, 2010 through January 30, 2011. The shares of restricted stock will vest at the conclusion of this service period. Compensation is being recognized on a ratable basis over the twelve month vesting period.

Note 6 Segment Information

The Company operates in two business segments, a Specialized Manufacturing segment and an Electronic Manufacturing Services segment. Specialized Manufacturing products include insulating and conducting materials for wire and cable manufacturers, coating and lining systems for use in liquid storage and containment applications, protective coatings for pipeline applications, moisture protective coatings for electronics and printing services, high performance polymeric asphalt additives, and expansion and control joint systems for use in the transportation and architectural markets. Electronic Manufacturing Services include printed circuit board and electro-mechanical assembly services for the electronics industry. The Company evaluates segment performance based upon income before income taxes.

As further detailed in Note 13, the Electronic Manufacturing Services business was sold in June 2010 and the financial results of this segment will be classified as discontinued operations at fiscal year end.

The following table summarizes information about the Company's reportable segments:

Three Months Ended May 31,

Nine Months Ended May 31,

Edgar Filing: CHASE CORP - Form 10-Q

	2010		2009		2010		2009

Table of Contents

CHASE CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

In thousands, except share and per share amounts

The Company's products are sold world-wide. For the quarters ended May 31, 2010 and 2009, sales from its operations located in the United Kingdom accounted for 11% and 6% of total Company revenues, respectively. In the fiscal year to date period, sales from its operations located in the United Kingdom accounted for 11% of total Company revenues compared to 8% in the same period in fiscal 2009. No other foreign geographic area accounted for more than 10% of consolidated revenues for the three and nine month periods ended May 31, 2010 and 2009.

	May 31, 2010		August 31, 2009
Total assets			
Specialized Manufacturing	\$ 97,273	\$	60,713
Electronic Manufacturing Services	14,374		12,666
Total for reportable segments	111,647		73,379
Corporate and Common Assets	10,072		17,687
Total	\$ 121,719	\$	91,066

The increase in total assets of the Company's Specialized Manufacturing segment as of May 31, 2010 is primarily due to the acquisitions of C.I.M. in September 2009 and ServiWrap in December 2009 (see Note 8 below).

As of May 31, 2010 and August 31, 2009, the Company had long-lived assets (defined as tangible assets providing the Company with a future economic benefit beyond the current year or operating period, including buildings, equipment and leasehold improvements) of \$2,116 and \$1,770, respectively, located in the United Kingdom. These balances exclude goodwill and intangibles of \$13,405 and \$7,199, as of May 31, 2010 and August 31, 2009, respectively.

Note 7 Goodwill and Other Intangibles

The changes in the carrying value of goodwill, by reportable segment, are as follows:

	Specialized Manufacturing	Electronic Manufacturing Services	Consolidated
Balance at August 31, 2009	\$ 8,607	\$ 5,999	\$ 14,606
Acquisition of C.I.M.	8,573		8,573
Acquisition of ServiWrap	258		258
Acquisition of Paper Tyger - additional earnout	43		43

Edgar Filing: CHASE CORP - Form 10-Q

Acquisition of Metronelec - additional earnout	116				116
FX translation adjustment	(623)				(623)
Balance at May 31, 2010	\$	16,974	\$	5,999	\$ 22,973

The Company evaluates the possible impairment of goodwill annually each fourth quarter and whenever events or circumstances indicate the carrying value of goodwill may not be recoverable.

(UNAUDITED)

In thousands, except share and per share amounts

Intangible assets subject to amortization consist of the following at May 31, 2010 and August 31, 2009:

	Weighted-Average Amortization Period	Gross Carrying Value	Accumulated Amortization	Net Carrying Value
May 31, 2010				
Patents and agreements	12.7 years	\$ 2,230	\$ 2,094	\$ 136
Formulas and technology	9.8 years	3,470	805	2,665
Trade names	4.6 years	1,282	370	912
Customer lists and relationships	10.3 years	17,800	3,368	14,432
		\$ 24,782	\$ 6,637	\$ 18,145
August 31, 2009				
Patents and agreements	12.6 years	\$ 2,258	\$ 2,059	\$ 199
Formulas and technology	9.3 years	1,191	552	639
Trade names	3.8 years	277	255	22
Customer lists and relationships	10.4 years	5,640	2,003	3,637
		\$ 9,366	\$ 4,869	\$ 4,497

The increase in gross carrying value of intangible assets for the nine months ended May 31, 2010 is due to the Company's acquisitions of C.I.M. in September 2009 and ServiWrap in December 2009 (see Note 8 below). These increases were partially offset by a \$1,664 decrease in gross carrying value of intangible assets over the nine months ended May 31, 2010 due to a foreign currency translation loss related to the intangible assets associated with the Company's European operations.

Aggregate amortization expense related to intangible assets for the nine months ended May 31, 2010 and 2009 was \$2,133 and \$691, respectively. Estimated amortization expense for the remainder of fiscal year 2010 and for each of the five succeeding fiscal years is as follows:

Years ending August 31,	Amount
2010 (remaining three months)	\$ 959
2011	2,393
2012	2,373
2013	2,256
2014	2,199
2015	2,001
	\$ 12,181

Note 8 Acquisitions

C.I.M. Industries Inc.

In September 2009, Chase Corporation acquired all of the outstanding capital stock of C.I.M. Industries Inc. (C.I.M.) which is based in Peterborough, NH and has a manufacturing facility in Texas. C.I.M. is a specialized manufacturer of high performance coating and lining systems used worldwide in the liquid storage and containment applications. The total purchase price, net of cash received, was \$18,894.

Table of Contents

CHASE CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

In thousands, except share and per share amounts

Allocation of Purchase Price

The acquisition was accounted for as a business combination under ASC Topic 805, Business Combinations. In accordance with this accounting standard, the Company expensed \$130 of acquisition related costs.

The purchase price has been allocated to the acquired tangible and identifiable intangible assets and liabilities assumed based on their fair values as of the date of the acquisition:

Assets & Liabilities	Amount
Current assets (net of cash acquired)	\$ 1,991
Property, plant & equipment	4,262
Goodwill	8,573
Intangible assets	8,100
Accounts payable and accrued expenses	(439)
Deferred tax liabilities	(3,593)
Total purchase price	\$ 18,894

The excess of the purchase price over the net tangible and intangible assets acquired resulted in goodwill of \$8,573 that is largely attributable to the synergies and economies of scale from combining the operations and technologies of Chase and C.I.M., particularly as it pertains to the global expansion of the Company's product and service offerings, and marketing efforts. This goodwill is not deductible for income tax purposes.

All assets, including goodwill, acquired as part of C.I.M. are included in the Specialized Manufacturing segment. Identifiable intangible assets purchased with this transaction are as follows:

Intangible Asset	Amount	Useful life
Formulas and technology	\$ 1,880	10 years
Trade names	260	5 years
Customer lists and relationships	5,960	10 years
Total intangible assets	\$ 8,100	

ServiWrap Product Lines

On December 18, 2009, the Company acquired the full range of ServiWrap pipeline protection products (ServiWrap) from Grace Construction Products Limited, a UK based unit of W.R. Grace & Co. (the Seller). ServiWrap / ServiShield® anti-corrosion systems provide protection for new and refurbished oil, gas and water pipelines in projects around the world. The total purchase price for this acquisition was £5,983 (US \$9,699 at the time of acquisition) and the assets acquired by the Company include product lines, manufacturing equipment and certain intellectual property rights.

Beginning on the date of the acquisition through no later than September 30, 2010, the Seller will manufacture the ServiWrap products for exclusive supply to the Company, while the Company transitions production to its own facility in the UK.

Allocation of Purchase Price

The acquisition was accounted for as a business combination under ASC Topic 805, Business Combinations. In accordance with this accounting standard, the Company expensed \$286 of acquisition related costs.

The purchase price has been allocated to the acquired tangible and identifiable intangible assets and liabilities assumed based on their fair values as of the date of the acquisition:

Assets & Liabilities	Amount
Property, plant & equipment	\$ 460
Goodwill	258
Intangible assets	8,981
Total purchase price	\$ 9,699

The excess of the purchase price over the net tangible and intangible assets acquired resulted in goodwill of \$258 that is primarily attributable to the potential synergies from the integration of the ServiWrap product lines into the Company's current product offerings. This goodwill is deductible for income tax purposes.

All assets, including goodwill, acquired as part of the ServiWrap product line acquisition are included in the Specialized Manufacturing segment. Identifiable intangible assets purchased with this transaction are as follows:

Intangible Asset	Amount	Useful life
Backlog	\$ 924	9 months
Formulas and technology	486	10 years
Trade names	876	5 years
Customer lists and relationships	6,695	12 years
Total intangible assets	\$ 8,981	

Supplemental Pro Forma Data

The following table presents the pro forma results of the Company for the three and nine month periods ended May 31, 2010 and 2009, as though the C.I.M. and ServiWrap acquisitions described above occurred on September 1, 2008. The actual revenues and expenses for the C.I.M. and ServiWrap acquisitions are included in our fiscal 2010 consolidated results beginning on September 4, 2009 and December 18, 2009, respectively. Revenues for C.I.M. and ServiWrap since the acquisition dates included in the consolidated statement of operations were \$8,582 and \$3,219, respectively. Adjustments have been made for the estimated amortization of intangibles, estimated interest expense in connection with debt financing of the acquisition, and the income tax impact of the pro forma adjustments at the statutory rate of 38%. The following pro forma information is not necessarily indicative of the results that would have been achieved if the acquisitions had been effective on September 1, 2008.

Note 9 Commitments and Contingencies

The Company is one of over 100 defendants in a lawsuit pending in Ohio which alleges personal injury from exposure to asbestos contained in certain Chase products. The case is captioned Marie Lou Scott, Executrix of the Estate of James T. Scott v. A-Best Products, et al., No. 312901 in the Court of Common Pleas for Cuyahoga County, Ohio. The plaintiff in the case issued discovery requests to Chase in August 2005, to which Chase timely responded in September 2005. The trial had initially been scheduled to begin on April 30, 2007. However, that date had been postponed and no new trial date has been set. As of May 2010, there have been no new developments as this Ohio lawsuit has been inactive with respect to Chase.

The Company was named as one of the defendants in a complaint filed on June 25, 2009, in a lawsuit captioned Lois Jansen, Individually and as Special Administrator of the Estate of Thomas Jansen v. Beazer East, Inc., et al., No: 09-CV-6248 in the Milwaukee County (Wisconsin) Circuit Court. The plaintiff alleges that her husband suffered and died from malignant mesothelioma resulting from exposure to asbestos in his workplace. The plaintiff has sued seven alleged manufacturers or distributors of asbestos-containing products, including Royston Laboratories (formerly an independent company and now a division of Chase Corporation). Chase has filed an answer to the claim denying the material allegations in the complaint. The parties are currently engaged in discovery.

In addition to the matters described above, the Company is involved from time to time in litigation incidental to the conduct of its business. Although the Company does not expect that the outcome in any of these matters, individually or collectively, will have a material adverse effect on its financial condition or results of operations, litigation is inherently unpredictable. Therefore, judgments could be rendered or settlements entered, that could adversely affect the Company's operating results or cash flows in a particular period. The Company routinely assesses all of its litigation and threatened litigation as to the probability of ultimately incurring a liability, and records its best estimate of the ultimate loss in situations where the Company assesses the likelihood of loss as probable.

Note 10 Debt

The Company borrowed \$10,000 from Bank of America in September 2009 in order to fund its acquisition of C.I.M. This borrowing involved an unsecured, three year term note (Term Note) with interest and principal payments due monthly. Interest is calculated at the applicable London Interbank Offered Rate (LIBOR) plus a margin of 1.75% per annum, with interest payments due on the last day of each month. At May 31, 2010, the applicable interest rate was 2.02% per annum. In addition to monthly interest payments, Chase Corporation is repaying the principal in equal installments of \$167 per month, beginning on September 30, 2009, and on the last day of each month thereafter, ending on August 31, 2012 (the Repayment Period). In any event, on the last day of the Repayment Period, Chase will repay the remaining principal balance plus any interest then due.

Table of Contents

CHASE CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

In thousands, except share and per share amounts

The Term Note is subject to certain covenants which require the Company to maintain certain financial ratios, which include (a) the ratio of total liabilities to tangible net worth and (b) the ratio of operating cash flow to debt service on a rolling twelve month basis. The Company was in compliance with these debt covenants as of May 31, 2010. Prepayment of the Term Note is allowed at any time during the term of the loan.

As part of the C.I.M. acquisition in September 2009, the Company delivered \$3,000 in non-negotiable promissory notes (the Notes) payable to five C.I.M. shareholders, who were the holders of all of the issued and outstanding shares of capital stock of C.I.M. as of the acquisition date. The principal of the Notes will be paid in three consecutive annual installments of \$1,000 each, with the initial payment due on September 4, 2010. Interest on the unpaid principal balance of the Notes will accrue at a rate per annum equal to the applicable Federal rate, and will be paid annually with each principal payment. At May 31, 2010, the applicable interest rate was 0.79% per annum.

The Company borrowed \$7,000 from RBS Citizens in December 2009 in order to fund its acquisition of the ServiWrap product line. The loan from RBS Citizens (the Term Loan) is an unsecured, three year term note with interest and principal payments due monthly. Interest is calculated at the applicable LIBOR rate plus a margin of 1.90% per annum, with interest payments due on the last day of each month. In addition to monthly interest payments, the Company is repaying the principal in equal installments of \$117 each, beginning on January 15, 2010, and on the 15th day of each month thereafter, ending on December 15, 2012, on which date the Company will repay the remaining principal balance plus any interest then due. The Term Loan is subject to the same debt covenants as the Company's other term debt. Prepayment of the Term Loan is allowed at any time. At May 31, 2010, the applicable interest rate was 2.24% per annum.

The Company has a long-term unsecured credit facility available up to \$10 million with Bank of America at the bank's base lending rate or, at the option of the Company, at the effective London Interbank Offered Rate (LIBOR) plus 1.50 percent. As of May 31, 2010, the entire amount of \$10 million was available for use. Any future outstanding balance on this long-term unsecured credit facility will be included in scheduled principal payments at its maturity. On June 8, 2010, the Company executed an amendment to this credit facility, extending the maturity to March 31, 2013. As part of this amendment, the interest rate was increased to the effective LIBOR plus 1.50 percent (previously the effective LIBOR plus 1.25). All other terms of the credit facility remain the same.

Note 11 - Pensions and Other Post Retirement Benefits

The components of net periodic benefit cost for the three and nine months ended May 31, 2010 and 2009 are as follows:

	Three Months Ended May 31,		Nine Months Ended May 31,	
	2010	2009	2010	2009
Service cost	\$ 124	\$ 108	\$ 371	\$ 324
Interest cost	123	137	368	410
Expected return on plan assets	(102)	(107)	(302)	(331)
Amortization of prior service cost	21	23	64	69
Amortization of unrecognized loss	53	13	159	40
Net periodic benefit cost	\$ 219	\$ 174	\$ 660	\$ 512

When funding is required, the Company's policy is to contribute amounts that are deductible for federal income tax purposes. As of May 31, 2010, the Company had not made any contributions in the current fiscal year to fund its obligations under the pension plan. However, the Company plans to contribute \$750 to fund pension plan obligations in the fiscal year ending August 31, 2010.

Note 12 Fair Value Measurements

The Company adopted the guidance of FASB ASC Topic 820, Fair Value Measurements and Disclosures (ASC 820) as of September 1, 2008, as it related to all financial assets and financial liabilities. ASC 820 provided for a one-year deferral of the effective date as it related to non-financial assets and non-financial liabilities that are recognized or disclosed at fair value in the financial statements on a non-recurring basis.

Effective September 1, 2009, the Company adopted ASC 820 for all non-financial assets and non-financial liabilities that are recognized or disclosed at fair value in the financial statements on a non-recurring basis. Other than the assets acquired from C.I.M. and the assets acquired as part of the ServiWrap acquisition, the Company has not valued any non-financial assets at fair value. Accordingly, there was no cumulative effect of adoption and the adoption did not have an impact on the Company's financial position, results of operations, or cash flows. The adoption may impact future evaluations of impairment of goodwill and long-lived assets.

Edgar Filing: CHASE CORP - Form 10-Q

The Company generally defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). The Company uses a three-tier fair value hierarchy, which classifies the inputs used in measuring fair values. These tiers include: Level 1, defined as observable inputs such as quoted prices for identical instruments in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

The Company endeavors to utilize the best available information in measuring fair value. Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Company has determined that it does not have any financial liabilities measured at fair value and that its financial assets are currently all classified within Level 1 and Level 2 in the fair value hierarchy.

Table of Contents**CHASE CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(UNAUDITED)***In thousands, except share and per share amounts*

The following tables set forth the Company's financial assets that were accounted for at fair value on a recurring basis as of May 31, 2010 and August 31, 2009:

	Fair value measurements at May 31, 2010 using:			
	May 31, 2010	Quoted prices in active markets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Restricted investments	\$ 635	\$ 601	\$ 34	\$
Total	\$ 635	\$ 601	\$ 34	\$

	Fair value measurements at August 31, 2009 using:			
	August 31, 2009	Quoted prices in active markets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Restricted investments	\$ 573	\$ 239	\$ 334	\$
Total	\$ 573	\$ 239	\$ 334	\$

Note 13 Subsequent Event

On June 30, 2010, the Company completed the sale of its electronic manufacturing services business to MC Assembly LLC, a Delaware corporation (the Buyer) and a wholly-owned subsidiary of MC Test Service, Inc., a Florida corporation (MC Test). The Company's electronic manufacturing services business was conducted through its wholly-owned subsidiary, RWA, Inc., d/b/a Chase EMS (the Seller). The sale of the Chase EMS business was made pursuant to an Asset Purchase Agreement (the Agreement) dated June 28, 2010, by and among the Company, the Seller, the Buyer and (solely for purposes of guaranteeing the performance of Buyer's obligations under the Agreement) MC Test.

Under the Agreement, the Company sold to the Buyer all of the assets relating to the Chase EMS business, excluding cash and certain other enumerated assets, and the Buyer assumed certain of the liabilities of the Seller. The purchase price paid by the Buyer to Chase at the closing was \$13,000. The purchase price will be adjusted upward after the closing to the extent that the net working capital of the business sold (as calculated under the Agreement) exceeds \$4,500.

The effective date for this sale was June 30, 2010 and the results of the Electronic Manufacturing Services business will be included in the Company's financial statements through that date and be classified as discontinued operations at fiscal year end.

Table of Contents

Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion provides an analysis of the Company's financial condition and results of operations and should be read in conjunction with the Consolidated Financial Statements and notes thereto included in Item 1 of Part I of this Quarterly Report on Form 10-Q and with the Company's Annual Report on Form 10-K filed for the fiscal year ended August 31, 2009.

Recent Developments

In September 2009, we acquired all of the outstanding capital stock of C.I.M. Industries Inc. (C.I.M.), which is based in Peterborough, NH and has a manufacturing facility in Houston, TX. C.I.M. is a specialized manufacturer of high performance coating and lining systems used worldwide in the liquid storage and containment industry. With a primary focus on the water and wastewater industry, C.I.M. has the preferred products that complement our product line of high performance tapes and coatings. The total purchase price for this acquisition was \$18.9 million (net of cash acquired).

In December 2009, we acquired the full range of ServiWrap® pipeline protection products (ServiWrap) from Grace Construction Products Limited, a UK based unit of W.R. Grace & Co. (the Seller). ServiWrap / ServiShield® anti-corrosion systems provide protection for new and refurbished oil, gas and water pipelines in projects around the world. The acquisition of ServiWrap will complement the portfolio of our pipeline protection tapes, coatings and accessories and will extend our global customer base. The total purchase price for this acquisition was £5.98 million (approximately US \$9.7 million at the time of acquisition). The purchase was funded through a combination of cash on hand and a term loan in the amount of \$7.0 million from RBS Citizens.

The assets acquired by us include product lines, manufacturing equipment and certain intellectual property rights. Beginning on the date of the acquisition through no later than September 30, 2010, the Seller will manufacture the ServiWrap products for exclusive supply to us, while we transition production to our own facility in the UK. The effective date for this acquisition was December 18, 2009, and the results of this acquisition have been included in our financial statements since that date.

On June 30, 2010, we completed the sale of our contract electronic manufacturing services business, Chase EMS, to MC Assembly. As part of this sale, we sold all of the assets relating to the Chase EMS business, excluding cash and certain other enumerated assets, and MC Assembly assumed certain of the liabilities. The purchase price paid at the closing was \$13.0 million and will be adjusted upward after the closing to the extent that the net working capital of the business sold (as calculated under the Asset Purchase Agreement) exceeds \$4.5 million. The proceeds from the sale will be used for debt reduction and continued investment in our core tapes and coatings businesses.

Overview

The first nine months of fiscal 2010 resulted in significant revenue and profit increases over the prior year results for both the quarter and year to date periods. Benefitting from some of the same trends we observed in the first half of the fiscal year, revenues for the Specialized Manufacturing segment increased over last year primarily due to new sales from C.I.M. and ServiWrap, which were acquired in September and

Edgar Filing: CHASE CORP - Form 10-Q

December, respectively, and continued increased sales from electronic coatings, specialty products and construction products. Additionally, in the third quarter we saw a rebound in wire & cable product sales. The revenue growth in fiscal 2010 is being partially offset by the negative impact of the weakened pound sterling and euro whose values against the dollar have decreased 11% and 13%, respectively, from May 2009 to May 2010. We will continue to integrate C.I.M. and

Table of Contents

ServiWrap while maximizing our existing resources and remain focused on our product and marketing development efforts for all of our product lines in order to seize new business opportunities as they arise.

Our Electronic Manufacturing Services segment continued to see increased demand from many of its existing customers resulting in higher revenues and profits in both the quarter and year to date periods compared to the prior year periods.

For the remainder of 2010, we will continue with our renovation of our facility in Oxford, MA, that will be developed to provide capacity for storage needs and future growth.

As of the quarter ended May 31, 2010, the Company had two reportable segments summarized below:

Segment	Product Lines	Manufacturing Focus and Products
Specialized Manufacturing	<ul style="list-style-type: none"> • Wire and Cable • Electronic Coatings • Pipeline & Construction • Specialty Products 	Produces protective coatings and tape products including insulating and conducting materials for wire and cable manufacturers, fluid applied coating and lining systems for use in the water and wastewater industry, protective coatings for pipeline applications, moisture protective coatings for electronics, high performance polymeric asphalt additives, and expansion and control joint systems for use in the transportation and architectural markets.
Electronic Manufacturing Services	<ul style="list-style-type: none"> • Contract Electronic Manufacturing Services 	Provides assembly and turnkey contract manufacturing services including printed circuit board and electromechanical assembly services to the electronics industry operating principally in the United States.

As detailed in Note 13 to the Consolidated Financial Statements included in this Report, the Electronic Manufacturing Services business was sold in June 2010 and the financial results of this segment will be classified as discontinued operations at fiscal year end.

Results of Operations

Revenues and Operating Profit by Segment are as follows (dollars in thousands)

	Three Months Ended May 31,				Nine Months Ended May 31,							
	2010		2009		2010		2009					
Revenues from external customers

Edgar Filing: CHASE CORP - Form 10-Q

Electronic Manufacturing Services	6,345	16%	3,924	16%	16,438	16%	12,326	16%
Total	\$ 39,626		\$ 25,089		\$ 99,746		\$ 79,162	
Income before income taxes								
Specialized Manufacturing	\$ 7,880	24%	\$ 2,528	12%	\$ 15,522	19%	\$ 8,880	13%
Electronic Manufacturing Services	938	15%	444	11%	2,112	13%	1,166	9%
Total for reportable segments	8,818	22%	2,972	12%	17,634	18%	10,046	13%
Corporate and Common Costs	(1,997)		(1,603)		(4,862)		(4,369)	
Total	\$ 6,821	17%	\$ 1,369	5%	\$ 12,772	13%	\$ 5,677	7%

Total Revenues

Total revenues increased \$14,537,000 or 58% to \$39,626,000 for the quarter ended May 31, 2010 compared to \$25,089,000 in the same quarter of the prior year. Total revenues increased \$20,584,000 or 26% to \$99,746,000 in the fiscal year to date period compared to \$79,162,000 in the same period in fiscal 2009.

Table of Contents

Revenues from our Specialized Manufacturing segment increased \$12,116,000 and \$16,472,000, in the current quarter and year to date periods, respectively. The increase in revenues compared to the prior year is primarily due to the following for the current quarter and year to date periods, respectively: (a) the inclusion of sales of \$3,070,000 and \$8,582,000 from C.I.M. which we acquired in September 2009; (b) increased sales of \$5,173,000 and \$5,542,000 from specialty and construction products; (c) increased sales of \$2,624,000 and \$5,290,000 in the electronic coatings product line; and (d) the inclusion of sales of \$1,314,000 and \$3,219,000 from ServiWrap which was acquired in December 2009. The current quarter also included positive results from our wire & cable product line with increased sales over the prior year quarter of \$1,612,000 primarily due to increased demand in the energy market. The revenue growth was partially offset by decreased sales of \$1,551,000 and \$3,547,000 in the current quarter and year to date periods, respectively in the transportation market. Additionally, despite positive results for the current quarter, the wire and cable product line reflects decreased year to date sales of \$1,971,000 from the prior period.

Revenues from our Electronic Manufacturing Services segment increased \$2,421,000 and \$4,112,000 in the current quarter and year to date periods, respectively, compared to the prior year periods. The higher sales reflect continued growth as a result of new opportunities with existing customers.

Cost of Products and Services Sold

Cost of products and services sold increased \$7,495,000 or 42% to \$25,132,000 for the quarter ended May 31, 2010 compared to \$17,637,000 in the prior year quarter. Cost of products and services sold increased \$8,700,000 or 15% to \$65,536,000 in the fiscal year to date period compared to \$56,836,000 in the same period in fiscal 2009.

Cost of products and services sold in our Specialized Manufacturing segment were \$20,318,000 and \$52,461,000 in the current quarter and year to date periods compared to \$14,437,000 and \$46,554,000 in the comparable periods in the prior year. Cost of products and services sold in our Electronic Manufacturing Services segment were \$4,814,000 and \$13,075,000 in the current quarter and year to date periods compared to \$3,200,000 and \$10,282,000 in the comparable periods in the prior year.

The following table summarizes the relative percentages of revenues for costs of products and services sold for our reporting segments:

	Three Months Ended May 31,		Nine Months Ended May 31,	
	2010	2009	2010	2009
Specialized Manufacturing	61%	68%	63%	70%
Electronic Manufacturing Services	76%	82%	80%	83%
Total	63%	70%	66%	72%

As a percentage of revenues, cost of products and services sold in our Specialized Manufacturing segment decreased primarily due to increased sales of higher margin products, management's ability to leverage its fixed overhead costs on a higher revenue base, and the favorable impact of ongoing cost reduction efforts.

Edgar Filing: CHASE CORP - Form 10-Q

As a percentage of revenues, cost of products and services sold in our Electronic Manufacturing Services segment decreased as a result of greater leverage on fixed manufacturing costs given the higher revenues coupled with a one time non recurring benefit of \$294,000 on inventory purchase obligations. Additionally, cost savings initiatives that were implemented over the past year and scrutiny on raw material purchases helped overall margins.

Table of Contents

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased \$2,090,000 or 37% to \$7,672,000 for the quarter ended May 31, 2010 compared to \$5,582,000 in the prior year quarter. Selling, general and administrative expenses increased \$4,790,000 or 29% to \$21,253,000 in the fiscal year to date period compared to \$16,463,000 in the same period in fiscal 2009. The increase in the current quarter and year to date periods over the prior year periods is primarily attributable to incremental expenses from the C.I.M. and ServiWrap acquisitions, including year to date acquisition costs of \$416,000. Additionally, increased revenues for the current quarter and year to date periods compared to the prior year periods have led to increased sales commissions and other selling related expenses. These increases were partially offset by our continued emphasis on controlling costs, including reduced travel and external consulting costs.

Loss on Impairment of Goodwill

In the quarter ended May 31, 2009, based on the decrease in sales activity in the current year and the completion of the fiscal year 2010 budget, management determined that the carrying value of goodwill associated with the Company's Northeast Quality Products (NEQP) division may not be recoverable. Accordingly, we performed a goodwill impairment analysis. Based on the present value of future cash flows utilizing projected results for the balance of fiscal year 2009 and projections for future years based on the fiscal year 2010 budgeting process, the goodwill impairment analysis yielded results that would not support the current book value of the goodwill associated with this division. As a result, we concluded the carrying amount of goodwill for the NEQP division was not fully recoverable and an impairment charge of \$237,000 was recorded as of May 31, 2009. Goodwill related to NEQP, having a pre-impairment book value of \$349,000, was written down to its fair value of \$112,000 in accordance with generally accepted accounting principles. The NEQP division was sold on August 14, 2009, and the adjusted fair value of \$112,000 was realized upon the sale.

Loss on Impairment of Fixed Assets

During the fiscal quarter ending May 31, 2009, we recorded a \$262,000 charge related to the impairment of real property (land and building) located in West Bridgewater, MA which was being leased to Sunburst Electronics Manufacturing Solutions, Inc. The real property, having a pre-impairment book value of \$1,632,000, was written down to its fair value of \$1,370,000, which was realized upon the June 24, 2009 sale of the property.

Interest Expense

Interest expense increased \$97,000 to \$100,000 for the quarter ended May 31, 2010 compared to \$3,000 in the prior year quarter. Interest expense increased \$246,000 to \$259,000 for the fiscal year to date period ended May 31, 2010 compared to \$13,000 in the same period in fiscal 2009. The increase in interest expense in both the current quarter and year to date period as compared to the prior year periods is a direct result of the \$10 million term note and \$3 million promissory notes related to the acquisition of C.I.M., and the \$7 million term loan agreement related to the acquisition of ServiWrap.

Other Income (Expense)

Other income increased \$98,000 to \$99,000 for the quarter ended May 31, 2010 compared to \$1,000 in the prior year quarter. Other income decreased \$252,000 or 77% to \$74,000 for the fiscal year to date period compared to other income of \$326,000 in the same period in fiscal 2009. Other income primarily includes bank interest and foreign exchange gains (losses) caused by changes in exchange rates on transactions or balances denominated in currencies other than the functional currency of our subsidiaries. The increase in other income for the quarter as compared to the prior year period is primarily due to foreign exchange gains caused by the continued weakening of both the sterling and the euro, and the

Table of Contents

subsequent revaluation of some of our European sales transactions completed in other functional currencies. The decrease in other income for the fiscal year to date as compared to the prior year period is primarily due to us no longer receiving rental income on previously owned real property sold in June 2009.

Net Income

Net income increased \$3,538,000 or 410% to \$4,400,000 in the quarter ended May 31, 2010 compared to \$862,000 in the prior year quarter. Net income increased \$4,571,000 or 128% to \$8,148,000 for the fiscal year to date period ended May 31, 2010 compared to \$3,577,000 in the same period in fiscal 2009. The increase in net income in both the current quarter and year to date periods is primarily a result of additional revenue discussed previously.

Liquidity and Sources of Capital

Our overall cash balance decreased \$7,322,000 to \$4,321,000 at May 31, 2010 from \$11,643,000 at August 31, 2009. Generally, we manage our borrowings and payments under our revolving line of credit in order to maintain a low cash balance. The higher cash balance at August 31, 2009 was a result of cash flow generated from operations being held for the C.I.M. acquisition which closed in September 2009 and the acquisition of ServiWrap which closed in December 2009. We will continue to review our current cash balances denominated in foreign currency in light of current tax guidelines, working capital requirements, infrastructure improvements and potential acquisitions.

Cash flow provided by operations was \$8,051,000 in the first nine months of fiscal year 2010 compared to \$9,527,000 in the prior year period. Cash provided by operations during fiscal 2010 was primarily due to operating income and increases in accounts payable and accrued expenses, offset by increased accounts receivable and raw material purchases due to higher sales volumes.

The ratio of current assets to current liabilities was 2.2 as of May 31, 2010 compared to 3.2 as of August 31, 2009. The decrease in our current ratio at May 31, 2010 was primarily attributable to the increase in the current portion of long-term debt and decrease in cash used to finance the C.I.M. and ServiWrap acquisitions along with increases in accounts payable and accrued expenses. This was partially offset by increases in accounts receivable and inventory due to increased demand and overall sales volume.

Cash flow used in investing activities of \$28,449,000 was primarily due to the acquisitions of C.I.M. and ServiWrap, and cash paid for purchases of machinery and equipment at our other manufacturing locations during fiscal 2010.

Cash flow provided by financing activities of \$13,507,000 was primarily due to a total of \$17 million in term debt used to finance our acquisitions of C.I.M. and ServiWrap. Additionally, the increased utilization of our existing line of credit was a result of enhanced working capital needs. These were partially offset by payments made on the acquisition loans and our line of credit arrangement, as well as our annual dividend.

Edgar Filing: CHASE CORP - Form 10-Q

On October 15, 2009, we announced a cash dividend of \$0.20 per share (totaling \$1,759,000) to shareholders of record on October 31, 2009, which was paid on December 3, 2009.

We continue to have long-term unsecured credit available up to \$10 million with Bank of America at the bank's base lending rate or, at the option of the Company, at the effective London Interbank Offered Rate (LIBOR) plus 1.50 percent. As of May 31, 2010 and June 30, 2010, the entire amount of \$10 million was available for use under this credit facility. We plan to use this availability to help finance our cash needs, including acquisitions, in fiscal 2010 and future periods. On June 8, 2010, we executed an amendment to this credit facility, extending its maturity to March 31, 2013. As part of this amendment,

Table of Contents

the interest rate was increased to the effective LIBOR plus 1.50 percent (previously the effective LIBOR plus 1.25). All other terms of the credit facility remain the same.

Under the terms of our line of credit, we must comply with certain debt covenants related to (a) the ratio of total liabilities to tangible net worth and (b) the ratio of operating cash flow to debt service on a rolling twelve month basis. We were in compliance with our debt covenants as of May 31, 2010.

We borrowed \$10.0 million from Bank of America in September 2009 in order to fund our acquisition of C.I.M. This borrowing involved an unsecured, three year term note (the Term Note) with interest and principal payments due monthly. Interest is calculated at the applicable LIBOR rate plus a margin of 1.75% per annum, with interest payments due on the last day of each month. At May 31, 2010, the applicable interest rate was 2.02% per annum. In addition to monthly interest payments, we are repaying the principal in equal installments of \$167,000 per month, beginning on September 30, 2009, and on the last day of each month thereafter, ending on August 31, 2012, when we will repay the remaining principal balance plus any interest then due. The Term Note is subject to the same debt covenants as our line of credit discussed above. Prepayment of the Term Note is allowed at any time during the term of the loan.

As part of the C.I.M. acquisition in September 2009, we also delivered \$3,000,000 in non-negotiable promissory notes (the Notes) payable to five C.I.M. shareholders, who were the holders of all of the issued and outstanding shares of capital stock of C.I.M. as of the acquisition date. The principal of the Notes will be paid in three consecutive annual installments of \$1,000,000 each, with the initial payment due on September 4, 2010. Interest on the unpaid principal balance of the Notes is accruing at a rate per annum equal to the applicable Federal rate, and will be paid annually with each principal payment. At May 31, 2010, the applicable interest rate was 0.79% per annum.

In December 2009, we borrowed \$7.0 million from RBS Citizens in order to fund our acquisition of the ServiWrap product lines. This borrowing involved an unsecured, three year term note (the Term Loan) with interest and principal payments due monthly. Interest is calculated at the applicable LIBOR rate plus a margin of 1.90% per annum, with interest payments due on the last day of each month. In addition to monthly interest payments, we are repaying the principal in equal installments of \$117,000 each, beginning on January 15, 2010, and on the 15th day of each month thereafter, ending on December 15, 2012, when we will repay the remaining principal balance plus any interest then due. The Term Loan is subject to the same debt covenants as our line of credit discussed above. Prepayment of the Term Loan is allowed at any time. At May 31, 2010, the applicable interest rate was 2.24% per annum.

To the extent that interest rates increase in future periods, we will assess the impact of these higher interest rates on the financial and cash flow projections of our potential acquisitions.

We have no significant off balance sheet arrangements.

We are currently renovating our facility (land and building) in Oxford, MA, purchased in 2008, to provide capacity for storage needs and future growth; and assessing building and equipment improvements needed in order to integrate ServiWrap production into our existing operations in England. Machinery and equipment will be added as needed to increase capacity or enhance operating efficiencies in our other manufacturing plants.

We may consider the acquisition of companies or other assets this year or in future periods which are complementary to our business. We believe that our existing resources, including our line of credit, together with cash generated from operations and additional bank borrowings, will be sufficient to fund our cash flow requirements through at least the next twelve months. However, there can be no assurances that additional financing will be available at favorable terms, if at all.

Table of Contents**Contractual Obligations**

Please refer to Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations section in our Form 10-K for the fiscal year ended August 31, 2009 for a complete discussion of our contractual obligations. In addition to those items reported for the fiscal year ended August 31, 2009, we entered into the following contractual cash obligations during the nine months ended May 31, 2010:

Contractual Obligations	Total	Payments Due Less than 1 Year	Payments Due 1 - 3 Years	Payments Due 4 - 5 Years	Payments After 5 Years
Long-term debt (1)	\$ 18,083	\$ 4,400	\$ 13,683	\$	\$
Operating leases (2)	4,731	466	1,031	1,087	2,147
Total	\$ 22,814	\$ 4,866	\$ 14,714	\$ 1,087	\$ 2,147

(1) Includes the remaining payment obligations used to finance our acquisitions of C.I.M. and ServiWrap. See Note 10 to the Consolidated Financial Statements included in this Report for further information regarding these debt agreements.

(2) Includes the new office lease in Westwood, MA and an amended and extended property lease in Winchester, MA for our Electronic Manufacturing Services business (subsequently sold in June 2010 as detailed in Note 13 to the Consolidated Financial Statements included in this Report).

Recently Issued Accounting Standards

In June 2009, the Financial Accounting Standards Board's (FASB) approved the FASB Accounting Standards Codification (ASC or the Codification) as the single source of authoritative nongovernmental U.S. GAAP. The Codification does not change current U.S. GAAP, but is intended to simplify user access to all authoritative U.S. GAAP by providing all the authoritative literature related to a particular topic in one place. All existing accounting standard documents will be superseded and all other accounting literature not included in the Codification will be considered nonauthoritative. The Codification became effective for us in the quarter ending November 30, 2009 and the adoption did not have an effect on our consolidated financial position, results of operations or cash flows.

In December 2007, the FASB issued new guidance under ASC Topic 805, Business Combinations (ASC 805). The new guidance under ASC 805 establishes principles and requirements for how an acquirer in a business combination recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed and any noncontrolling interest in the acquiree; recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase; expenses acquisition related costs as incurred; and determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. We adopted the new guidance under ASC 805 as of September 1, 2009, and our recent acquisitions of C.I.M. and ServiWrap were both accounted for under this standard.

In June 2008, the FASB issued guidance within ASC Topic 260, Earnings Per Share (ASC 260), to clarify that unvested share-based payment awards with a right to receive nonforfeitable dividends are participating securities. The standard provides guidance on how to allocate earnings

Edgar Filing: CHASE CORP - Form 10-Q

to participating securities and compute earnings per share using the two-class method. We adopted the provisions of this standard on September 1, 2009 and the disclosures required by ASC 260 have been made in Note 4 to the Consolidated Financial Statements included in this Report.

In December 2008, the FASB issued ASC Topic 715, Compensation - Retirement Benefits (ASC 715). ASC 715 provides additional guidance on an employer's disclosures about plan assets of a defined

Table of Contents

benefit pension or other post-retirement plan enabling users of the financial statements to assess the inputs and valuation techniques used to develop fair value measurements of plan assets at the annual reporting date. The guidance requires more detailed disclosures about the assets of a defined benefit pension or other post-retirement plan and is effective for fiscal years ending after December 15, 2009. Since the guidance only requires enhanced disclosures, we do not expect the adoption of ASC 715 to have an impact on our consolidated financial position and results of operations.

Critical Accounting Policies

Our financial statements are prepared in accordance with accounting principles generally accepted in the United States. To apply these principles, we must make estimates and judgments that affect our reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. In many instances, we reasonably could have used different accounting estimates and, in other instances, changes in the accounting estimates are reasonably likely to occur from period to period. Accordingly, actual results could differ significantly from our estimates. To the extent that there are material differences between these estimates and actual results, our financial condition or results of operations will be affected. We base our estimates and judgments on historical experience and other assumptions that we believe to be reasonable at the time and under the circumstances, and we evaluate these estimates and judgments on an ongoing basis. We refer to accounting estimates and judgments of this type as critical accounting policies, judgments, and estimates. Management believes there have been no material changes during the nine months ended May 31, 2010 to the critical accounting policies reported in Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations section in our Form 10-K for the fiscal year ended August 31, 2009.

Forward Looking Information

The part of this Quarterly Report on Form 10-Q captioned Management's Discussion and Analysis of Financial Condition and Results of Operations contains certain forward-looking statements, which involve risks and uncertainties. Forward-looking statements include, without limitation, statements as to our future operating results, future economic conditions and expectations or plans relating to the implementation or realization of our strategic goals. These statements are based on current expectations, estimates and projections about the industries in which we operate, and the beliefs and assumptions made by management. Readers should refer to the discussions under Forward Looking Information and Risk Factors contained in our Annual Report on Form 10-K for the fiscal year ended August 31, 2009 concerning certain factors that could cause our actual results to differ materially from the results anticipated in such forward-looking statements. These discussions and Risk Factors are hereby incorporated by reference into this Quarterly Report.

Table of Contents

Item 3 - Quantitative and Qualitative Disclosures about Market Risk

We limit the amount of credit exposure to any one issuer. At May 31, 2010, other than our restricted investments (which are restricted for use in a non qualified retirement savings plan for certain key employees and Directors), all of our funds were either in demand deposit accounts or investment instruments that meet high credit quality standards such as money market funds, government securities, or commercial paper.

Our domestic operations have limited currency exposure since substantially all transactions are denominated in U.S. dollars. However, our European operations are subject to currency exchange fluctuations. We continue to review our policies and procedures to reduce this exposure while maintaining the benefit from these operations and sales to other European customers. As of May 31, 2010, we had cash balances in the United Kingdom for our HumiSeal Europe Ltd and Chase Protective Coatings Ltd divisions denominated primarily in pounds sterling and equal to US \$3,335,000 and cash balances in France for our HumiSeal Europe SARL division denominated primarily in euros and equal to US \$387,000. We will continue to review our current cash balances denominated in foreign currency in light of current tax guidelines, working capital requirements, infrastructure improvements and potential acquisitions.

We incurred a foreign currency translation loss, net of tax, for the nine months ended May 31, 2010 in the amount of \$1,753,000 related to our European operations which is recorded in other comprehensive income within our Statement of Stockholders' Equity. We do not have or utilize any derivative financial instruments.

Item 4 - Controls and Procedures

Evaluation of disclosure controls and procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

We carry out a variety of ongoing procedures, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, to evaluate the effectiveness of the design and operation of our disclosure controls and procedures. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective at a reasonable assurance level as of the end of the period covered by this report.

Changes in internal control over financial reporting

There was no change in our internal control over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

Part II OTHER INFORMATION

Item 1 Legal Proceedings

We are one of over 100 defendants in a lawsuit pending in Ohio which alleges personal injury from exposure to asbestos contained in certain Chase products. The case is captioned Marie Lou Scott, Executrix of the Estate of James T. Scott v. A-Best Products, et al., No. 312901 in the Court of Common Pleas for Cuyahoga County, Ohio. The plaintiff in the case issued discovery requests to us in August 2005, to which we timely responded in September 2005. The trial had initially been scheduled to begin on April 30, 2007. However, that date had been postponed and no new trial date has been set. As of May 2010, there have been no new developments as this Ohio lawsuit has been inactive with respect to us.

We were named as one of the defendants in a complaint filed on June 25, 2009, in a lawsuit captioned Lois Jansen, Individually and as Special Administrator of the Estate of Thomas Jansen v. Beazer East, Inc., et al., No: 09-CV-6248 in the Milwaukee County (Wisconsin) Circuit Court. The plaintiff alleges that her husband suffered and died from malignant mesothelioma resulting from exposure to asbestos in his workplace. The plaintiff has sued seven alleged manufacturers or distributors of asbestos-containing products, including Royston Laboratories (formerly an independent company and now a division of Chase Corporation). We have filed an answer to the claim denying the material allegations in the complaint. The parties are currently engaged in discovery.

In addition to the matters described above, we are involved from time to time in litigation incidental to the conduct of our business. Although we do not expect that the outcome in any of these matters, individually or collectively, will have a material adverse effect on our financial condition or results of operations, litigation is inherently unpredictable. Therefore, judgments could be rendered or settlements entered, that could adversely affect our operating results or cash flows in a particular period. We routinely assess all of our litigation and threatened litigation as to the probability of ultimately incurring a liability, and record our best estimate of the ultimate loss in situations where we assess the likelihood of loss as probable.

Item 1A Risk Factors

Please refer to Item 1A in our Form 10-K for the fiscal year ended August 31, 2009 for a discussion of the risk factors which could materially affect our business, financial condition or future results.

Item 5 Other Information

On June 8, 2010, we entered into an amendment to our existing unsecured \$10 million credit facility with Bank of America, extending its maturity to March 31, 2013. As part of this amendment, the interest rate was increased to the effective London Interbank Offered Rate (LIBOR) plus 1.50 percent (previously the effective LIBOR plus 1.25). All other terms of the credit facility remain the same.

Item 6 - Exhibits

Exhibit Number	Description
10.1	First Amendment to Second Amended and Restated Loan Agreement, dated June 8, 2010 between Chase Corporation and Bank of America, N.A.
