OCONEE FEDERAL FINANCIAL CORP.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Dollars in thousands)

**(1) BASIS OF PRESENTATION**

The accompanying unaudited consolidated financial statements of Oconee Federal Financial Corp. (referred to herein as the Company, we, us, or our ) include the accounts of its wholly owned subsidiary Oconee Federal Savings and Loan Association (the Association ) have been prepared in accordance with U.S. generally accepted accounting principles ( GAAP ) for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. Intercompany accounts and transactions are eliminated during consolidation. The Company is majority owned (65.02%) by Oconee Federal, MHC. These financial statements do not include the transactions and balances of Oconee Federal, MHC.

In the opinion of management, the accompanying unaudited consolidated financial statements contain all adjustments (consisting only of normal recurring accruals) necessary to present fairly the Company s financial position as of September 30, 2011 and June 30, 2011 and the results of operations and cash flows for the interim periods ended September 30, 2011 and 2010. All interim amounts have not been audited, and the results of operations for the interim periods herein are not necessarily indicative of the results of operations to be expected for the year. These consolidated financial statements should be read in conjunction with the Company s audited consolidated financial statements and notes thereto included in the Form 10-K Annual Report of Oconee Federal Financial Corp. for the year ended June 30, 2011.

**(2) NEW ACCOUNTING STANDARDS**

ASU 2011-02, Receivables ( Topic 310 ): A Creditor s Determination of Whether a Restructuring is a Troubled Debt Restructuring provides additional guidance to clarify when a loan modification or restructuring is considered a troubled debt restructuring (TDR) in order to address current diversity in practice and lead to more consistent application of U.S. GAAP for debt restructurings. In evaluating whether a restructuring constitutes a troubled debt restructuring, a creditor must separately conclude that both of the following exist: (1) the restructuring constitutes a concession, and (2) the debtor is experiencing financial difficulties. The amendments to Topic 310 clarify the guidance regarding the evaluation of both considerations above. Additionally, the amendments clarify that a creditor is precluded from using the effective interest rate test in the debtor s guidance on restructuring of payables (paragraph 470-60-55-10) when evaluating whether a restructuring constitutes a TDR. This amendment is effective for us July 1, 2011. Early adoption is permitted. Retrospective application to the beginning of the annual period of adoption for modifications occurring on or after the beginning of the annual adoption period is required. As a result of applying these amendments, we may identify receivables that are newly considered to be impaired. For purposes of measuring impairment of those receivables, an entity should apply the amendments prospectively for the first interim or annual period beginning on or after June 15, 2011. Implementation of these updates did not have a significant impact to the consolidated financial statements.

## Edgar Filing: Oconee Federal Financial Corp. - Form 10-Q

In May 2011, the FASB has issued ASU No. 2011-04, Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs. This ASU represents the converged guidance of the FASB and the IASB (the Boards) on fair value measurement. The collective efforts of the Boards and their staffs, reflected in ASU 2011-04, have resulted in common requirements for measuring fair value and for disclosing information about fair value measurements, including a consistent meaning of the term fair value. The Boards have concluded the common requirements will result in greater comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and IFRSs. The amendments to the FASB Accounting Standards Codification in this ASU are to be applied prospectively. For public entities, the amendments are effective during interim and annual periods beginning after December 15, 2011. Early application by public entities is not permitted. The Company is currently in the process of evaluating the impact that this ASU may have on the consolidated financial statements.

In June 2011, the FASB has issued ASU No. 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income. This ASU amends the FASB Accounting Standards Codification to allow an entity the option to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In both choices, an entity is required to present each component of net income along with total net income, each component of

Table of Contents

OCONEE FEDERAL FINANCIAL CORP.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Dollars in thousands)

other comprehensive income along with a total for other comprehensive income, and a total amount for comprehensive income. ASU 2011-05 eliminates the option to present the components of other comprehensive income as part of the statement of changes in shareholders' equity. The amendments to the Codification in the ASU do not change the items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income. ASU 2011-05 should be applied retrospectively. For public entities, the amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. Early adoption is permitted. The Company has already complied with this update and the changes are reflected in our financial statements.

**(3) EARNINGS PER SHARE ( EPS )**

Basic EPS or loss per common share is determined by dividing net earnings available to common shareholders by the weighted average number of common shares outstanding for the period. ESOP shares are considered outstanding for this calculation unless unearned. The factors used in the earnings per common share computation follow:

	<b>Three Months Ended September 30, 2011</b>	
Net income	\$	977
Weighted average common shares outstanding		6,348,000
Less: Average unearned ESOP shares		(241,377)
Average shares for basic EPS		6,106,623
Basic EPS	\$	0.16

There were no potential dilutive common shares for the period presented; therefore, basic and diluted EPS are the same.

<b>September 30, 2011</b>						
U.S. Government agencies	\$ 15,051	\$ (54)	\$	\$	\$ 15,051	\$ (54)
Total temporarily impaired	\$ 15,051	\$ (54)	\$	\$	\$ 15,051	\$ (54)

Table of Contents

## OCONEE FEDERAL FINANCIAL CORP.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Dollars in thousands)

There were nine U.S. Government agency securities with an unrealized loss at September 30, 2011. None of the unrealized losses for these securities have been recognized in net income for the three months ended September 30, 2011 because the issuer's bonds are of high credit quality, management does not intend to sell and it is likely that management will not be required to sell the securities prior to their anticipated recovery, and the decline in fair value is largely due to changes in interest rates. The fair value is expected to recover as the bonds approach their maturity date or reset date. There were no securities with unrealized losses at June 30, 2011.

The Company evaluates securities for other-than-temporary impairment at least on a quarterly basis, and more frequently when economic or market concerns warrant such evaluation. The Company considers the length of time and the extent to which the fair value has been less than cost and the financial condition and near-term prospects of the issuer. Additionally, the Company considers its intent to sell or whether it will be more likely than not it will be required to sell the security prior to the security's anticipated recovery in fair value. In analyzing an issuer's financial condition, the Company may consider whether the securities are issued by the federal Government agencies, whether downgrades by bond rating agencies have occurred, and the results of reviews of the issuer's financial condition.

During the three months ended September 30, 2011 and 2010, management recorded an other-than-temporary impairment charge on the FHLMC common stock of \$4 and \$9, respectively based on management's evaluation of the length of time the FHLMC had been impaired and the prospects of recoverability.

The amortized cost and fair value of securities available for sale and held to maturity debt securities at September 30, 2011 by contractual maturity are summarized as follows:

	September 30, 2011	
	Amortized Cost	Estimated Fair Value
Due from one to five years	\$ 22,852	\$ 23,176
Due from five to ten years	7,447	7,412
Due after ten years		
Mortgage backed securities	13,760	14,322
Total	\$ 44,059	\$ 44,910

Gross proceeds from sales of securities and gross gains for the three months ended September 30, 2011 were \$10,182 and \$67, respectively. There were no losses on sales. Additionally, there were no sales of securities for the three months ended September 30, 2010.

## Edgar Filing: Oconee Federal Financial Corp. - Form 10-Q

Nonaccrual loans at September 30, 2011 and June 30, 2011 were \$994 and \$1,567, respectively. These loans are disclosed by portfolio segment above in the 90 days or more past due column. Non-performing loans and loans past due 90 days and still accruing include both smaller balance homogenous loans that are collectively evaluated for impairment and individually classified as impaired loans.

There were no troubled debt restructures at September 30, 2011 or June 30, 2011.

### OCONEE FEDERAL FINANCIAL CORP.

#### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Dollars in thousands)

The Company utilizes a grading system whereby all loans are assigned a grade based on the risk profile of each loan. Loan grades are determined based on an evaluation of relevant information about the ability of borrowers to service their debt such as current financial information, historical payment experience, credit documentation, public information, and current economic trends, among other factors. All loans, regardless of size, are analyzed and assigned a grade based upon management's assessment of the ability of borrowers to service their debts.

The Company uses the following definitions for loan grades:

- **Special Mention.** Loans classified as special mention have a potential weakness that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of repayment prospects for the loan or of the institution's credit position at some future date.
- **Substandard.** Loans classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.
- **Doubtful.** Loans classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

Loans not meeting the criteria above are graded Pass. These loans are included within groups of homogenous pools of loans based upon portfolio segment and class for estimation of the allowance for loan losses on a collective basis. Loans graded special mention, substandard or doubtful are individually evaluated for impairment, regardless of size.

At September 30, 2011 and June 30, 2011, and based on the most recent analyses performed, the loan grade for each loan by portfolio segment and class is as follows:

	One to four family		Multi-family		Real estate Home Equity		Nonresidential		Construction and Land		Consumer		Total	
	September 30, 2011	June 30, 2011	September 30, 2011	June 30, 2011	September 30, 2011	June 30, 2011	September 30, 2011	June 30, 2011	September 30, 2011	June 30, 2011	September 30, 2011	June 30, 2011

(Dollars in thousands)

**(6) FAIR VALUE OF FINANCIAL INSTRUMENTS**

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The fair values of securities available for sale are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs) or matrix pricing, which is a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities (Level 2 inputs).

The fair value of impaired loans with specific allocations of the allowance for loan losses is generally based on recent real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are typically significant and result in a Level 3 classification of the inputs for determining fair value.

Nonrecurring adjustments to certain commercial and residential real estate properties classified as real estate owned are measured at the lower of carrying amount or fair value, less costs to sell. Fair values are generally based on third party appraisals of the property, resulting in a Level 3 classification. In cases where the carrying amount exceeds the fair value, less costs to sell, an impairment loss is recognized.

The tables below present the balances of assets and liabilities measured at fair value on a recurring basis by level within the hierarchy as of September 30, 2011 and June 30, 2011:

**Fair Value Measurements**

**Using Significant Other Observable Inputs**

**(Level 2)**

Table of Contents

## OCONEE FEDERAL FINANCIAL CORP.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Dollars in thousands)

Assets and liabilities measured at fair value on a non-recurring basis at September 30, 2011 and June 30, 2011 are summarized below:

**Using Significant Unobservable Inputs****(Level 3)**

	September 30, 2011	June 30, 2011
<b>Assets:</b>		
Impaired loans, with specific allocations		
<b>Real estate loans:</b>		
One to four family	\$ 663	\$ 386
Multi-family		
Home equity		
Nonresidential		
Construction and land		
Total real estate loans	663	386
Consumer and other loans		
Total loans	\$ 663	\$ 386
<b>Real estate owned:</b>		
One to four family	\$ 2,571	\$ 2,254
Multi-family		
Home equity		
Nonresidential		
Construction and land		
Total real estate owned	\$ 2,571	\$ 2,254

Impaired loans, which are measured for impairment using the fair value of the collateral for collateral dependent loans, had a carrying amount of \$663 and \$386 at September 30, 2011 and June 30, 2011, respectively. The carrying values included a valuation allowance of \$21 and \$22, respectively, resulting in a decrease in the provision for loan loss of \$1 for the three months ended September 30, 2011 and an increase to the provision for loan losses of \$166 for the year ended June 30, 2011.

Real estate owned is carried at the lower of carrying value or fair value less costs to sell. The outstanding balances of real estate owned and their respective valuation allowances at September 30, 2011 and June 30, 2011 were \$2,624 and \$53 and \$2,288 and \$34, respectively. The resulting write-downs for measuring real estate owned at the lower of carrying or fair value less costs to sell were \$52 and \$303 for the three months ended September 30, 2011 and the year ended June 30, 2011, respectively.

## OCONEE FEDERAL FINANCIAL CORP.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Dollars in thousands)

Many of the Company's assets and liabilities are short-term financial instruments whose carrying amounts reported in the consolidated balance sheet approximate fair value. These items include cash and cash equivalents, accrued interest receivable and payable balances, variable rate loan and deposits that re-price frequently and fully. The estimated fair values of the Company's remaining on-balance sheet financial instruments at September 30, 2011 and June 30, 2011 are summarized below:

	September 30, 2011		June 30, 2011	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
<b>Financial assets</b>				
Securities available for sale	\$ 35,705	\$ 35,705	\$ 30,631	\$ 30,631

Restricted equity securities	557	N/A	557	N/A
<b>Financial liabilities</b>				
Deposits	291,771	300,914	292,469	302,053

**(7) EMPLOYEE STOCK OWNERSHIP PLAN**

Effective January 13, 2011, employees participate in an Employee Stock Ownership Plan (ESOP). The ESOP borrowed from the Company to purchase 248,842 shares of common stock at \$10 per share during 2011. The Company makes discretionary contributions to the ESOP, as well as paying dividends on unallocated shares to the ESOP, and the ESOP uses funds it receives to repay the loan. When loan payments are made, ESOP shares are allocated to participants based on relative compensation and expense is recorded. Dividends on allocated shares increase participant accounts.

Participants receive the shares at the end of employment. No contributions to the ESOP were made during the three months ended September 30, 2011. The expense recognized for the three months ended September 30, 2011 was \$30.

Shares held by the ESOP at September 30, 2011 were as follows:

Committed to be released to participants	7,465
--	-------

Edgar Filing: Oconee Federal Financial Corp. - Form 10-Q

Allocated to participants	
Unearned	241,377
Total ESOP shares	248,842
Fair value of unearned shares	\$ 2,739,629

**(8) SUBSEQUENT EVENT**

On October 20, 2011, the Board of Directors of the Company declared a quarterly cash dividend of \$0.10 per share of the Company's common stock. The dividend will be payable to shareholders of record as of November 3, 2011 and will be paid on November 17, 2011.

Table of Contents

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OCONEE FEDERAL FINANCIAL CORP.**

This Quarterly Report contains forward-looking statements, which can be identified by the use of such words as estimate, project, believe, intend, anticipate, plan, seek, expect and similar expressions. These forward-looking statements include:

- statements of our goals, intentions and expectations;
- statements regarding our business plans and prospects and growth and operating strategies;
- statements regarding the asset quality of our loan and investment portfolios; and
- estimates of our risks and future costs and benefits.

These forward-looking statements are based on our current beliefs and expectations and are inherently subject to significant business, economic, and competitive uncertainties and contingencies, many of which are beyond our control. In addition, these forward-looking statements are subject to assumptions with respect to future business strategies and decisions that are subject to change. We are under no duty to and do not take any obligation to update any forward-looking statements after the date of this Quarterly Report.

The following factors, among others, could cause the actual results to differ materially from the anticipated results or other expectations expressed in the forward-looking statements:

- our ability to manage our operations under the current adverse economic conditions nationally and in our market area;
- adverse changes in the financial industry, securities, credit and national and local real estate markets (including real estate values);
- changes in the interest rate environment that reduce our margins or reduce the fair value of financial instruments and inflation;

## Edgar Filing: Oconee Federal Financial Corp. - Form 10-Q

- further declines in the yield on our assets resulting from the current low market interest rate environment;
- risks related to high concentration of loans secured by real estate located in our market area;
- significant increases in our loan losses;
- potential increases in deposit and premium assessments;
- our ability to pay dividends and Oconee Federal, MHC's ability to waive receipt of dividends;
- legislative or regulatory changes, including increased compliance costs resulting from the recently enacted financial reform legislation, that adversely affect our business and earnings;
- changes in the level of government support of housing finance;
- significantly increased competition with either depository and nondepository financial institutions;
- changes in accounting policies and practices, as may be adopted by the bank regulatory agencies and the authoritative accounting and auditing bodies;
- risks and costs related to becoming a publicly traded company; and
- changes in our organization, compensation and benefit plans.

Because of these and a wide variety of other uncertainties, our actual future results may be materially different from the results indicated by these forward-looking statements.

Table of Contents

**Critical Accounting Policies**

There are no material changes to the critical accounting policies disclosed in Form 10-K Annual Report of Oconee Federal Financial Corp. as filed with the Securities and Exchange Commission pursuant to Securities Act Rule 424(b)(3) on September 28, 2011.

**Comparison of Financial Condition at September 30, 2011 and June 30, 2011**

Our total assets increased \$837 thousand, or 0.22%, to \$375.1 million at September 30, 2011 from \$374.3 million at June 30, 2011. The increase was primarily due to an increase in securities available for sale of \$5.1 million, or 16.56%, to \$35.7 million at September 30, 2011 from \$30.6 million at June 30, 2011. The increase in securities available for sale was offset by a decrease in cash and cash equivalents of \$4.3 million, or 7.07%, to \$56.5 million at September 30, 2011 from \$60.8 million at June 30, 2011. The continued increase in securities was due to a decrease in the demand for loans in our market area, the investment of deposit funds and the proceeds of our stock offering in securities instead of loans, and our desire to obtain a higher yield than the current yield rate on federal funds.

Total gross loans decreased by \$22 thousand to \$267.3 million at September 30, 2011. Our one to four family real estate loans decreased to \$248.2 million at September 30, 2011 from \$249.1 million at June 30, 2011 resulting from decreased demand in our market area. The decrease in one to four family real estate loans was offset by an increase in construction and land loans to \$8.3 million at September 30, 2011 from \$7.2 million at June 30, 2011 resulting from increased demand for construction and land loans in our market area. All other loan categories decreased from June 30, 2011 to September 30, 2011 by \$246 thousand.

Deposits decreased \$698 thousand, or 0.24%, to \$291.8 million at September 30, 2011 from \$292.5 million at June 30, 2011. The decrease was primarily attributed to a decrease in certificates of deposit of \$660 thousand, or 0.26%, to \$228.9 million from \$229.5 million, which was due to depressed interest rates payable on certificates of deposit. All other deposit categories had a net decrease of \$38 thousand. We generally do not accept brokered deposits and no brokered deposits were accepted during the three months ended September 30, 2011.

We had no advances from the Federal Home Loan Bank of Atlanta as of September 30, 2011 or June 30, 2011. We have credit available under a loan agreement with the Federal Home Loan Bank of Atlanta in the amount of 11% of total assets (as of June 30, 2011), or approximately \$41.2 million at September 30, 2011.

Total equity equaled \$81.3 million at September 30, 2011, compared to \$80.2 million at June 30, 2011. The increase of \$1.1 million was primarily related to net income for the three months ended September 30, 2011 of \$977 thousand and other comprehensive income of \$75 thousand for the same period.

Table of Contents**Non-Performing Assets**

The table below sets forth the amounts and categories of our non-performing assets at the dates indicated.

	September 30, 2011	June 30, 2011
	(Dollars in Thousands)

Total nonperforming assets and troubled debt restructurings to total assets	1.09%	1.02%

There were no other loans that are not disclosed above where there is information about possible credit problems of borrowers that caused us serious doubts about the ability of the borrowers to comply with present loan repayment terms and that may result in disclosure of such loans in the future.

## Edgar Filing: Oconee Federal Financial Corp. - Form 10-Q

Interest income that would have been recorded had our non-accruing loans been current in accordance with their original terms was \$41 thousand and \$169 thousand for the three months ended September 30, 2011 and 2010, respectively. Interest of \$5 thousand and \$2 thousand was recognized on these loans and is included in net income for the three months ended September 30, 2011 and 2010, respectively.

Table of Contents**Analysis of Net Interest Margin**

The following tables set forth average balance sheets, average yields and rates, and certain other information at and for the periods indicated. No tax-equivalent yield adjustments were made, as the effect thereof was not material. All average balances are daily average balances. Non-accrual loans were included in the computation of average balances, but have been reflected in the tables as loans carrying a zero yield. The yields set forth below include the effect of net deferred costs, discounts and premiums that are amortized or accreted to income.

Table of Contents

**Comparison of Operating Results for the Three Months Ended September 30, 2011 and September 30, 2010**

**General.** We recognized net income of \$977 thousand for the three months ended September 30, 2011 as compared to net income of \$812 thousand for the three months ended September 30, 2010. The increase of \$165 thousand was attributable to an increase in net interest income, after the provision for loan losses, of \$515 thousand, or 21.62%, for the three months ended September 30, 2011 and an increase in noninterest income of \$83 thousand, offset partially by an increase in noninterest expense of \$296 thousand, or 27.28% and an increase in income tax expense of \$137 thousand, or 27.79%.

**Interest Income.** Interest income increased \$44 thousand, or 1.15%, to \$3.9 million for the three months ended September 30, 2011. The increase was largely due to an increase in the average balance of interest earning assets for the three months ended September 30, 2011 to \$348.9 million from \$330.6 million for the three months ended September 30, 2010, which was partially offset by a decrease in the yield on interest-earning assets to 4.42% for the three months ended September 30, 2011, compared to 4.64% for the three months ended September 30, 2010 in the lower market interest rate environment.

Interest income on loans remained relatively the same for the three months ended September 30, 2011 and 2010. The \$2.3 million increase in the average balances of loans for the three months ended September 30, 2011 over the three months ended September 30, 2010 was offset by a slight decrease in the average yields to 5.47% from 5.55% for the same periods. The lower yields reflected a declining market interest rate environment during 2011 from 2010 and its impact on our portfolio, which was primarily comprised of one to four family residential mortgage loans. Interest income on investment securities increased by \$43 thousand, or 33.33%, to \$172 thousand for the three months ended September 30, 2011 from \$129 thousand for the three months ended September 30, 2010, reflecting an increase in the average balance of such securities to \$45.1 million from \$11.6 million in 2010, which more than offset the decrease in the average yield on such securities to 1.51% from 4.47%.

**Interest Expense.** Interest expense decreased \$430 thousand, or 31.25%, to \$946 thousand for the three months ended September 30, 2011 from \$1.4 million for the three months ended September 30, 2010. The decrease reflected a decrease in the average rate paid on deposits in the three months ended September 30, 2011 to 1.30% from 1.99% in the three months ended September 30, 2010, which more than offset an increase in the average balance of deposits. Interest expense on certificates of deposit decreased \$401 thousand, or 31.11%, to \$888 thousand for the three months ended September 30, 2011 from \$1.29 million for the three months ended September 30, 2010. An increase in the average balance of such certificates to \$228.2 million from \$222.6 million was more than offset by a decrease in the average cost of such certificates to 1.54% from 2.32%. The increase in average balance of our certificates of deposit resulted primarily from our customers seeking lower-risk investments in lieu of higher volatility equity investments during the three months ended September 30, 2011.

Interest expense on money market deposits, savings, NOW and demand deposits decreased \$29 thousand, or 33.33%, to \$58 thousand for the three months ended September 30, 2011 from \$87 thousand for the three months ended September 30, 2010. The decrease was due to the lower average cost on the NOW and demand deposits as well as savings and money market accounts to 0.37% from 0.63%, which more than offset the increased average balances of such deposits to \$60.3 million for the three months ended September 30, 2011 from \$54.9 million for the three months ended September 30, 2010.

**Net Interest Income.** Net interest income increased by \$474 thousand, or 19.34%, to \$2.9 million for the three months ended September 30, 2011 from \$2.4 million for the three months ended September 30, 2010. The increase resulted from an increase in our interest rate spread to 3.12% from 2.65% and an increase in our net interest margin to 3.34% from 2.97% for the same periods. The increase in our interest rate spread was largely due to our declining cost of funds, which reflected the continuing decline across the U.S. Treasury yield curve, and a slight increase

## Edgar Filing: Oconee Federal Financial Corp. - Form 10-Q

in our average interest-earning assets to average interest-bearing liabilities to 1.20X for the three months ended September 30, 2011.

**Provision for Loan Losses.** We recorded a provision for loan losses of \$28 thousand for the three months ended September 30, 2011, compared to a provision of \$69 thousand for the three months ended September 30, 2010. Net charge offs for the three months ended September 30, 2011 were \$54 thousand compared with \$11 thousand for the three months ended September 30, 2010. The decrease in the provision for loan losses for the three months ended September 30, 2011 is reflective of the decrease in nonperforming loans to \$1.5 million at September 30, 2011 from \$4.9 million at September 30, 2010. The decrease in nonperforming loans is due primarily to an increase in foreclosure proceedings.

We used the same methodology in assessing the allowances for both periods. To the best of our knowledge, we have recorded all losses that are both probable and reasonably estimable for the three months ended September 30, 2011 and 2010.

Table of Contents

**Noninterest Income.** Noninterest income increased by \$83 thousand to \$91 thousand for the three months ended September 30, 2011 from \$8 thousand for the same period in 2010. The increase in noninterest income was primarily attributed to gains on sales of available for sale securities of \$67 thousand and gains on sale of real estate owned of \$12 thousand for the three months ended September 30, 2011.

**Noninterest Expense.** Noninterest expense increased \$296 thousand to \$1.4 million for the three months ended September 30, 2011. The increase was primarily attributable to an increase in salaries and employee benefits of \$58 thousand, an increase in professional and supervisory fees of \$78 thousand, an increase in the provision for other real estate owned related expenses of \$75 thousand, and an increase in other noninterest expenses of \$97 thousand, which primarily consisted of \$63 thousand of license fees to the South Carolina Department of Revenue. These increases were offset partially by decreases in occupancy and equipment expense of \$15 thousand and FDIC deposit insurance premiums of \$23 thousand. The increase in salaries and employee benefits reflects increases raises and bonuses and stock based compensation expense associated with our ESOP expense for the three months ended September 30, 2011 as compared with the three months ended September 30, 2010.

**Income Tax Expense.** Income tax expense for the three months ended September 30, 2011 was \$630 thousand compared with \$493 thousand for the three months ended September 30, 2010. Our effective income tax rate was 39.20% for the three months ended September 30, 2011 as compared with 37.78% for the same period ended 2010.

**Liquidity and Capital Resources**

Our primary sources of funds are deposits and the proceeds from principal and interest payments on loans and investment securities. While maturities and scheduled amortization of loans and securities are predictable sources of funds, deposit flows and mortgage prepayments are greatly influenced by general interest rates, economic conditions and competition. We generally manage the pricing of our deposits to be competitive within our market and to increase core deposit relationships.

Liquidity management is both a daily and long-term responsibility of management. We adjust our investments in liquid assets based upon management's assessment of (i) expected loan demand, (ii) expected deposit flows, (iii) yields available on interest-earning deposits and investment securities, and (iv) the objectives of our asset/liability management program. Excess liquid assets are invested generally in interest-earning overnight deposits, federal funds sold, and short and intermediate-term U.S. Government sponsored agencies and mortgage-backed securities of short duration. If we require funds beyond our ability to generate them internally, we have credit available under a loan agreement with the Federal Home Loan Bank of Atlanta in the amount of 11% of total assets (as defined), or approximately \$41.2 million at September 30, 2011.

**Common Stock Dividend Policy.** The Company paid a dividend of \$0.10 per share on July 19, 2011 to shareholders of record on July 7, 2011. In addition, on October 20, 2011, the Board of Directors declared a dividend of \$0.10 per share, which will be paid on or about November 13, 2011 to shareholders of record on November 3, 2011. The determination of future dividends on the Company's common stock will depend on conditions existing at that time.

Table of Contents

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

Disclosures of quantitative and qualitative market risk are not required by smaller reporting companies, such as the Company.

**ITEM 4. CONTROLS AND PROCEDURES**

An evaluation was performed under the supervision and with the participation of the Company's management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) promulgated under the Securities and Exchange Act of 1934, as amended) as of September 30, 2011. Based on that evaluation, the Company's management, including the Chief Executive Officer and the Chief Financial Officer, concluded that the Company's disclosure controls and procedures were effective.

During the quarter ended September 30, 2011, there have been no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

**PART II**

**ITEM 1. LEGAL PROCEEDINGS**

There are various claims and lawsuits in which the Company is periodically involved incidental to the Company's business. In the opinion of management, no material loss is expected from any of such pending claims or lawsuits.

**ITEM 1A. RISK FACTORS**

Disclosures of risk factors are not required by smaller reporting companies, such as the Company.

**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

Not applicable.

**ITEM 3. DEFAULTS UPON SENIOR SECURITIES**

None.

**ITEM 4. (REMOVED AND RESERVED)**

**ITEM 5. OTHER INFORMATION**

None.

**ITEM 6. EXHIBITS**

The exhibits required by Item 601 of Regulation S-K are included with this Form 10-Q and are listed on the [Index to Exhibits](#) immediately following the Signatures.
