INTRODUCTION

We pursue a strategy of focusing primarily on quality control products, which are sold into niche markets that are driven by regulatory requirements. We prefer markets that have limited competition where we can establish a commanding presence and achieve high gross margins. We are organized into two divisions across four physical locations. Our Instruments division designs, manufactures and markets quality control instruments and disposable products utilized in connection with the healthcare, pharmaceutical, food and beverage, medical device, industrial hygiene, semiconductor and petrochemical industries. Our Biological Indicators division manufactures and markets biological indicators and distributes chemical indicators used to assess the effectiveness of sterilization processes, including steam, gas, hydrogen peroxide and radiation, in the hospital, dental, medical device and pharmaceutical industries.

Our executive offices are located at 12100 West Sixth Avenue, Lakewood, Colorado 80228, telephone (303) 987-8000.

METHOD OF SALE

Sales of the shares offered by this prospectus will be made on The Nasdaq Global Market, where our common stock is listed for trading, in other markets where our common stock may be traded, or in negotiated transactions. Sales will generally involve payment of customary brokers commissions by the Selling Stockholders. There is no present plan of distribution.

SEC POSITION REGARDING INDEMNIFICATION

Our Articles of Incorporation provide for indemnification of officers and directors, among other things, in instances in which they acted in good faith and in a manner they reasonably believed to be in, or not opposed to, our best interests and in which, with respect to criminal proceedings, they had no reasonable cause to believe their conduct was unlawful.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers or persons controlling us under the provisions described above, we have been informed that, in the opinion of the Commission, indemnification is against public policy as expressed in that Act and is therefore unenforceable.

DESCRIPTION OF THE PLAN

Our board of directors and our shareholders have adopted and approved the Plan. Options granted pursuant to the Plan constitute either incentive stock options within the meaning of Section 422 of the Internal Revenue Code of 1986, as amended (the Code), or options which constitute nonqualified options at the time of issuance of such options. The Plan provides that incentive stock options and/or nonqualified stock options may be granted to our officers, directors, employees and advisors selected by our Compensation Committee. A total of 800,000 shares of common stock are authorized and reserved for issuance under the Plan, subject to adjustment to reflect changes in our capitalization in the case of a stock split, stock dividend or similar event.

The Plan is administered by our Compensation Committee, which has the sole authority to interpret the Plan and to make all determinations necessary or advisable for administering the Plan, including but not limited to:

- who shall be granted options under the Plan;
- the term of each option;
- the number of shares covered by such option;
- whether the option shall constitute an incentive option or a nonqualified option;

Table of Contents

- the exercise price for the purchase of the shares covered by the option, provided that the exercise price for any option must be at least equal to the fair market value of the shares as of the date of grant of such option;
- the period during which the option may be exercised;
- whether the right to purchase the number of shares covered by the option shall be fully vested on issuance of the option so that such shares may be purchased in full at one time or whether the right to purchase such shares shall become vested over a period of time so that such shares may only be purchased in installments; and
- the time or times at which the options shall be granted.

Except in the case of disability or death, no option shall be exercisable after an optionee who is an employee ceases to be employed by the Company; provided, however, the Compensation Committee has the right to extend the exercise period following the date of termination of such optionee's employment. If an optionee's employment is terminated by reason of death or disability, the Compensation Committee may extend the option term following the date of termination of the optionee's employment. Upon the exercise of the option, the exercise price must be paid in full either in cash, shares of our common stock or a combination.

If any option to purchase reserved shares shall not be exercised for any reason or if such option to purchase shall terminate as provided by the Plan, such shares which have not been so purchased shall again become available for the purposes of the Plan unless the Plan shall have been terminated.

The provisions of the Federal Employee Retirement Income Security Act of 1974 do not apply to the Plan. Shares issuable upon exercise of options will not be purchased in open market transactions but will be issued by us from authorized shares. Shares issuable under the Plan may be sold in the open market, without restrictions, as free trading securities. There are no assets administered under the Plan and, accordingly, no investment information is furnished.

No options may be assigned, transferred, hypothecated or pledged by the option holder except by will, the laws of intestate succession or as permitted by the Commission. No person may create a lien on any securities under the Plan, except by operation of law. However, there are no restrictions on the resale of the shares underlying the options.

The Plan will remain in effect until August 12, 2016. Additional information concerning the Plan may be obtained from us at our address and telephone number.

APPLICABLE SECURITIES LAW RESTRICTIONS

If the optionee is deemed to be an affiliate (as that term is defined under the Securities Act), the resale of the shares purchased upon exercise of options covered hereby may be subject to certain restrictions and requirements, including compliance with the provisions of Rule 144 promulgated under the Securities Act.

Table of Contents

In addition to the requirements imposed by the Securities Act, the antifraud provisions of the Exchange Act and the rules thereunder (including Rule 10b-5) are applicable to any sale of shares acquired pursuant to the Plan.

Up to 800,000 shares may be issued under the Plan. We have authorized 25,000,000 shares of common stock, of which 3,370,819 shares were outstanding as of December 31, 2012. Shares of common stock outstanding are, and those to be issued upon exercise of options will be, fully paid and nonassessable, and each share of common stock is entitled to one vote at all shareholders' meetings. All shares are equal to each other with respect to lien rights, liquidation rights and dividend rights. There are no preemptive rights to purchase additional shares by virtue of the fact that a person is one of our shareholders. Shareholders do not have the right to cumulate their votes for the election of directors.

Our officers and directors and owners of at least ten percent of our stock must comply with certain reporting requirements and resale restrictions pursuant to Sections 16(a) and 16(b) of the Exchange Act and the rules thereunder upon the receipt or disposition of any options.

TAX CONSEQUENCES

We have been advised that the federal income tax consequences of the Plan to us and the optionees, and possible exercise of options granted under the Plan, will depend upon future circumstances and possible changes in the tax laws. **The following summary discussion addresses certain federal income tax consequences of the Plan. This discussion does not address all of the tax consequences that may be applicable to any particular optionee or to us. In addition, this discussion does not address foreign, state or local taxes, nor does it address federal taxes other than federal income tax. This discussion is based upon applicable statutes, regulations, case law, administrative interpretations and judicial decisions in effect as of the date of this prospectus.**

The income tax treatment of nonstatutory options is governed by §83 of the Code. This section basically provides that if an option has a readily ascertainable fair market value when granted, then the optionee must recognize ordinary income at the time of grant but not at the time of exercise or disposal; if an option does not have a readily ascertainable fair market value when granted, the optionee must recognize ordinary income at the time of exercise or disposal of the option but not at the time of its grant. We will receive a corresponding compensation deduction for the amount included by the optionee as income in the same year that the optionee includes such amount as income. Consequently, whether a nonstatutory option has a readily ascertainable fair market value at grant will determine whether the grant or the exercise of the nonstatutory option is a taxable event for the optionee who rendered the services for which the option was granted.

Table of Contents

No tax consequences result from the granting of an incentive stock option or from the exercise of an incentive stock option by an employee. In addition, the employer will not be allowed a business expense deduction with respect to an incentive stock option unless the employee disposes of the stock prior to the required holding period. The employee will be taxed at capital gain rates when he sells stock acquired under an incentive stock option plan, provided he has not disposed of the stock for at least two years from the date the option was granted to him and he has held the stock itself at least one year after the stock was transferred to him. If the foregoing holding period rules are not satisfied, the gain that would have been realized at the time the option was exercised is included as ordinary income in the year of the disqualifying sale. For this purpose, the gain is equal to the lesser of (i) the fair market value of the stock on the date of exercise over the option price of the stock, or (ii) the amount realized on disposition over the adjusted basis of the stock. The employer is allowed to deduct a corresponding amount as a business deduction at the same time the employee is required to recognize the ordinary income arising from the early disposition.

Notwithstanding the preceding, when calculating income for alternative minimum tax purposes, the favorable tax treatment of §421(a) is disregarded and the bargain purchase element (that is, the spread between the option price and the fair market value of the option stock at exercise) of the incentive stock option will be considered as part of the taxpayer's alternative minimum taxable income.

In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act of 1933 and will be governed by the final adjudication of such issue.
