This report contains information about NOI, a measure of financial or operating performance that is not specifically defined by generally accepted accounting principles (GAAP) in the United States. Reconciliations of this non-GAAP measure to the most directly comparable GAAP measure follows:

(in thousands)	For the Three Months Ended March 31,	
	2014	2013
<b>Reconciliation of net income to share of NOI:</b>		
<b>Consolidated net income</b>	\$ 41,502	\$ 55,853
Income and other taxes	75	78
Interest expense	13,917	13,719
Gain on sale of interests in properties	(242)	(14,152)
Income from unconsolidated entities	(345)	(293)
Depreciation and amortization of consolidated properties	45,968	45,299

<b>WPG share of NOI</b>	<b>\$ 103,157</b>	<b>\$ 102,470</b>

NOI is a standard performance measure in the REIT business and we believe NOI provides investors with additional information concerning its operating performance and a basis to compare its performance with the performance of other REITs. We also use this measure internally to monitor the operating performance of the portfolio. Our computation of this non-GAAP measure may not be the same as similar measures reported by other REITs. Further, the non-GAAP financial measure used in this report should not be considered as an alternative to net income as a measure of our operating performance or to cash flows computed in accordance with GAAP as a measure of liquidity nor is it indicative of cash flows from operating and financial activities.
