SINCLAIR BROADCAST GROUP, INC.

(Exact name of Registrant as specified in its charter)

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

Maryland
(State or other jurisdiction of
incorporation or organization)

52-1494660
(I.R.S. Employer Identification No.)

10706 Beaver Dam Road

Hunt Valley, MD 21030

(Address of principal executive offices)

(410) 568-1500

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Name of each exchange on which registered
Class A Common Stock, par value \$ 0.01 per share	The NASDAQ Stock Market LLC

Securities registered pursuant to Section 12(g) of the Act: **None**

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☒ No ☐

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes ☐ No ☒

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§ 229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

Part III of this Form 10-K or any amendment to this Form 10-K. ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☒

Accelerated filer ☐

Non-accelerated filer ☐

Smaller reporting company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes ☐ No ☒

Based on the closing sales price of \$34.75 per share as of June 30, 2014, the aggregate market value of the voting and non-voting common equity of the Registrant held by non-affiliates was approximately \$2,471.2 million.

Indicate the number of shares outstanding of each of the registrant's classes of common stock, as of the latest practicable date.

Title of each class	Number of shares outstanding as of
	February 20, 2015
Class A Common Stock	69,314,960
Class B Common Stock	25,928,357

Documents Incorporated by Reference - Portions of our definitive Proxy Statement relating to our 2015 Annual Meeting of Shareholders are incorporated by reference into Part III of this Form 10-K. We anticipate that our Proxy Statement will be filed with the Securities and Exchange Commission within 120 days after the end of our fiscal year ended December 31, 2014.

FORWARD-LOOKING STATEMENTS

This report includes or incorporates forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act), and the U.S. Private Securities Litigation Reform Act of 1995. We have based these forward-looking statements on our current expectations and projections about future events. These forward-looking statements are subject to risks, uncertainties and assumptions about us, including, among other things, the following risks:

General risks

- the impact of changes in national and regional economies and credit and capital markets;
- consumer confidence;
- the potential impact of changes in tax law;
- the activities of our competitors;
- terrorist acts of violence or war and other geopolitical events;
- natural disasters that impact our advertisers and our stations;

Industry risks

- the business conditions of our advertisers particularly in the automotive and service industries;
- competition with other broadcast television stations, radio stations, multi-channel video programming distributors (MVPDs), internet and broadband content providers such and other print and media outlets serving in the same markets;
- availability and cost of programming and the continued volatility of networks and syndicators that provide us with programming content;
- our relationships with networks and their strategies to distribute their programming via means other than their local television affiliates, such as over-the-top content;
- the effects of the Federal Communications Commission's (FCC's) National Broadband Plan and the auctioning and potential reallocation of our broadcasting spectrum;
- the effects of governmental regulation of broadcasting or changes in those regulations and court actions interpreting those regulations, including ownership regulations (including regulations relating to Joins Sales Agreements (JSA) and Shared Services Agreements

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

(SSA)), closed captioning rules, indecency regulations, retransmission fee regulations and political or other advertising restrictions;

- labor disputes and legislation and other union activity associated with film, acting, writing and other guilds and professional sports leagues;
- the broadcasting community's ability to create and adopt a new transmission standard, as well as viable mobile digital broadcast television (mobile DTV) strategy and platform and the consumer's appetite for mobile television;
- the operation of low power devices in the broadcast spectrum, which could interfere with our broadcast signals;
- the impact of reverse network compensation payments charged by networks pursuant to their affiliation agreements with broadcasters requiring compensation for network programming;
- the effects of new ratings system technologies including people meters and set-top boxes, and the ability of such technologies to be a reliable standard that can be used by advertisers;
- the impact of new FCC rules requiring broadcast stations to publish, among other information, political advertising rates online;
- changes in the makeup of the population in the areas where stations are located;

Risks specific to us

- the effectiveness of our management;
- our ability to attract and maintain local and national advertising;
- our ability to service our debt obligations and operate our business under restrictions contained in our financing agreements;
- our ability to successfully renegotiate retransmission consent agreements;
- our ability to renew our FCC licenses;
- our ability to obtain FCC approval for any future acquisitions, as well as, in certain cases, customary antitrust clearance for any future acquisitions;
- our ability to successfully integrate any acquired businesses;
- our ability to maintain our affiliation and programming service agreements with our networks and program service providers and at renewal, to successfully negotiate these agreements with favorable terms;

Table of Contents

- our ability to effectively respond to technology affecting our industry and to increasing competition from other media providers;
- the popularity of syndicated programming we purchase and network programming that we air;
- the strength of ratings for our local news broadcasts including our news sharing arrangements;
- the successful execution of our multi-channel broadcasting initiatives including mobile DTV;
- the results of prior year tax audits by taxing authorities; and
- the success of our digital initiatives in a competitive environment.

Other matters set forth in this report and other reports filed with the Securities and Exchange Commission (SEC), including the *Risk Factors* set forth in Item 1A of this report may also cause actual results in the future to differ materially from those described in the forward-looking statements. However, additional factors and risks not currently known to us or that we currently deem immaterial may also cause actual results in the future to differ materially from those described in the forward-looking statements. You are cautioned not to place undue reliance on any forward-looking statements, which speak only as of the date on which they are made. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. In light of these risks, uncertainties and assumptions, events described in the forward-looking statements discussed in this report might not occur.

Table of Contents

PART I

ITEM 1. BUSINESS

We are a diversified television broadcasting company that owns or provides certain programming, operating or sales services to more television stations than most other commercial broadcasting groups in the United States. Our broadcast group is a single reportable segment for accounting purposes. We own, provide programming and operating services pursuant to local marketing agreements (LMAs) or provide sales services and other non-programming operating services pursuant to contracts to 164 stations in 79 markets. These stations broadcast 373 channels, including 211 channels affiliated with primary networks or program service providers comprised of: FOX (46), ABC (33), CBS (29), NBC (21), CW (44), MNT (33), and Univision (5). The other 162 channels broadcast programming from This TV, Me TV, GetTV, Grit, Weather Radar, Weather Nation, Live Well Network, Antenna TV, Bounce Network, Heartland, Zuus Country Network, Retro TV, Estrella TV, MundoFox, Inmigrante TV, Azteca, and Telemundo, and one channel broadcasts independent programming. For the purpose of this report, these channels are referred to as our stations. Refer to our *Markets and Stations* table later in this Item 1 for more information.

We broadcast free over-the-air programming to television viewing audiences in the communities we serve through our local television stations. The programming that we provide on our primary station channels consists of network provided programs, news produced locally, local sporting events, programming from program service arrangements, syndicated entertainment programs and other locally produced programs such as the American Sports Network, our collegiate sports initiative launched in 2014, and Ring of Honor wrestling. We produce news at 102 stations in 75 markets, including one station where we produce news pursuant to a local news sharing arrangement for a competitive station in that market. We have 20 stations which have local news sharing arrangements with a competitive station in that market that produces the news aired on our station. We provide live local sporting events on many of our stations by acquiring the local television broadcast rights for these events. Additionally, we purchase and barter for popular syndicated programming from third party television producers. See *Operating Strategy* later in this *Item 1* for more information regarding the programming we provide.

Our primary source of revenue is the sale of commercial inventory on our television stations to our advertising customers. Our objective is to meet the needs of our advertising customers by delivering significant audiences in key demographics. Our strategy is to achieve this objective by providing quality local news programming and popular network and syndicated programs to our viewing audience. We attract most of our national television advertisers through national marketing representation firms which have offices in New York City, Los Angeles, Chicago and Atlanta. Our local television advertisers are attracted through the use of a local sales force at each of our television stations, which is comprised of approximately 750 sales account executives and 90 local sales managers company-wide.

We also earn revenue from our retransmission consent agreements through payments from MVPDs in our markets. The MVPDs are local cable companies, satellite television and local telecommunication video providers. The revenues primarily represent payments from the MVPDs for access to our broadcast signal and is typically based on the number of subscribers they have.

Our operating results are subject to cyclical fluctuations from political advertising. Political spending has been significantly higher in the even-number years due to the cyclicity of political elections. In addition, every four years, political spending is typically elevated further due to the advertising preceding the presidential election. Because of the political election cyclicity, there has been a significant difference in our operating results when comparing even-numbered years' performance to the odd numbered years' performance. Additionally, our operating results are impacted by the number and importance of individual political races and issues discussed. We believe political advertising will continue to be a strong advertising category in our industry, particularly in light of the 2010 United States Supreme Court decision in *Citizens United v. Federal Election Commission* in which the Supreme Court ruled that federal laws limiting issue advocacy by for-profit and non-profit

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

corporations was unconstitutional. With increased spending by Political Action Committees (PACs), including so-called Super PACs and as political-activism around social, political, economic and environmental causes continues to draw attention, political advertising levels may increase further.

We continue to believe the prospects for a viable mobile television service can occur because of the significant advantages over the air, point to multipoint delivery has compared to the limitations and expenses the consumer is facing through the transitional cell phone delivery option. Television broadcasters have the potential capability of delivering significantly greater video and data at a fraction of the cost of the existing carrier network. We believe a change to the existing mobile broadcast standard to a standard that is comparable to that used in several other parts of the world is essential. We cannot predict at this time how or if any change to the current US mobile standard will take place.

We have one reportable operating segment: broadcast. Our broadcast segment is comprised of all of our television stations. We also earn revenues from sign design and fabrication, regional security alarm operating and bulk acquisitions, manufacturing and

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

Table of Contents

service of broadcasting antennas and transmitters, real estate ventures and a wrestling programming franchise, which we refer to as our Other Operating Divisions. Corporate and unallocated expenses primarily include our costs to operate as a public company and to operate our corporate headquarters location. Our Other Operating Divisions and Corporate are not reportable segments. See *Note 14. Segment Data* for more information regarding our operating segments.

We are a Maryland corporation formed in 1986. Our principal offices are located at 10706 Beaver Dam Road, Hunt Valley, Maryland 21030. Our telephone number is (410) 568-1500 and our website address is www.sbg.net. The information contained on, or accessible through, our website is not part of this annual report on Form 10-K and is not incorporated herein by reference.

TELEVISION BROADCASTING

Markets and Stations

As of December 31, 2014, we own and operate or provide programming and/or sales and other shared services to television stations in the following 79 markets:

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

Table of Contents

(a) Rankings are based on the relative size of a station's Designated Market Area (DMA) among the 210 generally recognized DMAs in the United States as estimated by Nielsen as of September 2014.

(b) When we negotiate the terms of our network affiliations or program service arrangements, we negotiate on behalf of all of our stations affiliated with that entity simultaneously. This results in substantially similar terms for our stations, including the expiration date of the network affiliations or program service arrangements.

(c) The first number represents the rank of each station in its market and is based upon the November 2014 Nielsen estimates of the percentage of persons tuned into each station in the market from 6:00 a.m. to 2:00 a.m., Monday through Sunday. The second number represents the estimated number of television stations designated by Nielsen as local to the DMA, excluding public television stations and stations that do not meet the minimum Nielsen reporting standards (weekly cumulative audience of at least 0.1%) for the Monday through Sunday 6:00 a.m. to 2:00 a.m. time period as of November 2014. This information is provided to us in a summary report by Franco Research Group.

(d) Our primary networks / program service providers are comprised of FOX, ABC, CBS, NBC, CW, MNT, and Univision.

(e) We have a total of 14 other low powered stations, in certain markets which expand our signal by simulcasting our content throughout market.

(f) In addition to our primary affiliations, we broadcast other programming from the following providers on our channels:

Market	Number of Channels	Number of Markets	Expiration Dates (1)
Antenna TV	5	1	September 1, 2013
Azteca	3	2	February 8, 2016
Bounce Network	4	4	August 31, 2019
Estrella TV	3	3	June 1, 2015 through September 30, 2015
Get TV	31	31	June 30, 2017
Grit	48	46	December 31, 2019
Heartland	3	1	October 31, 2015
Independent programming	1	1	N/A
Inmigrante TV	1	1	February 1, 2015
Live Well Network	2	2	June 30, 2014 through January 1, 2018
Me TV	11	10	January 16, 2015 through September 30, 2017
MundoFox	3	3	April 30, 2014 through September 30, 2015
Retro TV	6	6	October 1, 2010 through January 1, 2016
Telemundo	1	1	December 31, 2016
This TV	13	11	November 1, 2014 through December 31, 2015

(1) If the affiliation agreement expires, we may continue to operate under the existing affiliation agreement on a temporary basis while we negotiate a new affiliation agreement.

(g) The license assets for these stations are currently owned by third parties. We provide programming, sales, operational and administrative services to these stations pursuant to certain service agreements, such as LMAs.

(h) The license and programming assets for these stations are currently owned by third parties. We provide certain non-programming related sales, operational and administrative services to these stations pursuant to service agreements, such as joint sales and shared services agreements.

(i) The license and programming assets for these stations are currently owned by us. A third party provides certain non-programming related sales, operational and administrative services to these stations pursuant to service agreements, such as joint sales and shared services agreements.

Table of Contents

(j) Total includes WCFT and WJSU in Birmingham, AL and WMMP in Charleston, SC. We sold the license and related assets of these stations to a third party on February 27, 2015. See *Note 11. Commitment and Contingencies* for further discussion.

Operating Strategy

Our operating strategy includes the following elements:

Programming to Attract Viewership. We seek to target our programming offerings to attract viewership, to meet the needs of the communities in which we serve and to meet the needs of our advertising customers. In pursuit of this strategy, we seek to obtain, at attractive prices, popular syndicated programming that is complementary to each station's network programming. We also seek to broadcast live local and national sporting events that would appeal to a large segment of the local community. See *Popular Sporting Events* below for further discussion. Moreover, we produce news at 102 stations in 75 markets, including one station which have a local news sharing agreement with a competitive station in that market. We have 20 stations which have local news sharing arrangements with a competitive station in that market, which produces the news aired on our station.

Television advertising prices are primarily based on ratings information measured and distributed by Nielsen. In 2010, the Media Rating Council, an independent organization that monitors rating services, revoked Nielsen's accreditation in the 154 markets in which Nielsen measures ratings exclusively by its diary methodology. As of December 31, 2014, approximately 52 of our 79 markets are diary only markets. For certain markets, including some of our diary markets, we entered into a contract with Rentrak Corporation, an alternative rating service provider, that uses set-top box television measurements to provide us additional measurement information to the ratings services Nielsen provides.

Attract and Retain High Quality Management. We believe that much of our success is due to our ability to attract and retain highly skilled and motivated managers at both the corporate and local station levels. We provide a combination of base salary, long-term incentive compensation including equity awards and, where appropriate, cash bonus pay designed to be competitive with comparable employers in the television broadcast industry. A significant portion of the compensation available to certain members of our senior management and our sales force is based on their achievement of certain performance goals.

Developing Local Franchises. We believe the greatest opportunity for a sustainable and growing customer base lies within our local communities. Therefore, we have focused on developing a strong local sales force at each of our television stations, which is comprised of approximately 750 sales account executives and 90 local sales managers company-wide. Excluding political advertising revenue, retransmission revenues, and other local revenues, 71.9% of our net time sales were local for the year ended December 31, 2014, compared to 70.2% in 2013. Excluding political advertising revenues, retransmission revenues, and other local revenues, local revenues increased 33.1% during 2014 versus 2013. Market share survey results reflect that our stations' share of the local television advertising market increased to 23.8% in 2014 from 22.2% in 2013. Our goal is to grow our local revenues by increasing our market share and by developing new business opportunities.

Local News. We believe that the production and broadcasting of local news is an important link to the community and an aid to a station's efforts to expand its viewership. In addition, local news programming can provide access to advertising sources targeted specifically to local news viewers. We assess the anticipated benefits and costs of producing local news prior to the introduction of local news at our stations because a significant investment in capital equipment is required and substantial operating expenses are incurred in introducing, developing and producing

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

local news programming. We also continuously review the performance of our existing news operations to make sure they are economically viable. Excluding certain stations acquired during 2013, we have upgraded the majority of our markets to provide high-definition (HD) news programming. We expect to roll out HD news programming to our remaining news producing markets in the next couple of years. We expanded news in 17 markets during 2014 and plan to add additional newscasts in 7 markets in 2015. During the year ended December 31, 2014, 29.7% of our net times sales were earned during the approximately 2,100 hours of local news we produce each per week.

Our local news initiatives are an important part of our strategy that have resulted in our entering into 21 local news sharing arrangements with other television broadcasters. We are the provider of news services for 1 instance, while in 20 of our news share arrangements we are the recipient of services. We believe that, in the markets where we have news share arrangements, such arrangements generally provide both higher viewer ratings and revenues for the station receiving the news and generate a profit for the news share provider. Generally, both parties and the local community are beneficiaries of these arrangements.

Developing New Business. We are always striving to develop new business models to complement or enhance our existing television broadcast business. We have developed new ways to bundle online, mobile text messaging and social media advertising with our traditional commercial broadcasting model. We plan to continue to expand our efforts in this area. In addition, we are

Table of Contents

making progress on standardizing and implementing a viable business platform for mobile DTV. See *Mobile Digital Broadcast Television (mobile DTV)* section below. We continue to explore new opportunities and plan to implement new initiatives in 2014.

Retransmission Consent Agreements. We have retransmission consent agreements with MVPDs, such as cable, satellite and telecommunications operators in our markets. MVPDs compensate us for the right to retransmit our broadcast signals. Our successful negotiations with MVPDs have created agreements that now produce meaningful sustainable revenue streams.

Ownership Duopolies and Utilization of Local Marketing Agreements. We have sought to increase our revenues and improve our margins through the ownership of two stations in a single market, called a duopoly, and by providing programming services pursuant to a LMA to a second station in DMAs where we already own one station. Duopolies and LMAs allow us to realize significant economies of scale in marketing, programming, overhead and capital expenditures. We also believe these arrangements enable us to air popular programming and contribute to the diversity of programming within each DMA. See *Local Marketing Agreements under Federal Regulation of the Television Broadcasting* within *Item 1. Business* for discussion of the rules and changes to regulation related to LMAs.

Use of Outsourcing Agreements / Joint Sales Agreements (JSAs). In addition to our LMAs, we have entered into outsourcing agreements, including JSA/shared services agreements (SSAs) in which our stations currently provide non-programming related services such as sales, operational and managerial services to 23 stations (excluding 5 satellite stations) in 20 markets, of which 13 are affiliated with major networks (FOX, ABC, CBS, and NBC) and 10 are affiliated with CW, MyNetwork TV, or are independent. Additionally, another party provides similar services to one of our stations. We believe the JSA/SSA structure allows stations to achieve operational efficiencies and economies of scale, which should improve broadcast cash flow and competitive positions and better serve the viewers in the community. The FCC adopted a new rule in the March 30, 2014 Further Notice which causes a station to be attributable to the owner of another station in the market which sells more than 15 percent of the advertising on the first station pursuant to a JSA or other arrangement. Parties to such agreements must come into compliance with these new rules by December 19, 2016. Appeals of that portion of the Further Notice have been filed in the U.S. Court of Appeals, and we cannot predict their outcome. We are currently evaluating whether to seek one or more waivers of the new rules, or to modify or terminate our current JSAs. We cannot predict whether we will be able to terminate or restructure such arrangements on terms that are as advantageous to us as the current arrangements. In addition, on March 12, 2014, the FCC issued a public notice providing guidelines as to the FCC's processing of applications that seek approval of proposed transactions that involve combinations of sharing arrangements and contingent or financial interests. These processing guidelines prevent us from entering into JSA/SSAs or similar agreements in connection with future acquisitions. See *Local Marketing Agreements* within the *Federal Regulation of Television Broadcasting* section below and *Risk Factors - The FCC's multiple ownership rules limit our ability to operate multiple television stations in some markets and may result in a reduction in our revenue or prevent us from reducing costs. Changes in these rules may threaten our existing strategic approach to certain television markets.*

Multi-Channel Digital Broadcasting. FCC rules allow broadcasters to transmit additional digital channels within the spectrum allocated to each FCC license holder. This provides viewers with additional programming alternatives at no additional cost to them. See *Markets and Stations under Television Broadcasting* within *Item 1. Business* for a listing of second and third digital channels and related affiliation. In addition, as noted below, we believe mobile DTV will serve as an additional use of our digital spectrum. We may consider other alternative programming formats that we could air using our multi-channel digital spectrum space with the goal towards achieving higher profits and community service.

Mobile Digital Broadcast Television (mobile DTV). Broadcasters continue to be excited about the possibilities of mobile TV. We continue to be engaged with other Broadcasters with many of our stations continuing to participate as part of the 130 stations reaching half of nation viewers. With mobile TV, viewers can tune in to live, local news, traffic information, weather, sporting events and entertainment programs from the convenience of their car, at the beach wherever they may be, using a select variety of mobile and video devices. The technology uses the broadcast airwaves not the Internet, not mobile broadband and no Wi-Fi or expensive data-plans are needed. Through this activity and what we have learned as an industry, we are preparing for the future advancements, capabilities and business opportunities that will come with a Next

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

Generation Broadcast Platform (Next Gen).

We were founding member of the Open Mobile Video Coalition (OMVC) and Mobile500 (M500). The OMVC, an alliance of broadcasters that dedicated efforts to accelerate the development and rollout of mobile television, was integrated within activities of the National Association of Broadcasters.

We continue to believe that the technical ability to receive our television broadcast content on mobile devices will be attractive to individuals and broad consumer audiences. We installed and run current mobile DTV services at WPGH-TV, WSYX-TV, WTTE-TV, WPEC-TV, WKRC-TV and KEYE-TV. Given the rapid advance of the Advanced Television Systems Committee (ATSC) and its NextGen (3.0) activity, we have chosen to not deploy within remaining markets. This has allowed engineering and other resources to be focused on NextGen activities.

Table of Contents

Next Generation Broadcast Platforms. Cunningham Broadcast Corporation (Cunningham) received FCC approval to test advanced services (including mobile broadcasting and 4K-Ultra High Definition TV) on WNUV-TV in Baltimore, with both independent testing and demos as well as joint testing supervised and conducted by the National Association of Broadcasters (NAB). Data and demonstrations continue to illuminate the far reaching capabilities of a NextGen platform. The FCC has extended the station's authority to operate as an experimental facility in order to continue to evaluate the performance of NextGen capabilities throughout the WNUV-TV service area.

In March 2013 the ATSC announced a request for proposals (RFP) for the physical layer of the next-generation broadcast TV standard that in the years ahead could replace the current digital broadcasting systems used in the United States and around the world. We responded to this RFP with a joint proposal that continues to progress through the ATSC standardization process. The physical layer is the core transmission system that is the basis for any over-the-air broadcast system. The ATSC is an international, non-profit organization developing voluntary standards for digital television.

There are many key goals for ATSC 3.0, and the work is progressing with a scheduled completion of a Candidate Standard before the end of 2015. The system will be much more flexible and efficient with spectrum; provide for integration with other all IP delivery technologies, designed for mobile services; support targeted advertising capabilities; integrate features for delivery of personalized content; bring immersive viewing experiences that would include 4K or Ultra HD as well as advanced audio; include better video compression using the new MPEG H.265/High Efficiency Video Coding (HEVC) standard; and plans to make the standard more compatible with systems used globally.

Sinclair, together with Coherent Logix, a specialist in software-defined radio technology, was among the 13 groups that submitted proposals for the ATSC 3.0 transmission standard. The next-generation ATSC 3.0 broadcast television standard promises to provide improvements in performance, functionality and efficiency that are significant enough to warrant the challenges of a transition to a new system. The physical layer technologies will provide a foundation for the next terrestrial broadcast system. Robustness of service for devices operating within the ATSC 3.0 service area will exceed that of current ATSC systems and be truly competitive with that of cell phone and other wireless services.

ONE Media LLC. Sinclair and Coherent Logix, Inc., launched ONE Media LLC in May of 2014. This joint venture was formed to tackle and execute the development needs for a Next Generation Broadcast Platform (NGBP). This activity came out of the joint submission provided by both companies in response to the ATSC RFP mentioned above. ONE Media has been launched to create a NGBP to deliver the ultimate user experience of wireless access to premium video content anytime, anywhere without a data cap.

Due to the shift of video viewing habits from traditional TV to mobile devices, a new broadcast platform is needed to provide for the convergence of broadcasting with wireless broadband services. Harmonizing television broadcasting with a variety of delivery platforms (including LTE-based mobile infrastructure and user devices) for new, converged IP based hybrid services will enable new business models for the broadcast industry to realize the full potential of broadcast spectrum, which has long been hamstrung by inadequate technical standards and antiquated business models.

ONE Media is focused on creating an Open Network Enabled broadcast/broadband converged media and provide the Broadcast industry will the technological capability to succeed in a rapidly changing digital marketplace. In November of 2014, ONE Media announced that it completed its first system test of its Next Generation Broadcast Platform with outstanding results in transmitting fixed, mobile and data services to set-top and tablet devices. Over-the-air testing of the ONE Media system commenced at a newly commissioned Austin, TX transmission facility at the end of 2014. In conjunction with this and lab facilities, ONE Media is working with industry recognized vendors to develop a diversity of product and service providers for a robust support ecosystem.

Control of Operating and Programming Costs. By employing a disciplined approach to managing programming acquisition and other costs, we have been able to achieve operating margins that we believe are very competitive within the television broadcast industry. We believe our national reach of over 37.5% of the country provides us with a strong position to negotiate with programming providers and, as a result, the opportunity to purchase high quality programming at more favorable prices. Moreover, we emphasize control of each of our station's programming and operating costs through program-specific profit analysis, detailed budgeting, regionalization of staff and detailed long-term planning models.

Popular Sporting Events. At some of our stations, we have been able to acquire local television broadcast rights for certain sporting events, including NBA basketball, Major League Baseball, NFL football, NHL hockey, ACC basketball and both Big Ten and SEC football and basketball and certain other college and high school sports. We seek to expand our sports broadcasting in DMAs as profitable opportunities arise such as our purchase of the Ring of Honor professional wrestling franchise in May 2011. Our CW and MyNetworkTV stations generally face fewer preemption restrictions on broadcasting live local sporting events compared with our FOX, ABC, CBS and NBC stations, which are required to broadcast a greater number of hours of programming supplied by the

Table of Contents

networks. In addition, our stations that are affiliated with FOX, ABC, CBS and NBC have network arrangements to broadcast certain NBA basketball games, MLB baseball games, NFL football games, NHL hockey games, NASCAR races and PGA golf events, as well as other popular sporting events. During 2014, we launched the American Sports Network (ASN), our collegiate sports initiative to be broadcast on a number of our MyNet, CW and multi-cast channels. ASN has entered into multi-year comprehensive sports rights agreements with a number of distinguished NCAA Division I conferences including Conference USA, the Colonial Athletic Association, Big South Conference, Southern Conference, the Patriot League, and the Western Athletic Conference. In addition to its college initiative, SNG produces local high school sports under the Thursday Night Lights and Friday Night Rivals brands, and recently secured rights to the 2014 Porsche GT3 Cup Challenge.

Strategic Realignment of Station Portfolio. We continue to examine our television station group portfolio in light of the 2003 Rules. For a summary of these rules, refer to *Ownership Matters*, discussed under *Federal Regulation of Television Broadcasting*. Our objective has been to build our local franchises in the markets we deem strategic. We routinely review and conduct investigations of potential television station acquisitions, dispositions and station swaps. At any given time, we may be in discussions with one or more television station owners.

Non-broadcast Investments. We have sought ways to diversify our business and return additional value to our shareholders through investments in non-broadcast based businesses and real estate. We carry investments in various companies from different industries including sign design and fabrication and security alarm monitoring and bulk acquisition. In addition, we invest in various real estate ventures including developmental land, operating commercial and multi-family residential real estate properties and apartments. We also invest in private equity and structured debt / mezzanine financing investment funds. Currently, operating results from our investments represent a small portion of our overall operating results. Our ability to make additional investments is limited by the restrictions of our Bank Credit Agreement. Activity related to these investments is included in Other Operating Divisions.

FEDERAL REGULATION OF TELEVISION BROADCASTING

The ownership, operation and sale of television stations are subject to the jurisdiction of the FCC, which acts under the authority granted by the Communications Act of 1934, as amended (the Communications Act). Among other things, the FCC assigns frequency bands for broadcasting; determines the particular frequencies, locations and operating power of stations; issues, renews, revokes and modifies station licenses; regulates equipment used by stations; adopts and implements regulations and policies that directly or indirectly affect the ownership, operation and employment practices of stations; and has the power to impose penalties for violations of its rules and regulations or the Communications Act.

The following is a brief summary of certain provisions of the Communications Act, the Telecommunications Act of 1996 (the 1996 Act) and specific FCC regulations and policies. Reference should be made to the Communications Act, the 1996 Act, FCC rules and the public notices and rulings of the FCC for further information concerning the nature and extent of federal regulation of broadcast stations.

License Grant and Renewal

Television stations operate pursuant to broadcasting licenses that are granted by the FCC for maximum terms of eight years and are subject to renewal upon application to the FCC. During certain periods when renewal applications are pending, petitions to deny license renewals can be filed by interested parties, including members of the public. The FCC will generally grant a renewal application if it finds:

- that the station has served the public interest, convenience and necessity;
- that there have been no serious violations by the licensee of the Communications Act or the rules and regulations of the FCC; and
- that there have been no other violations by the licensee of the Communications Act or the rules and regulations of the FCC that, when taken together, would constitute a pattern of misconduct.

All of the stations that we currently own and operate or provide programming services or sales services to, pursuant to Time Brokerage Agreements (sometimes called Local Marketing Agreements (LMAs)), or other outsourcing agreements, are presently operating under regular licenses, which expire as to each station on the dates set forth under *Television Broadcasting* above. Although renewal of a license is granted in the vast majority of cases even when petitions to deny are filed, there can be no assurance that the license of any station will be renewed.

In 2004, we filed with the FCC an application for the license renewal of WBFF-TV in Baltimore, Maryland. Subsequently, an individual named Richard D. Amato filed a petition to deny the application. In 2004, we also filed with the FCC applications for the license renewal of television stations: WXLV-TV, Winston-Salem, North Carolina; WMYV-TV, Greensboro, North Carolina; WLFL-

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

Table of Contents

TV, Raleigh / Durham, North Carolina; WRDC-TV, Raleigh / Durham, North Carolina; WLOS-TV, Asheville, North Carolina and WMMP-TV, Charleston, South Carolina. An organization calling itself Free Press filed a petition to deny the renewal applications of these stations and also the renewal applications of two other stations in those markets, which we program pursuant to LMAs: WTAT-TV, Charleston, South Carolina and WMYA-TV, Anderson, South Carolina. Several individuals and an organization named Sinclair Media Watch also filed informal objections to the license renewal applications of WLOS-TV and WMYA-TV, raising essentially the same arguments presented in the Free Press petition. The FCC is in the process of considering these renewal applications and we believe the objections have no merit.

On July 21, 2005, we filed with the FCC an application to acquire the license and television broadcast assets of WNAB-TV in Nashville, Tennessee. The Rainbow / PUSH Coalition (Rainbow / PUSH) filed a petition to deny that application and also requested that the FCC initiate a hearing to investigate whether WNAB-TV was improperly operated with WZTV-TV and WUXP-TV, two of our stations located in the same market as WNAB-TV. The FCC application remains pending and we believe the Rainbow / PUSH petition has no merit.

On August 1, 2005, we filed applications with the FCC requesting renewal of the broadcast licenses for WICS-TV and WICD-TV in Springfield / Champaign, Illinois. Subsequently, various viewers filed informal objections requesting that the FCC deny these renewal applications. On September 30, 2005, we filed an application with the FCC for the renewal of the broadcast license for KGAN-TV in Cedar Rapids, Iowa. On December 28, 2005, an organization calling itself Iowans for Better Local Television filed a petition to deny that application. In April 2009, the FCC granted the license renewal application for WICD-TV. On June 12, 2013, the FCC granted the KGAN-TV renewal. The FCC is in the process of considering the WICS-TV and KGAN-TV renewal applications and we believe the objections and petitions requesting denial have no merit.

On August 1, 2005, we filed applications with the FCC requesting renewal of the broadcast licenses for WCGV-TV and WVTV-TV in Milwaukee, Wisconsin. On November 1, 2005, the Milwaukee Public Interest Media Coalition filed a petition to deny these renewal applications. On June 13, 2007, the Video Division of the FCC denied the petition to deny, and subsequently, the Milwaukee Public Interest Media Coalition filed a petition for reconsideration of that decision, which we opposed. In July 2008, the Video Division granted the renewal application of WVTV-TV and separately denied the Milwaukee Public Interest Media Coalition's petition for reconsideration. On August 11, 2008, the Milwaukee Public Interest Media Coalition and another organization filed another petition for reconsideration of the decision, which we opposed. On January 12, 2010, the FCC dismissed the second petition for reconsideration. On February 16, 2010, the Milwaukee Public Interest Media Coalition filed an application for review of the January 2010 dismissal decision, which we opposed. On December 12, 2010, the FCC dismissed the application for review. On January 11, 2011, the Milwaukee Public Interest Media Coalition filed a second application for review seeking review of the December 2010 dismissal decision, which we opposed. The WCGV-TV renewal of license application remains pending.

Action on many license renewal applications, including those we have filed, has been delayed because of the pendency of complaints that programming aired by the various networks contained indecent material and complaints regarding alleged violations of sponsorship identification rules. We cannot predict when the FCC will address these complaints and act on the renewal applications. We continue to have operating authority until final action is taken on our renewal applications.

The FCC has made it difficult for us to predict the impact on our license renewals from allegations related to the airing of indecent material that may arise in the ordinary course of our business. For example, on Veterans Day in November 2004, we preempted (did not air) Saving Private Ryan, a program that was aired during ABC's network programming time. We were concerned that since the program contained the use of the F-word (indecent material as defined by the FCC) airing the programming could result in a fine or other negative consequences for one or more of our ABC stations. In February 2005, the FCC dismissed all complaints filed against ABC stations regarding this program. The FCC's decision justified what some may consider indecent material as appropriate in the context of the program. Although this ruling has expanded the programming opportunities of our stations, it still leaves us at risk because what might be determined as legitimate context by us may not be

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

deemed so by the FCC and the FCC will not rule beforehand as this may be considered a restriction of free speech. For example, in September 2006, we preempted a CBS network documentary on the events that happened on September 11, 2001 because the program contained what some have argued is indecent material and the FCC would not provide, in advance of the airing of the documentary, any guidance on whether that material was appropriate in the context of the program. In 2007, the U.S. Court of Appeals for the Second Circuit held that the FCC's indecency policy regarding "fleeting expletives" was arbitrary and capricious when the FCC determined that "fleeting expletives" aired during the *Golden Globes* and *Billboard Music Awards* violated its indecency rules. The FCC challenged the decision and the case was argued before the Supreme Court in November 2008. Also in 2008 the U.S. Court of Appeals for the Third Circuit rejected an FCC decision concluding, among other things, that a fleeting display of nudity during the Super bowl halftime show was indecent. On April 28, 2009, the Supreme Court overturned the *Golden Globes* and *Billboard Music Awards* decision of the Second Circuit and held that the FCC had adequately justified its departure from prior decisions in determining that it could sanction a station for a single "F-word" or "S-word" broadcast on that station. However, the Supreme Court also remanded the case back to the Second Circuit for further consideration to resolve any First Amendment Constitutional issues raised by the FCC's enforcement policy. On May 16,

Table of Contents

2009, the Supreme Court remanded the Super bowl halftime show case to the Third Circuit in order to consider the impact of the Supreme Court's *Golden Globes* and *Billboard Music Awards* decision and to consider the same First Amendment issues that were remanded to the Second Circuit. On July 13, 2010, the Second Circuit struck down the FCC's indecency policy in its entirety. On June 21, 2012, the Supreme Court vacated the Second Circuit's decision that the FCC's enforcement of its indecency rules was unconstitutional. Although the Supreme Court refused to address whether the FCC's indecency rules and the enforcement of them was unconstitutional, it did find that the agency did not give ABC and Fox fair warning that they could be fined for so-called "fleeting expletives" and nudity. The Court's opinion permits the FCC to modify its current indecency policy. It is unclear when the FCC might act as a result of the Court's ruling and the FCC's unclear policy make it difficult for us to determine what may be indecent programming.

Ownership Matters

General. The Communications Act prohibits the assignment of a broadcast license or the transfer of control of a broadcast license without the prior approval of the FCC. In determining whether to permit the assignment or transfer of control of, or the grant or renewal of, a broadcast license, the FCC considers a number of factors pertaining to the licensee, including compliance with various rules limiting common ownership of media properties, the character of the licensee and those persons holding attributable interests in that licensee and compliance with the Communications Act's limitations on ownership by non-U. S. citizens or their representatives or by a foreign government or a representative thereof, or by any corporation organized under the laws of a foreign country (collectively, aliens). The FCC has indicated that in order to approve an assignment or transfer of a broadcast license the FCC must make an affirmative determination that the proposed transaction serves the public interest, not merely that the transaction does not violate its rules or shares factual elements with other transactions previously approved by the FCC, and that it may deny a transaction if it determines that the transaction could result in public interest harms by substantially frustrating or impairing the objectives or implementation of the Communications Act or related statutes.

To obtain the FCC's prior consent to assign a broadcast license or transfer control of a broadcast license, appropriate applications must be filed with the FCC. If the application involves a substantial change in ownership or control, the application must be placed on public notice for a period of approximately 30 days during which petitions to deny the application may be filed by interested parties, including members of the public. If the application does not involve a substantial change in ownership or control, it is a pro forma application. A pro forma application is not subject to petitions to deny or a mandatory waiting period, but is nevertheless subject to having informal objections filed against it. If the FCC grants an assignment or transfer application, interested parties have approximately 30 days from public notice of the grant to seek reconsideration or review of the grant. Generally, parties that do not file initial petitions to deny, or informal objections against the application, face difficulty in seeking reconsideration or review of the grant. The FCC normally has an additional 10 days to set aside such grant on its own motion. When passing on an assignment or transfer application, the FCC is prohibited from considering whether the public interest might be served by an assignment or transfer to any party other than the assignee or transferee specified in the application.

The FCC generally applies its ownership limits to attributable interests held by an individual, corporation, partnership or other association. In the case of corporations holding, or through subsidiaries controlling, broadcast licenses, the interests of officers, directors and those who, directly or indirectly, have the right to vote 5% or more of the corporation's stock (or 20% or more of such stock in the case of insurance companies, investment companies and bank trust departments that are passive investors) are generally attributable. In August 1999, the FCC revised its attribution and multiple ownership rules and adopted the equity-debt-plus rule that causes certain creditors or investors to be attributable owners of a station. Under this rule, a major programming supplier (any programming supplier that provides more than 15% of the station's weekly programming hours) or same-market media entity will be an attributable owner of a station if the supplier or same-market media entity holds debt or equity, or both, in the station that is greater than 33% of the value of the station's total debt plus equity. For the purposes of this rule, equity includes all stock, whether voting or non-voting, and equity held by insulated limited partners in partnerships. Debt includes all liabilities whether long-term or short-term. In addition, LMAs are attributable where a licensee holds an attributable interest in a television station and programs more than 15% of another television station in the same market, and JSAs are attributable where a licensee holds an attributable interest in a television station and sells more than 15% of the advertising on another station in the same market.

The Communications Act prohibits the issuance of a broadcast license to, or the holding of a broadcast license by, any corporation of which more than 20% of the capital stock is owned of record or voted by aliens. The Communications Act also authorizes the FCC, if the FCC determines that it would be in the public interest, to prohibit the issuance of a broadcast license to, or the holding of a broadcast license by, any corporation directly or indirectly controlled by any other corporation of which more than 25% of the capital stock is owned of record or voted by aliens. The FCC has issued interpretations of existing law under which these restrictions in modified form apply to other forms of business organizations, including partnerships. In November 2013, the FCC indicated that it would consider indirect foreign ownership of broadcast licenses in excess of the 25% level on a case-by-case basis.

Table of Contents

As a result of these provisions, the licenses granted to our subsidiaries by the FCC could be revoked if, among other restrictions imposed by the FCC, more than 25% of our stock were directly or indirectly owned or voted by aliens. Sinclair and its subsidiaries are domestic corporations, and the members of the Smith family (who together hold approximately 76.5% as of February 13, 2015 of the common voting rights of Sinclair) are all United States citizens. Our amended and restated Articles of Incorporation (the Amended Certificate) contain limitations on alien ownership and control that are substantially similar to those contained in the Communications Act. Pursuant to the Amended Certificate, we have the right to repurchase alien-owned shares at their fair market value to the extent necessary, in the judgment of the Board of Directors, to comply with the alien ownership restrictions.

The relevant ownership rules as currently in effect are as follows:

Radio / Television Cross-Ownership Rule. The FCC's radio / television cross-ownership rule (the one to a market rule) generally permits a party to own a combination of up to two television stations and six radio stations in the same market, depending on the number of independent media voices in the market.

Newspaper / Broadcast Cross-Ownership Rule. The FCC's rule generally prohibits the common ownership of a radio or television broadcast station and a daily newspaper in the same market. We do not currently own any daily newspapers, nor do we have current plans to acquire one.

On March 30, 2014, the FCC issued a further Notice of Proposed Rulemaking and Report and Order (the Further Notice) to consider changes in its ownership rules, and announced that it would incorporate the record of the pending 2010 review of those rules into the 2014 review. If the FCC institutes further limitations on broadcast ownership as a result of that review, we could be adversely affected. See *Changes in rules on television ownership* within *Item 1A. Risk Factors* for a discussion of this subject.

Dual Network Rule. The four major television networks, FOX, ABC, CBS and NBC, are prohibited, absent a waiver, from merging with each other. In May 2001, the FCC amended its dual network rule to permit the four major television networks to own, operate, maintain or control other television networks, such as The CW or program service arrangements, such as MyNetworkTV.

National Ownership Rule. As of 2004, by statute, the national television viewing audience reach cap is 39%. Under this rule, where an individual or entity has an attributable interest in more than one television station in a market, the percentage of the national television viewing audience encompassed within that market is only counted once. Additionally, since historically, very high frequency, or VHF stations (channels 2 through 13) have shared a larger portion of the market than ultra-high frequency, or UHF stations (channels 14 through 51), only half of the households in the market area of any UHF station are included when calculating an entity's national television viewing audience (commonly referred to as the UHF discount). On September 26, 2013, the FCC initiated a rulemaking seeking comment on whether (a) the FCC has the authority to modify the national ownership rule, including revision or elimination of the UHF discount; (b) the UHF discount should be eliminated; (c) if the UHF discount is eliminated, grandfathering should be accorded where owners of television groups would exceed the 39% national audience cap by virtue of the elimination of the discount; and should a discount for VHF station ownership be adopted. We cannot predict the outcome of that rulemaking. While this rulemaking is pending, the FCC may not allow us to acquire additional television stations that would put us over the 39% cap without application of the UHF discount.

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

All but twenty-eight of the stations we own and operate, or to which we provide programming services, are UHF. Counting all our present stations and pending transactions, we reach over 37% of U. S. television households or 23.6% taking into account the FCC's UHF discount.

Local Television (Duopoly) Rule. A party may own television stations in adjoining markets, even if there is Grade B overlap between the two stations' broadcast signals and generally may own two stations in the same market:

- if there is no Grade B overlap between the stations; or
- if the market containing both the stations will contain at least eight independently owned full-power television stations post-merger (the eight voices test) and not more than one station is among the top-four rated stations in the market.

In addition, a party may request a waiver of the rule to acquire a second or third station in the market if the station to be acquired is economically distressed or not yet constructed and there is no party who does not own a local television station who would purchase the station for a reasonable price.

Antitrust Regulation. DOJ and the Federal Trade Commission have increased their scrutiny of the television industry since the adoption of the 1996 Act and have reviewed matters related to the concentration of ownership within markets (including LMAs and outsourcing agreements) even when ownership or the LMA or other outsourcing agreement in question is permitted under the laws

Table of Contents

administered by the FCC or by FCC rules and regulations. The DOJ takes the position that an LMA or other outsourcing agreement entered into in anticipation of a station's acquisition with the proposed buyer of the station constitutes a change in beneficial ownership of the station which, if subject to filing under the Hart-Scott-Rodino Antitrust Improvements Act, cannot be implemented until the waiting period required by that statute has ended or been terminated.

Local Marketing Agreements

Certain of our stations have entered into what have commonly been referred to as time brokerage agreements or local marketing agreements or LMAs. One typical type of LMA is a programming agreement between two separately owned television stations serving the same market, whereby the licensee of one station programs substantial portions of the broadcast day and sells advertising time during such programming segments on the other licensee's station subject to the latter licensee's ultimate editorial and other controls. We believe these arrangements allow us to reduce our operating expenses and enhance profitability.

If we are required to terminate or modify our LMAs, our business could be adversely affected in several ways, including losses on investments and termination penalties. For more information on the risks, see *Changes in rules on local marketing agreements within The FCC's multiple ownership rules limit our ability to operate multiple television stations in some markets and may result in a reduction in our revenue or prevent us from reducing costs. Changes in these rules may threaten our existing strategic approach to certain television markets* within *Risk Factors* and *Changes in the Rules on Television Ownership and Local Marketing Agreements* within *Note 11. Commitments and Contingencies* for further discussion.

In addition, if Cunningham were to exercise its put rights under the acquisition and merger agreements and the LMAs, each as amended and/or restated, we may have to find a suitable third party to assume our purchase obligations because we are not permitted to purchase such stations under current FCC rules. In the event of any such assignments, new applications will have to be filed to reflect the third party as the applicant. In that event, upon the closing of the assignment to such third party, our appeals relating to the 1999 local television ownership rules with respect to our non-grandfathered LMAs may be moot and the non-grandfathered LMAs may be terminated.

In its Order approving the Allbritton transaction, the FCC expressed concerns that an LMA between Sinclair and Cunningham in the Charleston market was impermissible because it was entered into after the grandfathering date of LMAs, and that it believed Sinclair therefore apparently violated the local TV ownership rule with respect to its continued operation of that LMA. The same agreement that governs the Charleston LMA also governs LMAs between Sinclair and Cunningham in three other markets. The existence of the Charleston LMA was repeatedly disclosed to the Commission over many years, during which Sinclair relied on a June 20, 2001, Stay Order issued by the United States Court of Appeals for the District of Columbia Circuit, which specifically stated that "the time for Sinclair to come into compliance with the Commission's eight voices standard" is hereby stayed pending further order of the court. No further order has been issued by the Court with respect to that stay. We cannot predict what steps, if any, the FCC will take in the future with respect to that LMA, which has been terminated with respect to the Charleston market, but continues in effect with respect to the remaining Cunningham stations.

The Satellite Home Viewer Act (SHVA), The Satellite Home Viewer Improvement Act (SHVIA) and the Satellite Home Viewer Extension and Reauthorization Act (SHVERA)

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

In 1988, Congress enacted the Satellite Home Viewer Act (SHVA), which enabled satellite carriers to provide broadcast programming to those satellite subscribers who were unable to obtain broadcast network programming over-the-air. SHVA did not permit satellite carriers to retransmit local broadcast television signals directly to their subscribers. The Satellite Home Viewer Improvement Act of 1999 (SHVIA) revised SHVA to reflect changes in the satellite and broadcasting industry. This legislation allowed satellite carriers, until December 31, 2004, to provide local television signals by satellite within a station market, and effective January 1, 2002, required satellite carriers to carry all local signals in any market where they carry any local signals. On or before July 1, 2001, SHVIA required all television stations to elect to exercise certain must-carry or retransmission consent rights in connection with their carriage by satellite carriers. We have entered into compensation agreements granting the two primary satellite carriers retransmission consent to carry all our stations. In December 2004, President Bush signed into law the Satellite Home Viewer Extension and Reauthorization Act (SHVERA). SHVERA extended, until December 31, 2009, the rights of broadcasters and satellite carriers under SHVIA to retransmit local television signals by satellite. SHVERA also authorized satellite delivery of distant network signals, significantly viewed signals and local low-power television station signals into local markets under defined circumstances. With respect to digital signals, SHVERA established a process to allow satellite carriers to retransmit distant network signals and significantly viewed signals to subscribers under certain circumstances. In November 2005, the FCC completed a rulemaking proceeding enabling the satellite carriage of significantly viewed signals. In December 2005, the FCC concluded a study, as required by SHVERA, regarding the applicable technical standards for determining when a subscriber may receive a distant digital network signal. Congress subsequently extended the key features of SHVERA for an additional five years through the Satellite

Table of Contents

Television Extension and Localism Act of 2010 (STELA), which was further extended for an additional five year term in December 2014 through the STELA Reauthorization Act of 2014 (STELAR).

Must-Carry / Retransmission Consent

Pursuant to the Cable Act of 1992, television broadcasters are required to make triennial elections to exercise either certain must-carry or retransmission consent rights in connection with their carriage by cable systems in each broadcaster's local market. We have elected to exercise our retransmission consent rights with respect to all our stations. This election was made by October 1, 2011 for the period January 1, 2012 through December 31, 2014. By electing to exercise must-carry rights, a broadcaster demands carriage and receives a specific channel on cable systems within its DMA, in general, as defined by the Nielsen DMA Market and Demographic Rank Report of the prior year. These must-carry rights are not absolute and their exercise is dependent on variables such as:

- the number of activated channels on a cable system;
- the location and size of a cable system; and
- the amount of programming on a broadcast station that duplicates the programming of another broadcast station carried by the cable system.

Therefore, under certain circumstances, a cable system may decline to carry a given station. Alternatively, if a broadcaster chooses to exercise retransmission consent rights, it can prohibit cable systems from carrying its signal or grant the appropriate cable system the authority to retransmit the broadcast signal for a fee or other consideration. The FCC has clarified that cable systems need only carry a broadcast station's primary video stream and not any of the station's other programming streams in those situations where a station chooses to transmit multiple programming streams.

Network Non-Duplication / Syndicated Exclusivity / Territorial Exclusivity

The FCC's syndicated exclusivity rules allow local broadcast television stations to demand that cable operators black out syndicated non-network programming carried on distant signals (i.e. signals of broadcast stations, including so-called superstations, which serve areas substantially removed from the cable systems' local community). The FCC's network non-duplication rules allow local broadcast, network affiliated stations to require that cable operators black out duplicate network programming carried on distant signals. Both rules are subject to various exceptions and limitations. In a number of markets in which we own or program stations affiliated with a network, a station that is affiliated with the same network in a nearby market is carried on cable systems in our markets. Such significantly viewed signals are not subject to black out pursuant to FCC's network non-duplication rules. The carriage of two network stations on the same cable system could result in a decline of viewership, adversely affecting the revenues of our owned or programmed stations. The FCC issued a Report And Order And Further Notice Of Proposed Rulemaking on March 31, 2014, requesting comments on whether it has authority to, and should, eliminate or modify its network non-duplication and/or syndicated exclusivity rules. We cannot predict when or how the FCC will resolve that rulemaking.

Digital Television

The FCC has taken a number of steps to implement digital television (DTV) broadcasting services and has ruled that television broadcast licensees may use their digital channels for a wide variety of services such as HD television, multiple standard definition television programming, audio, data and other types of communications, subject to the requirement that each broadcaster provide at least one free video channel equal in quality to the current technical standard and further subject to the requirement that broadcasters pay a fee of 5% of gross revenues from any DTV ancillary or supplementary service for which there is a subscription fee or for which the licensee receives a fee from a third party.

Implementation of digital television has imposed substantial additional costs on our television stations because of the need to replace equipment. In addition, the FCC has proposed imposing new public interest requirements on television licensees in exchange for their receipt of DTV channels.

We believe that the following developments regarding the FCC's digital regulations may have effects on us:

Multi-Channel Digital Broadcasting. FCC rules allow broadcasters to transmit additional digital channels within the spectrum allocated to each FCC license holder. This provides viewers with additional programming alternatives at no additional cost to them. Our television stations are experimenting with broadcasting on second and third digital channels in accordance with these rules, airing various alternative programming formats. See *Markets and Stations under Television Broadcasting* within *Item 1. Business* for a listing of second and third digital channels and related affiliation.

Table of Contents

We may consider other alternative programming formats that we could air using our multi-channel digital spectrum space with the goal towards achieving higher profits and community service.

Capital and operating costs. We have incurred and will continue to incur costs to replace equipment in certain stations in order to provide high definition news programming and ensure compliance with the FCC's enhanced closed captioning requirements. See *Closed Captioning* below for further discussion.

Children's programming. In 2004, the FCC established children's educational and informational programming obligations for digital multicast broadcasters and placed restrictions on the increasing commercialization of children's programming on both analog and digital broadcast and cable television systems. In addition to imposing its limit as to the amount of commercial matter in children's programming (10.5 minutes per hour on weekends and 12 minutes per hour on weekdays) on all digital or video programming, free or pay, directed to children 12 years old and younger, the FCC also mandated that digital broadcasters air an additional half hour of core children's programming for every 28-hour block of free video programming provided in addition to the main DTV program stream. The additional core children's programming requirement for digital broadcasters took effect on January 2, 2007.

Emergency Alert System. In November 2005, the FCC adopted an order requiring that digital broadcasters comply with the FCC's present Emergency Alert System (EAS) rules. It also issued a further notice of proposed rulemaking seeking comments on what actions the FCC should take to expedite the development of a digitally based public alert and warning system. On July 12, 2007, the FCC adopted an order allowing mandatory use of EAS by state governments and requiring that all EAS participants, including television broadcasters, be able to receive messages formatted pursuant to a procedure to be adopted by the Federal Emergency Management Agency. In a further notice, the FCC invited comments on, among other things, how the EAS rules could be modified to ensure that non-English speakers and persons with disabilities are reached by EAS messages and whether local, county, tribal, or other state governmental entities should be allowed to initiate mandatory state and local alerts. On November 23, 2010, the FCC issued an Order requiring all broadcasters to acquire and install the equipment necessary to use the Common Alerting Protocol (CAP) standard for EAS alerts by September 30, 2011. On February 3, 2011, the FCC released an Order which requires national testing of the EAS and requires broadcast stations to submit data from such tests to the FCC. On September 16, 2011, the FCC released an Order extending the CAP-compliance deadline until June 30, 2012. The new EAS requirements and any additional FCC EAS requirements on broadcasters could increase our costs.

Restrictions on Broadcast Programming

Advertising of cigarettes and certain other tobacco products on broadcast stations has been banned for many years. Various states also restrict the advertising of alcoholic beverages and, from time to time, certain members of Congress have contemplated legislation to place restrictions on the advertisement of such alcoholic beverages. FCC rules also restrict the amount and type of advertising which can appear in a program broadcast primarily for an audience of children 12 years old and younger. In addition, the Federal Trade Commission issued guidelines in December 2003 and continues to provide advice to help media outlets voluntarily screen out weight loss product advertisements that are misleading.

The Communications Act and FCC rules also place restrictions on the broadcasting of advertisements by legally qualified candidates for elective office. Those restrictions state that:

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

- stations must provide reasonable access for the purchase of time by legally qualified candidates for federal office;
- stations must provide equal opportunities for the purchase of equivalent amounts of comparable broadcast time by opposing candidates for the same elective office; and
- during the 45 days preceding a primary or primary run-off election and during the 60 days preceding a general or special election, legally qualified candidates for elective office may be charged no more than the station's lowest unit charge for the same class and amount of time for the same period.

It is a violation of federal law and FCC regulations to broadcast obscene, indecent, or profane programming. FCC licensees are, in general, responsible for the content of their broadcast programming, including that supplied by television networks. Accordingly, there is a risk of being fined as a result of our broadcast programming, including network programming. As a result of legislation passed in June 2006, the maximum forfeiture amount for the broadcast of indecent or obscene material was increased to \$325,000 from \$32,500 for each violation with a cap of \$3.0 million for any single act.

Table of Contents

Programming and Operations

General. The Communications Act requires broadcasters to serve the public interest. The FCC has relaxed or eliminated many of the more formalized procedures it had developed in the past to promote the broadcast of certain types of programming responsive to the needs of a station's community of license. FCC licensees continue to be required, however, to present programming that is responsive to the needs and interests of their communities and to maintain certain records demonstrating such responsiveness. Complaints from viewers concerning a station's programming may be considered by the FCC when it evaluates renewal applications of a licensee, although such complaints may be filed at any time and generally may be considered by the FCC at any time. Stations also must pay regulatory and application fees and follow various rules promulgated under the Communications Act that regulate, among other things, political advertising, sponsorship identifications, obscene and indecent broadcasts and technical operations, including limits on radio frequency radiation.

Equal Employment Opportunity. On November 20, 2002, the FCC adopted rules, effective March 10, 2003, requiring licensees to create equal employment opportunity outreach programs and maintain records and make filings with the FCC evidencing such efforts. The FCC simultaneously released a notice of proposed rulemaking seeking comments on whether and how to apply these rules and policies to part-time positions, defined as less than 30 hours per week. That rulemaking is still pending.

Children's Television Programming. Television stations are required to broadcast a minimum of three hours per week of core children's educational programming, which the FCC defines as programming that:

- has the significant purpose of serving the educational and informational needs of children 16 years of age and under;
- is regularly scheduled weekly and at least 30 minutes in duration; and
- is aired between the hours of 7:00 a.m. and 10:00 p.m. local time.

In addition, the FCC concluded that starting on January 2, 2007, a digital broadcaster must air an additional half hour of core children's programming per every increment of 1 to 28 hours of free video programming provided in addition to the main DTV program stream. Furthermore, core children's educational programs, in order to qualify as such, are required to be identified as educational and informational programs over-the-air at the time they are broadcast and are required to be identified in the children's programming reports, which are required to be placed quarterly in stations' public inspection files and filed quarterly with the FCC.

On April 17, 2007, the FCC requested comments on the status of children's television programming and compliance with the Children's Television Act and the FCC's rules. That proceeding is still pending.

Violent Programming. In 2004, the FCC initiated a notice of inquiry seeking comments on issues relating to the presentation of violent programming on television and its impact on children. On April 25, 2007, the FCC released a report concluding that there is strong evidence that exposure to violence in the media can increase aggressive behavior in children, at least in the short term. Accordingly, the FCC concluded that it would be in the public interest to regulate such programming and Congress could do so consistent with the First Amendment. As possible

solutions, the FCC suggested, among other things, a voluntary industry initiative to reduce the amount of excessively violent programming viewed by children and also proposed several viewer-initiated blocking proposals, such as the provision of video channels by MVPDs on family tiers or on an a la carte basis.

Television Program Content. The television industry has developed an FCC approved ratings system that is designed to provide parents with information regarding the content of the programming being aired. Furthermore, the FCC requires certain television sets to include the so-called

V-chip, a computer chip that allows the blocking of rated programming. It is a violation of federal law and FCC regulations to broadcast obscene or indecent programming. FCC licensees are, in general, responsible for the content of their broadcast programming, including that supplied by television networks. Accordingly, there is a risk of being fined as a result of our broadcast programming, including network programming.

Localism. On October 27, 2011, the FCC issued an Order vacating its 2008 decision proposing to update the way television broadcasters inform the public about how they are serving their local communities. Specifically, the FCC has adopted rules to largely replace the requirement that television stations maintain a paper public file at their main studios with a requirement to submit documents for inclusion in an online public file to be hosted by the FCC. The new rules took effect on August 2, 2012. On and after August 2, 2012, broadcasters posted to the online public file any new documents that they determined must be placed in the public file. Broadcasters had six months after August 2, 2012 to post existing documents that were part of the public file prior to August 2, except in the case of the political file. With respect to the political file only, broadcasters are not required to upload any such documents that were part of their public file prior to August 2. Instead, only newly created political file documents must be uploaded. In addition, smaller broadcasters not affiliated with the top four networks in the top 50 markets are not required to post their political file documents to their online public file until July 1, 2014. In a related proceeding, on November 14, 2011, the FCC released a Notice of Inquiry regarding the use of a standardized disclosure form for television stations to provide the public with the information on how stations are serving the public interest in an effort to help stations meet their obligation to provide programming that addresses a local community's needs and interests.

Table of Contents

Closed Captioning. In November 2008, the FCC issued a declaratory ruling clarifying certain closed captioning obligations for stations transmitting digital programming, including the obligation to transmit captions in analog standard after the DTV transition and simplifying the close captioning complaint process for consumers. The 21st Century Communications and Video Accessibility Act (CVAA) requires that all nonexempt full-length video programming delivered over the Internet that first appeared on TV in the United States with captions also be captioned online. The first compliance deadline for the FCC's new rules for the closed captioning of video programming delivered via Internet protocol (i.e., IP video), as required by the CVAA, was September 30, 2012. The effective date of the new rules was April 30, 2012, and all video programming that appeared on television with captions after that date is considered covered IP video and will need to be captioned when being shown online in the future. Video programming is defined as programming by, or generally considered comparable to programming provided by a television broadcast station. Beginning September 30, 2012, all pre-recorded programming not edited for Internet distribution must be captioned for online viewing. Pre-recorded programming is defined as programming other than live or near-live programming. Beginning March 30, 2013, all live and near-live programming must be captioned for online viewing. Live programming is defined as programming that airs on TV substantially simultaneously with its performance (i.e., news and sporting events). Near-live programming is video programming that is performed and recorded less than 24 hours prior to the first time it aired on television (i.e., the Late Show with David Letterman). Beginning September 30, 2013, all pre-recorded programming that is edited for Internet distribution was required to be captioned for online viewing. Programming edited for Internet distribution means video programming for which the TV version is substantially edited prior to its Internet distribution.

The FCC announced in a recent Public Notice that the deadline for compliance with its new television closed captioning quality rules has been extended until March 16, 2015. Previously scheduled to go into effect on January 15, 2015, the quality rules establish standards for television closed captioning concerning accuracy, synchronicity, completeness, and placement. The rules also require video programming distributors to seek certain certifications from video programmers concerning closed captioning quality. In addition, the extension applies to certain related rules that also will now take effect on March 16, 2015, including recordkeeping requirements concerning distributors' monitoring and maintenance of closed captioning equipment and signals, procedures concerning informal complaints, and compliance procedures in connection with the use of Electronic Newsroom Technique (ENT).

Pending Matters

Congress and the FCC have under consideration and in the future may consider and adopt, new laws, regulations and policies regarding a wide variety of matters that could affect, directly or indirectly, the operation, ownership and profitability of our broadcast stations, result in the loss of audience share and advertising revenues for our broadcast stations and affect our ability to acquire additional broadcast stations or finance such acquisitions.

Other matters that could affect our broadcast properties include technological innovations and developments generally affecting competition in the mass communications industry, such as direct television broadcast satellite service, Class A television service, the continued establishment of wireless cable systems and low power television stations, digital television technologies, the internet and mobility and portability of our broadcast signal to hand-held devices.

For example, in November 2008, the FCC adopted an order allowing new low power devices to operate in the broadcast television spectrum at locations where channels in that spectrum are not in use. The operation of such devices could cause harmful interference to our broadcast signals adversely affecting the operation and profitability of our stations.

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

Congress passed legislation providing the FCC with authority to conduct so-called incentive auctions, which is the process of auctioning and repurposing broadcast television spectrum for mobile broadband use. Incentive auction authority allows the FCC to share the proceeds of spectrum auctions with incumbent television station licensees who give up their licenses (or in some cases, move to a different channel) to facilitate spectrum auctions. The legislation contemplates that the FCC will encourage broadcasters to tender their licenses for auction. The FCC would then repack non-tendering broadcasters into the lower portions of the UHF band and auction new flexible use wireless licenses in the upper portion of the UHF band. The proposals for television stations to participate in the incentive auctions are voluntary and at this time we have not decided whether the company will participate on behalf of any of its stations. On September 28, 2012, the FCC voted in favor of a Notice of Proposed Rulemaking that launches the incentive auction process to clear a portion of the television band that will make way for mobile broadband use. At this time we cannot predict the final outcome of this proceeding. Sinclair challenged the FCC's incentive auction rules as adopted and filed a Petition with the United States Court of Appeals for the District of Columbia Circuit seeking review of the FCC's Incentive Auction Order on the grounds that it exceeded the Commission's authority; violates the Middle Class Tax Relief and Job Creation Act of 2012; is arbitrary, capricious; an abuse of discretion under the Administrative Procedure Act; violates Section 5(c) of the Communications Act; and, is otherwise contrary to law. The Order was also challenged by the National Association of Broadcasters (NAB) on similar grounds, and the NAB's Petition was consolidated with Sinclair's case. The matter remains pending before the Court and we cannot predict the outcome of the case.

Table of Contents

Other Considerations

The preceding summary is not a complete discussion of all provisions of the Communications Act, the 1996 Act or other congressional acts or of the regulations and policies of the FCC, or in some cases, the DOJ. For further information, reference should be made to the Communications Act, the 1996 Act, other congressional acts and regulations and public notices circulated from time to time by the FCC, or in some cases, the DOJ. There are additional regulations and policies of the FCC and other federal agencies that govern political broadcasts, advertising, equal employment opportunity and other matters affecting our business and operations.

ENVIRONMENTAL REGULATION

Prior to our ownership or operation of our facilities, substances or waste that are, or might be considered, hazardous under applicable environmental laws may have been generated, used, stored or disposed of at certain of those facilities. In addition, environmental conditions relating to the soil and groundwater at or under our facilities may be affected by the proximity of nearby properties that have generated, used, stored or disposed of hazardous substances. As a result, it is possible that we could become subject to environmental liabilities in the future in connection with these facilities under applicable environmental laws and regulations. Although we believe that we are in substantial compliance with such environmental requirements and have not in the past been required to incur significant costs in connection therewith, there can be no assurance that our costs to comply with such requirements will not increase in the future or that we will not become subject to new governmental regulations, including those pertaining to potential climate change legislation, that may impose additional restrictions or costs on us. We presently believe that none of our properties have any condition that is likely to have a material adverse effect on our consolidated balance sheets, consolidated statements of operations or consolidated statements of cash flows.

COMPETITION

Our television stations compete for audience share and advertising revenue with other television stations in their respective DMAs, as well as with other advertising media such as MVPDs, radio, newspapers, magazines, outdoor advertising, transit advertising, telecommunications providers, internet and broadband, yellow page directories and direct mail. Some competitors are part of larger organizations with substantially greater financial, technical and other resources than we have. Other factors that are material to a television station's competitive position include signal coverage, local program acceptance, network affiliation or program service, audience characteristics and assigned broadcast frequency.

Competition in the television broadcasting industry occurs primarily in individual DMAs. Generally, a television broadcasting station in one DMA does not compete with stations in other DMAs. Our television stations are located in highly competitive DMAs. MVPDs can increase competition for a broadcast television station by bringing into its market additional cable network channels. These narrow cable network channels are typically low rated, and, as a result, advertisements are inexpensive to the local advertisers. In addition, certain of our DMAs are overlapped by over-the-air station from adjacent DMAs and MVPDs of stations from other DMAs, which tends to spread viewership and advertising expenditures over a larger number of television stations.

Television stations compete for audience share primarily on the basis of program popularity, which has a direct effect on advertising rates. Our network affiliated stations are largely dependent upon the performance of network provided programs in order to attract viewers. Non-network time periods are programmed by the station primarily with syndicated programs purchased for cash, cash and barter or barter-only, as well as

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

through self-produced news, public affairs programs, live local sporting events, paid-programming and other entertainment programming.

Television advertising rates are based upon factors which include the size of the DMA in which the station operates, a program's popularity among the viewers that an advertiser wishes to attract, the number of advertisers competing for the available time, the demographic makeup of the DMA served by the station, the availability of alternative advertising media in the DMA, the aggressiveness and knowledge of the sales forces in the DMA and development of projects, features and programs that tie advertiser messages to programming. We believe that our sales and programming strategies allow us to compete effectively for advertising revenues within our DMAs.

The broadcasting industry is continuously faced with technical changes and innovations, competing entertainment and communications media, changes in labor conditions and governmental restrictions or actions of federal regulatory bodies, including the FCC, any of which could possibly have a material effect on a television station's operations and profits. For instance, the FCC has established Class A television service for qualifying low power television stations. This Class A designation provides low power television stations, which ordinarily have no broadcast frequency rights when the low power signal conflicts with a signal from any full power stations, some additional frequency rights. These rights may allow low power stations to compete more effectively with

Table of Contents

full power stations. We cannot predict the effect of increased competition from Class A television stations in markets where we have full power television stations.

Moreover, technology advances and regulatory changes affecting programming delivery through fiber optic lines, video compression, and new wireless uses could lower entry barriers for new video channels and encourage the further development of increasingly specialized niche programming. Telephone companies are permitted to provide video distribution services, on a common carrier basis, as cable systems or as open video systems, each pursuant to different regulatory schemes. Additionally, in January 2004, the FCC concluded an auction for licenses operating in the 12 GHz band that can be used to provide multi-channel video programming distribution. Those licenses were granted in July 2004. In addition, on March 18, 2008, the FCC concluded an auction for the rights to operate the 700 MHz frequency band that had been used by analog television broadcasters and became available when full power television stations ceased using the spectrum as a result of the digital television transition on June 12, 2009. The winning bidders were announced on March 20, 2008. The FCC has indicated that the spectrum may be used for flexible fixed, mobile, and broadcast uses, including fixed and mobile wireless commercial services; fixed and mobile wireless uses for private, internal radio needs; mobile and other new digital broadcast operations; and, may include two-way interactive, cellular, and mobile television broadcasting services. We are unable to predict what other video technologies might be considered in the future or the effect that technological and regulatory changes will have on the broadcast television industry and on the future profitability and value of a particular broadcast television station.

DTV technology has the potential to permit us to provide viewers multiple channels of digital television over each of our existing standard digital channels, to provide certain programming in HD television format and to deliver other channels of information in the forms of data and programming to the internet, PCs, smart phones, tablet computers and mobile devices. These additional capabilities may provide us with additional sources of revenue, as well as additional competition.

We also compete for programming, which involves negotiating with national program distributors or syndicators that sell first-run and rerun packages of programming. Our stations compete for access to those programs against in-market broadcast station competitors for syndicated products and with national cable networks. Public broadcasting stations generally compete with commercial broadcasters for viewers, but not for advertising dollars.

We believe we compete favorably against other television stations because of our management skill and experience, our ability historically to generate revenue share greater than our audience share, our network affiliations and program service arrangements and our local program acceptance. In addition, we believe that we benefit from the operation of multiple broadcast properties, affording us certain non-quantifiable economies of scale and competitive advantages in the purchase of programming.

EMPLOYEES

As of February 23, 2015, we had approximately 7,700 employees. Approximately 800 employees are represented by labor unions under certain collective bargaining agreements. We have not experienced any significant labor problems and consider our overall labor relations to be good.

AVAILABLE INFORMATION

We regularly use our website as a source of company information and it can be accessed at www.sbg.net. We make available, free of charge through our website, our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act as soon as reasonably practicable after such documents are electronically submitted to the SEC. In addition, a replay of each of our quarterly earnings conference calls is available on our website until the subsequent quarter's earnings call. The information contained on, or otherwise accessible through, our website is not a part of this Annual Report on Form 10-K and is not incorporated herein by reference.

ITEM 1A. RISK FACTORS

You should carefully consider the risks described below before investing in our securities. Our business is also subject to the risks that affect many other companies such as general economic conditions, geopolitical events, competition, technological obsolescence and employee relations. The risks described below, along with risks not currently known to us or that we currently believe are immaterial, may impair our business operations and our liquidity in an adverse way.

Our advertising revenue can vary substantially from period to period based on many factors beyond our control. This volatility affects our operating results and may reduce our ability to repay indebtedness or reduce the market value of our securities.

Table of Contents

We rely on sales of advertising time for most of our revenues and, as a result, our operating results depend on the amount of advertising revenue we generate. If we generate less advertising revenue, it may be more difficult for us to repay our indebtedness and the value of our business may decline. Our ability to sell advertising time depends on:

- the levels of automobile advertising, which historically have represented about one quarter of our advertising revenue; however, for the year ended December 31, 2014, automobile advertising represented 23.1% of our net time sales;
- the health of the economy in the areas where our television stations are located and in the nation as a whole;
- the popularity of our programming and that of our competition;
- the levels of political advertising, which are affected by campaign finance laws and the ability of political candidates and political action committees to raise and spend funds and are subject to seasonal fluctuations;
- the reliability of our ratings information measurements, including new ratings system technologies such as people meters and set-top boxes ;
- changes in the makeup of the population in the areas where our stations are located;
- the activities of our competitors, including increased competition from other forms of advertising-based mediums, such as other broadcast television stations, radio stations, MVPDs, internet and broadband content providers and other print and media outlets serving in the same markets; and
- other factors that may be beyond our control.

There can be no assurance that our advertising revenue will not be volatile in the future or that such volatility will not have an adverse impact on our business, financial condition or results of operations.

Our substantial indebtedness could adversely affect our financial condition and prevent us from fulfilling our debt obligations.

We have a high level of debt, totaling \$3,928.7 million at December 31, 2014, compared to the book value of shareholders' equity of \$405.3 million on the same date. Our relatively high level of debt poses the following risks, particularly in periods of declining revenues:

- we may be unable to service our debt obligations, including payments on notes as they come due, especially during general negative economic and market industry conditions;
- we may use a significant portion of our cash flow to pay principal and interest on our outstanding debt, especially during general negative economic and market industry conditions;

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

- the amount available for working capital, capital expenditures, dividends and other general corporate purposes may be limited because a significant portion of cash flow is used to pay principal and interest on outstanding debt;
- our lenders may not be as willing to lend additional amounts to us for future working capital needs, additional acquisitions or other purposes;
- the cost to borrow from lenders may increase;
- our ability to access the capital markets may be limited, and we may be unable to issue securities with pricing or other terms that we find attractive, if at all;
- if our cash flow were inadequate to make interest and principal payments, we might have to restructure or refinance our indebtedness or sell one or more of our stations to reduce debt service obligations;
- we may be more vulnerable to adverse economic conditions than less leveraged competitors and thus, less able to withstand competitive pressures; and
- because the interest rate under the Bank Credit Agreement is a floating rate, any increase will reduce the funds available to repay our obligations and for operations and future business opportunities and will make us more vulnerable to the consequences of our leveraged capital structure. As of December 31, 2014, approximately \$1,725.9 million principal amount of our recourse debt relates to the Bank Credit Agreement.

Any of these events could reduce our ability to generate cash available for investment, debt repayment or capital improvements or to respond to events that would enhance profitability.

Commitments we have made to our lenders limit our ability to take actions that could increase the value of our securities and business or may require us to take actions that decrease the value of our securities and business.

Our existing financing agreements prevent us from taking certain actions and require us to meet certain tests. These restrictions and tests may require us to conduct our business in ways that make it more difficult to repay unsecured debt or decrease the value of our securities and business. These restrictions and tests include the following:

Table of Contents

- restrictions on additional debt;
- restrictions on our ability to pledge our assets as security for indebtedness;
- restrictions on payment of dividends, the repurchase of stock and other payments relating to our capital stock;
- restrictions on some sales of certain assets and the use of proceeds from asset sales;
- restrictions on mergers and other acquisitions, satisfaction of conditions for acquisitions and a limit on the total amount of acquisitions without the consent of bank lenders;
- restrictions on permitted investments;
- restrictions on the lines of business we and our subsidiaries may operate; and
- financial ratio and condition tests including the ratio of adjusted earnings before interest, tax, depreciation and amortization, as adjusted (adjusted EBITDA) to adjusted interest expense, the ratio of first lien indebtedness to adjusted EBITDA and the ratio of Sinclair Television Group, Inc. (STG) total indebtedness to adjusted EBITDA.

Future financing arrangements may contain additional restrictions and tests. All of these restrictive covenants may limit our ability to pursue our business strategies, prevent us from taking action that could increase the value of our securities or may require actions that decrease the value of our securities. In addition, we may fail to meet the tests and thereby default on one or more of our obligations (particularly if the economy weakens and thereby reduces our advertising revenues). If we default on our obligations, creditors could require immediate payment of the obligations or foreclose on collateral. If this happens, we could be forced to sell assets or take other actions that could significantly reduce the value of our securities and business and we may not have sufficient assets or funds to pay our debt obligations.

A failure to comply with covenants under our debt instruments could result in a default under such debt instruments, acceleration of amounts due under our debt and loss of assets securing our loans.

Certain of our debt agreements contain cross-default provisions with our other debt, which means that a default under certain of our debt instruments may cause a default under certain indentures or the Bank Credit Agreement.

If we breach certain of our debt covenants, our lenders could require us to repay the debt immediately, and, if the debt is secured, could immediately take possession of the property securing such debt. In addition, if any other lender declared its loan due and payable as a result of a default, the holders of our outstanding notes, along with the lenders under the Bank Credit Agreement, might be able to require us to pay those debts immediately.

As a result, any default under our debt covenants could have a material adverse effect on our financial condition and our ability to meet our obligations.

Any insolvency or bankruptcy proceeding relating to material third-party licensees as defined by our Bank Credit Agreement, would cause a default and potential acceleration under the Bank Credit Agreement.

Our Bank Credit Agreement contains certain cross-default provisions with certain material third-party licensees, defined as any party that owns the license assets of one or more television stations for which we provided services to pursuant to LMAs and/or other outsourcing agreements and those stations provide 10% or more of our aggregate broadcast cash flows. A default caused by an involuntary or voluntary petition filed for liquidation, reorganization or other relief of insolvency by a material third-party licensee, or a failure of a material third-party licensee to preserve and maintain its legal existence or any of its material rights, privileges or franchises including its broadcast licenses, would cause an event of default and potential acceleration under our Bank Credit Agreement. As of December 31, 2014, there were no material third party licensees as defined in our Bank Credit Agreement.

Despite current debt levels, we may be able to incur significantly more debt in the future, which could increase the foregoing risks related to our indebtedness.

At December 31, 2014, we had \$144.1 million available (subject to certain borrowing conditions) for additional borrowings under the revolving credit facility (the Revolving Credit Facility) of the Bank Credit Agreement. Under the terms of the debt instruments to which we are subject, and provided we meet certain financial and other covenants, we may be able to incur substantial additional indebtedness in the future, including additional senior debt and secured debt. If we incur additional indebtedness, the risks described in the risk factors in this report relating to having substantial debt could intensify.

Our strategic acquisitions could pose various risks and increase our leverage.

We have pursued and intend to selectively continue to pursue strategic acquisitions, subject to market conditions, our liquidity and the availability of attractive acquisition candidates, with the goal of improving our business. During 2014, we

Table of Contents

acquired certain assets related to, and/or equity of entities that own assets related to, and we began operating or providing certain services to 20 television stations, excluding dispositions.

We may not be able to identify other attractive acquisition targets or we may not be able to fund additional acquisitions in the future. Acquisitions involve inherent risks, such as increasing leverage and debt service requirements and combining company cultures and facilities, which could have a material adverse effect on our results of operations and could strain our human resources. We may not be able to successfully implement effective costs controls or increase revenues as a result of an acquisition. In addition, future acquisitions may result in our assumption of unexpected liabilities and may result in the diversion of management's attention from the operation of our core business.

Certain acquisitions, such as television stations, are subject to the approval of the FCC and potentially, other regulatory authorities. The need for FCC and other regulatory approvals could restrict our ability to consummate future transactions and potentially require us to divest certain television stations if the FCC believes that a proposed acquisition would result in excessive concentration in a market, even if the proposed combinations may otherwise comply with FCC ownership limitations.

Our investments in other operating divisions involve risks, including the diversion of resources, that may adversely affect our business or results of operations.

Our other operating divisions consist of businesses involved in sign design and fabrication, regional security alarm operations, fabrication and service of television broadcast antennas and transmitters, real estate ventures and a wrestling programming franchise and are reported separately from our broadcast segment. Managing the operations of these businesses and the costs incurred by these businesses involve risks, including the diversion of our management's attention from managing the operations of our broadcast businesses and diverting other resources that could be used in our broadcast businesses. Such diversion of resources may adversely affect our business and results of operations. In addition, our investments in real estate ventures carry inherent risks related to owning interests in real property, including, among others, the relative illiquidity of real estate, potential adverse changes in real estate market conditions, and changes in tenant preferences. There can be no assurance that our investments in these businesses will yield a positive rate of return or otherwise be recoverable.

Financial and economic conditions may have an adverse impact on our industry, business, and results of operations or financial condition.

Financial and economic conditions have been challenging and the continuation or worsening of such conditions could further reduce consumer confidence and have an adverse effect on the fundamentals of our business, results of operations and/or financial condition. Poor economic and industry conditions could have a negative impact on our industry or the industry of those customers who advertise on our stations, including, among others, the automotive industry and service businesses, each of which is a significant source of our advertising revenue. Additionally, financial institutions, capital providers, or other consumers may be adversely affected. Potential consequences of any financial and economic decline include:

- the financial condition of those companies that advertise on our stations, including, among others, the automobile manufacturers and dealers, may be adversely affected and could result in a significant decline in our advertising revenue;

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

- our ability to pursue the acquisition of attractive television and non-television assets may be limited if we are unable to obtain any necessary additional capital on favorable terms, if at all;
- our ability to pursue the divestiture of certain television and non-television assets at attractive values may be limited;
- the possibility that our business partners, such as our counterparties to our outsourcing and news share arrangements, could be negatively impacted and our ability to maintain these business relationships could also be impaired; and
- our ability to refinance our existing debt on terms and at interest rates we find attractive, if at all, may be impaired;
- our ability to make certain capital expenditures may be significantly impaired.

We must purchase television programming in advance based on expectations about future revenues. Actual revenues may be lower than our expectations. If this happens, we could experience losses that may make our securities less valuable.

One of our most significant costs is television programming. Our ability to generate revenue to cover this cost may affect the value of our securities. If a particular program is not popular in relation to its costs, we may not be able to sell enough advertising time to cover the costs of the program. Since we generally purchase programming content from others rather than producing such content ourselves, we have limited control over the costs of the programming. Often we must purchase programming several years in advance and may have to commit to purchase more than one year's worth of programming. We may replace programs that are doing poorly before we have recaptured any significant portion of the costs we incurred or

Table of Contents

before we have fully amortized the costs. Any of these factors could reduce our revenues or otherwise cause our costs to escalate relative to revenues. These factors are exacerbated during a weak advertising market. Additionally, our business is subject to the popularity of the programs provided by the networks with which we have network affiliation agreements or which provide us programming.

We may lose a large amount of programming if a network terminates its affiliation or program service arrangement with us, we are not able to negotiate arrangements at terms comparable to our more favorable than our current agreements, or if networks make programming available through services other than our local affiliates, which could increase our costs and/or reduce revenue.

The networks produce and distribute programming in exchange for each station's commitment to air the programming at specified times and for commercial announcement time during programming. The amount and quality of programming provided by each network varies. See *Item 1. Business* for a summary and *Markets and Stations under Television Broadcasting* within *Item 1. Business* for a detailed listing of our stations and channels.

As network affiliation agreements come up for renewal, we (or licensees of the stations we provide programming and/or sales services to), may not be able to negotiate terms comparable to or more favorable than our current agreements. The non-renewal or termination of any of our network affiliation agreements would prevent us from being able to carry programming of the relevant network. This loss of programming would require us to obtain replacement programming, which may involve higher costs and which may not be as attractive to our target audiences, resulting in reduced revenues. Upon the termination of any of our network affiliation agreements, we would be required to establish a new network affiliation agreement for the affected station with another network or operate as an independent station. At such time, the remaining value of the network affiliation asset could become impaired and we would be required to record impairment charges to write down the value of the asset to its estimated fair value.

We cannot predict the outcome of any future negotiations relating to our affiliation agreements or what impact, if any, they may have on our financial condition and results of operations. In addition, the impact of an increase in reverse network compensation payments, under which we compensate the network for programming pursuant to our affiliation agreements, may have a negative effect on our financial condition or results of operations.

We may not be able to renegotiate retransmission consent agreements at terms comparable to or more favorable than our current agreements and networks with which we are affiliated are currently, or in the future are expected to, require us to share revenue from retransmission consent agreements with them.

As retransmission consent agreements expire, we may not be able to renegotiate such agreements at terms comparable to or more favorable than our current agreements. This may cause revenues and/or revenue growth from our retransmission consent agreements to decrease under the renegotiated terms despite the fact that our current retransmission consent agreements include automatic annual fee escalators. In addition, certain of our networks or program service providers with which we are affiliated are currently, or in the future are expected to, require us to share revenue from retransmission consent agreements with them as part of renewing expiring affiliation agreements or pursuant to certain rights contained in existing affiliation agreements. There can be no assurances that the amounts shared will not increase at expiration of the current contracts. In December, 2014, a new statutory provision was adopted which requires the FCC to adopt rules prohibiting joint retransmission consent negotiation by stations that are located in the same market but are not commonly owned. The FCC issued an Order on February 18, 2015, adopting Rules which implement the new statutory provision. This new Rule, when implemented may prevent us from jointly negotiating retransmission consent agreements on behalf of our LMA and other outsourcing agreement stations.

The effects of the economic environment could require us to record an asset impairment of goodwill and broadcast licenses.

We are required to analyze goodwill and certain other intangible assets for impairment. The accounting guidance establishes a method of testing goodwill and broadcast licenses for impairment on an annual basis, or on an interim basis if an event occurs that would reduce the fair value of a reporting unit or an indefinite-lived asset below its carrying value. For additional information regarding impairments to our goodwill and broadcast licenses, see *Valuation of Goodwill and Intangible Assets and Equity and Cost Method Investments under Critical Accounting Policies and Estimates* within *Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations* and *Note 6. Goodwill, Broadcast Licenses and Other Intangible Assets*.

Table of Contents

Key officers and directors have financial interests that are different and sometimes opposite from ours and we may engage in transactions with these officers and directors that may benefit them to the detriment of other security holders.

Some of our officers, directors and majority shareholders own stock or partnership interests in businesses that engage in television broadcasting, do business with us or otherwise do business that conflicts with our interests. They may transact some business with us upon approval by the independent members of our board of directors even if there is a conflict of interest or they may engage in business competitive to our business and those transactions may benefit the officers, directors or majority shareholders to the detriment of our security holders. Each of David D. Smith, Frederick G. Smith, and J. Duncan Smith is an officer and director of Sinclair and Robert E. Smith is a director of Sinclair. Together, the Smiths hold shares of our common stock that control the outcome of most matters submitted to a vote of shareholders.

The Smiths own businesses that lease real property and tower space to us and engage in other transactions with us. David D. Smith, Frederick G. Smith, J. Duncan Smith, Robert E. Smith and David B. Amy, our Executive Vice President and Chief Operating Officer, together own interests (less than 5% in aggregate) in Allegiance Capital Limited Partnership, a limited partnership in which we also hold an interest. Frederick G. Smith owns an interest (less than 1%) in Patriot Capital II, L.P., a limited partnership in which we also hold an interest. David Smith owns an interest (less than 3%) in Towson Row LLC, a real estate venture, which we also hold an interest. For additional information regarding our related person transactions, see *Note 12. Related Person Transactions*. We can give no assurance that these transactions or any transactions that we may enter into in the future with our officers, directors or majority shareholders, have been, or will be, negotiated on terms as favorable to us as we would obtain from unrelated parties. Maryland law and our financing agreements limit the extent to which our officers, directors and majority shareholders may transact business with us and pursue business opportunities that we might pursue. These limitations do not, however, prohibit all such transactions.

We depend on key personnel and we may not be able to operate and grow our business effectively if we lose the services of our senior executive officers or are unable to attract and retain qualified personnel in the future.

We depend on the efforts of our management and other key employees. The success of our business depends heavily on our ability to develop and retain management and to attract and retain qualified personnel in the future. Competition for senior management personnel is intense and we may not be able to retain our key personnel. If we are unable to do so, our business, financial condition or results of operations may be adversely affected.

The Smiths exercise control over most matters submitted to a shareholder vote and may have interests that differ from other security holders. They may, therefore, take actions that are not in the interests of other security holders.

David D. Smith, Frederick G. Smith, J. Duncan Smith and Robert E. Smith hold shares representing approximately 76.5% of the common stock voting rights of us as of February 13, 2015 and, therefore, control the outcome of most matters submitted to a vote of shareholders, including, but not limited to, electing directors, adopting amendments to our certificate of incorporation and approving corporate transactions. The Smiths hold substantially all of the Class B Common Stock, which have ten votes per share. Our Class A Common Stock has only one vote per share. In addition, the Smiths hold half our board of directors seats and, therefore, have the power to exert significant influence over our corporate management and policies. The Smiths have entered into a stockholders' agreement pursuant to which they have agreed to vote for each other as candidates for election to our board of directors until June 13, 2015.

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

Although in the past the Smiths have recused themselves from related person transactions, circumstances may occur in which the interests of the Smiths, as the controlling security holders, could be in conflict with the interests of other security holders and the Smiths would have the ability to cause us to take actions in their interest. In addition, the Smiths could pursue acquisitions, divestitures or other transactions that, in their judgment, could enhance their equity investment, even though such transactions might involve risks to our other security holders. Further, the concentration of ownership in the Smiths may have the effect of discouraging, delaying or preventing a future change of control, which could deprive our stockholders of an opportunity to receive a premium for their shares as part of a sale of our company and might reduce the price of our shares.

(See Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters and Item 13. Certain Relationships and Related Transactions, which will be included as part of our Proxy Statement for our 2012 Annual Meeting.)

Significant divestitures by the Smiths could cause them to own or control less than 51% of the voting power of our shares, which would in turn give Cunningham the right to terminate the LMAs and other outsourcing agreements with Cunningham

Table of Contents

due to a change in control. Any such terminations would have an adverse effect on our results of operations. The FCC's multiple ownership rules limit our ability to operate multiple television stations in some markets and may result in a reduction in our revenue or prevent us from reducing costs. Changes in these rules may threaten our existing strategic approach to certain television markets. See *Changes in rules on local marketing agreements* in the risk factor below.

We may be subject to fines and other penalties related to violations of FCC indecency rules and other FCC rules and policies, the enforcement of which has increased in recent years, and complaints related to such violations may delay our renewal applications with the FCC.

We provide a significant amount of live news reporting that is provided by the broadcast networks or is controlled by our on-air news talent. Although both broadcast network and our on-air talent have generally been professional and careful in what they say, there is always the possibility that information may be reported that is inaccurate or even in violation of certain indecency rules promulgated by the FCC. In addition, entertainment and sports programming provided by broadcast syndicators and networks may contain content that is in violation of the indecency rules promulgated by the FCC. Because the interpretation by the courts and the FCC of the indecency rules is not always clear, it is sometimes difficult for us to determine in advance what may be indecent programming. We have insurance to cover some of the liabilities that may occur, but the FCC has enhanced its enforcement efforts relating to the regulation of indecency. In addition, in 2006, Congress dramatically increased the penalties for broadcasting indecent programming and potentially subjects broadcasters to license revocation, renewal or qualification proceedings in the event that they broadcast indecent material. We are currently subject to pending FCC inquiries and proceedings relating to alleged violations of indecency, sponsorship identification, children's programming and captioning rules. There can be no assurance that an incident that may lead to significant fines or other penalties by the FCC can be avoided.

In addition, action on many license renewal applications, including those we have filed, has been delayed because of, among other reasons, the pendency of complaints that programming aired by the various networks contained indecent material and complaints regarding alleged violations of sponsorship identification, children's programming and captioning rules. We cannot predict when the FCC will address these complaints and act on the renewal applications. We continue to have operating authority until final action is taken on our renewal applications.

Federal regulation of the broadcasting industry limits our operating flexibility, which may affect our ability to generate revenue or reduce our costs.

The FCC regulates our business, just as it does all other companies in the broadcasting industry. We must ask the FCC's approval whenever we need a new license, seek to renew, assign or modify a license, purchase a new station, sell an existing station or transfer the control of one of our subsidiaries that hold a license. Our FCC licenses and those of the licensees for which we provide services to pursuant to LMAs and other outsourcing agreements are critical to our operations; we cannot operate without them. We cannot be certain that the FCC will renew these licenses in the future or approve new acquisitions in a timely manner, if at all. If licenses are not renewed or acquisitions are not approved, we may lose revenue that we otherwise could have earned.

In addition, Congress and the FCC may, in the future, adopt new laws, regulations and policies regarding a wide variety of matters (including, but not limited to, technological changes in spectrum assigned to particular services) that could, directly or indirectly, materially and adversely affect the operation and ownership of our broadcast properties. (See *Item 1. Business*.)

The FCC's multiple ownership rules limit our ability to operate multiple television stations in some markets and may result in a reduction in our revenue or prevent us from reducing costs. Changes in these rules may threaten our existing strategic approach to certain television markets.

Changes in rules on television ownership

As discussed in *National Ownership Rule* under *Federal Regulation of Television Broadcasting* within *Item 1. Business*, the FCC is currently considering elimination of the discount given to owners of UHF stations in determining compliance with the cap. Because we would be near the 39% cap without application of the UHF discount, the proposed change, if adopted, could limit our ability to acquire television stations in additional markets. While this rulemaking is pending, the FCC may not allow us to acquire additional television stations that would put us over the 39% cap without application of the UHF discount.

Under federal law, the FCC is required to review its ownership rules every four years (a Quadrennial Review) to determine whether they are necessary in the public interest as the result of competition and to repeal or modify any

Table of Contents

regulation the FCC determines to be no longer in the public interest. As a result of its most recently completed Quadrennial Review, the FCC released an order in February 2008, containing its current local ownership rules, which re-adopted its 1999 local television ownership rule. Those rules were upheld by the U.S. Court of Appeals for the Third Circuit and a request for certiorari was denied by the Supreme Court.

On December 22, 2011, the FCC released a Notice of Proposed Rulemaking in its 2010 Quadrennial Review. Numerous parties, including Sinclair, submitted comments in response to that Notice. On March 30, 2014, the FCC issued a Further Notice of Proposed Rulemaking and Report and Order (the Further Notice) and announced that it would incorporate the record of the 2010 Quadrennial Review into a new 2014 Quadrennial Review, and requested additional comments on, among other things, whether to eliminate restrictions on newspaper/radio combinations and whether to eliminate the radio/television cross-ownership rule. The Further Notice indicated that the FCC intended to retain the current local television and radio ownership rule with a minor technical update and to retain the prohibition on the cross ownership of newspapers and television without modification.

The FCC adopted a new rule in the Further Notice which causes a station to be attributable to the owner of another station in the market which sells more than 15 percent of the advertising on the first station pursuant to a JSA/SSA or other arrangement. Parties to such agreements must come into compliance with these new rules by December 19, 2016. Petitions for review of that portion of the Further Notice have been filed in the U.S. Courts of Appeal, and we cannot predict their outcome. We are currently evaluating whether to seek one or more waivers of the new rules, or to modify or terminate our current JSA/SSAs.

Changes in rules on local marketing agreements

Certain of our stations have entered into what have commonly been referred to as local marketing agreements or LMAs. One typical type of LMA is a programming agreement between two separately owned television stations serving the same market, whereby the licensee of one station programs substantial portions of the broadcast day and sells advertising time during such programming segments on the other licensee's station subject to the ultimate editorial and other controls being exercised by the latter licensee. We believe these arrangements allow us to reduce our operating expenses and enhance profitability.

See *Changes in the Rules on Television Ownership and Local Marketing Agreements* within Note 11. *Commitments and Contingencies* for further discussion.

Use of outsourcing agreements

In addition to our LMAs, we have entered into outsourcing agreements whereby 28 stations (and may seek opportunities for additional) provide or are provided various non-programming related services such as sales, operational and managerial services to or by other stations within the same markets. Pursuant to these agreements, 27 of our stations currently provide services to one or more stations in each of its respective market and another party provides services to 1 of our stations. For additional information, refer to *Markets and Stations* under the *Television Broadcasting* section.

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

We believe this structure allows stations to achieve operational efficiencies and economies of scale, which should otherwise improve broadcast cash flow and competitive positions. The FCC adopted a new rule which causes a station to be attributable to the owner of another station in the market which sells more than 15 percent of the advertising on the first station pursuant to an outsourcing arrangement. Parties to such agreements must come into compliance with these new rules by December 19, 2016. Appeals of that portion of the Further Notice have been filed in the U.S. Court of Appeals, and we cannot predict their outcome. We are currently evaluating whether to seek one or more waivers of the new rules, or to modify or terminate our current JSAs. We cannot predict whether we will be able to terminate or restructure such arrangements on terms that are as advantageous to us as the current arrangements. In addition, on March 12, 2014, the FCC issued a public notice providing guidelines as to the FCC's processing of applications that seek approval of proposed transactions that involve combinations of sharing arrangements and contingent or financial interests. These processing guidelines will likely affect our ability to enter into JSA/SSAs in connection with future acquisitions.

If we are required to terminate or modify our LMAs and other outsourcing agreements, our business could be affected in the following ways:

- *Loss of revenues.* If the FCC requires us to modify or terminate existing arrangements, we would lose some or all of the revenues generated from those arrangements. We would lose revenue because we will have less demographic options, a smaller audience distribution and lower revenue share to offer to advertisers. During the year ended

Table of Contents

December 31, 2014, we generated \$105.2 million of net revenue from our 12 LMAs. During the year ended December 31, 2014, we earned \$48.8 million of revenue from other outsourcing agreements.

- *Increased costs.* If the FCC requires us to modify or terminate existing arrangements, our cost structure would increase as we would potentially lose significant operating synergies and we may also need to add new employees. With termination of LMAs, we likely would incur increased programming costs because we will be competing with the separately owned station for syndicated programming.
- *Losses on investments.* As part of certain of our arrangements, we own the non-license assets used by the stations with which we have arrangements. If certain of these arrangements are no longer permitted, we would be forced to sell these assets, restructure our agreements or find another use for them. If this happens, the market for such assets may not be as good as when we purchased them and, therefore, we cannot be certain of a favorable return on our original investments.
- *Termination penalties.* If the FCC requires us to modify or terminate existing arrangements before the terms of the arrangements expire, or under certain circumstances, we elect not to extend the terms of the arrangements, we may be forced to pay termination penalties under the terms of certain of our arrangements. Any such termination penalties could be material.
- *Alternative arrangements.* If the FCC requires us to terminate the existing arrangements, we may enter into one or more alternative arrangements. Any such arrangements may be on terms that are less beneficial to us than the existing arrangements.

Failure of owner / licensee to exercise control

The FCC requires the owner / licensee of a station to maintain independent control over the programming and operations of the station. As a result, the owners / licensees of those stations with which we have LMAs or outsourcing agreements can exert their control in ways that may be counter to our interests, including the right to preempt or terminate programming in certain instances. The preemption and termination rights cause some uncertainty as to whether we will be able to air all of the programming that we have purchased under our LMAs and therefore, uncertainty about the advertising revenue that we will receive from such programming. In addition, if the FCC determines that the owner / licensee is not exercising sufficient control, it may penalize the owner licensee by a fine, revocation of the license for the station or a denial of the renewal of that license. Any one of these scenarios, especially the revocation of or denial of renewal of a license, might result in a reduction of our cash flow and an increase in our operating costs or margins. In addition, penalties might also affect our qualifications to hold FCC licenses, putting our own licenses at risk.

The pendency and indeterminacy of the outcome of these ownership rules, which may limit our ability to provide services to additional or existing stations pursuant to licenses, LMAs, outsourcing agreements or otherwise, expose us to a certain amount of volatility, particularly if the outcomes are adverse to us. Further, resolution of these ownership rules has been and will likely continue to be a cost burden and a distraction to our management and the continued absence of a resolution may have a negative effect on our business.

The FCC's National Broadband Plan may result in a loss of spectrum for our stations potentially adversely impacting our ability to compete.

The FCC's National Broadband Plan contemplates the voluntary reallocation of spectrum from broadcasters for other purposes which may include wireless broadband. On November 30, 2010, the FCC initiated a Notice of Proposed Rulemaking that seeks comments on three methods that would permit up to 120 MHz of television spectrum to be reallocated for wireless broadband use: (a) encouraging broadcasters voluntarily

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

to return 120 MHz of spectrum to be auctioned for wireless broadband service, with some currently unknown portion of the proceeds to be paid to broadcasters; (b) adoption of rules to encourage two or more digital television stations to share the same 6 MHz channel, thus lessening the spectrum occupied by each station; and (c) to adopt new engineering rules which would make VHF channels more desirable for digital television operations, thus encouraging stations to move from their current UHF channels into the VHF band, freeing UHF spectrum for wireless broadband use. This initiative raises a number of issues that could impact the broadcast industry. We cannot predict whether any of these proposals will be adopted, or, if adopted, the form of such final rules or whether they would have an adverse impact on our ability to compete. Moreover, we cannot predict whether the FCC might adopt even more stringent requirements, or incentives to abandon current spectrum, if its initiatives are adopted but do have the desired result in freeing what the agency deems sufficient spectrum for wireless broadband use.

Congress recently passed legislation providing the FCC with authority to conduct so-called incentive auctions to begin the process of auctioning and repurposing broadcast television spectrum for mobile broadband use. Incentive auction authority allows the FCC to share the proceeds of spectrum auctions with incumbent television station licensees who give up their licenses (or in some cases, move to a different channel) to facilitate spectrum auctions. The legislation includes specific

Table of Contents

provisions governing incentive auctions of spectrum that is used by television broadcasters today. The upper UHF bands allocated to television broadcasting will likely be used to provide service to mobile devices and are widely expected to draw bids from wireless operators at auction. The legislation contemplates that the FCC will encourage broadcasters to tender their licenses for auction. Using models it has been developing for the last two years (and will continue to develop) the FCC would then repack non-tendering broadcasters into the lower portion of the UHF band auction new flexible use wireless licenses in the upper portion of the UHF band. As a result of these changes, new companies will likely be able to enter our markets to compete with us. The proposals for television stations to participate in the incentive auctions are voluntary and at this time we have not decided whether the company will participate on behalf of any of its stations. On September 28, 2012, the FCC voted in favor of a Notice of Proposed Rulemaking that launches the incentive auction process to clear a portion of the television band that will make way for mobile broadband use. We cannot predict the final outcome of this proceeding.

Competition from other broadcasters or other content providers and changes in technology may cause a reduction in our advertising revenues and/or an increase in our operating costs.

New technology and the subdivision of markets

Cable providers, direct broadcast satellite companies and telecommunication companies are developing new technology that allows them to transmit more channels on their existing equipment to highly targeted audiences, reducing the cost of creating channels and potentially leading to the division of the television industry into ever more specialized niche markets. Competitors who target programming to such sharply defined markets may gain an advantage over us for television advertising revenues. The decreased cost of creating channels may also encourage new competitors to enter our markets and compete with us for advertising revenue. In addition, technologies that allow viewers to digitally record, store and play back television programming may decrease viewership of commercials as recorded by media measurement services such as Nielsen Media Research and, as a result, lower our advertising revenues. The current ratings provided by Nielsen for use by broadcast stations are limited to live viewing Digital Video Recording playback and give broadcasters no credit whatsoever for viewing that occurs on a delayed basis after the original air date. However, the effects of new ratings system technologies, including people meters and set-top boxes, and the ability of such technologies to be a reliable standard that can be used by advertisers is currently unknown. In 2010, the Media Rating Council, an independent organization that monitors rating services, revoked Nielsen's accreditation in the 154 markets it measures ratings exclusively by its diary methodology. We have 233 of our channels located in diary only markets as of December 31, 2014.

Since digital television technology allows broadcasting of multiple channels within the additional allocated spectrum, this technology could expose us to additional competition from programming alternatives. In addition, technological advancements and the resulting increase in programming alternatives, such as cable television, direct broadcast satellite systems, pay-per-view, home video and entertainment systems, video-on-demand, mobile video and the Internet have also created new types of competition to television broadcast stations and will increase competition for household audiences and advertisers. We cannot provide any assurances that we will remain competitive with these developing technologies.

Types of competitors

We also face competition from rivals that may have greater resources than we have. These include:

- other local free over-the-air broadcast television and radio stations;
- telecommunication companies;
- cable and satellite system operators;
- print media providers such as newspapers, direct mail and periodicals;
- internet search engines, internet service providers and websites; and
- other emerging technologies including mobile television.

Deregulation

The Telecommunications Act of 1996 and subsequent actions by the FCC and the courts have removed some limits on station ownership, allowing telephone, cable and some other companies to provide video services in competition with us. In addition, the FCC has reallocated and auctioned off a portion of the spectrum for new services including fixed and mobile wireless services and digital broadcast services. As a result of these changes, new companies are able to enter our markets and compete with us.

Table of Contents

We could be adversely affected by labor disputes and legislation and other union activity.

The cost of producing and distributing entertainment programming has increased substantially in recent years due to, among other things, the increasing demands of creative talent and industry-wide collective bargaining agreements. Although we generally purchase programming content from others rather than produce such content ourselves, our program suppliers engage the services of writers, directors, actors and on-air and other talent, trade employees and others, some of whom are subject to these collective bargaining agreements. Also, as of February 23, 2015, approximately 800 of our employees, including certain new employees at the stations we acquired during 2014, are represented by labor unions under collective bargaining agreements. If we or our program suppliers are unable to renew expiring collective bargaining agreements, it is possible that the affected unions could take action in the form of strikes or work stoppages. Failure to renew these agreements, higher costs in connection with these agreements or a significant labor dispute could adversely affect our business by causing, among other things, delays in production that lead to declining viewers, a significant disruption of operations and reductions in the profit margins of our programming and the amounts we can charge advertisers for time. Our stations also broadcast certain professional sporting events, including NBA basketball games, MLB baseball games, NFL football games, and other sporting events, and our viewership may be adversely affected by player strikes or lockouts, which could adversely affect our advertising revenues and results of operations. Further, any changes in the existing labor laws, including the possible enactment of the Employee Free Choice Act, may further the realization of the foregoing risks.

Unrelated third parties may bring claims against us based on the nature and content of information posted on websites maintained by us.

We host internet services that enable individuals to exchange information, generate content, comment on our content, and engage in various online activities. The law relating to the liability of providers of these online services for activities of their users is currently unsettled both within the United States and internationally. Claims may be brought against us for defamation, negligence, copyright or trademark infringement, unlawful activity, tort, including personal injury, fraud, or other theories based on the nature and content of information that may be posted online or generated by our users. Our defense of such actions could be costly and involve significant time and attention of our management and other resources.

Costs of complying with changes in governmental laws and regulations may adversely affect our results of operations.

We cannot predict what other governmental laws or regulations will be enacted in the future, how future laws or regulations will be administered or interpreted or how future laws or regulations will affect us. Compliance with new laws or regulations, including proposed legislation to address climate change, or stricter interpretation of existing laws, may require us to incur significant expenditures or impose significant restrictions on us and could cause a material adverse effect on our results of operations.

Changes in accounting standards can affect reported earnings and results of operations.

Generally accepted accounting principles and accompanying pronouncements and implementation guidelines for many aspects of our business, including those related to intangible assets, pensions, income taxes, share-based compensation and broadcast rights, are complex and involve significant judgments. Changes in rules or their interpretation could significantly change our reported earnings and results of operations.

Terrorism or armed conflict domestically or abroad may negatively impact our advertising revenues and results of operations. Future conflicts, terrorist attacks or other acts of violence may have a similar effect.

The commencement of the war in Iraq in 2002 and activities in Afghanistan resulted in a reduction of advertising revenues as a result of uninterrupted news coverage and/or general economic uncertainty. If the United States becomes engaged in similar conflicts in the future, there may be a similar adverse effect on our results of operations. Also, any terrorist attacks or other acts of violence may have a similar negative effect on our business or results of operations.

Cybersecurity risks and cyber incidents could adversely affect our business and disrupt operations.

Cyber incidents can result from deliberate attacks or unintentional events. These incidents can include, but are not limited to, gaining unauthorized access to digital systems for purposes of misappropriating assets or sensitive information, corruption data, or causing operational disruption. The result of these incidents could include, but are not limited to, disrupted operations, misstated financial data, liability for stolen assets or information, increased cybersecurity protection costs, litigation and reputational damage adversely affecting customer or investor confidence.

Table of Contents**ITEM 1B. UNRESOLVED STAFF COMMENTS**

None.

ITEM 2. PROPERTIES

Generally, each of our stations has facilities consisting of offices, studios and tower sites. Transmitter and tower sites are located to provide maximum signal coverage of our stations' markets. We believe that all of our properties, both owned and leased, are generally in good operating condition, subject to normal wear and tear and are suitable and adequate for our current business operations. The following is a summary of our principal owned and leased real properties. Approximately 131,281 square feet of leased office and warehouse buildings is related to our corporate facilities and is not included in the table below. We believe that no one property represents a material amount of the total properties owned or leased. See *Markets and Stations under Television Broadcasting* within *Item 1. Business*, for a listing of our station locations.

Broadcast Segment	Owned	Leased
Office and studio buildings	1,699,232 square feet	694,100 square feet
Office and studio land	815 acres	7 acres
Transmitter building sites	240,964 square feet	85,247 square feet
Transmitter and tower land	1,935 acres	967 acres

Other Operating Divisions Segment	Owned	Leased
Office and warehouse buildings		80,760 square feet
Recreational land	722 acres	
Real estate rental property	474,556 square feet	
Land held for development and sale	735 acres	

ITEM 3. LEGAL PROCEEDINGS

We are a party to lawsuits and claims from time to time in the ordinary course of business. Actions currently pending are in various stages and no material judgments or decisions have been rendered by hearing boards or courts in connection with such actions. After reviewing developments to date with legal counsel, our management is of the opinion that the outcome of our pending and threatened matters will not have a material adverse effect on our consolidated balance sheets, consolidated statements of operations or consolidated statements of cash flows.

ITEM 4. MINE SAFETY DISCLOSURES

None.

Table of Contents**PART II****ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES**

Our Class A Common Stock is listed for trading on the NASDAQ stock market under the symbol SBGI. Our Class B Common Stock is not traded on a public trading market or quotation system. The following tables set forth for the periods indicated the high and low closing sales prices on the NASDAQ stock market for our Class A Common Stock.

2014		High		Low
First Quarter	\$	36.74	\$	24.42
Second Quarter	\$	34.75	\$	25.12
Third Quarter	\$	35.90	\$	25.48
Fourth Quarter	\$	29.95	\$	23.94

2013		High		Low
First Quarter	\$	20.29	\$	12.82
Second Quarter	\$	29.94	\$	19.61
Third Quarter	\$	34.04	\$	23.92
Fourth Quarter	\$	35.73	\$	31.35

As of February 20, 2015, there were approximately 56 shareholders of record of our common stock. This number does not include beneficial owners holding shares through nominee names.

Dividend Policy

During 2013, our Board of Directors declared a quarterly dividend of \$0.15 per share in the months of February, April, August and November, which were paid in March, June, September and December, respectively, for total dividend payments of \$0.60 per share for the year ended December 31, 2013. During 2014, our Board of Directors declared a quarterly dividend of \$0.15 per share in the months of February and April, which were paid in March and June. In August and November our Board of Directors declared a quarterly dividend of \$0.165 per share, which were paid in September and December. Total dividend payments for the year ended December 31, 2014 were \$0.63 per share. In February 2015, our Board of Directors declared a quarterly dividend of \$0.165 per share. Future dividends on our common shares, if any, will be at the discretion of our Board of Directors and will depend on several factors including our results of operations, cash requirements and surplus, financial condition, covenant restrictions and other factors that the Board of Directors may deem relevant. The Class A Common Stock and Class B Common Stock holders have the same rights related to dividends. Under our Bank Credit Agreement, in certain circumstances, we may make unrestricted cash payments as long as our first lien indebtedness ratio does not exceed 3.75 to 1.00. Once our first lien indebtedness ratio exceeds 3.75 to 1.00, we have the ability to make up to \$200.0 million in unrestricted annual cash payments including but not limited to dividends, of which \$50.0 million may carry over to the next year, as long as we are in compliance with our first lien indebtedness ratio under the Bank Credit Agreement of 4.00 to 1.00. In addition, we have an aggregate basket of up to \$250.0 million, as long as we are in compliance with our first lien indebtedness ratio of 4.00 to 1.00, and an aggregate basket of \$50.0 million, as long as no Event of Default has occurred. Under the indentures governing the 6.125% Notes, 5.375% Notes, 6.375% Notes and 5.625% Notes, we are restricted from paying dividends on our common stock unless certain specified conditions are satisfied, including that:

- no event of default then exists under each indenture or certain other specified agreements relating to our indebtedness; and
- after taking account of the dividends payment, we are within certain restricted payment requirements contained in each indenture.

In addition, under certain of our debt instruments, the payment of dividends is not permissible during a default thereunder.

Table of Contents*Issuer Purchases of Equity Securities*

The following table summarizes repurchases of our stock in the quarter ended December 31, 2014:

Period	Total Number of Shares Purchased (1)	Average Price Per Share	Total Number of Shares Purchased as Part of a Publicly Announced Program	Approximate Dollar Value of Shares That May Yet Be Purchased Under the Program (in millions)
Class A Common Stock : (2)				
10/01/14 10/31/14	942,415	\$ 25.59	942,415	\$ 134.9
11/01/14 11/31/14				\$ 134.9
12/01/14 12/30/14	19,200	\$ 25.71	19,200	\$ 134.4

(1) All repurchases were made in open-market transactions.

(2) On February 6, 2008, the Board of Directors renewed a \$150.0 million share repurchase program. On March 20, 2014, the Board of Directors authorized a new \$150.0 million share repurchase authorization. There is no expiration date for this program and currently management has no plans to terminate this program. As of December 31, 2014, the total remaining authorization was \$134.4 million. In January 2015, we repurchased 0.3 million shares of Class A Common Stock for \$7.8 million.

Comparative Stock Performance

The following line graph compares the yearly percentage change in the cumulative total shareholder return on our Class A Common Stock with the cumulative total return of the NASDAQ Composite Index and the cumulative total return of the NASDAQ Telecommunications Index (an index containing performance data of radio and television broadcast companies and communication equipment and accessories manufacturers) from December 31, 2009 through December 31, 2014. The performance graph assumes that an investment of \$100 was made in the Class A Common Stock and in each Index on December 31, 2009 and that all dividends were reinvested. Total shareholder return is measured by dividing total dividends (assuming dividend reinvestment) plus share price change for a period by the share price at the beginning of the measurement period.

Company/Index/Market	12/31/09	12/31/10	12/31/11	12/31/12	12/31/13	12/31/14
Sinclair Broadcast Group, Inc.	100.00	213.92	311.32	398.39	1158.43	906.29
NASDAQ Telecommunications Index	100.00	107.95	96.16	100.40	139.11	148.69
NASDAQ Composite Index	100.00	117.61	118.70	139.00	196.83	223.74

Table of Contents

Table of Contents**ITEM 6. SELECTED FINANCIAL DATA**

The selected consolidated financial data for the years ended December 31, 2014, 2013, 2012, 2011 and 2010 have been derived from our audited consolidated financial statements.

The information below should be read in conjunction with *Management's Discussion and Analysis of Financial Condition and Results of Operations* and the consolidated financial statements included elsewhere in this annual report on Form 10-K.

(a) Net broadcast revenues is defined as broadcast revenues, net of agency commissions.

(b) Depreciation and amortization includes depreciation and amortization of property and equipment and amortization of definite-lived intangible assets and other assets.

(c) Total debt is defined as notes payable, capital leases and commercial bank financing, including the current and long-term portions.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following Management's Discussion and Analysis provides qualitative and quantitative information about our financial performance and condition and should be read in conjunction with our consolidated financial statements and the accompanying notes to those statements. This discussion consists of the following sections:

Executive Overview a description of our business, financial highlights from 2014, information about industry trends and sources of revenues and operating costs;

Critical Accounting Policies and Estimates a discussion of the accounting policies that are most important in understanding the assumptions and judgments incorporated in the consolidated financial statements and a summary of recent accounting pronouncements;

Results of Operations a summary of the components of our revenues by category and by network affiliation or program service arrangement, a summary of other operating data and an analysis of our revenues and expenses for 2014, 2013 and 2012, including comparisons between years and certain expectations for 2015; and

Liquidity and Capital Resources a discussion of our primary sources of liquidity, an analysis of our cash flows from or used in operating activities, investing activities and financing activities, a discussion of our dividend policy and a summary of our contractual cash obligations and off-balance sheet arrangements.

We have one reportable operating segment (broadcast), which includes our television and radio stations and is reported separately from our other operating divisions and corporate activities. The results of our other operating divisions consist primarily of revenues and expenses earned from sign design and fabrication; regional security alarm operating and bulk acquisitions; manufacturing and service of television broadcast antennas and transmitters; and real estate ventures.

STG, included in the broadcast segment and a wholly owned subsidiary of Sinclair Broadcast Group, Inc. (SBG), is the primary obligor under our Bank Credit Agreement, the 6.125% Notes, the 5.375% Notes, 6.375% Notes, and 5.625% Notes. SBG is a guarantor under the Bank Credit Agreement, the 6.125% Notes, the 5.375% Notes, 6.375% Notes, and 5.625% Notes. Our Class A Common Stock and Class B Common Stock remain obligations or securities of SBG and not obligations or securities of STG. SBG was the obligor of the 9.25% Notes and the 8.375% Notes until they were fully redeemed in 2013 and 2014, respectively.

Table of Contents

EXECUTIVE OVERVIEW

2014 Events

Acquisitions / Divestments:

- Effective August 1, 2014, we completed the acquisition of all of the outstanding common stock of Perpetual Corporation and equity interest of Charleston Television, LLC (the Allbritton Companies) for \$985.0 million plus working capital of \$50.2 million. We financed the total purchase price with proceeds from the issuance of 5.625% senior unsecured notes, a draw on our Bank Credit Agreement, and cash on hand. In conjunction with the acquisition, we terminated our LMA in Charleston, SC with WTAT-TV (FOX) and sold the non-license assets of WTAT to Cunningham for \$14.0 million.
- Effective September 1, 2014, we completed the acquisition of the assets of WGXA-TV (FOX) in Macon, GA from Frontier Broadcast Holdings, LLC for \$33.0 million.
- Effective September 1, 2014, we closed on the sale of WHTM-TV in Harrisburg, PA to Media General for \$83.4 million.
- On November 1, the Company closed on the previously announced purchase of the non-license assets of 8 stations in 3 markets from New Age Media.
- On November 1, the Company closed on the previously announced purchase of the non-license assets of KSNV-TV (NBC) in Las Vegas, NV from Intermountain West.
- On December 19, the Company closed on the acquisition of 4 stations in 3 markets from Media General, Inc. and the sale of 3 stations in 2 markets to Media General.

Other:

- In February 2014, our Board of Directors declared a quarterly dividend of \$0.15 per share, payable on March 14, 2014 to the holders of record at the close of business on February 28, 2014.
- During February 2014, we announced our intent to repurchase, under an existing authorization, from time to time, up to \$100 million of our Class A common shares on the open market. During March 2014, the Board of Directors authorized an additional \$150.0 million share repurchase authorization of Class A common shares, to be accessed once the existing authorization is exhausted. During 2014 we repurchased a total of \$133.2 million or 4.9 million shares at an average price of \$27.33 per share. As of December 31, 2014, the total remaining authorization for repurchases was \$134.4 million.
- Effective April 1, 2014, we promoted David B. Amy to Executive Vice President and Chief Operating Officer from Executive Vice President and Chief Financial Officer and named Christopher Ripley as Chief Financial Officer.

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

- In April 2014, we reached a multi-year retransmission consent agreement with Charter Communications.
- In May 2014, our Board of Directors declared a quarterly dividend of \$0.15 per share, payable on June 13, 2014, to the holders of record at the close of business on May 30, 2014.
- In May 2014, we announced the launch of ONE Media, LLC, a joint venture between Coherent Logix and Sinclair with a vision to build the Next Generation Broadcast Platform, enabling broadcasting to be competitive across all platforms. This broadcast platform will support all business models, whether fixed services to the home, portable service within the home, or nomadic services outside the home.
- In June 2014, we signed an agreement to broadcast getTV in 33 markets beginning in the summer 2014.
- In July 2014, STG issued \$550.0 million in senior unsecured notes, which bear interest at a rate of 5.625% per annum and mature on August 1, 2024. The proceeds from the offering of the 5.625% Notes, together with borrowings under our Bank Credit Agreement and cash on hand, were used to finance the acquisition of the Allbritton companies on July 31, 2014.
- In July 2014, we amended and restated our existing bank credit facility raising \$400.0 million of additional term loan B commitments, which matures in 2021 and bear interest at LIBOR plus 2.75%, with a 0.75% floor. Additionally, \$327.7 million of our term loan A commitments were converted to revolving commitments.
- In July 2014, we launched the American Sports Network (ASN), a collegiate sports initiative to be broadcast on a number of our television stations, which have entered into comprehensive sports rights agreements with a number of distinguished NCAA Division I conferences.
- In August 2014, our Board of Directors declared a quarterly dividend of \$0.165 per share, payable on September 15, 2014 to the holders of record at the close of business on August 29, 2014.
- In August 2014, we launched an Original Programming Division that will focus on the creation and development of low-cost original entertainment and long-form content.
- Effective October 15, 2014, we redeemed all of the outstanding 8.375% Senior Notes due 2018, representing \$237.5 million aggregate principal amount of Notes.
- In November 2014, our Board of Directors declared a quarterly dividend of \$0.165 per share, payable on December 15, 2014 to the holders of record at the close of business on December 1, 2014.
- In December 2014, we signed an agreement to broadcast Grit TV in 47 markets in December 2014 and January 2015.
- During 2014, we successfully completed negotiations for new retransmission consent agreements with over 490 multichannel video programming distributors, including U-verse, FiOS, Armstrong Utilities, Atlantic Broadband, CableOne, CenturyLink, Wave Broadband and Wide Open West. The new retransmission consent agreements provided uninterrupted carriage of our stations to over 6.3 million unique subscribers, representing over 99.9% of subscribers covered by the expiring agreements.

Table of Contents

2015 Events

- In January 2015, we appointed Howard E. Friedman to the Board of Directors. Mr. Friedman will stand for re-election at our next annual meeting of shareholders.
- During January 2015, we repurchased \$7.8 million or 0.3 million shares at an average price of \$25.60 per share. As of January 31, 2015, the total remaining authorization for repurchases was \$126.6 million.
- In February 2015, our Board of Directors declared a quarterly dividend of \$0.165 per share, payable March 13, 2015 to the holders of record at the close of business on February 27, 2015.

Industry Trends

- Political advertising increases in even-numbered years, such as 2014, due to the advertising expenditures from candidates running in local and national elections and issue-related advertiser spending. In every fourth year, such as 2012, political advertising is usually elevated further due to presidential elections;
- The FCC has permitted broadcast television stations to use their digital spectrum for a wide variety of services including multi-channel broadcasts. The FCC must-carry rules only apply to a station's primary digital stream;
- Retransmission consent rules provide a mechanism for broadcasters to seek payment from MVPDs who carry broadcasters' signals. Recognition of the value of the programming content provided by broadcasters, including local news and other programming and network programming all in HD has generated increased local revenues;
- We, as well as a number of other broadcasters, have joined and worked together in organizations such as the NAB (along with OMVC now merged), M500 and the MCV to focus on efforts to accelerate the nationwide availability of mobile DTV and other advanced digital distribution services and work through the many programming, advertising, distribution and aggregation opportunities. There is potential for broadcasters to create an additional revenue stream by providing their signals to a wide variety of mobile / portable devices (tablets, laptops, smartphones, etc.) as well as through other multi-channel / multi-platform initiatives;
- Many broadcasters are enhancing / upgrading their websites to use the internet to deliver rich media content, such as newscasts and weather updates, to attract advertisers and to compete with other internet sites and smart phone and tablet device applications and other social media outlets;
- Seasonal advertising increases occur in the second and fourth quarters due to the anticipation of certain seasonal and holiday spending by consumers;
- Broadcasters have found ways to increase returns on their news programming initiatives while continuing to maintain locally produced content through the use of news sharing arrangements;
- Station outsourcing arrangements are becoming more common as broadcasters seek out ways to improve revenues and margins; and
- Advertising revenue related to the Olympics occurs in even numbered years and the Super Bowl is aired on a different network each year. Both of these popularly viewed events can have an impact on our advertising revenues.

Sources of Revenues

Our operating revenues are derived from local and national advertisers and, to a much lesser extent, from political advertisers. We also generate local revenues from our retransmission consent agreements with MVPDs. Revenues from national advertisers have continued to trend downward when measured as a percentage of total broadcast revenues. We believe this trend is the result of our focus on increasing local advertising revenues as a percentage of total advertising revenues, combined with a decrease in overall spending by advertisers transacted through our rep firm and an increase in the number of competitive media outlets providing national advertisers multiple alternatives in which to advertise their goods or services. Our efforts to mitigate the effect of these increasingly competitive media outlets for national advertisers include continuing our efforts to increase local revenues and developing innovative sales and marketing strategies to sell traditional and non-traditional services to our advertisers including the success of multi-channel digital initiatives together with mobile DTV. In addition, our revenue success is dependent on the success and advertising spending levels of the automotive industry.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

This discussion and analysis of our financial condition and results of operations is based on our consolidated financial statements which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amount of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates including those related to goodwill and intangible assets, program contract costs, and income taxes. We base our estimates on historical experience

Table of Contents

and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. These estimates have been consistently applied for all years presented in this report and in the past we have not experienced material differences between these estimates and actual results. However, because future events and their effects cannot be determined with certainty, actual results could differ from our estimates and such differences could be material.

We consider the following accounting policies to be the most critical as they are important to our financial condition and results of operations, and require significant judgment and estimates on the part of management in their application. For a detailed discussion of the application of these and other accounting policies, see *Note 1. Nature of Operations and Summary of Significant Accounting Policies*.

Valuation of Goodwill and Intangible Assets

At least annually, we periodically evaluate our goodwill and broadcast licenses for potential impairment indicators. Our judgments regarding the existence of impairment indicators are based on estimated future cash flows, market conditions, operating performance of our stations, legal factors and other various qualitative factors. As of December 31, 2014, our consolidated balance sheet includes \$1,964.6 million of goodwill related to our Broadcast segment and \$135.1 million of broadcast licenses.

Both our annual goodwill and broadcast license impairment assessments begin with qualitatively assessing whether it is more-likely-than-not that the respective asset has been impaired. If we conclude that it is more-likely-than-not that a reporting unit or broadcast license is impaired, we apply the quantitative assessment, which involves comparing the estimated fair value of the reporting unit or broadcast license to its respective carrying value. See *Impairment of Goodwill, Intangibles and Other Long-Lived Assets* within *Note 1. Nature of Operations and Summary of Significant Accounting Policies* for further discussion of the significant judgments and estimates inherent in both qualitatively assessing whether impairment may exist and estimating the fair values of the reporting units and broadcast licenses. See *Note 6. Goodwill, Broadcast Licenses and Other Intangible Assets* for the results of our annual impairment tests during the years ended December 31, 2014, 2013 and 2012.

For our annual goodwill impairment tests in 2014 and 2013, we concluded that it was more-likely-than-not that goodwill was not impaired based on our qualitative assessments. In 2012, we concluded that it was more-likely-than-not that goodwill was not impaired based on our qualitative assessments, except for three reporting units. For those markets, we estimated the fair values of these reporting units, which had aggregate carrying value of goodwill of \$79.5 million, and concluded that each of the reporting unit fair values exceeded the respective carrying values by more than 10%. In estimating the fair values, an increase in the discount rates applied and/or decrease in market multiple assumed of 10%, would not have resulted in an impairment of goodwill.

For our annual impairment tests for broadcast licenses in 2013 and 2012, we concluded that it was more-likely-than-not that the broadcast licenses were not impaired based on our qualitative assessments. In 2014, we concluded that it was more-likely-than-not that broadcast licenses were not impaired based on our qualitative assessments, except for broadcast licenses with an aggregate carrying value of \$39.3 million for which we performed the quantitative assessment. We concluded that licenses with an aggregate carrying value of \$21.1 million exceeded their respective carrying values. We recorded \$3.2 million of impairment primarily as a result of declines in projected future market revenues related to the radio broadcast licenses.

We believe we have made reasonable estimates and utilized appropriate assumptions to evaluate whether it was more likely than not that the fair values of our reporting units and broadcast licenses were less than their carrying values. If future results are not consistent with our assumptions and estimates, including future events such as a deterioration of market conditions or significant increases in discount rates, we could be exposed to impairment charges in the future. Any resulting impairment loss could have a material adverse impact on our consolidated balance sheets, consolidated statements of operations and consolidated statements of cash flows.

Program Contract Costs. As discussed under *Programming* within *Note 1. Nature of Operations and Summary of Significant Accountant Policies*, we record an asset and corresponding liability for programming rights when the cost of each program is known or reasonably determinable, the program material has been accepted by the licensee in accordance with the conditions of the license agreement and the program is available for its first showing or telecast. These costs are expensed over the period in which an economic benefit is expected to be derived. To ensure the related assets for the programming rights are reflected in the consolidated balance sheets at the lower of unamortized cost or estimated net realizable value (NRV), management estimates future advertising revenue, net of sales commissions, to be generated by the remaining program material available under the contract terms. Management's judgment is required in determining the timing of expense for these costs, which is dependent on the economic benefit expected to be generated from the program and may significantly differ from the timing of related payments under the contractual obligation. If our estimates of future advertising revenues decline, amortization expense could be accelerated or NRV adjustments may be required.

Table of Contents

Income Tax. As discussed under *Income Taxes* within *Note 1. Nature of Operations and Summary of Significant Accountant Policies*, we recognize deferred tax assets and liabilities based on the differences between the financial statement carrying amounts and the tax bases of assets and liabilities. We provide a valuation allowance for deferred tax assets if we determine that it is more likely than not that some or all of the deferred tax assets will not be realized. In evaluating our ability to realize net deferred tax assets, we consider all available evidence, both positive and negative, including our past operating results, tax planning strategies and forecasts of future taxable income. In considering these sources of taxable income, we must make certain judgments that are based on the plans and estimates used to manage our underlying businesses on a long-term basis. As of December 31, 2014 and 2013, a valuation allowance has been provided for deferred tax assets related to a substantial amount of our available state net operating loss carryforwards based on past operating results, expected timing of the reversals of existing temporary book/tax basis differences, alternative tax strategies and projected future taxable income. Future changes in operating and/or taxable income or other changes in facts and circumstances could significantly impact the ability to realize our deferred tax assets which could have a material effect on our consolidated financial statements.

Management periodically performs a comprehensive review of our tax positions and we record a liability for unrecognized tax benefits when such tax positions do not meet the more-likely-than-not threshold. Significant judgment is required in determining whether a tax position meets the more-likely-than-not threshold, and it is based on a variety of facts and circumstances, including interpretation of the relevant federal and state income tax codes, regulations, case law and other authoritative pronouncements. Based on this analysis, the status of ongoing audits and the expiration of applicable statute of limitations, liabilities are adjusted as necessary. The resolution of audits is unpredictable and could result in tax liabilities that are significantly higher or lower than for what we have provided. See *Note 10. Income Taxes*, for further discussion of accrued unrecognized tax benefits.

Variable Interest Entities. As discussed under *Variable Interest Entities* within *Note 1. Nature of Operations and Summary of Significant Accountant Policies*, we have determined that certain third-party licensees of stations that that we perform services to pursuant to arrangements, including LMAs and JSAs/SSAs, are VIEs and we are the primary beneficiary of those variable interests because, subject to the ultimate control of the licensees, we have the power to direct the activities which significantly impact the economic performance of the VIE through the services we provide and because we absorb losses and returns that would be considered significant to the VIEs. Determining whether the an entity is a VIE and whether we are the primary beneficiary of the variable interests requires judgment which is based on quantitative and qualitative factors that indicate whether or not we are absorbing a majority of the entity's economic risks or receiving a majority of the entity's economic rewards, based on the terms of the arrangements with the entity.

Recent Accounting Pronouncements

See *Recent Accounting Pronouncements* within *Note 1. Nature of Operations and Summary of Significant Accountant Policies* for discussion on recent accounting policies and impact our financial statements.

RESULTS OF OPERATIONS

In general, this discussion is related to the results of our continuing operations, except for discussions regarding our cash flows, which also include the results of our discontinued operations. The results of the acquired stations during the years ended 2012, 2013, and 2014 are included in our results of our continuing operations for the years ended 2012, 2013, and 2014 from their respective dates of acquisition. See *Note 2. Acquisitions* for further discussion of stations acquired. Additionally, the results of certain television stations that were sold and classified as discontinued operations are not included in our results of our continuing operations for the period. See *Discontinued Operations* under *Note 3. Disposition of Assets and Discontinued Operations* for further discussion of excluded stations. Unless otherwise indicated, references in this

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

discussion and analysis to 2014, 2013 and 2012 are to our fiscal years ended December 31, 2014, 2013 and 2012, respectively. Additionally, any references to the first, second, third or fourth quarters are to the three months ended March 31, June 30, September 30 and December 31, respectively, for the year being discussed. We have one reportable segment, broadcast that is disclosed separately from our other operating division and corporate activities.

Table of Contents***Seasonality / Cyclical***

Our operating results are usually subject to seasonal fluctuations. Usually, the second and fourth quarter operating results are higher than the first and third quarters because advertising expenditures are increased in anticipation of certain seasonal and holiday spending by consumers.

Our operating results are usually subject to fluctuations from political advertising. In even numbered years, political spending is usually significantly higher than in odd numbered years due to advertising expenditures preceding local and national elections. Additionally, every four years, political spending is usually elevated further due to advertising expenditures preceding the presidential election.

Operating Data

The following table sets forth certain of our operating data from continuing operations for the years ended December 31, 2014, 2013 and 2012 (in millions). For definitions of terms, see the footnotes to the table in *Item 6. Selected Financial Data*.

	Years Ended December 31,		
	2014	2013	2012
Net broadcast revenues	\$ 1,782.7	\$ 1,217.5	\$ 920.6
Revenues realized from station barter arrangements	122.3	88.7	86.9
Other operating divisions revenues	71.6	56.9	54.2
Total revenues	1,976.6	1,363.1	1,061.7
Station production expenses	577.0	385.1	255.5

Expenses recognized from station barter arrangements	107.7	77.3	79.8
Depreciation and amortization	335.5	222.4	146.2
Other operating divisions expenses	58.9	48.1	46.2
Corporate general and administrative expenses	69.4	53.1	33.4
(Gain) loss on asset dispositions	(37.2)	3.4	
Operating income	\$ 494.7	\$ 324.0	\$ 329.3
Net income attributable to Sinclair Broadcast Group	\$ 212.3	\$ 73.5	\$ 144.7

BROADCAST SEGMENT***Broadcast Revenues***

The following table presents our revenues from continuing operations, net of agency commissions, for the years ended December 31, 2014, 2013 and 2012 (in millions):

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

	2014	2013	2012	Percent Change	
				14 vs. 13	13 vs. 12
Local revenues:					
Non-political	\$ 1,341.7	\$ 954.5	\$ 643.5	40.6%	48.3%
Political	22.3	1.5	12.9	(a)	(a)
Total local	1,364.0	956.0	656.4	42.7%	45.6%
National revenues:					
Non-political	309.2	251.2	180.2	23.1%	39.4%
Political	109.5	10.3	84.0	(a)	(a)
Total national	418.7	261.5	264.2	60.1%	(1.0)%
Total net broadcast revenues	\$ 1,782.7	\$ 1,217.5	\$ 920.6	46.4%	32.3%

(a) Political revenue is not comparable from year to year due to the cyclicity of elections. See *Political Revenues* below for more information.

Our largest categories of advertising and their approximate percentages of 2014 net time sales, which include the advertising portion of our local and national broadcast revenues, were automotive (23.1%), services (15.4%), political (10.6%), medical (5.8%), and retail/department stores (5.2%). No other advertising category accounted for more than 5.0% of our net time sales in 2014. No advertiser accounted for more than 1.2% of our consolidated revenue in 2014. We conduct business with thousands of advertisers.

Table of Contents

Our primary types of programming and their approximate percentages of 2014 net time sales were syndicated programming (30.3%), local news (29.7%), network programming (27.6%), sports programming (8.4%), direct advertising programming (3.9%) and kids (0.1%).

From a network affiliation or program service arrangement perspective, the following table sets forth our affiliate percentages of net time sales for the years ended December 31, 2014 and 2013:

	# of Channels (a)	Percent of Net Time Sales for the Twelve Months Ended December 31,			Net Time Sales Percent Change	
		2014	2013	2012	14 vs. 13	13 vs. 12
FOX	46	27.3%	31.2%	36.9%	25.3%	2.4%
ABC	33	25.7%	19.1%	19.5%	93.5%	18.6%

Other(b)	167	1.4%	2.2%	0.8%	(13.0)%	n/m
Total	373					

n/m- Not meaningful

(a) See *Item 1. Business* for a summary and *Markets and Stations* under *Television Broadcasting* within *Item 1. Business*, for further channel details. We have acquired a significant number of television stations during 2014, 2013, and 2012, with a variety of network affiliations. This acquisition activity affects the year-over-year comparability of revenue by affiliation. See *Note 2. Acquisitions* for further discussion of stations acquired.

(b) We broadcast other programming from the following providers on our channels including: Univision, This TV, ME TV, Retro TV, Get TV, Heartland, Grit, Accuweather WX, Weather Radar, Weather Nation, Live Well Network, Antenna TV, Bounce Network, Zuus Country, Azteca, Immigrante TV, MundoFox, Telemundo and Estrella TV.

Net Broadcast Revenues. Net broadcast revenues increased \$565.2 million in 2014 when compared to 2013, of which \$457.9 million was related to stations acquired during 2014. The remaining increase was due to an increase in retransmission revenues from MVPD and increases in advertising revenues generated from the political, medical and furniture sectors. These increases were partially offset by a decrease in advertising revenues generated from the direct response, retail-department stores, and restaurants-other sectors. Excluding the stations acquired in 2014, automotive, which typically is our largest category, represented 22.7% of net time sales for the year ended December 31, 2014.

Net broadcast revenues increased \$296.9 million in 2013 when compared to 2012, of which \$326.7 million was related to stations acquired during 2013. The remaining decrease was due to decreases in advertising revenues generated from the political, direct response and school sectors. These decreases were partially offset by an increase in retransmission revenues from multichannel video programming distributors (MVPD) and increases in advertising revenues generated from the automotive, food-grocery/other, and services sectors. Excluding the stations acquired in 2013, automotive, which typically is our largest category, represented 25.1% of net time sales for the year ended December 31, 2013.

Political Revenues. Political revenues, which include time sales from political advertising, increased by \$120.0 million to \$131.8 million for 2014 when compared to 2013. Political revenues decreased by \$85.1 million to \$11.8 million for 2013 when compared to 2012. Political revenues are typically higher in election years such as 2014 and 2012. Accordingly, we expect political revenues to decrease significantly in 2015, a non-election year, from 2014 levels.

Local Revenues. Excluding political revenues, our local broadcast revenues, which include local times sales, retransmission revenues, digital, and other local revenues, were up \$387.2 million for 2014 when compared to 2013, of which \$345.0 million related to the stations acquired in 2014. The remaining increase is due to an increase in advertising spending particularly in the medical, religion, and home products sectors and an increase in retransmission revenues from MVPDs. These increases were partially offset by a decrease due to a decline in advertising revenues from the schools, direct response and fast food sectors. Excluding political revenues, our local broadcast revenues, which include local times sales, retransmission revenues and other local revenues, were up \$311.0 million for 2013 when compared to 2012, of which \$250.9 million related to the stations acquired in 2013. The remaining increase is due to an increase in advertising spending particularly in the automotive, services, and grocery/other sectors and an

Table of Contents

increase in retransmission revenues from MVPDs. These increases were partially offset by a decrease due to a decline in advertising revenues from the restaurants, schools and retail/department stores sectors.

National Revenues. Our national broadcast revenues, excluding political revenues, which include national time sales and other national revenues, were up \$58.0 million for 2014 when compared to 2013, of which \$77.7 million related to the stations acquired in 2014. The remaining decrease was due to decreases in advertising revenues generated from the direct response, automotive, and food-grocery/other sectors. These decreases were partially offset by an increase in advertising revenues in the services, schools and drugs/cosmetics sectors. Excluding political revenues, our national broadcast revenues increased \$71.0 million for 2013 when compared to 2012, of which \$70.2 million related to the stations acquired in 2013. The remaining increase was due to increases in advertising revenues generated from the automotive, media and restaurants sectors. These increases were partially offset by a decline in advertising revenues in the fast food, other and movie sectors.

Broadcast Expenses

The following table presents our significant operating expense categories for the years ended December 31, 2014, 2013 and 2012 (in millions):

							Percent Change (Increase/(Decrease))	
	2014		2013		2012		14 vs. 13	13 vs. 12
Station production expenses	\$	577.0	\$	385.1	\$	255.5	49.8%	50.7%
Station selling, general and administrative expenses	\$	370.6	\$	249.7	\$	171.3	48.4%	45.8%
Amortization of program contract costs and net realizable value adjustments	\$	106.6	\$	80.9	\$	61.0	31.8%	32.6%
Corporate general and administrative expenses	\$	56.2	\$	47.3	\$	28.9	18.8%	63.7%
Depreciation and amortization expenses	\$	218.5	\$	133.1	\$	77.5	64.2%	71.7%

Station production expenses. Station production expenses increased \$191.9 million during 2014 compared to 2013, of which \$158.9 million related to the stations not included in the same period in 2013. The remaining increases for the year were primarily due to an increase in fees pursuant to network affiliation agreements, increased costs related to sports programming content, and increased compensation expense.

Station production expenses increased \$129.6 million during 2013 compared to 2012, of which \$107.2 million related to stations not included in the same period of 2012. This increase was primarily due to an increase in fees pursuant to network affiliation agreements, increased compensation expense, including incentive compensation.

Station selling, general and administrative expenses. Station selling, general and administrative expenses increased \$120.9 million during 2014 compared to 2013, of which \$111.7 million related to stations not included in the same period in 2013. The remaining increases for the year were primarily due to an increase in information technology infrastructure costs and compensation expense, partially offset by a decrease in digital interactive expenses.

Station selling, general and administrative expenses increased \$78.4 million during 2013 compared to 2012, of which \$75.4 million related to the stations not included in the same period in 2012. The remaining increases for the year were primarily due to an increase in compensation expense, including incentive compensation, partially offset by lower national sales commissions.

Amortization of program contract costs and net realizable value adjustments. The amortization of program contract costs increased \$25.7 million during 2014 compared to 2013, of which \$16.6 million related to the stations not included in the same period of 2013. The remaining increase is due to additional programming content and higher programming costs.

The amortization of program contract costs increased \$19.9 million during 2013 compared to 2012, of which \$14.8 million related to the stations not included in the same period of 2012. The remaining increase is due to higher programming costs.

Corporate general and administrative expenses. See explanation under *Corporate and Unallocated Expenses*.

Depreciation and amortization expenses. Depreciation of property and equipment and amortization of definite-lived intangibles and other assets increased \$85.4 million during 2014 compared 2013, of which \$87.3 million related to the stations not included in the same period of 2012. Depreciation and amortization expenses increased \$55.6 million during 2013 compared to 2012, of which \$57.3 million related to a station not included in the same period of 2012.

Table of Contents**OTHER OPERATING DIVISIONS REVENUE AND EXPENSE**

The following table presents our other operating divisions' revenue and expenses which is comprised of the following for the years ended December 31, 2014, 2013 and 2012 (in millions): Triangle Signs & Services, LLC (Triangle), a sign designer and fabricator; Alarm Funding Associates, LLC. (Alarm Funding), a regional security alarm operating and bulk acquisition company; real estate ventures and other nominal businesses.

	2014		2013		2012		Percent Change	
							14 vs. 13	13 vs. 12
Revenues:								
Triangle (b)	\$	28.9	\$	26.8	\$	26.5	7.8%	1.1%
Alarm Funding	\$	25.0	\$	18.3	\$	16.0	36.6%	14.4%
Real Estate Ventures	\$	8.3	\$	7.4	\$	9.3	12.2%	(20.4)%
Other	\$	9.4	\$	4.3	\$	2.4	118.6%	79.2%
Expenses: (a)								
Triangle (b)	\$	26.1	\$	25.1	\$	25.9	4.0%	(3.1)%
Alarm Funding	\$	21.9	\$	15.7	\$	12.9	39.5%	21.7%
Real Estate Ventures	\$	14.7	\$	13.7	\$	12.6	7.3%	8.7%
Other	\$	9.1	\$	7.0	\$	4.6	30.0%	52.2%

(a) Comprises total expenses of the entity including other operating divisions expenses, depreciation and amortization and applicable other income and expense items such as interest expense and non-cash stock-based compensation expense related to issuances of subsidiary stock awards.

(b) The assets and liabilities of Triangle are classified as held for sale as of December 31, 2014. *See Assets held for sale* within Note 3. *Disposition of assets and discontinued operations* for further discussion.

The year over year increases in Triangle's revenue and expenses during 2014 compared to 2013 and 2013 compared to 2012 was primarily due to increases in sales volume due to new service contracts. The increases in Alarm Funding's revenue and expenses during 2014 compared to 2013 and 2013 compared to 2012 were primarily due to the acquisition of new alarm monitoring contracts. Revenues and expenses increased for our consolidated real estate ventures over the same periods due to an increase in leasing activity for operating real estate properties, and sales of property under development. As of December 31, 2014, we held \$112.7 million of real estate for development and sale. The increases in revenue and expenses during 2013 compared to 2012 for Other were primarily due to the acquisition of Dielectric, LLC during 2013.

Income (loss) from Equity and Cost Method Investments. As of December 31, 2014 and 2013, the carrying value of our investments in private equity funds and real estate ventures, accounted for under the equity or cost method, was \$23.6 million and \$71.8 million in 2014 and \$25.2 million and \$69.3 million in 2013, respectively. Results of our equity and cost method investments in private investment funds and real estate ventures are included in income from equity and cost method investments in our consolidated statements of operations. During 2014, we recorded income of \$3.1 million related to certain private investment funds and a loss of \$1.0 million related to our real estate ventures. During 2013, we recorded income of \$2.0 million related to certain private investment funds and income of \$1.4 million related to our real estate ventures. During 2012, we recorded income of \$2.2 million related to certain private equity funds and income of \$7.4 million related to our real

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

estate ventures, including a \$7.9 million gain on the sale of three of our real estate ventures, partially offset by a \$0.9 million impairment charge related to one of our real estate ventures.

CORPORATE AND UNALLOCATED EXPENSES

	2014		2013		2012		Percent Change (Increase/(Decrease))	
							14 vs. 13	13 vs. 12
Corporate general and administrative expenses	\$	12.3	\$	4.5	\$	2.8	173.3%	60.7%
Interest expense	\$	170.8	\$	159.7	\$	125.3	7.0%	27.5%
Loss from extinguishment of debt	\$	14.6	\$	58.4	\$	0.3	(75.0)%	n/m
Income tax provision	\$	97.4	\$	41.2	\$	67.9	136.4%	(39.3)%

n/m not meaningful

Table of Contents

Corporate general and administrative expenses. We allocate most of our corporate general and administrative expenses to the broadcast segment. The explanation that follows combines corporate general and administrative expenses found in the *Broadcast Segment* section with the corporate general and administrative expenses found in this section, *Corporate and Unallocated Expenses*. These results exclude general and administrative costs from our other operating divisions which are included in our discussion of expenses in the *Other Operating Divisions Revenues and Expense* section.

Combined corporate general and administrative expenses increased to \$68.4 million in 2014 from \$51.8 million in 2013. The increase is primarily due to an increase in overhead costs related to our recent acquisitions and includes \$6.5 million of development costs associated with ONE Media, LLC during 2014.

Combined corporate general and administrative expenses increased to \$51.8 million in 2013 from \$31.7 million in 2012. This is primarily due to an increase in transaction costs due to our recent acquisitions, an increase in higher health insurance costs and higher employee incentive / performance bonuses.

We expect corporate general and administrative expenses to increase in 2015 compared to 2014.

Interest expense. Interest expense increased in 2014 compared to 2013 primarily due to the issuance of \$550.0 million of 5.625% Notes and incremental borrowings on our Term Loan A, Term Loan B, and revolving credit facility under our Bank Credit Agreement during 2014; and the issuance of \$600.0 million of 5.375% Notes and the issuance of \$350.0 million of 6.375% Notes in 2013. The increase in interest expense was partially offset by a decrease in interest expense due to the redemption of 8.375% Notes during 2014; and the redemption of our 9.25% Notes, 4.875% Notes and 3.0% Notes in 2013.

Interest expense increased in 2013 compared to 2012 primarily due to the issuance of \$500 million of 6.125% Notes in the fourth quarter 2012, the incremental borrowings on our Term Loan A and Term Loan B under our Bank Credit Agreement for our acquisitions in 2013, the issuance of \$600.0 million of 5.375% Notes in the second quarter of 2013, and the issuance of \$350.0 million of 6.375% Notes in the fourth quarter of 2013. Interest expense was partially offset by a decrease due to the redemption of our 9.25% Notes, our 4.875% Notes and our 3.0% Notes in the fourth quarter of 2013.

We expect interest expense to increase in 2015 compared to 2014.

Loss from extinguishment of debt. We recognized a loss on extinguishment of debt of \$14.6 million for the year ended December 31, 2014 related to the redemption of the 8.375% Notes in October 2014.

During the year ended December 31, 2013, we recognized a loss on extinguishment of debt of \$59.4 million related to the amendments of our Bank Credit Agreement in April and October 2013 and redemption of 9.25% Notes in October 2013, partially offset by a \$1.0 million gain on extinguishment from our 3.0% Notes, resulting in a \$58.4 million loss from extinguishment of debt. During the year ended December 31, 2012,

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

drew down on our incremental borrowings under the Bank Credit Agreement and wrote off a portion of our deferred financing costs and debt discount on the Term Loan B, resulting in a loss of \$0.3 million from extinguishment of debt.

Income tax provision. The 2014 income tax provision for our pre-tax income from continuing operations (including the effects of the noncontrolling interest) of \$309.7 million resulted in an effective tax rate of 31.5%. The 2013 income tax provision for our pre-tax income from continuing operations (including the effects of the noncontrolling interest) of \$103.2 million resulted in an effective tax rate of 40.0%. The decrease in the effective tax rate from 2013 to 2014 is primarily due to the following items: 1) remeasurement of deferred state tax liabilities due to intercompany mergers and changes in estimates of apportionment in certain states resulting in a \$8.2 million benefit in 2014 compared to a \$7.0 million expense in 2013; 2) \$10.8 million reduction in liability for unrecognized tax benefits in 2014 as a result of statute of limitations expiration, which was partially offset by 3) greater benefit of state law changes in 2013.

The 2013 income tax provision for our pre-tax income from continuing operations (including the effects of the noncontrolling interest) of \$103.2 million resulted in an effective tax rate of 40.0%. The 2012 income tax provision for our pre-tax income from continuing operations (including the effects of the noncontrolling interest) of \$212.1 million resulted in an effective tax rate of 32.0%. The increase in the effective tax rate from 2012 to 2013 is primarily due to the following items: 1) greater expenses of consolidated VIEs in 2013 that are treated as pass-through entities for income tax purposes; and 2) a 2012 release of valuation allowance of \$7.7 million related to certain deferred tax assets of Cunningham, one of our consolidated VIEs, as the weight of all available evidence supports realization of the deferred tax assets. The valuation allowance release determination was based primarily on the sufficiency of forecasted taxable income necessary to utilize NOLs expiring in years 2022 – 2029. This VIE files separate income tax

Table of Contents

returns. Any resulting tax liabilities are nonrecourse to us and we are not entitled to any benefit resulting from the deferred tax assets of the VIE

As of December 31, 2014, we had a net deferred tax liability of \$608.9 million as compared to a net deferred tax liability of \$312.8 million as of December 31, 2013. The increase primarily relates to an increase in deferred tax liabilities resulting from the 2014 stock acquisitions with greater book basis in intangible and fixed assets.

As of December 31, 2014, we had \$7.1 million of gross unrecognized tax benefits. Of this total, \$6.5 million (net of federal effect on state tax issues) represents the amount of unrecognized tax benefits that, if recognized, would favorably affect our effective tax rate from continuing operations. As of December 31, 2013, we had \$16.9 million of gross unrecognized tax benefits. Of this total, \$15.7 million (net of federal effect on state tax issues) represent the amounts of unrecognized tax benefits that, if recognized, would favorably affect our effective tax rate from continuing operations. We recognized \$0.7 million and \$1.2 million of income tax expense for interest related to uncertain tax positions for the years ended December 31, 2014 and 2013, respectively. See *Note 10. Income Taxes* for further discussion.

LIQUIDITY AND CAPITAL RESOURCES

As of December 31, 2014, we had \$17.7 million in cash and cash equivalent balances and net working capital of approximately \$32.2 million. Cash generated by our operations and borrowing capacity under the Bank Credit Agreement are used as our primary sources of liquidity. We anticipate that existing cash and cash equivalents, cash flow from our operations and borrowing capacity under the revolving credit facility will be sufficient to satisfy our debt service obligations, capital expenditure requirements and working capital needs for the next twelve months. For our long-term liquidity needs, in addition to the sources described above, we may rely upon the issuance of long-term debt, the issuance of equity or other instruments convertible into or exchangeable for equity, or the sale of non-core assets. However, there can be no assurance that additional financing or capital or buyers of our non-core assets will be available, or that the terms of any transactions will be acceptable or advantageous to us.

On March 20, 2014, the Board of Directors authorized an additional \$150.0 million share repurchase authorization, in addition to the \$150.0 million previously authorized. There is no expiration date, and currently management has no plans to terminate this program. For the year ended December 31, 2014, we have purchased approximately 4.9 million shares for \$133.2 million. As of December 31, 2014, the total remaining authorization was \$134.4 million.

In July 2014, we amended and restated our existing bank credit facility raising \$400.0 million of incremental term loan B. The incremental credit facility matures in July 2021. Additionally, \$327.7 million of term loan A, including \$72.5 million of the remaining \$108.2 million delayed draw, were converted into revolving commitments. Remaining borrowing capacity under the Revolver was \$144.1 million as of December 31, 2014. See *Bank Credit Agreement* within *Note 7. Notes Payable and Commercial Bank Financing* for further discussion.

In July 2014, we issued \$550.0 million of senior unsecured notes, which bear interest at a rate of 5.625% per annum and mature on August 1, 2024. See *5.625% Senior Unsecured Notes, due 2014* within *Note 7. Notes Payable and Commercial Bank Financing* for further discussion.

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

Effective October 15, 2014, we redeemed all of the outstanding 8.375% Senior Notes due 2018, representing \$237.5 million aggregate principal amount of Notes as of October 15, 2014. See *8.375% Senior Unsecured Notes, due 2018* within *Note 7. Notes Payable and Commercial Bank Financing* for further discussion.

Table of Contents**Sources and Uses of Cash**

The following table sets forth our cash flows for the years ended December 31, 2014, 2013 and 2012 (in millions):

	2014	2013	2012
Net cash flows from operating activities	\$ 430.5	\$ 160.6	\$ 237.5
Cash flows used in investing activities:			
Acquisition of property and equipment	\$ (81.5)	\$ (43.4)	\$ (44.0)
Payments for acquisitions of television stations	(1,485.0)	(1,006.1)	(1,135.3)
Proceeds from the sale of broadcast assets	176.7	49.7	
Purchase of alarm monitoring contracts	(27.7)	(23.7)	(12.5)
Decrease (Increase) in restricted cash	11.6	(11.5)	58.5
Investments in equity and cost method investees	(8.1)	(10.8)	(24.1)
Proceeds from insurance settlement	17.0		
Other, net	(0.4)	(5.4)	8.1
Net cash flows used in investing activities	\$ (1,397.4)	\$ (1,051.2)	\$ (1,149.3)
Cash flows from financing activities:			
Proceeds from notes payable, commercial bank financing and capital leases	\$ 1,500.7	\$ 2,278.3	\$ 1,247.2
Repayments of notes payable, commercial bank financing and capital leases	(582.7)	(1,509.8)	(179.3)
Proceeds from the sale of Class A Common Stock		472.9	
Dividends paid on Class A and Class B common stock	(61.1)	(56.8)	(123.9)
Repurchase of outstanding Class A Common Stock	(133.2)		
Payments for deferred financing costs	(16.6)	(27.7)	(18.7)
Noncontrolling distributions contributions	(8.2)	(10.3)	(1.1)
Other, net	5.6	1.3	(2.5)
Net cash flows from financing activities	\$ 704.5	\$ 1,147.9	\$ 921.7

Operating Activities

Net cash flows from operating activities increased during the year ended December 31, 2014 compared to the same period in 2013. The increase was due to higher cash receipts from customer, which is primarily due to our acquisitions since the same period in 2013. The increase was partially offset by higher program payments, higher cash payments to vendors, and higher compensation expenses.

Net cash flows from operating activities decreased during the year ended December 31, 2013 compared to the same period in 2012. During 2013, we had higher program payments, higher cash payments to vendors, and higher compensation expenses which are primarily due to our acquisitions since the same period in 2012, partially offset by higher cash receipts from customers.

Investing Activities

Net cash flows used in investing activities increased during the year ended December 31, 2014 compared to the same period in 2013. This increase is primarily due to \$1,485.0 million in payments for the acquisition of television stations during 2014 compared to \$1,006.1 million during 2013. See *Note 2 Acquisitions* for discussion of stations acquired during those periods. The increase was also caused by higher capital expenditures and purchases of alarm monitoring contracts during 2014. The increase was partially offset by \$176.7 million in sales of broadcast assets during 2014 compared to \$49.7 million in 2013. See *Note 3. Disposition of Assets and Discontinued Operations* for discussion the sale of broadcast assets during the periods. The increase was also offset by proceeds from insurance settlements and the release of cash deposits for station acquisitions in 2014.

Net cash flows used in investing activities decreased during the year ended December 31, 2013 compared to the same period in 2012. This decrease is primarily due to \$1,006.1 million in payments for the acquisition of television stations during 2013 compared to \$1,135.3 million during 2012. See *Note 2 Acquisitions* for discussion of stations acquired during those periods. The decrease was also caused by \$49.7 million sale of broadcast assets during 2013 and lower investments in cost and equity method investments. See *Note 3. Disposition of Assets and Discontinued Operations* for discussion the sale of broadcast assets during 2013. The decrease was partially offset by higher purchases of alarm monitoring contracts and an increase in restricted cash for station acquisitions compared to a decrease in 2012.

Financing Activities

Net cash flows from financing activities decreased during the year ended December 31, 2014, compared to the same period in 2013. The decrease is primarily related to the \$133.2 million repurchase of Class A Common Stock and higher dividend payments during 2014 and the \$472.9 million proceeds from issuance of Class A Common Stock in 2013. The decrease is partially offset by higher issuance of debt, net of redemptions, in the 2014 compared to 2013.

Net cash flows from financing activities increased during the year ended December 31, 2013 compared to the same period in 2012. The increase is primarily due to issuing \$600.0 million and \$350.0 million of 5.375% and 6.375% Notes, respectively, and \$250.0 million net proceeds from our Bank Credit Agreement, \$472.9 million proceeds received from our offering of Class A common stock, decreases in dividends paid from \$1.54 per share during 2012 to \$0.60 per share during 2013, and increases in loans by our consolidated variable interest entities. This increase is partially offset by redemption of our 9.375% Notes and increased payments for deferred financing costs.

Table of Contents

During 2013, our Board of Directors declared a quarterly dividend of \$0.15 per share in the months of February, April, August and November, which were paid in March, June, September and December, respectively, for total dividend payments of \$0.60 per share for the year ended December 31, 2013. During 2014, our Board of Directors declared a quarterly dividend of \$0.15 per share in the months of February and April, and \$0.165 per share in the months of August and November, which were paid in March, June, September and December, respectively, for total dividend payments of \$0.63 per share for the year ended December 31, 2014. In February 2015, our Board of Directors declared a quarterly dividend of \$0.165 per share. Future dividends on our common shares, if any, will be at the discretion of our Board of Directors and will depend on several factors including our results of operations, cash requirements and surplus, financial condition, covenant restrictions and other factors that the Board of Directors may deem relevant. The Class A Common Stock and Class B Common Stock holders have the same rights related to dividends. Under our Bank Credit Agreement, in certain circumstances, we may make up to \$200.0 million in unrestricted annual cash payments including but not limited to dividends, of which \$50.0 million may carry over to the next year.

Contractual Obligations

We have various contractual obligations which are recorded as liabilities in our consolidated financial statements. Other items, such as certain purchase commitments and other executory contracts are not recognized as liabilities in our consolidated financial statements but are required to be disclosed. For example, we are contractually committed to acquire future programming and make certain minimum lease payments for the use of property under operating lease agreements.

The following table reflects a summary of our contractual cash obligations as of December 31, 2014 and the future periods in which such obligations are expected to be settled in cash (in millions):

CONTRACTUAL OBLIGATIONS RELATED TO CONTINUING OPERATIONS (a)

	Total	2015	2016-2017	2018-2019	2020 and thereafter (b)
Notes payable, capital leases and commercial bank financing (c), (d)	\$ 4,803.2	\$ 234.0	\$ 397.6	\$ 832.7	\$ 3,338.9
Notes and capital leases payable to affiliates (c)	27.6	4.4	8.2	3.8	11.2
Operating leases	65.1	12.8	21.4	10.6	20.3
Program content (e)	1,035.0	308.9	535.2	184.4	6.5
Programming services (f)	96.4	43.5	29.5	16.0	7.4
Investments and loan commitments (h)	15.0	15.0			
Other (g)	30.8	6.0	8.9	4.9	11.0
Total contractual cash obligations	\$ 6,073.1	\$ 624.6	\$ 1,000.8	\$ 1,052.4	\$ 3,395.3

(a) Excluded from this table are \$7.1 million of accrued unrecognized tax benefits. Due to inherent uncertainty, we cannot make reasonable estimates of the amount and period payments will be made.

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

(b) Includes a one-year estimate of \$7.4 million in payments related to contracts that automatically renew. We have not calculated potential payments for years after 2020.

(c) Includes interest on fixed rate debt and capital leases. Estimated interest on our variable rate debt has been excluded. Variable rate debt represents \$1.9 billion of our \$3.9 billion total face value of debt as of December 31, 2014.

(d) See *Note 7. Notes Payable and Commercial Bank Financing* in our consolidated financial statements for further discussion of the changes to notes payable, capital leases, and commercial bank financing during 2014.

(e) Our Program content includes contractual amounts owed through the expiration date of the underlying agreement for active and future program contracts, network programming and additional advertising inventory in various dayparts. Active program contracts are included in the balance sheet as an asset and liability while future program contracts are excluded until the cost is known, the program is available for its first showing or telecast and the licensee has accepted the program. Industry protocol typically enables us to make payments for program contracts on a three-month lag, which differs from the contractual timing within the table. Network programming agreements may include variable fee components such as subscriber levels, which in certain circumstances have been estimated and reflected in the table.

Table of Contents

(f) Includes obligations related to rating service fees, music license fees, market research, weather and news services.

(g) Other includes obligations related to post-retirement benefits, maintenance and support, other corporate contracts, other long term liabilities, and LMA and outsourcing agreements. Excluded from the table are estimated amounts due pursuant to LMAs and outsourcing agreements where we consolidate the counterparty. The fees that we are required to pay under these agreements total \$3.0 million, \$3.6 million, \$0.6 million and \$1.0 million for the periods 2015, 2016-2017, 2018-2019 and 2020 and thereafter, respectively. Certain station related operating expenses are paid by the licensee and reimbursed by us under the LMA agreements. Certain of these expenses that are in connection with contracts are included in table above.

(h) Commitments to contribute capital to Patriot Capital II, LP, Patriot Capital III, LP and Caves Valley Partners.

Off Balance Sheet Arrangements

Off balance sheet arrangements as defined by the SEC means any transaction, agreement or other contractual arrangement to which an entity unconsolidated with the registrant is a party, under which the registrant has: obligations under certain guarantees or contracts; retained or contingent interest in assets transferred to an unconsolidated entity or similar arrangements; obligations under certain derivative arrangements; and obligations arising out of a material variable interest in an unconsolidated entity. As of December 31, 2014, we do not have any material off balance sheet arrangements.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risk from changes in interest rates. At times we enter into derivative instruments primarily for the purpose of reducing the impact of changing interest rates on our floating rate debt and to reduce the impact of changing fair market values on our fixed rate debt. See *Note 7. Notes Payable and Commercial Bank Financing*, for further discussion. As of December 31, 2014, we did not have any outstanding derivative instruments.

We are exposed to risk from the changing interest rates of our variable rate debt, primarily related to our Bank Credit Agreement. For the year ended December 31, 2014, interest expense on our term loans and revolver related to our Bank Credit Agreement was \$38.7 million. We estimate that adding 1.0% to respective interest rates would result in an increase in our interest expense of \$13.5 million for the year ended December 31, 2014. We also have \$118.8 million of variable rate debt associated with our other operating divisions. We estimate that adding 1.0% to respective interest rates would result in \$0.8 million of additional interest expense for the year ended December 31, 2014. Our consolidated VIEs have \$30.2 million of variable rate debt associated with the stations that we provide services to pursuant to LMAs and other outsourcing arrangements. We estimate that adding 1.0% to respective interest rates would an increase interest expense of the VIEs by \$0.3 million for the year ended December 31, 2014.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The financial statements and supplementary data required by this item are filed as exhibits to this report, are listed under Item 15(a)(1) and (2) and are incorporated by reference in this report.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

There were no changes in and/or disagreements with accountants on accounting and financial disclosure during the year ended December 31, 2014.

ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures and Internal Control over Financial Reporting

Our management, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the design and effectiveness of our disclosure controls and procedures and our internal control over financial reporting as of December 31, 2014.

The term disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, means controls and other procedures of a company that are designed to provide reasonable assurance that information required to be

Table of Contents

disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to provide reasonable assurance that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the our management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

The term internal control over financial reporting, as defined in Rules 13a-15d-15(f) under the Exchange Act, means a process designed by, or under the supervision of our Chief Executive and Chief Financial Officers and effected by our Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles (GAAP) and includes those policies and procedures that:

- pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of our assets;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP and that our receipts and expenditures are being made in accordance with authorizations of management or our Board of Directors; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material adverse effect on our financial statements.

Assessment of Effectiveness of Disclosure Controls and Procedures

Based on the evaluation of our disclosure controls and procedures as of December 31, 2014, our Chief Executive Officer and Chief Financial Officer concluded that, as of such date, our disclosure controls and procedures were effective at the reasonable assurance level.

Report of Management on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we assessed the effectiveness of our internal control over financial reporting as of December 31, 2014 based on the criteria set forth in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (COSO). Based on our assessment, management has concluded that, as of December 31, 2014, our internal control over financial reporting was effective based on those criteria.

Management has excluded the assets, liabilities and operations of the television stations acquired from the Allbritton Companies, New Age Media, WGXA-TV, KSNV-TV, WJAR-TV, WLUK-TV, WCWF-TV, and WTGS-TV from its assessment of internal control over financial

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

reporting as of December 31, 2014 because these television stations were acquired by the Company in a purchase business combination during 2014. These assets acquired represent 3% of total assets as of December 31, 2014 and 6% of total revenues for the year ended December 31, 2014.

The effectiveness of our internal control over financial reporting as of December 31, 2014 has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in their report which is included herein.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended December 31, 2014, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Limitations on the Effectiveness of Controls

Management, including our Chief Executive Officer and Chief Financial Officer, do not expect that our disclosure controls and procedures or our internal control over financial reporting will prevent all errors and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered

Table of Contents

relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within our company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management's override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

ITEM 9B. OTHER INFORMATION

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The information required by this Item will be included in our Proxy Statement for the 2015 Annual Meeting of shareholders under the captions, Directors, Executive Officers and Key Employees, Section 16(A) Beneficial Ownership Reporting Compliance, Code of business Conduct and Ethics and Corporate Governance, which will be filed with the SEC no later than 120 days after the close of the fiscal year ended December 31, 2014 and is incorporated by reference in this report.

ITEM 11. EXECUTIVE COMPENSATION

The information required by this Item will be included in our Proxy Statement for the 2015 Annual Meeting of shareholders under the captions, Compensation Discussion and Analysis, Director Compensation for 2014, Compensation Committee Interlocks and Insider Participation and Compensation Committee Report, which will be filed with the SEC no later than 120 days after the close of the fiscal year ended December 31, 2014 and is incorporated by reference in this report.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

The information required by this Item will be included in our Proxy Statement for the 2015 Annual Meeting of shareholders under the caption, Security Ownership Of Certain Beneficial Owners and Management, which will be filed with the SEC no later than 120 days after the close of the fiscal year ended December 31, 2014 and is incorporated by reference in this report.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

The information required by this Item will be included in our Proxy Statement for the 2015 Annual Meeting of shareholders under the captions, Related Person Transactions and Director Independence, which will be filed with the SEC no later than 120 days after the close of the fiscal year ended December 31, 2014 and is incorporated by reference in this report.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

The information required by this Item will be included in our Proxy Statement for the 2015 Annual Meeting of shareholders under the caption, Disclosure of Fees Charged by Independent Registered Public Accounting Firm, which will be filed with the SEC no later than 120 days after the close of the fiscal year ended December 31, 2014 and is incorporated by reference in this report.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of Sinclair Broadcast Group, Inc.

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of operations, of comprehensive income, of equity (deficit), and of cash flows present fairly, in all material respects, the financial position of Sinclair Broadcast Group, Inc. and its subsidiaries (the Company) at December 31, 2014 and December 31, 2013, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2014 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2014, based on criteria established in *Internal Control - Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these financial statements, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the Report of Management on Internal Control over Financial Reporting appearing under Item 9A. Our responsibility is to express opinions on these financial statements and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

As described in the Report of Management on Internal Control over Financial Reporting appearing under Item 9A, management has excluded the operations of the television stations acquired during 2014 from Allbritton Communications Company, New Age Media, and the operations of WGXA-TV, KSNV-TV, WJAR-TV, WTGS-TV, WLUK-TV, and WCWF-TV from its assessment of internal control over financial reporting as of December 31, 2014 because Allbritton Communications Company, New Age Media, and WGXA-TV, KSNV-TV, WJAR-TV, WTGS-TV, WLUK-TV, and WCWF-TV were acquired by the Company in a purchase business combination during 2014. We have also excluded Allbritton Communications Company, New Age Media, WGXA-TV, KSNV-TV, WJAR-TV, WTGS-TV, WLUK-TV, and WCWF-TV from our audit of internal control over financial reporting. These television stations acquired in 2014 are wholly-owned subsidiaries whose total assets and total revenues represent 3% and 6%, respectively, of the related consolidated financial statement amounts as

SINCLAIR BROADCAST GROUP, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Nature of Operations

Sinclair Broadcast Group, Inc. is a diversified television broadcasting company that owns or provides certain programming, operating or sales services to television stations pursuant to broadcasting licenses that are granted by the Federal Communication Commission (the FCC or Commission). We owned and provided programming and operating services pursuant to local marketing agreements (LMAs) or provided or were provided sales services pursuant to outsourcing agreements to 164 stations in 79 markets which broadcast 373 channels, as of December 31, 2014. For the purpose of this report, these 164 stations and 373 channels are referred to as our stations and channels.

Principles of Consolidation

The consolidated financial statements include our accounts and those of our wholly-owned and majority-owned subsidiaries and variable interest entities (VIEs) for which we are the primary beneficiary. Noncontrolling interest represents a minority owner's proportionate share of the equity in certain of our consolidated entities. All intercompany transactions and account balances have been eliminated in consolidation.

Variable Interest Entities

In determining whether we are the primary beneficiary of a VIE for financial reporting purposes, we consider whether we have the power to direct the activities of the VIE that most significantly impact the economic performance of the VIE and whether we have the obligation to absorb losses or the right to receive returns that would be significant to the VIE. We consolidate VIEs when we are the primary beneficiary. The assets of each of our consolidated VIEs can only be used to settle the obligations of the VIE. All the liabilities are non-recourse to us except for certain debt of VIEs which we guarantee.

Third-party station licensees. Certain of our stations provide services to other station owners within the same respective market, such as LMAs, where we provide programming, sales, operational and administrative services, and JSAs and SSAs, where we provide non-programming, sales, operational and administrative services. In certain cases, we have also entered into purchase agreements or options to purchase, the license related assets of the licensee. We typically own the majority of the non-license assets of the stations and in some cases where the licensee acquired the license assets concurrent with our acquisition of the non-license assets of the station, we have provided guarantees to the bank for the licensee's acquisition financing. The terms of the agreements vary, but generally have initial terms of over five years with several optional renewal terms. As of December 31, 2014 and 2013, we have concluded that 37 and 34 of these licensees are VIEs, respectively. Based on the terms of the agreements and the significance of our investment in the stations, we are the primary beneficiary of the variable interests because,

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

subject to the ultimate control of the licensees, we have the power to direct the activities which significantly impact the economic performance of the VIE through the services we provide and because we absorb losses and returns that would be considered significant to the VIEs. Several of these VIEs are owned by a related party, Cunningham Broadcasting Corporation (Cunningham). See *Note 12. Related Person Transactions* for more information about the arrangements with Cunningham. The net revenues of the stations which we consolidate were \$286.3 million, \$235.8 million and \$154.6 million for the year ended December 31, 2014, 2013, and 2012, respectively. The fees paid between us and the licensees pursuant to these arrangements are eliminated in consolidation. See *Changes in the Rules of Television Ownership and Joint Sale Agreements* within *Note 11. Commitment and Contingencies* for discussion of recent changes in FCC rules related to JSAs.

Up until third quarter of 2014, we had consolidated Cunningham (parent entity), in addition to their stations that we perform services for, as we had previously determined that it was a VIE because it had insufficient equity at risk. As of September 30, 2014, we concluded that Cunningham was no longer a VIE given its significant equity at risk in assets that we have no involvement with, and deconsolidated this entity, along with WTAT and WYZZ, stations that Cunningham acquired from us in July 2014 and November 2013, respectively, with which we have no continuing involvement. As a result of the deconsolidation, we recorded the difference between the proceeds received from Cunningham for the sale of WTAT and WYZZ to additional paid in capital in the consolidated balance sheet, as well as reflected the noncontrolling interest deficit of the remaining Cunningham VIEs which represents their significant cumulative distributions made to Cunningham (parent entity) that were previously eliminated in consolidation.

Table of Contents

As of the dates indicated, the carrying amounts and classification of the assets and liabilities of the VIEs mentioned above which have been included in our consolidated balance sheets as of December 31, 2014 and 2013 were as follows (in thousands):

	2014	2013
ASSETS		
CURRENT ASSETS:		
Cash and cash equivalents	\$ 491	\$ 4,916
Accounts receivable	19,521	18,468
Current portion of program contract costs	9,544	10,725
Prepaid expenses and other current assets	297	247
Total current asset	29,853	34,356
PROGRAM CONTRACT COSTS, less current portion	6,922	5,075
PROPERTY AND EQUIPMENT, net	9,716	11,081
GOODWILL	787	6,357
BROADCAST LICENSES	16,935	16,768
DEFINITE-LIVED INTANGIBLE ASSETS, net	96,732	97,496
OTHER ASSETS	2,376	22,935
Total assets	\$ 163,321	\$ 194,068
LIABILITIES		
CURRENT LIABILITIES:		
Accounts payable	\$ 68	\$ 86
Accrued liabilities	1,297	2,536
Current portion of notes payable, capital leases and commercial bank financing	3,659	5,731
Current portion of program contracts payable	9,714	11,552
Total current liabilities	14,738	19,905
LONG-TERM LIABILITIES:		
Notes payable, capital leases and commercial bank financing, less current portion	28,640	49,850
Program contracts payable, less current portion	10,161	6,597
Long term liabilities	8,739	10,838
Total liabilities	\$ 62,278	\$ 87,190

The amounts above represent the consolidated assets and liabilities of the VIEs described above, for which we are the primary beneficiary, and have been aggregated as they all relate to our broadcast business. Excluded from the amounts above are payments made to Cunningham under the LMA which are treated as a prepayment of the purchase price of the stations and capital leases between us and Cunningham which are eliminated in consolidation. The total payments made under these LMAs as of December 31, 2014 and 2013, which are excluded from liabilities above, were \$34.4 million and \$32.4 million, respectively. The total capital lease liabilities, net of capital lease assets, excluded from the above were \$4.3 million and \$5.0 million, respectively for the years ended December 31, 2014 and 2013, respectively. During the year ended December 31, 2013, Cunningham sold a portion of its investment in our Class A Common Stock which was eliminated in consolidation and excluded from assets shown above, for \$7.0 million, net of income taxes and has been reflected as an increase in additional paid in capital in the consolidated balance sheet. Also excluded from the amounts above are liabilities associated with the certain outsourcing agreements and purchase options with certain VIEs totaling \$78.1 million and \$59.9 million as of December 31, 2014 and December 31, 2013, respectively, as these amounts are eliminated in consolidation. The risk and reward characteristics of the VIEs are similar.

Other investments. We have investments in other real estate ventures and investment companies which are considered VIEs. However, we do not participate in the management of these entities including the day-to-day operating decisions or other decisions which would allow us to control the entity, and therefore, we are not considered the primary beneficiary of these VIEs. We account for these entities using the equity or cost method of accounting.

The carrying amounts of our investments in these VIEs for which we are not the primary beneficiary as of December 31, 2014 and 2013 was \$22.7 million and \$26.7 million, respectively, which are included in other assets in the consolidated balance sheets. Our maximum exposure is equal to the carrying value of our investments. The income and loss related to these investments are recorded in income from equity and cost method investments in the consolidated statement of operations. We recorded income of \$2.2 million, \$2.1 million and \$6.4 million for the years ended December 31, 2014, 2013 and 2012, respectively, related to these investments.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of

Table of Contents

America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses in the consolidated financial statements and in the disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Recent Accounting Pronouncements

In July 2013, the FASB issued new guidance requiring new disclosure of unrecognized tax benefit, or a portion of an unrecognized tax benefit, in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward. If a company does not have: (i) a net operating loss carryforward; (ii) a similar tax loss; or (iii) a tax credit carryforward is not available at the reporting date under the tax law of the applicable jurisdiction to settle any additional income taxes that would result from the disallowance of a tax position or the entity does not intend to use the deferred tax asset for such purpose, the unrecognized tax benefit should be presented in the financial statements as a liability and should not be combined with deferred tax assets. The authoritative guidance is effective for fiscal years and the interim periods within those fiscal years beginning on or after December 15, 2013 and should be applied on a prospective basis. This guidance does not have a material impact on our financial statements.

In April 2014, the FASB issued new guidance that changes the criteria for determining which disposals can be presented as discontinued operations and modifies related disclosure requirements. Under the new guidance, a discontinued operation is defined as a disposal of a component or group of components that is disposed of and represents a strategic shift that has, or will have, a major effect on an entity's operations and financial results. Under the revised guidance, it is less likely for any future sales of assets, asset groups, or stations to be considered discontinued operations because such sales would need to represent a strategic shift and have a major effect on our future operations. Historically, under the previous guidance, sales of minor components of our business were required to be classified as discontinued operations. We early adopted this new guidance effective July 1, 2014. If this guidance were effective for the 2013 discontinued operations discussed in *Discontinued Operations*, then the sale of those television stations would not have met the criteria under the new guidance.

In May 2014, the FASB issued new guidance on revenue recognition for revenue from contracts with customers. This guidance requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers and will replace most existing revenue recognition guidance when it becomes effective. This new standard is effective for annual reporting periods beginning after December 15, 2016. Early application is not permitted and the standard permits the use of either the retrospective or cumulative effect transition method. We are currently evaluating the impact of this guidance on our financial statements.

In August 2014, the FASB issued guidance on disclosure of uncertainties about an entity's ability to continue as a going concern. The new standard is effective for the annual period ending after December 15, 2016, and for annual periods and interim periods thereafter. We are currently evaluating the impact of this guidance on our financial statements.

In February 2015, the FASB issued new guidance that amends the current consolidation guidance on the determination of whether an entity is a variable interest entity. This new standard is effective for the annual period beginning after December 15, 2016. Early adoption is allowed, including in any interim period. We are currently evaluating the impact of this new guidance on our financial statements.

Cash and Cash Equivalents

We consider all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

Restricted Cash

During 2013, we entered into certain definitive agreements to purchase assets of certain stations discussed in *Note 2. Acquisitions*, which required certain deposits to be made into escrow accounts. As of December 31, 2013, we held \$11.4 million, in restricted cash classified as noncurrent related to the amounts held in escrow for these acquisitions.

Table of Contents**Accounts Receivable**

Management regularly reviews accounts receivable and determines an appropriate estimate for the allowance for doubtful accounts based upon the impact of economic conditions on the merchant's ability to pay, past collection experience and such other factors which, in management's judgment, deserve current recognition. In turn, a provision is charged against earnings in order to maintain the appropriate allowance level.

A rollforward of the allowance for doubtful accounts for the years ended December 31, 2014, 2013 and 2012 is as follows (in thousands):

	2014		2013		2012	
Balance at beginning of period	\$	3,379	\$	3,091	\$	3,008
Charged to expense		2,186		1,802		1,141
Net write-offs		(1,319)		(1,514)		(1,058)
Balance at end of period	\$	4,246	\$	3,379	\$	3,091

Programming

We have agreements with distributors for the rights to television programming over contract periods, which generally run from one to seven years. Contract payments are made in installments over terms that are generally equal to or shorter than the contract period. Pursuant to accounting guidance for the broadcasting industry, an asset and a liability for the rights acquired and obligations incurred under a license agreement are reported on the balance sheet where the cost of each program is known or reasonably determinable, the program material has been accepted by the licensee in accordance with the conditions of the license agreement and the program is available for its first showing or telecast. The portion of program contracts which becomes payable within one year is reflected as a current liability in the accompanying consolidated balance sheets.

The rights to this programming are reflected in the accompanying consolidated balance sheets at the lower of unamortized cost or estimated net realizable value. With the exception of one-year contracts, amortization of program contract costs is computed using either a four-year accelerated method or based on usage, whichever method results in the earliest recognition of amortization for each program. Program contract costs are amortized on a straight-line basis for one-year contracts. Program contract costs estimated by management to be amortized in the succeeding year are classified as current assets. Payments of program contract liabilities are typically made on a scheduled basis and are not affected by adjustments for amortization or estimated net realizable value.

Estimated net realizable values are based on management's expectation of future advertising revenues, net of sales commissions, to be generated by the program material. We perform a net realizable value calculation quarterly for each of our program contract costs in accordance with the accounting guidance for the broadcasting industry. We utilize sales information to estimate the future revenue of each commitment and measure that amount against the commitment. If the estimated future revenue is less than the amount of the commitment, a loss is recorded in amortization of program contract costs and net realizable value adjustments in the consolidated statements of operations.

Barter Arrangements

Certain program contracts provide for the exchange of advertising airtime in lieu of cash payments for the rights to such programming. The revenues realized from station barter arrangements are recorded as the programs are aired at the estimated fair value of the advertising airtime given in exchange for the program rights. Program service arrangements are accounted for as station barter arrangements, however, network affiliation programming is excluded from these calculations. Revenues are recorded as revenues realized from station barter arrangements and the corresponding expenses are recorded as expenses recognized from station barter arrangements.

We broadcast certain customers' advertising in exchange for equipment, merchandise and services. The estimated fair value of the equipment, merchandise or services received is recorded as deferred barter costs and the corresponding obligation to broadcast advertising is recorded as deferred barter revenues. The deferred barter costs are expensed or capitalized as they are used, consumed or received and are included in station production expenses and station selling, general and administrative expenses, as applicable. Deferred barter revenues are recognized as the related advertising is aired and are recorded in revenues realized from station barter arrangements.

Table of Contents**Other Assets**

Other assets as of December 31, 2014 and 2013 consisted of the following (in thousands):

	2014	2013
Equity and cost method investments	\$ 107,847	\$ 98,385
Unamortized costs related to debt issuances	47,118	46,150
Other	53,265	63,674
Total other assets	\$ 208,230	\$ 208,209

We have equity and cost method investments primarily in private investment funds and real estate ventures. In the event that one or more of our investments are significant, we are required to disclose summarized financial information. For the years ended December 31, 2014, 2013, and 2012, none of our investments were significant individually or in the aggregate.

As of December 31, 2014 and 2013, our unfunded commitments related to private equity investment funds totaled \$15.6 million and \$17.0 million, respectively.

When factors indicate that there may be a decrease in value of an equity or cost method investment, we assess whether a loss in value has occurred related to the investment. If that loss is deemed to be other than temporary, an impairment loss is recorded accordingly. For any investments that indicate a potential impairment, we estimate the fair values of those investments using discounted cash flow models, unrelated third party valuations or industry comparables, based on the various facts available to us. For the year ended December 31, 2012, we recorded impairments of \$1.3 million related to two of our investments. For the year ended December 31, 2013, we recorded impairments of \$0.6 million related to two of our investments. There were no impairment charges during the year ended December 31, 2014. The impairments are recorded in the income (loss) from equity and cost method investees in our consolidated statement of operations.

Unamortized costs related to debt issuances represent direct costs incurred to obtain long-term financing and are amortized to interest expense over the term of the related debt using the effective interest method. Previously capitalized debt financing costs are expensed and included in loss on extinguishment of debt if we determine that there has been a substantial modification of the related debt.

The decrease in other, in the table above, for 2014 was primarily due to the deconsolidation of investments held by Cunningham, partially offset by long term income tax receivables recorded in connection with the acquisition of the Allbritton Companies. See *Variable Interest Entities* above for further discussion on the deconsolidation of Cunningham. See *Note 2. Acquisitions* for further discussion on the acquisition of the Allbritton Companies.

Impairment of Goodwill, Intangibles and Other Long-Lived Assets

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

We assess annually, in the fourth quarter, whether goodwill and indefinite-lived intangible assets are impaired. Additionally, impairment assessments may be performed on an interim basis when events or changes in circumstances indicate that impairment potentially exists. We aggregate our stations by market for purposes of our goodwill and license impairment testing. We believe that our markets are most representative of our broadcast reporting units because segment management views, manages and evaluates our stations on a market basis. Furthermore, in our markets, where we operate or provide services to more than one station, certain costs of operating the stations are shared including the use of buildings and equipment, the sales force and administrative personnel.

In our assessment of goodwill for impairment we first determine, based upon a qualitative assessment, whether it is more likely than not a reporting unit has been impaired. As part of this qualitative assessment, for each reporting unit, we weigh the relative impact of factors that are specific to the reporting unit as well as industry and macroeconomic factors. The reporting unit specific factors that we consider include current and forecasted financial performance, the significance of the excess fair value over carrying value in prior quantitative assessments, and any changes to the reporting units' carrying amounts since the most recent impairment tests. We also consider whether there were any significant changes in the regulatory environment and business climate of the industry, and whether there were any negative pressures on growth rates and discount rates.

If we conclude that it is more likely than not that a reporting unit is impaired, we will apply the quantitative two-step method. In the first step, the Company determines the fair value of the reporting unit and compares that fair value to the net book value of the reporting unit. The fair value of the reporting unit is determined using various valuation techniques, including quoted market prices, observed earnings/cash flow multiples paid for comparable television stations and discounted cash flow models. Our discounted cash flow model is based on our judgment of future market conditions within each designated market area based on our internal forecast of future performance, as well as discount rates that are based on a number of factors including market interest rates, a weighted average cost of capital analysis based on the target capital structure for a television station, and includes

Table of Contents

adjustments for market risk and company specific risk. If the net book value of the reporting unit were to exceed the fair value, we would then perform the second step of the impairment test, which requires allocation of the reporting unit's fair value to all of its assets and liabilities in a manner similar to a purchase price allocation, with any residual fair value being allocated to goodwill to determine the implied fair value. An impairment charge will be recognized only when the implied fair value of a reporting unit's goodwill is less than its carrying amount.

For our annual impairment test for indefinite-lived intangibles, broadcast licenses, we apply a qualitative assessment to assess whether it is more likely than not that broadcast licenses of a market are impaired. As part of this qualitative assessment, for each market, we weigh the relative impact of factors that are specific to the market as well as industry and macroeconomic factors that could affect the significant inputs used to determine the fair value of our broadcast license assets. The market specific factors that we consider include recent market projections from both independent and internal sources for advertising revenue and operating costs, estimated normal market share and capital expenditures, as well as the significance of the excess fair value over carrying value in prior quantitative assessments. We also consider whether there were any significant changes in the regulatory environment and business climate of the industry, and whether there were any negative pressures on growth rates and discount rates. When evaluating our broadcast licenses for impairment, the qualitative assessment is done at the market level because the broadcast licenses within the market are complementary and together enhance the single broadcast license of each station. If we conclude that it is more likely than not that one of our broadcast licenses is impaired, we will perform a quantitative assessment by comparing the aggregate fair value of the broadcast licenses in the market to the respective carrying values. We apply the income approach, using a Greenfield method, to estimate the fair values of the broadcast licenses. The income approach method involves a discounted cash flow model that incorporates several variables, including, but not limited to, market revenues and long term growth projections, estimated market share for the typical participant without a network affiliation and estimated profit margins based on market size and station type. The model also assumes outlays for capital expenditures, future terminal values, an effective tax rate assumption and a discount rate based on a number of factors including market interest rates, a weighted average cost of capital analysis based on the target capital structure for a television station, and includes adjustments for market risk and company specific risk. If the carrying amount of the broadcast licenses exceeds the fair value, then an impairment loss is recorded to the extent that the carrying value of the broadcast licenses exceeds the fair value.

We periodically evaluate our long-lived assets for impairment and continue to evaluate them as events or changes in circumstances indicate that the carrying amount of such assets may not be fully recoverable. We evaluate the recoverability of long-lived assets by measuring the carrying amount of the assets against the estimated undiscounted future cash flows associated with them. At the time that such evaluations indicate that the future undiscounted cash flows of certain long-lived assets are not sufficient to recover the carrying value of such assets, the assets are tested for impairment by comparing their estimated fair value to the carrying value. We typically estimate fair value using discounted cash flow models and appraisals. See *Note 6. Goodwill and Other Intangible Assets*, for more information.

Accrued Liabilities

Accrued liabilities consisted of the following as of December 31, 2014 and 2013 (in thousands):

	2014		2013	
Compensation and employee health insurance	\$	56,871	\$	44,800
Interest		33,347		25,133
Deferred revenue		27,037		20,128
Programming related obligations		70,344		42,658
Other accruals relating to operating expenses		58,524		49,466
Total accrued liabilities	\$	246,123	\$	182,185

We expense these activities when incurred.

Income Taxes

We recognize deferred tax assets and liabilities based on the differences between the financial statement carrying amounts and the tax bases of assets and liabilities. We provide a valuation allowance for deferred tax assets if we determine that it is more likely than not that some or all of the deferred tax assets will not be realized. In evaluating our ability to realize net deferred tax assets, we consider all available evidence, both positive and negative, including our past operating results, tax planning strategies and forecasts of future taxable income. In considering these sources of taxable income, we must make certain judgments that are based on the plans and estimates used to manage our underlying businesses on a long-term basis. As of December 31, 2014 and 2013, a valuation allowance has been provided for deferred tax assets related to a substantial amount of our available state net operating loss carryforwards based on past operating results, expected timing of the reversals of existing temporary book/tax basis differences, alternative tax strategies and projected future taxable income. Future changes in operating and/or taxable

Table of Contents

income or other changes in facts and circumstances could significantly impact the ability to realize our deferred tax assets which could have a material effect on our consolidated financial statements.

Management periodically performs a comprehensive review of our tax positions and we record a liability for unrecognized tax benefits when such tax positions do not meet the more-likely-than-not threshold. Significant judgment is required in determining whether a tax position meets the more-likely-than-not threshold, and it is based on a variety of facts and circumstances, including interpretation of the relevant federal and state income tax codes, regulations, case law and other authoritative pronouncements. Based on this analysis, the status of ongoing audits and the expiration of applicable statute of limitations, liabilities are adjusted as necessary. The resolution of audits is unpredictable and could result in tax liabilities that are significantly higher or lower than for what we have provided. See *Note 10. Income Taxes*, for further discussion of accrued unrecognized tax benefits.

Supplemental Information Statements of Cash Flows

During 2014, 2013 and 2012, we had the following cash transactions (in thousands):

	2014	2013	2012
Income taxes paid related to continuing operations	\$ 100,986	\$ 26,037	\$ 46,964
Income tax refunds received related to continuing operations	\$ 1,407	\$ 4,414	\$ 194
Interest paid	\$ 157,349	\$ 147,083	\$ 110,973

Non-cash transactions related to capital lease obligations were zero, \$10.4 million and \$0.3 million for the years ended December 31, 2014, 2013 and 2012, respectively. The non-cash conversion of the 4.875% Notes into Class A Common Stock was \$8.6 million, net of taxes for the year ended December 31, 2013.

Revenue Recognition

Total revenues include: (i) cash and barter advertising revenues, net of agency commissions; (ii) retransmission consent fees; (iii) network compensation; (iv) other broadcast revenues and (v) revenues from our other operating divisions.

Advertising revenues, net of agency commissions, are recognized in the period during which time spots are aired.

Our retransmission consent agreements contain both advertising and retransmission consent elements. We have determined that our retransmission consent agreements are revenue arrangements with multiple deliverables. Advertising and retransmission consent deliverables sold under our agreements are separated into different units of accounting at fair value. Revenue applicable to the advertising element of the arrangement is recognized similar to the advertising revenue policy noted above. Revenue applicable to the retransmission consent element of the arrangement is recognized over the life of the agreement.

Network compensation revenue is recognized over the term of the contract. All other significant revenues are recognized as services are provided.

Share Repurchase Program

On October 28, 1999, we announced a \$150.0 million share repurchase program, which was renewed on February 6, 2008. On March 20, 2014, the Board of Directors authorized an additional \$150.0 million share repurchase authorization. There is no expiration date, and currently management has no plans to terminate this program. For the year ended December 31, 2014, we have purchased approximately 4.9 million shares for \$133.2 million. As of December 31, 2014, the total remaining authorization was \$134.4 million. In January 2015, we repurchased 0.3 million shares of Class A Common Stock for \$7.8 million.

Advertising Expenses

Promotional advertising expenses are recorded in the period when incurred and are included in station production and other operating division expenses. Total advertising expenses from continuing operations, net of advertising co-op credits, were \$21.3 million, \$15.4 million and \$12.2 million for the years ended December 31, 2014, 2013 and 2012, respectively.

Financial Instruments

Financial instruments, as of December 31, 2014 and 2013, consisted of cash and cash equivalents, trade accounts receivable, accounts payable, accrued liabilities and notes payable. The carrying amounts approximate fair value for each of these financial

Table of Contents

instruments, except for the notes payable. See *Note 7. Notes Payable and Commercial Bank Financing*, for additional information regarding the fair value of notes payable.

Post-retirement Benefits

We are required to recognize the funded status (i.e., the difference between the fair value of plan assets and the projected benefit obligations) of our pension plan in our consolidated financial statements. As of December 31, 2014 and 2013, we recorded a liability of \$4.7 million and \$1.9 million, respectively, representing the underfunded status of our defined benefit pension plan.

In connection with the acquisition of Fisher Communications, Inc. (Fisher) in 2013 (see *Note 2. Acquisitions*), we assumed a nonqualified noncontributory supplemental retirement program (Fisher SERP) that was originally established for former executives of Fisher. No new participants have been admitted to this program since 2001 and the benefits of active participants were frozen in 2005. The program participants do not include any active employees. The Fisher SERP required continued employment or disability through the date of expected retirement, unless involuntarily terminated.

While the nonqualified plan is unfunded, Fisher had made investments in annuity contracts and life insurance policies on the lives of certain individual participants to assist in future payment of retirement benefits. The carrying value of the annuity contracts and life insurance policies was \$18.2 million as of December 31, 2013, which was included in other assets in our consolidated balance sheet. The majority of these annuities and life insurance policies were surrendered for lower cash value in 2014.

As of December 31, 2014, the estimated projected benefit obligation was \$24.0 million, of which \$1.5 million is included in accrued expenses in the consolidated balance sheet and the \$22.5 million is included in other long-term liabilities. During the years ended December 31, 2014 and 2013, we made \$2.1 million and \$0.5 million in benefit payments, recognized \$1.0 million and \$0.4 million of periodic pension expense, reported in other expenses in the consolidated statement of operations, and \$3.2 million of actuarial losses and \$0.2 million of actuarial gains through other comprehensive income, respectively.

At December 31, 2014, the projected benefit obligation was measured using a 3.69% discount rate compared to a discount rate of 4.51% for the year ended December 31, 2013. We estimated its discount rate, in consultation with our independent actuaries, based on a yield curve constructed from a portfolio of high quality bonds for which the timing and amount of cash outflows approximate the estimated payouts of the plan.

We estimate that benefits expected to be paid to participants under the Fisher SERP as follows (in thousands):

	December 31,
2015	\$ 1,481
2016	1,726
2017	1,665

2018	1,608
2019	1,554
Next 5 years	7,196

Reclassifications

Certain reclassifications have been made to prior years' consolidated financial statements to conform to the current year's presentation.

2. ACQUISITIONS

During the years ended December 31, 2014, 2013 and 2012, we acquired a total of 119 television stations in 63 markets, in the aggregate, for a purchase price of \$3,557.7 million plus working capital of \$53.7 million (21 stations in 15 markets in 2014 for a purchase price of \$1,434.5 million plus working capital of \$47.3 million; 65 stations in 33 markets in 2013 for an aggregate purchase price of \$1,016.6 million plus working capital of \$8.4 million; and 33 stations in 18 markets in 2012 for a purchase price \$1,106.6 million less working capital of \$2.0 million). All of these acquisitions provide expansion into additional markets and increases value based on the synergies we can achieve.

Table of Contents

2014 Acquisitions

Allbritton. Effective August 1, 2014, we completed the acquisition of all of the outstanding common stock of Perpetual Corporation and equity interest of Charleston Television, LLC (together the Allbritton Companies) for \$985.0 million plus working capital of \$50.2 million. The Allbritton Companies owned and operated nine television stations in the following seven markets, all of which were affiliated with ABC: Washington, DC; Birmingham, AL; Harrisburg, PA; Little Rock / Pine Bluff, AR; Tulsa, OK; Roanoke / Lynchburg, VA; and Charleston, SC. Also included in the purchase was NewsChannel 8, a 24-hour cable/satellite news network covering the Washington, D.C. metropolitan area. We financed the total purchase price with proceeds from the issuance of 5.625% senior unsecured notes, a draw on our amended bank credit agreement, and cash on hand. See *Note 7. Notes Payable and Commercial Bank Financing.* In connection with the acquisition, we sold the acquired assets related to the Harrisburg, PA station effective September 1, 2014. See *Note 3. Dispositions of Assets and Discontinued Operations* for further discussion.

MEG Stations. Effective December 19, 2014, we completed the acquisition of four television stations in three markets from Media General, Inc (MEG Stations) for a purchase price of \$207.5 million less working capital of \$1.6 million. The acquired stations are located in the following markets: Providence, RI / New Bedford, MA; Green Bay / Appleton, WI; and Savannah, GA. We financed the purchase price with cash on hand and borrowing under our revolving credit facility. Simultaneously, we sold to Media General, our television stations in Tampa, FL and Colorado Springs, CO. See *Note 3. Dispositions of Assets and Discontinued Operations* for further discussion. We financed the purchase price, net of the proceeds received from the sale of those stations, with borrowings under our revolving credit facility.

KSNV. Effective November 1, 2014, we completed the acquisition of certain of assets of KSNV (NBC) in Las Vegas, NV from Intermountain West Communications Company (Intermountain West) for \$118.5 million less working capital of \$0.2 million. In conjunction with the purchase, we assumed the rights under the affiliation agreement with NBC and swapped our KVMY call letters for the KSNV call letters. Intermountain West continues to own and operate the station under the KVMY call letters and we do not provide any programming or sales services to this station. We financed the total purchase price with cash on hand and borrowings under our revolving credit facility.

Other 2014 Acquisitions. During the year ended December 31, 2014, we acquired certain assets related to eight other television stations in the following four markets: Wilkes Barre / Scranton, PA; Tallahassee, FL; Gainesville, FL; and Macon, GA. The purchase price for these stations was \$123.5 million less working capital of \$1.1 million which was financed with cash on hand and borrowings under our revolving credit facility.

2013 Acquisitions

Barrington. Effective November 22, 2013, we completed the acquisition of certain assets of Barrington Broadcasting Company, LLC (Barrington) for \$370.0 million, less working capital of \$2.3 million, which related to twenty-four stations in the following fifteen markets: Flint/Saginaw/Bay City/Midland, MI; Toledo, OH; Columbia, SC; Syracuse, NY; Harlingen/Weslaco/Brownsville/McAllen, TX; Colorado Springs, CO; Myrtle Beach/Florence, SC; Peoria/Bloomington, IL; Traverse City/Cadillac, MI; Amarillo, TX; Columbia/Jefferson City, MO; Albany, GA; Quincy, IL/Hannibal, MO/Keokuk, IA; Marquette, MI; and Ottumwa, IA/Kirksville, MO. Concurrent with the purchase, we entered into certain agreements with third parties to provide certain operational services to five of the stations. The purchase price includes \$7.5 million paid by third parties for the license related assets these certain stations. We financed the purchase price with borrowings under our bank credit facility.

Fisher. Effective August 8, 2013, we completed the acquisition of all of the outstanding common stock of Fisher Communications, Inc. (Fisher). We paid \$373.2 million to the shareholders of the Fisher common stock, representing \$41.0 per common share. We financed the total purchase price with cash on hand. Fisher owned and/or operated twenty-two television stations in the following eight markets: Seattle-Tacoma, WA; Portland, OR; Spokane, WA; Boise, ID; Eugene, OR; Yakima/Pasco/Richland/Kennewick, WA; Bakersfield, CA; and Idaho Falls/Pocatello, ID. Also included in the purchase were the assets of four radio stations in the Seattle/Tacoma, WA market.

Other 2013 Acquisitions. During the year ended December 31, 2013, we acquired nineteen other television stations in the following eight markets: Baltimore, MD; Fresno / Visalia, CA; Omaha, NE; Portland, ME; El Paso, TX; Johnstown / Altoona, PA; Reno, NV; Sioux City, IA; and Wheeling, WV / Steubenville, OH. The purchase price of \$272.7 million plus working capital of \$10.8 million includes \$0.7 million paid by certain VIEs for the license assets of certain of these stations owned by VIEs that we consolidate.

2012 Acquisitions

Newport. Effective December 1, 2012, we completed the acquisition of certain broadcast assets of Newport Television (Newport) related to seven stations in the following six markets: Cincinnati, OH; San Antonio, TX; Harrisburg/Lancaster/Lebanon/York, PA; Mobile, AL/Pensacola, FL; Wichita/Hutchinson, KS; and Rochester, NY. We

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

Table of Contents

financed the \$472.4 million purchase price less working capital of \$1.0 million with net proceeds from the 6.125% Notes issued in October 2012. See *Note 7. Notes Payable and Commercial Bank Financing* for more information.

Freedom. Effective April 1, 2012, we completed the acquisition of the broadcast assets of Freedom Communications, Inc. (Freedom), which consisted of eight stations in the following eight markets: West Palm Beach, FL; Grand Rapids/Kalamazoo/Battle Creek, MI; Albany, NY; Chattanooga, TN; Lansing, MI; Medford-Klamath Falls, OR; and Beaumont/Port Arthur/Orange, TX. We financed the \$385.3 million purchase with borrowings under our bank credit facility. See *Note 7. Notes Payable and Commercial Bank Financing* for more information.

Four Points. Effective January 1, 2012, we completed the acquisition of the broadcast assets of Four Points Media (Four Points), which consisted of seven stations in the following four markets: Salt Lake City / St. George, UT; Austin, TX; West Palm Beach / Fort Pierce / Stuart, FL; and Providence, RI / New Bedford, MA. The \$199.1 million purchase price was financed with borrowings under our bank credit facility. See *Note 7. Notes Payable and Commercial Bank Financing* for more information.

Other 2012 Acquisitions. During the year ended December 31, 2012, we acquired five other television stations in the following three markets: Columbus, OH; Champaign / Springfield / Decatur, IL; and Beaumont/Port Arthur/Orange, TX. The aggregate purchase price of \$49.5 million less working capital of \$0.7 million includes amounts paid by certain VIEs for the license assets of certain of these stations owned by VIEs that we consolidate.

The following tables summarize the allocated fair value of acquired assets and assumed liabilities, including the net assets of consolidated VIEs (in thousands):

	MEG Stations	KSNV	Allbritton	Other	Total 2014 acquisitions

Fair value of identifiable net assets acquired	138,233	205,674	306,780	38,138	688,825
Goodwill	60,843	179,609	164,621	10,661	415,734
Total	\$ 199,076	\$ 385,283	\$ 471,401	\$ 48,799	\$ 1,104,559

The allocations presented above are based upon management's estimate of the fair values using valuation techniques including income, cost and market approaches. In estimating the fair value of the acquired assets and assumed liabilities, the fair value estimates are based on, but not limited to, expected future revenue and cash flows, expected future growth rates, and estimated discount rates. The purchase prices have been allocated to the acquired assets and assumed liabilities based on estimated fair values. The allocations related to the 2014 acquisitions are preliminary pending a final determination of the fair values of the assets and liabilities.

During the year ended December 31, 2014, we made certain measurement period adjustments to the initial purchase accounting for the acquisitions in 2013, resulting in reclassifications between certain noncurrent assets and noncurrent liabilities, including an increase to property and equipment of approximately \$44.3 million, an increase to broadcast licenses of \$19.4 million, an increase to noncurrent deferred tax liabilities of \$29.3 million, and a decrease to goodwill of \$66.3 million, as well as a corresponding increase to depreciation and amortization of \$2.5 million during the year ended December 31, 2014.

These intangible assets will be amortized over the estimated remaining useful lives of 15 years for network affiliations and 10 years for the decaying advertiser base. Acquired property and equipment will be depreciated on a straight-line basis over the respective estimated remaining useful lives. Goodwill is calculated as the excess of the consideration transferred over the fair value of the identifiable net assets acquired and represents the future economic benefits expected to arise from other intangible assets acquired that do not qualify for separate recognition, including assembled workforce and noncontractual relationships, as well as expected future synergies. Other intangible assets will be amortized over the respective weighted average useful lives ranging from 14 to 16 years. The following tables summarize the amounts allocated to definite-lived intangible assets representing the estimated fair values and estimated goodwill deductible for tax purposes (in thousands):

MEG					
	Stations	KSNV	Allbritton	Other	Total 2014 acquisitions

Table of Contents

(a) These amounts exclude the operations of WLWC-TV which are classified as discontinued operations in the consolidated statements of operations. See *Note 3. Disposition of Assets and Discontinued Operations*.

(b) These amounts exclude the operations of WLAI-TV which are classified as discontinued operations in the consolidated statements of operations. See *Note 3. Disposition of Assets and Discontinued Operations*.

In connection with the acquisitions, for the years ended December 31, 2014, 2013, and 2012, we incurred a total of \$5.7 million, \$2.8 million, and \$1.2 million, respectively, of costs primarily related to legal and other professional services, which we expensed as incurred and classified as corporate general and administrative expenses in the consolidated statements of operations.

Pro Forma Information

The following table sets forth unaudited pro forma results of operations, assuming that the above acquisitions, along with transactions necessary to finance the acquisitions, occurred at the beginning of the year preceding the year of acquisition. The pro forma results exclude acquisitions presented under *Other* above, as they were deemed not material both individually and in the aggregate. The 2012 period does not include the pro forma effects of the 2014 acquisitions, and as such will not provide comparability to the 2013 and 2014 pro forma periods presented in the following table (in thousands, except per share data):

		(Unaudited)	
	2014	2013	2012
Total revenues	\$ 2,150,124	\$ 1,838,167	\$ 1,513,975
Net Income	\$ 189,174	\$ 41,323	\$ 153,807
Net Income attributable to Sinclair Broadcast Group	\$ 186,338	\$ 38,974	\$ 153,370
Basic earnings per share attributable to Sinclair Broadcast Group	\$ 1.92	\$ 0.42	\$ 1.89
Diluted earnings per share attributable to Sinclair Broadcast Group	\$ 1.90	\$ 0.42	\$ 1.89

This pro forma financial information is based on historical results of operations, adjusted for the allocation of the purchase price and other acquisition accounting adjustments, and is not indicative of what our results would have been had we operated the businesses since the beginning of the annual period presented because the pro forma results do not reflect expected synergies. The pro forma adjustments reflect depreciation expense, amortization of intangibles and amortization of program contract costs related to the fair value adjustments of the assets acquired, additional interest expense related to the financing of the transactions, and exclusion of nonrecurring financing and transaction related costs. Depreciation and amortization expense are higher than amounts recorded in the historical financial statements of the acquirees due to the fair value adjustments recorded for long-lived tangibles and intangible assets in purchase accounting. The pro forma revenues exclude the revenues of WLAI-TV and WLWC-TV which are classified as discontinued operations in the consolidated statements of operations and KIDK-TV, KXPI-TV, WHTM-TV, WTTA-TV, KXRM-TV, and KXTU-TV which were sold subsequent to acquisition.

3. DISPOSITION OF ASSETS AND DISCONTINUED OPERATIONS

Discontinued Operations

In accordance with Financial Accounting Standards Board's (FASB) guidance on reporting assets held for sale we reported the results of operations of our stations in Lansing, Michigan (WLAJ-TV) and Providence, Rhode Island (WLWC-TV), as discontinued operations in the consolidated statements of operations. Discontinued operations have not been segregated in the consolidated statements of cash flows and, therefore, amounts for certain captions will not agree with the accompanying consolidated statements of operations. WLAJ-TV was acquired in the second quarter of 2012 in connection with the acquisition of the television stations from Freedom. WLWC-TV was recently acquired in the first quarter of 2012 in connection with the acquisition of the television stations from Four Points. See *Note 2. Acquisitions* for more information. The operating results of WLAJ-TV, which was sold effective March 1, 2013 for \$14.4 million, and WLWC-TV, which was sold effective April 1, 2013 for \$13.8 million, are not included in our consolidated results of operations from continuing operations. Total revenues for WLAJ-TV and WLWC-TV, which are included in discontinued operations for the year ending December 31, 2013, were \$0.6 million and \$1.6 million, respectively. Total revenues of WLAJ-TV and WLWC-TV, which are included in discontinued operations for the year ending December 31, 2012, are \$3.7 million and \$6.3 million, respectively. Total income before taxes for WLAJ-TV and WLWC-TV, which are included in discontinued operations for the year ending December 31, 2013, are \$0.2 million and \$0.4 million, respectively, and total income(loss) before taxes of WLAJ-TV and WLWC-TV, which are included in discontinued operations for the year ending December 31, 2012, are \$0.9 million and \$0.2 million, respectively. The resulting gain on the sale of these stations in 2013 was negligible.

Table of Contents

Additionally, we recognized an \$11.2 million income tax benefit during the year ended December 31, 2013, attributable to the adjustment of certain liabilities for unrecognized tax benefits related to discontinued operations. See *Note 10. Income Taxes* for further information.

Dispositions related to station acquisitions

As discussed in *Note 2. Acquisitions*, we completed the acquisition of certain broadcast assets from Media General. Simultaneously, we sold to Media General the broadcast assets of WTTA in Tampa, FL and KXRM/KXTU in Colorado Springs, CO for \$93.1 million less working capital of \$0.6 million. We recognized a \$39.0 million gain on sale related to WTTA.

Concurrent with the acquisition of the Allbritton companies discussed in *Note 2. Acquisitions*, due to FCC conflict ownership rules, we sold WHTM in Harrisburg/Lancaster/York, PA to Media General in September 2014 for \$83.4 million, less working capital of \$0.2 million and the non-license assets of WTAT in Charleston, SC to Cunningham for \$14.0 million, effective August 1, 2014. WHTM was acquired from the Allbritton companies and assets of WHTM were classified as assets held for sale in the Allbritton purchase price allocation. We did not recognize a gain or loss on this transaction. Prior to the sale of WTAT, we operated the station under an LMA and purchase agreement with Cunningham. This sale was accounted for as a transaction between parties under common control. See *Note 12. Related Person Transaction* for further discussion.

Concurrent with the Barrington acquisition, due to FCC conflict ownership rules, we sold our station, WSYT (FOX), and assigned its LMA with WNYS (MNT), in Syracuse, NY to a third party for \$15.0 million less, and recognized a loss on sale of \$3.3 million. We also sold our station, WYZZ (FOX) in Peoria, IL, which receives non-programming related sales, operational and administrative services from Nexstar Broadcasting pursuant to certain outsourcing agreements, to Cunningham for \$22.0 million. This sale was accounted for as a transaction between parties under common control. See *Note 12. Related Person Transactions* for further discussion.

Concurrent with the Fisher acquisition discussed in *Note 2. Acquisitions*, a third party that performed certain services pursuant to an outsourcing agreement to the station that we acquired, KIDK and KXPI in Idaho Falls, ID, exercised an existing purchase option to purchase the broadcast assets of the two stations for \$6.3 million, which closed in November 2013. The assets of these stations were classified as assets held for sale in the Fisher purchase price allocation. See *Note 2. Acquisitions* for further discussion.

Concurrent with the acquisition of WKRC in Cincinnati, OH and WOAI in San Antonio, TX from Newport (see *Note 2. Acquisitions*), we sold the license assets of two of our existing stations located in Cincinnati, OH (WSTR) and San Antonio, TX (KMYS) for a total of \$10.7 million to third parties. We provide non-programming related sales, operational and administrative services to these stations pursuant to certain outsourcing agreements and we have assignable purchase options with these licensees to acquire the license assets. We consolidate the license assets of these stations because the licensee companies are VIEs and we are the primary beneficiary. See *Variable Interest Entities* in *Note 1. Nature of Operations and Summary of Significant Accounting Policies*.

The dispositions of the above assets did not meet the criteria for classification as discontinued operations, therefore the results of operations are included in continuing operations in our consolidated statements of operations.

Assets Held for Sale

We expect to sell, Triangle Sign & Service, LLC, a consolidated investment in our other operating divisions, in the first half of 2015. In accordance with Financial Accounting Standards Board's (FASB) guidance on reporting assets held for sale, we reported our assets and liabilities related to Triangle as held for sale in the accompanying consolidated balance sheet as of December 31, 2014. Results of operations of these stations are included within the results from continuing operations as the criteria for classification as discontinued operations was not met.

As of December 31, 2014, the major classes of assets and liabilities of the group reported as held for sale on the accompanying consolidated balance sheet are shown below:

F-23

Table of Contents

	December 31, 2014
Assets:	
Accounts receivable	\$ 5,101
Prepaid expenses and other current assets	1,403
Total current assets held for sale	6,504
Property and equipment (a)	1,036
Goodwill	2,975
Definite-lived intangible assets	2,962
Total assets held for sale	\$ 13,477
Liabilities:	
Accounts payable	\$ 1,096
Accrued liabilities	1,360
Current portion of notes payable, capital leases and commercial bank financing	21
Total liabilities held for sale	\$ 2,477

(a) Excluded from the above is \$1.8 million in held for sale assets related to certain real estate assets within our broadcast segment.

4. STOCK-BASED COMPENSATION PLANS:

In June 1996, our Board of Directors adopted, upon approval of the shareholders by proxy, the 1996 Long-Term Incentive Plan (LTIP). The purpose of the LTIP is to reward key individuals for making major contributions to our success and the success of our subsidiaries and to attract and retain the services of qualified and capable employees. Under the LTIP, we have issued restricted stock awards (RSAs), stock grants to our non-employee directors, stock-settled appreciation rights (SARs) and stock options. A total of 14,000,000 shares of Class A Common Stock are reserved for awards under this plan. As of December 31, 2014, 8,414,109 shares (including forfeited shares) were available for future grants. Additionally, we have the following arrangements that involve stock-based compensation: employer matching contributions (the Match) for participants in our 401(k) plan, an employee stock purchase plan (ESPP), and subsidiary stock awards. Stock-based compensation expense has no effect on our consolidated cash flows. For the years ended December 31, 2014, 2013 and 2012, we recorded stock-based compensation of \$14.3 million, \$10.6 million and \$5.9 million, respectively. Below is a summary of the key terms and methods of valuation of our stock-based compensation awards:

RSAs. RSAs issued in 2014, 2013 and 2012 have certain restrictions that lapse over two years at 50% and 50%, respectively. As the restrictions lapse, the Class A Common Stock may be freely traded on the open market. Unvested RSAs are entitled to dividends. The fair value assumes the closing value of the stock on the grant date.

The following is a summary of changes in unvested restricted stock:

	RSAs	Weighted-Average Price
Unvested shares at December 31, 2013	370,000	\$ 13.81
2014 Activity:		
Granted	73,700	28.23

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

Vested	(214,000)	13.52
Forfeited		
Unvested shares at December 31, 2014	229,700	18.71

For the years ended December 31, 2014, 2013 and 2012, we recorded compensation expense of \$3.2 million, \$2.7 million and \$1.2 million, respectively. The majority of the unrecognized compensation expense of \$1.4 million as of December 31, 2014 will be recognized in 2015. During 2014, outstanding RSAs increased the weighted average shares outstanding for purposes of determining dilutive earnings per share.

Stock Grants to Non-Employee Directors. In addition to directors fees paid, on the date of each of our annual meetings of shareholders, each non-employee director receives a grant of unrestricted shares of Class A Common Stock. In 2014, 2013 and 2012, we issued 12,000 shares, 31,250 shares and 25,000 shares, respectively. We recorded expense of \$0.4 million, \$0.8 million and \$0.2 million for each of the years ended December 31, 2014, 2013 and 2012, respectively, which was based on the closing value of the stock on the date of grant. Additionally, these shares are included in the total shares outstanding, which results in a dilutive effect on our basic and diluted earnings (loss) per share.

SARs. During the years ended December, 2014, 2013 and 2012, 200,000, 500,000 and 400,000 SARs were granted with base values per share of \$27.86, \$14.21 and \$11.68, respectively, to our President and Chief Executive Officer. The SARs have a 10-year term and vest immediately. The base value of each SAR is equal the closing price of our Class A Common Stock on the grant date. For the years ended December 31, 2014, 2013 and 2012, we recorded compensation expense equal to the estimated

Table of Contents

fair value at the grant date, of \$2.6 million, \$3.2 million and \$2.0 million, respectively. We valued the SARs using the Black-Scholes model and the following assumptions:

	2014	2013	2012
Risk-free interest rate	1.5%	0.9%	0.9%
Expected years until exercise	5 years	5 years	5 years
Expected volatility	65%	73%	73%
Annual dividend yield	2.2%	4.3%	5.2%

The risk-free interest rate is based on the U.S. Treasury yield curve in effect at the time of grant for U.S. Treasury zero coupon separate trading of registered interest and principal securities, commonly known as STRIPS, that approximate the expected life of the options. The expected volatility is based on our historical stock prices over a period equal to the expected life of the options. The annual dividend yield is based on the annual dividend per share divided by the share price on the grant date.

The following is a summary of the 2014 activity:

	SARs	Weighted-Average Price
Outstanding at December 31, 2013	1,400,000	\$ 13.25
2014 Activity:		
Granted	200,000	27.86
Exercised		
Outstanding SARs at December 31, 2014	1,600,000	15.08

The aggregate intrinsic value of the 1,600,000 outstanding as of December 31, 2014 was \$19.6 million, and the outstanding SARs have a weighted average remaining contractual life of 6.89 years as of December 31, 2014. During 2014, 2013 and 2012, outstanding SARs increased the weighted average shares outstanding for purposes of determining dilutive earnings per share.

Options. In April 2014, we entered into an employment agreement with our Chief Financial Officer, to grant annually on each December 31, an option to purchase 125,000 shares of Class A Common Stock beginning December 31, 2014 through December 31, 2021. Upon grant, the stock options are immediately exercisable. The maximum aggregate intrinsic value that can be earned under the arrangement cannot exceed \$20 million. The stock options are granted with an exercise price equal to the closing price of the stock on the date of grant and have a 10 year contractual life.

Since the stock options are fully vested upon grant and requisite service must be satisfied to receive the award, we estimate the fair value of each of the options to be issued in the future and recognize the compensation expense over the period until the actual grant date. The fair value of each award is remeasured each period until the actual grant with the ultimate cumulative expense equaling the grant date fair value of the award. During the year ended December 31, 2014, we recorded \$1.5 million of stock-based compensation expense related to this arrangement, based on estimated fair values of each of the options, of which \$1.1 million was attributable to the option granted on December 31, 2014.

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

We value the stock options using the Black-Scholes pricing model. We used the following inputs to the model to value the option granted on December 31, 2014, which has an exercise price of \$27.36 per share:

	2014
Risk-free interest rate	1.8%
Expected years to exercise	5 years
Expected volatility	47.6%
Annual dividend yield	2.3%

The risk-free interest rate is based on the U.S. Treasury yield curve in effect at the time of grant for U.S. Treasury STRIPS, that approximate the expected life of the options. The expected volatility is based on our historical stock prices over a period equal to the expected life of the options. The annual dividend yield is based on the annual dividend per share divided by the share price on the grant date.

Match. The Sinclair Broadcast Group, Inc. 401(k) Profit Sharing Plan and Trust (the 401(k) Plan) is available as a benefit for our eligible employees. Contributions made to the 401(k) Plan include an employee elected salary reduction amount, the Match and an additional discretionary amount determined each year by the Board of Directors. The Match and any additional

Table of Contents

discretionary contributions may be made using our Class A Common Stock if the Board of Directors so chooses. Typically, we make the Match using our Class A Common Stock.

The value of the Match is based on the level of elective deferrals into the 401(k) plan. The amount of shares of our Class A Common Stock used to make the Match is determined using the closing price on or about March 1st of each year for the previous calendar year's Match. The Match is discretionary and is equal to a maximum of 50% of elective deferrals by eligible employees, capped at 4% of the employee's total cash compensation. For the years ended December 31, 2014, 2013 and 2012, we recorded \$5.2 million, \$3.1 million and \$1.6 million, respectively, of stock-based compensation expense related to the Match. A total of 3,000,000 shares of Class A Common Stock are reserved for matches under the plan. As of December 31, 2014, 775,696 shares were available for future grants.

ESPP. The ESPP allows eligible employees to purchase Class A Common Stock at 85% of the lesser of the fair value of the common stock as of the first day of the quarter and as of the last day of that quarter, subject to certain limits as defined in the ESPP. The stock-based compensation expense recorded related to the ESPP for the years ended December 31, 2014, 2013 and 2012 was \$0.7 million, \$0.3 million and \$0.2 million, respectively. Less than 0.1 million shares were issued to employees during the year ended December 31, 2014. A total of 2,200,000 shares of Class A Common Stock are reserved for awards under the plan. As of December 31, 2014, 245,761 shares were available for future grants.

Subsidiary Stock Awards. From time to time, we grant subsidiary stock awards to employees. The subsidiary stock is typically in the form of a membership interest in a consolidated limited liability company, not traded on a public exchange and valued based on the estimated fair value of the subsidiary. Fair value is typically estimated using discounted cash flow models and/or appraisals. These stock awards vest immediately. For the years ended December 31, 2014, 2013 and 2012, we recorded compensation expense of \$0.2 million, \$0.3 million and \$0.7 million, respectively, related to these awards which increase noncontrolling interest equity. These awards have no effect on the shares used in our basic and diluted earnings per share.

5. PROPERTY AND EQUIPMENT:

Property and equipment are stated at cost, less accumulated depreciation. Depreciation is generally computed under the straight-line method over the following estimated useful lives:

Buildings and improvements	10 - 30 years
Station equipment	5 - 10 years
Office furniture and equipment	5 - 10 years
Leasehold improvements	Lesser of 10 - 30 years or lease term
Automotive equipment	3 - 5 years
Property and equipment under capital leases	Lease term

Acquired property and equipment as discussed in *Note 2. Acquisitions*, is depreciated on a straight-line basis over the respective estimated remaining useful lives.

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

Property and equipment consisted of the following as of December 31, 2014 and 2013 (in thousands):

	2014	2013
Land and improvements	\$ 55,269	\$ 37,517
Real estate held for development and sale	113,514	67,037
Buildings and improvements	192,478	168,441
Station equipment	684,176	572,851
Office furniture and equipment	70,402	50,210
Leasehold improvements	19,091	19,453
Automotive equipment	37,726	23,443
Capital leased assets	81,625	81,602
Construction in progress	18,774	17,078
	1,273,055	1,037,632
Less: accumulated depreciation	(520,517)	(441,561)
	\$ 752,538	\$ 596,071

Capital leased assets are related to building, tower and equipment leases. Depreciation related to capital leases is included in depreciation expense in the consolidated statements of operations. We recorded capital lease depreciation expense of \$3.7 million, \$4.0 million and \$3.5 million for the years ended December 31, 2014, 2013 and 2012, respectively.

Table of Contents**6. GOODWILL, BROADCAST LICENSES AND OTHER INTANGIBLE ASSETS:**

Goodwill, which arises from the purchase price exceeding the assigned value of the net assets of an acquired business, represents the value attributable to unidentifiable intangible elements being acquired. Goodwill totaled \$1,964.6 million and \$1,380.1 million at December 31, 2014 and 2013, respectively. The change in the carrying amount of goodwill related to continuing operations was as follows (in thousands):

	Broadcast	Other Operating Divisions	Consolidated
Balance at December 31, 2012			
Goodwill	\$ 1,484,117	\$ 3,488	\$ 1,487,605
Accumulated impairment losses	(413,573)		(413,573)
	1,070,544	3,488	1,074,032
Acquisition of television stations (a)	330,309		330,309
Sale of broadcast assets (d)	(14,724)		(14,724)
Measurement period adjustments related to 2012 acquisitions (e)	(9,535)		(9,535)
Balance at December 31, 2013 (c)			
Goodwill (a)	1,790,167	3,488	1,793,655
Accumulated impairment losses	(413,573)		(413,573)
	1,376,594	3,488	1,380,082
Acquisition of television stations (a)	701,854		701,854
Sale of broadcast assets (d)	(26,731)		(26,731)
Deconsolidation of variable interest entities (b)	(21,357)		(21,357)
Measurement period adjustments related to 2013 acquisitions (e)	(66,320)		(66,320)
Assets held for sale		(2,975)	(2,975)
Balance at December 31, 2014 (c)			
Goodwill	2,377,613	513	2,378,126
Accumulated impairment losses	(413,573)		(413,573)
	\$ 1,964,040	\$ 513	\$ 1,964,553

(a) In 2014 and 2013, we acquired goodwill as a result of acquisitions as discussed in *Note 2. Acquisitions*.

(b) In 2014, we deconsolidated certain variable interest entities and the amounts relate to WYZZ in Peoria, IL and WTAT in Charleston, SC, as discussed in *Variable Interest Entities* within *Note 1. Nature of Operations and Summary of Significant Accounting Policies*.

(c) Approximately \$0.8 million and \$6.4 million of goodwill relates to consolidated VIEs as of December 31, 2014 and 2013, respectively.

(d) Amounts relate to the 2013 sale of WSYT (including certain assets of WNYS, which we performed service to under an LMA) in Syracuse, NY, in connection with the acquisition of stations from Barrington, and to the 2014 sale of WTTA in Tampa, FL and KXRM/KXTU in Colorado Springs, CO. See *Note 3. Disposition of Assets and Discontinued Operations* for further discussion on the sale of these stations.

- (e) Amounts relate to immaterial measurement period adjustments related to 2013 acquisitions.

We did not have any indicators of impairment in any interim period in 2014, 2013, or 2012, and therefore did not perform interim impairment tests for goodwill during those periods. We performed our annual impairment tests for goodwill in the fourth quarter of 2014 and 2013 and as a result of our qualitative assessment we concluded based on our qualitative assessment of goodwill that it was more likely than not that the fair values of the reporting units would sufficiently exceed their carrying values and it was unnecessary to perform the quantitative two-step method.

Table of Contents

Based on the results of our annual qualitative assessment for goodwill impairment performed in 2012, we concluded that we would need to perform a quantitative Step 1 test for three of our markets which had aggregate goodwill of \$79.5 million as of October 1, 2012, the date of our annual impairment test. These markets had a decrease in operating results for the past few years and therefore, we estimated the fair value of these reporting units based on a market approach and income approach. For all three markets, the fair value of the reporting unit exceeded the respective carrying value by more than 10%. For all our other reporting units, we concluded based on the qualitative assessment that it was more likely than not that the fair values of these reporting units would sufficiently exceed their carrying values and it was not necessary to perform the quantitative two-step method.

The qualitative factors for our reporting units reviewed during our annual assessments, with the exception of the three markets in which we performed a quantitative assessment in 2012, indicated stable or improving margins and favorable or stable forecasted economic conditions including stable discount rates and comparable or improving business multiples. Additionally, the results of prior quantitative assessments supported significant excess fair value over carrying value of our reporting units.

As of December 31, 2014 and 2013, the carrying amount of our broadcast licenses related to continuing operations was as follows (in thousands):

	2014	2013
Beginning balance	\$ 101,029	\$ 85,122
Acquisition of television stations (a)	18,027	15,514
Sale of broadcast assets (d)	(45)	(25)
Impairment charge	(3,240)	
Measurement period adjustments related to 2013 acquisitions (a)	19,355	418
Deconsolidation of variable interest entities (b)	(51)	
Ending balance (c)	\$ 135,075	\$ 101,029

(a) See *Note 2. Acquisitions*.

(b) In 2014, we deconsolidated certain variable interest entities and the amounts relate to WYZZ in Peoria, IL and WTAT in Charleston, SC, as discussed in *Variable Interest Entities* within *Note 1. Nature of Operations and Summary of Significant Accounting Policies*.

(c) Approximately \$16.9 million and \$16.8 million of broadcast licenses relate to consolidated VIEs as of December 31, 2014 and 2013, respectively.

(d) Amounts relate to the 2013 sale of WSYT, in Syracuse, NY, in connection with the acquisition of stations from Barrington, and to the 2014 sale of WTTA in Tamp, FL and KXRM/KXTU in Colorado Springs, CO. See *Note 3. Disposition of Assets and Discontinued Operations* for further discussion on the sale of these stations.

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

We did not have any indicators of impairment for broadcast licenses in any interim period in 2014, and therefore did not perform interim impairment tests during those periods. We performed our annual impairment tests for indefinite-lived intangibles in the fourth quarter of 2014 and as a result of our qualitative and/or quantitative assessments we recorded \$3.2 million in impairment, included with amortization of \$113.4 million within the consolidated statement of operations, related to broadcast licenses with a carrying value of \$21.1 million, compared to their estimated fair value of \$17.9 million, as a result of a decrease in the projected future market revenues related to our radio broadcast licenses in Seattle, WA.

The key assumptions used to determine the fair value of our broadcast licenses consisted primarily of significant unobservable inputs (Level 3 fair value inputs), including discount rates, estimated market revenues, normalized market share, normalized profit margin, and estimated start-up costs. The qualitative factors for our broadcast licenses indicated an increase in market revenues, stable market shares and stable cost factors. The revenue, expense and growth rates used in determining the fair value of our broadcast licenses remained constant or increased slightly from 2013 to 2014. The growth rates are based on market studies, industry knowledge and historical performance. The discount rates used to determine the fair value of our broadcast licenses did not change significantly over the last three years. The discount rate is based on a number of factors including market interest rates, a weighted average cost of capital analysis based on the target capital structure for a television station, and includes adjustments for market risk and company specific risk.

The following table shows the gross carrying amount and accumulated amortization of definite-lived intangibles related to continuing operations (in thousands):

Table of Contents

As of December 31, 2014			
	Gross Carrying Amount	Accumulated Amortization	Net
Amortized intangible assets:			
Network affiliation (a)	\$ 1,396,792	\$ (257,526)	\$ 1,139,266
Decaying advertiser base (b)	324,262	(148,878)	175,384
Other (c)	599,472	(95,859)	503,613
Total	\$ 2,320,526	\$ (502,263)	\$ 1,818,263

As of December 31, 2013			
	Gross Carrying Amount	Accumulated Amortization	Net
Amortized intangible assets:			
Network affiliation (a)	\$ 869,535	\$ (195,037)	\$ 674,498
Decaying advertiser base (b)	260,454	(135,978)	124,476
Other (c)	389,769	(60,988)	328,781
Total	\$ 1,519,758	\$ (392,003)	\$ 1,127,755

(a) The increase in network affiliation assets includes amounts from acquisitions of \$506.8 million and \$321.0 million in 2014 and 2013, respectively. See *Note 2. Acquisitions* for the purchase price allocation of stations acquired during 2014, and measurement period adjustments recorded during 2014 related to 2013 acquisitions.

(b) The increase in decaying advertiser base includes amounts from acquisitions of \$69.0 million and \$80.0 million in 2014 and 2013, respectively. See *Note 2. Acquisitions* for the purchase price allocation of stations acquired during 2014, and measurement period adjustments related to 2013 acquisitions.

(c) The increase in other intangible assets includes the amounts from acquisitions of \$214.2 million and \$155.5 million in 2014 and 2013, respectively. See *Note 2. Acquisitions* for the purchase price allocation of stations acquired during 2014, and measurement period adjustments related to 2013 acquisitions. The increase also includes the purchase of additional alarm monitoring contracts of \$27.7 million, which is included in Other Operating Divisions.

Definite-lived intangible assets and other assets subject to amortization are being amortized on a straight-line basis over their estimated useful lives which generally range from 5 to 25 years. The total weighted average useful life of all definite-lived intangible assets and other assets subject to amortization acquired as a result of the acquisitions discussed in *Note 2. Acquisitions* is 14 years. The amortization expense of the definite-lived intangible assets for the years ended December 31, 2014, 2013 and 2012 was \$125.5 million, \$70.8 million and \$38.1 million, respectively. We analyze specific definite-lived intangibles for impairment when events occur that may impact their value in accordance with the respective accounting guidance for long-lived assets. There were no impairment charges recorded for the years ended December 31, 2014, 2013 and 2012.

The following table shows the estimated amortization expense of the definite-lived intangible assets for the next five years (in thousands):

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

For the year ended December 31, 2015	\$	147,831
For the year ended December 31, 2016		146,877
For the year ended December 31, 2017		144,887
For the year ended December 31, 2018		143,923
For the year ended December 31, 2019		143,834
Thereafter		1,090,911

7. NOTES PAYABLE AND COMMERCIAL BANK FINANCING:

Bank Credit Agreement

We have a syndicated credit facility which includes both revolving credit and issued term loans (Bank Credit Agreement). During the years ended December 31, 2014, 2013 and 2012, the Bank Credit Agreement has been restated and amendment several times to provide incremental financing to the acquisitions as discussed under *Note 2. Acquisitions*. As of December 31, 2014, \$1,725.9 million of aggregate borrowings were outstanding under the Bank Credit Agreement, which consists of the following:

Term Loan A. As of December 31, 2014, \$348.1 million of term loans maturing in April 2018 which bear interest at LIBOR plus 2.25% (Term Loan A) were outstanding. As of December 31, 2013, \$500.0 million of Term Loan A was outstanding, and we had an additional commitment of \$200.0 million to be drawn on a delayed basis in 2014. On July 31, 2014, the most recent amendment to the Bank Credit Agreement, \$327.7 million of Term Loan A was converted into revolving commitments.

Term Loan B. As of December 31, 2014, \$1,035.9 million of term loans, net of unamortized original issue discount of \$4.0 million, were outstanding, which consist of 1) \$650.0 million original principal maturing in April 2020, bearing interest at LIBOR plus 2.25% with 0.75% LIBOR floor, and 2) \$400.0 million original principal maturing July 2021, bearing interest at LIBOR plus 2.75% with a 0.75% LIBOR floor (collectively, Term Loan B). As of December 31, 2013, \$642.7 million of Term Loan B, net of unamortized original issue discount of \$3.6 million, was outstanding. On July 31, 2014, the incremental Term Loan B of \$400.0 million, discussed above, was issued at 99.75% of par (\$1.0 million original issue discount).

Revolving Credit Facility. As of December 31, 2014 and 2013, our total commitments under the revolving credit facility (Revolver) were \$485.2 million and \$157.5 million, respectively. The Revolver matures in April 2018 and bears interest at LIBOR plus 2.25%. We incur a commitment fee on undrawn capacity of 0.5%. On July 31, 2014, \$327.7 million of Term Loan A was converted into revolving commitments. As of December 31, 2014, \$338.0 million of borrowings and \$3.1 million of letters of credit were issued under the Revolver. Remaining borrowing capacity under the Revolver was \$144.1 million as of December 31, 2014.

Interest expense related to the Bank Credit Agreement, including the Revolver, in our consolidated statements of operations was \$38.7 million, \$27.3 million and \$35.7 million for the years ended December 31, 2014, 2013 and 2012, respectively. Included in these amounts were debt refinancing costs of \$3.8 million, \$2.4 million and \$6.3 million for the years ended December 31, 2014, 2013, and 2012 respectively, in accordance with debt modification accounting guidance that applied to the amendments. Additionally, we capitalized \$3.8 million, \$14.9 million and \$2.3 million as deferred financing costs, during the years ended December 31, 2014, 2013 and 2012, respectively. Deferred financing costs are classified within other assets within our consolidated balance sheet. The weighted average effective interest rate of the Term Loan B for the years ended December 31, 2014 and 2013 was 3.27% and 3.29%, respectively. The weighted average effective interest rate of the Term Loan A for the years ended December 31, 2014 and 2013 was 2.34% and 2.51%, respectively. The weighted average effective interest rate of the Revolver for the year ended December 31, 2014 was 2.47%.

Our Bank Credit Agreement, as well as indentures governing our outstanding notes as described below, contains a number of covenants that, among other things, restrict our ability and our subsidiaries' ability to incur additional indebtedness with certain exceptions, pay dividends (See

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

Note 9. Common Stock), incur liens, engage in mergers or consolidations, make acquisitions, investments or disposals and engage in activities with affiliates. In addition, under the Bank Credit Agreement, we are required to maintain a ratio of First Lien Indebtedness of 4.0 times EBITDA. As of December 31, 2014, we were in compliance with all financial ratios and covenants.

Our Bank Credit Agreement also contains certain cross-default provisions with certain material third-party licensees, defined as any party that owns the license assets of one or more television stations for which we provided services to pursuant to LMAs and/or other outsourcing agreements and those stations provide 10% or more of our aggregate broadcast cash flows. A default by a material third-party licensee under our agreements with such parties, including a default caused by insolvency, would cause an event of default under our Bank Credit Agreement. As of December 31, 2014, there were no material third party licensees as defined in our Bank Credit Agreement.

Substantially all of our stock in our wholly-owned subsidiaries has been pledged as security for the Bank Credit Agreement.

5.625% Senior Unsecured Notes, due 2024

On July 23, 2014, we issued \$550.0 million in senior unsecured notes, which bear interest at a rate of 5.625% per annum and mature on August 1, 2024 (the 5.625% Notes), pursuant to an indenture dated July 23, 2014 (the 5.625% Indenture). The 5.625% Notes were priced at 100% of their par value and interest is payable semi-annually on February 1 and August 1, commencing on February 1, 2015. Prior to August 1, 2019, we may redeem the 5.625% Notes, in whole or in part, at any time or from time to

Table of Contents

time at a price equal to 100% of the principal amount of the 5.625% Notes plus accrued and unpaid interest, if any, to the date of redemption, plus a make-whole premium as set forth in the 5.625% Indenture. In addition, on or prior to August 1, 2019, we may redeem up to 35% of the 5.625% Notes, using proceeds of certain equity offerings. If we sell certain of our assets or have certain changes of control, the holders of the 5.625% Notes may require us to repurchase some or all of the notes. The proceeds from the offering of the 5.625% Notes, together with borrowings under our Bank Credit Agreement and cash on hand, were used to finance the acquisition of the Allbritton companies effective August 1, 2014. Concurrent with entering into the 5.625% Indenture in July 2013, we also entered into a registration rights agreement requiring us to file a registration statement covering an offer to exchange of the 5.625% Notes for registered securities with the Securities and Exchange Commission (the SEC) to be effective by April 19, 2015.

Interest expense was \$13.6 million for the year ended December 31, 2014. The weighted average effective interest rate for the 5.625% Notes was 5.625% for the year ended December 31, 2014.

6.375% Senior Notes, due 2021

On October 11, 2013, we issued \$350.0 million in senior unsecured notes, which bear interest at a rate of 6.375% per annum and mature on November 1, 2021 (the 6.375% Notes), pursuant to an indenture dated October 11, 2013 (the 6.375% Indenture). The 6.375% Notes were priced at 100% of their par value and interest is payable semi-annually on May 1 and November 1, commencing on May 1, 2014. Prior to November 1, 2016, we may redeem the 6.375% Notes, in whole or in part, at any time or from time to time at a price equal to 100% of the principal amount of the Notes plus accrued and unpaid interest, if any, to the date of redemption, plus a make-whole premium as set forth in the 6.375% Indenture. In addition, on or prior to November 1, 2016, we may redeem up to 35% of the 6.375% Notes using the proceeds of certain equity offerings. If we sell certain of our assets or experience specific kinds of changes of control, holder of the 6.375% Notes may require us to repurchase some or all of the Notes. Upon the sale of certain of our assets or certain changes of control, the holders of the 6.375% Notes may require us to repurchase some or all of the notes. The proceeds from the offering of the 6.375% Notes were used to partially fund the redemption of the 9.25% Senior Secured Second Lien Notes, Due 2017 (the 9.25% Notes), as discussed further below. Concurrent with entering into an indenture for the 6.375% Notes in October 2013, we also entered into a registration rights agreement requiring us to complete an offer of an exchange of the 6.375% Notes for registered securities with the Securities and Exchange Commission (the SEC) by July 8, 2014. We filed a registration statement on Form S-4 with the SEC on December 6, 2013, which became effective on December 19, 2013. An exchange offer was launched on December 19, 2013 to exchange the unregistered 6.375% Notes with the holders for 6.375% Notes registered under the Securities Act of 1933. The exchange offer was completed on January 24, 2014 with 99.7% of the \$350.0 million 6.375% Senior Unsecured Notes due 2021 tendered in the exchange offer.

Interest expense was \$22.4 million for the year ended December 31, 2014. The weighted average effective interest rate for the 6.375% Notes was 6.375% for the year ended December 31, 2014.

5.375% Senior Unsecured Notes, due 2021

On April 2, 2013, we issued \$600.0 million of senior unsecured notes, which bear interest at a rate of 5.375% per annum and mature on April 1, 2021 (the 5.375% Notes), pursuant to an indenture dated April 2, 2013 (the 5.375% Indenture). The 5.375% Notes were priced at 100% of their par value and interest is payable semi-annually on April 1 and October 1, commencing on October 1, 2013. Prior to April 1, 2016, we may redeem the 5.375% Notes, in whole or in part, at any time or from time to time at a price equal to 100% of the principal amount of the 5.375% Notes plus accrued and unpaid interest, if any, to the redemption date, plus a make-whole premium as set forth in the 5.375% Indenture. Beginning on April 1, 2016, we may redeem some or all of the 5.375% Notes at any time or from time to time at a redemption price set forth in

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

the 5.375% Indenture. In addition, on or prior to April 1, 2016, we may redeem up to 35% of the 5.375% Notes using proceeds of certain equity offerings. Upon the sale of certain of our assets or certain changes of control, the holders of the 5.375% Notes may require us to repurchase some or all of the notes. The net proceeds from the offering of the 5.375% Notes were used to pay down outstanding indebtedness under our bank credit facility. Concurrent with entering into an indenture for the 5.375% Notes in April 2013, we also entered into a registration rights agreement requiring us to complete an offer of an exchange of the 5.375% Notes for registered securities with the Securities and Exchange Commission (the SEC) by December 28, 2013. We filed a registration statement on Form S-4 with the SEC on April 4, 2013, which became effective on April 16, 2013. An exchange offer was launched on May 23, 2013 to exchange the unregistered 5.375% Notes with the holders for 5.375% Notes registered under the Securities Act of 1933. The exchange offer was completed on June 28, 2013 with 100% of the \$600.0 million 5.375% Senior Unsecured Notes due 2021 tendered in the exchange offer.

Interest expense was \$32.3 million for the year ended December 31, 2014. The weighted average effective interest rate for the 5.375% Notes was 5.375% for the year ended December 31, 2014.

Table of Contents

6.125% Senior Unsecured Notes, due 2022

On October 12, 2012, we issued \$500.0 million of senior unsecured notes, which bear interest at a rate of 6.125% per annum and mature on October 1, 2022 (the 6.125% Notes), pursuant to an indenture dated October 12, 2012 (the 2012 Indenture). The 6.125% Notes were priced at 100% of their par value and interest is payable semi-annually on April 1 and October 1, commencing on April 1, 2013. Prior to October 1, 2017, we may redeem the 6.125% Notes, in whole or in part, at any time or from time to time at a price equal to 100% of the principal amount of the 6.125% Notes plus accrued and unpaid interest, if any, to the redemption date, plus a make-whole premium as set forth in the 2012 Indenture. Beginning on October 1, 2017, we may redeem some or all of the 6.125% Notes at any time or from time to time at a redemption price set forth in the 2012 Indenture. In addition, on or prior to October 1, 2015, we may redeem up to 35% of the 6.125% Notes using proceeds of certain equity offerings. Upon the sale of certain of our assets or certain changes of control, the holders of the 6.125% Notes may require us to repurchase some or all of the notes. The net proceeds from the offering of the 6.125% Notes were used to pay down outstanding indebtedness under the revolving credit facility under our Bank Credit Agreement and fund certain acquisitions as described under *Note 2. Acquisitions*, and for general corporate purposes. Concurrent with entering into the 2012 Indenture, we also entered into a registration rights agreement requiring us to complete an offer of an exchange of the 6.125% Notes for registered securities with the Securities and Exchange Commission (the SEC) by July 8, 2013. We filed a registration statement on Form S-4 with the SEC on April 4, 2013 which became effective on April 16, 2013. An exchange offer was launched on May 23, 2013 to exchange the unregistered 6.125% Notes with the holders for 6.125% Notes registered under the Securities Act of 1933. The exchange offer was completed on June 28, 2013 with 100.0% of the \$500.0 million 6.125% Senior Unsecured Notes due 2022 tendered in the exchange offer.

Interest expense was \$30.6 million for the year ended December 31, 2014. The weighted average effective interest rate for the 6.125% Notes was 6.125% for the year ended December 31, 2014.

8.375% Senior Unsecured Notes, due 2018

Effective October 15, 2014, we redeemed all of the outstanding 8.375% Senior Notes due 2018, representing \$237.5 million aggregate principal amount of Notes as of October 15, 2014. Upon the redemption, along with the principal, we paid the accrued and unpaid interest and a make whole premium of \$9.9 million, for a total of \$257.4 million paid to note holders. We recorded a loss on extinguishment of \$14.6 million in the fourth quarter of 2014 related to this redemption.

Interest and amortization expense was \$16.0 million, \$20.3 million and \$20.2 million for the years ended December 31, 2014, 2013 and 2012, respectively. The weighted average effective interest rate of the 8.375% Notes, including amortization of its bond discount, was 8.65% for the year ended December 31, 2013.

9.25% Senior Secured Second Lien Notes, Due 2017

Effective October 12, 2013, we redeemed all of the outstanding 9.25% Senior Secured Second Lien Notes, representing \$500.0 million in aggregate principal amount. Upon the redemption, along with the principal, we paid the accrued and unpaid interest and a make whole premium of \$25.4 million, for a total of \$546.1 million paid to noteholders. We recorded a loss on extinguishment of \$43.1 million in the fourth quarter of 2013 related to this redemption, which included the write-off of the unamortized deferred financing costs of \$9.5 million and debt discount of

\$8.2 million.

Interest expense was \$37.3 million and \$47.7 million for the years ended December 31, 2013 and 2012, respectively. The weighted average effective interest rate for the 9.25% Notes, including the amortization of its bond discount, was 9.74% for the year ended December 31, 2012.

4.875% Convertible Senior Notes, due 2018 and 3.0% Convertible Senior Notes, Due 2027

In September 2013, 100% of the outstanding 4.875% Convertible Senior Notes, due in 2018 (the 4.875% Notes), representing aggregate principal of \$5.7 million, were converted into 388,632 shares of Class A Common Stock, as permitted under the indenture, resulting in an increase in additional paid-in capital of \$8.6 million, net of income taxes.

In October 2013, 100% of the outstanding 3.0% Convertible Senior Notes, due in 2027 (the 3.0% Notes), representing aggregate principal of \$5.4 million, were converted and settled fully in cash of \$10.5 million, as permitted under the indenture. As the original terms of the indenture included a cash conversion feature, the effective settlement of the liability and equity components were accounted for separately. The redemption of the liability component results in a \$1.0 million gain on extinguishment, and the redemption of the equity component was recorded as a \$5.1 million reduction in additional paid-in capital, net of taxes.

Table of Contents***Other Operating Divisions Debt***

Other operating divisions debt includes the debt of our consolidated subsidiaries with non-broadcast related operations. This debt is non-recourse to us. Interest was paid on this debt at rates typically ranging from LIBOR plus 2.5% to a fixed 6.50% during 2014. During 2014, 2013 and 2012, interest expense on this debt was \$3.1 million, \$3.2 million and \$3.1 million, respectively.

Debt of Variable Interest Entities

Our consolidated VIEs have \$30.2 million in outstanding debt for which the proceeds were used to purchase the license assets of certain stations. See *Note 1. Nature of Operations and Summary of Significant Accounting Policies* and *Note 2. Acquisitions* for more information. The credit agreements and term loans of these VIEs each bear interest of LIBOR plus 2.50%. We have jointly and severally, unconditionally and irrevocably guaranteed the debt of the VIEs, as a primary obligor, including the payment of all unpaid principal of and interest on the loans.

For the year ended December 31, 2014 and 2013, the interest expense relating to the debt of our VIEs which was jointly and severally, unconditionally and irrevocably guaranteed was \$2.2 million and \$1.2 million, respectively. During the year ended December 31, 2012, one of our VIEs had debt outstanding that was non-recourse to us and that debt was repaid in full on October 1, 2012. The interest expense for the year ended December 31, 2012 related to that debt was \$0.3 million.

Summary

Notes payable, capital leases and the Bank Credit Agreement consisted of the following as of December 31, 2014 and 2013 (in thousands):

	2014		2013
Bank Credit Agreement, Term Loan A	\$ 348,073	\$	500,000
Bank Credit Agreement, Term Loan B	1,039,876		646,375
Revolving credit facility	338,000

F-33

Table of Contents

As of December 31, 2014, we had 27 capital leases with non-affiliates; including 25 broadcast tower leases, four other operating divisions equipment leases and one corporate building lease. All of our tower leases will expire within the next 17 years, the equipment leases expire within the next 4 years, and the building leases will expire in 2015. Most of our leases have 5-10 year renewal options and it is expected that these leases will be renewed or replaced within the normal course of business. For information related to our affiliate notes and capital leases, see *Note 12. Related Person Transactions*.

8. PROGRAM CONTRACTS:

Future payments required under program contracts as of December 31, 2014 were as follows (in thousands):

2015	\$	104,922
2016		22,459
2017		14,999
2018		10,341
2019		7,838
2020 and thereafter		4,968
Total		165,527
Less: Current portion		(104,922)
Long-term portion of program contracts payable	\$	60,605

Each future period's film liability includes contractual amounts owed, however, what is contractually owed does not necessarily reflect what we are expected to pay during that period. While we are contractually bound to make the payments reflected in the table during the indicated periods, industry protocol typically enables us to make film payments on a three-month lag. Included in the current portion amounts are payments due in arrears of \$34.3 million. In addition, we have entered into non-cancelable commitments for future program rights aggregating to \$121.0 million as of December 31, 2014.

9. COMMON STOCK:

Holders of Class A Common Stock are entitled to one vote per share and holders of Class B Common Stock are entitled to ten votes per share, except for votes relating to going private and certain other transactions. The Class A Common Stock and the Class B Common Stock vote together as a single class, except as otherwise may be required by Maryland law, on all matters presented for a vote. Holders of Class B Common Stock may at any time convert their shares into the same number of shares of Class A Common Stock. During 2014, 100,000 Class B Common Stock shares were converted into Class A Common Stock shares. During 2013, 2,905,502 Class B Common Stock shares were converted into Class A Common Stock shares.

Our Bank Credit Agreement and some of our subordinated debt instruments have restrictions on our ability to pay dividends. Under our Bank Credit Agreement, in certain circumstances, we may make unrestricted cash payments as long as our first lien indebtedness ratio does not exceed 3.75 to 1.00. Once our first lien indebtedness ratio exceeds 3.75 to 1.00, we have the ability to make up to \$200.0 million in unrestricted annual cash payments including but not limited to dividends, of which \$50.0 million may carry over to the next year, as long as we are in compliance with our first lien indebtedness ratio under the Bank Credit Agreement of 4.00 to 1.00. In addition, we have an aggregate basket of up to \$250.0

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

million, as long as we are in compliance with our first lien indebtedness ratio of 4.00 to 1.00, and an aggregate basket of \$50.0 million, as long as no Event of Default has occurred. Under the indentures governing the 6.125% Notes, 5.375% Notes, 6.375% Notes and 5.625% Notes, we are restricted from paying dividends on our common stock unless certain specified conditions are satisfied, including that:

- no event of default then exists under each indenture or certain other specified agreements relating to our indebtedness; and
- after taking into account the dividends payment, we are within certain restricted payment requirements contained in each indenture.

In addition, under certain of our debt instruments, the payment of dividends is not permissible during a default thereunder.

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

Table of Contents

In April 2013, we commenced a public offering of 18.0 million shares of Class A common stock. The offering was priced at \$27.25 per share on May 1, 2013 and closed on May 7, 2013. The net proceeds of \$472.9 million were used to fund 2013 acquisitions and for general corporate purposes.

During 2013, our Board of Directors declared a quarterly dividend of \$0.15 per share in the months of February, April, August and November, which were paid in March, June, September and December, respectively. Total dividend payments for the year ended December 31, 2013 were \$0.60 per share. During 2014, our Board of Directors declared a quarterly dividend of \$0.15 per share in the months of February and April, which were paid in March and June. In August and November our Board of Directors declared a quarterly dividend of \$0.165 per share, which were paid in September and December. Total dividend payments for the year ended December 31, 2014 were \$0.63 per share. In February 2015, our Board of Directors declared a quarterly dividend of \$0.165 per share. Future dividends on our common shares, if any, will be at the discretion of our Board of Directors and will depend on several factors including our results of operations, cash requirements and surplus, financial condition, covenant restrictions and other factors that the Board of Directors may deem relevant. The Class A Common Stock and Class B Common Stock holders have the same rights related to dividends.

During 2014, we repurchased approximately 4.9 million shares of Class A Common Stock for approximately \$133.2 million on the open market including transaction costs. As of December 31, 2014, the total remaining authorization was \$134.4 million. In January 2015, we repurchased 0.3 million shares of Class A Common Stock for approximately \$7.8 million on the open market including transaction costs.

10. INCOME TAXES:

The provision (benefit) for income taxes consisted of the following for the years ended December 31, 2014, 2013 and 2012 (in thousands):

	2014	2013	2012
Provision for income taxes - continuing operations	\$ 97,432	\$ 41,249	\$ 67,852
(Benefit) provision for income taxes - discontinued operations		(10,806)	663
	\$ 97,432	\$ 30,443	\$ 68,515
Current:			
Federal	\$ 92,609	\$ 16,229	\$ 56,106
State	5,641	(8,305)	4,095
	98,250	7,924	60,201
Deferred:			
Federal	3,170	20,214	9,151
State	(3,988)	2,305	(837)
	(818)	22,519	8,314
	\$ 97,432	\$ 30,443	\$ 68,515

The following is a reconciliation of federal income taxes at the applicable statutory rate to the recorded provision from continuing operations:

	2014	2013	2012
Federal statutory rate	35.0%	35.0%	35.0%

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

Adjustments-

State income taxes, net of federal tax benefit (1)	(0.1)%	8.3%	(0.4)%
Non-deductible items (2)	3.4%	1.4%	0.3%
Domestic Production Activities Deduction (3)	(3.2)%	(3.8)%	(1.4)%
Effect of consolidated VIEs (4)	0.8%	3.7%	(3.4)%
Change in state tax laws and rates	(0.1)%	(5.5)%	0.2%
Changes in unrecognized tax benefits (5)	(3.4)%	0.8%	1.5%
Other	(0.9)%	0.1%	0.2%
Effective income tax rate	31.5%	40.0%	32.0%

(1) Included in state income taxes are deferred income tax effects related to certain acquisitions and/or intercompany mergers.

(2) Included in 2014 is the current income taxes related to the taxable gain on sale of WHTM's assets in Harrisburg, PA,

Table of Contents

which we acquired with the stock purchase of the Allbritton Companies in the same year. There was no book gain on this sale. Since a deferred tax liability was not established for the excess of book basis over tax basis of goodwill, deferred tax benefit does not offset the current tax expense.

(3) During the years ended December 31, 2014 and 2013, we recorded a \$0.8 million reduction in and a \$2.0 million of additional benefit, respectively, related to domestic production activities deduction upon filing the respective 2013 and 2012 federal income tax returns.

(4) Certain of our consolidated VIEs incur expenses that are not attributable to non-controlling interests because we absorb certain related losses of the VIEs. These expenses are not tax-deductible by us, and since these VIEs are treated as pass-through entities for income tax purposes, deferred income tax benefits are not recognized. For the year ended December 31, 2012, the taxes on consolidated VIEs include a release of \$7.7 million of valuation allowance related to certain deferred tax assets of Cunningham, one of our consolidated VIEs, as the weight of all available evidence supported realization of the deferred tax assets. This assessment was based primarily on the sufficiency of forecasted taxable income necessary to utilize net operating loss carryforwards expiring in the years 2022 – 2029. This VIE files separate income tax returns. Any resulting tax liabilities are nonrecourse to us, and we are not entitled to any benefit resulting from the deferred tax assets of the VIE. As discussed in *Variable Interest Entities* under *Note 1. Nature of Operations and Summary of Significant Accounting Policies*, Cunningham was deconsolidated in 2014.

(5) During the year ended December 31, 2014, we recorded a \$10.8 million benefit related to the release of liabilities for unrecognized tax benefits as a result of expiration of the applicable statute of limitations. See table below which summarizes the activity related to our accrued unrecognized tax benefits.

Temporary differences between the financial reporting carrying amounts and the tax bases of assets and liabilities give rise to deferred taxes. Total deferred tax assets and deferred tax liabilities as of December 31, 2014 and 2013 were as follows (in thousands):

	2014	2013
Current and Long-Term Deferred Tax Assets:		
Net operating and capital losses:		
Federal	\$ 2,384	\$ 5,027
State	67,430	63,051
Broadcast licenses	11,993	27,652
Intangibles	32,182	3,451
Other	27,677	35,677
	141,666	134,858
Valuation allowance for deferred tax assets	(58,896)	(51,062)
Total deferred tax assets	\$ 82,770	\$ 83,796
Current and Long-Term Deferred Tax Liabilities:		
Broadcast licenses	\$ (36,083)	\$ (20,395)
Intangibles	(507,545)	(270,008)
Property & equipment, net	(72,819)	(52,514)
Contingent interest obligations	(40,941)	(51,621)
Other	(34,314)	(2,037)
Total deferred tax liabilities	(691,702)	(396,575)

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

Net tax liabilities	\$	(608,932)	\$	(312,779)
---------------------	----	-----------	----	-----------

Our remaining federal and state capital and net operating losses will expire during various years from 2015 to 2034, and some of them are subject to annual limitations under the Internal Revenue Code Section 382 and similar state provisions. As discussed in *Income taxes* within *Note 1. Nature of Operations and Summary of Significant Accounting Policies*, we establish valuation allowances in accordance with the guidance related to accounting for income taxes. As of December 31, 2014, a valuation allowance has been provided for deferred tax assets related to a substantial portion of our available state net operating loss carryforwards based on past operating results, expected timing of the reversals of existing temporary book/tax basis differences, alternative tax strategies and projected future taxable income. Although realization is not assured for the remaining deferred tax assets, we believe it is more likely than not that they will be realized in the future. During the year ended December 31, 2014, we increased our valuation allowance by \$7.8 million to \$58.9 million. The change in valuation allowance was primarily due to intercompany

Table of Contents

mergers, effective December 31, 2014, which we expect will decrease the utilization of the state NOL carryforwards. During the year ended December 31, 2013, we decreased our valuation allowance by \$8.3 million from \$59.4 million. The reduction in valuation allowance was primarily due to a law change in a state tax jurisdiction, effective for years beginning after December 31, 2014, which we expect will significantly increase the forecasted future taxable income attributable to that state and result in utilization of the state NOL carryforwards. During the year ended December 31, 2012, we decreased our valuation allowance by \$19.7 million from \$79.1 million. The reduction in valuation allowance was primarily due to the settlement of several audits, which resulted in the utilization of certain state NOL carryforwards which were previously fully reserved, as well as due to changes in estimates of apportionment for certain states.

As of December 31, 2014 and 2013, we had \$7.1 million and \$16.9 million of gross unrecognized tax benefits, respectively. Of this total, for the years ended December 31, 2014 and 2013, \$6.4 and \$15.6 million from respective continuing operations (net of federal effect on state tax issues) represent the amounts of unrecognized tax benefits that, if recognized, would favorably affect our effective tax rates.

The following table summarizes the activity related to our accrued unrecognized tax benefits (in thousands):

	2014	2013	2012
Balance at January 1,	\$ 16,883	\$ 25,965	\$ 26,088
Reductions related to prior year tax positions		(8,928)	(123)
Increases related to current year tax positions	1,450	693	
Reductions related to settlements with taxing authorities	(2,910)	(847)	
Reductions related to expiration of the applicable statute of limitations	(8,285)		
Balance at December 31,	\$ 7,138	\$ 16,883	\$ 25,965

In addition, we recognize accrued interest and penalties related to unrecognized tax benefits in income tax expense. We recognized \$0.7 million, \$1.2 million and \$1.5 million of income tax expense for interest related to uncertain tax positions for the years ended December 31, 2014, 2013 and 2012, respectively.

Management periodically performs a comprehensive review of our tax positions and accrues amounts for tax contingencies. Based on these reviews, the status of ongoing audits and the expiration of applicable statute of limitations, these accruals are adjusted as necessary. Amounts accrued for these tax matters are included in the table above and long-term liabilities in our consolidated balance sheets. We believe that adequate accruals have been provided for all years.

As previously discussed under *Discontinued Operations* within *Note 1. Nature of Operations and Summary of Significant Accounting Policies*, during the year ended December 31, 2013, we reduced our liability for unrecognized tax benefits by \$11.2 million related to discontinued operations. During the third quarter of 2013, we concluded that it was more likely than not that a previously unrecognized state tax position would be sustained upon review of the state tax authority, based on new information obtained during the period, resulting in a reduction in the liability of \$6.1 million. The remaining \$5.1 million reduction in the second quarter of 2013 was the result of application of limits under an available state administrative practice exception.

We are subject to U.S. federal income tax as well as income tax of multiple state jurisdictions. All of our 2011 and subsequent federal and state tax returns remain subject to examination by various tax authorities. Some of our pre-2011 federal and state tax returns may also be subject to

examination. We do not anticipate the resolution of these matters will result in a material change to our consolidated financial statements. In addition, we believe it is reasonably possible that our liability for unrecognized tax benefits related to continuing operations could be reduced by up to \$4.3 million, in the next twelve months, as a result of expected statute of limitations expirations, the application of limits under available state administrative practice exceptions, and the resolution of examination issues and settlements with federal and certain state tax authorities.

11. COMMITMENTS AND CONTINGENCIES:

Litigation

We are a party to lawsuits and claims from time to time in the ordinary course of business. Actions currently pending are in various stages and no material judgments or decisions have been rendered by hearing boards or courts in connection with such actions. After reviewing developments to date with legal counsel, our management is of the opinion that the outcome of our pending and threatened matters will not have a material adverse effect on our consolidated balance sheets, consolidated statements of operations or consolidated statements of cash flows.

Table of Contents

Various parties have filed petitions to deny our applications or our LMA partners' applications for the following stations' license renewals: WXLV-TV, Winston-Salem, North Carolina; WMYV-TV, Greensboro, North Carolina; WLFL-TV, Raleigh / Durham, North Carolina; WRDC-TV, Raleigh / Durham, North Carolina; WLOS-TV, Asheville, North Carolina; WCIV-TV, Charleston, South Carolina (formerly WMMP-TV); WMYA-TV, Anderson, South Carolina; WICS-TV Springfield, Illinois; WBFF-TV, Baltimore, Maryland; WTTE-TV, Columbus, Ohio; WRGT-TV, Dayton, Ohio; WVAH-TV, Charleston / Huntington, West Virginia; WCGV-TV, Milwaukee, Wisconsin; and WTTO-TV in Birmingham, AL. The FCC is in the process of considering the renewal applications and we believe the petitions have no merit.

Operating Leases

We have entered into operating leases for certain property and equipment under terms ranging from one to 45 years. The rent expense from continuing operations under these leases, as well as certain leases under month-to-month arrangements, for the years ended December 31, 2014, 2013 and 2012 was approximately \$19.4 million, \$10.3 million and \$6.7 million, respectively.

Future minimum payments under the leases are as follows (in thousands):

2015	\$	12,819
2016		12,149
2017		9,390
2018		5,838
2019		4,807
2020 and thereafter		20,139
	\$	65,142

As of December 31, 2014, we had outstanding letters of credit totaling \$3.1 million.

Network Affiliation Agreements

On May 14, 2012, the Company and the licensees of stations to which we provide services, representing 20 affiliates of Fox Broadcast Company (FOX), extended the network affiliation agreements with FOX from the existing term of December 31, 2012 to December 31, 2017.

Concurrently, we entered into an assignable option agreement with Fox Television Stations, Inc. (FTS) giving us or our assignee the right to purchase substantially all the assets of the WUTB station (Baltimore, MD) owned by FTS, which has a program service arrangement with MyNetworkTV, for \$2.7 million. In October 2012, we exercised our option and purchased the assets of WUTB effective June 1, 2013. As part of this transaction, we also granted options to FTS to purchase the assets of television stations we own in up to three out of four designated markets, which options expired unexercised. In the second quarter of 2012, we paid \$25.0 million to FOX pursuant to the agreements and we recorded \$50.0 million in other assets and \$25.0 million of other accrued liabilities within the consolidated balance sheet, representing the additional obligation due to FOX which was paid in the second quarter of 2013. The \$50.0 million asset is being amortized through the current term of the affiliation agreement ending on December 31, 2017. Approximately \$8.9 million, \$8.9 million and \$5.6 million of amortization expense has been recorded in the consolidated statement of operations during the years ended December 31, 2014, 2013 and 2012, respectively. In addition, we are required to pay to FOX programming payments under the terms of the affiliation agreements. These payments are recorded in station production expenses as incurred.

Changes in the Rules on Television Ownership and Local Marketing Agreements

Certain of our stations have entered into what have commonly been referred to as local marketing agreements or LMAs. One typical type of LMA is a programming agreement between two separately owned television stations serving the same market, whereby the licensee of one station programs substantial portions of the broadcast day and sells advertising time during such programming segments on the other licensee's station subject to the latter licensee's ultimate editorial and other controls. We believe these arrangements allow us to reduce our operating expenses and enhance profitability.

If we are required to terminate or modify our LMAs, our business could be affected in the following ways:

Losses on investments. In some cases, we own the non-license assets used by the stations we operate under LMAs. If certain of these LMA arrangements are no longer permitted, we would be forced to sell these assets, restructure our agreements or find another use for them. If this happens, the market for such assets may not be as good as when we purchased them and, therefore, we cannot be certain of a favorable return on our original investments.

Termination penalties. If the FCC requires us to modify or terminate existing LMAs before the terms of the LMAs expire, or under certain circumstances, we elect not to extend the terms of the LMAs, we may be forced to pay termination

Table of Contents

penalties under the terms of some of our LMAs. Any such termination penalties could be material.

In 1999, the FCC established a new local television ownership rule. LMAs fell under this rule, however, the rule grandfathered LMAs that were entered into prior to November 5, 1996, and permitted the applicable stations to continue operations pursuant to the LMAs until the conclusion of the FCC's 2004 biennial review. The FCC stated it would conduct a case-by-case review of grandfathered LMAs and assess the appropriateness of extending the grandfathering periods. The FCC did not initiate any review of grandfathered LMAs in 2004 or as part of its subsequent quadrennial reviews. We do not know when, or if, the FCC will conduct any such review of grandfathered LMAs. For LMAs executed on or after November 5, 1996, the FCC required compliance with the 1999 local television ownership rule by August 6, 2001. We challenged the 1999 rules in the U.S. Court of Appeals for the D.C. Circuit (D.C. Circuit), resulting in the exclusion of post-November 5, 1996 LMAs from the 1999 rules. In 2002, the D.C. Circuit ruled that the 1999 local television ownership rule was arbitrary and capricious and remanded the rule to the FCC. Currently, three of our LMAs are grandfathered under the local television ownership rule because they were entered into prior to November 5, 1996 and the remainder are subject to the stay imposed by the D.C. Circuit. If the FCC were to eliminate the grandfathering of these three LMAs, or the D.C. Circuit were to lift its stay, we would have to terminate or modify these LMAs. In connection with our acquisition of the Allbritton station in Charleston, the FCC has taken the position that the stay granted by the D.C. Circuit Court of Appeals allowing the continuation of an LMA between us and Cunningham relating to WTAT-TV in that market was no longer effective. In response to this, we terminated our LMA with WTAT-TV, effective on the acquisition of the Allbritton Companies, and other financial relationships between us and WTAT-TV were severed (other than a short-term transition services agreement, a sublease of tower space and a lease of certain transmission facilities). Cunningham purchased the non-license assets of WTAT-TV for \$14.0 million.

In 2003, the FCC revised its ownership rules, including the local television ownership rule. The effective date of the 2003 ownership rules was stayed by the U. S. Court of Appeals for the Third Circuit and the rules were remanded to the FCC. Because the effective date of the 2003 ownership rules had been stayed and, in connection with the adoption of those rules, the FCC concluded the 1999 rules could not be justified as necessary in the public interest, we took the position that an issue exists regarding whether the FCC has any current legal right to enforce any rules prohibiting the acquisition of television stations. Several parties, including us, filed petitions with the Supreme Court of the United States seeking review of the Third Circuit decision, but the Supreme Court denied the petitions in June 2005.

On November 15, 1999, we entered into a plan and agreement of merger to acquire through merger WMYA-TV in Anderson, South Carolina from Cunningham, but that transaction was denied by the FCC. In light of the change in the 2003 ownership rules, we filed a petition for reconsideration with the FCC and amended our application to acquire the license of WMYA-TV. We also filed applications in November 2003 to acquire the license assets of, at the time, the remaining five Cunningham stations: WRGT-TV, Dayton, Ohio; WTAT-TV, Charleston, South Carolina; WVAH-TV, Charleston, West Virginia; WNUV-TV, Baltimore, Maryland; and WTTE-TV, Columbus, Ohio. The Rainbow/PUSH Coalition (Rainbow/PUSH) filed a petition to deny these five applications and to revoke all of our licenses on the grounds that such acquisition would violate the local television ownership rules. The FCC dismissed our applications in light of the stay of the 2003 ownership rules and also denied the Rainbow/PUSH petition. Rainbow/PUSH filed a petition for reconsideration of that denial and we filed an application for review of the dismissal. In 2005, we filed a petition with the U. S. Court of Appeals for the D. C. Circuit requesting that the Court direct the FCC to take final action on our applications, but that petition was dismissed. On January 6, 2006, we submitted a motion to the FCC requesting that it take final action on our applications. Both the applications and the associated petition to deny are still pending. We believe the Rainbow/PUSH petition is without merit. On February 8, 2008, we filed a petition with the U.S. Court of Appeals for the D.C. Circuit requesting that the Court direct the FCC to take final action on these applications and cease its use of the 1999 local television ownership rule that it re-adopted as the permanent rule in 2008. In July 2008, the D.C. Circuit transferred the case to the U.S. Court of Appeals for the Ninth Circuit, and we filed a petition with the D.C. Circuit challenging that decision, which was denied. We also filed with the Ninth Circuit a motion to transfer that case back to the D.C. Circuit. In November 2008, the Ninth Circuit consolidated our petition seeking final FCC action on our applications with the petitions challenging the FCC's current ownership rules and transferred the proceedings to the Third Circuit. In December 2008, we agreed voluntarily with the parties to the proceeding to dismiss the petition seeking final FCC action on the applications.

On March 12, 2014, the FCC issued a public notice with respect to the processing of broadcast television applications proposing sharing arrangements and contingent interests. The public notice indicated that the FCC will closely scrutinize any application that proposes that two or

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

more stations in the same market that will enter into an agreement to share facilities, employees and/or services or to jointly acquire programming or sell advertising including through a JSA, LMA or similar agreement and enter into an option, right of first refusal, put /call arrangement or other similar contingent interest, or a loan guarantee. We cannot now predict what actions the FCC may require in connection with the processing of applications for FCC consent to pending transactions. In addition, the FCC issued rules that would consider a company an owner of a station if the company has a JSA with a station for sale of more than 15% of the ad time on a particular station if it owns or controls another station in the same market. Parties to such agreements must come into compliance with these new rules by June 19, 2016. Among other things, the rule could limit our ability to create duopolies or other two-station operations in certain markets. We are

F-39

Table of Contents

currently evaluating whether to seek one or more waivers of the new rules, or to modify or terminate our current JSAs. We cannot predict whether we will be able to terminate or restructure such arrangements on terms that are as advantageous to us as the current arrangements. The rule has been appealed to the United States Court of Appeals for the District of Columbia Circuit and we cannot predict the outcome of that proceeding. The revenues of these JSA arrangements we earned during the years ended December 31, 2014 and 2013 were \$48.8 million and \$36.0 million, respectively.

In its Order approving the Allbritton transaction, the FCC expressed concerns regarding an LMA that had existed between Sinclair and Cunningham in the Charleston market, and that it believed Sinclair apparently violated the local TV ownership rule with respect to its continued operation of that LMA. The same agreement that governs the Charleston LMA also governs LMAs between Sinclair and Cunningham in three other markets. The existence of the Charleston LMA was repeatedly disclosed to the Commission over many years, during which Sinclair relied on a June 20, 2001, Stay Order issued by the United States Court of Appeals for the District of Columbia Circuit, which specifically stated that the time for Sinclair to come into compliance with the Commission's eight voices standard is hereby stayed pending further order of the court. No further order has been issued by the Court with respect to that stay. Sinclair has submitted a memorandum of counsel to the FCC with regard to the LMA and its reliance on the Court's Stay Order. We cannot predict what steps, if any, the FCC will take in the future with respect to the now terminated Charleston LMA.

In connection with the Allbritton acquisition, we agreed to surrender for cancellation the FCC licenses of WMMP, Charleston, SC, WCFT, Tuscaloosa, AL, and WJSU, Anniston, AL, all ABC affiliates, by September 29, 2014 and to terminate the Charleston LMA. In August 2014, we entered into an agreement to sell the license and related assets of WMMP to Howard Stirk Holdings II, LLC for \$0.05 million, subject to the approval of the FCC, and other customary closing conditions. In September 2014, we entered into two other agreements to sell the licenses and related assets of WCFT and WJSU to Howard Stirk Holdings II LLC for \$0.05 million per station, subject to the approval of the FCC, and other customary closing conditions. The FCC applications requested waiver or an extension of the September 29, 2014 deadline. The FCC granted the WCFT, WJSU and WMMP assignment applications on December 4, 2014. We sold the license and related assets to a third party on February 27, 2015. Subsequent to the sale we retained the ABC network affiliation service agreements.

12. RELATED PERSON TRANSACTIONS:

Transactions with our controlling shareholders

David, Frederick, J. Duncan and Robert Smith (collectively, the controlling shareholders) are brothers and hold substantially all of the Class B Common Stock and some of our Class A Common Stock. We engaged in the following transactions with them and/or entities in which they have substantial interests.

Leases. Certain assets used by us and our operating subsidiaries are leased from Cunningham Communications Inc., Keyser Investment Group, Gerstell Development Limited Partnership and Beaver Dam, LLC (entities owned by the controlling shareholders). Lease payments made to these entities were \$5.1 million, \$5.2 million and \$4.7 million for the years ended December 31, 2014, 2013 and 2012, respectively.

Bay TV. In January 1999, we entered into an LMA with Bay TV, which owned the television station WTTA-TV in the Tampa / St. Petersburg, Florida market. Each of our controlling shareholders owned a substantial portion of the equity of Bay TV and collectively they had a controlling

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

interest. On December 1, 2012, we purchased substantially all of the assets of Bay TV for \$40.0 million. During the year ended December 31, 2012, we made \$2.9 million of payments to Bay TV under the LMA. As this was considered a transaction between entities under common control, the acquisition method of accounting was not applied, and the assets acquired were recorded at their historical cost basis and the difference between the purchase price and the historical cost basis of the assets of \$23.6 million, net of taxes of \$15.6 million, was recorded as a reduction in additional paid-in capital. A substantial portion of the purchase price will be deductible for tax purposes in future period. As discussed in *Note 3. Disposition of Assets and Discontinued Operations*, WTTA was sold in December 2014.

Charter Aircraft. From time to time, we charter aircraft owned by certain controlling shareholders. We incurred expenses of \$1.5 million, \$0.9 million and \$0.6 million during the years ended December 31, 2014, 2013 and 2012, respectively.

Capital leases payable related to the aforementioned relationships consisted of the following as of December 31, 2014 and 2013 (in thousands):

F-40

Table of Contents

	2014	2013
Capital lease for building, interest at 8.54%	\$ 4,972	\$ 6,267
Capital leases for building and tower, interest at 7.93%	932	1,106
Capital leases for building, interest at 8.11%	7,843	8,141
Capital leases for broadcasting tower facilities, interest at 9.0%	390	860
Capital leases for broadcasting tower facilities, interest at 10.5%	4,797	4,918
	18,934	21,292
Less: Current portion	(2,625)	(2,367)
	\$ 16,309	\$ 18,925

Capital leases payable related to the aforementioned relationships as of December 31, 2014 mature as follows (in thousands):

2015	\$ 4,402
2016	4,138
2017	4,102
2018	1,880
2019	1,960
2020 and thereafter	11,084
Total minimum payments due	27,566
Less: Amount representing interest	(8,610)
	\$ 18,956

Cunningham Broadcasting Corporation

As of December 31, 2014, Cunningham was the owner-operator and FCC licensee of: WNUV-TV Baltimore, Maryland; WRGT-TV Dayton, Ohio; WVAH-TV Charleston, West Virginia; WMYA-TV Anderson, South Carolina; WTTE-TV Columbus, Ohio; WDBB-TV Birmingham, Alabama; WBSF-TV Flint, Michigan; and WGTU-TV/WGTQ-TV Traverse City/Cadillac, Michigan (collectively, the Cunningham Stations), as well as WTAT-TV Charleston, South Carolina, and WYZZ Peoria/Bloomington, IL.

During the first quarter of 2013, the estate of Carolyn C. Smith, a parent of our controlling shareholders, distributed all of the non-voting stock owned by the estate to our controlling shareholders, and a portion was repurchased by Cunningham for \$1.7 million in the aggregate. During the second quarter of 2014, Cunningham purchased the remaining amount of non-voting stock from the controlling shareholders for an aggregate purchase price of \$2.0 million. The estate of Mrs. Smith currently owns all of the voting stock. The sale of the voting stock by the estate to an unrelated party is pending approval of the FCC. We also had options from the trusts, which granted us the right to acquire, subject to applicable FCC rules and regulations, 100% of the voting and nonvoting stock of Cunningham, up until September 30, 2014, when these options were terminated. As discussed under *Note 1: Summary of Significant Accounting Policies*, during the third quarter of 2014, we deconsolidated Cunningham Broadcasting Corporation as we determined it was no longer a variable interest entity. We continue to consolidate certain of its subsidiaries with which we continue to have variable interests through various arrangements related to the Cunningham Stations discussed further below.

As of December 31, 2014, certain of our stations provide programming, sales and managerial services pursuant to LMAs to six of the Cunningham stations: WNUV-TV, WRGT-TV, WVAH-TV, WMYA-TV, WTTE-TV, and WDBB-TV (collectively, the Cunningham LMA Stations). Each of these LMAs has a current term that expires on July 1, 2016 and there are three additional 5- year renewal terms remaining with final expiration on July 1, 2031. We also executed purchase agreements to acquire the license related assets of these stations from

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

Cunningham, which grant us the right to acquire, and grant Cunningham the right to require us to acquire, subject to applicable FCC rules and regulations, 100% of the capital stock or the assets of these individual subsidiaries of Cunningham. Our applications to acquire these license related assets are pending FCC approval. The LMA and purchase agreement with WTAT-TV was terminated concurrent with Cunningham's purchase of the non-license assets of this station from us for \$14.0 million, effective August 1, 2014. We no longer have any continuing involvement in the operations of this station.

Pursuant to the terms of the LMAs, options and other agreements, beginning on January 1, 2010 and ending on July 1, 2012, we were obligated to pay Cunningham the sum of approximately \$29.1 million in 10 quarterly installments of \$2.75 million and one quarterly payment of approximately \$1.6 million, which amounts were used to pay down Cunningham's bank credit facility and which amounts were credited toward the purchase price for each Cunningham station. An additional \$1.2 million was paid on July 1, 2012 and another installment of \$2.75 million was paid on October 1, 2012 as an additional LMA fee and was used to pay off the remaining balance of Cunningham's bank credit facility. The aggregate purchase price of the television stations, which was originally \$78.5 million pursuant to certain acquisition or merger agreements subject to 6% annual increases, was decreased by each payment made by us to Cunningham, through 2012, up to \$29.1 million in the aggregate; pursuant to the foregoing transactions with Cunningham as such payments were made. Beginning on January 1, 2013, we were obligated to pay

Table of Contents

Cunningham an annual LMA fee for the television stations equal to the greater of (i) 3% of each station's annual net broadcast revenue and (ii) \$5.0 million, of which a portion of this fee will be credited toward the purchase price to the extent of the annual 6% increase. Additionally, we reimburse these Cunningham LMA Stations for 100% of their operating costs. In July 2014, concurrent with the termination of the LMA with WTAT-TV the total LMA fee for the remaining Cunningham LMA Stations was reduced by \$4.7 million to remove the fee associated with WTAT-TV. The remaining aggregate purchase price of these stations, excluding WTAT-TV, as of December 31, 2014 was approximately \$53.6 million.

We made payments to Cunningham under our LMAs with these stations of \$10.8 million, \$9.8 million and \$15.7 million for the years ended December 31, 2014, 2013 and 2012, respectively. For the years ended December 31, 2014, 2013 and 2012, Cunningham LMA Stations provided us with approximately \$103.5 million, \$107.6 million, and \$105.5 million, respectively, of total revenue.

In November 2013, concurrent with our acquisition of the Barrington stations, Cunningham acquired the license related assets of WBSF-TV and WGTU-TV/WGTQ-TV, which was funded by bank debt, for which we have provided a guarantee. We provide certain non-programming related sales, operational and administrative services to these stations pursuant to certain outsourcing agreements. The agreements with WBSF-TV and WGTU-TV/WGTQ-TV expire in November 2021 and August 2015, respectively, and each has renewal provisions for successive eight year periods. Under these arrangements, we earned \$6.0 million and \$0.6 million from the services we perform for these stations for the years ended December 31, 2014 and 2013, respectively. As we consolidate the licensees as VIEs, the amounts we earn under the arrangements are eliminated in consolidation and the gross revenues of the stations are reported within our consolidated statement of operations. For the years ended December 31, 2014 and 2013, our consolidated revenues include \$7.8 million and \$0.7 million related to these stations, respectively.

Also, concurrent with the Barrington acquisition, we also sold our station, WYZZ (FOX) in Peoria, IL, which currently receives non-programming related sales, operational and administrative services from Nexstar Broadcasting pursuant to an outsourcing agreement, to Cunningham for \$22.0 million.

In July 2014, concurrent with the Allbritton acquisition we terminated the LMA with WTAT (FOX) in Charleston, SC and sold to Cunningham the non-license assets related to this station. Although we have no continuing involvement in the operations of these stations, because we had consolidated Cunningham Broadcasting Corporation (the parent company) up until September 2014 (see *Variable Interest Entities* under *Note 1. Nature of Operations and Summary of Significant Accounting Policies*), the assets of WYZZ were not derecognized and the transactions was accounted for as transactions between consolidated entities, and the resulting gain on sale were not recognized. Upon deconsolidation of Cunningham Broadcasting Corporation, the difference between proceeds received for the sale of WYZZ and WTAT and the carrying values of the net assets, which was previously eliminated in consolidation, was reflected as an increase to additional paid in capital in the consolidated balance sheet.

During October 2013, we purchased the outstanding membership interests of KDBC-TV (CBS) in El Paso, TX from Cunningham for \$21.2 million, plus a working capital adjustment of \$0.2 million. See *Other Acquisitions* within *Note 2. Acquisitions*, for further information.

Atlantic Automotive Corporation

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

We sold advertising time to and purchased vehicles and related vehicle services from Atlantic Automotive Corporation (Atlantic Automotive), a holding company that owns automobile dealerships and an automobile leasing company. David D. Smith, our President and Chief Executive Officer, has a controlling interest in, and is a member of the Board of Directors of Atlantic Automotive. We received payments for advertising totaling \$0.4 million, \$0.2 million and \$0.1 million during the years ended December 31, 2014, 2013 and 2012, respectively. We paid \$1.1 million and \$1.8 million for vehicles and related vehicle services from Atlantic Automotive during the years ended December 31, 2013 and 2012, respectively. No payments for vehicles or vehicles related services from Atlantic Automotive during the year ended December 31, 2014. Additionally, in August 2011, Atlantic Automotive entered into an office lease agreement with Towson City Center, LLC (Towson City Center), a subsidiary of one of our real estate ventures. Atlantic Automotive paid \$1.0 million in rent during the year ended December 31, 2014.

Leased property by real estate ventures

Certain of our real estate ventures have entered into leases with entities owned by David Smith to lease restaurant space. There are leases for three restaurants in a building owned by one of our consolidated real estate ventures in Baltimore, MD. Total rent received under these leases was \$0.5 million for both the years ended December 31, 2014 and 2013; and \$0.3 million for the year ended December 31, 2012. There is also one lease for a restaurant in a building owned by one of our real estate ventures, accounted for under the equity method, in Towson, MD. This investment received \$0.3 million and \$0.2 million in rent pursuant to the lease for the years ended December 31, 2014 and 2013, respectively.

Table of Contents*Other*

Thomas & Libowitz, P.A. Steven A. Thomas, son of former Board of Director member Basil A. Thomas, is the partner and founder of Thomas & Libowitz, P.A. (Thomas & Libowitz), a law firm providing legal services to us on an ongoing basis. During the periods up through Basil Thomas' resignation from the Board of Directors in September 2013, we paid fees of \$1.6 million and \$1.0 million to Thomas & Libowitz during 2013 and 2012, respectively.

13. EARNINGS PER SHARE:

The following table reconciles income (numerator) and shares (denominator) used in our computations of earnings per share for the years ended December 31, 2014, 2013 and 2012 (in thousands):

	2014	2013	2012
Income (Numerator)			
Income from continuing operations	\$ 215,115	\$ 64,259	\$ 144,488
Income impact of assumed conversion of the 4.875% Notes, net of taxes			180
Net income attributable to noncontrolling interests included in continuing operations	(2,836)	(2,349)	(287)
Numerator for diluted earnings per common share from continuing operations available to common shareholders	212,279	61,910	144,381
Income from discontinued operations, net of taxes		11,558	465
Numerator for diluted earnings available to common shareholders	\$ 212,279	\$ 73,468	\$ 144,846
Shares (Denominator)			
Weighted-average common shares outstanding	97,114	93,207	81,020
Dilutive effect of outstanding stock settled appreciation rights, restricted stock awards and stock options	705	638	36
Dilutive effect of 4.875% Notes			254
Weighted-average common and common equivalent shares outstanding	97,819	93,845	81,310

Potentially dilutive securities which would have an anti-dilutive effect were 0.3 million, zero, and 1.5 million shares and for the year ended December 31, 2014, 2013, and 2012, respectively. The decrease in 2013 compared to 2012 of anti-dilutive securities is primarily related to the increase of the stock price in 2013. The net earnings per share amounts are the same for Class A and Class B Common Stock because the holders of each class are legally entitled to equal per share distributions whether through dividends or in liquidation.

14. SEGMENT DATA:

We measure segment performance based on operating income (loss). Excluding discontinued operations, our broadcast segment includes stations in 79 markets located throughout the continental United States. The operating results of WLAI-TV and WLWC-TV, which were sold

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

effective March 1, 2013 and April 1, 2013, respectively, are classified as discontinued operations and are not included in our consolidated results of continuing operations for the years ended 2013 and 2012. Our other operating divisions primarily consist of sign design and fabrication; regional security alarm operating and bulk acquisitions; manufacturing and service of broadcast antennas and transmitters and real estate ventures. All of our other operating divisions are located within the United States. Corporate costs primarily include our costs to operate as a public company and to operate our corporate headquarters location. Other Operating Divisions and Corporate are not reportable segments but are included for reconciliation purposes. We had approximately \$172.3 million and \$171.9 million of intercompany loans between the broadcast segment, other operating divisions and corporate as of December 31, 2014 and 2013, respectively. We had \$20.7 million, \$20.0 million, and \$20.0 million in intercompany interest expense related to intercompany loans between the broadcast segment, other operating divisions and corporate for the years ended December 31, 2014, 2013, and 2012, respectively. All other intercompany transactions are immaterial.

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

Table of Contents

Financial information for our operating segments is included in the following tables for the years ended December 31, 2014, 2013 and 2012 (in thousands):

For the year ended December 31, 2014	Broadcast	Other Operating Divisions	Corporate	Consolidated
Revenue	\$ 1,904,988	\$ 71,570	\$	\$ 1,976,558
Depreciation of property and equipment	99,823	2,350	1,118	103,291

Income from equity and cost method investments		9,670		9,670

Table of Contents**15. FAIR VALUE MEASUREMENTS:**

Accounting guidance provides for valuation techniques, such as the market approach (comparable market prices), the income approach (present value of future income or cash flow), and the cost approach (cost to replace the service capacity of an asset or replacement cost). A fair value hierarchy using three broad levels prioritizes the inputs to valuation techniques used to measure fair value. The following is a brief description of those three levels:

- *Level 1:* Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.
- *Level 2:* Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.
- *Level 3:* Unobservable inputs that reflect the reporting entity's own assumptions.

The carrying value and fair value of our notes and debentures as of December 31, 2014 and 2013 were as follows (in thousands):

	2014		2013	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Level 2:				
8.375% Senior Notes due 2018	\$	\$	\$ 235,225	\$ 259,547
6.375% Senior Unsecured Notes due 2021	350,000	355,800	350,000	360,938
6.125% Senior Unsecured Notes due 2022	500,000	503,475	500,000	497,525
5.625% Senior Unsecured Notes due 2024	550,000	532,813		
5.375% Senior Unsecured Notes due 2021	600,000	595,068	600,000	582,078
Term Loan A	348,073	341,982	500,000	495,000
Term Loan B	1,035,883	1,029,997	642,734	641,205
Revolver credit facility	338,000	338,000		
Debt of variable interest entities	30,167	30,167	55,581	55,581
Debt of other operating divisions	118,822	118,822	86,263	86,263

Additionally, Cunningham, one of our consolidated VIEs had certain investments in securities during 2013 that are recorded at fair value using Level 1 inputs described above. Cunningham was deconsolidated during 2014, see *Variable Interest Entities* within *Note 1. Summary of Significant Accounting Policies* for further discussion. As of December 31, 2013, \$18.1 million were included in other assets in our consolidated balance sheet.

16. CONDENSED CONSOLIDATED FINANCIAL STATEMENTS:

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-K

Sinclair Television Group, Inc. (STG), a wholly-owned subsidiary and the television operating subsidiary of Sinclair Broadcast Group, Inc. (SBG), is the primary obligor under the Bank Credit Agreement, the 5.375% Notes, the 5.625% Notes, 6.125% Notes, and 6.375% Notes. Our Class A Common Stock and Class B Common Stock as of December 31, 2014, were obligations or securities of SBG and not obligations or securities of STG. SBG is a guarantor under the Bank Credit Agreement, the 5.375% Notes, 5.625% Notes, 6.125% Notes, and 6.375% Notes. As of December 31, 2014, our consolidated total debt of \$3,928.7 million included \$3,801.7 million of debt related to STG and its subsidiaries of which SBG guaranteed \$3,752.1 million.

SBG, KDSM, LLC, a wholly-owned subsidiary of SBG, and STG's wholly-owned subsidiaries (guarantor subsidiaries), have fully and unconditionally guaranteed, subject to certain customary automatic release provisions, all of STG's obligations. Those guarantees are joint and several. There are certain contractual restrictions on the ability of SBG, STG or KDSM, LLC to obtain funds from their subsidiaries in the form of dividends or loans.

The following condensed consolidating financial statements present the consolidated balance sheets, consolidated statements of operations and consolidated statements of cash flows of SBG, STG, KDSM, LLC and the guarantor subsidiaries, the direct and indirect non-guarantor subsidiaries of SBG and the eliminations necessary to arrive at our information on a consolidated basis.

Table of Contents

These statements are presented in accordance with the disclosure requirements under SEC Regulation S-X, Rule 3-10.
