FORWARD-LOOKING STATEMENTS

This report includes forward-looking statements as the term is defined in the Private Securities Litigation Reform Act of 1995 or by the U.S. Securities and Exchange Commission in its rules, regulations and releases, regarding, among other things, all statements other than statements of historical facts contained in this report, including statements regarding our future financial position, business strategy and plans and objectives of management for future operations. The words “believe,” “may,” “estimate,” “continue,” “anticipate,” “intend,” “should,” “plan,” “could,” “target,” “possibly,” “likely,” “will,” “expect” and similar expressions, as they relate to us, are intended to identify forward-looking statements. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our financial condition, results of operations, business strategy and financial needs. In addition, our past results of operations do not necessarily indicate our future results.

Other sections of this report may include additional factors which could adversely affect our business and financial performance. New risk factors emerge from time to time and it is not possible for us to anticipate all the relevant risks to our business, and we cannot assess the impact of all such risks on our business or the extent to

which any risk, or combination of risks, may cause actual results to differ materially from those contained in any forward-looking statements. Those factors include, among others, those matters disclosed in this Annual Report on Form 10-K.

Except as otherwise required by applicable laws and regulations, we undertake no obligation to publicly update or revise any forward-looking statements or the risk factors described in this report, whether as a result of new information, future events, changed circumstances or any other reason after the date of this report. Neither the Private Securities Litigation Reform Act of 1995 nor Section 27A of the Securities Act of 1933 provides any protection to us for statements made in this report. You should not rely upon forward-looking statements as predictions of future events or performance. We cannot assure you that the events and circumstances reflected in the forward-looking statements will be achieved or occur. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements.

PART I

ITEM 1. DESCRIPTION OF BUSINESS

Company Background

Freestone Resources, Inc. (the “Company” or “Freestone”) is an oil and gas technology development company that is actively developing and marketing technologies and solvents designed to benefit various sectors in the oil and gas industry. The Company has re-launched its Petrozene solvent after working with manufactures to develop a new and improved formula. Petrozene is predominantly used for paraffin buildup. Petrozene can be used for pipelines, oil storage tanks, oil sludge build up, de-emulsification, well treatment, as a corrosion inhibitor and as a catalyst in opening up formations thereby aiding in oil production.

On November 16, 2012 the Company entered into a Company Agreement of Aqueous Services, LLC (“Aqueous”), a Texas limited liability company, with International Aqueous Investments, LLC and Pajarito W&M, LP. Aqueous is a joint venture between the Company and the two aforementioned parties, whereas the Company owns a 33.33% interest in Aqueous. Aqueous is a full water management company with access to a fresh water well that has been permitted to up to one thousand five hundred acre-feet of water per annum. A facility has been constructed that is owned and operated by Aqueous for the purpose of providing water for oil and gas activities in the Eagle Ford. This site includes a designated location for the recycling frack water and produced water.

Available Information

The Freestone website is www.freestonereresourcesinc.com. The Company’s references to the URLs for these websites are intended to be inactive textual references only. The Company’s Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and amendments to reports filed pursuant to Sections 13(a) and 15(d) of the Securities Exchange Act of 1934, as amended, are filed with the U.S. Securities and Exchange Commission (the “SEC”).

The public may read and copy any materials filed by the Company with the SEC at the SEC's Public Reference Room at 100 F Street, NE, Room 1580, Washington, DC 20549. The public may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC maintains an Internet site that contains reports, proxy, and information statements and other information regarding issuers that file electronically with the SEC at <http://www.sec.gov>.

Technology Development Business

Freestone is actively engaged in the development of technologies that can enhance oil and gas production in an environmentally responsible way. The Company currently markets and sells Petrozene, which is a solvent derived from recycled hydrocarbons. Petrozene can cost effectively decrease paraffin buildup in oil and gas wells, and can be utilized to clean oil storage facilities. Furthermore, Petrozene has been shown to reduce bottom sediment and water in oil storage tanks and act as a de-emulsification agent.

Freestone is also involved in Aqueous which provides water to the oil and gas industry in the Eagle Ford Shale. Aqueous has developed the facility so that it can be expanded to include frack water recycling, and full water management solutions for exploration and production companies.

Products and Services

Solvent Testing and Water Production

Freestone's current well assets and leases were purchased for the purpose of testing various solvents and technologies designed to increase oil and gas production. These leases contain wells that produce from formations that generally have paraffin and asphaltine problems, and the tests are allowing the Company to perfect a treatment method that can be marketed to potential customers.

Freestone is actively working with Aqueous in order to develop a large customer base for its freshwater sales facility, as well as actively researching products and technologies that can be utilized to recycle frack water and produced water.

Research and Development

Freestone is currently evaluating other oil and gas treatment technologies, solvents, and water treatment systems that enhance the services and technologies offered by the Company. The current technologies under evaluation focus on the waste streams created by the oil and gas industry. These waste streams include: oil-based sludge, frack water, produced water, tailing ponds derived from oil sand production, etc.

Growth Strategy

Freestone is actively pursuing a strategy of growth through the development of joint ventures and sales agreements with oil and gas, and environmental service companies that can utilize Petrozene. Freestone's growth strategy also includes investment and development of various water management services for the oil and gas industry through its joint venture Aqueous. Freestone intends to research various methods in which to expand its marketing efforts to refineries, oil and gas storage companies, oil and gas service companies, independent operators, and environmental service companies.

Sale of Oil

Freestone does not intend to refine its natural gas or oil production. Freestone will sell all or most of its production to certain purchasers in a manner consistent with industry practices at prevailing rates. Freestone currently sells oil to Superior Crude Gathering, Inc. Under current conditions, we should be able to find other purchasers, if needed. All of our produced oil is held in tank batteries and then each respective purchaser transports the oil by truck. Respectively, our natural gas is transported via pipeline.

Environmental Matters

Freestone's oil and gas operations and properties are subject to extensive and changing federal, state and local laws and regulations relating to environmental protection, including the generation, storage, handling, emission, transportation and discharge of materials into the environment, and relating to safety and health. The recent trend in environmental legislation and regulation generally is toward stricter standards, and this trend will likely continue.

These laws and regulations may:

- require the acquisition of a permit or other authorization before construction or drilling commences and for certain other activities;

- limit or prohibit construction, drilling and other activities on certain lands lying within wilderness and other protected areas; and

- impose substantial liabilities for pollution resulting from its operations, or due to previous operations conducted on any leased lands.

The permits required for our operations may be subject to revocation, modification and renewal by issuing authorities. Governmental authorities have the power to enforce their regulations, and violations are subject to fines or injunctions, or both. In the opinion of management, we are in substantial compliance with current applicable environmental laws and regulations, and have no material commitments for capital expenditures to comply with existing environmental requirements. Nevertheless, changes in existing environmental laws and regulations or in interpretations thereof could have a significant impact on us, as well as the oil and natural gas industry in general.

The Comprehensive Environmental, Response, Compensation, and Liability Act, as amended ("CERCLA"), and comparable state statutes impose strict, joint and several liability on owners and operators of sites and on persons who disposed of or arranged for the disposal of "hazardous substances" found at such sites. It is not uncommon for the neighboring land owners and other third parties to file claims for personal injury and property damage allegedly caused by the hazardous substances released into the environment. The Federal Resource Conservation and Recovery Act, as amended ("RCRA"), and comparable state statutes govern the disposal of "solid waste" and "hazardous waste" and authorize the imposition of substantial fines and penalties for noncompliance. Although CERCLA currently excludes petroleum from its definition of "hazardous substance," state laws affecting our operations may impose clean-up liability relating to petroleum and petroleum related products. In addition, although RCRA classifies certain oil field wastes as "non-hazardous," such exploration and production wastes could be reclassified as hazardous wastes thereby making such wastes subject to more stringent handling and disposal requirements.

ITEM 1A. RISK FACTORS

As a smaller reporting company we are not required to provide the information required by this item.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

6

ITEM 2. DESCRIPTION OF PROPERTY

Freestone's corporate offices are located at Republic Center, Suite 1350, 325 N. St. Paul St. Dallas, TX 75201. Freestone entered into a lease agreement on this property for a term of five years.

ITEM 3. LEGAL PROCEEDINGS

None.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

None. The Company intends to hold an annual shareholder's meeting in the third quarter of the fiscal year ending June 30, 2015.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

The Common Stock is currently quoted on the OTCQB under the symbol "FSNR."

The following tables set forth the quarterly high and low bid prices for the Common Stock for 2014 and 2013. The prices set forth below represent interdealer quotations, without retail markup, markdown or commission and may not be reflective of actual transactions.

Fiscal 2014	High	Low
First Quarter	\$0.14	\$0.09
Second Quarter	\$0.13	\$0.06
Third Quarter	\$0.11	\$0.06
Fourth Quarter	\$0.09	\$0.06

Fiscal 2013	High	Low
First Quarter	\$0.25	\$0.06
Second Quarter	\$0.30	\$0.17
Third Quarter	\$0.23	\$0.12
Fourth Quarter	\$0.18	\$0.11

Shareholders

As of June 30, 2014, there were approximately 255 record holders of the Common Stock. This number excludes any estimate by Freestone of the number of beneficial owners of shares held in street name, the accuracy of which cannot be guaranteed.

Dividends

Freestone has not paid cash dividends on any class of common equity since formation and Freestone does not anticipate paying any dividends on its outstanding common stock in the foreseeable future.

Warrants

On November 16, 2012 the Company entered into an agreement to form Aqueous Services, LLC, a joint venture between Freestone Resources, Inc., Pajarito W&M, LP. and International Aqueous Investment, LLC for the purpose of developing a shale oil and gas water management facility in Wilson County, Texas. Each JV partner has a one-third interest and the Company is not in a position of control and will therefore account for its interest under the equity method of accounting.

As part of the agreement the Company sold 300,000 shares of common stock to each partner at par value of .001 a share. The Company treated the difference between the selling price and the fair market value of the stock as consulting expense resulting in a \$167,400 expense in the second quarter. The Company also sold each of the JV partners 500,000 warrants to purchase shares of common stock at 80% of the closing price on the exercise date. The warrants vest immediately and have a three year term from the issuance date. The Company accounted for the transaction using the Black-Scholes option pricing model and given the variable settlement price and cash settlement terms recorded an expense of \$279,625 and a resulting derivative liability. All of the derivative instruments will be accounted for under the fair value method and changes in fair value will be reflected in earnings.

Stock compensation

On February 18, 2014 the Company, through a unanimous consent of the Board of Directors, agreed to issue the following stock (total of 2,600,000 shares, valued at \$189,800):

- 1,000,000 shares at \$0.073 per share pursuant to SEC Rule 144, to Mr. G. Don Edwards, the Company's Chief Investment Officer, Secretary and Director, in lieu of cash compensation for services.
- 1,000,000 shares at \$0.073 per share pursuant to SEC Rule 144, to Mr. Clayton Carter, the Company's President and Director, in lieu of cash compensation for services.
- 100,000 shares at \$0.073 per share pursuant to SEC Rule 144, to Mr. James Carroll, the Company's Chief Financial Officer and Director, in lieu of cash compensation for services.
- 250,000 shares at \$0.073 per share pursuant to SEC Rule 144, to Mr. Richard Harris, a Consultant for the Company, in lieu of cash compensation for services.
- 250,000 shares at \$0.073 per share pursuant to SEC Rule 144, to Capital Financial Consultants, LLC, a Consultant for the Company, in lieu of cash compensation for services.

ITEM 6. SELECTED FINANCIAL DATA

As a smaller reporting company we are not required to provide the information required by this item.

ITEM 7. MANAGEMENT DISCUSSIONS AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

At present, Freestone's management is focused on the development and vertical integration of the Petrozene product line, and assisting Aqueous with the continued development of its water management facility. The continued development of Aqueous includes the testing and utilization of technology that can effectively recycle frack water and produced water, as well as the sale of fresh water for oil and gas exploration and production purposes. Freestone's acquisitions of certain oil and gas properties are necessary to conduct research and development for its

hydrocarbon-based product Petrozene. Minimal revenues have been earned and related expenses have been incurred from the incidental operation of these oil and gas interests, as well as miscellaneous fees associated with the corporation. Freestone continues to look for various solvents, chemicals, and technologies that might fit into Freestone's petro-chemical line, and continues to seek opportunities in the oil and gas water industry.

Critical Accounting Policies

Our consolidated financial statements were prepared in conformity with U.S. generally accepted accounting principles. As such, management is required to make certain estimates, judgments and assumptions that they believe are reasonable based upon the information available. These estimates and assumptions affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of income and expense during the periods presented. The significant accounting policies which management believes are the most critical to aid in fully understanding and evaluating our reported financial results include the following:

Revenue Recognition

Revenues from oil, gas and natural gas liquids, which are produced from the Company's wells used its research and development activities, are recognized when the products are sold to a purchaser at a fixed or determinable price, delivery has occurred and title has transferred, and collectability of the revenue is reasonably assured.

Stock Based Compensation

Pursuant to Accounting Standards Codification ("ASC") 505, the guidelines for recording stock issued for services require the fair value of the shares granted be based on the fair value of the services received or the publicly traded share price of the Company's registered shares on the date the shares were granted (irrespective of the fact that the shares granted were unregistered), whichever is more readily determinable. This position has been further clarified by the issuance of ASC 820, ASC 820 defines fair value as "the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date". Accordingly, the Company elected the application of these guidelines. Freestone has determined that the fair value of all common stock issued for goods or services is more readily determinable based on the publicly traded share price on the date of grant.

Research and Development

The Company currently has limited finances available for research and development. As the Company's financial position improves the Company plans to develop an appropriate research and development policy.

Results of Operations for the Year Ended June 30, 2014 Compared to the Year Ended June 30, 2013

Revenues

Revenue for the years ended June 30, 2014 and June 30, 2013 were \$12,758 and \$8,983, respectively. This was provided by sales of Petrozene of \$12,758 and \$0 respectively, and from sales of oil of \$0 and \$8,983 respectively.

Operating Expense

Total operating expenses in the years ended June 30, 2014 and 2013 were \$533,382 and \$856,790, respectively. These included cost of sales which, for the years ended June 30, 2014 and June 30, 2013 were made up of lease operating costs of \$28,306 and \$14,203, respectively. Stock issued and recorded as consulting expense related to Aqueous was \$0 and \$167,400 as of June 30, 2014 and 2013, respectively. Stock based compensation included of consulting and contract services paid for by the issuance of common stock of \$189,800 and \$378,000 for the years ended June 30, 2014 and 2013, respectively, depreciation of \$17,181 and \$25,053 year respectively, with the balance of general and administrative expenses of \$292,584 and \$272,134, respectively.

The decrease in stock based compensation of \$188,200 is related to the stock price being lower by 52% in 2014 versus 2013.

The decrease of \$20,450 in general and administrative expenses is related to a decrease in payroll expenses.

Other income and expense for the years ended June 30, 2014 and 2013 consist of other expense of \$313 and expense of \$287,277, respectively. The decrease of \$286,494 is due to warrants being issued for the Aqueous Services, LLC ("Aqueous") agreement of \$279,625 in the prior year partially offset by an increase in loss on equity investment of \$26,103

Net (Loss) Income

Net loss for the year ended June 30, 2014 was \$520,937. Net loss for the year ended June 30, 2013 was \$1,135,084.

Liquidity and Capital Resources

We have little cash reserves and liquidity to the extent we receive it from operations and through the sale of common stock.

During the year ended June 30, 2014, cash decreased by \$132,661 to \$73,106 at June 30, 2014. The loss was a result of the operating loss partially offset by proceeds from the sale of stock.

Net cash used by operating activities was \$299,889 for the year ended June 30, 2014, compared to net cash used by operating activities of \$565,394 for the same period ending June 30, 2013.

Employees

As of June 30, 2014, our only employees are the officers of the Company.

Need for Additional Financing

The Company believes it will not generate sufficient liquidity from its operations so the need for additional funding will be necessary. We may sell stock and/or issue additional debt to raise capital to accelerate our growth.

Going Concern Uncertainties

As of the date of this annual report, there is doubt regarding our ability to continue as a going concern as we have not generated sufficient cash flows to fund our business operations and loan commitments. Our future success and viability, therefore, are dependent upon our ability to generate capital financing. The failure to generate sufficient revenues or raise additional capital may have a material and adverse effect upon the Company and our shareholders.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk represents the risk of loss arising from adverse changes in market rates and foreign exchange rates. The amount of our outstanding debt at any time may fluctuate and we may from time to time be subject to refinancing risk. A hypothetical 100 basis point increase in interest rates would have a material effect on our annual interest expense and on our results of operations or financial condition as we rely on these notes to sustain our operations. Since we do not have transactions in foreign currencies, we do not consider it necessary to hedge against currency risk.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The consolidated financial statements of Freestone Resources, Inc., together with the Report of Independent Registered Public Accounting Firm of The Hall Group, CPAs covering our years ended June 30, 2014 and 2013, appear on pages 20 through 35 of this report.

SELECTED QUARTERLY FINANCIAL INFORMATION (UNAUDITED)

The following is a summary of selected quarterly results of operations for the years ended June 30, 2014 and 2013.

Fiscal year ended June 30, 2014	Quarter Ended:			
	30-Sep-13	31-Dec-13	31-Mar-14	30-Jun-14
Revenues	\$6,460	\$6,148	\$117	\$33
Gross profit	3,535	3,562	117	33
Net income (loss)	(86,275)	(105,931)	(272,494)	(56,237)
Net income (loss) per share, basic and diluted	\$(0.00)	\$(0.00)	\$(0.00)	\$(0.00)
Weighted average shares used in per share calculation, basic and diluted	68,331,764	68,943,177	69,232,066	72,927,792

Fiscal year ended June 30, 2013	Quarter Ended:			
	30-Sep-12	31-Dec-12	31-Mar-13	30-Jun-13
Revenues	\$0	\$8,983	\$0	\$0

Edgar Filing: FREESTONE RESOURCES, INC. - Form 10-K

Gross profit	0	8,983	0	0
Net income (loss)	(85,740)	(508,750)	(75,537)	(465,057)
Net income (loss) per share, basic and diluted	\$(0.00)	\$(0.01)	\$(0.00)	\$(0.00)
Weighted average shares used in per share calculation, basic and diluted	58,364,010	62,183,304	62,702,198	62,702,416

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURES

None.

ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e) as of June 30, 2014. This evaluation was accomplished under the supervision and with the participation of our chief executive officer / principal executive officer, and chief financial officer / principal financial officer who concluded that our disclosure controls and procedures are not effective to ensure that all material information required to be filed in the annual report on Form 10-K has been made known to them.

For purposes of this section, the term disclosure controls and procedures means controls and other procedures of an issuer that are designed to ensure that information required to be disclosed by the issuer in the reports that it files or submits under the Act (15 U.S.C. 78a et seq.) is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms. Disclosure, controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by in our reports filed under the Securities Exchange Act of 1934, as amended (the "Act") is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Management's Annual Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act. Our internal control system was designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes, in accordance with generally accepted accounting principles in the United States of

America. Our internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States of America, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management of the Company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Because of inherent limitations, a system of internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate due to change in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Our management conducted an evaluation of the effectiveness of our internal control over financial reporting using the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control—Integrated Framework at June 30, 2014. Based on its evaluation, our management concluded that, as of June 30, 2014, our internal control over financial reporting was not effective because of: 1) Our reliance upon independent financial reporting consultants for review of critical accounting areas and disclosures and material non-standard transaction; and 2) a lack of sufficient accounting staff which results in a lack of segregation of duties necessary for a good system of internal control. A material weakness is a deficiency, or a combination of control deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the Company's annual or interim financial statements will not be prevented or detected on a timely basis.

This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to the attestation by the Company's registered public accounting firm pursuant to the rules of the SEC that permit the Company to provide only management's report in this annual report.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The following persons serve as directors and officers of Freestone Resources, Inc.:

Clayton Carter, Chief Executive Officer and President

James F. Carroll, Chief Financial Officer

Don Edwards, Chief Investment Officer

Clayton Carter, age 28, received his Bachelor of Arts in Integrated Marketing and Communications from Pepperdine University. With his extensive knowledge of the public markets and investment-based finance, Mr. Carter has raised the capital to develop multiple startups. Mr. Carter has served as President and Director of Freestone Resources since January 2009, and will continue his current duties at the Company as the Chief Executive Officer and Chairman of the Company. Mr. Carter strongly believes in Freestone's continuing mission to develop new technologies that allow for the utilization of various petroleum resources in an environmentally responsible and cost effective way. Mr. Carter has served as the President of Freestone Resources since September of 2008. Previous positions within the past five years include a position as a customer service representative at Wells Fargo bank.

Don Edwards, age 65, is a graduate from Texas Christian University with a BBA degree concentrating in Finance and Economics. Mr. Edwards started his business career with E. F. Hutton where he was a regional OTC Coordinator. He also ran a trading desk for OTC stocks. He later served as President, CFO, CEO and Director for four securities firms as well as a Director for two savings and loans. He has been responsible for managing many public and private companies. He has raised startup capital for dozens of both private and public companies. Mr. Edwards has vast knowledge in the investment field including fine art. He has bought and sold art works of such artists as Charles Russell and Monet. Don was a licensed Insurance agent for many years and assisted in managing the West Texas region for Mass Mutual Life Ins. Co. Don also has a background in the Oil and Gas Industry. His family has run a successful Drilling Co. in West Texas for over half a century. Mr. Edwards will maintain his position as Chief Investment Officer of the Company. Mr. Edwards has served as the Chief Investment Officer for the Company for six months. Prior to his employment at the Company, Mr. Edwards was self-employed.

James F. Carroll, 58, has served as the Chief Financial Officer and Treasurer of Freestone since May 1, 1999. He has served as a director of Freestone since November 12, 1999. From December 1973 to April 1999, Mr. Carroll was employed by F. Schumacher & Co., a New York fabric company, as a manager of production, purchasing and inventory. Mr. Carroll received a B.B.A. degree in public accounting from Pace University of New York in 1985.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), requires our executive officers and directors, and persons who beneficially own more than ten percent of our common stock, to file initial reports of ownership and reports of changes in ownership with the SEC. Executive officers, directors and greater than ten percent beneficial owners are required by SEC regulations to furnish us with copies of all Section 16(a) forms they file. We believe that as of the date of this report they were all current in their 16(a) reports.

Board of Directors

Our board of directors currently consists of three members. Our directors serve one-year terms. Our board of directors has affirmatively determined that there are currently no independent directors serving on our board.

Committees of the Board of Directors

Audit Committee

We do not have a standing audit committee of the Board of Directors. Management has determined not to establish an audit committee at present because of our limited resources and limited operating activities do not warrant the formation of an audit committee or the expense of doing so. We do not have a financial expert serving on the Board of Directors or employed as an officer based on management's belief that the cost of obtaining the services of a person who meets the criteria for a financial expert under Item 401(e) of Regulation S is beyond its limited financial resources and the financial skills of such an expert are simply not required or necessary for us to maintain effective internal controls and procedures for financial reporting in light of the limited scope and simplicity of accounting issues raised in its financial statements at this stage of its development.

Governance, Compensation and Nominating Committee

We do not have a standing governance, compensation and nominating committee of the Board of Directors. Management has determined not to establish governance, compensation and nominating committee at present because of our limited resources and limited operations do not warrant such a committee or the expense of doing so.

Code of Ethics

The Company has adopted the following code of ethics for officers, directors and employees:

- Show respect towards others in the workplace
- Conduct all business activities in a fair and ethical manner

· Work dutifully and responsibly for the Company's shareholders and stakeholders

Limitation of Liability of Directors

Pursuant to the Nevada General Corporation Law, our Articles of Incorporation exclude personal liability for our Directors for monetary damages based upon any violation of their fiduciary duties as Directors, except as to liability for any breach of the duty of loyalty, acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, or any transaction from which a Director receives an improper personal benefit. This exclusion of liability does not limit any right which a Director may have to be indemnified and does not affect any Director's liability under federal or applicable state securities laws.

ITEM 11. EXECUTIVE COMPENSATION**Compensation of Executive Officers**

The following summary compensation table sets forth all compensation awarded to, earned by, or paid to the named executive officers paid by us during the fiscal years ended June 30, 2014 and 2013 in all capacities for the accounts of our executives, including the Chief Executive Officer (CEO), Chief Financial Officer (CFO), and Chief Investment Officer (CIO):

SUMMARY COMPENSATION TABLE

Name and Principal Position	Year	Salary (\$)	Bonus (\$)	Stock Awards (\$)	Option Awards (\$)	Non-Equity Non-Qualified		All Other Compensation (\$)	Totals (\$)
						Incentive Plan Compensation (\$)	Deferred Compensation Earnings (\$)		
Clayton Carter, CEO	2014	49,580	0	73,000	0	0	0	0	122,580
	2013	38,900	0	140,000	0	0	0	0	178,900
Don Edwards, CIO	2014	48,983	0	73,000	0	0	0	0	121,983
	2013	43,550	0	140,000	0	0	0	0	183,550
James Carroll, CFO	2014	0	0	7,300	0	0	0	0	7,300
	2013	0	0	14,000	0	0	0	0	14,000

Employment Agreements

We do not have any employment agreements in place.

Compensation of Directors

Directors do not receive any compensation for their services as directors. The Board of Directors has the authority to fix the compensation of directors. No amounts have been paid to, or accrued to, directors in such capacity.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED SHAREHOLDER MATTERS

As of June 30, 2014, the following persons are known to Freestone to own 5% or more of Freestone's Common Stock, as well as the Company's officers and directors.

Name and Address of Beneficial Owner, Officer or Director	Amount Beneficially Owned*	Percent of Class
Clayton Carter, President, CEO and Director	7,005,000	9.53 %
James Carroll, Chief Financial Officer and Director	1,990,000	2.71 %
Don Edwards, Chief Investment Officer and Director	5,900,000	8.02 %

Directors and Officers as a Group

325 N. St. Paul St.

Suite 1350

Dallas, TX 75201

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS AND DIRECTOR INDEPENDENCE

We were not a party to any transactions or series of similar transactions that have occurred during this fiscal year in which a director, executive officer, holder of more than 5% of our common stock or any member of their immediate family had or will have a direct or indirect material interest.

Due to our limited resources, the Company does not have any independent directors serving on the board of directors.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Audit Fees

The aggregate fees billed for professional services rendered by our auditors, for the audit of the our annual financial statements and review of the financial statements included in our Form 10-K and Forms 10-Q or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for the year ended June 30, 2014 was \$28,000, and \$28,000 for fees relating to the year ended June 30, 2013.

Audit Related Fees

None.

Tax Fees

None.

All Other Fees

None.

ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

(a) The following documents are filed as part of this report: Included in Part II, Item 7 of this report:

Report of Independent Registered Public Accounting Firm

Consolidated Balance Sheets as of June 30, 2014 and 2013

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders

Freestone Resources, Inc.

Dallas, Texas

We have audited the accompanying consolidated balance sheets of Freestone Resources, Inc. as of June 30, 2014 and 2013 and the related consolidated statements of operations, cash flows and stockholders' equity for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

We were not engaged to examine management's assertion about the effectiveness of Freestone Resources, Inc.'s internal control over financial reporting as of June 30, 2014 and 2013 and, accordingly, we do not express an opinion thereon.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Freestone Resources, Inc. as of June 30, 2014 and 2013 and the results of its operations and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States

of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 12 to the consolidated financial statements, the Company has suffered significant losses and will require additional capital to develop its business until the Company either (1) achieves a level of revenues adequate to generate sufficient cash flows from operations; or (2) obtains additional financing necessary to support its working capital requirements. These conditions raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 12. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

FREESTONE RESOURCES, INC.

Notes To Consolidated Financial Statements

June 30, 2014 and 2013

NOTE 1 – NATURE OF ACTIVITIES AND SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities, History and Organization:

Freestone Resources, Inc. (“Freestone” or the “Company”) is an oil and gas technology development company. The Company is located in Dallas, Texas and is incorporated under the laws of the State of Nevada.

The Company’s primary business is the development of new technologies that allow for the utilization of oil and gas resources in an environmentally responsible and cost effective way, as well as the development of technologies and services that can be utilized by the oil and gas industry.

Significant Accounting Policies:

The Company’s management selects accounting principles generally accepted in the United States of America and adopts methods for their application. The application of accounting principles requires the estimating, matching and timing of revenue and expense. It is also necessary for management to determine, measure and allocate resources and obligations within the financial process according to those principles. The accounting policies used conform to generally accepted accounting principles which have been consistently applied in the preparation of these financial statements.

The financial statements and notes are representations of the Company’s management which is responsible for their integrity and objectivity. Management further acknowledges that it is solely responsible for adopting sound accounting practices, establishing and maintaining a system of internal accounting control and preventing and detecting fraud. The Company's system of internal accounting control is designed to assure, among other items, that 1) recorded transactions are valid; 2) valid transactions are recorded; and 3) transactions are recorded in the proper period in a timely manner to produce financial statements which present fairly the

financial condition, results of operations and cash flows of the Company for the respective periods being presented.

Going Concern Uncertainties:

As of the date of this annual report, there is substantial doubt regarding our ability to continue as a going concern as we have not generated sufficient profits and cash flows to fund our business operations and loan commitments. Our future success and viability, therefore, are dependent upon our ability to generate capital financing and to develop products through our research and development activities that will generate revenues sufficient to cover our operating costs and expenses. The failure to generate sufficient revenues or raise additional capital may have a material and adverse effect upon the Company and our shareholders.

Basis of Presentation:

The Company prepares its financial statements on the accrual basis of accounting. The accompanying consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, Freestone Technologies, LLC, all of which have a fiscal year end of June 30, 2014. All significant intercompany accounts, balances and transactions have been eliminated in the consolidation.

The Company consolidates its subsidiaries in accordance with ASC 810, and specifically ASC 810-10-15-8 which states, "The usual condition for a controlling financial interest is ownership of a majority voting interest, and, therefore, as a general rule ownership by one reporting entity, directly or indirectly, or over 50% of the outstanding voting shares of another entity is a condition pointing toward consolidation."

The Company owns 33.33% of Aqueous Services, LLC and has recorded the investment in accordance with the equity method.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Recently Issued Accounting Pronouncements:

The Company does not expect the adoption of recently issued accounting pronouncements to have a significant impact on the Company's results of operations, financial position or cash flows.

Income Taxes:

The Company has adopted ASC 740-10, which requires the use of the liability method in the computation of income tax expense and the current and deferred income taxes payable. A valuation allowance is provided for the amount of deferred tax assets that, based on available evidence, are not expected to be realized.

Earnings per Share:

Basic net loss per share is calculated by dividing the net loss by the weighted average number of common shares outstanding for the period covered. Freestone has no potentially dilutive securities; therefore fully diluted loss per share is identical to basic loss per share.

Cash and Cash Equivalents:

Cash and cash equivalents includes cash in banks with original maturities of three months or less and are stated at cost which approximates market value, which in the opinion of management, are subject to an insignificant risk of loss in value. The Company maintains deposits in a financial institution which provides Federal Deposit Insurance Corporation coverage for interest bearing and non interest bearing transaction accounts of up to \$250,000 through December 31, 2014. At June 30, 2014, none of the Company's cash was not in excess of federally insured limits.

Revenue Recognition:

The Company recognizes revenue from the sale of products in accordance with ASC 605. Revenue will be recognized only when all of the following criteria have been met:

- * Persuasive evidence of an arrangement exists;
- * Ownership and all risks of loss have been transferred to buyer, which is generally upon shipment;
- * The price is fixed and determinable; and
- * Collectability is reasonably assured.

Revenues associated with sales of crude oil, natural gas, natural gas liquids, petroleum and chemical products, and other items are recognized when title passes to the customer, which is when the risk of ownership passes to the purchaser and physical delivery of goods occurs, either immediately or within a fixed delivery schedule that is reasonable and customary in the industry.

Revenues from the production of natural gas and crude oil properties, in which we have an interest with other producers, are recognized based on the actual volumes we sold during the period. Any differences between volumes sold and entitlement volumes, based on our net working interest, which are deemed to be non-recoverable through remaining production, are recognized as accounts receivable or accounts payable, as appropriate. Cumulative differences between volumes sold and entitlement volumes are generally not significant.

Accounts Receivable:

Accounts Receivable consists of accrued oil and gas receivables due from purchasers of oil and gas for which the Company owns an interest. Oil and natural gas sales are generally unsecured and such amounts are generally due within 30 to 45 days after the month of sale. Accounts Receivable are carried at their face amount, less an allowance for doubtful accounts. On a periodic basis, the Company evaluates accounts receivable and establishes the allowance for doubtful accounts based on a combination of specific customer circumstances and credit conditions, based on a history of write offs and collections. The Company's policy is generally not to charge interest on trade receivables after the invoice becomes past due. A receivable is considered past due if payments have not been received within agreed upon invoice terms. Write offs are recorded at a time when a customer receivable is deemed uncollectible. The Company had no bad debt accruals at June 30, 2014 and 2013.

Oil and Gas Properties:

Freestone is actively purchasing marginal oil and gas properties and leasing properties that will be used in the further research and development of oil and gas technologies. This research focuses on the types of formations that will benefit the most from the use of the solvent, as well as the various applications from production and storage to end cycle refinement.

Equipment:

Equipment is carried at the cost of acquisition or construction and depreciated over the estimated useful lives of the assets. Costs associated with repair and maintenance are expensed as incurred. Costs associated with improvements which extend the life, increase the capacity or improve the efficiency of our property and equipment are capitalized and depreciated over the remaining life of the related asset. Gains and losses on dispositions of equipment are reflected in operations. Depreciation and amortization are provided using the straight-line method over the estimated useful lives of the assets, which are 3 to 30 years. Oil and gas properties were purchased primarily for product testing and are depreciated over their estimated useful lives of 3 years but not reduced below estimated salvage value.

Impairment of Long-Lived Assets:

The Company evaluates, on a periodic basis, long-lived assets to be held and used for impairment in accordance with the reporting requirements of ASC 360-10. The evaluation is based on certain impairment indicators, such as the nature of the assets, the future economic benefit of the assets, any historical or future profitability measurements, as well as other external market conditions or factors that may be present. If these impairment indicators are present or other factors exist that indicate that the carrying amount of the asset may not be recoverable, then an estimate of the discounted value of expected future operating cash flows is used to determine whether the asset is recoverable and the amount of any impairment is measured as the difference between the carrying amount of the asset and its estimated fair value. The fair value is estimated using valuation techniques such as market prices for similar assets or discounted future operating cash flows.

Asset Retirement Obligation:

The Company records the fair value of a liability for asset retirement obligations (“ARO”) in the period in which an obligation is incurred and records a corresponding increase in the carrying amount of the related long-lived asset. For Freestone Resources, asset retirement obligations primarily relate to the abandonment of oil and gas properties. The present value of the estimated asset retirement cost is capitalized as part of the carrying amount of oil and gas properties. The settlement date fair value is discounted at Freestone Resource’s credit adjusted risk-free rate in determining the abandonment liability. The abandonment liability is accreted with the passage of time to its expected settlement fair value. Revisions to such estimates are recorded as adjustments to the ARO and capitalized asset retirement costs and are charged to operations in the period in which they become known. At the time the abandonment cost is incurred, Freestone Resources is required to recognize a gain or loss if the actual costs do not equal the estimated costs included in the ARO. During 2014 and 2013, the Company recognized no accretion expense, as the properties were written down to salvage value as of June 30, 2009.

The amounts recognized for the ARO are based upon numerous estimates and assumptions, including future abandonment costs, future recoverable quantities of oil and gas, future inflation rates, and the credit adjusted risk free interest rate.

Fair Value Measurements:

ASC Topic 820, defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and requires certain disclosures about fair value measurements. In general, fair value of financial instruments are based upon quoted market prices, where available. If such quoted market prices are not available, fair value is based upon internally developed models that primarily use, as inputs, observable market based parameters. Valuation adjustments may be made to ensure that financial instruments are recorded at fair value. These adjustments may include amounts to reflect counterparty credit quality and the Corporation's credit worthiness, among other things, as well as unobservable parameters.

Stock-Based Compensation:

The Company accounts for stock-based compensation using a fair value based method whereby compensation cost is measured at the grant date based on the value of the services received and is recognized over the service period. The Company uses the Black-Scholes pricing model to calculate the fair value of options and warrants issued. In calculating this fair value, there are certain assumptions used such as the expected life of the option, risk-free interest rate, dividend yield, volatility and forfeiture rate. The use of a different estimate for any one of these components could have a material impact on the amount of calculated compensation expense.

The Company does not have any employee benefit or stock option plans.

Concentrations of Credit Risk:

The Company's financial instruments that are exposed to concentrations of credit risk consist primarily of cash. The Company places its cash in highly-rated financial institutions, limits the amount of credit exposure with any one financial institution and conducts ongoing evaluation of the credit worthiness of the financial institutions with which it does business.

Emerging Growth Company Critical Accounting Policy Disclosure

The Company qualifies as an "emerging growth company" under the 2012 JOBS Act. Section 107 of the JOBS Act provides that an emerging growth company can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. As an emerging grown company, the Company can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. The Company may elect to take advantage of the benefits of this extended transition period in the future.

NOTE 2 – FIXED ASSETS

Fixed assets at June 30, 2014 and 2013 are as follows:

	2014	2013
Computers & office furniture	\$68,169	\$108,983
Oil and gas properties used for research and development	0	20,000

Less: Accumulated depreciation	(19,689)	(61,094)
Total fixed assets, net of accumulated depreciation	\$48,480	\$67,889

Depreciation expense was \$17,181 and \$25,053 for the years ended June 30, 2014 and 2013, respectively.

NOTE 3 – ASSET RETIREMENT OBLIGATIONS

The Company's asset retirement obligations ("ARO") represents the estimated present value of the amount Freestone Resources will incur to plug, abandon and remediate its producing properties at the end of their productive lives, in accordance with applicable state laws. Freestone Resources determines the ARO on its oil and gas properties by calculating the present value of estimated cash flows related to the liability. The asset retirement obligations are recorded as current or non-current liabilities based on the estimated timing of the anticipated cash flows. For the year ended June 30, 2014 and June 30, 2013, Freestone Resources recognized no accretion expense.

The following table presents the changes in the asset retirement obligations for the year ended June 30, 2014 and 2013.

	2014	2013
Asset retirement obligations beginning period	\$40,497	\$40,915
Accretion expense	0	0
Change in ARO estimate	0	(418)
ARO liability transferred on property sold	(26,027)	0
Asset retirement obligations, end of period	\$14,470	\$40,497

NOTE 4 – INVESTMENT IN AQUEOUS SERVICES, LLC.

On November 16, 2012 the Company formed Aqueous Services, LLC (“Aqueous”), a Texas limited liability company, with International Aqueous Investments, LLC and Pajarito W&M, LP. The Company made an initial capital contribution of \$100,000 in exchange for a 33.33% interest in the joint venture. Aqueous is a full water management company with access to a fresh water well that has been permitted to extract up to one thousand five hundred acre-feet (approximately 500 million gallons) of water per annum. Aqueous constructed and operates a facility to provide fresh water for oil and gas activities in the Eagle Ford. This site also includes a designated location for the recycling frack and production water.

The joint venture is accounted for under the equity method as follows:

Balance 6/30/12	\$0
Capital Contributions	115,000
Equity in Loss of JV	(5,327)
Balance 6/30/13	109,673
Equity in Loss of JV	(31,340)
Balance 6/30/14	\$78,333

NOTE 5 – EQUITY

The Company is authorized to issue 100,000,000 common shares at a par value of \$0.001 per share. These shares have full voting rights. At June 30, 2014 and 2013, there were 73,543,177 and 68,318,177, respectively, common shares outstanding.

The Company has not paid a dividend to its shareholders.

As part of the agreement to form Aqueous Service, LLC. the Company sold 300,000 shares of common stock to each partner at par value of .001 a share. The Company treated the difference between the selling price and the fair market value of the stock as consulting expense resulting in a \$168,400 expense in 2013.

During the year ended June 30, 2014 the Company sold 2,625,000 shares for cash.

On February 18, 2014 the Company issued shares of the Company's common stock to certain directors, officers and consultants for services rendered to the Company.

Clayton Carter, the Company's Director and Chief Executive Officer, received 1,000,000 shares of the Company's common stock, G. Don Edwards, the Company's Director and Chief Investment Officer, received 1,000,000 shares of the Company's common stock, and James Carroll, the Company's Director and Chief Financial Officer received 100,000 shares of the Company's common stock.

The Company also issued 500,000 shares of the Company's common stock to consultants as consideration for services rendered to the Company.

In each case, the certificates representing the shares carry a legend that the shares may not be transferred without compliance with the registration requirements of the Securities Act of 1933 or in reliance upon an exemption therefrom. For each of these transactions, the Company relied upon Section 4(2) of the Securities Act of 1933 as an exemption from the registration requirements of the Act.

Stock Warrant and Derivative Liability:

The Company also sold each of the JV partners 500,000 warrants to purchase shares of common stock at 80% of the closing price on the exercise date. The warrants vest immediately and have a three year term from the issuance date. These warrants expire August 15, 2015. The Company accounted for the transaction using the Black-Scholes option pricing model and given the variable settlement price and cash settlement terms recorded an expense of \$279,625

in 2013 resulting in a derivative liability. All of the derivative instruments will be accounted for under the fair value method and changes in fair value will be reflected in earnings.

NOTE 6 – INCOME TAXES

The Company has adopted ASC 740-10, which requires the use of the liability method in the computation of income tax expense and the current and deferred income taxes payable. Freestone has calculated its tax liability in accordance with Section 382 of the Internal Revenue Code which generally limits the amount of its income that can be offset by historical losses (NOL carryforwards) once a corporation has undergone an ownership change. Ownership changed in Freestone on November 1, 2007. The cumulative net operating loss carry-forward that can offset current and/or future income includes amounts and is approximately \$3,097,000. The use of this loss carryforward is limited under Internal Revenue Code Section 382 due to an ownership change in the fiscal year ended June 30, 2008. The annual limitation is currently \$151,000.

During the year ended June 30, 2014 and 2013, the Company had a net loss of \$520,937 and net loss of \$1,135,084, respectively, changing the deferred tax asset by \$177,119 and \$385,929 at the statutory tax rate of 34%. All NOLs will expire between 2019 and 2030. The realization of deferred tax benefits is contingent upon future earnings and is fully reserved at June 30, 2014 and 2013.

Freestone's net deferred tax amounts are as follows:

	2014		2013	
Tax benefit (expense) at statutory rate	\$177,119	34 %	\$385,929	34 %
Permanent differences	0	0 %	0	0 %
State income taxes	0	0 %	0	0 %
Expiration of NOL's and other	0	0 %	0	%
Valuation allowance	117,109	(34)%	385,929	(34)%
Net Tax Provision	\$0	0 %	\$0	0 %

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Significant components of deferred tax assets as of June 30, 2014 and 2013 are as follows:

	2014	2013
Deferred tax assets:		
Net operating losses carry forwards	\$1,694,684	\$1,308,755
Current year benefit (expense)	177,119	385,929

Total deferred tax assets	1,871,803	1,694,684
Deferred tax liabilities	0	0
Total deferred tax liabilities	0	0
Net deferred tax asset	1,871,803	1,694,684
Valuation allowance	(1,871,803)	(1,694,684)
Deferred tax asset, net	\$0	\$0

NOTE 7 – CONCENTRATION OF REVENUE

During the fiscal year ended June 30, 2014, 100% of revenue was generated from sales of Petrozene. In fiscal year ended June 30, 2013, 100% of revenue from oil and gas sales was generated from one wholesaler.

NOTE 8 – FREESTONE TECHNOLOGIES, LLC

On October 24, 2008, Freestone established Freestone Technologies, LLC (the “Subsidiary”) in the state of Texas. The Subsidiary is wholly owned by Freestone and has certain assets and liabilities relating to the purchase of oil wells. These wells were purchased to be used to test Freestone’s chemical solvents. The assets and liabilities of the Subsidiary are included in the consolidated financial statements of Freestone. During 2013 the Company wrote off the Oil Field assets of Freestone Tech resulting in a \$3,000 loss.

NOTE 9 – FAIR VALUE MEASUREMENTS

Cash, accounts receivable, accounts payable and other accrued expenses and other current assets and liabilities are carried at amounts which reasonably approximate their fair values because of the relatively short maturity of those instruments.

Accounting Standards Codification (“ASC”) Topic 820, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets.
- quoted prices for identical or similar assets or liabilities in inactive markets.
- inputs other than quoted prices that are observable for the asset or liability.
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value

measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Company's financial assets at fair value as of June 30, 2014 and 2013:

Assets at Fair Value

	Level 1	Level 2	Level 3	Total
June 30, 2014:				
Cash	\$73,106	\$0	\$0	\$73,106
June 30, 2013:				
Cash	\$205,767	\$0	\$0	\$205,767

Asset retirement obligations are recorded based on the present value of the estimated cost to retire the oil and gas properties and are depleted over the useful life of the asset. The settlement date fair value is discounted at the Company's credit adjusted risk-free rate in determining the abandonment liability. Derivative Liability is calculated using the black scholes method to estimate the Company's future liability for stock warrants outstanding.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Company believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following table sets forth by level, within the fair value hierarchy, the Company's liabilities at fair value as of June 30, 2014 and 2013:

Liabilities at Fair Value

	Level 1	Level 2	Level 3	Total
June 30, 2014:				
Asset retirement obligations	\$0	\$0	\$14,470	\$14,470
Derivative Liability	\$0	\$0	\$279,625	\$279,625
June 30, 2013:				
Asset retirement obligations	\$0	\$0	\$40,497	\$40,497
Derivative Liability	\$0	\$0	\$279,625	\$279,625

NOTE 10 – COMMITMENTS AND CONTINGENCIES

The Company leases office space under a non-cancelable operating lease that expires in June 2014. The lease requires fixed escalations and payment of electricity costs. Rent expense, included in general and administrative expenses, totaled approximately \$27,180 and \$28,563 for the fiscal years ended June 30, 2014 and 2013, respectively.

The future minimum rental commitments under the operating lease are as follows:

Fiscal Year Ending June 30,	Minimum Rental Commitments
2015	\$ 22,731
2016	22,605
2017	22,605
2018	1,884
2019	0

Thereafter 0
\$ 69,825

NOTE 11 – IMPAIRMENT OF OIL AND GAS PROPERTIES

During the fiscal years ended June 30, 2014 and June 30, 2013, the Company recorded impairment expense of \$0 and \$0, respectively, related to its oil and gas property and equipment.

34

NOTE 12 – FINANCIAL CONDITION AND GOING CONCERN

The Company has an accumulated deficit through June 30, 2014 totaling \$18,645,395 and recurring losses from operations. Because of this accumulated loss, Freestone will require additional working capital to develop its business operations. The Company intends to raise additional working capital either through private placements, public offerings, bank financing and/or shareholder funding. There are no assurances that Freestone will be able to

either (1) achieve a level of revenues adequate to generate sufficient cash flow from operations; or (2) obtain additional financing through either private placement, public offerings, bank financing and/or shareholder funding necessary to support their working capital requirements. To the extent that funds generated from any private placements, public offerings, bank financing and/or shareholder funding are insufficient, Freestone will have to raise additional working capital. No assurance can be given that additional financing will be available, or if available, will be on terms acceptable to Freestone. If adequate working capital is not available Freestone may not be able to continue its operations. Management believes that the efforts it has made to promote its business will continue for the foreseeable future.

These conditions raise substantial doubt about Freestone's ability to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or the amount and classification of liabilities that might be necessary should Freestone be unable to continue as a going concern.

NOTE 13 – RECENT ACCOUNTING PRONOUNCEMENTS

During the year ended June 30, 2014 the Company elected the early adoption of changes to *ASC 915 Development Stage Enterprises* which eliminated certain reporting requirements including identification of the Company as a development stage enterprises in financial statement headings, discussion of development stage enterprises in Note 1 Summary of Accounting Policy and the presentation of cumulative data in the statements of income and cash flows.

NOTE 14 - SUPPLEMENTAL OIL AND GAS DATA (UNAUDITED)

The following tables set forth supplementary disclosures for oil and gas producing activities in accordance with FASB ASC Topic 932, *Extractive Activities - Oil and Gas* ("ASC 932"). The Company generates revenue from the disposal of

oil that is extracted during their research and development activities. Currently, as the Company is in the development stage, 100% of their revenue is generated from the revenue associated with the disposal. The properties were purchased as test properties for the various technologies the Company is developing or would analyze for potential development. In order to get the most accurate data of the testing, the Company was required to purchase and own the wells so the data could be verified as accurate by the Company without the fear of third-party variables. The wells are marginally to poorly producing wells and it is not economically feasible to perform the work necessary to bring them up to the condition in order for them to effectively produce. As the wells are not economically feasible to operate in a capacity other than research and development, and the Company has no intentions to develop the wells, no proved reserves have been estimated. As the wells are not economically feasible, there is no value assigned to the oil and gas leaseholds and the equipment is recorded at salvage value.

Costs Incurred

A summary of costs incurred in oil and gas property acquisition, development, and exploration activities (both capitalized and charged to expense) for the years ended June 30, 2014 and 2013, as follows:

	2014	2013
Acquisition of proved properties	\$ 0	\$ 0
Acquisition of unproved properties	\$ 0	\$ 0
Exploration costs	\$ 0	\$ 0

Results of Operations for Producing Activities

The following table presents the results of operations for the Company's oil and gas producing activities for the year ended June 30, 2014 and 2013:

	2014	2013
Revenues	\$0	8,983
Production costs	(28,306)	(14,203)
Depletion, depreciation, accretion and valuation provisions	0	0
Exploration costs	0	0
Income tax expense	(28,306)	(5,220)
Income tax expense	0	0
Results of operations for producing activities (excluding corporate overhead and interest costs)	\$(28,306)	\$(5,220)

Reserve Quantity Information

The following table presents the Company's estimate of its proved oil and gas reserves all of which are located in the United States. The Company emphasizes that reserve estimates are inherently imprecise and that estimates of reserves

related to new discoveries are more imprecise than those for producing oil and gas properties. Accordingly, the estimates are expected to change as future information becomes available. Oil reserves, which include condensate and natural gas liquids, are stated in barrels and gas reserves are stated in thousands of cubic feet.

	Oil (Bbls)	Gas (mcf)
Proved developed and undeveloped reserves:		
Balance at June 30, 2014	0	0
Production	0	0
Revisions of previous estimates	0)	0
Balance at June 30, 2014	0	0

Proved developed reserves:

June 30, 2012	0	0
June 30, 2013	0	0
June 30, 2014	0	0

NOTE 15 – SUBSEQUENT EVENTS

In conjunction with the preparation of these financial statements, an evaluation of subsequent events was performed. No reportable subsequent events were noted.
