SENSIENT TECHNOLOGIES CORPORATION

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Unaudited)

1. Accounting Policies

In the opinion of Sensient Technologies Corporation (the “Company”), the accompanying unaudited consolidated condensed financial statements contain all adjustments (consisting of only normal recurring adjustments) which are necessary to present fairly the financial position of the Company as of June 30, 2016, the results of operations and comprehensive income for the three and six months ended June 30, 2016 and 2015, and cash flows for the six months ended June 30, 2016 and 2015. The results of operations for any interim period are not necessarily indicative of the results to be expected for the full year.

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (“GAAP”) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. Expenses are charged to operations in the period incurred.

In November 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2015-17, Balance Sheet Classification of Deferred Taxes, which requires entities to present deferred tax assets and deferred tax liabilities as noncurrent in a classified balance sheet. The ASU simplifies current guidance, which requires entities to separately present deferred tax assets and deferred tax liabilities as current and noncurrent in a classified balance sheet. This guidance is effective for interim and annual periods beginning after December 15, 2016, with early adoption permitted. The guidance can be applied retrospectively or prospectively. The Company retrospectively applied this guidance to all prior periods. The Company adopted this ASU in the first quarter of 2016. As a result, the Company reclassified \$17.1 million of current deferred tax assets to Deferred Tax Asset Noncurrent as of December 31, 2015. The Company also reclassified \$7.3 million of current deferred tax assets to Deferred Tax Liability Noncurrent as of December 31, 2015.

In April 2015, the FASB issued ASU No. 2015-03, Simplifying the Presentation of Debt Issuance Costs, which requires debt issuance costs to be presented in the balance sheet as a direct deduction from the carrying amount of the associated debt liability. Also in August 2015, the FASB issued ASU 2015-15, Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements, to clarify that the Securities and Exchange Commission staff would not object to deferring and presenting debt issuance costs as an asset and subsequently amortizing deferred debt issuance costs ratably over a term of the line-of-credit arrangement. This guidance is effective for interim and annual periods beginning after December 15, 2015. The guidance is required to be retrospectively applied to all prior periods. The Company adopted these ASUs in the first quarter of 2016. As a result, the Company reclassified \$0.4 million of debt fees from Other Assets to Long Term Debt as of December 31, 2015. The Company’s debt fees associated with the Company’s revolving loan agreement remain classified in Other Assets.

In July 2015, the FASB affirmed its proposed one-year deferral of the effective date for ASU No. 2014-09, Revenue from Contracts with Customers. Under this proposal, the requirements of the new standard are effective for interim and annual periods beginning after December 15, 2017. The proposal also permits entities to adopt the standard for interim and annual reporting periods beginning after December 15, 2016. The Company is currently evaluating the expected impact of this standard.

In July 2015, the FASB issued ASU No. 2015-11, Simplifying the Measurement of Inventory. Under this guidance, inventory that is accounted for using first-in-first-out or average cost method, shall be measured at the lower of cost or net realizable value, as opposed to the lower of cost or market measurement under current guidance. This guidance is

effective for interim and annual periods beginning after December 15, 2016, with early adoption permitted. This new guidance is required to be retrospectively applied to all prior periods. The Company is currently evaluating the expected impact of this standard.

In February 2016, the FASB issued ASU No. 2016-02, Leases, which requires lessees to recognize the lease assets and lease liabilities that arise from leases on the balance sheet and to disclose qualitative and quantitative information about lease transactions. This guidance is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. The Company is currently evaluating the expected impact of this standard.

Index

In March 2016, the FASB issued ASU No. 2016-09, Improvements to Employee Share-Based Payment Accounting, which simplifies several aspects of the accounting for employee share-based payment transactions, primarily the accounting for the associated income taxes. This guidance is effective for annual and interim periods beginning after December 15, 2016, with early adoption permitted. The Company is currently evaluating the expected impact of this standard.

Please refer to the notes in the Company's annual consolidated financial statements for the year ended December 31, 2015, for additional details of the Company's financial condition and a description of the Company's accounting policies, which have been continued without change.

2. Fair Value

Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, defines fair value for financial assets and liabilities, establishes a framework for measuring fair value in GAAP and expands disclosures about fair value measurements. As of June 30, 2016, and December 31, 2015, the Company's assets and liabilities subject to this standard are forward exchange contracts and investments in a money market fund and municipal investments. The fair value of the forward exchange contracts based on current pricing obtained for comparable derivative products (Level 2 inputs) was a liability of \$0.1 million and \$0.2 million as of June 30, 2016, and December 31, 2015, respectively. The fair value of the investments based on June 30, 2016, and December 31, 2015, market quotes (Level 1 inputs) was an asset of \$1.5 million in both periods and is reported in Other Assets in the Consolidated Condensed Balance Sheets.

The carrying values of the Company's cash and cash equivalents, trade accounts receivable, accounts payable, accrued expenses and short-term borrowings approximated fair values as of June 30, 2016. The fair value of the Company's long-term debt, including current maturities, is estimated using discounted cash flows based on the Company's current incremental borrowing rates for similar types of borrowing arrangements (Level 2 inputs). The carrying value of the long-term debt at June 30, 2016, was \$601.8 million. The fair value of the long-term debt at June 30, 2016, was \$624.4 million.

The Company evaluates performance based on operating income of the respective segments before restructuring and other costs, interest expense and income taxes. The 2016 and 2015 restructuring and other costs related to continuing operations are reported in the Corporate & Other segment. See Note 10, Restructuring, for more information on the Company's restructuring activities. The other costs in 2016 are for a long-lived asset impairment charge, see Note 12, Anticipated Divestiture, and the other costs in 2015 are acquisition related costs.

7. Derivative Instruments and Hedging Activity

The Company may use forward exchange contracts and foreign currency denominated debt to manage its exposure to foreign exchange risk by reducing the effect of fluctuating foreign currencies on short-term foreign currency denominated intercompany transactions, non-functional currency raw material purchases, non-functional currency sales and other known foreign currency exposures. These forward exchange contracts generally have maturities of less than 18 months. The Company's primary hedging activities and their accounting treatment are summarized below:

Forward exchange contracts – Certain forward exchange contracts have been designated as cash flow hedges. The Company had \$18.8 million and \$35.2 million of forward exchange contracts, designated as hedges, outstanding as of June 30, 2016, and December 31, 2015, respectively. For the three months ended June 30, 2016, losses of \$0.2 million were reclassified into net earnings in the Company's Consolidated Statement of Earnings that offset the earnings impact of the related non-functional asset or liability hedged in the same period. For the three months ended June 30, 2015, the losses reclassified were immaterial. For the six months ended June 30, 2016 and 2015, losses of \$0.7 million and \$0.3 million, respectively, were reclassified into net earnings in the Company's Consolidated Statement of Earnings that offset the earnings impact of the related non-functional asset or liability hedged in the same period. In addition, the Company utilizes forward exchange contracts that are not designated as cash flow hedges, the results of these transactions are not material to the financial statements.

Net investment hedges – The Company has certain debt denominated in Euros and Swiss Francs. These debt instruments have been designated as partial hedges of the Company's Euro and Swiss Franc net asset positions. Changes in the fair value of this debt attributable to changes in the spot foreign exchange rate are recorded in foreign currency translation in other comprehensive income ("OCI"). As of June 30, 2016, and December 31, 2015, the total value of the Company's Euro and Swiss Franc debt was \$206.3 million and \$162.5 million, respectively. For the three and six months ended June 30, 2016, the impact of foreign exchange rates on these debt instruments decreased debt by \$4.8 million and increased debt by \$3.6 million, respectively, which has been recorded as foreign currency translation in OCI.

8. Income Taxes

The effective income tax rates for continuing operations for the quarters ended June 30, 2016 and 2015, were 36.6% and 27.9%, respectively. For the six-month periods ended June 30, 2016 and 2015, the effective income tax rates for continuing operations were 31.6% and 27.8%, respectively. The effective tax rates in both 2016 and 2015 were impacted by restructuring activities, changes in estimates associated with the finalization of prior year foreign and domestic tax items, audit settlements and mix of foreign earnings. The rate in 2016 was also impacted by the deferred tax adjustments related to the anticipated divestiture discussed in Note 12, Anticipated Divestiture.

9. Accumulated Other Comprehensive Income

The following table summarizes the changes in OCI during the three- and six-month periods ended June 30, 2016:

10. Restructuring

The Company incurred restructuring costs in both continuing and discontinued operations. The discussion in this note relates to the combination of both continuing and discontinued operations unless otherwise noted. Restructuring costs related to discontinued operations are recorded in discontinued operations within the Company's Consolidated Condensed Statements of Earnings and are discussed in Note 11, Discontinued Operations, in more detail.

In March 2014, the Company announced that it was initiating a restructuring plan ("2014 Restructuring Plan" or "Plan") to eliminate underperforming operations, consolidate manufacturing facilities and improve efficiencies within the Company. The Company determined that it had redundant manufacturing capabilities in both North America and Europe and that it could lower costs and operate more efficiently by consolidating into fewer facilities. Eight facilities were identified for consolidation in the Flavors & Fragrances segment, four in North America and four in Europe. To date, closures have been announced in Indianapolis, Indiana, United States; Cornwall, Mississauga and Halton Hills, Canada; Bremen, Germany; and Milan, Italy. The Company also plans to sell its two European Natural Ingredients facilities, as discussed below. In addition, the Company discontinued one of the businesses in the Color segment, located near Leipzig, Germany, because it did not fit with the Company's long-term strategic plan and it had generated losses for several years. In 2015, the Company identified additional opportunities to consolidate manufacturing operations at one of the Color segment's facilities in Europe and eliminate additional positions in the European Flavors & Fragrances businesses.

Based on this Plan, the Company determined that certain long-lived assets associated with the underperforming operations were impaired. The Company reduced the carrying amounts of these assets to their aggregate respective fair values, which were determined based on independent market valuations. The fair values of the remaining long-lived assets are estimated to be approximately \$19 million, which includes certain of the land, buildings and equipment in the assets held for sale, as noted below. Also certain machinery and equipment has been identified to be disposed of at the time of the facility closures and the associated depreciation for these assets has been accelerated. The Company recorded long-lived asset impairments, including the impairment charges and accelerated depreciation of \$0.3 million and \$3.7 million, during the three months ended June 30, 2016 and 2015, respectively, and \$0.7 million and \$7.5 million during the six months ended June 30, 2016 and 2015, respectively. Since initiating the Plan, the Company has recorded \$85.5 million of long-lived asset impairments, including the impairment charges and accelerated depreciation. In addition, certain intangible assets, inventory and other current assets were also determined to be impaired and were written down.

The Company has also incurred employee separation and other restructuring costs as a result of this Plan. The Company anticipates that it will reduce headcount by approximately 400 positions at the affected facilities, primarily in the Flavors & Fragrances segment, related to direct and indirect labor at manufacturing sites. As of June 30, 2016,

272 positions had been eliminated as a result of this Plan.

Index

As mentioned above, the Company plans to sell its European Natural Ingredients business, a business in the Flavors & Fragrances segment. This business has two facilities, located in Marchais, France and Elburg, the Netherlands. The European Natural Ingredients business has not generated significant profits for several years and it does not fit with the Company's long-term strategic plan. The Company is currently working to sell this business and anticipates selling the business within the next year. Upon the completion of a sale of this business, the Company anticipates recognizing an additional non-cash loss of approximately \$13 million.

As of June 30, 2016, the Company has recorded assets held for sale of land, buildings and equipment of \$9.4 million related to the 2014 Restructuring Plan, and inventory, receivables and other assets of \$18.8 million related to the anticipated sale of the European Natural Ingredients business. The Company also has \$3.1 million of liabilities held for sale related to the anticipated sale of the European Natural Ingredients business.

The Company recorded total restructuring income of \$0.2 million (as a result of a pre-tax gain from discontinued operations in connection with liquidation of the Leipzig entity, as discussed below) for the three months ended June 30, 2016 and restructuring costs of \$9.7 million for the three months ended June 30, 2015, in accordance with GAAP and based on an internal review of the affected facilities and consultation with legal and other advisors, and restructuring costs of \$3.1 million and \$16.9 million for the six months ended June 30, 2016 and 2015, respectively. Since initiating the 2014 Restructuring Plan, the Company has incurred \$144.6 million of restructuring costs through June 30, 2016. The Company expects to incur approximately \$13 million of additional restructuring costs by the end of 2016 and approximately \$4 million of restructuring costs in 2017.

The Company expects that the closure and sale of these operations will significantly lower the Company's operating costs over the next few years. Upon initiating the Plan, the Company estimated the annual cost reductions to be approximately \$30 million, when fully implemented. The U.S. dollar has strengthened considerably since the initiation of the Plan, and as a result the dollar value of the cost savings has been reduced. In 2015, the Company identified additional cost savings opportunities, and as a result of these actions, the current estimate of annual cost savings is approximately \$27 million. The Company has also implemented price increases to further mitigate the impact of foreign currency movements. The Company has already realized cost savings of approximately \$3 million in 2014 and an additional \$9 million in 2015. The Company expects to realize approximately \$6 million to \$7 million of incremental savings in 2016, of which \$2.1 million and \$4.1 million were realized during the three and six months ended June 30, 2016, respectively. The remaining savings are expected to be realized in 2017.

In connection with the 2014 Restructuring Plan, the Company approved a plan to dispose of a certain business, located near Leipzig, Germany, within the Color segment. Production ceased in 2014 and the business met the criteria to be reported as a discontinued operation. During the current quarter, the facility and remaining assets were sold for a gain of \$0.2 million. In addition, the entity was liquidated resulting in a reclassification of the cumulative translation adjustment related to that entity of \$3.3 million into net earnings. The pre-tax gain from discontinued operations, which includes restructuring costs, was \$3.4 million during both the three and six months ended June 30, 2016.

The Company evaluates performance based on operating income of each segment before restructuring and other costs. All restructuring and other costs related to continuing operations are recorded in the Corporate & Other segment. The following table summarizes the restructuring expense by segment and discontinued operations for the three and six months ended June 30, 2016 and 2015, respectively:

11. Discontinued Operations

In connection with the 2014 Restructuring Plan, the Company approved a plan to dispose of a business unit within the Color segment, located near Leipzig, Germany. Since 2014, the business has met the criteria to be presented as a discontinued operation as established in ASC Subtopic 205-20, Discontinued Operations. The results of this business have been reported as a discontinued operation in the Consolidated Condensed Statements of Earnings for all periods presented. During the current quarter, the facility and remaining assets were sold for a gain of \$0.2 million. In addition, the entity was liquidated resulting in a reclassification of the cumulative translation adjustment of \$3.3 million into net earnings. The pre-tax gain from discontinued operations, which includes restructuring costs, was \$3.4 million in both the three and six months ended June 30, 2016.

The following table summarizes the discontinued operation's results for the three and six months ended June 30, 2016 and 2015:

12. Anticipated Divestiture

During the three months ended June 30, 2016, the Board of Directors authorized management to explore strategic alternatives for a facility and certain related business lines within the Flavors & Fragrances segment in Europe. The Company anticipates a sale within the next year and has recorded assets held for sale of inventory and other assets of \$22.2 million and \$1.4 million of liabilities held for sale related to the anticipated sale. In addition, the Company has recorded an impairment charge of \$10.3 million during the three months ended June 30, 2016 in selling and administrative expense, reducing the carrying value of the long-lived assets for this facility to zero. An estimate of the fair value of this business less cost to sell was determined to be lower than its carrying value. The difference between the fair value and its carrying value exceeded the existing net book value of the long-lived assets. If a sale is completed, the Company expects to recognize an additional non-cash loss of approximately \$9.1 million.

U.S. Equal Employment Opportunity Commission Civil Complaint

On September 21, 2015, the U.S. Equal Employment Opportunity Commission (EEOC) filed a civil complaint against Sensient Natural Ingredients LLC (SNI) in the U.S. District Court for the Eastern District of California. SNI is a wholly owned subsidiary of the Company. The EEOC's complaint alleges that SNI failed to comply with the Americans with Disabilities Act (ADA), as amended, when it terminated five employees in 2011. The EEOC seeks to enjoin SNI from engaging in employment practices that discriminate on the basis of disability; asks the Court to order SNI to implement policies, practices, and programs to ensure it does not violate the ADA; and requests back pay with prejudgment interest, reinstatement, front pay, compensation for past and future pecuniary and non-pecuniary losses, and punitive damages on behalf of the five named former employees and any similarly aggrieved individuals. Recoverable compensatory and punitive damages are subject to statutory caps. The complaint does not request a specific damages amount. To date, the EEOC has provided the Company with a list of 13 additional potentially aggrieved former employees not listed in the complaint who may have been terminated in violation of the ADA during the relevant time period. In its discovery responses, the EEOC has identified 3 of those 13 former employees as additional claimants for whom the Agency seeks relief. The Parties are currently engaged in the discovery process.

The Company is vigorously investigating the facts alleged in the complaint to determine what exposure SNI may have. Since 2013, SNI's on-site human resources representatives have worked closely with both Company counsel and outside labor and employment counsel to ensure that all policies, procedures and actions, including terminations, comply with applicable law. At this early stage, it is not possible to assess the probability of any legal or financial exposure.

Other Claims and Litigation

The Company is subject to various claims and litigation arising in the normal course of business. The Company establishes reserves for claims and proceedings when it is probable that liabilities exist and reasonable estimates of

loss can be made. While it is not possible to predict the outcome of these matters, based on our assessment of the facts and circumstances now known, we do not believe that these matters, individually or in the aggregate, will have a material adverse effect on our financial position. However, actual outcomes may be different from those expected and could have a material effect on our results of operations or cash flows in a particular period.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

The following discussion of the financial condition and results of operations excludes the results of discontinued operations unless otherwise indicated.

Revenue

Revenue was \$360.8 million and \$346.0 million for the three months ended June 30, 2016 and 2015, respectively, an increase of 4.3%. Revenue was \$703.3 million and \$692.2 million for the six months ended June 30, 2016 and 2015, respectively, an increase of 1.6%. The impact of foreign exchange rates decreased consolidated revenue by approximately 1.8% and 2.6% for the three and six months ended June 30, 2016, respectively.

Gross Profit

The Company's gross margin was 34.5% and 34.1% for the three months ended June 30, 2016 and 2015, respectively. Included in the cost of sales are \$0.2 million and \$0.1 million of restructuring costs for the three months ended June 30, 2016 and 2015, respectively. The increase in gross margin for the three months ended June 30, 2016, is primarily a result of higher volumes, mainly in the Color segment, and savings associated with the 2014 Restructuring Plan of \$1.9 million. Restructuring costs did not have a significant impact on gross margin in either period.

Gross margin was 34.2% and 34.0% for the six months ended June 30, 2016 and 2015, respectively, an increase of 20 basis points. Included in the cost of sales are \$0.8 million and \$0.3 million of restructuring costs for the six months ended June 30, 2016 and 2015, respectively. The increase in gross margin for the six months ended June 30, 2016, is primarily a result of higher volumes, mainly in the Color segment, and savings associated with the 2014 Restructuring Plan of \$3.5 million. Restructuring costs did not have a significant impact on gross margin in either period.

Selling and Administrative Expense

Selling and administrative expenses as a percent of revenue were 22.4% and 21.1% for three months ended June 30, 2016 and 2015, respectively. Restructuring and other costs (see the discussions below regarding, Restructuring, Anticipated Divestiture and Non-GAAP Financial Measures) of \$13.4 million and \$10.3 million were included in selling and administrative expenses for the three months ended June 30, 2016 and 2015, respectively. For the three months ended June 30, 2016, the increase in selling and administrative expenses as a percent of revenue is primarily due to an increase in restructuring and other costs and an increase in performance based executive compensation of \$2.0 million partially offset by a sale of an import right in the Flavors & Fragrances segment of \$2.7 million. Restructuring and other costs increased selling and administrative expense as a percent of revenue by 370 basis points and 300 basis points for the three months ended June 30, 2016 and 2015, respectively.

Selling and administrative expense as a percent of revenue were 21.2% and 20.8% for the six months ended June 30, 2016 and 2015, respectively. Restructuring and other costs of \$16.1 million and \$17.3 million were included in selling and administrative expenses for the six months ended June 30, 2016 and 2015, respectively. For the six months ended June 30, 2016, the increase in selling and administrative expenses as a percent of revenue is primarily due to an increase in performance based executive compensation of \$3.2 million partially offset by a sale of an import right in the Flavors & Fragrances segment of \$2.2 million. Restructuring and other costs increased selling and administrative expenses as a percent of revenue by 230 basis points and 250 basis points for the six months ended June 30, 2016 and 2015, respectively.

Operating Income

Operating income was \$43.7 million and \$45.1 million for the three months ended June 30, 2016 and 2015, respectively. Operating margins were 12.1% and 13.0% for the three months ended June 30, 2016 and 2015,

respectively. Restructuring and other costs reduced operating margins by 380 basis points and 310 basis points during the three months ended June 30, 2016 and 2015, respectively.

Operating income was \$91.2 million and \$91.5 million for the six months ended June 30, 2016 and 2015, respectively. Operating margins were 13.0% and 13.2% for the six months ended June 30, 2016 and 2015, respectively. Restructuring and other costs reduced operating margins by 240 basis points and 260 basis points during the six months ended June 30, 2016 and 2015, respectively.

Index

Interest Expense

Interest expense was \$4.6 million and \$4.1 million for the three months ended June 30, 2016 and 2015, respectively, and \$9.4 million and \$8.0 million for the six months ended June 30, 2016 and 2015, respectively. The increase in the expense in both the three and six-month periods is primarily due to the increase in the average debt outstanding which is partially offset by the lower average interest rates.

Income Taxes

The effective income tax rates for continuing operations for the quarters ended June 30, 2016 and 2015, were 36.6% and 27.9%, respectively. For the six-month periods ended June 30, 2016 and 2015, the effective income tax rates were 31.6% and 27.8%, respectively. The effective tax rates in both 2016 and 2015 were impacted by restructuring activities, changes in estimates associated with the finalization of prior year foreign and domestic tax items, audit settlements and mix of foreign earnings. The rate in 2016 was also impacted by the deferred tax adjustments related to the anticipated divestiture discussed below.

Restructuring

The Company incurred restructuring costs in both continuing and discontinued operations. The discussion in this section relates to the combination of both continuing and discontinued operations. Restructuring costs related to discontinued operations are recorded in discontinued operations within the Company's Consolidated Condensed Statements of Earnings and are discussed in Note 11, Discontinued Operations, in more detail.

In March 2014, the Company announced that it was initiating a restructuring plan ("2014 Restructuring Plan" or "Plan") to eliminate underperforming operations, consolidate manufacturing facilities and improve efficiencies within the Company. The Company determined that it had redundant manufacturing capabilities in both North America and Europe and that it could lower costs and operate more efficiently by consolidating into fewer facilities. Eight facilities were identified for consolidation in the Flavors & Fragrances segment, four in North America and four in Europe. To date, closures have been announced in Indianapolis, Indiana, United States; Cornwall, Mississauga and Halton Hills, Canada; Bremen, Germany; and Milan, Italy. The Company also plans to sell its two European Natural Ingredients facilities, as discussed below. In addition, the Company discontinued one of the businesses in the Color segment, located near Leipzig, Germany, because it did not fit with the Company's long-term strategic plan and it had generated losses for several years. In 2015, the Company identified additional opportunities to consolidate manufacturing operations at one of the Color segment's facilities in Europe and eliminate additional positions in the European Flavors & Fragrances businesses.

Based on this Plan, the Company determined that certain long-lived assets associated with the underperforming operations were impaired. The Company reduced the carrying amounts of these assets to their aggregate respective fair values, which were determined based on independent market valuations. The fair values of the remaining long-lived assets are estimated to be approximately \$19 million, which includes certain of the land, buildings and equipment in the assets held for sale, as noted below. Also certain machinery and equipment has been identified to be disposed of at the time of the facility closures and the associated depreciation for these assets has been accelerated. The Company recorded long-lived asset impairments, including the impairment charges and accelerated depreciation of \$0.3 million and \$3.7 million, during the three months ended June 30, 2016 and 2015, respectively, and \$0.7 million and \$7.5 million during the six months ended June 30, 2016 and 2015, respectively. Since initiating the Plan, the Company has recorded \$85.5 million of long-lived asset impairments, including the impairment charges and accelerated depreciation. In addition, certain intangible assets, inventory and other current assets were also determined to be impaired and were written down.

The Company has also incurred employee separation and other restructuring costs as a result of this Plan. The Company anticipates that it will reduce headcount by approximately 400 positions at the affected facilities, primarily in the Flavors & Fragrances segment, related to direct and indirect labor at manufacturing sites. As of June 30, 2016, 272 positions had been eliminated as a result of this Plan.

As mentioned above, the Company plans to sell its European Natural Ingredients business, a business in the Flavors & Fragrances segment. This business has two facilities, located in Marchais, France and Elburg, the Netherlands. The European Natural Ingredients business has not generated significant profits for several years and it does not fit with the Company's long-term strategic plan. The Company is currently working to sell this business and anticipates selling the business within the next year. Upon the completion of a sale of this business, the Company anticipates recognizing an additional non-cash loss of approximately \$13 million.

Index

As of June 30, 2016, the Company has recorded assets held for sale of land, buildings and equipment of \$9.4 million related to the 2014 Restructuring Plan, and inventory, receivables and other assets of \$18.8 million related to the anticipated sale of the European Natural Ingredients business. The Company also has \$3.1 million of liabilities held for sale related to the anticipated sale of the European Natural Ingredients business.

The Company recorded total restructuring income of \$0.2 million (as a result of a pre-tax gain from discontinued operations in connection with liquidation of the Leipzig entity, as discussed below) for the three months ended June 30, 2016 and restructuring costs of \$9.7 million for the three months ended June 30, 2015, in accordance with GAAP and based on an internal review of the affected facilities and consultation with legal and other advisors, and restructuring costs of \$3.1 million and \$16.9 million for the six months ended June 30, 2016 and 2015, respectively. Since initiating the 2014 Restructuring Plan, the Company has incurred \$144.6 million of restructuring costs through June 30, 2016. NON-GAAP FINANCIAL MEASURES

Within the following tables, the Company reports certain non-GAAP financial measures, including: (1) adjusted operating income, adjusted net earnings and adjusted diluted EPS from continuing operations (which exclude restructuring and other costs) and (2) percentage changes in revenue, operating income, diluted EPS, adjusted operating income, and adjusted diluted EPS on a local currency basis (which eliminate the effects that result from translating its international operations into U.S. dollars) The other costs in 2016 are for the long-lived asset

impairment charge discussed under “Anticipated Divestiture” discussed above, and the other costs in 2015 are acquisition related costs.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

U.S. Equal Employment Opportunity Commission Civil Complaint

On September 21, 2015, the U.S. Equal Employment Opportunity Commission (EEOC) filed a civil complaint against Sensient Natural Ingredients LLC (SNI) in the U.S. District Court for the Eastern District of California. SNI is a wholly owned subsidiary of the Company. The EEOC's complaint alleges that SNI failed to comply with the Americans with Disabilities Act (ADA), as amended, when it terminated five employees in 2011. The EEOC seeks to enjoin SNI from engaging in employment practices that discriminate on the basis of disability; asks the Court to order SNI to implement policies, practices, and programs to ensure it does not violate the ADA; and requests back pay with prejudgment interest, reinstatement, front pay, compensation for past and future pecuniary and non-pecuniary losses, and punitive damages on behalf of the five named former employees and any similarly aggrieved individuals. Recoverable compensatory and punitive damages are subject to statutory caps. The complaint does not request a specific damages amount. To date, the EEOC has provided the Company with a list of 13 additional potentially aggrieved former employees not listed in the complaint who may have been terminated in violation of the ADA during the relevant time period. In its discovery responses, the EEOC has identified 3 of those 13 former employees as additional claimants for whom the Agency seeks relief. The Parties are currently engaged in the discovery process.

The Company is vigorously investigating the facts alleged in the complaint to determine what exposure SNI may have. Since 2013, SNI's on-site human resources representatives have worked closely with both Company counsel and outside labor and employment counsel to ensure that all policies, procedures and actions, including terminations, comply with applicable law. At this early stage, it is not possible to assess the probability of any legal or financial exposure.

Other Claims and Litigation

The Company is subject to various claims and litigation arising in the normal course of business. The Company establishes reserves for claims and proceedings when it is probable that liabilities exist and reasonable estimates of loss can be made. While it is not possible to predict the outcome of these matters, based on our assessment of the facts and circumstances now known, we do not believe that these matters, individually or in the aggregate, will have a material adverse effect on our financial position. However, actual outcomes may be different from those expected and could have a material effect on our results of operations or cash flows in a particular period.

SEC Inquiry

On October 22, 2015, the Company received an informal inquiry from the staff of the Securities and Exchange Commission's Division of Enforcement requesting the voluntary provision of documents and information generally related to the Company's disclosures of its restructuring activities, its treatment of long-lived assets, and its use of non-GAAP financial measures in its SEC filings and 2014 Annual Report to Shareholders. The Company is fully cooperating with the inquiry and is unable to predict the outcome of the inquiry or its potential impact.

ITEM 1A. RISK FACTORS

Except as otherwise described below, there were no material changes to the risk factors previously disclosed in Item 1A of the Company's Annual Report on Form 10-K for the year ended December 31, 2015.

On June 23, 2016, the United Kingdom (U.K.) held a referendum in which voters approved an exit from the European Union, commonly referred to as "Brexit". As a result of the referendum, it is expected that the British government will begin negotiating the terms of the U.K.'s future relationship with the European Union. Although it is unknown what the terms will be, it is possible that there will be greater restrictions on imports and exports between the U.K. and European Union countries, increased regulatory complexities, and economic uncertainties in the region. These

changes may adversely affect our operations and financial results.
