

Edgar Filing: IMA EXPLORATION INC - Form 6-K

IMA EXPLORATION INC
Form 6-K
January 21, 2003

SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, DC 20549

FORM 6-K

REPORT OF FOREIGN PRIVATE ISSUER
PURSUANT TO RULE 13a-16 OR 15d-16 UNDER
THE SECURITIES EXCHANGE ACT OF 1934

For the month of JANUARY , 2003 .

IMA EXPLORATION INC.

(Translation of registrant's name into English)

#709 - 837 West Hastings Street, Vancouver, British Columbia, V6C 3N6, Canada

(Address of principal executive offices)

Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F:

Form 20-F X Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1): _____

Note: Regulation S-T Rule 101(b)(1) only permits the submission in paper of a Form 6-K if submitted solely to provide an attached annual report to security holders.

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7): _____

Note: Regulation S-T Rule 101(b)(7) only permits the submission in paper of a Form 6-K if submitted to furnish a report or other document that the registrant foreign private issuer must furnish and make public under the laws of the jurisdiction in which the registrant is incorporated, domiciled or legally organized (the registrant's "home country"), or under the rules of the home country exchange on which the registrant's securities are traded, as long as the report or other document is not a press release, is not required to be and has not been distributed to the registrant's security holders, and, if discussing a material event, has already been the subject of a Form 6-K submission or other Commission filing on EDGAR.

Indicate by check mark whether by furnishing the information contained in this Form, the registrant is also thereby furnishing the information to the

Edgar Filing: IMA EXPLORATION INC - Form 6-K

Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes _____ No _____ X _____

If "Yes" is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3- 2(b): 82-_____

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf of the undersigned, thereunto duly authorized.

NEWS RELEASE

January 21, 2003

Drill Program Commences On Las Bayas Gold Property
In Patagonia, Argentina

IMA Exploration Inc. is pleased to announce that a 2,000 metre Phase I diamond drilling program has begun on the Company's 100% owned Las Bayas property in Patagonia, Argentina. The approximately 20 hole diamond drill program will target four gold bearing low-sulphidation epithermal gold veins that have a combined strike length of over 4 kilometres, with widths up to 22 metres and gold equivalent grades up to 27 grams per tonne (see January 13, 2003, new release). The target veins occur within a 4.5 x 1.5 kilometre area of intense quartz veining where over 15 kilometres of veins have been mapped to date. The surface signatures of the target veins are similar to the geological model of the recently discovered Esquel gold deposit (3.8 million ounces of gold, 6.9 million ounces of silver).

Drill targets during the Phase I program include the Bola vein, 600m in 7 holes, the Voladura Vein, 440m in 4 holes, the Puesto Vein, 350m in 4 holes, and the

Edgar Filing: IMA EXPLORATION INC - Form 6-K

Laguna Veins, 550m in 4 holes (see attached drill plan). At each of these targets, IMA plans to test the vein structure at depths of 50 to 150 metres, where IMA's geologists interpret that the "boiling" or gold-enriched zone should be present. This interpretation fits the well documented geological model for a low-sulphidation epithermal gold vein system, such as Esquel.

The Company is encouraged with the surface results announced to date and feels that its geological and geochemical compilation and interpretation demonstrates compelling evidence for the discovery potential of an economic gold deposit at Las Bayas.

IMA's geological team conducting the drill program has an intimate knowledge of the local geology. The exploration team on Las Bayas includes: Paul Lhotka, Ph.D., P.Geo., who has extensive experience in low sulphidation epithermal gold vein systems; Sergio Kain, B.Sc., who was a member of Brancote PLC's geological team that was credited with the Esquel discovery; and Daniel Bussandri, B.Sc., a local Argentine geologist with substantial experience in the Patagonia region. The drill program will be overseen by Keith Patterson, M.Sc., IMA's Exploration Manager.

IMA is a pioneer and veteran of Argentina's mining exploration industry and is well positioned to take advantage of highly prospective gold projects as they become available. The Company's network of contacts has been developed over the past 10 years, enabling IMA to quickly identify new opportunities and negotiate advantageous terms, especially since the recent devaluation of the Argentine peso.

ON BEHALF OF THE BOARD

/s/ Gerald G. Carlson

Dr. Gerald G. Carlson, P.Geo., Chairman
