### INTERNATIONAL MICROCOMPUTER SOFTWARE, INC. AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

### 1. Basis of Presentation

The interim condensed consolidated financial statements have been prepared from the records of International Microcomputer Software, Inc. and Subsidiaries ("IMSI") without audit. All significant inter-company balances and transactions have been eliminated in consolidation. In the opinion of management, all adjustments, which consist of only normal recurring adjustments, to present fairly the financial position at September 30, 2004 and the results of operations and cash flows for the three months ended September 30, 2004 and 2003, have been made. The interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto contained in our Annual Report on Form 10-KSB as amended for the fiscal year ended June 30, 2004. The results of operations for the three months ended September 30, 2004 are not necessarily indicative of the results to be expected for any other interim period or for the full year.

### 2. Use of Estimates

Our consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States (GAAP). These accounting principles require us to make certain estimates, judgments and assumptions. We believe that the estimates, judgments and assumptions upon which we rely are reasonable based upon information available to us at the time that these estimates, judgments and assumptions are made. These estimates, judgments and assumptions can affect the reported amounts of assets and liabilities as of the date of the financial statements as well as the reported amounts of revenues and expenses during the periods presented. Our financial statements would be affected to the extent there are material differences between these estimates and actual results. In many cases, the accounting treatment of a particular transaction is specifically dictated by GAAP and does not require management s judgment in its application. There are also areas in which management s judgment in selecting any available alternative would not produce a materially different result.

### 3. Discontinued Operations

As previously disclosed in our annual report on Form 10-KSB for the fiscal year ended June 30, 2004, we sold the assets and customer related liabilities of our wholly owned subsidiary Keynomics, Inc. in July 2004. The acquiring entity (Keynomics, L.L.C.) will continue to provide ergonomic and keyboard training using the KeySoft Performance System for worker-related safety, productivity, and ergonomic compliance improvements. As part of the consideration, which consisted mainly of cash, with the potential for additional cash consideration based on the achievement of certain revenue targets, we acquired a ten percent (10%) ownership interest in Keynomics, L.L.C. Under GAAP, Keynomics operating results for the period ended September 30, 2004, have been accounted for as discontinued operations.

We recorded, during the quarter ended September 30, 2004, a gain of \$53,000 from the sale of Keynomics representing the excess of the total consideration received over its net carrying value.

In the fourth quarter of fiscal 2004, we evaluated the Keynomics business segment and its long term prospects. As a result of that analysis and given our focus on direct marketing and the on-line distribution of precision design content, we determined that Keynomics no longer represented a strategic fit for our company and began the process of divesting it. That process concluded with the sale of the segment in July 2004.

### Edgar Filing: INTERNATIONAL MICROCOMPUTER SOFTWARE INC /CA/ - Form 424B3

The amounts reported for the first quarter of fiscal 2005 and 2004 as discontinued operations represent the pre-tax results of operations for Keynomics. This segment had pre-tax net losses of \$5,000 and \$81,000 for the first quarter of fiscal 2005 and 2004 respectively. These losses were derived from net revenues of \$68,000 and \$159,000 for the first quarter of fiscal 2005 and 2004 respectively.

### 4. <u>Reclassifications</u>

Effective for the quarter ended December 31, 2003, we revised our accounting treatment with regard to fees paid to our third party E-commerce solution provider, whereby we now record them as sales and marketing expenses as compared to our prior treatment of them as an offset to revenue. In order to conform our prior year s results to this revised presentation for the three months ended September 30, 2003, we have increased revenues and sales and marketing expense by \$49,000.

### 5. Acquisitions

The table below details the consideration paid for acquisitions completed in the first quarter of fiscal 2005 and the allocation of that consideration to the tangible and intangible assets acquired.
