Report of Independent Registered Public Accounting Firm

TO THE BOARD OF DIRECTORS OF EYSTON COMPANY LIMITED :

We have audited the accompanying consolidated balance sheets of EYSTON COMPANY

Edgar Filing: UNIVERSAL SECURITY INSTRUMENTS INC - Form 10-K/A

LIMITED and subsidiaries ("the Company"), as of March 31, 2006 and 2005, and the related consolidated statements of income, changes in equity, and cash flows for each of the two years in the period ended March 31, 2006. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Company as of March 31, 2006 and 2005, and the consolidated results of its income and its cash flows for each of the two years in the period ended March 31, 2006, in conformity with accounting principles generally accepted in Hong Kong.

Eyston Company Limited

Notes to the financial statements
for the year ended 31 March 2006

1. GENERAL INFORMATION

The company is a limited liability company incorporated and domiciled in Hong Kong. The address of the company's registered office and principal place of business is B2, 3/F., Fortune Factory Building, 40 Lee Chung Street, Chai Wan, Hong Kong.

The financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRS") as issued by the Hong Kong Institute of Certified Public Accountants and the Hong Kong Companies Ordinance.

The financial statements for the year ended 31 March 2006 were approved by the board of directors on 23 June 2006.

Edgar Filing: UNIVERSAL SECURITY INSTRUMENTS INC - Form 10-K/A

2. ADOPTION OF NEW OR REVISED HKFRS

From 1 April 2005, the group has adopted, for the first time, the new or revised standards and interpretations of HKFRS, which are relevant to its operations. This includes the following new, revised and renamed standards:

HKAS 1 Presentation of Financial Statements
HKAS 2 Inventories
HKAS 7 Cash Flow Statements
HKAS 8 Accounting Policies, Changes in Accounting Estimates and Errors
HKAS 10 Events after the Balance Sheet Date
HKAS 12 Income Taxes
HKAS 16 Property, Plant and Equipment
HKAS 17 Leases
HKAS 18 Revenue
HKAS 19 Employee Benefits
HKAS 21 The Effects of Changes in Foreign Exchange Rates
HKAS 24 Related Party Disclosures
HKAS 27 Consolidated and Separate Financial Statements
HKAS 32 Financial Instruments : Disclosure and Presentation
HKAS 36 Impairment of Assets
HKAS 37 Provisions, Contingent Liabilities and Contingent Assets
HKAS 39 Financial Instruments : Recognition and Measurement
HK(SIC)-Int 15 Operating leases - Incentives

JV-7

Eyston Company Limited

2. ADOPTION OF NEW OR REVISED HKFRS (Continued)

All the standards have been applied retrospectively except where specific transitional provisions require a different treatment and accordingly the 2005 financial statements and their presentation have been amended in accordance with HKAS 8. Due to the change in accounting policies, the 2005 comparatives contained in these financial statements differ from those published in the financial statements for the year ended 31 March 2005.

Significant effects on current, prior or future periods arising from the first-time application of the standards listed above in respect to presentation, recognition and measurement of accounts are described in the following notes :

2.1 Adoption of HKAS 17

The adoption of HKAS 17 has resulted in a change in the accounting policy relating to the reclassification of leasehold land and land use rights from property, plant and equipment to operating leases. The up-front prepayments made for the leasehold land and land use rights are charged to the income statement on a straight-line basis over the period of the lease. In prior years, leasehold land and buildings were not separated. Leasehold land and buildings and land use rights were classified under property, plant and equipment and carried at cost less accumulated depreciation and accumulated impairment losses. The reclassification does not give rise to any adjustment to prior year's profit.

2.2 Adoption of HKAS 32 and HKAS 39

Prior to the adoption of HKAS 39, investments of the group were classified into unlisted equity securities and listed debt securities, which were stated in the balance sheet at cost less any impairment losses and at fair value, respectively. Any impairment losses on unlisted equity securities and changes in fair value of listed debt securities were recognised in the income statement in the period in which they arose.

On the adoption of HKAS 39, the listed debt securities as at 31 March 2005 were redesignated into available-for-sale financial assets on 1 April 2005. After initial recognition, available-for-sale financial assets are measured at fair value with gains or losses being recognised as a separate component of equity until the investment is sold, collected or otherwise disposed of or until the investment is determined to be impaired at which time the aggregate gain or loss previously reported in equity is included in the income statement.

JV-8

Eyston Company Limited

2. ADOPTION OF NEW OR REVISED HKFRS (Continued)

2.2 Adoption of HKAS 32 and HKAS 39 (Continued)

In accordance with the transitional provisions of HKAS 39, the recognition, derecognition and measurement of financial assets and liabilities on a retrospective basis is not permitted. Accordingly, an adjustment has been made to restate the aggregate changes in fair value of the group's listed debt securities of HK\$251,023 from retained profits to fair value reserve at 1 April 2005.

According to the relevant transitional provisions of HKAS 39, the group's bills discounted with full recourse, which were derecognised and treated as contingent liabilities (note 29) until 31 March 2005, have been accounted for as collateralised bank advances (note 23) and bills receivable (note 17) prospectively on or after 1 April 2005 as the financial assets derecognition conditions as stipulated in HKAS 39 have not been fulfilled.

2.3 Other standards adopted

All other standards did not result in significant changes to the group's accounting policies. The specific transitional provisions contained in some of these standards were considered. The adoption of these standards and interpretations did not result in any significant changes to the amounts or disclosures in these financial statements.

JV-9

Eyston Company Limited

2. ADOPTION OF NEW OR REVISED HKFRS (Continued)

2.4 New standards or interpretations that have been issued but are not

yet effective.

The group has not early adopted the following standards or interpretations that have been issued but are not yet effective. The directors of the company anticipate that the adoption of such standards and interpretations will not result in substantial changes to the group's accounting policies.

HKAS 1 (Amendment)	Capital Disclosures (1)
HKAS 19 (Amendment)	Employee Benefits - Actuarial Gains and Losses, Group Plans and Disclosures (2)
HKAS 21 (Amendment)	The Effects of Changes in Foreign Exchange Rates - Net Investment in a Foreign Operation(2)
HKAS 39 (Amendment)	Cash Flow Hedge Accounting of Forecast Intragroup Transactions (2)
HKAS 39 (Amendment)	The Fair Value Options (2)
HKAS 39 & HKFRS 4 (Amendment)	Financial Instruments : Recognition and Measurement and Insurance Contracts - Financial Guarantee Contracts (2)
HKFRS 1& HKFRS 6 (Amendments)	First-time Adoption of Hong Kong Financial Reporting Standards and Exploration for and Evaluation of Mineral Resources (2)
HKFRS 6	Exploration for and Evaluation of Mineral Resources (2)

- (5) Effective for annual periods beginning on or after 1 June 2006

JV-10

Eyston Company Limited

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1 Basis of preparation

The significant accounting policies that have been used in the preparation of these financial statements are summarised below.

The financial statements have been prepared on the historical cost basis except for the revaluation of certain financial assets and liabilities. The measurement bases are fully described in the accounting policies below.

Edgar Filing: UNIVERSAL SECURITY INSTRUMENTS INC - Form 10-K/A

It should be noted that accounting estimates and assumptions are used in preparation of the financial statements. Although these estimates are based on management's best knowledge of current events and actions, actual results may ultimately differ from those estimates.

3.2 Basis of consolidation

The consolidated financial statements incorporate the financial statements of the company and its subsidiaries made up to 31 March each year.

3.3 Subsidiaries

Subsidiaries are those entities in which the company controls more than half of the voting power, or holds more than half of the issued share capital, or controls the composition of the board of directors. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are de-consolidated from date that control ceases.

Inter-company transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

In the company's balance sheet, subsidiaries are carried at cost less any impairment loss. The results of the subsidiaries are accounted for by the company on the basis of dividends received and receivable at the balance sheet date.

JV-11

Eyston Company Limited

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.4 Property, plant and equipment

Property, plant and equipment are stated at acquisition cost less accumulated depreciation and impairment losses.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the period in which they are incurred.

Depreciation is provided to write off the cost of property, plant and equipment less their residual values over their estimated useful lives, using the straight line method, at the following rates per annum :

Buildings	5% or where shorter over 16 - 19 years
Leasehold improvements	20%
Plant and machinery	10%
Furniture and fixtures	20%

Edgar Filing: UNIVERSAL SECURITY INSTRUMENTS INC - Form 10-K/A

Motor vehicles	20%
Computer equipment and software	50%

Construction in progress represents costs incurred in the construction of buildings. These costs are not depreciated until such time as the relevant assets are completed and put into use, at which time the relevant costs are transferred to the appropriate category of property, plant and equipment.

The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

The gain or loss arising on the disposal is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the income statement.

JV-12

Eyston Company Limited

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.5 Inventories

Inventories are stated at the lower of cost and net realisable value. Cost comprises direct materials computed using first-in, first-out method and, where applicable, direct labour and those overheads that have been incurred in bringing the inventories to their present location and condition. Net realisable value is calculated as the actual or estimated selling price less all further costs of completion and estimated costs necessary to make the sale.

3.6 Financial assets

The financial assets include available-for-sale financial assets, trade and other receivables, bills receivable, and amounts due from group companies.

In previous years, the group classified its investments in debt securities as other investments. Other investments which were held for non-trading purpose were stated at fair value at the balance sheet date. Changes in fair value of other investments were recognised in the income statement as they arose. Gains or losses on disposal of other investments, representing the difference between the net sales proceeds and the carrying amounts, were recognised in the income statement as they arose.

From 1 April 2005 onwards, the group classifies its financial assets into loans and receivables and available-for-sale financial assets. Management determines the classification of its financial assets at initial recognition depending on the purpose for which the financial assets were acquired and where allowed and appropriate, re-evaluates this designation at every reporting date.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest

method less any impairment. Any changes in their value are recognised in income statement.

JV-13

Eyston Company Limited

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.6 Financial assets (Continued)

Loans and receivables (Continued)

Loans and receivables are provided against when objective evidence is received that the group will not be able to collect all amounts due to it in accordance with the original terms of the receivables. The amount of the impairment is the difference between the asset's carrying amount and the present value of expected cash flows, discounted at the effective interest rate.

Available-for-sale financial assets

Available-for-sale financial assets include non-derivative financial assets that are either designated to this category or do not qualify for inclusion in any of the other categories of financial assets. All financial assets within this category are subsequently measured at fair value, with changes in value recognised in equity (i.e. fair value reserve). Upon disposal, the cumulative gain or loss previously recognised in equity is transferred to the income statement. When a decline in the fair value of an available-for-sale financial asset has been recognised directly in equity and there is objective evidence that the asset is impaired, the cumulative loss that had been recognised directly in equity is removed from equity and recognised in the income statement even though the financial asset has not been derecognised. Impairment losses previously recognised in the income statement on equity instruments will not reverse in subsequent periods. Impairment losses previously recognised in income statement are subsequently reversed if an increase in the fair value of the investment can be objectively related to an event occurring after the recognition of the impairment loss.

Derecognition of financial assets occurs when the rights to receive cash flows from the investments expire or are transferred and substantially all of the risks and rewards of ownership have been transferred. An assessment for impairment is undertaken at least at each balance sheet date whether or not there is objective evidence that a financial asset or a group of financial assets is impaired.

3.7 Cash and cash equivalents

Cash and cash equivalents include cash at bank and in hand.

JV-14

Eyston Company Limited

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.8 Impairment of assets

Property, plant and equipment are subject to impairment testing.

For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). As a result, some assets are tested individually for impairment and some are tested at cash-generating unit level.

All individual assets or cash-generating units are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

An impairment loss is recognised for the amount by which the asset's or cash-generating unit's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of fair value, reflecting market conditions less costs to sell and value in use, based on an internal discounted cash flow evaluation. Any impairment loss is charged pro rata to the assets in the cash generating unit.

An impairment loss is reversed if there has been a change in the estimates used to determine the asset's recoverable amount and only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment had been recognised.

3.9 Financial liabilities

The financial liabilities include trade and other payables, amounts due to group and related companies and borrowings.

Financial liabilities are recognised when the group or the company becomes a party to the contractual agreements of the instrument. All interest related charges are recognised as an expense in the income statement.

Trade and other payables and amounts due to group and related companies are recognised initially at their fair value and subsequently measured at amortised cost, using the effective interest method.

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the income statement over the period of the borrowings using the effective interest method.

JV-15

Eyston Company Limited

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.10 Employee benefits

Retirement benefits costs

Edgar Filing: UNIVERSAL SECURITY INSTRUMENTS INC - Form 10-K/A

The company operates a defined contribution Mandatory Provident Fund retirement benefits scheme (the "MPF Scheme") under the Mandatory Provident Fund Schemes Ordinance, for all of its employees in Hong Kong. The MPF Scheme became effective on 1 December 2000. Contributions are made based on a percentage of the employees' basic salaries, limited to a maximum of HK\$1,000 per month, and are charged to the income statement as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the company in an independently administered fund. The company's employer contributions vest fully with the employees when contributed into the MPF Scheme.

3.11 Equity

Ordinary shares are classified as equity. Share capital is determined using the nominal value of shares that have been issued.

The transaction costs of an equity transaction are accounted for as a deduction from equity (net of any related income tax benefits) to the extent they are incremental cost directly attributable to the equity transaction that otherwise would have been avoided. The cost of an equity transaction that is abandoned are recognised as an expense.

3.12 Foreign currencies

The financial statements are presented in Hong Kong Dollars (HK\$), which is also the functional currency of the company.

In the separate financial statements of the consolidated entities, foreign currency transactions are translated into the functional currency of the individual entity using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year-end exchange rates are recognised in the income statement. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

JV-16

Eyston Company Limited

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.12 Foreign currencies (Continued)

In the consolidated financial statements, all separate financial statements of subsidiaries, originally presented in a currency different from the group's presentation currency, have been converted into Hong Kong dollars. Assets and liabilities have been translated into Hong Kong dollars at the closing rate at the balance sheet date. Income and expenses have been converted into Hong Kong dollars at the average rates over the reporting period. Any differences arising from this procedure have been dealt with in the exchange reserve in equity.

3.13 Accounting for income taxes

Income tax comprises current tax and deferred tax.

Current income tax assets and/or liabilities comprise those obligations to, or claims from, tax authorities relating to the current or prior reporting period, that are unpaid at the balance sheet date. They are calculated according to the tax rates and tax laws applicable to the periods to which they relate, based on the taxable profit for the year. All changes to current tax assets or liabilities are recognised as a component of income tax expense in the income statement.

Deferred tax is calculated using the liability method on temporary differences at the balance sheet date between the carrying amounts of assets and liabilities in the financial statements with their respective tax bases. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are recognised for all deductible temporary differences, tax losses available to be carried forward as well as other unused tax credits, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, unused tax losses and unused tax credits can be utilised.

Deferred tax is calculated, without discounting, at tax rates that are expected to apply in the period the liability is settled or the asset realised, provided they are enacted or substantively enacted at the balance sheet date.

Changes in deferred tax assets or liabilities are recognised in the income statement, or in equity if they relate to items that are charged or credited directly to equity.

JV-17

Eyston Company Limited

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.14 Leases

Leases where substantially all the risks and rewards of ownership of assets remain with the lessor are accounted for as operating leases. Operating lease payments are recognised as an expense on a straight-line basis. Affiliated costs, such as maintenance and insurance, are expensed as incurred. Contingent rentals are charged to the income statement in the accounting period in which they are incurred.

3.15 Recognition of revenue

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have been transferred to customers.

Rental income from properties letting under operating leases is recognised on the straight line basis over the lease terms.

Interest income is recognised on a time proportion basis.

3.16 Related parties

Parties are considered to be related to the group if :

- (i) directly, or indirectly through one or more intermediaries, the party : -controls, is controlled by, or is under common control with, the group; -has an interest in the group that gives it significant influence over the group; -has joint control over the group;
- (ii) the party is a jointly-controlled entity;
- (iii) the party is an associate;
- (iv) the party is a member of the key management personnel of the group or its parent;
- (v) the party is a close member of the family of any individual referred to in (i) or (iv);

JV-18

Eyston Company Limited

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.16 Related parties (Continued)

- (vi) the party is an entity that is controlled, jointly-controlled or significantly influenced by or for which significant voting power in such entity resides with, directly or indirectly, any individual referred to in (iv) or (v); or
- (vii) the party is a post-employment benefit plan for the benefit of employees of the group, or of any entity that is a related party of the group.

3.17 Contingent liabilities

A contingent liability is a possible obligation that arises from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the group. It can also be a present obligation arising from past events that is not recognised because it is not probable that outflow of economic resources will be required or the amount of obligation cannot be measured reliably.

A contingent liability is not recognised but is disclosed in the notes to the financial statements. When a change in the probability of an outflow occurs so that the outflow is probable, it will then be recognised as a provision.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed

below :

JV-19

Eyston Company Limited

Depreciation and amortisation

The group and company depreciated the property, plant and equipment on a straight-line basis over the estimated useful lives, starting from the date on which the assets are placed into productive use. The estimated useful lives reflect the directors' estimate of the periods that the group intends to derive future economic benefits from the use of the group's and company's property, plant and equipment.

JV-20

Eyston Company Limited

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (Continued)

Impairment of receivables

The policy for the impairment of receivables of the group is based on the evaluation of collectibility and ageing analysis of accounts and on the management's judgement. A considerable amount of judgement is required in assessing the ultimate realisation of these receivables, including the current creditworthiness and the past collection history of each debtor.

Net realisable value of inventories

Net realisable value of inventories is the actual or estimated selling price in the ordinary course of business, less further costs of completion and the estimated costs necessary to make the sale. These estimates are based on the current market condition and the historical experience of selling products of similar nature. It could change significantly as a result of competitor actions in response to the changes in market condition. Management reassess these estimations at the balance sheet date.

Current taxation and deferred taxation

The group is subject to income taxes in Hong Kong and the People's Republic of China ("PRC"). Significant judgement is required in determining the amount of the provision of taxation and the timing of payment of the related taxations. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

5. TURNOVER

Revenue, which is also the group's turnover, represents total invoiced value of goods supplied, less discounts and returns.

Eyston Company Limited

24. DEFERRED TAXATION

At 31 March 2006, the major deferred tax liabilities recognised in the balance sheets and the movements during the current and prior years :

Group and Company

	Accelerated tax depreciation	HK\$
Balance at 1 April 2004	75,000	
Charge to income statement	118,000	

Balance at 31 March 2005 and 1 April 2005	193,000	
Charge to income statement (Note 9)	62,000	
	255,000	

Balance at 31 March 2006		

	2006	2005
	HK\$	HK\$
Deferred tax liabilities recognised in the balance sheets of the group and company	255,000	193,000

At the balance sheet date, the major component of the deferred tax assets has not been recognised is the temporary difference in respect of the pre-operating expenses incurred by Fujian Taisun, the PRC subsidiary of the company, of approximately HK\$1,524,303 (2005 : HK\$1,074,000) as it is not certain that future taxable profits will be available against which this deductible temporary difference can be utilised.

25. SHARE CAPITAL

	2006	2005
	HK\$	HK\$

Edgar Filing: UNIVERSAL SECURITY INSTRUMENTS INC - Form 10-K/A

Profit for the year	39,334,216	-	39,334,216

	6,634,491	9,011,097	122,317,808	94,331
	-----	-----	-----	-----

29. CONTINGENT LIABILITIES

The current and prior years' tax provisions have been prepared on the basis that the management fees and bonuses are deductible in the determination of the assessable profits of the company and the company is entitled to the offshore claims. During the year ended 31 March 2006, the company received enquiries from the Hong Kong Inland Revenue Department regarding these deductions and offshore claims. The directors have assessed the circumstances as at the date of approval of these financial statements, no additional tax provision being suggested since the outcome is uncertain. The total contingent tax exposures to the group and company in respect of the deductions and offshore claims are estimated to be approximately HK\$2.8 million and HK\$8.3 million, respectively.

At 31 March 2005, the group has a contingent liability of HK\$3,906,240 in respect of the bills discounted with recourse.

Save as disclosed above, the group and company have no contingent liabilities at 31 March 2006.

JV-37

Eyston Company Limited

33. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The group's major financial assets and liabilities include bank balances and cash, available-for-sale financial assets, trade receivables and payables. Details of these financial instruments are disclosed in respective notes. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

(a) Interest rate risk

The group does not have any significant exposure to interest rate risk as the group currently has no financial assets and liabilities with floating interest rates.

Edgar Filing: UNIVERSAL SECURITY INSTRUMENTS INC - Form 10-K/A

(b) Foreign currency risk

The group's exposure to risk resulting from changes in foreign currency exchange rates is minimal.

(c) Credit risks

The company's bank balances are all deposited with major banks in Hong Kong and the PRC.

The carrying amount of trade and other receivables represent the group's maximum exposure to credit risk in relation to its financial assets. No other financial assets carry a significant exposure to credit risk. The group has no significant concentration of credit risk.

(d) Fair values

The fair values of the group's current financial assets and liabilities are not materially different from their carrying amounts because of the immediate or short term maturity of these financial instruments.
