

Pharma-Bio Serv, Inc.
Form 424B3
September 12, 2007

PROSPECTUS
20,972,450 Shares
PHARMA-BIO SERV, INC.
Common Stock
OTC Bulletin Board Trading Symbol: PBSV

The selling stockholders may offer and sell from time to time up to an aggregate of 20,972,450 shares of our common stock that they own or that they may acquire from us upon exercise of warrants. For information concerning the selling stockholders and the manner in which they may offer and sell shares of our common stock, see "Selling Stockholders" and "Plan of Distribution" in this prospectus.

We will not receive any proceeds from the sale by the selling stockholders of their shares of common stock other than the exercise price of the warrants if and when the warrants are exercised. We will pay the cost of the preparation of this prospectus, which is estimated at \$40,000.

On September 5, 2007, the last reported sale price for our common stock on the OTC Bulletin Board was \$0.56 per share.

Investing in shares of our common stock involves a high degree of risk. You should purchase our common stock only if you can afford to lose your entire investment. See "Risk Factors," which begins on page 6.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined whether this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The selling stockholders have not engaged any underwriter in connection with the sale of their shares of common stock. The selling stockholders may sell their shares of common stock in the public market based on the market price at the time of sale or at negotiated prices. The selling stockholders may also sell their shares in transaction that are not in the public market in the manner set forth under "Plan of Distribution."

The date of this Prospectus is September 11, 2007.

You should rely only on the information contained in this prospectus. We have not authorized any dealer, salesperson or other person to provide you with information concerning us, except for the information contained in this prospectus. The information contained in this prospectus is complete and accurate only as of the date on the front cover page of this prospectus, regardless when the time of delivery of this prospectus or the sale of any common stock. This prospectus is not an offer to sell these securities and we are not soliciting an offer to buy these securities in any state where the offer or sale is not permitted.

PROSPECTUS SUMMARY

This summary does not contain all of the information that is important to you. You should read the entire prospectus, including the Risk Factors and our consolidated financial statements and related notes appearing elsewhere in this prospectus before making an investment decision.

Our Business

We are a Puerto Rico based company established by Elizabeth Plaza as a sole proprietorship in 1993 and incorporated in 1997 to offer consulting services to the pharmaceutical industry. We have successfully grown our business operation by providing quality, value-added consulting services to the major pharmaceutical, biotechnology, medical device and chemical manufacturing companies principally in Puerto Rico.

Our mission is to provide high quality services to the pharmaceutical and related industries to maintain or improve their quality standards and competitive value. We assist our clients in complying with government regulations by offering a full range of consulting services in the areas relating to compliance with the regulations of the Food and Drug Administration (the "FDA") and matters relating to the introduction of new pharmaceutical products, project management, technology transfers, training services and computer systems. We provide validation, regulatory compliance and value-added consulting services as problem solving solutions to our customers in the pharmaceutical, chemical (bulk manufacturing), biotechnology and medical devices industries in Puerto Rico.

Our engineering and life science professionals include former quality assurance managers or directors from pharmaceutical companies, and experienced and well-trained professionals with bachelors, masters and doctorate degrees in health sciences and engineering. Our objective is to offer a flexible, common sense and cost effective approach to meet our clients' needs, strategies and budget objectives.

Prior to the acquisition of Plaza, Lawrence offered consulting and business advisory services to companies to help them provide business solutions for interacting with their customers. In this connection, Lawrence worked with companies to develop business and information technology strategies, technology solutions and integrated marketing programs. We are no longer engaged in this business and we have no continuing obligations under any contracts to which Lawrence is a party.

Organization; Reverse Acquisition

Plaza Consulting Group, Inc. ("Plaza") is a Puerto Rico corporation incorporated in 1997. Pharm-Bio Serv, Inc. is a Delaware corporation, organized in 2004 under the name Lawrence Consulting Group, Inc. The corporate name was changed to Pharma-Bio Serv, Inc. in February 2006. Our executive offices are located at Industrial Zone, Street No. 1, Lot No. 14, Higuillar Ward, Dorado, Puerto Rico 00646, (787) 278-2709. Our website is www.pharmaservpr.com. Information on our website or any other website is not part of this annual report.

On January 25, 2006, pursuant to an agreement and plan of merger among Lawrence, Plaza Acquisition Corp., Plaza, and Elizabeth Plaza, the sole stockholder of Plaza, Plaza Acquisition Corp. was merged into Plaza, with the result that Plaza became our wholly-owned subsidiary and our sole business became the business of Plaza. The acquisition of Plaza was accounted for as a reverse acquisition, with Plaza being the accounting acquiring party. The accounting rules for reverse acquisitions require that beginning with the date of the merger, January 25, 2006, our balance sheet includes the assets and liabilities of Plaza and our equity accounts were recapitalized to reflect the net equity of Pharma-Bio. In addition, our historical operating results will be the operating results of Plaza. This transaction is referred to in this annual report as the reverse acquisition. See "Item 12. Certain Relationships and Related Transactions".

References to “we,” “us,” “our” and similar words refer to Pharma-Bio Serv, commencing with the acquisition of Plaza and the consummation of the private placement which occurred contemporaneously with the acquisition, and, with respect to historical information, these terms refer solely to Plaza.

Stock Distribution

On January 24, 2006, Pharma-Bio Serv effected a share distribution with respect to our common stock pursuant to which we issued one additional share of common stock for each share of common stock outstanding on the record date, January 24, 2006. All share and per share information in this prospectus retroactively reflects such stock distribution.

Sale of Securities to the Selling Stockholders

On January 25, 2006, contemporaneously with the consummation of the acquisition of Plaza, we sold, in a private placement, 47 units, each unit consisting of 25,000 shares of series A preferred stock, warrants to purchase 85,100 shares of common stock at \$1.10 per share and warrants to purchase 85,100 shares of common stock at \$1.65 per share. In the private placement, we issued an aggregate of 1,175,000 shares of series A preferred stock, warrants to purchase 3,999,700 shares of common stock at \$1.10 per share, and warrants to purchase 3,999,700 shares of common stock at \$1.65 per share, to 42 accredited investors. The warrants issued to the investors in the private placement are sometimes referred to as the “investor warrants”

We paid brokerage commissions of 10% of the gross purchase price and an aggregate non-accountable expense allowance of 3% of the gross purchase price with respect to the units sold. In certain cases, the broker waived the commission and non-accountable expense allowance, and the investor paid the purchase price less the commission and non-accountable expense allowance. The purchase price for the 47 units sold was \$11,750,000. Broker-dealers waived commission and non-accountable expense allowance with respect to \$628,750, we paid commissions and non-accountable expense allowances totaling \$898,750, and we issued to the brokers in the private placement warrants to purchase an aggregate of 1,439,892 shares of common stock. These warrants, which constitute compensation to the brokers, have an exercise price of \$.7344 per share and a term of three years.

The certificate of designation setting forth the rights of the holders of the series A preferred stock provides that at such time as our certificate of incorporation is amended to increase the authorized capital stock to 10,000,000 of preferred stock and 50,000,000 shares of common stock, the series A preferred stock is automatically converted into common stock at the conversion ratio of 13.616 shares of common stock for each share of series A preferred stock. The warrants provide that they become exercisable upon the filing of such an amendment to our certificate of incorporation. On April 25, 2006, we amended and restated our certificate of incorporation to increase our authorized capital stock to 10,000,000 shares of preferred stock and 50,000,000 shares of common stock, at which time all of the outstanding shares of series A preferred stock were automatically converted into a total of 15,998,800 shares of common stock and the warrants became exercisable. The subscription agreement pursuant to which the series A preferred stock and warrants were issued required us to file a registration statement within 60 days after the effective date of the merger between Plaza and Plaza Acquisition Corp., which was January 25, 2006, which was March 26, 2006. If we failed to file the registration statement by that date, we were required to issue .0003 shares of common stock for each share of common stock issued upon conversion of the series A preferred stock for each day we are late. Since we were three days late, we issued 14,401 shares of common stock to the former holders of the series A preferred stock.

The warrants issued in the private placement expire five years from the closing date and are callable by us if the closing price of the common stock is at least twice the exercise price of the warrants for twenty (20) consecutive trading days.

THE OFFERING

Common Stock Offered:	The selling stockholders are offering a total of 20,972,450 shares of common stock, of which 12,973,050 shares are outstanding and 7,999,400 shares are issuable upon exercise of warrants
Outstanding Shares of Common Stock:	19,615,539 shares ^{1,2}
Common Stock to be Outstanding After Exercise of Investor Warrants:	27,614,939 shares ¹
Use of Proceeds:	We will receive no proceeds from the sale of any shares by the selling stockholders. In the event that any selling stockholders exercise their warrants, we would receive the exercise price. If all warrants are exercised, we would receive approximately \$11.0 million, all of which, if and when received, would be used for working capital and other corporate purposes.

-
- (1) Does not include a total of 8,056,392 shares of common stock, of which 2,500,000 shares are reserved for options, stock grants or other equity-based incentives under our 2005 long-term incentive plan, 5,539,892 shares are reserved for outstanding warrants other than the warrants held by the selling stockholders, and 16,500 shares are reserved for issuance as stock grants to employees.
- (2) Does not include the 7,999,400 shares of common stock issuable upon exercise of warrants held by the selling stockholders.

SUMMARY FINANCIAL INFORMATION

(in thousands, except per share amounts)

The following information as at October 31, 2006 and for the years ended October 31, 2006 and 2005 has been derived from our audited financial statements, which appear elsewhere in this prospectus. The following information as at April 30, 2007 and for the six months ended April 30, 2007 and 2006 has been derived from our unaudited financial statements, which appear elsewhere in this prospectus.

Statement of Operations Information:

	Consolidated		Plaza-Only	
	Six Months Ended April 30,		Year Ended October 31,	
	2007	2006	2006	2005
Revenue	\$ 7,799	\$ 7,209	\$ 14,230	\$ 17,413
Gross profit	3,269	2,943	6,114	8,012
Income before income taxes	1,489	1,789	3,495	6,390
Net income ¹	\$ 847	\$ 1,369	\$ 2,335	\$ 6,390
Basic earnings per common share	\$.04	\$ 0.53	\$ 0.22	\$ 3.65
Diluted earnings per common share	\$.04	\$ 0.10	\$ 0.13	\$ 1.58

- (1) Plaza was treated as an N Corporation under the Puerto Rico Internal Revenue Code, which is similar to an S Corporation under the United States Internal Revenue Code, prior to the reverse acquisition. As a result, Plaza did not pay any income tax through January 25, 2006. Since January 25, 2006, the Company has been subject to income tax in Puerto Rico. If Plaza had not been treated as an N Corporation, our income before income taxes would have been taxed at statutory rates ranging from 39% to 41.5%. If income taxes were paid at the statutory rates, our net income would have been \$1,011, or \$0.39 per share (basic) and \$0.07 per share (diluted), for the six-month period ended April 30, 2006; \$1,977, or \$0.19 per share (basic) and \$0.11 per share (diluted), for the year ended October 31, 2006; and \$3,898, or \$2.23 per share (basic) and \$0.96 per share (diluted), for the year ended October 31, 2005.

Consolidated Balance Sheet Information:

	April 30, 2007	October 31, 2006
Working capital	\$ 3,149	\$ 4,591
Total assets	7,980	9,140
Total liabilities	6,920	8,993
Retained earnings	993	145
Stockholders' equity	1,060	147

RISK FACTORS

An investment in our securities involves a high degree of risk. In determining whether to purchase our securities, you should carefully consider all of the material risks described below, together with the other information contained in this prospectus before making a decision to purchase our securities. You should only purchase our securities if you can afford to suffer the loss of your entire investment.

Risks That Relate to our Business

Because our business is concentrated in the pharmaceutical industry in Puerto Rico, any changes in that industry could impair our ability to generate business.

Since most of our business is performed in Puerto Rico for pharmaceutical, biotechnology, medical device and chemical manufacturing companies, our ability to generate revenue and profit would be impaired by such factors as changes in taxes in Puerto Rico, or regulatory, tax, political or economic conditions which discourage these businesses from operating in Puerto Rico and changes in U.S. government regulations which affect the need for services such as those provided by Plaza.

Because our business is dependent upon a small number of clients, the loss of a major client could impair our ability to operate profitably.

Our business has been dependent upon a small number of clients. During the six months ended April 30, 2007 and 2006, and the years ended October 31, 2006 and 2005, a very small number of clients accounted for a disproportionately large percentage of our revenue. For the six months ended April 30, 2007, two customers accounted for 52.4% of revenue. For the six months ended April 30, 2006 and the year ended October 31, 2006, these two customers and two other customers accounted for approximately 73.0% of revenue. For the year ended October 31, 2005, two of these four customers accounted for approximately 62.2% of revenue. The loss of or significant reduction in the scope of work performed for any major customer could impair our ability to operate profitably. The scope of work for our largest customer has declined significantly in the year ended October 31, 2006, and we cannot assure we will not sustain significant decreases in revenue from our major customers or that we will be able to replace any decline in revenue. In June 2006, our largest customer announced that it is closing one of its two facilities in

Puerto Rico and reducing the personnel level at the second facility. As a result, we expect that our revenue from this client will continue to decline.

4

We may be unable to pass on increased labor cost to our clients.

The principal components of our costs of revenue are employee compensation (salaries, wages, taxes and benefits) and expenses relating to the performance of the services. We face increasing labor costs which we seek to pass on to our customers through increases in our rates. We may not be able to pass these cost increases to our clients, and, to the extent that we are not able to pass these increases to our clients, our gross margin will be reduced.

Our cash requirements include payments totaling \$5.5 million due to Elizabeth Plaza, which may impair our ability to develop our business.

Pursuant to the merger agreement, we are required to make three payments, each in the amount of \$2.75 million, on January 25, 2007, 2008 and 2009. Two of these payments are still outstanding. These payments are not contingent upon our earnings, earnings before interest, taxes, depreciation and amortization or any other financial criteria. We may not have resources other than our operations from which to make the payments. We cannot assure you that we will have available cash from which we can make these payments and, even if we do have the available cash, our growth may be impaired if we use our cash for that purpose.

Because the pharmaceutical industry is subject to government regulations, changes in government regulations relating to this industry may affect the need for our services.

Because government regulations affect all aspects of the pharmaceutical, biotechnology, medical device and chemical manufacturing industries, including regulations relating to the testing and manufacturing of pharmaceutical products and the disposal of materials which are or may be considered toxic, any change in government regulations could have a profound effect upon not only these companies but companies, such as us, that provide services to these industries. If we are not able to adapt and provide necessary services to meet the requirements of these companies in response to changes in government regulations, our ability to generate business may be impaired.

The willingness of companies in the pharmaceutical and related industries to conduct business in Puerto Rico could significantly impair our business by reducing the need for our services.

Since our business is presently conducted almost exclusively in Puerto Rico, our ability to generate revenue and income is dependent upon the willingness of our clients and potential clients to maintain or increase their operations in Puerto Rico. Our clients may consider factors such as tax benefits, Puerto Rico's economy and other economic factors.

Changes in tax benefits may affect the willingness of companies to continue or expand their operations in Puerto Rico.

Until 1996, the Internal Revenue Code provided certain tax benefits to pharmaceutical companies operating in Puerto Rico by enabling their Puerto Rico operations to operate free from federal income taxes. Partly as a result of the tax benefits, numerous pharmaceutical companies established facilities in Puerto Rico. In 1996, this tax benefit was eliminated, although companies that had facilities in Puerto Rico could continue to receive these benefits for ten years, at which time the benefits expire. Although some tax benefits remain, the change in the tax law may affect the willingness of pharmaceutical companies to continue or to expand their Puerto Rico operations, and we are aware of one pharmaceutical company that has decided to close its Puerto Rico operations as a result of the change in the tax laws. To the extent that pharmaceutical companies choose to develop and manufacture products outside of Puerto Rico, our ability to generate new business may be impaired.

Puerto Rico's economy, including its recent governmental financial crisis, may affect the willingness of businesses to commence or expand operations in Puerto Rico.

As a result of Puerto Rico's recent governmental financial crisis, businesses may be reluctant to commence or expand their operations in Puerto Rico. Further, since Puerto Rico's economy is petroleum-based, the high price of oil, combined with Puerto Rico's high level of debt, may make Puerto Rico a less attractive place to expand existing operations or commence new business activities. To the extent that companies in the pharmaceutical and related industries decide not to commence new operations or contract or not to expand their existing operations in Puerto Rico, the market for our services may decline.

Other factors, including economic factors, may affect the decision of businesses to continue or expand their operations in Puerto Rico.

Companies in the pharmaceutical and related industries for which we perform service are subject to economic pressures which affect their global operations and which may influence the decision to reduce or increase the scope of their operations in Puerto Rico. These companies consider a wide range of factors in making such a decision, and may be influenced by a need to consolidate operations, to reduce expenses, to increase their business in geographical regions where there are large customer bases, to tax, regulatory and political considerations and many other factors. In June 2006, the client that was our largest client in the year ended October 31, 2005 announced that it is significantly reducing the scope of its operations in Puerto Rico by closing one of its two facilities in Puerto Rico and reducing its staff at the remaining facility. As a result, our revenue from this client has significantly declined in the year ended October 31, 2006 from the prior year, and we anticipate that another major pharmaceutical company may reduce its operations in Puerto Rico. We can not assure you that other customers and potential customers will not make similar or more extensive reductions or terminate their operations in Puerto Rico entirely, which could significantly impair our ability to generate revenue.

Other factors that may affect the decision of companies in the pharmaceutical and related industries to locate in Puerto Rico or to continue or expand their existing operations are the possible losses of a continued presence in Puerto Rico of an office of the federal Food and Drug Administration and the continuation of tax benefits available to our customers under the Puerto Rico Internal Revenue Code, which some of them are scheduled to expire at the end of 2007, although there are proposals in the Puerto Rico legislature to extend the existing benefits until a new law is drafted and approved.

If we are unable to protect our clients' intellectual property, our ability to generate business will be impaired.

Our services either require us to develop intellectual property for clients or provide our personnel with access to our clients' intellectual property. Because of the highly competitive nature of the pharmaceutical, biotechnology, medical device and chemical manufacturing industries and the sensitivity of our clients' intellectual property rights, our ability to generate business would be impaired if we fail to protect those rights. Although all of our employees are required to sign non-disclosure agreements, any disclosure of a client's intellectual property by an employee may subject us to litigation and may impair our ability to generate business either from the affected client or other potential clients. In addition, we are required to enter into confidentiality agreements and our failure to protect the confidential information of our clients may impair our business relationship.

We may be subject to liability if our services or solutions for our clients infringe upon the intellectual property rights of others.

It is possible that in performing services for our clients, we may inadvertently infringe upon the intellectual property rights of others. In such event, the owner of the intellectual property may commence litigation seeking damages and an injunction against both us and our client, and the client may bring a claim against us. Any infringement litigation would be costly, regardless of whether we ultimately prevail. Even if we prevail, we will incur significant expenses and our reputation would be hurt, which would affect our ability to generate business and the terms on which we would be engaged, if at all.

We may be held liable for the actions of our employees when on assignment.

We may be exposed to liability for actions taken by our employees while on assignment, such as damages caused by their errors, misuse of client proprietary information or theft of client property. Due to the nature of our assignments, we cannot assure you that we will not be exposed to liability as a result of our employees being on assignment.

To the extent that we perform services pursuant to fixed-price or incentive-based contracts, our cost of services may exceed our revenue on the contract.

Some of our revenue is derived from fixed price contracts. Our costs of services may exceed revenue of these contracts if we do not accurately estimate the time and complexity of an engagement. Further, we are seeking contracts by which our compensation is based on specified performance objectives, such as the realization of cost savings or specified performance objectives. Our failure to achieve these objectives would reduce our revenue and could impair our ability to operate profitably.

Our profit margin is largely a function of the rates we are able to recover for our services and the utilization rate of our professionals. Accordingly, if we are not able to maintain our pricing for our services or an appropriate utilization rate for our professionals without corresponding cost reductions, our profit margin and profitability will suffer. The rates we are able to recover for our services are affected by a number of factors, including:

- Our clients' perception of our ability to add value through our services;
- Our ability to complete projects on time;
- Pricing policies of competitors;
- Our ability to accurately estimate, attain and sustain engagement revenues, margins and cash flows over increasingly longer contract periods; and
- General economic and political conditions.

Our utilization rates are also affected by a number of factors, including:

- Seasonal trends, primarily as a result of our hiring cycle;
- Our ability to move employees from completed projects to new engagements; and
- Our ability to manage attrition of our employees.

Because most of our contracts may be terminated on little or no advance notice, our failure to generate new business could impair our ability to operate profitably.

Our contracts can be terminated by our clients with short notice. Our clients typically retain us on a non-exclusive, engagement-by-engagement basis, and the client may terminate, cancel or delay any engagement or the project for which we are engaged, at any time and on short notice. As a result, we need to develop new business on an ongoing basis. Since our operations are generally limited to companies operating in Puerto Rico and, to a lesser extent, Puerto Rico businesses that operate elsewhere, the termination, cancellation, expiration or delay of contracts could have a significant impact on our ability to operate profitably.

Because of the competitive nature of the pharmaceutical, biotechnology, medical device and chemical manufacturing consulting market, we may not be able to compete effectively if we cannot efficiently respond to changes in the structure of the market and developments in technology.

Because of recent consolidations in the pharmaceutical, biotechnology, medical device and chemical manufacturing consulting business, we are faced with an increasing number of larger companies that offer a wider range of services and have better access to capital than we have. We believe that larger and better-capitalized competitors have enhanced abilities to compete for both clients and skilled professionals. In addition, one or more of our competitors may develop and implement methodologies that result in superior productivity and price reductions without adversely affecting their profit margins. We cannot assure you that we will be able to compete effectively in an increasingly competitive market.

Because we are dependent upon our management, our ability to develop our business may be impaired if we are not able to engage skilled personnel.

Our success to date has depended in large part on the skills and efforts of Elizabeth Plaza, our president, chief executive officer and founder. The loss of the services of Ms. Plaza could have a material adverse effect on the development and success of our business. Although we entered into an employment agreement with Ms. Plaza, the agreement, as amended, only requires her to continue as an employee through December 31, 2007 and as a consultant thereafter through January 31, 2009, and it does not guarantee that she will continue to be employed by us. During the term of her employment, we will have to identify and hire a person to serve as president and chief executive officer upon Ms. Plaza's retirement. Our failure to hire a qualified person in a timely manner will impair our ability to grow. In addition, because of the highly technical nature of the work that we perform for our clients in the pharmaceutical, biotechnology, medical device and chemical manufacturing industries, we need to hire highly skilled personnel who are familiar with the needs of these companies in order to perform the services which we provide. Our future success will depend in part upon our ability to attract and retain additional qualified management and technical personnel. Competition for such personnel is intense and we compete for qualified personnel with numerous other employers, including consulting firms, some of which have greater resources than we have, as well as pharmaceutical companies, all of which have significantly greater financial and other resources than we do. We may experience increased costs in order to retain and attract skilled employees. Our failure to attract additional personnel or to retain the services of key personnel and independent contractors could have a material adverse effect on our ability to operate profitably.

We may not be able to continue to grow unless we consummate acquisitions or enter markets outside of Puerto Rico.

An important part of our growth strategy is both to acquire other businesses which can increase the range of services and products that we can offer and to establish offices in countries where we do not presently operate, either by acquisition or by internal growth. If we fail to make any acquisitions or otherwise expand our business, our future growth may be limited. As of the date of this report, we do not have any agreement or understanding, either formal or informal, as to any acquisition.

Because we are now required to pay income tax, our past operations, which do not reflect income tax, may not be indicative of our future results.

Prior to January 25, 2006, we operated as an N Corporation under the Puerto Rico Internal Revenue Code. An N corporation is similar to an S corporation under the Internal Revenue Code in that the corporation itself is not subject to tax and all taxable income is taxed to the stockholder. Upon the completion of the reverse acquisition on January 25, 2006, we became subject to Puerto Rico income tax, which provides for corporate income tax at our tax bracket at 41.5% to October 31, 2007 and 39% thereafter. Had we been subject to income tax for the years ended October 31, 2006 and 2005, our net income would have been approximately \$2.0 million for the year ended October 31, 2006 and \$4.0 million for the year ended October 31, 2005.

If we identify a proposed acquisition, we may require substantial cash to fund the cost of the acquisition.

Any acquisitions we make may be made with cash or our securities or a combination of cash and securities. To the extent that we require cash, we may have to borrow the funds or sell equity securities. We have no commitments from any financing source and we may not be able to raise any cash necessary to complete an acquisition. If we seek to expand our business internally, we will incur significant start-up expenses without any assurance of our ability to penetrate the market.

The issuance of securities, whether in connection with an acquisition or otherwise, may result in significant dilution to our stockholders.

If we are required to issue securities either as payment of all or a portion of the purchase price of an acquisition or in order to obtain financing for the acquisition or for other corporate purposes could result in dilution to our stockholders. The amount of such dilution will be dependent upon the terms on which we issue securities. The issuance of securities at a price which is less than the exercise price of warrants or the conversion price of securities could result in additional dilution if we are required to reduce the exercise price or conversion price of the then outstanding options or warrants or other convertible securities.

If we make any acquisitions, they may disrupt or have a negative impact on our business.

If we make acquisitions or establish operations in countries outside of Puerto Rico, we could have difficulty integrating the acquired companies' personnel and operations with our own. In addition, the key personnel of the acquired business may not be willing to work for us. We cannot predict the effect expansion may have on our core business. Regardless of whether we are successful in making an acquisition, the negotiations could disrupt our ongoing business, distract our management and employees and increase our expenses. In addition to the risks described above, acquisitions are accompanied by a number of inherent risks, including, without limitation, the following:

- the difficulty of integrating acquired products, services or operations;
- the potential disruption of the ongoing businesses and distraction of our management and the management of acquired companies;
- the potential loss of contracts from clients of acquired companies.
- the difficulty of maintaining profitability due to increased labor and expenses from acquired company.
- difficulties in complying with regulations in other countries that relate to both the pharmaceutical or other industry to which we provide services as well as our own operations;
-

difficulties in maintaining uniform standards, controls, procedures and policies;

9

- the potential impairment of relationships with employees and customers as a result of any integration of new management personnel;
- the potential inability or failure to achieve additional sales and enhance our customer base through cross-marketing of the products to new and existing customers;
- the effect of any government regulations which relate to the business acquired;
- potential unknown liabilities associated with acquired businesses or product lines, or the need to spend significant amounts to retool, reposition or modify the marketing and sales of acquired products or the defense of any litigation, whether of not successful, resulting from actions of the acquired company prior to our acquisition;
- difficulties in disposing of the excess or idle facilities of an acquired company or business and expenses in maintaining such facilities; and
- potential expenses under the labor, environmental and other laws of other countries.

Our business could be severely impaired if and to the extent that we are unable to succeed in addressing any of these risks or other problems encountered in connection with an acquisition, many of which cannot be presently identified. Further, the commencement of business in other countries may be subject to significant risks in areas which we are not able to prepare for in advance.

Our quarterly revenues, operating results and profitability will vary from quarter to quarter, which may result in increased volatility of our stock price.

Our quarterly revenues, operating results and profitability have varied in the past and are likely to vary significantly from quarter to quarter, making them difficult to predict. This may lead to volatility in our share price. The factors that are likely to cause these variations are:

- Seasonality, including number of workdays and holiday and summer vacations;
- The business decisions of clients regarding the use of our services;
- Periodic differences between clients' estimated and actual levels of business activity associated with ongoing engagements, including the delay, reduction in scope and cancellation of projects;
- The stage of completion of existing projects and/or their termination;
- Our ability to move employees quickly from completed projects to new engagements and our ability to replace completed contracts with new contracts with the same clients or other clients.
- The introduction of new services by us or our competitors;

- Changes in pricing policies by us or our competitors;
- Our ability to manage costs, including personnel costs, support-services costs and severance costs;

- Acquisition and integration costs related to possible acquisitions of other businesses.
- Changes in estimates, accruals and payments of variable compensation to our employees; and
- Global economic and political conditions and related risks, including acts of terrorism.

If we are unable to raise additional funds that we require may impair our ability to grow.

We may, in the future, require funds to expand our business or to make acquisitions. We have no commitment by any person to provide us with funds if we require funds. We cannot assure you that we will be able to raise any funds that we may require, and, if we are able to raise funds, the terms on which we raise funds may result in significant dilution to you.

Because of our cash requirements, we may be unable to pay dividends.

Except for payments to Elizabeth Plaza during the period when she was our sole stockholder, including \$8.0 million paid in the year ended October 31, 2005, we have not paid any dividends on our common stock and do not anticipate paying cash dividends in the foreseeable future. We intend to retain any earnings to finance the growth of our business and to pay the deferred payments of \$5.5 million owed to Elizabeth Plaza, and we may never pay cash dividends.

Risks Concerning our Securities

Because there is a limited market in our common stock, stockholders may have difficulty in selling our common stock and our common stock may be subject to significant price swings.

There is a very limited market for our common stock. Since trading commenced in December 2006, there has been little activity in our common stock and on some days there is no trading in our common stock. There are few shares of common stock in the public float other than those that have been registered for sale and sold, and most of our common stock has been registered for sale pursuant to the Securities Act by the investors in our January 2006 private placement. Because of the limited market for our common stock, the purchase or sale of a relatively small number of shares may have an exaggerated effect on the market price for our common stock. We cannot assure stockholders that they will be able to sell common stock or, that if they are able to sell their shares, that they will be able to sell the shares in any significant quantity at the quoted price.

The exercise of outstanding options and warrants may have a dilutive effect on the price of our common stock.

To the extent that outstanding stock options and warrants are exercised, dilution to our stockholders will occur. Moreover, the terms upon which we will be able to obtain additional equity capital may be adversely affected, since the holders of the outstanding options and warrants can be expected to exercise them at a time when we would, in all likelihood, be able to obtain any needed capital on terms more favorable to us than the exercise terms provided by the outstanding options and warrants.

Because we are not subject to compliance with rules requiring the adoption of certain corporate governance measures, our stockholders have limited protections against interested director transactions, conflicts of interest and similar matters.

The Sarbanes-Oxley Act of 2002, as well as rule changes proposed and enacted by the Commission, the New York and American Stock Exchanges and the Nasdaq Stock Market as a result of Sarbanes-Oxley, require the implementation of various measures relating to corporate governance. These measures are designed to enhance the integrity of corporate management and the securities markets and apply to securities which are listed on those exchanges or the Nasdaq Stock Market. Because we are not presently required to comply with many of the corporate governance provisions and because we chose to avoid incurring the substantial additional costs associated with such compliance any sooner than necessary, we have not yet adopted all of these measures. Until we comply with such corporate governance measures, regardless of whether such compliance is required, the absence of such standards of corporate governance may leave our stockholders without protections against interested director transactions, conflicts of interest and similar matters and investors may be reluctant to provide us with funds necessary to expand our operations.

FORWARD-LOOKING STATEMENTS

This prospectus contains certain forward-looking statements that are based on current expectations. In light of the important factors that can materially affect results, including those set forth in this paragraph and below, the inclusion of forward-looking information herein should not be regarded as a representation by the Company or any other person that the objectives or plans of the Company will be achieved. The Company may be unable to expand its customer base and to replace customers upon the completion of contracts, and may encounter competitive, technological, financial and business challenges making it more difficult than expected to continue to develop and market its services; the market may not accept the Company's existing and future services; changes relating to the business of our clients; tax, economic, industry trends and other factors relating to Puerto Rico; our ability to retain existing key management personnel; our ability to make acquisitions and other material adverse changes affecting our operations or business. Assumptions relating to budgeting, marketing, and other management decisions are subjective in many respects and thus susceptible to interpretations and periodic revisions based on actual experience and business developments, the impact of which may cause us to alter our marketing and other budgets, which may in turn affect our financial position and results of operations. You should not place undue reliance on forward-looking statements contained herein, which speak solely as of the date of this prospectus, and the forward looking statements are qualified in their entirety by reference to the material contained in "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" contained in this prospectus. We assume no responsibility to update any forward-looking statements as a result of new information, future events, or otherwise.

USE OF PROCEEDS

We will not receive any proceeds from the sale by the selling stockholders of their common stock. If the selling stockholders exercise any warrants, we will receive the amount of the exercise price. The maximum total exercise price is approximately \$11 million, which we would receive only if all of the warrants were exercised at their present exercise price. Any proceeds which we receive from the exercise of the warrants would be used for working capital and general corporate purposes.

SELLING STOCKHOLDERS

The following table sets forth the names of the selling stockholders, the number of shares of common stock owned beneficially by the selling stockholders as of July 31, 2007, the number of shares of our common stock that may be offered by the selling stockholders pursuant to this prospectus, the number of shares owned by the selling stockholders after completion of the offering. Except for San Juan Holdings, Inc., which will beneficially own 3,375,724 shares after completion of this offering (representing 600,000 shares of common stock and warrants to purchase 2,757,724 shares of common stock), no selling stockholder will own more than 1% of our outstanding common stock after the sale of shares owned by such selling stockholder. After completion of the sale of the shares owned by San Juan Holdings and offered by this prospectus, San Juan Holdings would beneficially own 3,375,724 shares of common stock, representing 15.6% of our outstanding common stock, assuming no warrants are exercised by the selling stockholders, and 11.4% of the common stock, assuming all of the warrants held by the selling stockholders are exercised. The table and the other information contained under the captions "Selling Stockholders" and "Plan of Distribution" has been prepared based upon information furnished to us by or on behalf of the selling stockholders.

-
- (1) Mr. David Selengut, the manager of TaurusMax LLC, which is the general partner of Venturetek, LP, has sole voting and dispositive power over the shares beneficially owned by Venturetek. The shares beneficially owned by Venturetek do not include 200 shares of common stock held by Mr. Selengut and 200 shares held by Mr. Selengut's wife. Mr. Selengut disclaims beneficial ownership of the shares held by his wife.
- (2) Mr. Andrew B. Worden, president of the general partner of Barron Partners, has sole voting and dispositive power over the shares beneficially owned by Barron Partners.

- (3) Abraham H. Fruchthandler and FBE Limited, are the sole general partners of Fame Associates, and Mr. Fruchthandler is the sole general partner of FBE Limited. Accordingly, Mr. Fruchthandler has voting and dispositive power over the shares beneficially owned by Fame Associates.
- (4) Pentland U.S.A., Inc. is owned by Pentland Brands, which is controlled by Stephen Rubin, who has voting and dispositive power over the shares beneficially owned by Pentland U.S.A.
- (5) Messrs. Ramon Dominguez and Addison M. Levi III have voting and dispositive power over the shares beneficially owned by San Juan Holdings, Inc.
- (6) Laya Perlysky, as general partner, has voting and dispositive power over the shares beneficially owned by LDP Family Partnership LP. The number of shares beneficially owned by LDP Family Partnership (a) includes 240,000 shares owned by Krovim LLC, of which Dov Perlysky, the husband of Laya Perlysky, is the managing member of the manager, and (b) does not include 960,000 shares of common stock issuable upon exercise of warrants held by Krovim LLC, which warrants are not exercisable until the earlier of (i) September 1, 2007 or (ii) the date the closing price of our common stock equals or exceeds \$0.50 per share for 10 consecutive trading days on the OTC Bulletin Board, Nasdaq, New York Stock Exchange or other exchange. Ms. Perlysky and LDP Family Partnership disclaim beneficial ownership of the shares and warrants held by Krovim LLC.
- (7) Includes a total of 2,000 shares held by Ms. Renov as custodian for her two minor children. Ms. Renov disclaims beneficial ownership of these shares.
- (8) Jamie Stahler, as the managing member, has the voting and dispositive power of over shares beneficially owned by of Lakeside Partners, LLC. The shares beneficially owned by Lakeside Partners do not include 2,000 shares held by Mr. Stahler.
- (9) Includes a total of 4,000 shares held by Ms. Stahler as custodian for her four minor children. Ms. Stahler disclaims beneficial ownership of these shares.
- (10) Baudilio Merino, as president, has the voting and dispositive power over the shares beneficially owned by Academia Nuestra Senora de la Providencia.
- (11) Kirk Michel, as managing director, has voting and dispositive power over the shares beneficially owned by Kema Advisors, Inc.
- (12) Comercio e Industria Multiforamas Ltda., whose majority shareholder is Emanuel Wolff, has the voting and dispositive power over the shares beneficially owned by Brinkley Capital Limited.
- (13) Ron Heller, as the controlling partner, has voting and dispositive power over the shares beneficially owned by Heller Capital Investments, LLC.
- (14)

Marc Roberts, as the controlling party, has voting and dispositive power over the shares beneficially owned by Silverman & Roberts 44 Pipe LLC.

- (15) Moise Hendeles, as trustee, has voting and dispositive power over the shares beneficially owned by Hendeles Grandchildren Trust #2 dated 12/23/93, Hendeles Grandchildren Trust dated 1/1/89 and Hendeles Living Trust.
- (16) Includes 2,000 shares held by Mr. Renov's wife. Mr. Renov disclaims beneficial ownership of these shares.
- (17) Includes a total of 3,000 shares held by Ms. Katz as custodian for her three minor children and 2,000 shares held by her husband. Ms. Katz disclaims beneficial ownership of these shares.

None of the selling stockholders has, or within the past three years has had, any position, office or material relationship with us or any of our predecessors or affiliates except as follows:

In consideration for investment banking services rendered by San Juan Holdings, as advisor to Plaza and Elizabeth Plaza, we issued to San Juan Holdings 600,000 shares of common stock and warrants to purchase 2,500,000 shares of common stock at an exercise price of \$.06 per share. The services rendered by San Juan Holdings included advice to Plaza and to Ms. Plaza, and negotiation with us on behalf of Plaza and Ms. Plaza, as to the structure of the transaction and the consideration payable to Ms. Plaza for her stock in Plaza, including the amount paid at closing, the equity to be issued to Ms. Plaza and the amount, timing and conditions of the deferred payment. In connection with the January 2006 private placement in which we issued the shares of series A preferred stock to the selling stockholders, we paid RD Capital Group, an affiliate of San Juan Holdings, \$195,000 for commissions and non-accountable expense allowance and we issued to RD Capital Group warrants to purchase 275,724 shares of common stock. RD Capital Group waived its commission and non-accountable expense allowance on the securities purchased by San Juan Holdings, and, as a result, the purchase price of the securities purchased by San Juan Holdings was \$652,500 rather than \$750,000. The warrants have an exercise price of \$.7344 per share and a term of three years, and the holders of the warrants have piggyback registration rights commencing six months after the effective date of the registration statement of which this prospectus is a part.

Dov Perlysky is a director and, prior to the acquisition of Plaza, Mr. Perlysky was the sole director and our sole executive officer.

Kirk Michel is a director. Mr. Michel was elected as a director at the time of the closing of the acquisition of Plaza.

PLAN OF DISTRIBUTION

The selling stockholders and any of their pledgees, donees, assignees and successors-in-interest may, from time to time, sell any or all of their shares of common stock on any stock exchange, market or trading facility on which the shares are traded or in private transactions or by gift. These sales may be made at fixed or negotiated prices. The selling stockholders may sell their shares of common stock in the public market based on the market price at the time of sale or at negotiated prices. Subject to the foregoing, the selling stockholders may use any one or more of the following methods when selling or otherwise transferring shares:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which a broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- sales to a broker-dealer as principal and the resale by the broker-dealer of the shares for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions, including gifts;
- covering short sales made after the date of this prospectus.

- pursuant to an arrangement or agreement with a broker-dealer to sell a specified number of such shares at a stipulated price per share;
- a combination of any such methods of sale; and
- any other method of sale permitted pursuant to applicable law.

The selling stockholders may also sell shares pursuant to Rule 144 or Rule 144A under the Securities Act, if available, rather than pursuant to this prospectus.

Broker-dealers engaged by the selling stockholders may arrange for other brokers dealers to participate in sales. Broker-dealers may receive commissions or discounts from the selling stockholders (or, if any broker-dealer acts as agent for the purchaser of shares, from the purchaser) in amounts to be negotiated. The selling stockholders do not expect these commissions and discounts to exceed what is customary in the types of transactions involved.

A selling stockholder may from time to time pledge or grant a security interest in some or all of the shares or common stock or warrant owned by them and, if the selling stockholder defaults in the performance of the secured obligations, the pledgees or secured parties may offer and sell the shares of common stock from time to time under this prospectus, or under an amendment to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act of 1933 amending the list of selling stockholders to include the pledgee, transferee or other successors in interest as selling stockholders under this prospectus.

In connection with the sale of our common stock or interests therein, the selling stockholders may enter into hedging transactions with broker-dealers or other financial institutions which may in turn engage in short sales of our common stock in the course of hedging the positions they assume. The selling stockholders may, after the date of this prospectus, also sell shares of our common stock short and deliver these securities to close out their short positions, or loan or pledge their common stock to broker-dealers that in turn may sell these securities. The selling stockholders may also enter into option or other transactions with broker-dealers or other financial institutions or the creation of one or more derivative securities which require the delivery to such broker-dealer or other financial institution of shares offered by this prospectus, which shares such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

The selling stockholders also may transfer the shares of common stock in other circumstances, in which case the transferees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus.

In the event of a transfer by a selling stockholder of the warrants or the common stock other than a transfer pursuant to this prospectus or Rule 144 of the SEC, we may be required to amend or supplement this prospectus in order to name the transferee as a selling stockholder.

The selling stockholders and any broker-dealers or agents that are involved in selling the shares may be deemed to be “underwriters” within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. The selling stockholders have informed us that they do not have any agreement or understanding, directly or indirectly, with any person to distribute the common stock.

Because the selling stockholders may be deemed to be “underwriters” within the meaning of the Securities Act, they will be subject to the prospectus delivery requirements of the Securities Act. Federal securities laws, including Regulation M, may restrict the timing of purchases and sales of our common stock by the selling stockholders and any other persons who are involved in the distribution of the shares of common stock pursuant to this prospectus. To our knowledge, none of the selling stockholders have an agreement or understanding with any broker-dealer with respect to the sale of their shares except as set forth below.

One of the selling stockholders, San Juan Holdings, is an affiliate of RD Capital Group, a broker-dealer, and may sell shares through RD Capital Group. Two other stockholders are employees, but not affiliates of broker-dealers. David Jordan is an employee of Axiom Capital, and Wilfredo Ortiz is an employee of RD Capital Group. Although they do not have a ownership or control relationship with, and are not officers, directors or partners of, the broker-dealers, they may, nonetheless, be deemed affiliates of the broker-dealers. Selling stockholders who are broker-dealers or affiliates of broker-dealers will be deemed underwriters in connection with their sales. The selling stockholders who are affiliates and employees of broker-dealers purchased their shares in the ordinary course and, at the time of purchasing the securities they had no agreements or understandings, directly or indirectly, with any person to distribute the securities.

We are required to pay all fees and expenses incident to the registration of the shares. We have agreed to indemnify the selling stockholders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act.

MARKET FOR COMMON STOCK AND STOCKHOLDER MATTERS

Commencing on December 4, 2006, our common stock is quoted on the OTC Bulletin Board under the trading symbol PBSV. The table below presents the closing high and low closing bid prices for our common stock for each quarter from December 2006 through July 30, 2007. These prices reflect inter-dealer prices, without retail markup, markdown, or commission, and may not represent actual transactions.

<u>Year ended October 31, 2007</u>		High Bid		Low Bid
1 st Quarter (commencing December 4, 2006)	\$	1.85	\$	0.49
2 nd Quarter		1.05		0.54
3 rd Quarter		0.69		0.43
4 th Quarter (through September 5, 2007)		0.56		0.56

On September 5, 2007, the closing price of our common stock on the OTC Bulletin Board was \$0.56 per share.

Prior to the reverse acquisition, we were taxed as an N Corporation under the Puerto Rico Internal Revenue Code, which is similar to that of an S Corporation under the Internal Revenue Code. As a result, all of our income was taxed to our then sole stockholder, Elizabeth Plaza. We made distributions to Ms. Plaza of approximately \$834,000 during the six months ended April 30, 2006, and approximately \$8.0 million during the year ended October 31, 2005. Other than the distributions to Ms. Plaza which were made during the period that we were an N Corporation, we did not pay dividends on our common stock. We plan to retain future earnings, if any, for use in our business. We do not anticipate paying dividends on our common stock in the foreseeable future.

Equity Compensation Plan Information

The following table summarizes the equity compensation plans under which our securities may be issued as of April 30, 2007.

Plan Category	Number of securities to be issued upon exercise of outstanding options and warrants	Weighted-average exercise price per share of outstanding options and warrants	Number of securities remaining available for future issuance under equity compensation plans
Equity compensation plans approved by security holders	1,429,519	\$.7481	1,070,481
Equity compensation plans not approved by security holders	3,939,892	\$.3065	16,500

The securities issuable pursuant to the equity plan that was approved by stockholders is the 2005 long-term incentive plan, which was approved by stockholders in April 2006.

The equity compensation plans not approved by security holders are (i) warrants to purchase 1,439,892 which were issued to brokers in connection with the January 2006 private placement, (ii) warrants to purchase 2,500,000 shares of common stock issued to San Juan Holdings for services relating to the acquisition of Plaza, and (iii) approximately 16,500 shares of common stock issuable to employees.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion of our results of operations and financial condition should be read in conjunction with our financial statements and the related notes appearing elsewhere in this prospectus. The following discussion includes forward-looking statements. For a discussion of important factors that could cause actual results to differ from results discussed in the forward-looking statements, see "Forward Looking Statements."

As a result of the reverse acquisition that closed on January 25, 2006, Plaza is treated as the accounting acquirer and the results of operations for periods prior to January 25, 2006 reflect only the operations of Plaza.

Overview

We are a validation and compliance consulting service firm in Puerto Rico. The validation and compliance consulting service market in Puerto Rico consists of local validation and compliance consulting firms, United States dedicated validation and compliance consulting firms and large publicly traded and private domestic and foreign engineering and consulting firms. We provide a broad range of compliance and validation consulting services. We market our services to pharmaceutical, chemical, biotechnology and medical devices and allied products companies in Puerto Rico, the United States and Europe through their Puerto Rico operations. Our staff includes more than 150 experienced engineering and life science professionals, and includes former quality assurance managers or directors, and experienced and well-trained professionals with bachelors, masters and doctorate degrees in health sciences and engineering.

Our revenue is derived from time and materials contracts (representing approximately 90% of total revenues), where the clients are charged for the time, materials and expenses incurred on a particular project, and to a lesser extent (approximately 10% of total revenues), from fixed-fee contracts or from "not to exceed" contracts, which generally are short-term contracts, in which the value of the contract to us cannot exceed a stated amount. For time and materials contracts, our revenue is principally a function of the number of its compliance and validation professional employees and the number of hours billed per professional. To the extent that our revenue is based on fixed-fee or "not to exceed" contracts, our ability to operate profitably is dependent upon our ability to estimate accurately the costs that we will incur on a project and to management and monitoring progress. If we underestimate our costs on any contract, we would sustain a loss on the contract.

We believe the most significant factors to achieving future business growth are the ability to (a) continue to provide quality value-added validation and compliance services to our clients in the Puerto Rico marketplace; (b) recruit and retain highly educated and experienced validation and compliance professionals; (c) further expand its products and services to address the expanding compliance needs of the clients; and (d) expand our market presence into the United States, Latin America and Europe in order to respond to the international validation and compliance demands of our clients. Since our business is conducted mainly in Puerto Rico, our business may be affected to the extent that the Puerto Rico's economic problems affect the decision of our customers and potential customers to locate in Puerto Rico or to continue or expand their existing operations, as well as the continued presence in Puerto Rico of an office of the federal Food and Drug Administration and the continuation of tax benefits available to our customers under the Puerto Rico Internal Revenue Code, which are scheduled to expire at the end of 2007, although there are proposals in the Puerto Rico legislature to extend the existing benefits until a new law is drafted and approved.

Our business has been dependent upon a small number of clients. During the six months ended July 31, 2007 and 2006, and the years ended October 31, 2006 and 2005, a very small number of clients accounted for a disproportionately large percentage of our revenue. For the six months ended April 30, 2007 two customers accounted for approximately 52.4% of revenue; for the six months ended April 30, 2006 four customers accounted for approximately 73.1% of revenue. For the year ended October 31, 2006, four customers accounted for approximately 73.0%; for the year ended October 31, 2005, two of these four customers accounted for approximately 62.2% of revenue. The loss of or significant reduction in the scope of work performed for any major customer could impair our ability to operate profitably. In particular, we had a contract with our largest customer which expired on December 31, 2005. Although this contract was divided in a number of smaller contracts and extended with termination dates varying through December 2006, the level of business has significantly declined from the prior year. In June 2006, this customer announced the closing of one of its two facilities located in Puerto Rico and a reduction of staff in the second facility. The revenues from this major customer were as follows:

Period	Operating facility	Closed facility	Total
Six-month period ended April 30, 2007	\$ 421,298	\$ 38,739	\$ 460,037
Six-month period ended April 30, 2006	634,221	1,462,923	2,097,144
Year ended October 31, 2006	1,013,792	1,921,433	2,935,225
Year ended October 31, 2005	2,210,444	5,312,190	7,522,634

Although our business is affected by seasonal factors such as vacation and holiday work policies, we do not believe that our business is seasonal. However, because our business is based on performing services under contracts which relate to specific projects, there may be a lag between the completion of one project and the commencement of the following project. This lag may cause a decline in revenues and a related decline in gross margin during the affected periods.

On January 9, 2006, we acquired, for \$300,000, from the individual who served as our executive vice president and chief operating officer from February 1, 2006 to March 31, 2006, certain assets of Integrated Validation Service, a United States-based business that performs consulting services for the pharmaceutical and biotech industries. These assets include a client list and the validation compliance service business that was operated by that individual. We also hired nine former employees of the business. This acquisition was made pursuant to our strategy to expand our operations beyond Puerto Rico with a view to lessening our dependence upon a small number of Puerto Rico pharmaceutical companies. We cannot give assurance that any significant revenues will be derived from these operations. Revenues from these operations were as follows:

Period	Amount
Six months ended April 30, 2007	\$ 533,221
Six months ended April 30, 2006	356,837
Year ended October 31, 2006	678,472

The principal components of our costs of revenue are employee compensation (salaries, wages, taxes and benefits) and expenses relating to the performance of the services. We face increasing labor costs which we seek to pass on to our customers through increases in our rates. However, there is often a delay between the increase in our costs and the increases in our billing rates, which may result in a reduced gross margin during that period. Although we have been successful in the past in being able to increase our billing rates to reflect our increased labor costs, we cannot give any assurance that we will continue to be able to do so.

On January 25, 2006, Pharma-Bio acquired Plaza in a transaction which is accounted for as a reverse acquisition, with Plaza being deemed the accounting acquirer. Pursuant to the acquisition agreement, we paid Elizabeth Plaza, the sole stockholder of Plaza, \$10,000,000 plus 1,150,000 shares of Pharma-Bio's common stock. In addition, Ms. Plaza is to receive three installments, each in the amount of \$2,750,000, payable on January 25, 2007, 2008 and 2009. In January 2007, Elizabeth Plaza agreed to accept the first installment of \$2,750,000 in two payments, one in the amount of \$2,500,000 in January 2007 and the second in the amount of \$250,000 in February 2007. The second installment due in January 2008, net of imputed interest, is a current liability at April 30, 2007, and is a significant factor in the reduction in the Company's working capital, as discussed under "Liquidity and Capital Resources."

Critical Accounting Policies and Estimates

The discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with generally accepted accounting principles ("GAAP") in the United States. We believe the following are the critical accounting policies that impact the financial statements, some of which are based on management's best estimates available at the time of preparation. Actual experience may differ from these estimates.

Cash and cash equivalents - For purposes of the statements of cash flows, cash and cash equivalents include liquid investments with original maturities of three months or less.

Revenue Recognition - We recognize revenues from time and material contracts by applying the proportional performance model, whereby revenue is recognized as performance occurs. In the case of fixed-fee or "not to exceed" contracts, which are generally short-term contracts, revenue is recognized similarly, except that certain milestones also have to be reached before revenue is recognized. With respect to fixed-fee contracts, revenue is recognized based on the percentage that services rendered bears to the estimated services to be performed over the contract. If we determine that a fixed-fee or "not to exceed" contract will result in a loss, we recognize the estimated loss in the period in which such determination is made.

Bad Debts - Bad debts are accounted for using the direct write-off method whereby an expense is recognized only when a specific account is determined to be uncollectible. The effect of using this method approximates that of the allowance method.

Property and Equipment -- Owned property and equipment, and leasehold improvements are stated at cost. Equipment and vehicles under capital leases are stated at the lower of fair market value or net present value of the minimum lease payments at the inception of the leases.

Depreciation of owned assets, and amortization of assets under capital leases and leasehold improvements, are provided using the straight-line basis over the shorter of the estimated useful lives of the assets or the lease term. Major renewals and betterments that extend the life of the assets are capitalized, while expenditures for repairs and maintenance are expensed when incurred.

We evaluate for impairment our long-lived assets to be held and used, and long-lived assets to be disposed of, whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

Income Taxes -- We elected from our inception until January 25, 2006, to be covered under the provisions of Subchapter N of Subtitle A of the Puerto Rico Internal Revenue Code (the "Puerto Rico Code"), which is similar to Subchapter S of the Internal Revenue Code in that we pay no income taxes since the taxable income was taxed to our stockholder. Under the provisions of the Puerto Rico Code, we paid the Puerto Rico Secretary of Treasury, on behalf of our stockholder, an amount equal to 33% of our taxable income. These payments, and any income tax withheld, are included in the amount of distributions to stockholder in our financial statements.

Commencing with the acquisition of Plaza on January 25, 2006, we are taxed based on our taxable income under the applicable provisions of the Puerto Rico Code and the Internal Revenue Code.

The undistributed earnings of our subsidiary, Plaza Consulting Group, Inc., are included in the consolidated financial statements. Since we consider to reinvest Plaza's current undistributed earnings indefinitely, we do not recognize deferred income taxes on said earnings.

Concentration of credit risk -- Financial instruments which potentially subject us to concentrations of credit risk consist principally of cash deposits and trade accounts receivable. We maintain our cash deposits in a bank account and an uninsured money market account. While we attempt to limit any financial exposure, our deposit balances in our bank account normally exceed federally insured limits; however, no losses have been experienced on these accounts.

Our revenues are concentrated in the pharmaceutical industry in Puerto Rico. Approximately \$4.1 million, or 52.4%, of the revenues in the six months ended April 30, 2007 were generated by two customers. The same customers had an outstanding balance at April 30, 2007 representing 35.8% of the total receivables. Approximately \$10.4 million, or 72.8% of revenue, for the year ended October 31, 2006 and \$12.4 million, or 71.5% of the revenues, in year ended October 31, 2005, was generated by these two customers along with two other customers. These four customers had outstanding balances at October 31, 2006 and 2005 representing 73.0% and 84.9% of the total receivables, respectively. We assess the financial strength of our clients and, as a consequence, believe that our trade accounts receivable credit risk exposure is limited.

Retirement Plan -- We adopted a qualified profit sharing plan in January 2002 (amended on November 30, 2003) in accordance with the applicable provisions of the Puerto Rico Code, for employees who meet certain age and service period requirements. We make contributions to this plan as required by the provisions of the plan document, amounting to \$28,554 and \$21,805 for the six months ended April 30, 2007 and 2006, respectively, \$40,439 for the year ended October 31, 2006 and \$35,908 for the year ended October 31, 2005.

Stock Option Plan -- During the year ended October 31, 2004, we granted stock options with an exercise price equal to the book value of the common stock as of October 31, 2003, which we deemed to be the fair value of our common stock. The options expired ten years from the date of grant and generally vested over a three-year period. In connection with our acquisition of Plaza, these options were cancelled and we granted the option holders options to purchase an aggregate of 776,186 shares of common stock in respect of the cancelled options and we issued options to purchase an additional 623,814 shares of common stock to employees of Plaza, including those whose options were cancelled. We have subsequently granted options to purchase other 523,724 shares to employees and options to purchase 125,000 shares to independent directors and an independent contractor. However, as of April 30, 2007, there

were outstanding options to purchase 1,429,519 shares of common stock. Most of our outstanding options have an exercise price of \$0.7344, a term of five years and are exercisable in installments. The average exercise price of such options is \$0.75.

Stock-based compensation — Effective November 1, 2006, we adopted the provisions of SFAS No. 123R, “Share-Based Payment” (“SFAS 123R”), and Staff Accounting Bulletin No. 107 (“SAB 107”) using the modified prospective method, which results in the provisions of SFAS 123R being applied to the consolidated financial statements on a prospective basis. Under the modified prospective recognition method, restatement of consolidated income from prior periods is not required, and accordingly, we have not provided such restatements. Under the modified prospective provisions of SFAS 123R, compensation expense is recorded for the unvested portion of previously granted awards that were outstanding on November 1, 2006 and all subsequent awards. SFAS 123R requires that all stock-based compensation expense be recognized in the financial statements based on the fair value of the awards. Stock-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as expense over the requisite service period, which generally represents the vesting period, and includes an estimate of awards that will be forfeited. We calculate the fair value of stock options using the Black-Scholes option-pricing model at grant date. SFAS 123R also amends SFAS No. 95, “Statement of Cash Flows,” to require that excess tax benefits related to stock-based compensation be reflected as cash flows from financing activities rather than cash flows from operating activities. We do not recognize such cash flow from financing activities since there has been no tax benefit related to the stock-based compensation.

As required under the new standards, stock option compensation expense is based on the anticipated vesting of the options. Forfeitures estimated when recognizing compensation expense are adjusted when actual forfeitures differ from the estimate.

Fair value of financial instruments - The carrying value of our financial instruments (excluding obligations under capital leases): cash, accounts receivable, accounts payable and accrued liabilities, are considered reasonable estimates of fair value due to the short period to maturity. We believe, based on current rates, that the fair value of its obligations under capital leases approximates the carrying amount.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP), requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

New Accounting Pronouncements

In February 2007, the Financial Accounting Standards Board (FASB) issued Statement No. 159 “The Fair Value Option for Financial Assets and Financial Liabilities - Including an Amendment of FASB Statement No. 115”. This Statement permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. This Statement is expected to expand the use of fair value measurement, which is consistent with the FASB’s long-term measurement objectives for accounting for financial instruments. This Statement is effective as of the beginning of an entity’s first fiscal year that begins after November 15, 2007. Early adoption is permitted as of the beginning of a fiscal year that begins on or before November 15, 2007, provided the entity also elects to apply the provisions of FASB Statement No. 157, “Fair Value Measurements”. We do not expect that the application of this standard will have any significant effect on our financial statements.

In September 2006, the FASB published Statement No. 157 “Fair Value Measurement”. This Statement defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and expands disclosures about fair value measurements. This Statement applies under other accounting pronouncements that require or permit fair value measurements, the FASB having previously concluded in those accounting pronouncements that fair value is the relevant measurement attribute. Accordingly, this Statement does not require any new fair value measurements. However, for some entities, the application of this Statement will change current practice. The changes to current practice resulting from the application of this Statement relate to the definition of fair value, the methods used to measure fair value, and the expanded disclosures about fair value measurements. This Statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. Earlier application is encouraged, provided that the reporting entity has not yet issued financial statements for that fiscal year, including financial statements for an interim period within that fiscal year. The provisions of this Statement should be applied prospectively as of the beginning of the fiscal year in which this Statement is initially applied, except for certain exceptions stated in the Statement. The implementation of this Statement will have no significant effect on our financial statements.

In June 2006, the FASB issued Interpretation No. 48 “Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109” (“FIN 48”). This Interpretation clarifies the accounting for uncertainty in income taxes recognized in an enterprise’s financial statements in accordance with FASB Statement No. 109, “Accounting for Income Taxes”. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. This Interpretation is effective for fiscal years beginning after December 15, 2006. Earlier application of the provisions of this Interpretation is encouraged if the enterprise has not yet issued financial statements, including interim financial statements, in the period this Interpretation is adopted. We do not expect that the application of this standard will have any significant effect on our results of operations or financial condition.

Other recently issued FASB Statements or Interpretations, SEC Staff Accounting Bulletins, and AICPA Emerging Issue Task Force Consensuses have either been implemented or are not applicable to the Company.

Results of Operations

The following table sets forth our statements of operations for the six months ended April 30, 2007 and 2006 and the years ended October 31, 2006 and 2005, in dollars (dollars in thousands) and as a percentage of revenue:

	Consolidated				Plaza-Only			
	Six months ended April 30, 2007		2006		Year ended October 31, 2006		2005	
Revenue	\$ 7,799	100.0%	\$ 7,209	100.0%	\$ 14,230	100.0%	\$ 17,413	100.0%
Cost of services	4,530	58.1%	4,266	59.2%	8,116	57.0%	9,401	54.0%
Gross profit	3,269	41.9%	2,943	40.8%	6,114	43.0%	8,012	46.0%
Selling, general and administrative costs	1,566	20.1%	1,020	14.1%	2,226	15.7%	1,611	9.2%
Interest expense	214	2.7%	134	1.9%	393	2.8%	11	0.1%
Income before income taxes	1,489	19.1%	1,789	24.8%	3,495	24.5%	6,390	36.7%
Income tax expense ¹	642	8.2%	420	5.8%	1,160	8.2%	--	--
Net income ¹	\$ 847	10.9%	\$ 1,369	19.0%	\$ 2,335	16.3%	\$ 6,390	36.7%

- (1) We were treated as an N Corporation under the Puerto Rico Internal Revenue Code, which is similar to an S Corporation under the Internal Revenue Code, prior to the reverse acquisition. As a result, we did not pay any income tax. Since January 25, 2006, we have been subject to income tax in Puerto Rico. If we had not been treated as an N Corporation during the six months ended April 30, 2006 or the fiscal years ended October 31, 2006 and 2005, our income before income taxes would have been taxed at rates ranging from 39% to 41.5%. The following table shows the income before income taxes, pro forma income taxes and pro forma net income for these periods in dollars (dollars in thousands) and as a percentage of revenue:

	Six Months Ended April 30, 2007		Six Months Ended April 30, 2006		Year Ended October 31, 2006		Year Ended October 31, 2005	
Income before income taxes	\$ 1,489	19.1%	\$ 1,789	24.8%	\$ 3,495	24.5%	\$ 6,390	36.7%
Pro forma income tax expense	642	8.2%	778	10.8%	1,518	10.6%	2,492	14.3%
Pro forma net income	\$ 847	10.9%	\$ 1,011	14.0%	\$ 1,977	13.9%	\$ 3,898	22.4%

Six Months Ended April 30, 2007 and 2006

Revenues. Revenues for the six-month period ended April 30, 2007 (the “April 2007 period”) were \$7.8 million, an increase of approximately \$0.6 million, or 8.2%, compared to the revenues for the six-month period ended April 30, 2006 (the “April 2006 period”). We increased our revenue notwithstanding a decline in revenue of approximately \$1.6 million from a major customer following the completion of a contract with that customer. This customer significantly reduced the scope of its operations by closing one of its two facilities in Puerto Rico and reduced personnel at the second. This decrease in revenue from this customer was offset mainly by an increase of approximately \$1.7 million from other customers that generated \$4.1 million in the April 2007 period as compared with \$2.4 for the April 2006 period.

Cost of Revenues; Gross Margin. The gross margin increased from 40.8% in the April 2006 period to 41.9% in the April 2007 period. The increase in gross margin was attributable to a higher proportion of independent contractors to employees, which resulted in savings in our cost of services.

Selling, General and Administrative Expenses. Selling, general and administrative expenses were approximately \$1.6 million during the April 2007 period, an increase of \$0.5 million, or 53.5%, from the selling, general and administrative expenses of \$1.0 million in the April 2006 period. The increase resulted from expenses related to an expansion of our executive staff, an increase in the monthly lease payments of our main office and to expenses of an office we opened in Pennsylvania in early January 2006. Prior to January 2006, our chief executive officer, Elizabeth Plaza, was our sole stockholder and she did not receive any salary prior to January 2006.

Interest Expense. Since January 25, 2006 and up to January 2007, we recognized approximately \$125,000 quarterly reflecting imputed interest expense incurred in connection with the long-term obligations to Ms. Plaza which originated as a result of the reverse acquisition. Because of the payment of the first installment of these obligations, the quarterly imputed interest expense on the obligations to Ms. Plaza decreased to approximately \$82,000.

Income Tax Expense. The increase of \$222,000 in the income tax expense for the April 2007 period as compared to the expense of \$420,000 for the April 2006 period resulted primarily from a change in our tax status. We became a regular corporation taxpayer effective January 25, 2006. Prior to that date, we did not pay taxes pursuant to the provisions of Subchapter N of Subtitle A of the Puerto Rico Internal Revenue Code, which is similar to Subchapter S of the United States Internal Revenue Code in that our taxable income was taxed to the stockholder.

Net Income. As a result of the increase in the selling, general and administrative expenses and the income tax expense, which was partially offset by an increase in gross profit, our net income for the April 2007 period decreased to approximately \$848,000, or \$0.04 per share (basic and diluted), a decline of approximately \$522,000, or 38.1%, from net income of \$1,369,000, or \$0.53 per share (basic) and \$0.10 per share (diluted), for the April 2006 period. The basic and diluted income per share amounts were also affected by the securities issued in connection with the private placement that was completed contemporaneously with the reverse acquisition. At that time, the Company issued shares of series A preferred stock which were convertible into 15,998,800 shares of common stock. The series A preferred stock was automatically converted into the 15,998,800 shares on April 25, 2006, when the Company increased its authorized capital stock. As a result, the shares of common stock that were issued upon conversion of the series A preferred stock are included in determining diluted earnings per share from January 25, 2006 until April 24, 2006 and in determining basic earnings per share thereafter.

Years Ended October 31, 2006 and 2005

Revenues. Revenues for the year ended October 31, 2006 were \$14.2 million, a decrease of \$3.2 million, or 18.4%, from the revenue of \$17.4 million in the prior year. The decrease reflected a decline in revenue of \$6.4 million from two of our largest customers, following completion of contract with these customers. One of these customers has announced that it is significantly reducing the scope of its operations by closing one of its two facilities in Puerto Rico and reducing personnel at the second. The decrease in revenue from these two customers was partially offset by an increase of \$4.3 million from two other customers that generated revenues of \$1.6 million in the year ended October 31, 2005.

Cost of Revenues; Gross Margin. Our gross margin decreased from 46% to 43% during the year ended October 31, 2006 as compared to the prior year. The reduction of gross margin was attributable to increased labor costs, which is the main component of our cost of revenues. Although we try to pass on the increased costs, we are not always able to do so in a timely manner, and there are often delays between the time we incur increased labor costs and the time we are able to increase our charges to customers. The increased labor costs are the result of the limited supply of available, qualified professionals and the constant demand for such persons from competing consulting firms and their customers, which condition is not expected to change in the ensuing fiscal year.

Selling, General and Administrative Expenses. Total expenses were approximately \$2.0 million during the year ended October 31, 2006, an increase of approximately \$510,000, or 33.5%, from the prior year. Such increase resulted mainly from expenses incurred since the completion of the reverse acquisition on January 25, 2006, the expenses related to executive salaries not previously incurred, as well as to legal and related expenses associated with SEC filings.

Interest Expense. Since January 25, 2006, we have been recognizing approximately \$125,000 quarterly corresponding to imputed interest expense incurred in connection with the long-term obligations to Ms. Plaza which originated as a result of the reverse acquisition. This expense will decrease as annual payments are made commencing in January 2007.

Income Tax Expense. The increase in the income tax expense results from a change in our tax status. We became a regular corporation taxpayer effective January 25, 2006. Prior to that, we were covered under the provisions of Subchapter N of Subtitle A of the Puerto Rico Internal Revenue Code which are similar to Subchapter S of the Internal Revenue Code in that our taxable income was taxed to the stockholders. The statutory tax rate in Puerto Rico is 39%, but adjusted to 41.5% for 2006 and 2007.

Net Income . As a result of our decline in revenues, combined with a lower gross margin resulting from the increase in labor costs, the increase in selling, general and administrative expenses, the recognition of imputed interest and the change of our tax status, our net income for the year ended on October 31, 2006 decreased to approximately \$2.3 million, or \$0.22 per share (basic) and \$0.13 per share (diluted), a decline of approximately \$4.1 million, or 64%, from \$6.4 million net income, or \$3.65 per share (basic) and \$1.58 per share (diluted), for the year ended October 31, 2005.

The basic and diluted income per share are also affected by the securities issued in connection with the private placement that was completed contemporaneously with the reverse acquisition. At that time, the Company issued shares of series A preferred stock which were convertible into 15,998,800 shares of common stock. The series A preferred stock was automatically converted into the 15,998,800 shares on April 25, 2006, when the Company increased its authorized capital stock. As a result, the shares of common stock that were issued upon conversion of the series A preferred stock are included in determining diluted earnings per share from January 25, 2006 until April 24, 2006 and in determining basic earnings per share thereafter.

Liquidity and Capital Resources

Liquidity is a measure of our ability to meet potential cash requirements, including planned capital expenditures. At April 30, 2007, we had working capital of approximately \$3.1 million, a decrease of \$1.5 million from the working capital of \$4.6 at October 31, 2006. Although we generated approximately \$3.8 million from operations during the April 2007 period, this increase was offset by a payment of \$2.75 million made to Elizabeth Plaza in connection with the acquisition of Plaza. At April 30, 2007, we have a \$2.6 million short term and a \$2.5 million long term obligations, both net of imputed interest, to Ms. Plaza for two payments of \$2.75 million each due in January 2008 and 2009, respectively.

Our primary cash needs consist of payments of compensation to professional employees, overhead expenses and payments due to Ms. Plaza pursuant to the terms of the acquisition of Plaza. In addition, since January 25, 2006, we have been subject to income tax in Puerto Rico. Our taxable income in Puerto Rico is taxed at rates ranging from 39% to 41.5% of taxable income.

Management believes that based on current levels of operations and anticipated growth, cash flows from operations, high quality customer receivables will be sufficient to fund anticipated expenses and satisfy other possible long-term contractual commitments, including our obligations to pay Ms. Plaza pursuant to the agreement relating to the acquisition of Plaza, for the next twelve months.

We are pursuing possible opportunities of expanding our operations beyond Puerto Rico. To the extent that we are able to expand our operations, either by acquisition or by the establishment of operations in a new country, we will incur additional overhead, and there may be a delay between the period we commence operations and our generation of cash flow from operations.

While uncertainties relating to competition, the industries and geographical regions served by the Company and other regulatory matters exist within the consulting services industry, management is not aware of any trends or events likely to have a material adverse effect on liquidity or its financial statements.

BUSINESS

We are a Puerto Rico-based company established in 1997 to offer consulting services to the pharmaceutical, biotechnology and chemical manufacturing industries. We were founded by Elizabeth Plaza after many years of hands on experience in technical services, process validation programs, cleaning procedures, validation, product and process transfers, process optimization, and quality and regulatory compliance programs. We have successfully grown our business operation by providing quality, value-added consulting services to the major pharmaceutical manufacturing

companies located throughout the island of Puerto Rico. To a lesser extent, we also provide consulting services to Puerto Rico companies operating in the United States and in Europe. We also intend to expand our operations to Ireland. We have a team of more than 150 qualified professionals with in-depth experience, and we have been designated as a preferred supplier by our major clients.

27

Our mission is to provide high quality services to the pharmaceutical, biotech, medical device and related industries to maintain or improve their quality standards and competitive value. A drug is considered to be adulterated if the method used in, or the facilities or controls used for, its manufacture, processing, packing or holding do not conform to or are not operated or administered in conformity with current good manufacturing practice of the Food and Drug Administration (“FDA”). These practices are designed to assure that the drug meets the requirements the regulations as to safety and meets the quality, strength and purity characteristics which the manufacturer claims. We assist our clients in complying with the government regulations by offering a full range of consulting services in the areas relating to compliance with the regulations. In addition, we provide resources to support the introduction of new pharmaceutical products, environmental safety and occupational health, project management, training services and computer systems. When the FDA finds that company is not in compliance with these practices, it may issue a list of observations, warning letter or require the company to enter into a consent decree by which the company agrees to take steps to correct its failure. A company may be required to hire additional personnel or engage a non-affiliated third party to monitor its compliance with the consent decree. The failure of the company to comply with good manufacturing practices, correct matters set forth in a warning letter or comply with the terms of a consent decree could result in penalties. We provide experienced resources to assist our clients in complying with these requirements and meeting their compliance commitments with the FDA.

Our highly-trained and experienced engineering and life science professionals include former FDA investigators, former quality assurance managers or directors, and experienced and well-trained professionals with masters and doctorates in health sciences and engineering. Its professional staff is committed to our objective to provide a flexible, common sense and cost effective approach to meet our client’s needs, strategies and budget objectives.

We have established quality systems for our employees which include:

- Training Programs - including a Current Good Manufacturing Practices exam prior to recruitment and quarterly refreshers;
- Recruitment Full Training Program - including employee manual, dress code, time sheets and good projects management and control procedures, job descriptions, and firm operating and administration procedures;
- Safety Program - including OSHA and health (medical surveillance, certificate of good health, drug screening, background checks including conduct certificates, alcohol and smoke free policy);
- Code of Ethics - A code of ethics and business conduct is used and enforced as one of the most significant company controls on personal behavior.

In addition, we have implemented procedures to respond to client complaints and customer satisfaction survey procedures. As part of our employee performance appraisal annual process, our clients receive an evaluation form for employee project performance feedback, including with our code of ethics.

In January 2006, we acquired certain assets for a purchase price of \$300,000. The acquired assets include a client list and a validation compliance service business. The purchase price was paid in three installments of \$100,000. We have also hired nine former employees of the business.

Business Strategy and Objectives

We have a well-established and consistent relationship with the major pharmaceutical, biotechnology, medical device and chemical manufacturing companies in Puerto Rico. Our business strategy is based on a commitment to provide premium quality and professional consulting services and reliable customer service to our customer base. Our business strategy and objectives are as follows:

- Continue growth in consulting services in each technical service, quality assurance, regulatory compliance, validation, engineering, safety and environmental and manufacturing departments by achieving greater market penetration from our marketing and sales efforts;
- Continue to enhance our technical consulting services through an increase in professional staff through internal growth and acquisitions that provides the best solutions to our customers' needs;
- Motivate our professionals and support staff by implementing a compensation program which includes both individual performance and overall company performance as elements of compensation;
- Create a pleasant corporate culture and emphasize operational safety and timely service;
- Continue to maintain our reputation as a trustworthy and highly ethical partner; and
- Efficiently manage our operating and financial costs and expenses.

Technical Consulting Services

We have established a reputation as a premier technical consulting services firm to the pharmaceutical, biotechnology, medical device and chemical manufacturing industries in Puerto Rico. These services include regulatory compliance, validation, technology transfer, engineering, safety and environmental, training, project management and process support. We have approximately 20 clients that are among the largest pharmaceutical, chemical manufacturing, medical device and biotechnology companies in Puerto Rico. We attend exhibitions, conferences, conventions and seminars as either exhibitors, sponsors or conference speakers.

Marketing

We conduct our marketing activities primarily within the local Puerto Rico marketplace. We actively utilizes our project managers and leaders who are currently managing consulting service contracts at various client locations to also market consulting services to their existing and past client relationships. Our senior management is also actively involved in the marketing process, especially in marketing to major accounts. Our senior management and staff also concentrate on developing new business opportunities and focus on the larger customer accounts (by number of professionals or dollar volume) and responding to prospective customers' requests for proposals.

Principal Customers

Two customers accounted for 10% or more of our revenue during the six months ended April 30, 2007. These two customers and/or two other customers accounted for 10% in the six months ended April 30, 2006, and the years ended October 31, 2006 and 2005. In spite of the fact that just a few customers represent a significant source of revenue, our

functions are not a continuous process, accordingly, the client base for which our services are typically rendered, on a project-by-project basis, changes regularly. The following table sets forth information as to revenue and percentage of revenue for these periods (dollars in thousands) for our principal clients, all of which are major pharmaceutical companies:

29

Customer	Six Months Ended April 30,		Year Ended October 31,	
	2007	2006	2006	2005
	2,363	1,796	4,248	
GlaxoSmithKline	\$ (30.3%)	\$ (24.9%)	\$ (29.9%)	\$ 637 (3.7%)
	1,723		1,727	
Johnson & Johnson	(22.1%)	589 (8.2%)	(12.1%)	969 (5.6%)
			1,445	3,312
Lilly del Caribe	508 (6.5%)	783 (10.9%)	(10.2%)	(19.0%)
		2,097	2,935	7,523
Schering-Plough	460 (5.9%)	(29.1%)	(20.6%)	(43.2%)
	5,064	5,295	10,355	12,441
	\$ (64.8%)	\$ (73.1%)	\$ (72.8%)	\$ (71.5%)

Competition

We are engaged in a highly competitive and fragmented industry. Some of our competitors are, on an overall basis, larger than we or are subsidiaries of larger companies, and therefore may possess greater resources than we. Furthermore, because the technical professional aspects of our business do not usually require large amounts of capital, there is relative ease of market entry for a new entrant possessing acceptable professional qualifications. Accordingly, we compete with regional, national, and international firms. Within the Puerto Rico marketplace, certain competitors, including local competitors, may possess greater resources than we do as well as better access to clients and potential clients.

Our competitors for validation and compliance consulting services consist of large public and private companies such as Fluor Corporation, Foster Wheeler Corp., Siemens, Skanska Pharmaceutical, and Washington Group International, as well as smaller validation companies located in Puerto Rico and mainland United States. Although we are the largest consulting firm in Puerto Rico, as measured by number of professionals dedicated to providing validation and compliance consulting services in Puerto Rico, these companies, which offer consulting services similar to those we offer, have significantly more resources than we have and may have relationships with pharmaceutical, biotechnology and chemical manufacturing companies in the United State or in other parts of the world.

Competition for validation and consulting services is based primarily on reputation, track record, experience, quality of service and price. We believe that we enjoy significant competitive advantages over other consulting service firms because of our historical market share within Puerto Rico, brand name, reputation and track record with many of the major pharmaceutical, biotechnology and chemical manufacturing companies in Puerto Rico.

Because of recent consolidations in the pharmaceutical consulting business in Puerto Rico, we are faced with an increasing number of larger companies that offer a wider range of services than we and which also have better access to capital. We believe that larger and better-capitalized competitors have enhanced abilities to compete for both clients and skilled professionals. In addition, one or more of our competitors may develop and implement methodologies that result in affecting their, and thus, potentially, our profit.

The market of qualified and/or experienced professionals that are capable of providing technical consulting services is very competitive and consists primarily of our competitors as well as companies in the pharmaceutical, chemical, biotechnology and medical devices industries who are our clients and potential clients. In seeking qualified personnel we market our name recognition in the Puerto Rico market, our reputation with our client, salary and benefits, quality training and a low turnover of professional employees.

Intellectual Property Rights

We have no proprietary software or products. We rely on non-disclosure agreements with our employees to protect the proprietary software and other proprietary information of our clients. Any unauthorized use or disclosure of this information could harm our business.

Personnel

We currently employ twelve administrative and technical staff employees and approximately 150 technical consultants who provide consulting services to several of our clients. Most of our technical consultants are employees, although we do engage independent consultants on a contract basis. In general, when we hire independent consultants, it is for specific projects where we do not expect to require their services on a long-term basis. We may replace the independent consultants with our own employees or hire them if we see a longer term requirement. None of our employees are represented by a labor union, and we consider our employee relations to be good.

Property

In February 2007, we entered into a five-year lease with Plaza Professional Center, Inc., a company controlled by Elizabeth Plaza, for facilities used as our main offices. The lease agreement may be renewed for one five year additional term. The monthly rent is \$18,750 and will increase by 5% annually. The new agreement also requires the payment of utilities, property taxes, insurance and a portion of expenses incurred by the affiliate in connection with the maintenance of common areas. We paid a monthly rental of \$3,200 under the lease agreement of our former main resources facilities.

We also lease office space in Limerick, Pennsylvania, at a monthly rental of \$1,000. This lease expires on July 31, 2007, but the agreement may be terminated earlier by giving a prior 90 days written notice. The lease may be renewed for an additional term of three years at monthly rental of \$1,050 during the first year, \$1,100 during the second year, and \$1,150 during the third year of the lease renewal term.

We believe that our present facilities are adequate to meet our needs and that, if we require additional space, it is available on commercially reasonable terms.

MANAGEMENT

Directors and Executive Officers

The following table sets forth certain information with respect to our directors and executive officers.

Name	Age	Position
Elizabeth Plaza	43	President, chairman of the board and director
Nélida Plaza	39	Vice president and secretary
Manuel O. Morera	51	Chief financial officer and vice president - finance and administration
Dov Perlysky	44	Director
Kirk Michel ¹	51	Director
Howard Spindel ¹	62	Director
Irving Wiesen ¹	52	Director

¹ Member of the audit and compensation committees.

Elizabeth Plaza has been president and sole director of Plaza since 1997, and she has been our president and chief executive officer since January 25, 2006. Ms. Plaza holds a B.S. in Pharmaceutical Sciences, magna cum laude, from the School of Pharmacy of the University of Puerto Rico. She was the 2003 recipient of Ernst & Young's Entrepreneur of the Year Award in Health Science, a 40 under 40 Caribbean Business Award recipient in 2002 and the 2003 recipient of the Puerto Rico Powerful Business Women Award. Ms. Plaza is a registered Pharmacist.

Nélida Plaza has been vice president of operations of Plaza since January 2004 and has been our vice president and secretary since January 25, 2006. In July 2000, Ms. Plaza joined Plaza as a project management consultant. Prior thereto, she was a unit operations leader and safety manager at E.I. Dupont De Nemours where she was involved with the development, support and audit of environmental, safety and occupational health programs. Ms. Plaza holds a M.S. in Environmental Management from the University of Houston in Clear Lake and a B.S. in Chemical Engineering from the University of Puerto Rico.

Manuel O. Morera has been our chief financial officer and vice president - finance and administration since April 2006, and was working for us on a part-time basis since March 24, 2006. Mr. Morera is a certified public accountant. From 1997 until April 2006, Mr. Morera was in private practice as an accountant, tax and business counselor. From 1983 until 1997, Mr. Morera was a senior auditor, audit supervisor, manager and senior manager with the accounting firm of Horwath Velez PSC, formerly Laventhol and Horwath Co. Mr. Morera is a cum laude graduate in business administration (accounting) from the University of Puerto Rico.

Dov Perlysky has been our president and a director since 2004 and has been the managing member of Neshor, LLC a private investment firm since 2000. On January 25, 2006, in connection with the reverse acquisition, Mr. Perlysky resigned as president and became a consultant to us. From 1998 until 2002, Mr. Perlysky was a vice president in the private client group of Laidlaw Global Securities, a registered broker-dealer. He received his B.S. in Mathematics and Computer Science from the University of Illinois in 1985 and a Masters in Management from the JL Kellogg Graduate School of Northwestern University in 1991. Mr. Perlysky is a director of Engex, Inc., a closed-end mutual fund.

Kirk Michel, a director since January 25, 2006, has been a managing director of KEMA Advisors, Inc., a boutique financial advisory firm located in Hillsborough, North Carolina since 2002. KEMA Advisors provides financial advisory services to middle market companies and governmental agencies. From 1995 to 2002, Mr. Michel was the co-founder and a managing director of Bahia Group Holdings, LLC which provided corporate finance, public finance and merger and acquisition services to middle market companies and governmental agencies. Mr. Michel holds a M.B.A. degree from the Columbia University Graduate School of Business and a B.A. in Economics from Northwestern University.

Howard Spindel, a director since January 25, 2006, has been a consultant with Integrated Management Solutions, a securities industry consulting and recruitment firm which he founded, since 1985. In this capacity, he has also acted as a financial and operations principal, general securities principal, registered representative and options principal for several broker-dealers during this period. He is also a director of Engex, Inc., a closed-end mutual fund. Mr. Spindel received a B.S. in accounting from Hunter College.

Irving Wiesen, a director since January 25, 2006, has practiced as an attorney specializing in food and drug law and regulation in the pharmaceutical and medical device industries for more than twenty-five years. For more than the past five years he has been of counsel to the New York law firms, Ullman, Shapiro and Ullman, LLP and Cohen, Tauber, Spievack & Wagner. Prior to that, Mr. Wiesen was a partner in the New York food and drug law firm, Bass & Ullman, and also served as division counsel of Boehringer Ingelheim Pharmaceuticals, Inc. Mr. Wiesen represents pharmaceutical, medical device and biotechnology companies in all aspects of FDA regulation, corporate practice and compliance, litigation and allied commercial transactions. Mr. Wiesen received his J.D. degree from the New York University School of Law and holds an M.A. in English Literature from Columbia University and a B.A., cum laude, from Yeshiva University.

Elizabeth Plaza and Nélica Plaza are sisters. There is no other family relationship among our officers and directors.

Board Committees

The board of directors has two committees, the audit committee and the compensation committee. Kirk Michel, Howard Spindel and Irving Wiesen, each of whom is an independent director, are the members of both committees. Mr. Spindel is the audit committee financial expert.

Executive Compensation

Summary Compensation Table

Prior to the reverse acquisition, we did not pay any compensation to any executive officers. Set forth below is information for Plaza's chief executive officer and each of its other officers whose compensation exceeded \$100,000 for the fiscal year ended October 31, 2006.

Name and Position	Fiscal Year	Annual Compensation		Long-Term Compensation (Awards)		All other Compensation
		Salary	Bonus	Options (number)		
Elizabeth Plaza, president and chief executive officer	2006	\$ 173,378	—	—	—	\$ 34,423
	2005	—	—	—	—	281,521
Nélica Plaza, vice president	2006	130,120	—	131,455	—	17,094
	2005	84,723	—	—	—	54,688

Prior to the reverse acquisition, Plaza Consulting Group, which was then wholly owned by Elizabeth Plaza, had granted Nélica Plaza an option to purchase 500 shares of its common stock at an exercise price of \$138.19 per share. At the consummation of the reverse merger in January 2006, we granted Ms. Nélica Plaza options to purchase 131,455 shares of common stock at an exercise price of \$.7344 per share, the fair market value on the date of grant, of which an option to purchase 94,083 shares of our common stock was issued to replace the Plaza Consulting option.

No bonuses were paid to any of the officers and no stock or other equity compensation was provided to any of the officers during the years ended October 31, 2006 and 2005.

Other compensation for Elizabeth Plaza represents payment of personal expenses which we paid on behalf of Ms. Plaza, who was the sole stockholder of Plaza up to January 25, 2006. It also includes a \$2,069 monthly payment of a lease obligation of the Company for the vehicle assigned to her.

Other compensation paid to Nélica Plaza includes the following:

Description	Years Ended October 31,	
	2006	2005
Housing	\$ 4,428	\$ 25,175
Life insurance	2,005	12,034
Tuition for her child	—	11,280
Car allowance	1,000	6,000
Payments of lease obligation for the vehicle assigned to her	9,660	—
Other	—	199

\$	17,094	\$	54,688
----	--------	----	--------

Payments for housing, child tuition and car allowances to the above executive officers were discontinued after December 31, 2005.

Prior to the reverse acquisition, Plaza was taxed as a Subchapter N corporation under the Puerto Rico tax law, which is similar to treatment as an S Corporation under the Internal Revenue Code. As a result, Elizabeth Plaza was taxed on Plaza's income. Up to December 2005, we did not pay Elizabeth Plaza any salary. We made distributions to Ms. Plaza in the amount of \$834,000 for the year ended October 31, 2006 and approximately \$8.0 million for the year ended October 31, 2005.

As a result of our acquisition of Plaza, Plaza's status as a Subchapter N corporation terminated on January 25, 2006, the date of our acquisition of Plaza. Ms. Plaza is responsible for any taxes which are payable as a result of the Plaza's loss of its Subchapter N status under the Puerto Rico tax laws. However, we, and not Ms. Plaza, are responsible for any taxes on the Plaza's taxable income during the period from the December 1, 2005 to January 24, 2006, which amounted to \$125,227, and was paid on June 15, 2006.

Employment Agreements

On January 25, 2006, we entered into employment agreements with Elizabeth Plaza and Nélide Plaza. Our agreement with Elizabeth Plaza initially provided that Ms. Plaza will serve as our president and chief executive officer for a period of 18 months, for which she will receive a salary at the annual rate of \$250,000. For 18 months thereafter, Ms. Plaza will serve as a consultant for which she will receive compensation at the annual rate of \$75,000. In January 2007, this agreement was amended to extend the employment agreement to December 31, 2007. As a result of the amendment, the consulting term will commence immediately following the employment term and will end on January 31, 2009. During the term of her employment, we will also provide Ms. Plaza with an automobile allowance at the annual rate of \$24,828, discretionary bonuses and stock options or other equity-based incentives as shall be determined by our compensation committee, except that her bonus shall not be less than 4% nor more than 50% of her salary. If we terminate Ms. Plaza's employment other than for cause or as a result of her death or disability, we are required to pay Ms. Plaza the balance of her compensation for her employment terms and her consulting term and other benefits, including a pro rata portion of the bonus that would have been paid to her, and her obligations under her non-competition provision terminate. Since the bonus is discretionary, with a minimum bonus of 4% of Ms. Plaza's salary, unless the compensation committee shall have provided for a greater bonus prior to the termination of Ms. Plaza's employment without cause, Ms. Plaza would not be entitled to a bonus greater than \$10,000, which is 4% of \$250,000, the amount of the bonus to be based on the remaining employment term.

Our agreement with Nélide Plaza provides that Ms. Plaza will serve as vice president for a term of three years for which she will receive annual compensation at the annual rate of \$150,000. She is also entitled to bonus compensation as is determined by the compensation committee, not to exceed 50% of her salary. We also agreed to make the lease payments on the automobile she currently leases. Such payments are at the annual rate of approximately \$11,600. If we terminate Ms. Plaza's employment other than for cause or as a result of her death or disability, we are required to pay Ms. Plaza her compensation for the balance of the term and other benefits, including a pro rata portion of the bonus that would have been paid to her, and her obligations under her non-competition provision terminate. Since Ms. Plaza's employment contract provides for a discretionary bonus, unless the compensation committee shall have provided for a bonus to Ms. Plaza prior to the termination of her employment without cause, Ms. Plaza would not be entitled to any bonus payment.

The employment agreements with both Elizabeth Plaza and Néida Plaza provide that during the term of the agreement and for two years thereafter, the executive will not, directly or indirectly engage in a competing business or solicit any customer or seek to persuade any customer to reduce the amount of business it does with us or seek to persuade any employee to leave our employ.

In April 2006, we entered into an employment agreement with Mr. Morera pursuant to which we paid Mr. Morera an annual salary of \$80,000. The agreement expired on April 3, 2007. Mr. Morera is continuing to serve in the capacity of chief financial officer on at-will-basis.

2005 Long-Term Incentive Plan

In October 2005, our board of directors adopted, and in April 2006, our stockholders approved, the 2005 Long-Term Incentive Plan, covering 2,500,000 shares of common stock. The 2005 plan provides for the grant of incentive and non-qualified options, stock grants, stock appreciation rights and other equity-based incentives to employees, including officers, and consultants. The 2005 Plan is to be administered by a committee of independent directors. In the absence of a committee, the plan is administered by the board of directors. Independent directors are not eligible for discretionary options. However, each newly elected independent director receives at the time of his or her election, a five-year option to purchase 25,000 shares of common stock at the market price on the date of his or her election. In addition, the plan provided for the annual grant of an option to purchase 5,000 shares of common stock on the first trading day of January of each year, commencing January 2007; however, on April 19, 2007, the stockholders amended the plan to increase the number of options granted to its independent directors annually from 5,000 to 10,000 shares of common stock. On April 19, 2007, the stockholders also amended the plan to provide for a grant to purchase 5,000 shares of common stock at the market price to each advisory board member on the date of his or her election and a grant of 5,000 options to each of them annually. The options to directors have a term of five years and become exercisable cumulatively as to 50% of the shares subject to the option six months from the date of grant and, as to the remaining 50%, 18 months from the date of grant. Pursuant to this provision, on January 25, 2006, options to purchase 25,000 shares at \$0.7344 per share, being the fair market value on the date of grant, were automatically granted to Messrs. Kirk Michel, Howard Spindel and Irving Wiesen. On January 3, 2007, we granted options to purchase 5,000 additional shares to each of these directors under the same terms as those granted on January 25, 2006, except for that the exercise price is \$0.75 per share.

Options intended to be incentive stock options must be granted at an exercise price per share which is not less than the fair market value of the common stock on the date of grant and may have a term which is not longer than ten years. If the option holder holds 10% of our common stock, the exercise price must be at least 110% of the fair market value on the date of grant and the term of the option cannot exceed five years. As of April 30, 2007, there were outstanding options to purchase 1,429,519 shares of common stock at a weighted-average exercise price of approximately \$0.75 per share, including options to purchase 90,000 shares of common stock which we granted to Manuel O. Morera, our chief financial officer.

Option holders do not recognize taxable income upon the grant of either incentive or non-qualified stock options under the Internal Revenue Code of 1986. When employees exercise incentive stock options, they will not recognize taxable income upon exercise of the option, although the difference between the exercise price and the fair market value of the common stock on the date of exercise is included in income for purposes of computing their alternative minimum tax liability, if any. If certain holding period requirements are met, their gain or loss on a subsequent sale of the stock will be taxed at capital gain rates. Generally, long-term capital gains rates will apply to their full gain at the time of the sale of the stock, provided that they do not dispose of the stock made within two years from the date of grant of the option or within one year after your acquisition of such stock, and the option is exercised while they are employed by us or within three months of the termination of their employment or one year in the event of death or disability, as defined in the Internal Revenue Code. Employees who are residents of Puerto Rico are subject to the Puerto Rico Code, which may be different from tax treatment under the Internal Revenue Code.

In general, upon the exercise a non-qualified option, the option holder will recognize ordinary income in an amount equal to the difference between the exercise price of the option and the fair market value of the shares on the date he or she exercises the option. Subject to certain limitations, we may deduct that amount as an expense for federal income tax purposes. In general, when the holders of shares issued on exercise of a nonqualified stock option sell their shares, any profit or loss is short-term or long-term capital gain or loss, depending upon the holding period for the shares and their basis in the shares will be the fair market value on the date of exercise.

PRINCIPAL STOCKHOLDERS

The following table provides information as to shares of common stock beneficially owned as of August 29, 2007 by:

- each director;
- each officer named in the summary compensation table;
- each person owning of record or known by us, based on information provided to us by the persons named below, to own beneficially at least 5% of our common stock; and
- all directors and executive officers as a group.

Name	Shares of Common Stock Beneficially Owned	Percentage
Elizabeth Plaza Sardinera Beach Building, Suite 2 Marginal Costa de Oro Dorado, Puerto Rico 00646	1,150,000	5.9%
Dov Perlysky 445 Central Avenue, Suite 305 Cedarhurst, New York 11516	1,200,000	6.1%
Kirk Michel	523,406	2.7%
Howard Spindel	12,500	*
Irving Wiesen	12,500	*
All officers and directors as a group (five individuals owning stock)	2,898,406	14.8%
Venturetek LP 370 Lexington Avenue New York, NY 10017	4,697,990	23.9%
San Juan Holdings, Inc. MCS Plaza, Suite #305 255 Ponce de León Ave. Hato Rey, PR 00917	4,486,324	22.9%
Barron Partners LP 730 Fifth Avenue New York, NY 10019	3,899,174	19.9%
Pentland USA, Inc. 3333 New Hyde Park Road New Hyde Park, NY 11042	1,532,719	7.8%
Fame Associates 111 Broadway New York, NY 10006	1,532,719	7.8%
LDP Family Partnership, LP 2 Lakeside Drive West Lawrence, NY 11559	1,158,839	5.9%

* Less than 1%.

Except as otherwise indicated, each person has the sole power to vote and dispose of all shares of common stock listed opposite his name. Each person is deemed to own beneficially shares of common stock which are issuable upon exercise or conversion of currently convertible securities. Currently convertible securities are warrants or options or convertible securities which are exercisable or convertible within 60 days of August 29, 2007. The beneficial ownership of each person named is determined in accordance with the rules of the Securities and Exchange Commission under the Securities Exchange Act of 1934. Under these rules, a person is deemed to beneficially own the total number of shares of common stock which he or she owns plus the number of shares of common stock which are issuable upon exercise of currently exercisable securities. The percentage ownership of each person is the percentage that the number of shares beneficially owned by that person bears to the sum of (a) the outstanding common stock plus (b) the shares of common stock issuable upon exercise or conversion of those currently convertible securities that are owned by that stockholder.

The shares owned by San Juan Holdings, Inc. include (a) 3,010,600 shares of common stock issuable upon exercise of warrants and (b) 275,724 shares of common stock issuable upon exercise of a warrant.

The shares of common stock beneficially owned by Mr. Michel consist of 12,500 shares of common stock issuable upon exercise of options, 340,706 shares of common stock owned by KEMA Advisors, of which Mr. Michel is managing director, and 163,000 shares issuable upon exercise of warrants held by KEMA Advisors. KEMA Advisors is a selling stockholder.

The shares of common stock beneficially owned by Mr. Perlysky consist of 240,000 shares of common stock owned by Krovim, LLC and 960,000 shares of common stock issuable upon exercise of warrants held by Krovim. Mr. Perlysky is the manager of Nesher, LLC, which is the manager of Krovim. Mr. Perlysky disclaims beneficial interest in the shares owned by Krovim. Shares owned by Mr. Perlysky do not include 772,971 shares owned by LDP Family Partnership or warrants to purchase 386,048 shares of common stock held by LDP Family Partnership. Mr. Perlysky's wife is general partner of LDP Family Partnership and Mr. Perlysky disclaims beneficial ownership in the securities owned by it.

The shares of common stock owned by each of Mr. Spindel and Mr. Wiesen represent shares issuable upon exercise of options.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

On January 25, 2006, we acquired Plaza from Elizabeth Plaza, as the sole stockholder of Plaza. At the closing, we paid Ms. Plaza \$10,000,000 and issued to Ms. Plaza 1,150,000 shares of common stock. In addition, we will pay Ms. Plaza three payments, each in the amount of \$2,750,000, on January 25, 2007, 2008 and 2009. With Ms. Plaza's consent, we are making the \$2.75 million payment in two installments, one in January 2007 and the second in February 2007. As a condition to closing, Plaza was required to have a net tangible book value of not less than \$5,500,000, of which at least \$2,000,000 was to be in cash, as of November 30, 2005, with the excess to be paid to Ms. Plaza. The amount due to Ms. Plaza under this provision was \$88,161 and was paid on June 15, 2006. Pursuant to the merger agreement, we were required to reimburse Ms. Plaza for income tax which she paid on our income from December 1, 2005 until January 24, 2006. This amounted to \$125,227 and was paid on June 15, 2006.

San Juan Holdings represented Plaza and Elizabeth Plaza in connection with the reverse acquisition. For such services, we issued 600,000 shares of common stock and warrants to purchase 2,500,000 shares of common stock, with an exercise price of \$0.06 per share, to San Juan Holdings. In our private placement of series A preferred stock and warrants, San Juan Holdings purchased three units. The purchase price for the three units was \$750,000. The broker, which is an affiliate of San Juan Holdings, waived the commission and the non-accountable expense

allowance with respect to such sales, and as a result, San Juan Holdings purchased the three units for a net payment of \$652,500. The three units were comprised of 75,000 shares of series A preferred stock and warrants to purchase 510,600 shares of common stock. The shares of series A preferred stock became converted into 1,021,200 shares of common stock. We also issued 919 shares of common stock to San Juan Holdings as a result of our failure to filing the registration statement of which this prospectus is a part in a timely manner. We also paid an affiliate of San Juan Holdings a broker's commission and non-accountable expense allowance of \$195,000 for sales made to other purchasers in the private placement, and we issued to the affiliate three-year warrants to purchase an aggregate of 275,724 shares of common stock at an exercise price of \$0.7344 per share.

37

KEMA Advisors, Inc., of which Kirk Michel, a director, is managing director, purchased one unit, consisting of 25,000 shares of series A preferred stock and warrants to purchase an aggregate of 170,200 shares of common stock for \$250,000. The shares of series A preferred stock became converted into 340,400 shares of common stock. We also issued 306 shares of common stock to KEMA Advisors for our failure to file the registration statement in a timely manner. KEMA Advisors is a selling stockholder.

In January 2006, we acquired certain assets of a United States based company that performs consulting services for the pharmaceutical and biotech industries from Mark Fazio for \$300,000. The acquired assets include a client list and a validation compliance service business. The purchase price was paid in three installments, each in the amount of \$100,000. At the time of the purchase we had no relationship with Mr. Fazio, and he was subsequently elected as executive vice president and chief operating officer. He served in those capacities until March 31, 2006.

DESCRIPTION OF CAPITAL STOCK

Our authorized capitalization consists of 10,000,000 shares of preferred stock, par value \$.0001 per share, and 50,000,000 shares of common stock, par value \$.0001 per share.

Common Stock

Holders of common stock are entitled to one vote for each share held of record on all matters submitted to a vote of stockholders and are entitled to share in such dividends as the board of directors, in its discretion, may declare from funds legally available. In the event of liquidation, each outstanding share entitles its holder to participate ratably in the assets remaining after payment of liabilities.

Our directors are elected by a plurality vote. Because holders of common stock do not have cumulative voting rights, holders or a single holder of more than 50% of the outstanding shares of common stock present and voting at an annual stockholders meeting at which a quorum is present can elect all of our directors. Our stockholders have no preemptive or other rights to subscribe for or purchase additional shares of any class of stock or of any other securities.

The transfer agent for our common stock is American Stock Transfer & Trust Company.

Preferred Stock

The board of directors is authorized to issue up to 10,000,000 shares of preferred stock, which may be issued in series from time to time with such designations, rights, preferences and limitations as the board of directors may declare by resolution. The rights, preferences and limitations of separate series of preferred stock may differ with respect to such matters as may be determined by the board of directors, including, without limitation, the rate of dividends, method and nature of payment of dividends, terms of redemption, amounts payable on liquidation, sinking fund provisions (if any), conversion rights (if any) and voting rights. The potential exists, therefore, that additional shares of preferred stock might be issued which would grant dividend preferences and liquidation preferences to preferred stockholders over common stockholders. Unless the nature of a particular transaction and applicable statute require such approval, the board of directors has the authority to issue shares of preferred stock without stockholder approval. The issuance of preferred stock may have the effect of delaying or preventing a change in control without any further action by stockholders.

Investor Warrants

In connection with our January 2006 private placement, we issued warrants to purchase 3,999,700 shares of common stock at an exercise price of \$1.10 per share and warrants to purchase an additional 3,999,700 shares of common stock at an exercise price of \$1.65 per shares. These warrants have a term which expires five years from the closing date and are callable by us if the closing price of our common stock is at least twice the exercise price of the warrants for 20 consecutive trading days. The warrants became exercisable when we filed our restated certificate of incorporation with the Secretary of State of the State of Delaware.

Other Warrants

As of December 31, 2005, warrants to purchase 1,600,000 shares of common stock at an exercise price of \$0.06 per share were outstanding. These warrants are exercisable until January 16, 2014, and the holders have cashless exercise rights. The holders of these warrants have the same registration rights as are granted to Elizabeth Plaza with respect to the 1,150,000 shares of common stock issued to her pursuant to the merger agreement.

At the closing of the acquisition of Plaza we issued to San Juan Holdings warrants to purchase 2,500,000 shares of common stock at an exercise price of \$.06 per shares. The warrants are exercisable until January 16, 2014. San Juan Holding has the same registration rights as are granted to Elizabeth Plaza with respect to the 1,150,000 shares of common stock issued to her pursuant to the merger agreement.

Broker-Dealer Warrants

At the closing of the reverse acquisition we issued to broker-dealers who assisted us in our January 2006 private placement, three-year warrants to purchase an aggregate of 1,439,892 shares of common stock at an exercise price of \$.7344 per shares. The holders of the warrants have piggyback registration rights for the common stock issuable upon exercise of the warrants, which will include a standard underwriters' right to exclude shares, commencing six months after the effective date of the registration statement of which this prospectus is a part.

Delaware Law Provisions

We are subject to the provisions of Section 203 of the Delaware General Corporation Law statute. Section 203 prohibits a publicly-held Delaware corporation from engaging in a "business combination" with an "interested stockholder" for a period of three years after the person became an interested stockholder, unless the business combination is approved in a prescribed manner. A "business combination" includes mergers, asset sales and other transactions resulting in a financial benefit to the interested stockholder. Subject to certain exceptions, an "interested stockholder" is a person who, together with affiliates and associates, owns, or within the prior three years did own, 15% or more of the corporation's voting stock.

Our certificate of incorporation contains certain provisions permitted under Delaware General Corporation Law relating to the liability of directors. The provisions eliminate a director's liability for monetary damages for a breach of fiduciary duty, except in certain circumstances where such liability may not be eliminated under applicable law. Further, our certificate of incorporation contains provisions to indemnify our directors and officers to the fullest extent permitted by Delaware General Corporation Law.

EXPERTS

The financial statements for the years ended October 31, 2006 and 2005, included in this prospectus to the extent and for the periods indicated in their reports, have been audited by Horwath Vélez & Co. PSC and Kevane Soto Pasarell Grant Thornton LLP, independent registered public accountants, and are included herein in reliance upon the authority of such firms as experts in accounting and auditing in giving such reports.

LEGAL MATTERS

The validity of the shares of common stock offered through this prospectus will be passed on by Sichenzia Ross Friedman Ference LLP.

HOW TO GET MORE INFORMATION

We file annual, quarter and periodic reports, proxy statements and other information with the Securities and Exchange Commission using the Commission's EDGAR system. You may inspect these documents and copy information from them at the Commission's public reference room at 100 F Street, NE, Washington, D.C. 20549. You may obtain information on the operation of the public reference room by calling the SEC at 1-800-SEC-0330. The Commission maintains a web site that contains reports, proxy and information statements and other information regarding registrants that file electronically with the Commission. The address of such site is <http://www.sec.gov>.

We have filed a registration statement with the Commission relating to the offering of the shares. The registration statement contains information which is not included in this prospectus. You may inspect or copy the registration statement at the Commission's public reference facilities or its website.

You should rely only on the information contained in this prospectus. We have not authorized any person to provide you with any information that is different.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors and Stockholders of
Pharma-Bio Serv, Inc.
Dorado, Puerto Rico

We have audited the accompanying consolidated balance sheet of **Pharma-Bio Serv, Inc.** as of October 31, 2006, and the related consolidated statements of operations, changes in stockholders' equity and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit. The financial statements of **Plaza Consulting Group, Inc.** (which was involved in a reverse merger with Lawrence Consulting Group, Inc., now Pharma-Bio Serv, Inc.) for the year ended October 31, 2005 were audited by other auditors whose report dated December 30, 2005 expressed an unqualified opinion on those statements.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of **Pharma-Bio Serv, Inc.** as of October 31, 2006, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

REPORT OF INDEPENDENT REGISTERED ACCOUNTING FIRM

**To the Stockholder of
Plaza Consulting Group, Inc.:**

We have audited the accompanying balance sheets of **PLAZA CONSULTING GROUP, INC.** as of October 31, 2005 and 2004, and the related statements of income, changes in stockholder's equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards as established by the Auditing Standards Board (United States) and in accordance with the auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over the financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant use of estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of **Plaza Consulting Group, Inc.** as of October 31, 2005 and 2004, and the results of its operations, and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

PHARMA-BIO SERV, INC.
NOTES TO FINANCIAL STATEMENTS
For the Six-Month Periods Ended April 30, 2007 and 2006
And the Years Ended October 31, 2006 and 2005
(Information for the six months ended April 30, 2007 and 2006 is unaudited)

NOTE A - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

BASIS OF PRESENTATION

Pharma-Bio Serv, Inc. ("Pharma-Bio") is a Delaware corporation organized on January 14, 2004, under the name Lawrence Consulting Group, Inc. ("Lawrence"). Pharma-Bio is the parent company of Plaza Consulting Group, Inc. ("Plaza"), a Puerto Rico corporation, which operates in Puerto Rico and the United States under the name of Pharma Serv and is engaged in providing technical compliance consulting services primarily to the pharmaceutical, chemical, medical device and biotechnology industries. Pharma-Bio and Plaza are collectively referred to as the "Company".

On January 25, 2006, Pharma-Bio acquired Plaza in a transaction that is accounted for as a reverse acquisition. Although Pharma-Bio, then known as Lawrence, is the corporation that made the acquisition, for accounting purposes, Plaza is treated as the acquiring company. As a result, the financial statements reflect the results of operations and cash flows of Plaza prior to January 25, 2006 and the consolidated financial position and results of operations of Pharma-Bio and Plaza from and after January 25, 2006.

All intercompany transactions and balances have been eliminated in consolidation.

The unaudited interim financial statements for the three-month periods and the six-month periods ended on April 30, 2007 and 2006 presented herein have been prepared in accordance with accounting principles generally accepted in the United States for interim financial statements and with the instructions to Form 10-QSB and Regulation S-B pertaining to interim financial statements and reflect all adjustments, consisting of normal recurring adjustments and accruals which, in the opinion of management, are considered necessary for a fair presentation of the Company's financial position, results of operations and cash flows. Results of operations for interim periods are not necessarily indicative of the results that may be expected for the full year.

REVERSE ACQUISITION

On January 25, 2006, pursuant to a plan and agreement of merger (the "Plaza Agreement") dated as of October 31, 2005, among Pharma-Bio, Plaza Acquisition Corp., a wholly-owned subsidiary of Pharma-Bio ("Acquisition Company"), Plaza and Elizabeth Plaza, the sole stockholder of Plaza, Pharma-Bio acquired Plaza. The acquisition was effected by the merger of Acquisition Company into Plaza. Pursuant to the Plaza Agreement, Ms. Plaza, as the sole stockholder of Plaza, received at the closing \$10,000,000 plus 1,150,000 shares of Pharma-Bio's common stock. In addition, the Plaza Agreement provides for the Company to make three annual payments to Ms. Plaza, each in the amount of \$2,750,000, payable on January 25, 2007, 2008 and 2009. See Note G with respect to payments made and obligations due to affiliate.

At the closing, all of the present officers and directors of Pharma-Bio resigned from their respective positions, except that Mr. Dov Perlisky, who was president and a director of Pharma-Bio, resigned as an officer, but continued as a director. At the closing, Pharma-Bio elected four directors, including Ms. Plaza. The other three are independent directors.

Pharma-Bio raised the funds necessary to make the \$10,000,000 payment due to Ms. Plaza through the private placement of units consisting of shares of a series A preferred stock and warrants to purchase 7,999,400 common

stock. The series A preferred stock was automatically converted into 15,998,800 shares of common stock upon an increase in Pharma-Bio's authorized common stock. See Note C.

F-8

The acquisition of Plaza and the private placement resulted in a change of control of Pharma-Bio. As a result of the reverse acquisition accounting treatment, Plaza is deemed to be the acquiring company for accounting purposes. The transaction was accounted for as a reverse acquisition because former owners of Plaza, together with the purchasers in the private placement who purchased the series A preferred stock and warrants in connection with the acquisition of Plaza, gained control of Pharma-Bio. Effective on the acquisition date, Pharma-Bio's balance sheet includes the assets and liabilities of Plaza and its equity accounts have been recapitalized to reflect the equity of Pharma-Bio.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Fair Value of Financial Instruments

The carrying value of the Company's financial instruments (excluding obligations under capital leases and amounts due to affiliate): cash, accounts receivable, accounts payable and accrued liabilities, are considered reasonable estimates of fair value due to the short-term nature. Management believes, based on current rates, that the fair value of its obligations under capital leases and amounts due to affiliate approximate the carrying amount.

Revenue Recognition

Revenue is primarily derived from: (1) time and materials contracts (representing approximately 90% of total revenues), which is recognized by applying the proportional performance model, whereby revenue is recognized as performance occurs, and (2) short-term fixed-fee contracts or "not to exceed" contracts (approximately 10% of total revenues), which revenue is recognized similarly, except that certain milestones also have to be reached before revenue is recognized. In the case of fixed-fee contracts, which mostly are short-term contracts, revenue is recognized based on the percentage that the services rendered bears to the estimated services to be performed over the contract. If the Company determines that a fixed-fee or "not to exceed" contract will result in a loss, the Company recognizes the estimated loss in the period in which such determination is made.

Cash and Cash Equivalents

For purposes of the statements of cash flows, cash and cash equivalents include liquid investments with original maturities of three months or less.

Accounts Receivable

Accounts receivable are recorded at their estimated realizable value. Accounts are deemed past due when payment has not been received within the stated time period. The Company's policy is to review individual past due amounts periodically and write off amounts for which all collection efforts are deemed to have been exhausted. Due to the nature of the Company's customers, bad debts are accounted for using the direct write-off method whereby an expense is recognized only when a specific account is determined to be uncollectible. The effect of using this method approximates that of the allowance method.

Income Taxes

The Company follows the provisions of Statement of Financial Accounting Standards Board No. 109, "Accounting for Income Taxes," which requires an asset and liability approach method of accounting for income taxes. This method measures deferred income taxes by applying enacted statutory rates in effect at the balance sheet date to the differences between the tax basis of assets and liabilities and their reported amounts on the financial statements. The resulting deferred tax assets or liabilities are adjusted to reflect changes in tax laws as they occur. A valuation allowance is provided when it is more likely than not that a deferred tax asset will not be realized.

Plaza, from its inception until January 24, 2006, was covered under the provisions of Subchapter N of Subtitle A of the Puerto Rico Internal Revenue Code (the "Puerto Rico Code"), which is similar to Subchapter S of the Internal Revenue Code in that its taxable income is taxed to the stockholders and therefore there is no income tax liability for that period. As a result of the completion of the reverse acquisition, Plaza and Pharma-Bio are no longer eligible for treatment as a Subchapter N corporation. See Note F.

Although Ms. Plaza is responsible for the taxes on the Plaza's taxable income for the period from December 1, 2005 to January 24, 2006, pursuant to the Plaza Agreement, the Company agreed to reimburse Ms. Plaza for the income taxes applicable to said taxable income. The reimbursement amounts to \$125,227 and was paid on June 15, 2006.

Property and equipment

Owned property and equipment, and leasehold improvements are stated at cost. Equipment and vehicles under capital leases are stated at the lower of fair market value or net present value of the minimum lease payments at the inception of the leases.

Depreciation of owned assets, and amortization of assets under capital leases and leasehold improvements, are provided using the straight-line basis over the shorter of the estimated useful lives of the assets or the lease term. Major renewals and betterments that extend the life of the assets are capitalized, while expenditures for repairs and maintenance are expensed when incurred.

The Company evaluates for impairment its long-lived assets to be held and used, and long-lived assets to be disposed of, whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

Intangible assets

Definite-lived intangible assets, such as customer lists and covenants not to compete, are amortized on a straight-line basis over their estimated useful lives. The Company continually evaluates the reasonableness of the useful lives of these assets.

Stock-based compensation

Effective November 1, 2006, the Company adopted the provisions of SFAS No. 123R, "Share-Based Payment" ("SFAS 123R"), and Staff Accounting Bulletin No. 107 ("SAB 107") using the modified prospective method, which results in the provisions of SFAS 123R being applied to the consolidated financial statements on a prospective basis. Under the modified prospective recognition method, restatement of consolidated income from prior periods is not required, and accordingly, the Company has not provided such restatements. Under the modified prospective provisions of SFAS 123R, compensation expense is recorded for the unvested portion of previously granted awards that were outstanding on November 1, 2006 and all subsequent awards. SFAS 123R requires that all stock-based compensation expense be recognized in the financial statements based on the fair value of the awards. Stock-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as expense over the requisite service period, which generally represents the vesting period, and includes an estimate of awards that will be forfeited. The

Company calculates the fair value of stock options using the Black-Scholes option-pricing model at grant date. SFAS 123R also amends SFAS No. 95, "Statement of Cash Flows", to require that excess tax benefits related to stock-based compensation be reflected as cash flows from financing activities rather than cash flows from operating activities. The Company does not recognize such cash flow from financing activities since there has been no tax benefit related to the stock-based compensation.

F-10

As required under the new standards, stock option compensation expense is based on the anticipated vesting of the options. Forfeitures estimated when recognizing compensation expense are adjusted when actual forfeitures differ from the estimate.

Through year ended October 31, 2006, the Company elected to use the intrinsic value method of accounting for stock options issued to employees under its stock option plans in accordance with APB Opinion No. 25 and related interpretations whereby the amount of stock-based compensation expense is calculated as the difference between the excess fair market value over the exercise price on the date of issuance. For purposes of pro forma disclosures the amount of stock-based compensation is calculated using the fair value method of accounting for stock options issued to employees. The Company's pro forma information is as follows:

	Consolidated Six Months Ended April 30, 2006		Years Ended October 31, Consolidated 2006		Plaza-Only 2005
Net income	\$	1,368,827	\$	2,335,340	\$ 6,390,150
Less: Stock-based employee compensation under fair value method, net of tax effect		526,430		87,750	-
Pro forma net income attributable to common stockholders	\$	842,397	\$	2,247,590	\$ 6,390.150
Basic earnings per share of common stock:					
As reported	\$	0.53	\$	0.22	\$ 3.65
Pro forma	\$	0.33	\$	0.21	\$ 3.65
Diluted earnings per share of common stock					
As reported	\$	0.10	\$	0.13	\$ 1.58
Pro forma	\$	0.06	\$	0.13	\$ 1.58
Weighted average number of common shares outstanding - basic		2,573,492		10,508,938	1,750,000
Weighted average number of common shares outstanding - diluted		13,610,896		17,880,269	4,045,752

Income per Share of Common Stock

Basic income per share of common stock is calculated by dividing net income by the weighted average number of shares of common stock outstanding. Diluted income per share includes the dilution of common stock equivalents. Pursuant to reverse acquisition accounting treatment, the weighted average number of shares outstanding in the computation of basic income per share was derived by weighting (i) for the period prior to the reverse acquisition transaction, the 1,150,000 shares received by the former stockholder of Plaza and the 600,000 shares received by San Juan Holdings, Inc., and (ii) for the period after the transaction, the number of shares outstanding represented the outstanding shares of Pharma-Bio that are outstanding. Diluted income per share includes the dilution of common equivalents. Accordingly, the series A preferred stock was deemed outstanding from the date of issuance until April 25, 2006, when the Company's restated certificate of incorporation was filed with the Secretary of State of Delaware and the shares of series A preferred stock were automatically converted into common stock. The warrants were deemed to be outstanding from the date of issuance to the end of the reporting period, except for common stock purchase warrants issued to the investment banker for Plaza as a result of the reverse acquisition, which were deemed

to be outstanding through all periods prior to the reverse acquisition.

F-11

The weighted average shares of common stock outstanding (basic and diluted) were calculated using the treasury stock method for the respective periods.

NOTE B - RECENT ACCOUNTING PRONOUNCEMENTS

1. In February 2007, the Financial Accounting Standards Board (FASB) issued Statement No. 159 “The Fair Value Option for Financial Assets and Financial Liabilities - Including an Amendment of FASB Statement No. 115”. This Statement permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. This Statement is expected to expand the use of fair value measurement, which is consistent with the FASB’s long-term measurement objectives for accounting for financial instruments.

This Statement is effective as of the beginning of an entity’s first fiscal year that begins after November 15, 2007. Early adoption is permitted as of the beginning of a fiscal year that begins on or before November 15, 2007, provided the entity also elects to apply the provisions of FASB Statement No. 157, “Fair Value Measurements”.

Management does not expect that the application of this standard will have any significant effect on the Company's financial statements.

2. In September 2006, the FASB published Statement No. 157 “Fair Value Measurement”. This Statement defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. This Statement applies under other accounting pronouncements that require or permit fair value measurements, the FASB having previously concluded in those accounting pronouncements that fair value is the relevant measurement attribute. Accordingly, this Statement does not require any new fair value measurements. However, for some entities, the application of this Statement will change current practice. The changes to current practice resulting from the application of this Statement relate to the definition of fair value, the methods used to measure fair value, and the expanded disclosures about fair value measurements.

This Statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. Earlier application is encouraged, provided that the reporting entity has not yet issued financial statements for that fiscal year, including financial statements for an interim period within that fiscal year. The provisions of this Statement should be applied prospectively as of the beginning of the fiscal year in which this Statement is initially applied, except for certain exceptions stated in the Statement.

The implementation of this Statement will have no significant effect on the Company’s financial statements.

3. In June 2006, the FASB issued Interpretation No. 48 “Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109” (“FIN 48”). This Interpretation clarifies the accounting for uncertainty in income taxes recognized in an enterprise’s financial statements in accordance with FASB Statement No. 109, “Accounting for Income Taxes”. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. This Interpretation is effective for fiscal years beginning after December 15, 2006. Earlier application of the provisions of this Interpretation is encouraged if the enterprise has not yet issued financial statements, including interim financial statements, in the period this Interpretation is adopted. Management does not expect that the application of this standard will have any significant effect on the Company's results of operations or its financial condition.

4. Other recently issued FASB Statements or Interpretations, SEC Staff Accounting Bulletins, and AICPA Emerging Issue Task Force Consensuses have either been implemented or are not applicable to the Company.

NOTE C - CAPITAL TRANSACTIONS

On January 24, 2006, Pharma-Bio effected a two-for-one share distribution with respect to its common stock pursuant to which Pharma-Bio issued one share of common stock for each share outstanding on the record date, January 24, 2006. All share and per share information in these financial statements give retroactive effect to this share distribution.

On January 25, 2006, contemporaneously with the consummation of the acquisition, Pharma-Bio sold, in a private placement, 47 units, each unit consisting of 25,000 shares of series A preferred stock, warrants to purchase 85,100 shares of common stock at \$1.10 per share and warrants to purchase 85,100 shares of common stock at \$1.65 per share. In the private placement, Pharma-Bio issued an aggregate of 1,175,000 shares of series A preferred stock (which were convertible into an aggregate of 15,998,800 shares of common stock), warrants to purchase 3,999,700 shares of common stock at \$1.10 per share, and warrants to purchase 3,999,700 shares of common stock at \$1.65 per share, to 42 accredited investors. Pharma-Bio paid brokerage commissions of 10% of the gross purchase price and an aggregate non-accountable expense allowance of 3% of the gross purchase price with respect to the units sold. In certain cases, the broker waived the commission and non-accountable expense allowance, and the investor paid the purchase price less the commission and non-accountable expense allowance. The purchase price for the 47 units sold was \$11,750,000. Broker-dealers waived commission and non-accountable expense allowance with respect to \$628,750, Pharma-Bio paid commissions and non-accountable expense allowances totaling \$898,750, and Pharma-Bio issued warrants to purchase an aggregate of 1,439,892 shares of common stock. The warrants have an exercise price of \$.7344 per share and a term of three years.

Each share of series A preferred stock automatically converted into 13.616 shares of common stock, or an aggregate of 15,998,800 shares of common stock, upon the filing, on April 25, 2006, of a restated certificate of incorporation which increased the authorized capital stock to 10,000,000 shares of preferred stock and 50,000,000 shares of common stock.

The subscription agreement pursuant to which the series A preferred stock and warrants were issued required Pharma-Bio to file a registration statement within 60 days after the effective date of the merger between Plaza and Plaza Acquisition Corp. The effective date of the merger was January 25, 2006, therefore, the 60-day term expired on March 26, 2006. Since Pharma-Bio failed to file the registration statement by that date, Pharma-Bio was required to issue .0003 shares of common stock for each share of common stock issued upon conversion of the series A preferred stock for each day of delay. Pharma-Bio was three days late, therefore, 14,401 shares of common stock were issued to the former holders of the series A preferred stock.

The warrants issued in the private placement expire five years from the closing date (January 25, 2011) and are callable by Pharma-Bio if the closing price of the common stock is at least twice the exercise price of the warrants for twenty (20) consecutive trading days.

In January 2004, Pharma-Bio issued warrants to purchase 800,000 shares of common stock at \$0.12 per share (1,600,000 shares at \$0.06 per share, subsequent to the stock distribution effected on January 24, 2006). The warrants may also be converted into shares of common stock on a cashless basis under certain conditions, but on a reduced number of shares. The warrants expire on January 16, 2014. In January 2007, warrants to purchase a total of 1,350,400 shares of common stock were converted to 1,300,539 shares of common stock pursuant to the cashless exercise provisions. As of July 31, 2007, warrants to purchase 249,600 shares remain outstanding.

NOTE D - PROPERTY & EQUIPMENT

The balances of property and equipment as of April 30, 2007 and October 31, 2006 consist of:

	Useful life (years)	April 30, 2007	October 31, 2006
Vehicles under capital leases	5	\$ 221,434	\$ 221,434
Leasehold improvements	5	--	64,895
Computers	3	180,758	169,409
Equipment	3-5	120,505	124,747
Furniture and fixtures	10	68,509	67,907
Total		591,206	648,392
Less: Accumulated depreciation and amortization		(276,722)	(253,670)
Property and equipment, net		\$ 314,484	\$ 394,722

NOTE E - OTHER ASSETS

At April 30, 2007 and October 31, 2006, non-current other assets include the following:

	April 30, 2007	October 31, 2006
Intangible assets:		
Covenant not to compete, net	\$ 71,667	\$ 81,667
Customer-related intangibles, net	83,333	108,333
Other	13,391	13,267
	\$ 168,391	\$ 203,267

Covenant not to compete represents the portion of the payment made in connection with the purchase of the Plaza stock that was allocated to a non-competition covenant. Under this agreement, the sole stockholder of Plaza agreed not to compete with the Company for a period of five years. This amount is amortized on the straight-line method over the term of the five-year term of the non-competition covenant.

Customer-related intangible assets consist mainly of a customer list which Plaza acquired along with certain other assets from a business which performs in the United States consulting services similar to those performed by the Company in Puerto Rico. The business was owned by an individual who was the Company's executive vice president and chief operating officer during February and March 2006. The purchase price was paid in three installments, each in the amount of \$100,000. The value of the customer list is being amortized on the straight-line method over its estimated useful life of three years.

All of the intangibles assets were originated in January 2006, therefore, there was no amortization of intangible assets in prior periods. The amortization expense for the six-month periods ended April 30, 2007 and 2006, and the year ended October 31, 2006 amounted to \$35,000, \$25,000 and \$60,000, respectively.

NOTE F - INCOME TAXES

The Company's taxable income is subject to the Puerto Rico income tax at the 20% to 39% rates provided by the 1994 Puerto Rico Internal Revenue Code, as amended. However, on August 1, 2005, Puerto Rico Act No. 41 was approved, which imposes an additional 2.5% special tax to all corporations and partnerships having a net taxable income over \$20,000. The Act was effective for taxable years commencing after December 31, 2004 and ending on or before December 31, 2006; however, on November 10, 2006, Puerto Rico Act No. 244 was approved to impose the additional 2.5% special tax to taxable years commencing after December 31, 2004 and before January 1, 2007. Therefore, the Company's maximum effective tax rate will be 41.5% for its fiscal years ending on October 31, 2006 and October 31, 2007, and 39% thereafter.

The operations carried out by the Company's subsidiary in the United States (which are presently not significant) are taxed in the United States. With certain limitations, the Company receives a credit on its Puerto Rico tax for the federal income tax paid. Also, upon distribution of earnings by the Puerto Rican subsidiary to its parent those dividends are taxed at the federal level, however, the parent is able to receive a credit for the taxes paid by the subsidiary on its operations in Puerto Rico, to the extent of the federal taxes that result from those earnings (determined at rates which are normally lower than in Puerto Rico). As a result, the income tax expense of the Company, under its present corporate structure, would normally be the Puerto Rico taxes on operations in said jurisdiction, plus 10% withholding in Puerto Rico from dividends paid to the Puerto Rican subsidiary's parent, plus federal taxes on operations in the United States.

As of April 30, 2007, the Company has not recognized deferred income taxes on \$1,067,445 of undistributed earnings of its Puerto Rican subsidiary, since such earnings are considered to be reinvested indefinitely. If the earnings were distributed in the form of dividends, the Company would be subject to a \$106,745 tollgate tax.

The income tax expense is computed at statutory rates applied to income calculated in accordance with the accounting practices described herein and as shown in the financial statements. Deferred income tax assets and liabilities are computed for differences between the financial statements and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future, based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income.

The reasons for the difference between the provision for income tax applicable to income before provision for income taxes and the amount computed by applying the statutory tax rate in Puerto Rico, were as follows:

	Six months ended April 30,		Years ended October 31,	
	2007	2006	2006	2005
Theoretical income tax expense by application of statutory rates to the book pre-tax	\$ 618,113	\$ 742,437	\$ 1,450,495	\$ 2,492,159
Permanent differences:				
Effect of income subject to taxation under Subchapter N (taxable income taxed to stockholders)	--	(358,037)	(358,037)	(2,492,159)
Other permanent difference	23,587	35,778	67,371	—
Income tax expense	\$ 641,700	\$ 420,178	\$ 1,159,828	\$ -0-

Because Plaza was treated as an N Corporation under the Puerto Rico Internal Revenue Code during the year ended October 31, 2005 and the period from November 1, 2005 through January 24, 2006, its income was taxed to its stockholder during those periods, and Plaza did not pay income tax. Had income tax been paid at the statutory rate, Plaza's net income would have been \$1,010,790, or \$0.39 per share (basic) and \$0.07 per share (diluted), for the six months ended April 30, 2006; \$1,977,303, or \$0.19 per share (basic) and \$0.11 per share (diluted), for the year ended

October 31, 2006; and \$3,897,993, or \$2.23 per share (basic) and \$0.96 per share (diluted), for the year ended October 31, 2005.

F-15

NOTE G - RELATED PARTY TRANSACTIONS; DUE TO AFFILIATE

On January 25, 2006, pursuant to the Plaza Agreement, Elizabeth Plaza, as the sole stockholder and affiliate of Plaza, received at the closing \$10,000,000 plus 1,150,000 shares of Pharma-Bio's common stock. In addition, the Company agreed to pay Mrs. Plaza, three payments of \$2,750,000, including imputed interest determined in accordance with Section 1274 of the Internal Revenue Code, on January 25, 2007, 2008 and 2009. As of April 30, 2007, the payments due are as follows:

2008	\$ 2,750,000
2009	2,750,000
<hr/>	
Total payments	5,550,000
Less: imputed interest	(436,310)
Present value of minimum payments	5,063,690
Current portion	(2,613,225)
<hr/>	
Long-term portion	\$ 2,450,465

In January 2007, Elizabeth Plaza agreed to accept the first installment of \$2,750,000 in two payments, one in January 2007 and the second in February 2007.

As a condition to closing, Plaza was required to have a net tangible book value of not less than \$5,500,000, of which at least \$2,000,000 was in cash, as of November 30, 2005. Subject to the requirement that Plaza have at least \$2,000,000 in cash as of November 30, 2005, the purchase price was to be adjusted upward or downward depending on the net tangible book value, determined as provided in the Plaza agreement. This provision resulted in an additional payment to Ms. Plaza in the amount of \$88,161, which was paid during the third quarter of 2006.

The Plaza Agreement also provides that Plaza, rather than Ms. Plaza, is responsible for the income tax from December 1, 2005 through the closing date, which was January 25, 2006. Because of the status of Plaza as an N Corporation under the Puerto Rico Internal Revenue Code, Plaza's net income from December 1, 2005 to January 24, 2006 was taxed to Ms. Plaza. The income tax payable by Ms. Plaza for Plaza's taxable income for that period amounts to \$125,227. Plaza reimbursed Ms. Plaza the \$125,227 during the third quarter of 2006. The \$88,161 payment described in the preceding paragraph and the \$125,227 payment described in this paragraph are treated as additional payments on account of the purchase price of Plaza stock from Mrs. Plaza.

Pursuant to the Puerto Rico Internal Revenue Code, the Company's clients are required to withhold a percentage of its fees (usually 3%, but sometimes 7%) as withheld income tax and remit such amount to the Puerto Rico Department of the Treasury. Such payment is treated as a payment on account to the Company's income tax obligations. Prior to January 25, 2006, Plaza was an N Corporation, and the Company's taxable income was taxed to Ms. Plaza, as sole stockholder. Accordingly, such withheld taxes were treated as a distribution to Ms. Plaza, as the Company's sole stockholder since Ms. Plaza was the person entitled to take the credit for the income tax withheld by the Company's clients in her personal income tax return. The amounts withheld prior to January 25, 2006 are recognized in the financial statements as non-cash distributions.

F-16

San Juan Holdings represented Plaza and Elizabeth Plaza in connection with the reverse acquisition. For such services, Pharma-Bio issued 600,000 shares of common stock and warrants to purchase 2,500,000 shares of common stock, with an exercise price of \$0.06 per share, to San Juan Holdings. In Pharma-Bio's private placement of series A preferred stock and warrants, San Juan Holdings purchased three units. The purchase price for the three units was \$750,000. The broker, which is an affiliate of San Juan Holdings, waived the commission and non-accountable expense allowance with respect to such sales, and as a result, San Juan Holdings purchased the three units for a net payment of \$652,500. Pharma-Bio also paid an affiliate of San Juan Holdings a broker's commission and non-accountable expense allowance of \$195,000 for sales made to other purchasers in the private placement, and Pharma-Bio issued to the affiliate three-year warrants to purchase an aggregate of 275,724 shares of common stock at an exercise price of \$0.7344 per share.

NOTE H - COMMITMENTS

CONTRACTS

On January 25, 2006, the Company entered into employment agreements with Elizabeth Plaza and Nelida Plaza. The agreement with Elizabeth Plaza initially provided that Ms. Plaza will serve as president and chief executive officer of the Company for a period of 18 months, for which she will receive a salary at the annual rate of \$250,000. For 18 months thereafter, Ms. Plaza will serve as a consultant for which she will receive compensation at the annual rate of \$75,000. During the term of her employment, the Company will also provide Ms. Plaza with an automobile allowance at the annual rate of \$24,828, discretionary bonuses and stock options or other equity-based incentives as shall be determined by the compensation committee's board of directors, except that her bonus shall not be less than 4% nor more than 50% of her salary. If the Company terminates Ms. Plaza's employment other than for cause or as a result of her death or disability, the Company is required to pay Ms. Plaza the balance of her compensation for her employment terms and her consulting term and other benefits, including a pro rata portion of the bonus that would have been paid to her, and her obligations under her non-competition provision terminate. In January 2007, Elizabeth Plaza's employment agreement was amended to extend her employment term through December 31, 2007, and the consulting term will immediately commence following the employment term and end on January 31, 2009.

The Company's agreement with Nérida Plaza provides that Ms. Plaza will serve as vice president for a term of three years for which she will receive annual compensation at the annual rate of \$150,000. She is also entitled to such bonus compensation as is determined by the compensation committee, not to exceed 50% of her salary. The Company also agreed to make the lease payments on the automobile she currently leases. Such payments are at the annual rate of approximately \$11,600. If the Company terminates Ms. Plaza's employment other than for cause or as a result of her death or disability, the Company is required to pay Ms. Plaza the balance of her compensation for her employment terms and her consulting term and other benefits, including a pro rata portion of the bonus that would have been paid to her, and her obligations under her non-competition provision, terminate.

Lease commitments

Capitalized lease obligations - As of April 30, 2007 and October 31, 2006, the Company leases vehicles under non-cancelable capital leases with a cost of \$221,434 (accumulated depreciation of \$77,932 and \$66,861 as of April 30, 2007 and October 31, 2006, respectively). Depreciation expense for these assets amounted to \$22,144 and \$23,178 in the six-month periods ended April 30, 2007 and 2006, respectively, and 44,805 and \$33,968 in the years ended October 31, 2006 and 2005, respectively. The following is a schedule, by year, of future minimum lease payments under the capitalized leases together with the present value of the net minimum lease payments at April 30, 2007:

Twelve months ending April 30,	Amount
2008	\$ 48,240
2009	48,240
2010	69,974
2011	9,385
Total minimum lease payments	175,839
Less: Amount of imputed interest	(14,366)
Present value of minimum lease payments	161,473
Current portion of obligation under capital leases	(40,430)
Long-term portion	\$ 121,043

Operating facilities - The Company conducts its administrative operations in office facilities which are leased under three different rental agreements with the following terms:

Description	Monthly Rent	Commitment Term
Headquarter offices and laboratory testing facilities	\$ 18,750	Ending in January 2012, with one five year renewal option
Housing for employees	\$ 1,850	On a month to month basis
Limerick office space	\$ 1,000	Ending in July 2007

The first lease listed in the table is with an affiliate of the chief executive officer. In February 2007, the Company and the affiliate rescinded a former lease agreement and entered into a new agreement. The monthly payments under the new lease agreement, which amount to \$18,750, will increase by 5% annually. The new agreement also requires the payment of utilities, property taxes, insurance and a portion of expenses incurred by the affiliate in connection with the maintenance of common areas. The Company paid a monthly rental of \$3,200 under the lease agreement of its former main resources facilities.

In June 2006, the Company entered into a lease agreement for office facilities in Limerick, Pennsylvania, at a monthly rental of \$1,000. The original lease term expired on July 31, 2007; however, the lease agreement was renewed for an additional term of three years at monthly rental of \$1,050 during the first year, \$1,100 during the second year, and \$1,150 during the third year of the lease renewal term.

Rent expense during the six-month periods ended April 30, 2007 and 2006 was \$70,913 and \$26,400, respectively, and \$98,936 and \$71,026 for the years ended October 31, 2006 and 2005, respectively.

NOTE I - STOCK OPTIONS AND STOCK-BASED COMPENSATION

In October 2005, the Company's board of directors adopted, and on April 25, 2006, the Company's stockholders approved, the 2005 Long-Term Incentive Plan, covering 2,500,000 shares of common stock. The 2005 plan provides for the grant of incentive and non-qualified options, stock grants, stock appreciation rights and other equity-based incentives to employees, including officers, and consultants. The 2005 plan is to be administered by a committee of independent directors. In the absence of a committee, the plan is administered by the board of directors. Independent directors are not eligible for discretionary options. However, each newly elected independent director receives at the time of his or her election, a five-year option to purchase 25,000 shares of common stock at the market price on the date of his or her election. In addition, the plan provided for the annual grant of an option to purchase 5,000 shares of common stock on the first trading day of January of each year, commencing January 2007; however, on April 19, 2007, the stockholders amended the plan to increase the number of options granted to its independent directors annually from 5,000 to 10,000 shares of common stock. On April 19, 2007, the stockholders also amended the plan to

provide for a grant to purchase 5,000 shares of common stock at the market price to each advisory board member on the date of his or her election and a grant of 5,000 options to each of them annually. The options to directors have a term of five years and become exercisable cumulatively as to 50% of the shares subject to the option six months from the date of grant and, as to the remaining 50%, 18 months from the date of grant. Pursuant to these provisions, the Company has granted options to purchase 25,000 shares at \$0.7344 per share and 5,000 shares at \$0.75 to each of the three independent directors. Options intended to be incentive stock options must be granted at an exercise price per share which is not less than the fair market value of the common stock on the date of grant and may have a term which is not longer than ten years. If the option holder holds at least 10% of our common stock, the exercise price must be at least 110% of the fair market value on the date of grant and the term of the option cannot exceed five years.

F-18

Pursuant to the Plaza Agreement, all outstanding options issued by Plaza were terminated, and the Company granted incentive stock options to purchase an aggregate of 1,400,000 shares of common stock at an exercise price of \$0.7344 per share to the holders of such terminated Plaza options pursuant to the Company's 2005 Long-Term Incentive Plan. Of the total options to purchase 1,400,000 shares of common stock, options to purchase 776,186 shares of common stock were granted to 18 employees whose options to purchase Plaza common stock were cancelled. The options to purchase the remaining 623,814 shares of common stock were granted to both the 18 former holders of Plaza options and 23 additional Plaza employees. The Company subsequently granted options to purchase other 648,724 shares to employees, independent directors and an independent contractor. The new options have a weighted average exercise price of approximately \$0.76, a term of five years and are exercisable in installments. As of April 30, 2007, there were approximately outstanding options to purchase 1,429,519 shares of common stock, since some options expired because of employment terminations.

The following table presents the stock-based compensation included in the Company's consolidated statement of income and the effect on earnings per share:

	Six months ended April 30, 2007
Stock-based compensation expense:	
Cost of services	\$ 42,090
Selling, general and administrative	23,284
Stock-based compensation before tax	65,374
Income tax benefit	—
Net stock-based compensation expense	\$ 65,374
Effect on earnings per share:	
Basic earnings per share	\$ (0.003)
Diluted earnings per share	\$ (0.003)

Prior to the adoption of SFAS 123R and SAB 107, the Company followed APB 25, and compensation cost related to employee stock options was generally not recognized because options were granted with exercise prices equal to or greater than the fair market value at the date of grant. Had compensation cost for the stock option plans been determined based on the fair value at the grant date for awards in the three-month and six-month periods ended April 30, 2006, consistent with the provisions of SFAS No. 123R, the effect on Company's net income and earnings per share would not have been significant.

The fair value of each stock option granted prior to November 1, 2006 was estimated at \$0.60 by the Company's investment bankers based on its valuation given that the Company's stock had not yet traded and given that the value of the options cannot exceed the market price of the common stock (\$0.7344) in the most recent issuance of securities by the Company, which was its January 2006 private placement.

Edgar Filing: Pharma-Bio Serv, Inc. - Form 424B3

The fair value of each stock option granted on or after November 1, 2006 was estimated on the date of grant using the Black-Scholes option pricing model using the following weighted average assumptions (expected volatility is based upon the historical volatility of the Company's stock price):

	Six months ended April 30, 2007
Expected dividend yield	0.0%
Expected stock price volatility	10%
Risk free interest rate	4.7%
Expected life of options	2.65 years
Weighted average fair value per share of options granted	\$ 0.1506

As of November 1, 2006 there were outstanding options to acquire 1,348,090 shares of common stock. During the six month period ended April 30, 2007, the Company granted options to purchase 5,000 shares of common stock to each of its three independent directors, an option to purchase 50,000 shares to its new general manager, and an option to purchase 35,000 shares to an investor relations firm. No options were exercised during the six-month period ended April 30, 2007; however, options to purchase 18,571 shares expired because of employment terminations during said period. Therefore, as of April 30, 2007, there were outstanding options to purchase 1,429,519 shares. The weighted average of the remaining contractual life of the outstanding stock options is 4 years and the weighted average exercise price is \$0.7467.

Pursuant to the Plaza Agreement, Pharma-Bio agreed that it would issue 100 shares of common stock to each of Plaza's eligible employees. Such shares will not be issued until Pharma-Bio files a Form S-8 registration statement in connection with the issuance of such shares. Approximately 16,500 shares of common stock may be issued pursuant to this program.

NOTE J - CONCENTRATION OF RISKS

The Company's cash balances are maintained in a bank checking account and a money market account.

Management deems all its accounts receivables to be fully collectible, and, as such, does not maintain any allowances for uncollectible receivables.

The Company's revenues, and the related receivables, are concentrated in the pharmaceutical industry in Puerto Rico. A small number of customers have accounted for a significant percentage of its revenue. In spite of the fact that just a few customers represent a significant source of revenue, the Company's functions are not a continuous process, accordingly, the client base for which the Company's services are typically rendered, on a project-by-project basis, changes regularly. The following table sets forth information as to revenues (dollars in thousands) and percentage of revenues for the Company's principal clients, all of which are pharmaceutical companies:

Customer	Six Months Ended April 30,		Year Ended October 31,	
	2007	2006	2006	2005
GlaxoSmithKline	\$ 2,363 (30.3%)	\$ 1,796 (24.9%)	\$ 4,248 (29.9%)	\$ 637 (3.7%)
Johnson & Johnson	1,723 (22.1%)	589 (8.2%)	1,727 (12.1%)	969 (5.6%)
Lilly del Caribe	508 (6.5%)	783 (10.9%)	1,445 (10.2%)	3,312 (19.0%)
Schering-Plough	460 (5.9%)	2,097 (29.1%)	2,935 (20.6%)	7,523 (43.2%)

Edgar Filing: Pharma-Bio Serv, Inc. - Form 424B3

		5,265	10,355	12,441
\$5,054 (64.8%)	\$	(73.1%)	(72.8%)	(71.5%)

F-20

GlaxoSmithKline, Schering-Plough, Johnson & Johnson, and Lilly del Caribe had outstanding balances at April 30, 2007 representing 17%, 10%, 19% and 9%, respectively, of the total receivables.

The Company assesses the financial strength of its customers and, as a consequence, believes that its trade accounts receivable credit risk exposure is limited. However, the loss or significant decline in business from any of its major customers could have a material effect upon its revenue and income.

In June 2006, Schering-Plough announced the closing of one of its two facilities in Puerto Rico and the reduction of staff in the second. The accompanying statements of operations include revenues from both facilities as follows:

Period	Operating facility	Closed facility	Total
Six-month period ended April 30, 2007	\$ 421,298	\$ 38,739	\$ 460,037
Six-month period ended April 30, 2006	634,221	1,462,923	2,097,144
Year ended October 31, 2006	1,013,792	1,921,433	2,935,225
Year ended October 31, 2005	2,210,444	5,312,190	7,522,634

The receivables at April 30, 2007 from the closed facility amounted to approximately \$16,500, but the credit risk exposure on these receivables is not significant. The Company does not anticipate any problem in connection with the collection of said outstanding balance.

NOTE K - RETIREMENT PLAN

The Company has a qualified profit sharing plan in accordance with the provision of Section 1165(a)(3)(A) of the Puerto Rico Code, for employees who meet certain age and service period requirements. The Company makes contributions to this plan as required by the provisions of the plan document. Contributions for the six months ended April 30, 2007 and 2006 were \$28,554 and \$21,805, respectively. Contributions for the years ended October 31, 2006 and 2005 were \$40,439 and \$35,908, respectively.
