4

Emclaire Financial Corp.<br>Notes to Consolidated Financial Statements (Unaudited)

Nature of Operations and Basis of Presentation.
Emclaire Financial Corp. (the "Corporation") is a Pennsylvania company and the holding company of Farmers National Bank of Emlenton (the "Bank") and Emclaire Settlement Services, LLC (the "Title Company"). The Corporation provides a variety of financial products and services to individuals and businesses through its offices in western Pennsylvania. Its primary deposit products are checking, savings and certificate of deposit accounts and its primary lending products are residential and commercial mortgages, commercial business and consumer loans.

The consolidated financial statements include the accounts of the Corporation and its wholly owned subsidiaries, the Bank and the Title Company. All significant intercompany transactions and balances have been eliminated in preparing the consolidated financial statements.

The accompanying unaudited consolidated financial statements for the interim periods include all adjustments, consisting of normal recurring accruals, which are necessary, in the opinion of management, to fairly reflect the Corporation's consolidated financial position and results of operations. Additionally, these consolidated financial statements for the interim periods have been prepared in accordance with instructions for the Securities and Exchange Commission's (SEC's) Form 10-Q and Article 10 of Regulation S-X and therefore do not include all information or footnotes necessary for a complete presentation of financial condition, results of operations and cash flows in conformity with accounting principles generally accepted in the United States of America (GAAP). For further information, refer to the audited consolidated financial statements and footnotes thereto for the year ended December 31, 2009, as contained in the Corporation's 2009 Annual Report on Form 10-K filed with the SEC.

The balance sheet at December 31, 2009 has been derived from the audited financial statements at that date but does not include all the information and footnotes required by GAAP for complete financial statements.

The preparation of financial statements, in conformity with GAAP, requires management to make estimates and assumptions that affect the reported amounts in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for loan losses, fair value of financial instruments, goodwill, the valuation of deferred tax assets and other-than-temporary impairment charges on securities. The results of operations for interim quarterly or year to date periods are not necessarily indicative of the results that may be expected for the entire year or any other period. Certain amounts previously reported may have been reclassified to conform to the current year's financial statement presentation.
2.

Earnings per Common Share.
Basic earnings per common share (EPS) excludes dilution and is computed by dividing net income available to common shareholders by the weighted average number of common shares outstanding during the period. Diluted EPS reflects the potential dilution that could occur if securities or contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the Corporation. Options and restricted stock awards of 108,750 shares of common stock and warrants to purchase 50,111 shares of common stock were not included in computing diluted earnings per share because their cumulative effects were not dilutive for the three and six month periods ended June 30, 2010 and 2009.

The following table summarizes the Corporation's securities as of June 30, 2010 and December 31, 2009:

| (Dollar amounts in thousands) | Amortized cost |  | Unrealized gains |  | Unrealized losses |  | Fair <br> value |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

Management evaluates securities for other-than-temporary impairment at least on a quarterly basis, and more frequently when economic, market or other concerns warrant such evaluation. Consideration is given to: (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, (3) whether the market decline was affected by macroeconomic and (4) whether the Corporation has the intent to sell the security or more likely than not will be required to sell the security before its anticipated recovery.

There were five equity and six debt securities in an unrealized loss position as of June 30, 2010. Equity securities owned by the Corporation consist of common stock of various financial service providers. These investment securities are in an unrealized loss position as a result of recent market volatility. The Corporation does not invest in these securities with the intent to sell them for a profit in the near term and believes these securities have potential to appreciate in value over the long-term, while providing for a reasonable dividend yield. For investments in equity securities, in addition to the general factors mentioned above for determining whether the decline in market value is other-than-temporary, the analysis of whether an equity security is other-than-temporarily impaired includes a review of the profitability and capital adequacy and all information available to determine the financial position and near term prospects of each issuer. Based on that evaluation, and given that the Corporation's current intention is not to sell any impaired securities and it is more likely than not it will not be required to sell these securities before the recovery of its amortized cost basis, the Corporation does not consider the equity securities with unrealized losses as of June 30, 2010 to be other-than-temporarily impaired.

For debt securities, an additional and critical component of the evaluation for other-than-temporary impairment is the identification of credit-related impairment of securities where it is likely that the Corporation will not receive cash
flows sufficient to recover the entire amortized cost basis of the security. Based on that evaluation and other general considerations, and given that the Corporation's current intention is not to sell any impaired securities and it is more likely than not it will not be required to sell these securities before the recovery of its amortized cost basis, the Corporation does not consider the debt securities with unrealized losses as of June 30, 2010 to be other-than-temporarily impaired.
5. Loans Receivable.

The Corporation's loans receivable as of the respective dates are summarized as follows:

| (Dollar amounts in thousands) | June 30, 2010 |  | $\begin{gathered} \text { December 31, } \\ 2009 \end{gathered}$ |  |
| :---: | :---: | :---: | :---: | :---: |
| Mortgage loans on real estate: |  |  |  |  |
| Residential first mortgages | \$ | 77,615 | \$ | 74,099 |
| Home equity loans and lines of credit |  | 75,351 |  | 77,284 |
| Commercial real estate |  | 90,651 |  | 89,952 |
|  |  | 243,617 |  | 241,335 |
| Other loans: |  |  |  |  |
| Commercial business |  | 39,573 |  | 41,588 |
| Consumer |  | 12,604 |  | 12,894 |
|  |  | 52,177 |  | 54,482 |
| Total loans, gross |  | 295,794 |  | 295,817 |
| Less allowance for loan losses |  | 3,298 |  | 3,202 |
| Total loans, net | \$ | 292,496 | \$ | 292,615 |
| Nonaccrual loans | \$ | 3,237 | \$ | 2,359 |
| Loans 90 days or more past due and still accruing |  | 81 |  | 59 |
| Total nonperforming loans | \$ | 3,318 | \$ | 2,418 |

Activity in the allowance for loan losses for the three and six months ended June 30, 2010 and 2009 was as follows:

| (Dollar amounts in thousands) | At or for the three months ended June 30, |  |  |  | At or for the six months ended June 30, |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | 2010 |  | 2009 |  | 2010 |  | 2009 |  |
| Balance at the beginning of the period | \$ | 3,174 | \$ | 2,885 | \$ | 3,202 | \$ | 2,651 |
| Provision for loan losses |  | 225 |  | 540 |  | 353 |  | 837 |
| Charge-offs |  | (110) |  | (501) |  | (277) |  | (572) |
| Recoveries |  | 9 |  | 11 |  | 20 |  | 19 |
| Balance at the end of the period | \$ | 3,298 | \$ | 2,935 | \$ | 3,298 | \$ | 2,935 |

Loans individually considered impaired were as follows:

| (Dollar amounts in thousands) | June 30, <br> 2010 | December 31, <br> 2010 |  |  |
| :--- | ---: | ---: | ---: | ---: |
|  |  |  |  |  |
| Loans considered impaired: | $\$$ | 276 | $\$$ | 150 |
| With no allocated allowance for loan losses | $\$$ | 1,075 | $\$$ | 740 |
| With an allocated allowance for loan losses | $\$$ | 140 | $\$$ | 128 |

The following table summarizes the Corporation's acquired goodwill and intangible assets as of June 30, 2010 and December 31, 2009:

| (Dollar amounts in thousands) | June 30, 2010 |  |  |  | December 31, 2009 |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Gross Carrying <br> Amount |  | Accumulated Amortization |  | Gross Carrying Amount |  | Accumulated Amortization |  |
| Goodwill | \$ | 3,664 | \$ | - | \$ | 3,657 | \$ | - |
| Core deposit intangibles |  | 4,027 |  | 1,747 |  | 4,027 |  | 1,443 |
| Total | \$ | 7,691 | \$ | 1,747 | \$ | 7,684 | \$ | 1,443 |

During the third quarter of 2009, the Corporation recorded goodwill and a core deposit intangible of $\$ 2.2$ million and $\$ 2.8$ million, respectively, associated with a branch purchase transaction. Goodwill is not amortized but is evaluated for impairment on an annual basis or whenever events or changes in circumstances indicate the carrying value may not be recoverable. No goodwill impairment charges were recorded during 2009 or in the first six months of 2010. The core deposit intangible asset is amortized using the double declining balance method over a weighted average estimated life of nine years and is not estimated to have a significant residual value. During the three and six month periods ending June 30, 2010, the Corporation recorded intangible amortization expense totaling \$152,000 and $\$ 304,000$, respectively.

## 7.

## Employee Benefit Plans.

The Corporation maintains a defined contribution $401(\mathrm{k})$ Plan. Eligible employees participate by providing tax-deferred contributions up to $20 \%$ of qualified compensation. Employee contributions are vested at all times. The Corporation provides a matching contribution of up to $4 \%$ of the participant's salary. Matching contributions for the six months ended June 30, 2010 and 2009 amounted to $\$ 88,000$ and $\$ 73,000$, respectively.

The Corporation provides pension benefits for eligible employees through a defined benefit pension plan. Substantially all full-time employees participate in the retirement plan on a non-contributing basis and are fully vested after three years of service. Effective January 1, 2009, the plan was closed to new participants.

The Corporation uses December 31 as the measurement date for its plans.
The components of the periodic pension cost are as follows:
(Dollar amounts in thousands)

|  | June 30, |  |  |  | June 30, |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | 2010 |  | 2009 |  | 2010 |  | 2009 |  |
| Service cost | \$ | 73 | \$ | 62 | \$ | 146 | \$ | 124 |
| Interest cost |  | 79 |  | 75 |  | 158 |  | 150 |
| Expected return on plan assets |  | (79) |  | (66) |  | (159) |  | (132) |
| Prior service costs |  | (8) |  | (8) |  | (16) |  | (16) |
| Recognized net actuarial loss |  | 27 |  | 27 |  | 55 |  | 54 |
| Net periodic pension cost | \$ | 92 | \$ | 90 | \$ | 185 | \$ | 180 |

The Corporation previously disclosed in its financial statements for the year ended December 31, 2009 that it expected to contribute $\$ 425,000$ to its pension plan in 2010. As of June 30, 2010, $\$ 425,000$ has been contributed.

The Corporation's 2007 Stock Incentive Plan and Trust (the Plan), which is shareholder-approved, permits the grant of restricted stock awards and options to its directors, officers and employees for up to 177,496 shares of common stock. Incentive stock options, non-incentive or compensatory stock options and share awards may be granted under the Plan. The exercise price of each option shall at least equal the market price of a share of common stock on the date of grant and have a contractual term of ten years. Options shall vest and become exercisable at the rate, to the extent and subject to such limitations as may be specified by the Corporation. Compensation cost related to share-based payment transactions must be recognized in the financial statements with measurement based upon the fair value of the equity or liability instruments issued.

A summary of option activity under the Plan as of June 30, 2010, and changes during the period then ended is presented below:

|  | Options |  | Average Price |  | Weighted-Average Remaining Term |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Outstanding as of January 1, 2010 | 96,250 | \$ | 24.79 | \$ |  | 7.8 |
| Granted | - |  | - |  |  |  |
| Exercised |  |  | - |  |  |  |
| Forfeited |  |  | - |  |  |  |
| Outstanding as of June 30, 2010 | 96,250 | \$ | 24.79 | \$ | - | 7.3 |
| Exercisable as of June 30, 2010 | 74,000 | \$ | 26.00 | \$ |  | 7.0 |

A summary of the status of the Corporation's nonvested options as of June 30, 2010, and changes during the period then ended is presented below:

|  | Weighted-Average <br> Grant-date Fair <br> Value |  |  |
| :--- | ---: | ---: | ---: |
| Options |  |  |  |
| Nonvested at January 1, 2010 96,250 | $\$$ | 3.02 |  |
| Granted | - | - |  |
| Vested | $(74,000$ | 3.39 |  |
| Forfeited | - | - |  |
| Nonvested as of June 30, 2010 | 22,250 | $\$$ | 1.80 |

During the six month period ended June 30, 2010, the Corporation granted 1,250 restricted stock awards with a face value of $\$ 17,000$ based on the grant date stock price of $\$ 13.60$. In addition, the Corporation granted 4,500 shares of restricted stock awards in 2008 and 6,750 shares of restricted stock awards in 2009 with face values of $\$ 101,000$ and $\$ 91,000$, respectively based on the grant date stock prices of $\$ 22.50$ and $\$ 13.50$, respectively. Restricted stock awards are $100 \%$ vested on the third anniversary date of the grant.

For the six month period ended June 30, 2010 and 2009, the Corporation recognized $\$ 81,000$ and $\$ 56,000$, respectively, in stock compensation expense. As of June 30, 2010, there was $\$ 154,000$ of total unrecognized
compensation cost related to nonvested share-based compensation arrangements granted under the Plan. That cost is expected to be recognized over the next three years.

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair value.

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2: Quoted prices in markets that are not active, or inputs that are observable either directly or indirectly, for substantially the full term of the asset or liability.

Level 3: Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e. supported with little or no market activity).

An asset or liability's level is based on the lowest level of input that is significant to the fair value measurement.
The following valuation techniques were used to measure fair value of assets in the tables below:
Available for sale securities - Fair value on available for sale securities is based upon quoted market prices when available (Level 1). If quoted market prices are not available, fair values are measured utilizing independent valuation techniques of identical or similar securities for which significant assumptions are derived primarily from or corroborated by observable market data. Third party vendors compile prices from various sources and may determine the fair value of identical or similar securities by using pricing models that consider observable market data (Level 2).

Impaired loans - Loans are designated as impaired when, in the judgment of management based on current information and events, it is probable that all amounts due according to the contractual terms of the loan agreement will not be collected. Most of the Corporation's loans are collateral dependent and, accordingly, fair value is measured based on the estimated fair market value of the collateral less the estimate costs to sell. Fair value of the loan's collateral is typically determined by appraisals or independent valuation (Level 3). Upon management's ongoing review, adjustments may be made to an appraised value to reflect various factors such as the age of the appraisal, known changes in the market or the collateral and management's estimation of the costs to sell. As of June 30, 2010 and December 31, 2009, the fair value consisted of loan balances of $\$ 799,000$ and $\$ 590,000$, respectively, net of a valuation allowance of $\$ 140,000$ and $\$ 128,000$, respectively. These impaired loans consisted primarily of commercial real estate. Additional provision for loan losses of $\$ 62,000$ was recorded during the six months ended June 30, 2010. Additional provision for loan losses of $\$ 128,000$ was recorded during the year ended December 31, 2009.

For assets measured at fair value on a recurring basis, the fair value measurements by level within the fair value hierarchy are as follows:

| June 30, 2010: | $\$$ | 2,582 | $\$$ | - |  | 2,582 |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
| $\$$ | $\$$ | - |  |  |  |  |
| U.S. Treasury and federal agency |  |  |  |  |  |  |
| U.S. government sponsored entities and |  | 63,495 | - | 63,495 | - |  |
| agencies | 30,062 | - | 30,062 | - |  |  |
| Mortgage-backed securities: residential | 2,018 | - | 2,018 | - |  |  |
| Collateralized mortgage obligations | 29,314 | - | 29,314 | - |  |  |
| State and political subdivision | 2,368 | 1,643 | 725 | - |  |  |
| Equity securities | $\$$ | 129,839 | $\$$ | 1,643 | $\$$ | 128,196 |
|  | $\$$ | - |  |  |  |  |

December 31, 2009:

| U.S. government sponsored entities and agencies | \$ | 3,001 | \$ | - | \$ | 3,001 | \$ | - |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Mortgage-backed securities: residential |  | 50,797 |  | - |  | 50,797 |  | - |
| Collateralized mortgage obligations |  | 16,530 |  | - |  | 16,530 |  | - |
| State and political subdivision |  | 5,130 |  | - |  | 5,130 |  | - |
| Corporate securities |  | 26,967 |  | - |  | 26,967 |  |  |
| Equity securities |  | 2,818 |  | 2,093 |  | 725 |  | - |
|  | \$ | 105,243 | \$ | 2,093 | \$ | 103,150 | \$ | - |

For assets measured at fair value on a non-recurring basis, the fair value measurements by level within the fair value hierarchy are as follows:
(Dollar amounts in thousands)

Description
Total
(Level 1) (Level 2)

Fair Values of Financial Instruments (continued).
The following table sets forth the carrying amount and fair value of the Corporation's financial instruments included in the consolidated balance sheet as of June 30, 2010:

| (Dollar amounts in thousands) | June 30, 2010 |  |  |  | December 31, 2009 |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Carrying amount |  | Fair value |  | Carrying amount |  | Fair value |  |
| Financial assets: |  |  |  |  |  |  |  |  |
| Cash and cash equivalents | \$ | 34,697 | \$ | 34,862 | \$ | 38,952 | \$ | 38,952 |
| Securities |  | 129,839 |  | 129,839 |  | 105,243 |  | 105,243 |
| Loans receivable, net |  | 292,496 |  | 302,220 |  | 292,615 |  | 298,197 |
| Federal bank stocks |  | 4,275 |  | N/A |  | 4,125 |  | N/A |
| Accrued interest receivable |  | 1,591 |  | 1,591 |  | 1,574 |  | 1,574 |
|  |  |  |  |  |  |  |  |  |
| Financial liabilities: |  |  |  |  |  |  |  |  |
| Deposits |  | 404,547 |  | 410,800 |  | 385,325 |  | 389,443 |
| Borrowed funds |  | 40,000 |  | 43,966 |  | 40,000 |  | 43,258 |
| Accrued interest payable |  | 729 |  | 729 |  | 711 |  | 711 |
| Off-balance sheet commitments |  | - |  | - |  | - |  | - |

Management uses its best judgment in estimating the fair value of the Corporation's financial instruments; however, there are inherent weaknesses in any estimation technique. Therefore, for substantially all financial instruments, the fair value estimates herein are not necessarily indicative of the amounts the Corporation could have realized in a sale transaction on the dates indicated. The estimated fair value amounts have been measured as of the dates shown and have not been re-evaluated or updated for purposes of these financial statements subsequent to those respective dates.

This information should not be interpreted as an estimate of the fair value of the entire Corporation since a fair value calculation is only provided for a limited portion of the Corporation's assets and liabilities. Due to a wide range of valuation techniques and the degree of subjectivity used in making the estimates, comparisons between the Corporation's disclosures and those of other companies may not be meaningful. The following methods and assumptions were used to estimate fair values of the Corporation's financial instruments at June 30, 2010 and December 31, 2009:

Carrying amount is the estimated fair value for cash and cash equivalents, securities, federal bank stocks, accrued interest receivable and payable, demand deposits, borrowed funds, and variable rate loans or deposits that reprice frequently and fully. For fixed rate loans or deposits and for variable rate loans or deposits with infrequent repricing or repricing limits, fair value is based on discounted cash flows using current market rates applied to the estimated life and credit risk. Fair value of debt is based on current rates for similar financing. It was not practicable to determine the fair value of federal bank stocks due to restrictions placed on the stocks transferability.

Estimates of the fair value of off-balance sheet items were not made because of the short-term nature of these arrangements and the credit standing of the counterparties. Also, unfunded loan commitments relate principally to variable rate commercial loans. Therefore, the fair value of these instruments is not material.

In January 2010, the Financial Accounting Standards Board (FASB) issued guidance increasing fair value disclosure and to clarify some existing disclosure requirements about fair value measurement. It requires separate presentation of significant transfers into and out of Levels 1 and 2 of the fair value hierarchy and disclosure of the reasons for such transfers. It will also require the presentation of purchases, sales, issuances and settlements within Level 3 on a gross basis rather than a net basis. The amendments also clarify that disclosures should be disaggregated by class of asset or liability and that disclosures about inputs and valuation techniques should be provided for both recurring and non-recurring fair value measurements. These new disclosure requirements were adopted by the Corporation during the current period, with the exception of the requirement concerning gross presentation of Level 3 activity, which is effective for fiscal years beginning after December 15, 2010. With respect to the portions of this amendment that were adopted during the current period, the adoption of this standard did not have a significant impact on the Corporation's consolidated financial statements. The Corporation believes that the adoption of the remaining portion of this amendment will not have a significant impact on the consolidated financial statements.

In April 2010, the FASB issued guidance on the accounting for loan modifications when the loan is part of a pool of loans accounted for as a single asset such as acquired loans that have evidence of credit deterioration upon acquisition. This guidance addresses diversity in practice on whether a loan that is part of a pool of loans accounted for as a single asset should be removed from that pool upon a modification that would constitute a troubled debt restructuring or remain in the pool after modification. The guidance also clarifies that modifications of loans that are accounted for within a pool do not result in the removal of those loans from the pool even if the modification of those loans would otherwise be considered a troubled debt restructuring. An entity will continue to be required to consider whether the pool of assets in which the loan is included is impaired if the expected cash flows for the pool change. The amendments in this update do not require any additional disclosures and are effective for modifications of loans accounted for within pools occurring in the first interim or annual period ending on or after July 15, 2010. This guidance is not expected to have a significant impact on the consolidated financial statements.

In July 2010, the FASB issued a statement which expands disclosures about credit quality of financing receivables and allowance for credit losses. The standard will require the Corporation to expand disclosures about the credit quality of loans and the related reserves against them. The additional disclosures will include details on past due loans, credit quality indicators and modifications of loans. The statement is effective for interim and annual reporting periods after December 15, 2010. The Corporation will include these disclosures beginning with its December 31, 2010 consolidated financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
This section discusses the consolidated financial condition and results of operations of Emclaire Financial Corp. and its wholly owned subsidiaries, the Bank and the Title Company, for the three and six months ended June 30, 2010, compared to the same periods in 2009 and should be read in conjunction with the Corporation's December 31, 2009 Annual Report on Form 10-K filed with the SEC and with the accompanying consolidated financial statements and notes presented on pages 1 through 14 of this Form 10-Q.

This Form $10-\mathrm{Q}$, including the financial statements and related notes, contains forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act. These forward looking statements represent plans, estimates, objectives, goals, guidelines, expectations, intentions, projections and statements of our beliefs concerning future events, business plans, objectives, expected operating results and the assumptions upon which those statements are based. Forward looking statements include without limitation, any statement that may predict, forecast, indicate or imply future results, performance or achievements, and are typically identified with words such as "may," "could," "should," "will," "would," "believe," "anticipate," "estimate," "expect," "intend," "plan" or words or phras meaning. We caution that the forward looking statements are based largely on our expectations and are subject to a number of known and unknown risks and uncertainties that are subject to change based on factors which are, in many instances, beyond our control. Actual results, performances or achievements could differ materially from those contemplated, expressed or implied by the forward looking statements. Therefore, we caution you not to place undue reliance on our forward looking information and statements. Except as required by applicable law or regulation, we will not update the forward looking statements to reflect actual results or changes in factors affecting the forward looking statements.

## CHANGES IN FINANCIAL CONDITION

Total assets increased $\$ 19.6$ million or $4.2 \%$ to $\$ 487.2$ million at June 30,2010 from $\$ 467.5$ million at December 31, 2009. This increase resulted from an increase in securities of $\$ 24.6$ million, partially offset by a decrease in cash and cash equivalents of $\$ 4.3$ million. The net increase in the Corporation's assets was primarily funded by increases in customer deposits.

Total liabilities increased $\$ 17.2$ million or $4.0 \%$ to $\$ 447.7$ million at June 30,2010 from $\$ 430.5$ million at December 31,2009 , while total stockholders' equity increased $\$ 2.5$ million or $6.6 \%$ to $\$ 39.5$ million at June 30,2010 from $\$ 37.0$ million at December 31, 2009. The increase in total liabilities resulted primarily from a $\$ 19.2$ million or $5.0 \%$ increase in customer deposits. The increase in customer deposits consisted of an $\$ 8.9$ million or $13.4 \%$ increase in noninterest bearing deposits and a $\$ 10.3$ million or $3.2 \%$ increase in interest bearing deposits.

## RESULTS OF OPERATIONS

Comparison of Results for the Three Month Period Ended June 30, 2010 and 2009
General. Net income increased $\$ 435,000$ to $\$ 843,000$ for the three months ended June 30, 2010 from $\$ 408,000$ for the same period in 2009. This $\$ 435,000$ increase was the result of increases in net interest income and noninterest income of $\$ 676,000$ and $\$ 178,000$, respectively, and a decrease in the provision for loan losses of $\$ 315,000$. Partially offsetting these favorable items, noninterest expense and the provision for income taxes increased $\$ 568,000$ and $\$ 166,000$, respectively.

Net interest income. Net interest income on a tax equivalent basis increased $\$ 694,000$ or $22.3 \%$ to $\$ 3.8$ million for the three months ended June 30, 2010 from $\$ 3.1$ million for the same period in 2009. This net increase can be attributed
to an increase in tax equivalent interest income of $\$ 746,000$, partially offset by an increase in interest expense of $\$ 52,000$.

Interest income. Interest income on a tax equivalent basis increased $\$ 746,000$ or $15.2 \%$ to $\$ 5.7$ million for the three months ended June 30, 2010, compared to $\$ 4.9$ million for the same period in the prior year. This increase can be attributed to increases in interest on loans, securities and federal bank stock dividends of $\$ 278,000, \$ 479,000$ and $\$ 8,000$, respectively, partially offset by a decrease in interest-earning deposits with banks of $\$ 19,000$.

Tax equivalent interest earned on loans receivable increased $\$ 278,000$ or $6.7 \%$ to $\$ 4.5$ million for the three months ended June 30, 2010, compared to $\$ 4.2$ million for the same period in 2009. This increase resulted primarily from average loans increasing $\$ 20.6$ million or $7.5 \%$, accounting for $\$ 312,000$ in additional loan interest income. This increase can be attributed to growth in the Corporation's existing loan portfolio and loans acquired through the third quarter 2009 purchase of the Titusville banking office from PNC (formerly National City Bank). Offsetting this favorable volume increase, the average yield on loans receivable decreased 5 basis points to $6.06 \%$ for the three months ended June 30, 2010, versus $6.11 \%$ for the same period in 2009, due to declining market interest rates, accounting for a $\$ 34,000$ decrease in interest income.

Tax equivalent interest earned on securities increased $\$ 479,000$ or $72.8 \%$ to $\$ 1.1$ million for the three months ended June 30,2010 , compared to $\$ 658,000$ for the same period in 2009. The average volume of securities increased $\$ 75.1$ million, primarily as a result of the deployment of net cash received in the branch purchase, accounting for a $\$ 688,000$ increase in interest income. Offsetting this favorable volume increase, the average yield on securities decreased 122 basis points to $3.48 \%$ for the three months ended June 30, 2010, versus $4.70 \%$ for the same period in 2009, due primarily to shorter-termed security purchases made in the third and fourth quarters of 2009 and first and second quarters of 2010 at market yields lower than the overall average of the existing portfolio. This unfavorable yield variance accounted for a $\$ 209,000$ decrease in interest income.

Interest earned on interest-earning deposit accounts decreased $\$ 19,000$ or $21.8 \%$ to $\$ 68,000$ for the three months ended June 30, 2010 from $\$ 87,000$ for the same period in 2009. The average volume of these assets increased $\$ 7.5$ million, increasing interest income by $\$ 24,000$. Offsetting this volume increase, the average yield on interest-earning deposit accounts decreased 64 basis points to $0.90 \%$ for the three months ended June 30, 2010, compared to $1.54 \%$ for the same period in the prior year, accounting for a $\$ 43,000$ decrease in interest income.

Dividends on federal bank stocks increased $\$ 8,000$ to $\$ 11,000$ for the three month period ended June 30, 2010 from $\$ 3,000$ for the same period in 2009. The average yield on these assets increased 75 basis points to $1.04 \%$ for the three months ended June 30, 2010, compared to $0.29 \%$ for the same period the prior year.

Interest expense. Interest expense increased $\$ 52,000$ or $2.9 \%$ to $\$ 1.9$ million for the three months ended June 30, 2010 from $\$ 1.8$ million for the same period in 2009. This increase in interest expense can be attributed to an increase in interest incurred on borrowed funds of $\$ 66,000$, partially offset by a decrease in interest incurred on deposits of \$14,000.

Interest expense incurred on deposits decreased $\$ 14,000$ or $1.0 \%$ to $\$ 1.4$ million for the three months ended June 30, 2010 compared to $\$ 1.4$ million for the same period in 2009. The average cost of interest-bearing deposits decreased 64 basis points to $1.71 \%$ for the three months ended June 30, 2010, compared to $2.35 \%$ for the same period in 2009 causing a $\$ 445,000$ decrease in interest expense. Partially offsetting this favorable rate variance, the average volume of interest-bearing deposits increased $\$ 86.8$ million or $35.8 \%$ to $\$ 329.1$ million for the three months ended June 30, 2010 , compared to $\$ 242.3$ million for the same period in 2009 causing a $\$ 431,000$ increase in interest expense. This increase was primarily due to deposits assumed through the aforementioned branch purchase.

Interest expense incurred on borrowed funds increased $\$ 66,000$ or $17.0 \%$ to $\$ 455,000$ for the three months ended June 30,2010 , compared to $\$ 389,000$ for the same period in the prior year. This increase can be attributed to an increase in the average cost of borrowed funds of 71 basis points to $4.56 \%$ for the three months ended June 30, 2010, compared to $3.85 \%$ for the same period in 2009 causing a $\$ 71,000$ increase in interest expense. This increase in the average cost was due to higher short-term borrowing rates resulting from the third quarter $2009 \$ 5.0$ million advance on a line of credit with a correspondent bank. The line of credit has a current rate of $4.75 \%$. Partially offsetting this unfavorable cost increase, the average balance of short-term borrowed funds decreased $\$ 561,000$ or $1.4 \%$ to $\$ 40.0$ million for the three months ended June 30, 2010, compared to $\$ 40.6$ million for the same period in the prior year, causing a $\$ 5,000$

## Edgar Filing: EMCLAIRE FINANCIAL CORP - Form 10-Q

decrease in interest expense. This volume decrease was related to a decrease in short-term borrowings.

Average Balance Sheet and Yield/Rate Analysis. The following table sets forth, for the periods indicated, information concerning the total dollar amounts of interest income from interest-earning assets and the resulting average yields, the total dollar amounts of interest expense on interest-bearing liabilities and the resulting average costs, net interest income, interest rate spread and the net interest margin earned on average interest-earning assets. For purposes of this table, average loan balances include non-accrual loans and exclude the allowance for loan losses and interest income includes accretion of net deferred loan fees. Interest and yields on tax-exempt loans and securities (tax-exempt for federal income tax purposes) are shown on a fully tax equivalent basis. The information is based on average daily balances during the periods presented.

Analysis of Changes in Net Interest Income. The following table analyzes the changes in interest income and interest expense in terms of: (1) changes in volume of interest-earning assets and interest-bearing liabilities and (2) changes in yields and rates. The table reflects the extent to which changes in the Corporation's interest income and interest expense are attributable to changes in volume (changes in volume multiplied by prior year rate), rate (change in rate multiplied by prior year volume) and changes attributable to the combined impact of volume/rate (change in rate multiplied by change in volume). The changes attributable to the combined impact of volume/rate are allocated on a consistent basis between the volume and rate variances. Changes in interest income on loans and securities reflect the changes in interest income on a fully tax equivalent basis.

Provision for loan losses. The Corporation records provisions for loan losses to maintain a level of total allowance for loan losses that management believes, to the best of its knowledge, covers all known and inherent losses that are both probable and reasonably estimable at each reporting date. Management considers historical loss experience, the present and prospective financial condition of borrowers, current conditions (particularly as they relate to markets where the Corporation originates loans), the status of non-performing assets, the estimated underlying value of the collateral and other factors related to the collectability of the loan portfolio.

Information pertaining to the allowance for loan losses and non-performing assets for the quarter ended June 30, 2010 and 2009 is as follows:
(Dollar amounts in thousands)

|  | June 30, |  |  |  |
| :--- | :---: | :---: | :---: | :---: |
|  | 2010 | 2009 |  |  |
| Balance at the beginning of the period | $\$$ | 3,174 | $\$$ | 2,885 |
| Provision for loan losses | 225 | 540 |  |  |
| Charge-offs |  | $(110)$ | $(501)$ |  |
| Recoveries | 9 |  | 11 |  |
| Balance at the end of the period | $\$$ | 3,298 | $\$$ | 2,935 |
| Non-performing loans | $\$$ | 3,318 | $\$$ | 2,208 |

| Non-performing assets | 3,453 | 2,746 |
| :--- | :---: | :---: |
| Non-performing loans to total loans | $1.12 \%$ | $0.81 \%$ |
| Non-performing assets to total assets | $0.71 \%$ | $0.70 \%$ |
| Allowance for loan losses to total loans | $1.11 \%$ | $1.08 \%$ |
| Allowance for loan losses to non-performing loans | $99.40 \%$ | $132.94 \%$ |

The provision for loan losses decreased $\$ 315,000$ or $58.3 \%$ to $\$ 225,000$ for the three month period ended June 30 , 2010 from $\$ 540,000$ for the same period in the prior year due to a decline in overall delinquency in the loan portfolio. At June 30, 2010, loans past due 30 days or more totaled $\$ 4.2$ million, compared to $\$ 7.7$ million in delinquent loans at December 31, 2009.

Nonperforming loans increased $\$ 1.1$ million to $\$ 3.3$ million at June 30, 2010 from $\$ 2.2$ million at June 30, 2009 as a result of pressure on borrowers related to the prevailing poor economic climate. At June 30, 2010, nonperforming loans were stable, increasing by $\$ 81,000$ from $\$ 3.2$ million at March 31, 2010.

Noninterest income. Noninterest income increased $\$ 178,000$ or $19.4 \%$ to $\$ 1.1$ million during the three months ended June 30, 2010, compared to $\$ 919,000$ during the same period in the prior year. This increase was primarily due to increases in gains on the sale of securities and other noninterest income of $\$ 117,000$ and $\$ 72,000$, respectively. The Corporation recorded gains on the sale of certain securities totaling $\$ 301,000$ during the second quarter of 2010 compared to gains totaling $\$ 184,000$ on the sale of investments during the second quarter of 2009. Other noninterest income increased primarily due to an increase in ATM and point-of-sale interchange fee income of $\$ 69,000$ to $\$ 151,000$ for the three months ended June 30, 2010, compared to $\$ 82,000$ during the same period in the prior year.

Noninterest expense. Noninterest expense increased $\$ 568,000$ or $19.6 \%$ to $\$ 3.5$ million during the three months ended June 30, 2010 compared to $\$ 2.9$ million for the same period in 2009. This increase in noninterest expense can be attributed to increases in compensation and employee benefits, premises and equipment, intangible amortization and other noninterest expenses of $\$ 339,000, \$ 86,000, \$ 152,000$ and $\$ 168,000$, respectively, partially offset by a decrease in professional fees and FDIC expense of $\$ 96,000$ and $\$ 81,000$, respectively.

Compensation and employee benefits increased $\$ 339,000$ or $23.6 \%$ to $\$ 1.8$ million for the three months ended June 30,2010 compared to $\$ 1.4$ million for the same period in the prior year. This increase can be primarily attributed to normal salary and wage increases, staff added in connection with the 2009 branch purchase and the reinstatement of the previously suspended incentive programs.

Premises and equipment increased $\$ 86,000$ or $19.4 \%$ to $\$ 529,000$ for the three months ended June 30, 2010, compared to $\$ 443,000$ for the same period in the prior year. This increase was primarily related to the 2009 branch purchase and increased fixed asset depreciation expenses.

As a result of the branch purchase, the Bank recognized \$152,000 of core deposit intangible amortization expense during the second quarter of 2010. Further discussion related to goodwill and intangible assets related to the branch office purchase can be found in the "Notes to Consolidated Financial Statements" beginning on page 5.

Professional fees decreased $\$ 96,000$ or $36.8 \%$ to $\$ 165,000$ for the three months ended June 30, 2010, compared to $\$ 261,000$ for the same period in the prior year. This decrease was primarily related to a decrease in legal and consulting fees associated with the 2009 branch office purchase.

FDIC expense decreased $\$ 81,000$ to $\$ 148,000$ for the three months ended June 30, 2010, compared to $\$ 229,000$ for the same period in the prior year. During the second quarter of 2009 , in addition to regular quarterly premiums, the Corporation recorded $\$ 180,000$ in FDIC expense for a special assessment which was imposed on all FDIC insured depository institutions and collected on September 30, 2009. Regular quarterly FDIC premiums for the second quarter of 2010 increased from the same quarter in the prior year as a result of the Bank's increased deposit base and increased base assessment rates applied to all FDIC insured depository institutions.

Other noninterest expense increased $\$ 168,000$ or $32.0 \%$ to $\$ 693,000$ during the three months ended June 30,2010 , compared to $\$ 525,000$ for the same period in the prior year. This increase can be attributed primarily to costs
associated with operating an additional branch office.

Provision for income taxes. The provision for income taxes increased $\$ 166,000$ to $\$ 220,000$ for the three months ended June 30, 2010 compared to $\$ 54,000$ for the same period in the prior year. This increase was primarily related to an increase in pre-tax income of $\$ 601,000$ to $\$ 1.1$ million for the three months ended June 30, 2010, compared to $\$ 462,000$ for the same period in 2009. The effective tax rate increased to $20.7 \%$ for the three months ended June 30, 2010, compared to $11.7 \%$ for the same period in 2009. This higher effective tax rate resulted from a decreased portion of pre-tax income having been generated from tax-exempt investment securities and loans. The difference between the statutory rate of $34 \%$ and the Corporation's effective tax rate is due to tax-exempt income earned on certain tax-free loans and securities and bank-owned life insurance.

Comparison of Results for the Six Month Period Ended June 30, 2010 and 2009
General. Net income increased $\$ 449,000$ or $41.7 \%$ to $\$ 1.5$ million for the six months ended June 30, 2010 from $\$ 1.1$ million for the same period in 2009. This increase was the result of increases in net interest income and noninterest income of $\$ 1.1$ million and $\$ 302,000$, respectively, and a decrease in the provision for loan losses of $\$ 484,000$. Partially offsetting these favorable items, noninterest expense and the provision for income taxes increased $\$ 1.3$ million and $\$ 122,000$, respectively.

Net interest income. Net interest income on a tax equivalent basis increased $\$ 1.2$ million or $18.6 \%$ to $\$ 7.5$ million for the six months ended June 30,2010 from $\$ 6.3$ million for the same period in 2009. This net increase can be attributed to an increase in tax equivalent interest income of $\$ 1.1$ million and a decrease in interest expense of $\$ 27,000$.

Interest income. Interest income on a tax equivalent basis increased $\$ 1.1$ million or $11.4 \%$ to $\$ 11.2$ million for the six months ended June 30, 2010, compared to $\$ 10.0$ million for the same period in the prior year. This increase can be attributed to increases in interest on loans, securities and federal bank stock dividends of $\$ 437,000, \$ 718,000$ and $\$ 14,000$, respectively, partially offset by a decrease in interest-earning deposits with banks of $\$ 24,000$.

Tax equivalent interest earned on loans receivable increased $\$ 437,000$ or $5.2 \%$ to $\$ 8.9$ million for the six months ended June 30, 2010, compared to $\$ 8.5$ million for the same period in 2009. This increase resulted primarily from average loans increasing $\$ 18.2$ million or $6.6 \%$, accounting for $\$ 550,000$ in additional loan interest income. This increase can be attributed to growth in the Corporation's existing loan portfolio and loans acquired through the third quarter 2009 purchase of the Titusville banking office from PNC (formerly National City Bank). Offsetting this favorable volume increase, the average yield on loans receivable decreased 8 basis points to $6.08 \%$ for the six months ended June 30, 2010, versus $6.16 \%$ for the same period in 2009, due to declining market interest rates, accounting for a $\$ 113,000$ decrease in interest income.

Tax equivalent interest earned on securities increased $\$ 718,000$ or $51.0 \%$ to $\$ 2.1$ million for the six months ended June 30, 2010, compared to $\$ 1.4$ million for the same period in 2009. The average volume of securities increased $\$ 64.8$ million, primarily as a result of the deployment of net cash received in the branch purchase, accounting for a $\$ 1.2$ million increase in interest income. Offsetting this favorable volume increase, the average yield on securities decreased 138 basis points to $3.48 \%$ for the six months ended June 30, 2010, versus $4.86 \%$ for the same period in 2009, due primarily to shorter-termed security purchases made in the third and fourth quarters of 2009 and first and second quarters of 2010 at market yields lower than the overall average of the existing portfolio. This unfavorable yield variance accounted for a $\$ 490,000$ decrease in interest income.

Interest earned on interest-earning deposit accounts decreased $\$ 24,000$ or $13.6 \%$ to $\$ 152,000$ for the six months ended June 30, 2010 from $\$ 176,000$ for the same period in 2009. The average volume of these assets increased $\$ 6.9$ million, increasing interest income by $\$ 46,000$. Offsetting this volume increase, the average yield on interest-earning deposit accounts decreased 54 basis points to $1.05 \%$ for the six months ended June 30, 2010, compared to $1.59 \%$ for the same period in the prior year, accounting for a $\$ 70,000$ decrease in interest income.

Dividends on federal bank stocks increased $\$ 14,000$ to $\$ 22,000$ for the six month period ended June 30, 2010 from $\$ 8,000$ for the same period in 2009. The average yield on these assets increased 65 basis points to $1.06 \%$ for the six months ended June 30, 2010, compared to $0.41 \%$ for the same period the prior year.

Interest expense. Interest expense decreased $\$ 27,000$ to $\$ 3.7$ million for the six months ended June 30, 2010 from $\$ 3.8$ million for the same period in 2009. This decrease in interest expense can be attributed to a decrease in interest incurred on deposits of $\$ 128,000$, partially offset by an increase in interest incurred on borrowed funds of $\$ 101,000$.

Interest expense incurred on deposits decreased $\$ 128,000$ or $4.3 \%$ to $\$ 2.8$ million for the six months ended June 30, 2010 compared to $\$ 3.0$ million for the same period in 2009. The average cost of interest-bearing deposits decreased 73 basis points to $1.76 \%$ for the six months ended June 30, 2010, compared to $2.49 \%$ for the same period in 2009 causing a $\$ 1.0$ million decrease in interest expense. Partially offsetting this favorable rate variance, the average volume of interest-bearing deposits increased $\$ 84.3$ million or $35.1 \%$ to $\$ 324.4$ million for the six months ended June 30 , 2010, compared to $\$ 240.0$ million for the same period in 2009 causing an $\$ 874,000$ increase in interest expense. This increase was primarily due to deposits assumed through the aforementioned branch purchase.

Interest expense incurred on borrowed funds increased $\$ 101,000$ or $12.6 \%$ to $\$ 901,000$ for the six months ended June 30,2010 , compared to $\$ 800,000$ for the same period in the prior year. This increase can be attributed to an increase in the average cost of borrowed funds of 121 basis points to $4.54 \%$ for the six months ended June 30, 2010, compared to $3.33 \%$ for the same period in 2009 causing a $\$ 257,000$ increase in interest expense. This increase in the average cost was due to higher short-term borrowing rates resulting from the third quarter $2009 \$ 5.0$ million advance on a line of credit with a correspondent bank. The line of credit has a current rate of $4.75 \%$. Partially offsetting this unfavorable cost increase, the average balance of borrowed funds decreased $\$ 8.5$ million or $17.5 \%$ to $\$ 40.0$ million for the six months ended June 30 , 2010, compared to $\$ 48.5$ million for the same period in the prior year, causing a $\$ 156,000$ decrease in interest expense. This volume decrease was related to a decrease in short-term borrowings.

Average Balance Sheet and Yield/Rate Analysis. The following table sets forth, for the periods indicated, information concerning the total dollar amounts of interest income from interest-earning assets and the resulting average yields, the total dollar amounts of interest expense on interest-bearing liabilities and the resulting average costs, net interest income, interest rate spread and the net interest margin earned on average interest-earning assets. For purposes of this table, average loan balances include non-accrual loans and exclude the allowance for loan losses and interest income includes accretion of net deferred loan fees. Interest and yields on tax-exempt loans and securities (tax-exempt for federal income tax purposes) are shown on a fully tax equivalent basis. The information is based on average daily balances during the periods presented.

Analysis of Changes in Net Interest Income. The following table analyzes the changes in interest income and interest expense in terms of: (1) changes in volume of interest-earning assets and interest-bearing liabilities and (2) changes in yields and rates. The table reflects the extent to which changes in the Corporation's interest income and interest expense are attributable to changes in volume (changes in volume multiplied by prior year rate), changes in rate (change in rate multiplied by prior year volume) and changes attributable to the combined impact of volume/rate (change in rate multiplied by change in volume). The changes attributable to the combined impact of volume/rate are allocated on a consistent basis between the volume and rate variances. Changes in interest income on loans and securities reflect the changes in interest income on a fully tax equivalent basis.

Provision for loan losses. The Corporation records provisions for loan losses to maintain a level of total allowance for loan losses that management believes, to the best of its knowledge, covers all known and inherent losses that are both probable and reasonably estimable at each reporting date. Management considers historical loss experience, the present and prospective financial condition of borrowers, current conditions (particularly as they relate to markets where the Corporation originates loans), the status of non-performing assets, the estimated underlying value of the collateral and other factors related to the collectability of the loan portfolio.

Information pertaining to the allowance for loan losses and non-performing assets for the quarter ended June 30, 2010 and 2009 is as follows:
(Dollar amounts in thousands)
At or for the six months ended
June 30,

|  | 2010 |  |  | 2009 |
| :--- | :---: | :---: | :---: | :---: |
| Balance at the beginning of the period | $\$$ | 3,202 | $\$$ | 2,651 |
| Provision for loan losses |  | 353 | 837 |  |
| Charge-offs |  | $(277)$ | $(572)$ |  |
| Recoveries | 20 |  | 19 |  |
| Balance at the end of the period | 3,298 | $\$$ | 2,935 |  |
|  |  |  |  |  |
| Non-performing loans | $\$$ | 3,318 | $\$$ | 2,208 |

| Non-performing assets | 3,453 | 2,746 |
| :--- | :---: | :---: |
| Non-performing loans to total loans | $1.12 \%$ | $0.81 \%$ |
| Non-performing assets to total assets | $0.71 \%$ | $0.70 \%$ |
| Allowance for loan losses to total loans | $1.11 \%$ | $1.08 \%$ |
| Allowance for loan losses to non-performing loans | $99.40 \%$ | $132.94 \%$ |

The provision for loan losses decreased $\$ 484,000$ or $57.8 \%$ to $\$ 353,000$ for the six month period ended June 30, 2010 from $\$ 837,000$ for the same period in the prior year due to a decline in overall delinquency in the loan portfolio. At June 30, 2010, loans past due 30 days or more totaled $\$ 4.2$ million, compared to $\$ 7.7$ million in delinquent loans at December 31, 2009.

Nonperforming loans increased $\$ 1.1$ million to $\$ 3.3$ million at June 30, 2010 from $\$ 2.2$ million at June 30, 2009 as a result of pressure on borrowers related to the prevailing poor economic climate. During the six month period ended June 30, 2010, nonperforming loans increased by $\$ 900,000$ from $\$ 2.4$ million at December 31, 2009. This increase was due primarily to the addition of an $\$ 811,000$ credit relationship to nonaccrual status due to its recent performance.

Classified Assets. Regulations applicable to insured institutions require the classification of problem assets as "substandard," "doubtful," or "loss" depending upon the existence of certain characteristics as discussed below. A category designated "special mention" must also be maintained for assets currently not requiring the above classification but having potential weakness or risk characteristics that could result in future problems. An asset is classified as substandard if not adequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. A substandard asset is characterized by the distinct possibility that the Corporation will sustain some loss if the deficiencies are not corrected. Assets classified as doubtful have all the weaknesses inherent in those classified as substandard. In addition, these weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions and values, highly questionable or improbable. Assets classified as loss are considered uncollectible and of such little value that their continuance as assets is not warranted.

The Corporation's classification of assets policy requires the establishment of valuation allowances for loan losses in an amount deemed prudent by management. Valuation allowances represent loss allowances that have been established to recognize the inherent risk associated with lending activities. When the Corporation classifies a problem asset as a loss, the portion of the asset deemed uncollectible is charged off immediately.

The Corporation regularly reviews the problem loans and other assets in its portfolio to determine whether any require classification in accordance with the Corporation's policy and applicable regulations. As of June 30, 2010, the Corporation's classified and criticized assets amounted to $\$ 14.7$ million, with $\$ 7.7$ million classified as substandard, $\$ 49,000$ classified as doubtful and $\$ 6.9$ million identified as special mention. As of March 31, 2010 and December 31, 2009, the Corporation's classified and criticized assets amounted to $\$ 15.8$ million and $\$ 16.6$ million, respectively. Included in classified and criticized assets at June 30, 2010 are two separate loans exhibiting credit deterioration impacting the ability of the borrowers to comply with their present loan repayment terms.

The first loan, with an outstanding balance of $\$ 3.0$ million at June 30, 2010, was originated for the construction of a hotel, restaurant and retail plaza secured by such property, the borrower's personal residence, a separate residence and a separate farm. The hotel, restaurant and retail plaza are complete and operational. However, cash flows from operations have not been constant due to the seasonal business of the hotel. In addition, the borrower does not have other liquid sources of cash flow. As a result, the borrower has listed substantial real estate holdings for sale. Pending such sales, the Bank anticipates that the relationship may continue to have cash flow issues which may impact the timely payment of principal and interest to the Bank. At June 30, 2010, the loan was current but identified as special mention. Ultimately, due to the estimated value of the borrower's significant real estate holdings, the Bank does not currently expect to incur a loss on this loan.

The second loan, with an outstanding balance of $\$ 2.2$ million at June 30,2010 , is a consumer installment loan for the purpose of the consolidating various personal debts. This loan is secured by a lien on the primary residence of the first borrower discussed above, an assigned life insurance policy and the assignment of patent royalty income. Due to business difficulties and decreased royalty income, payments on the loan have not always been timely. At June 30, 2010, the loan was performing but was classified substandard. As a result of the estimated value of the lien on the
property owned by the first borrower, the estimated cash flow of royalty income and the borrower's business prospects, the Bank does not currently expect to incur a loss on this loan.

Noninterest income. Noninterest income increased $\$ 302,000$ or $18.4 \%$ to $\$ 1.9$ million during the six months ended June 30 , 2010, compared to $\$ 1.6$ million during the same period in the prior year. This increase was primarily due to increases in gains on the sale of securities and commissions on financial services. The Corporation recorded gains on the sale of certain securities totaling $\$ 400,000$ during the first six months of 2010 compared to gains totaling $\$ 240,000$ on the sale of investments during the first six months of 2009. Commissions on financial services increased $\$ 79,000$ due in part to the addition of two financial services representatives during 2010. In addition to these favorable variances, title premiums increased $\$ 42,000$ as the Corporation's title company, which began operations in 2009 , is now fully integrated and operational, and other noninterest income increased $\$ 56,000$ primarily due to an $\$ 148,000$ increase in ATM and point-of-sale interchange fee income. Partially offsetting the increase in interchange fee income, gains on the sale of bank assets decreased by $\$ 74,000$ as the Corporation realized a $\$ 74,000$ gain on the sale of a bank assets in 2009 as a result of the sale of a building acquired in connection with the 2008 acquisition of Elk County Savings and Loan Association.

Noninterest expense. Noninterest expense increased $\$ 1.3$ million or $24.3 \%$ to $\$ 6.9$ million during the six months ended June 30, 2010 compared to $\$ 5.5$ million for the same period in 2009. This increase in noninterest expense can be attributed to increases in compensation and employee benefits, premises and equipment, intangible amortization, FDIC expense and other noninterest expenses of $\$ 732,000, \$ 155,000, \$ 304,000, \$ 16,000$ and $\$ 286,000$, respectively, partially offset by a decrease in professional fees of $\$ 155,000$.

Compensation and employee benefits increased $\$ 732,000$ or $25.5 \%$ to $\$ 3.6$ million for the six months ended June 30, 2010 compared to $\$ 2.9$ million for the same period in the prior year. This increase can be primarily attributed to normal salary and wage increases, staff added in connection with the 2009 branch purchase and the reinstatement of the previously suspended incentive programs.

Premises and equipment increased $\$ 155,000$ or $16.8 \%$ to $\$ 1.1$ million for the six months ended June 30,2010 , compared to $\$ 925,000$ for the same period in the prior year. This increase was primarily related to the 2009 branch purchase and increased fixed asset depreciation expenses.

Associated with the branch purchase, the Bank recognized $\$ 304,000$ of core deposit intangible amortization expense during the first six months of 2010. Further discussion related to goodwill and intangible assets related to the branch office purchase can be found in the "Notes to Consolidated Financial Statements" beginning on page 5.

Professional fees decreased $\$ 155,000$ or $35.7 \%$ to $\$ 279,000$ for the six months ended June 30, 2010, compared to $\$ 434,000$ for the same period in the prior year. This decrease was primarily related to a decrease in legal and consulting fees associated with the 2009 branch office purchase.

FDIC expense increased $\$ 16,000$ to $\$ 289,000$ for the six months ended June 30 , 2010, compared to $\$ 273,000$ for the same period in the prior year. This increase was the result of increases in the Bank's deposit base and increased base assessment rates applied to all FDIC insured depository institutions. During the six months ended June 30, 2009, in addition to regular quarterly premiums, the Corporation recorded $\$ 180,000$ in FDIC expense for a special assessment which was imposed on all FDIC insured depository institutions and collected on September 30, 2009.

Other noninterest expense increased $\$ 286,000$ or $28.3 \%$ to $\$ 1.3$ million during the six months ended June 30,2010 , compared to $\$ 1.0$ million for the same period in the prior year. This increase can be attributed primarily to costs associated with operating an additional branch office.

Provision for income taxes. The provision for income taxes increased $\$ 122,000$ or $49.2 \%$ to $\$ 370,000$ for the six months ended June 30,2010 compared to $\$ 248,000$ for the same period in the prior year. This increase was primarily related to the $\$ 571,000$ increase in pre-tax income to $\$ 1.9$ million for the six months ended June 30,2010 , compared
to $\$ 1.3$ million for the same period in 2009. The effective tax rate increased to $19.5 \%$ for the six months ended June 30,2010 , compared to $18.7 \%$ for the same period in 2009. This higher effective tax rate resulted from a decreased portion of pre-tax income having been generated from tax-exempt investment securities and loans. The difference between the statutory rate of $34 \%$ and the Corporation's effective tax rate is due to tax-exempt income earned on certain tax-free loans and securities and bank-owned life insurance.

## LIQUIDITY

The Corporation's primary sources of funds generally have been deposits obtained through the offices of the Bank, borrowings from the FHLB and Federal Reserve and amortization and prepayments of outstanding loans and maturing securities. During the six months ended June 30, 2010, the Corporation used its sources of funds primarily to fund loan originations and security purchases. As of such date, the Corporation had outstanding loan commitments, including undisbursed loans and amounts available under credit lines, totaling $\$ 53.8$ million, and standby letters of credit totaling $\$ 1.0$ million.

At June 30, 2010, time deposits amounted to $\$ 153.7$ million or $38.1 \%$ of the Corporation's total consolidated deposits, including approximately $\$ 50.8$ million of which are scheduled to mature within the next year. Management of the Corporation believes it has adequate resources to fund all of its commitments, all of its commitments will be funded as required by related maturity dates and, based upon past experience and current pricing policies, it can adjust the rates of time deposits to retain a substantial portion of maturing liabilities.

Aside from liquidity available from customer deposits or through sales and maturities of securities, the Corporation has alternative sources of funds such as a term borrowing capacity from the FHLB and the Federal Reserve's discount window. At June 30, 2010, the Corporation's borrowing capacity with the FHLB, net of funds borrowed, was $\$ 126.2$ million.

Management is not aware of any conditions, including any regulatory recommendations or requirements, which would adversely impact its liquidity or its ability to meet funding needs in the ordinary course of business.

## CRITICAL ACCOUNTING POLICIES

The Corporation's consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America and follow general practices within the industry in which it operates. Application of these principles requires management to make estimates or judgments that affect the amounts reported in the financial statements and accompanying notes. These estimates are based on information available as of the date of the financial statements; accordingly, as this information changes, the financial statements could reflect different estimates or judgments. Certain policies inherently have a greater reliance on the use of estimates, and as such have a greater possibility of producing results that could be materially different than originally reported. Estimates or judgments are necessary when assets and liabilities are required to be recorded at fair value, when a decline in the value of an asset not carried on the financial statements at fair value warrants an impairment write-down or valuation reserve to be established or when an asset or liability needs to be recorded contingent upon a future event. Carrying assets and liabilities at fair value inherently results in more financial statement volatility. The fair values and the information used to record valuation adjustments for certain assets and liabilities are based either on quoted market prices or are provided by third-party sources, when available. When third-party information is not available, valuation adjustments are estimated in good faith by management primarily though the use of internal cash flow modeling techniques.

The most significant accounting policies followed by the Corporation are presented in Note 1 to the consolidated financial statements included in the Corporation's Annual Report on Form 10-K. These policies, along with the disclosures presented in the other financial statement notes provide information on how significant assets and liabilities are valued in the financial statements and how those values are determined. Management views critical accounting policies to be those which are highly dependent on subjective or complex judgments, estimates and assumptions and where changes in those estimates and assumptions could have a significant impact on the financial statements. Management has identified the following as critical accounting policies.

Allowance for loan losses. The Corporation considers that the determination of the allowance for loan losses involves a higher degree of judgment and complexity than its other significant accounting policies. The balance in the allowance for loan losses is determined based on management's review and evaluation of the loan portfolio in relation to past loss experience, the size and composition of the portfolio, current economic events and conditions and other pertinent factors, including management's assumptions as to future delinquencies, recoveries and losses. All of these factors may be susceptible to significant change. Among the many factors affecting the allowance for loan losses, some are quantitative while others require qualitative judgment. Although management believes its process for determining the allowance adequately considers all of the potential factors that could potentially result in credit losses, the process includes subjective elements and may be susceptible to significant change. To the extent actual outcomes differ from management's estimates, additional provisions for loan losses may be required that would adversely impact the Corporation's financial condition or earnings in future periods.

Other-than-temporary impairment. Management evaluates securities for other-than-temporary impairment at least on a quarterly basis, and more frequently when economic, market or other concerns warrant such evaluation. Consideration is given to (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near term prospects of the issuer, (3) the intent of the Corporation to sell a security, and (4) whether it is more likely than not the Corporation will have to sell the security before recovery of its cost basis.

## Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market risk for the Corporation consists primarily of interest rate risk exposure and liquidity risk. Since virtually all of the interest-earning assets and interest-bearing liabilities are at the Bank, virtually all of the interest rate risk and liquidity risk lies at the Bank level. The Bank is not subject to currency exchange risk or commodity price risk, and has no trading portfolio, and therefore, is not subject to any trading risk. In addition, the Bank does not participate in hedging transactions such as interest rate swaps and caps. Changes in interest rates will impact both income and expense recorded and also the market value of long-term interest-earning assets and interest-bearing liabilities. Interest rate risk and liquidity risk management is performed at the Bank level. Although the Bank has a diversified loan portfolio, loans outstanding to individuals and businesses depend upon the local economic conditions in the immediate trade area.

One of the primary functions of the Corporation's asset/liability management committee is to monitor the level to which the balance sheet is subject to interest rate risk. The goal of the asset/liability committee is to manage the relationship between interest rate sensitive assets and liabilities, thereby minimizing the fluctuations in the net interest margin, which achieves consistent growth of net interest income during periods of changing interest rates.

Interest rate sensitivity is the result of differences in the amounts and repricing dates of the Bank's rate sensitive assets and rate sensitive liabilities. These differences, or interest rate repricing "gap", provide an indication of the extent that the Corporation's net interest income is affected by future changes in interest rates. A gap is considered positive when the amount of interest rate-sensitive assets exceeds the amount of interest rate-sensitive liabilities and is considered negative when the amount of interest rate-sensitive liabilities exceeds the amount of interest rate-sensitive assets. Generally, during a period of rising interest rates, a negative gap would adversely affect net interest income while a positive gap would result in an increase in net interest income. Conversely, during a period of falling interest rates, a negative gap would result in an increase in net interest income and a positive gap would adversely affect net interest income. The closer to zero that gap is maintained, generally, the lesser the impact of market interest rate changes on net interest income.

Assumptions about the timing and variability of cash flows are critical in gap analysis. Particularly important are the assumptions driving mortgage prepayments and the expected attrition of the core deposits portfolios. These assumptions are based on the Corporation's historical experience, industry standards and assumptions provided by a federal regulatory agency, which management believes most accurately represents the sensitivity of the Corporation's assets and liabilities to interest rate changes, at June 30, 2010, the Corporation's interest-earning assets maturing or repricing within one year totaled $\$ 145.9$ million while the Corporation's interest-bearing liabilities maturing or repricing within one-year totaled $\$ 144.8$ million, providing an excess of interest-earning assets over interest-bearing liabilities of $\$ 1.1$ million. At June 30, 2010, the percentage of the Corporation's liabilities to assets maturing or repricing within one year was $99.2 \%$.

For more information, see "Market Risk Management" in the Corporation's Annual Report on Form 10-K for the year ended December 31, 2009.

## Item 4T. Controls and Procedures

The Corporation maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Corporation's Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Corporation's management, including its Chief Executive Officer (CEO) and Principal Accounting Officer (PAO), as appropriate, to allow timely decisions regarding required disclosure based on the definition of "disclosure controls and procedures" in Rule 13a-15(e).

There has been no change made in the Corporation's internal control over financial reporting during the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Corporation's internal control over financial reporting.

As of June 30, 2010, the Corporation carried out an evaluation, under the supervision and with the participation of the Corporation's management, including the Corporation's CEO and PAO, of the effectiveness of the design and operation of the Corporation's disclosure controls and procedures. Based on the foregoing, the Corporation's CEO and PAO concluded that the Corporation's disclosure controls and procedures were effective. There have been no significant changes in the Corporation's internal controls or in other factors that could significantly affect the internal controls subsequent to the date the Corporation completed its evaluation.

## PART II - OTHER INFORMATION

## Item 1. Legal Proceedings

The Corporation is involved in various legal proceedings occurring in the ordinary course of business. It is the opinion of management, after consultation with legal counsel, that these matters will not materially affect the Corporation's consolidated financial position or results of operations.

## Item 1A. Risk Factors

There have been no material changes from those risk factors previously disclosed in the Corporation's Annual Report on Form $10-\mathrm{K}$ for the Fiscal Year Ended December 31, 2009, as filed with the Securities and Exchange Commission. Additional risks not presently known to us, or that we currently deem immaterial, may also adversely affect our business, financial condition or results of operations.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On June 28, 2010, the Corporation sold 26,000 shares of its common stock to The Retirement Plan for Employees of the Farmers National Bank of Emlenton (the "Plan"). The shares of common stock were sold to the Plan for aggregate proceeds of $\$ 409,500$ or $\$ 15.75$ per share. The shares of common stock were sold by the Corporation to the Plan in a private transaction exempt from registration under Section 4(2) of The Securities Act of 1933, as amended. The proceeds of the sale will be used by the Corporation for general corporate purposes.

Item 3. Defaults Upon Senior Securities
None.
Item 4. (Removed and Reserved)
Item 5. Other Information
(a)
Not applicable.
(b)
Not applicable.
