## Supplemental disclosures:

Interest paid for the six months ended June 30, 2010 and 2009 was \$ 284,389 and \$384,556, respectively.

Income taxes paid for the three months ended June 30, 2010 and 2009 was \$0 and \$0, respectively

The accompanying notes are an integral part of these consolidated financial statements.

## DGSE COMPANIES, Inc. and Subsidiaries

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

## (1) Basis of Presentation.

The accompanying unaudited condensed consolidated financial statements of DGSE Companies, Inc. and Subsidiaries include the financial statements of DGSE Companies, Inc. and its wholly-owned subsidiaries, DGSE Corporation, Charleston Gold and Diamond Exchange, Inc., Superior Galleries Inc., Superior Precious Metals, Inc., and American Gold and Diamond Exchange, Inc. In the opinion of management, all adjustments consisting of normal recurring accruals considered necessary for a fair presentation have been included.

The interim financial statements of DGSE Companies, Inc. included herein have been prepared by us pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to the Commission's rules and regulations, although we believe that the disclosures are adequate to make the information presented not misleading. We suggest that these financial statements be read in conjunction with the financial statements and notes included in our Annual Report on Form 10-K for the year ended December 31, 2009. In our opinion, the accompanying unaudited interim financial statements contain all adjustments, consisting only of those of a normal recurring nature, necessary to present fairly its results of operations and cash flows for the periods presented. The results of operations for the periods presented are not necessarily indicative of the results to be expected for the full year. Certain reclassifications were made to the prior year's consolidated financial statements to conform to the current year presentation.

In December 2008, we decided to discontinue the live auction segment of our business activities. This decision was based on the substantial losses being incurred by this operating segment during 2008. As a result, certain sections of the Consolidated Financial Statements and related notes have been reclassified to present the results of the auction segment activities as discontinued operations.

In June 2009 the Company sold the assets of National Jewelry Exchange, Inc.(the Company's two pawn shops) to an unrelated third party for cash in the amount of \$ 1,324,450. The proceeds were used to retire \$400,000 of our bank debt and the balance was used for working capital. As a result, operating results from National Jewelry Exchange have been reclassified to discontinued operations for all periods presented.

In November we discontinued the independent operations of Superior Estate Buyers due to operating loss incurred during the first half of the year in the amount of \$ 87,120. This operation was restructured to include buying events in existing local operations to reduce extraordinary overhead related to remote events. As a result of the restructuring the personnel of SEB were reassigned and the Company holds approximately 10 special buying events per year.

## (2) Inventory.

A summary of inventories is as follows:

	June 30, 2010	December 31, 2009
Jewelry	\$ 12,365,126	\$ 12,880,768
Rare coins	1,687,656	1,021,172
Bullion	1,029,015	3,584,294

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

## (3) Earnings per share.

A reconciliation of the earnings and shares of the basic earnings per common share and diluted earnings per common share for the periods ended June 30, 2010 and 2009 is as follows:

	2010			2009		
	Three months ended June 30,			Three months ended June 30,		
	Net Earnings	Shares	Per share	Net Earnings	Shares	Per share
Basic earnings per common share	\$ 7,467,276	9,833,635	\$ 0.76	\$ 689,504	9,833,635	\$ 0.07
Effect of dilutive stock options	—	565,035	(.04)	—	—	0.00
Diluted earnings per common share	\$ 7,467,276	10,398,670	\$ 0.72	\$ 689,504	9,833,635	\$ 0.07

Earnings per common share from continuing operations:

	2010			2009		
	Six months ended June 30,			Six months ended June 30,		
	Net Earnings	Shares	Per share	Net Earnings	Shares	Per share
Basic earnings per common share	\$ 7,337,125	9,833,635	\$ 0.75	\$ 919,020	9,833,635	\$ 0.13
Effect of dilutive stock options	—	565,035	(.04)	—	—	0.00
Diluted earnings per common share	\$ 7,337,125	10,398,670	\$ 0.71	\$ 919,020	9,833,635	\$ 0.13

For the six months and three months ended June 30, 2010, 29,500 shares related to employee stock options were not added to the denominator because inclusion of such shares would be antidilutive.

The following table sets forth outstanding shares of common stock issued in the form of stock purchase warrants and employee stock options as of June 30:

	2010	2009
Warrants issued in conjunction with acquisitions	—	438,672
Common stock options	1,518,134	1,423,134

The warrants issued in conjunction with acquisitions were issued to expire on May 29, 2014 at an exercise price of \$1.89. The warrants were terminated on May 25, 2010 in connection with the closing of the transaction authorized by the US District Court for the Northern District of Texas in the Stanford International Bank, Ltd.- settlement.

## DGSE COMPANIES, Inc. and Subsidiaries

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

## (5) Stock-based Compensation.

We account for all share-based payment awards to employees and directors, including stock options granted under our employee stock option plan, using the fair value recognition provisions of ASC Topic 718, Compensation—Stock Compensation (ASC 718) and the provisions of Staff Accounting Bulletin No. 107, issued by the SEC. We use the Black-Scholes-Merton option-pricing formula to value share-based payments granted to employees and attribute the value of stock-based compensation to expense using the straight-line single option method. Stock-based compensation expense recognized each period includes: (1) compensation cost for all share-based payments granted prior to, but not yet vested as of January 1, 2006, based on the measurement date fair value estimate in accordance with the original provisions of SFAS No. 123, and (2) compensation cost for all share-based payments granted subsequent to January 1, 2006, based on the measurement date fair value estimate in accordance with the provisions of ASC 718. Stock-based compensation expense recognized each period is based on the greater of the value of the portion of share-based payment awards under the straight-line method or the value of the portion of share-based payment awards that is ultimately expected to vest during the period. In accordance with ASC 718, we estimate forfeitures at the time of grant and revise our estimates, if necessary, in subsequent periods if actual forfeitures differ materially from those estimates. Stock-based compensation expense under ASC 718 for the six months ended June 30, 2010 and 2009 was \$0 and \$15,200, respectively relating to employee and director stock options.

ASC 718 requires the cash flows resulting from the tax benefits resulting from tax deductions in excess of the compensation cost recognized for those options (excess tax benefits) to be classified as financing cash flows. Due to our historical net operating loss position, we have not recorded these excess tax benefits at June 30, 2010 and December 31, 2009.

## (6) Discontinued Operations.

In November 2008, we decided to discontinue the live auction segment of the Company's business activities. This decision was based on the substantial losses being incurred by this operating segment during 2008. As a result, the operating results of the auction segment have been reclassified to discontinued operations for all periods presented. During the first six months of 2010 and 2009 the auction segment incurred pretax losses of \$0 and \$512,136, respectively.

The following summarizes the carrying amount of assets and liabilities of the auction segment as of June 30, 2010:

Assets	
Accounts receivable	\$ —
Current assets	\$ —
Long-term receivable	\$ 295,617
Total assets	\$ 295,617
Liabilities	
Auctions payable	\$ —

As of June 30, 2010, there were no operating assets to be disposed of or liabilities to be paid in completing the disposition of these operations.

In June 2009, the Company sold the assets of National Jewelry Exchange, Inc. (the Company's two pawn shops) to an unrelated third party for cash in the amount of \$ 1,324,450. The proceeds were used to retire \$400,000 of our bank

debt and the balance was used for working capital. As a result, operating results from National Jewelry Exchange have been reclassified to discontinued operations for all periods presented.

DGSE COMPANIES, Inc. and Subsidiaries

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(7) New Accounting Pronouncements.

Effective August 1, 2009, we adopted Statement of Financial Accounting Standard (“SFAS”) No. 168, The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles — a replacement of FASB Statement No. 162 (“SFAS 168”), effective for our fiscal quarter ended October 31, 2009. SFAS 168 established the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) as the single source of authoritative non-governmental accounting principles to be applied in the preparation of financial statements in conformity with GAAP. Although SFAS 168 does not change GAAP, the adoption of SFAS 168 impacted our financial statements since all future references to authoritative accounting literature are now in accordance with SFAS 168, except for the following standards, which will remain authoritative until they are integrated into the ASC: SFAS 164, Not-for-Profit Entities: Mergers and Acquisitions; SFAS 166, Accounting for Transfers of Financial Assets; SFAS 167, Amendments to FASB Interpretation No. 46R; and SFAS 168.

In April 2009, the FASB issued accounting standards under ASC Topic 825, Financial Instruments, which extend the annual financial statement disclosure requirements for financial instruments to interim reporting periods of publicly traded companies. We adopted this standard effective August 1, 2009.

In August 2009, the FASB issued Accounting Standards Update 2009-05, Measuring Liabilities at Fair Value (“ASU 2009-05”), which is effective for the first reporting period (including interim periods) following issuance. ASU 2009-05 clarifies the application of certain valuation techniques in circumstances in which a quoted price in an active market for the identical liability is not available. We adopted this standard effective November 1, 2009.

In January 2010, the FASB issued Accounting Standards Update 2010-06, Improving Disclosures about Fair Value Measurements (“ASU 2010-06”). ASU 2010-06 provides more robust disclosures about the transfers between Levels 1 and 2, the activity in Level 3 fair value measurements and clarifies the level of disaggregation and disclosure related to the valuation techniques and inputs used. The new disclosures are effective for interim and annual reporting periods beginning after December 15, 2009, except for the Level 3 activity disclosures, which are effective for fiscal years beginning after December 15, 2010. We do not expect a material impact from the adoption of this guidance on our consolidated financial statements.

In February 2010, the FASB issued Accounting Standards Update 2010-09, Amendments to Certain Recognition and Disclosure Requirements (“ASU 2010-09”). ASU 2010-09 amends the guidance issued in ASC 855, Subsequent Events, by not requiring SEC filers to disclose the date through which an entity has evaluated subsequent events. ASU 2010-09 was effective upon issuance. There was not a material impact from the adoption of this guidance on our consolidated financial statements.

(8) Settlement of Litigation.

On January 27, 2010, DGSE Companies, Inc. (“DGSE”) and Stanford International Bank, LTD (“SIBL”), which prior to the closing of certain settlement agreements discussed below was a beneficial owner of a significant equity interest in DGSE, a primary lender to a wholly owned subsidiary of DGSE and subject to certain agreements with DGSE and its Chairman, entered into a Purchase and Sale Agreement and a Debt Conversion Agreement to settle DGSE’s lawsuit against SIBL. On May 25, 2010, DGSE and SIBL and a third party entered in a closing agreement to finalize the settlement agreements upon the approval of the settlement by the United States District Court for the Northern District of Texas which has jurisdiction for the assets of SIBL. Upon closing of the transaction, SIBL terminated all agreements, converted all of its debt, interest and other expenses for 1,000 shares of DGSE common stock and sold

3,000,000 shares of common stock common stock to DGSE's assignee, NTR Metals for \$3,000,000 under a Partial Assignment Agreement. Pursuant to the partial assignment of the Company's rights as a Buyer to NTR under the Company-SIBL Purchase Agreement, NTR acquired directly from SIBL 3,000,000 Shares of the Company (the "NTR Acquired Interest"). The parties agreed that the remaining portion of the SIBL Equity Interest (i.e. 377,361 Shares) be transferred as designated by the Company. SIBL cancelled 422,814 additional warrants to purchase additional shares of DGSE as part of the settlement agreement. As a result of the transaction, the Company recognized a gain of \$9,198,570 related to the cancellation of debt.

On February 26, 2010, Superior Galleries, Inc. ('Superior') entered into a settlement agreement for a lawsuit filed by its previous landlord, DBKK, LLC for \$385,000 to be paid over three years bearing interest at 8%. The Company's settlement with DBBK was a risk management decision based on an original claim in the amount of \$806,000. The lawsuit resulted from a lease transaction entered into by certain officers of Superior, Larry Abbott and Silvano Digenova, during a time when the Company had a management contract with Superior between these certain officers and Stanford International Bank, Ltd ('SIBL') that precluded them from entering into these transactions. Although the claim has been settled, the Company believes it has a counter claim against Abbott, Digenova, and SIBL resulting from their false and misleading facts regarding the management of Superior and its financial condition, further business opportunities and available financing which induced the Company to acquire Superior. As of June 30, 2010, the Company has recorded \$385,000 loss related to the settlement of this litigation in other (income) expense.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Forward-Looking Statements

The statements, other than statements of historical facts, included in this report are forward-looking statements. Forward-looking statements generally can be identified by the use of forward-looking terminology such as "may," "will," "would," "expect," "intend," "could," "estimate," "should," "anticipate" or "believe." We believe that the expectations reflected in such forward-looking statements are accurate. However, we cannot assure you that these expectations will occur. Our actual future performance could differ materially from such statements. Factors that could cause or contribute to these differences include, but are not limited to:

- uncertainties regarding price fluctuations in the price of gold and other precious metals;
- our ability to manage inventory fluctuations and sales;
- changes in governmental rules and regulations applicable to the specialty financial services industry;
- the results of any unfavorable litigation;
- interest rates;
- economic pressures affecting the disposable income available to our customers;
- our ability to maintain an effective system of internal controls;
- the other risks detailed from time to time in our SEC reports.

Additional important factors that could cause our actual results to differ materially from our expectations are discussed under "Risk Factors" in our Annual Report on Form 10-K for our fiscal year ended December 31, 2009. You should not unduly rely on these forward-looking statements, which speak only as of the date of this report. Except as required by law, we are not obligated to publicly release any revisions to these forward-looking statements to reflect events or circumstances occurring after the date of this report or to reflect the occurrence of unanticipated events.

Our Business

We buy and sell jewelry, bullion products and rare coins. Our customers include individual consumer, dealers and institutions throughout the United States. . Our products and services are marketed through our facilities in Dallas and Euless, Texas; Mt. Pleasant, South Carolina; Woodland Hills, California and through our internet web sites DGSE.com; CGDEinc.com; SGBH.com; SuperiorPreciousMetals.com; SuperiorEstateBuyers.com; USBullionExchange.com; Americangoldandsilverexchange.com; and FairchildWatches.com.

We operate eight primary internet sites and over 900 related landing sites on the World Wide Web. Through the various sites we operate a virtual store, real-time auction of rare coin and jewelry products, free quotations of current prices on all commonly traded precious metal and related products, trading in precious metals, a mechanism for selling unwanted jewelry, rare coins and precious metals and wholesale prices and information exclusively for dealers on pre-owned fine watches. Over 7,500 items are available for sale on our internet sites including \$2,000,000 in diamonds.

In June 2008, we moved Superior Galleries' operations from Beverly Hills to Woodland Hills, California. Superior's principal line of business is the sale of jewelry, rare coins and bullion on a retail and wholesale basis. Superior's retail

and wholesale operations are conducted in virtually every state in the United States. Superior also conducted live and internet auctions for customers seeking to sell their own coins prior to management's decision to discontinue the live auction operations. Superior markets its services nationwide through broadcast and print media and independent sales agents, as well as on the internet through third party websites, and through its own website at SGBH.com.

Americangoldandsilverexchange.com, the over 900 proprietary Internet sites related to the home page of Americangoldandsilverexchange.com along with our existing locations in Texas, California and South Carolina, provide customers from all over the United States with a seamless and secure way to value and sell gold, silver, rare coins, jewelry, diamonds and watches.

Superior Precious Metals is the retail precious metals arm of DGSE. Professional account managers provide a convenient way for individuals and companies to buy and sell precious metals and rare coins. This activity is supported by the internally developed account management and trading platform created as part of DGSE's USBullionExchange.com precious metals system.

#### Critical Accounting Policies and Estimates

The following discussion addresses our most critical accounting policies, which are those that are both important to the portrayal of our financial condition and results of operations and that require significant judgment or use of complex estimates.

**Inventories.** Jewelry and other inventories are valued at the lower of cost or market. Bullion is valued at the lower-of-cost-or-market (average cost). See also "Critical Accounting Estimates".

**Impairment of Long-Lived and Amortized Intangible Assets.** The Company performs impairment evaluations of its long-lived assets, including property, plant and equipment and intangible assets with finite lives, including the customer base acquired in the Superior acquisition, whenever business conditions or events indicate that those assets may be impaired. When the estimated future undiscounted cash flows to be generated by the assets are less than the carrying value of the long-lived assets, the assets are written down to fair market value and a charge is recorded to current operations. Based on our evaluations no impairment was required as of December 31, 2010.

**Impairment of Goodwill and Indefinite-Lived Intangible Assets.** Goodwill and indefinite-lived intangible assets are tested for impairment annually, or more frequently if events or changes in circumstances indicate that the assets might be impaired. The Company performs its annual review at the beginning of the fourth quarter of each fiscal year.

The Company evaluates the recoverability of goodwill by estimating the future discounted cash flows of the businesses to which the goodwill relates. Estimated cash flows and related goodwill are grouped at the reporting unit level. A reporting unit is an operating segment or, under certain circumstances, a component of an operating segment that constitutes a business. When estimated future discounted cash flows are less than the carrying value of the net assets and related goodwill, an impairment test is performed to measure and recognize the amount of the impairment loss, if any. Impairment losses, limited to the carrying value of goodwill, represent the excess of the carrying amount of a reporting unit's goodwill over the implied fair value of that goodwill. In determining the estimated future cash flows, the Company considers current and projected future levels of income as well as business trends, prospects and market and economic conditions.

The Company cannot predict the occurrence of certain events that might adversely affect the carrying value of goodwill and indefinite-lived intangible assets. Such events may include, but are not limited to, the impact of the economic environment, a material negative change in relationships with significant customers, or strategic decisions made in response to economic and competitive conditions. See "Critical Accounting Estimates."

**Revenue Recognition.** Revenue is generated from wholesale and retail sales of rare coins, precious metals, bullion and second-hand jewelry. The recognition of revenue varies for wholesale and retail transactions and is, in large part, dependent on the type of payment arrangements made between the parties. The Company recognizes sales on an F.O.B. shipping point basis.

The Company sells rare coins to other wholesalers/dealers within its industry on credit, generally for terms of 14 to 60 days, but in no event greater than one year. The Company grants credit to new dealers based on extensive credit evaluations and for existing dealers based on established business relationships and payment histories. The Company generally does not obtain collateral with which to secure its accounts receivable when the sale is made to a dealer. The Company maintains reserves for potential credit losses based on an evaluation of specific receivables and

its historical experience related to credit losses. See “Critical Accounting Estimates”.

Revenues for monetary transactions (i.e., cash and receivables) with dealers are recognized when the merchandise is shipped to the related dealer.

The Company also sells rare coins to retail customers on credit, generally for terms of 30 to 60 days, but in no event greater than one year. The Company grants credit to new retail customers based on extensive credit evaluations and for existing retail customers based on established business relationships and payment histories. When a retail customer is granted credit, the Company generally collects a payment of 25% of the sales price, establishes a payment schedule for the remaining balance and holds the merchandise as collateral as security against the customer’s receivable until all amounts due under the credit arrangement are paid in full. If the customer defaults in the payment of any amount when due, the Company may declare the customer’s obligation in default, liquidate the collateral in a commercially reasonable manner using such proceeds to extinguish the remaining balance and disburse any amount in excess of the remaining balance to the customer.

Under this retail arrangement, revenues are recognized when the customer agrees to the terms of the credit and makes the initial payment. We have a limited-in-duration money back guaranty policy (as discussed below).

In limited circumstances, the Company exchanges merchandise for similar merchandise and/or monetary consideration with both dealers and retail customers, for which the Company recognizes revenue in accordance with ASC 845, "Nonmonetary Transactions." When the Company exchanges merchandise for similar merchandise and there is no monetary component to the exchange, the Company does not recognize any revenue. Instead, the basis of the merchandise relinquished becomes the basis of the merchandise received, less any indicated impairment of value of the merchandise relinquished. When the Company exchanges merchandise for similar merchandise and there is a monetary component to the exchange, the Company recognizes revenue to the extent of monetary assets received and determine the cost of sale based on the ratio of monetary assets received to monetary and non-monetary assets received multiplied by the cost of the assets surrendered.

The Company has a return policy (money-back guarantee). The policy covers retail transactions involving graded rare coins only. Customers may return graded rare coins purchased within 7 days of the receipt of the rare coins for a full refund as long as the rare coins are returned in exactly the same condition as they were delivered. In the case of rare coin sales on account, customers may cancel the sale within 7 days of making a commitment to purchase the rare coins. The receipt of a deposit and a signed purchase order evidences the commitment. Any customer may return a coin if they can demonstrate that the coin is not authentic, or there was an error in the description of a graded coin.

Revenues from the sale of consigned goods are recognized as commission income on such sale if the Company is acting as an agent for the consignor. If in the process of selling consigned goods, the Company makes an irrevocable payment to a consignor for the full amount due on the consignment and the corresponding receivable from the buyer(s) has not been collected by the Company at that payment date, the Company records that payment as a purchase and the sale of the consigned good(s) to the buyer as revenue as the Company has assumed all collection risk.

**Income Taxes.** Income taxes are estimated for each jurisdiction in which we operate. This involves assessing the current tax exposure together with temporary differences resulting from differing treatment of items for tax and financial statement accounting purposes. Any resulting deferred tax assets are evaluated for recoverability based on estimated future taxable income. To the extent that recovery is deemed not likely, a valuation allowance is recorded. See "Critical Accounting Estimates".

**Taxes Collected From Customers.** FASB Accounting Guidance allows companies to adopt a policy of presenting taxes in the income statement on either a gross basis (included in revenues and costs) or net basis (excluded from revenues). Taxes within the scope of this guidance would include taxes that are imposed on a revenue transaction between a seller and a customer, for example, sales taxes, use taxes, value-added taxes and some types of excise taxes. The Company has consistently recorded all taxes within the scope of this guidance on a net basis.

**Inventories.** The Company acquires a majority of its retail jewelry inventory from individuals that is pre-owned. The Company acquires the jewelry based on its own internal estimate of the fair market value of the items offered for sale considering factors such as the current spot market prices of precious metals and current demand for the items offered for sale. Because the overall market value for precious metals fluctuates, these fluctuations could have either a positive or negative impact to the profitability of the Company. The Company monitors these fluctuations to evaluate any impairment to its retail jewelry inventory.

**Allowance for Doubtful Accounts.** The allowance for doubtful accounts requires management to estimate a customer's ability to satisfy its obligations. The estimate of the allowance for doubtful accounts is particularly critical in the Company's wholesale coin segment where a significant amount of the Company's trade receivables are recorded. The Company evaluates the collectability of receivables based on a combination of factors. In circumstances where the

Company is aware of a specific customer's inability to meet its financial obligations, a specific reserve is recorded against amounts due to reduce the net recognized receivable to the amount reasonably expected to be collected. Additional reserves are established based upon the Company's perception of the quality of the current receivables, including the length of time the receivables are past due, past experience of collectability and underlying economic conditions. If the financial condition of the Company's customers were to deteriorate resulting in an impairment of their ability to make payments, additional reserves would be required.

Impairment of Goodwill and Indefinite-Lived Intangible Assets. In evaluating the recoverability of goodwill, it is necessary to estimate the fair value of the reporting units. The estimate of fair value of intangible assets is generally determined on the basis of discounted future cash flows. The estimate of fair value of the reporting units is generally determined on the basis of discounted future cash flows supplemented by the market approach. In estimating the fair value, management must make assumptions and projections regarding such items as future cash flows, future revenues, future earnings and other factors. The assumptions used in the estimate of fair value are generally consistent with the past performance of each reporting unit and are also consistent with the projections and assumptions that are used in current operating plans. Such assumptions are subject to change as a result of changing economic and competitive conditions. The rate used to discount estimated cash flows is a rate corresponding to the Company's cost of capital, adjusted for risk where appropriate, and is dependent upon interest rates at a point in time. There are inherent uncertainties related to these factors and management's judgment in applying them to the analysis of goodwill impairment. It is possible that assumptions underlying the impairment analysis will change in such a manner to cause further impairment of goodwill, which could have a material impact on the Company's results of operations. .

The analysis of the wholesale watch sales division resulting from the acquisition of Fairchild with a carrying value of goodwill of \$837,117 resulted in no impairment as its estimated future discounted cash flows significantly exceeded the net assets and related goodwill.

Income Taxes. The Company records deferred income tax assets and liabilities for differences between the book basis and tax basis of the related net assets. The Company records a valuation allowance, when appropriate, to adjust deferred tax asset balances to the amount management expects to realize. Management considers, as applicable, the amount of taxable income available in carry-back years, future taxable income and potential tax planning strategies in assessing the need for a valuation allowance. The Company has recorded the net present value of the future expected benefits of the net operating loss (NOL) carry-forward related to its subsidiary Superior Galleries, Inc. due to IRS loss limitation rules. The Company will require future taxable income to fully realize the net deferred tax asset resulting from the NOL.

As of January 1, 2007, the Company adopted FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109, Accounting for Income Taxes ("FIN 48"), as codified by ASC 740, "Income Taxes.". The adoption did not have a material impact on the Company's consolidated financial statements or effective tax rate and did not result in any unrecognized tax benefits.

Interest costs and penalties related to income taxes are classified as interest expense and general and administrative costs, respectively, in the Company's consolidated financial statements. For the years ended December 31, 2009 and 2008, the Company did not recognize any interest or penalty expense related to income taxes. It is determined not to be reasonably likely for the amounts of unrecognized tax benefits to significantly increase or decrease within the next 12 months. The Company is currently subject to a three year statute of limitations by major tax jurisdictions. The Company and its subsidiaries file income tax returns in the U.S. federal jurisdiction.

## Results of Operations

### Three Months Ended June 30, 2010 compared to Three Months Ended June 30, 2009

Sales decreased by \$880,000 or 4.1%, during the three months ended June 30, 2010 as compared to 2009. This decrease was primarily the result of a (\$2,292,000) or 47.2% decrease in rare coin sales and (\$222,000), or 26.2% decrease in our wholesale jewelry sales. The decrease in rare coin sales was due a decrease in demand resulting from a less volatile gold market and due to the sluggish retail environment. These decreases were partly offset by a \$1,509,000 increase in precious metal sales. Cost of goods as a percentage of sales was relatively unchanged from 2009 to 2010.

Selling, general and administrative expenses increased by \$295,794 or 13.0%, during the three months ended June 30, 2010 as compared to 2009. This increase was primarily due to higher advertising and payroll related cost. The decrease in interest expense is due to lower interest rates on our line of credit.

Other income during 2010 was a result of the transaction concluded with the Receiver in the matter of Stanford International Bank LTD Income tax expense is directly affected by the levels of pretax income and non-deductible permanent differences. The Company's effective tax rate for the three months ended June 30, 2010 and 2009 were 18.0% and 16.0%, respectively.

Historically, changes in the market prices of precious metals have had a significant impact on both revenues and cost of sales in the rare coin and precious metals segments in which we operate. It is expected that due to the commodity nature of these products, future price changes for precious metals will continue to be indicative of our performance in these business segments. Changes in sales and cost of sales in the retail and wholesale jewelry segments are primarily influenced by the national economic environment. It is expected that this trend will continue in the future due to the nature of these product.

### Six Months Ended June 30, 2010 compared to Six Months Ended June 30, 2009

Sales decreased by \$8,880,000 or 18.9%, during the six months ended June 30, 2010 as compared to 2009. This decrease was primarily the result of a \$844,000, or 6.9%, decrease in retail jewelry sales, a 3,725,000, or 15.5, decrease in the sale of precious metal products, a \$3,813,000 or 42.3% decrease in rare coin sales and a \$498,000, or 27.7% decrease in our wholesale jewelry sales. The decreases in precious metals and rare coin sales were due to a decrease in demand resulting from a less volatile gold market. The decrease in jewelry sales was due to the sluggish retail environment. Cost of goods as a percentage of sales was relatively unchanged from 2009 to 2010.

Selling, general and administrative expenses increased by \$460,119 or 10.0%, during the six months ended June 30, 2010 as compared to 2009. This increase was primarily due to higher advertising and payroll related cost. The decrease in interest expense is due to lower interest rates on our line of credit.

Other income during 2010 was a result of the transaction concluded with the Receiver in the matter of Stanford International Bank LTD

Income tax expense is directly affected by the levels of pretax income and non-deductible permanent differences. The Company's effective tax rate for the six months ended June 30, 2010 and 2009 were 18.0% and 16.0%, respectively.

## Liquidity and Capital Resources

During the six months ended June 30, 2010 and 2009 cash flows from operating activities totaled (\$298,446) and \$426,902, respectively. During 2010 the (\$298,446) cash flows from operating activities were primarily the result of

the decrease in current liabilities (\$2,105,930) which was partly offset by the decrease in inventory \$2,226,562. Cash flows from operating activities during 2009 were primarily the result of a decrease in inventory \$279,219, a decrease in accounts payable and accrued expenses (\$1,098,890), an increase in federal income taxes payable \$102,733, an increase in prepaid expenses (\$142,570), a decrease in customer deposits (\$248,243) and a decrease in trade receivables 875,159. The decrease in inventory and customer deposits was due to a decrease in demand for precious metal products. The decrease in trade receivables was a result of a decrease in the sales of wholesale jewelry products.

During the six months ended June 30, 2010 and 2006 cash flows from investing activities totaled (\$121,839) and \$1,225,635, respectively. During 2010 the Company invested \$184,239 in property and equipment. During 2009 the primary source of cash from investing activities was the result of cash received from the sale of the Company's pawn shops in June 2009.

During the six months ended June 30, 2010 and 2009 cash flows from financing activities totaled (\$56,715) and (\$652,095), respectively. The use of cash during 2010 and 2009 was the result of repayment of loans.

We expect capital expenditures to total approximately \$100,000 during the next twelve months. It is anticipated that these expenditures will be funded from working capital. As of June 30, 2010 there were no commitments outstanding for capital expenditures.

In the event of significant growth in retail and or wholesale jewelry sales, the demand for additional working capital will expand due to a related need to stock additional jewelry inventory and increases in wholesale accounts receivable. Historically, vendors have offered us extended payment terms to finance the need for jewelry inventory growth and our management believes that we will continue to do so in the future. Any significant increase in wholesale accounts receivable will be financed under a new bank credit facility or from short-term loans from individuals.

Our ability to finance our operations and working capital needs are dependent upon management's ability to negotiate extended terms or refinance its debt. We have historically renewed, extended or replaced short-term debt as it matures and management believes that we will be able to continue to do so in the near future.

From time to time, we have adjusted our inventory levels to meet seasonal demand or in order to meet working capital requirements. Management is of the opinion that if additional working capital is required, additional loans can be obtained from individuals or from commercial banks. If necessary, inventory levels may be adjusted in order to meet unforeseen working capital requirements.

On May 27, 2010, the Company announced that Texas Capital Bank has agreed to renew and increase the size of its current credit facility. The new facility is composed of a \$3.5 million revolving note and a \$1.0 million term loan and will provide immediate availability to finance current operations. The agreement was finalized and funded June 2, 2010. Borrowings under the revolving credit facility are collateralized by a general security interest in substantially all of our assets (other than the assets of Superior). As of June 30, 2010, approximately \$4.0 million was outstanding under the term loan and revolving credit facility. If we were to default under the terms and conditions of the revolving credit facility, Texas Capital Bank would have the right to accelerate any indebtedness outstanding and foreclose on our assets in order to satisfy our indebtedness. Such a foreclosure could have a material adverse effect on our business, liquidity, results of operations and financial position. This credit facility matures in June 2011.

The covenants associated with our credit facility with Texas Capital Bank, N.A. exclude Superior Galleries are as follows:

As of June 30, 2009	Requirement	Actual calculation
Minimum tangible net worth	17,750,000	17,842,658
Maximum total liabilities to tangible net worth	Not to exceed .75	.46
Minimum debt service coverage	Must be greater than 1.40	1.66

On October 17, 2007, we closed on the purchase of our new headquarters location. As a result, we assumed a new loan with a remaining principal balance of \$2,323,484 and an interest rate of 6.70%. The loan has required monthly payments of \$20,192 with the final payment due on August 1, 2016

Upon the consummation of our acquisition of Superior, and after the exchange by Stanford of \$8.4 million of Superior debt for shares of Superior common stock, Superior amended and restated its credit facility with Stanford. The amended and restated commercial loan and security agreement, which we refer to as the loan agreement, decreased the available credit line from \$19.89 million to \$11.5 million, reflecting the \$8.4 million debt exchange. Interest on the outstanding principal balance accrued at the prime rate, as reported in the Wall Street Journal or, during an event of

default, at a rate 5% greater than the prime rate as so reported.

On January 27, 2010, DGSE and Stanford International Bank, LTD (“SIBL”), which is the beneficial owner of a significant equity interest in DGSE, a primary lender to a wholly owned subsidiary of DGSE and subject to certain agreements with DGSE and its Chairman, entered into definitive agreements whereby SIBL would terminate all agreements, convert all of its debt, interest and other expenses and sell all of its equity interests including common stock and warrants to DGSE or its assignees.

On January 27, 2010, DGSE Companies, Inc. (“DGSE”) and Stanford International Bank, LTD (“SIBL”), which prior to the closing of certain settlement agreements discussed below was a beneficial owner of a significant equity interest in DGSE, a primary lender to a wholly owned subsidiary of DGSE and subject to certain agreements with DGSE and its Chairman, entered into a Purchase and Sale Agreement and a Debt Conversion Agreement to settle DGSE’s lawsuit against SIBL. On May 25, 2010, DGSE and SIBL and a third party entered in a closing agreement to finalize the settlement agreements upon the approval of the settlement by the United States District Court for the Northern District of Texas which has jurisdiction for the assets of SIBL. Upon closing of the transaction, SIBL terminated all agreements, converted all of its debt, interest and other expenses for 1,000 shares of DGSE common stock and sold 3,000,000 shares of common stock common stock to DGSE’s assignee, NTR Metals for \$3,000,000 under a Partial Assignment Agreement. Pursuant to the partial assignment of the Company’s rights as a Buyer to NTR under the Company-SIBL Purchase Agreement, NTR acquired directly from SIBL 3,000,000 Shares of the Company (the “NTR Acquired Interest”). The parties agreed that the remaining portion of the SIBL Equity Interest (i.e. 377,361 Shares) be transferred as designated by the Company. SIBL cancelled 422,814 additional warrants to purchase additional shares of DGSE as part of the settlement agreement. As a result of the transaction, the Company recognized a gain of \$9,198,570 related to the cancellation of debt.

Contractual Cash Obligations	Total	Payments due by period			
		2010	2011 - 2012	2013 – 2014	Thereafter
Notes payable	\$ 2,979,887	\$	\$ 2,979,887	\$	—\$
Long-term debt and capital leases	3,309,264	121,152	732,163	484,808	1,971,341
Operating Leases	1,868,491	283,486	1,248,447	302,486	34,072
Total	\$ 8,157,642	\$ 404,638	\$ 4,960,497	\$ 787,094	\$ 2,005,413

In addition, we estimate that we will pay approximately \$600,000 in interest during the next twelve months.

#### Off-Balance Sheet Arrangements.

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to stockholders.

#### Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The following discussion about our market risk disclosures involves forward-looking statements. Actual results could differ materially from those projected in the forward-looking statements. We are exposed to market risk related to changes in interest rates and gold values. We are also exposed to regulatory risk in relation to its pawn loans. We do not use derivative financial instruments.

Our earnings and financial position may be affected by changes in gold values and the resulting impact on pawn lending and jewelry sales. The proceeds of scrap sales and our ability to liquidate excess jewelry inventory at an acceptable margin are dependent upon gold values. The impact on our financial position and results of operations of a hypothetical change in gold values cannot be reasonably estimated.

#### Item 4. Controls and Procedures.

Evaluation of disclosure controls and procedures. An evaluation was performed under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this quarterly report. Our

disclosure controls and procedures are designed to ensure that information required to be disclosed by us in the reports we file or submit under the Securities Exchange Act of 1934, as amended, is (1) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and (2) accumulated and communicated to our management, including our Chief Executive Officer, to allow timely decisions regarding required disclosure. Based on that evaluation, our management, including our Chief Executive Officer and our Chief Financial Officer, concluded that our disclosure controls and procedures were effective.

Changes in internal controls. For the quarter ended June 30, 2010, there have been no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II- OTHER INFORMATION

## Item 3. Legal Proceedings

We may, from time to time, be involved in various claims, lawsuits, disputes with third parties, actions involving allegations of discrimination, or breach of contract actions incidental to the operation of its business. Except as set forth above, we are not currently involved in any such litigation which we believe could have a material adverse effect on our financial condition or results of operations, liquidity or cash flows.

## Item 5. Other Information.

None.
