MATERIAL TERMS OF THE EXCHANGE OFFER

We are offering to exchange, upon the terms and subject to the conditions set forth in this prospectus and the accompanying letter of transmittal, \$700,000,000 aggregate principal amount of 8% senior notes due 2018 (CUSIP No. 451102 AH0), that have been registered under the Securities Act of 1933, as amended (the Securities Act), and which we refer to as the exchange notes, for \$700,000,000 aggregate principal amount of outstanding 8% senior notes due 2018 (CUSIP Nos. 451102 AQ0, U44927 AE8 and 451102 AR8), that were issued on January 17, 2012 and February 6, 2012 in offerings not registered under the Securities Act, and which we refer to as the existing notes.

The existing notes were issued under an indenture dated January 15, 2010, pursuant to which we had previously issued \$1,050,000 aggregate principal amount of 7¾% senior notes due 2016, which we refer to as the Outstanding 2016 Notes and \$1,450,000,000 aggregate principal amount of 8% senior notes due 2018, which we refer to as the Outstanding 2018 Notes, on January 15, 2010 and November 12, 2010. The existing notes do, and the exchange notes will, constitute the same series of securities as the Outstanding 2018 Notes for purposes of the indenture governing the notes, and will vote together on all matters with such series.

The terms of the exchange notes are substantially identical to the existing notes, except that the transfer restrictions and registration rights relating to the existing notes will not apply to the exchange notes and the exchange notes will not provide for the payment of special interest under circumstances related to the timing and completion of the exchange offer.

The exchange offer expires at 5:00 p.m., New York City time, on _____, 2012, unless extended. Subject to the satisfaction or waiver of specified conditions, we will exchange your validly tendered unregistered existing notes that have not been withdrawn prior to the expiration of the exchange offer for an equal principal amount of exchange notes that have been registered under the Securities Act of 1933, as amended, or the Securities Act.

The exchange offer is not subject to any condition other than that the exchange offer not violate applicable law or any applicable interpretation of the staff of the Securities and Exchange Commission, or the SEC, and other customary conditions.

You may withdraw your tender of notes at any time before the exchange offer expires.

We will not receive any proceeds from the exchange offer.

Any outstanding existing notes not validly tendered will remain subject to existing transfer restrictions.

The exchange notes will not be traded on any national securities exchange and, therefore, we do not anticipate that an active public market in the exchange notes will develop.

Each broker-dealer that receives exchange notes for its own account pursuant to the exchange offer must acknowledge that it will deliver a prospectus in connection with any resale of such exchange notes. A broker-dealer that is issued exchange notes for its own account in exchange for existing notes that were acquired by such broker-dealer as a result of market-making or other trading activities may use this prospectus, as supplemented or amended, for an offer to resell, resale or other retransfer of the exchange notes issued to it in the exchange offer.

Please refer to Risk Factors beginning on page 10 of this prospectus for certain important information.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of the notes to be issued in the exchange offer or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

Our Company

We are a diversified holding company owning subsidiaries that are engaged in various operating businesses. Our primary business strategy is to identify, acquire and improve undervalued businesses and assets. Our core business segments include Investment, Automotive, Gaming, Railcar, Food Packaging, Metals, Real Estate and Home Fashion.

Icahn Enterprises is a master limited partnership formed in Delaware on February 17, 1987. We own a 99% limited partner interest in Icahn Enterprises Holdings. Substantially all of our assets and liabilities are owned through Icahn Enterprises Holdings and substantially all of our operations are conducted through Icahn Enterprises Holdings and its subsidiaries. Icahn Enterprises G.P. Inc., or Icahn Enterprises GP, our sole general partner, owns a 1% general partnership interest in both Icahn Enterprises Holdings and us, representing an aggregate 1.99% general partnership interest in Icahn Enterprises Holdings and us. Icahn Enterprises GP is owned and controlled by Mr. Carl C. Icahn. In addition, as of February 3, 2012, affiliates of Mr. Icahn owned 92,233,846 of our depositary units, which represented approximately 93.01% of our outstanding depositary units.

The following is a summary of our core holdings:

Investment. Our Investment segment is comprised of various private investment funds, including Icahn Partners LP, Icahn Partners Master Fund LP, Icahn Partners Master Fund II LP and Icahn Partners Master Fund III LP (the Funds), through which we invest our proprietary capital. We and certain of Mr. Icahn's wholly owned affiliates are the sole investors in the Funds. Prior to March 31, 2011, interests in the Funds were offered to certain sophisticated and qualified investors on the basis of exemptions from the registration requirements of the federal securities laws and were not publicly available. The Funds returned all fee-paying capital to third-party investors during fiscal 2011. This business derives revenues from gains and losses from our investments in the Funds.

Automotive. We conduct our Automotive segment through our 77.2% public equity ownership in Federal-Mogul Corporation (Federal-Mogul), which is a leading global supplier of powertrain and safety technologies, serving the world's foremost original equipment manufacturers (OEM) of automotive, light, medium and heavy-duty commercial vehicles, agricultural, marine, rail, aerospace, off-road and industrial applications as well as the worldwide aftermarket. Federal-Mogul has established a global presence and conducts its operations through various

manufacturing, distribution and technical centers that are wholly-owned subsidiaries or partially-owned joint ventures, organized into five primary reporting segments: Powertrain Energy, Powertrain Sealing and Bearings, Vehicle Safety and Protection, Global Aftermarket, and Corporate. The company offers its customers a diverse array of market-leading products for OEM and replacement parts (aftermarket) applications, including pistons, piston rings, piston pins, cylinder liners, valve seats and guides, ignition products, dynamic seals, bonded piston seals, combustion and exhaust gaskets, static gaskets and seals, rigid and flexible heat shields, engine bearings, industrial bearings, bushings and

washers, transmission components, brake disc pads, brake linings, brake blocks, element resistant systems protection sleeving products, acoustic shielding, brake system components, chassis products, wipers, fuel pumps and lighting.

Gaming. We conduct our Gaming segment through our 65.1% public equity ownership in Tropicana Entertainment Inc. (Tropicana). Tropicana currently owns and operates a diversified, multi-jurisdictional collection of casino gaming properties. The eight casino facilities it operates in the United States feature approximately 411,000 square feet of gaming space with 7,581 slot machines, 236 table games and 6,060 hotel rooms with three casino facilities located in Nevada, two in Mississippi and one in each of Indiana, Louisiana and New Jersey. In addition, in August 2010 Tropicana acquired a resort under development in Aruba.

Railcar. We conduct our Railcar segment through our 55.5% public equity ownership in American Railcar Industries Inc. (ARI). ARI manufactures railcars, which are offered for sale or lease, custom designed railcar parts and other industrial products, primarily aluminum and special alloy steel castings. These products are sold to various types of companies including leasing companies, railroads, industrial companies and other non-rail companies. ARI provides railcar repair and maintenance services for railcar fleets. In addition, ARI provides fleet management and maintenance services for railcars owned by certain customers. Such services include inspecting and supervising the maintenance and repair of such railcars.

Food Packaging. We conduct our Food Packaging segment through our majority ownership in Viskase Companies, Inc. (Viskase). Viskase is a worldwide leader in the production and sale of cellulosic, fibrous and plastic casings for the processed meat and poultry industry. Viskase currently operates seven manufacturing facilities and nine distribution centers throughout North America, Europe and South America and derives approximately 70% of its total net sales from customers located outside the United States. Viskase believes it is one of the two largest manufacturers of non-edible cellulosic casings for processed meats and one of the three largest manufacturers of non-edible fibrous casings. In fiscal 2011, Viskase began construction on a shirring plant in the Philippines to serve the Asia market.

Metals. We conduct our Metals segment through our indirect wholly owned subsidiary, PSC Metals, Inc. (PSC Metals). PSC Metals collects industrial and obsolete scrap metal, processes it into reusable forms and supplies the recycled metals to its customers including electric-arc furnace mills, integrated steel mills, foundries, secondary smelters and metals brokers. PSC Metals ferrous products include shredded, sheared and bundled scrap metal and other purchased scrap metal such as turnings (steel machining fragments), cast furnace iron and broken furnace iron. PSC Metals also processes non-ferrous metals including aluminum, copper, brass, stainless steel and nickel-bearing metals. Non-ferrous products are a significant raw material in the production of aluminum and copper alloys used in manufacturing. PSC Metals also operates a secondary products business that includes the supply of secondary plate and structural grade pipe that is sold into niche markets for counterweights, piling and foundations, construction materials and infrastructure end-markets.

Real Estate. Our Real Estate segment consists of rental real estate, property development and resort activities. As of September 30, 2011, we owned 30 rental real estate properties. Our property development operations are run primarily through Bayswater Development LLC, a real estate investment, management and development subsidiary that focuses primarily on the construction and sale of single-family and multi-family homes, lots in subdivisions and planned communities and raw land for residential development. Our New Seabury development property in Cape Cod, Massachusetts and our Grand Harbor and Oak Harbor development property in Vero Beach, Florida each include land for future residential development of approximately 326 and 870 units of residential housing, respectively. Both developments operate golf and resort operations as well.

Home Fashion. We conduct our Home Fashion segment through our indirect wholly owned subsidiary WestPoint International, LLC (f/k/a WestPoint International, Inc.) (WPI), a manufacturer and distributor of home fashion

consumer products. WPI is engaged in the business of manufacturing, sourcing, designing, marketing, distributing and selling home fashion consumer products. WPI markets a broad range of manufactured and sourced bed, bath, basic bedding and kitchen textile products, including, sheets, pillowcases, comforters, flocked blankets, woven blankets and throws, heated blankets, quilts, bedspreads, duvet covers, bed skirts, bed pillows, feather beds, mattress pads, drapes, bath and beach towels, bath rugs, kitchen towels

and kitchen accessories. WPI recognizes revenue primarily through the sale of home fashion products to a variety of retail and institutional customers. In addition, WPI receives a small portion of its revenues through the licensing of its trademarks.

The rights offering expired by its terms at 5:00 PM EST on Friday, January 20, 2012. The rights offering was fully subscribed with all basic subscription rights and over-subscription rights being exercised for a total of 13,590,238 additional depositary units. Following the consummation of the rights offering, there are 99,161,952 depositary units outstanding.

The depositary units subscribed for in the rights offering were distributed to participants or credited through DTC on or about Monday, January 30, 2012. Any excess payments to be refunded to participating holders will be mailed by the subscription agent as promptly as practicable.

Affiliates of Carl C. Icahn own and control our general partner and held, prior to the consummation of the rights offering, 79,238,262 of our depositary units, which represented approximately 92.6% of our outstanding depositary units. Such persons fully exercised all basic subscription rights and over-subscription rights allocated to them in the rights offering. As of February 3, 2012, Mr. Icahn's affiliates hold 92,233,846 of our depositary units, representing approximately 93.01% of our outstanding depositary units.

Our depositary units, including the additional depositary units issued in connection with the rights offering, are currently traded on the NASDAQ Global Select Market (NASDAQ) under the symbol IEP. We filed a registration statement on Form S-3 with the SEC that registered the transferable rights and the new depositary units. The registration statement was declared effective on December 27, 2011.

The gross proceeds from the rights offering were approximately \$500 million.

The Funds' performance and assets under management. The Funds had gross returns of approximately 34.5% for the fiscal year ended December 31, 2011 and had assets under management of \$6.5 billion as of December 31, 2011.

This exchange offer is intended to satisfy those obligations.

The Exchange Offer

We are offering to exchange the exchange notes that have been registered under the Securities Act for the existing notes. As of this date, there is an aggregate of \$700,000,000 of our existing notes issued on January 17, 2012 and February 6, 2012 outstanding.

you are not participating, do not intend to participate and have no arrangement or understanding with any person to participate in the distribution of the exchange notes; and

you are not an affiliate of our company or any of our subsidiaries, as that term is defined in Rule 405 of the Securities Act.

If our belief is inaccurate and you transfer any exchange note issued to you in the exchange offer without delivering a prospectus meeting the requirements of the Securities Act or without an exemption from registration of your exchange notes from such requirements, you may incur liability under the Securities Act. We do not assume, or indemnify you against, any such liability. The SEC has not considered this exchange offer in the context of a no-action letter, and we cannot be sure that the SEC would make the same determination with respect to this

exchange offer as it has in other circumstances.

TABLE OF CONTENTS

Each broker-dealer that is issued exchange notes for its own account in exchange for existing notes that were acquired by such broker-dealer as a result of market-making or other trading activities also must acknowledge that it has not entered into any arrangement or understanding with us or any of our affiliates to distribute the exchange notes and will deliver a prospectus meeting the requirements of the Securities Act in connection with any resale of the exchange notes issued in the exchange offer.

We have agreed in the registration rights agreements that a broker-dealer may use this prospectus for an offer to resell, resale or other retransfer of the exchange notes issued to it in the exchange offer.

Expiration Date

The exchange offer will expire at 5:00 p.m., New York City time, on _____, 2012, unless extended, in which case the term expiration date shall mean the latest date and time to which we extend the exchange offer.

Conditions to the Exchange Offer

The exchange offer is subject to certain customary conditions, which may be waived by us. The exchange offer is not conditioned upon any minimum principal amount of existing notes being tendered.

Procedures for Tendering Existing Notes

If you wish to tender existing notes, you must (a)(1) complete, sign and date the letter of transmittal, or a facsimile of it, according to its instructions and (2) send the letter of transmittal, together with your existing notes to be exchanged and other required documentation, to the Exchange Agent (as defined below) at the address provided in the letter of transmittal; or (b) tender through DTC pursuant to DTC's Automated Tender Offer Program, or ATOP system. The letter of transmittal or a valid agent's message through ATOP must be received by the Exchange Agent by 5:00 p.m., New York City time, on the expiration date. See The Exchange Offer Procedures for Tendering, and Book-Entry Tender. By executing the letter of transmittal or delivering an agent's message, you are representing to us that you are acquiring the exchange notes in the ordinary course of your business, that you are not participating, do not intend to participate and have no arrangement or understanding with any person to participate in the distribution of exchange notes, and that you are not an affiliate of ours. See The Exchange Offer Procedures for Tendering, and Book-Entry Tender.

Do not send letters of transmittal and certificates representing existing notes to us. Send these documents only to the Exchange Agent. See The Exchange Offer Procedures for Tendering for more information.

Special Procedures for Beneficial Owners

If you are the beneficial owner of book-entry interests and your name does not appear on a security position listing of DTC as the holder of the book-entry interests or if you are a beneficial owner whose existing notes are registered in the name of a broker, dealer, commercial bank, trust company or other nominee, and you wish to tender your existing notes in the exchange offer, you should contact the registered holder promptly and instruct the registered holder to tender on your behalf. If you are a beneficial owner and wish to tender on your own behalf, you must, before completing and executing the letter of transmittal and delivering your existing notes, either make appropriate arrangements to register ownership of the existing notes in your name or obtain a properly completed bond power from the registered holder. See The Exchange Offer Procedure if

the Outstanding Notes Are Not Registered in Your Name, and Beneficial Owner Instructions to Holders of Outstanding Notes. The transfer of registered ownership may take considerable time and may not be possible to complete before the expiration date.

Guaranteed Delivery Procedures

If you wish to tender existing notes and time will not permit the documents required by the letter of transmittal to reach the exchange agent prior to the expiration date, or the procedure for book-entry transfer cannot be completed on a timely basis, you must tender your existing notes according to the guaranteed delivery procedures described under The Exchange Offer Guaranteed Delivery Procedures.

Acceptance of Existing Notes and Delivery of Exchange Notes

Subject to the conditions described under The Exchange Offer Conditions, we will accept for exchange any and all existing notes which are validly tendered in the exchange offer and not withdrawn, prior to 5:00 p.m., New York City time, on the expiration date.

Interest on Existing Notes

Interest will not be paid on existing notes that are tendered and accepted for exchange in the exchange offer.

Withdrawal Rights

You may withdraw your tender of existing notes at any time prior to 5:00 p.m., New York City time, on the expiration date, subject to compliance with the procedures for withdrawal described in this prospectus under the heading The Exchange Offer Withdrawal of Tenders.

U.S. Federal Income Tax Consequences

For a discussion of the material U.S. federal income tax considerations relating to the exchange of existing notes for the exchange notes as well as the ownership of the exchange notes, see Material U.S. Federal Income Tax Consequences.

Exchange Agent

Wilmington Trust Company is serving as the exchange agent (the Exchange Agent). The address, telephone number and facsimile number of the exchange agent are set forth in this prospectus under the heading The Exchange Offer Exchange Agent.

Consequences of Failure to Exchange the Existing Notes

If you do not exchange existing notes for exchange notes, you will continue to be subject to the restrictions on transfer provided in the existing notes and in the indenture governing the existing notes. In general, the unregistered existing notes may not be offered or sold, unless they are registered under the Securities Act, except pursuant to an exemption from, or in a transaction not subject to, the Securities Act and applicable state securities laws.

In addition, after the consummation of the exchange offer, it is anticipated that the outstanding principal amount of the existing notes available for trading will be significantly reduced. The reduced float will adversely affect the liquidity and market price of the existing notes. A smaller outstanding principal amount at maturity of existing notes available for trading may also tend to make the price more volatile.

Use of Proceeds

We will not receive any proceeds from the issuance of the exchange notes in exchange for the existing notes.

We will pay all fees and expenses related to this exchange offer.

TABLE OF CONTENTS

The Exchange Notes

The summary below describes the principal terms of the exchange notes. Certain of the terms described below are subject to important limitations and exceptions. See the section entitled "Description of Notes" of this prospectus for a more detailed description of the terms of the exchange notes and the indenture governing the exchange notes, the existing notes, our Outstanding 2016 Notes and our Outstanding 2018 Notes (referred to as the Indenture). In this subsection, except as otherwise noted, we, us and our refer only to Icahn Enterprises and Icahn Enterprises Finance Corp., or Icahn Enterprises Finance, as co-issuers of the exchange notes, and not to any of our subsidiaries.

Issuers

Icahn Enterprises L.P., a Delaware master limited partnership, and Icahn Enterprises Finance Corp., a Delaware corporation.

Notes Offered

\$700,000,000 aggregate principal amount of 8% Senior Notes due 2018.

The exchange notes will evidence the same debt as the existing notes and will be issued under, and will be entitled to the benefits of, the same indenture. The existing notes do, and the exchange notes will, constitute the same series of securities as the Outstanding 2018 Notes for purposes of the Indenture governing the notes, and will vote together on all matters with such series. The terms of the exchange notes are the same as the terms of the existing notes in all material respects except that the exchange notes:

have been registered under the Securities Act;

bear different CUSIP numbers from the existing notes;

do not include rights to registration under the Securities Act; and

do not contain transfer restrictions applicable to the existing notes.

Maturity

January 15, 2018

Interest Rate

We will pay interest on the exchange notes at an annual rate of 8%.

Interest Payment Dates

We will make interest payments on the exchange notes semi-annually in arrears on January 15 and July 15 of each year, beginning July 15, 2012.

Guarantee

The exchange notes and our obligations under the Indenture will be fully and unconditionally guaranteed by Icahn Enterprises Holdings. Other than Icahn Enterprises Holdings, none of our subsidiaries will guarantee payments on the exchange notes.

Ranking

The exchange notes and the guarantee will rank equally with all of our and the guarantor's existing and future senior unsecured indebtedness, including the Outstanding 2018 Notes, the Outstanding 2016 Notes and our outstanding Variable Rate Senior Convertible Notes due 2013 (the Variable Rate Notes), and will rank senior to all of our and the guarantor's existing and future subordinated indebtedness. The exchange

notes and the guarantee will be effectively subordinated to all of our and the guarantor's existing and future secured indebtedness to the extent of the collateral securing such indebtedness. The exchange notes and the guarantee also will be effectively subordinated to all indebtedness and other liabilities, including trade payables, of all our subsidiaries other than Icahn Enterprises Holdings. As of September 30, 2011, our subsidiaries (not including Icahn Enterprises Holdings) had \$3.4 billion of debt and \$940 million of accounts payable to which the notes would have been structurally subordinated.

Optional Redemption

On or after January 15, 2014, we may redeem some or all of the exchange notes at the redemption prices set forth under Description of Notes Optional Redemption, plus accrued and unpaid interest, if any, to the date of redemption. On or prior to January 15, 2013, we may, at our option, redeem up to 35% of the aggregate principal amount of all outstanding 8% Senior Notes due 2018 at the premiums set forth under Description of Notes Optional Redemption, plus accrued and unpaid interest, if any, with the net cash proceeds of certain equity offerings.

Redemption Based on Gaming Laws

The exchange notes are subject to mandatory disposition and redemption requirements following certain determinations by applicable gaming authorities. See Description of Notes Mandatory Disposition Pursuant to Gaming Laws.

Change of Control Offer

If we experience certain change-of-control events, the holders of the exchange notes will have the right to require us to purchase their exchange notes at a price in cash equal to 101% of the principal amount thereof, together with accrued and unpaid interest, if any, to the date of purchase. See Description of Notes Repurchase at the Option of Holders Change of Control.

Certain Covenants

We will issue the exchange notes under the Indenture that was executed in connection with the Outstanding 2016 Notes and the Outstanding 2018 Notes. The Indenture, among other things, restricts our ability to:

incur additional debt;

pay dividends and make distributions;

repurchase equity securities;

create liens;

enter into transactions with affiliates; and

merge or consolidate.

These covenants are subject to a number of important exceptions and qualifications. See Description of Notes Certain Covenants.

Our subsidiaries other than Icahn Enterprises Holdings are not restricted by the Indenture in their ability to incur debt, create liens or merge or consolidate.

Absence of Established Market for Exchange Notes

The exchange notes will be new securities for which there is currently no market. We cannot assure you that a liquid market for the exchange notes will develop or be maintained.

TABLE OF CONTENTS

RISK FACTORS

Participating in the exchange offer and investing in the exchange notes involves a high degree of risk. You should read and consider carefully each of the following factors, and the section entitled Risk Factors in this prospectus, the risk factors set forth in our Annual Report on Form 10-K for the year ended December 31, 2010 and Quarterly Reports for the quarters ended March 31, 2011, June 30, 2011 and September 30, 2011, each of which are incorporated by reference herein, as well as the other information contained in this prospectus, before making a decision on whether to participate in the exchange offer. If any of these risks actually occur, it could have a material adverse effect on our business. These risks are not the only ones faced by us. Additional risks not known or which are presently deemed immaterial could also materially and adversely affect our financial condition, results of operations, business and prospects. Each of these risks could materially and adversely affect our business, financial condition, results of operations and prospects, and could result in a partial or complete loss of your investment.

Risks Relating to the Exchange Offer

Holders who fail to exchange their existing notes will continue to be subject to restrictions on transfer.

If you do not exchange your existing notes for exchange notes in the exchange offer, you will continue to be subject to the restrictions on transfer of your existing notes described in the legend on your existing notes. The restrictions on transfer of your existing notes arise because we issued the existing notes under exemptions from, or in transactions not subject to, the registration requirements of the Securities Act and applicable state securities laws. In general, you may only offer or sell the existing notes if they are registered under the Securities Act and applicable state securities laws, or are offered and sold under an exemption from these requirements. Except as contemplated by this exchange offer, we do not plan to register the existing notes under the Securities Act. The restrictions on transferability may adversely affect the price that third parties would pay for such notes.

Broker-dealers or holders of exchange notes may become subject to the registration and prospectus delivery requirements of the Securities Act.

Any broker-dealer that:

exchanges its existing notes in the exchange offer for the purpose of participating in a distribution of the exchange notes or

resells exchange notes that were received by it for its own account in the exchange offer may be deemed to have received restricted securities and may be required to comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction by that broker-dealer. Any profit on the resale of the exchange notes and any commission or concessions received by a broker-dealer may be deemed to be underwriting compensation under the Securities Act. In addition to broker-dealers, any holder that exchanges its existing notes in the exchange offer for the purpose of participating in a distribution of the exchange notes may be deemed to have received restricted securities and may be required to comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction by that holder.

You may suffer adverse consequences if you do not exchange your existing notes.

The existing notes that are not exchanged for exchange notes have not been registered with the SEC or in any state.

Unless the existing notes are registered, they may only be offered and sold pursuant to an exemption from, or in a transaction that is not subject to, the registration requirements of the Securities Act. Depending upon the percentage of existing notes exchanged for exchange notes, the liquidity of the existing notes may be adversely affected, which may have an adverse affect on the price of the existing notes.

TABLE OF CONTENTS

Your existing notes will not be accepted for exchange if you fail to follow the exchange offer procedures.

We will issue the exchange notes pursuant to this exchange offer only after a timely receipt of your existing notes, a properly completed and duly executed letter of transmittal or a valid agent's message through DTC's Automatic Tender Offer Program (ATOP) and all other required documents. Therefore, if you want to tender your existing notes, please allow sufficient time to ensure timely delivery. If we do not receive the required documents by the expiration date of the exchange offer, we will not accept your existing notes for exchange. We are under no duty to give notification of defects or irregularities with respect to the tenders of existing notes for exchange. If there are defects or irregularities with respect to your tender of existing notes, we will not accept your existing notes for exchange.

Risks Relating to the Exchange Notes

Our failure to comply with the covenants contained under any of our debt instruments, including the Indenture (including our failure as a result of events beyond our control), could result in an event of default which would materially and adversely affect our financial condition.

Our failure to comply with the covenants under any of our debt instruments may trigger a default or event of default under such instruments. If there were an event of default under one of our debt instruments, the holders of the defaulted debt could cause all amounts outstanding with respect to that debt to be due and payable immediately. In addition, any event of default or declaration of acceleration under one debt instrument could result in an event of default under one or more of our other debt instruments, including the exchange notes. It is possible that, if the defaulted debt is accelerated, our assets and cash flow may not be sufficient to fully repay borrowings under our outstanding debt instruments and we cannot assure you that we would be able to refinance or restructure the payments on those debt securities.

To service our indebtedness, we will require a significant amount of cash. Our ability to maintain our current cash position or generate cash depends on many factors beyond our control.

Our ability to make payments on and to refinance our indebtedness, including the exchange notes, the existing notes, the Outstanding 2018 Notes, the Outstanding 2016 Notes and the Variable Rate Notes and to fund operations, will depend on existing cash balances and our ability to generate cash in the future. This, to a certain extent, is subject to general economic, financial, competitive, regulatory and other factors that are beyond our control.

Our current businesses and businesses that we acquire may not generate sufficient cash to service our debt, including the exchange notes, the existing notes, the Outstanding 2018 Notes, the Outstanding 2016 Notes and the Variable Rate Notes. In addition, we may not generate sufficient cash flow from operations or investments and future borrowings may not be available to us in an amount sufficient to enable us to service our indebtedness, including the exchange notes, the existing notes, the Outstanding 2018 Notes, the Outstanding 2016 Notes and the Variable Rate Notes or to fund our other liquidity needs. We may need to refinance all or a portion of our indebtedness, including the exchange notes, the existing notes, the Outstanding 2018 Notes, the Outstanding 2016 Notes and the Variable Rate Notes, on or before maturity. We cannot assure you that we will be able to refinance any of our indebtedness, including the

exchange notes, on commercially reasonable terms or at all.

We and Icahn Enterprises Holdings are holding companies and depend on the businesses of our subsidiaries to satisfy our obligations.

We and Icahn Enterprises Holdings are holding companies. In addition to cash and cash equivalents, U.S. government and agency obligations, marketable equity and debt securities and other short-term investments, our assets consist primarily of investments in our subsidiaries. Moreover, if we make significant investments in operating businesses, it is likely that we will reduce our liquid assets and those of Icahn Enterprises Holdings in order to fund those investments and the ongoing operations of our subsidiaries. Consequently, our cash flow and our ability to meet our debt service obligations and make distributions with respect to depositary units likely will depend on the cash flow of our subsidiaries and the payment of funds to us by our subsidiaries in the form of dividends, distributions, loans or otherwise.

TABLE OF CONTENTS

The operating results of our subsidiaries may not be sufficient to make distributions to us. In addition, our subsidiaries are not obligated to make funds available to us and distributions and intercompany transfers from our subsidiaries to us may be restricted by applicable law or covenants contained in debt agreements and other agreements to which these subsidiaries may be subject or enter into in the future. The terms of any borrowings of our subsidiaries or other entities in which we own equity may restrict dividends, distributions or loans to us. For example, credit facilities for Federal-Mogul and Tropicana, our majority owned subsidiaries, and notes outstanding for ARI and Viskase restrict dividends, distributions and other transactions with us. To the degree any distributions and transfers are impaired or prohibited, our ability to make payments on our debt and to make distributions on our depositary units will be limited.

We or our subsidiaries may be able to incur substantially more debt.

We or our subsidiaries may be able to incur substantial additional indebtedness in the future. Under the Indenture, we and Icahn Enterprises Holdings may incur additional indebtedness if we comply with certain financial tests contained in the Indenture. However, our subsidiaries other than Icahn Enterprises Holdings are not subject to any of the covenants contained in the Indenture, including the covenant restricting debt incurrence. If new debt is added to our and our subsidiaries current debt levels, the related risks that we, and they, now face could intensify. In addition, certain important events, such as leveraged recapitalizations that would increase the level of our indebtedness, would not constitute a Change of Control under the Indenture.

The exchange notes will be effectively subordinated to any secured indebtedness, and all the indebtedness and liabilities of our subsidiaries other than Icahn Enterprises Holdings.

The exchange notes will be effectively subordinated to our and Icahn Enterprises Holdings' existing and future secured indebtedness to the extent of the collateral securing such indebtedness. As of September 30, 2011, we did not have any secured indebtedness outstanding and Icahn Enterprises Holdings had \$67 million of secured indebtedness outstanding. We and Icahn Enterprises Holdings may be able to incur substantial additional secured indebtedness in the future. The terms of the Indenture permit us and Icahn Enterprises Holdings to do so, subject to the covenants described under Description of Notes Certain Covenants Incurrence of Indebtedness and Issuance of Preferred Stock and Limitation on Liens. The exchange notes will also be effectively subordinated to all the indebtedness and liabilities, including trade payables, of all of our subsidiaries, other than Icahn Enterprises Holdings. In the event of a bankruptcy, liquidation or reorganization of any of our subsidiaries, other than Icahn Enterprises Holdings, holders of their indebtedness and their trade creditors will generally be entitled to payment of their claims from the assets of those subsidiaries before any assets are made available for distribution to us. As of September 30, 2011, our subsidiaries (not including Icahn Enterprises Holdings) had \$3.4 billion of debt and approximately \$940 million of accounts payable to which the exchange notes would have been structurally subordinated.

We may not have sufficient funds necessary to finance the change of control offer required by the Indenture.

Upon the occurrence of certain specific kinds of change of control events, as defined in the Indenture, we will be required to offer to repurchase all existing notes, exchange notes, Outstanding 2016 Notes and Outstanding 2018 Notes at 101% of their principal amount plus accrued and unpaid interest and Special Interest (as defined herein), if any, to the date of repurchase. As of February 3, 2012, Mr. Icahn, through affiliates, owned 100% of Icahn Enterprises GP and approximately 93.01% of our outstanding depositary units. If Mr. Icahn were to sell or otherwise transfer some or all of his interests in us to unrelated parties, a change of control could be deemed to have occurred under the

We and Icahn Enterprises Holdings are holding companies and depend on the businesses of our subsidiaries to sat

terms of the Indenture. However, it is possible that we will not have sufficient funds at the time of the change of control to make the required repurchase of notes.

Since we are a limited partnership, you may not be able to pursue legal claims against us in U.S. federal courts.

We are a limited partnership organized under the laws of the state of Delaware. Under the rules of federal civil procedure, you may not be able to sue us in federal court on claims other than those based solely on federal law, because of lack of complete diversity. Case law applying diversity jurisdiction deems us to

TABLE OF CONTENTS

have the citizenship of each of our limited partners. Because we are a publicly traded limited partnership, it may not be possible for you to sue us in a federal court because we have citizenship in all 50 U.S. states and operations in many states.

Accordingly, you will be limited to bringing any claims in state court. Furthermore, Icahn Enterprises Finance, our corporate co-issuer for the exchange notes, has only nominal assets and no operations. While you may be able to sue the corporate co-issuer in federal court, you are not likely to be able to realize on any judgment rendered against it.

We are subject to the risk of possibly becoming an investment company.

Because we are a holding company and a significant portion of our assets may, from time to time, consist of investments in companies in which we own less than a 50% interest, we run the risk of inadvertently becoming an investment company that is required to register under the Investment Company Act of 1940, as amended (the Investment Company Act). Registered investment companies are subject to extensive, restrictive and potentially adverse regulation relating to, among other things, operating methods, management, capital structure, dividends and transactions with affiliates. Registered investment companies are not permitted to operate their business in the manner in which we operate our business, nor are registered investment companies permitted to have many of the relationships that we have with our affiliated companies.

In order not to become an investment company required to register under the Investment Company Act, we monitor the value of our investments and structure transactions with an eye toward the Investment Company Act. As a result, we may structure transactions in a less advantageous manner than if we did not have Investment Company Act concerns, or we may avoid otherwise economically desirable transactions due to those concerns. In addition, events beyond our control, including significant appreciation or depreciation in the market value of certain of our publicly traded holdings, or adverse developments with respect to our ownership of certain of our subsidiaries, could result in our inadvertently becoming an investment company.

If it were established that we were an investment company, there would be a risk, among other material adverse consequences, that we could become subject to monetary penalties or injunctive relief, or both, in an action brought by the SEC, that we would be unable to enforce contracts with third parties or that third parties could seek to obtain rescission of transactions with us undertaken during the period it was established that we were an unregistered investment company.

We may become taxable as a corporation.

We believe that we have been and are properly treated as a partnership for federal income tax purposes. This allows us to pass through our income and deductions to our partners. However, the Internal Revenue Service (the IRS) could challenge our partnership status and we could fail to qualify as a partnership for past years as well as future years.

Qualification as a partnership involves the application of highly technical and complex provisions of the Internal Revenue Code of 1986, as amended (the Code). For example, a publicly traded partnership is generally taxable as a corporation unless 90% or more of its gross income is qualifying income, which includes interest, dividends, oil and gas revenues, real property rents, gains from the sale or other disposition of real property, gain from the sale or other disposition of capital assets held for the production of interest or dividends, and certain other items. We believe that in all prior years of our existence at least 90% of our gross income was qualifying income and we intend to structure our business in a manner such that at least 90% of our gross income will constitute qualifying income this year and in the future. However, there can be no assurance that such structuring will be effective in all events to avoid the receipt of more than 10% of non-qualifying income. If less than 90% of our gross income constitutes qualifying income, we may

Since we are a limited partnership, you may not be able to pursue legal claims against us in U.S. federal courts. 32

be subject to corporate tax on our net income, at a federal rate of up to 35% plus possible state taxes. Further, if less than 90% of our gross income constituted qualifying income for past years, we may be subject to corporate level tax plus interest and possibly penalties. In addition, if we register under the Investment Company Act, we would be treated as a corporation for U.S. federal income tax purposes. The cost of paying federal and possibly state income tax, either for past years or going forward, could be a significant liability and would reduce our funds available to make distributions to holders of units, and to make interest and principal payments on our debt securities. To meet the qualifying income test we may structure transactions in a manner which is less advantageous than if this were not a consideration, or we may avoid otherwise economically desirable transactions.

TABLE OF CONTENTS

From time to time, legislative proposals have been introduced that, if enacted, could have a material and adverse effect on us. These proposals have included taxing publicly traded partnerships engaged in the Investment segment, such as us, as corporations and introducing substantive changes to the definition of qualifying income, which could make it more difficult or impossible for us to meet the exception that allows publicly traded partnerships generating qualifying income to be treated as partnerships (rather than corporations) for U.S. federal income tax purposes. It is unclear when or if such legislation would be introduced, whether or not such legislation would be enacted, what specific provisions would be included or what the effective date would be, and as a result the ultimate impact on us of such legislation is uncertain. It is possible that if such legislation were enacted, we would be treated as an association, taxable as a corporation, which would materially increase our taxes. As an alternative, we might be required to restructure our operations, and possibly dispose of certain businesses, in order to avoid or mitigate the impact of any such legislation.

The exchange notes impose significant operating and financial restrictions on us and Icahn Enterprises Holdings.

Subject to a number of important exceptions, the Indenture may limit our and Icahn Enterprises Holdings' ability to, among other things:

- incur additional debt;
- pay dividends and make distributions;
- repurchase equity securities;
- create liens;
- enter into transactions with affiliates; and
- merge or consolidate.

The restrictions contained in the Indenture may prevent us from taking actions that we believe would be in the best interest of our business. A breach of any of these covenants or the inability to comply with the required financial ratios could result in a default under the exchange notes, or the Indenture, as applicable. If any such default occurs, the holders of our notes may elect to declare all of their respective outstanding debt, together with accrued interest and other amounts payable thereunder, to be immediately due and payable.

Our subsidiaries, other than Icahn Enterprises Holdings, are not subject to any of the covenants in the Indenture and only Icahn Enterprises Holdings will guarantee the exchange notes. We may not be able to rely on the cash flow or assets of our subsidiaries to pay our indebtedness.

Our subsidiaries, other than Icahn Enterprises Holdings, are not subject to the covenants under the Indenture. We may form additional subsidiaries in the future which will not be subject to the covenants under the Indenture. Of our existing and future subsidiaries, only Icahn Enterprises Holdings is required to guarantee the exchange notes. Our existing and future non-guarantor subsidiaries may enter into financing arrangements that limit their ability to make dividends, distributions, loans or other payments to fund payments in respect of the exchange notes. Accordingly, we may not be able to rely on the cash flow or assets of our subsidiaries to pay the exchange notes.

A court could void the exchange notes or the guarantee under fraudulent conveyance laws.

Under the U.S. bankruptcy law and comparable provisions of the state fraudulent transfer laws, the exchange notes and the guarantee could be voided, or claims in respect to the exchange notes and the guarantee could be subordinated

The exchange notes impose significant operating and financial restrictions on us and Icahn Enterprises Holdings.

to all of our existing debt or our guarantor's other debts if, among other things, we, at the time of the issuance of the exchange notes, our guarantor, at the time it incurred the indebtedness evidenced by its guarantee:

intended to hinder, delay or defraud any present or future creditor; or received less than reasonably equivalent value and/or fair consideration for the issuance of the exchange notes or the incurrence of the guarantee; and

14

TABLE OF CONTENTS

were insolvent or rendered insolvent by reason of the issuance of the exchange notes or the incurrence of the guarantee; or
were engaged in a business or transaction for which our, our guarantors' remaining assets constituted unreasonably small capital; or
intended to incur, or believed that we or our guarantor would incur, debts beyond our or our guarantor's ability to pay such debts as they mature.

Moreover, any payments made by us on the exchange notes or by our guarantor pursuant to its guarantee could be voided and required to be returned to us or our guarantor, or to a fund for the benefit of our creditors or our guarantor's creditors. To the extent that the exchange notes or the guarantee are voided as a fraudulent conveyance, the claims of holders of the exchange notes would be adversely affected.

In addition, a legal challenge of the exchange notes or the guarantee on fraudulent transfer grounds will focus on, among other things, the benefits, if any, realized by us, or our guarantor as a result of the issuance of the exchange notes. The measures of insolvency for purposes of these fraudulent transfer laws will vary depending upon the governing law. Generally, however, a guarantor would be considered insolvent if:

the sum of its debts, including contingent liabilities, were greater than the fair saleable value of all of its assets; or
if the present fair saleable value of its assets were less than the amount that would be required to pay its probable liability on its existing debts, including contingent liabilities, as they become absolute and mature; or
it could not pay its debts as they become due.

On the basis of historical financial information, recent operating history and other factors, we believe that the exchange notes are being issued and the guarantee is being incurred for proper purposes, in good faith, and for fair consideration and reasonably equivalent value, and that we, after giving effect to the issuance of the exchange notes, the guarantor, after giving effect to its guarantee, will not be insolvent, will not have unreasonably small capital for the business in which it is engaged, and will not have incurred debts beyond its ability to pay such debts as they mature. There can be no assurance, however, as to what standard a court would apply in making such determinations, or that a court would agree with our conclusions in this regard.

Active trading markets may not develop for the exchange notes, which may affect your ability to resell your exchange notes.

There is no existing public market for the exchange notes. The exchange notes are not listed on any securities exchange or other market, and we do not intend to apply for listing of the exchange notes offered hereby on any securities exchange or other market. The exchange notes will constitute new issues of securities with no established trading market, and there is a risk that:

liquid trading markets for the exchange notes may not develop;
holders may not be able to sell their exchange notes; or
the price at which the holders would be able to sell their exchange notes may be lower than anticipated and lower than the principal amount or original purchase price.

An active trading market may not exist for the exchange notes, and any trading market that does develop may not be liquid. Even if the registration statement becomes effective, which will generally allow resales of the exchange notes, the exchange notes will constitute new issues of securities with no established trading markets. If a trading market for the exchange notes were to develop, the trading price of the exchange notes will depend on many factors, including prevailing interest rates, the market for similar debt and our financial performance. In addition, the market for non-investment grade debt historically has been subject to disruptions that have caused substantial volatility in the prices of securities similar to the exchange notes. The markets for the exchange notes, if any, may be subject to similar

Edgar Filing: ICAHN ENTERPRISES L.P. - Form S-4/A
disruptions that could adversely affect their value and liquidity.

TABLE OF CONTENTS

Although the initial purchaser of the existing notes advised us that it intends to make a market in the notes, it is not obligated to do so and it may discontinue any market-making at any time without notice. In addition, any market-making activity will be subject to the limits imposed by the Securities Act and the Securities Exchange Act of 1934, as amended (the Exchange Act).

In addition, any holder who purchases in the offering for the purpose of participating in a distribution of the exchange notes may be deemed to have received restricted securities, and if so, will be required to comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction.

Under the terms of the Indenture, we are permitted to pay dividends, principal or interest on our Variable Rate Notes, and we may purchase, redeem, defease or otherwise acquire for value our Variable Rate Notes.

Nothing in the Indenture prohibits us from paying dividends, principal or interest on our Variable Rate Notes in accordance with the terms of the indenture governing such notes, or from purchasing, redeeming, defeasing or otherwise acquiring for value any of our Variable Rate Notes, which mature in 2013.

As a noteholder, you may be required to comply with licensing, qualification or other requirements under gaming laws and could be required to dispose of the exchange notes.

We have held and anticipate that we will hold the equity of subsidiaries that hold the licenses for certain hotels and casinos. We currently hold a 65.1% equity interest in Tropicana Entertainment, Inc., a hotel and casino company. We continue to explore investment opportunities in many areas and could make additional significant investments in gaming entities in the future.

We could be required to disclose the identities of the holders of the Notes to the New Jersey, Nevada or other gaming authorities upon request. The New Jersey Casino Control Commission, the Nevada Gaming Commission and other applicable gaming authorities impose substantial restrictions on the ownership of certain gaming companies, could require holders of the exchange notes to apply for qualification or suitability to hold the exchange notes and could require you to dispose of your interest in the exchange notes. Application and investigation costs for licensing, qualifications and findings of suitability must generally be paid by the applicant. If any applicable gaming authority determines that a holder or beneficial owners of the exchange notes must be licensed, qualified or found suitable under any applicable gaming law and such holder or beneficial owner either refuses to file such an application or is unable to obtain the requisite license, qualification or finding of suitability, the exchange notes will be subject to mandatory disposition and redemption and certain of your rights under the exchange notes will be eliminated. See Description of Notes Mandatory Disposition Pursuant to Gaming Laws.

In consideration for issuing the exchange notes as contemplated in this prospectus, we will receive in exchange existing notes in like principal amount. The existing notes surrendered in exchange for exchange notes will be retired and canceled and cannot be reissued. Issuance of the exchange notes will not result in a change in our amount of outstanding debt.

EBITDA represents earnings before interest expense, income tax (benefit) expense and depreciation and amortization. We define Adjusted EBITDA as EBITDA excluding the effects of impairment, restructuring costs, certain non-cash pension plan expenses, OPEB curtailment gains, purchase accounting inventory adjustments, discontinued operations and gains/losses on extinguishment of debt. We present EBITDA and Adjusted EBITDA on a consolidated basis, net of the effect of non-controlling interests. We conduct substantially all of our operations through subsidiaries. The operating results of our subsidiaries may not be sufficient to make distributions to us. In addition, our subsidiaries are not obligated to make funds available to us for payment of our indebtedness, payment of distributions on our depositary units or otherwise, and distributions and intercompany transfers from our subsidiaries to us may be restricted by applicable law or covenants contained in debt agreements and other agreements to which these subsidiaries currently may be subject or into which they may enter into in the future. The terms of any borrowings of our subsidiaries or other entities in which we own equity may restrict dividends, distributions or loans to us.

We believe that providing EBITDA and Adjusted EBITDA to investors has economic substance as these measures provide important supplemental information of our performance to investors and permits investors and management to evaluate the core operating performance of our business without regard to interest, taxes and depreciation and amortization and the effects of impairment, restructuring costs, certain non-cash pension plan expenses, OPEB curtailment gains, purchase accounting inventory adjustments, discontinued operations and gains/losses on extinguishment of debt. Additionally, we believe this information is frequently used by securities analysts, investors and other interested parties in the evaluation of companies that have issued debt. Management uses, and believes that investors benefit from referring to these non-GAAP financial measures in assessing our operating results, as well as in planning, forecasting and analyzing future periods. Adjusting earnings for these charges allows investors to evaluate our performance from period to period, as well as our peers, without the effects of certain items that may vary depending on accounting methods and the book value of assets. Additionally, EBITDA and Adjusted EBITDA present

meaningful measures of corporate performance exclusive of our capital structure and the method by which assets were acquired and financed.

EBITDA and Adjusted EBITDA have limitations as analytical tools, and you should not consider them in isolation, or as substitutes for analysis of our results as reported under generally accepted accounting principles in the United States, or U.S. GAAP. For example, EBITDA and Adjusted EBITDA:

do not reflect our cash expenditures, or future requirements for capital expenditures, or contractual commitments;

21

TABLE OF CONTENTS

do not reflect changes in, or cash requirements for, our working capital needs; and do not reflect the significant interest expense, or the cash requirements necessary to service interest or principal payments on our debt.

Although depreciation and amortization are non-cash charges, the assets being depreciated or amortized often will have to be replaced in the future, and EBITDA and Adjusted EBITDA do not reflect any cash requirements for such replacements. Other companies in the industries in which we operate may calculate EBITDA and Adjusted EBITDA differently than we do, limiting their usefulness as comparative measures. In addition, EBITDA and Adjusted EBITDA do not reflect the impact of earnings or charges resulting from matters we consider not to be indicative of our ongoing operations.

EBITDA and Adjusted EBITDA are not measurements of our financial performance under U.S. GAAP and should not be considered as alternatives to net income or any other performance measures derived in accordance with U.S. GAAP or as alternatives to cash flow from operating activities as a measure of our liquidity. Given these limitations, we rely primarily on our U.S. GAAP results and use EBITDA and Adjusted EBITDA only as a supplemental measure of our financial performance. The following table reconciles, on a basis attributable to Icahn Enterprises, net income attributable to Icahn Enterprises to EBITDA and EBITDA to Adjusted EBITDA for the periods indicated. In addition, Adjusted EBITDA for prior periods has been revised to conform to our current calculation. EBITDA results for prior periods have been adjusted in order to properly be reflected on a basis attributable to Icahn Enterprises:

(a) Represents asset impairment charges. The amount for fiscal 2008 relates primarily to our Automotive segment for goodwill and other indefinite-lived intangible assets.

(b) Restructuring costs represent expenses incurred by our Automotive and Home Fashion segments, relating to efforts to integrate and rationalize businesses and to relocate manufacturing operations to best-cost countries.

In connection with the application of purchase accounting upon the acquisition of Federal-Mogul, we adjusted (c)Federal-Mogul's inventory balance as of March 1, 2008 to fair value. This resulted in an additional non-cash charge to cost of goods sold during fiscal 2008 which is reflected net of non-controlling interests.

- (e) Represents curtailment gains relating to Federal-Mogul's elimination of certain other postemployment benefits for certain of its employees.
Discontinued operations primarily include the operating results of and gains on sales of our former oil and gas operations which were sold in November, 2006 and our former gaming segment, American Casino & Entertainment Properties, LLC, which was sold in February 2008.
- (g) During the fourth quarter of fiscal 2008, we purchased outstanding debt of entities in our consolidated financial statements in the principal amount of \$352 million and recognized an aggregate gain of \$146 million. During the nine months ended September 30, 2010, we recognized a \$40 million loss on the extinguishment of our 2012 Notes and 2013 Notes.

THE EXCHANGE OFFER

Purpose of the Exchange Offer

In connection with the sales of the existing notes, we entered into registration rights agreements pursuant to which we agreed to:

file a registration statement with the SEC with respect to the exchange of the existing notes for exchange notes, or the exchange offer registration statement, no later than May 16, 2012;

use all commercially reasonable efforts to have the exchange offer registration statement declared effective by the SEC on or prior to August 14, 2012; and

commence the offer to exchange the exchange notes for the existing notes and use all commercially reasonable efforts to issue on or prior to 30 business days, or longer if required by the federal securities laws, after the date on which the exchange offer registration statement was declared effective by the SEC, exchange notes in exchange for all existing notes tendered prior to that date in the exchange offer.

We are making the exchange offer to satisfy certain of our obligations under the registration rights agreements. We filed a copy of each registration rights agreement as an exhibit to the exchange offer registration statement that includes this prospectus.

Resale of Exchange Notes

Under existing interpretations of the Securities Act by the staff of the SEC contained in several no-action letters to third parties, we believe that the exchange notes will generally be freely transferable by holders who have validly participated in the exchange offer without further registration under the Securities Act (assuming the truth of certain representations required to be made by each holder of notes, as set forth below). For additional information on the staff's position, we refer you to the following no-action letters: Exxon Capital Holdings Corporation, available April 13, 1988; Morgan Stanley & Co. Incorporated, available June 5, 1991; and Shearman & Sterling, available July 2, 1993. However, any purchaser of existing notes who is one of our affiliates or who intends to participate in the exchange offer for the purpose of distributing the exchange notes or who is a broker-dealer who purchased existing notes from us to resell pursuant to Rule 144A or any other available exemption under the Securities Act:

will not be able to tender its existing notes in the exchange offer;

will not be able to rely on the interpretations of the staff of the SEC; and

must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any sale or transfer of the existing notes unless such sale or transfer is made pursuant to an exemption from these requirements.

If you wish to exchange existing notes for exchange notes in the exchange offer, you will be required to make representations in a letter of transmittal which accompanies this prospectus, including that:

you are not our affiliate (as defined in Rule 405 promulgated under the Securities Act);

any exchange notes to be received by you will be acquired in the ordinary course of your business;

you have no arrangement or understanding with any person to participate in the distribution of the exchange notes in violation of the provisions of the Securities Act;

if you are not a broker-dealer, you are not engaged in, and do not intend to engage in, a distribution of exchange notes; and

if you are a broker-dealer, you acquired the existing notes for your own account as a result of market-making or other trading activities (and as such, you are a participating broker-dealer), you have not entered into any arrangement or understanding with us or any of our affiliates to distribute the exchange notes and you will deliver a prospectus meeting the requirements of the Securities Act in connection with any resale of the exchange notes.

24

TABLE OF CONTENTS

Rule 405 promulgated under the Securities Act provides that an affiliate of, or person affiliated with, a specified person, is a person that directly, or indirectly through one or more intermediaries, controls or is controlled by, or is under common control with, the person specified.

The SEC has taken the position that participating broker-dealers may be deemed to be underwriters within the meaning of the Securities Act, and accordingly may fulfill their prospectus delivery requirements with respect to the exchange notes, other than a resale of an unsold allotment from the original sale of the notes, with the prospectus contained in the exchange offer registration statement. Under the registration rights agreements, we have agreed to use commercially reasonable efforts to allow participating broker-dealers and other persons, if any, subject to similar prospectus delivery requirements, to use this prospectus in connection with the resale of the exchange notes for a period of 270 days from the issuance of the exchange notes.

Terms of the Exchange Offer

This prospectus and the accompanying letter of transmittal contain the terms and conditions of the exchange offer. Upon the terms and subject to the conditions set forth in this prospectus and in the accompanying letter of transmittal, we will accept for exchange all existing notes that are properly tendered and not withdrawn prior to 5:00 p.m., New York City time, on _____, 2012. After authentication of the exchange notes by the trustee or an authentication agent, we will issue and deliver \$1,000 principal amount of exchange notes in exchange for each \$1,000 principal amount of outstanding existing notes accepted in the exchange offer. Holders may tender some or all of their existing notes in the exchange offer in denominations of \$2,000 and integral multiples of \$1,000 thereof.

The form and terms of the exchange notes are identical in all material respects to the form and terms of the existing notes, except that:

- (1) the offering of the exchange notes has been registered under the Securities Act;
- (2) the exchange notes generally will not be subject to transfer restrictions or have registration rights; and
- (3) certain provisions relating to special interest on the existing notes provided for under certain circumstances will be eliminated.

The exchange notes will evidence the same debt as the existing notes. The exchange notes will be issued under and entitled to the benefits of the Indenture.

In connection with the issuance of the existing notes, we made arrangements for the existing notes to be issued and transferable in book-entry form through the facilities of DTC, acting as a depository. The exchange notes will also be issuable and transferable in book-entry form through the DTC.

The exchange offer is not conditioned upon any minimum aggregate principal amount of existing notes being tendered. However, our obligation to accept existing notes for exchange pursuant to the exchange offer is subject to certain customary conditions that we describe under _____ Conditions below.

Holders who tender existing notes in the exchange offer will not be required to pay brokerage commissions or fees or, subject to the instructions in the letter of transmittal, transfer taxes with respect to the exchange of existing notes pursuant to the exchange offer. We will pay all charges and expenses, other than certain applicable taxes, in connection with the exchange offer. See _____ Solicitation of Tenders; Fees and Expenses for more detailed information regarding the expenses of the exchange offer.

By executing or otherwise becoming bound by the letter of transmittal, you will be making the representations described under Procedures for Tendering below.

TABLE OF CONTENTS

Expiration Date; Extensions; Amendments

The term **expiration date** will mean 5:00 p.m., New York City time, on _____, 2012, unless we, in our sole discretion, extend the exchange offer, in which case the term **expiration date** will mean the latest date and time to which we extend the exchange offer.

To extend the exchange offer, we will:

notify the exchange agent of any extension orally (confirmed in writing) or in writing; and notify the registered holders of the existing notes by means of a press release or other public announcement, each before 9:00 a.m., New York City time, on the next business day after the previously scheduled expiration date.

We reserve the right, in our reasonable discretion:

to delay accepting any existing notes;

to extend the exchange offer; or

if any conditions listed below under **Conditions** are not satisfied, to terminate the exchange offer by giving oral or written notice of the delay, extension or termination to the exchange agent.

We will follow any delay in acceptance, extension or termination as promptly as practicable by oral (confirmed in writing) or written notice to the exchange agent and the registered holders. If we amend the exchange offer in a manner we determine constitutes a material change, we will promptly disclose the amendment in a prospectus supplement that we will distribute to the registered holders.

Interest on the Exchange Notes

Interest on the exchange notes will accrue from the last interest payment date on which interest was paid on the existing notes surrendered in exchange for exchange notes or, if no interest has been paid on the existing notes, from January 15, 2012. Interest on the exchange notes will be payable semi-annually on January 15 and July 15 of each year, commencing on July 15, 2012.

Procedures for Tendering

Only you may tender your existing notes in the exchange offer. Except as stated under **Book-Entry Transfer**, to tender your existing notes in the exchange offer, you must:

complete, sign and date the enclosed letter of transmittal, or a copy of it;

have the signature on the letter of transmittal guaranteed if required by the letter of transmittal or transmit an agent's message in connection with a book-entry transfer; and

mail, fax or otherwise deliver the letter of transmittal or copy to the exchange agent before the expiration date.

In addition, either:

the exchange agent must receive a timely confirmation of a book-entry transfer of your existing notes, if that procedure is available, into the account of the exchange agent at DTC, the book-entry transfer facility, under the procedure for book-entry transfer described below before the expiration date;

the exchange agent must receive certificates for your existing notes, the letter of transmittal and other required documents before the expiration date; or

you must comply with the guaranteed delivery procedures described below.

For your existing notes to be tendered effectively, the exchange agent must receive a valid agent's message through DTC's Automatic Tender Offer Program, or ATOP, or a letter of transmittal and other required documents before the expiration date. Delivery of the existing notes shall be made by book-entry transfer in accordance with the procedures described below. Confirmation of the book-entry transfer must be received by the exchange agent before the expiration date.

TABLE OF CONTENTS

The term *agent's message* means a message, transmitted by a book-entry transfer facility to, and received by, the exchange agent forming a part of a confirmation of a book-entry, which states that the book-entry transfer facility has received an express acknowledgment from the participant in the book-entry transfer facility tendering the outstanding securities that the participant has received and agrees:

to participate in ATOP;

to be bound by the terms of the letter of transmittal; and

that we may enforce the agreement against the participant.

If you do not withdraw your tender before the expiration date, it will constitute an agreement between you and us in compliance with the terms and conditions in this prospectus and in the letter of transmittal.

THE METHOD OF DELIVERY OF YOUR OUTSTANDING NOTES, A LETTER OF TRANSMITTAL AND ALL OTHER REQUIRED DOCUMENTS TO THE EXCHANGE AGENT IS AT YOUR ELECTION AND RISK. INSTEAD OF DELIVERY BY MAIL, WE RECOMMEND THAT YOU USE AN OVERNIGHT OR HAND DELIVERY SERVICE. IN ALL CASES, YOU SHOULD ALLOW SUFFICIENT TIME TO ASSURE DELIVERY TO THE EXCHANGE AGENT BEFORE THE EXPIRATION DATE. DO NOT SEND A LETTER OF TRANSMITTAL OR OUTSTANDING NOTES DIRECTLY TO US. YOU MAY REQUEST YOUR RESPECTIVE BROKERS, DEALERS, COMMERCIAL BANKS, TRUST COMPANIES OR NOMINEES TO MAKE THE EXCHANGE ON YOUR BEHALF.

Each broker-dealer that receives exchange notes for its own account in exchange for existing notes, where the existing notes were acquired by such broker-dealer as a result of market-making activities or other trading activities, must acknowledge that it will deliver a prospectus in connection with any resale of such exchange notes. See *Plan of Distribution*.

Procedure if the Existing Notes Are Not Registered in Your Name

If you are a beneficial owner whose existing notes are registered in the name of a broker, dealer, commercial bank, trust company or other nominee and you want to tender your existing notes, you should contact the registered holder promptly and instruct the registered holder to tender on your behalf. If you want to tender on your own behalf, you must, before completing and executing a letter of transmittal and delivering your existing notes, either make appropriate arrangements to register ownership of the existing notes in your name or obtain a properly completed bond power or other proper endorsement from the registered holder. We urge you to act immediately since the transfer of registered ownership may take considerable time.

Book-Entry Transfer

The Exchange Agent will make requests to establish accounts at the book-entry transfer facility for purposes of the exchange offer within two business days after the date of this prospectus. If you are a financial institution that is a participant in the book-entry transfer facility's systems, you may make book-entry delivery of your existing notes being tendered by causing the book-entry transfer facility to transfer your existing notes into the exchange agent's account at the book-entry transfer facility in compliance with the appropriate procedures for transfer. However, although you may deliver your existing notes through book-entry transfer at the book-entry transfer facility, you must transmit, and the exchange agent must receive, a letter of transmittal or copy of the letter of transmittal, with any required signature guarantees and any other required documents, except as discussed in the following paragraph, on or

before the expiration date or the guaranteed delivery procedures outlined below must be complied with.

DTC's ATOP is the only method of processing the exchange offer through DTC. To accept the exchange offer through ATOP, participants in DTC must send electronic instructions to DTC through DTC's communication system instead of sending a signed, hard copy letter of transmittal. DTC is obligated to communicate those electronic instructions to the exchange agent. To tender your existing notes through ATOP, the electronic instructions sent to DTC and transmitted by DTC to the exchange agent must contain the participant's acknowledgment of its receipt of and agreement to be bound by the letter of transmittal for your existing notes.

TABLE OF CONTENTS

Beneficial Owner Instructions to Holders of Outstanding Notes

Only a holder whose name appears on a DTC security position listing as a holder of existing notes, or the legal representative or attorney-in-fact of this holder, may execute and deliver the letter of transmittal.

Holders of existing notes who are not registered holders of, and who seek to tender, existing notes should (1) obtain a properly completed letter of transmittal for such existing notes from the registered holder with signatures guaranteed by an Eligible Institution and obtain and include with such letter of transmittal existing notes properly endorsed for transfer by the registered holder thereof or accompanied by a written instrument or instruments of transfer or exchange from the registered holder with signatures on the endorsement or written instrument or instruments of transfer or exchange guaranteed by an Eligible Institution or (2) effect a record transfer of such existing notes and comply with the requirements applicable to registered holders for tendering existing notes before 5:00 p.m., New York City time, on _____, 2012. Any existing notes properly tendered before 5:00 p.m., New York City time, on the expiration date accompanied by a properly completed letter of transmittal will be transferred of record by the registrar either prior to or as of the expiration date at our discretion. We have no obligation to transfer any existing notes from the name of the registered holder of the note if we do not accept these existing notes for exchange.

Tendering holders should indicate in the applicable box in the letter of transmittal the name and address to which payment of accrued and unpaid interest on the existing notes, certificates evidencing exchange notes and/or certificates evidencing existing notes for amounts not accepted for tender, each as appropriate, are to be issued or sent, if different from the name and address of the person signing the letter of transmittal. In the case of issuance in a different name, the employer identification or social security number of the person named must also be indicated and a substitute Form W-9 for this recipient must be completed. If these instructions are not given, the payments, including accrued and unpaid interest in cash on the existing notes, exchange notes or existing notes not accepted for tender, as the case may be, will be made or returned, as the case may be, to the registered holder of the existing notes tendered.

Issuance of exchange notes in exchange for existing notes will be made only against deposit of the tendered existing notes.

We will decide all questions as to the validity, form, eligibility, acceptance and withdrawal of tendered existing notes, and our determination will be final and binding on you. We reserve the absolute right to reject any and all existing notes not properly tendered or reject any existing notes which would be unlawful in the opinion of our counsel. We also reserve the right to waive any defects, irregularities or conditions of tender as to particular existing notes. Our interpretation of the terms and conditions of the exchange offer, including the instructions in a letter of transmittal, will be final and binding on all parties. You must cure any defects or irregularities in connection with tenders of existing notes as we determine. Although we intend to notify you of defects or irregularities with respect to tenders of your existing notes, we, the exchange agent or any other person will not incur any liability for failure to give any notification. Your tender of existing notes will not be deemed to have been made until any defects or irregularities have been cured or waived. Any of your existing notes received by the exchange agent that are not properly tendered and as to which the defects or irregularities have not been cured or waived will be returned by the exchange agent to you, unless otherwise provided in the letter of transmittal, as soon as practicable following the expiration date.

Guaranteed Delivery Procedures

If you wish to tender your existing notes but your existing notes are not immediately available, or time will not permit your existing notes or other required documents to reach the exchange agent before the expiration date, or the procedure for book-entry transfer cannot be completed on a timely basis, you may affect a tender if:

the tender is made through an Eligible Institution (as defined in the Letter of Transmittal), prior to the expiration date, the exchange agent receives from such Eligible Institution a properly completed and duly executed notice of guaranteed delivery, by facsimile transmittal, mail or hand delivery,

28

stating the name and address of the holder, the certificate number or numbers of such holder's existing notes and the principal amount of such existing notes tendered;

stating that the tender is being made thereby;

guaranteeing that, within three New York Stock Exchange trading days after the expiration date, the letter of transmittal, or a facsimile thereof, together with the certificate(s) representing the existing notes to be tendered in proper form for transfer, or an agent's message and confirmation of a book-entry transfer into the exchange agent's account at DTC of existing notes delivered electronically, and any other documents required by the letter of transmittal, will be deposited by the Eligible Institution with the exchange agent; and

such properly completed and executed letter of transmittal, or a facsimile thereof, together with the certificate(s) representing all tendered existing notes in proper form for transfer, or an agent's message and confirmation of a book-entry transfer into the exchange agent's account at DTC of existing notes delivered electronically and all other documents required by the letter of transmittal are received by the exchange agent within three New York Stock Exchange trading days after the expiration date.

Upon request, the exchange agent will send to you a notice of guaranteed delivery if you wish to tender your existing notes according to the guaranteed delivery procedures described above.

Withdrawal of Tenders

Except as otherwise provided in this prospectus, you may withdraw tenders of existing notes at any time prior to the expiration date.

For a withdrawal to be effective, the exchange agent must receive a written or facsimile transmission notice of withdrawal at its address set forth in this prospectus prior to the expiration date. Any such notice of withdrawal must:

specify the name of the person who deposited the existing notes to be withdrawn;

identify the existing notes to be withdrawn, including the certificate number or number and principal amount of such existing notes or, in the case of existing notes transferred by book-entry transfer, the name and number of the account at DTC to be credited; and

be signed in the same manner as the original signature on the letter of transmittal by which such existing notes were tendered, including any required signature guarantee.

We will determine in our sole discretion all questions as to the validity, form and eligibility, including time of receipt, of such withdrawal notices, and our determination shall be final and binding on all parties. We will not deem any properly withdrawn existing notes to have been validly tendered for purposes of the exchange offer, and we will not issue exchange notes with respect to those existing notes unless you validly retender the withdrawn existing notes. You may retender properly withdrawn existing notes following one of the procedures described above under "Procedures for Tendering" at any time prior to the expiration date.

Conditions

Notwithstanding any other term of the exchange offer, we will not be required to accept for exchange, or exchange the exchange notes for, any existing notes, and may terminate the exchange offer as provided in this prospectus before the acceptance of the existing notes, if:

the exchange offer violates applicable law, rules or regulations or an applicable interpretation of the staff of the SEC; an action or proceeding has been instituted or threatened in any court or by any governmental agency which might materially impair our ability to proceed with the exchange offer;

there has been proposed, adopted or enacted any law, rule or regulation that, in our reasonable judgment would impair materially our ability to consummate the exchange offer; or

29

all governmental approvals which we deem necessary for the completion of the exchange offer have not been obtained.

If we determine in our reasonable discretion that any of these conditions are not satisfied, we may:

refuse to accept any existing notes and return all tendered existing notes to you;
extend the exchange offer and retain all existing notes tendered before the exchange offer expires, subject, however, to your rights to withdraw the existing notes; or
waive the unsatisfied conditions with respect to the exchange offer and accept all properly tendered existing notes that have not been withdrawn.

If the waiver constitutes a material change to the exchange offer, we will promptly disclose the waiver by means of a prospectus supplement that we will distribute to the registered holders of the existing notes.

If, however, certificates representing exchange notes or existing notes for principal amounts not tendered or accepted for exchange are to be delivered to, or are to be registered or issued in the name of, any person other than the registered holder of the existing notes tendered, or if tendered existing notes are registered in the name of any person other than the person signing the letter of transmittal, or if a transfer tax is imposed for any reason other than the exchange of existing notes pursuant to the exchange offer, then the amount of any such transfer taxes, whether imposed on the registered holder or any other persons, will be payable by the tendering holder. If satisfactory evidence of payment of such taxes or exemption therefrom is not submitted with the letter of transmittal, the amount of such transfer taxes will be billed by us directly to such tendering holder.

Consequences of Failure to Exchange

Participation in the exchange offer is voluntary. We urge you to consult your financial and tax advisors in making your decisions on what action to take. Private notes that are not exchanged for exchange notes pursuant to the exchange offer will remain restricted securities. Accordingly, those existing notes may be resold only:

in a transaction meeting the requirements of Rule 144 promulgated under the Securities Act; outside the United States to a foreign person in a transaction meeting the requirements of Rule 903 or 904 of Regulation S promulgated under the Securities Act;

in accordance with another exemption from the registration requirements of the Securities Act and based upon an opinion of counsel if we so request;

to us; or

pursuant to an effective registration statement.

In each case, the existing notes may be resold only in accordance with any applicable securities laws of any state of the United States or any other applicable jurisdiction.

DESCRIPTION OF NOTES

General

You can find the definitions of certain terms used in this description under the subheading **Certain Definitions**. In this description, the term **Icahn Enterprises** refers only to Icahn Enterprises L.P., the term **Icahn Enterprises Finance** refers only to Icahn Enterprises Finance Corp., the term **Icahn Enterprises Holdings** refers only to Icahn Enterprises Holdings L.P., and the term **Icahn Enterprises GP** refers only to Icahn Enterprises G.P. Inc. and not to any of their respective Subsidiaries. For the avoidance of doubt, Icahn Enterprises Holdings will be deemed to be a Subsidiary of Icahn Enterprises for so long as Icahn Enterprises Holdings remains a Guarantor. The term **Issuers** refers to Icahn Enterprises and Icahn Enterprises Finance, collectively.

The Issuers issued the existing notes under the indenture dated as of January 15, 2010 (the **Indenture**), among the Issuers, Icahn Enterprises Holdings, as guarantor, and Wilmington Trust Company, as trustee (the **Trustee**), pursuant to which the Issuers previously issued \$1,050,000 aggregate principal amount of the Outstanding 2016 Notes and \$1,450,000,000 aggregate principal amount of the Outstanding 2018 Notes. The terms of the exchange notes are the same as the terms of the existing notes in all material respects, except that the exchange notes: (i) have been registered under the Securities Act; (ii) bear different CUSIP numbers from the existing notes; (iii) do not include rights to registration under the Securities Act; and (iv) do not contain transfer restrictions applicable to the existing notes. The existing notes do, and the exchange notes will, constitute the same series of securities as the Outstanding 2018 Notes for purposes of the Indenture, and will vote together on all matters with such notes. The Indenture is subject to and governed by the Trust Indenture Act of 1939, as amended (the **TIA**), and the terms of the Notes will include those stated in the Indenture and those made part of the Indenture by reference to the TIA.

Except if the context otherwise expressly requires, for purposes of the covenants, events of default, redemption and other terms of the Notes described in this section:

the term **2016 Notes** refers to the Outstanding 2016 Notes and any additional 7¾% senior notes due 2016 that may be issued under the Indenture;

the term **2018 Notes** refers to the exchange notes, the existing notes, the Outstanding 2018 Notes and any additional 8% senior notes due 2018 that may be issued under the Indenture; and

the term **Notes** refers to the 2016 Notes and the 2018 Notes.

The following description is a summary of the material provisions of the Indenture. It does not restate the Indenture in its entirety. We urge you to read the Indenture because it, and not this description, defines your rights as holders of the Notes. Copies of the Indenture are available as set forth below under **Additional Information**. Certain defined terms used in this description but not defined below under **Certain Definitions** have the meanings assigned to them in the Indenture.

For the avoidance of doubt, the inclusion of exceptions to the provisions (including covenants and definitions) set forth herein will not be interpreted to imply that the matters permitted by the exception would be limited by the terms of such provisions but for such exceptions.

The registered holder of a note will be treated as the owner of it for all purposes. Only registered holders will have rights under the Indenture.

Brief Description of the Notes and the Note Guarantee

The Notes

The Notes:

are the general unsecured obligation of each of the Issuers;
are pari passu in right of payment to all existing and future senior Indebtedness of each of the Issuers;
are senior in right of payment to any future subordinated Indebtedness of each of the Issuers; and
are effectively subordinated to the secured indebtedness of the Issuers to the extent of the value of the collateral securing such Indebtedness. As of September 30, 2011, the Issuers did not have any secured Indebtedness.

The Note Guarantee

The Guarantee of the Notes:

is the general unsecured obligation of Icahn Enterprises Holdings;
is pari passu in right of payment to all existing and future senior Indebtedness of Icahn Enterprises Holdings;
is senior in right of payment to any future subordinated Indebtedness of Icahn Enterprises Holdings; and
is effectively subordinated to the secured Indebtedness of Icahn Enterprises Holdings to the extent of the value of the collateral securing such Indebtedness. As of September 30, 2011, Icahn Enterprises Holdings had \$67 million of secured Indebtedness.

The operations of Icahn Enterprises are conducted through its Subsidiaries (including Icahn Enterprises Holdings) and, therefore, Icahn Enterprises depends on the cash flow of Icahn Enterprises Subsidiaries and Icahn Enterprises Holdings to meet its obligations, including its obligations under the Notes. The Notes will not be guaranteed by any of Icahn Enterprises Subsidiaries other than Icahn Enterprises Holdings. The Notes and the guarantee will be effectively subordinated in right of payment to all Indebtedness and other liabilities and commitments (including trade payables and lease obligations) of Icahn Enterprises Subsidiaries (other than Icahn Enterprises Holdings). Any right of the Issuers or Icahn Enterprises Holdings to receive assets of any of their Subsidiaries (other than Icahn Enterprises Holdings) upon that Subsidiary's liquidation or reorganization (and the consequent right of the holders of the Notes to participate in those assets) will be effectively subordinated to the claims of that Subsidiary's creditors, except to the extent that any of the Issuers or Icahn Enterprises Holdings is itself recognized as a creditor of that Subsidiary, in which case the claims of the Issuers and Icahn Enterprises Holdings would still be subordinate in right of payment to any security in the assets of the Subsidiary and any Indebtedness of the Subsidiary senior to that held by the Issuers or Icahn Enterprises Holdings. As of September 30, 2011, Icahn Enterprises Subsidiaries (other than Icahn Enterprises Holdings) had approximately \$3.4 billion of Indebtedness and \$940 million of accounts payable outstanding. The covenants of the Notes do not restrict the ability of Icahn Enterprises Subsidiaries, other than Icahn Enterprises Holdings, from incurring additional Indebtedness or creating liens, nor do the covenants of the Notes restrict the ability of Icahn Enterprises Holdings, Icahn Enterprises or its Subsidiaries from making investments or entering into sale and leaseback transactions. See Risk Factors Risks Related to the Exchange Notes The exchange notes will be effectively subordinated to any secured indebtedness, and all the indebtedness and liabilities of our subsidiaries other than Icahn Enterprises Holdings and Risk Factors Risks Related to the Exchange Notes Our subsidiaries, other than Icahn Enterprises Holdings, will not be subject to any of the covenants in the Indenture and only Icahn Enterprises Holdings will guarantee the Exchange Notes. We may not be able to rely on the cash flow or assets of our subsidiaries to pay our indebtedness.

TABLE OF CONTENTS

Principal, Maturity and Interest

The 2016 Notes and the 2018 Notes are each a separate series of Notes under the Indenture and will not vote together as a single class under the Indenture for any reason. The Issuers may issue additional Notes (Additional Notes) of either series from time to time. Any offering of Additional Notes is subject to the covenant described under the heading Certain Covenants Incurrence of Indebtedness and Issuance of Preferred Stock. In the case of each series, the Notes and any Additional Notes subsequently issued under the Indenture will be treated as a single class for all purposes under the Indenture, including, without limitation, waivers, amendments, redemption and offers to purchase. The Issuers will issue exchange notes in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.

The 2016 Notes will mature on January 15, 2016 and the 2018 Notes will mature on January 15, 2018.

The 2016 Notes will pay interest at the rate of 7³/₄% per annum and the 2018 Notes will pay interest at the rate of 8% per annum, which, in each case will be payable semi-annually in arrears on January 15 and July 15. The Issuers will make each interest payment to the holders of record on the immediately preceding January 1 and July 1.

Interest on the Notes will accrue from July 15, 2010. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months.

Methods of Receiving Payments on the Notes

If a noteholder holds at least \$2.0 million aggregate principal amount of Notes, such holder may give wire transfer instructions to Icahn Enterprises and the Issuers will instruct the trustee to pay all principal, interest and premium and Special Interest, if any, on that holder's Notes in accordance with those instructions. All other payments on the Notes will be made at the office or agency of the paying agent and registrar unless the Issuers elect to make interest payments by check mailed to the noteholders at their address set forth in the register of holders. In addition, all payments will be subject to the applicable rules and procedures of the settlement systems (including, if applicable, those of the Euroclear System (Euroclear) and Clearstream Banking, S.A. (Clearstream)), which may change from time to time.

Paying Agent and Registrar for the Notes

The trustee will initially act as paying agent and registrar. The Issuers may change the paying agent or registrar without prior notice to the holders of the Notes, and the Issuers or any of their Subsidiaries (including Icahn Enterprises Holdings) may act as paying agent or registrar.

Transfer and Exchange

A holder may transfer or exchange Notes in accordance with the provisions of the Indenture. The registrar and the trustee may require a holder, among other things, to furnish appropriate endorsements and transfer documents in connection with a transfer of Notes. Holders will be required to pay all taxes due on transfer. The Issuers will not be required to transfer or exchange any note selected for redemption. Also, the Issuers will not be required to transfer or exchange any note for a period of 15 days before a selection of Notes to be redeemed.

Note Guarantee

The Notes will be guaranteed by Icahn Enterprises Holdings. Icahn Enterprises may, at its option, add subsidiary Guarantors to the Notes. Each Guarantor's obligations under its Note Guarantee will be limited as necessary to prevent the Note Guarantee from constituting a fraudulent conveyance under applicable law. See Risk Factors A court could void the exchange notes or the guarantee under fraudulent conveyance laws.

Any Guarantor's Note Guarantee will be released:

- (1) upon the substitution of a successor to Icahn Enterprises Holdings or other release as described under the heading Certain Covenants Merger, Consolidation or Sale of Assets ; and
- (2) upon legal defeasance or satisfaction and discharge of the Indenture as provided below under the captions Covenant Defeasance and Satisfaction and Discharge.

Mandatory Disposition Pursuant to Gaming Laws

If any Gaming Authority requires that a holder or Beneficial Owner of Notes be licensed, qualified or found suitable under any applicable Gaming Law and such holder or Beneficial Owner:

- (1) fails to apply for a license, qualification or a finding of suitability within 30 days (or such shorter period as may be required by the applicable Gaming Authority) after being requested to do so by the Gaming Authority; or
 - (2) is denied such license or qualification or not found suitable; Icahn Enterprises shall then have the right, at its option:

 - (a) to redeem the Notes of each such holder or Beneficial Owner, in accordance with Rule 14e-1 of the Exchange Act, if applicable, at a redemption price equal to the lowest of:
 - (i) the principal amount thereof, together with accrued and unpaid interest and Special Interest, if any, to the earlier of the date of redemption, the date 30 days after such holder or Beneficial Owner is required to apply for a license, qualification or finding of suitability (or such shorter period that may be required by any applicable Gaming Authority) if such holder or Beneficial Owner fails to do so (Application Date) or of the date of denial of license or qualification or of the finding of unsuitability by such Gaming Authority;

 - (iii) such other lesser amount as may be required by any Gaming Authority.
- Immediately upon a determination by a Gaming Authority that a holder or Beneficial Owner of the Notes will not be licensed, qualified or found suitable and must dispose of the Notes, the holder or Beneficial Owner will, to the extent required by applicable Gaming Laws, have no further right:

- (1) to exercise, directly or indirectly, through any trustee or nominee or any other person or entity, any right conferred by the Notes, the Note Guarantee or the Indenture; or

TABLE OF CONTENTS

Repurchase at the Option of Holders

Change of Control

If a Change of Control occurs, each holder of Notes will have the right to require the Issuers to repurchase all or any part (equal to \$2,000 or an integral multiple of \$1,000 in excess thereof) of that holder's Notes pursuant to a Change of Control offer on the terms set forth in the Indenture. In the Change of Control offer, the Issuers will offer a Change of Control payment in cash equal to 101% of the aggregate principal amount of Notes repurchased plus accrued and unpaid interest and Special Interest, if any, on the Notes repurchased, to the date of purchase. Within 30 days following any Change of Control, the Issuers will mail a notice to each holder describing the transaction or transactions that constitute the Change of Control and offering to repurchase Notes on the Change of Control payment date specified in the notice, which date will be no earlier than 30 days and no later than 60 days from the date such notice is mailed, pursuant to the procedures required by the Indenture and described in such notice.

On the Change of Control payment date, the Issuers will, to the extent lawful:

- (1) accept for payment all Notes or portions of Notes properly tendered and not withdrawn pursuant to the Change of Control offer;
- (2) deposit with the paying agent an amount equal to the Change of Control payment in respect of all Notes or portions of Notes properly tendered; and
- (3) deliver or cause to be delivered to the trustee the Notes properly accepted together with an Officers' Certificate stating the aggregate principal amount of Notes or portions of Notes being purchased by the Issuers.

The paying agent will promptly mail to each holder of Notes properly tendered the Change of Control payment for such Notes, and the trustee will promptly authenticate and mail (or cause to be transferred by book entry) to each holder a new note equal in principal amount to any unpurchased portion of the Notes surrendered, if any; provided that each new note will be in a principal amount of \$2,000 or an integral multiple of \$1,000. The Issuers will publicly announce the results of the Change of Control offer on or as soon as practicable after the Change of Control payment date.

The provisions described above that require the Issuers to make a Change of Control offer following a Change of Control will be applicable whether or not any other provisions of the Indenture are applicable. Except as described above with respect to a Change of Control, the Indenture does not contain provisions that permit the holders of the Notes to require that the Issuers repurchase or redeem the Notes in the event of a takeover, recapitalization or similar transaction.

The Issuers will not be required to make a Change of Control offer upon a Change of Control if a third party makes the Change of Control offer in the manner, at the times and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control offer made by the Issuers and purchases all Notes properly tendered and not withdrawn under the Change of Control offer.

The definition of Change of Control includes a phrase relating to the sale, lease, transfer, conveyance or other disposition by Icahn Enterprises or Icahn Enterprises Holdings of all or substantially all of its properties or assets. Although there is a limited body of case law interpreting the phrase substantially all, there is no precise established definition of the phrase under applicable law. Accordingly, the ability of a holder of Notes to require the Issuers to repurchase its Notes as a result of a sale, lease, transfer, conveyance or other disposition of less than all of the assets of Icahn Enterprises or Icahn Enterprises Holdings to another Person or group may be uncertain. In addition, under certain circumstances the definition of Change of Control excludes certain sales, leases, transfers, conveyances or

other dispositions even if they constitute all or substantially all of the properties or assets of Icahn Enterprises or Icahn Enterprises Holdings.

Incurrence of Indebtedness and Issuance of Preferred Stock

Neither Icahn Enterprises nor any Guarantor will create, incur, issue, assume, guarantee or otherwise become liable, contingently or otherwise, with respect to (collectively, "Incur") any Indebtedness (including Acquired Debt), and neither Icahn Enterprises nor any Guarantor will issue any Disqualified Stock; provided, however, that Icahn Enterprises or any Guarantor may incur Indebtedness (including Acquired Debt) or issue Disqualified Stock, if immediately after giving effect to the incurrence of additional Indebtedness (including Acquired Debt) or issuance of Disqualified Stock (including a pro forma application of the net proceeds therefrom), the ratio of the aggregate principal amount of all outstanding Indebtedness (excluding Indebtedness incurred pursuant to clauses (4), (7) and (8) of the following paragraph) of Icahn Enterprises and any Guarantor, determined on a consolidated basis between Icahn Enterprises and any Guarantor but on a non-consolidated basis with the Subsidiaries of Icahn Enterprises (other than any Guarantor) and otherwise in accordance with GAAP, (including an amount of Indebtedness equal to the principal amount of any Guarantees by Icahn Enterprises or any Guarantor of any Indebtedness of a Person (that is not Icahn Enterprises or a Subsidiary) to the extent such Guarantees were not included in computing Icahn Enterprises' or any Guarantor's outstanding Indebtedness) to the Adjusted Controlled Entity Net Worth, would have been less than 1.15 to 1.

The preceding paragraph of this covenant will not prohibit the incurrence of any of the following items of Indebtedness (collectively, "Permitted Debt"):

- (1) the incurrence by Icahn Enterprises or any Guarantor of Indebtedness represented by the Notes to be issued on the date of the Indenture and the exchange Notes to be issued pursuant to the registration rights agreement; the incurrence by Icahn Enterprises or any Guarantor of Permitted Refinancing Indebtedness in exchange for, or the net proceeds of which are used to refund, refinance or replace Indebtedness (other than intercompany

To the extent Icahn Enterprises or any Guarantor incurs any intercompany Indebtedness, (a) if Icahn Enterprises or any Guarantor is the obligor on such Indebtedness, such Indebtedness (other than intercompany Indebtedness of any Guarantor to or from Icahn Enterprises or another Guarantor) must be expressly subordinated to the prior payment in full in cash of all Obligations with respect to the Notes and (b)(i) any subsequent issuance or transfer of Equity Interests that results in any such Indebtedness being held by a Person other than Icahn Enterprises or a Subsidiary of Icahn Enterprises (including any Guarantor) and (ii) any sale or other transfer of any such Indebtedness to a Person that is not either Icahn Enterprises or a Subsidiary of Icahn Enterprises (including any Guarantor) shall be deemed, in each case, to constitute an incurrence of such Indebtedness by Icahn Enterprises or any Guarantor, that is not intercompany Indebtedness; provided that in the case of clause (a), that no restriction on the payment of principal, interest or other obligations in connection with such intercompany Indebtedness shall be required by such subordinated terms except during the occurrence and continuation of a Default or Event of Default.

For purposes of determining compliance with this covenant, in the event that an item of Indebtedness meets the criteria of more than one of the categories of Permitted Debt described in clauses (1) through (9) above or is entitled to be incurred pursuant to the first paragraph of this covenant, in each case, as of the date of incurrence thereof, Icahn Enterprises shall, in its sole discretion, classify (or later reclassify in whole or in part, in its sole discretion) such item of Indebtedness in any manner that complies with this covenant and such Indebtedness will be treated as having been incurred pursuant to such clauses or the first paragraph hereof, as the case may be, designated by Icahn Enterprises.

The accrual of interest, the accretion or amortization of original issue discount, the payment of interest or Other Liquidated Damages on any Indebtedness in the form of additional Indebtedness with the same terms, the reclassification of preferred stock as Indebtedness due to a change in accounting principles, and the payment of dividends on Disqualified Stock in the form of additional shares of the same class of Disqualified Stock will not be deemed to be an incurrence of Indebtedness or an issuance of Disqualified Stock for purposes of this covenant. Notwithstanding any other provision of this covenant, the maximum amount of Indebtedness that Icahn Enterprises or any Guarantor may incur pursuant to this covenant shall not be deemed to be exceeded solely as a result of fluctuations in exchange rates or currency values.

Reports

Whether or not required by the rules and regulations of the SEC, so long as any Notes are outstanding, the Issuers will furnish to the holders of Notes or cause the trustee to furnish to the holders of Notes, within the time periods specified in the SEC's rules and regulations:

- (1) all quarterly and annual reports that would be required to be filed with the SEC on Forms 10-Q and 10-K if the Issuers were required to file such reports; and
- (2) all current reports that would be required to be filed with the SEC on Form 8-K if the Issuers were required to file such reports.

All such reports will be prepared in all material respects in accordance with all of the rules and regulations applicable to such reports. Each annual report on Form 10-K will include a report on the Issuers' consolidated financial statements by the Issuers' certified independent accountants. In addition, the Issuers will file a copy of each of the reports referred to in clauses (1) and (2) above with the SEC for public availability within the time periods specified in the rules and regulations applicable to such reports (unless the SEC will not accept such a filing) and, if the SEC will not accept such a filing, will post the reports on its website within those time periods.

If, at any time, the Issuers are no longer subject to the periodic reporting requirements of the Exchange Act for any reason, the Issuers will nevertheless continue filing the reports specified in the preceding paragraphs of this covenant with the SEC within the time periods specified above unless the SEC will not accept such a filing. The Issuers will not take any action for the purpose of causing the SEC not to accept any such filings. If, notwithstanding the foregoing, the SEC will not accept the Issuers' filings for any reason, the Issuers will post the reports referred to in the preceding paragraphs on its website within the time periods that would apply if the Issuers were required to file those reports with the SEC.

In addition, the Issuers agree that, for so long as any Notes remain outstanding, if at any time they are not required to file with the SEC the reports required by the preceding paragraphs, they will furnish to the holders of Notes and to securities analysts and prospective investors, upon their request, the information required to be delivered pursuant to Rule 144A(d)(4) under the Securities Act.

Events of Default and Remedies

Each of the following is an Event of Default with respect to each series of Notes:

- (1) default in payment when due and payable, upon redemption or otherwise, of principal or premium, if any, on the Notes of that series;
- (2) default for 30 days or more in the payment when due of interest or Special Interest on the Notes of that series;
- (3) failure by the Issuers to call or cause to be called for redemption or to purchase or cause to be called any Notes of that series, in each case when required under the Indenture;
- (4) failure by Icahn Enterprises or any Guarantor for 30 days after written notice from the trustee to comply with the provisions described under the captions Restricted Payments or Incurrence of Indebtedness and Issuance of

Preferred Stock ;
failure by Icahn Enterprises or any Guarantor for 30 days after written notice from the trustee to comply with the
(5)provisions described under the captions Maintenance of Interest Coverage or Maintenance of Total

- default under any mortgage, indenture or instrument under which there is issued or by which there is secured or evidenced any Indebtedness for money borrowed by the Issuers or any Guarantor or default on any Guarantee (excluding any Bad-Boy Guarantee) by the Issuers or Icahn Enterprises Holdings of Indebtedness for money borrowed, whether such Indebtedness or Guarantee now exists or is created after the Issuance Date, which default

- except as permitted by the Indenture, any Note Guarantee is held in any judicial proceeding to be unenforceable or

- (10) certain events of bankruptcy or insolvency with respect to Icahn Enterprises or any Guarantor that is a Significant Subsidiary.

If any Event of Default (other than by reason of bankruptcy or insolvency) occurs and is continuing, the holders of more than 25% in principal amount of the then outstanding Notes of the applicable series may declare the principal, premium, if any, interest, Special Interest, if any, and any other monetary obligations on all the Notes of that series to be due and payable immediately. Notwithstanding the foregoing, in the case of an Event of Default arising from certain events of bankruptcy or insolvency, with respect to the Issuers or any Guarantor that is a Significant Subsidiary all outstanding Notes will become due and payable without further action or notice. Holders of the Notes may not enforce the Indenture or the Notes except as provided in the Indenture. Subject to certain limitations, holders of a majority in principal amount of the then outstanding Notes with respect to a series of Notes may direct the trustee in its exercise of any trust or power conferred on it. However, the trustee may refuse to follow any direction that conflicts with law or the Indenture that the trustee determines may be unduly prejudicial to the rights of other holders of Notes of that series or that may involve the trustee in personal liability. The trustee may withhold from holders of Notes notice of any continuing Default or Event of Default (except a Default or Event of Default relating to the payment of principal or interest) if it determines that withholding notice is in the interests of the holders of the Notes of the applicable series. In addition, the trustee shall have no obligation to accelerate the Notes with respect to a series of Notes if in the best judgment of the trustee acceleration is not in the best interest of the holders of the Notes of the applicable series.

At any time after a declaration of acceleration with respect to the Notes and subject to certain conditions, the holders of a majority in aggregate principal amount of Notes outstanding with respect to a series of Notes may rescind and cancel such acceleration and its consequences subject to the conditions set forth in the Indenture.

The holders of at least a majority in aggregate principal amount of the Notes then outstanding with respect to a series of Notes by notice to the trustee may on behalf of the holders of all of the Notes of that series waive any existing Default or Event of Default and its consequences under the Indenture except a continuing Default or Event of Default in the payment of interest on, premium, if any, or the principal of, any note.

TABLE OF CONTENTS

The Issuers will be required to deliver to the trustee annually a statement regarding compliance with the Indenture, and the Issuers will be required, within ten Business Days, upon becoming aware of any Default or Event of Default to deliver to the trustee a statement specifying such Default or Event of Default.

No Personal Liability of Directors, Officers, Employees, Incorporators and Stockholders

No director, officer, employee, incorporator, manager (or managing member) direct or indirect member, partner or stockholder of the Issuers, Icahn Enterprises Holdings, Icahn Enterprises GP or any additional Guarantor shall have any liability for any obligations of the Issuers, Icahn Enterprises Holdings, Icahn Enterprises GP or any additional Guarantor under the Notes, the Indenture, any Note Guarantee or for any claim based on, in respect of, or by reason of such obligations or its creation. Each holder of the Notes by accepting a note waives and releases all such liability. The waiver and release are part of the consideration for issuance of the Notes.

Covenant Defeasance

The Issuers may, at their option and at any time, elect to have their obligations and the obligations of any of their Subsidiaries or Icahn Enterprises Holdings released with respect to certain covenants that are described in the Indenture (Covenant Defeasance) and, thereafter, any omission to comply with such obligations shall not constitute a Default or Event of Default with respect to any series of Notes or any Note Guarantee. In the event Covenant Defeasance occurs, certain events (not including non-payment, bankruptcy, receivership, rehabilitation and insolvency events) described under Events of Default will no longer constitute an Event of Default with respect to such series of Notes.

In order to exercise Covenant Defeasance, in addition to any other requirements specified in the Indenture:

- the Issuers must irrevocably deposit, or cause to be deposited, with the trustee, in trust, for the benefit of the holders of the Notes, cash in U.S. dollars, non-callable Government Securities, or a combination thereof, in such
- (1) amounts as will be sufficient to pay the principal of, premium, if any, interest and Special Interest, if any, due on the outstanding Notes of such series on the stated maturity date or on the applicable redemption date, as the case may be, in accordance with the terms of the Indenture;
 - (2) no Default or Event of Default shall have occurred and be continuing with respect to certain Events of Default on the date of such deposit;
- such Covenant Defeasance shall not result in a breach or violation of, or constitute a default under any material
- (3) agreement or instrument (other than the Indenture) to which the Issuers or any of their Subsidiaries is a party or by which the Issuers or any of their Subsidiaries is bound;
 - (4) the Issuers shall have delivered to the trustee an opinion of counsel, which may be an opinion of in-house counsel to Icahn Enterprises or an Affiliate, containing customary assumptions and exceptions, to the effect that upon and immediately following the deposit, the trust funds will not be subject to the effect of any applicable bankruptcy, insolvency, reorganization or similar laws affecting creditors' rights generally under any applicable law;
 - (5) the Issuers shall have delivered to the trustee an Officers' Certificate stating that the deposit was not made by the Issuers with the intent of preferring the holders of Notes over other creditors of the Issuers with the intent of defeating, hindering, delaying or defrauding any creditors of Icahn Enterprises or others; and
 - (6) the Issuers shall have delivered to the trustee an Officers' Certificate and an opinion of counsel in the United States, which may be an opinion of in-house counsel to Icahn Enterprises or an Affiliate (which opinion of counsel may be subject to customary assumptions and exclusions) each stating that all conditions precedent provided for or relating

to the Covenant Defeasance have been complied with.

Satisfaction and Discharge

The Indenture will be discharged with respect to any series of Notes and will cease to be of further effect as to all Notes of such series issued thereunder, when:

- (1) either:
- (a) all Notes of such series that have been authenticated, except lost, stolen or destroyed Notes that have been replaced or paid and Notes for whose payment money has been deposited in trust and thereafter repaid to Icahn Enterprises, have been delivered to the trustee for cancellation; or
 - (b) all Notes of such series that have not been delivered to the trustee for cancellation (1) have become due and payable by reason of the mailing of a notice of redemption or otherwise, (2) will become due and payable within one year or (3) are to be called for redemption within 12 months under arrangements reasonably satisfactory to the trustee for the giving of notice of redemption by the trustee in the name, and at the reasonable expense of the Issuers, and the Issuers or any Guarantor have irrevocably deposited or caused to be deposited with the trustee as trust funds in trust solely for the benefit of the holders, cash in U.S. dollars, non-callable Government Securities, or a combination of cash in U.S. dollars and non-callable Government Securities, in amounts as will be sufficient without consideration of any reinvestment of interest, to pay and discharge the entire Indebtedness on the Notes of such series not delivered to the trustee for cancellation for principal and premium, if any, and accrued but unpaid interest to the date of maturity or redemption;
 - (2) no Default of Event of Default has occurred and is continuing on the date of the deposit or will occur as a result of the deposit and the deposit will not result in a breach or violation of, or constitute a default under, any other material instrument to which the Issuers are a party or by which the Issuers are bound;
 - (3) the Issuers have paid or caused to be paid all sums payable by it under the Indenture with respect to such series; and
 - (4) the Issuers or any Guarantor have delivered irrevocable instructions to the trustee under the Indenture to apply the deposited money toward the payment of the Notes of such series at maturity or the redemption date, as the case may be.

In addition, the Issuers must deliver an Officers Certificate and an opinion of counsel to the trustee stating that all conditions precedent to satisfaction and discharge have been satisfied.

Amendment, Supplement and Waiver

Except as provided in the next two succeeding paragraphs, the Indenture, the Notes or the Note Guarantee may be amended or supplemented with the consent of the holders of at least a majority in principal amount of the Notes then outstanding of the affected series (including consents obtained in connection with a tender offer or exchange offer for Notes), and any existing default or compliance with any provision of the Indenture, the Notes or the Note Guarantee may be waived with the consent of the holders of a majority in principal amount of the then outstanding Notes of the affected series (including consents obtained in connection with a tender offer or exchange offer for Notes) in accordance with the requirements of the Indenture.

Without the consent of each holder affected, an amendment or waiver may not (with respect to any Notes held by a nonconsenting holder of Notes):

- (1) reduce the principal amount of Notes whose holders must consent to an amendment, supplement or waiver;
- (2) reduce the principal of or change the fixed maturity of any Note or provide that any Note is redeemable at an earlier date or for a price less than provided in the Indenture;
- (3) reduce the rate of or change the time for payment of interest on any Note;

TABLE OF CONTENTS

- waive a Default or Event of Default in the payment of principal of, premium or interest on the Notes (except a
- (4) rescission of acceleration of the Notes by the holders of at least a majority in aggregate principal amount of the Notes and a waiver of the payment default that resulted from such acceleration);
 - (5) make any Note payable in money other than that stated in the Notes;
 - (6) make any change in the provisions of the Indenture relating to waivers of past Defaults or the rights of holders of Notes to receive payments of principal of or premium, if any, or interest on the Notes;
 - (7) release Icahn Enterprises Holdings or any other Guarantor from any of its obligations under its Note Guarantee or the Indenture, except in accordance with the terms of the Indenture; or
 - (8) make any change in the foregoing amendment and waiver provisions.

Notwithstanding the foregoing, without the consent of any holder of Notes, the Issuers, the Guarantors and the trustee together may amend or supplement the Indenture, any Note Guarantee or the Notes to cure any ambiguity, defect or inconsistency, to comply with the covenant relating to mergers, consolidations and sales of assets, to provide for uncertificated Notes in addition to or in place of certificated Notes, to conform the text of the Indenture, the Note Guarantees or the Notes to any provision of this Description of Notes to the extent that such provision in this Description of Notes was intended to be a verbatim recitation of a provision of the Indenture, the Note Guarantees or the Notes, which intent may be evidenced by an Officers Certificate to that effect, to provide for the assumption of the Issuers or any Guarantor's obligations to holders of the Notes and any Note Guarantee in the case of a merger, consolidation or asset sale, to make any change that would provide any additional rights or benefits to the holders of the Notes or that does not adversely affect the legal rights under the Indenture of any such holder.

Concerning the Trustee

The Indenture contains certain limitations on the rights of the trustee, should it become a creditor (other than in connection with the Indenture) of the Issuers or Icahn Enterprises Holdings, to obtain payment of claims in certain cases, or to realize on certain property received in respect of any such claim as security or otherwise. The trustee will be permitted to engage in other transactions; however, if it acquires any conflicting interest under applicable law it must eliminate such conflict within 90 days or resign, or otherwise comply with applicable law.

The holders of a majority in aggregate principal amount of the then outstanding Notes of a particular series will have the right to direct the time, method and place of conducting any proceeding for exercising any remedy available to the trustee, subject to certain exceptions. The Indenture will provide that in case an Event of Default shall occur (which shall not be cured), the trustee will be required, in the exercise of its power, to use the degree of care of a prudent person in the conduct of his own affairs. Subject to such provisions, the trustee will be under no obligation to exercise any of its rights or powers under the Indenture at the request of any holder of Notes, unless such holder shall have offered to the trustee security and indemnity satisfactory to it against any loss, liability or expense.

Governing Law

The Indenture is and the Notes will be, subject to certain exceptions, governed by and construed in accordance with the internal laws of the State of New York, without regard to the choice of law rules thereof. The issuance of the Notes and the Note Guarantee will also be subject to a certain extent to the laws of the jurisdiction of formation of Icahn Enterprises.

TABLE OF CONTENTS

Book-Entry, Delivery and Form

The exchange notes initially will be represented by one or more exchange notes in registered, global form without interest coupons (collectively, the Global Notes). The Global Notes will be deposited upon issuance with the Trustee as custodian for The Depository Trust Company (DTC), in New York, New York, and registered in the name of DTC or its nominee, in each case for credit to any account of a direct or indirect participant in DTC as described below. Except as set forth below, the exchange notes will be issued in registered, global form in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.

Except as set forth below, the Global Notes may be transferred, in whole and not in part, only to another nominee of DTC or to a successor of DTC or its nominee. Beneficial interests in the Global Notes may not be exchanged for definitive Notes in registered certificated form (Certificated Notes) except in the limited circumstances described below. See Exchange of Global Notes for Certificated Notes. Except in the limited circumstances described below, owners of beneficial interests in the Global Notes will not be entitled to receive physical delivery of Notes in certificated form.

Depository Procedures

The following description of the operations and procedures of DTC, Euroclear and Clearstream are provided solely as a matter of convenience. These operations and procedures are solely within the control of the respective settlement systems and are subject to changes by them. The Issuers take no responsibility for these operations and procedures and urge investors to contact the system or their participants directly to discuss these matters.

DTC has advised the Issuers that DTC is a limited-purpose trust company created to hold securities for its participating organizations (collectively, the Participants) and to facilitate the clearance and settlement of transactions in those securities between the Participants through electronic book-entry changes in accounts of its Participants. The Participants include securities brokers and dealers (including the initial purchaser), banks, trust companies, clearing corporations and certain other organizations. Access to DTC's system is also available to other entities such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Participant, either directly or indirectly (collectively, the Indirect Participants). Persons who are not Participants may beneficially own securities held by or on behalf of DTC only through the Participants or the Indirect Participants. The ownership interests in, and transfers of ownership interests in, each security held by or on behalf of DTC are recorded on the records of the Participants and Indirect Participants.

DTC has also advised the Issuers that, pursuant to procedures established by it:

- (1) upon deposit of the Global Notes, DTC will credit the accounts of the Participants designated by the initial purchaser with portions of the principal amount of the Global Notes; and
- (2) ownership of these interests in the Global Notes will be shown on, and the transfer of ownership of these interests will be effected only through, records maintained by DTC (with respect to the Participants) or by the Participants and the Indirect Participants (with respect to other owners of beneficial interest in the Global Notes).

Investors in the Rule 144A Global Notes who are Participants may hold their interests therein directly through DTC. Investors in the Rule 144A Global Notes who are not Participants may hold their interests therein indirectly through organizations (including Euroclear and Clearstream) which are Participants. Investors in the Regulation S Global Notes must initially hold their interests therein through Euroclear or Clearstream, if they are participants in such systems, or indirectly through organizations that are participants. After the expiration of the Restricted Period (but not earlier), investors may also hold interests in the Regulation S Global Notes through Participants in the DTC system

other than Euroclear and Clearstream. Euroclear and Clearstream will hold interests in the Regulation S Global Notes on behalf of their participants through customers' securities accounts in their respective names on the books of their respective depositories, which are Euroclear Bank S.A./N.V., as operator of Euroclear, and Citibank, N.A., as operator of Clearstream. All interests in a Global Note, including those held through Euroclear or Clearstream, may be subject to the procedures and requirements of DTC. Those interests held through Euroclear or Clearstream may also be

53

TABLE OF CONTENTS

subject to the procedures and requirements of such systems. The laws of some states require that certain Persons take physical delivery in definitive form of securities that they own. Consequently, the ability to transfer beneficial interests in a Global Note to such Persons will be limited to that extent. Because DTC can act only on behalf of the Participants, which in turn act on behalf of the Indirect Participants, the ability of a Person having beneficial interests in a Global Note to pledge such interests to Persons that do not participate in the DTC system, or otherwise take actions in respect of such interests, may be affected by the lack of a physical certificate evidencing such interests.

Except as described below, owners of interests in the Global Notes will not have Notes registered in their names, will not receive physical delivery of Notes in certificated form and will not be considered the registered owners or holders thereof under the Indenture for any purpose.

Payments in respect of the principal of, and interest and premium, if any, and Special Interest, if any, on a Global Note registered in the name of DTC or its nominee will be payable to DTC in its capacity as the registered holder under the Indenture. Under the terms of the Indenture, the Issuers and the trustee will treat the Persons in whose names the Notes, including the Global Notes, are registered as the owners of the Notes for the purpose of receiving payments and for all other purposes. Consequently, neither the Issuers, the trustee nor any agent of the Issuers or the trustee has or will have any responsibility or liability for:

- (1) any aspect of DTC's records or any Participant's or Indirect Participant's records relating to or payments made on account of beneficial ownership interest in the Global Notes or for maintaining, supervising or reviewing any of DTC's records or any Participant's or Indirect Participant's records relating to the beneficial ownership interests in the Global Notes; or
 - (2) any other matter relating to the actions and practices of DTC or any of its Participants or Indirect Participants.
- DTC has advised the Issuers that its current practice, upon receipt of any payment in respect of securities such as the Notes (including principal and interest), is to credit the accounts of the relevant Participants with the payment on the payment date unless DTC has reason to believe that it will not receive payment on such payment date. Each relevant Participant is credited with an amount proportionate to its beneficial ownership of an interest in the principal amount of the relevant security as shown on the records of DTC. Payments by the Participants and the Indirect Participants to the beneficial owners of Notes will be governed by standing instructions and customary practices and will be the responsibility of the Participants or the Indirect Participants and will not be the responsibility of DTC, the trustee or the Issuers. Neither the Issuers nor the trustee will be liable for any delay by DTC or any of the Participants or the Indirect Participants in identifying the beneficial owners of the Notes, and the Issuers and the trustee may conclusively rely on and will be protected in relying on instructions from DTC or its nominee for all purposes.

Subject to the transfer restrictions set forth under Notice to Investors, transfers between the Participants will be effected in accordance with DTC's procedures, and will be settled in same-day funds, and transfers between participants in Euroclear and Clearstream will be effected in accordance with their respective rules and operating procedures.

Subject to compliance with the transfer restrictions applicable to the Notes described herein, cross-market transfers between the Participants, on the one hand, and Euroclear or Clearstream participants, on the other hand, will be effected through DTC in accordance with DTC's rules on behalf of Euroclear or Clearstream, as the case may be, by their respective depositaries; however, such cross-market transactions will require delivery of instructions to Euroclear or Clearstream, as the case may be, by the counterparty in such system in accordance with the rules and procedures and within the established deadlines (Brussels time) of such system. Euroclear or Clearstream, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective depositary to take action to effect final settlement on its behalf by delivering or receiving interests in the relevant Global Note in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC.

Euroclear participants and Clearstream participants may not deliver instructions directly to the depositories for Euroclear or Clearstream.

TABLE OF CONTENTS

DTC has advised the Issuers that it will take any action permitted to be taken by a holder of Notes only at the direction of one or more Participants to whose account DTC has credited the interests in the Global Notes and only in respect of such portion of the aggregate principal amount of the Notes as to which such Participant or Participants has or have given such direction. However, if there is an Event of Default under the Notes, DTC reserves the right to exchange the Global Notes for legended Notes in certificated form, and to distribute such Notes to its Participants.

Although DTC, Euroclear and Clearstream have agreed to the foregoing procedures to facilitate transfers of interests in the Rule 144A Global Notes and the Regulation S Global Notes among participants in DTC, Euroclear and Clearstream, they are under no obligation to perform or to continue to perform such procedures, and may discontinue such procedures at any time. None of the Issuers, the trustee and any of their respective agents will have any responsibility for the performance by DTC, Euroclear or Clearstream or their respective participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

Exchange of Global Notes for Certificated Notes

Subject to DTC's applicable procedures, a Global Note is exchangeable for Certificated Notes if:

- DTC (a) notifies the Issuers that it is unwilling or unable to continue as depository for the Global Notes or (b) has
- (1) ceased to be a clearing agency registered under the Exchange Act and, in either case, the Issuers fail to appoint a successor depository;
 - (2) the Issuers, at their option, notify the trustee in writing that it elects to cause the issuance of the Certificated Notes;
or
 - (3) there has occurred and is continuing a Default or Event of Default with respect to the Notes.

In addition, beneficial interests in a Global Note may be exchanged for Certificated Notes upon prior written notice given to the trustee by or on behalf of DTC in accordance with the Indenture. In all cases, Certificated Notes delivered in exchange for any Global Note or beneficial interests in Global Notes will be registered in the names, and issued in any approved denominations, requested by or on behalf of the depository (in accordance with its customary procedures) and will bear the applicable restrictive legend referred to in Notice to Investors, unless that legend is not required by applicable law.

Exchange of Certificated Notes for Global Notes

Certificated Notes may not be exchanged for beneficial interests in any Global Note unless the transferor first delivers to the trustee a written certificate (in the form provided in the Indenture) to the effect that such transfer will comply with the appropriate transfer restrictions applicable to such Notes. See Notice to Investors.

Exchanges Between Regulation S Notes and Rule 144A Notes

Prior to the expiration of the Restricted Period, beneficial interests in the Regulation S Global Note may be exchanged for beneficial interests in the Rule 144A Global Note only if:

- (1) such exchange occurs in connection with a transfer of the Notes pursuant to Rule 144A; and
- (2) the transferor first delivers to the trustee a written certificate (in the form provided in the Indenture) to the effect that the Notes are being transferred to a Person:
 - (a) who the transferor reasonably believes to be a qualified institutional buyer within the meaning of Rule 144A;
 - (b)

purchasing for its own account or the account of a qualified institutional buyer in a transaction meeting the requirements of Rule 144A; and

(c) in accordance with all applicable securities laws of the states of the United States and other jurisdictions.

TABLE OF CONTENTS

Beneficial interests in a Rule 144A Global Note may be transferred to a Person who takes delivery in the form of an interest in the Regulation S Global Note, whether before or after the expiration of the Restricted Period, only if the transferor first delivers to the trustee a written certificate (in the form provided in the Indenture) to the effect that such transfer is being made in accordance with Rule 903 or 904 of Regulation S or Rule 144 of the Securities Act (if available) and that, if such transfer occurs prior to the expiration of the Restricted Period, the interest transferred will be held immediately thereafter through Euroclear or Clearstream.

Transfers involving exchanges of beneficial interests between the Regulation S Global Notes and the Rule 144A Global Notes will be effected by DTC by means of an instruction originated by the trustee through the DTC Deposit/Withdraw at Custodian (DWAC) system. Accordingly, in connection with any such transfer, appropriate adjustments will be made to reflect a decrease in the principal amount of the Regulation S Global Note and a corresponding increase in the principal amount of the Rule 144A Global Note or vice versa, as applicable. Any beneficial interest in one of the Global Notes that is transferred to a Person who takes delivery in the form of an interest in the other Global Note will, upon transfer, cease to be an interest in such Global Note and will become an interest in the other Global Note and, accordingly, will thereafter be subject to all transfer restrictions and other procedures applicable to beneficial interests in such other Global Note for so long as it remains such an interest. The policies and practices of DTC may prohibit transfers of beneficial interests in the Regulation S Global Note prior to the expiration of the Restricted Period.

Same Day Settlement and Payment

The Issuers will make payments in respect of the Notes represented by the Global Notes (including principal, premium, if any, interest and Special Interest, if any) by wire transfer of immediately available funds to the accounts specified by DTC or its nominee. The Issuers will make all payments of principal, interest and premium, if any, and Special Interest, if any, with respect to Certificated Notes by wire transfer of immediately available funds to the accounts specified by the holders of the Certificated Notes or, if no such account is specified, by mailing a check to each such holder's registered address. The Notes represented by the Global Notes are expected to trade in DTC's Same-Day Funds Settlement System, and any permitted secondary market trading activity in such Notes will, therefore, be required by DTC to be settled in immediately available funds. The Issuers expect that secondary trading in any Certificated Notes will also be settled in immediately available funds.

Because of time zone differences, the securities account of a Euroclear or Clearstream participant purchasing an interest in a Global Note from a Participant will be credited, and any such crediting will be reported to the relevant Euroclear or Clearstream participant, during the securities settlement processing day (which must be a business day for Euroclear and Clearstream) immediately following the settlement date of DTC. DTC has advised the Issuers that cash received in Euroclear or Clearstream as a result of sales of interests in a Global Note by or through a Euroclear or Clearstream participant to a Participant will be received with value on the settlement date of DTC but will be available in the relevant Euroclear or Clearstream cash account only as of the business day for Euroclear or Clearstream following DTC's settlement date.

Registration Rights; Special Interest

The following description is a summary of the material provisions of the registration rights agreement. It does not restate that agreement in its entirety. We urge you to read the proposed form of registration rights agreement in its entirety because it, and not this description, defines your registration rights as holders of these Notes. See Additional Information.

The Issuers, Icahn Enterprises Holdings and the initial purchaser will enter into the registration rights agreement on or prior to the closing of this offering. Pursuant to the registration rights agreement, the Issuers and Icahn Enterprises Holdings will agree to file with the SEC the Exchange Offer Registration Statement (as defined in the registration rights agreement) on the appropriate form under the Securities Act with respect to the exchange Notes. Upon the effectiveness of the Exchange Offer Registration Statement, the Issuers and Icahn Enterprises Holdings will offer to the holders of Transfer Restricted Securities pursuant to the Exchange Offer (as defined in the registration rights agreement) who are able to make certain representations the opportunity to exchange their Transfer Restricted Securities for exchange Notes.

TABLE OF CONTENTS

If:

- (1) the Issuers and Icahn Enterprises Holdings are not:
 - (a) required to file the Exchange Offer Registration Statement; or
 - (b) permitted to consummate the Exchange Offer because the Exchange Offer is not permitted by applicable law or SEC policy; or
 - (2) any holder of Transfer Restricted Securities notifies the Issuers prior to the 20th business day following consummation of the Exchange Offer that:
 - (a) it is prohibited by law or SEC policy from participating in the Exchange Offer; it may not resell the exchange Notes acquired by it in the Exchange Offer to the public without delivering a
 - (b) prospectus and the prospectus contained in the Exchange Offer Registration Statement is not appropriate or available for such resales; or
 - (c) it is a broker-dealer and owns Notes acquired directly from the Issuers or an Affiliate of the Issuers.
- then the Issuers and Icahn Enterprises Holdings will file with the SEC a Shelf Registration Statement (as defined in the registration rights agreement) to cover resales of the Notes by the holders of the Notes who satisfy certain conditions relating to the provision of information in connection with the Shelf Registration Statement.

For purposes of the preceding, Transfer Restricted Securities means each note until the earliest to occur of:

- (1) the date on which such note has been exchanged by a Person other than a broker-dealer for an exchange note in the Exchange Offer;
- (2) following the exchange by a broker-dealer in the Exchange Offer of a note for an exchange note, the date on which such exchange note is sold to a purchaser who receives from such broker-dealer on or prior to the date of such sale a copy of the prospectus contained in the Exchange Offer Registration Statement;
- (3) the date on which such note has been effectively registered under the Securities Act and disposed of in accordance with the Shelf Registration Statement; or
- (4) the date on which such note is distributed to the public pursuant to Rule 144 under the Securities Act.

The registration rights agreement will provide that:

- (1) the Issuers and Icahn Enterprises Holdings will file an Exchange Offer Registration Statement with the SEC on or prior to 120 days after the Issuance Date;
- (2) the Issuers and Icahn Enterprises Holdings will use all commercially reasonable efforts to have the Exchange Offer Registration Statement declared effective by the SEC on or prior to 210 days after the Issuance Date;
- (3) unless the Exchange Offer would not be permitted by applicable law or SEC policy, the Issuers and Icahn Enterprises Holdings will:
 - (a) commence the Exchange Offer; and
 - (b) use all commercially reasonable efforts to issue on or prior to 30 business days, or longer, if required by the federal securities laws, after the date on which the Exchange Offer Registration Statement was declared effective by the SEC, exchange Notes in exchange for all Notes tendered prior thereto in the Exchange Offer; and

57

TABLE OF CONTENTS

if obligated to file the Shelf Registration Statement, Icahn Enterprises will use all commercially reasonable efforts (4) to file the Shelf Registration Statement with the SEC on or prior to 30 days after such filing obligation arises and to cause the Shelf Registration to be declared effective by the SEC on or prior to 90 days after such obligation arises. If:

- (1) the Issuers and Icahn Enterprises Holdings fail to file any of the registration statements required by the registration rights agreement on or before the date specified for such filing;
 - (2) any of such registration statements is not declared effective by the SEC on or prior to the date specified for such effectiveness (the Effectiveness Target Date);
 - (3) the Issuers and Icahn Enterprises Holdings fail to consummate the Exchange Offer within 30 business days of the Effectiveness Target Date with respect to the Exchange Offer Registration Statement; or
 - (4) the Shelf Registration Statement or the Exchange Offer Registration Statement is declared effective but thereafter ceases to be effective or usable in connection with resales of Transfer Restricted Securities during the periods specified in the registration rights agreement (each such event referred to in clauses (1) through (4) above, a Registration Default),
- then the Issuers and Icahn Enterprises Holdings will pay Special Interest to each holder of Notes, with respect to the first 90-day period immediately following the occurrence of the first Registration Default in an amount equal to \$.05 per week per \$1,000 principal amount of Notes held by such holder.

The amount of the Special Interest will increase by an additional \$.05 per week per \$1,000 principal amount of Notes with respect to each subsequent 90-day period until all Registration Defaults have been cured, up to a maximum amount of Special Interest for all Registration Defaults of \$.50 per week per \$1,000 principal amount of Notes.

All accrued Special Interest will be paid by the Issuers and Icahn Enterprises Holdings on the next scheduled interest payment date to DTC or its nominee by wire transfer of immediately available funds or by federal funds check and to holders of Certificated Notes by wire transfer to the accounts specified by them or by mailing checks to their registered addresses if no such accounts have been specified.

Following the cure of all Registration Defaults, the accrual of Special Interest will cease.

Holders of Notes will be required to make certain representations to the Issuers and Icahn Enterprises Holdings (as described in the registration rights agreement) in order to participate in the Exchange Offer and will be required to deliver certain information to be used in connection with the Shelf Registration Statement and to provide comments on the Shelf Registration Statement within the time periods set forth in the registration rights agreement in order to have their Notes included in the Shelf Registration Statement and benefit from the provisions regarding Special Interest set forth above. By acquiring Transfer Restricted Securities, a holder will be deemed to have agreed to indemnify the Issuers and Icahn Enterprises Holdings against certain losses arising out of information furnished by such holder in writing for inclusion in any Shelf Registration Statement. Holders of Notes will also be required to suspend their use of the prospectus included in the Shelf Registration Statement under certain circumstances upon receipt of written notice to that effect from the Issuers.

TABLE OF CONTENTS

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES

The following general discussion summarizes the material U.S. federal income tax consequences that apply to beneficial owners of the existing notes who:

- (1) acquired the existing notes at the offering price for cash,
- (2) exchange the existing notes for exchange notes in this exchange offer, and
- (3) hold the existing notes and will hold the exchange notes as capital assets (generally, for investment) as defined in the Code.

This summary, however, does not consider state, local or foreign tax laws. In addition, it does not include all of the rules which may affect the U.S. tax treatment of your investment in the exchange notes. For example, special rules not discussed here may apply to you if you are:

A broker-dealer, a dealer in securities or a financial institution that uses the mark-to-market method of accounting for securities;

An S corporation;

A bank;

A thrift;

An insurance company;

A tax-exempt organization;

A partnership or other pass-through entity;

Subject to the alternative minimum tax provisions of the Code;

Holding the existing notes or the exchange notes as part of a hedge, straddle or other risk reduction or constructive sale transaction;

A person with a functional currency other than the U.S. dollar; or

A U.S. expatriate.

If you are a partner in a partnership which holds the exchange notes, you should consult your own tax advisor regarding special rules that may apply.

This summary is based on the Code and applicable Treasury Regulations, rulings, administrative pronouncements and decisions as of the date hereof, all of which are subject to change or differing interpretations at any time with possible retroactive effect. We have not sought and will not seek any rulings from the Internal Revenue Service, or the IRS, with respect to the statements made and the conclusions reached in this summary, and there can be no assurance that the IRS will agree with such statements and conclusions.

Each holder is urged to consult his tax advisor regarding the specific federal, state, local, and foreign income and other tax considerations of participating in this exchange offer and holding and disposing of the exchange notes.

Exchange of Existing Notes for Exchange Notes

The exchange of the existing notes for the exchange notes pursuant to this exchange offer should not be a taxable event for U.S. federal income tax purposes. Accordingly, holders participating in this exchange offer should not recognize any income, gain or loss in connection with the exchange for U.S. federal income tax purposes. In addition, immediately after the exchange, any such holder should have the same adjusted tax basis and holding period in the

exchange notes as it had in the existing notes immediately before the exchange.

TABLE OF CONTENTS

Consequences of Holding the Exchange Notes

U.S. Holders

If you are a U.S. Holder, as defined below, this section applies to you. Otherwise, please consult the section titled Non-U.S. Holders, below.

Definition of U.S. Holder

You are a U.S. Holder if you are the beneficial owner of an exchange note and you are, for U.S. federal income tax purposes:

- an individual who is a citizen or resident of the United States;
- a corporation or an entity, treated as a corporation for U.S. federal income tax purposes, created or organized under the laws of the United States or any political subdivision thereof;
- an estate the income of which is subject to U.S. federal income tax regardless of its sources; or
- a trust (i) if a court within the United States can exercise primary supervision over the administration of the trust and one or more U.S. persons has authority to control all substantial decisions of the trust, or (ii) if the trust was in existence on August 20, 1996, and treated as a domestic trust on August 19, 1996, and it has elected to continue to be treated as a U.S. person.

Taxation of Interest

Subject to the discussion below under Pre-Issuance Accrued Interest, generally, you must include the interest on the exchange notes in your gross income as ordinary income:

- when it accrues, if you use the accrual method of accounting for U.S. federal income tax purposes; or
- when you receive it, if you use the cash method of accounting for U.S. federal income tax purposes.

Pre-Issuance Accrued Interest

A portion of the purchase price of the existing notes is attributable to interest accrued for the period starting from January 15, 2012, through the date the existing notes were issued, which we refer to as pre-issuance accrued interest.

We intend to take the position that a portion of the interest received on the first interest payment date equal to the pre-issuance accrued interest will be treated as a return of the pre-issuance accrued interest and not as a payment of interest on the exchange notes. Amounts treated as a return of pre-issuance accrued interest will not be taxable when received but will reduce your adjusted tax basis in the exchange notes by a corresponding amount.

Bond Premium

You will be considered to have purchased the exchange notes at a premium equal to the excess of the purchase price for the existing notes that were exchanged for exchange notes (excluding any amount properly allocable to pre-issuance accrued interest) over the principal amount and may elect to amortize such premium as an offset to interest income, using a constant yield method, over the remaining term of the exchange notes (or if it results in a smaller amortizable premium attributable to the period of earlier call date, with reference to the amount payable on earlier call date). In addition, the election generally will apply to all taxable debt instruments held by you during or

after the taxable year for which the election is made and may not be revoked without the consent of the IRS. If you elect to amortize the premium, you will be required to reduce your tax basis in the exchange notes by the amount of the premium amortized during your holding period. If you do not elect to amortize premium, the amount of premium will be included in your tax basis in an exchange note and will decrease the gain or increase the loss otherwise recognized upon the disposition of the exchange note. Therefore, if you do not elect to amortize premium and hold an exchange note to maturity, you generally will be required to treat the premium as capital loss when the exchange note matures.

TABLE OF CONTENTS

Additional Payments

As discussed above in the sections entitled Description of Notes, Optional Redemption, and Repurchase at the Option of Holders, Change of Control, we may be required to make payments of additional amounts if we call the Notes for redemption or if we repurchase the Notes at the option of the holders upon the occurrence of a change of control. We intend to take the position that the exchange notes should not be treated as contingent payment debt instruments because of such additional payments, and this disclosure assumes that our position will be respected. This position is based in part on assumptions regarding the possibility, as of the date of issuance of the existing notes that were exchanged for exchange notes, that such additional amounts will have to be paid. Assuming such position is respected, any additional amounts paid to you pursuant to any redemption or repurchase would be taxable as described below in Sale or Other Taxable Disposition of the Exchange Notes. If the IRS successfully challenged this position, and the exchange notes were treated as contingent payment debt instruments, you could be required to accrue interest income at a rate higher than the rate that would otherwise apply and to treat as ordinary income, rather than capital gain, any gain recognized on a sale or other taxable disposition of the exchange notes.

Sale or Other Taxable Disposition of the Exchange Notes

You will generally recognize taxable gain or loss on the sale, exchange, redemption, retirement or other taxable disposition of an exchange note. The amount of your gain or loss will equal the difference between the amount you receive for the exchange note (in cash or other property, valued at fair market value), except to the extent amounts received are attributable to accrued interest on the note, and your adjusted tax basis in the exchange note. Your tax basis in the exchange note generally will equal the price you paid for the existing note that was exchanged for the exchange note decreased by any (i) amortized bond premium, (ii) principal payments previously received by you and (iii) any amounts previously allocated to pre-issuance accrued interest. Your gain or loss generally will be long-term capital gain or loss if your holding period for the exchange note is more than one year at the time of the sale, exchange, redemption, retirement or other taxable disposition, and such holding period will generally include your holding period in the existing notes. Otherwise, it will be short-term capital gain or loss. For a non-corporate U.S. Holder, the current maximum U.S. federal income tax rate applicable to long-term capital gains is generally 15%; however, the statute providing for this 15% rate is scheduled to expire on December 31, 2012, after which time, the rate applicable to long-term capital gains will increase to 20% unless legislation providing for the lower 15% rate to be extended or otherwise providing for a lower rate is enacted. There can be no assurance that the existing statute will be extended or other legislation enacted, and as a result long-term capital gain attributable to the sale of the exchange notes recognized after December 31, 2012 may be taxed at a rate greater than 15%. The ability to deduct capital losses is subject to limitations. Payments attributable to accrued interest which you have not yet included in income will be taxed as ordinary interest income.

New Legislation

Newly-enacted legislation requires certain U.S. Holders who are individuals, estates or trusts to pay an additional 3.8% tax on, among other things, interest on and capital gains from the sale or other disposition of exchange notes for taxable years beginning after December 31, 2012. You should consult your own tax advisor regarding the effect, if any, of this legislation on your ownership and disposition of the exchange notes.

Information Reporting and Backup Withholding

We will report to certain holders of the exchange notes and to the IRS the amount of any interest paid on the exchange notes in each calendar year and the amounts of tax withheld, if any, with respect to such payments. You may be subject to a backup withholding tax when you receive interest payments on an exchange note or proceeds upon the sale or other disposition of the exchange note. Certain holders (including, among others, corporations, financial institutions and certain tax-exempt organizations) generally are not subject to information reporting or backup withholding. In addition, the backup withholding tax will not apply to you if you provide to us or our paying agent your correct social security or other taxpayer identification number, or TIN, in the prescribed manner unless:

the IRS notifies us or our paying agent that the TIN you provided is incorrect;

74

TABLE OF CONTENTS

you underreport interest and dividend payments that you receive on your tax return and the IRS notifies us or our paying agent that withholding is required; or you fail, under certain circumstances, to certify under penalties of perjury that you are not subject to backup withholding.

The backup withholding tax rate is currently 28%, which rate currently is scheduled to increase to 31% for taxable years beginning on or after January 1, 2013. Any amounts withheld from a payment to you under the backup withholding rules may be credited against your U.S. federal income tax liability, and may entitle you to a refund, provided the required information is properly furnished to the IRS on a timely basis.

You should consult your tax advisor as to your qualification for exemption from backup withholding and the procedures for obtaining such exemption.

Non-U.S. Holders

The following general discussion is limited to the U.S. federal income tax consequences relevant to a Non-U.S. Holder. A Non-U.S. Holder is any beneficial owner of an exchange note if such owner is, for U.S. federal income tax purposes, a nonresident alien, or a corporation, estate, or trust that is not a U.S. Holder. If you are a U.S. Holder, this section does not apply to you.

Interest

Portfolio Interest Exemption. You generally will not be subject to U.S. federal income tax or withholding tax on interest paid or accrued on the exchange notes if:

you do not own, actually or constructively, 10% or more of our capital or profits interests;
you are not a controlled foreign corporation with respect to which we are a related person within the meaning of Section 864(d)(4) of the Code;

you are not a bank receiving interest described in Section 881(c)(3)(A) of the Code;
such interest is not effectively connected with the conduct by you of a trade or business in the United States; and
either (i) you represent that you are not a United States person for U.S. federal income tax purposes and you provide your name and address to us or our paying agent on a properly executed IRS Form W-8BEN (or a suitable substitute form) signed under penalties of perjury, or (ii) a securities clearing organization, bank, or other financial institution that holds customers' securities in the ordinary course of its business holds the exchange note on your behalf, certifies to us or our paying agent under penalties of perjury that it has received IRS Form W-8BEN (or a suitable substitute form) from you or from another qualifying financial institution intermediary, and provides a copy of the Form W-8BEN (or a suitable substitute form) to us or our paying agent.

U.S. Federal Income or Withholding Tax If Interest Is Not Portfolio Interest. If you do not claim, or do not qualify for, the benefit of the portfolio interest exemption described above, you may be subject to a 30% withholding tax on the gross amount of interest payments, unless reduced or eliminated by an applicable income tax treaty.

However, income from payments or accruals of interest that is effectively connected with the conduct by you of a trade or business in the United States will be subject to U.S. federal income tax on a net basis at a rate applicable to United States persons generally (and, if paid to corporate holders, may also be subject to a branch profits tax at a rate of 30% or lower applicable treaty rate). If payments are subject to U.S. federal income tax on a net basis in accordance with the rules described in the preceding sentence, such payments will not be subject to United States withholding tax so long as you provide us or our paying agent with a properly executed IRS Form W-8ECI (or suitable substitute

form).

Non-U.S. Holders should consult any applicable income tax treaties, which may provide for a lower rate of withholding tax, exemption from or reduction of the branch profits tax, or other rules different from those described above. Generally, in order to claim any treaty benefits you must submit a properly executed IRS Form W-8BEN (or suitable substitute form).

Reporting. We may report annually to the IRS and to you the amount of interest paid to you, and the tax withheld, if any, with respect to you.

Sale or Other Taxable Disposition of the Exchange Notes

You generally will not be subject to U.S. federal income tax or withholding tax on gain recognized on a sale, exchange, redemption, retirement, or other disposition of an exchange note unless (i) such gain is effectively connected with the conduct by you of a trade or business within the United States, or (ii) you are an individual who is present in the United States for 183 days or more in the taxable year of that disposition, and certain other conditions are met. Any gain that is effectively connected with the conduct by you of a trade or business within the United States will be subject to U.S. federal income tax on a net basis at the rates generally applicable to U.S. persons as described above.

Backup Withholding and Information Reporting

Payments From U.S. Office. If you receive payment of interest or principal directly from us or through the U.S. office of a custodian, nominee, agent or broker, you may be subject to both backup withholding and information reporting.

With respect to interest payments made on the exchange notes, however, backup withholding and information reporting will not apply if you certify, generally on IRS Form W-8BEN, or IRS Form W-8ECI (or suitable substitute form), that you are not a U.S. person in the manner described above under the heading **Non-U.S. Holders Interest**, or you otherwise establish an exemption.

Moreover, with respect to proceeds received on the sale, exchange, redemption, retirement or other disposition of an exchange note, backup withholding or information reporting generally will not apply if you properly provide, generally on IRS Form W-8BEN, or IRS Form W-8BEN (or a suitable substitute form), a statement that you are an exempt foreign person for purposes of the broker reporting rules, and other required information. If you are not subject to United States federal income or withholding tax on the sale or other disposition of an exchange note, as described above under the heading **Non-U.S. Holders-Interest Sale or Other Taxable Disposition of the Exchange Notes**, you generally will qualify as an exempt foreign person for purposes of the broker reporting rules.

Payments From Foreign Office. If payments of principal and interest are made to you outside the United States by or through the foreign office of your foreign custodian, nominee or other agent, or if you receive the proceeds of the sale of an exchange note through a foreign office of a broker, as defined in the pertinent Treasury Regulations, you generally will not be subject to backup withholding or information reporting. You will however, be subject to backup withholding and information reporting if the foreign custodian, nominee, agent or broker has actual knowledge or reason to know that you are a U.S. person. You will also be subject to information reporting, but not backup withholding, if the payment is made by a foreign office of a custodian, nominee, agent or broker that has certain relationships to the United States unless the broker has in its records documentary evidence that you are a Non-U.S. Holder and certain other conditions are met.

Refunds. Any amounts withheld from a payment to you under the backup withholding rules may be credited against your U.S. federal income tax liability and may entitle you to a refund, provided the required information is properly furnished to the IRS on a timely basis.

The information reporting requirements may apply regardless of whether withholding is required. Copies of the information returns reporting interest and withholding also may be made available to the tax authorities in the country

in which a Non-U.S. Holder is a resident under the provisions of an applicable income tax treaty or other agreement.

The preceding summary is for general information only and is not tax advice. Please consult your own tax advisor to determine the tax consequences of participating in this exchange offer and holding and disposing of the exchange notes under your particular circumstances.

Any such resale may be made directly to purchasers or to or through brokers or dealers who may receive compensation in the form of commissions or concessions from any such broker-dealer and/or the purchasers of any such exchange notes. Any broker-dealer that resells exchange notes that were received by it for its own account pursuant to the exchange offer and any broker or dealer that participates in a distribution of such exchange notes may be deemed to be an underwriter within the meaning of the Securities Act and any profit of any such resale of exchange notes and any commissions or concessions received any such persons may be deemed to be underwriting compensation under the Securities Act. The letter of transmittal states that by acknowledging that it will deliver, and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an underwriter within the meaning of the Securities Act.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Partners of
Icahn Enterprises Holdings L.P.

We have audited the accompanying consolidated balance sheets of Icahn Enterprises Holdings L.P. and Subsidiaries (the Partnership) (a Delaware limited partnership) as of December 31, 2010 and 2009, and the related consolidated statements of operations, changes in equity and comprehensive income (loss) and cash flows for each of the three years in the period ended December 31, 2010. Our audits of the basic consolidated financial statements included the financial statement schedule listed in the index appearing under Item 15 (a)(2). These financial statements and financial statement schedule are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements and financial statement schedule based on our audits. We did not audit the consolidated financial statements of Federal-Mogul Corporation, a subsidiary, whose statements reflect total assets of \$7.3 billion and \$7.1 billion as of December 31, 2010 and 2009, respectively, and total revenues of \$6.2 billion, \$5.4 billion and \$5.7 billion, for the years ended December 31, 2010 and 2009, and for the period from March 1, 2008 (date of consolidation) through December 31, 2008, of the related consolidated totals, respectively. Those statements were audited by other auditors, whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for Federal-Mogul Corporation, is based solely on the report of the other auditors.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits and the report of the other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the report of the other auditors, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Icahn Enterprises Holdings L.P. and Subsidiaries as of December 31, 2010 and 2009, and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 31, 2010 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the related financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Description of Business and Basis of Presentation

General

Icahn Enterprises Holdings L.P. (Icahn Enterprises Holdings), is a limited partnership formed in Delaware on February 17, 1987. Our sole limited partner is Icahn Enterprises L.P., or Icahn Enterprises, a Delaware master limited partnership which owns a 99% limited partner interest in us. Icahn Enterprises G.P. Inc., or Icahn Enterprises GP, our sole 1% general partner, is a Delaware corporation which is owned and controlled by Carl C. Icahn. References to we, our, or us herein include Icahn Enterprises Holdings and its subsidiaries, unless the context otherwise requires. References to Icahn Enterprises Holdings refer to Icahn Enterprises Holdings only, on an unconsolidated basis.

As of December 31, 2010, we are a diversified holding company owning subsidiaries currently engaged in the following continuing operating businesses: Investment, Automotive, Gaming, Railcar, Food Packaging, Metals, Real Estate and Home Fashion. We also report the results of Icahn Enterprises Holdings, which includes the unconsolidated results of Icahn Enterprises and Icahn Enterprises Holdings, and investment activity and expenses associated with Icahn Enterprises Holdings. Further information regarding our continuing reportable segments is contained in Note 4, Operating Units, and Note 15, Segment and Geographic Reporting.

We conduct and plan to continue to conduct our activities in such a manner as not to be deemed an investment company under the Investment Company Act of 1940, as amended (the 40 Act). Therefore, no more than 40% of our total assets will be invested in investment securities, as such term is defined in the 40 Act. In addition, we do not invest or intend to invest in securities as our primary business. We intend to structure our investments to continue to be taxed as a partnership rather than as a corporation under the applicable publicly traded partnership rules of the Internal Revenue Code, as amended (the Code).

Basis of Presentation

We have prepared the accompanying consolidated financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

The consolidated financial statements include the accounts of (i) Icahn Enterprises Holdings and (ii) the wholly and majority owned subsidiaries of Icahn Enterprises Holdings in which control can be exercised, in addition to those entities in which Icahn Enterprises Holdings has a substantive controlling, general partner interest or in which it is the primary beneficiary of a variable interest entity, as described below. Icahn Enterprises is considered to have control if it has a direct or indirect ability to make decisions about an entity s activities through voting or similar rights. All material intercompany accounts and transactions have been eliminated in consolidation. Certain reclassifications from prior year presentation have been made to conform to presentation as of and for the year ended December 31, 2010.

In accordance with U.S. GAAP, assets transferred between entities under common control are accounted for at historical cost similar to a pooling of interests, and the financial statements of previously separate companies for all periods under common control prior to the acquisition are included in our consolidated financial statements.

Change in Reporting Entity

As discussed further in Note 3, Acquisitions, on January 15, 2010, in two separate transactions, we acquired controlling interests in American Railcar Industries, Inc. (ARI) and Viskase Companies Inc. (Viskase) from affiliates of Mr. Icahn. ARI and Viskase are each considered entities under common control.

For accounting purposes, ARI s and Viskase s earnings for the period of common control up until our acquisition of the controlling interests in each of these companies on January 15, 2010 have been allocated to Icahn Enterprises GP, our general partner.

1. Description of Business and Basis of Presentation (continued)

As a result of the acquisitions of ARI and Viskase that occurred on January 15, 2010, our financial statements now include the results of ARI and Viskase effective when common control (over 50% ownership) had been achieved which for ARI was in May 1988 and for Viskase was in November 2006.

2. Summary of Significant Accounting Policies

As discussed in Note 1, Description of Business and Basis of Presentation, we operate in several diversified segments. The accounting policies related to the specific segments or industries are differentiated, as required, in the list of significant accounting policies set out below.

Principles of Consolidation

General

Our consolidated financial statements include the accounts of (i) Icahn Enterprises Holdings and (ii) the wholly and majority owned subsidiaries of Icahn Enterprises Holdings, in addition to those entities in which we have a controlling interest as a general partner interest or in which we are the primary beneficiary of a variable interest entity (VIE). In evaluating whether we have a controlling financial interest in entities in which we would consolidate, we consider the following: (1) for voting interest entities, we consolidate these entities in which we own a majority of the voting interests; (2) for VIEs that are not subject to the deferral provisions described below in the section entitled, Adoption of New Accounting Standards, we consolidate these entities in which we are considered the primary beneficiary because we (i) have the direct or indirect ability through voting rights or similar rights to make decisions about the VIE s activities that have a significant effect on its success and (ii) absorb the majority of the VIE s expected losses, receive a majority of the VIE s expected residual returns, or both (see Note 7, Investments and Related Matters, for further discussion regarding our VIEs); and (3) for limited partnership entities that are not considered VIEs, we consolidate these entities if we are the general partner of such entities and for which no substantive kick-out rights (the rights underlying the limited partners ability to dissolve the limited partnership or otherwise remove the general partners are collectively referred to as kick-out rights) or participating rights exist. All material intercompany accounts and transactions have been eliminated in consolidation.

Except for our Investment segment, for those investments in which we own 50% or less but greater than 20%, we account for such investments using the equity method, while investments in affiliates of 20% or less are accounted for under the cost method.

Investment

Although the Private Funds, as defined herein, are not investment companies within the meaning of the 40 Act, each of the consolidated Private Funds is, for purposes of U.S. GAAP, an investment company pursuant to Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Subtopic 946.10, *Financial Services Investment Companies*. The General Partners adopted FASB ASC Section 946-810-45, *Financial Services Investment Companies Consolidation Other Presentation Matters* (FASB ASC Section 946-810-45), as of January 1, 2007. FASB ASC Section 946-810-45 addresses whether the accounting principles of FASB ASC Section 946-810-45 may be applied to an entity by clarifying the definition of an investment company and whether those accounting principles may be retained by a parent company in consolidation or by an investor in the application of the equity method of accounting. Upon the adoption of FASB ASC Section 946-810-45, (i) the Offshore GP lost its ability to retain specialized accounting pursuant to FASB ASC Section 946-810-45 for either its equity method investment in Master Fund I or for its consolidation of the Offshore Fund, Master Fund II and Master Fund III, and (ii) the Onshore GP lost its ability to retain specialized accounting for its consolidation of the Onshore Fund, in each case, because both the Offshore GP and the Onshore GP do not meet the requirements for retention of specialized accounting under FASB ASC Section 946-810-45, as the Offshore GP and Onshore GP and their affiliates acquire interests for strategic operating purposes in the same companies in which their subsidiary investment companies invest.

2. Summary of Significant Accounting Policies (continued)

However, upon losing their ability to retain specialized accounting, the General Partners account for their investments held by the consolidated Private Funds in debt securities and in those equity securities with readily determinable fair values pursuant to the Investment Debt and Equity Securities Topic of the FASB ASC and classified such investments as available-for-sale securities and then elected the fair value option and reclassified such securities as trading securities. For those equity securities that did not have readily determinable fair values, the General Partners elected the fair value option. For those investments in which the General Partners would otherwise account for such investments under the equity method, the General Partners, in accordance with their accounting policy, elected the fair value option. The election of the fair value option was deemed to most accurately reflect the nature of our business relating to investments.

The special profits interest allocations and incentive allocations earned from certain consolidated entities are eliminated in consolidation; however, our allocated share of the net income from the Investment Funds (as defined in Note 4, Operating Units Investment) includes the amount of these eliminated fees and allocations. Accordingly, the consolidation of the Investment Funds has no material net effect on our earnings from the Private Funds.

Use of Estimates in Preparation of Financial Statements

The preparation of the consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the period. The more significant estimates include: (1) the valuation allowances of accounts receivable and inventory; (2) the valuation of goodwill, indefinite-lived intangible assets and long-lived assets; (3) deferred tax assets; (4) environmental liabilities; (5) fair value of derivatives; and (6) pension liabilities. Actual results may differ from the estimates and assumptions used in preparing the consolidated financial statements.

Cash and Cash Equivalents

We consider short-term investments, which are highly liquid with original maturities of three months or less at date of purchase, to be cash equivalents.

Cash Held at Consolidated Affiliated Partnerships and Restricted Cash

Cash held at consolidated affiliated partnerships primarily consists of cash and cash equivalents held by the Onshore Fund and Offshore Master Funds (as defined herein) that, although not legally restricted, is not available to fund the general liquidity needs of the Investment segment or Icahn Enterprises. Restricted cash primarily relates to cash pledged and held for margin requirements on derivative transactions as well as cash related to securities sold short, not

yet purchased. A portion of the cash at brokers is related to securities sold, not yet purchased; its use is therefore restricted until the securities are purchased. Securities sold, not yet purchased are collateralized by certain of the Investment Funds' investments in securities.

The restricted cash balance was approximately \$1.6 billion and \$2.8 billion as of December 31, 2010 and 2009, respectively.

Investments and Related Transactions Investment

Investment Transactions and Related Investment Income (Loss). Investment transactions of the Investment Funds are recorded on a trade date basis. Realized gains or losses on sales of investments are based on the first-in, first-out or the specific identification methods. Realized and unrealized gains or losses on investments are recorded in the consolidated statements of operations. Interest income and expenses are recorded on an accrual basis and dividends are recorded on the ex-dividend date. Premiums and discounts on fixed income securities are amortized using the effective yield method.

2. Summary of Significant Accounting Policies (continued)

Valuation of Investments. Securities of the Investment Funds that are listed on a securities exchange are valued at their last sales price on the primary securities exchange on which such securities are traded on such date. Securities that are not listed on any exchange but are traded over-the-counter are valued at the mean between the last bid and ask price for such security on such date. Securities and other instruments for which market quotes are not readily available are valued at fair value as determined in good faith by the applicable General Partner.

Foreign Currency Transactions. The books and records of the Private Funds are maintained in U.S. dollars. Assets and liabilities denominated in currencies other than U.S. dollars are translated into U.S. dollars at the rate of exchange in effect at the balance sheet date. Transactions during the period denominated in currencies other than U.S. dollars are translated at the rate of exchange applicable on the date of the transaction. Foreign currency translation gains and losses are recorded in the consolidated statements of operations. The Private Funds do not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in the market prices of securities. Such fluctuations are reflected in Net gain (loss) from investment activities in the consolidated statement of operations.

Fair Values of Financial Instruments. The fair values of the Investment Funds' assets and liabilities that qualify as financial instruments under applicable U.S. GAAP approximate the carrying amounts presented in the consolidated balance sheets.

Securities Sold, Not Yet Purchased. The Investment Funds may sell an investment they do not own in anticipation of a decline in the fair value of that investment. When the Investment Funds sell an investment short, they must borrow the investment sold short and deliver it to the broker-dealer through which they made the short sale. A gain, limited to the price at which the Investment Funds sold the investment short, or a loss, unlimited in amount, will be recognized upon the cover of the short sale.

Due From Brokers. Due from brokers represents cash balances with the Investment Funds' clearing brokers as well as unrestricted balances with derivative counterparties.

Due To Brokers. Due to brokers represents margin debit balances collateralized by certain of the Investment Funds' investments in securities.

Investments Other Operations

Investments in equity and debt securities are classified as either trading or available-for-sale based upon whether we intend to hold the investment for the foreseeable future. Trading securities are valued at quoted market value at each balance sheet date with the unrealized gains or losses reflected in the consolidated statements of operations.

Available-for-sale securities are carried at fair value on our balance sheet. Unrealized holding gains and losses on

available-for-sale securities are excluded from earnings and reported as a separate component of partners' equity and when sold are reclassified out of partners' equity to the consolidated statements of operations. For purposes of determining gains and losses, the cost of securities is based on specific identification.

A decline in the market value of any available-for-sale security below cost that is deemed to be other than temporary results in an impairment that is charged to earnings and the establishment of a new cost basis for the investment.

Dividend income is recorded when declared and interest income is recognized when earned.

Fair Value of Financial Instruments Other Operations

The carrying values of cash and cash equivalents, accounts receivable, accounts payable, accrued expenses, and other liabilities are deemed to be reasonable estimates of their fair values because of their short-term nature.

2. Summary of Significant Accounting Policies (continued)

The fair values of investments and securities sold, not yet purchased are based on quoted market prices for those or similar investments. See Note 7, Investments and Related Matters, and Note 8, Fair Value Measurements, for further discussion.

The fair value of our long-term debt is based on the quoted market prices for the same or similar issues or on the current rates offered to us for debt of the same remaining maturities. The carrying value and estimated fair value of our long-term debt as of December 31, 2010 are approximately \$6.5 billion and \$6.1 billion, respectively. The carrying value and estimated fair value of our long-term debt as of December 31, 2009 are approximately \$5.2 billion and \$4.8 billion, respectively.

Fair Value Option for Financial Assets and Financial Liabilities

The fair value option gives entities the option to measure eligible financial assets, financial liabilities and firm commitments at fair value (i.e., the fair value option), on an instrument-by-instrument basis, that are otherwise not permitted to be accounted for at fair value pursuant to the provisions of the FASB ASC. The election to use the fair value option is available when an entity first recognizes a financial asset or financial liability or upon entering into a firm commitment. Subsequent changes in fair value must be recorded in earnings. In estimating the fair value for financial instruments for which the fair value option has been elected, we use the valuation methodologies in accordance to where the financial instruments are classified within the fair value hierarchy as discussed in Note 8, Fair Value Measurements. Except for our Automotive, Railcar and Home Fashion segments, we apply the fair value option to our investments that would otherwise be accounted under the equity method.

Derivatives

From time to time, our subsidiaries enter into derivative contracts, including purchased and written option contracts, swap contracts, futures contracts and forward contracts entered into by our Investment and Automotive segments. U.S. GAAP requires recognition of all derivatives as either assets or liabilities in the balance sheet at their fair value. The accounting for changes in fair value depends on the intended use of the derivative and its resulting designation. For further information regarding our Investment and Automotive segments' derivative contracts, see Note 9, Financial Instruments.

Accounts Receivable, Net

An allowance for doubtful accounts is determined through analysis of the aging of accounts receivable at the date of the consolidated financial statements, assessments of collectability based on an evaluation of historic and anticipated trends, the financial condition of our customers, and an evaluation of the impact of economic conditions. Our

allowance for doubtful accounts is an estimate based on specifically identified accounts as well as general reserves based on historical experience.

Automotive, Railcar, Food Packaging, and Home Fashion Segment Inventories. Our Automotive, Railcar, Food Packaging and Home Fashion segment inventories are stated at the lower of cost or market. Cost is determined by using the first-in, first-out basis method. The cost of manufactured goods include the cost of materials, direct labor and manufacturing overhead. Our Automotive, Railcar, Food Packaging and Home Fashion segments reserve for estimated excess, slow-moving and obsolete inventory as well as inventory whose carrying value is in excess of net realizable value.

Upon our acquisition of the controlling interest in Federal-Mogul Corporation (Federal-Mogul) during fiscal 2008, our Automotive segment inventories were revalued and resulted in an increase to inventory balances. The increase to inventory resulting from our acquisition impacted cost of goods sold as the related inventory was sold. During the period March 1, 2008 through December 31, 2008, our Automotive segment recognized \$60 million as additional cost of goods sold, thereby reducing gross margin by the same amount.

Metals Inventories. Inventories at our Metals segment are stated at the lower of cost or market. Cost is determined using the average cost method. The production and accounting process utilized by the Metals segment to record recycled metals inventory quantities relies on significant estimates. Our Metals segment relies upon perpetual inventory records that utilize estimated recoveries and yields that are based upon historical trends and periodic tests for certain unprocessed metal commodities. Over time, these estimates are reasonably good indicators of what is ultimately produced; however, actual recoveries and yields can vary depending on product quality, moisture content and source of the unprocessed metal. To assist in validating the reasonableness of the estimates, our Metals segment

performs periodic physical inventories which involve the use of estimation techniques. Physical inventories may detect significant variations in volume, but because of variations in product density and production processes utilized to manufacture the product, physical inventories will not generally detect smaller variations. To help mitigate this risk, our Metals segment adjusts its physical inventories when the volume of a commodity is low and a physical inventory can more accurately estimate the remaining volume.

2. Summary of Significant Accounting Policies (continued)

Property, Plant and Equipment, Net

Land and construction-in-progress costs are stated at the lower of cost or net realizable value. Interest is capitalized on expenditures for long-term projects until a salable condition is reached. The interest capitalization rate is based on the interest rate on specific borrowings to fund the projects.

Buildings, furniture and equipment are stated at cost less accumulated depreciation unless declines in the values of the fixed assets are considered other than temporary, at which time the property is written down to net realizable value. Depreciation is principally computed using the straight-line method over the estimated useful lives of the particular property or equipment, as follows: buildings and improvements, four to 40 years; furniture, fixtures and equipment, one to 30 years. Leasehold improvements are amortized over the life of the lease or the life of the improvement, whichever is shorter.

Maintenance and repairs are charged to expense as incurred. The cost of additions and improvements is capitalized and depreciated over the remaining useful lives of the assets. The cost and accumulated depreciation of assets sold or retired are removed from our consolidated balance sheet, and any gain or loss is recognized in the year of disposal.

Real estate properties held for use or investment purposes, other than those accounted for under the financing method, are carried at cost less accumulated depreciation. Where declines in the values of the properties are determined to be other than temporary, the cost basis of the property is written down to net realizable value. A property is classified as held for sale at the time management determines that certain criteria have been met. Properties held for sale are carried at the lower of cost or net realizable value. Such properties are no longer depreciated and their results of operations are included in discontinued operations. If management determines that a property classified as held for sale no longer meets certain criteria, the property is reclassified as held for use.

Goodwill and Intangible Assets, Net

Goodwill and indefinite lived intangible assets primarily include trademarks and trade names acquired in acquisitions. For a complete discussion of the impairment of goodwill and indefinite intangible-lived assets related to our various segments, see Note 4, Operating Units, and Note 10, Goodwill and Intangible Assets, Net.

Accounting for the Impairment of Goodwill

We evaluate the carrying value of goodwill annually and between annual evaluations if events occur or circumstances change that would more likely than not reduce the fair value of the reporting unit below its carrying amount. Such circumstances could include, but are not limited to: (1) a significant adverse change in legal factors or in business

climate, (2) unanticipated competition, or (3) an adverse action or assessment by a regulator. When evaluating whether goodwill is impaired, we compare the fair value of the reporting unit to which the goodwill is assigned to the reporting unit's carrying amount, including goodwill. The fair value of the reporting unit is estimated using a combination of the income, or discounted cash flows approach and the market approach, which utilizes comparable companies' data. If the carrying amount of a reporting unit exceeds its fair value, then the amount of the impairment loss must be measured. The impairment loss would be calculated by comparing the implied fair value of reporting unit goodwill to its carrying amount. In calculating the implied fair value of reporting unit goodwill, the fair value of the reporting unit is allocated to all of the other assets and liabilities of that unit based on their fair values. The excess of the fair value of a reporting unit over the amount assigned to its other assets and liabilities is the implied fair value of goodwill. An impairment loss would be recognized when the carrying amount of goodwill exceeds its implied fair value.

2. Summary of Significant Accounting Policies (continued)

Accounting for the Impairment of Intangible Assets

We evaluate the recoverability of identifiable indefinite lived intangible assets annually or more frequently if impairment indicators exist. The impairment analysis compares the estimated fair value of these assets to the related carrying value, and impairment charge is recorded for any excess of carrying value over estimated fair value. The estimated fair value is based on consideration of various valuation methodologies, including guideline transaction multiples, multiples of earnings, and projected future cash flows discounted at rates commensurate with risk involved.

Accounting for the Impairment of Long-Lived Assets

We evaluate the realizability of our long-lived assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Inherent in the reviews of the carrying amounts of the above assets are various estimates, including the expected usage of the asset. Assets must be tested at the lowest level for which identifiable cash flows exist. Future cash flow estimates are, by their nature, subjective and actual results may differ materially from our estimates. If our ongoing estimates of future cash flows are not met, we may have to record impairment charges in future accounting periods to write the asset down to fair value. Our estimates of cash flows are based on the current regulatory, social and economic climates, recent operating information and budgets of the operating properties.

Accounting for Conditional Asset Retirement Obligations

We record conditional asset retirement obligations (CARO) in accordance with applicable U.S. GAAP. As defined in applicable U.S. GAAP, CARO refers to a legal obligation to perform an asset retirement activity in which the timing and/or method of settlement are conditional on a future event. An entity is required to recognize a liability for the estimated fair value of a CARO when incurred if the fair value can be reasonably estimated. Our Automotive segment's primary asset retirement activities relate to the removal of hazardous building materials at its facilities. Our Automotive segment records the CARO liability when the amount can be reasonably estimated, typically upon the expectation that a facility may be closed or sold.

Pension and Other Postemployment Obligations

Pension and other postemployment benefit costs are dependent upon assumptions used in calculating such costs. These assumptions include discount rates, health care cost trends, expected returns on plan assets and other factors. In accordance with U.S. GAAP, actual results that differ from the assumptions used are accumulated and amortized over future periods and, accordingly, generally affect recognized expense and the recorded obligation in future periods.

Allocation of Net Profits and Losses in Consolidated Affiliated Partnerships Investment

Net investment income and net realized and unrealized gains and losses on investments of the Investment Funds are allocated to the respective partners of the Investment Funds based on their percentage ownership in such Investment Funds on a monthly basis. Except for our limited partner interest, such allocations made to the limited partners or shareholders of the Investment Funds are represented as non-controlling interests in our consolidated statements of operations. Generally, at the end of each fiscal year (and, in the case of withdrawals made other than at the end of the fiscal year, as of such withdrawal date), the General Partners will have re-allocated to their capital accounts, amounts, generally ranging from 1.5% to 2.5% of the capital appreciation (both realized and unrealized) allocated to the Investment Funds limited partners (or lesser amounts for certain limited partners) Such reallocation is referred to as the special profits interest allocation. In addition, the General Partners may also generally be allocated amounts, ranging from 15% to 25% of the net capital appreciation (both realized and unrealized), such amounts being referred to as incentive allocations, provided, however, that an incentive allocation with respect to an Investment Fund shall not be made in any year to the extent that the special profits interest allocation relating to such Investment Fund equal or exceeds the net capital appreciation for such Investment Fund for such year. Additionally, incentive allocations are

subject to a high watermark (whereby the General Partners do not earn incentive allocations during a particular year even though the fund had a positive return in such year until losses for each investor in prior periods are recovered). See below (Revenue and Expense Recognition Investment) for discussion of fee structure for special profits interest allocations and incentive allocations effective July 1, 2009.

Partners Capital Investment

Icahn Capital and the General Partners are each organized as a limited partnership formed pursuant to the provisions of the Delaware Revised Uniform Limited Partnership Act. Limited partner interests have been granted in the General Partners to allow certain employees and individuals to participate in a share of the special profits interest allocations and/or incentive allocations earned by the General Partners

Icahn Capital and the General Partners, individually, intend to be treated as partnerships for federal income tax purposes, and as such shall maintain a capital account for each of their partners. Certain partners of the General Partners will be allocated an amount of special profits interest allocation and each partner of the General Partners will be allocated an amount of incentive allocations subject to, and as determined by, the provisions of the limited partnership agreements of each Investment Fund with each of the General Partners special profits interest allocations and incentive allocations not allocated to the limited partners per their respective agreements are generally allocated to the general partners. Other partnership profits and losses of Icahn Capital and each of the General Partners are generally allocated among the respective partners in Icahn Capital and each of the General Partners pro rata in accordance with their capital accounts.

Income allocations to all partners in each of the General Partners, except the general partner entity, are accounted for as compensation expense as more fully described in Note 13, Compensation Arrangements. All amounts allocated to these partners capital accounts and their respective capital contributions are included in accounts payable and accrued expenses and other liabilities on the consolidated balance sheets until those amounts are paid out in accordance with the terms of each respective partner's agreement. Payments made to the respective general partner are treated as equity distributions.

Accounting for the Acquisition and Disposition of Entities under Common Control

Acquisitions of entities under common control are reflected in a manner similar to pooling of interests. The general partner's capital account is charged or credited for the difference between the consideration we pay for the entity and the related entity's basis prior to our acquisition. Net gains or losses of an acquired entity prior to its acquisition date are allocated to the general partner's capital account. In allocating gains and losses upon the sale of a previously

acquired common control entity, we allocate a gain or loss for financial reporting purposes by first restoring the general partner's capital account for the cumulative charges or credits relating to prior periods recorded at the time of our acquisition and then allocating the remaining gain or loss among the general and limited partner in accordance with their respective partnership percentages under the Amended and Restated Agreement of Limited Partnership dated as of May 12, 1987, as amended from time to time (together with the partnership agreement of Icahn Enterprises, the Partnership Agreement) (i.e., 99% to the limited partner and 1% to the general partner).

General Partnership Interest of Icahn Enterprises Holdings

The general partner's capital account generally consists of its cumulative share of our net income or loss less cash distributions plus capital contributions. Additionally, in acquisitions of common control companies accounted for at historical cost similar to a pooling of interests, the general partner's capital account would be charged (or credited) in a manner similar to a distribution (or contribution) for the excess (or deficit) of the fair value of consideration paid over historical basis in the business acquired.

2. Summary of Significant Accounting Policies (continued)

Capital Accounts, as defined under the Partnership Agreement, are maintained for our general partner and our limited partner. The capital account provisions of our Partnership Agreement incorporate principles established for U.S. federal income tax purposes and are not comparable to the equity accounts reflected under U.S. GAAP in our consolidated financial statements.

Generally, net earnings for U.S. federal income tax purposes are allocated 1% and 99% between the general partner and the limited partner, respectively, in the same proportion as aggregate cash distributions made to the general partner and the limited partner during the period. This is generally consistent with the manner of allocating net income under our Partnership Agreement; however, it is not comparable to the allocation of net income reflected in our consolidated financial statements.

Pursuant to the Partnership Agreement, in the event of our dissolution, after satisfying our liabilities, our remaining assets would be divided among our limited partner and the general partner in accordance with their respective percentage interests under the Partnership Agreement (i.e., 99% to the limited partner and 1% to the general partner). If a deficit balance still remains in the general partner's capital account after all allocations are made between the partners, the general partner would not be required to make whole any such deficit.

Income Taxes

Except as described below, no provision has been made for federal, state, local or foreign income taxes on the results of operations generated by partnership activities, as such taxes are the responsibility of the partners. Provision has been made for federal, state, local or foreign income taxes on the results of operations generated by our corporate subsidiaries and these are reflected within continuing and discontinued operations. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Deferred tax assets are limited to amounts considered to be realizable in future periods. A valuation allowance is recorded against deferred tax assets if management does not believe that we have met the more likely than not standard to allow recognition of such an asset.

U.S. GAAP provides that the tax effects from an uncertain tax position can be recognized in the financial statements only if the position is more-likely-than-not to be sustained if the position were to be challenged by a taxing authority. The assessment of the tax position is based solely on the technical merits of the position, without regard to the likelihood that the tax position may be challenged. If an uncertain tax position meets the more-likely-than-not

threshold, the largest amount of tax benefit that is greater than 50 percent likely to be recognized upon ultimate settlement with the taxing authority is recorded. See Note 16, *Income Taxes*, for additional information.

Compensation Arrangements

U.S. GAAP requires public entities to record non-cash compensation expense related to payment for employee services by an equity award, such as stock options, in their financial statements over the requisite service period and value such equity awards based on fair-value methods. See Note 13, *Compensation Arrangements*, for further discussion regarding compensation arrangements of our Investment and Automotive segments.

Revenue and Expense Recognition

Investment

Revenue Recognition: The Investment segment generates income from amounts earned pursuant to contractual arrangements with the Investment Funds. Such amounts include income from (1) special profits interest allocations; (2) incentive allocations and (3) gains and losses from our interest in the Investment Funds.

Prior to July 1, 2009, incentive allocations were generally 25% of the net profits (both realized and unrealized) generated by fee-paying investors in the Investment Funds and were subject to a high watermark (whereby the General Partners do not earn incentive allocations during a particular year even though the fund had a positive return in such year until losses for each investor in prior periods are recovered). These allocations are calculated and allocated to the capital accounts of the General Partners at the end of each year except for incentive allocations earned as a result of investor redemption events during interim periods. (See below for discussion of fee structure for incentive allocations effective as of July 1, 2009).

Effective January 1, 2008, the Investment Funds limited partnership agreements provide that the applicable General Partner will receive a special profits interest allocation at the end of each calendar year from each capital account maintained in the Investment Funds that is attributable to: (i) in the case of the Onshore Fund, each fee-paying limited partner in the Onshore Fund and (ii) in the case of the Feeder Funds, each fee-paying investor in the Feeder Funds (that excludes certain investors that are affiliates of Mr. Icahn) (in each case, referred to herein as an investor). Prior to July 1, 2009, this allocation is generally equal to 0.625% of the balance in each fee-paying capital account as of the beginning of each quarter (for each investor, the Target Special Profits Interest Amount) except that amounts are allocated to the General Partners in respect of special profits interest allocations only to the extent that net increases (i.e., net profits) are allocated to an investor for the fiscal year. Accordingly, any special profits interest allocations allocated to the General Partners in respect of an investor in any year cannot exceed the net profits allocated to such investor in such year. (See below for discussion of fee structure for special profits interest allocation effective July 1, 2009.)

Beginning July 1, 2009 and through July 1, 2010, all limited partnership agreements and offering memoranda of the Private Funds (collectively referred to as the Fund Documents) were revised primarily to provide investors with various new options for investments in the Private Funds (each an Option). Each Option has certain eligibility criteria for investors and existing investors were permitted to roll over their investments made in the Private Funds prior to July 1, 2009 (Pre-Election Investments) into one or more of the new Options. For fee-paying investments, the special profits interest allocations will range from 1.5% to 2.25% per annum and the incentive allocations will range from 15% (in some cases subject to a preferred return) to 22% per annum. The new Options also have different withdrawal terms, with certain Options being permitted to withdraw capital every six months (subject to certain limitations on

aggregate withdrawals) and other Options being subject to three-year rolling lock-up periods, provided that early withdrawals are permitted at certain times with the payment to the Private Funds of a fee.

The economic and withdrawal terms of the Pre-Election Investments remain the same, which include a special profits interest allocation of 2.5% per annum, an incentive allocation of 25% per annum and a three-year lock-up period (or sooner, subject to the payment of an early withdrawal fee). Certain of the Options preserve each investor's existing high watermark with respect to its rolled over Pre-Election Investments and one of the Options established a hypothetical high watermark for new capital invested before December 31, 2010 by persons that were investors prior to July 1, 2009. If an investor did not roll over a Pre-Election Investment into another Option when it was first eligible to do so without the payment of a withdrawal fee, the Private Funds required such investor to withdraw such Pre-Election Investment.

2. Summary of Significant Accounting Policies (continued)

In the event that sufficient net profits are not generated by an Investment Fund with respect to a capital account to meet the full Target Special Profits Interest Amount for an investor for a calendar year, a special profits interest allocation will be made to the extent of such net profits, if any, and the shortfall will be carried forward (without interest or a preferred return thereon) and added to the Target Special Profits Interest Amount determined for such investor for the next calendar year. Appropriate adjustments will be made to the calculation of the special profits interest allocation for new subscriptions and withdrawals by investors. In the event that an investor redeems in full from a Feeder Fund or the Onshore Fund before the entire Target Special Profits Interest Amount determined for such investor has been allocated to the General Partner in the form of a special profits interest allocation, the Target Special Profits Interest Amount that has not yet been allocated to the General Partner will be forfeited and the General Partner will not receive it.

Each Target Special Profits Interest Amount will be deemed contributed to a separate hypothetical capital account (that is not subject to an incentive allocation or a special profits interest allocation) in the applicable Investment Fund and any gains or losses that would have been allocated on such amounts will be credited or debited, as applicable, to such hypothetical capital account. The special profits interest allocation attributable to an investor will be deemed to be made from (and thereby debited from) such hypothetical capital account and, accordingly, the aggregate amount of any special profits interest allocation attributable to such investor will also depend upon the investment returns of the Investment Funds in which such hypothetical capital account is maintained.

The General Partners waived the special profits interest allocations and incentive allocations for our interest in the Investment Funds and Mr. Icahn's direct and indirect holdings and may, in their sole discretion, modify or may elect to reduce or waive such fees with respect to any investor that is an affiliate, employee or relative of Mr. Icahn or his affiliates, or for any other investor. All of the special profits interest allocations and incentive allocations, if any, from certain consolidated entities are eliminated in consolidation; however, our share of the net income from the Investment Funds includes the amount of these eliminated allocations.

The special profits interest allocations and incentive allocations from the Onshore Fund and Offshore Master Funds, if any, are accrued on a quarterly basis and are allocated to the Onshore GP and the Offshore GP, respectively, at the end of the Onshore Fund's and each Offshore Master Funds' fiscal year (or sooner on redemptions). Such quarterly accruals may be reversed as a result of subsequent investment performance prior to the conclusion of the Onshore Fund's and Offshore Master Funds' fiscal year at December 31.

Automotive

Revenue Recognition: Federal-Mogul records sales when products are shipped and title has transferred to the customer, the sales price is fixed and determinable, and the collectability of revenue is reasonably assured. Accruals for sales returns and other allowances are provided at the time of shipment based upon past experience. Adjustments

to such returns and allowances are made as new information becomes available.

Rebates/Sales Incentives: Federal-Mogul accrues for rebates pursuant to specific arrangements with certain of its customers, primarily in the aftermarket. Rebates generally provide for price reductions based upon the achievement of specified purchase volumes and are recorded as a reduction of sales as earned by such customers.

Shipping and Handling Costs: Federal-Mogul recognizes shipping and handling costs as incurred as a component of cost of goods sold in the consolidated statements of operations.

Engineering and Tooling Costs: Pre-production tooling and engineering costs that Federal-Mogul will not own and that will be used in producing products under long-term supply arrangements are expensed as incurred unless the supply arrangement provides Federal-Mogul with the noncancelable right to use the tools, or the reimbursement of such costs is agreed to by the customer. Pre-production tooling costs that are owned by Federal-Mogul are capitalized as part of machinery and equipment, and are depreciated over the shorter of the tools' expected life or the duration of the related program.

Research and Development: Federal-Mogul expenses research and development (R&D) costs and costs associated with advertising and promotion as incurred. R&D expense, including product engineering and validation costs, was \$156 million, \$140 million and \$142 million for fiscal 2010, fiscal 2009 and the period March 1, 2008 through December 31, 2008, respectively. As a percentage of original equipment manufacturer and servicers (OE) sales, R&D expense was 4.0%, 4.7% and 4.1% for fiscal 2010, fiscal 2009 and for the period March 1, 2008 through December 31, 2008, respectively.

Restructuring: Federal-Mogul s restructuring costs are comprised of two types: employee costs (contractual termination benefits) and facility closure costs. Termination benefits are recorded when it is probable that employees will be entitled to benefits and the amounts can be reasonably estimated. Estimates of termination benefits are based on the frequency of past termination benefits, the similarity of benefits under the current plan and prior plans, and the existence of statutory required minimum benefits. Facility closure and other costs are recorded when the liability is incurred.

Gaming

Revenue Recognition and Promotional Allowances: Casino revenue represents the difference between wins and losses from gaming activities. Room, food and beverage and other operating revenues are recognized at the time the goods or services are provided. Tropicana collects taxes from customers at the point of sale on transactions subject to sales and other taxes. Revenues are recorded net of any taxes collected. The majority of our casino revenue is counted in the form of cash and chips and, therefore, is not subject to any significant or complex estimation. The retail value of rooms, food and beverage and other services provided to customers on a complimentary basis is included in gross revenues and then deducted as promotional allowances.

Railcar

Revenue recognition: Revenues from railcar sales are recognized following completion of manufacturing, inspection, customer acceptance and title transfer, which is when the risk for any damage or loss with respect to the railcars passes to the customer. Paint and lining work may be outsourced and, as a result, the sale for the railcar may be recorded after customer acceptance when it leaves the manufacturing plant and the sale for the lining work may be separately recorded following completion of that work by the contractor, customer acceptance and final shipment. Revenues from railcar leasing are recognized on a straight-line basis over the life of the lease. Revenues from railcar and industrial components are recorded at the time of product shipment, in accordance with ARI s contractual terms. Revenue for railcar maintenance services is recognized upon completion and shipment of railcars from ARI s plants. ARI does not currently bundle railcar service contracts with new railcar sales. Revenue for fleet management services is recognized as performed.

Food Packaging

Revenue Recognition: Revenues are recognized at the time products are shipped to the customer, under F.O.B shipping point or F.O.B port terms. Revenues are net of discounts, rebates and allowances. Viskase records all labor, raw materials, in-bound freight, plant receiving and purchasing, warehousing, handling and distribution costs as a component of costs of goods sold.

Metals

Revenue Recognition: PSC Metals primary source of revenue is from the sale of processed ferrous and non-ferrous scrap metals. PSC Metals also generates revenues from sales of secondary plate and pipe, the brokering of scrap metals and from services performed. All sales are recognized when title passes to the customer. Revenues from services are recognized as the service is performed. Sales adjustments related to price and weight differences are reflected as a reduction of revenues when settled.

Revenue Recognition: WPI records revenue when the following criteria are met: persuasive evidence of an arrangement exists, delivery has occurred, the price to the customer is fixed and determinable and collectability is reasonably assured. Unless otherwise agreed in writing, title and risk of loss pass from WPI to the customer when WPI delivers the merchandise to the designated point of delivery, to the designated point of destination or to the designated carrier, free on board. Provisions for certain rebates, sales incentives, product returns and discounts to customers are recorded in the same period the related revenue is recorded.

Sales Incentives: Customer incentives are provided to major WPI customers. These incentives begin to accrue when a commitment has been made to the customer and are recorded as a reduction to sales.

Real Estate

Revenue Recognition: Revenue from real estate sales and related costs are recognized at the time of closing primarily by specific identification. Substantially all of the property comprising our net lease portfolio is leased to others under long-term net leases and we account for these leases in accordance with applicable U.S. GAAP. We account for our leases as follows: (i) under the financing method, (x) minimum lease payments to be received plus the estimated value of the property at the end of the lease are considered the gross investment in the lease and (y) unearned income, representing the difference between gross investment and actual cost of the leased property, is amortized to income over the lease term so as to produce a constant periodic rate of return on the net investment in the lease; and (ii) under the operating method, revenue is recognized as rentals become due, and expenses (including depreciation) are charged to operations as incurred.

Environmental Liabilities

We recognize environmental liabilities when a loss is probable and reasonably estimable. Such accruals are estimated based on currently available information, existing technology and enacted laws and regulations. Such estimates are based primarily upon the estimated cost of investigation and remediation required and the likelihood that other potentially responsible parties will be able to fulfill their commitments at the sites where we may be jointly and severally liable with such parties. We regularly evaluate and revise estimates for environmental obligations based on expenditures against established reserves and the availability of additional information.

Foreign Currency Translation

Exchange adjustments related to international currency transactions and translation adjustments for international

subsidiaries whose functional currency is the U.S. dollar (principally those located in highly inflationary economies) are reflected in the consolidated statements of operations. Translation adjustments of international subsidiaries for which the local currency is the functional currency are reflected in the consolidated balance sheets as a component of accumulated other comprehensive income. Deferred taxes are not provided on translation adjustments as the earnings of the subsidiaries are considered to be permanently reinvested.

Adoption of New Accounting Standards

In December 2009, the FASB issued amended standards for determining whether to consolidate a VIE. This new standard affects all entities currently within the scope of the Consolidation Topic of the FASB ASC, as well as qualifying special-purpose entities that are currently excluded from the scope of the Consolidation Topic of the FASB ASC. This new standard amends the evaluation criteria to identify the primary beneficiary of the VIE and requires ongoing reassessment of whether an enterprise is the primary beneficiary of such VIEs. This new standard is effective as of the beginning of the first fiscal year beginning after November 15, 2009. The adoption of this new standard did not have a material impact on our financial condition, results of operations and cash flows. As discussed below, we determined that certain entities within our Investment segment met the deferral criteria and we will therefore be deferring the application of this new guidance for these entities.

2. Summary of Significant Accounting Policies (continued)

In February 2010, the FASB issued new guidance which amends the consolidation requirement discussed above. This amendment defers consolidation requirements for a reporting entity's interest in an entity if the reporting entity (1) has all the attributes of an investment company or (2) represents an entity for which it is industry practice to apply measurement principles for financial reporting purposes that are consistent with those followed by investment companies. The deferral does not apply in situations in which a reporting entity has the explicit or implicit obligation to fund losses of an entity that could be potentially significant to the entity. The deferral also does not apply to interests in securitization entities, asset-backed financing entities or entities formerly considered special-purpose entities. An entity that qualifies for the deferral will continue to be assessed under the overall guidance on the consolidation of VIEs or other applicable consolidation guidance, such as the consolidation of partnerships. Entities are required, however, to provide disclosures for all VIEs in which they hold a variable interest. This includes variable interests in entities that qualify for the deferral but are considered VIEs under the prior accounting provisions. This new guidance is effective as of the beginning of a reporting entity's first annual period that begins after November 15, 2009, and for interim periods within that first annual reporting period. We determined that certain entities within our Investment segment met the deferral provisions of this new guidance. Accordingly, these entities within our Investment segment will continue to be subject to the overall guidance on the consolidation of VIEs prior to the new standard described above or other applicable consolidation guidance, such as the consolidation of partnerships. See Note 7, Investments and Related Matters—Investments in Variable Interest Entities, for further discussion.

In January 2010, the FASB issued new guidance on supplemental fair value disclosures. The new disclosures require (1) a gross presentation of activities within the Level 3 roll forward reconciliation, which will replace the net presentation format and (2) detailed disclosures about the transfers between Level 1 and Level 2 measurements. Additionally, the new guidance provides several clarifications regarding the level of disaggregation and disclosures about inputs and valuation techniques. This new guidance is effective for the first interim or annual reporting period beginning after December 15, 2009, except for the gross presentation of the Level 3 roll forward, which is required for annual reporting periods beginning after December 15, 2010 and for interim reporting periods within those years. Early application is permitted and comparative disclosures are not required in the period of initial adoption. We have adopted the provisions of this new guidance effective January 1, 2010. The adoption of this new standard did not have any impact on our financial condition, results of operations and cash flows. See Note 7, Fair Value Measurements, for additional information.

In April 2010, the FASB issued new guidance regarding the accounting for casino base jackpot liabilities. The guidance clarifies that an entity should not accrue jackpot liabilities (or portions thereof) before a jackpot is won if the entity can avoid paying the jackpot, but jackpot liabilities should be accrued and charged to revenue when an entity has the obligation to pay the jackpot. The guidance applies to both base and progressive jackpots. The effect of the guidance should be recorded as a cumulative-effect adjustment to opening partners' equity in the period of adoption. The guidance is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2010. Early application is permitted. The adoption did not have a material impact on our financial

condition, results of operations and cash flows.

Recently Issued Accounting Standards

In March 2010, the FASB issued new guidance on the accounting for credit derivatives that are embedded in beneficial interests in securitized financial assets. The new guidance eliminates the scope exception of certain credit derivative features embedded in beneficial interests in securitized financial assets that are currently not accounted for as derivatives within the Derivatives and Hedging Topic of the FASB ASC. As a result, bifurcation and separate recognition may be required for certain beneficial interests that are not currently accounted for at fair value through earnings. This new guidance is effective for each reporting entity at the beginning of its first fiscal quarter beginning after June 15, 2010. Early adoption is permitted at

each entity's first fiscal quarter beginning after issuance. The adoption of this new standard did not have a material impact on our financial condition, results of operations and cash flows.

Acquisition of Controlling Interest in American Railcar Industries, Inc.

On January 15, 2010, pursuant to a Contribution and Exchange Agreement (the ARI Contribution and Exchange Agreement) among Icahn Enterprises, Beckton Corp., a Delaware corporation (Beckton), Barberry Corp., a Delaware Corporation (Barberry), Modal LLC, a Delaware limited liability company (Modal), and Caboose Holding LLC, a Delaware limited liability company (Caboose) and, together with Beckton, Barberry and Modal, collectively, the ARI Contributing Parties), the ARI Contributing Parties contributed to Icahn Enterprises 11,564,145 shares of common stock of ARI, representing approximately 54.3% of ARI's total outstanding common stock as of January 15, 2010, collectively owned by the ARI Contributing Parties for aggregate consideration consisting of 3,116,537 of Icahn Enterprises' depositary units (or approximately \$141 million based on the closing price of Icahn Enterprises' depositary units on January 15, 2010) subject to certain post-closing adjustments. On August 10, 2010, Icahn Enterprises issued 973,498 additional shares of its depositary units to the ARI Contributing Parties based on a post-closing adjustment formula that measures the amount that the six-month volume-weighted average price of ARI's common stock has exceeded or is less than certain price targets (subject to a ceiling) following the closing date. The value of these additional depositary units was \$37 million (based on the closing price of Icahn Enterprises' depositary units on August 10, 2010) and, when combined with those depositary units issued on January 15, 2010, the total value of the ARI acquisition approximated \$178 million.

ARI is a leading North American designer and manufacturer of hopper and tank railcars. ARI also repairs and refurbishes railcars, provides fleet management services and designs and manufactures certain railcar and industrial components. The transactions contemplated by the ARI Contribution and Exchange Agreement were authorized by the Audit Committee of the board of directors of Icahn Enterprises GP on January 11, 2010. The Audit Committee was advised by independent counsel and an independent financial advisor which rendered a fairness opinion.

Acquisition of Controlling Interest in Viskase Companies, Inc.

Viskase is a leading worldwide producer of non-edible cellulosic, fibrous and plastic casings used to prepare and package processed meat and poultry products. The transactions contemplated by the Viskase Contribution and Exchange Agreement were authorized by

Acquisition of Controlling Interest in Tropicana Entertainment Inc.

Acquisition History

On March 8, 2010, (the Effective Date), Tropicana Entertainment Inc. (Tropicana) completed the acquisition of certain assets of its predecessor, Tropicana Entertainment, LLC, and certain subsidiaries and affiliates thereof (together, the Predecessors) and Tropicana Resort and Casino-Atlantic City (Tropicana AC). Such transactions, referred to as the Restructuring Transactions, were effected pursuant to the Joint Plan of Reorganization of Tropicana Entertainment, LLC (Tropicana LLC) and Certain of Its Debtor Affiliates Under Chapter 11 of the Bankruptcy Code, filed with the United States Bankruptcy Court for the District of Delaware on January 8, 2009, as amended (the Plan). Prior to the Restructuring Transactions, Icahn Partners LP (Icahn Partners), Icahn Partners Master Fund LP (Master Fund I), Icahn Partners Master Fund II LP (Master Fund II), Icahn Partners Master Fund III LP (Master Fund III), each an indirectly held subsidiary of ours, held positions in certain debt securities and instruments in the Predecessors. As a result of the Restructuring Transactions pursuant to the Plan, Icahn Partners, Master Fund I, Master Fund II and Master Fund III received a combined amount of 11,880,021 shares of Tropicana common stock.

In addition, in connection with Tropicana's completion of the Restructuring Transactions, Tropicana entered into a credit agreement, dated as of December 29, 2009 (the Exit Facility). Each of Icahn Partners, Master Fund I, Master Fund II and Master Fund III is a lender under the Exit Facility and in the aggregate, hold over 50% of the loans under the Exit Facility. Furthermore, Icahn Agency Services LLC, one of our indirect subsidiaries, is the administrative agent under the Exit Facility. Pursuant to the terms of the Exit Facility, the lenders, including Icahn Partners, Master Fund I, Master Fund II and Master Fund III, were issued warrants to purchase shares of Tropicana common stock (the Warrants). On March 9, 2010, Icahn Partners, Master Fund I, Master Fund II and Master Fund III exercised their Warrants in their entirety and received an additional combined amount of 784,158 shares of Tropicana common stock.

On November 15, 2010, the Investment Funds acquired an additional 668,000 shares of Tropicana common stock for cash consideration of \$9 million. As a result of this purchase, the Investment Funds hold, in the aggregate, 13,538,446 shares of Tropicana common stock, representing approximately 51.5% of the outstanding shares of Tropicana

common stock. The additional purchase of shares of Tropicana common stock requires us to consolidate Tropicana's financial results effective November 15, 2010, which now comprises our Gaming segment.

See Note 4, Operating Units - Gaming, for a business description of Tropicana.

Investment in Tropicana

In accordance with ASC Topic 805, *Business Combinations*, the application of purchase accounting requires that the total purchase price be allocated to the fair value of assets acquired and liabilities assumed based on their fair values at the acquisition date, with amounts exceeding the fair values recorded as goodwill. If the fair value of the assets acquired and liabilities assumed exceeds the fair value of the consideration given, a bargain purchase has occurred which is recorded as a gain on acquisition. The allocation process requires, among other things, an analysis of acquired fixed assets, contracts, and contingencies to identify and

record the fair value of all assets acquired and liabilities assumed. In allocating the purchase price to the fair value of the assets acquired and liabilities assumed, we utilized, in part, a third-party appraiser to assist us in assessing the fair values of certain components of the assets acquired and liabilities assumed.

Estimates of fair value are based on industry data and trends and by reference to relevant market rates and transactions, and discounted cash flow valuation methods, among other factors. The foregoing estimates and assumptions are inherently subject to significant uncertainties and contingencies beyond our reasonable control. The preliminary allocation of the fair value of the assets acquired is subject to additional adjustment to provide us with adequate time to complete the valuation of Tropicana's assets and liabilities.

The fair value of our equity interest in Tropicana was \$251 million prior to the 668,000 shares purchased on November 15, 2010. As a result of remeasuring our equity interest to fair value, we recognized a gain of \$74 million which is included in net gain from investment activities in our consolidated statements of operations.

The following table summarizes the fair value of the assets acquired and liabilities assumed, as well as the fair value of the non-controlling interest in Tropicana as of November 15, 2010:

	Fair Value at November 15, 2010 (in millions)

Fair value of non-controlling interests was based on the fair value of Tropicana's equity multiplied by 48.55%, the portion owned by the non-controlling interests, less a discount of 5% attributed to the lack of control and (1) marketability due to the fact that non-controlling interests are held by public shareholders who do not have the ability to directly affect the cash flows of Tropicana. The 5% discount was based on the average trading price of all United States closed-end funds compared to their net asset values as of November 15, 2010 (date of acquisition).

(referred to herein as the Offshore Fund), (ii) Icahn Fund II Ltd. and (iii) Icahn Fund III Ltd. The Offshore GP also acts as general partner of a fund formed as a Cayman Islands exempted limited partnership that invests in the Offshore Master Funds. This fund, together with other funds that also invest in the Offshore Master Funds, constitute the Feeder Funds and, together with the Investment Funds, are referred to herein as the Private Funds.

Effective January 1, 2008, in addition to providing investment advisory services to the Private Funds, the General Partners provide or cause their affiliates to provide certain administrative and back office services to the Private Funds that had been previously provided by Icahn Capital Management LP (collectively, the Services) and, in consideration of providing the Services, the General Partners will receive special profits interest allocations, ranging from 1.5% to 2.5% per annum, from fee-paying investors of the Investment Funds. The General Partners may also receive incentive allocations, ranging from 15% to 25% per annum of the net profits generated by fee-paying investors in the Investment Funds, subject to a high water mark (whereby the General Partners do not earn incentive allocations during a particular year even though the fund had a positive return in such year until losses for each investor in prior periods have been recovered). The General Partners do not provide such Services to any other entities, individuals or accounts. Interests in the Private Funds are offered only to certain sophisticated and qualified investors on the basis of exemptions from the registration requirements of the federal securities laws and are not publicly available. (See Note 2, Summary of Significant Accounting Policies Revenue and Expense Recognition Investment for further discussion of special profits interest allocations and incentive allocations).

Our Investment segment's revenues are affected by the combination of fee-paying assets under management (AUM) and the investment performance of the Private Funds. The General Partners' incentive allocations and special profits interest allocations earned from the Investment Funds are accrued on a quarterly basis and are allocated to the General Partners at the end of the Investment Funds' fiscal year (or sooner on redemptions) assuming there are sufficient net profits to cover such amounts. Such quarterly accruals may be reversed as a result of subsequent investment performance prior to the date of such allocation. Effective July 1, 2009, certain Options provide for incentive allocations to be allocated less frequently than the end of each fiscal year, in which case, quarterly accruals may be reversed as prior to the date of allocation.

Our interest in the Investment Funds, including earned incentive allocations and special profits interest allocation from prior periods that were retained in the Investment Funds, was \$2.6 billion and \$2.0 billion as of December 31, 2010 and 2009, respectively, for which no special profits interest allocation or incentive allocations are applicable. These investments and related earnings are reflected in the consolidated Private Funds' net assets and earnings.

As of December 31, 2010, the full Target Special Profits Interest Amount was \$45 million, which includes a Target Special Profits Interest Amount of \$43 million for fiscal 2010 and a hypothetical return of

\$5 million on the full Target Special Profits Interest Amount from the Investment Funds, offset in part by forfeited Special Profits Interest Amount of \$3 million due to redemptions. The full Target Special Profits Interest Amount of \$45 million at December 31, 2010 was allocated to the General Partners at December 31, 2010. This compares to a full Target Special Profits Interest Amount of \$154 million as of December 31, 2009, which included a carry-forward Target Special Profits Interest Amount of \$70 million from December 31, 2008, a Target Special Profits Interest Amount of \$54 million for fiscal 2009 and a hypothetical return on the full Target Special Profits Interest Amount from the Investment Funds of \$30 million. The full Target Special Profits Interest Amount of \$154 million at December 31, 2009 was allocated to the General Partners at December 31, 2009.

Incentive allocations were \$5 million for fiscal 2010. Incentive allocations were not material for fiscal 2009 as a result of high watermarks that were established for fee-paying investors during fiscal 2008. We did not have any incentive allocations for fiscal 2008. Incentive allocations are calculated on an investor-by-investor basis. (The General Partners do not earn incentive allocations during a particular period even though the Investment Funds may have a positive return in such period until losses for an investor in prior periods have been recovered.) The General Partners' incentive allocations earned from the Investment Funds are accrued on a quarterly basis and are allocated to the General Partners at the end of the Investment Funds' fiscal year (or sooner on redemptions), provided that, effective July 1, 2009, certain new options do not provide for incentive allocations at the end of each fiscal year.

Financial Reform

In July 2010, the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Reform Act) was enacted into law. The Reform Act would require (based on how we currently conduct the business of our Investment segment) one or more entities within our Investment segment to be registered with the SEC by July 2011 as an investment adviser under the Investment Advisers Act of 1940, and would impose certain reporting and other requirements on such registered entity or entities. We will not be required to register with the SEC as a result of the return of fee-paying capital, as further described in Note 20, Subsequent Events. The Reform Act requires additional rulemaking by the SEC which could impact such entities or other affiliated entities. We cannot predict the effect on us of such rulemaking at this time.

b. Automotive

We conduct our Automotive segment through our majority ownership in Federal-Mogul. Federal-Mogul is a leading global supplier of technology and innovation in vehicle and industrial products for fuel economy, alternative energies, environment and safety systems. Federal-Mogul serves the world's foremost original equipment manufacturers and servicers (OE) of automotive, light, medium and heavy-duty commercial vehicles, off-road, agricultural, marine, rail, aerospace, power generation and industrial equipment, as well as the worldwide aftermarket.

Federal-Mogul believes that its sales are well-balanced between OE and aftermarket, as well as domestic and international markets. Federal-Mogul's customers include the world's largest light and commercial vehicle OEs and major distributors and retailers in the independent aftermarket. Federal-Mogul has operations in established markets including Canada, France, Germany, Italy, Japan, Spain, Sweden, the United Kingdom and the United States, and emerging markets including Argentina, Brazil, China, Czech Republic, Hungary, India, Korea, Mexico, Poland, Russia, South Africa, Thailand, Turkey and Venezuela. The attendant risks of Federal-Mogul's international operations are primarily related to currency fluctuations, changes in local economic and political conditions and changes in laws and regulations.

Accounts Receivable, net

Federal-Mogul's subsidiaries in Brazil, France, Germany, Italy, Japan and Spain are each a party to accounts receivable factoring and securitization facilities. Gross accounts receivable transferred under these facilities were \$211 million and \$217 million as of December 31, 2010 and 2009, respectively. Of those gross

amounts, \$210 million and \$190 million, respectively, qualify as sales as defined in ASC Topic 860, *Transfers and Servicing*. The remaining transferred receivables were transferred with recourse, pledged as collateral and accounted for as secured borrowings and recorded in our consolidated balance sheets as accounts receivable and the related debt shown separately. Under the terms of these factoring arrangements, Federal-Mogul is not obligated to draw cash immediately upon the factoring of accounts receivable. Federal-Mogul had outstanding transferred amounts of \$1 million and \$4 million for which cash had not yet been drawn as of December 31, 2010 and 2009, respectively. Proceeds from the factoring of accounts receivable that qualify as sales were \$1.3 billion for each of fiscal 2010 and fiscal 2009 and for the period March 1, 2008 through December 31, 2008. Certain of the facilities contain terms that require Federal-Mogul to share in the credit risk of the sold receivables. Federal-Mogul's maximum potential risk of loss from the sale of receivables was \$32 million as of December 31, 2010. Based on Federal-Mogul's analysis of the creditworthiness of its customers on which such receivables were sold and outstanding as of December 31, 2010, Federal-Mogul estimated the loss to be immaterial.

Restructuring

Federal-Mogul's restructuring charges are comprised of two types: employee costs (principally termination benefits) and facility closure costs. Termination benefits are accounted for in accordance with FASB ASC Topic 712, *Compensation - Nonretirement Post-employment Benefits*, and are recorded when it is probable that employees will be entitled to benefits and the amounts can be reasonably estimated. Estimates of termination benefits are based on the frequency of past termination benefits, the similarity of benefits under the current plan and prior plans, and the existence of statutory required minimum benefits. Facility closure and other costs are accounted for in accordance with FASB ASC Topic 420, *Exit or Disposal Cost Obligation*, and are recorded when the liability is incurred.

Estimates of restructuring charges are based on information available at the time such charges are recorded. In certain countries where Federal-Mogul operates, statutory requirements include involuntary termination benefits that extend several years into the future. Accordingly, severance payments continue well past the date of termination at many international locations. Thus, restructuring programs appear to be ongoing when, in fact, terminations and other activities have been substantially completed. Federal-Mogul expects that future savings resulting from execution of its restructuring programs will generally result in full pay-back within 36 months.

Federal-Mogul expects to finance its restructuring programs through cash generated from its ongoing operations or through cash available under its existing credit facility, subject to the terms of applicable covenants. Federal-Mogul does not expect that the execution of such programs will have an adverse impact on its liquidity position.

Federal-Mogul's restructuring activities are undertaken as necessary to execute its strategy and streamline operations, consolidate and take advantage of available capacity and resources, and ultimately achieve net cost reductions. Restructuring activities include efforts to integrate and rationalize Federal-Mogul's businesses and to relocate

manufacturing operations to best cost markets. These activities generally fall into one of the following categories:

1. Closure of Facilities and Relocation of Production in connection with Federal-Mogul's strategy, certain operations have been closed and related production relocated to best cost countries or to other locations with available capacity.
2. Consolidation of Administrative Functions and Standardization of Manufacturing Processes as part of its productivity strategy, Federal-Mogul has acted to consolidate its administrative functions to reduce selling, general and administrative costs and change its manufacturing processes to improve operating efficiencies through standardization of processes.

4. Operating Units (continued)

An unprecedented downturn in the global automotive industry and global financial markets led Federal-Mogul to announce, in September and December 2008, certain restructuring actions, herein referred to as Restructuring 2009, designed to improve operating performance and respond to increasingly challenging conditions in the global automotive market. Federal-Mogul's global workforce of 42,700 employees as of December 31, 2010 is approximately 4,300 less than the workforce as of September 30, 2008 due to Restructuring 2009 actions, partially offset by subsequent rehiring of employees as production volumes increased during fiscal 2010. For fiscal 2009 and fiscal 2008, Federal-Mogul recorded \$31 million and accrued \$127 million, respectively, in net restructuring charges associated with Restructuring 2009. There was no net change in net restructuring charges associated with Restructuring 2009 during fiscal 2010. Federal-Mogul expects to incur additional restructuring charges of up to \$2 million through fiscal 2011, of which \$1 million is expected to be employee costs and \$1 million is expected to be facility closure costs. Total cumulative restructuring charges related to Restructuring 2009 through December 31, 2010 were \$158 million.

As of December 31, 2009, the accrued liability balance relating to all restructuring programs was \$55 million. For fiscal 2010, fiscal 2009 and fiscal 2008 Federal-Mogul incurred \$8 million, \$32 million and \$132 million, respectively, of net restructuring charges related to all restructuring plans, respectively. The net restructuring expenses for fiscal 2010 of \$8 million, all of which were related to restructuring activities outside of Restructuring 2009, was comprised of \$7 million in employee costs and \$1 million in facility closure costs. During fiscal 2010, Federal-Mogul paid \$26 million of restructuring charges. As of December 31, 2010, the accrued liability balance was \$32 million, including \$4 million of foreign currency adjustments, and is included in accrued expenses and other liabilities in our consolidated balance sheets.

Due to the inherent uncertainty involved in estimating restructuring expenses, actual amounts paid for such activities may differ from amounts initially estimated. Accordingly, previously recorded accruals for all restructuring programs of \$8 million, \$47 million and \$3 million were reversed for fiscal 2010, fiscal 2009 and for the period March 1, 2008 through December 31, 2008, respectively. Such reversals result from: changes in estimated amounts to accomplish previously planned activities; changes in expected outcome (based on historical practice) of negotiations with labor unions, which reduced the level of originally committed actions; implemented government employment programs, which lowered the expected cost and changes in approach to accomplish restructuring activities.

Currency Matters

Federal-Mogul has operated an aftermarket distribution center in Venezuela for several years, supplying imported replacement automotive parts to the local independent aftermarket. Since 2005, two exchange rates have existed in Venezuela: the official rate, which has been frozen since 2005 at 2.15 bolivars per U.S. dollar; and the parallel rate, which floats at a rate much higher than the official rate. Given the existence of the two rates in Venezuela, Federal-Mogul deemed the official rate was appropriate for the purpose of conversion into U.S. dollars at December 31, 2009 based on no positive intent to repatriate cash at the parallel rate and demonstrated ability to repatriate cash at

the official rate.

Near the latter part of fiscal 2009, the three-year cumulative inflation rate for Venezuela was above 100%, which required the Venezuelan operation to report its results as though the U.S. dollar is its functional currency in accordance with FASB ASC Topic 830, *Foreign Currency Matters*, commencing January 1, 2010 (inflationary accounting). The impact of this transition to a U.S. dollar functional currency is that any change in the U.S. dollar value of bolivar denominated monetary assets and liabilities must be recognized directly in earnings.

On January 8, 2010, the Venezuelan government devalued its currency. All of Federal-Mogul's Venezuelan balances are translated at 4.3 bolivars per U.S. dollar at December 31, 2010. During fiscal 2010, Federal-Mogul recorded \$25 million in foreign currency exchange expense due to this currency devaluation.

4. Operating Units (continued)

As of December 31, 2010, Federal-Mogul had \$12 million in cash remaining in Venezuela that is expected to be used to pay intercompany balances for the purchase of product and to pay dividends, subject to local government restrictions.

Impairment

Federal-Mogul recorded \$7 million, \$20 million and \$18 million in impairment charges for fiscal 2010, fiscal 2009 and for the period March 1, 2008 through December 31, 2008, respectively, related to certain of its equipment where the assessment of future undiscounted cash flows of such equipment, when compared to the current carrying value of the equipment, indicated the assets were not recoverable. Federal-Mogul determined the fair value of the assets by applying a probability weighted, expected present value technique to the estimated future cash flows using assumptions a market participant would utilize. The discount rate used is consistent with other long-lived asset fair value measurements. See Note 10, Goodwill and Intangible Assets Automotive, and Note 7, Investments and Related Matters Investments in Non-Consolidated Affiliates Automotive, for discussion regarding Federal-Mogul's impairment charges related to goodwill and intangibles and investments in non-consolidated affiliates, respectively.

c. Gaming

We conduct our Gaming segment through Tropicana, which is held by the Private Funds, and in which we have a controlling interest. Tropicana currently owns and operates a diversified, multi-jurisdictional collection of casino gaming properties. The nine casino facilities it operates feature approximately 424,000 feet of gaming space and 6,228 hotel rooms with three casino facilities located in Nevada, three in Mississippi and one in each of Indiana, Louisiana and New Jersey. In addition, Tropicana recently acquired a resort under development in Aruba.

See Note 3, Acquisitions Acquisition of Controlling Interest in Tropicana Entertainment Inc., for detailed discussion of the acquisition history and related information pertaining to Tropicana.

d. Railcar

We conduct our Railcar segment through our majority ownership in ARI. ARI manufactures railcars, custom designed railcar parts for industrial companies, railroads, and other industrial products, primarily aluminum and special alloy steel castings. These products are sold to various types of companies including leasing companies, railroads, industrial companies and other non-rail companies. ARI also offers its customers the option to lease railcars. ARI provides railcar maintenance services for railcar fleets, including that of its affiliate, American Railcar Leasing LLC (ARL). In addition, ARI provides fleet management and maintenance services for railcars owned by certain customers. Such services include inspecting and supervising the maintenance and repair of such railcars.

ARI's three largest customers (including an affiliate) accounted for 58%, 84% and 82% of our Railcar segment's total revenues for fiscal 2010, fiscal 2009 and fiscal 2008, respectively.

e. Food Packaging

We conduct our Food Packaging segment through our majority ownership in Viskase. Viskase is a worldwide leader in the production and sale of cellulosic, fibrous and plastic casings for the processed meat and poultry industry.

Viskase currently operates seven manufacturing facilities and nine distribution centers throughout North America, Europe and South America and derives approximately 69% of Viskase's total net sales from customers located outside the United States. Viskase believes it is one of the two largest manufacturers of non-edible cellulosic casings for processed meats and one of the three largest manufacturers of non-edible fibrous casings. As of December 31, 2010, \$122 million of Viskase's assets were located outside of the United States, primarily in France.

f. Metals

We conduct our Metals segment through our indirect wholly owned subsidiary, PSC Metals, Inc. (PSC Metals). PSC Metals collects industrial and obsolete scrap metal, processes it into reusable forms and supplies the recycled metals to its customers including electric-arc furnace mills, integrated steel mills, foundries, secondary smelters and metals brokers. PSC Metals ferrous products include shredded, sheared and bundled scrap metal and other purchased scrap metal such as turnings (steel machining fragments), cast furnace iron and broken furnace iron. PSC Metals also processes non-ferrous metals including aluminum, copper, brass, stainless steel and nickel-bearing metals.

Non-ferrous products are a significant raw material in the production of aluminum and copper alloys used in manufacturing. PSC Metals also operates a secondary products business that includes the supply of secondary plate and structural grade pipe that is sold into niche markets for counterweights, piling and foundations, construction materials and infrastructure end-markets.

PSC Metals had five, three and five customers who accounted for approximately 45%, 27% and 39%, respectively, of PSC Metals net sales for fiscal 2010, fiscal 2009 and fiscal 2008, respectively.

g. Real Estate

Our Real Estate segment consists of rental real estate, property development and resort activities.

As of each of December 31, 2010 and 2009, we owned 30 rental real estate properties. Our property development operations are run primarily through Bayswater, a real estate investment, management and development subsidiary that focuses primarily on the construction and sale of single-family and multi-family homes, lots in subdivisions and planned communities and raw land for residential development. Our New Seabury development property in Cape Cod, Massachusetts and our Grand Harbor and Oak Harbor development property in Vero Beach, Florida each include land for future residential development of approximately 327 and 870 units of residential housing, respectively. Both developments operate golf and resort operations as well.

In February 2010, our Real Estate operations acquired from Fontainebleau Las Vegas, LLC (Fontainebleau), and certain affiliated entities, certain assets associated with property and improvements (the Former Fontainebleau Property) located in Las Vegas, Nevada for an aggregate purchase price of \$148 million. The Former Fontainebleau Property includes (i) an unfinished building situated on approximately 25 acres of land and (ii) inventory.

As of December 31, 2010 and 2009, \$106 million and \$110 million, respectively, of the net investment in financing leases, net real estate leased to others and resort properties, which is included in property, plant and equipment, net, were pledged to collateralize the payment of nonrecourse mortgages payable.

h. Home Fashion

We conduct our Home Fashion segment through our majority ownership in WestPoint International, Inc., (WPI), a manufacturer and distributor of home fashion consumer products. WPI is engaged in the business of manufacturing, sourcing, marketing and distributing home fashion consumer products. WPI markets a broad range of manufactured and sourced bed, bath, basic bedding and kitchen textile products, including, sheets, pillowcases, comforters, flocked blankets, woven blankets and throws, heated blankets, quilts, bedspreads, duvet covers, feather beds, bed pillows, mattress pads, bath and beach towels, bath rugs, kitchen towels and kitchen accessories. WPI recognizes revenue primarily through the sale of home fashion products to a variety of retail and institutional customers. In addition, WPI receives a small portion of its revenues through the licensing of its trademarks.

As of December 31, 2010, \$162 million of WPI s assets were located outside of the United States, primarily in Bahrain.

A relatively small number of customers have historically accounted for a significant portion of WPI s net sales. WPI had six customers in each of fiscal 2010 and fiscal 2009 who accounted for approximately 64% and 59% of WPI s net sales for fiscal 2010 and fiscal 2009, respectively, and seven customers who accounted for approximately 57% of WPI s net sales for fiscal 2008.

Acquisition History

On August 8, 2005, we acquired 13.2 million, or 67.7%, of the 19.5 million outstanding common shares of WPI. Pursuant to the asset purchase agreement between WPI and WestPoint Stevens Inc. (WPS), rights to subscribe for an additional 10.5 million shares of common stock at a price of \$8.772 per share, or the rights offering, were allocated among former creditors of WPS. Depending upon the extent to which the other holders exercise certain subscription rights, we may acquire additional shares and may beneficially own between 13.2 million and 23.7 million shares of WPI common stock representing between 50.5% and 79.0% of the 30.0 million common shares that would then be outstanding.

On December 20, 2006, we acquired: (a) 1,000,000 shares of Series A-1 Preferred Stock of WPI for a purchase price of \$100 per share, for an aggregate purchase price of \$100 million and (b) 1,000,000 shares of Series A-2 Preferred Stock of WPI for a purchase price of \$100 per share, for an aggregate purchase price of \$100 million. Each of the Series A-1 and Series A-2 Preferred Stock has a 4.50% annual dividend, which is paid quarterly. For the first two years after issuance, the dividends are to be paid in the form of additional preferred stock. Thereafter, the dividends are to be paid in cash or in additional preferred stock at the option of WPI. Each of the Series A-1 and Series A-2 Preferred Stock is convertible into common shares of WPI at a rate of \$10.50 per share, subject to certain anti-dilution provisions; provided, however, that under certain circumstances, \$92.1 million of the Series A-2 Preferred Stock may

be converted at a rate of \$8.772 per share.

Restructuring

To improve WPI's competitive position, WPI's management intends to continue to reduce its cost of goods sold by restructuring its operations in the plants located in the United States, increasing production within its non-U.S. facilities and joint venture operation and sourcing goods from lower cost overseas facilities. WPI utilizes a third party to manage the majority of its U.S. warehousing and distribution operations, located at its Wagram, North Carolina facility. In fiscal 2009, as part of its ongoing restructuring activities, WPI closed certain of its manufacturing facilities located in the United States. In the future, the vast majority of the products manufactured or fabricated in these facilities will be sourced from plants located outside of the United States.

WPI incurred restructuring costs of \$8 million, \$19 million and \$25 million for fiscal 2010, fiscal 2009 and fiscal 2008, respectively. Included in restructuring expenses are cash charges associated with the ongoing costs of closed plants, employee severance, benefits and related costs and transition expenses. The amount of

accrued restructuring costs at December 31, 2009 was \$1 million. WPI paid \$9 million of restructuring charges for fiscal 2010. As of December 31, 2010, the accrued liability balance was less than \$1 million, which is included in accrued expenses and other liabilities in our consolidated balance sheet.

Total cumulative restructuring charges from August 8, 2005 (acquisition date) through December 31, 2010 were \$85 million.

WPI anticipates incurring restructuring costs in fiscal 2011 relating to the current restructuring plan of \$5 million primarily related to the continuing costs of its closed facilities, employee severance, benefits and related costs and transition expenses. Restructuring costs could be affected by, among other things, WPI's decision to accelerate or delay its restructuring efforts. As a result, actual costs incurred could vary materially from these anticipated amounts.

Impairment

WPI incurred non-cash impairment charges of \$9 million, \$8 million and \$12 million for fiscal 2010, fiscal 2009, and fiscal 2008, respectively, due to impairment charges related to certain plants that have been or will be closed and impairment of trademarks. In recording impairment charges related to its plants, WPI compared estimated net realizable values of property, plant and equipment to their current carrying values. In recording impairment charges related to its trademarks, WPI compared the fair value of the intangible asset with its carrying value. The estimates of fair value of trademarks are determined using a discounted cash flow valuation methodology referred to as the relief from royalty methodology. Significant assumptions inherent in the relief from royalty methodology employed include estimates of appropriate marketplace royalty rates and discount rates.

5. Discontinued Operations and Assets Held For Sale

Gaming American Casino & Entertainment Properties LLC

On February 20, 2008, we consummated the sale of our subsidiary, American Casino & Entertainment Properties LLC (ACEP), for \$1.2 billion to an affiliate of Whitehall Street Real Estate Fund, realizing a gain of \$472 million, after taxes. The sale of ACEP included the Stratosphere Hotel and Casino and three other Nevada gaming properties, which represented all of our remaining gaming operations.

Home Fashion Retail Stores

WPI closed all of its retail stores based on a comprehensive evaluation of the stores' long-term growth prospects and their on-going value to the business. On October 18, 2007, WPI entered into an agreement to sell the inventory at all

of its retail stores and subsequently ceased operations of its retail stores. Accordingly, it has reported the retail outlet stores business as discontinued operations for all periods presented. As a result of the sale, WPI incurred charges related to the termination of the leases relating to its retail outlet stores facilities. As of December 31, 2010 and 2009, the accrued lease termination liability balance was \$1 million and \$2 million, respectively, which is included in accrued expenses and other liabilities in our consolidated balance sheets.

Real Estate

Operating properties are reclassified to held for sale when subject to a contract. The operations of such properties are classified as discontinued operations. There were no material changes to the properties classified as discontinued operations during fiscal 2010.

Results from Discontinued Operations

above are presented within other assets and accrued expenses and other liabilities in the consolidated balance sheets and income from discontinued operations in the consolidated statements of operations for all periods presented, as applicable.

Total revenues for our discontinued operations for fiscal 2008 were \$61 million primarily relating to our sale of ACEP. There were no revenues from our discontinued operations for fiscal 2009 or fiscal 2010. (Loss) income from discontinued operations before income taxes and non-controlling interest (including gain on dispositions before taxes) for fiscal 2010, fiscal 2009, and fiscal 2008 was \$(1) million, \$1 million, and \$749 million, respectively. Results for fiscal 2008 included a gain on sale of discontinued operations of \$472 million, net of income taxes of \$260 million, recorded on the sale of ACEP. With respect to the taxes recorded on the sale of ACEP, \$103 million was recorded as a deferred tax liability pursuant to a Code 1031 Exchange transaction completed during the third quarter of fiscal 2008.

6. Related Party Transactions

Our amended and restated agreement of limited partnership expressly permits us to enter into transactions with our general partner or any of its affiliates, including, without limitation, buying or selling properties from or to our general partner and any of its affiliates and borrowing and lending money from or to our general partner and any of its affiliates, subject to limitations contained in our partnership agreement and the Delaware Revised Uniform Limited Partnership Act. The indentures governing our indebtedness contain certain covenants applicable to transactions with affiliates.

a. Investment

Until August 8, 2007, Icahn Management LP (Icahn Management) elected to defer most of the management fees from the Offshore Funds and such amounts remain invested in the Offshore Funds. At December 31, 2010 and 2009, the balance of the deferred management fees payable (included in accrued expenses and other liabilities) by Icahn Fund Ltd. to Icahn Management was \$143 million and \$125 million, respectively. The deferred management fee payable increased by \$18 million and \$32 million for fiscal 2010 and fiscal 2009, respectively, due to the performance of the Investment Funds.

Effective January 1, 2008, Icahn Capital LP (Icahn Capital) paid for salaries and benefits of certain employees who may also perform various functions on behalf of certain other entities beneficially owned by Mr. Icahn (collectively, Icahn Affiliates), including administrative and investment services. Prior to January 1, 2008, Icahn & Co. LLC paid for such services. Under a separate expense-sharing agreement, Icahn Capital charged Icahn Affiliates \$2 million for fiscal 2010 and \$4 million for each of fiscal 2009 and fiscal 2008. As of December 31, 2010 and 2009, accrued

expenses and other liabilities in our consolidated balance sheets included \$2 million and \$1 million, respectively, to be applied to Icahn Capital's charges to Icahn Affiliates for services to be provided to them.

In addition, effective January 1, 2008, certain expenses borne by Icahn Capital are reimbursed by Icahn Affiliates, as appropriate, when such expenses are incurred. The expenses include investment-specific expenses for investments acquired by both the Private Funds and Icahn Affiliates that are allocated based on the amounts invested by each party, as well as investment management-related expenses that are allocated based on estimated usage agreed upon by Icahn Capital and Icahn Affiliates. For fiscal 2010, fiscal 2009 and fiscal 2008, these reimbursement amounts were \$2 million, \$1 million and \$2 million, respectively.

In addition to our interest in the Investment Funds, Mr. Icahn, along with his affiliates, makes investments in the Investment Funds. These investments are not subject to special profits interest allocations or incentive allocations. As of December 31, 2010 and 2009, the total fair value of these investments was approximately \$2.1 billion and \$1.5 billion, respectively.

On August 31, 2010, the Investment Funds sold their interest in The Aruban Resort & Casino at Eagle Beach in Aruba to Tropicana for a total purchase price of \$12 million, which approximates the Private Funds' cost related to the property. The Investment Funds own approximately 51.5% of Tropicana at December 31, 2010 and Mr. Icahn is the Chairman of the Tropicana Board of Directors.

b. Railcar

As described in Note 3, Acquisitions, in January 2010, we acquired a controlling interest in ARI from affiliates of Mr. Icahn. As a result of this acquisition, we have the following related party transactions:

Agreements with ACF Industries LLC and American Railcar Leasing LLC

ARI has or had various agreements with ACF Industries LLC (ACF) and ARL, companies controlled by Mr. Icahn. The most significant agreements include the following:

Under the manufacturing services agreement entered into in 1994 and amended in 2005, ACF agreed to manufacture and distribute, at ARI's instruction, various railcar components. In consideration for these services, ARI agreed to pay ACF certain agreed-upon rates. During fiscal 2010, fiscal 2009 and fiscal 2008, ARI purchased inventory of \$1 million, \$14 million and \$45 million, respectively, of components from ACF. The agreement automatically renews unless written notice is provided by ARI.

In May 2007, ARI entered into a manufacturing agreement with ACF, pursuant to which ARI agreed to purchase approximately 1,390 tank railcars from ACF. The profit realized by ARI upon sale of the tank railcars to ARI customers was first paid to ACF in reimbursement for the start-up costs involved in implementing the manufacturing arrangements evidenced by the agreement and thereafter, the profit was split evenly between ARI and ACF. The commitment under this agreement was satisfied in March 2009 and the agreement was terminated at that time. In fiscal 2009 and fiscal 2008, ARI incurred costs under this agreement of \$4 million and \$24 million, respectively, in connection with railcars that were manufactured and delivered to customers during that period, which includes payments made to ACF for its share of the profits along with ARI costs and such amount is included under cost of goods sold in the consolidated statements of operations. ARI recognized revenue of \$19 million and \$100 million related to railcars shipped under this agreement for fiscal 2009 and fiscal 2008, respectively. No revenues or costs were incurred under this agreement for fiscal 2010.

Effective as of January 1, 2008, ARI entered into a fleet services agreement with ARL, which replaced a 2005 railcar servicing agreement between the parties. The 2008 agreement reflects a reduced level of fleet management services, relating primarily to logistics management services, for which ARL now pays a fixed monthly fee. Additionally, under the agreement, ARI continues to provide railcar repair and maintenance services to ARL for a charge of labor, components and materials. ARI currently provides such repair and maintenance services for approximately 28,000 railcars for ARL. The agreement extended through December 31, 2010, and is automatically renewable for additional one-year periods unless either party gives at least 60 days prior notice of termination. There is no termination fee if ARI elects to terminate this agreement. Railcar services revenues recorded by ARI were \$15 million, \$14 million and \$15 million under this agreement for fiscal 2010, fiscal 2009 and fiscal 2008. Profit margins on sales to related parties approximate the margins on sales in comparable transactions with unrelated third parties.

6. Related Party Transactions (continued)

ARI from time to time manufactures and sells railcars to ARL under long-term agreements as well as on a purchase order basis. Revenues from railcars sold to ARL were \$82 million, \$105 million and \$183 million for fiscal 2010, fiscal 2009 and fiscal 2008, respectively, and are included in net sales in our consolidated statements of operations. Profit margins on sales to related parties approximate the margins on sales in comparable transactions with unrelated third parties.

As of December 31, 2010 and 2009, ARI had accounts receivable of \$5 million and \$1 million, respectively, due from ACF and ARL. These amounts are included in other assets in our consolidated balance sheets.

c. Food Packaging

As described in Note 3, Acquisitions, in January 2010 we acquired a controlling interest in Viskase from affiliates of Mr. Icahn. As a result of this acquisition, we have the following related party transaction:

Arnos Corporation, an affiliate of Mr. Icahn, was the lender on Viskase's Revolving Credit Facility as of December 31, 2009. In connection with our majority acquisition of Viskase on January 15, 2010, we assumed the Viskase Revolving Credit Facility from Arnos Corporation. See Note 12, Debt, for further discussion regarding Viskase's Revolving Credit Facility.

d. Administrative Services Icahn Enterprises Holdings

As of December 31, 2010 and 2009, we had related party receivables of \$22 million and \$20 million, respectively, from Icahn Enterprises relating to certain transactions funded by Icahn Enterprises Holdings on behalf of Icahn Enterprises.

For each of fiscal 2010, fiscal 2009 and fiscal 2008 we paid an affiliate approximately \$2 million for the non-exclusive use of office space.

For each of fiscal 2010, fiscal 2009 and fiscal 2008 we paid \$1 million to XO Holdings, Inc., an affiliate of Icahn Enterprises GP, our general partner, for telecommunications services. XO Holdings, Inc. is controlled by Mr. Icahn.

We provided certain professional services to an Icahn Affiliate for which we charged approximately \$2 million for each of fiscal 2010, fiscal 2009 and fiscal 2008. As of December 31, 2010, accrued expenses and other liabilities in our consolidated balance sheets included \$0.2 million to be applied to Icahn Enterprises Holdings' charges to the affiliate for services to be provided to it.

7. Investments and Related Matters (continued)

The General Partners adopted FASB ASC Section 946-810-45, *Financial Services - Investment Companies - Consolidation - Other Presentation Matters*, as of January 1, 2007. FASB ASC Section 946-810-45 provides guidance on whether investment company accounting should be retained in the financial statements of a parent entity. Upon the adoption of FASB ASC Section 946-810-45, the General Partners lost their ability to retain specialized accounting. For those investments that (i) were deemed to be available-for-sale securities, (ii) fall outside the scope of FASB ASC Topic 320, Investments - Debt and Equity Securities or (iii) the Private Funds would otherwise account for under the equity method, the Private Funds apply the fair value option. The application of the fair value option is irrevocable.

The Private Funds assess the applicability of equity method accounting with respect to their investments based on a combination of qualitative and quantitative factors, including overall stock ownership of the Private Funds combined with those of our affiliates along with board of directors representation.

The Private Funds applied the fair value option to certain of its investments that would have otherwise been subject to the equity method of accounting. As of December 31, 2010, the fair value of these investments was \$378 million. For fiscal 2010, fiscal 2009 and fiscal 2008, the Investment Funds recorded losses of \$23 million, gains of \$5 million and losses of \$85 million, respectively, with respect to these investments. Such amounts are included in net gain from investment activities in our consolidated statements of operations. These gains and losses include the unrealized gains and losses for our Investment segment's investment in Tropicana for periods prior to November 15, 2010 when Tropicana was accounted for at fair value with changes in fair value reflected in earnings. See Note 3, Acquisitions - Acquisition of a Controlling Interest in Tropicana Entertainment Inc for further discussion regarding the history of the Investment Funds' investment in Tropicana and the effects of consolidation effective November 15, 2010. Also included in these investments is the Investment Funds' investment in Lions Gate Entertainment Corp (Lions Gate) and The Hain Celestial Group, Inc. (Hain). As of December 31, 2010, the Investment Funds, together with their affiliates held, in the aggregate, 6,689,163 shares of Hain, representing approximately 16% of the outstanding shares of Hain. As of December 31, 2010, the Investment Funds together with their affiliates held, in the aggregate, 44,642,069 shares of Lions Gate, representing approximately 33% of the outstanding shares of Lions Gate. During the third quarter of fiscal 2010, Lions Gate issued 16,236,305 of its shares to one of its directors; the validity of such issuance is in dispute. Should we prevail in our dispute, our ownership of the outstanding shares of Lions Gate would increase to 37% based on the outstanding shares of Lions Gate at December 31, 2010. The Private Funds have applied the fair value option to their investment in Lions Gate and Hain.

We believe that these investments to which we applied the fair value option are not material, individually or in the aggregate, to our consolidated financial statements. Lions Gate and Hain are registered SEC reporting companies whose financial statements are available at www.sec.gov.

Investments in Variable Interest Entities

As discussed in Note 2, Summary of Significant Accounting Policies Adoption of New Accounting Standards, in February 2010, the FASB issued new guidance which amends the consolidation requirement of VIEs for certain entities meeting certain criteria. We determined that the General Partners met the criteria for the deferral of this new consolidation guidance. Accordingly, our Investment segment will continue to apply the overall guidance on the consolidation of VIEs prior to the issuance of the new standard as described in Note 1.

7. Investments and Related Matters (continued)

The General Partners consolidate certain VIEs when they are determined to be their primary beneficiary, either directly or indirectly through other consolidated subsidiaries. The assets of our consolidated VIEs are primarily classified within cash and cash equivalents and investments in our consolidated balance sheets. The liabilities of our consolidated VIEs are primarily classified within securities sold, not yet purchased, at fair value, and accrued expenses and other liabilities in our consolidated balance sheets and are non-recourse to the General Partners' general credit. Any creditors of VIEs do not have recourse against the general credit of the General Partners solely as a result of our including these VIEs in our consolidated financial statements.

Our consolidated VIEs consist of the Offshore Fund, Master Fund II and Master Fund III. The Offshore GP sponsored the formation of and manages each of these VIEs and, in some cases, has an investment therein. In evaluating whether the Offshore GP is the primary beneficiary of such VIEs, the Offshore GP has considered the nature and extent of its involvement with such VIEs and whether it absorbs the majority of losses among other variable interest holders, including those variable interest holders who are deemed related parties or de facto agents. In most cases, the Offshore GP was deemed to be the primary beneficiary of such VIEs because it (i) has the direct or indirect ability through voting rights or similar rights to make decisions about VIE's activities that have a significant effect on its success and (ii) would absorb the majority of expected losses among other variable interest holders and its close association with such VIEs, including the ability to direct the business activities of such VIEs.

We evaluated the VIE and primary beneficiary status of the Master Fund I and determined that it no longer is a VIE. Previously, the Master Fund I was considered to be a VIE because (i) the managing general partner, the Offshore GP, had substantially all of the decision-making rights that impacted the Master Fund I's operations and investment activities but did not absorb the majority of the residuals or losses of the Master Fund I and (ii) substantially all of the activities of the Master Fund I were conducted on behalf of Icahn Fund Ltd. Icahn Fund Ltd. provided substantially all of the capital at the commencement of the Master Fund I's operations but had no substantive kick-out or participating rights. However, the composition of the limited partners in the Master Fund I has changed. Based on our evaluation, we determined that the Master Fund I is no longer a VIE because substantially all of the activities of the Master Fund I are no longer deemed to be performed for the primary benefit of Icahn Fund Ltd, but rather for the benefit of all limited partners, including those of their related party groups and de facto agents. However, because the Offshore GP is the managing general partner of the Master Fund I, it would consolidate it. There are no substantive kick-out or participating rights in the Master Fund I. These changes had no effect on our consolidated financial statements.

The following table presents information regarding interests in VIEs for which the Offshore GP holds a variable interest as of December 31, 2010 (in millions of dollars):

Offshore GP is the Primary Beneficiary	Offshore GP is not the Primary
---	-----------------------------------

	Net	Offshore	Pledged	Beneficiary	Offshore
	Assets	GP s	Collateral ⁽²⁾	Net	GP s
		Interests ⁽¹⁾		Assets	Interests ⁽¹⁾
Offshore Funds, Master Fund II and Master Fund III	\$1,929	\$ 51	\$ 880	\$ 473	\$

Amount principally represents the Offshore GP s reinvested incentive allocations and special profits interest (1) allocations and therefore its maximum exposure to loss. Such amounts are subject to the financial performance of the Offshore Funds, Master Fund II and Master Fund III and are included in the Offshore GP s net assets.

(2) Includes collateral pledged in connection with securities sold, not yet purchased, derivative contracts and collateral held for securities loaned. Pledged amounts may be in excess of margin requirements.

b. Automotive, Gaming, Railcar, Icahn Enterprises Holdings and Other

Investments held by Icahn Enterprises Holdings and our Automotive, Gaming, Railcar and other segments consist of the following (in millions of dollars):

	December 31, 2010		December 31, 2009	
	Amortized Cost	Carrying Value	Amortized Cost	Carrying Value
Marketable equity and debt securities available for sale	\$24	\$ 19	\$23	\$ 23
Equity method investments and other	304	304	291	291
Total investments	\$328	\$ 323	\$314	\$ 314

With the exception of our Automotive, Gaming, Railcar and Home Fashion segments as discussed below, it is our policy to apply the fair value option to all of our investments that would be subject to the equity method of accounting. We record unrealized gains and losses for the change in fair value of such investments as a component of net gain (loss) from investment activities in the consolidated statement operations. We believe that these investments, individually or in the aggregate, are not material to our consolidated financial statements.

The following information relates to certain investment activities transacted by our operating units:

Proceeds from the sales of available-for-sale securities were \$4 million, \$61 million and \$59 million for fiscal 2010, fiscal 2009 and fiscal 2008, respectively. The gross realized gains (losses) on available-for-sale securities sold for fiscal 2010, fiscal 2009 and fiscal 2008 were \$1 million, \$24 million and \$(17) million, respectively. For purposes of determining gains and losses to be reclassified out of accumulated other comprehensive income into earnings, the cost of securities is based on specific identification. Net unrealized holding gains (losses) on available-for-sale securities in the amount of \$(1) million, \$4 million and \$(11) million for fiscal 2010, fiscal 2009, fiscal 2008, respectively, have been included in accumulated other comprehensive income.

Our Railcar segment performed a review of its investment as of December 31, 2009 to determine if an other-than-temporary impairment existed. Factors considered in the assessment included but were not limited to the following: the ability and intent to hold the security until loss recovery, the sale of shares at a loss, and the number of quarters in an unrealized loss position and other market conditions. Based on this analysis, our Railcar segment recorded an impairment charge of \$3 million related to one of its investment.

During the fiscal year ended December 31, 2007 (fiscal 2007), we adopted the fair value option for Lear Corporation (Lear) common stock which became eligible for the fair value option at the time we first recognized them in our

consolidated financial statements. We also elected the fair value option for ImClone Systems Incorporated (ImClone). In the fourth quarter of fiscal 2008, we sold all of our Lear common stock and realized a net loss of \$12 million. In the fourth quarter of fiscal 2008, we sold all of the ImClone shares and recorded a realized gain of \$197 million.

Investments in Non-Consolidated Affiliates

Federal-Mogul maintains investments in 12 non-consolidated affiliates, which are located in China, France, Germany, India, Italy, Korea, Turkey, and the United States. Federal-Mogul's direct ownership in such affiliates ranges from approximately 2% to 50%. The aggregate investments in these affiliates were \$210 million and \$238 million at December 31, 2010 and 2009, respectively.

7. Investments and Related Matters (continued)

Federal-Mogul evaluated the recorded value of its investments in non-consolidated affiliates for potential impairment as of December 31, 2010, 2009 and 2008. Given the economic downturn in the global automotive industry and the related declines in anticipated production volumes during fiscal 2008, Federal-Mogul concluded that its investments in non-consolidated affiliates were impaired, and an impairment charge of \$64 million was recorded for the period March 1, 2008 through December 31, 2008. There was no such impairment in either fiscal 2010 or fiscal 2009.

Included in the aggregate investments in non-consolidated affiliates of \$210 million is the remaining fair value step-up (net of impairment, amortization and foreign currency) of \$55 million, which represents a difference between the amounts of these investments and underlying equity. This difference is comprised of \$30 million of definite-lived intangible and tangible assets with a weighted average remaining useful life of 16 years, and \$25 million of indefinite-lived intangible and tangible assets.

Equity earnings from non-consolidated affiliates were \$32 million, \$16 million and \$19 million for fiscal 2010, fiscal 2009 and for the period March 1, 2008 through December 31, 2008, respectively, which are included in other (loss) income, net in our consolidated financial statements. For fiscal 2010, these entities generated sales of \$627 million and net income of \$79 million and had total net assets of \$472 million at December 31, 2010. Distributed dividends to Federal-Mogul from non-consolidated affiliates were \$43 million, \$7 million and \$28 million, respectively, for fiscal 2010, fiscal 2009 and for the period March 1, 2008 through December 31, 2008.

Federal-Mogul does not consolidate any entity for which it has a variable interest based solely on power to direct the activities and significant participation in the entity's expected results that would not otherwise be consolidated based on control through voting interests. Further, Federal-Mogul's joint ventures are businesses established and maintained in connection with its operating strategy.

Federal-Mogul holds a 50% non-controlling interest in a joint venture located in Turkey. This joint venture was established in 1995 for the purpose of manufacturing and marketing automotive parts, including pistons, piston rings, piston pins, and cylinder liners to OE and aftermarket customers. Pursuant to the joint venture agreement, Federal-Mogul's partner holds an option to put its shares to a subsidiary of Federal-Mogul's at the higher of the current fair value or at a guaranteed minimum amount. The term of the contingent guarantee is indefinite, consistent with the terms of the joint venture agreement. However, the contingent guarantee would not survive termination of the joint venture agreement. The guaranteed minimum amount represents a contingent guarantee of the initial investment of the joint venture partner and can be exercised at the discretion of the partner. The total amount of the contingent guarantee, should all triggering events have occurred, approximated \$61 million as of December 31, 2010.

Federal-Mogul believes that this contingent guarantee is less than the estimated current fair value of the partners' interest in the affiliate. As such, the contingent guarantee does not give rise to a contingent liability and, as a result, no amount is recorded for this guarantee. If this put option were exercised, the consideration paid and net assets acquired would be accounted for in accordance with business combination accounting. Any value in excess of the guaranteed

minimum amount of the put option would be the subject of negotiation between Federal-Mogul and its joint venture partner.

Federal-Mogul purchases and sells inventory from/to the Turkey JV. Purchases from the Turkey JV for fiscal 2010, fiscal 2009 and for the period March 1, 2008 through December 31, 2008 were \$20 million, \$15 million and \$2 million, respectively. Sales to the Turkey JV for fiscal 2010, fiscal 2009 and for the period March 1, 2008 through December 31, 2008 were \$31 million, \$26 million and \$31 million, respectively. Federal-Mogul had net accounts payable balances with the Turkey JV of \$4 million and \$12 million as of December 31, 2010 and 2009, respectively

7. Investments and Related Matters (continued)

Federal-Mogul has determined that its investments in Chinese joint venture arrangements are considered to be limited-lived as such entities have specified durations ranging from 30 to 50 years pursuant to regional statutory regulations. In general, these arrangements call for extension, renewal or liquidation at the discretion of the parties to the arrangement at the end of the term of the contractual agreement. Accordingly, a reasonable assessment cannot be made as to the impact of such arrangements on the future liquidity position of Federal-Mogul.

Railcar

As of December 31, 2010, ARI was party to three joint ventures which are all accounted for using the equity method. ARI determined that, although these joint ventures are considered VIEs, it is not the primary beneficiary of such VIEs, does not have a controlling financial interest and does not have the ability to individually direct the activities of the VIEs that most significantly impact their economic performance. A significant factor in this determination was that ARI does not have the rights to a majority of returns, losses or votes.

The risk of loss to ARI is limited to its investment in these joint ventures, certain loans due from these joint ventures to ARI and ARI's guarantee of certain loans. As of December 31, 2010 and 2009, the carrying amount of these investments was \$48 million and \$41 million, respectively, and the maximum exposure to loss was \$50 million and \$42 million, respectively. Maximum exposure to loss was determined based on ARI's carrying amounts in such investments, loans, accrued interest thereon and accrued unused line fee due from applicable joint ventures and loan guarantees made to the applicable joint ventures.

8. Fair Value Measurements

U.S. GAAP requires enhanced disclosures about investments and non-recurring nonfinancial assets and nonfinancial liabilities that are measured and reported at fair value and has established a hierarchal disclosure framework that prioritizes and ranks the level of market price observability used in measuring investments or nonfinancial assets and liabilities at fair value. Market price observability is impacted by a number of factors, including the type of investment and the characteristics specific to the investment. Investments with readily available active quoted prices or for which fair value can be measured from actively quoted prices generally will have a higher degree of market price observability and a lesser degree of judgment used in measuring fair value.

Investments and nonfinancial assets and/or liabilities measured and reported at fair value are classified and disclosed in one of the following categories:

Level 1 Quoted prices are available in active markets for identical investments as of the reporting date. The types of investments included in Level 1 include listed equities and listed derivatives. We do not adjust the quoted price for

these investments, even in situations where we hold a large position.

Level 2 Pricing inputs are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value is determined through the use of models or other valuation methodologies. Investments that are generally included in this category include corporate bonds and loans, less liquid and restricted equity securities and certain over-the-counter derivatives. The inputs and assumptions of our Level 2 investments are derived from market observable sources including: reported trades, broker/dealer quotes and other pertinent data.

Level 3 Pricing inputs are unobservable for the investment and nonfinancial asset and/or liability and include situations where there is little, if any, market activity for the investment or nonfinancial asset and/or liability. The inputs into the determination of fair value require significant management judgment or estimation. Fair value is determined using comparable market transactions and other valuation methodologies, adjusted as appropriate for liquidity, credit, market and/or other risk factors.

8. Fair Value Measurements (continued)

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Our assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the investment.

The following table summarizes the valuation of the Investment Funds' investments by the above fair value hierarchy levels as of December 31, 2010 and 2009 (in millions of dollars):
