*Our Board recommends a vote for Anthony Hickox.*

## Board Leadership Structure and the Board's Role in Risk Oversight

The Board recognizes that one of its key responsibilities is to evaluate and determine its optimal leadership structure so as to provide independent oversight of management. The Board also recognizes that depending on the circumstances, other leadership models may be appropriate, and that no single leadership model is right for all companies and at all times. Accordingly, the Board periodically reviews its leadership structure.

The Board oversees and guides the Company's management and its business affairs. Committees assist the Board in discharging its responsibilities on issues that benefit from consideration by a smaller, more focused subset of directors. All committee members are elected by and serve at the pleasure of the Board. The Board currently combines the role of Chairman of the Board with the role of chief executive officer. The Board believes this provides an efficient and effective leadership model for the Company. Combining the chairman and chief executive officer roles fosters clear accountability, effective decision-making and alignment on corporate strategy. The Board does not have a lead independent director at this time.

The Board's role in the Company's risk oversight process includes regular reviews of information from senior management regarding the areas of material risk to the Company. The oversight is conducted primarily through committees of the Board, as disclosed in the descriptions of each of the Board committees below and in the charters of each of the committees, but the full Board has retained responsibility for general oversight of risks. The Compensation Committee is responsible for overseeing the management of risks relating to the Company's executive compensation plans and arrangements. The audit committee oversees management of financial and information technology risks. While each committee is responsible for evaluating certain risks and overseeing the management of such risks, the entire Board is regularly informed about such risks. The full Board also manages additional risks, including those associated with corporate governance, independence of Board members and potential conflicts of interest.

## Board Committees and Meetings

Our Board has an Audit Committee, a Compensation Committee, and a Nomination Committee.

We do not have a policy regarding Board members attendance at annual meetings.

We have an Audit Committee, which recommends to the Board of Directors the engagement of our independent registered public accounting firm and reviews with such firm the scope and results of our audits, our internal accounting controls, and the professional services furnished by our independent registered public accounting firm. The current members of the Audit Committee are Mr. Gibbs, Mr. Furth and Ms. New.

Our Compensation Committee (Mr. Gibbs, Mr. Hickox and Mr. Furth) and Nominating Committee (Mr. Gibbs, Mr. Hickox and Mr. Furth) are made up of our independent directors.

All Committees of the Board are organized pursuant to resolutions of the Board of Directors. The terms of reference of each committee are based on the subject matter jurisdiction of each Committee. The Compensation Committee reviews and approves all employee compensation and bonuses. The Nomination Committee proposes candidates for election to our Board of Directors.

All meetings of each Committee are on an ad-hoc basis, decisions are made by majority vote and all decisions are reported to the full Board of Directors for approval.

### **Audit Committee**

The Audit Committee meets with our independent registered public accounting firm at least annually to review the results of the annual audit and discuss the financial statements; recommends to the Board the independent registered public accounting firm to be retained; oversees the independence of the independent registered public accounting firm; evaluates the independent registered public accounting firm's performance; consults with the independent registered public accounting firm and discusses with senior management the scope and quality of controls; and reviews and considers the cooperation received by the independent registered public accounting firm during their audit examination and quarterly reviews. The Board has adopted a written Audit Committee charter that requires at least semi-annual meetings. The charter is included as Annex A to this Proxy Statement.

### **Compensation Committee**

The Compensation Committee has the primary authority to determine our compensation philosophy and to make recommendations regarding compensation for our executive officers. The Compensation Committee makes recommendations to the Board concerning salaries and incentive compensation for executive officers, awards equity compensation to employees and consultants under our 2012 Stock Incentive Plan (the 2012 Plan) and otherwise determines compensation levels and performs such other functions regarding compensation as the Board may delegate.

The Compensation Committee has recommended to the Board, and the Board has implemented, compensation policies, plans and programs that seek to enhance stockholder value by aligning the financial interests of the executive officers with those of the stockholders. We rely heavily on incentive, including equity, compensation to attract, retain, motivate and reward executive officers. Historically, annual base salaries have been set at the time of hire and are subject to adjustment. Initial base salaries are recommended by the Chief Executive Officer to the Compensation Committee. After review, the Compensation Committee recommends to the full Board the compensation package as part of the overall Board consideration of the full employment package offered to the prospective officer. The compensation package is based on the amount deemed necessary to attract and retain the services of the executive officer candidate. Incentive compensation is variable and tied to corporate and individual performance. The incentive compensation program is designed to provide incentive to management to grow revenues, provide quality returns on investment, enhance stockholder value and contribute to our long-term growth. The incentive compensation program is reviewed at least annually to ensure it meets our current strategies and needs. The Chief Executive Officer aids the Compensation Committee by providing input regarding the annual compensation of all executive officers, other than himself. The performance of our Chief Executive Officer is reviewed annually by the Compensation Committee.

The Board has not adopted a written Compensation Committee charter.

### **Nominations Committee**

Director nominees to our Board are recommended to the full Board by the Nomination Committee. The Board, as a whole, then approves or rejects such director nominees.

The identification of director nominees may occur in various ways, including through recommendation by our directors, management and stockholders. Although there are no specific minimum qualifications applicable to director nominees, in recommending director nominees, the independent directors evaluate the qualifications of identified director nominees in light of the skills, experience, perspective and background required for the effective functioning of our Board. While there is no formal policy with respect to diversity, the Board does consider such issues as diversity of education, professional experience, differences of viewpoints and skills when assessing individual director nominees. Nominations must also comply with the rules relating to stockholder proposals, as described under

Stockholder Proposals above. All director nominee recommendations and the subsequent nomination process are evaluated using the same guidelines described above.

## **PROPOSAL NO. 2 RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The Board, based on the recommendation of the audit committee, has selected The Hall Group, CPAs as the Company's independent registered public accounting firm for the fiscal year ending June 30, 2013 and recommends that the stockholders ratify such selection. Although not required, we believe that it is good corporate practice to request stockholder ratification of the Board's appointment of our independent registered public accounting firm. In the event that a majority of the shares are not voted in favor of ratification, the audit committee will reconsider its selection. Unless otherwise instructed, the proxy holders will vote the proxies they receive for the ratification of The Hall Group, CPAs' appointment as our independent registered public accounting firm for the fiscal year ending June 30, 2012. A representative of The Hall Group, CPAs is expected to be present telephonically at the Annual Meeting, will have an opportunity to make a statement if he desires to do so, and is expected to be available to respond to appropriate questions from stockholders.

## **PROPOSAL NO. 3 ADOPTION OF AMENDMENT TO AMENDED ARTICLES OF INCORPORATION TO INCREASE AUTHORIZED CAPITAL STOCK**

Our Board is proposing for stockholder approval an amendment to our amended articles of incorporation to increase the number of authorized shares of capital stock from 250,000,000 shares to 500,000,000 shares. The Company's articles of incorporation designate the number of preferred (1,000,000), common (249,000,000) or other (0) shares of capital stock but authority is reserved to the Board of Directors to reduce or increase the amounts designated for each class of capital stock from time to time

As of October 24, 2013:

10,474,610 shares of common stock were issued and outstanding, 0 shares of common stock were reserved for issuance upon the exercise of stock options and warrants granted by us. 125,125 shares of Series A preferred stock, 119,300 shares of Series B preferred stock were issued and outstanding, and convertible into 1,803,857 shares of common stock.

### **Purpose of Amendment**

The Board believes that it is advisable and in our best interests and those of our stockholders to have available additional authorized but unissued shares of common stock in order to maintain our flexibility to use such shares for business and/or financing purposes in the future. The newly authorized shares of capital stock, if and when issued and designated as common shares, will have the same rights and privileges as the shares of common stock currently authorized, issued and outstanding.

Raising capital,  
Expanding our business through acquisitions and other strategic transactions,  
Paying stock dividends or effecting stock splits,  
Providing equity incentives to employees, officers and directors, and  
Other general corporate purposes.

We have issued the convertible notes and debentures listed in the Schedule attached as Annex C in an aggregate principal amount of approximately \$4,073,897. The material terms of these notes and debentures are set forth in the Schedule attached as Appendix 3 including interest rate, due date, and the conversion price expressed as either a percentage of the market value of the Company's common stock on the date of conversion or as a fixed price as indicated in the Schedule. All such notes and debentures are now issued and outstanding. Market value for purposes of those notes or debentures providing for a conversion based on the market value of the Company's common stock is determined on a volume weighted average closing price of the Company's common stock on OTCQB for a period of trading days, generally being ten such days. The number of shares of common stock to be issued by the Company if all the notes and debentures in the Schedule were converted cannot be calculated with certainty but the Company estimates that the Company will issue in excess of 72,000,000 shares of its common stock on such conversion, which is greater than the available unissued common stock of the Company set forth in its Amended Articles of Incorporation.

We do not have any current plans, arrangements or understandings for issuances of our common or preferred stock other than (a) the possible issuances of up to 179,283,383 shares of common stock on exercise (if at all) of the Company's warrants as set forth in the draft Registration Statement of Form S-1 filed with the Securities & Exchange Commission on January 23, 2013, amended on March 19, 2013 and (b) issuance of an as yet undetermined number of

shares of common or preferred stock on a corporate combination that has not yet been negotiated or agreed but disclosed in our Press Release dated August 26, 2013. Shareholders may not have the right to approve or disapprove this possible corporate combination. There is and can be no assurance or guarantee that such corporate combination will be agreed or executed.

Like the currently authorized but unissued shares of our common stock, any additional shares of common stock authorized by this proposal would be available for issuance without further action by our stockholders, unless further action is required by law. The authorization of additional shares of common stock will enable

us, as the need may arise, to take advantage of market conditions and favorable opportunities without the delay and expense associated with the holding of a special meeting of our stockholders.

## **Possible Effects of Increasing Our Authorized Capital Stock**

The additional shares of capital stock, if issued and designated as common shares, would have the same rights and privileges as the shares of common stock currently authorized, issued, and outstanding. Any issuance of additional shares of common stock would increase the number of outstanding shares of common stock and (unless such issuance was pro-rata among existing stockholders) the percentage ownership of existing stockholders would be diluted accordingly.

Although an increase in the authorized shares of our common stock could, under certain circumstances, also be construed as having an anti-takeover effect (for example, by permitting easier dilution of the stock ownership of a person seeking to effect a change in the composition of our Board or contemplating a tender offer or other transaction resulting in our acquisition by another company), the proposed increase in shares authorized is not in response to any effort by any person or group to accumulate our common stock or to obtain control of us by any means. In addition, the proposal is not part of any plan by our Board to recommend or implement a series of anti-takeover measures.

## **Resolution Adopting the Proposed Amendment**

The following resolution, which will be presented at the Annual Meeting, will adopt the proposed amendment to our amended articles of incorporation to increase our authorized shares of capital stock:

RESOLVED, that the first two sentences of Article III of the Articles of Incorporation, are amended, is hereby amended to read as follows:

### **Article III**

The aggregate number of shares which the corporation shall have the authority to issue is 500,000,000 shares of capital stock at \$0.01 par value. The number of shares of common stock is designated at 499,000,000 and the number of one or more classes of preferred stock is 1,000,000.

The proposed increase in the authorized shares of capital stock would become effective immediately upon the filing of the Share Increase Amendment with the office of the Secretary of State of the State of Nevada. We expect to file the share Increase Amendment with the Secretary of State of the State of Nevada promptly upon approval by our stockholders. However, the Board reserves its right to elect to abandon the share Increase Amendment if it determines, in its sole discretion, that this proposal is no longer in our best interests or those of our stockholders.

*Our Board recommends a vote FOR approval of the amendment of our amended articles of incorporation to increase the number of authorized shares of our capital stock from 250,000,000 shares to 500,000,000 shares.*
