Risk factors

You should carefully consider all of the information in this prospectus supplement and the attached prospectus, which includes information incorporated by reference. In particular, you should evaluate the specific factors under **Risk Factors** beginning on page 3 of the prospectus and on page 25 of our Annual Report on Form 20-F for the fiscal year ended March 31, 2003, which is incorporated by reference in this prospectus supplement, for risks involved with an investment in the notes.

TAXATION

This section supplements the discussion under Certain U.S. Federal and U.K. Tax Considerations U.S. Federal Income Taxation Debt Securities in the attached prospectus relating to the notes.

The U.S. Federal income tax consequences of directly owning a note are generally described under Certain U.S. Federal and U.K. Tax Considerations U.S. Federal Income Taxation Debt Securities in the attached prospectus relating to the notes, except that (1) capital gain of a non-corporate U.S. holder will be taxed at a maximum rate of 15% if the property is held for more than one year and the gain is recognized before January 1, 2009, and, if the gain is recognized thereafter, at a maximum rate of 18% if the property is held for more than five years, (2) the backup withholding rate has been reduced to 28%, and (3) the finalized treasury regulations described in the attached prospectus relating to the notes are effective.

The U.K. income tax consequences of directly owning a note are generally described under Certain U.S. Federal and U.K. Tax Considerations U.S. Federal Income Taxation Debt Securities in the attached prospectus, subject to the comments set out below. The comments below are of a general nature based on U.K. law and practice. They do not necessarily apply where the income is deemed for tax purposes to be the income of any other person. Any holders of notes who are in doubt as to their own tax position should consult their professional advisor.

So long as the notes continue to be listed on a recognized stock exchange within the meaning of section 841 Income and Corporation Taxes Act 1988, the notes will qualify for the Quoted Eurobond exemption and payments of interest may be made without withholding or deduction for or on account of U.K. income tax. The exemption from withholding or deduction for or on account of U.K. income tax applies so long as the notes qualify for the Quoted Eurobond exemption.

Persons in the United Kingdom paying interest to or receiving interest on behalf of another person may be required to provide certain information to the United Kingdom Inland Revenue regarding the identity of the payee or the person entitled to the interest and, in certain circumstances, such information may be exchanged with tax authorities in other countries.

Holders of the notes should note that the provisions relating to additional amounts described under Description of Debt Securities We May Offer Payment of Additional Amounts in the attached prospectus would not apply if the Inland Revenue sought to assess directly the person entitled to the relevant interest to U.K. tax. However exemption from, or reduction of, such U.K. tax liability might be available under an appropriate double taxation treaty.

A new Convention between the United States and the United Kingdom for the Avoidance of Double Taxation came into force on March 31, 2003. A U.S. holder (as defined in Certain U.S. Federal and U.K. Tax Considerations in the attached prospectus) that is eligible for the benefits of the new Convention, referred to as an eligible U.S. holder, will be entitled to receive payments of interest free of withholding of U.K. tax and may be able to obtain a direction to that effect from the Inland Revenue. However, a direction will only be issued on prior application to the Inland Revenue by the eligible U.S. holder in question. Prospective holders of notes should consult their respective tax advisors to determine their eligibility for the benefits of this new Convention.

A transfer of notes by a holder resident or ordinarily resident for tax purposes in the

U.K. or who carries on a trade, profession or vocation in the U.K. through a branch or agency to which the notes are attributable may give rise to a charge to tax on income in respect of an amount representing interest on the notes which has accrued since the preceding interest payment date and after the date on which the holder acquired the notes. Such holders should also note that should the purchase price of the notes include accrued interest, on the next interest payment date, such holders will only be charged to tax on income in respect of interest that has accrued on the notes from the date of acquisition. For the avoidance of doubt, such holders will then be charged to tax on income in respect of all the interest received on each subsequent interest payment date.

In relation to inheritance tax, since the notes are fully registered, if a register is maintained in the United Kingdom, there may be a liability for inheritance tax.

The Council of the European Union has adopted a new directive regarding the taxation of savings income. Subject to a number of important conditions being met, Member States will be required to provide to the tax authorities of another Member State details of payments of interest (or other similar income) paid by a person within its jurisdiction to or for the benefit of an individual resident in that other Member State, except that Belgium, Luxembourg and Austria will instead operate a withholding system for a transitional period in relation to such payments. It is expected that the directive will take effect from January 1, 2005.

UNDERWRITING

We have entered into an underwriting agreement and a pricing agreement with the underwriters listed below. Subject to certain conditions, we have agreed to sell and each underwriter has severally agreed to purchase the principal amount of notes indicated opposite such underwriter's name in the following table.

Underwriter	Principal Amount of Notes
HSBC Bank plc	\$ 250,000,000
Lehman Brothers Inc.	\$ 250,000,000
Total	\$ 500,000,000

The underwriters propose to offer the notes from time to time for sale in negotiated transactions, or otherwise, at varying prices to be determined at the time of each sale. In connection with the sale of the notes, the underwriters may be deemed to have received compensation from us in the form of underwriting discounts. The underwriters may effect such transactions by selling the notes to or through dealers, and such dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or purchasers of the notes for whom they may act as agents or to whom they may sell as principal.

The notes are new issues of securities with no established trading market. We have been advised by the underwriters that the underwriters intend to make a market in the notes but they are not obligated to do so and may discontinue market making at any time without notice. No assurance can be given as to the liquidity of the trading market for the notes.

Delivery of the notes will be made against payment on June 26, 2003. Trades of securities in the secondary market generally are required to settle in three business days, referred to as T+3, unless the parties to a trade agree otherwise. Accordingly, by virtue of the fact that the initial delivery of the notes will not be made on a T+3 basis, investors who wish to trade the notes before a final settlement will be required to specify an alternative settlement cycle at the time of any such trade to prevent a failed settlement.

In the ordinary course of their respective businesses the underwriters and their affiliates have engaged and may in the future engage in various banking and financial services for and commercial transactions with us and our affiliates.

We estimate that our total allocable expenses of this offering, excluding the underwriters discount, will be approximately \$200,000. The underwriters have agreed to reimburse us for certain of these expenses.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act.

Application will be made to list the notes on the New York Stock Exchange. We expect that the notes will be eligible for trading on the New York Stock Exchange within 30 days after delivery of the notes.

Each underwriter has agreed that, in connection with the distribution of the notes, directly or indirectly:

it and each of its affiliates has not offered or sold and will not offer or sell any such notes to persons in the United Kingdom prior to the expiry of the period of six months from the date of the issue of the notes except to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or agent) for the purpose of their businesses or otherwise in circumstances which have not resulted and will not result in an offer to the public in the United Kingdom within the meaning of the Public Offers of Securities Regulations 1995;

it has complied and will comply with all applicable provisions of the Financial Services and Markets Act 2000 (the FSMA) with respect to anything done by it in relation to the notes in, from or otherwise involving the United Kingdom; and

Edgar Filing: VODAFONE GROUP PUBLIC LTD CO - Form 424B5

it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue and sale of any notes in circumstances in which Section 21(1) of the FSMA does not apply to Vodafone.
