Cecilia Bilesio
Corporate Secretary

Dear Tenaris Shareholder and ADR Holder,

I am pleased to invite you to attend the Annual General Meeting and an Extraordinary General Meeting of Shareholders of the Company. Both meetings will be held on Wednesday, June 6, 2007, at 46A, Avenue John F. Kennedy L-1855 Luxembourg. The Annual General Meeting will begin promptly at 11:00 a.m. (Central European Time), while the Extraordinary General Meeting will follow immediately thereafter.

At the Annual General Meeting, you will have the opportunity to hear a report on the Company's business, financial condition and results of operation and to vote on various matters, including the approval of the Company's financial statements, the election of the members of the board of directors and the appointment of the independent auditors. Subsequently, the Extraordinary General Meeting will decide to renew, for a further five years and otherwise on its current terms and conditions, the validity of the Company's authorized share capital, and the authorization to the board of directors to issue shares within that limit.

The Notice and Agenda for both Meetings, the Shareholder Meeting Brochure and Proxy Statement and the Company's 2006 annual report (which includes the Company's financial statements for the year ended December 31, 2006, 2005 and 2004 in their consolidated and unconsolidated form, together with the board of directors' and independent auditors reports), are available free of charge at the Company's registered office in Luxembourg and on our website at www.tenaris.com/investors. They may also be obtained upon request, by calling 1-800-990-1135 (if you are in the United States) or +1-201-680-6630 (if you are outside the United States).

Even if you only own a few shares or ADRs, I hope that you will exercise your right to vote at both Meetings. You can vote your shares personally or by proxy. If you choose to vote by proxy, you may use the enclosed dedicated proxy form. If you are a holder of ADRs, please see the letter from JPMorgan Chase Bank, N.A., depositary bank, for instructions on how to exercise your vote by proxy.

Yours sincerely,

Paolo Rocca
Chairman and Chief Executive Officer

Re: TENARIS S.A.

To: Registered Holders of American Depositary Receipts (“ADRs”) for Shares of Common Stock, US\$1 Par Value (“Common Stock”), of Tenaris S.A. (the “Company”):

The Company has announced that its Annual General Meeting of Shareholders will be held on June 6, 2007, at 11:00 a.m. (Central European Time), and that an Extraordinary General Meeting will be held immediately after conclusion of the Annual General Meeting. Both meetings will take place at 46A, Avenue John F. Kennedy L-1855 Luxembourg. **A copy of the Company’s Notice of Annual General Meeting and Extraordinary General Meeting of Shareholders, including the agenda for such meetings, is enclosed.**

The Notice of Annual General Meeting and Extraordinary General Meeting of Shareholders, the Shareholder Meeting Brochure and Proxy Statement, and the Company’s 2006 annual report (which includes the Company’s financial statements for the year ended December 31, 2006, 2005 and 2004 in their consolidated and unconsolidated form, together with the board of directors and independent auditors reports), are available on the website at www.tenaris.com/investors and may also be obtained upon request at 1-800-990-1135 (if you are in the United States) or +1-201-680-6630 (if you are outside the United States). These materials are provided to allow the shares represented by your ADRs to be voted at the meetings.

Each holder of ADRs as of April 30, 2007, which continues to hold such ADRs on May 22, 2007, is entitled to instruct JPMorgan Chase Bank, N.A., as Depositary (the “Depositary”), as to the exercise of the voting rights pertaining to the Company’s shares of Common Stock represented by such holder’s ADRs. Although voting instructions are sent to holders and proxy materials are available on the website beginning on May 5, 2007, only those Holders of record at each of April 30, 2007 and May 22, 2007 will be entitled to provide the Depositary with voting instructions. Notwithstanding that holders of ADRs must have held ADRs on each such date, in order to avoid the possibility of double vote, **only those positions on May 22, 2007 will be counted for voting instruction purposes.** Eligible ADR holders who desire to have their shares represented by their ADRs voted at the Meeting must complete, date and sign a proxy form and return it to JPMorgan Chase Bank, N.A., P.O. Box 3500, South Hackensack, NJ 07606-3500, U.S.A. If the Depositary receives properly completed instructions by **3:00 p.m., New York City time, on May 30, 2007**, then it shall vote or cause to be voted the shares underlying such ADRs in the manner prescribed by the instructions. However, if by 3:00 p.m., New York time, on May 30, 2007, the Depositary receives no instructions from the holder of ADRs, or the instructions are not in proper form, then the Depositary shall deem such holder to have instructed the Depositary to **vote the underlying shares of Common Stock of any such ADRs in favor of any proposals or recommendations of the Company**, for which purposes the Depositary shall issue a discretionary proxy to a person appointed by the Company to vote such shares in favor of any proposals or recommendations of the Company (including any recommendation by the Company to vote such shares on any given issue in accordance with the majority shareholder vote on that issue). No instruction shall be deemed given and no discretionary proxy shall be given with respect to any matter as to which the Company informs the Depositary it does not wish such proxy given or if the proposal has, in the discretion of the Depositary, a materially adverse effect on the rights of the holders of ADRs.

Any holder of ADRs is entitled to revoke any instructions which it has previously given to the Depositary by filing with the Depositary a written revocation or duly executed instructions bearing a later date at any time prior to **3:00 p.m., New York time, on May 30, 2007**. No instructions, revocations or revisions thereof shall be accepted by the Depositary after that time.

IF YOU WANT YOUR VOTE TO BE COUNTED, THE DEPOSITARY MUST RECEIVE YOUR VOTING INSTRUCTIONS PRIOR TO 3:00 P.M. (NEW YORK CITY TIME) ON MAY 30, 2007.

JPMORGAN CHASE BANK, N.A.

Notice of the Annual General Meeting and Extraordinary General Meeting of Shareholders to be held on June 6, 2007

Notice is hereby given to holders of shares of common stock of Tenaris S.A. (the “Company”) that the Annual General Meeting of Shareholders will be held on June 6, 2007, at 11:00 a.m. (Central European Time), and that an Extraordinary General Meeting will be held immediately after conclusion of the Annual General Meeting. Both meetings will be held at 46A, avenue John F. Kennedy L-1855 Luxembourg. In the Annual General Meeting, shareholders will vote with respect to the items listed below under the heading “Annual General Meeting of Shareholders”. At the Extraordinary General Meeting, shareholders will vote with respect to the items listed below under the heading “Extraordinary General Meeting of Shareholders”.

Agenda

Annual General Meeting of Shareholders

1. Consideration of the Board of Directors’ and independent auditor’s reports on the Company’s consolidated financial statements. Approval of the Company’s consolidated financial statements for the years ended December 31, 2006, 2005 and 2004.
2. Consideration of the Board of Directors’ and independent auditors’ reports on the Company’s annual accounts. Approval of the Company’s annual accounts as at December 31, 2006.
 3. Allocation of results and approval of dividend payment.
 4. Discharge to the members of the Board of Directors.
 5. Election of the members of the Board of Directors.
 6. Compensation of the members of the Board of Directors.
7. Authorisation to the Board of Directors to cause the distribution of all shareholder communications, including its shareholder meeting and proxy materials and annual reports to shareholders, by such electronic means as is permitted by any applicable laws or regulations.

Appointment of the independent auditors and approval of their fees. Pursuant to the Company’s Articles of Association, resolutions at the Annual General Meeting of Shareholders will be passed by simple majority vote, irrespective of the number of shares present or represented.

Extraordinary General Meeting of Shareholders

1. The renewal of the validity period of the Company’s authorized share capital for a period starting on the date of the general meeting of shareholders and ending on the fifth anniversary of the date of the publication in the Mémorial of the deed recording the minutes of such meeting and of the authorisation to the Board to issue shares from time to time within the limits of such authorised share capital against contribution in cash, in kind or by way of incorporation of reserves, at an amount that may not be less than the par value and may include such issue premium as the Board shall decide, while reserving to existing shareholders the preferential right to subscribe for such newly issued shares, except:

- a. in circumstances in which the shares are issued for a consideration other than cash;
 - b. with respect to shares issued as compensation to directors, officers, agents, or employees of the Company, its subsidiaries or affiliates; and
 - c. with respect to shares issued to satisfy conversion or option rights created to provide compensation to directors, officers, agents or employees of the Company, its subsidiaries or affiliates.
- Any shares to be issued for the purposes set forth in (b) and (c) may not exceed 1.5% of the Company's issued share capital.

2. The waiver of any preferential subscription rights of existing shareholders provided for by law and the authorisation to the Board to suppress any preferential subscription rights of existing shareholders, each time with respect to issuances of shares under (a), (b) and (c) above, and the acknowledgement and approval of the report of the Board on the authorised share capital and the proposed waiver and authorisation to the Board with respect to such issuances

Pursuant to the Company's Articles of Association, an extraordinary general meeting of shareholders convened to consider the renewal of the validity period of the Company's authorised share capital and the waiver of, suppression of, and authorisation to suppress or limit, preferential subscription rights by the Company's existing shareholders may only validly vote on such amendment on the first call if at least half of the share capital is present or represented. If the required quorum is not met, a second meeting may be convened by means of notices published twice, not less than twenty (20) days apart and in any case twenty (20) days before the meeting, in the Mémorial C, Recueil des Sociétés et Associations (Luxembourg Official Gazette), two Luxembourg newspapers and such other publications as are required under article 19 of the Company's Articles of Association. The second meeting may validly decide on the matter, regardless of the quorum present or represented. In each case, resolutions may only be passed by a two-thirds majority of the votes of the shareholders present or represented.

Procedures for Attending the Meetings

Holders of shares wishing to attend the meetings must obtain an admission ticket by depositing their certificates representing their common stock, not later than **4:00 p.m. (local time) on June 1st, 2007**, at the Company's office in Luxembourg or at the offices of any of the Company's subsidiaries set forth below:

Luxembourg: 46A, Avenue John F. Kennedy
L-1855 Luxembourg

Argentina: Carlos María della Paolera 299, piso 16°
(C1001ADA) Buenos Aires
Attn: Horacio de las Carreras and/or Eleonora Cimino

Italy: c/o Dalmine S.p.A.
Piazza Caduti 6 luglio 1944 n. 1 24044
Dalmine (BG)
Attn: Marco Tajana and/or Teresa Gaini

Mexico: c/o Tubos de Acero de México S.A.
Campos Eliseos 400-17
Col. Chapultepec Polanco
11560 Mexico D.F.
Attn: Félix Todd and/or Luis Armando Leviaguirre

Holders of shares through fungible securities accounts wishing to attend the meetings must present a certificate (issued by the financial institution or professional depository holding such shares) evidencing such deposit and certifying the number of shares recorded in the relevant account as of June 1st, 2007. Such certificate must be filed no later than **4:00 p.m. (local time) on June 1st, 2007**, at any of the addresses indicated above and, in the case of shares held in Mexico, with S.D. Indeval, S.A. de C.V. (Paseo de la Reforma #255, 2o. y 3er. piso Col. Cuauhtémoc, Mexico City).

Holder of shares as of June 1st, 2007, may also vote by proxy. To vote by proxy, holders must file the required certificate and a completed proxy form not later than **4:00 p.m. (local time) on June 1st, 2007** with any of the addresses indicated above or, in the case of shares held in Mexico, with S.D. Indeval, S.A. de C.V. in Mexico City.

Holders of American Depositary Receipts ("ADRs") as of April 30, 2007, which continue to hold such ADRs on May 22, 2007, are entitled to instruct JPMorgan Chase Bank, N.A., as Depository (the "Depository"), as to the exercise of the voting rights pertaining to the Company's shares of Common Stock represented by such holder's ADRs. Although voting instructions are sent to holders and proxy materials are available at our website beginning on May 5, 2007, only those holders of ADRs as of each of April 30, 2007 and May 22, 2007 will be entitled to provide the Depository with voting instructions. Notwithstanding that holders of ADRs must have held ADRs on each such date, in order to avoid the possibility of double vote, only those positions on May 22, 2007, will be counted for voting instruction purposes. Eligible ADR holders who desire to vote at the Meeting must complete, date and sign a proxy form and return it to JPMorgan Chase Bank, N.A. (the "Depository"), P.O. Box 3500, South Hackensack, NJ 07606-3500, U.S.A., by **3:00 p.m., New York City time, on May 30, 2007**.

The Shareholder Meeting Brochure and Proxy Statement (which contains reports on each item of the agenda for the meetings, and further details on voting procedures) and the forms furnished by the Company in connection with the meetings, may be obtained at any of the addresses indicated above, but also from the Depository, Borsa Italiana SpA (Piazza degli Affari 6, 20123, Milan, Italy) and S.D. Indeval S.A. de C.V., as from May 5, 2007, between 10:00 a.m. and 5:00 p.m. (local time).

Copies of the Shareholder Meeting Brochure and Proxy Statement and the forms are also available at www.tenaris.com/investors. Copies of the Company's 2006 annual reports (including the Company's financial statements for the years ended 2006, 2005 and 2004, the Board of Directors and independent auditors reports, and the documents referred to in the preceding sentence) may also be obtained free of charge at the Company's registered office in Luxembourg.

Shareholder Meeting Brochure and Proxy Statement

Annual General Meeting and Extraordinary General Meeting of Shareholders to be held on June 6, 2007

This Shareholder Meeting Brochure and Proxy Statement is furnished by Tenaris, S.A. (the “Company”) in connection with the Annual General Meeting of Shareholders and the Extraordinary General Meeting of Shareholders to be both held, for the purposes set forth in the accompanying Notice of the Annual General Meeting and Extraordinary General Meeting of Shareholders (the “Notice”), on June 6, 2007 starting at 11:00 a.m., at 46A, avenue John F. Kennedy L-1855 Luxembourg.

As of April 27, 2007, there were issued and outstanding 1,180,536,830 shares of common stock, US\$1 par value, of the Company (the “Common Stock”), including shares of Common Stock (the “Deposited Shares”) deposited with Fortis Bank Luxembourg S.A., as agent for JPMorgan Chase Bank, N.A., as depositary (the “Depositary”), under the Deposit Agreement, dated as of November 11, 2002, as amended on April 3, 2006 (the “Deposit Agreement”) among the Company, the Depositary and all holders from time to time of American Depositary Receipts (the “ADRs”) issued thereunder. The Deposited Shares are represented by American Depositary Shares, which are evidenced by the ADRs (one ADR equals two Deposited Shares).

Each holder of shares of Common Stock is entitled to one vote per share. Holders of shares that hold shares through fungible securities accounts and wish to attend the Meetings must present a certificate (issued by the financial institution or professional depositary holding such shares) evidencing such deposit and certifying the number of shares recorded in the relevant account on June 1st, 2007. Such certificate must be filed no later than 4:00 p.m. (local time) on June 1st, 2007, at any of the addresses indicated in the Notice, or, in the case of shares held in Mexico, with S.D. Indeval, S.A. de C.V., in Mexico City.

Holders of shares as of June 1st, 2007, may also vote by proxy. To vote by proxy, such holders must file the requisite certificate and a completed proxy form not later than 4:00 p.m. (local time), on June 1st, 2007, at any of the addresses indicated in the Notice, or, in the case of shares held in Mexico, with S.D. Indeval, S.A. de C.V., in Mexico City.

Each holder of ADRs as of April 30, 2007, which continues to hold such ADRs on May 22, 2007, is entitled to instruct JPMorgan Chase Bank, N.A., as Depositary (the “Depositary”), as to the exercise of the voting rights pertaining to the Company’s shares of Common Stock represented by such holder’s ADRs. Although voting instructions are sent to holders and proxy materials are available at our website beginning on May 5, 2007, only those Holders of record as of each of April 30, 2007 and May 22, 2007 will be entitled to provide the Depositary with voting instructions. Notwithstanding that holders of ADRs must have held ADRs on each such date, in order to avoid the possibility of double vote, only those positions on May 22, 2007 will be counted for voting instruction purposes. Eligible holders of ADRs who desire to have their shares represented by their ADRs voted at the Meeting must complete, date and sign a proxy form and return it to JPMorgan Chase Bank, N.A., P.O. Box 3500, South Hackensack, NJ 07606-3500, U.S.A. If the Depositary receives properly completed instructions by 3:00 p.m., New York City time, on May 30, 2007, then it shall vote or cause to be voted the shares underlying such ADRs in the manner prescribed by the instructions. However, if by 3:00 p.m., New York time, on May 30, 2007, the Depositary receives no instructions from the holder of ADRs, or the instructions are not in proper form, then the Depositary shall deem such holder to have instructed the Depositary to vote the underlying shares of Common Stock of any such ADRs in favor of any proposals or

recommendations of the Company, for which purposes the Depositary shall issue a discretionary proxy to a person appointed by the Company to vote such shares in favor of any proposals or recommendations of the Company (including any recommendation by the Company to vote such shares on any given issue in accordance with the majority shareholder vote on that issue). No instruction shall be deemed given and no discretionary proxy shall be given with respect to any matter as to which the Company informs the Depositary it does not wish such proxy given or if the proposal has, in the discretion of the Depositary, a materially adverse effect on the rights of the holders of ADRs. Any holder of ADRs is entitled to revoke any instructions which it has previously given to the Depositary by filing with the Depositary a written revocation or duly executed instructions bearing a later date at any time prior to 3:00 p.m., New York time, on May 30, 2007. No instructions, revocations or revisions thereof shall be accepted by the Depositary after that time.

7

Due to regulatory differences and market practices in each country where the Company's shares or ADRs are listed, the holders of shares traded on the Argentine and Italian stock exchanges who have requested admission to the meetings, or who have issued a voting proxy, must have their shares blocked for trading until the date of the meetings, while holders of shares traded in the Mexican stock exchange and holders of ADRs traded in the New York stock exchange need not have their shares or ADRs, as the case may be, blocked for trading. However, the votes of holders of shares traded in the Mexican stock exchange who sell their shares between May 30, 2007 and June 6, 2006, shall be disregarded.

The meetings will appoint a chairperson *pro tempore* to preside over them. The chairperson *pro tempore* will have broad authority to conduct the meetings in an orderly and timely manner and to establish rules for shareholders who wish to address either meeting; the chairperson may exercise broad discretion in recognizing shareholders who wish to speak and in determining the extent of discussion on each item of the agenda.

Pursuant to the Company's Articles of Association, resolutions at the Annual General Meeting of Shareholders will be passed by majority vote, irrespective of the number of shares present or represented. The extraordinary general meeting of shareholders convened to consider the renewal of the validity period of the Company's authorized share capital, and the waiver of, suppression of, and authorisation to suppress or limit, preferential subscription rights by the Company's existing shareholders may only validly meet on the first call if at least half of the share capital is present or represented. If the required quorum is not met, a second meeting may be convened by means of notices published twice, not less than twenty (20) days apart and in any case twenty (20) days before the meeting, in the *Mémorial C, Recueil des Sociétés et Associations* (Luxembourg Official Gazette), two Luxembourg newspapers and such other publications as are required under article 19 of the Company's Articles of Association. The second meeting may validly decide on the matter, regardless of the quorum present or represented. In each case, resolutions may only be passed by a two-thirds majority of the votes of the shareholders present or represented.

The meetings are called to address and vote on the following agenda:

Annual General Meeting of Shareholders

1. Consideration of the Board of Directors' and Independent Auditor's Reports on the Company's Consolidated Financial Statements. Approval of the Company's Consolidated Financial Statements for the Years Ended December 31, 2006, 2005 and 2004.

The Board of Directors recommends a vote FOR approval of the Company's consolidated financial statements for the fiscal years ended December 31, 2006, 2005 and 2004, after due consideration of the reports from each of the Board of Directors and the independent auditors on such consolidated financial statements. The consolidated balance sheet of the Company and its subsidiaries at December 31, 2006, 2005 and 2004 and the related consolidated statement of income, consolidated statement of changes in shareholders' equity, consolidated cash flow statement and notes to the consolidated financial statements, the independent auditors' report on such consolidated financial statements and management's discussion and analysis on the Company's results of operations and financial condition are included in the Company's 2006 annual report, a copy of which is available on our website at www.tenaris.com/investors and may also be obtained upon request at 1-800-990-1135 (if you are in the United States) or +1-201-680-6630 (if you are outside the United States).

2. Consideration of the Board of Directors' and Independent Auditors' Reports on the Company's annual accounts. Approval of the Company's annual accounts as at December 31, 2006.

The Board of Directors recommends a vote FOR approval of the Company's annual accounts as of, and for the fiscal year ended, December 31, 2006, after due consideration of the report from each of the Board of Directors and the independent auditors on such annual accounts. These documents are included in the Company's 2006 annual report, a copy of which is available on our website at www.tenaris.com/investors and may also be obtained upon request at 1-800-990-1135 (if you are in the United States) or +1-201-680-6630 (if you are outside the United States).

3. Allocation of Results and Approval of Dividend Payment.

The Board of Directors recommends a vote FOR approval of a dividend payable in U.S. dollars on June 21, 2007, in the amount of US\$0.30 per share of Common Stock currently issued and outstanding and US\$0.60 per ADR currently issued and outstanding. All of the aggregate amount of US\$354,161,049 to be distributed as dividends are to be paid from profits of the year ended December 31, 2006. The balance of the fiscal year's profits will be allocated to the Company's retained earnings account.

Upon approval of this resolution, it is proposed that the Board of Directors determine, in its discretion, the terms and conditions of the dividend payment, including the applicable record date.

4. Discharge to the Members of the Board of Directors.

In accordance with applicable Luxembourg law and regulations, it is proposed that, upon approval of the Company's accounts for the year ended December 31, 2006, the members of Board of Directors be discharged of any responsibilities in connection with the management of the Company's affairs during such year.

5. Election of the Board of Directors' Members.

The Company's Articles of Association provide for the annual election by the holders of Common Stock of a Board of Directors of not less than five and not more than fifteen members. Members of the Board of Directors have a term of office of one year, but may be reappointed.

Under applicable U.S. laws and regulations, effective on July 15, 2005, the Company is required to have an audit committee comprised solely of directors who are independent.

The present Board of Directors of the Company consists of nine Directors. Three members of the Board of Directors (Messrs. Jaime Serra Puche, Amadeo Vázquez y Vázquez and Roberto Monti) qualify as independent members under the Company's Articles of Association and applicable law.

It is proposed that the size of the Board of Directors be increased to ten members, with (1) the current nine members of the Board of Directors being re-elected, and (2) Mr. Carlos Condorelli (presently, the Company's chief financial officer) be also appointed as a member of the Board of Directors.

Set forth below is summary biographical information of each of the candidates:

- 1. Mr. Roberto Bonatti.** Mr. Bonatti is a member of our board of directors. Mr. Bonatti has been involved in Techint Group businesses, specifically in the engineering and construction and corporate sectors, throughout his career. He was first employed by the Techint Group in 1976, as deputy resident engineer in Venezuela. In 1984, he became a director of San Faustín, and, since 2001, he has served as its president. In addition, Mr. Bonatti currently serves as president of Techint Compañía Técnica Internacional S.A.C.I. of Argentina and Tecpetrol S.A. of Argentina and as a director of Tenaris, Siderca and Siderar. Mr. Bonatti is an Italian citizen.
- 2. Mr. Carlos Condorelli.** Mr. Condorelli currently serves as our chief financial officer, a position that he assumed in October 2002. He is also a board member of Ternium. He began his career within the Techint group in 1975 as an analyst in the accounting and administration department of Siderar. He has held several positions within Tenaris and other Techint group companies, including finance and administration director of Tubos de Acero de México, S.A. ("Tamsa") and president of the board of directors of Empresa Distribuidora La Plata S.A., or Edelap, an Argentine utilities company. Mr. Condorelli is an Argentine citizen.
- 3. Mr. Carlos Manuel Franck.** Mr. Franck is a member of our board of directors. He is president of Santa María S.A.I.F., Inverban S.A. vice president of Siderca SAIC and a member of the board of directors of Techint Financial Corporation N.V., Industrial Investments Inc., Siderar S.A., Tecpetrol S.A. and Tecgas N.V. He has financial, planning and control responsibilities in subsidiaries of San Faustín N.V. Mr. Franck is an industrial engineer and an Argentine citizen.
- 4. Mr. Bruno Marchettini.** Mr. Marchettini has retired from executive positions, but continues to be the referent advisor in steel technology matters for the Techint Group. He is member of the board of directors of San Faustín N.V., Ternium S.A. and Siderar SA.I.C. Mr. Marchettini is an Italian citizen.
- 5. Mr. Roberto Monti*.** Mr. Monti is a non-executive chairman of Trefoil Limited., member of the board of directors of Petrobras Energia, Transocean Offshore Drilling and of John Wood Group PLC. Served as vice president of Exploration and Production of Repsol YPF and chairman and CEO of YPF. He was also president of Dowell, a subsidiary of Schlumberger and president of Schlumberger Wire & Testing division for East Hemisphere Latin America. Mr. Monti is an Argentine citizen.

- 6. Mr. Gianfelice Mario Rocca.** Mr. Rocca is chairman of the board of directors of San Faustín, a member of the board of directors of I.I.I. Industrial Investments Inc., Tenaris S.A., Dalmine S.p.A., Tamsa. and Ternium S.A., president of the Humanitas Group and president of the board of directors of Techint Compagnia Tecnica Internazionale S.p.A., Techint S.A. de C.V. In addition, he sits on the board of directors or executive committees of several companies, including Sirti S.p.A., Ras, RCS Quotidiani, Fastweb and Buzzi Unicem. He is vice president of Confindustria, the leading association of Italian industrialists. He is a member of the European Advisory Board of the Harvard Business School, the Trilateral Commission. Mr. Rocca graduated in Physics cum laude at the University of Milan and holds a postgraduate degree from the Harvard Business School. Mr. Rocca is an Italian citizen.
- 7. Mr. Paolo Rocca.** Mr. Rocca is chairman of our board of directors and our chief executive officer. He is also chairman of the board of directors of Tamsa and of Dalmine, S.p.A. and vice president of Confab Industrial S.A. He is also chairman of the board of Ternium S.A. and director and vice president of San Faustín N.V. and director of Techint Financial Corporation N.V. Mr. Rocca is member of the Executive Committee of the IISI (International Iron and Steel Institute) and member of the International Advisory Committee of the NYSE (New York Stock Exchange) Mr. Rocca is an Italian citizen.
- 8. Mr. Jaime Serra Puche*.** Mr. Serra Puche is chairman of SAI Consultores, and a member of the board of directors of Chiquita Brands International, The Mexico Fund, Vitro and Grupo Modelo. Mr. Serra Puche served as Mexico's Undersecretary of Revenue, Secretary of Trade and Industry, and Secretary of Finance. He led the negotiation and implementation of NAFTA. Mr. Serra Puche is a Mexican citizen.
- 9. Mr. Amadeo Vázquez y Vazquez*.** Mr. Vázquez y Vázquez is a director of Gas Natural Ban, S.A., third vice president of Cámara Argentina de Comercio, communications advisor of Departamento de Infraestructura de la Unión Industrial Argentina, and Vocal of the Executive Committee of Asociación Empresaria Argentina. He was also chairman of the board of directors of Telecom Argentina S.A. Mr. Vázquez y Vázquez is an Argentine citizen.
- 10. Mr. Guillermo F. Vogel.** Mr. Vogel is vice chairman of Tamsa, vice chairman of the American Iron & Steel Institute, chairman of the North American Steel Council, chairman of Grupo Collado, vice chairman of Estilo y Vanidad S.A. de C.V. and a Director of the North American Competitiveness Council, the International Iron and Steel Institute and HSBC (México) being also a member of its audit committee . Mr. Vogel is a Mexican citizen.

* Independent directors

Each elected director will hold office until the next annual general meeting of shareholders. Under the current Company's Articles of Association, such meeting is required to be held on June 4, 2008.

The Company's Board of Directors met nine times during 2006. On January 31, 2003, the Board of Directors created an Audit Committee pursuant to Article 11 of the Articles of Association. As permitted under applicable laws and regulations, the Board of Directors does not have any executive, nominating or compensation committee, or any committees exercising similar functions.

6. Compensation of the Members of the Board of Directors.

It is proposed that each of the members of the Board of Directors receive an amount of US\$ 70,000 as compensation for their services during the fiscal year 2007. It is further proposed that the Chairman of the Audit Committee receive an additional fee of US\$10,000 and that the other members of the Board of Directors who are members of such Committee receive an additional fee of US\$50,000.

7. Authorisation to the Board of Directors to Cause the Distribution of all Shareholder Communications, Including its Shareholder Meeting and Proxy Materials and Annual Reports to Shareholders, by Such Electronic Means as is Permitted by any Applicable Laws or Regulations.

In order to expedite shareholder communications and ensure their timely delivery, the Board of Directors recommends that it be authorized to cause the distribution of all shareholder communications, including its shareholder meeting and proxy materials and annual reports to shareholders (either in the form of a separate annual report containing financial statements of the Company and its consolidated subsidiaries or in the form of a Form 20-F or similar document, as filed with the securities authorities or stock markets) by such electronic means as are permitted or required by any applicable laws or regulations (including any interpretations thereof), including, without limitation, by posting such communication on the Company's web site, or by sending an email with attachment in a widely used format or with a hyperlink to the applicable filing by the Company on the website of the above referred authorities or stock markets, or by any other existing or future electronic means of communication.

8. Appointment of Independent Auditors and Approval of their Fees.

Based on the recommendation from the Audit Committee, the Board of Directors recommends a vote FOR the appointment of PricewaterhouseCoopers (acting, in connection with the Company's annual accounts required under Luxembourg law, through PricewaterhouseCoopers S.à.r.l., Réviseur d'entreprises, and, in connection with the Company's annual and interim financial statements required under the laws of any other relevant jurisdiction, through Pricewaterhouse & Co. S.R.L.) as the Company's independent auditors for the fiscal year ending December 31, 2007, to be engaged until the next annual general meeting that will be convened to resolve on the 2007 accounts.

In addition, the Board of Directors recommends a vote FOR approval of an amount up to US\$5'083,000 payable to the independent auditors as fees for audit services and audit related services to be rendered during the fiscal year ending December 31, 2007 and to authorise the Audit Committee to increase the independent auditors' fees should it conclude that circumstances would merit any such change. Such fees cover the audit of the Company's consolidated financial statements and its annual accounts, the audit of the Company's internal controls over financial reporting as mandated by the Sarbanes-Oxley Act of 2002, and other services.

Extraordinary General Meeting of Shareholders

1. The renewal of the validity period of the company's authorized Share Capital for a period starting on the date of the General Meeting of Shareholders and ending on the fifth anniversary of the date of the publication in the Mémorial of the deed recording the minutes of such meeting and of the authorisation to the Board to issue shares from time to time within the limits of such authorised Share Capital against contribution in cash, in kind or by way of incorporation of reserves, at an amount that may not be less than the par value and may include such issue premium as the Board shall decide, while reserving to existing shareholders the preferential right to subscribe for such newly issued shares, except:

- a. In circumstances in which the shares are issued for a consideration other than cash;
- b. With respect to shares issued as compensation to directors, officers, agents, or employees of the company, its subsidiaries or affiliates; and
- c. With respect to shares issued to satisfy conversion or option rights created to provide compensation to directors, officers, agents or employees of the company, its subsidiaries or affiliates.

Any shares to be issued for the purposes set forth in (b) and (c) may not exceed 1.5% of the company's issued share capital.

2. The waiver of any preferential subscription rights of existing shareholders provided for by law and the authorisation to the Board to suppress any preferential subscription rights of existing shareholders, each time with respect to issuances of shares under (a), (b) and (c) above, and the acknowledgement and approval of the report of the Board on the authorised Share Capital and the proposed waiver and authorisation to the Board with respect to such issuances.

The Board of Directors believes that the proposed renewal of the validity period of the Company's authorized share capital, the authorisation to the Board of Directors to issue shares within the authorized share capital and the waiver of, suppression of, and authorisation to suppress or limit, preferential subscription rights by the Company's existing shareholders is in the best interests of the Company and its shareholders and accordingly recommends a vote FOR this proposal.

Shareholders are reminded that the authorized share capital, the authorisation to the Board of Directors to issue shares within the authorized share capital and the exceptions set forth under (a), (b) and (c) are currently contained in the Company's Articles of Association and are therefore simply renewed.

The Board of Directors is of the opinion that the successful implementation and development of the Company and its group's long term strategy will depend, among other factors, on the Company's ability to grow through acquisitions or other investments on the best possible terms, and that the existence of the preferential subscription rights provided for by Luxembourg law for the benefit of existing shareholders will seriously reduce the flexibility of the Company to finance through issuances of shares its operations and potential growth; in addition, the preferential subscription rights procedure contemplated by the Luxembourg law would, in some cases, risk delaying increases in share capital and issuances of new shares at times when timing would be of the essence.

Accordingly, the Board of Directors believes it to be in the Company's best interest that the Board of Directors be authorized to negotiate and conclude acquisitions, investments, joint venture and other transactions using shares or rights to shares (either at or below market price, and including by way of incorporation of reserves) of the Company's capital as acquisition currency. Similarly, the Board of Directors believes that the interest of the Company requires that maximum flexibility be granted so that the Company be able to react quickly and without delay to any suitable acquisition, investment, joint venture or other strategic proposals or projects and/or to secure financing in connection thereto by issuing or offering to issue shares for consideration other than cash.

The Board of Directors also believes that the interest of the Company requires that the Board be authorized to issue such shares or rights thereto either at or below market price, as it may be necessary or convenient in light of the facts and circumstances of the transaction in question or its strategic significance.

The Board of Directors further believes that in order for the Company and its group to maximize its ability to attract and retain valuable directors, managers, officers, agent or employees, it is in the best interest of the Company to retain the flexibility to elect to offer to such persons shares or conversion, option or similar plans or incentive programs permitting the subscription of shares in the Company. Such plans and programs, by serving the purpose of facilitating the recruitment or retention of key employees and executives, would enable the Company and its group to secure, further strengthen and develop its market position and continue the implementation of the Company's long term strategy.

Accordingly, the Board of Directors believes that issuances of shares as compensation to, or to satisfy conversion or option rights created to provide compensation to directors, officers, agents or employees of the Company, its subsidiaries or its affiliated companies should be made by the Board upon such terms and conditions as it deems fit and without reserving preferential subscription rights to existing shareholders; provided, however, that any such issuances shall be limited to 1.5% of the Company's issued share capital from time to time.

The Company anticipates that the next Annual General Meeting of Shareholders will be held on June 4, 2008. Any holder of shares who intends to present a proposal to be considered at the next Annual General Meeting must submit the proposal in writing to the Company at any of the offices indicated in the Notice not later than 4:00 P.M. (local time) on March 31, 2008, or in accordance with the procedures set forth under applicable Luxembourg law, in order for such proposal to be considered for inclusion on the agenda for the 2008 annual general meeting of shareholders.

PricewaterhouseCoopers are the Company's independent auditors. A representative of the independent auditors will be present at the Meetings to respond to questions.

Cecilia Bilesio
Secretary to the Board of Directors

Cautionary statement

Some of the statements contained in this Annual Report are "forward-looking statements". Forward-looking statements are based on management's current (February 2007) assumptions and involve known and unknown risks that could cause actual results, performance or events to differ materially from those expressed or implied by those statements. These risks include, but are not limited to, risks arising from uncertainties as to future oil and gas prices and their impact on the investment programs by oil and gas companies.

Certain figures included in this Annual Report have been subject to rounding adjustments. Accordingly, figures shown as totals in tables may not be the sum of the figures that precede them, and percentages in the text may not total 100% or may not be the sum of the percentages that precede them.

15

Company profile

Tenaris is the leading supplier of tubes and related services for the world's energy industry, as well as for other industrial applications. Our mission is to deliver value to our customers through product development, manufacturing excellence, and supply chain management. We minimize risk for our customers and help them reduce costs, increase flexibility and improve time-to-market. Our employees around the world are committed to continuous improvement by sharing knowledge across a single global company.

Chairman's letter

Dear Shareholders,

2006 was a momentous year for Tenaris. Earnings, cash flow from operations and investments in operations reached record levels. After many years of exclusion from the US market, we made a decisive move to establish ourselves as the leading player in North America through the acquisition of Maverick Tube Corporation, concluded in October, and the pending acquisition of Hydril Company, announced earlier this month. In China, we started up our first industrial operation in the country with a premium connection threading and coupling facility at Qingdao, with which we will consolidate our position as a supplier of products for complex drilling operations in this large and growing market.

In Romania, we completed the integration of the Donasid steel shop we acquired in 2005 into our European operations and bought out the remaining minority interests in Silcotub. In Italy, we began commissioning our new power generation facility at Dalmine and concluded the sale of a 75% participation in Dalmine Energie, our energy trading business, establishing a partnership with E.ON, one of Europe's leading energy companies. In Russia, we penetrated the market for pipes for complex drilling operations with sales of our TenarisBlue® premium connections for use in Gazprom's Astrakhan and Orenburg fields and for Lukoil's Narianmar operations. In the Middle East, we were able to draw on our long-standing experience in the region and comprehensive range of products to more than double sales as the market took off.

The acquisition of Maverick transforms our position in North America, the world's largest market for pipes used in the drilling, completion and production of oil and gas, accounting for over 40% of all OCTG products consumed worldwide. That of Hydril would accelerate the transformation by making us the leader in premium connection technology for complex applications. More than one-third of our sales will be in this region. We are building a solid regional platform to provide customers here the service, quality and technology that our global customers are used to receiving elsewhere in the world. In a market where demand for standard products for mature fields complements that for specialized products for some of the most innovative offshore and non-conventional drilling operations anywhere in the world, we will supply a full range of products to cover all the applications of our customers, all made to a single, exacting, quality standard.

Our capital investment program is advancing as planned. We are increasing the capacity of our globally integrated industrial system to deliver the specialized products used in the world's most demanding applications with new heat treatment, premium threading and R&D and inspection facilities. With Hydril, we would further enhance our capabilities in this area and would be able to offer an unparalleled range of premium connections to our customers worldwide. Our investments in R&D continue to increase as we develop and test new products and improve mill processes. In November, we opened a new R&D center in Veracruz, expanding our global network of research centers.

Global demand for oil and gas continues to grow. Decline rates at producing oil and gas fields are higher than in the past as the fields mature. To keep pace with global demand and offset decline rates, investment is increasing in the exploration and development of new fields in complex operating environments requiring the use of specialized products and services. The capacity of the offshore drilling fleet is set to see a strong increase to service new deepwater projects, as is the number of rigs drilling wells of depths greater than 15,000 feet.

As global capacity in the tubular sector increases to meet higher demand from the oil and gas industry and other sectors, Tenaris is consolidating its position as industry leader and laying solid foundations for further growth. Our unique global positioning, our focus on manufacturing high quality products for use in the most complex applications, our ability to deliver a full range of products with integrated supply chain services under long-term agreements, our decisive move to expand in North America, all serve to differentiate us from our competitors.

We will continue to work hard to reinforce our competitive position and to build on the expansion and transformation we have managed over the past 15 years. With 29 industrial centers in 12 countries and 21,800 employees, we are engaged in a project integrating industrial, R&D, systems and management operations to cement the common identity of a global enterprise, while at the same time contributing to the sustainable development of the local communities where we have our roots.

Our financial results reflect the benefits of a strong market and the positioning we have built over a long period. Net sales for the year rose to USD 7.7 billion and EBITDA to USD 3.0 billion. Earnings per share rose 52% to USD 1.65, or USD 3.30 per ADS, following on from last year's 63% growth. As we are investing to position the company for further growth, we propose to maintain the dividend at last year's level and pay USD 0.30 per share (USD 0.60 per ADS) in June.

We welcome all the new employees who have joined us this year. The expansion in North America and the new operation in China add further diversity to our workforce and will strengthen it. The integration process is under way and is adding to the high workload of a demanding market. I want to thank all of our employees for their commitment and unstinting efforts and also express my thanks to our customers, suppliers and shareholders for their continuous support and confidence in Tenaris.

February 28, 2007

Paolo Rocca

18

Business review

Market background and outlook

In 2006, global demand for oil and gas continued to rise reflecting economic growth and the importance of oil and gas in the energy matrix. Encouraged by continuing high levels of oil and gas prices, oil and gas companies throughout the world continued to increase their level of spending and drilling activity to offset declining rates of production from mature fields and to explore and develop new reserves. The international count of active drilling rigs, as published by Baker Hughes, rose steadily quarter on quarter throughout the year to average 952 during the fourth quarter, showing an increase of 9% compared to the same quarter of the previous year matching the average increase for the year overall compared to 2005.

The corresponding percentage annual rig count increases in the US and Canadian markets, which are more sensitive to North American natural gas prices, were 19% and 3% respectively. For the fourth quarter, however, the Canadian rig count registered a 23% decline compared to the fourth quarter of 2005. The US rig count, although up 16% over the fourth quarter of 2005, was flat compared to the third quarter of 2006.

We estimate that global apparent consumption of OCTG (oil country tubular goods) in 2006 grew approximately 14% compared to 2005, and will continue to grow in 2007.

However, the rate of growth is expected to slow from the high rates of the past three years and we are likely to see downwards inventory adjustments in North America.

Demand from the energy sector for specialized pipe products, including premium connections, used in complex drilling and other high-performance applications, is expected to match the growth of the overall OCTG market.

Favorable market conditions and increased demand for our specialized pipe products, including premium connections, helped us to record sales growth and an increase in operating margin for our tubular products and services (Tubes) segment in the first nine months of the year. The consolidation of the energy products division of Maverick within this segment during the fourth quarter resulted in an increase in sales but a reduction in the operating margin from the previous quarter. For 2007, we expect to record further growth in sales in our Tubes segment due to the consolidation of Maverick for the full year and to maintain, or improve, the segment operating margin from that recorded in the fourth quarter of 2006 as we make progress in integrating welded OCTG and line pipe products under our sales strategy for North America.

Demand for our large diameter pipes for pipeline projects in South America in 2006 was affected by delays in the implementation of major gas pipeline infrastructure projects in Brazil and Argentina. This resulted in a substantial decline in sales and margins in our Projects segment from those recorded in 2005, notwithstanding an increase in sales for pipeline projects in North America and Africa. With orders in hand for the delayed projects in Brazil and Argentina and deliveries expected to begin at the end of the first quarter, we expect a significant increase in sales and improved margins in 2007 for our Projects segment, assuming there are no further delays to deliveries to these projects.

Summary of results

Our 2006 annual results reflect a further year of strong growth at Tenaris. They benefited from a strong market and the positioning we have built up over a number of years. Earnings per share grew 52% following growth of 63% in 2005. Demand for our high quality tubular products and services from the oil and gas industry remained firm throughout the year, particularly in the Middle East and Africa where sales more than doubled. Following the recent integration of Maverick, sales in 2007 are expected to grow strongly in North America.

Net sales rose by 24%. Sales of tubular products and services rose by 33%, accounting for 88% of total sales. Sales of pipes for pipeline projects declined by 43% pursuant to delays in the implementation of pipeline projects in Brazil and Argentina. Operating income rose by 44% to USD 2,792 million, or 36% of net sales, compared to USD 1,946 million, or 31% of net sales in 2005, with sales from our tubular products and services segment accounting for 96% of operating income.

Cash flow from operations rose 40% to USD 1,811 million in 2006 compared to USD 1,295 million in 2005. However, following the acquisition of Maverick in October, net debt rose to USD 2,095 million at December 31, 2006 compared to USD 183 million at December 31, 2005. Capital expenditures rose to USD 441 million in 2006 from USD 284 million in 2005 as we stepped up investments in finishing lines and heat treatment facilities for specialized products and advanced with the construction of a power generation facility in Italy.

Oilfield services

We supply a comprehensive range of high-quality seamless and welded casing and tubing, premium connections, coiled tubing and accessories for use in the most demanding oil and gas drilling and well completion activities. Using our unique network of manufacturing, service and distribution and R&D facilities, we focus on reducing costs for our customers through integrated supply chain management and developing industry-leading products.

Sales of our TenarisBlue® premium connections continued to grow strongly during 2006. Now accounting for as much as 30% of our premium connection sales, it is firmly established in the Middle East and North African markets and was a major factor in the growth of our sales of tubes in this region. We successfully introduced it in the USA where sales to Newfield for their operations in Oklahoma were followed by sales to Anadarko and Wagner and Brown. We also introduced it in Russia where the technology was instrumental in the selection by Gazprom of Tenaris to supply advanced tubular products to their Astrakhan, Orenburg and Kuban operations as well as by Lukoil to supply pipes for their Narianmar project.

Other customers using TenarisBlue® premium connections for the first time included the local operations of BP, Shell and Burlington in Algeria; Sonangol, the national oil company of Angola; ADCO, the national oil company in UAE; PDVSA in Venezuela; the local operations of ConocoPhillips in Nigeria; ChevronTexaco in Australia; Shell in Egypt; Talisman in Malaysia, and ENI in Norway.

To keep pace with this growing customer base, we expanded our global network of licensed repair shops for the TenarisBlue® thread. Meanwhile, the range of more complex drilling operations where it is used is continuously being extended. For example, ConocoPhillips successfully used our TN 110 SS proprietary pipe grade with TenarisBlue® premium connections for an advanced drilling with casing drilling program offshore in the North Sea.

We also made progress with the introduction of our new connections, the TenarisBlue® Near Flush, an integral connection for use in slim wells, and the TenarisBlue® SAGD, a connection specially designed for use with slotted

liners. Customers for the TenarisBlue® Near Flush connection include the Norwegian operations of ConocoPhillips and ENIREpsa, the Saudi joint venture drilling deep gas wells. The TenarisBlue® SAGD is used extensively in oil sands operations in Canada but we were successful in introducing it in Oman where Occidental is using it in the Mukhaizna heavy oil development. Our new R&D center in Veracruz will enable us to accelerate the customer testing and qualification process for these and other new products, particularly in larger diameter sizes.

We work with many customers under long-term framework agreements. Although the terms of these agreements vary, our aim is to provide a secure source and comprehensive range of tubular products backed up by integrated logistical and technical assistance services. During the year we renewed our agreement with Pemex in Mexico, extended our agreement with Repsol to cover the whole of Latin America, and renewed our agreements with ENI (global), Shell (Europe), ExxonMobil (Nigeria), AgipKCO (Kazakhstan) and ChevronTexaco (global). In Egypt, we opened a new service base at Alexandria. From here, we are providing pipe management services to Petrobel, IEOC and other operators under framework agreements.

Pipeline services

We supply an extensive range of seamless and welded line pipe products, complete with coatings and accessories for use in onshore, offshore and deepwater pipelines, with on-site, ready-for-installation delivery. Our focus is on providing the risers, flowlines and subsea tubular components for the deepwater and ultra deepwater markets where we are a major player in the Gulf of Mexico, West Africa, Far East, United Kingdom and Scandinavia.

As the industry moves further into frontier deepwater exploration and production projects, increasingly stringent technical requirements are required for our products. We are promoting and participating in joint industry programs with customers to research and develop the new product capabilities for use in the critical environments envisaged for future projects. These programs include development of weldable seamless X100 steel pipe, research into fatigue corrosion in sour environments, and research into tensile strain limit design models for pipelines.

In a market where products have become more demanding and delivery schedules more complex, we have begun discussing long-term agreements with some customers. We concluded agreements with Aramco, the leading player in the Middle East, and ChevronTexaco, a leading global player in deepwater projects. Under our agreement with ChevronTexaco, we supplied risers and flowlines to the Blind Faith project in the Gulf of Mexico and we are working with them in West Africa for projects such as Tombua Landana.

One of the most important projects of the year for Tenaris in this segment was the supply of 40,000 tons to the Akpo deepwater project in West Africa. This involved a wide dimensional range and a full package of deepwater solutions, including steel catenary risers, flowlines, oil offloading lines, export lines and line pipe for the topsides of the field development project in a water depth of 1,300 to 1,400 meters. The project tested our industrial capabilities to the full.

Process & power plant services

We provide comprehensive material planning, supply chain management services and on-time delivery of quality products to enable customers in the process and power plant industry to meet the demanding needs of major refinery, petrochemical and power plant contracts.

Downstream project activity remained strong during the year but new projects are taking longer to move forward due to rising costs, geopolitical uncertainties and the backlog of work at the leading engineering companies. As in last year, the focus of activity was the Middle East with gas processing projects to the fore. In addition, investment in major refinery projects around the world is picking up.

Major projects during the year included the Khursaniyah and Hawiyah NGL recovery programs in Saudi Arabia. These oil and gas processing facilities will support the Abu Hadriya, Fadhili and Khursaniyah oil fields and will boost oil production capacity in the Kingdom by some 2.3 million barrels per day by 2009. We worked closely with Snamprogetti and Bechtel and supplied 50,000 tons of pipes during the year for these developments.

In other projects in the Middle East, we are supplying pipes for the main projects to expand LNG processing capacity in Qatar. We are working closely with the Chiyoda-Technip joint venture on the RasGas 6 and 7, QatarGas II and QatarGas III and IV LNG trains. These projects will produce over 45 million tons per year of LNG, more than 25% of total global LNG capacity. In the UAE, we are working closely with Bechtel on the Offshore Gas Development III and the Asab Gas Development II projects that are part of a development to meet local gas demand in Abu Dhabi.

We are participating in two large refinery projects. In India, we are working with Bechtel to supply pipes for the expansion of Reliance's Jamnagar refinery. This expansion would add 580,000 barrels per day of heavier crude processing capacity to the 660,000 barrels per day existing capacity and make Jamnagar the world's largest single site refinery. In Vietnam we are working with the EPC consortium to supply pipes for PetroVietnam's Dung Quat refinery. This refinery will be the first in Vietnam and would meet 40% of local demand with an annual capacity of 6.5 million metric tons.

Industrial & automotive services

We provide a wide variety of seamless pipe products for industrial applications with a focus on segments such as automotive components, hydraulic cylinders, gas cylinders and architectural structures where we can add value with our specialist product development and supply chain management expertise. Sales are concentrated in Europe, particularly Italy where our mill has traditionally served this market, but we also have significant sales in North America, the Far East and Mercosur.

Overall, market conditions were good in 2006, particularly in the segment of gas cylinders and hollows for gas cylinders, in which Tenaris is the global market leader. We registered 15% growth in sales in this segment led by strong demand from China and India. We have been working on materials with ultra-high tensile strength (>1.100 Mega Pascal) and with excellent toughness properties at low temperatures (-50 °C) in order to meet demand for lighter gas cylinders with improved safety protection.

In the automotive segment, demand for our high-end components such as tubular components for airbags continues to grow, as well as output at our facility in Veracruz which was up 57% year on year. We developed and introduced a new prototype component using an ultra-high strength steel grade in collaboration with the design teams of established airbag inflator manufacturers. Nevertheless, overall sales to the automotive sector declined due to a phase-out from certain under-performing product lines, where we are facing intense competition from producers of general purpose tubes and alternative technologies.

In the hydraulic cylinder segment, we concluded a five-year contract with Caterpillar in the USA to provide multi-customized tubular components for hydraulic cylinders used in the excavators manufactured at the Joliet facility in Illinois for the NAFTA market. We are building a dedicated component centre at our Romanian mill for this project.

Sales of tubes for general mechanical applications declined primarily due to mill capacity constraints reflecting a strong demand for other product categories and the repositioning of mill capacity in Japan and Europe to oil and gas product applications. Competition in this sector, particularly in our main market in Europe, remains fierce as low-priced products continue to enter the market from countries such as China.

R&D: expanding the global network

In November 2006, we inaugurated a new Research & Development Center at our plant in Veracruz, Mexico. Built at a cost of USD 14 million, the center is the latest addition to our global R&D network that also includes research centers in Argentina, Japan and Italy.

Strategically located near the Gulf of Mexico, the center conducts research in four main areas: welding technology, fracture mechanics, process engineering and metallurgy and materials. In this last area, research is focused on the development of value-added OCTG products, line pipe and risers for deep and ultra-deep water applications. The center's full scale testing laboratory possesses some of the most sophisticated equipment found in the world for testing tubes and threads.

Worldwide, more than 200 scientists and engineers, more than half of whom hold PhDs or Master's degrees, work in Tenaris R&D centers. At the largest of these centers, the *Centro de Investigación Industrial* (CINI), located at our mill in Campana, Argentina, research is conducted in a wide range of areas: steel metallurgy, computational mechanics, surfaces and coating chemistry, metal forming and furnace technology, among others. The center in Japan specializes in high alloy products and process technology.

In Italy, research is conducted primarily through the industry-supported *Centro Sviluppo Materiali*, in Rome. However, we are constructing a new research center at our mill in Dalmine which will be opened in mid-2007. This will focus on industrial and automotive applications.

Through our global network of R&D centers, we work with more than 60 universities and research institutions worldwide which conduct basic and applied research for us and for industry consortia in which we participate. This combination of internal and external expertise provides us with the means to develop the value-added products and improved production processes that are vital to our future growth.

Communities and environment review

Tenaris's growth has been made possible by adhering to certain values that guide the Company's internal management and its relationships with customers, suppliers and the communities where the Company is present. These values are centered on a conviction that industry plays a key role in promoting lasting and equitable economic growth for societies and that Tenaris will add value to its operations as well as to the wider community by interacting with employees and others in accordance with that conviction.

Consistent with this vision, Tenaris strives to build partnerships, both internally and externally, that foster growth and opportunity for all involved. The importance we place on such relationships is manifested in our commitment to protecting the health and safety of our employees, maintaining transparent relations with customers and suppliers and collaborating with government and non-governmental organizations in the communities in which we operate.

Valuing education, we invest continuously in the development of our own workforce and support a wide variety of educational initiatives at primary, secondary and university level. Through a revitalized Global Trainee Program, where many in Tenaris's senior management began, Tenaris recruits recent university graduates and develops them to be tomorrow's senior management.

Much of the training that both Global Trainees (GTs) and other Tenaris employees receive, is focused on developing their engineering skills and knowledge of the company's core industrial processes, and is delivered through the Tenaris University Industrial School. At a time when demand for skilled engineers is high, especially in our own industry, we believe that this emphasis on attracting and developing people that have the requisite education and skills is critical to our future growth.

In our community relations we stress support for academic excellence. In Argentina and Mexico we are carrying out a series of projects aimed at improving the quality of primary and secondary education in schools close to our plants in Campana and Veracruz. Drawing on the expertise of UNESCO and international experts as well as local universities and the active participation of school officials, students and their families, we take an integrated approach including investment in infrastructure, the provision of school supplies and scholarships.

In the area of higher education we continue to support the Roberto Rocca Education Program, which Tenaris co-founded in 2005. Designed to encourage the study of engineering in selected countries, the program in 2006 awarded 400 Scholarships to undergraduate students, and seven Fellowships for doctoral studies at leading international universities. As is the case with all of our community projects, we seek to reward merit and initiative by granting Scholarships and Fellowships only to those students who combine academic excellence with outstanding personal qualities.

The prevention of illness and disease is another key area for community action for Tenaris. In Mexico we instituted a breast cancer screening program for our employees and family members. Once the preliminary round of screening is completed, the program will be extended to the rest of the community around our plant in Veracruz. In Canada we contributed one million Canadian dollars towards a community fund for the construction of a maternal and child health center in Sault Ste. Marie.

In all of our community programs we seek to promote social integration and leverage our own contribution by partnering with other governmental and non-governmental organizations in projects that involve the active participation of the project's beneficiaries. This was the approach we took in Mexico in the program "For a dignified home," which involves the construction of 280 homes and a community center for low-income families in Veracruz.

The program, which gives special consideration to families in which a family member is physically handicapped, is co-sponsored by the city of Veracruz and other organizations. The construction work is complemented by job training and other activities designed to facilitate the beneficiaries' integration in the broader Veracruz community and the development of micro-enterprises.

With more than 20,000 employees drawn from dozens of countries, we view the diversity of our workforce as one of our strengths. The combination of rational analysis and diversity of ideas and cultures will continue to play an instrumental role in the growth of Tenaris. Thus, we make a continuous effort to foster respect among employees for language, cultural and gender differences and are committed to broadening this diversity at all levels of the Company.

This belief in the benefits of diversity is also reflected in our support for cultural institutions. Working closely with the *Fundación Proa* in Buenos Aires and the *Associazione per la Galleria d'Arte Moderna e Contemporanea* in Bergamo and through agreements with the Museum of Fine Arts in Houston and cultural institutions in Brazil, Mexico and Japan, we promote cultural exchanges in our local communities through art exhibits, seminars and other initiatives. Among the highlights in 2006 was the first edition of the Latin Wave Film Festival we sponsored at the Museum of Fine Arts in Houston. The three-day event, co-organized by *Fundación Proa*, featured films from Argentina, Brazil, Colombia, Mexico and Venezuela.

This year in Italy, we celebrated the 100th anniversary of our Dalmine mill. The activities included an open day when more than 12,000 people from the surrounding community visited our industrial facilities and attended a concert.

Health, safety and the environment

Tenaris is committed to protecting the health and safety of its employees and the communities in which it operates, as well as to minimizing its own impact on the environment and supporting broader industry and public efforts to protect the environment. In accordance with the principle of sustainable development, our efforts in this area are focused on improving the efficiency of our operations, reducing energy consumption, minimizing waste, recycling and employee training.

We continue to work on the implementation and improvement of our integrated Health, Safety and Environment (HSE) management system. Based on international standards such as ISO 14000 and OHSAS 18000, the system applies eco-efficiency and integral safety concepts to all of our operations. Following the introduction of an integrated IT safety and environmental tool, we are able to record, track and analyze safety and environment accidents and incidents at all of our plants.

We believe that accidents do not happen by chance. All injuries and work-related illnesses can and must be prevented. To achieve this objective, we have instituted innovative programs that reward safe behavior. Weekly meetings are held with managers, safety staff and workers at each of our plants to discuss accidents and share ideas for improving safety. These activities are complemented by extensive risk assessment analyses, internal inspections and audits, safety committees and global safety reports. Investments in training, processes and workplace behavior are complemented by capital investments in the plants, while a significant proportion of our capital investment spending is allocated towards improving safety in our operations.

For the sixth consecutive year, our lost-time accident incident fell in 2006, declining by 12% in comparison to 2005. Since 2001 this indicator has fallen by 55%.

A significant portion of new investment at Tenaris contributes to the reduction of the environmental impact of the Company's operations, products and services.

We adopt the most appropriate and eco-efficient designs and technologies available and continuously review our environmental performance so as to improve it. We monitor the operations of our subcontractors in addition to our own, seeking to maximize efficiency in the use of energy and material resources and recycling of by-products -both at our own facilities and by third parties - as well as minimize the generation of waste, emissions and effluents in the supply chain.

But perhaps our most significant contribution to the environment comes from the delivery of products which can perform in the most demanding conditions and on whose quality our customers can rely. We work constantly to improve the quality and reliability of our products, developing new products which can help our customers reduce the impact of their operations on the environment. We aim to supply under an integrated supply chain concept which aims to reduce risk and waste as well as costs.

We actively participate in different governmental and non-governmental forums focused on the environment. These forums include the environmental commissions and working groups of organizations such as the International Iron & Steel Institute (IISI), the Latin American Iron & Steel Institute and various national chapters of the World Business Council for Sustainable Development.

TenarisUniversity: the Industrial School

As a company built on a strong engineering tradition, we are committed to developing the human resources with the technical skills and knowledge that are a key source of our competitive advantage. To reinforce this commitment and to develop a common industrial culture across the company, we founded in late 2005 the Industrial School within our corporate university, TenarisUniversity.

The Industrial School's curriculum consists of a graduated series of courses of increasing complexity that cover subjects such as Primary Steelmaking, Secondary Steelmaking, Continuous Casting, Hot Rolling, Finishing, Heat Treatments, Non Destructive Testing, Electric Resistance Welding, Health Safety and Environment, Industrial Management, Maintenance, Physical Metallurgy and Product Development. Introductory courses are directed towards employees who have successfully completed the Company's two-year Global Trainee Program, which is open to recent university graduates. Upon completing these courses employees will pass on to more advanced courses that will be held either at Tenaris or at leading international universities and research centers.

Training is delivered through a combination of e-learning modules and classroom activities at global events, where employees from multiple mills are brought together, and regional events. Instructors include Tenaris experts as well as professors from top universities around the world.

Tenaris personnel that serve as instructors receive training through Training the Trainers workshops. The Industrial School is also developing training initiatives to acquaint university engineering students with the steel industry.

The School held its first global and regional events in 2006 and will expand its offering in 2007. By 2008 the School's curriculum will be fully developed and classroom activities for global events will be conducted at the new TenarisUniversity campus, now under construction at our plant in Campana, Argentina. The campus will also serve as a venue for training activities for TenarisUniversity's other three schools -Administration & Finance, Commercial and Management - which were launched during 2006 and will begin offering courses in 2007.

Corporate governance

Tenaris has one class of shares, with each share having equal rights including the entitlement to one vote at our shareholders' meetings. Our articles of association provide that the annual ordinary shareholders' meeting, which approves our annual financial statements and appoints the board of directors, take place each year on the first Wednesday of June.

Board of directors

Management of Tenaris is vested in a board of directors. Our articles of association provide for a board of directors consisting of at least five and at most fifteen directors. The board of directors is required to meet as often as required by the interests of Tenaris and at least four times per year. A majority of the members of the directors present or represented at each board of directors' meeting constitutes a quorum, and resolutions may be adopted by the vote of a majority of the directors present or represented. In the case of a tie, the chairman is entitled to cast the deciding vote.

Directors are elected at the annual ordinary shareholders' meeting to serve one-year renewable terms, as decided by the shareholders. The shareholders may dismiss all or any one director at any time, with or without cause, by resolution passed by majority vote, irrespective of the number of shares present or represented at the annual ordinary shareholders' meeting. In 2006, the board of directors met nine times.

The annual shareholders' meeting held on June 7, 2006 approved the appointment of nine directors, three of whom are independent.

Audit committee

Tenaris has an audit committee consisting of three members, all of whom are independent directors. The members of the audit committee are not eligible to participate in any incentive compensation plan for employees of Tenaris or any of its subsidiaries. Under our articles of association, as supplemented by the audit committee charter, the audit committee:

- assists the board of directors in fulfilling its oversight responsibilities relating to the integrity of our financial statements and system of internal controls and the independence and performance of the independent auditors;
- reviews material transactions between Tenaris and its subsidiaries with related parties to determine whether their terms are consistent with market conditions or are otherwise fair to Tenaris and its subsidiaries, and
- performs the other duties entrusted to it by the board of directors, particularly as regards relations with the independent auditors.

The audit committee has the authority to conduct any investigation appropriate to fulfilling its responsibilities, and has direct access to the independent auditors as well as anyone at Tenaris and, subject to applicable laws, its subsidiaries.

The audit committee is required to report to the board of directors on its activities and once a year on the adequacy of the internal control systems. In 2006, the audit committee met five times and on each occasion presented its report to the board of directors.

Auditors

The annual accounts are audited by independent auditors. Auditors are appointed by the shareholders through a resolution passed by a simple majority vote at the annual shareholders' meeting, irrespective of the number of shares present or represented, on the audit committee's recommendation. Shareholders may determine the number and the term of office of the auditors, which may not exceed one year. As part of their duties, the auditors report directly to the audit committee.

PricewaterhouseCoopers (acting, in connection with our annual accounts, through PricewaterhouseCoopers S.à.r.l., Réviseur d'entreprises, and, in connection with our consolidated financial statements, through Price Waterhouse & Co. S.R.L.), served as our independent auditors during the 2006 fiscal year and are proposed for reappointment.

Compensation

The compensation of the members of our board of directors is determined at the annual ordinary shareholders' meeting. The aggregate compensation earned by our directors and executive officers during 2006 amounted to USD 16.0 million.

Corporate governance standards

Our corporate governance practices are governed by Luxembourg Law (particularly the law of August 10, 1915 on commercial companies and the law of July 31, 1929, as amended) and our articles of association. As a Luxembourg company listed on the New York Stock Exchange (the NYSE), the Bolsa Mexicana de Valores, S.A. de C.V. (the Mexican Stock Exchange), the Bolsa de Comercio de Buenos Aires (the Buenos Aires Stock Exchange) and Borsa Italiana S.p.A. (the Italian Stock Exchange), we are not required to comply with all of the corporate governance listing standards of these exchanges. We, however, believe that our corporate governance practices meet, in all material respects, the corporate governance standards that are generally required for controlled companies by all of the exchanges on which our securities trade.

Code of Conduct

We have a Code of Conduct incorporating guidelines and standards on integrity and transparency applicable to all our employees and directors. This Code of Conduct establishes the ethical principles that form the basis for relations between the company, its employees and third parties and provides means and instruments to give transparency to issues and problems that may have a bearing on the management of the company. We also have a Code of Ethics for Financial Officers, which applies to our principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions and is intended to supplement our Code of Conduct.

Information required under the Luxembourg Law on takeovers of May 19, 2006

We have an authorized share capital of a single class of 2,500,000,000 shares with a par value of USD 1.00 per share. Our authorized share capital is fixed by our articles of association as amended from time to time with the approval of our shareholders in an extraordinary shareholders' meeting. There were 1,180,536,830 shares issued as of December 31, 2006. All shares are fully paid.

Our board of directors is currently composed of nine directors. Directors are elected at the annual ordinary shareholders' meeting to serve one-year renewable terms. Under our articles of association, our board of directors is authorized until July 22, 2007, to increase from time to time our issued share capital in whole or in part within the limits of the authorized capital. A renewal of this authorization for an additional five-year period is being proposed to the annual general shareholders' meeting to be held on June 6, 2007.

Under our articles of association, any issuance of new shares of the Company pursuant to the authorization granted to its board of directors must grant our existing shareholders a preferential right to subscribe for such newly-issued shares, except:

- in circumstances in which the shares are issued for consideration other than money;
- with respect to shares issued as compensation to directors, officers, agents or employees, its subsidiaries or affiliates; and
- with respect to shares issued to satisfy conversion or option rights created to provide compensation to directors, officers, agents or employees, its subsidiaries or affiliates.

Any shares to be issued as compensation or to satisfy conversion or option rights may not exceed 1.5% of our issued capital stock.

Our articles of association do not contain any redemption or sinking fund provisions, nor do they impose any restrictions on the transfer of our shares. Amendment of our articles of association requires the approval of shareholders on an extraordinary shareholders' meeting.

The Company is controlled by San Faustín N.V., a Netherlands Antilles corporation, which owns 60.4% of the Company's outstanding shares, either directly or through its wholly owned subsidiary I.I.I. Industrial Investments Inc., a Cayman Islands corporation. Our directors and executive officers as a group own 0.2% of the Company's outstanding shares, while the remaining 39.4% are publicly traded. Our shares trade on the Italian Stock Exchange, the Buenos Aires Stock Exchange and the Mexican Stock Exchange; in addition, our American Depositary Securities trade on the New York Stock Exchange. The Company's ultimate controlling entity is Rocca & Partners S.A., a British Virgin Islands corporation.

None of our outstanding securities have any special control rights. There are no restrictions on voting rights, nor are there, to the knowledge of the Company, any agreements among shareholders of the Company that might result in restrictions on the transfer of securities or the exercise of voting rights.

There are no significant agreements to which the Company is party and which take effect, alter or terminate in the event of a change in control of the Company following a takeover bid, thereby materially and adversely affecting the Company, nor there are any agreements between the Company and members of its Board of Directors or employees that provide for compensation if they resign or are made redundant without reason or if their employment ceases pursuant to a takeover bid.

Bridge building: tubes to integrate communities

For the last five years, we have been working in close collaboration with Toni Ruttimann, a Swiss-born humanitarian worker who in the last 20 years has helped isolated communities in Latin America and Southeast Asia build more than 360 bridges.

Our collaboration with Toni *el Suizo*, as the peasants in Ecuador where he built his first bridge named him, began in 2001, when our mill in Mexico donated steel tubes to build 28 bridges throughout the state of Veracruz. The initiative, dubbed *Puentes de Esperanza* (Bridges of Hope), has benefited some 30,000 people.

Since then, we have provided Toni with steel tubes to build a further 70 bridges in Ecuador, Cambodia and Vietnam. We have also arranged shipping for the tubes and helped Toni and his team get materials through customs. Inspired by Toni's story, our employees have put in extra hours to seeing the materials he needs arrive.

Our on-going support for Toni's work around the world is based on more than just an inspiring story. We share his conviction that the key to successful community development is to focus on initiatives that have a meaningful impact and that are carried out with the active involvement of the beneficiaries.

A bridge may not be the answer to all an impoverished community's needs. But by making it easier for the community's residents to reach a doctor, a market or school, they are one step closer to a better quality of life.

**Consolidated Financial Statements
for the years ended December 31, 2006, 2005 and 2004**

Operating and financial review

This review of Tenaris's results of operations and financial condition is based on, and should be read in conjunction with, the audited consolidated financial statements of Tenaris and the related notes included elsewhere in this annual report. It compares Tenaris's results on a consolidated basis for the fiscal year ended December 31, 2006 with its results for the fiscal year ended December 31, 2005. Tenaris prepares its consolidated financial statements in conformity with International Financial Reporting Standards (IFRS), which differ in certain significant respects from US GAAP and other national accounting standards

Results of operations

The following table sets forth, for the periods indicated, selected financial data from our consolidated income statement and expresses our operating and other costs and expenses as a percentage of net sales.

35

Selected financial data (all amounts in USD thousands)

	2006		2005		2004	
YEAR ENDED DECEMBER 31 CONTINUING OPERATIONS						
Net sales	7,727,745	100%	6,209,791	100.00%	3,718,193	100.00%
Cost of sales	(3,884,226)	-(50.30%)	-(3,429,365)	(55.20%)	-(2,378,474)	(64.00%)
Gross profit	3,843,519	49.70%	2,780,426	44.80%	1,339,719	36.00%
Selling, general and administrative expenses	(1,054,806)	(13.60%)	(832,315)	(13.40%)	(661,226)	(17.80%)
Other operating income and expenses	3,773	0.00%	(2,199)	(0.00%)	127,165	3.40%
Operating income	2,792,486	36.10%	1,945,912	31.30%	805,658	21.70%
Interest income	60,798	0.80%	23,815	0.40%	14,236	0.40%
Interest expense	(92,576)	(1.20%)	(52,629)	(0.80%)	(46,161)	(1.20%)
Other financial results	26,826	0.30%	(79,772)	(1.30%)	38,304	1.00%
Income before equity in earnings of associated companies and income tax	2,787,534	36.10%	1,837,326	29.60%	812,037	21.80%
Equity in earnings of associated companies	94,667	1.20%	117,377	1.90%	6,141	5.50%
Income before income tax	2,882,201	37.30%	1,954,703	31.50%	1,018,178	27.40%
Income tax	(869,977)	(11.30%)	(567,368)	(9.10%)	(217,226)	(5.80%)
Income for continuing operations	2,012,224	26.00%	1,387,335	22.30%	800,952	21.50%
DISCONTINUED OPERATIONS						
Income (loss) for discontinued operations	47,180	0.60%	(3)	0.00%	4,029	0.10%

INCOME FOR THE YEAR	2,059,404	26.60%	1,387,332	22.30%	804,981	21.60%
ATTRIBUTABLE TO	1,945,314	25.20%	1,277,547	20.60%	784,703	21.10%
Equity holders of the Company	114,090	1.50%	109,785	1.80%	20,278	0.50%
Minority interest	2,059,404	26.60%	1,387,332	22.30%	804,981	21.60%

Segment reporting

Following the acquisition of Maverick Tube Corporation, a leading North American producer of welded pipe products for the energy industry, and the sale of a majority participation in Dalmine Energie, our Italian energy supply business, we reassessed the definition of our business segments. Starting with these financial statements for the year 2006, Tenaris changed its segment reporting into three business segments: Tubes, Projects, and Others.

Tubes, or tubular products and services, includes the operations that consist of the production, distribution and sale of seamless and welded tubular products mainly for energy and select industrial applications.

Projects, or pipes for pipeline projects, includes the operations that consist of the production, distribution and sale of welded pipes mainly used in the construction of major pipeline projects.

Others, or other products and services, includes the operations that consist mainly of the production, distribution and sale of sucker rods, hot briquetted iron, electrical conduit steel and metallic structures.

Corporate general and administrative expenses have been allocated to the Tubes segment.

Comparative amounts have been re-presented to conform to this new disclosure.

The following table indicates the distribution of our net sales by business segment for the periods indicated:

Millions of USD

	2006		2005		Increase/ (Decrease)
Tubes	6,824.30	88%	5,124.00	83%	33%
Projects	453.5	6%	790	13%	(43%)
Others	449.9	6%	295.8	5%	52%
Total	7,727.70	100%	6,209.80	100%	24%

The following table indicates our sales volume of seamless and welded pipes by business segment for the periods indicated:

Metric tons

	2006	2005	Increase/(Decrease)
Tubes Seamless	2,919,000	2,870,000	2%
Tubes Welded	297,000	–	
Tubes Total	3,216,000	2,870,000	12%
Projects Welded	281,000	501,000	(44%)
Total Tubes + Projects	3,497,000	3,371,000	4%

Tubes

The following table indicates, for our Tubes business segment, net sales by geographic region, cost of sales as a percentage of net sales, operating income and operating income as a percentage of net sales:

NET SALES (USD million)	2006	2005	Increase/ (Decrease)
North America	1,992.40	1,663.50	20%
South America	960	838.8	14%
Europe	1,314.40	1,022.70	29%
Middle East & Africa	1,895.30	933	103%
Far East & Oceania	662.3	666	(1%)
Total net sales	6,824.30	5,124.00	33%
Cost of sales (% of sales)	47%	53%	
Operating income (USD million)	2,670.50	1,701.50	57%
Operating income (% of sales)	39%	33%	

Net sales of tubular products and services rose 33% to USD 6,824.3 million in 2006, compared to USD 5,124.0 million in 2005, due primarily to an increase in the average selling price of our tubular products and services and the incorporation of sales from the former Maverick operations in the fourth quarter. Sales rose particularly strongly in the Middle East and Africa as there was strong demand for our TenarisBlue® premium connection and other specialized OCTG products and services, particularly in Saudi Arabia but more generally throughout the region, where there has been a sustained increase in investment in oil and gas drilling activity. In North America, excluding sales from the former Maverick operations, sales declined primarily due to reduced demand for our OCTG products and services in Mexico, where drilling activity was impacted by oilfield cost inflation and Pemex budgetary constraints, as well as lower sales of line pipe products for process and power plant construction to engineering companies in the USA and Canada. In South America, an increase in average selling prices offset a decline in sales of OCTG products in Venezuela as PDVSA reduced its stock of tubular inventories during the year. In Europe, there was an increase in sales of line pipe products to European-based process and power plant contractors and of OCTG products and services for the North Sea and a reduction in sales of tubes to industrial and automotive customers. In the Far East and Oceania, although the average selling price of our products increased, sales volumes of line pipe products to process and power plant customers in China and throughout the region declined, as did sales of industrial products in Japan and OCTG products throughout the region.

Operating income from tubular products and services rose 57% to USD 2,670.5 million in 2006, from USD 1,701.5 million, reflecting the increase in sales and an increase in the gross margin.

Projects

The following table indicates, for our Projects business segment, net sales, cost of sales as a percentage of net sales, operating income and operating income as a percentage of net sales:

PROJECTS	2006	2005	Increase/ (Decrease)
Net sales (USD million)	453.5	790	(43%)
Cost of sales (% of sales)	72%	66%	
Operating income (USD million)	56.3	179.6	(69%)
Operating income (% of sales)	12%	23%	

Net sales of pipes for pipeline projects declined 43% to USD 453.5 million in 2006, compared to USD 790.0 million in 2005, due to lower sales volumes. Regional demand for pipes for pipeline projects in South America was strong in 2005 due to a significant number of projects in Brazil. In 2006, demand in the region was affected as large pipeline projects planned in Brazil and Argentina were delayed. Sales to projects outside South America increased with sales made to pipeline projects in North America and Africa.

Operating income from pipes for pipeline projects fell 69% to USD 56.3 million in 2006 from USD 179.6 million, due primarily to the decrease in shipments, higher logistics costs and higher administrative costs expressed as a percentage of net sales.

Others

The following table indicates, for our Others business segment, net sales, cost of sales as a percentage of net sales, operating income and operating income as a percentage of net sales:

OTHERS	2006	2005	Increase/ (Decrease)
Net sales (USD million)	449.9	295.8	52%
Cost of sales (% of sales)	73%	64%	
Operating income (USD million)	65.7	64.8	1%
Operating income (% of sales)	15%	22%	

Net sales of other products and services rose 52% to USD 449.9 million in 2006, compared to USD 295.8 million in 2005, as sales of the principal product categories (hot briquetted iron, sucker rods, metallic structures) included in this segment all increased and the sales of conduit pipes from the former Maverick electrical products division were included from the fourth quarter.

Operating income from other products and services rose 1% to USD 65.7 million in 2006 from USD 64.8 million in 2005, due to higher sales. The operating margin decreased due primarily to a reduction in margins on sales of hot briquetted iron. These sales represented around 40% of total sales in this segment in 2006.

Selling, general and administrative expenses, or SG&A, increased marginally as a percentage of net sales to 13.6% in 2006 compared to 13.4% in 2005. Total SG&A rose to USD 1,054.8 million in 2006 from USD 832.3 million in 2005, due to higher labor costs, higher commission, freight and other selling expenses (reflecting higher sales) and increased charges for amortization of intangible assets relating principally to assets acquired in connection with the Maverick acquisition.

Net interest expenses totaled USD 31.8 million in 2006, compared to net interest expenses of USD 28.8 million in 2005. Net interest expenses increased substantially in the fourth quarter of 2006 reflecting the change in net debt position following the acquisition of Maverick.

Other financial results contributed a gain of USD 26.8 million in 2006, compared to a loss of USD 79.8 million during 2005. These results largely reflect gains and losses on net foreign exchange transactions and the fair value of derivative instruments and are to a large extent offset by changes to our net equity position. They arise due to the fact that most of our subsidiaries prepare their financial statements in currencies other than the US dollar in accordance with IFRS.

Equity in earnings of associated companies generated a gain of USD 94.7 million in 2006 compared to a gain of USD 117.4 million in 2005. These gains were derived mainly from our equity investment in Ternium and our former indirect equity investment in Sidor, prior to its exchange for an investment in Ternium in September 2005.

Income tax charges of USD 870.0 million were recorded during 2006, equivalent to 31% of income before equity in earnings of associated companies and income tax, compared to income tax charges of USD 567.4 million, equivalent to 31% of income before equity in earnings of associated companies and income tax, during 2005.

Income from discontinued operations amounted to USD 47.2 million in 2006, compared to a break-even result in 2005.

Net income rose 48% to USD 2,059.4 million, or 27% of net sales, in 2006, compared to USD 1,387.3 million, or 22% of net sales, in 2005 reflecting an increase in operating income and an improvement in other financial results, which was partially offset by a proportionate increase in income tax charges.

Income attributable to equity holders in the Company was USD 1,945.3 million in 2006, compared to USD 1,277.5 million in 2005.

Income attributable to minority interest was USD 114.1million in 2006, compared to USD 109.8 million in 2005. Higher income attributable to minority interest at our NKKTubes subsidiary more than offset a decline in income attributable to minority interest at our Confab subsidiary.

42

Liquidity and capital resources

The following table provides certain information related to our cash generation and changes in our cash and cash equivalents position for each of the last three years:

Thousands of USD

YEAR ENDED DECEMBER 31	2006	2005	2004
Net cash provided by operating activities	1,810,856	1,295,323	98,288
Net cash used in investing activities	-2,822,049	-292,791	-213,396
Net cash (used in) provided by financing activities	1,700,705	-604,129	170,558
Increase in cash and cash equivalents	689,512	398,403	55,450
Effect of exchange rate changes	-5,095	-11,636	344
Cash and cash equivalents at the beginning of period	680,591	293,824	238,030
Cash and cash equivalents at period end	1,365,008	680,591	293,824

Our financing strategy is to maintain adequate financial resources and access to additional liquidity. During 2006, we have counted on cash flows from operations as well as additional bank financing to fund our transactions including the acquisition of Maverick Tube Corporation. Short-term bank lines were used as needed throughout the year.

We believe that funds from operations, availability of liquid financial assets and our access to external borrowing through the financial markets will be sufficient to satisfy our working capital needs and to service our debt in the foreseeable future. We also believe that our liquidity and capital resources give us adequate flexibility to manage our planned capital spending programs, to service our debt and to address short-term changes in business conditions.

We have a conservative approach to the management of our liquidity, which consists of cash and cash equivalents, mainly short-term investments of high liquidity. We used these funds to finance our working capital and capital expenditure requirements, to make acquisitions and to distribute dividends to our shareholders.

We hold money market investments and variable-rate or fixed-rate securities from investment grade issuers. We concentrate our cash in major financial centers (mainly New York and London). We hold our cash and cash equivalents primarily in US dollars, and limit our holdings of other currencies to the minimum required to fund our cash operating needs. As of December 31, 2006 US dollar denominated liquid assets represented 80% of total liquid financial assets. Liquid financial assets as a whole (excluding current investments) were 10.9% of total assets compared to 10.5% at the end of 2005. For further information on our liquidity, please see Note 19 to the consolidated financial statements included elsewhere in this annual report.

Cash and cash equivalents increased by USD 689.5 million to USD 1,365.0 million at December 31, 2006, from USD 680.6 million at December 31, 2005. In addition, we had other current investments of USD 183.6 million. As of December 31, 2005, other current investments amounted to USD 119.9 million.

Operating activities

Net cash provided by operations during 2006 rose to USD 1,810.9 million compared to USD 1,295.3 million in 2005, primarily reflecting an increase in operating income to USD 2,792.5 million in 2006 from USD 1,945.9 million in 2005. Working capital increased by USD 469.5 million in 2006 compared to a USD 433.9 million increase in 2005. The working capital increase was comprised mainly of:

- an increase in inventories of USD 455.6 million, reflecting primarily an increase in business activity and an increase in the cost of goods in process, and
 - an increase in trade receivables of USD 226.7 million, reflecting higher quarterly net sales, partially offset by
 - an increase in trade payables of USD 150.6 million.

Investing activities

Net cash used in investing activities in 2006 was USD 2,822.0 million, compared to USD 292.8 million in 2005. The main differences were as follows:

- Capital expenditure increased to USD 441.5 million in 2006 compared to USD 284.5 million in 2005 as we advanced with our investment program to increase our capabilities to produce specialized products by expanding heat treatment capacity and premium threading and other finishing facilities, and we reached the final stage of the construction of a power generation plant in Italy.
- We spent USD 2,387.2 million in acquisitions in 2006. On October 5, 2006 we acquired Maverick Tube Corporation, which represented a cost to the company of USD 2,417.2 million for a total value of USD 3,160.4 million including Maverick's financial debt. We also acquired in January certain welded pipe assets and facilities belonging to Acindar, in Argentina, for USD 29.3 million. During the year, additional shares of Silcotub and Dalmine were acquired from minority shareholders for approximately USD 11.2 million. Total funds spent for acquisitions during 2005 amounted to USD 48.3 million.
 - On December 1, 2006 we sold a 75% participation in Dalmine Energie for USD 58.9 million.

- On February 12, 2007, we announced that we have entered into a definitive merger agreement to acquire Hydril, a North American manufacturer of premium connections and pressure control products, for USD 97 per share of Hydril's common stock and USD 97 per share of Hydril's Class B common stock, payable in cash. The acquisition will be financed through a combination of cash and debt, for which bank commitments have been secured.

Financing activities

Net cash provided by financing activities, including dividends paid and proceeds and repayments of borrowings, was USD 1,700.7 million in 2006, compared to net cash used in financing activities in 2005 of USD 604.1 million. Net proceeds from borrowings increased by USD 1,928.1 million in 2006 compared to a decrease of USD 240.4 million in 2005. Dividends paid amounted to USD 227.4 million in 2006 compared to USD 363.7 million in 2005. The dividend proposed to be paid to Tenaris shareholders in respect of the 2006 fiscal year amounts to USD 354 million equal to the amount paid in respect of the 2005 fiscal year.

Our total liabilities to total assets ratio increased to 0.55 to 1 as of December 31, 2006, compared to 0.44 to 1 as of December 31, 2005.

Principal sources of funding

Financial liabilities

Total financial debt increased by USD 2,641.0 million to USD 3,651.2 million from USD 1,010.3 million at December 31, 2005.

Our financial liabilities consist of bank loans, overdrafts, and financial leases. As of December 31, 2006 US dollar-denominated financial liabilities and Euro-denominated financial liabilities represented 95.2% and 3.4%, respectively, of total financial liabilities.

The following table shows the composition of our financial liabilities at December 31, 2006 and 2005.

	2006	2005
Bank borrowings	3,503,573	872,790
Bank overdrafts	7,300	24,717
Other loans	134,421	105,858
Finance lease liabilities	5,949	6,927
Total borrowings	3,651,243	1,010,292

Edgar Filing: TENARIS SA - Form 6-K

The nominal average interest rates shown below were calculated using rates set for each instrument in its corresponding currency and weighted using the dollar-equivalent outstanding principal amount of said instruments:

	2006	2005
Bank borrowings	6.12%	5.14%
Other loans	5.50%	4.51%
Finance lease liabilities	3.71%	3.14%

The maturity of our financial liabilities is as follows:

AT DECEMBER 31, 2006	1 year or less	1 – 2 years	2 – 3 years	3 – 4 years	4 – 5 years	Over 5 years	TOTAL
Financial leases	1,384	1,116	822	758	663	1,206	5,949
Other borrowings	792,813	803,381	924,647	568,965	507,030	48,458	3,645,294
Total borrowings	794,197	804,497	925,469	569,723	507,693	49,664	3,651,243

Our current debt to total debt ratio decreased from 0.33 as of December 31, 2005 to 0.22 as of December 31 2006 due to the impact of the new long-term syndicated loans granted in October 2006.

Relevant borrowings

Significant borrowings include:

Millions of USD

Date	Borrower	Type	Original principal amount	Outstanding Principal Amount	Maturity
March 2005	Tamsa	Syndicated loan	300	300	March 2010
April 2005	Siderca	Syndicated loan	125	93.8	April 2008
October 2006	Tenaris S.A.	Syndicated loan	500	500	October 2011
	Tamsa	Syndicated loan	700	700	October 2011
	Siderca	Syndicated loan	480.5	480.5	October 2009
	Dalmine	Syndicated loan	150	150	October 2011
	Algoma Tubes	Syndicated loan	100	100	October 2011
	Maverick	Syndicated loan	750	750	October 2011

The main covenants on these loan agreements are limitations on liens and encumbrances, restrictions on investments and capital expenditures, limitations on the sale of certain assets and compliance with financial ratios (e.g., leverage ratio and interest coverage ratio calculated on each subsidiary's financial statements). In addition, the loan agreement with Tenaris S.A. is secured with a pledge of a percentage of Maverick's shares, as explained in Note 28 to our consolidated financial statements. Tenaris S.A. is allowed to make payments such as dividends, repurchase or redemption of shares up to the greater of USD 475 million or 25% of consolidated net income for the previous fiscal year; once the outstanding amount of this facility is less than USD 425 million, no such restrictions will apply.

Additionally, our total borrowings include USD 153 million secured by certain properties of Dalmine and Confab.

As of December 31, 2006, we were in compliance with all of our financial covenants. We believe that current debt covenants allow us a high degree of operational and financial flexibility and do not impair our ability to obtain additional financing at competitive costs.

48

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders
of Tenaris S.A.

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of income, of cash flows and of changes in equity, present fairly, in all material respects, the financial position of Tenaris S.A. and its subsidiaries at December 31, 2006 and 2005, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2006 in conformity with International Financial Reporting Standards. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

International Financial Reporting Standards vary in certain significant respects from accounting principles generally accepted in the United States of America. Information relating to the nature and effect of such differences is presented in Notes 33 and 34 to the consolidated financial statements.

Weighted average number of ordinary shares (thousands)	9	1,180,537	1,180,537	1,180,507
Earnings per share (U.S. dollars per share)	9	1.65	1.08	0.66
Earnings per ADS (U.S. dollars per ADS)	9	3.30	2.16	1.33

- (1) Prior to December 31, 2004 minority interest was shown in the income statement before net income, as required by International Financial Reporting Standards (“IFRS”) in effect. For years beginning on or after January 1, 2005, International Accounting Standards (“IAS”) 1 (revised) requires that income for the year as shown on the income statement to not exclude minority interest. Earnings per share, however, continue to be calculated on the basis of net income attributable solely to the equity holders of the Company.

The accompanying notes are an integral part of these consolidated financial statements.

I. GENERAL INFORMATION

Tenaris S.A. (the “Company”), a Luxembourg corporation (société anonyme holding), was incorporated on December 17, 2001, as a holding company in steel pipe manufacturing and distributing operations. The Company holds, either directly or indirectly, controlling interests in various subsidiaries. References in these financial statements to “Tenaris” refer to Tenaris S.A. and its consolidated subsidiaries. A list of the Company’s subsidiaries is included in Note 32.

Tenaris shares are listed on the New York, Buenos Aires, Milan, and Mexico City Stock Exchanges.

These consolidated financial statements were approved for issue by the Company’s Board of Directors on February 28, 2007.

II. ACCOUNTING POLICIES

A Basis of presentation

The Consolidated Financial Statements of Tenaris and its subsidiaries have been prepared in accordance with International Financial Reporting Standards (“IFRS”). The consolidated financial statements are presented in thousands of U.S. dollars (“\$”).

Certain comparative amounts have been reclassified to conform to changes in presentation in the current year.

The preparation of consolidated financial statements in conformity with IFRS requires management to make certain accounting estimates and assumptions that might affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the balance sheet dates, and the reported amounts of revenues and expenses during the reporting years. Actual results may differ from these estimates.

B Group accounting

(1) Subsidiary companies

Subsidiary companies are entities which are controlled by Tenaris as a result of its ownership of more than 50% of the voting rights or its ability to otherwise govern an entity’s financial and operating policies. Subsidiaries are consolidated from the date on which control is exercised by the Company and are no longer consolidated from the date that the Company ceases to have control.

The purchase method of accounting is used to account for the acquisition of subsidiaries by Tenaris. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of acquisition, plus costs directly attributable to the acquisition. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. The excess of the cost of acquisition over the fair value of Tenaris share of the identifiable net assets acquired is recorded as goodwill. If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognized directly in the income statement.

Material intercompany transactions and balances between Tenaris subsidiaries have been eliminated in consolidation. However, since the functional currency of some subsidiaries is its respective local currency, some financial gains (losses) arising from intercompany transactions are generated. These are included in the consolidated income statement under Financial results.

See Note 32 for the list of the consolidated subsidiaries.

57

B Group accounting (Cont'd.)

(2) Associated companies

Investments in associated companies are accounted for by the equity method of accounting and initially recognized at cost. Associated companies are companies in which Tenaris owns between 20% and 50% of the voting rights or over which Tenaris has significant influence, but does not have control. Unrealized results on transactions between Tenaris and its associated companies are eliminated to the extent of Tenaris' interest in the associated companies. Unrealized losses are also eliminated but considered an impairment indicator of the asset transferred. Accounting policies of associated companies have been changed where necessary to ensure consistency with the policies adopted by the Company. The Company's pro-rata share of earnings in associated companies is recorded in *Equity in earnings of associated companies*. The Company's pro-rata share of changes in other reserves is recognized in reserves in the Statement of Changes in Equity.

The Company's investment in Ternium S.A. ("Ternium") has been accounted for under the equity method, as Tenaris has significant influence as defined by IAS 28, *Investments in Associates*. At December 31, 2006, Tenaris held 11.46% of Ternium's common stock. The Company's investment in Ternium is carried at incorporation cost plus proportional ownership of Ternium's earnings and other shareholders' equity accounts. Because the exchange of its holdings in Amazonia and Ylopa for shares in Ternium was considered to be a transaction between companies under common control of San Faustin N.V., Tenaris recorded its initial ownership interest in Ternium at \$229.7 million, the carrying value of the investments exchanged. This value was \$22.6 million less than Tenaris' proportional ownership of Ternium's shareholders' equity at the transaction date. As a result of this treatment, Tenaris's investment in Ternium will not reflect its proportional ownership of Ternium's net equity position. Ternium carried out an initial public offering of its shares on February 1, 2006, listing its shares on the New York Stock Exchange.

See Note 12 for a list of principal associated companies.

C Segment information

Until September 30, 2006 Tenaris reported under four business segments: Seamless, Welded and Other Metallic Products, Energy and Other. The acquisition of Maverick Tube Corporation and its subsidiaries ("Maverick") on October 5, 2006, and the sale of a significant ownership in Dalmine Energie on December 1, 2006 led to a reassessment in the definition of operating segments previously used by Tenaris. Together with the reassessment, Tenaris early adopted IFRS 8 "Operating Segments" as from the year ended December 31, 2006.

As from these Financial Statements, Tenaris changed its segment reporting into three major business segments: Tubes, Projects and Other.

The Tubes segment includes the operations that consist in the production and selling of both seamless and welded steel tubular products mainly for energy and industrial applications.

The Projects segment includes the operations that consist in the production and selling of welded steel pipe products mainly used in the construction of major pipeline projects.

The Other segment includes the operations that consist in the production and selling of sucker rods, hot briquetted iron, steel electrical conduit and other metallic products.

Corporate general and administrative expenses have been allocated to the Tubes segment.

Comparative amounts have been re-presented to conform to new disclosure.

58

C Segment information (Cont'd.)

Tenaris groups its geographical information in five areas: South America, Europe, North America, Middle East and Africa, and Far East and Oceania. For purposes of reporting geographical information, net sales are attributable to geographical areas based on the customer's location; allocation of assets and capital expenditures and associated depreciation and amortization are based on the geographic location of the assets.

D Foreign Currency Translation

(1) Functional currency

IAS 21(revised) defines the functional currency as the currency of the primary economic environment in which an entity operates.

The functional currency of Tenaris S.A. is the U.S. dollar. The U.S. dollar is the currency that best reflects the economic substance of the underlying events and circumstances relevant to Tenaris global operations. Generally, the functional currency of Tenaris's subsidiaries is the respective local currency. Tenaris Argentine operations, however, which consist of Siderca S.A.I.C. ("Siderca") and its Argentine subsidiaries, have determined their functional currency to be the U.S. dollar, based on the following considerations:

- Sales are mainly negotiated, denominated and settled in U.S. dollars. If priced in a currency other than the U.S. dollar, the price considers exposure to fluctuation in the rate of exchange rate versus the U.S. dollar;
 - Prices of critical raw materials and inputs are priced and settled in U.S. dollars;
- The exchange rate of the currency of Argentina has long-been affected by recurring and severe economic crises;
 - Net financial assets and liabilities are mainly received and maintained in U.S. dollars.

In addition to Siderca, the Company's distributing subsidiaries and intermediate holding subsidiaries also use the U.S. dollar as their functional currency, reflecting the transaction environment and cash flow of these operations.

(2) Translation of financial information in currencies other than the functional currency

Results of operations for subsidiaries whose functional currencies are not the U.S. dollar are translated into U.S. dollars at the average exchange rates for each quarter of the year. Balance sheet positions are translated at the end-of-year exchange rates. Translation differences are recognized in equity as currency translation adjustments. In the case of a sale or other disposal of any such subsidiary, any accumulated translation difference would be recognized in income as a gain or loss from the sale.

(3) Transactions in currencies other than the functional currency

Transactions in currencies other than the functional currency are accounted for at the exchange rates prevailing at the date of the transactions. Gains and losses resulting from the settlement of such transactions, including intercompany transactions, and from the translation of monetary assets and liabilities denominated in currencies other than the functional currency, are recorded as gains and losses from foreign exchange and included in *Financial results* in the income statement.

E Property, plant and equipment

Property, plant and equipment are recognized at historical acquisition or construction cost less accumulated depreciation and impairment losses. Property, Plant and Equipment acquired through acquisitions accounted for as business combinations have been valued initially at the fair market value of the assets acquired.

E Property, plant and equipment (Cont'd.)

Major overhaul and rebuilding expenditures are capitalized as property, plant and equipment only when the investment enhances the condition of assets beyond its original condition. The carrying amount of the replaced part is derecognized.

Ordinary maintenance expenses on manufacturing properties are recorded as cost of products sold in the year in which they are incurred.

Borrowing costs that are attributable to the acquisition or construction of certain capital assets are capitalized as part of the cost of the asset, in accordance with *IAS 23, Borrowing Costs*. Capital assets for which borrowing costs may be capitalized are those that require a substantial period of time to prepare for their intended use.

Depreciation is calculated using the straight-line method to depreciate the cost of each asset to its residual value over its estimated useful life, as follows:

Buildings and improvements	30-50 years
	10-20
Plant and production equipment	years
	4-10
Vehicles, furniture and fixtures, and other equipment	years

The residual values and useful lives of significant plant and equipment are reviewed, and adjusted if appropriate, at each year-end date. Any charges from such reviews are included in *Cost of sales* in the income statement.

Management's reestimation of assets useful lives, performed in accordance with IAS 16, did not materially affect depreciation expenses for 2006.

Tenaris depreciates each significant part of an item of property, plant and equipment for its different production facilities that (i) can be properly identified as an independent component with a cost that is significant in relation to the total cost of the item, and (ii) has a useful operating life that is different from another significant part of that same item of property, plant and equipment.

Gains and losses on disposals are determined by comparing net proceeds with the carrying amount of assets. These are included in *Other operating income* or *Other operating expenses* in the income statement.

F Intangible assets*(1) Goodwill*

Goodwill represents the excess of the acquisition cost over the fair value of the Tenaris' share of net assets acquired as part of business combinations. In accordance with IFRS 3, beginning January 1, 2005, goodwill is considered to have an indefinite life and is not amortized, but is subject to annual impairment testing. In the event of impairment, impairment losses on goodwill are not reversed. No impairment losses related to goodwill were recorded by Tenaris during the three years covered by these financial statements. Goodwill is included in '*Intangible assets, net*' on the balance sheet.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units expected to benefit from the business combination which generated the goodwill being tested.

Negative goodwill represents an excess of the fair value of identifiable net assets acquired in a business combination over the cost of the acquisition. IFRS 3 requires negative goodwill to be recognized immediately as a gain in the income statement.

60

F Intangible assets (Cont'd.)

(1) Goodwill (Cont'd.)

During 2004 International Financial Reporting Standard (IFRS) 3, "Business Combinations" was issued, which was applied by Tenaris for all business combinations that occurred after March 31, 2004.

As per this standard, prior to January 1, 2005 goodwill was amortized on a straight line basis over its estimated useful life, not to exceed 15 years, and tested for impairment at each balance sheet date in the event indicators of impairment were present. As required by IFRS 3, Tenaris ceased amortization of goodwill for periods beginning on or after January 1, 2005. In addition, accumulated amortization as of December 31, 2004 has been netted against the cost of the goodwill. For years ending on or after December 31, 2005 goodwill is required to be tested annually for impairment, as well as when there are indicators of impairment. Amortization of goodwill expense included in the year ended December 31, 2004 amounted to \$9.4 million.

Upon the adoption of IFRS 3, which must be adopted together with the revised IAS 38, Intangible Assets, and IAS 36, Impairment of Assets, previously accumulated negative goodwill is required to be derecognized through an adjustment to retained earnings. The derecognition of negative goodwill in this manner resulted in an increase of \$110.8 million in the opening balance of the Company's equity at January 1, 2005. Amortization of negative goodwill in income amounted to \$9.0 million in the year ended December 31, 2004.

(2) Information systems projects

Costs associated with developing or maintaining computer software programs are generally recognized as an expense as incurred. However, costs directly related to the development, acquisition and implementation of information systems are recognized as intangible assets if it is probable they have economic benefits exceeding one year.

Information systems projects recognized as assets are amortized using the straight-line method over their useful lives, not exceeding a period of 3 years. Amortization charges are classified as *Selling, general and administrative expenses* in the income statement.

(3) Licenses, patent and trademarks

Expenditures on acquired patents, trademarks, technology transfer and licenses are capitalized and amortized using the straight-line method over their estimated useful lives, not exceeding a period of 3 years.

(4) Research and development

Research expenditures as well as development costs that do not fulfill the criteria for capitalization are recorded as cost of sales in the income statement as incurred. Research and development expenditures included in cost of sales for the years 2006, 2005 and 2004 totaled \$46.9 million, \$34.7 million and \$26.3 million, respectively.

(5) Customer relationships intangible asset acquired in a business combination

In accordance with IFRS 3 and IAS 38, Tenaris has recognized the value of customer relationships separately from goodwill attributable to the acquisition of Maverick, as further disclosed in Note 28.

Customer relationships are amortized over a useful average life of approximately 14 years.

G Impairment of non financial assets

In accordance with IFRS 3 (Business Combinations) and the related revised versions of IAS 36 (Impairment of Assets) and IAS 38 (Intangible Assets), long-lived assets, including identifiable intangible assets and goodwill are regularly reviewed for impairment.

Intangible assets with indefinite life, including goodwill, are subject to at least an annual impairment test for possible impairment whereas, the remaining long lived assets are tested whenever events or changes in circumstances indicate that the balance sheet carrying amount of the asset may not be recoverable.

To carry out these tests, assets are grouped into cash generating units (CGUs). The value in use of these units is determined on the basis of the present value of net future cash flows which will be generated by the assets tested. Cash flows are discounted at discount rates that reflects specific country and currency risks.

H Other Investments

Other investments consist primarily of investments in financial debt instruments.

All of Tenaris investments are classified as financial assets “at fair value through profit or loss”. As explained in section IV, Tenaris applied the transition provisions of IAS 39 and designated as “financial assets carried at fair value through profit or loss” the investments that were previously recognized as “available-for-sale”.

Purchases and sales of financial investments are recognized as of the trade date, which is the date that Tenaris commits to purchase or sell the investment, and which is not significantly different from the actual settlement date. The change in fair value of financial investments designated as held at fair value through profit or loss is charged to *Financial results* in the income statement.

Income from financial investments is recognized in *Financial results* in the income statement. Interest receivable on investments in debt securities is calculated using the effective interest method.

The fair values of quoted investments are based on current mid prices. If the market for a financial investment is not active or the securities are not listed, Tenaris estimates fair value by using standard valuation techniques.

I Inventories

Inventories are stated at the lower of cost (calculated principally on the first-in-first-out “FIFO” method) and net realizable value. The cost of finished goods and goods in process is comprised of raw materials, direct labor, other direct costs and related production overhead costs. Tenaris estimates net realizable value of inventories item by item or by grouping, where applicable, similar or related items. Net realizable value is the estimated selling price in the ordinary course of business, less any estimated costs of completion and selling expenses. Goods in transit at year end are valued at supplier invoice cost.

Tenaris establishes an allowance for obsolete or slow-moving inventory related to finished goods, supplies and spare parts. For slow moving or obsolete finished products, an allowance is established for based on management’s analysis of product aging. An allowance for slow-moving inventory of supplies and spare parts is established based on management’s analysis of such items to be used as intended and the consideration of potential obsolescence due to technological changes.

J Trade receivables

Trade receivables are recognized initially at fair value, generally original invoice amount. Tenaris analyzes its trade accounts receivable on a regular basis and, when aware of a specific client's difficulty or inability to meet its obligations to Tenaris, impairs any amounts due by means of a charge to an allowance for doubtful accounts receivable. Additionally, this allowance is adjusted periodically based on the aging of receivables.

62

K Cash and cash equivalents

Cash and cash equivalents are comprised of cash in banks, short-term money market funds and highly liquid short-term securities with a maturity of less than 90 days at the date of purchase. Assets recorded in cash and cash equivalents are carried at fair market value, or at historical cost which approximates fair market value.

For the purposes of the cash flow statement, cash and cash equivalents is comprised of cash, bank accounts and short-term highly liquid investments and overdrafts.

On the balance sheet, bank overdrafts are included in borrowings in current liabilities.

L Shareholders' Equity

(1) Basis of presentation

The consolidated statement of changes in equity includes:

- The value of share capital, legal reserve, share premium and other distributable reserve calculated in accordance with Luxembourg Law;
- The currency translation adjustments, retained earnings, minority interest and other reserves calculated in accordance with IFRS;

(2) Share Capital

Ordinary shares are classified as equity.

(3) Dividends Paid by Tenaris to Shareholders

Dividends payable are recorded in Tenaris' financial statements in the year in which they are approved by the Company's shareholders, or when interim dividends are approved by the Board of Directors in accordance with the by-laws of the Company.

Dividends may be paid by Tenaris to the extent that it has distributable retained earnings, calculated in accordance with Luxembourg law. As a result, retained earnings included in the consolidated financial statements may not be wholly distributable. See Note 26.

M Borrowings

Borrowings are recognized initially for an amount equal to the proceeds received net of transaction costs. In subsequent years, borrowings are stated at amortized cost.

N Income Taxes - Current and Deferred

Under present Luxembourg law, the Company is not subject to income tax, withholding tax on dividends paid to shareholders or capital gains tax payable in Luxembourg as long as the Company maintains its status as a "1929 Holding Billionaire Company". Following a previously announced decision by the European Commission, the Grand-Duchy of Luxembourg has terminated its 1929 holding company regime, effective January 1, 2007. However, under the implementing legislation, pre-existing publicly listed companies -including Tenaris- will be entitled to continue benefiting from their current tax regime until December 31, 2010.

The current income tax charge is calculated on the basis of the tax laws in effect in the countries where the Company's subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions when appropriate.

63

N Income Taxes - Current and Deferred (Cont.)

Deferred income taxes are calculated applying the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. The principal temporary differences arise from fair value adjustments of assets acquired in business combinations, the effect of currency translation on fixed assets, depreciation on property, plant and equipment, valuation of inventories and provisions for pensions. Deferred tax assets are also recognized for net operating loss carry-forwards. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the time period when the asset is realized or the liability is expected to be settled, based on tax laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax assets are recognized to the extent it is probable that future taxable income will be available to utilize those recognized deferred tax assets against such income.

O Employee-related liabilities

(a) Employee severance indemnity

Employee severance indemnity costs are assessed annually using the projected unit credit method. Employee severance indemnity obligations are measured at the present value of the estimated future cash outflows, based on actuarial calculations provided by independent advisors and in accordance with current legislation and labor contracts in effect in each respective country. The cost of this obligation is charged to the income statement over the expected service lives of employees.

This provision is primarily related to the liability accrued for employees at Tenaris' Italian and Mexican subsidiaries.

(b) Defined benefit pension obligations

Certain officers of Tenaris are covered by defined benefit employee retirement plans designed to provide post-retirement, termination and other benefits.

Post-retirement costs are assessed using the projected unit credit method. Post-retirement obligations are measured at the present value of the estimated future cash outflows, based on actuarial calculations provided by independent advisors.

Benefits provided under one of Tenaris's plans are provided in U.S. dollars, and are calculated based on seven-year salary averages. Tenaris accumulates assets for the payment of benefits expected to be disbursed by this plan in the form of investments that are subject to time limitations for redemption. These investments are neither part of a specific pension plan nor are they segregated from Tenaris' other assets. As a result, this plan is considered to be "unfunded" under IFRS definitions.

In its newly acquired Canadian subsidiary (Prudential Steel Ltd.) Tenaris sponsors funded and unfunded non-contributory defined benefit pension plans that cover substantially all of the employees of its company. The plans provide defined benefits based on years of service and, in the case of salaried employees, final average salary. In addition Tenaris provides an unfunded non-contributory post-employment benefits plan to retirees from salaried employment.

Certain other officers and former employees of one specific Tenaris subsidiary are covered by a separate plan defined as "funded" under IFRS definitions.

All of Tenaris' plans recognize actuarial gains and losses over the average remaining service lives of employees.
64

O Employee-related liabilities (Cont.)

(c) Other compensation obligations

Employee entitlements to annual leave and long-service leave are accrued as earned.

Other length of service based compensation to employees in the event of dismissal or death is charged to income in the year in which it becomes payable.

P Employee statutory profit sharing

Under Mexican law, the Company's Mexican subsidiaries are required to pay their employees an annual benefit calculated on a basis similar to that used for local income tax purposes. Employee statutory profit sharing is calculated using the liability method, and is recorded in *Current other liabilities* and *Non-current other liabilities* on the balance sheet. Because Mexican employee statutory profit sharing is determined on a basis similar to that used for determining local income taxes, Tenaris accounts for temporary differences arising between the statutory calculation and reported expense as determined under IFRS in a manner similar to the calculation of deferred income tax.

Q Provisions and other liabilities

Tenaris is subject to various claims, lawsuits and other legal proceedings, including customer claims, in which a third party is seeking payment for alleged damages, reimbursement for losses or indemnity. Tenaris' potential liability with respect to such claims, lawsuits and other legal proceedings cannot be estimated with certainty. Management periodically reviews the status of each significant matter and assesses potential financial exposure. If a potential loss from a claim or proceeding is considered probable and the amount can be reasonably estimated, a liability is recorded. Accruals for loss contingencies reflect a reasonable estimate of the losses to be incurred based on information available to management as of the date of preparation of the financial statements, and take into consideration Tenaris' litigation and settlement strategies. These estimates are primarily constructed with the assistance of legal counsel. As the scope of liabilities become better defined, there may be changes in the estimates of future costs which could have a material adverse effect on its results of operations, financial condition and net worth.

If Tenaris expects to be reimbursed for an accrued expense, as would be the case for an expense or loss covered under an insurance contract, and reimbursement is considered virtually certain, the expected reimbursement is recognized as a receivable.

R Revenue recognition

Tenaris' products and services are sold based upon purchase orders, contracts or upon other persuasive evidence of an arrangement with customers, including that the sales price is known or determinable. Sales are recognized as revenue upon delivery and when collection is reasonably assured. Delivery is defined by the transfer of risk provision of sales contracts and may include delivery to a storage facility located at one of the Company's subsidiaries.

Other revenues earned by Tenaris are recognized on the following bases:

- Interest income: on the effective yield basis.
- Dividend income from investments in other companies: when Tenaris' right to collect is established.

S Cost of sales and sales expenses

Cost of sales and sales expenses are recognized in the income statement on the accrual basis of accounting.

Commissions, freight and other selling expenses, including shipping and handling costs, are recorded in Selling, general and administrative expenses in the income statement.

65

T Earnings per share

Earnings per share are calculated by dividing the net income attributable to equity holders of the Company by the daily weighted average number of common shares outstanding during the year.

U Derivative financial instruments

Accounting for derivative financial instruments and hedging activities is included within the Section III, "Financial Risk Management".

III. FINANCIAL RISK MANAGEMENT

The multinational nature of Tenaris' operations and customer base expose the company to a variety of risks, including the effects of changes in foreign currency exchange rates and interest rates. To manage the volatility related to these exposures, management evaluates exposures on a consolidated basis to take advantage of logical exposure netting. For a portion of the remaining exposures, the Company or its subsidiaries may enter into various derivative transactions in order to manage potential adverse impacts on the Tenaris' financial performance. Such derivative transactions are executed in accordance with internal policies in areas such as counterparty exposure and hedging practices.

A. Financial Risk Factors

(i) Foreign exchange rate risk management

Tenaris manufactures and sells its products in a number of countries throughout the world and as a result is exposed to foreign exchange rate risk. The purpose of Tenaris' foreign currency hedging program is to reduce the risk caused by short-term changes in exchange rates.

Tenaris aims to neutralize the potential negative impact of currency fluctuations in the value of other currencies with respect to the dollar. Because a number of subsidiaries have functional currencies other than the U.S. dollar, the results of hedging activities as reported in accordance with IFRS may not reflect management's assessment of its foreign exchange risk hedging program.

(ii) Interest rate risk management

Tenaris' financing strategy is to manage interest expense using a mixture of fixed-rate and variable-rate debt. To manage this risk in a cost efficient manner, Tenaris enters into interest rate swaps in which it agrees to exchange with the counterparty, at specified intervals, the difference between fixed and variable interest amounts calculated by reference to an agreed-upon notional principal amount. Tenaris have entered into interest rate swaps related to long-term debt to partially hedge future interest payments, as well as to convert borrowings from floating to fixed rates.

(iii) Concentration of credit risk

No single customer comprised more than 10% of our net sales in 2006.

Tenaris' credit policies related to sales of products and services are designed to identify customers with acceptable credit history, and to allow Tenaris to require the use of credit insurance, letters of credit and other instruments designed to minimize credit risk whenever deemed necessary. Tenaris maintains allowances for impairment for potential credit losses.

Derivative counterparties and cash transactions are limited to high credit quality financial institutions. Tenaris has established strict counterparty credit guidelines and normally enter into transactions with investment grade financial institutions.

66

(iv) *Liquidity risk*

Management maintains sufficient cash and marketable securities or credit facilities to finance normal operations. Tenaris also has committed credit facilities and has access to the market for adequately backup its short-term working capital needs.

B. Fair value estimation

For purposes of estimating the fair value of financial assets and liabilities with maturities of less than one year, the market value was considered.

Most borrowings are comprised of variable rate debt or fixed rate debt that in general terms are comparable to market rate. As a result, the fair value of Tenaris' borrowings approximates its current amounts and is not disclosed separately.

C. Accounting for Derivative Financial Instruments and Hedging Activities

Derivative financial instruments are initially recognized in the balance sheet at fair value on the date a derivative contract is entered into and are subsequently remeasured at fair value. As a general rule, Tenaris recognizes the full amount related to the change in fair value of derivative financial instruments in *Financial results* in the income for the year.

Beginning January 1, 2006, Tenaris has adopted hedge accounting treatment, as established by IAS 39, for certain qualifying derivative financial instruments. These transactions are classified as cash flow hedges (mainly currency forward contracts on highly probable forecast transactions and interest rate swaps and collars). The effective portion of the fair value of derivatives that are designated and qualify as cash flow hedges is recognized in equity. Amounts accumulated in equity are recognized in the income statement in the same period than any offsetting losses and gains on the hedged item. The gain or loss relating to the ineffective portion is recognized immediately in the income statement. The fair value of Tenaris derivative financial instruments (asset or liability) continues to be reflected on the Balance Sheet.

For transactions designated and qualifying for hedge accounting, Tenaris documents at the inception of the transaction the relationship between hedging instruments and hedged items, as well as its risk management objectives and strategy for undertaking various hedge transactions. At December 31, 2006, the effective portion of designated cash flow hedges amounts to \$2.1 million and is included in Other Reserves in equity.

Tenaris does not hold or issue derivative financial instruments for speculative trading purposes.

IV. IMPACT OF NEW ACCOUNTING PRONOUNCEMENTS

Standards early adopted by Tenaris

IFRS 8 "Operating Segments" replaces IAS 14 and requires an entity to report financial and descriptive information about its reportable segments (as aggregations of operating segments). Financial information is required to be reported on the same basis as is used internally for evaluating operating segment performance and deciding how to allocate resources to operating segments also giving certain descriptive information. See Section II C.

Interpretations and amendments to published standards effective in 2006

(a) IAS 19, Employee Benefits: Actuarial Gains and Losses, Group Plans and Disclosures (Amendment)

On December 16, 2004, the International Accounting Standards Board (“IASB”) issued International Accounting Standard No. 19, “Employee Benefits: Actuarial Gains and Losses, Group Plans and Disclosures (Amendment)” (“IAS 19”). IAS 19 gives entities the option to recognize actuarial gains and losses in full during the period in which they occur, outside of profit and loss, in the statement of recognized income and expense. Previously, entities were only permitted to recognize actuarial gains and losses in profit and loss either (1) in the period in which they occur or (2) spread over the service life of employees. As Tenaris does not intend to change the accounting policy adopted for recognition of actuarial gains and losses, this amendment did not impact in the Company Financial Statements.

(b) IAS 21, The Effects of Changes in Foreign Exchange Rates - Net Investment in Foreign Operations

In December 2005, the IASB issued an amendment to IAS 21, The Effects of Changes in Foreign Exchange Rates - Net Investment in Foreign Operations. The amendment clarifies the requirements of IAS 21 regarding an entity’s investment in foreign operations. As per the amendment, the entity that has a monetary item that is, in substance, a part of the entity's net investment in that foreign operation may be any subsidiary of the group. Exchange differences on such monetary items are reclassified to the separate component of equity in the financial statements that include the foreign operation and the reporting entity. The application of this amendment from January 1, 2006 did not have a material impact in the Company’s financial statements.

Management assessed the relevance of other new standards, amendments or interpretations and concluded that they are not relevant to Tenaris.

Interpretations and amendments to published standards that are not yet effective and have not been early adopted

(a) IFRS 7, *Financial Instruments: Disclosure, and a complementary amendment to IAS 1, presentation of financial statements - Capital disclosure*

IFRS 7 introduces new disclosures about financial instruments such as qualitative and quantitative information about exposures to risks arising from financial instruments. Tenaris will apply IFRS 7 and the amendment to IAS 1 for annual periods beginning on January 1, 2007.

(b) IFRIC 9, Reassessment of Embedded Derivatives

IFRIC 9 requires an entity to assess whether an embedded derivative is required to be separated from the host contract and accounted for as a derivative when the entity first becomes a party to the contract. Subsequent reassessment is prohibited unless there is a significant change in the terms of the contract.

(c) IFRIC 10, Interim Financial Reporting and Impairment

Under this interpretation, no reversal to an impairment loss recognized in an interim period in respect of goodwill or an investment in either an equity instrument or a financial asset carried at cost is allowed.

Tenaris will apply IFRIC 10 from January 1, 2007, but it is not expected to have any impact on the Company’s financial statements.

Management assessed the relevance of other new standards, amendments or interpretations not yet effective and concluded that they are not relevant to Tenaris.

68

8 Income tax

(all amounts in thousands of U.S. dollars)	Year ended December 31,		
	2006	2005	2004
Current tax	897,427	637,623	277,219
Deferred tax	(17,386)	(61,837)	(44,731)
	880,041	575,786	232,488
Effect of currency translation on tax base (a)	(6,060)	(7,033)	(12,112)
	873,981	568,753	220,376
From Discontinued operations	(4,004)	(1,385)	(3,150)
	869,977	567,368	217,226

The tax on Tenaris' income before tax differs from the theoretical amount that would arise using the tax rate in each country as follows:

(all amounts in thousands of U.S. dollars)	Year ended December 31,		
	2006	2005	2004
Income before income tax	2,882,201	1,954,703	1,018,178
Tax calculated at the tax rate in each country	901,580	591,167	265,837
Non taxable income / Non deductible expenses	(32,562)	(32,807)	(10,518)
Changes in the tax rates in Mexico	-	-	(25,886)
Effect of currency translation on tax base (a)	(6,060)	(7,033)	(12,112)
Effect of taxable exchange differences	10,069	17,087	10,742
Utilization of previously unrecognized tax losses	(3,050)	(1,046)	(10,837)
Tax charge	869,977	567,368	217,226

(a) Tenaris applies the liability method to recognize deferred income tax expense on temporary differences between the tax bases of assets and their carrying amounts in the financial statements. By application of this method, Tenaris recognizes gains and losses on deferred income tax due to the effect of the change in the value of the Argentine peso on the tax bases of the fixed assets of its Argentine subsidiaries, which have the U.S. dollar as their functional currency. These gains and losses are required by IFRS even though the devalued tax basis of the relevant assets will result in a reduced dollar value of amortization deductions for tax purposes in future periods throughout the useful life of those assets. As a result, the resulting deferred income tax charge does not represent a separate obligation of Tenaris that is due and payable in any of the relevant periods.

9 Earnings and dividends per share

Earnings per share are calculated by dividing the net income attributable to equity holders of the Company by the daily weighted average number of ordinary shares in issue during the year.

	Year ended December 31,		
	2006	2005	2004
Net income attributable to equity holders	1,945,314	1,277,547	784,703
Weighted average number of ordinary shares in issue	1,180,537	1,180,537	1,180,507
Basic and diluted earnings per share	1.65	1.08	0.66
Basic and diluted earnings per ADS	3.30	2.16	1.33

Edgar Filing: TENARIS SA - Form 6-K

Dividends paid	(204,233)	(349,439)	(135,053)
Dividends per share	0.17	0.30	0.11
Dividends per ADS	0.35	0.59	0.23
Net income from discontinued operations	47,180	(3)	4,029
Basic and diluted earnings per share	0.04	0.00	0.00
Basic and diluted earnings per ADS	0.08	0.00	0.01

The shareholders' meeting held on June 7, 2006 approved the payment of a dividend in the amount of \$0.30 per share or approximately \$354.1 million, corresponding to operating results for 2005. This amount included the interim dividend paid in November, 2005, in the amount of \$0.127 per share or approximately \$149.9 million. Tenaris paid the balance of the annual dividend amounting to approximately \$204.2 million corresponding to \$0.173 per share during 2006. During 2005 Tenaris paid \$199.5 million corresponding to \$0.169 per share.

The ratio of ordinary shares per American Depositary Shares (ADSs) was changed from a ratio of one ADS equal to ten ordinary shares to a new ratio of one ADS equal to two ordinary shares. The implementation date for this change was April 26, 2006, for shareholders of record at April 17, 2006. Earnings per ADS reflected above have been adjusted for this change in the conversion ratio.

	Year ended December 31,	
	2006	2005
South America	94,641	93,239
Europe	769	769
North America	1,132,310	19,425
	1,227,720	113,433

Impairment tests for goodwill

Goodwill is tested at the level of the CGUs. Impairment testing of the CGU is carried out and the value in use determined in accordance with the discounted cash flow method. In order to perform the test, Tenaris, uses projections for the next 5 years based on past performance and expectations of market development. After the fifth year a perpetuity rate with no grow up increase was utilized. The discount rates used for these tests are based on Tenaris' weighted average cost of capital adjusted for specific country and currency risks associated with the cash flow projections. Discount rates used range from 9% to 12%.

No impairment charge resulted from the impairment tests performed.

As explained in Note 28 Tenaris acquired Maverick on October 5, 2006. Goodwill of \$1,113 million arised from this acquisition as the difference between the acquisition price and the fair value on the acquisition date of the identifiable tangible and intangible assets and liabilities determined mainly by an independent valuation. On account of the recent date of the transaction, the company's fair value is the same as its transaction value. Accordingly, no impairment needs to be recorded.

79

20 Borrowings (Cont'd.)

The main covenants on these loan agreements are limitations on liens and encumbrances, restrictions in investments and capital expenditures, limitations in the sale of certain assets and compliance with financial ratios (e.g, leverage ratio and interest coverage ratio calculated on each subsidiary's financial statements). In addition, Tenaris's loan agreement is secured with a pledge of a percentage of Maverick's shares, as explained in Note 28. Tenaris is allowed to make payments such as dividends, repurchase or redemption of shares up to the greater of \$475 million or 25% of consolidated net income for the previous fiscal year; once the outstanding amount of Tenaris' facility is less than \$425 million, no restrictions will apply.

Tenaris' consolidated debt includes \$127 million of Dalmine and \$26 million of Confab secured by certain properties of these subsidiaries.

As of December 31, 2006, Tenaris was in compliance with all of its covenants.

The weighted average interest rates before tax shown below were calculated using the rates set for each instrument in its corresponding currency as of December 31, 2006 and 2005. These rates reflect the upward trend in the reference rates.

	2006	2005
Bank borrowings	6.12%	5.14%
Other loans	5.50%	4.51%
Finance lease liabilities	3.71%	3.14%

21 Deferred income tax

Deferred income taxes are calculated in full on temporary differences under the liability method using the tax rate of each country.

The movement on the deferred income tax account is as follows:

	Year ended December 31,	
	2006	2005
At the beginning of the year	158,521	210,802
Translation differences	2,570	8,605
Increase due to business combinations	560,450	-
Disposals	2,971	-
Income statement credit	(17,386)	(61,837)
Effect of currency translation on tax base	(6,060)	(7,033)
Deferred employees' statutory profit sharing charge	(762)	7,984
At the end of the year	700,304	158,521

The evolution of deferred tax assets and liabilities during the year are as follows:

Deferred tax liabilities

	Fixed assets	Inventories	Intangible and Other (a)	Total
At the beginning of the year	227,370	45,600	80,425	353,395
Translation differences	6,670	(308)	131	6,493
Increase due to business combinations	75,455	2,286	581,097	658,838
Disposals	-	(6)	(163)	(169)

Income statement charge / (credit)	7,653	3,795	(38,060)	(26,612)
At December 31,2006	317,148	51,367	623,430	991,945

82

21 Deferred income tax (Cont'd.)

	Fixed assets	Inventories	Other (a)	Total
At the beginning of the year	204,243	63,453	104,279	371,975

At December 31, 2005	(32,631)	(74,214)	(11,993)	(76,036)	(194,874)

Deferred income tax assets and liabilities are offset when (1) there is a legally enforceable right to setoff current tax assets against current tax liabilities and (2) the deferred income taxes relate to the same fiscal authority. The following amounts, determined after appropriate setoff, are shown in the consolidated balance sheet:

	Year ended December 31,	
	2006	2005
Deferred tax assets	(291,641)	(194,874)
Deferred tax liabilities	991,945	353,395
	700,304	158,521

The amounts shown in the balance sheet include the following:

	Year ended December 31,	
	2006	2005
Deferred tax assets to be recovered after more than 12 months	(79,811)	(49,662)
Deferred tax liabilities to be recovered after more than 12 months	849,730	225,486

22 Other liabilities**(i) Other liabilities - Non current**

	Year ended December 31,	
	2006	2005
Employee liabilities		
Employee's statutory profit sharing	64,196	64,010
Employee severance indemnity	67,598	62,279
Pension benefits	36,067	10,788
	167,861	137,077
Taxes payable	8,842	9,364
Miscellaneous	10,021	7,937
	18,863	17,301

25 Derivative financial instruments (Cont'd.)

To partially hedge future interest payments, as well as to minimize the effect of floating rates, Tenaris has entered into zero cost interest rate collars. In these contracts, effective as from April 2007, the Company has agreed to exchange with the counterparty, at specified intervals, the difference between interest amounts calculated by reference to an agreed-upon notional principal amount of USD 1,500.0 million, to the extent that it is lower than the floor or greater than the cap established in such contracts.

26 Contingencies, commitments and restrictions on the distribution of profits

Tenaris is involved in litigation arising from time to time in the ordinary course of business. Based on management's assessment and the advice of legal counsel, it is not anticipated that the ultimate resolution of pending litigation will result in amounts in excess of recorded provisions (Notes 23 and 24) that would be material to Tenaris' consolidated financial position or results of operations.

Conversion of tax loss carry-forwards

On December 18, 2000, the Argentine tax authorities notified Siderca S.A.I.C. ("Siderca", a subsidiary of the Company organized in Argentina) of an income tax assessment related to the conversion of tax loss carry-forwards into Debt Consolidation Bonds under Argentine Law No. 24.073. The adjustments proposed by the tax authorities represent an estimated contingency of ARP70.2 million (approximately \$23.0 million) at December 31, 2006 in taxes and penalties. Based on the views of Siderca's tax advisors, Tenaris believes that the ultimate resolution of the matter will not result in a material obligation. Accordingly, no provision was recorded in these financial statements.

Asbestos-related Litigation

Dalmine S.p.A. (“Dalmine”), a subsidiary of the Company organized in Italy is currently subject to thirteen civil proceedings for work-related injuries arising from the use of asbestos in its manufacturing processes during the period from 1960 to 1980. In addition, another eighteen asbestos related out-of-court claims and one civil party claim have been forwarded to Dalmine.

As of December 31, 2006, the total claims pending against Dalmine were thirty two (of which, three are covered by insurance): during 2006 two new claims were filed four claims were dismissed and one claim was settled. Aggregate settlement costs to date for Tenaris are Euro3.8 million. Dalmine estimates that its potential liability in connection with the claims not yet settled is approximately Euro 12.6 million (\$ 16.6 million).

Accruals for Dalmine’s potential liability are based on the average of the amounts paid by Dalmine for asbestos-related claims plus an additional amount related to some reimbursements requested by the social security authority. The maximum potential liability is not determinable as in some cases the requests for damages do not specify amounts, and instead is to be determined by the court. The timing of payment of the amounts claimed is not presently determinable.

26 Contingencies, commitments and restrictions on the distribution of profits (Cont'd.)

Maverick litigation

On December 11, 2006, The Bank of New York (“BNY”), as trustee for the holders of the Maverick 2004 4% Convertible Senior Subordinated Notes due 2033 issued pursuant to an Indenture between Maverick and BNY (“Noteholders”), filed a complaint against Maverick and Tenaris in the United States District Court for the Southern District of New York. The complaint alleges that Tenaris’s acquisition of Maverick triggered the “Public Acquirer Change of Control” provision of the Indenture. The complaint asserts breach of contract claim against Maverick for refusing to deliver the consideration specified in the Public Acquirer Change of Control provision of the Indenture to Noteholders who tendered their notes for such consideration, seeks a declaratory judgment that Tenaris’ acquisition of Maverick was a Public Acquirer Change of Control under the Indenture, and asserts claims for tortious interference with contract and unjust enrichment against Tenaris.

Tenaris believes that these claims are without merit. Accordingly, no provision was recorded in these financial statements. Were plaintiff to prevail, Tenaris estimates that the recovery would be approximately \$50 million.

European Commission Fine

On January 25, 2007, the Court of Justice of the European Commission confirmed the December 8, 1998 decision by the European Commission to fine eight international steel pipe manufacturers, including Dalmine, for violation of European competition laws. Pursuant to the Court's decision, Dalmine is required to pay a fine of Euro10.1 million (\$13.3 million). Since the infringements for which the fine was imposed took place prior to the acquisition of Dalmine by Tenaris in 1996, Dalmine’s former owner, who had instructed Dalmine to appeal, is required and has acknowledged its responsibility to pay 84.1% of the fine. The remaining 15.9% of the fine will be paid out of the provision that Dalmine established in 1999 for such proceeding.

BHP litigation and arbitration proceeding against Fintecna

On December 30, 2003 Dalmine and a consortium led by BHP Billiton Petroleum Ltd. (“BHP”) settled a litigation concerning the failure of an underwater pipeline. The pipe that was the subject of the litigation with BHP was manufactured and sold, and the tort alleged by BHP took place, prior to the privatization of Dalmine. According to the terms of the settlement, Dalmine paid BHP a total of GBP 108.0 million (\$207.2 million), inclusive of expenses. Techint Investments Netherlands B.V. (“Tenet”) - the subsidiary party of the Company that was party to the Dalmine privatization contract - commenced arbitration proceedings against Fintecna S.p.A. (“Fintecna”), an Italian state-owned entity and successor to ILVA S.p.A., the former owner of Dalmine, seeking indemnification from Fintecna for any amounts paid or payable by Dalmine to BHP. On December 28, 2004, an arbitral tribunal rendered a final award in the arbitration proceeding against Fintecna, pursuant to which, Fintecna paid Tenaris a total amount of Euro 93.8 million (\$127.2 million) on March 15, 2005. Neither party has any further outstanding obligations in respect of the BHP litigation.

Commitments

Set forth is a description of Tenaris’ main outstanding commitments:

- Tenaris has transportation capacity agreements with Transportadora de Gas del Norte S.A. (TGN), corresponding to capacity of 1,000,000 cubic meters per day until 2017, the outstanding value of this commitment is approximately \$68.0 million. We also expect to obtain additional gas transportation capacity of 315,000 cubic meters per day until 2027. This commitment is subject to the enlargement of the trunk pipelines in Argentina that are expected to be

ready by 2008.

89

26 Contingencies, commitments and restrictions on the distribution of profits (Cont'd.)

Commitments (Cont'd.)

- In July 2004, Tenaris' subsidiary Matesi Materiales Siderúrgicos S.A. ("Matesi") entered into a twenty-year agreement with C.V.G. Electrificación del Caroní, C.A. ("Edelca") for the purchase of electric power under certain take-or-pay conditions, with an option to terminate the contract at any time upon three years notice. The outstanding value of the contract at December 31, 2006 is approximately \$65.9million.
- In August 2004 Matesi entered into a ten-year off-take contract pursuant to which Matesi is required to sell to Sidor on a take-or-pay basis 29.9% of Matesi's HBI production. In addition, Sidor has the right to increase its proportion on Matesi's production by an extra 19.9% until reaching 49.8% of Matesi's HBI production. Under the contract, the sale price is determined on a cost-plus basis. The contract is renewable for additional three year periods unless Matesi or Sidor objects its renewal more than a year prior to its termination.
- Tenaris entered into a contract with Siderar for the supply of steam generated at the power generation facility owned by Tenaris in San Nicolas. Under this contract, Tenaris is required to provide 250 tn/hour of steam, and Siderar has the obligation to take or pay this volume. This outsourcing contract is due to terminate in 2018. In October 2004, Tenaris detected technical problems at its electric power generating facility located in San Nicolas, Argentina during the routine maintenance of the equipment. GE Energy, the generator's manufacturer, assumed the cost of the repairs of the generator, estimated at \$9.0 million. Tenaris recognized a receivable with the manufacturer for the cost of the repairs. Tenaris impaired the value of these assets under Property, Plant and Equipment for \$11.7 million. The reparation of the generating facility was completed by September 2005.
- Under a lease agreement entered into in 2000 between Gade Srl (Italy) and Dalmine relating to a building located in Sabbio Bergamasco and used by Dalmine's former subsidiary, Tad Commerciale, Dalmine is obligated to bid in the auction for the purchase of a building owned by Gade for a minimum amount of EUR 8.3 million (\$10.0 million). As of the present, a date for the auction has not been announced.

Restrictions on the distribution of profits

As of December 31, 2006, shareholders' equity as defined under Luxembourg law and regulations consisted of:

(all amounts in thousands of U.S. dollars)

Share capital	1,180,537
Legal reserve	118,054
Share premium	609,733
Retained earnings including net income for the year ended December 31, 2006	1,527,096
Total shareholders equity in accordance with Luxembourg law	3,435,420

At least 5% of the net income per year as calculated in accordance with Luxembourg law and regulations must be allocated to the creation of a legal reserve equivalent to 10% of share capital. As of December 31, 2006, this reserve is fully allocated and additional allocations to the reserve are not required under Luxembourg law. Dividends can not be paid from this reserve.

Tenaris may pay dividends to the extent that it has distributable retained earnings and distributable reserve calculated in accordance with Luxembourg law and regulations, and providing the compliance of the covenant related to restricted payments stated in Note 28.

26 Contingencies, commitments and restrictions on the distribution of profits (Cont'd.)*Restrictions on the distribution of profits (Cont'd.)*

At December 31, 2006, the distributable reserve, including retained earnings and profit for the financial year, of Tenaris under Luxembourg law totalled \$1,527.1 million, as detailed below.

(all amounts in thousands of U.S. dollars)

Retained earnings at December 31, 2005 under Luxembourg law	1,171,738
Dividends received	566,831
Other income and expenses for the year ended December 31, 2006	(7,240)
Dividends paid	(204,233)
Retained earnings at December 31, 2006 under Luxembourg law	1,527,096

27 Ordinary shares and share premium

	Number of ordinary shares	
	2006	2005
At January 1 and December 31	1,180,536,830	1,180,536,830

The total of issued and outstanding ordinary shares as of December 31, 2006 is 1,180,536,830 with a par value of \$1.00 per share with one vote each.

28 Business combinations and other acquisitions*(a) Acquisition of Maverick Tube Corporation ("Maverick")*

On October 5, 2006, Tenaris completed the acquisition of Maverick, pursuant to which Maverick was merged with and into a wholly owned subsidiary of Tenaris. On that date, Tenaris paid \$65 per share in cash for each issued and outstanding share of Maverick's common stock. The value of the transaction at the acquisition date was \$3,160 million, including Maverick's financial debt.

With operations in the United States, Canada and Colombia, Maverick is a producer of oil country tubular goods (OCTG), line pipe and coiled tubing for use in oil and natural gas wells and other applications, also producing welded pipes for electrical conduits. Maverick has a combined annual capacity of two million short tons of steel pipes with a size range from one-quarter inch to 16 inches. In 2005, Maverick reported net revenues of approximately \$1.8 billion, of which 82% were from its energy products division.

To finance the acquisition and the payment of related obligations, Tenaris and some of its subsidiaries entered into syndicated loan facilities in an aggregate of \$2.7 billion; the balance was met from cash on hand. In connection with the financing of the Maverick acquisition 75% of the issued and outstanding shares of Maverick were pledged. Immediately upon each payment or prepayment under the Tenaris loan agreement, the number of shares subject to the pledge shall be reduced by the percentage by which the aggregate outstanding principal amount of the loans under such agreement is reduced by operation of such payment or prepayment until the aggregate outstanding principal amount of such loans is less than or equal to \$ 250 million. In addition, Tamsa and Siderca granted drag-along rights in favor of the lenders under the Tenaris loan agreement with respect to the remaining 25% of the issued and outstanding shares of capital stock of Maverick.

Goodwill arising on the acquisition of Maverick, \$1,113, million is the difference between the acquisition price and the fair value on the acquisition date of the identifiable tangible and intangible assets and liabilities determined mainly by independent valuation. This goodwill reflects the opportunity for Tenaris to increase its presence in North America, primarily in the OCTG market.

Tenaris began consolidating Maverick's balance sheet and results of operations in the fourth quarter of 2006.

91

28 Business combinations and other acquisitions (Cont'd.)

(b) Acquisition of a steel pipe business in Argentina

On January 31, 2006, Siat S.A., a subsidiary of Tenaris, completed its acquisition of the welded pipe assets and facilities located in Villa Constitución, province of Santa Fe, Argentina, belonging to Industria Argentina de Acero, S.A. (“Acindar”) for \$29.3 million. The facilities acquired have an annual capacity of 80,000 tons of welded pipes.

(c) Capitalization of Convertible Debt of Consorcio Siderurgia Amazonia, Ltd. (“Amazonia”) and Exchange of Interests in Amazonia and Ylopa Serviços de Consultadoria Lda. (“Ylopa”) for shares of Ternium S.A. (“Ternium”)

On February 3, 2005, Ylopa exercised its option to convert the convertible debt it held in Amazonia into common stock. In connection of this conversion, Tenaris recognized a gain of \$83.1 million in 2004. As a result, Tenaris’ ownership stake in Amazonia increased from 14.5% to 21.2%, and its indirect ownership in Sidor C.A. (“Sidor”) increased from 8.7% to 12.6%.

On September 9, 2005, the Company exchanged its interests in Amazonia and Ylopa, for 209,460,856 shares in Ternium, a newly-formed subsidiary of San Faustin N.V. (a Netherlands Antilles corporation and the controlling shareholder of Tenaris) to consolidate its Latin American holdings in flat and long steel producers Siderar S.A.I.C., Sidor C.A. and Hylsamex, S.A de C.V. As a result of the exchange, which was carried out based on fair values as determined by an internationally recognized investment bank engaged for this purpose, Tenaris obtained an ownership interest of approximately 17.9% in Ternium.

Subsequently, on October 27, 2005, Usinas Siderurgicas de Minas Gerais S.A. (“Usiminas”) exchanged its interests in Amazonia, Ylopa and Siderar S.A.I.C., plus additional consideration of approximately \$114.1 million provided as a convertible loan, for an equity stake in Ternium. As a result of this transaction, at December 31, 2005, Tenaris’ ownership stake in Ternium was reduced to 15.0% of Ternium’s outstanding common stock. As this was an equity transaction in Ternium, the effect of \$2.7 million at Tenaris’ percentage of ownership was recognized in Other reserves in equity.

Because the exchange of Tenaris’ holdings in Amazonia and Ylopa for shares in Ternium was a transaction between companies under common control, Tenaris initially recorded its ownership interest in Ternium at the carrying value of the investments exchanged. At the transaction date, the carrying value of Amazonia and Ylopa was \$229.7 million while Tenaris’ proportional ownership in the equity of Ternium at September 30, 2005 amounted to \$252.3 million. The difference of \$22.6 million between the carrying value of Amazonia and Ylopa and Tenaris’ proportional ownership in the equity of Ternium will remain in the future. As a result of this accounting treatment, Tenaris reported value of its investment in Ternium will not reflect its proportional ownership of Ternium’s net equity position.

In addition, in August 2005, Tenaris extended to Ternium two subordinated convertible loans consisting of principal amount of \$39.7 million. The principal amount of these loans at the date issued corresponded to the amount of certain distributions received from Amazonia during the second and third quarters of 2005 in connection with Ternium’s participation in Amazonia’s financial debt restructuring in 2003. At the date of Ternium’s initial public offering (“IPO”), the loans totaled approximately \$40.5 million, including accrued interest.

Until September 30, 2005, Tenaris recognized its proportional earnings in Amazonia and Ylopa, which amounted to \$26.5 million. As from the quarter ended December 31, 2005, Tenaris recognized earnings from its investment in Ternium to the extent of its proportional ownership in Ternium.

28 Business combinations and other acquisitions (Cont'd.)*(c) Capitalization of Convertible Debt of Consorcio Siderurgia Amazonia, Ltd. ("Amazonia") and Exchange of Interests in Amazonia and Ylopa Serviços de Consultadoria Lda. ("Ylopa") for shares of Ternium S.A. ("Ternium") (Cont'd.)*

On February 6, 2006, Ternium completed its IPO, issuing an additional 248,447,200 shares (equivalent to 24,844,720 ADS) at a price of \$2.00 per share, or \$20.00 per ADS. Tenaris received an additional 20,252,338 shares upon the mandatory conversion of its loans to Ternium. In addition to the shares issued to Tenaris, Ternium issued shares to other shareholders corresponding to their mandatory convertible loans. On February 23, 2006, the underwriters of Ternium's IPO exercised an over allotment option under which Ternium issued an additional 37,267,080 shares (equivalent to 3,726,708 ADS). As a result of the IPO and the conversion of loans, as of February 6, 2006, Tenaris' ownership stake in Ternium amounted to 11.46%. The effect of these transactions resulted in an additional increase of the Company's proportional ownership in Ternium's equity of approximately \$26.7 million, which Tenaris recognized in Other Reserves in equity.

At December 31, 2006, the closing price of Ternium shares as quoted on the New York Stock Exchange was \$29.54 per ADS, giving Tenaris' ownership stake a market value of approximately \$679 million. At December 31, 2006, the carrying value of Tenaris's ownership stake in Ternium was approximately \$408 million.

(d) Acquisition of S.C. Donasid S.A. ("Donasid")

On May 4, 2005, Tenaris completed the acquisition of 97% of the equity in S.C. Donasid S.A., a Romanian steel producer, for approximately \$47.9 million in cash and assumed liabilities. The shares of Siprofer A.G. and Donasid Service S.r.l. were also acquired as part of this transaction.

(e) Minority Interest

During the year ended December 31, 2006, additional shares of Silcotub and Dalmine were acquired from minority shareholders for approximately \$11.2 million.

The assets and liabilities arising from the acquisitions are as follows:

	Maverick (*)	Others	Total 2006	Total 2005
Other assets and liabilities (net)	(698,163)	5,207	(692,956)	(41,755)
Property, plant and equipment	438,046	22,891	460,937	67,211
Customer relationships	1,493,800	-	1,493,800	-
Goodwill	1,112,885	1,402	1,114,287	769
Net assets acquired	2,346,568	29,500	2,376,068	26,225
Minority interest	-	11,181	11,181	(527)
Sub-total	2,346,568	40,681	2,387,249	25,698
Cash-acquired	70,660	-	70,660	-
Purchase consideration	2,417,228	40,681	2,457,909	25,698
Liabilities paid as part of purchase agreement	743,219	-	743,219	22,594
Total disbursement	3,160,447	40,681	3,201,128	48,292

(*) Includes costs directly attributable to the acquisition.

Net cash consideration (total disbursement less cash acquired and common stock issued in acquisition of minority interest) amounted to \$ 48,292 at December 31, 2005.

The businesses acquired in 2006 contributed revenues of \$432.0 million and net income of \$14.5 million to Tenaris (not including the financial cost related to the operation recorded in other subsidiaries different from Maverick). Businesses acquired in 2005 did not materially contribute to the Company's revenue and income.

28 Business combinations and other acquisitions (Cont'd.)**Pro forma data including acquisitions for all of 2006**

Had the Maverick transaction been consummated on January 1, 2006, then unaudited pro forma 2006 twelve month Tenaris net sales and net income on continuing operations would have been approximately \$9.3 billion and \$2.0 billion, respectively. These pro forma results were prepared based on public information and unaudited accounting records maintained under USGAAP prior to acquisition and adjusted by depreciation and amortization of tangible and intangible assets and interest expense of the borrowing incurred for the acquisition (\$2.7 billion). Carrying amounts of assets, liabilities and contingent liabilities in Maverick's books, determined in accordance with IFRSs, immediately before the combination are not disclosed separately, as Maverick did not report IFRS information.

Subsequent event: Hydril Company ("Hydril")

On February 12, 2007, Tenaris announced that it has entered into a definitive merger agreement to acquire Hydril for \$97 per share of Hydril's common stock and \$97 per share of Hydril's Class B common stock, payable in cash.

Tenaris will finance the acquisition through a combination of cash on hand and debt, for which bank commitments have been secured.

The agreement is subject to the receipt of clearance from U.S. antitrust authorities, majority approval of Hydril's shareholders and other customary conditions and is expected to close in the second quarter 2007.

Hydril is a North American manufacturer of premium connections and pressure control products for oil and gas drilling and production. For 2006, Hydril reported revenues of \$503 million, operating income of \$132.2 million and net income of \$91.3 million under US GAAP.

29 Cash flow disclosures**(i) Changes in working capital**

30 Discontinued operations*Sale of a 75% interest in Dalmine Energie*

On December 1, 2006, Tenaris completed for \$58.9 million the sale of a 75% participation of Dalmine Energie, its Italian supply business, to E.ON Sales and Trading GmbH, a wholly owned subsidiary of E.ON Energie AG (“E.ON”) and an indirect subsidiary of E.ON AG. Following consummation of the sale, Tenaris maintains a 25% interest in Dalmine Energie. As a result of this transaction, Tenaris has de-consolidated Dalmine Energie and recognized a \$40.0 million gain.

As per the sale agreement, Tenaris has an irrevocable option to sell to E.ON, at any time during the one year exercise period (in two years from the date of the sale agreement), its 25% remaining interest in Dalmine Energie for a purchase price in cash of EUR 13.0 million plus interests. Also, E.ON has an irrevocable option to purchase from Tenaris, at any time during the one year exercise period (in two years from the date of the sale agreement), Tenaris’ 25% remaining interest in Dalmine Energie for a purchase price in cash of EUR 17.5 million plus interests and adjustments. The fair value of these options at December 31, 2006 is not material.

Analysis of the result of discontinued operations:

(all amounts in thousands of U.S. dollars, unless otherwise stated)

	Year ended December 31,		
	2006 (a)	2005	2004

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of
Tenaris S.A.

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of income, of cash flows and of changes in equity present fairly, in all material respects, the financial position of Tenaris S.A. and its subsidiaries at December 31, 2006 and 2005, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2006 in conformity with International Financial Reporting Standards. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Independent Auditor's report

To the Shareholders of

Tenaris S.A.

Report on the annual accounts

Following our appointment by the General Meeting of the Shareholders dated June 7, 2006, we have audited the accompanying annual accounts of Tenaris S.A., which comprise the balance sheet as at December 31, 2006, and the profit and loss account for the year then ended, and a summary of significant accounting policies and other explanatory notes.

Board of Directors' responsibility for the annual accounts

The Board of Directors is responsible for the preparation and fair presentation of these annual accounts in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the annual accounts. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of annual accounts that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's responsibility

Our responsibility is to express an opinion on these annual accounts based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the annual accounts are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the annual accounts. The procedures selected depend on the Auditor's judgment, including the assessment of the risks of material misstatement of the annual accounts, whether due to fraud or error. In making those risk assessments, the Auditor considers internal control relevant to the entity's preparation and fair presentation of the annual accounts in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors, as well as evaluating the overall presentation of the annual accounts. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, these annual accounts give a true and fair view of the financial position of Tenaris S.A. as of December 31, 2006, and of the results of its operations for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the annual accounts.

Report on other legal and regulatory requirements

The annual report, which is the responsibility of the Board of Directors, is in accordance with the annual accounts.

Tenaris S.A.
Annual Report
December 2006

The Board of Directors of Tenaris S.A. (the “Company” or “Tenaris”) submits its annual accounts in accordance with Luxembourg legal and regulatory requirements for the financial year 2006.

RESULTS FOR THE FINANCIAL YEAR

Profit for the financial year ended December 31, 2006 totalled USD 559.6 million, compared to USD 984.6 million for the financial year ended December 31, 2005.

During the financial year, the Company received the following dividends from its subsidiaries and associated companies:

	USD
Sidtam Ltd.	7,504,764
Tenaris Connections A.G.	19,500,000
Tenaris Global Services S.A.	280,000,000
Tubos de Acero de México S.A.	259,826,520
Total	566,831,284

Our 2006 annual results reflect a further year of strong growth at Tenaris and benefited from good market conditions and the positioning we have built up over a number of years. Earnings per share grew 52% following growth of 65% in 2004. Demand for our high quality tubular products and services from the oil and gas industry remained firm throughout the year particularly in the Middle East and Africa. Following the recent integration of Maverick, sales in 2007 are expected to grow strongly in North America.

CORPORATE REORGANIZATION

TENARIS REORGANIZED ITS INVESTMENTS IN SUBSIDIARIES AND ASSOCIATED COMPANIES AS FOLLOWS:

During the first quarter of 2006, the Company continued purchasing Dalmine S.p.A. (“Dalmine”) remaining shares from third parties according to Italian regulations at EUR 0.10 per share, being the total acquisition of 210,943 shares.

On April 12, 2006 Tenaris entered into a “Purchase and Sale Agreement” with its subsidiary Talta - Trading e Marketing Lda. (“Talta”). Pursuant this agreement, the Company transferred its equity stake in Dalmine to Talta for an amount of USD 166.8 million. As a result, Tenaris recognized a loss of USD 0.5 million under the caption “Loss on sale of shares in affiliated companies” in the Profit and loss account.

Also on April 12, 2006, Tenaris made an irrevocable and non-refundable contribution to Talta for an amount of USD 82.6 million.

INVESTMENT ACTIVITIES

On February 6, 2006, Ternium S.A. (“Ternium”) completed its initial public offering (“IPO”) of shares, issuing an additional 248,447,200 shares (equivalent to 24,844,720 ADS) at a price of USD 2.00 per share, or USD 20.00 per ADS. Tenaris received an additional 20,252,338 shares upon the mandatory conversion of its two loans granted to Ternium in July and August 2005. In addition to the shares issued to Tenaris, Ternium issued shares to other shareholders corresponding to their mandatory convertible loans. On February 23, 2006, the underwriters of Ternium’s IPO exercised an overallotment option under which Ternium issued an additional 37,267,080 shares (equivalent to 3,726,708 ADS). As a result of the IPO and the conversion of loans, as from February 6, 2006 onwards, Tenaris’ ownership stake in Ternium amounted to 11.5%.

On October 5, 2006, Tenaris and its subsidiaries Tubos de Acero de Mexico S.A. (“Tamsa”) and Siderca S.A.I.C. (“Siderca”) completed the acquisition of Maverick Tube Corporation (“Maverick”), pursuant to which Maverick merged with and into O.S. Acquisition Corporation (“O.S. Acquisition”), a wholly owned subsidiary of Tenaris, incorporated in June 2006. On that date, the Company and its subsidiaries transferred to a paying agent for the transaction USD 65.0 per share in cash for each issued and outstanding share of Maverick’s common stock. The aggregate amount of the transaction was valued at USD 3,185 million, including Maverick’s net debt.

To finance the acquisition and the payment of related obligations, Tenaris and some of its subsidiaries entered into syndicated loan facilities in an aggregate of up to USD 2.7 billion. The balance was met from cash on hand.

With operations in the United States, Canada and Colombia, Maverick is a producer of welded oil country tubular goods (OCTG), line pipe and coiled tubing for use in oil and natural gas wells, also producing welded pipes for electrical conduits. Maverick has a combined annual capacity of two million short tons of steel pipes with a size range from one-quarter inch to 16 inches, and approximately 4,650 employees. In 2005, Maverick reported net revenues of approximately USD 1.8 billion, of which 82% were from its energy products division.

SHARES IN SUBSIDIARIES AND ASSOCIATED COMPANIES

After completing the reorganization and investment activities, Tenaris's shares in subsidiaries and associated companies at December 31, 2006 were as follows:

Company	Country	% of ownership (*)	Book value at 12.31.2005 USD	Additions USD	Decreases USD	Book value at 12.31.2006 USD

(*) IT REPRESENTS THE EQUITY INTEREST HELD DIRECTLY BY TENARIS AND THROUGH ANY OF ITS SUBSIDIARIES.

DIVIDENDS

The Annual Ordinary Shareholders' Meeting held on June 7, 2006 approved a dividend payment of USD 354.1 million. Consequently on June 16, 2006 the Company paid a cash dividend in the amount of USD 204.2 million to complement the interim dividend paid on November 16, 2005, for a amount of USD 149.9 million.

Tenaris's shareholders' equity, reflecting the results for the financial year and dividend payments mentioned above, is as follows:

Item	Share capital USD	Legal reserve USD	Share premium USD	Retained earnings USD	Shareholders' equity USD
Balance at the beginning of the financial year	1,180,536,830	118,053,683	609,732,757	1,171,738,288	3,080,061,558
Dividends paid (1)	-	-	-	(204,232,872)	(204,232,872)
Profit for the financial year	-	-	-	559,591,293	559,591,293
Balance at the end of the financial year	1,180,536,830	118,053,683	609,732,757	1,527,096,709	3,435,419,979

(1) As approved by the Ordinary Shareholders' Meeting held on June 7, 2006.

SUBSEQUENT EVENTS

During January 2007 Tenaris received dividend payments from its subsidiaries Tamsa, Sidtam Ltd. ("Sidtam") and Siderca for USD 43.2 million, USD 1.2 million and USD 314.3 million respectively.

On February 12, 2007, Tenaris announced it has entered into a definitive merger agreement pursuant to which Tenaris will acquire Hydril Company ("Hydril") for USD 97 per share of Hydril's common stock and USD 97 per share of Hydril's Class B common stock, payable in cash. Hydril is leading North America manufacturer of premium connections and pressure control products for oil and gas drilling and production. For 2006, Hydril reported revenues of USD 503 million, operating income of USD 132.2 million and net income of USD 91.3 million under US GAAP. The transaction remains subject to the receipt of clearance from U.S. antitrust authorities, majority approval of Hydril's shareholders and other customary conditions. Tenaris will finance the Hydril acquisition through a combination of cash on hand and debt, for which bank commitments have been secured.

OUTLOOK

We expect to sustain profitability given the positive outlook of the oil and gas industry and therefore demand for our products and services.

Carlos A. Condorelli
Chief Financial Officer

Tenaris S.A.

Notes to audited annual accounts as at December 31, 2006

Note 1 - Background and description of the business

Tenaris S.A. (the “Company” or “Tenaris”) was incorporated on December 17, 2001 under the name of Tenaris Holding S.A. as a limited liability company (taking advantage of the law of July 31, 1929, on holding companies) under the laws of Luxembourg. Then, on June 26, 2002, it changed its name to Tenaris S.A.

Tenaris’s objective is to invest mainly in companies that manufacture and market steel tubes and other businesses. Tenaris and its subsidiaries are leading manufacturers and suppliers of steel pipe products and services to the oil and gas and other industries, with production, distribution and service capabilities in key markets worldwide.

Tenaris prepares and publishes consolidated financial statements which include further information on Tenaris and its subsidiaries. They are available at the registered office of the Company, 46a avenue John F. Kennedy, L-1855, Luxembourg.

Note 2 - Summary of significant accounting policies

2.1 Accounts

The accounts have been prepared in accordance with Luxembourg legal requirements and accounting standards, on a basis consistent to that used in the annual accounts for the financial year ended December 31, 2005.

Certain comparative amounts have been reclassified to conform to changes in presentation in the current year.

2.2 Foreign currency translation

Loans to subsidiaries, current assets and liabilities denominated in currencies other than the United States dollar (“USD”) are translated into USD at the rate of exchange at the balance sheet date. The resulting gains or losses are reflected in the Profit and loss account for the financial year. Income and expenses in currencies other than the USD are translated into USD at the exchange rate prevailing at the date of each transaction.

2.3 Formation expenses

Formation expenses were amortized over a period of five years.

2.4 Reorganization cost

Reorganization cost comprises mainly fees for professional services that were incurred in the reorganization process. These costs are amortized over a period of five years.

Tenaris S.A.**Notes to audited annual accounts as at December 31, 2006****Note 2 - Summary of significant accounting policies (Cont'd)****2.5 Financial assets**

Financial assets are stated at cost, adding to the price paid the expenses incidental thereto. In case of other than a temporary decline in the value of an investment, its carrying value will be reduced to recognize this decline. Reductions in the carrying value will be reversed in case of a rise in the value of the investment or when the reasons for the reduction no longer exist.

2.6 Short term investments

Short term investments are valued at market value, expressed in USD, at the balance sheet date.

2.7 Financial debts

Borrowings are stated at amortized cost. The related transaction costs are initially recognized as an asset, and subsequently written off over the period of the debt.

2.8 Interest rate swaps

Interest rate swaps are stated at cost. Considering the Company has entered into zero cost interest rate swaps, as mentioned in Note 12, no value has been assigned to them at the balance sheet date.

Tenaris S.A.

Notes to audited annual accounts as at December 31, 2006

(*) IT REPRESENTS THE equity interest held directly by Tenaris and through any of its subsidiaries.

Note 4 - Financial assets (Cont'd)

4.1 Shares in subsidiaries and associated companies (Cont'd)

Ternium

On February 6, 2006, Ternium S.A. (“Ternium”) completed its initial public offering (“IPO”) of shares, issuing an additional 248,447,200 shares (equivalent to 24,844,720 ADS) at a price of USD 2.0 per share, or USD 20.0 per ADS. Tenaris received an additional 20,252,338 shares upon the mandatory conversion of its two loans granted to Ternium in July and August 2005. In addition to the shares issued to Tenaris, Ternium issued shares to other shareholders corresponding to their mandatory convertible loans. On February 23, 2006, the underwriters of Ternium’s IPO exercised an overallotment option under which Ternium issued an additional 37,267,080 shares (equivalent to 3,726,708 ADS). As a result of the IPO and the conversion of loans, as from February 6, 2006 onwards, Tenaris’ ownership stake in Ternium amounted to 11.5%.

Dalmine

During the first quarter of 2006, the Company continued purchasing Dalmine S.p.A. (“Dalmine”) remaining shares from third parties according to Italian regulations at 0.10 EUR per share, being the total acquisition of 210,943 shares.

On April 12, 2006 Tenaris entered into a “Purchase and Sale Agreement” with its subsidiary Talta - Trading e Marketing Lda. (“Talta”). Pursuant this agreement, the Company transferred its equity stake in Dalmine to Talta for an amount of USD 166.8 million. As a result, Tenaris recognized a loss of USD 0.5 million under the caption “Loss on sale of shares in affiliated companies” in the Profit and loss account.

Talta

Also on April 12, 2006, Tenaris made an irrevocable and non-refundable contribution to Talta for an amount of USD 82.6 million.

Maverick

On October 5, 2006, Tenaris and its subsidiaries Tubos de Acero de Mexico S.A. (“Tamsa”) an Siderca S.A.I.C. (“Siderca”) completed the acquisition of Maverick Tube Corporation (“Maverick), pursuant to which Maverick merged with and into O.S. Acquisition Corporation (“O.S. Acquisition”), a wholly owned subsidiary of Tenaris, incorporated in June 2006. On that date, the Company and its subsidiaries transferred to a paying agent for the transaction USD 65.0 per share in cash for each issued and outstanding share of Maverick’s common stock. The aggregate amount of the transaction was valued at USD 3,185 million, including Maverick’s net debt.

Tenaris S.A.**Notes to audited annual accounts as at December 31, 2006**

To finance the acquisition and the payment of related obligations, Tenaris and some of its subsidiaries entered into syndicated loan facilities in an aggregate of up to USD 2.7 billion (see Note 12). The balance was met from cash on hand.

With operations in the United States, Canada and Colombia, Maverick is a producer of welded oil country tubular goods (OCTG), line pipe and coiled tubing for use in oil and natural gas wells, also producing welded pipes for electrical conduits. Maverick has a combined annual capacity of two million short tons of steel pipes with a size range from one-quarter inch to 16 inches, and approximately 4,650 employees. In 2005, Maverick reported net revenues of approximately USD 1.8 billion, of which 82% were from its energy products division.

In connection with the financing of the Maverick acquisition, the Company and Tamsa pledged to the lenders under the Tenaris syndicated term loan agreement described in Note 12, 75% of the issued and outstanding shares of capital stock of Maverick. Immediately upon each payment or prepayment under the Tenaris loan agreement, the number of shares subject to the pledge shall be reduced by the percentage by which the aggregate outstanding principal amount of the loans under such agreement is reduced by operation of such payment or prepayment until the aggregate outstanding principal amount of such loans is less than or equal to USD 250.0 million. In addition, Tamsa and Siderca granted drag-along rights in favor of the lenders under the Tenaris loan agreement with respect to the remaining 25.0% of the issued and outstanding shares of capital stock of Maverick.

4.2 Loans to subsidiaries and associated companies

	2006	2005
	USD	USD
Talta - Trading e Marketing Lda.	62,679,990	51,294,279
Ternium S.A.	-	40,357,805
Consorcio Siderurgia Amazonia Ltd.	2,079,105	2,079,105
	64,759,095	93,731,189

In July 2004, Tenaris granted a loan to Talta, for a nominal value of USD 60.3 million for the indirect acquisition of an industrial facility in Venezuela. In December 2006, Tenaris and Talta renegotiated the terms and conditions, capitalizing USD 5.6 million of interest and recalculating the short and long term portions. The non current portion at December 31, 2006 amounts USD 62.7 million.

Tenaris S.A.**Notes to audited annual accounts as at December 31, 2006**

On July 28, 2005 and August 16, 2005 Tenaris and Ternium entered into two convertible loan agreements, pursuant to which Tenaris made two loans to Ternium for USD 21.7 million and USD 18.0 million, respectively; corresponding to “Excess Cash” received from Consorcio Siderurgia Amazonia Ltd. (“Amazonia”) and Ylopa Serviços de Consultadoria Lda. (“Ylopa”) during the second and third quarter of 2005. On February 6, 2006 the two loans were converted into shares in Ternium, as explained in Note 4.1.

(1) As approved by the Ordinary Shareholders' Meeting held on June 7, 2006.

Tenaris S.A.

Notes to audited annual accounts as at December 31, 2006

The authorized capital of the Company amounts to USD 2,500 million. The total authorized share capital of the Company is represented by 2,500,000,000 shares with a par value of USD 1 per share. The total capital issued and fully paid-up at December 31, 2006 was 1,180,536,830 shares with a par value of USD 1 per share.

The Board of Directors is authorized to increase the issued share capital, through issues of shares within the limits of the authorized capital for a period of 5 years starting June 26, 2002.

Note 8 - Legal reserve

In accordance with Luxembourg law, the Company is required to set aside a minimum of 5% of its annual net profit for each financial period to a legal reserve. This requirement ceases to be necessary once the balance on the legal reserve has reached 10% of the issued subscribed capital. The Company's reserve has already reached this 10%. The legal reserve is not available for distribution to the shareholders.

Note 9 - Retained earnings

Dividends may be paid by Tenaris upon the Ordinary Shareholders' Meeting's approval, to the extent distributable reserve and distributable retained earnings exist, and providing the compliance of the covenant related to restricted payments stated in Note 12.

At December 31, 2006, the distributable reserve, distributable retained earnings and profit for the financial year of Tenaris under Luxembourg law totalled USD 1,527.1 million.

Note 10 - Taxes

The Company is subject to the tax regime applicable to billionaire holdings as defined by the law dated July 31, 1929.

Following a previously announced decision by the European Commission, the Grand-Duchy of Luxembourg has terminated its 1929 holding company regime, effective January 1, 2007. However, under the implementing legislation, pre-existing publicly listed companies -including Tenaris- will be entitled to continue benefiting from their current tax regime until December 31, 2010.

Tenaris S.A.**Notes to audited annual accounts as at December 31, 2006**

Withholding taxes on dividends received, amounting to USD 780 thousands, are also included under this caption.

	444,444,444	-

It represents a syndicated term loan agreement, for an amount of USD 500 million, entered for the acquisition of Maverick explained in Note 4.1; which accrues interest at Libor plus 1% and is payable in 9 equal installments, the first one due in October 2007 and each of the following 8, every six months.

The main covenants on this loan agreement are limitations on liens and encumbrances, restrictions on investments, limitations on the sale of certain assets and compliance with certain ratios (such as the leverage ratio or the debt service ratio as calculated on the Company's consolidated and unconsolidated financial statements, respectively). In addition, Tenaris is subject to pledges of certain assets and limitations on restricted payments (such as dividends, repurchase or redemption of shares) to the extent that an event of default has occurred or, for so long as the outstanding principal amount under the syndicated loan facility to Tenaris equals to or exceeds USD 425.0 million, if those payments exceed the greater of USD 475.0 million or 25.0% of consolidated net income.

Tenaris S.A.**Notes to audited annual accounts as at December 31, 2006**

To partially hedge future interest payments, as well as to minimize the effect of floating rates, Tenaris has entered into zero cost interest rate swaps. In these contracts, effective as from April 2007, the Company has agreed to exchange with the counterparty, at specified intervals, the difference between interest amounts calculated by reference to an agreed-upon notional principal amount of USD 300.0 million, to the extent that it is lower than the floor or greater than the cap established in such contracts.

Note 13 - Administrative and general expenses

Tenaris S.A.

Notes to audited annual accounts as at December 31, 2006

Note 15 - Gain for sale of shares in affiliated companies and Other gain from transactions with affiliated companies

Gain for sale of shares in affiliated companies

Tenaris was the beneficiary of 24.4% share of a convertible loan payable by Amazonia to Ylopa. In February 2005, Tenaris elected to convert its outstanding subordinated loan with Amazonia into equity. The conversion was contemplated under the agreements governing Siderúrgica del Orinoco C.A. (“Sidor”) and Amazonia’s debt restructuring in June 2003, and consequently Tenaris increased its direct and indirect participation. This transaction resulted in a gain of USD 72.9 million included under the caption “Gain for sale of shares in affiliated companies” in the Profit and loss account for the financial year ended on December 31, 2005.

On September 9, 2005, Tenaris exchanged its equity interest in Amazonia and Ylopa for 209,460,856 shares in Ternium. The Company accounted for this transaction on the basis of the equity value informed by Ternium as arising from the initial consolidated financial statements. As a result, Tenaris recognized a gain of USD 209.6 million under the caption “Gain for sale of shares in affiliated companies” in the Profit and loss account for the financial year ended on December 31, 2005.

Other Gain from transactions with affiliated companies

Also during 2005, Tenaris received USD 39.6 million as “Excess Cash” from Amazonia and Ylopa, which were recorded under the caption “Other gain from transactions with affiliated companies” of the Profit and loss account for the financial year ended on December 31, 2005. This amount was lent to Ternium in the form of two convertible loans (See Note 4.2).

On November 28, 2005 Tamsa Shareholders’ meeting decided to reduce the 46.7% of its share capital. As a result of this transaction the company recognized a gain under the caption “Other Gain from transactions with affiliated companies” of USD 222.5 million in the Profit and loss account.

For the financial year ended December 31, 2006 no gain were incurred due to affiliated companies transactions.

Tenaris S.A.**Notes to audited annual accounts as at December 31, 2006****Note 16 - Interest income - intercompany**

During the financial year, the Company accrued the following interest from its loans to and times deposits with subsidiaries and associated companies:

	2006	2005
	USD	USD
Talta - Trading e Marketing Lda.	7,883,175	3,590,093
Tenaris Investments Limited	4,634,988	1,793,497
Ternium S.A.	146,871	629,030
Tenaris Financial Services S.A.	80,106	59,427
Ylopa - Serviços de Consultadoria Lda.	-	219,013
	12,745,140	6,291,060

Note 17 - Interest income - third parties

During the financial year, the Company accrued the following interest mainly from its short term investments:

	2006	2005
	USD	USD
Liquidity funds	11,867,442	2,452,332
Agency Bonds	2,396,089	-
Others	-	1,154,632
	14,263,531	3,606,964

Tenaris S.A.

Notes to audited annual accounts as at December 31, 2006

Note 18 - Off balance sheet commitments

In addition to the covenants of the syndicated term loan agreement mentioned in Note 12, and as result of the Maverick acquisition, the Company has fully and unconditionally guaranteed to each holder of 1.875% Convertible Senior Subordinated Notes (the "Notes") issued by Maverick in November 15, 2005 and due in 2025, the due and punctual payment of the principal of and any premium and interest on such Notes.

Note 19 - Parent Company

The Company is controlled by San Faustin N.V., a Netherlands Antilles corporation, which owns 60.4% of the Company's outstanding shares, either directly or through its wholly -owned subsidiary I.I.I. Industrial Investments Inc., a Cayman Islands corporation. San Faustin N.V. is controlled by Rocca & Partners, a British Virgin Islands corporation.

Note 20 - Subsequent Events

During January 2007 Tenaris received dividend payments from its subsidiaries Tamsa, Sidtam Ltd. ("Sidtam") and Siderca for USD 43.2 million, USD 1.2 million and USD 314.3 million respectively.

On February 12, 2007, Tenaris announced it has entered into a definitive merger agreement pursuant to which Tenaris will acquire Hydril Company ("Hydril") for USD 97 per share of Hydril's common stock and USD 97 per share of Hydril's Class B common stock, payable in cash. Hydril is leading North America manufacturer of premium connections and pressure control products for oil and gas drilling and production. For 2006, Hydril reported revenues of USD 503 million, operating income of USD 132.2 million and net income of USD 91.3 million under US GAAP. The transaction remains subject to the receipt of clearance from U.S. antitrust authorities, majority approval of Hydril's shareholders and other customary conditions. Tenaris will finance the Hydril acquisition through a combination of cash on hand and debt, for which bank commitments have been secured.

Carlos A. Condorelli
Chief Financial Officer
