**Natuzzi S.p.A. Announces First Quarter 2012 Consolidated Results**

SANTERAMO IN COLLE, Bari, Italy--(BUSINESS WIRE)--May 28, 2012--The Board of Directors of Natuzzi S.p.A. (NYSE: NTZ; the “Company”, hereafter), today approved its consolidated results for the quarter ended March 31, 2012.

- Total Net Sales equal to € 110.4 million, as compared to € 121.0 million in first quarter 2011
- Industrial Margin at € 35.3 million, from € 42.8 million reported in the same comparable period of 2011
- Operating Loss equal to € 7.4 million versus an operating loss of € 2.5 million in the first quarter of 2011
- Net Group Loss of € 8.4 million versus a Net Group Loss of € 3.0 million in first quarter 2011
- Positive Group’s Net Financial Position at € 43.7 million as at March 31, 2012

During the first quarter of 2012, **Total Net Sales** (including raw materials and semi-finished products sold to third parties) decreased 8.8% to € 110.4 million.

Total upholstery net sales amounted to € 95.8 million, down by 9.1% as compared to last year first quarter.

The following table sets forth the break-down of upholstery net sales during the first three months of 2012 and 2011 according to the Group’s main geographical areas:

	<b>2011</b>	<b>2010</b>
Europa (excluding Italy)	38.9%	45.7%
Americas	36.3%	26.0%
Italy	10.6%	14.2%
Rest of the World	14.2%	14.1%
<b><u>Total upholstery net sales</u></b>	<b><u>100.0%</u></b>	<b><u>100.0%</u></b>

The above table highlights a generalized decreasing sales trend in Europe, mainly due to the Sovereign debt related crisis and contraction in the Euro-area economic activity, both still underway. Differently, during the same quarter, the Group reported a strong growth in sales for the Americas region, thanks to the Group’s commercial efforts in North America, a moderate recovery in consumption in the U.S.A. and the positive, albeit still marginal, sales contribution from the South America. As a matter of fact, Group’s sales in Brazil increased 228% to € 1.7 million during the first three months of 2012 (as compared to about € 0.5 million reported for the prior year's first quarter).

---

The **Industrial Margin**, equal to 32.0% of total net sales, worsened on a quarterly basis (35.4% in first quarter 2011) mainly because of the decrease in turnover, different dynamics in raw material prices during the quarters considered, and increase in labor cost.

The incidence of **Selling Expenses on net sales** during the first quarter of 2012 (transportation, commissions and advertising) was substantially unchanged as compared to last year (15.8% in 2012 versus 16.0% in first quarter 2011). In absolute terms, selling expenses were € 17.4 million for the first quarter of 2012, down from € 19.4 million reported for the same quarter of last year.

The incidence of **Other Selling and General and Administrative (G&A) expenses** on net sales worsened by 1.5% on sales, from 21.4% in first quarter 2011 to 22.9% for the first three months of 2012, principally following the decrease in Group's sales. Indeed, in absolute terms, Other Selling and G&A expenses totaled € 25.3 million during the first quarter of 2012, as compared to € 25.9 million reported in last year comparable period.

For the first quarter of 2012, the Company reported a negative **EBITDA** of € 3.0 million, versus a positive EBITDA of € 2.6 million in first quarter 2011.

The **EBIT** margin for the first three months of 2012 was negative at € 7.4 million, as compared to a negative EBIT margin of € 2.5 million in last year first quarter.

The Group reported for the first quarter of 2012 a **consolidated net loss** of € 8.4 million, as the consequence of the above mentioned factors.

### **CONSOLIDATED BALANCE SHEET**

The **Group's Net Financial Position** as of March 31, 2012, remained positive at € 43.7 million. The €11.6 million worsening in the Group's Net Financial Position with respect to € 55.3 million as of December 31, 2011, is mainly attributable to € 4.9 million for working capital needs and investments carried out in the quarter, as well as € 4.5 million due to income-generating dynamics.

Pasquale Natuzzi, Chairman and CEO of Natuzzi S.p.A., commented: *“The difficult economic and market conditions still persist and have been further worsening over the past few months, thus negatively affecting the consumers' disposable income and, most of all, fostering a generalized lack of confidence and worries in the future, particularly evident in the European Union countries.*

*But the overall picture is not entirely negative, though. The reduction in sales, particularly evident in Europe -- continued Pasquale Natuzzi -- was partially offset by a considerable increase in turnover from the Americas, where the Group started to recover market shares. In addition, we continued to strengthen our presence in the BRIC Countries (Brazil, Russia, India and China), by expanding our distributive network considerably. Besides, we closely watch some still growing markets, such as those in Middle East and Africa.*

---

*There are still many and demanding challenges in front of us. The proportions, length and gravity of the systemic crisis we've been witnessing nowadays is something we have never experienced so far. But it is just during hard times that we can create and seize opportunities, provided to have a global vision, to be able to innovate and improve product, processes and customer service.*

*The Natuzzi Group is still one of the leading players in the market but the only one with manufacturing and distributive assets that can be considered really global. And that is also thanks to a prudent dividend policy, made possible by its far-seeing shareholders. The Group's financial soundness is crucial during such difficult times.*

*The Natuzzi brand is associated worldwide to the excellence in design and Italian manufacture that, together with a unique know-how -- concluded Mr. Natuzzi -- allows me to look ahead beyond the current difficulties with renewed confidence in our capabilities”.*

### **About Natuzzi**
