Item 2.04. Triggering Events That Accelerate or Increase a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement.

Ascendia Brands, Inc. (the Registrant) has notified its senior lenders that it is in default of certain covenants contained in its first and second lien credit facilities and is unable to make certain representations and warranties deemed to be made when drawings are made under its revolving credit facility.

Under its senior credit facilities, unless a waiver is provided by the lenders, the Registrant is required to make a prepayment of its senior debt if and to the extent that, at the end of any month, the amount of first lien debt then outstanding exceeds three times the Registrant's adjusted *pro forma* trailing twelve month (TTM) earnings before interest, taxes, depreciation and amortization (EBITDA). Any such prepayment must be made not later than one business day following the submission of the monthly financial statements that the Registrant is required to furnish to its lenders under the terms of the senior credit facilities.

As previously described in Item 4.02 of the Current Report on Form 8-K filed by the Registrant on November 30, 2007, the Registrant is currently evaluating certain adjustments to previously issued financial statements. Although these adjustments have not yet been finalized, the Registrant believes that a prepayment in the amount of approximately \$26 million is currently required to be paid to our senior lenders, based upon the estimated adjusted *pro forma* TTM EBITDA as of October 27, 2007. The Registrant's failure to make such payment constitutes an event of default under its first and second lien credit facilities and entitles the Registrant's senior lenders to accelerate the Registrant's first and second lien indebtedness. In addition, as a result of the Registrant's inability to make the required prepayments, and as a consequence of the Registrant's financial condition generally, certain representations and warranties that are deemed to be made whenever the Registrant makes drawings under its revolving credit facility may no longer be true and correct. These include representations and warranties that the Registrant and its subsidiaries, taken as a whole, are solvent and that there has been no material adverse change in the condition of the Registrant since August 26, 2006. The Registrant has notified its lenders that it cannot make such representations and warranties.

As a result of the Registrant's failure to make the prepayment and its inability to make the representations and warranties described above, the Registrant's revolving lender is entitled to cease to permit borrowings under the Registrant's revolving credit facility. On December 12, 2007 the Registrant received notice from the agent for the first lien lenders reserving such lenders' rights under the first lien credit facility generally, including the right to cease making advances under the revolving credit facility. The Registrant's lenders have not yet exercised, or notified the Registrant that they intend to exercise, any remedies. However, if the lenders were to declare the loans to be due and payable, or if the Registrant becomes unable to draw on its revolving credit facility, it would become unable to fund continuing operations unless alternative sources of capital were found. The Registrant is in negotiations with its lenders and is actively seeking additional capital in order to provide the liquidity necessary to fund future operations.

Item 7.01 Regulation FD Disclosure
