PROXY STATEMENT

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors (the Board) of CNO Financial Group, Inc. (CNO or the Company) for the Annual Meeting of Shareholders (the Annual Meeting) to be held at the CNO Conference Center, 11825 North Pennsylvania Street, Carmel, Indiana on May 12, 2011, at 8:00 a.m., Eastern Daylight Time. It is expected that this Proxy Statement and proxy will be mailed to the shareholders on or about April 13, 2011.

Solicitation of Proxies

The enclosed proxy is solicited by the Board of Directors. Proxies may be solicited by mail, telephone, internet or in person. Proxies may be solicited by the CNO Directors and officers. All expenses relating to the preparation and mailing to the shareholders of the Notice, this Proxy Statement and the form of proxy are to be paid by CNO.

If the enclosed form of proxy is properly executed and returned in time for the meeting, the named proxy holders will vote the shares represented by the proxy in accordance with the instructions marked on the proxy. Proxies returned unmarked will be voted for each of the board's nominees for director (Proposal 1), for the ratification of the appointment of the Company's independent registered public accounting firm (Proposal 2), for approval of the compensation paid to our named executive officers (Proposal 3) and for one year with respect to the frequency of future votes on executive compensation (Proposal 4). A shareholder may revoke a proxy at any time before it is exercised by mailing or delivering to CNO a written notice of revocation or a later-dated proxy, or by attending the meeting and voting in person.

Record Date and Voting

Only holders of record of shares of CNO's common stock as of the close of business on March 14, 2011, will be entitled to vote at the meeting. On such record date, CNO had 253,119,376 shares of common stock outstanding and entitled to vote. Each share of common stock will be entitled to one vote with respect to each matter submitted to a vote at the meeting. The presence in person or by proxy of the holders of a majority of the outstanding shares of common stock entitled to vote at the Annual Meeting is necessary to constitute a quorum.

If you hold your shares in street name (that is, if you hold your shares through a broker, bank or other holder of record), you may be able to vote by telephone or via the Internet. Please refer to the information on the voting instruction form forwarded to you by your bank, broker or other holder of record to see which voting options are available to you.

If you want to vote in person at the Annual Meeting and you hold your shares in street name, you must obtain a legal proxy from your bank, broker or other holder of record authorizing you to vote. You must then bring the legal proxy to the Annual Meeting.

1

Votes Required

The election of directors (Proposal 1) will be determined by a majority of the votes cast by the holders of shares represented (in person or by proxy) and entitled to vote at the Annual Meeting provided a quorum is present. The vote required to approve the ratification of the appointment of the Company's independent registered public accounting firm (Proposal 2), the advisory vote on executive compensation (Proposal 3) and the advisory vote on frequency of the vote on executive compensation (Proposal 4) is the affirmative vote of the holders of a majority of the shares represented and entitled to vote at the Annual Meeting. Abstentions from voting will have the same legal effect as voting against each proposal.

Abstentions and shares represented by broker non-votes, as described below, are counted as present and entitled to vote for the purpose of determining a quorum. A broker non-vote occurs if you hold your shares in street name and do not provide voting instructions to your broker on a proposal and your broker does not have discretionary authority to vote on such proposal. Under current New York Stock Exchange rules, your broker will not have discretionary authority to vote your shares at the Annual Meeting with respect to Proposal 1 (election of the eight directors listed in this Proxy Statement) and Proposals 3 and 4 (relating to non-binding votes on executive compensation). Your broker will have discretion to vote your uninstructed shares on Proposal 2 (ratification of the appointment of PricewaterhouseCoopers LLP as the Company's

independent registered public accounting firm for 2011).

PROPOSAL 1

ELECTION OF DIRECTORS

Eight individuals will be elected to the Board for one-year terms expiring at the 2012 annual meeting of shareholders. Six of the nominees listed below (R. Keith Long, Charles W. Murphy, C. James Prieur, Neal C. Schneider, Michael T. Tokarz and John G. Turner) are currently members of the board of directors. The other nominees, Robert C. Greving and Frederick J. Sievert, will join the Board upon election at the Annual Meeting. Each of the other current directors, R. Glenn Hilliard, Donna A. James, Debra J. Perry and David K. Zwiener, has decided not to seek re-election. The decisions not to seek re-election were not based on any disagreement with the Company relating to its operations, policies or practices. The Company thanks them for their many years of service to the Company. All directors will serve until their successors are duly elected and qualified.

Director Qualifications and Experience

In considering candidates for the Board, the Governance and Strategy Committee reviews the experience, skills, attributes and qualifications of the current Board members and other potential candidates to ensure that the Board has the skills and experience to properly oversee the interests of the Company. In doing so, the Governance and Strategy Committee considers the experience, skills, attributes and qualifications of candidates in these areas:

Insurance and financial services industry;

Accounting or other financial management;

Investments;

Legal and regulatory;

Actuarial;

Management including service as a chief executive officer or manager of business units or functions;

Talent management; and

Experience as a director of other companies.

The key experiences, skills, qualifications and skills of each of the nominees are included in their individual biographies below.

Consideration is also given to each nominee's independence, financial literacy, personal and professional accomplishments and experience in light of the needs of the Company. For incumbent directors, past performance on the Board and contributions to their respective committees are also considered. The Governance and Strategy Committee and the Board seek directors with qualities that will contribute to the goal of having a well-rounded, diverse Board that functions well as a unit and is able to satisfy its oversight responsibilities effectively. The Governance and Strategy Committee expects each of the directors to have proven leadership, sound judgment, high ethical standards and a commitment to the success of the Company.

The Governance and Strategy Committee does not have a specific diversity policy with respect to Board candidates, but it strongly believes that the Board should have a variety of differences in viewpoints, professional experiences, educational background, skills, race, gender and age, and considers issues of diversity and background in its process of selecting candidates for the Board.

Board Nominees

The Governance and Strategy Committee engaged a third-party search firm to identify, assist in the evaluation of, and recommend potential Board candidates. After considering candidates identified through that process, the Governance and Strategy Committee recommended that Mr. Greving and Mr. Sievert be nominees for election to the Board at the Annual Meeting.

5

Should any of the nominees become unable to accept election, the persons named in the proxy will exercise their voting power in favor of such person or persons as the Board may recommend. All of the nominees have consented to being named in this Proxy Statement and to serve if elected. The Board knows of no reason why any of its nominees would be unable to accept election.

The Governance and Strategy Committee does not have a written policy regarding shareholder nominations for director candidates. The Governance and Strategy Committee will, however, consider candidates for director nominees put forward by shareholders. See *Shareholder Proposals for 2012 Annual Meeting* for a description of the advance notice procedures for shareholder nominations for directors.

It is also responsible for developing principles of corporate governance and recommending them to the Board for its approval and adoption, and reviewing periodically these principles of corporate governance to insure that they remain relevant and are being complied with. The Governance and Strategy Committee currently consists of Mr. Tokarz, Ms. Perry and Mr. Schneider, with Mr. Tokarz serving as chairman of the committee. All current members of the Governance and Strategy Committee are independent within the meaning of the listing requirements adopted by the New York Stock Exchange regarding nominating committee membership. The committee held three meetings during 2010. A copy of the Governance and Strategy Committee's charter is available on our website at www.CNOinc.com.

Human Resources and Compensation Committee. The report of the Human Resources and Compensation Committee appears on page 31 of this Proxy Statement. The Human Resources and Compensation Committee currently consists of Ms. Perry, Ms. James and Mr. Tokarz, with Ms. Perry serving as committee chair. It is anticipated that Mr. Turner will chair the Human Resources and Compensation Committee after the Annual Meeting. All current members of the Human Resources and Compensation Committee, as well as Mr. Turner, are independent within the meaning of the listing requirements adopted by the New York Stock Exchange regarding compensation committee membership and qualify as non-employee directors for purposes of Rule 16b-3 of the Securities Exchange Act of 1934 and as outside directors for purposes of Section 162(m) of the

Internal Revenue Code. The committee met on five occasions in 2010. A copy of the Human Resources and Compensation Committee's charter is available on our website at www.CNOinc.com.

Subject to the requirements of applicable law, including our certificate of incorporation and bylaws, the Executive Committee is responsible for exercising, as necessary, the authority of the board of directors in the management of our business affairs during intervals between board meetings. The Executive Committee currently consists of Mr. Hilliard, Mr. Prieur and Mr. Turner, with Mr. Turner serving as chairman of the committee. A copy of the Executive Committee's charter is available on our website at www.CNOinc.com.

Director Compensation

Our non-employee directors currently receive an annual cash retainer of \$70,000, with the exception of Mr. Murphy who has declined any director fees. Our Non-Executive Chairman receives a fee equal to 175% of the base cash fees and equity awards paid to the other non-employee directors. The chairs of the Audit and Enterprise Risk Committee and the Human Resources and Compensation Committee each currently receive an additional annual cash fee of \$30,000, and directors who chair one of our other board committees receive an additional annual cash fee of \$20,000. Each member of the Audit and Enterprise Risk Committee (including the chairman) receives an additional annual cash retainer of \$15,000. Cash fees are paid quarterly in advance. In addition to the cash payments, our non-employee directors have received \$70,000 in annual equity awards, which vest immediately upon grant. The amount of fees paid to our non-employee directors has not changed since it was first set in 2003, except for a \$10,000 increase implemented in 2007 in the additional fee paid to the chair of the Human Resources and Compensation Committee. The Governance and Strategy Committee has recommended that the base annual fee paid to directors be increased by \$10,000, effective at the Annual Meeting. The Board's policy is to review and set the compensation of the non-employee directors each year at the annual Board meeting and to make equity awards to those directors at that time. Directors are reimbursed for out-of-pocket expenses, including first-class airfare, incurred in connection with the performance of their responsibilities as directors. The compensation paid in 2010 to our non-employee directors is summarized in the table below:

These awards vested immediately upon grant.

Board Leadership Structure

CNO has a non-executive, independent director, who serves as Chairman of the Board. Mr. Hilliard, who is not seeking re-election, currently serves in that capacity. It is anticipated that Mr. Schneider will serve in that capacity after the Annual Meeting. The Board believes that its leadership structure, with a non-executive chairman position separate from the chief executive officer, provides appropriate, independent oversight of management and the Company. The non-executive chairman of the board (1) presides at all meetings of the Board and shareholders; (2) presides during regularly held sessions with only the independent directors; (3) encourages and facilitates active participation of all directors; (4) develops the calendar of and agendas for board meetings in consultation with the chief executive officer and other members of the Board; (5) determines, in consultation with the chief executive officer, the information that should be provided to the Board in advance of the meeting; and (6) performs any other duties requested by the other members of the Board.

As discussed below, all members of our Board are independent other than C. James Prieur, our chief executive officer. As CEO, Mr. Prieur, subject to the direction of the Board, is in charge of the business and affairs of CNO and is our chief policy making officer. Our Board and its committees play an active role in overseeing the Company's business. They bring a broad range of leadership, business and professional experience to the Board and actively participate in Board discussions. The Board believes that having a non-executive chairman and a Board comprised almost entirely of independent, non-employee directors best serves the interests of our shareholders and the Company.

Board Meetings and Attendance

During 2010, the Board met on 11 occasions. Each director attended at least 75% of the meetings of the Board and Board committees on which they served. The independent directors regularly meet in executive session without the chief executive officer or any other member of management. The non-executive chairman presides at such executive sessions.

In addition, CNO has a policy that all directors attend the annual meeting of shareholders. All of our directors attended the annual meeting of shareholders held in 2010.

Director Independence

The Board annually determines the independence of directors based on a review by the directors. Although the Board has not adopted categorical standards of materiality for independence purposes, no director is considered independent unless the Board has determined that he or she has no material relationship with CNO, either directly or as an officer, shareholder or partner of an organization that has a material relationship with

CNO. Material relationships can include commercial, industrial, banking, consulting, legal, accounting, charitable and familial relationships, among others. The Board considers the New York Stock Exchange guidelines in making its determination regarding independence and the materiality of any relationships with CNO. Under the NYSE corporate governance standards, a director is not independent if he or she has been an employee or executive officer of the Company within the last three years. The Board has determined that all current directors other than Mr. Prieur are independent and has determined that Mr. Greving and Mr. Sievert are also independent.

Board's Role in Risk Oversight

Enterprise risk management is integral to our business. The Board is responsible for overseeing the Company's risk profile and management's processes for managing risk. The oversight of certain risks, including those relating to the Company's capital structure and capital management is done by the full Board. The Board has delegated primary responsibility for many aspects of the Board's risk oversight to the Audit and Enterprise Risk Committee. The Audit and Enterprise Risk Committee receives reports at its meetings and oversees management's processes for managing enterprise risk, including the risk management process associated with financial controls, insurance reserves, legal, regulatory and compliance risks, and the overall risk management structure, process and function. Other Board committees oversee risk management related to specific functions. The Investment Committee oversees investment and asset-liability management risk. The Human Resources and Compensation Committee oversees risks associated with our compensation programs so that incentives are not provided for inappropriate risk taking, as further discussed below.

Our leadership strongly supports an active and engaged risk management process. CNO has established an enterprise risk-management committee comprised of senior management from business units and functions throughout the Company. This enterprise risk management committee meets at least once each month and is co-chaired by the chief executive officer and the chief financial officer. The Company has a vice president whose full time responsibilities are the coordination of enterprise risk management activities. Reports on different aspects of the Company's enterprise risk management are provided to the Board, to the Audit and Enterprise Risk Committee and other Board committees, as appropriate, on a regular basis.

As part of its risk oversight responsibilities, the Board and its committees review policies and processes that senior management uses to manage the Company's risk exposure. In doing so, the Board and its committees review the Company's overall risk function and senior management's establishment of appropriate systems and processes for managing insurance risk, interest rate and asset-liability management risk, credit and counterparty risk, liquidity risk, operational risk and reputational risk.

Relationship of Compensation Policies and Practices to Risk Management

The Human Resources and Compensation Committee has reviewed our compensation programs and believes that they do not incentivize inappropriate risk taking that could lead to a material adverse impact on the Company. Our incentive plans include multiple performance measures, most of which are financial in nature, and are designed to hold employees accountable for sustained improvement in the core operating performance of the Company. We structure our pay to include both fixed and variable compensation and our variable compensation is capped at no more than two times the target opportunities. In addition, our officers' compensation aligns them with shareholder interests through equity-based awards with multiple year vesting.

Approval of Related Party Transactions

Transactions and agreements with related persons (directors and executive officers or members of their immediate families or shareholders owning five percent or more of the Company's outstanding stock) that meet the minimum threshold for disclosure in the proxy statement under applicable SEC rules (generally transactions involving amounts exceeding \$120,000 in which a related person has a direct or indirect material interest) must be approved by the board of directors or a committee comprised solely of independent directors.

12

In considering the transaction or agreement, the board or committee will consider all relevant factors including the business reason for the transaction, available alternatives on comparable terms, actual or apparent conflicts of interest and the overall fairness of the transaction to the Company. Any proposed transactions that might be considered a related person transaction are to be raised with the Chairman of the Board or the Chairman of the Governance and Strategy Committee. They will jointly determine whether the proposed transaction should be considered by the full board (recusing any directors with conflicts) or by a board committee of independent directors. Related person transactions are to be approved in advance whenever practicable, but if not approved in advance are to be ratified (if the board or committee considers it appropriate to do so) as soon as practicable after the transaction.

Various Company policies and procedures, including the Code of Business Conduct and Ethics and annual questionnaires completed by all company directors, officers and employees, require disclosure of transactions or relationships that may constitute conflicts of interest or otherwise require disclosure under applicable SEC rules. Any related person transactions that are identified under these additional policies and procedures are to be considered under the process described above.

Code of Ethics

We have adopted a Code of Business Conduct and Ethics that applies to all officers, directors and employees regarding their obligations in the conduct of the Company's affairs. A copy of the Code of Business Conduct and Ethics is available on our website at www.CNOinc.com. Within the time period specified by the SEC and the New York Stock Exchange, we will post on our website any amendment to our Code of Business Conduct and Ethics and any waiver applicable to our principal executive officer, principal financial officer or principal accounting officer.

Corporate Governance Guidelines

CNO is committed to best practices in corporate governance. Upon the recommendation of the Governance and Strategy Committee, the Company adopted a set of Board Governance Operating Guidelines. A copy of the CNO Board Governance Operating Guidelines is available on our website at www.CNOinc.com.

Director Stock Ownership Guidelines

The Board has adopted guidelines regarding ownership of CNO common stock by the directors. These guidelines provide for each director to own shares of common stock with a value of at least three times their annual base cash compensation, and directors are given five years from the date of their initial election to reach that level of ownership. Based on the current base cash compensation for directors of \$70,000 per year, the ownership guidelines call for each director to own shares with a value of at least \$210,000. As of March 14, 2011, all directors who have served on the board for at least five years met these stock ownership guidelines.

Succession Planning

The Board is actively involved with the Company's talent management process. Annually, the Board reviews the Company's leadership team, which includes a detailed discussion of succession plans for the chief executive officer and other members of executive and senior management. In addition, the Board regularly discusses the Company's plans for talent development, with a focus on high potential individuals who are in the position to make the most significant contributions to the Company and to serve as its future leaders.

Communications with Directors

Shareholders and other interested parties wishing to communicate directly with CNO's board of directors or any one or more individual members (including the presiding director or the non-management directors as a group) are welcome to do so by writing to the CNO Corporate Secretary, 11825 North Pennsylvania Street,

13

Carmel, Indiana, 46032. The Corporate Secretary will forward any communications to the director or directors specified by the shareholder or other interested party.

Compensation Committee Interlocks and Insider Participation

Ms. James, Mr. Tokarz and Ms. Perry served on the Human Resources and Compensation Committee throughout 2010 and Mr. Hilliard served until April 30, 2010. None of the current members of the Human Resources and Compensation Committee is or has been one of our officers or employees. None of our executive officers serves, or served during 2010, as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving on our board of directors or Human Resources and Compensation Committee.

EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

Executive Summary

CNO Financial Group, Inc. is a Fortune 1000 insurance holding company, with more than \$4 billion in annual revenues. CNO's insurance companies are leading providers of supplemental health insurance, life insurance and annuities to middle-market Americans.

CNO delivered a strong year of financial performance in 2010. Operating income was up 11% over the previous year, driven in part by strong investment portfolio performance. The consolidated statutory risk-based capital ratio of our insurance subsidiaries increased 23 percentage points to 332%, and book value per common share, excluding accumulated other comprehensive income (loss), increased to \$16.28 from \$15.14. 2010 also saw our stock price increase by 35%. In December of 2010, we completed a comprehensive refinancing of our debt, which strengthened our capital structure and significantly lengthened the maturity of our debt, resulting in increased financial flexibility.

CNO's Fix, Focus and Grow approach continued to focus on:

Edgar Filing: CNO Financial Group, Inc. - Form DEF 14A

Refining our product mix to better meet our customers' needs and enhance our long-term profitability;

Strengthening our capital position and improving financial flexibility;

Maximizing return on our investment portfolio subject to appropriate risk assessment;

Implementing improvements in operational efficiency while reducing the expenses associated with the underlying cost structure; and

Incentivizing and developing our management team to ensure that we retain the executive talent needed to achieve our strategic objectives.

We highlight below a number of key actions and decisions with respect to our executive compensation programs taken in 2010 to support our compensation objectives.

Summary of Key Actions, Decisions and Results in 2010

No merit (base salary) increases for the vast majority of executives (vice president level and above), including the Named Executive Officers: Due to the continued uncertainty of the economic climate, as

14

well as general market trends, the Human Resources and Compensation Committee (the Committee) decided not to award base salary increases to most executives in 2010.

Utilized a one-time restricted stock grant to enhance retention of key executive talent: In light of the decision not to provide merit increases for the second year in a row to most executives in 2010, certain executive officers, including four Named Executive Officers, were granted restricted shares in 2010 as a special retention measure and to reward individual performance.

Metrics for Annual Cash Incentive Plan reauthorized by shareholders: Certain changes were adopted for the 2010 Pay for Performance plan (P4P), including the re-authorization of performance metrics by shareholders in order to ensure compliance with Section 162(m) of the Internal Revenue Code.

Strong 2010 P4P results: Driven by strong financial results of the Company and our operating segments, P4P payouts ranged from 95% to 193% of target for the Named Executive Officers.

Introduced restricted shares (R-Shares) as part of the annual equity grant: In previous years, the only components of our annual equity grant were stock options and Performance Shares (P-Shares). For the 2010 equity grant, we provided restricted shares in addition to stock options and P-Shares. The addition of restricted shares in the annual equity grant was intended to promote retention and to balance the mix of our equity vehicles; however, the performance-related vehicles (stock options and P-Shares) still constitute a majority of the annual equity grant.

2008-2010 P-Shares not earned: At the end of the performance period (December 31, 2010), the performance goals for the 2008-2010 P-Share grant were not achieved. Accordingly, no P-Shares vested from this grant.

CEO grant in 2010 represented a premium to the market median: The value of the annual equity grant made to our Chief Executive Officer in 2010 included a premium over the market median to reward his performance and leadership in delivering on our business objectives and strengthening our capital position at the end of 2009.

These key actions and decisions resulted in the following compensation for our Named Executive Officers:

Summary of Compensation Governance Practices

The Human Resources and Compensation Committee has endeavored to maintain good governance standards in our compensation practices. They include:

Adopted Stock Ownership Guidelines: In early Spring of 2011, the Committee approved stock ownership guidelines for the Chief Executive Officer and the senior executive officers who report to him, to be implemented in May 2011.

No significant perquisites offered: Our executives participate in broad-based Company-sponsored benefits programs on the same basis as other full-time associates.

Change in control agreements are governed by double trigger arrangements: All employment agreements for Named Executive Officers and other senior executives require a termination of employment in addition to a change in control of the Company before change in control benefits are triggered.

Separation of Board Chair and Chief Executive Officer positions: We have operated with these roles separated for several years.

No supplemental executive retirement programs (SERPs) offered: We do not offer SERPs to our current executives.

Independence of executive compensation consultant: The advisor to the Committee does not provide any services to management and had no prior relationship with our Chief Executive Officer or other Named Executive Officers.

Independence of Committee Members: In 2010, the Chair of the Board of Directors became a non-voting participant of the Committee in order to satisfy the Committee's independence requirements.

Percent of Variable and Performance-Based Pay: Variable pay comprises a significant portion of Total Direct Compensation for our Named Executive Officers (approximately between 70% and 85%), the majority of which is in long-term incentives (approximately between 40% to 65%).

Continued to utilize a Governor in the Annual Incentive Plan: In 2010, we continued a policy which limits incentive payments on non-income-related metrics when we do not achieve overall threshold operating earnings.

Strengthened Clawback Rights: In 2010, we strengthened clawback provisions in our P4P plan to include recapture rights of any incentive amount paid or vested in the event that the Committee determines that the achievement of performance goals was based on incorrect data.

Assessing level of risk: The Committee annually assesses the level of risk associated with our incentive plans.

Ongoing succession planning: The Committee regularly engages throughout the year in in-depth discussions regarding succession planning and talent development of our executives.

Philosophy, Objectives and Role of Human Resources and Compensation Committee

Philosophy

The Human Resources and Compensation Committee, which is comprised solely of independent, non-employee Directors, has developed a philosophy and a comprehensive compensation and benefits strategy to reward overall and individual performance that drives long-term success for our shareholders.

16

Our underlying compensation philosophy consists of the following guiding principles:

Pay for Performance: Rewards will vary based on overall, business segment and individual performance.

Target Total Rewards Position: The overall rewards will be competitive by targeting compensation at approximately the median of the relevant comparator group with competitive 75th percentile compensation for achieving superior performance.

Relevant Comparator Group: The relevant comparator group (in this case, the participant companies in the Towers Watson surveys indicated below) will primarily be the insurance/financial services industry and general industry where appropriate, taking both national and geographical differences into consideration.

Pay for Performance Objectives

The Committee strives to provide a clear reward program that allows us to attract, incentivize and retain seasoned executive talent with the significant industry experience required to continue to improve our performance and build long-term shareholder value. To achieve this, our programs are designed to:

Reward sustainable operational and productivity improvements. This means that (1) we set performance goals under our P4P plan at levels that represent targeted performance levels for key financial metrics and (2) we set multi-year performance goals for our P-Share (performance share) awards;

Align the interests of our executives with those of our shareholders by rewarding shareholder value creation;

Integrate with the Company-wide annual performance management program of goal setting and formal evaluation;

Edgar Filing: CNO Financial Group, Inc. - Form DEF 14A

Provide for discretion to make adjustments and modifications based upon how well individual associates meet our performance standards for expected achievement of business results, as well as upholding our values and critical behaviors; and

Offer the opportunity to earn above-market compensation when overall and individual performances exceed expectations.

Target Total Rewards and Selection of the Comparator Groups

In setting target executive compensation opportunities, our Committee looks at Total Annual Cash (which is comprised of base salary and target incentives) and Total Direct Compensation (which is the sum of Total Annual Cash and long-term incentives). Our long-term incentives may include annual stock option awards as well as restricted shares and P-Share awards. The Committee intends to compensate our executives at approximately the 50th percentile (meaning within a range of +/- 15% of the 50th percentile dollar value) for total compensation, for the achievement of target performance, with additional compensation opportunities for the achievement of superior results. Below target performance results in compensation below target levels.

The Committee assesses competitive market compensation annually using a number of sources. At the recommendation of the independent compensation consultant, the Committee elected to use the Towers Watson Financial Services Survey as the primary data source in setting competitive market levels for four of our Named Executive Officers in 2010. For the President of 40186 Advisors, Inc., the Committee used the Life Office Management Association (LOMA) Executive Survey, conducted by Towers Watson.

Although aggregate pay levels are generally consistent with our compensation philosophy, it is possible that pay levels for specific individuals may be above or below the targeted competitive benchmark levels based on a number of factors, including each individual's role and responsibilities within our Company, the individual's experience and expertise, the pay levels for peers within the Company, the pay levels for similar job functions in the marketplace, the individual's business segment, and our Company as a whole. The Committee is responsible for approving all compensation programs for our senior executive officers. In determining executive compensation, the Committee considers all forms of compensation and benefits, and uses appropriate tools such as tally sheets and market studies to review the value delivered to each executive through each component of compensation.

Tally sheets provide a vehicle for the Committee to examine external market practices and compare them to our internal evaluations and decisions. Our tally sheets capture and report:

Competitive external market data on a base salary, Total Annual Cash and Total Direct Compensation basis;

Individual Total Annual Cash compensation including annual salary, target bonus opportunity, and actual bonus paid;

Long-term equity grants and their vesting status and current value at a hypothetically established share price; and

Employment agreement terms and conditions.

Competitive market data is used as a reference point, and we avoid automatic adjustments based on annual competitive benchmarking data, since we believe a given executive's compensation should also reflect Company-specific factors such as the relative importance of the role within the organization, the compensation

for other positions at the same level, and individual factors such as experience, expertise, individual performance and tenure.

In addition to the objective review of external factors, the Committee also considers internal equity among colleagues when determining executive compensation levels. This means that, although the Committee examines competitive pay data for specific positions, market data is not the sole factor considered in setting pay levels. The Committee also considers factors such as our organizational structure and the relative roles and responsibilities of individuals within that structure. The Committee believes that this approach fosters an environment of cooperation among executives that improves sales growth, profitability and customer satisfaction.

Realized total compensation in any year may be significantly above or below the target compensation levels depending on whether our incentive goals were attained and whether shareholder value was created. In some cases, the amount and structure of compensation results from negotiations with executives at the time they were hired, which may reflect competitive pressures to attract and hire quality executive talent in the insurance industry. To help attract and retain such talent, the Committee also seeks to provide a level of benefits in line with those of comparable publicly traded companies without matching such benefits item by item.

Role of the Human Resources and Compensation Committee

The Human Resources and Compensation Committee determines the components and amount of compensation for our executive officers and provides overall guidance for our employee compensation policies and programs. In addition, the Committee actively monitors our executive development and succession planning activities related to our senior executives and other members of management. Currently, there are three members of our Board of Directors who sit on the Committee, each of whom is an independent director under the New York Stock Exchange listing requirements, the exchange upon which our stock trades. In addition, two of our other directors (including the Chair of the Board of Directors) are non-voting participants in meetings and discussions of the Committee. From time to time, other Board members may also participate in the Committee's meetings. In 2010, the Chair of the Board of Directors became a non-voting participant of the Committee in order to satisfy independence requirements of the Human Resources and Compensation Committee. The full Board of Directors receives regular reports of Committee deliberations and decisions and, at least once annually, the full Board reviews the Committee's written evaluation of the Chief Executive Officer's performance evaluation and compensation. The Committee's functions are more fully described in its charter, which has recently been updated and approved by our full Board of Directors and can be found on our website at www.CNOinc.com.

Edgar Filing: CNO Financial Group, Inc. - Form DEF 14A

In making executive compensation decisions, the Committee receives advice from its independent compensation consultant, Aon Hewitt. As an independent consultant, any services performed by Aon Hewitt for our Company are at the Committee's direction and may be terminated without notice by the Committee at any time. Aon Hewitt did not have a prior relationship with the Chief Executive Officer or any of our executive officers at the time the Committee initially engaged Aon Hewitt in October 2008. Other than its services to the Committee, Aon Hewitt does not provide any other services to our management.

Although Aon Hewitt is retained directly by the Committee, Aon Hewitt personnel often interact with our executive officers, specifically the Chief Executive Officer, Executive Vice President of Human Resources, General Counsel and Chief Financial Officer, and their staffs to provide the Committee with relevant compensation and performance data for our executives and the Company. In addition, Aon Hewitt personnel may interact with management to confirm information, identify data questions, and/or exchange ideas.

As requested by the Committee, Aon Hewitt's services to the Committee in 2010 included:

Providing competitive analysis of total compensation components for our senior executive officers, including our Named Executive Officers;

Researching competitive and emerging compensation practices;

19

Attending Committee meetings, in person and telephonically;

Reviewing and evaluating changes to the executive compensation philosophy and proposed plan changes; and

Assisting with the assessment of the risk taking incentives of our compensation plans.

In making its decisions, the Committee collects and considers input from multiple sources. The Committee may ask senior executive officers to attend Committee meetings where executive compensation, overall and individual performance are discussed and evaluated. During these meetings, executives provide insight, suggestions or recommendations regarding executive compensation. Deliberations generally occur with input from Aon Hewitt, members of management and other Board members. However, only the independent voting members of the Committee make decisions regarding executive compensation. In the case of Chief Executive Officer compensation, these decisions are submitted to the full Board for its review and approval.

Compensation Components

Our compensation program is composed of the following components:

Base salary

Annual cash incentives (P4P)

Long-term equity incentives (stock options, P-Shares and restricted shares)

Benefits

Table 1 summarizes information about the target level of 2010 Total Annual Cash (TAC) and Total Direct Compensation (TDC) for our Named Executive Officers. This table differs from the Summary Compensation Table in that values generally represent target amounts and equity grants which are part of our normal long-term incentive program for 2010 only. Further discussion about these compensation components can be found later in this section. Each component is discussed with a brief description of the strategy, plan design and plan performance. This table does not reflect the grant date fair values of the special retention restricted share awards, granted in 2010, details of which can be found in the Special Retention Awards section of this document.

Compensation Mix

As indicated in the Summary of Components of TDC in 2010 (Table 1), the cash components of Target TDC remained at their 2009 levels, except for Mr. Bonach. The dollar value of long-term incentives delivered to all Named Executive Officers increased as compared to 2009, due primarily to an increase in the absolute fair market value on the date of equity grants in 2010 versus 2009. Our Chief Executive Officer received an equity award which was above the market median to reward his performance and leadership in delivering on our business objectives and strengthening our capital position at the end of 2009.

In delivering compensation to our Named Executive Officers, the mix of pay is heavily weighted to variable, performance-based pay (approximately between 70% and 85%) of TDC. Base salary comprised a relatively small portion of TDC (approximately between 15% and 30%) for the Named Executive Officers. The focus of the pay mix on variable pay elements continues to support our objectives of pay for performance and shareholder value creation.

Base Salaries

Strategy

In establishing base salaries, the Committee begins by targeting the 50th percentile of the competitive market and adjusts upwards or downwards as appropriate to reflect each position's responsibilities and each individual's experience level, unique skills or competencies. Base salaries generally range from the 25th percentile (for recently promoted employees or those who otherwise lack experience) to the 75th percentile (for high performers with significant industry experience) of the competitive market data. Salaries rarely fall outside this range. Annual reviews of executives' base salaries consider numerous factors, including:

Job responsibilities;

Impact on the development and achievement of our strategic initiatives;

Competitive labor market pressures;

Company performance for the prior 12 months;

21

Individual performance for the prior 12 months, as expressed in the executive's performance review; and

Salaries paid for comparable positions within our relevant comparator group.

No specific weighting of these factors is used. However, given our desire for a performance-based culture, the Committee's use of discretion generally results in increases for our top performers and little or no increases for average or lower performing employees.

2010 Merit Increases

Based on the continued uncertainty of the economic climate, as well as general trends, the Committee again decided not to award cash base salary increases to most executives in 2010. However, to address retention concerns arising from not providing cash merits for two years in a row, most executives (except our Chief Executive Officer) received a special grant of restricted shares in lieu of a base salary increase (see Table 6: 2010 Special Equity Award for Named Executive Officers). One Named Executive Officer (Mr. Bonach) also received a base salary increase for leading our Company through an amendment to our senior credit facility and to address internal equity.

Annual Cash Incentives

Strategy

Our annual incentive plan, the Pay for Performance Plan (P4P), is designed to focus on and reward achievement of annual performance goals. The plan was re-approved by our shareholders in 2010. It is the broadest of our management incentive programs, covering our Named Executive Officers and other key employees. All participants in the P4P plan, including our Named Executive Officers, are assigned target incentive opportunities expressed as a percentage of base salary.

2010 Pay for Performance (P4P) Plan Design

During February 2010, the Committee reviewed the P4P plan design in order to ensure alignment between shareholder and participant interests, to keep senior executives focused on the financial performance of the enterprise, to improve alignment with financial metrics that participants influence and to select operational/business metrics that drive financial success. This review was accomplished by focusing on the selection of appropriate performance metrics and the determination of performance levels which would contribute to financial success. As a result of this review, most performance metrics and weightings remained the same, except that Operating Return on Equity for Conseco Insurance Group (CIG) (Earnings Before Interest and Taxes less CIG's proportional share of corporate expense and interest on debt, after tax) was eliminated for that business segment. This change was made to recognize the greater impact of creating value through increased operating earnings, rather than managing equity. In addition, net GAAP Investment Income (interest income from fixed investments and dividend income from equity investments, net of expenses), a key measure of income from investments was added for 40186 Advisors.

Additional metrics which continued to be part of 2010 incentive plans applicable to Named Executive Officers include:

Operating Earnings Per Share (EPS), defined as net operating income, after taxes and preferred stock dividends but excluding the impact of realized gains/losses, divided by the basic average number of shares outstanding. The Committee believes Operating EPS is a key measure of our operating performance, is less impacted by the volatility of the market and is directly impacted by management during the calendar year.

22

Combined and Business Segment Earnings Before Interest and Taxes (EBIT), where Combined EBIT is a corporate roll-up of individual business segment EBIT. In the Committee's view, this metric enhances line of sight for our operating management and increases their focus on improving the longer-term core profitability of our operations.

Combined and Business Segment Value of New Business (VNB), which calculates the present value of expected profits from product sales. The selection of VNB is based on the Committee's desire to have an increased focus on growing the economic value of sales from the most profitable products as opposed to top-line sales.

Combined Operating Expense, which is the total amount of expense incurred to operate the business excluding claims costs and benefits paid to policyholders. The selection of this metric represents the Committee's belief that managing operating expenses contributes to our long-term profitability and operating efficiency.

Business Segment Operating ROE, which is net operating income (EBIT less each segment's proportional share of corporate expenses and interest on debt, after tax) divided by GAAP Equity. This metric represents the Committee's desire to encourage efficient use of capital at the business segment level.

GAAP Yield, which is period investment income (net of expenses), divided by average invested assets for the same period.

Limiting the number of metrics to no more than four for any individual participant enhances the simplicity and effectiveness of the incentive plan. The program is designed to pay above market-median levels when the Company exceeds target performance.

Our plan design rewards a threshold level of financial performance which corresponds to 25% of target payout; target level of performance which provides 100% of target payout; and a maximum level of performance and payout of 200% of target. Any payout between these financial performance goals is determined through straight line interpolation between the appropriate levels of performance. Consistent with our compensation philosophy, target annual incentive levels are established to generate Total Annual Cash compensation at competitive market

Edgar Filing: CNO Financial Group, Inc. - Form DEF 14A

median levels. Further, in 2010, we continued a policy that the threshold level of performance for combined EBIT must be achieved before there can be any above-target payouts with respect to other financial and operational metrics. This policy limits incentive payments on non-income-related metrics when threshold operating earnings are not achieved by the enterprise.

Although we have a large net operating loss carry-forward (as a result of our emergence from bankruptcy in 2003), the Committee continues to administer the P4P and long-term incentive plans so that payments qualify as performance-based compensation under Section 162(m) of the Internal Revenue Code. However, the Committee does reserve the right to make discretionary awards that do not qualify as performance-based compensation under Section 162(m) to the extent it deems it necessary or advisable to do so.

Long-Term Equity Incentives

Design and Strategy

The Committee uses long-term equity incentives to balance the short-term focus of the P4P program by tying rewards to performance achieved over multi-year periods. Under the Amended and Restated Long-Term Incentive Plan, the Committee may grant a variety of long-term incentive awards, including stock options, stock appreciation rights, restricted stock or restricted stock units, and performance shares or units, settled in cash or stock. We use stock options (or other appreciation rights), performance shares, and restricted shares as our long-term compensation vehicles.

To focus executives' efforts on longer-term results, we have historically granted awards of stock options that vest over three to four years and performance shares and restricted stock awards that are eligible for vesting after no less than two years. Recent stock option grants vest in equal installments in the second and third years from the anniversary date of grant, and performance shares are measured over a three-year performance period at which time they will vest only if the financial goals have been achieved. Unless otherwise noted, grants to our Named Executive Officers have vesting schedules identical to those for other executives. To vest in long-term equity incentive awards, employees must generally continue to work for us through the vesting dates.

Our current granting process involves developing long-term incentive grant values (by position level) for groups of executives, including our Named Executive Officers. Within these general grant guidelines, individual awards may be adjusted up or down to reflect the performance of the executive and his or her potential to contribute to the success of our initiatives to create shareholder value, as well as other individual considerations. The Committee also assesses aggregate share usage and dilution levels in comparison to general industry norms. Through this method, the Committee believes it is mindful of total cost, remains competitive within the market, promotes internal equity and reinforces our philosophy of pay for performance.

The Committee reviews and approves individual grants for the Named Executive Officers as well as all stock option, performance share (P-Share) and restricted share (R-Share) grants made to other executives under the purview of the Committee. Annual grants are reviewed and approved at the Committee's scheduled meeting at approximately the same time each year and may be granted only with an exercise price at or above the closing market price of our common stock on the date of grant (Fair Market Value). Interim or off-cycle grants are reviewed and approved by the Committee and granted at the closing market price of our common stock on the date of approval for executives under the purview of the Committee. Following the May 2009 shareholder approval of additional shares issuable under our Amended and Restated Long-Term Incentive Plan, the Committee authorized the Chief Executive Officer to utilize a designated number of shares, the Chief Executive Officer equity pool, to grant equity awards to non-Section 16 executives to reward, motivate and/or retain such employees, as deemed necessary by management. These grants must be made by the Chief Executive Officer and are generally made effective the last trading day of the month. Administration of all

equity awards is managed by our Human Resources Department, and all such awards are periodically reviewed by the Committee.

In past years, we delivered stock option grants to approximate the 50th percentile of the relevant comparator group and P-Shares, if earned, to approximate the 75th percentile of the relevant comparator group. In 2010, as in 2009, the Committee decided that Total Direct Compensation, comprised of base salary, target annual cash incentives and target long-term equity incentive awards, should approximate the median of our relevant comparator group.

Equity Grants in 2010

Edgar Filing: CNO Financial Group, Inc. - Form DEF 14A

The Committee established the annual target for all long-term equity incentive grants based on competitive market data. The approach was intended to deliver median Total Direct Compensation using a combination of stock options, R-Shares and P-Shares. In 2010, the Committee reinstated its normal practice of using a 30-day average of our stock price to calculate the number of shares granted to each executive, after deviating from this practice in 2009 in light of the extreme volatility in our share price, and the very low absolute price of the stock in early 2009. We continued to use a Black-Scholes valuation model as in previous years to determine option values. The Board adopted the same methodology in computing director compensation.

In 2010, we delivered a dollar value intended to approximate a mix of stock options (50%), R-Shares (25%) and P-Shares (25%). This mix was introduced to address retention concerns and balance the mix of equity vehicles used, although the performance elements (stock options and P-Shares) make up the majority of total long-term equity incentives. The P-Shares vest based on our average Pre-tax Operating Income over the course of the three-year performance period (ending December 31, 2012) and have up-side opportunity of 150% of the target award.

Table 5 shows the annual equity awards granted to our Named Executive Officers in 2010 (excluding the special equity retention awards).

Long-Term Incentive Program Performance for Awards Granted Prior to 2010

2008-2010 P-Share Performance

When granting the 2008-2010 P-Shares, the Committee established financial targets which it deemed to be challenging, but achievable based on information available at the time. The metrics associated with this P-Share grant included Operating ROE, which is measured in year three of the performance period, and Total

Shareholder Return (TSR), which is measured relative to a peer group of companies over the entire performance period. At the end of the performance period (December 31, 2010), none of the performance goals indicated above were achieved. Accordingly, no P-Shares vested from this grant.

2009-2011 P-Share Performance Metrics and Targets

P-Share vesting for the 2009-2011 grant is based on the achievement of *one-year* Operating Return on Equity in year three (2011) of the performance period. We believe that increased Operating Return on Equity is a good measure of fundamental operating improvement in our Company that will drive shareholder value. For the 2009-2011 grant, we intended to deliver compensation at the 50th percentile of the relevant comparator group.

Table 5A shows the opportunities for Named Executive Officers related to P-Share vesting, depending on the level of performance achieved in relation to the associated grant metrics.

Special Retention Awards

In May 2009, a special cash retention award of \$500,000 was granted to Edward Bonach, our Chief Financial Officer. The payment of this award was subject to Mr. Bonach's continued employment. This award was made to recognize Mr. Bonach's individual performance, critical skill set, and leadership and to ensure his continued employment through critical milestones during 2010. This award was paid in December 2010.

In March 2010, a special equity award of restricted shares was granted to certain executives. This special award was made for retention purposes in light of the decision to not provide merit increases to executives for two years in a row, as well as lower than target annual incentives paid in previous years. This award will vest ratably over two years from the date of grant. Because Mr. Prieur received an above market equity award in 2010, the Committee felt it was not necessary to provide him with an additional special equity award. Table 6 summarizes these special restricted share awards made to Named Executive Officers in 2010.

Other Benefits

Our Named Executive Officers are eligible to participate in all of the broad-based Company-sponsored benefits programs on the same basis as other full-time employees. These include our health and welfare

benefits, such as our medical/dental plans, disability plans and life insurance. We do not offer any supplemental executive health and welfare programs. Executives may also participate in our 401(k) Plan. During 2006, the Committee approved the adoption of a non-qualified deferred compensation plan. This plan is primarily intended as a restoration plan, giving participants the ability to defer their own compensation above the Internal Revenue Service limits imposed on the 401(k) Plan. At present, we do not make regular contributions to the non-qualified deferred compensation plan in addition to the amounts contributed by our executives.

Compensation of Chief Executive Officer

Mr. Prieur's base salary, target incentive, and equity compensation awards for fiscal 2010 were determined in accordance with the compensation philosophy described above, including the policy of targeting our compensation within our competitive market as described above. In setting his salary, target incentive and equity compensation, the Committee relied on market competitive pay data and the strong belief that the Chief Executive Officer significantly and directly influences our overall performance.

Based on the competitive placement of his base salary relative to his peers in the market, Mr. Prieur did not receive a base salary increase or change to his target annual incentive opportunity in 2010. Through the delivery of equity, the Committee strengthened the alignment of Mr. Prieur's compensation with the interests of our shareholders.

Based on the achievement of Operating EPS at \$0.72 per share, Combined EBIT of \$360.9 million, Combined VNB of \$72.4 million and Combined Operating Expense of \$583.4 million, Mr. Prieur's incentive payment for 2010 was calculated at \$1,665,947. In addition, the Board awarded Mr. Prieur an annual equity grant that was above the market median in recognition for his performance and leadership in delivering on our business objectives and strengthening our capital position at the end of 2009.

Mr. Prieur also demonstrates the alignment of his interests with those of our shareholders by personally holding 1,017,687 shares of our stock.

Additional Information

Clawback Rights

Our Amended and Restated Long-Term Incentive Plan contains a clawback provision relating to our long-term equity awards: stock options, P-Shares and restricted shares. Under this clawback provision, if our financial statements are required to be restated as a result of errors, omissions, or fraud, the Committee may, at its discretion, based on the facts and circumstances surrounding the restatement, direct the recovery of all or a portion of an equity award from one or more executives with respect to any fiscal year in which our financial results are negatively affected by such restatement. To do this, we may pursue various ways to recover from one or more executives: (1) seek repayment from the executive; (2) reduce the amount that would otherwise be payable to the executive under another benefit plan; (3) withhold future equity grants, bonus awards, or salary increases; or (4) take any combination of these actions.

Our Pay for Performance (P4P) Plan contains recapture rights of any incentive amount paid or vested in the event that the Committee determines that the achievement of performance goals was based on incorrect data.

Impact of Tax and Accounting on Compensation Decisions

As a general matter, the Committee considers the various tax and accounting implications of our compensation vehicles.

When determining amounts of long-term equity incentive grants to executives and employees, the Committee considers the accounting cost associated with the grants. Under FASB ASC Topic 718, grants of stock options, restricted stock, restricted stock units and other share-based payments result in an accounting charge that is reflected in our financial statements.

Section 162(m) of the Internal Revenue Code generally prohibits any publicly held corporation from taking a federal income tax deduction for compensation paid in excess of \$1 million in any taxable year to the chief executive officer and the next four highest compensated officers. Exceptions are made for qualified performance-based compensation, among other things. It is the Committee's policy to maximize the effectiveness of our executive compensation plans in this regard. However, the Committee believes that compensation and benefits decisions should be primarily driven by the needs of the business, rather than by tax policy. Therefore, the Committee may make pay decisions (such as the determination of the Chief Executive Officer's base salary) that result in compensation expense that is not fully deductible under Section 162(m). Despite our large net operating loss carry-forward (related to our emergence from bankruptcy in 2003), the Committee continues to administer our incentive plans so that payments qualify as performance-based compensation under Section 162(m) of the Internal Revenue Code.

Termination and Change in Control Arrangements

Under the terms of our equity-based compensation plans and our employment agreements, our Named Executive Officers are entitled to payments and benefits upon the occurrence of specified events including termination of employment for various reasons. The specific terms of these arrangements, as well as an estimate of the compensation that would have been payable had they been triggered as of fiscal year-end, are described in the section entitled "Potential Payments Upon Termination or Change in Control" on page 37. The terms of these arrangements were set through the course of employment agreement negotiations with each of the Named Executive Officers, with an emphasis on internal consistency. In addition, as part of these negotiations, the Committee also analyzed the terms of the same or similar arrangements for comparable executives employed by companies similar to our own.

The termination of employment provisions of the employment agreements were entered into in order to address competitive concerns when the Named Executive Officers were recruited. Providing those individuals with a fixed amount of compensation offset the potential risk of leaving their prior employer or foregoing other opportunities in order to work for us. At the time of entering into these arrangements, the Committee considered our aggregate potential obligations in the context of the desirability of hiring the individual and the expected compensation upon joining us.

Prohibition against Trading in Derivatives

It violates our policy for any senior personnel to purchase, sell or engage in any other transaction involving any derivative securities related to any of our equity securities. - (1) The amount shown in this column is a bonus payment specified by the terms of the individual's employment agreement. Amounts paid under the Company's Pay for Performance Incentive Plan are included in the column Non-Equity Incentive Plan Compensation.
- (2) This column represents the aggregate grant date fair value of restricted stock and performance share units, in accordance with ASC 718, excluding the impact of estimated forfeitures related to service-based vesting conditions. For restricted stock, fair value is calculated using the closing price of CNO common stock on the date of grant. For additional information, see Note 10 to the CNO financial statements in the Form 10-K for the year ended December 31, 2010, as filed with the SEC. See the Grants of Plan-Based Awards table for information on awards made in 2010. The amounts in this column do not necessarily correspond to the actual value that will be recognized by the named executive officers. The amounts in this column for 2008 represent performance units awarded to the named executive officers for the performance period from 2008-2010. The thresholds for those 2008 performance unit awards were not met and, accordingly, the named executive officers did not receive any payments in connection with those awards. The amounts in this column for 2010 include the grant date value of performance share units based on the targeted amounts for each of the named executive officers. Under the terms of those performance share awards, the officers are entitled to receive 150% of the targeted number of shares if the Company equals or exceeds the maximum levels set forth in those awards. If the maximum levels are achieved for the performance share awards made in 2010, the aggregate grant date value of the awards shown in this column would be as follows: Mr. Prieur, \$2,585,660; Mr. Bonach, \$691,250; Mr. Johnson, \$449,610; Mr. Perry, \$663,880 and Mr. Stecher, \$580,895.
- (3) This column represents the aggregate grant date fair value of stock options granted to each of the named executive officers, in accordance with ASC 718, excluding the impact of estimated forfeitures related to service-based vesting conditions. For additional information on the valuation assumptions with respect to the 2010 grants, refer to Note 10 of the CNO financial statements in the Form 10-K for the year ended December 31, 2010, as filed with the SEC. For information on the valuation assumptions with respect to grants made prior to 2010, refer to the note on stockholders' equity and stock-related information to the

CNO financial statements in the Form 10-K for the respective year-end. See the Grants of Plan-Based Awards table for information on options granted in 2010. The amounts in this column do not necessarily correspond to the actual value that will be recognized by the named executive officers.

- (4) This column represents the dollar amount of payments made after year end to the named executive officers based on performance for the specified year with respect to the targets established under the Company's Pay for Performance (P4P) Incentive Plan. Mr. Prieur did

Edgar Filing: CNO Financial Group, Inc. - Form DEF 14A

not receive payment of any portion of the amount shown in this column for 2008. At Mr. Prieur's request, the Committee did not make a P4P bonus payment for 2008 to Mr. Prieur in light of the very difficult operating environment at that time and its impact on the Company. Based on 2008 results, the amount that would have been payable to Mr. Prieur under the P4P Incentive Plan was \$630,883.

- (5) For 2010, the amounts reported in this column represent the amounts paid for: (i) group life insurance premiums, (ii) Company contributions to the 401(k) Plan and (iii) spousal travel benefits.

The table below shows such amounts for 2010 for each named executive officer:

Name	Group Life Insurance Premiums	401(k) Plan Contributions	Spousal Travel
James Prieur	\$ 1,806	\$ 7,350	\$ 11,681
Edward Bonach	1,806	7,350	
Eric Johnson	966		
Scott Perry	630	7,350	23,172
Steven Stecher	966	7,350	10,933

- (6) Mr. Stecher became an executive officer on July 31, 2008.

- (1) These amounts represent the threshold, target and maximum amounts that would have been payable for 2010 if the performance-based metrics under the CNO Pay for Performance Incentive Plan had been achieved. The amounts paid for 2010 performance under the Pay for Performance Incentive Plan are listed in the Summary Compensation Table on page 31 of this proxy statement under the column heading Non-Equity Incentive Plan Compensation.
- (2) These amounts represent the threshold, target and maximum number of shares that the named executive officers can receive under the terms of the performance share awards made in 2010. See footnote (3) to the Outstanding Equity Awards at 2010 Fiscal Year-End table below for additional information regarding the 2010 performance share awards.
- (3) The amounts in this column represent the number of shares of restricted stock that were awarded to the named executive officers during 2010 under the Amended and Restated Long-Term Incentive Plan.
- (4) The amounts in this column represent the number of stock options granted to the named executive officers during 2010 under the Amended and Restated Long-Term Incentive Plan.
- (5) The exercise price equals the closing sales price of CNO common stock on the New York Stock Exchange on the date of grant.

- (6) The values included in this column represent the grant date fair value of restricted stock, performance share and option awards computed in accordance with ASC 718. For restricted stock, the value is based on the closing sales price on the NYSE on the date of grant, less an amount paid by the recipient of the restricted stock of \$.01 per share, the par value of the common stock. A description of the assumptions used in calculating these values may be found in Note 10 to the CNO financial statements in the Form 10-K for the year ended December 31, 2010, as filed with the SEC.

- (1) All options in this table that were granted in 2006 or prior years have a 10 year expiration date, while options granted in 2007-2009 have a five year expiration date and options granted in 2010 have a seven year expiration date. All options are subject to acceleration for certain events.
- (2) Based on the closing sales price of CNO common stock (\$6.78) on December 31, 2010.
- (3) In accordance with SEC rules, the amounts included in this column represent the number of shares of CNO common stock to which the named executive officer will be entitled if the Company achieves the threshold performance level with respect to the performance share awards made in 2009 and 2010. The performance share awards made in 2009 are tied to CNO's operating return on equity (ROE) for the year ending December 31, 2011. No portion of the performance share awards made in 2009 will be earned if the Company's ROE is less than 7.25%, and payouts begin with a 25% payout at the threshold level of 7.25%. The performance share awards made in 2010 are tied to the CNO's average pre-tax operating income for the three-year period ending December 31, 2012. For purposes of this award, pre-tax operating earnings are defined as pre-tax income before (i) gain or loss on extinguishment or modification of debt; (ii) net realized investment gains or losses, net of amortization; (iii) discontinued operations; (iv) the cumulative effect of changes in accounting principles; (v) dividends on preferred stock; and (vi) unusual income or expense items that are unlikely to recur as determined by the Human Resources and Compensation Committee. For the 2010 performance share award, no portion will be earned if the Company's average pre-tax operating income for the three-year period is less than \$250.0 million, and payouts begin with a 25% payout at the threshold level of \$250.0 million. Accordingly, the number of shares in this column includes 25% of the number of performance shares granted to the named executive officer in 2009 and in 2010.
- (4) The dollar amounts in this column equal the number of threshold level performance shares, calculated as described in footnote (3) above, multiplied by the closing sales price of CNO common stock on December 31, 2010 (\$6.78).
- (5) One-half of these options vested on April 1, 2010 and the balance vests on April 1, 2011.
- (6) One-half of these options vest on April 2, 2011 and the balance vests on April 2, 2012. One-half of the restricted stock vests on March 31, 2011 and the balance vests on March 31, 2012.

- (7) One-half of these options vest on May 12, 2011 and the balance vests on May 12, 2012.
- (8) One-half of these options vest on March 18, 2012 and the balance vests on March 18, 2013. The restricted stock award vests in three equal annual installments commencing March 18, 2011.
- (9) One-half of this restricted stock award vests on March 2, 2011 and the balance vests on March 2, 2012.
- (10) One-half of these options vested on August 18, 2010 and the balance vests on August 18, 2011.
- (11) This restricted stock award vests on August 18, 2011.

- (2) Amounts in this column are not included in the Summary Compensation Table on page 31 of this Proxy Statement.
- (3) Amounts included in this column reflect the following amounts contributed under the deferred compensation plan by the named executive officers, which amounts were in each case included in the summary compensation table for the year(s) to which the compensation relates: Mr. Prieur, \$1,822,500; Mr. Bonach, \$428,739; and Mr. Perry, \$45,671.

The 2010 Nonqualified Deferred Compensation table presents amounts deferred under our Deferred Compensation Plan. Participants may defer up to 100% of their base salary and annual incentive plan payments under the Deferred Compensation Plan. Deferred Amounts are credited with earnings or losses based on the return of mutual funds selected by the executive, which the executive may change at any time. We do not make contributions to participants' accounts under the Deferred Compensation Plan. Distributions are made in either a lump sum or an annuity as chosen by the executive at the time of deferral.

YOUR BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE FOR RATIFICATION OF THE APPOINTMENT OF PRICEWATERHOUSECOOPERS LLP AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE FISCAL YEAR ENDING DECEMBER 31, 2011.

Fees Paid to PricewaterhouseCoopers LLP

Aggregate fees billed to the Company in the years ended December 31, 2010 and 2009, by PricewaterhouseCoopers LLP were as follows (dollars in millions):

	Year Ended December 31,

Audit-related fees(b)	.1	.3
Tax fees		
All other fees

Pre-Approval Policy

The Audit and Enterprise Risk Committee has adopted a policy requiring pre-approval of all audit and permissible non-audit services provided by our independent registered public accounting firm. These services may include audit services, audit-related services, tax services and other services.

In 2009 and 2010, all new engagements of PricewaterhouseCoopers LLP were pre-approved by the Audit and Enterprise Risk Committee for all audit, audit-related, tax and other services.

Report of the Audit and Enterprise Risk Committee

In accordance with its written charter adopted by the Board of Directors, the Audit and Enterprise Risk Committee provides assistance to the Board of Directors in fulfilling its responsibilities for oversight of the integrity of the financial statements, public disclosures and financial reporting practices of the Company. The Audit and Enterprise Risk Committee is comprised entirely of independent directors meeting the requirements of applicable rules of the Securities and Exchange Commission and the New York Stock Exchange.

In order to discharge its oversight function, the Audit and Enterprise Risk Committee works closely with management and with the Company's independent registered public accounting firm. Management is responsible for the preparation and fair presentation of the Company's financial statements and for maintaining effective internal controls. Management is also responsible for assessing and maintaining the effectiveness of

internal controls over the financial reporting process in compliance with the requirements of Section 404 of the Sarbanes-Oxley Act. The independent registered public accounting firm is responsible for auditing the Company's annual financial statements and expressing an opinion as to whether the statements are fairly stated in conformity with generally accepted accounting principles. In addition, the independent registered public accounting firm is responsible for auditing the Company's internal controls over financial reporting and for expressing an opinion on the effectiveness of those controls.

The Audit and Enterprise Risk Committee has implemented procedures to ensure that during the course of each fiscal year it devotes the attention that it deems necessary or appropriate to each of the matters assigned to it under the Committee's charter. To carry out its responsibilities, the Audit and Enterprise Risk Committee met 12 times during 2010. Mr. Schneider, Mr. Turner and Mr. Long have served on the Audit and Enterprise Risk Committee throughout 2010 and 2011 and Mr. Zwiener has served since his election to the Board of Directors on May 11, 2010.

In overseeing the preparation of the Company's financial statements, the Audit and Enterprise Risk Committee has met with management and the Company's independent registered public accounting firm to review and discuss the consolidated financial statements prior to their issuance and to discuss significant accounting issues. The Audit and Enterprise Risk Committee also discussed with the independent registered public accounting firm all communications required by generally accepted auditing standards, including those described in Statement on Auditing Standards No. 114, The Auditor's Communication with Those Charged with Governance.

The Audit and Enterprise Risk Committee obtained from the independent registered public accounting firm a formal written statement consistent with Public Company Accounting Oversight Board Rule 3526, Communication with Audit Committees Concerning Independence and has discussed with such firm their independence.

Based on the reviews and discussions referenced above, the Audit and Enterprise Risk Committee recommended to the Board of Directors that the Company's audited financial statements be included in its Annual Report on Form 10-K for the year ended December 31, 2010 for filing with the Securities and Exchange Commission.

PROPOSAL 3 NON-BINDING ADVISORY VOTE ON EXECUTIVE COMPENSATION

General

In accordance with the requirements of Section 14A of the Exchange Act (which was added by the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Dodd-Frank Act)) and the related rules of the SEC, we are including in these proxy materials a separate resolution subject to shareholder vote to approve, in a non-binding advisory vote, the compensation paid to our named executive officers as discussed on pages 14-38. While the results of the vote are non-binding and advisory in nature, the Board intends to carefully consider the results of this vote. The language of the resolution is as follows:

RESOLVED, that the compensation paid to the Company's named executive officers, as disclosed in this proxy statement pursuant to the rules of the SEC, including the Compensation Discussion and Analysis, compensation tables and any related narrative discussion, is hereby Approved.

The compensation of our executive officers is based on a philosophy and a comprehensive compensation and benefits strategy developed by the Human Resources and Compensation Committee designed to reward overall and individual performance that drives long-term success for our shareholders. The committee strives to provide a clear award program that allows us to attract, incentivize and retain seasoned executive talent with significant industry experience required to continue to improve our performance and build long-term shareholder value. In considering their vote, shareholders are urged to read the section of this proxy statement entitled Executive Compensation, including the Compensation Discussion and Analysis, for a detailed discussion of how our compensation policies and practices implement our compensation philosophy.

Required Vote

The affirmative vote of the holders of a majority of the shares of common stock present in person or represented by proxy and having voting power is required to approve the compensation paid to our named executive officers. Abstentions will have the effect of a vote against this proposal. Broker non-votes will have no effect on the outcome of the vote with respect to this proposal because the shares subject to the broker non-vote will not be entitled to vote on this matter.

Recommendation of your Board of Directors

YOUR BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE FOR THE APPROVAL OF THE COMPENSATION PAID TO OUR NAMED EXECUTIVE OFFICERS.

41

PROPOSAL 4 NON-BINDING ADVISORY VOTE ON THE FREQUENCY OF FUTURE ADVISORY VOTES ON EXECUTIVE COMPENSATION

General

In accordance with the requirements of Section 14A of the Exchange Act (which was added by the Dodd-Frank Act) and the related rules of the SEC, we are submitting for shareholder consideration a separate resolution subject to determine, in a non-binding advisory vote, whether a shareholder vote to approve the compensation paid to our named executive officers (that is, a vote similar to the non-binding advisory vote in Proposal 3 on the previous page) should occur every one, two or three years. While the results of the vote are non-binding and advisory in nature, the Board intends to carefully consider the results of this vote.

In considering their vote, shareholders may wish to review with care the information presented in connection with Proposal 3 on the previous page, and the information on the Company's compensation policies and decisions regarding the named executive officers presented in Compensation Discussion and Analysis on pages 14 to 29.

After consideration of the frequency alternatives and receiving input from our shareholders, the Board and the Human Resources and Compensation Committee determined that an advisory vote on executive compensation that occurs every year is the most appropriate policy for CNO at this time, and therefore the Board is recommending that you vote for future advisory votes on executive compensation to occur each year. In formulating this recommendation, the Board and the Human Resources and Compensation Committee recognized that the Company's executive compensation programs are designed to promote a long-term connection between pay and performance. However, because executive compensation disclosures are made annually, the Board and the Human Resources and Compensation Committee considered that an annual advisory vote on executive compensation will allow our shareholders to provide us with their direct input on our compensation philosophy, policies and practices as disclosed in the proxy statement each year. The compensation of the named executive officers is reviewed, adjusted and approved by the Human Resources and Compensation Committee every year and the Board believes that input from shareholders is a factor which should be taken into consideration by the committee as part of that process.

Required Vote

The vote on the frequency of shareholder vote on compensation paid to our named executive officers requires the approval of the majority of votes of the holders of the shares of common stock present in person or represented by proxy and having voting power. Abstentions and broker non-votes will have no effect on the outcome of the vote with respect to this proposal.

Recommendation of your Board of Directors

YOUR BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE ONE YEAR WITH RESPECT TO HOW FREQUENTLY A NON-BINDING SHAREHOLDER VOTE TO APPROVE THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS SHOULD OCCUR.

Edgar Filing: CNO Financial Group, Inc. - Form DEF 14A

Section 16(a) of the Securities Exchange Act of 1934 requires CNO's directors and executive officers, and each person who is the beneficial owner of more than 10 percent of any class of CNO's outstanding equity securities, to file with the Securities and Exchange Commission initial reports of ownership and reports of changes in ownership of common stock and other equity securities of CNO. Specific due dates for these reports have been established by the Securities and Exchange Commission, and CNO is required to disclose any failure by such persons to file such reports for fiscal year 2010 by the prescribed dates. Officers, directors and greater than 10 percent beneficial owners are required to furnish CNO with copies of all reports filed with the Securities and Exchange Commission pursuant to Section 16(a). To CNO's knowledge, based solely on review of the copies of the reports furnished to CNO and written representations that no other reports were required, all filings required pursuant to Section 16(a) of the Securities Exchange Act of 1934 applicable to CNO's officers, directors and greater than 10 percent beneficial owners were timely made by each such person during the year ended December 31, 2010.

SHAREHOLDER PROPOSALS FOR 2012 ANNUAL MEETING

Any proper proposal which a shareholder wishes to have included in the Board's proxy statement and form of proxy for the 2012 Annual Meeting must be received by CNO by December 14, 2011. Such proposals must meet the requirements set forth in the rules and regulations of the Securities and Exchange Commission in order to be eligible for inclusion in the proxy statement for the 2012 Annual Meeting. In addition to the Securities and Exchange Commission rules concerning shareholder proposals, the Company's Bylaws establish advance notice procedures with regard to certain matters, including shareholder nominations for directors, to be brought before a meeting of shareholders at which directors are to be elected. In the case of an annual meeting, notice must be received by the Secretary of the Company not less than 60 days nor more than 90 days prior to the first anniversary of the preceding year's annual meeting. In the case of a special meeting of stockholders at which directors are to be elected, notice of a stockholder nomination must be received by the Secretary of the Company no later than the close of business on the 10th day following the earlier of the day on which notice of the date of the meeting was mailed or public disclosure of the meeting was made. A nomination will not be considered if it does not comply with these notice procedures and the additional requirements set forth in our Bylaws. Please note that these bylaw requirements are separate from the Securities and Exchange Commission's requirements to have a shareholder nomination or other proposal included in our proxy statement. Any shareholder who wishes to submit a proposal to be acted upon at the 2012 Annual Meeting or who wishes to nominate a candidate for election as director should obtain a copy of these bylaw provisions and may do so by written request addressed to the Secretary of CNO Financial Group, Inc. at 11825 North Pennsylvania Street, Carmel, Indiana 46032.
