CALCULATION OF REGISTRATION FEE

Title of Shares	Amount To Be Registered	Proposed Maximum Offering Price Per Share(1)	Proposed Maximum Aggregate Offering Price(1)	Amount of Registration Fee
To Be Registered				

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form S-11/A

Common Stock, \$.01 par value per share	600,000,000 shares	\$10.00	\$6,000,000,000	\$485,400
Common Stock, \$.01 par value per share(2)	(3)	\$10.00	(4)	(4)

- (1) Estimated solely for purposes of determining the registration fee pursuant to Rule 457.
- (2) Represents shares issuable pursuant to the registrant's dividend reinvestment plan.
- (3) The number of shares offered under the dividend reinvestment plan is equal to the following formula: 600,000,000 minus the number of shares purchased in this offering other than through the reinvestment of dividends.
- (4) The proposed maximum aggregate offering price and applicable registration fee are included in the figures above for shares sold other than through the dividend reinvestment plan.

The registrant hereby amends this registration statement on such date or dates as may be necessary to delay its effective date until the registrant shall file a further amendment which specifically states that this registration statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933 or until the registration statement shall become effective on such date as the Commission, acting pursuant to said Section 8(a), may determine.

This prospectus is not an offer to sell these securities in any state where the offer or sale is not permitted.

SUBJECT TO COMPLETION

PRELIMINARY PROSPECTUS DATED SEPTEMBER 22, 2003

WELLS REAL ESTATE INVESTMENT TRUST II, INC.

Maximum Offering of 600,000,000 Shares of Common Stock

Minimum Offering of 250,000 Shares of Common Stock

Wells Real Estate Investment Trust II, Inc. is a newly organized Maryland corporation that intends to qualify as a REIT beginning with the taxable year that will end December 31, 2003. We expect to use substantially all of the net proceeds from this offering to acquire and operate commercial real estate primarily consisting of high quality income-generating office and industrial properties leased to creditworthy companies and governmental entities. Because we have not yet identified any specific properties to purchase, we are considered to be a blind pool.

We are offering and selling to the public up to 600,000,000 shares of common stock for \$10 per share, including up to 60,000,000 shares to be issued pursuant to our dividend reinvestment plan at a purchase price of \$10 per share.

See Risk Factors beginning on page 17 to read about risks you should consider before buying shares of our common stock. These risks include the following:

No public market currently exists for our shares of common stock. If you are able to sell your shares, you would likely have to sell them at a substantial discount.

If we raise substantially less than the maximum offering, we may not be able to invest in a diverse portfolio of properties and the value of your investment may vary more widely with the performance of specific properties.

We have no operating history nor do we currently own any properties. We have not identified any properties to acquire with proceeds from this offering.

Our advisor and its affiliates will face conflicts of interest, including significant conflicts created by our advisor's compensation arrangements with us and similar programs sponsored by our advisor.

We are dependent on our advisor to select investments and conduct our operations. Adverse changes in the financial health of our advisor or our relationship with our advisor could adversely affect us.

Our policies do not limit borrowings until they exceed 50% of the cost of our assets (before deducting depreciation), which debt levels could hinder our ability to pay dividends to our stockholders or could decrease the value of your investment.

Neither the SEC, the Attorney General of the State of New York nor any other state securities regulator has approved or disapproved of our common stock, determined if this prospectus is truthful or complete or passed on or endorsed the merits of this offering. Any representation to the contrary is a criminal offense.

The use of projections or forecasts in this offering is prohibited. No one is permitted to make any oral or written predictions about the cash benefits or tax consequences you will receive from your investment.

	Price to Public*	Selling Commissions*	Dealer Manager Fee*	Net Proceeds (Before Expenses)
Per Share	\$ 10.00	\$ 0.70	\$ 0.25	\$ 9.05
Total Minimum	\$ 2,500,000.00	\$ 175,000.00	\$ 62,500.00	\$ 2,262,500.00
Total Maximum	\$ 6,000,000,000.00	\$ 420,000,000.00	\$ 150,000,000.00	\$ 5,430,000,000.00

* The selling commissions and, in some cases, the dealer manager fee will not be charged with regard to shares sold to or for the account of certain categories of purchasers. See Plan of Distribution.

We expect that 85% to 86% of the gross offering proceeds will be available to us for investment in real estate.

The dealer manager of this offering, Wells Investment Securities, Inc., is our affiliate and will offer the shares on a best-efforts basis. The minimum permitted purchase is generally \$1,000. We will not sell any shares unless we sell a minimum of 250,000 shares to the public by , 2004 (one year from the date of this prospectus). Pending satisfaction of this condition, all subscription payments will be placed in an account held by the escrow agent, SouthTrust Bank, in trust for subscribers benefit, pending release to us. If we do not sell at least 250,000 shares by , 2004, we will return all funds in the escrow account (including interest), and we will stop selling shares.

WELLS INVESTMENT SECURITIES, INC.

, 2003

Table of Contents

WHO MAY INVEST

In order to purchase shares in this offering, you must:

Meet the financial suitability standards, and

Meet the minimum purchase requirements, both as described below.

Suitability Standards

The shares we are offering are suitable only as a long-term investment for persons of adequate financial means. There is no public market for the shares, which means that you will have difficulty selling your shares. You should not buy these shares if you need to sell them in the short term. In consideration of these factors, we have established suitability standards for initial stockholders and subsequent transferees. These suitability standards require that a purchaser of shares have either:

a net worth of at least \$150,000; or

gross annual income of at least \$45,000 and a net worth of at least \$45,000.

Several states have established suitability standards different from those we have established. Shares will be sold only to investors in these states who meet the special suitability standards set forth below.

California, Iowa, Massachusetts, Michigan, Missouri and Tennessee Investors must have either (1) a net worth of at least \$225,000, or (2) gross annual income of at least \$60,000 and a net worth of at least \$60,000.

Maine Investors must have either (1) a net worth of at least \$200,000, or (2) gross annual income of at least \$50,000 and a net worth of at least \$50,000.

Iowa, Missouri, Ohio and Pennsylvania In addition to our suitability requirements, investors must have a net worth of at least 10 times their investment in us.

Because the minimum offering of our common stock is less than \$600,000,000, Pennsylvania residents are cautioned to evaluate carefully our ability to fully accomplish our stated objectives and to inquire as to the current dollar volume of our subscription proceeds.

For purposes of determining suitability of an investor, net worth in all cases should be calculated excluding the value of an investor's home, furnishings and automobiles. In the case of sales to fiduciary accounts, these suitability standards must be met by the fiduciary account, by the person who directly or indirectly supplied the funds for the purchase of the shares or by the beneficiary of the account.

These suitability standards are intended to help ensure that, given the long-term nature of an investment in our shares, our investment objectives and the relative illiquidity of our shares, our shares are an appropriate investment for those of you desiring to become stockholders. Each participating broker-dealer must make every reasonable effort to determine that the purchase of shares in this offering is a suitable and appropriate investment for each stockholder based on information provided by the stockholder regarding the stockholder's financial situation and investment objectives. In making this determination, each participating broker-dealer has a responsibility to ascertain that the prospective stockholder:

meets the minimum income and net worth standards set forth above;

Table of Contents

can reasonably benefit from an investment in our shares based on the prospective stockholder's overall investment objectives and portfolio structure;

is able to bear the economic risk of the investment based on the prospective stockholder's overall financial situation; and

has apparent understanding of

the fundamental risks of the investment;

the risk that the stockholder may lose the entire investment;

the lack of liquidity of the shares;

the restrictions on transferability of the shares;

the background and qualifications of Wells Capital and its affiliates; and

the tax consequences of the investment.

Relevant information for this purpose will include at least the age, investment objectives, investment experience, income, net worth, financial situation and other investments of the prospective stockholder, as well as any other pertinent factors. Each participating broker-dealer is required to maintain records of the information used to determine that an investment in shares is suitable and appropriate for each stockholder for a period of six years.

Minimum Purchase Requirements

The minimum purchase is 100 shares (\$1,000), except in certain states as described below. In order to satisfy the minimum purchase requirement for retirement plans, unless otherwise prohibited by state law, a husband and wife may jointly contribute funds from their separate IRAs, provided that each such contribution is made in increments of \$100. You should note that an investment in our shares will not, in itself, create a retirement plan and that, in order to create a retirement plan, you must comply with all applicable provisions of the Internal Revenue Code.

The minimum purchase for Maine, New York and North Carolina residents is 250 shares (\$2,500), except for IRAs which must purchase a minimum of 100 shares (\$1,000). The minimum purchase for Minnesota residents is 250 shares (\$2,500), except for IRAs and other qualified retirement plans which must purchase a minimum of 200 shares (\$2,000).

Except in the states of Ohio, Maine, Minnesota, Nebraska and Washington, if you have purchased units or shares in other Wells-sponsored public programs, you may purchase less than the minimum number of shares set forth above, but in no event less than 2.5 shares (\$25). If you

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form S-11/A

have satisfied the applicable minimum purchase requirement, any additional purchase must be in increments of at least 2.5 shares (\$25), except for (1) additional purchases made by residents of Maine who must still meet the applicable minimum purchase requirement set forth above, and (2) additional purchases of shares pursuant to our dividend reinvestment plan or reinvestment plans of other Wells-sponsored public real estate programs.

Until our shares of common stock are listed on a national securities exchange, you may not transfer your shares in a manner that causes you or your transferee to own fewer than the number of shares required for the minimum purchase described above, except in the following circumstances:

transfers by gift;

transfers by inheritance;

intrafamily transfers;

family dissolutions;

transfers to affiliates; or

by operation of law.

QUESTIONS AND ANSWERS ABOUT THIS OFFERING

Below we have provided some of the more frequently asked questions and answers relating to an offering of this type. Please see the Prospectus Summary and the remainder of this prospectus for more detailed information about this offering.

Q: What is a REIT?

A: In general, a REIT is a company that:

combines the capital of many investors to acquire or provide financing for real estate properties;

allows individual investors to invest in a large-scale diversified real estate portfolio through the purchase of interests, typically shares, in the REIT;

is required to pay dividends to investors of at least 90% of its taxable income; and

avoids the double taxation treatment of income that would normally result from investments in a corporation because a REIT does not generally pay federal corporate income taxes on its net income, provided certain income tax requirements are satisfied.

Q: What is Wells Real Estate Investment Trust II, Inc.?

A: Wells Real Estate Investment Trust II, Inc. is a newly organized Maryland corporation that intends to qualify as a REIT beginning with the taxable year that will end December 31, 2003. We expect to use substantially all of the net proceeds from this offering to acquire and operate commercial real estate primarily consisting of high quality income-generating office and industrial properties leased to creditworthy companies and governmental entities. We may also invest in entities that make similar investments. We were incorporated in the State of Maryland in July 2003.

Q: What is your relationship to Wells Real Estate Investment Trust, Inc. and Wells Real Estate Investment Trust III, Inc.?

A: Wells Real Estate Investment Trust, Inc., which we refer to as Wells REIT I, and Wells Real Estate Investment Trust III, Inc., which we refer to as Wells REIT III, are separate REITs from us. However, we have a common advisor, Wells Capital, Inc., and all of our directors and officers are also directors and officers of Wells REIT I and Wells REIT III.

Table of Contents

Q: Who will choose your real estate investments?

A: Wells Capital is our advisor and, as such, will manage our daily affairs and make recommendations on all property acquisitions to our board of directors. We expect that a committee of our board of directors comprised of all of our outside independent directors will exercise its right to approve or reject all proposed property acquisitions.

Q: Who is Wells Capital?

A: Wells Capital, as our advisor, will provide investment advisory and management, marketing, sales and client services on our behalf. Wells Capital was incorporated in the State of Georgia in 1984. As of June 30, 2003, Wells Capital had sponsored or advised public real estate programs that had raised approximately \$3.5 billion from approximately 108,000 investors and that owned and operated more than 20 million square feet of commercial real estate properties.

Q: How will Wells Capital select potential properties for acquisition?

A: Wells Capital will generally seek to acquire high quality office and industrial buildings located in densely populated metropolitan markets leased to creditworthy companies and governmental entities. Current tenants of public real estate programs sponsored or advised by Wells Capital include The Coca-Cola Company, State Street Bank, AT&T, Siemens Automotive, PricewaterhouseCoopers, Novartis and SYSCO Corporation.

To find properties that best meet our selection criteria for investment, Wells Capital's property acquisition team will study regional demographics and market conditions and interview local brokers to gain the practical knowledge that these studies sometimes lack. An experienced commercial construction engineer will inspect the structural soundness and the operating systems of each building, and an environmental firm will investigate all environmental issues to ensure each property meets our quality specifications.

Q: How many real estate properties do you currently own?

A: We currently do not own any properties. We expect to use substantially all of the net proceeds from this offering to acquire and operate commercial real estate primarily consisting of high quality income-generating office and industrial properties leased to creditworthy companies and governmental entities. We may also invest in entities that make similar investments. Because we have not yet identified any specific properties to purchase, we are considered to be a blind pool.

Q: Will you acquire properties in joint ventures?

A: Probably. Among other reasons, we may want to acquire properties through a joint venture in order to diversify our portfolio of properties in terms of geographic region, property type and tenant industry group.

Table of Contents

Q: What steps will you take to make sure you purchase environmentally compliant properties?

A: We will obtain a Phase I environmental assessment of each property purchased. In addition, we generally expect to obtain a representation from the seller that, to its knowledge, the property is not contaminated with hazardous materials.

Q: What will be the terms of your leases?

A: We will seek to secure leases with creditworthy tenants prior to or at the time of the acquisition of a property. We expect that our leases generally will be economically net leases, which means that the tenant would be responsible for the cost of repairs, maintenance, property taxes, utilities, insurance and other operating costs. In most of these leases, we will probably be responsible for the replacement of specific structural components of a property such as the roof of the building or the parking lot. We expect that our leases generally will have terms of five or more years, some of which may have renewal options.

Q: How will Wells REIT II own its real estate properties?

A: As an UPREIT, we expect to own substantially all of our real estate properties through Wells Operating Partnership II, L.P., which we refer to as Wells OP II. We organized Wells OP II to own, operate and manage real properties on our behalf. Wells REIT II is the sole general partner of Wells OP II.

Q: What is an UPREIT?

A: UPREIT stands for Umbrella Partnership Real Estate Investment Trust. The UPREIT structure is used because a sale of property directly to the REIT is generally a taxable transaction to the selling property owner. In an UPREIT structure, a seller of a property who desires to defer taxable gain on the sale of his property may transfer the property to the UPREIT in exchange for limited partnership units in the UPREIT and defer taxation of gain until the seller later exchanges his UPREIT units on a one-for-one basis for REIT shares. If the REIT shares are publicly traded, the former property owner will achieve liquidity for his investment upon the exchange. Using an UPREIT structure may give us an advantage in acquiring desired properties from persons who may not otherwise sell their properties because of unfavorable tax results.

Q: If I buy shares, will I receive dividends and how often?

A: To maintain our qualification as a REIT, we are required to make aggregate annual distributions to our stockholders of at least 90% of our taxable income (which does not necessarily equal net income as calculated in accordance with accounting principles generally accepted in the United States (GAAP)). We intend to declare and pay dividends quarterly. Our board of directors may authorize distributions in excess of those required for us to maintain REIT status depending on our financial condition and such other factors as our board of directors deems relevant. We have not established a minimum distribution level.

Q: How will you calculate the payment of dividends to stockholders?

Table of Contents

- A: We expect to calculate our quarterly dividends on a daily basis to stockholders of record so your dividend benefits will begin to accrue immediately upon becoming a stockholder.
- Q: May I reinvest my dividends in shares of Wells REIT II?
- A: Yes. You may participate in our dividend reinvestment plan by checking the appropriate box on the Subscription Agreement or by filling out an enrollment form we will provide to you at your request. The purchase price for shares purchased under the dividend reinvestment plan will be the same as the offering purchase price for the shares to which the dividends relate.
- Q: Will the dividends I receive be taxable as ordinary income?
- A: Yes and No. Generally, dividends that you receive, including dividends that are reinvested pursuant to our dividend reinvestment plan, will be taxed as ordinary income to the extent they are from current or accumulated earnings and profits. We expect that some portion of your dividends will not be subject to tax in the year in which they are received because depreciation expense reduces the amount of taxable income but does not reduce cash available for distribution. The portion of your distribution that is not subject to tax immediately is considered a return of capital for tax purposes and will reduce the tax basis of your investment. This, in effect, defers a portion of your tax until your investment is sold or Wells REIT II is liquidated, at which time you will be taxed at capital gains rates. However, because each investor's tax considerations are different, we suggest that you consult with your tax advisor. You should also review the section of the prospectus entitled "Federal Income Tax Considerations."
- Q: What will you do with the money raised in this offering?
- A: We intend to use substantially all of the net proceeds from this offering to acquire and operate commercial real estate primarily consisting of high quality income-generating office and industrial properties leased to creditworthy companies and governmental entities. We intend to use 85% to 86% of the gross proceeds from this offering to acquire real estate properties, and intend to use the remaining proceeds to pay fees and expenses of this offering and an acquisition fee to our advisor. The payment of these fees and expenses will not reduce your invested capital. Your initial invested capital amount will remain \$10 per share, and your dividend yield will be based on your \$10 per share investment.
- Until we invest the proceeds of this offering in real estate, we may invest in short-term, highly liquid or other authorized investments. Such short-term investments will not earn as high of a return as we expect to earn on our real estate investments, and we cannot guarantee how long it will take to fully invest the proceeds in real estate.
- Q: What kind of offering is this?
- A: We are offering the public up to 600,000,000 shares of common stock on a "best efforts" basis.

Table of Contents

Q: How does a best efforts offering work?

A: When shares are offered to the public on a best efforts basis, the brokers participating in the offering are only required to use their best efforts to sell the shares and have no firm commitment or obligation to purchase any of the shares. Therefore, we may not sell all of the shares that we are offering.

Q: How long will this offering last?

A: The offering will not last beyond _____, 2005, except that we may continue to offer shares under the dividend reinvestment plan beyond that date until we have sold all the shares in this offering.

Q: Who can buy shares?

A: You can buy shares pursuant to this prospectus provided that you have either (1) a net worth of at least \$45,000 and an annual gross income of at least \$45,000, or (2) a net worth of at least \$150,000. For this purpose, net worth does not include your home, home furnishings or personal automobiles. These minimum levels may be higher in certain states, so you should carefully read the more detailed description under Who May Invest Suitability Standards immediately following the cover page of this prospectus.

Q: Is there any minimum investment required?

A: Yes. Generally, you must invest at least \$1,000. Except in Ohio, Maine, Minnesota, Nebraska and Washington, investors who have purchased units from an affiliated Wells public real estate program can make purchases for less than the minimum investment. These minimum investment levels may be higher in certain states, so you should carefully read the more detailed description under Who May Invest Minimum Purchase Requirements immediately following the cover page of this prospectus.

Q: How do I subscribe for shares?

A: If you choose to purchase shares in this offering, you will need to fill out a Subscription Agreement for a specific number of shares and pay for the shares at the time you subscribe.

Q: What happens if you don't sell at least 250,000 shares?

A: If the minimum of 250,000 shares, or \$2.5 million, is not reached before _____, 2004, we will terminate the offering and stop selling shares. In such event, within ten days after termination of the offering, the escrow agent will return your funds, including interest.

Q: If I buy shares in this offering, how may I later sell them?

Table of Contents

A: At the time you purchase the shares, they will not be listed for trading on any securities exchange or over-the-counter market. In fact, we expect that there will not be any public market for the shares when you purchase them, and we cannot be sure if one will ever develop. In addition, our charter imposes restrictions on the ownership of our stock, which will apply to potential purchasers of your stock. As a result, you may find it difficult to find a buyer for your shares and realize a return on your investment. See [Description of Shares](#) [Restriction on Ownership of Shares](#).

After you have held your shares for at least one year, you may be able to have your shares repurchased by us pursuant to our discretionary share redemption program. For at least the next five years, the redemption price would generally be \$8.20. (The terms of our redemption program are more generous upon the death of a stockholder.) We may amend or terminate the program at anytime. See the [Description of Shares](#) [Share Redemption Program](#) section of the prospectus.

We may return all or a portion of your capital contribution in connection with a sale of the company or the properties we will acquire. Alternatively, you may be able to obtain a return of all or a portion of your capital contribution in connection with the sale of your shares.

Q: When will the company seek to list its shares of common stock?

A: We will seek to list our shares of common stock when our independent directors believe listing would be in the best interest of our stockholders. If we do not list our shares of common stock on a national securities exchange or on the Nasdaq National Market by October 2017, our charter requires that we either:

seek stockholder approval of an extension or amendment of this listing deadline; or

seek stockholder approval of the liquidation of the corporation.

If we sought and did not obtain stockholder approval of an extension or amendment to the listing deadline, we would then be required to seek stockholder approval of our liquidation. If we sought and failed to obtain stockholder approval of our liquidation, our charter would not require us to list or liquidate and we could continue to operate as before. If we sought and obtained stockholder approval of our liquidation, we would begin an orderly sale of our properties and distribute our net proceeds to you.

Q: What is the experience of your officers and directors?

A: Our management team has extensive experience investing in and managing commercial real estate. Below is a short description of the background of each of our officers. See the [Management](#) [Executive Officers and Directors](#) section of this prospectus for a more detailed description of the experience of each of our officers and directors.

<u>Name</u>	<u>Title</u>	<u>Experience</u>
Leo F. Wells, III	President and Director	Founder of Wells Real Estate Funds and has been involved in real estate sales, management and brokerage services for over 30 years
Douglas P. Williams	Executive Vice President, Secretary and Treasurer	Former accounting executive at OneSource, Inc., a supplier of janitorial and landscape services
Richard W. Carpenter	Director	Former President and Chairman of the Board of Southmark Properties, an Atlanta-based REIT investing in commercial properties
Bud Carter	Director	Former broadcast news director and anchorman and current Senior Vice President for the Executive Committee, an organization established to aid corporate presidents and CEOs
Donald S. Moss	Director	Former executive officer of Avon Products, Inc.
Walter W. Sessoms	Director	Former executive officer of BellSouth Telecommunications, Inc.
Neil H. Strickland	Director	Founder of Strickland General Agency, Inc., a property and casualty general insurance agency concentrating on commercial customers.
Randall D. Fretz	Senior Vice President	Former President of US & Canada operations for Larson-Juhl, a world leader in custom art and picture-framing home decor.

Q: Will I be notified of how my investment is doing?

A: Yes, we will provide you with periodic updates on the performance of your investment with us, including:

Four detailed quarterly dividend reports;

An annual report;

An annual IRS Form 1099-DIV, if required;

Table of Contents

Supplements to the prospectus; and

Three quarterly financial reports.

We will provide this information to you via one or more of the following methods, in our discretion and with your consent, if necessary:

U.S. mail or other courier;

Facsimile;

Electronic delivery; and

Posting on our website, which is www.wellsref.com.

Q: When will I get my detailed tax information?

A: Your Form 1099-DIV tax information, if required, will be mailed by January 31 of each year.

Q: Who can help answer my questions?

A: If you have more questions about the offering or if you would like additional copies of this prospectus, you should contact your registered representative or contact:

PROSPECTUS SUMMARY

This prospectus summary highlights material information contained elsewhere in this prospectus. Because it is a summary, it may not contain all of the information that is important to you. To understand this offering fully, you should read the entire prospectus carefully, including the Risk Factors section and the financial statements, before making a decision to invest in our common stock.

Wells Real Estate Investment Trust II, Inc.

Wells Real Estate Investment Trust II, Inc. is a newly organized Maryland corporation that intends to qualify as a REIT beginning with the taxable year that will end December 31, 2003. We expect to use substantially all of the net proceeds from this offering to acquire and operate commercial real estate primarily consisting of high quality income-generating office and industrial properties leased to creditworthy companies and governmental entities. Because we have not yet identified any specific properties to purchase, we are considered to be a blind pool.

Our office is located at 6200 The Corners Parkway, Suite 250, Norcross, Georgia 30092. Our telephone number outside the State of Georgia is 800-557-4830 (770-243-8282 in Georgia). Our fax number is (770) 243-8198, and the e-mail address of our investor relations department is client.services@wellsref.com.

We also maintain an Internet site at www.wellsref.com at which there is additional information about us and our affiliates, but the contents of that site are not incorporated by reference in or otherwise a part of this prospectus.

Our Advisor

Our advisor is Wells Capital, which will be responsible for managing our affairs on a day-to-day basis and for identifying and making acquisitions on our behalf.

Our Management

We have a seven-member board of directors. Five of our directors are independent of Wells Capital. Our charter, which requires that a majority of our directors be independent of Wells Capital, creates a committee of our board comprised solely of all of our independent directors. This committee, which we call the conflicts committee, is responsible for reviewing the performance of Wells Capital and must approve other matters set forth in our charter. See Conflicts of Interest Certain Conflict Resolution Procedures. Our directors are elected annually by the stockholders.

Our REIT Status

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form S-11/A

If we qualify as a REIT, we generally will not be subject to federal income tax on income that we distribute to our stockholders. Under the Internal Revenue Code, REITs are subject to numerous organizational and operational requirements, including a requirement that they distribute at least 90% of their annual taxable income to their stockholders. If we fail to qualify for taxation as a REIT in any year, our income will be taxed at regular corporate rates, and we may be precluded from qualifying for treatment as a REIT for the four-year period following our failure to qualify. Even if we qualify as a REIT for federal income tax purposes, we may still be subject to state and local taxes on our income and property and to federal income and excise taxes on our undistributed income.

Table of Contents

Summary Risk Factors

Following are the most significant risks relating to your investment:

No public market currently exists for our shares of common stock. If you are able to sell your shares, you would likely have to sell them at a substantial discount from their public offering price.

We have no operating history nor do we currently own any properties. We have not identified any properties to acquire with proceeds from this offering.

If we raise substantially less than the maximum offering, we may not be able to invest in a diverse portfolio of properties and the value of your investment may vary more widely with the performance of specific properties.

We are dependent on our advisor to select investments and conduct our operations; thus, adverse changes in the financial health of our advisor or our relationship with our advisor could adversely affect us.

Our advisor and its affiliates will face conflicts of interest, including significant conflicts created by our advisor's compensation arrangements with us and other Wells-sponsored programs.

Our policies do not limit borrowings until they exceed 50% of the cost of our assets (before deducting depreciation), which debt levels could hinder our ability to pay dividends to our stockholders or could decrease the value of your investment.

Before you invest in us, you should see the complete discussion of the Risk Factors beginning on page 17 of this prospectus.

Description of Real Estate Investments

We expect to use substantially all of the net proceeds from this offering to acquire and operate commercial real estate primarily consisting of high quality income-generating office and industrial properties leased to creditworthy companies and governmental entities. We may also invest in entities that make similar investments. Through Wells Capital, our advisor, Leo F. Wells, III, Douglas P. Williams, Randall D. Fretz, Don Miller and David H. Steinwedell will make most of the decisions regarding our investments. Our conflicts committee must then approve each of these investments.

Because we have not yet identified any specific properties to purchase, we are considered to be a blind pool. As we acquire properties, we will supplement this prospectus to describe material changes to our portfolio.

Estimated Use of Proceeds of Offering

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form S-11/A

We anticipate that we will use 85% to 86% of the gross proceeds of this offering to acquire interests in real estate. We will use the remainder of the offering proceeds to pay the costs of the offering, including selling commissions and the dealer manager fee, and to pay the fee to our advisor for its services in connection with the selection, acquisition, development and construction of properties.

Table of Contents

Investment Objectives

Our primary investment objectives are:

to provide current income for you through the payment of cash dividends; and

to preserve and return your capital contributions.

We also seek capital gain from our investments. See the **Investment Objectives and Criteria** section of this prospectus for a more complete description of our investment policies and charter-imposed investment restrictions.

Conflicts of Interest

Wells Capital, as our advisor, will experience conflicts of interest in connection with the management of our business affairs, including the following:

Wells Capital must determine which investment opportunities to recommend to us or another Wells program or joint venture;

Wells Capital may structure the terms of joint ventures between us and other Wells-sponsored programs;

Wells Capital must determine which property and leasing managers to retain and may retain Wells Management, Inc., an affiliate, to manage and lease some or all of our properties;

Wells Capital and its affiliates will have to allocate their time between us and other real estate programs and activities in which they are involved;

Wells Capital and its affiliates will receive fees in connection with transactions involving the purchase, management and sale of our properties regardless of the quality of the property acquired or the services provided to us; and

Wells Capital and its affiliates will also receive fees in connection with our public offerings of equity securities.

Our officers and two of our directors will also face these conflicts because of their affiliation with Wells Capital. See the **Conflicts of Interest** section of this prospectus for a detailed discussion of the various conflicts of interest relating to your investment, as well as the procedures that we have established to resolve a number of these potential conflicts.

Table of Contents

The following chart shows the ownership structure of the various Wells entities that are affiliated with Wells Capital.

Prior Offering Summary

As of December 31, 2002, Wells Capital and its affiliates had sponsored 14 publicly offered real estate limited partnerships and Wells REIT I on an unspecified property or "blind pool" basis. As of December 31, 2002, they have raised in excess of \$2.5 billion from approximately 85,900 investors in these 15 public real estate programs. The "Prior Performance Summary" of this prospectus contains a discussion of the Wells programs sponsored to date. We also provide certain statistical data relating to the Wells programs with investment objectives similar to ours in the "Prior Performance Tables" included at the end of this prospectus.

The Offering

We are offering up to 600,000,000 shares of our common stock, including shares offered pursuant to our dividend reinvestment plan, at \$10 per share. We will, however, waive the 7% selling commission, and in some circumstances the dealer manager fee, for certain categories of purchasers. See "Plan of Distribution." We will offer shares of our common stock until the earlier of _____, 2005 or the date we sell all \$6.0 billion worth of shares in this offering, except that we may continue to sell shares under the dividend reinvestment plan beyond _____, 2005. We may terminate this offering at any time prior to such termination date. This offering must be registered, or exempt from registration, in every state in which we offer or sell shares. Generally, such registrations are for a period of one year. Therefore, we may have to stop selling shares in any state in which the registration is not renewed annually.

Table of Contents

We will not sell any shares unless we sell a minimum of 250,000 shares to the public by _____, 2004 (one year from the date of this prospectus). Purchases by our directors, officers, advisor or their affiliates will not count toward meeting this minimum threshold. Pending satisfaction of this condition, all subscription payments will be placed in an account held by the escrow agent, SouthTrust Bank, in trust for subscribers' benefit, pending release to us. If we do not sell 250,000 shares to the public by _____, 2004, we will terminate this offering and return all subscribers' funds, plus interest. Funds in escrow will be invested in short-term investments that mature on or before _____, 2004 or that can be readily sold or otherwise disposed of for cash by such date without any dissipation of the offering proceeds invested.

Compensation to Wells Capital

Wells Capital and its affiliates will receive compensation and reimbursement for services relating to this offering and the investment and management of our assets. The most significant items of compensation are included in the following table, which assumes a \$10 per share sale price:

<i>Type of Compensation</i>	<i>Form of Compensation</i>	<i>Estimated Amount for Maximum Offering (600,000,000 shares)</i>
<i>Offering Stage</i>		
Selling Commissions	7.0% of gross offering proceeds	\$ 420,000,000
Dealer Manager Fee	2.5% of gross offering proceeds	\$ 150,000,000
Organization and	Up to 2.0% of gross offering proceeds	\$ 60,000,000
Offering Expenses		(estimated)
<i>Acquisition and Development Stage</i>		
Acquisition Fees	3.5% of gross offering proceeds	\$ 210,000,000
<i>Operational Stage</i>		
Asset Management Fees	Monthly fee equal to one-twelfth of 0.5% of the sum of the cost of all occupied properties we own plus the cost of investments in joint ventures, provided that the amount paid in any calendar quarter may not exceed 0.7% of the net asset value of those investments at quarter end after deducting debt used to acquire or refinance properties	N/A

Table of Contents

<i>Type of Compensation</i>	<i>Form of Compensation</i>	<i>Estimated Amount for Maximum Offering (600,000,000 shares)</i>
Property Management Fee:	If we retain Wells Management to manage and lease some of our properties, we will pay a market-based property management fee, which may include reimbursement of Wells Management's personnel costs and other costs of managing the properties. Wells Management may also receive a fee for the initial leasing of newly constructed properties, which would generally equal one month's rent.	N/A
Operating Expenses	Reimbursement of our advisor's cost of providing administrative services	N/A
<i>Liquidation/Listing Stage</i>		
Real Estate Commissions	Up to 3.0% of contract price for properties sold	N/A
Subordinated Participation In Net Sale Proceeds	10.0% of remaining amounts of net sale proceeds after return of capital plus payment to investors of an 8.0% cumulative non-compounded return on the capital contributed by investors	N/A
(payable only if we are not listed on an exchange)		
Subordinated Incentive Listing Fee (payable only if we are listed on an exchange)	10.0% of the amount by which our adjusted market value exceeds the aggregate capital contributions contributed by investors	N/A

Dividend Policy

To maintain our qualification as a REIT, we are required to make aggregate annual distributions to our stockholders of at least 90% of our taxable income (which does not necessarily equal net income as calculated in accordance with GAAP). Our board of directors may authorize distributions in excess of those required for us to maintain REIT status depending on our financial condition and such other factors as our board of directors deems relevant. We have not established a minimum distribution level. We expect to calculate our quarterly dividends based upon daily record and dividend declaration dates so investors will be entitled to dividends immediately upon purchasing our shares.

Listing

We will seek to list our shares of common stock when our independent directors believe listing would be in the best interest of our stockholders. If we do not list our shares of common stock on a

Table of Contents

national securities exchange or on the Nasdaq National Market by October 2017, our charter requires that we either:

seek stockholder approval of an extension or amendment of this listing deadline; or

seek stockholder approval of the liquidation of the corporation.

If we sought and did not obtain stockholder approval of an extension or amendment to the listing deadline, we would then be required to seek stockholder approval of our liquidation. If we sought and failed to obtain stockholder approval of our liquidation, our charter would not require us to list or liquidate and we could continue to operate as before. If we sought and obtained stockholder approval of our liquidation, we would begin an orderly sale of our properties and distribute our net proceeds to you.

Dividend Reinvestment Plan

Under our dividend reinvestment plan, you may have the dividends you receive reinvested in additional shares of our common stock. If you participate, you will not receive the cash from your dividends. As a result, you may have a tax liability with respect to your share of our taxable income, but you will not receive cash dividends to pay such liability. We may terminate the dividend reinvestment plan at our discretion at any time upon 10 days prior written notice to you.

Share Redemption Program

After you have held your shares for a minimum of one year, our share redemption program may provide an opportunity for you to redeem your shares. The program is not available to those who purchase their shares from another stockholder. We will limit the number of shares redeemed pursuant to our share redemption program as follows: (1) during any calendar year, we will not redeem in excess of 3.0% of the weighted average number of shares outstanding during the prior calendar year; and (2) funding for the redemption of shares will come exclusively from the proceeds we receive from the sale of shares under our dividend reinvestment plan. The funds we may set aside for our share redemption program may not be sufficient to accommodate all requests made in any year. For three years after we complete this offering or any subsequent public equity offerings we commence within one year of the completion of a public equity offering, the price at which we would repurchase your stock is \$8.20 per share. Thereafter, the redemption price will equal 95% of our per share net asset value as estimated by Wells Capital. The share redemption program has different rules if shares are being redeemed in connection with the death of a stockholder. See [Description of Shares](#) [Share Redemption Program](#) for more information about the share redemption program. Our board of directors may amend or terminate the share redemption program at any time.

Wells Operating Partnership II, L.P.

We expect to own substantially all of our real estate properties through Wells OP II, our operating partnership. We are the sole general partner of Wells OP II. Wells Capital has purchased \$200,000 of limited partner units in Wells OP II. This UPREIT structure may allow sellers of properties to transfer their properties to Wells OP II in exchange for limited partnership interests of Wells OP II and defer gain recognition for tax purposes with respect to such transfers of properties. The holders of units in Wells OP II may have their units redeemed for cash or, at our option, shares of our common stock. At present, we have no plans to acquire any specific properties in exchange for units of Wells OP II.

Table of Contents

ERISA Considerations

The section of this prospectus entitled "ERISA Considerations" describes the effect the purchase of shares will have on individual retirement accounts and retirement plans subject to the Employee Retirement Income Security Act of 1974, as amended (ERISA), and/or the Internal Revenue Code. ERISA is a federal law that regulates the operation of certain tax-advantaged retirement plans. Any retirement plan trustee or individual considering purchasing shares for a retirement plan or an individual retirement account should read this section of the prospectus very carefully.

Description of Shares

Uncertificated Shares

Our board of directors has authorized the issuance of shares of our capital stock without certificates. We expect that, until our shares are listed on a national securities exchange or the Nasdaq Stock Market, we will not issue shares in certificated form. We maintain a stock ledger that contains the name and address of each stockholder and the number of shares that the stockholder holds. With respect to uncertificated stock, we will continue to treat the stockholder registered on our stock ledger as the owner of the shares until the new owner delivers a properly executed form to us, which we will provide to any registered holder upon request.

Stockholder Voting Rights and Limitations

We intend to hold annual meetings of our stockholders for the purpose of electing our directors or conducting other business matters that may be presented at such meetings. We may also call a special meeting of stockholders from time to time. You are entitled to one vote for each share of common stock you own at any of these meetings.

Restriction on Share Ownership

Our charter contains restrictions on ownership of the shares that prevent any one person from owning more than 9.8% of our outstanding shares. These restrictions are designed to enable us to comply with ownership restrictions imposed on REITs by the Internal Revenue Code. See

"Description of Shares - Restriction on Ownership of Shares." Our charter also limits your ability to transfer your shares to prospective stockholders unless they meet suitability standards regarding income or net worth and the transfer complies with minimum purchase requirements, which are described above at "Who May Invest" immediately following the cover page of this prospectus.

Table of Contents

RISK FACTORS

An investment in our common stock involves various risks and uncertainties. You should carefully consider the following risk factors in conjunction with the other information contained in this prospectus before purchasing our common stock. The risks discussed in this prospectus can adversely affect our business, operating results, prospects and financial condition. This could cause the value of our common stock to decline and could cause you to lose all or part of your investment. The risks and uncertainties described below are not the only ones we face but do represent those risks and uncertainties that we believe are material to our business, operating results, prospects and financial condition. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also harm our business.

Risks Related to an Investment In Us

There is no public trading market for your shares; therefore, it will be difficult for you to sell your shares.

There is no current public market for the shares. You may not sell your shares unless the buyer meets applicable suitability and minimum purchase standards. Our charter also prohibits the ownership of more than 9.8% of our stock, which may inhibit large investors from desiring to purchase your shares. Moreover, you may not be able to sell your shares to us under our discretionary share redemption program because of the restrictions we have imposed under the program and because we may amend, suspend or terminate our share redemption program at any time. We describe these restrictions in more detail under [Description of Shares](#) [Share Redemption Program](#). Therefore, it will be difficult for you to sell your shares promptly or at all. If you are able to sell your shares, you would likely have to sell them at a substantial discount to their public offering price. It is also likely that your shares would not be accepted as the primary collateral for a loan. You should purchase the shares only as a long-term investment because of the illiquid nature of the shares.

If we are unable to find suitable investments, we may not be able to achieve our investment objectives or pay dividends.

Our ability to achieve our investment objectives and to pay dividends depends upon the performance of Wells Capital, our advisor, in the acquisition of our investments and the determination of any financing arrangements and upon the performance of our property managers in the selection of tenants and negotiation of leasing arrangements. Except for the investments described in one or more supplements to this prospectus, you will have no opportunity to evaluate the terms of transactions or other economic or financial data concerning our investments. You must rely entirely on the management abilities of Wells Capital, the property managers Wells Capital selects (which may include Wells Management) and the oversight of our board of directors. We cannot be sure that Wells Capital will be successful in obtaining suitable investments on financially attractive terms or that, if Wells Capital makes investments on our behalf, our objectives will be achieved. The more money we raise in this offering, the greater will be our challenge to invest all of the net offering proceeds on attractive terms. Therefore, the large size of this offering increases the risk that we may pay too much for real estate acquisitions. If we, through Wells Capital, are unable to find suitable investments promptly, we will hold the proceeds from this offering in an interest-bearing account or invest proceeds in short-term, investment-grade investments and may, ultimately, liquidate. In such an event, our ability to pay dividends to our stockholders would be adversely affected.

Table of Contents

We may suffer from delays in locating suitable investments, which could adversely affect our ability to make distributions and the value of your investment.

We could suffer from delays in locating suitable investments, particularly as a result of our reliance on our advisor at times when management of our advisor is simultaneously seeking to locate suitable investments for other affiliated programs. Of course, the more money we raise in this offering, the more difficult it will be to invest the net offering proceeds promptly. Therefore, the large size of this offering increases the risk of delays in investing our net offering proceeds. Delays we encounter in the selection, acquisition and development of income-producing properties would likely adversely affect our ability to pay dividends to our stockholders and our stockholders' overall returns. This, in turn, would reduce the value of your investment. In particular, where we acquire properties prior to the start of construction or during the early stages of construction, it will typically take several months to complete construction and rent available space. Therefore, you could suffer delays in the distribution of cash dividends attributable to those particular properties. You should expect to wait several months after the closing of a property acquisition before we are in a position to pay cash dividends attributable to such property.

Because this is a blind pool offering, you will not have the opportunity to evaluate our investments before we make them, which makes your investment more speculative.

Because we have not yet acquired or identified any investments that we may make, we are not able to provide you with information to evaluate our investments prior to acquisition. We will seek to invest substantially all of the offering proceeds available for investment, after the payment of fees and expenses, in the acquisition of commercial properties. However, you will be unable to evaluate the economic merit of real estate projects before we invest in them and will be entirely relying on the ability of our advisor to select well-performing investment properties. Furthermore, our board of directors will have broad discretion in implementing policies regarding tenant or mortgagor creditworthiness, and you will not have the opportunity to evaluate potential tenants, managers or borrowers. These factors increase the risk that your investment may not generate returns comparable to our competitors.

If we are unable to raise substantial funds, we will be limited in the number and type of investments we may make and the value of your investment in us will fluctuate with the performance of the specific properties we acquire.

This offering is being made on a "best efforts" basis, whereby the brokers participating in the offering are only required to use their best efforts to sell our shares and have no firm commitment or obligation to purchase any of the shares. As a result, the amount of proceeds we raise in this offering may be substantially less than the amount we would need to achieve a broadly diversified property portfolio. We may be unable to raise even the minimum offering amount. If we are unable to raise substantially more than the minimum offering amount, we will make fewer investments resulting in less diversification in terms of the number of investments owned, the geographic regions in which our investments are located and the types of investments that we make. In that case, the likelihood that any single property's performance would adversely affect our profitability will increase. For example, if we only raise the minimum amount of \$2.5 million, we will most likely make our investments through one or more joint ventures and may only be able to make one investment. If we only make one investment, we would not achieve any asset diversification. Additionally, we are not limited in the number or size of our investments or the percentage of net proceeds we may dedicate to a single investment. Your investment in our shares will be subject to greater risk to the extent that we lack a diversified portfolio of investments. In addition, our inability to raise substantial funds would increase our fixed operating expenses, as a percentage of gross income, and our financial condition and ability to pay distributions could be adversely affected.

Table of Contents

Our lack of prior operating history or established financing sources hinders your ability to evaluate this investment.

We have no operating history. You should not rely upon the past performance of other real estate investment programs our advisor or its affiliates sponsored. Such past performance may not predict our future results. We were incorporated in July 2003, and as of the date of this prospectus we have not made any investments in real estate or otherwise. This lack of operating history significantly increases the risk and uncertainty you face in making an investment in our shares.

Our loss of or inability to obtain key personnel could delay or hinder implementation of our investment strategies, which could adversely affect our ability to make distributions and the value of your investment.

Our success depends to a significant degree upon the contributions of Leo F. Wells, III, Douglas P. Williams and Randall D. Fretz, each of whom would be difficult to replace. We do not have employment agreements with Messrs. Wells, Williams or Fretz, and we cannot guarantee that such persons will remain affiliated with us. Although Messrs. Wells, Williams and Fretz have entered into employment agreements with Wells Capital, these agreements are terminable at will by either party; thus, such persons may not remain affiliated with Wells Capital or us. If any of our key personnel were to cease their affiliation with us, we may be unable to find suitable replacement personnel, and our operating results could suffer. We do not intend to separately maintain key person life insurance on any person. We believe that our future success depends, in large part, upon our advisor's and our property managers' ability to hire and retain highly skilled managerial, operational and marketing personnel. Competition for such personnel is intense, and our advisor and any property managers we retain may be unsuccessful in attracting and retaining such skilled personnel. Further, we intend to establish strategic relationships with firms that have special expertise in certain services or as to real properties in certain geographic regions. Maintaining such relationships will be important for us to effectively compete with other investors for properties in such regions. We may be unsuccessful in attracting and retaining such relationships. If we lose or are unable to obtain the services of highly skilled personnel or do not establish or maintain appropriate strategic relationships, our ability to implement our investment strategies could be delayed or hindered, and the value of your investment may decline.

Our rights, and the rights of our stockholders, to recover claims against our independent directors are limited, which could reduce your and our recovery against them if they negligently cause us to incur losses.

Maryland law provides that a director has no liability in that capacity if he performs his duties in good faith, in a manner he reasonably believes to be in our best interests and with the care that an ordinarily prudent person in a like position would use under similar circumstances. Our charter provides that no independent director shall be liable to us or our stockholders for monetary damages and that we will generally indemnify them for losses unless they are grossly negligent or engage in willful misconduct. As a result, you and we may have more limited rights against our independent directors than might otherwise exist under common law, which could reduce your and our recovery from these persons if they act in a negligent manner. In addition, we may be obligated to fund the defense costs incurred by our independent directors (as well as by our other directors, officers, employees and agents) in some cases, which would decrease the cash otherwise available for distributions to you.

Table of Contents

Risks Related to Conflicts of Interest

Wells Capital and possibly Wells Management will face conflicts of interest relating to the purchase and leasing of properties, and such conflicts may not be resolved in our favor, which could adversely affect our investment opportunities and hence our ability to pay dividends.

We rely on our advisor to identify suitable investment opportunities. Other Wells-sponsored programs, especially those that are currently raising offering proceeds, such as Wells Fund XIV and Wells REIT I, also rely on Wells Capital for investment opportunities. Many investment opportunities would be suitable for us as well as other Wells programs. If Wells Capital directs an investment opportunity to a Wells-sponsored program, it is to offer the investment opportunity to the program for which the opportunity, in the discretion of Wells Capital, is most suitable. Likewise, we may rely at least in part on Wells Management to attract and retain creditworthy tenants. Other Wells-sponsored programs rely on Wells Management for the same tasks. If Wells Management directs creditworthy prospective tenants to another Wells-sponsored program where it could direct such tenants to our properties, our tenant base may have more inherent risk than might otherwise be the case. Our charter disclaims any interest in an investment opportunity known to Wells Capital that Wells Capital has not recommended to us. Wells Capital could direct attractive investment opportunities to other entities or even make such investments for its own account. Wells Management could direct attractive tenants to other entities. Such events could result in our investing in properties that provide less attractive returns or leasing properties to tenants that are more likely to default under their leases, thus reducing the level of dividends we may be able to pay you.

Wells Capital will face conflicts of interest relating to joint ventures that we may form with affiliates of Wells Capital, which conflicts could result in a disproportionate benefit to the other venture partners at our expense.

We are likely to enter into joint venture agreements with other Wells programs for the acquisition, development or improvement of properties. Wells Capital may have conflicts of interest in determining which Wells program should enter into any particular joint venture agreement. The co-venturer may have economic or business interests or goals that are or may become inconsistent with our business interests or goals. In addition, Wells Capital may face a conflict in structuring the terms of the relationship between our interests and the interest of the affiliated co-venturer and in managing the joint venture. Since Wells Capital and its affiliates will control both the affiliated co-venturer and, to a certain extent, us, agreements and transactions between the co-venturers with respect to any such joint venture will not have the benefit of arm's-length negotiation of the type normally conducted between unrelated co-venturers. Co-venturers may thus benefit to our and your detriment.

Wells Capital, its affiliates and our officers will face competing demands relating to their time, and this may cause our operations to suffer.

We rely on Wells Capital and its affiliates for the day-to-day operation of our business. Wells Capital and its affiliates, including our officers, have interests in other Wells programs and engage in other business activities. As a result, they will have conflicts of interest in allocating their time between us and other Wells programs and activities in which they are involved. Because these persons have competing interests on their time and resources, they may have conflicts of interest in allocating their time between our business and these other activities. During times of intense activity in other programs and ventures, they may devote less time and resources to our business than is necessary or appropriate to manage our business. If this occurs, the returns on our investments may suffer.

Table of Contents

Our officers and some of our directors face conflicts of interest related to the positions they hold with Wells Capital and its affiliates, which could hinder our ability to successfully implement our business strategy and to generate returns to you.

Our executive officers and some of our directors are also officers and directors of our advisor, our dealer manager and other affiliated entities. As a result, they owe fiduciary duties to these various entities and their stockholders and limited partners, which fiduciary duties may from time to time conflict with the fiduciary duties that they owe to us and our stockholders. Their fulfillment of their fiduciary duties to these other entities could result in actions or inactions that are detrimental to our business, which could harm the implementation of our business strategy and our investment and leasing opportunities. If we do not successfully implement our business strategy, we may be unable to generate cash needed to make distributions to you and to maintain or increase the value of our assets.

Wells Capital and its affiliates, including our officers and some of our directors, will face conflicts of interest caused by compensation arrangements with us and other Wells-sponsored programs, which could result in actions that are not in the long-term best interests of our stockholders.

Wells Capital and its affiliates will receive substantial fees from us. These fees could influence our advisor's advice to us, as well as the judgment of the affiliates of Wells Capital who serve as our officers or directors. Among other matters, the compensation arrangements could affect their judgment with respect to:

the continuation, renewal or enforcement of our agreements with Wells Capital and its affiliates, including the advisory agreement, the dealer manager agreement and any property management and leasing agreement;

public offerings of equity by us, which entitle Wells Investment Securities to underwriting fees and entitle Wells Capital to increased advisory fees;

property sales, which entitle Wells Capital to real estate commissions and possible success-based sale fees;

property acquisitions from other Wells-sponsored programs, which might entitle Wells Capital to real estate commissions and possible success-based sale fees in connection with its services for the seller;

property acquisitions from third parties, which utilize proceeds from our public offerings, thereby increasing the likelihood of continued equity offerings and related fee income for Wells Investment Securities and Wells Capital;

whether and when we seek to list our common stock on a national securities exchange or the Nasdaq National Market, which listing could entitle Wells Capital to a success-based listing fee but could also adversely affect its sales efforts for other programs if the price at which our shares trade is lower than the price at which we offered shares to the public; and

whether and when we seek to sell the company or its assets, which sale could entitle Wells Capital to a success-based fee but could also adversely affect its sales efforts for other programs if the sales price for the company or its assets resulted in proceeds less than the amount needed to preserve our stockholders' capital.

Table of Contents

The acquisition fees paid to Wells Capital and management and leasing fees that would be paid to its affiliate, Wells Management, if Wells Management were retained to manage some of our properties, are paid irrespective of the quality of their acquisition or property-management services during the term of the related agreement. Moreover, Wells Capital and Wells Management will have considerable discretion with respect to the terms and timing of acquisition, disposition and leasing transactions. Considerations relating to their compensation from other programs could result in decisions that are not in the best interests of our stockholders, which could hurt our ability to pay you dividends or result in a decline in the value of your investment.

Our board's loyalties to Wells REIT I could compromise its judgment.

Currently, all of our directors are also directors of Wells REIT I. The loyalties of our directors to Wells REIT I may compromise the judgment of our board when considering issues for us that may affect Wells REIT I, such as the following:

The conflicts committee of the board of directors must evaluate the performance of Wells Capital with respect to whether Wells Capital is presenting to us our fair share of investment opportunities. If our advisor is not presenting a sufficient number of investment opportunities to us because it is presenting many opportunities to Wells REIT I or if our advisor is giving preferential treatment to Wells REIT I in this regard, our conflicts committee may not be well suited to enforce our rights under the terms of the advisory agreement or to seek a new advisor.

The conflicts committee may have to make a similar evaluation with respect to the performance of Wells Management if we retain Wells Management to manage and lease any of our properties. If Wells Management is not performing well as our property manager because of its services for Wells REIT I, the divided loyalties of the members of our conflicts committee could adversely affect their willingness to insist on improvement in the performance of Wells Management.

The conflicts committee will likely decide whether we purchase a property. This decision could be influenced by the hope that Wells Capital would present the opportunity to Wells REIT I if we did not pursue it.

We could enter into transactions with Wells REIT I, such as property sales or acquisitions, joint ventures or financing arrangements. Decisions of the board or the conflicts committee regarding the terms of those transactions may be influenced by its loyalties to Wells REIT I.

A decision of the board or the conflicts committee regarding the timing of a debt or equity offering could be influenced by concerns that the offering would compete with an offering of Wells REIT I.

A decision of the board or the conflicts committee regarding the timing of property sales could be influenced by concerns that the sales would compete with those of Wells REIT I.

Our operating performance could suffer if Wells Capital incurs losses as a result of being the general partner of other entities.

As a general partner to many Well-sponsored programs, Wells Capital may have contingent liability for the obligations of such partnerships. Enforcement of such obligations against Wells Capital

Table of Contents

could result in a substantial reduction of its net worth. If such liabilities affected the level of services that Wells Capital could provide, our operations and financial performance could suffer as well, which would adversely affect your ability to receive distributions and the value of your investment.

There is no separate counsel for our affiliates and us, which could result in conflicts of interest and our pursuit of actions not in our stockholders' best interests.

Alston & Bird LLP is counsel both to us and to Wells Capital and its affiliates, including Wells Investment Securities, Wells Management Company and Wells Development Corporation. As discussed above, there is a possibility that the interests of the various parties may conflict. If we do not obtain separate counsel when our interests conflict with those of Wells Capital and its affiliates, our counsel's loyalties to Wells Capital and its affiliates could interfere with its independent professional judgment in considering alternatives that we should pursue, which could result in our pursuing courses of action that are not in our stockholders' best interests.

Risks Related to This Offering and Our Corporate Structure

Our charter limits the number of shares a person may own, which may discourage a takeover that could otherwise result in a premium price to our stockholders.

Our charter, with certain exceptions, authorizes our directors to take such actions as are necessary and desirable to preserve our qualification as a REIT. Unless exempted by our board of directors, no person may own more than 9.8% of our outstanding common stock. This restriction may have the effect of delaying, deferring or preventing a change in control of us, including an extraordinary transaction (such as a merger, tender offer or sale of all or substantially all of our assets) that might provide a premium price for holders of our common stock.

Our charter permits our board of directors to issue stock with terms that may subordinate the rights of our common stockholders or discourage a third party from acquiring us in a manner that could result in a premium price to our stockholders.

Our board of directors may classify or reclassify any unissued common stock or preferred stock and establish the preferences, conversion or other rights, voting powers, restrictions, limitations as to dividends and other distributions, qualifications and terms or conditions of redemption of any such stock. Thus, our board of directors could authorize the issuance of such preferred stock with terms and conditions that could have priority as to distributions and amounts payable upon liquidation over the rights of the holders of our common stock. Such preferred stock could also have the effect of delaying, deferring or preventing a change in control of us, including an extraordinary transaction (such as a merger, tender offer or sale of all or substantially all of our assets) that might provide a premium price for holders of our common stock.

Because Maryland law permits our board to adopt certain anti-takeover measures without stockholder approval, investors may be less likely to receive a control premium for their shares.

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form S-11/A

In 1999, the State of Maryland enacted legislation that enhances the power of Maryland corporations to protect themselves from unsolicited takeovers. Among other things, the legislation permits our board, without stockholder approval, to amend our charter to:

stagger our board of directors into three classes;

require a two-thirds stockholder vote for removal of directors;

Table of Contents

provide that only remaining directors may fill a vacancy on the board;

provide that only the board can fix the size of the board;

provide that all vacancies on the board, however created, may be filled only by the affirmative vote of a majority of the remaining directors in office; and

require that special stockholder meetings may only be called by holders of a majority of the voting shares entitled to be cast at the meeting.

Our board's adoption of any of these provisions could discourage an extraordinary transaction (such as a merger, tender offer or sale of all or substantially all of our assets) that might provide a premium price for holders of our securities.

Your investment return may be reduced if we are required to register as an investment company under the Investment Company Act; if we become an unregistered investment company, we could not continue our business.

We do not intend to register as an investment company under the Investment Company Act of 1940, as amended. If we were obligated to register as an investment company, we would have to comply with a variety of substantive requirements under the Investment Company Act that impose, among other things:

limitations on capital structure;

restrictions on specified investments;

prohibitions on transactions with affiliates; and

compliance with reporting, record keeping, voting, proxy disclosure and other rules and regulations that would significantly increase our operating expenses.

In order to maintain our exemption from regulation under the Investment Company Act, we must engage primarily in the business of buying real estate, and these investments must be made within a year after this offering ends. If we are unable to invest a significant portion of the proceeds of this offering in properties within one year of the termination of this offering, we may avoid being required to register as an investment company by temporarily investing any unused proceeds in government securities with low returns. This would reduce the cash available for distribution to investors and possibly lower your returns.

To maintain compliance with the Investment Company Act exemption, we may be unable to sell assets we would otherwise want to sell and may need to sell assets we would otherwise wish to retain. In addition, we may have to acquire additional income or loss generating assets that we might not otherwise have acquired or may have to forego opportunities to acquire interests in companies that we would otherwise want to acquire and would be important to our investment strategy. If we were required to register as an investment company but failed to do so, we

would be prohibited from engaging in our business, and criminal and civil actions could be brought against us. In addition, our contracts would be unenforceable unless a court required enforcement, and a court could appoint a receiver to take control of us and liquidate our business.

Table of Contents

You will have limited control over changes in our policies and operations.

Our board of directors determines our major policies, including our policies regarding financing, growth, debt capitalization, REIT qualification and distributions. Our board of directors may amend or revise these and other policies without a vote of the stockholders. Under the Maryland General Corporation Law and our charter, our stockholders have a right to vote only on limited matters. Our board's broad discretion in setting policies and our stockholders' inability to exert control over those policies increases the uncertainty and risks you face as a stockholder.

You may not be able to sell your shares under the share redemption program.

Generally, you must have held your shares for at least one year in order to participate in our share redemption program. The program is not available to those who purchase their shares from another stockholder, which reduces the likelihood of a third party purchasing your shares. Subject to funds being available, we will limit the number of shares redeemed pursuant to our share redemption program as follows: (1) during any calendar year, we will not redeem in excess of 3.0% of the weighted average number of shares outstanding during the prior calendar year; and (2) funding for the redemption of shares will come exclusively from the proceeds we receive from the sale of shares under our dividend reinvestment plan. In other words, the aggregate amount of redemptions under our share redemption program will not exceed aggregate net proceeds received from the sale of shares pursuant to our dividend reinvestment plan. The funds we may set aside for our share redemption program may not be sufficient to accommodate all requests made in any year. Furthermore, for three years after we complete this offering or any subsequent public equity offerings we commence within one year of the completion of a public equity offering, the price at which we would repurchase your stock is \$8.20 per share. Thereafter, the redemption price will equal 95% of our per share net asset value as estimated by Wells Capital. The share redemption program has different rules if shares are being redeemed in connection with the death of a stockholder. See Description of Shares Share Redemption Program for more information about the share redemption program. The board of directors, in its sole discretion, may choose to terminate or amend the share redemption program at any time. These restrictions severely limit your ability to sell your shares should you require liquidity and limit your ability to recover the value you invested.

The offering price was not established on an independent basis; the actual value of your investment may be substantially less than what you pay.

The selling price of the shares bears no relationship to our book or asset values or to any other established criteria for valuing issued or outstanding shares. The board of directors considered the following factors in determining the offering price:

the offering price of the earlier REITs organized by our promoters;

the range of offering prices of comparable unlisted REITs; and

the recommendation of the dealer manager.

Because the offering price is not based upon any independent valuation, the offering price may not be indicative of the proceeds that you would receive upon liquidation. Further, the offering price may be significantly more than the price at which the shares would trade if they were to be listed on an exchange or actively traded by brokers.

Table of Contents

Because the dealer manager is one of our affiliates, you will not have the benefit of an independent review of us or the prospectus customarily undertaken in underwritten offerings.

The dealer manager, Wells Investment Securities, is one of our affiliates and will not make an independent review of us or the offering. Accordingly, you do not have the benefit of an independent review of the terms of this offering. Further, the due diligence investigation of us by the dealer manager cannot be considered to be an independent review and, therefore, may not be as meaningful as a review conducted by an unaffiliated broker-dealer or investment banker.

Your interest in us will be diluted if we issue additional shares.

Potential investors in this offering do not have preemptive rights to any shares we issue in the future. Our charter authorizes us to issue 1,000,000,000 shares of capital stock, of which 900,000,000 shares are designated as common stock and 100,000,000 are designated as preferred stock. Our board of directors may increase the number of authorized shares of capital stock without stockholder approval. After your purchase in this offering, our board may elect to (1) sell additional shares in this or future public offerings, (2) issue equity interests in private offerings, (3) issue shares of our common stock upon the exercise of the options we may grant to our independent directors or to Wells Capital or Wells Management employees, (4) issue shares to our advisor, its successors or assigns, in payment of an outstanding fee obligation, or (5) issue shares of our common stock to sellers of properties we acquire in connection with an exchange of limited partnership interests of Wells OP II. To the extent we issue additional equity interests after your purchase in this offering, your equity interest in us will be diluted.

Payment of fees to Wells Capital and its affiliates will reduce cash available for investment and distribution.

Wells Capital and its affiliates will perform services for us in connection with the offer and sale of the shares, the selection and acquisition of our investments, the management and leasing of our properties and the administration of our other investments. We will pay them substantial fees for these services, which will result in immediate dilution to the value of your investment and will reduce the amount of cash available for investment in properties or distribution to stockholders. As a result of these substantial fees, we expect that only 85% to 86% of our gross offering proceeds will be available for the purchase of real estate. Therefore, these fees increase the risk that the amount available for distribution to common stockholders upon a liquidation of our portfolio would be less than the purchase price of the shares in this offering. Substantial up-front fees also increase the risk that you will not be able to resell your shares at a profit, even if our shares are listed on a national securities exchange or on the Nasdaq National Market.

We may be unable to pay or maintain cash distributions or increase distributions over time.

There are many factors that can affect the availability and timing of cash distributions to you. We will make distributions principally from cash available from our operations. With no prior operations, no one can predict the amount of distributions you may receive. We may be unable to pay or maintain cash distributions or increase distributions over time.

Adverse economic and geopolitical conditions could negatively affect our returns and profitability.

Recent geopolitical events have exacerbated the general economic slowdown that has affected the nation as a whole and the local economies where our properties may be located. The following market and economic challenges may impact negatively our operating results:

Table of Contents

poor economic times may result in tenant defaults under leases;

job transfers and layoffs may increase vacancies;

maintaining occupancy levels may require increased concessions or reduced rental rates; and

increased insurance premiums, resulting in part from the increased risk of terrorism, may reduce funds available for distribution or, to the extent we can pass such increases through to tenants, may lead to tenant defaults. Increased insurance premiums also may make it difficult to increase rents to tenants on turnover, which may adversely affect our ability to increase our returns.

Our operations could be negatively affected to the extent that an economic downturn is prolonged or becomes more severe.

Our inability to obtain funding for future capital needs could adversely affect the value of our investments.

We will use substantially all of this offering's gross proceeds to buy real estate and pay various fees and expenses. Accordingly, if we need additional capital in the future to improve or maintain our properties or for any other reason, we may have to obtain financing from either affiliated or unaffiliated sources. We have not identified any sources for such funding. If we are unable to procure additional funding if the need arises, the value of our investments could suffer.

You may be more likely to sustain a loss on your investment because our promoters do not have as strong an economic incentive to avoid losses as do promoters who have made significant equity investments in their company.

Our promoters have only invested \$200,000 in us, which investment was made through a purchase of limited partnership interests in our operating partnership, Wells OP II. Therefore, if we are successful in raising enough proceeds to be able to reimburse our promoters for our significant organization and offering expenses, our promoters have little exposure to losses in the value of our shares. Without this exposure, our investors may be at a greater risk of loss because our promoters do not have as much to lose from a decrease in the value of our shares as do those promoters who make more significant equity investments in their companies.

General Risks Related To Investments In Real Estate

Economic and regulatory changes that impact on the real estate market may adversely affect our operating results and the value of our real estate properties.

Our operating results will be subject to risks generally incident to the ownership of real estate, including:

changes in general economic or local conditions;

changes in supply of or demand for similar or competing properties in an area;

changes in interest rates and availability of permanent mortgage funds which may render the sale of a property difficult or unattractive;

changes in tax, real estate, environmental and zoning laws; and

periods of high interest rates and tight money supply.

These and other reasons may prevent us from being profitable or from realizing growth or maintaining the value of our real estate properties.

Table of Contents

Properties that have significant vacancies could be difficult to sell, which could diminish the return on your investment.

A property may incur vacancies either by the continued default of tenants under their leases or the expiration of tenant leases. If vacancies continue for a long period of time, we may suffer reduced revenues resulting in less cash available to distribute to stockholders. In addition, because properties' market value depends principally upon the value of the properties' leases, the resale value of properties with high or prolonged vacancies could suffer, which could further reduce your return.

We depend on tenants for our revenue, and lease terminations could reduce our distributions to our stockholders.

The success of our investments materially depends on the financial stability of our tenants. A default by a significant tenant on its lease payments to us would cause us to lose the revenue associated with such lease and require us to find an alternative source of revenue to meet mortgage payments and prevent a foreclosure if the property is subject to a mortgage. In the event of a tenant default or bankruptcy, we may experience delays in enforcing our rights as landlord and may incur substantial costs in protecting our investment and re-letting our property. If significant leases are terminated, we may be unable to lease the property for the rent previously received or sell the property without incurring a loss. These events could cause us to reduce the amount of distributions to stockholders.

Our inability to secure funds for future tenant improvements could adversely impact our ability to pay cash distributions to our stockholders.

When tenants do not renew their leases or otherwise vacate their space, it is likely that we will be required to expend substantial funds for tenant improvements and tenant refurbishments to the vacated space in order to attract replacement tenants. If we have insufficient working capital reserves, we will have to obtain financing from other sources which may not be available or, if available, may be available on unattractive terms. Additional borrowing for working capital purposes will increase our interest expense and reduce our ability to pay cash distributions to you.

Our inability to sell a property when we want could adversely impact our ability to pay cash distributions to you.

General economic conditions, availability of financing, interest rates and other factors, including supply and demand, all of which are beyond our control, affect the real estate market. We may be unable to sell a property for the price, on the terms, or within the time frame we want. That inability could adversely affect our cash flow and results of operations.

Uninsured losses relating to real property or excessively expensive premiums for insurance coverage may adversely affect your returns.

Wells Capital will attempt to obtain adequate insurance on all of our properties to cover casualty losses. However, there are types of losses, generally catastrophic in nature, such as losses due to wars, acts of terrorism, earthquakes, floods, hurricanes, pollution or environmental matters, which are uninsurable or not economically insurable, or may be insured subject to limitations, such as large deductibles or co-payments. Insurance risks associated with potential terrorism acts could sharply increase the premiums we pay for coverage against property and casualty claims. Additionally, mortgage lenders in some cases have begun to insist that commercial property owners purchase coverage against terrorism as a condition for providing mortgage loans. Such insurance policies may not be available at reasonable cost, if at all, which could inhibit our

ability to finance or refinance our properties. In such

Table of Contents

instances, we may be required to provide other financial support, either through financial assurances or self-insurance, to cover potential losses. We may not have adequate coverage for such losses. If any of our properties incurs a casualty loss that is not fully insured, the value of our assets will be reduced by any such uninsured loss. In addition, other than any working capital reserve or other reserves we may establish, we have no source of funding to repair or reconstruct any uninsured damaged property. Also, to the extent we must pay unexpectedly large amounts for insurance, we could suffer reduced earnings that would result in lower distributions to stockholders.

Our operating results may be negatively affected by potential development and construction delays and resultant increased costs and risks.

We may use proceeds from this offering to acquire and develop properties upon which we will construct improvements. We will be subject to uncertainties associated with re-zoning for development, environmental concerns of governmental entities and/or community groups, and our builder's ability to build in conformity with plans, specifications, budgeted costs, and timetables. If a builder fails to perform, we may resort to legal action to rescind the purchase or the construction contract or to compel performance. A builder's performance may also be affected or delayed by conditions beyond the builder's control. Delays in completing construction could also give tenants the right to terminate preconstruction leases. We may incur additional risks when we make periodic progress payments or other advances to builders before they complete construction. These and other factors can result in increased costs of a project or loss of our investment. In addition, we will be subject to normal lease-up risks relating to newly constructed projects. We also must rely on rental income and expense projections and estimates of the fair market value of property upon completion of construction when agreeing upon a purchase price at the time we acquire the property. If our projections are inaccurate, we may pay too much for a property, and our return on our investment could suffer.

We may invest in unimproved real property. Returns from developing unimproved properties are also subject to risks associated with re-zoning the land for development and environmental concerns of governmental entities and/or community groups. Although we intend to limit any investment in unimproved property to property we intend to develop, your investment may nevertheless be subject to the risks associated with investments in unimproved real property.

Competition with third parties in acquiring properties and other investments may reduce our profitability and the return on your investment.

We compete with many other entities engaged in real estate investment activities, including individuals, corporations, bank and insurance company investment accounts, other REITs, real estate limited partnerships, and other entities engaged in real estate investment activities, many of which have greater resources than we do. Larger REITs may enjoy significant competitive advantages that result from, among other things, a lower cost of capital and enhanced operating efficiencies. In addition, the number of entities and the amount of funds competing for suitable investments may increase. Any such increase would result in increased demand for these assets and therefore increased prices paid for them. If we pay higher prices for properties and other investments, our profitability will be reduced and you may experience a lower return on your investment.

Uncertain market conditions relating to the future disposition of properties could adversely affect the return on your investment.

We intend to hold the properties in which we invest until Wells Capital determines that selling or otherwise disposing of properties would help us to achieve our investment objectives or Wells Capital

Table of Contents

determines that our objectives will not be met. Otherwise, Wells Capital, subject to approval of our board of directors, may exercise its discretion as to whether and when to sell a property. Various real estate market conditions may affect the future disposition of our properties, and we may not be able to sell our properties at a profit. Accordingly, the extent to which you will receive cash distributions and realize potential appreciation on our real estate investments will depend upon fluctuating market conditions.

If we set aside insufficient working capital reserves, we may be required to defer necessary property improvements, which could cause our cash flows and the value of our properties to decline.

If we do not estimate enough reserves for working capital to supply needed funds for capital improvements throughout the life of the investment in a property, we may be required to defer necessary improvements to the property. Deferral of needed improvements may cause the property to become obsolete in the marketplace, or decline in value, or generate lower cash flow as a result of lower rental rates or fewer potential tenants being attracted to the property. If these events happen, our cash flows would be negatively impacted.

Actions of our joint venture partners could negatively impact our performance.

We are likely to enter into joint ventures with other Wells programs as well as third parties to acquire, develop or improve properties. We may also purchase and develop properties in joint ventures or in partnerships, co-tenancies or other co-ownership arrangements. Such investments may involve risks not otherwise present with other methods of investment in real estate, including, for example:

the possibility that our co-venturer, co-tenant or partner in an investment might become bankrupt;

that such co-venturer, co-tenant or partner may at any time have economic or business interests or goals which are or which become inconsistent with our business interests or goals; or

that such co-venturer, co-tenant or partner may be in a position to take action contrary to our instructions or requests or contrary to our policies or objectives.

Any of the above might subject a property to liabilities in excess of those contemplated and thus reduce your returns.

Costs of complying with governmental laws and regulations may adversely affect our income and the cash available for any distributions.

All real property and the operations conducted on real property are subject to federal, state and local laws and regulations relating to environmental protection and human health and safety. Some of these laws and regulations may impose joint and several liability on tenants, owners or operators for the costs to investigate or remediate contaminated properties, regardless of fault or whether the acts causing the contamination were legal. In addition, the presence of hazardous substances, or the failure to properly remediate these substances, may adversely affect our ability to sell, rent or pledge such property as collateral for future borrowings.

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form S-11/A

Some of these laws and regulations have been amended so as to require compliance with new or more stringent standards as of future dates. Compliance with new or more stringent laws or regulations or stricter interpretation of existing laws may require us to incur material expenditures. Future laws, ordinances or regulations may impose material environmental liability. Additionally, our tenants

Table of Contents

operations, the existing condition of land when we buy it, operations in the vicinity of our properties, such as the presence of underground storage tanks, or activities of unrelated third parties may affect our properties. In addition, there are various local, state and federal fire, health, life-safety and similar regulations with which we may be required to comply, and which may subject us to liability in the form of fines or damages for noncompliance. Any material expenditures, fines, or damages we must pay will reduce our ability to make distributions and may reduce the value of your investment.

Discovery of previously undetected environmentally hazardous conditions may adversely affect our cash flows.

Under various federal, state and local environmental laws, ordinances and regulations, a current or previous real property owner or operator may be liable for the cost to remove or remediate hazardous or toxic substances on, under or in such property. These costs could be substantial. Such laws often impose liability whether or not the owner or operator knew of, or was responsible for, the presence of such hazardous or toxic substances. Environmental laws also may impose restrictions on the manner in which property may be used or businesses may be operated, and these restrictions may require substantial expenditures or prevent us from entering into leases with prospective tenants that may be impacted by such laws. Environmental laws provide for sanctions for noncompliance and may be enforced by governmental agencies or, in certain circumstances, by private parties. Certain environmental laws and common law principles could be used to impose liability for release of and exposure to hazardous substances, including asbestos-containing materials into the air. Third parties may seek recovery from real property owners or operators for personal injury or property damage associated with exposure to released hazardous substances. The cost of defending against claims of liability, of complying with environmental regulatory requirements, of remediating any contaminated property, or of paying personal injury claims could reduce the amounts available for distribution to you.

If we sell properties and providing financing to purchasers, defaults by the purchasers would adversely affect our cash flows.

If we decide to sell any of our properties, we intend to use our best efforts to sell them for cash. However, in some instances we may sell our properties by providing financing to purchasers. When we provide financing to purchasers, we will bear the risk that the purchaser may default, which could negatively impact our cash dividends to stockholders. Even in the absence of a purchaser default, the distribution of the proceeds of sales to our stockholders, or their reinvestment in other assets, will be delayed until the promissory notes or other property we may accept upon a sale are actually paid, sold, refinanced or otherwise disposed of.

Risks Associated with Debt Financing

We may incur mortgage indebtedness and other borrowings, which may increase our business risks.

We may, in some instances, acquire real properties by borrowing funds. In addition, we may incur mortgage debt and pledge some or all of our real properties as security for that debt to obtain funds to acquire additional real properties. We may borrow if we need funds to satisfy the REIT tax qualification requirement that we distribute at least 90.0% of our annual REIT taxable income to our stockholders. We may also borrow if we or otherwise deem it necessary or advisable to assure that we maintain our qualification as a REIT for federal income tax purposes.

If there is a shortfall between the cash flow from a property and the cash flow needed to service mortgage debt on that property, then the amount available for distributions to stockholders may be reduced. In addition, incurring mortgage debt increases the risk of loss since defaults on indebtedness

Table of Contents

secured by a property may result in lenders initiating foreclosure actions. In that case, we could lose the property securing the loan that is in default, thus reducing the value of your investment. For tax purposes, a foreclosure of any of our properties would be treated as a sale of the property for a purchase price equal to the outstanding balance of the debt secured by the mortgage. If the outstanding balance of the debt secured by the mortgage exceeds our tax basis in the property, we would recognize taxable income on foreclosure, but we would not receive any cash proceeds. We may give full or partial guarantees to lenders of mortgage debt to the entities that own our properties. When we give a guaranty on behalf of an entity that owns one of our properties, we will be responsible to the lender for satisfaction of the debt if it is not paid by such entity. If any mortgages contain cross-collateralization or cross-default provisions, a default on a single property could affect multiple properties. If any of our properties are foreclosed upon due to a default, our ability to pay cash distributions to our stockholders will be adversely affected.

High mortgage rates may make it difficult for us to finance or refinance properties, which could reduce the number of properties we can acquire and the amount of cash distributions we can make.

If mortgage debt is unavailable at reasonable rates, we may not be able to finance the purchase of properties. If we place mortgage debt on properties, we run the risk of being unable to refinance the properties when the loans come due, or of being unable to refinance on favorable terms. If interest rates are higher when we desire to refinance the properties, our income could be reduced. We may be unable to refinance properties. If any of these events occurs, our cashflow would be reduced. This, in turn, would reduce cash available for distribution to you and may hinder our ability to raise more capital by issuing more stock or by borrowing more money.

Lenders may require us to enter into restrictive covenants relating to our operations, which could limit our ability to make distributions to our stockholders.

When providing financing, a lender may impose restrictions on us that affect our ability to incur additional debt and our distribution and operating policies. Loan documents we enter into may contain covenants that limit our ability to further mortgage the property, discontinue insurance coverage, or replace Wells Capital as our advisor. These or other limitations may adversely effect our flexibility and our ability to achieve our operating plans.

Increases in interest rates could increase the amount of our debt payments and adversely affect our ability to pay dividends to our stockholders.

We expect that we will incur indebtedness in the future. Interest we pay could reduce cash available for distributions. Additionally, if we incur variable rate debt, increases in interest rates would increase our interest costs, which would reduce our cash flows and our ability to pay dividends to you. In addition, if we need to repay existing debt during periods of rising interest rates, we could be required to liquidate one or more of our investments in properties at times which may not permit realization of the maximum return on such investments.

We have broad authority to incur debt, and high debt levels could hinder our ability to make distributions and could decrease the value of your investment.

Our policies do not limit us from incurring additional debt until debt would exceed 50% of the cost of our assets. High debt levels would cause us to incur higher interest charges, would result in higher debt service payments, and could be accompanied by restrictive covenants. These factors could limit the amount of cash we have available to distribute and could result in a decline in the value of your investment.

Table of Contents

Section 1031 Exchange Program Risks

We may have increased exposure to liabilities from litigation as a result of our participation in the Section 1031 Exchange Program.

Wells Development Corporation, an affiliate of Wells Capital, our advisor, is forming a series of limited liability companies (each of which is referred to in this prospectus as Wells Exchange) to facilitate the acquisition of real estate properties to be owned in co-tenancy arrangements with persons (1031 Participants) who are looking to invest proceeds from a sale of real estate to qualify for like-kind exchange treatment under Section 1031 of the Internal Revenue Code (Section 1031 Exchange Program). There will be significant tax and securities disclosure risks associated with the private placement offerings of co-tenancy interests by Wells Exchange to 1031 Participants. For example, in the event that the Internal Revenue Service conducts an audit of the purchasers of co-tenancy interests and successfully challenges the qualification of the transaction as a like-kind exchange, purchasers of co-tenancy interests may file a lawsuit against Wells Exchange and its sponsors. We may be named in or otherwise required to defend against lawsuits brought by 1031 Participants. Any amounts we are required to expend for any such litigation claims may reduce the amount of funds available for distribution to you. In addition, disclosure of any such litigation may adversely affect our future ability to raise additional capital through the sale of stock or borrowings.

We will be subject to risks associated with co-tenancy arrangements that are not otherwise present in a real estate investment.

At the closing of each property Wells Exchange acquires pursuant to the Section 1031 Exchange Program, we anticipate that Wells OP II will enter into a contractual arrangement with Wells Exchange. The contract will provide for Wells OP II to purchase, at Wells Exchange's cost, any co-tenancy interests in that particular property remaining unsold at the completion of its private placement offering. Accordingly, in the event that Wells Exchange is unable to sell all co-tenancy interests in one or more of its properties, Wells OP II will be required to purchase the unsold co-tenancy interests in such property or properties and thus will be subject to the risks of ownership of properties in a co-tenancy arrangement with unrelated third parties.

Ownership of co-tenancy interests involves risks not otherwise present with an investment in real estate such as the following:

the risk that a co-tenant may at any time have economic or business interests or goals that are inconsistent with our business interests or goals;

the risk that a co-tenant may be in a position to take action contrary to our instructions or requests or contrary to our policies or objectives; or

the possibility that a co-tenant might become insolvent or bankrupt, which may be an event of default under mortgage loan financing documents or allow the bankruptcy court to reject the tenants in common agreement or management agreement entered into by the co-tenants owning interests in the property.

Any of the above might subject a property to liabilities in excess of those contemplated and thus reduce your returns.

Table of Contents

In the event that our interests become adverse to those of the other co-tenants, we will not have the contractual right to purchase the co-tenancy interests from the other co-tenants. Even if we are given the opportunity to purchase such co-tenancy interests in the future, we cannot guarantee that we will have sufficient funds available at the time to purchase co-tenancy interests from the 1031 Participants.

We might want to sell our co-tenancy interests in a given property at a time when the other co-tenants in such property do not desire to sell their interests. Therefore, we may not be able to sell our interest in a property at the time we would like to sell. In addition, we anticipate that it will be much more difficult to find a willing buyer for our co-tenancy interests in a property than it would be to find a buyer for a property we owned outright.

Our participation in the Section 1031 Exchange Program may limit our ability to borrow funds in the future.

Institutional lenders may view our obligations under agreements to acquire unsold co-tenancy interests in properties as a contingent liability against our cash or other assets, which may limit our ability to borrow funds in the future. Further, our lenders may view such obligations in such a manner as to limit our ability to borrow funds based on regulatory restrictions on lenders which limit the amount of loans they can make to any one borrower.

Federal Income Tax Risks

Failure to qualify as a REIT would adversely affect our operations and our ability to make distributions.

Alston & Bird LLP, our legal counsel, has rendered its opinion that we will qualify as a REIT, based upon our representations as to the manner in which we are and will be owned, invest in assets and operate, among other things. However, our qualification as a REIT will depend upon our ability to meet, through investments, actual operating results, distributions and satisfaction of specific stockholder rules, the various tests imposed by the Internal Revenue Code. Alston & Bird LLP will not review these operating results or compliance with the qualification standards on an ongoing basis. This means that we may fail to satisfy the REIT requirements in the future. Also, this opinion represents Alston & Bird LLP's legal judgment based on the law in effect as of the date of this prospectus. Alston & Bird's opinion is not binding on the Internal Revenue Service or the courts and could be subject to modification or withdrawal based on future legislative, judicial or administrative changes to the federal income tax laws. Such changes to federal income tax laws could be applied retroactively, which could result in our disqualification as a REIT.

If we fail to qualify as a REIT for any taxable year, we will be subject to federal income tax on our taxable income at corporate rates. In addition, we would generally be disqualified from treatment as a REIT for the four taxable years following the year of losing our REIT status. Losing our REIT status would reduce our net earnings available for investment or distribution to stockholders because of the additional tax liability. In addition, distributions to stockholders would no longer qualify for the dividends-paid deduction, and we would no longer be required to make distributions. If this occurs, we might be required to borrow funds or liquidate some investments in order to pay the applicable tax.

Certain fees paid to Wells OP II may cause us to lose our REIT status.

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form S-11/A

In connection with any Section 1031 Exchange Transactions, Wells OP II would enter into a number of contractual arrangements with Wells Exchange that will, in effect, guarantee the sale of the co-tenancy interests being offered by Wells Exchange. In consideration for entering into these agreements,

Table of Contents

Wells OP II will be paid fees which could be characterized by the Internal Revenue Service as non-qualifying income for purposes of satisfying the REIT qualification income tests. If this fee income were, in fact, treated as non-qualifying, and if the aggregate of such fee income and any other non-qualifying income in any taxable year exceeded 5.0% of our gross revenues for such year, we could lose our REIT status for that taxable year and the four ensuing taxable years. Our failure to qualify as a REIT would adversely affect your return on your investment.

Recharacterization of the Section 1031 Exchange Transactions may result in a 100% tax on income from a prohibited transaction, which would diminish our cash distributions to our stockholders.

The Internal Revenue Service could recharacterize the Section 1031 Exchange Transactions such that Wells OP II, rather than Wells Exchange, is treated as the bona fide owner, for tax purposes, of properties acquired and resold by Wells Exchange. Such recharacterization could result in the income realized on these transactions by Wells OP II being treated as gain on the sale of property that is held as inventory or otherwise held primarily for the sale to customers in the ordinary course of its trade or business. In such event, the gain shall constitute income from a prohibited transaction and would be subject to a 100% penalty tax. If this occurs, our ability to pay cash distributions to our stockholders will be adversely affected.

Recharacterization of sale-leaseback transactions may cause us to lose our REIT status.

We may purchase properties and lease them back to the sellers of such properties. While we will use our best efforts to structure any such sale-leaseback transaction such that the lease will be characterized as a true lease, thereby allowing us to be treated as the owner of the property for federal income tax purposes, we cannot assure you that the IRS will not challenge such characterization. In the event that any such sale-leaseback transaction is challenged and recharacterized as a financing transaction or loan for federal income tax purposes, deductions for depreciation and cost recovery relating to such property would be disallowed. If a sale-leaseback transaction were so recharacterized, we might fail to satisfy the REIT qualification asset tests or the income tests and, consequently, lose our REIT status effective with the year of recharacterization. Alternatively, the amount of our REIT taxable income could be recalculated which might also cause us to fail to meet the distribution requirement for a taxable year. See Federal Income Tax Considerations Sale-Leaseback Transactions.

You may have current tax liability on distributions you elect to reinvest in our common stock.

If you participate in our dividend reinvestment plan, you will be deemed to have received, and for income tax purposes will be taxed on, the amount reinvested in common stock to the extent the amount reinvested was not a tax-free return of capital. As a result, unless you are a tax-exempt entity, you may have to use funds from other sources to pay your tax liability on the value of the common stock received.

In certain circumstances, we may be subject to federal and state income taxes as a REIT, which would reduce our cash available for distribution to you.

Even if we qualify and maintain our status as a REIT, we may be subject to federal income taxes or state taxes. For example, net income from a prohibited transaction will be subject to a 100.0% tax. We may not be able to make sufficient distributions to avoid excise taxes applicable to REITs. We may also decide to retain income we earn from the sale or other disposition of our property and pay income tax directly on such income. In that event, our stockholders would be treated as if they earned that income and paid the tax on it directly. However, stockholders that are tax-exempt, such as charities or qualified pension plans, would have no benefit from their deemed payment of such tax liability. We may also

be subject to state and local taxes on our income or property, either directly or at the level of Wells OP II or

Table of Contents

at the level of the other companies through which we indirectly own our assets. Any federal or state taxes paid by us will reduce our cash available for distribution to you.

Legislative or regulatory action tax changes could adversely affect you.

At any time, the federal income tax laws governing REITs or the administrative interpretations of those laws may be amended. Any of those new laws or interpretations may take effect retroactively and could adversely affect the taxation of us or you as a stockholder. Therefore, changes in laws could diminish the value of an investment in our common stock or the value or the resale potential of our properties. On May 23, 2003, Congress passed the Jobs and Growth Tax Relief Reconciliation Act of 2003, which decreases the tax rate on most dividends paid by corporations to individual investors to a maximum of 15% from current rates, and such rates are retroactive to the beginning of January 2003. REIT dividends, with limited exceptions, will not benefit from the rate reduction, because a REIT's income generally is not subject to corporate level tax. As such, this legislation could cause shares in non-REIT corporations to be a more attractive investment to individual investors than shares in REITs, and could have an adverse effect on the value of our common stock. You are urged to consult with your own tax advisor with respect to the impact of the Jobs and Growth Tax Relief Reconciliation Act of 2003 and any other relevant legislation on your investment in our common stock and the status of legislative, regulatory or administrative developments and proposals and their potential effect on an investment in our common stock.

Retirement Plan Risks

If you fail to meet the fiduciary and other standards under ERISA or the Internal Revenue Code as a result of an investment in our stock, you could be subject to criminal and civil penalties.

There are special considerations that apply to pension or profit sharing trusts or IRAs investing in shares. If you are investing the assets of a pension, profit sharing, 401(k), Keogh or other qualified retirement plan or the assets of an IRA in our common stock, you should satisfy yourself that:

your investment is consistent with your fiduciary obligations under ERISA and the Internal Revenue Code;

your investment is made in accordance with the documents and instruments governing your plan or IRA, including your plan's investment policy;

your investment satisfies the prudence and diversification requirements of Sections 404(a)(1)(B) and 404(a)(1)(C) of ERISA and other applicable provisions of ERISA and the Internal Revenue Code;

your investment will not impair the liquidity of the plan or IRA;

your investment will not produce unrelated business taxable income for the plan or IRA;

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form S-11/A

you will be able to value the assets of the plan annually in accordance with ERISA requirements and applicable provisions of the plan or IRA; and

your investment will not constitute a prohibited transaction under Section 406 of ERISA or Section 4975 of the Internal Revenue Code.

Table of Contents

Failure to satisfy the fiduciary standards of conduct and other applicable requirements of ERISA and the Internal Code may result in imposition of civil and criminal penalties, and can subject the fiduciary to equitable remedies. In addition, if an investment in our shares constitutes a prohibited transaction under ERISA or the Internal Revenue Code, the fiduciary who authorized or directed the investment may be subject to imposition of excise taxes with respect to the amount invested.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

Some of the information in this prospectus may contain forward-looking statements. Such statements include, in particular, statements about our plans, strategies and prospects. You can generally identify forward-looking statements by our use of forward-looking terminology such as may, will, expect, intend, anticipate, estimate, believe, continue or other similar words. You should not rely on our forward-looking statements because the matters they describe are subject to known and unknown risks, uncertainties and other unpredictable factors, many of which are beyond our control.

These forward-looking statements are subject to various risks and uncertainties, including those discussed above under Risk Factors, that could cause our actual results to differ materially from those projected in any forward-looking statement we make. We do not undertake to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

ESTIMATED USE OF PROCEEDS

The following tables set forth information about how we intend to use the proceeds raised in this offering assuming that we sell the minimum of 250,000 shares, a mid-point of 300,000,000 shares and the maximum of 600,000,000 shares, respectively, of common stock for \$10 per share. Many of the figures set forth below represent management's best estimate since they cannot be precisely calculated at this time. We expect that 85% to 86% of the money you invest will be used generally to buy real estate, while the remainder will be used to pay offering expenses, including selling commissions and the dealer manager fee, and to pay a fee to our advisor for its services in connection with the selection, acquisition, development and construction of our real estate investments.

	250,000 Shares		300,000,000 Shares		600,000,000 Shares	
	Amount	Percent	Amount	Percent	Amount	Percent
Gross Offering Proceeds	\$ 2,500,000	100.0%	\$ 3,000,000,000	100.0%	\$ 6,000,000,000	100.0%
Less Public Offering Expenses:						
Selling Commissions and Dealer Manager Fee (1)	\$ 237,500	9.5%	\$ 285,000,000	9.5%	\$ 570,000,000	9.5%
Organization and Offering Expenses (2)	\$ 50,000	2.0%	\$ 24,600,000	0.8%	\$ 33,800,000	0.6%
Amount Available for Investment (3)	\$ 2,212,500	88.5%	\$ 2,690,400,000	89.7%	\$ 5,396,500,000	89.9%
Acquisition and Development:						
Acquisition Fees (4)	\$ 87,500	3.5%	\$ 105,000,000	3.5%	\$ 210,000,000	3.5%
Initial Working Capital Reserve (5)						
Amount Used to Purchase Properties (3)(6)	\$ 2,125,000	85.0%	\$ 2,585,400,000	86.2%	\$ 5,186,500,000	86.4%

Table of Contents

(Footnotes to Estimated Use of Proceeds)

1. Includes selling commissions equal to 7.0% of aggregate gross offering proceeds and a dealer manager fee equal to 2.5% of aggregate gross offering proceeds, both of which are payable to the dealer manager, an affiliate of our advisor. The dealer manager will reallow to a broker-dealer participating in this offering the selling commissions earned on the proceeds raised by the participating broker-dealer. In addition, the dealer manager may reallow to a participating broker-dealer a portion of the dealer manager fee earned on the proceeds raised by the participating broker-dealer. The selling commissions and, in some cases, the dealer manager fee will not be charged with regard to shares sold to or for the account of certain categories of purchasers. The reduced selling commissions and dealer manager fees will lower the price paid for the shares, but will not affect the amount of proceeds available to us for investment in properties. See Plan of Distribution.
2. Includes all expenses (other than selling commissions and the dealer manager fee) to be paid by us in connection with the offering, including our legal, accounting, printing, mailing and filing fees, charges of our escrow holder, reimbursing the due diligence expenses of participating broker-dealers, and amounts to reimburse Wells Capital for the salaries of its employees and other costs in connection with preparing supplemental sales materials, holding educational conferences and attending retail seminars conducted by broker-dealers. Wells Capital has agreed to reimburse us to the extent organizational and offering expenses incurred by us, other than selling commissions, the dealer manager fee and the due diligence costs of participating broker-dealers, exceed 2% of aggregate gross offering proceeds.
3. Until required in connection with the acquisition and development of properties, substantially all of the net proceeds of the offering and, thereafter, our working capital reserves, may be invested in short-term, highly-liquid investments including government obligations, bank certificates of deposit, short-term debt obligations and interest-bearing accounts or other authorized investments as determined by our board of directors.
4. We will pay Wells Capital, as our advisor, acquisition fees of 3.5% of gross offering proceeds for its services in connection with the selection, purchase, development and construction of real estate. We will pay Wells Capital the acquisition fee amount upon receipt of the offering proceeds rather than at the time a property is acquired. In addition to this acquisition fee, we may also incur customary third-party acquisition expenses in connection with the acquisition of a property. See note 6 below.
5. Because we expect that the vast majority of leases for the properties acquired by us will provide for tenant reimbursement of operating expenses, we do not anticipate that a permanent reserve for maintenance and repairs of real estate properties will be established. However, to the extent that we have insufficient funds for such purposes, we may establish reserves from gross offering proceeds, out of cash flow generated by operating properties or out of nonliquidating net sale proceeds, defined generally to mean the net cash proceeds received by us from any sale or exchange of properties.
6. Amount used to purchase properties may include customary third-party acquisition expenses such as legal fees and expenses, costs of appraisals, accounting fees and expenses, title insurance premiums and other closing costs and miscellaneous expenses relating to the acquisition of real estate.

Table of Contents

MANAGEMENT

Board of Directors

We operate under the direction of our board of directors. The board is responsible for the management and control of our affairs. The board has retained Wells Capital to manage our day-to-day affairs and the acquisition and disposition of our investments, subject to the board's supervision. Because of the numerous conflicts of interest created by the relationships among us, Wells Capital and various affiliates, many of the responsibilities of the board have been delegated to a committee comprised of all of our independent directors. See Conflicts of Interest.

We have a seven-member board of directors. Our board may change the size of the board, but not to fewer than three board seats. Our charter provides that a majority of the directors must be independent directors. We have appointed five independent directors to our seven-member board. An independent director is a person who is not one of our officers or employees or an officer or employee of Wells Capital or its affiliates and has not been so for the previous two years. Serving as a director of, or having an ownership interest in, another Wells-sponsored program will not, by itself, preclude independent-director status.

Each director will serve until the next annual meeting of stockholders or until his successor has been duly elected and qualified. Although the number of directors may be increased or decreased, a decrease shall not have the effect of shortening the term of any incumbent director. Any director may resign at any time and may be removed with or without cause by the stockholders upon the affirmative vote of at least a majority of all the votes entitled to be cast at a meeting called for the purpose of the proposed removal. The notice of the meeting shall indicate that the purpose, or one of the purposes, of the meeting is to determine if the director shall be removed.

Unless filled by a vote of the stockholders as permitted by the Maryland General Corporation Law, a vacancy created by an increase in the number of directors or the death, resignation, removal, adjudicated incompetence or other incapacity of a director shall be filled by a vote of a majority of the remaining directors. As provided in our charter, nominations of individuals to fill the vacancy of a board seat previously filled by an independent director will be made by the remaining independent directors.

Our directors and officers are not required to devote all of their time to our business and are only required to devote the time to our affairs as their duties may require. In addition to meetings of the various committees of the board, which committees we describe below, we expect to hold seven regular board meetings each year. We do not expect that our directors will be required to devote a substantial portion of their time in discharging their duties. Our board is empowered to fix the compensation of all officers that it selects and may pay compensation to directors for services rendered to us in any other capacity.

Our general investment and borrowing policies are set forth in this prospectus. Our directors may establish further written policies on investments and borrowings and shall monitor our administrative procedures, investment operations and performance to ensure that the policies are fulfilled and are in the best interest of the stockholders. We will follow the policies on investments and borrowings set forth in this prospectus unless they are modified by our directors.

Table of Contents

Committees of the Board of Directors

Many of the powers of the board of directors may be delegated to one or more committees. Our charter requires that each committee consist of at least a majority of independent directors.

Audit Committee

The audit committee of the board of directors will consist of at least three independent directors. The audit committee selects the independent public accountants to audit our annual financial statements, reviews with the independent public accountants the plans and results of the audit engagement, approves the audit and non-audit services provided by the independent public accountants, reviews the independence of the independent public accountants, considers the range of audit and non-audit fees and reviews the adequacy of our internal accounting controls.

Conflicts Committee

In order to reduce or eliminate certain potential conflicts of interest, our charter creates a conflicts committee of our board of directors comprised of all of our independent directors. (Serving on the board of, or owning an interest in, another Wells-sponsored program will not, by itself, preclude a director from serving on the conflicts committee.) The conflicts committee, which is authorized to retain its own legal and financial advisors, is empowered to act on any matter permitted under Maryland law provided that it first determines that the matter at issue is such that the exercise of independent judgment by Wells Capital affiliates could reasonably be compromised. Those conflict-of-interest matters that cannot be delegated to a committee under Maryland law must be acted upon by both the board of directors and the conflicts committee. (See *Conflicts of Interest* *Certain Conflict Resolution Procedures*.)

To address conflicts involving us and another Wells-sponsored program, the conflicts committee has created a subcommittee of the conflicts committee comprised of all directors on the conflicts committee that are unaffiliated with another Wells-sponsored program, e.g., Wells REIT I. The conflicts subcommittee is empowered to act on any matter permitted by Maryland law if (1) the conflicts committee delegates the matter to the conflicts subcommittee or (2) the conflicts subcommittee disagrees with the conflict committee's handling of a matter and its minutes reflect that it determined that the matter at issue was such that the exercise of independent judgment by both the affiliates of Wells Capital and the affiliates of another Wells-sponsored program could reasonably have been compromised. (See *Conflicts of Interest* *Certain Conflict Resolution Procedures*.) Currently, all of our directors are also directors for Wells REIT I; therefore, we have no directors that qualify to serve on the conflicts subcommittee. Until we add directors unaffiliated with Wells REIT I, our conflicts committee will not protect us when the board is considering matters that may affect Wells REIT I. (See *Conflicts of Interest* *Our Board's Loyalties to Wells REIT I*.)

Our conflicts committee will also discharge the board's responsibilities relating to compensation of our executives. The conflicts committee will administer the granting of stock options to selected employees of Wells Capital and Wells Management based upon recommendations from Wells Capital and Wells Management, and set the terms and conditions of such options in accordance with the Stock Option Plan. The conflicts committee will also have authority to amend the Stock Option Plan or create other incentive compensation and equity-based plans.

Table of Contents

Advisory Committees

The board of directors may establish various advisory committees on which certain members of the board would sit to assist Wells Capital and its affiliates in the following areas which have a direct impact on our operations:

Asset management;

Finance and planning; and

Shareholder relations, communications and development.

Executive Officers and Directors

We have provided below certain information about our executive officers and directors.

<u>Name</u>	<u>Positions</u>	<u>Age</u>
Leo F. Wells, III	President and Director	59
Douglas P. Williams	Executive Vice President, Secretary, Treasurer and Director	52
Richard W. Carpenter	Director	66
Bud Carter	Director	65
Donald S. Moss	Director	67
Walter W. Sessoms	Director	69
Neil H. Strickland	Director	67
Randall D. Fretz	Senior Vice President	50

Leo F. Wells, III is our President and a director. He is also the President and a director of Wells REIT I and is the President, Treasurer and sole director of Wells Capital, our advisor. He is also the sole stockholder and sole director of Wells Real Estate Funds, Inc., the parent corporation of Wells Capital. Mr. Wells is President of Wells & Associates, Inc., a real estate brokerage and investment company formed in 1976 and incorporated in 1978, for which he serves as principal broker. He is also the President, Treasurer and sole director of:

Wells Management Company, Inc., a company we may engage to manage some or all of our properties;

Wells Advisors, Inc., a company he organized in 1991 to act as a non-bank custodian for IRAs; and

Wells Development Corporation, a company he organized in 1997 to develop real properties.

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form S-11/A

Mr. Wells was a real estate salesman and property manager from 1970 to 1973 for Roy D. Warren & Company, an Atlanta-based real estate company, and he was associated from 1973 to 1976 with Sax Gaskin Real Estate Company, during which time he became a Life Member of the Atlanta Board of Realtors Million Dollar Club. From 1980 to February 1985 he served as Vice President of Hill-Johnson, Inc., a Georgia corporation engaged in the construction business. Mr. Wells holds a Bachelor of Business Administration degree in economics from the University of Georgia. Mr. Wells is a member of the International Association for Financial Planning and a registered NASD principal.

Table of Contents

Mr. Wells has over 30 years of experience in real estate sales, management and brokerage services. In addition to being the President and a director of Wells REIT I, he is currently a co-general partner in a total of 27 real estate limited partnerships formed for the purpose of acquiring, developing and operating office buildings and other commercial properties. As of December 31, 2002, these 27 real estate limited partnerships represented investments totaling approximately \$347,000,000 from approximately 28,300 investors.

On August 26, 2003, Mr. Wells and Wells Investment Securities entered into a Letter of Acceptance, Waiver and Consent (AWC) with the NASD relating to alleged rule violations. The AWC set forth the NASD's findings that Wells Investment Securities and Mr. Wells had violated conduct rules relating to the provision of non-cash compensation of more than \$100 to associated persons of NASD member firms in connection with their attendance at the annual educational and due diligence conferences sponsored by Wells Investment Securities in 2001 and 2002. See [Affiliated Companies Dealer Manager](#) below.

Douglas P. Williams is our Executive Vice President, Secretary and Treasurer and is a director. Since 1999, he has also served as Executive Vice President, Secretary and Treasurer and a director of Wells REIT I, a Senior Vice President of Wells Capital, our advisor, and is also a Vice President of:

Wells Investment Securities, Inc., our dealer manager;

Wells Real Estate Funds, Inc.; and

Wells Advisors, Inc.

From 1996 to 1999, Mr. Williams served as Vice President, Controller of OneSource, Inc., a leading supplier of janitorial and landscape services, where he was responsible for corporate-wide accounting activities and financial analysis. Mr. Williams was employed by ECC International Inc., a supplier to the paper industry and to the paint, rubber and plastic industries, from 1982 to 1995. While at ECC, Mr. Williams served in a number of key accounting positions, including: Corporate Accounting Manager, U.S. Operations; Division Controller, Americas Region; and Corporate Controller, America/Pacific Division. Prior to joining ECC and for one year after leaving ECC, Mr. Williams was employed by Lithonia Lighting, a manufacturer of lighting fixtures, as a Cost and General Accounting Manager and Director of Planning and Control. Mr. Williams started his professional career as an auditor for KPMG Peat Marwick LLP.

Mr. Williams is a member of the American Institute of Certified Public Accountants and the Georgia Society of Certified Public Accountants and is licensed with the NASD as a financial and operations principal. Mr. Williams received a Bachelor of Arts degree from Dartmouth College and a Masters of Business Administration degree from the Amos Tuck School of Graduate Business Administration at Dartmouth College.

Richard W. Carpenter is a director. He served as General Vice President of Real Estate Finance of The Citizens and Southern National Bank from 1975 to 1979, during which time his duties included the establishment and supervision of the United Kingdom Pension Fund, U.K.-American Properties, Inc. that was established primarily for investment in commercial real estate within the United States.

Mr. Carpenter is a managing partner of Carpenter Properties, L.P., a real estate limited partnership and a Director and Chairman of the Audit Committee of MidCountry Financial Corporation. He retired as President and director of Commonwealth Oil Refining Company, Inc. and Realmark Holdings in 2001.

Table of Contents

Mr. Carpenter previously served as Vice Chairman of the board of directors of both First Liberty Financial Corp. and Liberty Savings Bank, F.S.B. and Chairman of the Audit Committee of First Liberty Financial Corp. He has been a member of the National Association of Real Estate Investment Trusts and formerly served as President and Chairman of the Board of Southmark Properties, an Atlanta-based REIT which invested in commercial properties. Mr. Carpenter is a past Chairman of the American Bankers Association Housing and Real Estate Finance Division Executive Committee. Mr. Carpenter holds a Bachelor of Science degree from Florida State University, where he was named the outstanding alumnus of the School of Business in 1973.

Bud Carter is a director. He was an award-winning broadcast news director and anchorman for several radio and television stations in the Midwest for over 20 years. From 1975 to 1980, Mr. Carter served as General Manager of WTAZ-FM, a radio station in Peoria, Illinois and served as editor and publisher of The Peoria Press, a weekly business and political journal in Peoria, Illinois. From 1981 until 1989, Mr. Carter was also an owner and General Manager of Transitions, Inc., a corporate outplacement company in Atlanta, Georgia.

Mr. Carter currently serves as Senior Vice President for The Executive Committee, an international organization established to aid presidents and CEOs to share ideas on ways to improve the management and profitability of their respective companies. The Executive Committee operates in numerous large cities throughout the United States, Canada, Australia, France, Italy, Malaysia, Brazil, the United Kingdom and Japan. The Executive Committee has more than 7,000 presidents and CEOs who are members. In addition, Mr. Carter was the first Chairman of the organization recruited in Atlanta and still serves as Chairman of the first two groups formed in Atlanta, each comprised of 16 noncompeting CEOs and presidents. Mr. Carter serves on the board of directors of Creative Storage Systems, Inc., DiversiTech Corporation and Wavebase9. He is a graduate of the University of Missouri where he earned degrees in journalism and social psychology.

Donald S. Moss is a director. He was employed by Avon Products, Inc. from 1957 until his retirement in 1986. While at Avon, Mr. Moss served in a number of key positions, including Vice President and Controller from 1973 to 1976, Group Vice President of Operations-Worldwide from 1976 to 1979, Group Vice President of Sales-Worldwide from 1979 to 1980, Senior Vice President-International from 1980 to 1983 and Group Vice President-Human Resources and Administration from 1983 until his retirement in 1986. Mr. Moss was also a member of the board of directors of Avon Canada, Avon Japan, Avon Thailand, and Avon Malaysia from 1980 to 1983.

Mr. Moss is currently a director of The Atlanta Athletic Club. He formerly was the National Treasurer and a director of the Girls Clubs of America from 1973 to 1976. Mr. Moss graduated from the University of Illinois where he received a degree in business.

Walter W. Sessoms is a director. He was employed by Southern Bell and its successor company, BellSouth, from 1956 until his retirement in June 1997. While at BellSouth, Mr. Sessoms served in a number of key positions, including Vice President-Residence for the State of Georgia from June 1979 to July 1981, Vice President-Transitional Planning Officer from July 1981 to February 1982, Vice President-Georgia from February 1982 to June 1989, Senior Vice President-Regulatory and External Affairs from June 1989 to November 1991, and Group President-Services from December 1991 until his retirement on June 30, 1997. He also worked at AT&T Corporation in New York from 1969 to 1971 when Southern Bell was a part of the Bell System. From September 1973 to September 1974, Mr. Sessoms participated in the President's Executive Interexchange Program in Washington, D.C.

Mr. Sessoms currently serves as a director of the Georgia Chamber of Commerce for which he is a past Chairman of the Board and the Salvation Army's Board of Visitors of the Southeast Region. Mr. Sessoms

Table of Contents

is also a past advisory council member for the University of Georgia College of Business Administration and past member of the executive committee of the Atlanta Chamber of Commerce. Mr. Sessoms is a graduate of Wofford College where he earned a degree in economics and business administration, and is currently a member of the Wofford College Board of Trustees. He is a past member of the Governor's Education Reform Commission. In addition, Mr. Sessoms is a member of the Board of Trustees of the Southern Center for International Studies and is past President of the Atlanta Rotary Club. He is also a Trustee for the Atlanta University Center.

Neil H. Strickland is a director. He was employed by Loyalty Group Insurance (which subsequently merged with America Fore Loyalty Group and is now known as The Continental Group) as an automobile insurance underwriter. From 1957 to 1961, Mr. Strickland served as Assistant Supervisor of the Casualty Large Lines Retrospective Rating Department. From 1961 to 1964, Mr. Strickland served as Branch Manager of Wolverine Insurance Company, a full service property and casualty service company, where he had full responsibility for underwriting of insurance and office administration in the State of Georgia. In 1964, Mr. Strickland and a non-active partner started Superior Insurance Service, Inc., a property and casualty wholesale general insurance agency. Mr. Strickland served as President and was responsible for the underwriting and all other operations of the agency. In 1967, Mr. Strickland sold his interest in Superior Insurance Service, Inc. and started Strickland General Agency, Inc., a property and casualty general insurance agency concentrating on commercial customers. Mr. Strickland is currently the Senior Operation Executive of Strickland General Agency, Inc. and devotes most of his time to long-term planning, policy development and senior administration.

Mr. Strickland is a past President of the Norcross Kiwanis Club and served as both Vice President and President of the Georgia Surplus Lines Association. He also served as President and a director of the National Association of Professional Surplus Lines Offices. Mr. Strickland currently serves as a director of First Capital Bank, a community bank located in the State of Georgia. Mr. Strickland attended Georgia State University where he majored in business administration. He received his L.L.B. degree from Atlanta Law School.

Randall D. Fretz is our Vice President and is a Senior Vice President of Wells Capital. He is also the Chief of Staff and a Vice President of Wells Real Estate Funds, Inc. and a Vice President of Wells REIT I. Mr. Fretz is primarily responsible for corporate strategy and planning and advising and coordinating the executive officers of Wells Capital on corporate matters and special projects. Prior to joining Wells Capital in 2002, Mr. Fretz served for seven years as President of US & Canada operations for Larson-Juhl, a world leader in custom art and picture-framing home decor. Mr. Fretz was previously a Division Director at Bausch & Lomb, a manufacturer of optical equipment and products, and also held various senior positions at Tandem International and Lever Brothers. Mr. Fretz holds a bachelor degree in each of Sociology and Physical Education from McMaster University in Hamilton, Ontario. He also earned an MBA from the Ivey School of Business in London, Ontario.

Compensation of Directors

We intend to pay each of our independent directors an annual retainer of \$12,000. In addition, we will pay directors for attending board and committee meetings as follows:

\$2,500 per regular board meeting; we expect seven regular board meetings per year.

\$

\$2,500 per audit committee meeting to review our periodic reports; we expect four such meetings per year.

Table of Contents

\$250 per teleconference board meeting; we expect two such meetings per month.

\$1,500 for all other committee meetings; we expect five such meetings per committee per year.

An additional \$500 to a committee chair for each committee meeting attended in person.

However, when a committee meeting follows a board meeting, an additional fee will not always be paid for attending the committee meeting. For example, a conflicts committee meeting will generally be held immediately after every board meeting, but a separate fee will not be paid for attendance at the conflicts committee meeting.

In addition, we have reserved 100,000 shares of common stock for future issuance upon the exercise of stock options granted to the independent directors pursuant to our Independent Director Stock Option Plan. All directors will receive reimbursement of reasonable out-of-pocket expenses incurred in connection with attendance at meetings of the board of directors. If a director also is one of our officers, we will not pay separate compensation for services rendered as a director.

Independent Director Stock Option Plan

Our sole stockholder has approved an Independent Director Stock Option Plan. We expect to issue non-qualified stock options to purchase 2,500 shares to each independent director pursuant to this plan. In addition, we expect to issue options to purchase 1,000 shares to each independent director then in office on the date of each annual stockholders' meeting. We may not grant options at any time when the issuance of the shares underlying the grant, when combined with those issuable upon exercise of outstanding options or warrants granted to our advisor, directors, officers or any of their affiliates, would exceed 10% of our outstanding shares.

The exercise price for the initial options for 2,500 shares will be \$12.00 per share. The exercise price for the subsequent options will be the greater of (1) \$12.00 per share or (2) the fair market value of the shares on the date they are granted. Fair market value is generally defined to mean (1) the closing sales price on the immediately preceding date on which sales were reported if the shares are listed on a securities exchange or are traded over the Nasdaq National Market or (2) the mean between the bid and offered prices as quoted by Nasdaq for such immediately preceding trading date if the shares are not listed on a securities exchange or traded over the Nasdaq National Market. However, if the conflicts committee determines that the fair market value of our shares is not properly reflected by such Nasdaq quotations, or if our shares are not quoted by Nasdaq, then the conflicts committee will determine fair market value in good faith.

We have authorized and reserved a total of 100,000 shares for issuance under the plan. If the number of outstanding shares is changed into a different number or kind of shares or securities through a reorganization or merger in which we are the surviving entity, or through a combination, recapitalization or otherwise, we will make an appropriate adjustment in the number and kind of shares that may be issued pursuant to exercise of the options. We will also make a corresponding adjustment to the exercise price of the options granted prior to any change. Any such adjustment, however, will not change the total payment, if any, applicable to the portion of the options not exercised but will change only the exercise price for each share. To date, we have not issued any director options under this Plan.

Options will lapse on the first to occur of (1) the tenth anniversary of the date we grant them, (2) the removal for cause of the independent director as a member of the board of directors, or (3) three

Table of Contents

months following the date the independent director ceases to be a director for any reason other than death or disability. Options may be exercised by payment of cash or through the delivery of common stock. Options are generally exercisable in the case of death or disability for a period of one year after death or the disabling event. No Option issued may be exercised if such exercise would jeopardize our status as a REIT under the Internal Revenue Code. The independent directors may not sell, pledge, assign or transfer their options other than by will or the laws of descent or distribution.

The term of the plan is 10 years. Upon our earlier dissolution or liquidation, upon our reorganization, merger or consolidation with one or more corporations as a result of which we are not the surviving corporation or upon sale of all or substantially all of our properties, the plan will terminate, and any outstanding options will terminate and be forfeited. The board of directors may provide in writing in connection with any such transaction for any or all of the following alternatives:

for the assumption by the successor corporation of the options granted or the replacement of the options with options covering the stock of the successor corporation, or a parent or subsidiary of such corporation, with appropriate adjustments as to the number and kind of shares and exercise prices;

for the continuance of the plan and the options by such successor corporation under the original terms; or

for the payment in cash or shares of common stock in lieu of and in complete satisfaction of such options.

Stock Option Plan

Our sole stockholder has approved a Stock Option Plan, which is designed to enable Wells Capital and Wells Management to obtain or retain the services of employees considered essential to our long range success and the success of Wells Capital and Wells Management by offering such employees an opportunity to participate in our growth through ownership of our common stock.

The conflicts committee of the board of directors shall conduct the general administration of the plan. The conflicts committee is authorized to grant non-qualified stock options to selected employees of Wells Capital and Wells Management based upon the recommendation of Wells Capital and subject to the absolute discretion of the conflicts committee and applicable limitations of the plan. The exercise price for the options shall be the greater of (1) \$11.00 per share, or (2) the fair market value of the shares on the date the option is granted. Fair market value for this plan will be determined in the same fashion as the Director Plan. A total of 750,000 shares have been authorized and reserved for issuance under our Stock Option Plan. However, we may not grant options at any time when the issuance of the shares underlying the grant, when combined with those issuable upon exercise of outstanding options or warrants granted to our advisor, directors, officers or any of their affiliates, would exceed 10% of our outstanding shares. To date, we have not issued any stock options under this plan.

The conflicts committee shall set the term of the options in its discretion, although no option shall have a term greater than five years. The conflicts committee shall set the period during which the right to exercise an option vests in the holder of the option. No option issued may be exercised, however, if such exercise would jeopardize our status as a REIT under the Internal Revenue Code. In addition, no option may be sold, pledged, assigned or transferred by an option holder in any manner other than by will or the laws of descent or distribution.

Table of Contents

In the event that the conflicts committee determines that any dividend or other distribution, recapitalization, stock split, reorganization, merger, liquidation, dissolution, or sale, transfer, exchange or other disposition of all or substantially all of our assets, or other similar corporate transaction or event, affects the shares such that an adjustment is determined by the conflicts committee to be appropriate in order to prevent dilution or enlargement of the benefits or potential benefits intended to be made available under the plan or with respect to an option, then the conflicts committee shall, in such manner as it may deem equitable, adjust the number and kind of shares or the exercise price with respect to any option.

The term of the plan is 10 years. Upon our earlier dissolution or liquidation, upon our reorganization, merger or consolidation with one or more corporations as a result of which we are not the surviving corporation or upon sale of all or substantially all of our properties, the plan will terminate, and any outstanding options will terminate and be forfeited. The board of directors may provide in writing in connection with any such transaction for any or all of the following alternatives:

for the assumption by the successor corporation of the options granted or the replacement of the options with options covering the stock of the successor corporation, or a parent or subsidiary of such corporation, with appropriate adjustments as to the number and kind of shares and exercise prices;

for the continuance of the plan and the options by such successor corporation under the original terms; or

for the payment in cash or shares of common stock in lieu of and in complete satisfaction of such options.

Limited Liability and Indemnification of Directors, Officers, Employees and Other Agents

Our charter limits the liability of our directors and officers to us or our stockholders for monetary damages and requires us to indemnify our directors, officers, Wells Capital or its affiliates for losses they may incur by reason of their service in that capacity if all of the following conditions are met:

our directors, Wells Capital or its affiliates have determined, in good faith, that the course of conduct that caused the loss or liability was in our best interests;

our directors, Wells Capital or its affiliates were acting on our behalf or performing services for us;

in the case of independent directors, the liability or loss was not the result of gross negligence or willful misconduct by the party seeking indemnification;

in the case of the non-independent directors, Wells Capital or its affiliates, the liability or loss was not the result of negligence or misconduct by the party seeking indemnification; and

the indemnification is recoverable only out of our net assets and not from the stockholders.

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form S-11/A

The SEC takes the position that indemnification against liabilities arising under the Securities Act of 1933 is against public policy and unenforceable. Furthermore, our charter prohibits our indemnification of our directors, Wells Capital or its affiliates for liabilities arising from or out of a violation of state or federal securities laws, unless one or more of the following conditions are met:

Table of Contents

here has been a successful adjudication on the merits of each count involving alleged securities law violations;

such claims have been dismissed with prejudice on the merits by a court of competent jurisdiction; or

a court of competent jurisdiction approves a settlement of the claims against the indemnitee and finds that indemnification of the settlement and the related costs should be made, and the court considering the request for indemnification has been advised of the position of the SEC and of the published position of any state securities regulatory authority in which the securities were offered as to indemnification for violations of securities laws.

The Advisor

Our advisor is Wells Capital. Wells Capital has contractual and fiduciary responsibilities to us and our stockholders. Some of our officers and directors are also officers and directors of Wells Capital.

The directors and executive officers of Wells Capital are as follows:

<u>Name</u>	<u>Age</u>	<u>Positions</u>
Leo F. Wells, III	59	President, Treasurer and sole director
Douglas P. Williams	52	Senior Vice President and Assistant Secretary
Stephen G. Franklin	54	Senior Vice President
Randall D. Fretz	50	Senior Vice President
Donald A. Miller	41	Senior Vice President
Claire C. Janssen	40	Vice President
David H. Steinwedell	42	Vice President

The backgrounds of Messrs. Wells, Williams and Fretz are described in the Management Executive Officers and Directors section of this prospectus. Below is a brief description of the other executive officers of Wells Capital.

Stephen G. Franklin, Ph.D. is a Senior Vice President of Wells Capital. Mr. Franklin is responsible for marketing, sales and coordination of broker-dealer relations. Mr. Franklin also serves as Vice President of Wells Real Estate Funds, Inc. Prior to joining Wells Capital in 1999, Mr. Franklin served as President of Global Access Learning, an international executive education and management development firm. From 1997 to 1999, Mr. Franklin served as President, Chief Academic Officer and Director of EduTrek International, a publicly traded provider of international post-secondary education that owns the American InterContinental University, with campuses in Atlanta, Ft. Lauderdale, Los Angeles, Washington, D.C., London and Dubai. While at EduTrek, he was instrumental in developing the Masters and Bachelors of Information Technology, International MBA and Adult Evening BBA programs. Prior to joining EduTrek, Mr. Franklin was Associate Dean of the Goizueta Business School at Emory University and a former tenured Associate Professor of Business Administration. He served on the founding Executive MBA faculty, and has taught graduate, undergraduate and executive courses in management and organizational behavior, human resources management and entrepreneurship. He is also co-founder and Director of the Center for Healthcare Leadership in the Emory University School of Medicine. Mr. Franklin was a frequent guest lecturer at universities throughout North America, Europe and South Africa.

Table of Contents

In 1984, Mr. Franklin took a sabbatical from Emory University and became Executive Vice President and a principal stockholder of Financial Service Corporation, an independent financial planning broker-dealer. Mr. Franklin and the other stockholders of FSC later sold their interests in FSC to Mutual of New York Life Insurance Company.

Donald A. Miller is a Senior Vice President of Wells Capital. Mr. Miller is responsible for directing the efforts of our advisor's acquisitions, dispositions, property management, construction and leasing groups. Mr. Miller joined Wells in August 2003 and has more than 16 years of experience in the real estate industry. He is the former Head of Real Estate Operations for Lend Lease Corporation Limited, which he joined in 1994. Prior to his role in Real Estate Operations at Lend Lease, Mr. Miller ran their Midwest Region and their Hotel Investment Group. Mr. Miller has also worked at Prentiss Properties Realty Advisors, Inc. and in pension investment management at Delta Air Lines, Inc.

Claire C. Janssen is a Vice President of Wells Capital. She is primarily responsible for managing the real estate accounting areas of the company. Prior to joining Wells Capital in 2001, Ms. Janssen served as a Vice President of Lend Lease Real Estate (formerly, Equitable Real Estate). From 1990 to 2000, she held various other management positions at Lend Lease, including Vice President of Institutional Accounting, Vice President of Business/Credit Analysis and Director of Tax/Corporate Accounting. From 1985 to 1990, Ms. Janssen served in management positions for Beers and Cutler, a Washington, D.C. based accounting firm, where she provided both audit and tax services for clients.

Ms. Janssen received a B.S. in business administration with a major in accounting from George Mason University. She is a Certified Public Accountant and a member of the American Institute of Certified Public Accountants, Georgia Society of Certified Public Accountants and National Association of Real Estate Companies.

David H. Steinwedell is a Vice President of Wells Capital. He is primarily responsible for the acquisition of real estate properties. From 2000 to 2001 when he joined Wells Capital, Mr. Steinwedell served as a principal in Steinwedell and Associates, a capital markets advisory firm specializing in transactions and strategic planning for commercial real estate firms. From 1998 to 2000, he served as the Executive Vice President of Investment Banking at Jones Lang LaSalle and as Managing Director at Cushman Realty Corporation from 1994 to 1998. From 1982 to 1999, Mr. Steinwedell served as Managing Director for Real Estate Investments at Aetna Life and Casualty. He graduated from Hamilton College with a B.S. in Economics. Mr. Steinwedell is a licensed real estate broker in Georgia and is a member of the Urban Land Institute and the National Association of Industrial and Office Properties.

Wells Capital employs personnel, in addition to the directors and executive officers listed above, who have extensive experience in selecting and managing commercial properties similar to the properties sought to be acquired by us.

The Advisory Agreement

Under the terms of the advisory agreement, Wells Capital will use its reasonable efforts to present to us investment opportunities to provide a continuing and suitable investment program consistent with our investment policies and objectives as adopted by our board of directors. The advisory agreement calls for Wells Capital to provide for our day-to-day management and to retain property managers, subject to the authority of our board of directors, and to perform other duties including the following:

find, present and recommend to us real estate investment opportunities consistent with our investment policies and objectives;

Table of Contents

structure the terms and conditions of our real estate acquisitions or sales or joint ventures transactions;

acquire properties on our behalf in compliance with our investment objectives and policies;

arrange for financing and refinancing of properties;

enter into leases and service contracts for our properties;

oversee the property managers' performance;

review and analyze the properties' operating and capital budgets;

generate an annual budget for us;

review and analyze financial information for each property and the overall portfolio;

formulate and oversee the implementation of strategies for the administration, promotion, management, operation, maintenance, improvement, financing and refinancing, marketing, leasing and disposition of properties;

perform transfer agent functions; and

engage our agents.

The fees payable to Wells Capital under the advisory agreement are described in detail at "Management Compensation" below. We also describe in that section our obligation to reimburse Wells Capital for organization and offering expenses, administrative and management services and payments made by Wells Capital to third parties in connection with potential acquisitions.

The term of the current advisory agreement ends after one year and may be renewed for an unlimited number of successive one-year periods upon mutual consent of Wells Capital and us. Additionally, either party may terminate without penalty the advisory agreement upon 60 days written notice.

Wells Capital and its affiliates expect to engage in other business ventures and, as a result, their resources will not be dedicated exclusively to our business. However, pursuant to the advisory agreement, Wells Capital must devote sufficient resources to our administration to discharge its obligations. Wells Capital may assign the advisory agreement to an affiliate upon our approval. We may assign or transfer the advisory agreement to a successor entity.

Initial Investment by Our Advisor

Wells Capital has purchased 20,000 limited partnership units of Wells OP II, our operating partnership, for \$200,000. These units constitute 100% of the minority limited partner units outstanding at this time. Wells Capital may not sell any of these units during the period it serves as our advisor. Although Wells Capital and its affiliates are not prohibited from acquiring shares of our common stock, Wells Capital currently has no options or warrants to acquire any shares and has no current plans to acquire shares. Wells Capital has agreed to abstain from voting any shares it acquires in any vote for the election of directors or any vote regarding the approval or termination of any contract with Wells Capital or any of its affiliates.

Table of Contents

Affiliated Companies

Property Manager

We may engage Wells Management Company, Inc. to manage and lease particular properties. Wells Management is a wholly owned subsidiary of Wells Real Estate Funds, Inc., and Mr. Wells is the sole director of Wells Management. The principal officers of Wells Management are as follows:

<u>Name</u>	<u>Age</u>	<u>Positions</u>
Leo F. Wells, III	59	President and Treasurer
M. Scott Meadows	39	Senior Vice President and Secretary

The background of Mr. Wells is described in the Management Executive Officers and Directors section of this prospectus. Below is a brief description of the other executive officer of Wells Management.

M. Scott Meadows is a Senior Vice President and Secretary of Wells Management. He is primarily responsible for the real estate operations for Wells Management. Prior to joining Wells Management in 1996, Mr. Meadows served as Senior Property Manager for The Griffin Company, a full-service commercial real estate firm in Atlanta, where he was responsible for managing a 500,000 square foot office and retail portfolio. Mr. Meadows previously managed real estate as a Property Manager for Sea Pines Plantation Company. He graduated from University of Georgia with a B.B.A. in management. Mr. Meadows is a Georgia real estate broker and holds a Real Property Administrator designation from the Building Owners and Managers Institute International and a Certified Property Manager designation from the Institute of Real Estate Management.

If we retain Wells Management to manage and lease any of our properties, we will pay a market-based fee as determined by our advisor. The advisor will make this determination based on a review of what other management companies charge for the type and location of properties subject to the property management and leasing agreement. In addition, we may reimburse Wells Management for costs and expenses Wells Management incurs in managing properties we own. If we manage joint ventures and retain Wells Management to manage the property held by those joint ventures, the joint ventures may also reimburse Wells Management for similar costs and expenses relating to the joint ventures properties. Reimbursable costs and expenses typically include wages and salaries and other employee-related expenses for employees engaged in operating, managing, maintaining, and leasing the properties. Employee-related expenses include taxes, insurance, benefits, legal, travel, and other out-of-pocket expenses related to managing and leasing properties. The management fees we may pay to Wells Management would cover, without additional expense to us, Wells Management's general overhead costs, such as its expenses for rent and utilities.

We may also pay Wells Management a separate one-time fee for the initial leasing of newly constructed properties in an amount equal to one month's rent. In addition, a tenant may engage Wells Management to oversee tenant improvements. Such fees typically do not exceed 5.0% of the cost of the tenant improvements.

Wells Management will hire, direct and establish policies for employees who will have direct responsibility for each property's operations, including resident managers and assistant managers, as well as building and maintenance personnel. Some or all of the other employees may be

employed on a part-time basis and may also be employed by one or more of the following:

Wells Capital;

Table of Contents

Wells Management;

partnerships organized by Wells Management and its affiliates; and

other persons or entities owning properties managed by Wells Management.

The principal office of Wells Management is located at 6200 The Corners Parkway, Suite 250, Norcross, Georgia 30092.

Dealer Manager

Wells Investment Securities, Inc., our dealer manager, is a member firm of the NASD, Inc. Wells Investment Securities was organized in May 1984 for the purpose of participating in and facilitating the distribution of securities of Wells programs.

Wells Investment Securities will provide wholesaling, sales promotional and marketing assistance services to us in connection with the distribution of the shares offered pursuant to this prospectus. It may also sell shares at the retail level.

Wells Real Estate Funds, Inc. is the sole stockholder of Wells Investment Securities. In connection with the NASD enforcement action described below, Mr. Wells recently resigned as the President, Treasurer and sole director of Wells Investment Securities. The current directors and officers of Wells Investment Securities are:

<u>Name</u>	<u>Positions</u>	<u>Age</u>
Philip M. Taylor	President and Director	60
Douglas P. Williams	Vice President, CFO, Treasurer and Director	52
Randall D. Fretz	Vice President and Director	50

The backgrounds of Messrs. Williams and Fretz are described in the Management Executive Officers and Directors section of this prospectus.

Philip M. Taylor is President and Director of Wells Investment Securities, Inc. Mr. Taylor joined Wells in March 2001 and directs the national sales effort. Prior the joining Wells, Mr. Taylor was Vice President, Sales and Project Operations, for Atlantech International, Inc. from 1991 to 2000. During a twenty-one year tenure with Ingersoll-Rand Company Limited, Mr. Taylor held progressively more responsible positions in sales, marketing and management. He also served for five years as a Regular Army Officer. Mr. Taylor holds NASD series 7, 24 and 63 licenses. Mr. Taylor earned a Bachelor's degree in Industrial Management from East Tennessee State University and a Master of Business Administration in Finance/Management from the University of Oregon.

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form S-11/A

On August 26, 2003, Wells Investment Securities and Mr. Wells entered into a Letter of Acceptance, Waiver and Consent (AWC) with the NASD relating to alleged rule violations. The AWC set forth the NASD's findings that Wells Investment Securities and Mr. Wells had violated conduct rules relating to the provision of non-cash compensation of more than \$100 to associated persons of NASD member firms in connection with their attendance at the annual educational and due diligence conferences sponsored by Wells Investment Securities in 2001 and 2002.

Table of Contents

Without admitting or denying the allegations and findings against them, WIS and Mr. Wells consented in the AWC to various findings by the NASD, which are summarized as follows:

In 2001 and 2002, WIS sponsored conferences attended by registered representatives who sold its real estate investment products. WIS also paid for certain expenses of guests of the registered representatives who attended the conferences. In 2001, WIS paid the costs of travel to the conference and meals for many of the guests, and paid the costs of playing golf for some of the registered representatives and their guests. WIS later invoiced registered representatives for the cost of golf and for travel expenses of guests, but was not fully reimbursed for such. In 2002, WIS paid for meals for registered representatives of a predetermined sales goal for WIS products. The conduct violated the prohibitions against payment and receipt of non-cash compensation in connection with the sales of these products contained in NASD's Conduct Rules 2710, 2810 and 3060. In addition, WIS and Wells failed to adhere to all of the terms of their written undertaking, made in March 2001, not to engage in the conduct described above, thereby failing to observe high standards of commercial honor and just and equitable principles of trade.

WIS consented to a censure and Mr. Wells consented to suspension from acting in a principal capacity with a member firm for one year. WIS and Mr. Wells also agreed to the imposition of a joint and several fine in the amount of \$150,000. In conjunction with the entry of the AWC, Mr. Wells resigned as President, Treasurer and sole director of WIS, however, he will continue to engage in selling efforts on behalf of WIS.

IRA Custodian

Wells Advisors, Inc. was organized in 1991 for the purpose of acting as a passive non-bank custodian for IRAs investing in the securities of Wells real estate programs. Wells Advisors currently charges no fees for such services. Wells Advisors was approved by the Internal Revenue Service to act as a qualified passive non-bank custodian for IRAs on March 20, 1992. In circumstances where Wells Advisors acts as an IRA custodian, the authority of Wells Advisors is limited to holding limited partnership units or REIT shares on behalf of the beneficiary of the IRA and making distributions or reinvestments in such units or shares solely at the direction of the beneficiary of the IRA. Wells Advisors is not authorized to vote any of such units or shares held in any IRA except in accordance with the written instructions of the beneficiary of the IRA. Mr. Wells is the President and sole director and owns 50% of the common stock and all of the preferred stock of Wells Advisors. As of December 31, 2002, Wells Advisors was acting as the IRA custodian for in excess of \$577,000,000 in Wells real estate program investments.

Management Decisions

The primary responsibility for the management decisions of Wells Capital and its affiliates, including the selection of investment properties to be recommended to our board of directors, the negotiation for these investments and asset-management decisions, will reside in Leo F. Wells, III, Douglas P. Williams, Randall D. Fretz, Donald A. Miller, and David H. Steinwedell. We expect that proposed transactions will often be discussed by the board of directors in advance of a final board vote. During these discussions, independent directors can offer ideas for ways in which deals can be changed to make them acceptable. The conflicts committee is empowered to approve or reject all acquisitions of real

Table of Contents

estate. We expect that the conflicts committee will condition our acquisition of any property on the committee's prior approval.

MANAGEMENT COMPENSATION

We have no paid employees. Wells Capital, our advisor, and its affiliates will manage our day-to-day affairs. The following table summarizes all of the compensation and fees we will pay to Wells Capital and its affiliates, including amounts to reimburse their costs in providing services. All amounts assume a \$10 per share purchase price.

<i>Form of Compensation and Entity Receiving</i>	<i>Determination of Amount</i>	<i>Estimated Maximum Dollar Amount(1)</i>
<i>Organizational and Offering Stage</i>		
<i>Selling Commissions Wells Investment Securities (2)</i>	7.0% of gross offering proceeds before reallocation of commissions earned by participating broker-dealers. Wells Investment Securities, our dealer manager, intends to reallocate 100% of commissions earned for those transactions that involve participating broker-dealers.	\$420,000,000
<i>Dealer Manager Fee Wells Investment Securities (2)</i>	2.5% of gross offering proceeds before reallocation to participating broker-dealers. Wells Investment Securities, in its sole discretion, may reallocate a portion of its dealer manager fee of up to 1.5% of the gross offering proceeds to be paid to such participating broker-dealers.	\$150,000,000
<i>Reimbursement of Organization and Offering Expenses Wells Capital</i>	Up to 2.0% of gross offering proceeds. Wells Capital will incur or pay our organization and offering expenses (excluding selling commissions and the dealer manager fee and the due diligence expenses of participating broker-dealers). We will then reimburse Wells Capital for these amounts up to 2.0% of aggregate gross offering proceeds.	\$33,800,000 (estimated)
<i>Acquisition and Development Stage</i>		
<i>Acquisition Fees Wells Capital (4)</i>	3.5% of gross offering proceeds for services in connection with the selection, purchase, development or construction of real property.	\$210,000,000

Table of Contents

<i>Form of Compensation and Entity Receiving</i>	<i>Determination of Amount</i>	<i>Estimated Maximum Dollar Amount(1)</i>
<i>Asset Management Fee Wells Capital(5)</i>	0.5% of the cost of (1) the occupied properties we own and (2) our investments in joint ventures. These fees are limited to 0.7% of the net asset value of the properties included in the above calculation, calculated on a quarterly basis. For purposes of this calculation, net asset value means the excess of the cost of the investments described above over aggregate outstanding debt used to acquire or refinance properties. Additionally, we will reimburse Wells Capital for all costs and expenses it incurs in fulfilling its duties as our asset portfolio manager. These costs and expenses may include wages and salaries and other employee-related expenses of Wells Capital's employees engaged in the management, administration, operations, and marketing functions. Employee-related expenses include taxes, insurance and benefits relating to such employees, and legal, travel and other out-of-pocket expenses that are directly related to their services provided to us.	Actual amounts are dependent upon results of operations and therefore cannot be determined at the present time.
<i>Property Management Wells Management (5)</i>	If we retain Wells Management to manage and lease any of our properties, we will pay Wells Management a fee equal to what other management companies generally charge for the management of similar properties, which may include reimbursement for the costs and expenses Wells Management incurs in managing the properties. Reimbursable costs and expenses include wages and salaries and other expenses of employees engaged in operating, managing, maintaining and leasing the properties. In addition, we may pay Wells Management a separate one-time fee for the initial leasing of newly constructed properties in an amount equal to one month's rent.	Actual amounts are dependent upon results of operations and therefore cannot be determined at the present time.
<i>Other Operating Expenses (5)</i>	We will reimburse the expenses incurred by Wells Capital in connection with its provision of administrative services, including related personnel costs. We will not reimburse for personnel costs in connection with services for which Wells Capital receives acquisition fees or real estate commissions.	Actual amounts are dependent upon results of operations and therefore cannot be determined at the present time.
<i>Liquidation/Listing Stage</i>		
<i>Real Estate Commissions -Wells Capital or its Affiliates (6)</i>	For substantial assistance in connection with the sale of properties, we will pay Wells Capital or its affiliates an amount equal to 3.0% of the contract price of each property sold; provided, however, in no event may the real estate commissions paid to Wells Capital, its affiliates and unaffiliated third parties exceed 6% of the contract sales price.	Actual amounts are dependent upon results of operations and therefore cannot be determined at the present time.

Table of Contents

<i>Form of</i>		<i>Estimated</i>
<i>Compensation and</i>	<i>Determination</i>	<i>Maximum</i>
<i>Entity Receiving</i>	<i>of Amount</i>	<i>Dollar Amount(1)</i>
<i>Subordinated Participation in Net</i>	After investors in our offerings have received a return of their net capital contributions and an 8.0% per year cumulative, noncompounded return, then Wells Capital is entitled to receive 10.0% of remaining net sale proceeds.	Actual amounts are dependent upon results of operations and therefore cannot be determined at the present time.
<i>Sale Proceeds</i>		
<i>Wells Capital (7)</i>		
<i>Subordinated</i>	Upon listing of our common stock on a national securities exchange or the Nasdaq Stock Market, a fee equal to 10.0% of the amount by which (1) the market value of our outstanding stock plus distributions paid by us prior to listing, exceeds (2) the sum of the total amount of capital raised from investors and the amount of cash flow necessary to generate an 8.0% per year cumulative, noncompounded return to investors.	Actual amounts are dependent upon results of operations and therefore cannot be determined at the present time.
<i>Incentive</i>		
<i>Listing Fee -</i>		
<i>Wells Capital (7)(8)</i>		

- (1) The estimated maximum dollar amounts are based on the sale of the maximum of 600,000,000 shares to the public.
- (2) The selling commissions and, in some cases, the dealer manager fee will not be charged with regard to shares sold to or for the account of certain categories of purchasers. See Plan of Distribution.
- (3) These organization and offering expenses include all expenses (other than selling commissions, the dealer manager fee and the due diligence expenses of participating broker-dealers) to be paid by us in connection with the offering, including our legal, accounting, printing, mailing and filing fees, charges of our escrow holder, and amounts to reimburse Wells Capital for the salaries of its employees and other costs in connection with preparing supplemental sales materials, holding educational conferences and attending retail seminars conducted by broker-dealers.
- (4) We will pay Wells Capital the acquisition fee amount upon receipt of the offering proceeds rather than at the time a property is acquired. However, if either party terminates or fails to renew the advisory agreement, Wells Capital must return acquisition fees not yet allocated to one of our investments.
- (5) Wells Capital must reimburse us the amount by which our aggregate annual total operating expenses exceed 2% of our average invested assets or 25% of our net income unless the conflicts committee has determined that such excess expenses were justified based on unusual and non-recurring factors. Average invested assets means the average monthly book value of our assets during the 12-month period before deducting depreciation, bad debts or other non-cash reserves. Total operating expenses means all expenses paid or incurred by us, as determined under GAAP, that are in any way related to our operation, including advisory fees, but excluding (a) the expenses of raising capital such as organization and offering expenses, legal, audit, accounting, underwriting, brokerage, listing, registration and other fees, printing and other such expenses and taxes incurred in connection with the issuance, distribution, transfer, registration and stock exchange listing of our stock; (b) interest payments; (c) taxes; (d) non-cash expenditures such as depreciation, amortization and bad debt reserves; (e) reasonable incentive fees based on the gain in the sale of our assets; and (f) acquisition fees, acquisition expenses, real estate commissions on

Table of Contents

the resale of property and other expenses connected with the acquisition, disposition, management and ownership of real estate interests, mortgage loans or other property (including the costs of foreclosure, insurance premiums, legal services, maintenance, repair and improvement of property).

- (6) Although we are most likely to pay real estate commissions to Wells Capital or an affiliate in the event of our liquidation, these fees may also be earned during our operational stage.
- (7) Upon termination of the Advisory Agreement, Wells Capital may be entitled to a similar fee if Wells Capital would have been entitled to a subordinated participation in net sale proceeds had the portfolio been liquidated (based on an independent appraised value of the portfolio) on the date of termination. The subordinated participation in net sale proceeds and the subordinated incentive listing fee to be received by Wells Capital are mutually exclusive of each other. Wells Capital cannot earn both fees.
- (8) If at any time the shares become listed on a national securities exchange or on the Nasdaq National Market, we will negotiate in good faith with Wells Capital a fee structure appropriate for an entity with a perpetual life. The conflicts committee of our board of directors must approve the new fee structure negotiated with Wells Capital. In negotiating a new fee structure, the conflicts committee shall consider all of the factors its members deem relevant, including but not limited to:

the size of the advisory fee in relation to the size, composition and profitability of our portfolio;

the success of Wells Capital in generating opportunities that meet our investment objectives;

the rates charged to other REITs and to investors other than REITs by advisors performing similar services;

additional revenues realized by Wells Capital through their relationship with us;

the quality and extent of service and advice furnished by Wells Capital;

the performance of our investment portfolio, including income, conservation or appreciation of capital, frequency of problem investments and competence in dealing with distress situations; and

the quality of our portfolio in relationship to the investments generated by Wells Capital for the account of other clients.

The market value of our outstanding stock will be calculated based on the average market value of the shares issued and outstanding at listing over the 30 trading days beginning 180 days after the shares are first listed on a stock exchange. We have the option to pay the listing fee in the form of stock, cash, a promissory note or any combination thereof. In the event the subordinated incentive listing fee is paid to Wells Capital as a result of the listing of the shares, we will not be required to pay Wells Capital any further subordinated participation in net sale proceeds.

Since Wells Capital and its affiliates are entitled to differing levels of compensation for undertaking different transactions on our behalf, such as the subordinated participation in net sale proceeds, Wells Capital has the ability to affect the nature of the compensation it receives by

Table of Contents

recommending different transactions. However, as our fiduciary, Wells Capital is obligated to exercise good faith in all its dealings with respect to our affairs. (See Management The Advisory Agreement.)

STOCK OWNERSHIP

The following table sets forth the beneficial ownership of our common stock as of the date of this prospectus for each person or group that holds more than 5% of our common stock, for each director and executive officer and for our directors and executive officers as a group. To our knowledge, each person that beneficially owns our shares has sole voting and dispositive power with regard to such shares.

<u>Name of Beneficial Owner (1)</u>	<u>Number of Shares Beneficially Owned (2)</u>	<u>Percent of All Shares</u>
Wells Capital, Inc.	100	100.0%
Leo F. Wells, III, President and Director	100	100.0%
Douglas P. Williams, Executive Vice President and Director		
Richard W. Carpenter, Director		
Bud Carter, Director		
Donald S. Moss, Director		
Walter W. Sessoms, Director		
Neil H. Strickland, Director		
Randall D. Fretz, Vice President		
All directors and executive officers as a group	100	100.0%

- (1) Address of each beneficial owner listed is 6200 The Corners Parkway, Suite 250, Norcross, Georgia 30092.
- (2) Consists of shares held by Wells Capital, Inc. Mr. Wells indirectly owns all of the shares of Wells Capital. Excludes Wells OP II limited partner interests.

CONFLICTS OF INTEREST

We are subject to various conflicts of interest arising out of our relationship with Wells Capital and its affiliates, some of whom serve as officers and directors of us. We discuss these conflicts below and conclude this section with a discussion of the corporate governance measures we adopted to ameliorate some of the risks posed by these conflicts.

Our Advisor s Interests in Other Wells Real Estate Programs

General

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form S-11/A

Wells Capital and its affiliates are general partners and advisors of other Wells programs, including programs which have investment objectives similar to ours, and we expect that they will organize other such partnerships and programs in the future. Wells Capital and such affiliates have legal and financial obligations with respect to these programs that are similar to their obligations to us.

As described in the Prior Performance Summary, Wells Capital and its affiliates have sponsored the following 16 public real estate programs with substantially identical investment objectives as ours:

1. Wells Real Estate Fund I (Wells Fund I),
2. Wells Real Estate Fund II (Wells Fund II),
3. Wells Real Estate Fund II-OW (Wells Fund II-OW),
4. Wells Real Estate Fund III, L.P. (Wells Fund III),
5. Wells Real Estate Fund IV, L.P. (Wells Fund IV),

Table of Contents

6. Wells Real Estate Fund V, L.P. (Wells Fund V),
7. Wells Real Estate Fund VI, L.P. (Wells Fund VI),
8. Wells Real Estate Fund VII, L.P. (Wells Fund VII),
9. Wells Real Estate Fund VIII, L.P. (Wells Fund VIII),
10. Wells Real Estate Fund IX, L.P. (Wells Fund IX),
11. Wells Real Estate Fund X, L.P. (Wells Fund X),
12. Wells Real Estate Fund XI, L.P. (Wells Fund XI),
13. Wells Real Estate Fund XII, L.P. (Wells Fund XII),
14. Wells Real Estate Fund XIII, L.P. (Wells Fund XIII),
15. Wells Real Estate Fund XIV, L.P. (Wells Fund XIV), and
16. Wells Real Estate Investment Trust, Inc. (Wells REIT I).

Two Wells-sponsored programs are currently also conducting public offerings. Wells REIT I commenced its fourth public offering on July 26, 2002 of up to 300 million shares of common stock at a price of \$10.00 per share. Wells Fund XIV commenced a public offering of up to 4.5 million units of limited partnership interest at a price of \$10.00 per unit on May 14, 2003.

A 17th program, Wells Real Estate Investment Trust III, Inc. (Wells REIT III), is a newly formed entity with investment objectives similar to ours and no assets or operating history. Wells REIT III has filed a registration statement covering the issuance of 500,000 shares of common stock and 100,000,000 shares of preferred stock. If we believe that we will be in a position to commence our initial public offering before Wells REIT III's initial public offering, our promoters will likely withdraw the Wells REIT III registration statement or delay its effectiveness or amend it to either decrease the size of its offering or to change the investment objectives of Wells REIT III. In other words, our promoters do not intend to launch two large initial public offerings of REITs with similar investment objectives that would likely be raising capital at the same time. All of our directors and officers are also directors and officers of Wells REIT I and Wells REIT III.

Allocation of Investment Opportunities

We rely on our advisor to identify suitable investment opportunities. Other Wells-sponsored programs, especially those that are currently raising offering proceeds, also rely on Wells Capital for investment opportunities. Many investment opportunities would be suitable for us as well as other Wells programs. If Wells Capital directs an investment opportunity to a Wells-sponsorship program, it will offer the investment opportunity to the program for which the opportunity, in the discretion of Wells Capital, is most suitable. As a result, Wells Capital could direct attractive investment opportunities to other entities or even purchase them for its own account. Our charter disclaims any interest in an investment opportunity known to Wells Capital that Wells Capital has not recommended to us. (See Certain Conflict Resolution Procedures.)

Joint Ventures with Affiliates of Wells Capital

We are likely to enter into joint venture agreements with other Wells programs for the acquisition, development or improvement of properties. (See Investment Objectives and Criteria Joint Venture Investments.) Wells Capital and its affiliates may have conflicts of interest in determining which Wells program should enter into any particular joint venture agreement. The co-venturer may have economic or business interests or goals that are or may become inconsistent with our business interests or goals. In addition, should any such joint venture be consummated, Wells Capital may face a conflict in structuring the terms of the relationship between our interests and the interest of the affiliated co-venturer and in managing the joint venture. Since Wells Capital and its affiliates will control both the affiliated co-venturer and, to a certain extent, us, agreements and transactions between the co-venturers with respect

Table of Contents

to any such joint venture will not have the benefit of arm's-length negotiation of the type normally conducted between unrelated co-venturers. (See Risk Factors Investment Risks.)

Competition for Tenants and Others

Conflicts of interest will exist to the extent that we may acquire properties in the same geographic areas where other Wells programs own properties. In such a case, a conflict could arise in the leasing of properties in the event that we and another Wells program were to compete for the same tenants in negotiating leases, or a conflict could arise in connection with the resale of properties in the event that we and another Wells program were to attempt to sell similar properties at the same time. (See Risk Factors Investment Risks). Conflicts of interest may also exist at such time as we or any of our affiliates managing property on our behalf seek to employ developers, contractors, building managers or other third parties. Wells Capital will seek to reduce conflicts that may arise with respect to properties available for sale or rent by making prospective purchasers or tenants aware of all such properties. Wells Capital will also seek to reduce conflicts relating to the employment of developers, contractors or building managers by making prospective employees aware of all properties in need of their services. However, Wells Capital and its affiliates cannot fully avoid these conflicts because it may establish differing terms for resales or leasing of the various properties or differing compensation arrangements for employees at different properties.

Allocation of Advisor's Time

We rely on Wells Capital and its affiliates for the day-to-day operation of our business. As a result of its interests in other Wells programs and the fact that it has also engaged and will continue to engage in other business activities, Wells Capital and its affiliates will have conflicts of interest in allocating their time between us and other Wells programs and activities in which they are involved. However, Wells Capital believes that it and its affiliates have sufficient personnel to discharge fully their responsibilities to all of the Wells programs and ventures in which they are involved.

Receipt of Fees and Other Compensation by Wells Capital and its Affiliates

Wells Capital and its affiliates will receive substantial fees from us. These compensation arrangements could influence our advisor's advice to us, as well as the judgment of the affiliates of Wells Capital who serve as our officers or directors. Among other matters, the compensation arrangements could affect their judgment with respect to:

the continuation, renewal or enforcement of our agreements with Wells Capital and its affiliates, including the advisory agreement and the dealer manager agreement;

public offerings of equity by us, which entitle Wells Investment Securities to underwriting fees and entitle Wells Capital to increased advisory fees;

property sales, which entitle Wells Capital to real estate commissions and possible success-based sale fees;

property acquisitions from other Wells-sponsored programs, which might entitle Wells Capital to real estate commissions and possible success-based sale fees in connection with its services for the seller;

Table of Contents

property acquisitions from third parties, which utilize proceeds from our public offerings, thereby increasing the likelihood of continued equity offerings and related fee income for Wells Investment Securities and Wells Capital;

whether and when we seek to list our common shares on a national securities exchange or the Nasdaq National Market, which listing could entitle Wells Capital to a success-based listing fee but could also adversely affect its sales efforts for other programs depending on the price at which the shares trade; and

whether and when we seek to sell the company or its assets, which sale could entitle Wells Capital to a success-based fee but could also adversely affect its sales efforts for other programs depending upon the sales price for the company or its assets.

The advisory fees paid to Wells Capital and any management and leasing fees we may pay to Wells Management Company if we retain them to manage some of our properties will be paid irrespective of the quality of their acquisition or property management services during the term of the related agreement. (See Certain Conflict Resolution Procedures.)

Our Board's Loyalties to Wells REIT I

Currently, all of our directors are also directors of Wells REIT I. The loyalties of our directors to Wells REIT I may compromise the judgment of our board when considering issues for us that may affect Wells REIT I, such as the following:

The conflicts committee of the board of directors must evaluate the performance of Wells Capital with respect to whether Wells Capital is presenting to us our fair share of investment opportunities. If our advisor is not presenting a sufficient number of investment opportunities to us because it is presenting many opportunities to Wells REIT I or if our advisor is giving preferential treatment to Wells REIT I in this regard, our conflicts committee may not be well suited to enforce our rights under the terms of the advisory agreement or to seek a new advisor.

The conflicts committee may have to make a similar evaluation with respect to the performance of Wells Management if we retain Wells Management to manage and lease some of our properties. If Wells Management is not performing well as a property manager because of its services for Wells REIT I, the divided loyalties of the members of our conflicts committee could adversely affect their willingness to insist on improvement of the performance of the property manager.

The conflicts committee will likely decide whether we purchase a property. This decision could be influenced by the hope that Wells Capital would present the opportunity to Wells REIT I if we did not pursue it.

We could enter into transactions with Wells REIT I, such as property sales or acquisitions, joint ventures or financing arrangements. Decisions of the board or the conflicts committee regarding the terms of those transactions may be influenced by its loyalties to Wells REIT I.

A decision of the board or the conflicts committee regarding the timing of a debt or equity offering could be influenced by concerns that the offering would compete with an offering of Wells REIT I.

Table of Contents

A decision of the board or the conflicts committee regarding the timing of property sales could be influenced by concerns that the sales would compete with those of Wells REIT I.

Fiduciary Duties Owed by Some of Our Affiliates to Our Advisor and Our Advisor's Affiliates

Our executive officers and some of our directors are also officers and directors of:

Wells Capital, our advisor and the general partner of the various real estate programs sponsored by Wells Capital described above;

Wells Management, one of our possible property managers; and

Wells Investment Securities, our dealer manager.

As a result, they owe fiduciary duties to these various entities and their stockholders and limited partners, which fiduciary duties may from time to time conflict with the fiduciary duties they owe to us.

Affiliated Dealer Manager

Since Wells Investment Securities, our dealer manager, is an affiliate of Wells Capital, you will not have the benefit of an independent due diligence review and investigation of the type normally performed by an independent underwriter in connection with the offering of securities. (See Plan of Distribution.)

Affiliated Property Manager

Some properties we acquire may be managed and leased by Wells Management. To the extent we retain Wells Management, we will not have the benefit of independent property management. (See Management Affiliated Companies.)

Lack of Separate Representation

Alston & Bird LLP is counsel both to us and to Wells Capital and its affiliates, including Wells Investment Services, Wells Management and Wells Development Corporation. There is a possibility that in the future the interests of the various parties may conflict. If we do not obtain separate counsel when our interests conflict with those of Wells Capital and its affiliates, our counsel's loyalties to Wells Capital and its affiliates could interfere with its independent professional judgment in considering alternatives that we should pursue. The conflicts committee of our board of directors is authorized to engage separate counsel for advice when considering matters where the interests of Wells Capital and its affiliates could conflict with our interests.

Table of Contents

Certain Conflict Resolution Procedures

Conflicts Committee

In order to reduce or eliminate certain potential conflicts of interest, our charter creates a conflicts committee of our board or directors comprised of all of our independent directors. (Serving on the board of, or owning an interest in, another Wells-sponsored program will not, by itself, preclude a director from serving on the conflicts committee.) The conflicts committee, which is authorized to retain its own legal and financial advisors, is empowered to act on any matter permitted under Maryland law provided that it first determines that the matter at issue is such that the exercise of independent judgment by Wells Capital affiliates could reasonably be compromised. Those conflict of interest matters that we cannot delegate to a committee under Maryland law must be acted upon by both the board of directors and the conflicts committee. Among the matters we expect the conflicts committee to act upon are:

the continuation, renewal or enforcement of our agreements with Wells Capital and its affiliates, including the advisory agreement and the dealer manager agreement;

public offerings of securities;

property sales;

property acquisitions;

transactions with affiliates;

compensation of our officers and directors who are affiliated with our advisor;

whether and when we seek to list our common shares on a national securities exchange or the Nasdaq National Market; and

whether and when we seek to sell the company or its assets.

Conflicts Subcommittee

To address conflicts involving us and another Wells-sponsored program, the conflicts committee has created a subcommittee of the conflicts committee comprised of all directors on the conflicts committee that are unaffiliated with another Wells-sponsored program, e.g., Wells REIT I. The conflicts subcommittee is empowered to act on any matter permitted by Maryland law if (1) the conflicts committee delegates the matter to the conflicts subcommittee or (2) the conflicts subcommittee disagrees with the conflicts committee's handling of a matter and its minutes reflect that it determined that the matter at issue was such that the exercise of independent judgment by both the affiliates of Wells Capital and the affiliates of another Wells-sponsored program could reasonably have been compromised. Currently, all of our directors are also directors for Wells REIT I; therefore, we have no directors that qualify to serve on the conflicts subcommittee. Until we add directors unaffiliated with Wells REIT I, our conflicts committee does not offer us any protection from the risks of conflicts of interest when the board is considering matters that

may affect Wells REIT I. (See Conflicts of Interest Our Board s Loyalties to Wells REIT I.)

Other Charter Provisions Relating to Conflicts of Interest

In addition to the creation of the conflicts committee, our charter contains many other restrictions

Table of Contents

relating to conflicts of interest including the following:

Advisor Compensation. The conflicts committee will evaluate at least annually whether the compensation that we contract to pay to Wells Capital and its affiliates is reasonable in relation to the nature and quality of services performed and that such compensation is within the limits prescribed by the charter. The conflicts committee will supervise the performance of Wells Capital and its affiliates and the compensation paid to it by us to determine that the provisions of our compensation arrangements are being carried out. This evaluation will be based on the factors set forth below as well as any other factors deemed relevant by the conflicts committee:

the amount of the fees paid to Wells Capital and its affiliates in relation to the size, composition and performance of our investments;

the success of Wells Capital in generating appropriate investment opportunities;

the rates charged to other REITs and others by advisors performing similar services;

additional revenues realized by Wells Capital and its affiliates through their relationship with us, including whether we pay them or they are paid by others with whom we do business;

the quality and extent of service and advice furnished by Wells Capital and its affiliates;

the performance of our investment portfolio; and

the quality of our portfolio relative to the investments generated by Wells Capital for its own account and for its other clients

We can only pay Wells Capital a real estate commission in connection with the sale of a property if it provides a substantial amount of the services in the effort to sell the property and the commission does not exceed 3% of the sales price of the property. Moreover, the commission, when added to all other real estate commissions paid to unaffiliated parties in connection with the sale, may not exceed a competitive real estate commission or 6% of the sales price of the property.

Term of Advisor. Each contract for the services of our advisor may not exceed one year, although there is no limit on the number of times that a particular advisor may be retained. The conflicts committee or our advisor may terminate our advisory agreement with Wells Capital without cause or penalty on 60 days written notice.

Our Acquisitions. We will not purchase or lease properties in which Wells Capital, our directors or officers or any of their affiliates has an interest without a determination by the conflicts committee (by majority vote), that such transaction is fair and reasonable to us and at a price to us no greater than the cost of the property to the affiliated seller or lessor unless there is substantial justification for the excess amount. In no event will we acquire any such property at an amount in excess of its current appraised value as determined by an independent expert selected by our independent directors not otherwise interested in the transaction.

Mortgage Loans Involving Affiliates. Our charter prohibits us from investing in or making mortgage loans in which the transaction is with Wells Capital or our directors or officers or any of their affiliates unless an independent expert appraises the underlying property. We must keep the appraisal for at least five years and make it available for inspection and duplication by any of our shareholders. In addition, we must obtain a mortgagee's or owner's title insurance policy or commitment as to the priority of the mortgage or the condition of the title. Our charter prohibits us from making or investing in any

Table of Contents

mortgage loans that are subordinate to any mortgage or equity interest of Wells Capital, our directors or officers or any of their affiliates.

Other Transactions Involving Affiliates. The conflicts committee (by majority vote) must conclude that all other transactions, including joint ventures, between us and Wells Capital, our officers or directors or any of their affiliates are fair and reasonable to us and on terms and conditions not less favorable to us than those available from unaffiliated third parties.

Limitation on Operating Expenses. Wells Capital must reimburse us the amount by which our aggregate annual total operating expenses exceed 2% of our average invested assets or 25% of our net income unless the conflicts committee has determined that such excess expenses were justified based on unusual and non-recurring factors. Average invested assets means the average monthly book value of our assets during the 12-month period before deducting depreciation, bad debts or other non-cash reserves. Total operating expenses means all expenses paid or incurred by us, as determined under generally accepted accounting principles, that are in any way related to our operation, including advisory fees, but excluding (a) the expenses of raising capital such as organization and offering expenses, legal, audit, accounting, underwriting, brokerage, listing, registration and other fees, printing and other such expenses and taxes incurred in connection with the issuance, distribution, transfer, registration and stock exchange listing of our stock; (b) interest payments; (c) taxes; (d) non-cash expenditures such as depreciation, amortization and bad debt reserves; (e) reasonable incentive fees based on the gain in the sale of our assets; and (f) acquisition fees, acquisition expenses, real estate commissions on the resale of property and other expenses connected with the acquisition, disposition, management and ownership of real estate interests, mortgage loans or other property (including the costs of foreclosure, insurance premiums, legal services, maintenance, repair and improvement of property).

Issuance of Options and Warrants to Certain Affiliates. Our charter prohibits the issuance of options or warrants to purchase our capital stock to Wells Capital, our directors or officers or any of their affiliates (i) on terms more favorable than we offer such options or warrants to the general public or (ii) in excess of an amount equal to 10% of our outstanding capital stock on the date of grant.

Repurchase of Our Shares. Our charter prohibits us from paying a fee to Wells Capital or our directors or officers or any of their affiliates in connection with our repurchase of our capital stock.

Loans. We will not make any loans to Wells Capital or to our directors or officers or any of their affiliates. In addition, we will not borrow from these affiliates unless the conflicts committee (by majority vote) approves the transaction as being fair, competitive and commercially reasonable, and no less favorable to us than comparable loans between unaffiliated parties. These restrictions on loans will only apply to advances of cash that are commonly viewed as loans, as determined by the board of directors. By way of example only, the prohibition on loans would not restrict advances of cash for legal expenses or other costs incurred as a result of any legal action for which indemnification is being sought, nor would the prohibition limit our ability to advance reimbursable expenses incurred by directors or officers or Wells Capital or its affiliates.

Reports to Stockholders. Our charter requires that we prepare an annual report and deliver it to our stockholders within 120 days after the end of each fiscal year. Among the matters that must be included in the annual report are:

the ratio of the costs of raising capital during the year to the capital raised;

the aggregate amount of advisory fees and the aggregate amount of other fees paid to Wells Capital and any affiliate of Wells Capital by us or third parties doing business with us during the year;

Table of Contents

our total operating expenses for the year, stated as a percentage of our average invested assets and as a percentage of our net income;

a report from the conflicts committee that our policies are in the best interests of our common stockholders and the basis for such determination; and

separately stated, full disclosure of all material terms, factors and circumstances surrounding any and all transactions involving us and our advisor, a director or any affiliate thereof during the year; and the conflicts committee is specifically charged with a duty to examine and comment in the report on the fairness of the transactions.

Voting of Shares Owned by Affiliates. Before becoming a stockholder, Wells Capital or a director or officer or any of their affiliates must agree not to vote their shares regarding (i) the removal of any of these affiliates or (ii) any transaction between them and us.

Ratification of Charter Provisions. Our charter requires that our board of directors and the conflicts committee review and ratify our charter by majority vote before the commencement of this offering.

Allocation of Investment Opportunities

When Wells Capital presents an investment opportunity to a Wells-sponsored program, it will offer the opportunity to the program for which the investment opportunity is most suitable. This determination is made by Wells Capital. However, our advisory agreement with Wells Capital requires that Wells Capital make this determination in a manner that is fair without favoring any other Wells-sponsored program. In determining the Wells-sponsored program for which an investment opportunity would be most suitable, Wells Capital will consider the following factors:

the investment objectives and criteria of each program;

the cash requirements of each program;

the effect of the acquisition both on diversification of each program's investments by type of commercial property and geographic area and on diversification of the tenants of its properties;

the policy of each program relating to leverage of properties;

the anticipated cash flow of each program;

the income tax effects of the purchase on each program;

the size of the investment; and

the amount of funds available to each program and the length of time such funds have been available for investment.

In the event that an investment opportunity becomes available which is equally suitable for us and one or more other Wells program, then Well Capital will offer the investment opportunity to the entity that has had the longest period of time elapse since it was offered an investment opportunity. If a subsequent event or development, such as a delay in the closing of a property or a delay in the construction of a property, causes any such investment, in the opinion of Wells Capital, to be more

Table of Contents

appropriate for another Wells program, Wells Capital may offer the investment to another Wells program.

Our advisory agreement with Wells Capital requires that Wells Capital periodically inform the conflicts committee of the investment opportunities it has offered to other Wells programs so that the conflicts committee can evaluate whether we are receiving our fair share of opportunities. Wells Capital is to inform the conflict committee of such investment opportunities quarterly. Wells Capital's success in generating investment opportunities for us and its fair allocation of opportunities among Wells programs are important criteria in the conflicts committee's determination to continue or renew our arrangements with Wells Capital and its affiliates. The conflicts committee has a duty to ensure that Wells Capital fairly applies its method for allocating investment opportunities among the Wells-sponsored programs.

INVESTMENT OBJECTIVES AND CRITERIA

General

We intend to invest in commercial real estate properties. Our primary investment objectives are:

to provide current income for you through the payment of cash dividends; and

to preserve and return your capital contributions.

We also seek capital gain from our investments.

We may return all or a portion of your capital contribution in connection with a sale of the company or the properties we will acquire. Alternatively, you may be able to obtain a return on all or a portion of your capital contribution in connection with the sale of your shares.

We will seek to list our shares of common stock when our independent directors believe listing would be in the best interest of our stockholders. If we do not list our shares of common stock on a national securities exchange or on the Nasdaq National Market by October 2017, our charter requires that we either:

seek stockholder approval of an extension or amendment of this listing deadline; or

seek stockholder approval of the liquidation of the corporation.

If we sought and did not obtain stockholder approval of an extension or amendment to the listing deadline, we would then be required to seek stockholder approval of our liquidation. If we sought and failed to obtain stockholder approval of our liquidation, our charter would not require

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form S-11/A

us to list or liquidate and we could continue to operate as before. If we sought and obtained stockholder approval of our liquidation, we would begin an orderly sale of our properties and distribute our net proceeds to you.

Our board may revise our investment policies, which we describe in more detail below, without the concurrence of our stockholders. Our conflicts committee will review our investment policies, which we discuss in detail below, at least annually to determine that our policies are in the best interest of our shareholders. Our charter requires that the conflicts committee include the basis for its determination in its minutes and in an annual report delivered to our stockholders.

Table of Contents

Acquisition and Investment Policies

Primary Investment Focus

We intend to invest primarily in high quality income-generating office and industrial properties, leased or preleased to creditworthy companies and governmental entities. We will invest in properties at all stages of development, from those under construction to those with established operating histories. As of June 30, 2003, our advisor had sponsored or advised public real estate programs that had acquired more than 20 million square feet of office and industrial buildings.

Wells Capital has developed specific standards for determining the creditworthiness of potential tenants of our properties. While authorized to enter into leases with any type of tenant, we anticipate that a majority of our tenants will be large corporations or other entities that have a net worth in excess of \$100,000,000 or whose lease obligations are guaranteed by another corporation or entity with a net worth in excess of \$100,000,000. In an attempt to limit or avoid speculative purchases, Wells Capital generally will seek to secure, on our behalf, leases with tenants at or prior to the closing of our acquisitions of properties.

Although we are not limited as to the geographic area where we may conduct our operations, we currently intend to invest in properties located in the United States. Generally, we will hold fee title or a long-term leasehold estate in the properties we acquire.

Other Possible Investments

Although we expect that most of our property acquisitions will be of the type described above, we may make other investments. For example, we may purchase warehouse and distribution facilities, shopping centers, business and industrial parks, manufacturing facilities, undeveloped land or options to purchase a particular property. We may also purchase mortgage loans. In fact, we can invest in whatever types of interests in real estate that we believe are in our best interests. Moreover, we are not limited in the number or size of properties we may acquire or on the percentage of net proceeds of this offering that we may invest in a single property.

Although we can purchase any type of interest in real estate, our charter does limit certain types of investments. Unless our charter is amended, we will not:

invest more than 10% of our total assets in unimproved property or mortgage loans on unimproved property, which we define as property not acquired for the purpose of producing rental or other operating income on which there is no development or construction in progress or planned to commence within one year;

make or invest in mortgage loans unless an appraisal is obtained concerning the underlying property, except for those mortgage loans insured or guaranteed by a government or government agency;

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form S-11/A

make or invest in mortgage loans, including construction loans, on any one property if the aggregate amount of all mortgage loans on such property would exceed an amount equal to 85% of the appraised value of such property as determined by appraisal unless substantial justification exists for exceeding such limit because of the presence of other underwriting criteria;

Table of Contents

invest in commodities or commodity futures contracts, except for futures contracts when used solely for the purpose of hedging in connection with our ordinary business of investing in real estate assets and mortgages;

invest in real estate contracts of sale, otherwise known as land sale contracts, unless the contract is in recordable form and is appropriately recorded in the chain of title; or

invest in equity securities unless the conflicts committee (by majority vote) approves such investment as being fair, competitive and commercially reasonable.

We do not intend to make loans to other persons (other than mortgage loans described below), to underwrite securities of other issuers or to engage in the purchase and sale of any types of investments other than interests in real estate.

Mortgage Loans

Although our charter permits us to make mortgage loans or to invest in mortgages within the limits described above, we generally do not intend to do so. We do not have a goal of investing any percentage of our assets in mortgages. Even if we have offering proceeds that cannot be invested in office properties immediately, we do not intend to invest those proceeds in mortgages. The circumstances in which we believe we may invest in mortgages or make mortgage loans are limited to the following:

the making of a mortgage loan required by a property owner as a condition to our purchase of a property;

the indirect acquisition of a mortgage by purchasing a property owner that also owns a mortgage; and

the acquisition of a mortgage with the view of acquiring the underlying property through foreclosure.

Investment Decisions

Wells Capital will have substantial discretion with respect to the selection of specific investments and the purchase and sale of our properties, subject to the approval of our conflicts committee. Our conflicts committee will review our investment policies at least annually to determine whether these policies continue to be in the best interests of our stockholders.

In pursuing our investment objectives and making investment decisions for us, Wells Capital will consider relevant real estate property and financial factors, including the creditworthiness of major tenants, the location of the property, its suitability for any development contemplated or in progress, its income-producing capacity, the prospects for long-range appreciation, liquidity and tax considerations. Moreover, to the extent feasible, Wells Capital will strive to invest in a diversified portfolio of properties for us based on geography, type of property and industry group of our tenants, although the number and mix of properties we acquire will largely depend upon real estate and market conditions and other circumstances existing at the time we are acquiring our properties and the amount of proceeds we raise in this offering.

To find properties that best meet our selection criteria for investment, Wells Capital's property acquisition team will study regional demographics and market conditions and interview local brokers to

Table of Contents

gain the practical knowledge that these studies sometimes lack. An experienced commercial construction engineer will inspect the structural soundness and the operating systems of each building, and an environmental firm will investigate all environmental issues to ensure each property meets our quality specifications.

Conditions to Closing Our Acquisitions

Generally, we will condition our obligation to close the purchase of any investment on the delivery and verification of certain documents from the seller or developer, including, where appropriate:

plans and specifications;

surveys;

evidence of marketable title, subject to such liens and encumbrances as are acceptable to Wells Capital;

title and liability insurance policies; and

financial statements covering recent operations of properties having operating histories.

Moreover, we will not close the purchase of any property unless and until we obtain an environmental assessment (Phase I review at a minimum) for each property purchased and are generally satisfied with the environmental status of the property.

Development and Construction of Properties

We may invest substantially all of the proceeds available for investment in properties on which improvements are to be constructed or completed. Because development of real estate properties is subject to risks relating to a builder's ability to control construction costs or to build in conformity with plans, specifications and timetables, we may help ensure performance by the builders of properties that are under construction at the price contracted by obtaining either an adequate completion bond or performance bond. As an alternative to a completion bond or performance bond, we may rely upon the substantial net worth of the contractor or developer or a personal guarantee, accompanied by financial statements showing a substantial net worth, provided by an affiliate of the person entering into the construction or development contract.

Moreover, we may directly employ one or more project managers to plan, supervise and implement the development of any unimproved properties that we may acquire. In such event, such persons would be compensated directly by us.

Tenant Improvements

We anticipate that tenant improvements required at the time of our acquisition of a property will be funded from our offering proceeds. However, at such time as a tenant of one of our properties does not renew its lease or otherwise vacates its space in one of our buildings, it is likely that, in order to attract new tenants, we will be required to expend substantial funds for tenant improvements and tenant refurbishments to the vacated space. Since we do not anticipate maintaining permanent working capital reserves, we may not have access to funds required in the future for tenant improvements and tenant refurbishments in order to attract new tenants to lease vacated space.

Table of Contents

Terms of Leases

The terms and conditions of any lease we enter into with our tenants may vary substantially from those we describe in this prospectus. However, we expect that a majority of our leases will be what we refer to as economically net leases. An economically net lease provides that in addition to making its lease payments, the tenant will be required to pay or reimburse us for all real estate taxes, sales and use taxes, special assessments, utilities, insurance and building repairs, and other building operation and management costs. We will probably be responsible for the replacement of specific structural components of a property such as the roof of the building or the parking lot. We expect that our leases will generally have terms of five or more years, some of which may have renewal options.

We may purchase properties and lease them back to the sellers of such properties. While we will use our best efforts to structure any such sale-leaseback transaction such that the lease will be characterized as a true lease, thereby allowing us to be treated as the owner of the property for federal income tax purposes, the IRS could challenge such characterization. In the event that any such sale-leaseback transaction is challenged and recharacterized as a financing transaction for federal income tax purposes, deductions for depreciation and cost recovery relating to such property would be disallowed.

We may also enter into arrangements with the seller or developer of a property whereby the seller or developer agrees that if during a stated period the property does not generate a specified cash flow, the seller or developer will pay in cash to us a sum necessary to reach the specified cash flow level, subject in some cases to negotiated dollar limitations.

Joint Venture Investments

In order to diversify our portfolio of assets, we are likely to enter into joint ventures for the acquisition, development or improvement of properties, including joint ventures with other Wells programs. We may also enter into joint ventures, partnerships, co-tenancies and other co-ownership arrangements or participations with real estate developers, owners and other affiliated third-parties for the purpose of developing, owning and operating real properties. In determining whether to invest in a particular joint venture, Wells Capital will evaluate the real property that such joint venture owns or is being formed to own under the same criteria described elsewhere in this prospectus for the selection of our real estate property investments.

Our policy is to invest in joint ventures only when we will have a right of first refusal to purchase the co-venturer's interest in the joint venture if the co-venturer elects to sell such interest. In the event that the co-venturer elects to sell property held in any such joint venture, however, we may not have sufficient funds to exercise our right of first refusal to buy the other co-venturer's interest in the property held by the joint venture. In the event that any joint venture with an affiliated entity holds interests in more than one property, the interest in each such property may be specially allocated based upon the respective proportion of funds invested by each co-venturer in each such property.

We may only enter into joint ventures with other Wells programs if our conflicts committee approves the transaction as being fair and reasonable to us. At such time as Wells Capital enters into a material joint venture with another Wells program, we will supplement this prospectus to disclose the terms of such investment transaction.

Section 1031 Exchange Program

Wells Development Corporation (Wells Development), an affiliate of Wells Management, our property manager, and Wells Capital, our advisor, intend to form a series of single member limited

Table of Contents

liability companies (each of which is referred to in this prospectus as Wells Exchange) for the purpose of facilitating the acquisition of real estate properties to be owned in co-tenancy arrangements with persons (1031 Participants) who are looking to invest the proceeds from a sale of real estate held for investment in another real estate investment for purposes of qualifying for like-kind exchange treatment under Section 1031 of the Internal Revenue Code. We anticipate that Wells Development will sponsor a series of private placement offerings of interests in limited liability companies owning co-tenancy interests in various properties to 1031 Participants.

Wells Development anticipates that properties acquired in connection with the Section 1031 Exchange Program will be financed by obtaining a new first mortgage secured by the property acquired. In order to finance the remainder of the purchase price for properties to be acquired by Wells Exchange, it is anticipated that Wells Exchange will obtain a short-term loan from an institutional lender for each property. Following its acquisition of a property, Wells Exchange will attempt to sell co-tenancy interests to 1031 Participants, the proceeds of which will be used to pay off the short-term loan. At the closing of each property to be acquired by Wells Exchange, Wells OP II, our operating partnership, may enter into a contractual arrangement providing that, in the event that Wells Exchange is unable to sell all of the co-tenancy interests in that particular property to 1031 Participants, Wells OP II will purchase, at Wells Exchange's purchase price, any co-tenancy interests remaining unsold. Wells OP II may execute an agreement providing for the potential purchase of the unsold co-tenancy interests from Wells Exchange only if our conflicts committee approves of the transaction as being fair, competitive and commercially reasonable to Wells OP II. The price to Wells OP II may be no greater than the cost of the co-tenancy interests to Wells Exchange unless the conflicts committee finds substantial justification for such excess and that such excess is reasonable. In addition, a fair market value appraisal for each property must be obtained from an independent expert selected by our conflicts committee, and in no event may Wells OP II purchase co-tenancy interests from an affiliate at a price that exceeds the current appraised value for the property interests. Moreover, Wells OP II may enter into one or more additional contractual arrangements obligating it to purchase co-tenancy interests in a particular property directly from the 1031 Participants. In consideration for such obligations, Wells Exchange would pay Wells OP II a fee in an amount currently anticipated to range between 1.0% and 1.5% of the amount of the short-term loan being obtained by Wells Exchange. These fees could be characterized by the Internal Revenue Service as non-qualifying income for purposes of satisfying the income tests required for REIT qualification. If this fee income were, in fact, treated as non-qualifying, and if the aggregate of such fee income and any other non-qualifying income in any taxable year ever exceeded 5.0% of our gross revenues for such year, we could lose our REIT status for that taxable year and the four ensuing taxable years. Our failure to qualify as a REIT would adversely affect your return on your investment. While we will monitor these fees and any other non-qualifying income, we could fail to satisfy this test.

In the event that Wells OP II has any obligation to acquire any interest in the property pursuant to the Section 1031 Exchange Program, our conflicts committee will be required to approve each acquisition. Accordingly, Wells Exchange intends to purchase only real estate properties that otherwise meet our investment objectives.

All purchasers of co-tenancy interests, including Wells OP II in the event that it is required to purchase co-tenancy interests, will be required to execute a tenants in common agreement with the other purchasers of co-tenancy interests in that particular property and a property management agreement providing for the property management and leasing of the property by Wells Management and the payment of property management and leasing fees to Wells Management. In the event that Wells OP II is required to purchase co-tenancy interests pursuant to one or more of these contractual arrangements, we will be subject to various risks associated with co-tenancy arrangements which are not otherwise present in real estate investments, such as the risk that the interests of the 1031 Participants will become adverse to our interests.

Table of Contents

Borrowing Policies

Our charter limits our borrowings to 50% of our cost (before deducting depreciation or other non-cash reserves) of all our assets unless any excess borrowing is approved by the conflicts committee (by majority vote) and is disclosed to our stockholders in our next quarterly report with an explanation from the conflicts committee of the justification for the excess borrowing. However, there is no limitation on the amount we may borrow for the purchase of any single property.

By operating on a leveraged basis, we would have more funds available for investment in properties, which would allow us to acquire a more diversified portfolio. Although our liability for the repayment of indebtedness is expected to be limited to the value of the property securing the liability and the rents or profits derived from the property, our use of leveraging increases the risk of default on the mortgage payments and a resulting foreclosure of a particular property. To the extent that we do not obtain mortgage loans on our properties, our ability to acquire additional properties will be restricted. When interest rates on mortgage loans are high or financing is otherwise unavailable on a timely basis, we may purchase certain properties for cash with the intention of obtaining a mortgage loan for a portion of the purchase price at a later time. Wells Capital will seek to obtain financing on our behalf on the most favorable terms available. Lenders may have recourse to assets not securing the repayment of the indebtedness.

Wells Capital will refinance properties during the term of a loan only in limited circumstances, such as when a decline in interest rates makes it beneficial to prepay an existing mortgage, when an existing mortgage matures or if an attractive investment becomes available and the proceeds from the refinancing can be used to purchase such investment. The benefits of the refinancing may include an increased cash flow resulting from reduced debt service requirements, an increase in dividend distributions from proceeds of the refinancing, if any, and/or an increase in property ownership if some refinancing proceeds are reinvested in real estate.

Disposition Policies

We intend to hold each property we acquire for an extended period. However, circumstances might arise which could result in the early sale of some properties. We may sell a property before the end of the expected holding period if we believe the sale of the property would be in the best interests of our stockholders.

The determination of whether a particular property should be sold or otherwise disposed of will be made after consideration of relevant factors, including prevailing economic conditions and current tenant creditworthiness, with a view to achieving maximum capital appreciation. We cannot assure you that this objective will be realized. The selling price of a property that is net leased will be determined in large part by the amount of rent payable under the lease. If a tenant has a repurchase option at a formula price, we may be limited in realizing any appreciation. In connection with our sales of properties we may lend the purchaser all or a portion of the purchase price. In these instances, our taxable income may exceed the cash received in the sale. The terms of payment will be affected by custom in the area in which the property being sold is located and the then-prevailing economic conditions.

Investment Limitations

Our charter places numerous limitations on us with respect to the manner in which we may invest our funds or issue securities. These limitations cannot be changed unless our charter is amended, which requires approval of our stockholders. Unless our charter is amended, we will not:

Table of Contents

borrow in excess of 50% of our aggregate cost (before deducting depreciation or other non-cash reserves) of all assets owned by us, unless approved by the conflicts committee (by majority vote);

make investments in unimproved property or mortgage loans on unimproved property in excess of 10% of our total assets;

make or invest in mortgage loans unless an appraisal is obtained concerning the underlying property, except for those mortgage loans insured or guaranteed by a government or government agency;

make or invest in mortgage loans, including construction loans, on any one property if the aggregate amount of all mortgage loans on such property would exceed an amount equal to 85% of the appraised value of such property as determined by appraisal unless substantial justification exists for exceeding such limit because of the presence of other underwriting criteria;

make an investment in a property or mortgage loan if the related acquisition fees and acquisition expenses are not reasonable or exceed 6% of the purchase price of the property or, in the case of a mortgage loan, 6% of the funds advanced; provided that the investment may be made if the conflicts committee determines (by majority vote) that the transaction is commercially competitive, fair and reasonable to us.

invest in equity securities unless the conflicts committee (by majority vote) approves such investment as being fair, competitive and commercially reasonable;

invest in real estate contracts of sale, otherwise known as land sale contracts, unless the contract is in recordable form and is appropriately recorded in the chain of title;

invest in commodities or commodity futures contracts, except for futures contracts when used solely for the purpose of hedging in connection with our ordinary business of investing in real estate assets and mortgages;

issue equity securities on a deferred payment basis or other similar arrangement;

issue debt securities in the absence of adequate cash flow to cover debt service;

issue equity securities that are assessable after we have received the consideration for which our board of directors authorized their issuance; or

issue equity securities redeemable solely at the option of the holder, which restriction has no effect on our discretionary share redemption program.

In addition, our charter includes many other investment limitations in connection with conflict-of-interest transactions, which limitations are described above under **Conflicts of Interest**. Our charter also includes restrictions on roll-up transactions, which are described under **Description of Shares** below.

Table of Contents

PLAN OF OPERATION

General

As of the date of this prospectus, we have not commenced operations. After the minimum subscription of 250,000 shares is achieved, subscription proceeds will be released to us and applied to investments in properties and other assets and the payment or reimbursement of selling commissions and other organization and offering expenses. See *Estimated Use of Proceeds*. We will experience a relative increase in liquidity as additional subscriptions for shares are received and a relative decrease in liquidity as net offering proceeds are expended in connection with the acquisition, development and operation of properties.

We have not entered into any arrangements to acquire any specific properties with the net proceeds from this offering. The number of properties we may acquire will depend upon the number of shares sold and the resulting amount of the net proceeds available for investment in properties.

We are not aware of any material trends or uncertainties, favorable or unfavorable, other than national economic conditions affecting real estate generally, that may be reasonably anticipated to have a material impact on either capital resources or the revenues or income to be derived from the acquisition and operation of real estate properties, other than those referred to in this prospectus.

Our advisor also may, but is not required to, establish reserves from gross offering proceeds, out of cash flow generated by operating properties or out of non-liquidating net sale proceeds from the sale of our properties. Working capital reserves are typically utilized for non-operating expenses such as tenant improvements, leasing commissions and major capital expenditures. Alternatively, a lender may require its own formula for escrow of working capital reserves.

The net proceeds of this offering will provide funds to enable us to purchase properties. We may acquire properties free and clear of permanent mortgage indebtedness by paying the entire purchase price of each property in cash or for equity securities, or a combination thereof, and we may selectively encumber all or certain properties, if favorable financing terms are available, following acquisition. The proceeds from such loans will be used to acquire additional properties, increase cash flow and provide further diversity. In addition, we intend to borrow funds to purchase properties. In the event that this offering is not fully sold, our ability to diversify our investments may be diminished.

We intend to make an election under Section 856(c) of the Internal Revenue Code to be taxed as a REIT under the Internal Revenue Code, beginning with the taxable year ended December 31, 2003. If we qualify as a REIT for federal income tax purposes, we generally will not be subject to federal income tax on income that we distribute to our stockholders. If we fail to qualify as a REIT in any taxable year, we will be subject to federal income tax on our taxable income at regular corporate rates and will not be permitted to qualify for treatment as a REIT for federal income tax purposes for four years following the year in which our qualification is denied. Such an event could materially and adversely affect our net income. However, we believe that we are organized and operate in a manner that will enable us to qualify for treatment as a REIT for federal income tax purposes during the year ended December 31, 2003, and we intend to continue to operate so as to remain qualified as a REIT for federal income tax purposes.

We will monitor the various qualification tests that we must meet to maintain our status as a REIT. Ownership of our shares will be monitored to ensure that no more than 50.0% in value of our outstanding shares is owned, directly or indirectly, by five or fewer individuals at any time. We will also determine, on a quarterly basis, that the gross income, asset and distribution tests as described in the

Table of Contents

section of this prospectus entitled Federal Income Tax Considerations - Requirements for Qualification are met.

Liquidity and Capital Resources

Our principal demands for funds will be for property acquisitions, either directly or through investment interests, for the payment of operating expenses and dividends, and for the payment of interest on our outstanding indebtedness and other investments. Generally, cash needs for items other than property acquisitions will be met from operations, and cash needs for property acquisitions will be funded by public offerings of our shares. However, there may be a delay between the sale of our shares and our purchase of properties, which could result in a delay in the benefits to our stockholders, if any, of returns generated from our investment operations. Our advisor will evaluate potential additional property acquisitions and engage in negotiations with sellers and borrowers on our behalf. After a purchase contract is executed that contains specific terms, the property will not be purchased until the successful completion of due diligence, which includes review of the title insurance commitment, an appraisal and an environmental analysis. In some instances, the proposed acquisition will require the negotiation of final binding agreements, which may include financing documents. During this period, we may decide to temporarily invest any unused proceeds from the offering in certain investments that could yield lower returns than the properties. These lower returns may affect our ability to make distributions.

Potential future sources of capital include proceeds from secured or unsecured financings from banks or other lenders, proceeds from the sale of properties and undistributed funds from operations. If necessary, we may use financings or other sources of capital in the event of unforeseen significant capital expenditures. We have not identified sources of such financing currently.

Results of Operations

As of the date of this prospectus, we have commenced no significant operations because we are in our organizational and development stage. No operations will commence until we have sold at least 250,000 shares of our common stock (\$2,500,000) in this offering. Our management is not aware of any material trends or uncertainties, other than national economic conditions affecting real estate generally, that may reasonably be expected to have a material impact, favorable or unfavorable, on revenues or income from the acquisition and operations of real properties, other than those referred to in this prospectus.

Inflation

The real estate market has not been affected significantly by inflation in the past three years due to the relatively low inflation rate. However, we expect that there will be provisions in the majority of our tenant leases which would protect us from the impact of inflation. These provisions include reimbursement billings for operating expense pass-through charges, real estate tax and insurance reimbursements on a per square foot basis, or in some cases, annual reimbursement of operating expenses above a certain per square foot allowance. However, due to the long-term nature of the leases, the leases may not re-set frequently enough to cover inflation.

Critical Accounting Policies

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form S-11/A

Our accounting policies have been established to conform with GAAP. The preparation of financial statements in conformity with GAAP requires management to use judgment in the application of accounting policies, including making estimates and assumptions. These judgments affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the

Table of Contents

financial statements and the reported amounts of revenue and expenses during the reporting periods. If management’s judgment or interpretation of the facts and circumstances relating to various transactions had been different, it is possible that different accounting policies would have been applied or different amounts of assets, liabilities, revenues and expenses would have been recorded, thus resulting in a different presentation of the financial statements or different amounts reported in the financial statements. Additionally, other companies may utilize different estimates that may impact comparability of our results of operations to those of companies in similar businesses.

Below is a discussion of the accounting policies that management considers to be critical once we commence operations in that they may require complex judgment in their application or require estimates about matters that are inherently uncertain.

Investment in Real Estate Assets

We will be required to make subjective assessments as to the useful lives of our depreciable assets. We consider the period of future benefit of the asset to determine the appropriate useful lives. These assessments have a direct impact on net income. We anticipate the estimated useful lives of our assets by class to be as follows:

Building	25 years
Building improvements	10-25 years
Land improvements	20-25 years
Tenant Improvements	Lease term

In the event that inappropriate useful lives or methods are used for depreciation, our net income would be misstated.

Valuation of Real Estate Assets

We will continually monitor events and changes in circumstances that could indicate that the carrying amounts of the real estate assets, both operating properties and properties under construction, in which we have an ownership interest, either directly or through investments in joint ventures, may not be recoverable. When indicators of potential impairment are present which indicate that the carrying amounts of real estate assets may not be recoverable, we will assess the recoverability of the real estate assets by determining whether the carrying value of the real estate assets will be recovered through the undiscounted future operating cash flows expected from the use of the asset and its eventual disposition. In the event that such expected undiscounted future cash flows do not exceed the carrying value, we will adjust the real estate assets to the fair value and recognize an impairment loss.

Projections of expected future cash flows requires us to estimate future market rental income amounts subsequent to the expiration of current lease agreements, property operating expenses, discount rates, the number of months it takes to re-lease the property and the number of years the property is held for investment. The use of inappropriate assumptions in the future cash flow analysis would result in an incorrect assessment of the property’s future cash flows and fair value and could result in the overstatement of the carrying value of our real estate assets and net income.

Allocation of Purchase Price of Acquired Assets

Upon the acquisition of real properties, we will allocate the purchase price of properties to acquired tangible assets, consisting of land and building, and identified intangible assets and liabilities, consisting of the value of above-market and below-market leases, other value of in-place leases and value of tenant relationships, based in each case on their fair values.

Table of Contents

The fair values of the tangible assets of an acquired property (which includes land and building) will be determined by valuing the property as if it were vacant, and the as-if-vacant value is then allocated to land and building based on our determination of the relative fair value of these assets. We will determine the as-if vacant fair value of a property using methods similar to those used by independent appraisers. Factors considered by us in performing these analyses will include an estimate of carrying costs during the expected lease-up periods considering current market conditions and costs to execute similar leases. In estimating carrying costs, we will include real estate taxes, insurance, and other operating expenses and estimates of lost rental revenue during the expected lease-up periods based on current market demand. We will also estimate cost to execute similar leases including leasing commissions, legal and other related costs.

In allocating fair value of the identified intangible assets and liabilities of an acquired property, above-market and below-market in-place lease values will be recorded based on the present value (using and interest rate which reflects the risks associated with the leases acquired) of the difference between (i) the contractual amounts to be paid pursuant to the in-place leases and (ii) our estimate of fair market lease rates for the corresponding in-place leases, measured over a period equal to the remaining non-cancelable term of the lease. The capitalized above-market lease values will be amortized as a reduction of rental income over the remaining non-cancelable terms of the respective leases. The capitalized below-market lease values will be amortized as an increase to rental income over the initial term and any fixed rate renewal periods in the respective leases.

The aggregate value of other acquired intangible assets, consisting of in-place leases and tenant relationships, will be measured by the excess of (i) the purchase price paid for a property after adjusting existing in-place leases to market rental rates over (ii) the estimated fair value of the property as if vacant, determined as set forth above. This aggregate value will be allocated between in-place lease values and tenant relationships based on our evaluation of the specific characteristics of each tenant's lease. Should future acquisitions of properties result in allocating material amounts to the value of tenant relationships, an amount will be separately allocated and amortized over the estimated life of the relationship. The value of in-place leases exclusive of the value of above-market and below-market in-place leases will be amortized to expense over the remaining non-cancelable periods of the respective leases. If a lease were to be terminated prior to its stated expiration, all unamortized amounts relating to that lease will be written off.

The determination of the fair values of the assets and liabilities acquired requires the use of significant assumptions with regard to the current market rental rates, rental growth rates, discount rates and other variables. If inappropriate estimates with regard to these variables are used, misclassification of assets or liabilities and incorrect calculation of depreciation and amortization amounts would occur which would misstate our net income.

Distributions

The amount of dividends to be distributed to our stockholders will be determined by our board of directors and is dependent on a number of factors, including funds available from our operations, capital expenditure requirements and annual distribution requirements needed to maintain our status as a REIT under the Internal Revenue Code.

Table of Contents

PRIOR PERFORMANCE SUMMARY

The information presented in this section represents the historical experience of real estate programs managed by Wells Capital, our advisor, and its affiliates in the last 10 years. Investors should not assume that they will experience returns, if any, comparable to those experienced by investors in such prior Wells real estate programs.

Our advisor, Wells Capital, has served as a general partner of a total of 14 completed publicly offered real estate limited partnerships, eight of which completed their public offerings in the last 10 years. These eight limited partnerships and the year in which each of their offerings was completed are:

1. Wells Real Estate Fund VI, L.P. (1994),
2. Wells Real Estate Fund VII, L.P. (1995),
3. Wells Real Estate Fund VIII, L.P. (1996),
4. Wells Real Estate Fund IX, L.P. (1996),
5. Wells Real Estate Fund X, L.P. (1997),
6. Wells Real Estate Fund XI, L.P. (1998),
7. Wells Real Estate Fund XII, L.P. (2001), and
8. Wells Real Estate Fund XIII, L.P. (2003).

The Prior Performance Tables in this prospectus set forth information as of the dates indicated regarding certain of these Wells public programs as to: (1) experience in raising and investing funds (Table I); (2) compensation to sponsor (Table II); (3) annual operating results of prior programs (Table III); and (4) sales or disposals of properties (Table V).

In addition to the foregoing real estate limited partnerships, Wells Capital and its affiliates have sponsored four public offerings of shares of common stock of Wells Real Estate Investment Trust, Inc., which we refer to as Wells REIT I. Wells REIT I's initial public offering commenced on January 30, 1998 and terminated on December 19, 1999. Wells REIT I received gross proceeds of approximately \$132,181,919 from the sale of approximately 13,218,192 shares from its initial public offering. Wells REIT I's second public offering commenced on December 20, 1999 and terminated on December 19, 2000. Wells REIT I received gross proceeds of approximately \$175,229,193 from the sale of approximately 17,522,919 shares from the second public offering. Wells REIT I's third public offering commenced on December 19, 2000 and terminated on July 26, 2002. Wells REIT I received gross proceeds of approximately \$1,282,976,865 from the sale of approximately 128,297,687 shares from the third public offering. Wells REIT I commenced its fourth public offering on July 26, 2002. As of December 31, 2002, Wells REIT I had received gross proceeds of approximately \$587,134,594 from the sale of approximately 58,713,459 shares from its fourth public offering. Accordingly, as of December 31, 2002, Wells REIT I had received aggregate gross offering proceeds of approximately \$2,156,998,116 from the sale of 215,699,812 shares of its common stock to 58,136 investors.

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form S-11/A

Wells Capital and its affiliates are also currently sponsoring a public offering of 4,500,000 units on behalf of Wells Real Estate Fund XIV, L.P. (Wells Fund XIV), a public limited partnership. Wells Fund XIII began its offering on May 14, 2003. As of August 15, 2003, Wells Fund XIV had raised a total of \$5,522,254 in offering proceeds.

In addition to the public real estate programs sponsored by our advisor and its affiliates discussed above, Wells Management intends to form a series of limited liability companies (each of which we refer to as Wells Exchange) for the purpose of facilitating the acquisition of real estate properties to be owned in co-tenancy arrangements with persons (1031 Participants) who are looking to invest the proceeds from a sale of real estate held for investment in another real estate investment for purposes of

Table of Contents

qualifying for like-kind exchange treatment under Section 1031 of the Internal Revenue Code. We anticipate that Wells Exchange will sponsor a series of private placement offerings of interests in limited liability companies owning co-tenancy interests in various properties to 1031 Participants. To date, Wells Exchange has sponsored and completed only one such offering. In this offering, Wells Exchange raised \$13,100,000 in proceeds from a total of nine investors, the proceeds of which were used to acquire co-tenancy interests in an office building located in Colorado Springs, Colorado. This offering is the only private program sponsored by Wells Capital or its affiliates within the last 10 years.

Since December 31, 1999, the Wells public programs previously sponsored by our advisor and its affiliates have acquired 55 properties located in 21 states. Of these properties acquired, approximately 70.9% of these properties were single-tenant office or industrial buildings and 29.1% were multi-tenant office or industrial buildings. In addition, approximately 21.8% of these properties were new properties, 72.7% were existing or used properties and 5.5% were construction properties. All of these properties purchased in which a Wells public partnership owned any interest were purchased without borrowing any additional funds. Table VI contained in Part II of the registration statement, which is not part of this prospectus, gives certain additional information relating to properties acquired by the Wells public programs, including applicable mortgage financing on properties purchased by Wells REIT I.

In addition to the real estate programs sponsored by our advisor discussed above, our advisor is also sponsoring an index mutual fund which invests in various REIT stocks known as the Wells S&P REIT Index Fund. The REIT Index Fund is a mutual fund which seeks to provide investment results corresponding to the performance of the S&P REIT Index by investing in the REIT stocks included in the S&P REIT Index. The REIT Index Fund began its offering on January 12, 1998, and as of December 31, 2002, the REIT Index Fund had raised offering proceeds net of redemptions of \$131,774,458 from 7,726 investors.

Publicly Offered Unspecified Real Estate Programs

General

Wells Capital and its affiliates have previously sponsored the above listed eight publicly offered real estate limited partnerships and are currently sponsoring Wells Fund XIV and Wells REIT I on an unspecified property or blind pool basis. As of December 31, 2002, the total amount of funds raised from investors in these eight completed offerings and the ongoing Wells REIT I offering (Wells Fund XIV did not commence its initial offering until May 14, 2003) was approximately \$2.4 billion and the total number of investors in such programs was approximately 80,000.

The investment objectives of each of these Wells programs are substantially identical to our investment objectives. Substantially all of the proceeds of the offerings of these programs that are available for investment in real properties have been so invested. As of December 31, 2002, approximately 87% of the aggregate gross rental income of the properties purchased by Wells public programs since January 1, 1994 was derived from corporate tenants, which at the time of lease execution had a net worth of at least \$100,000,000 or whose lease obligations were guaranteed by another entity having a net worth of at least \$100,000,000.

Wells-sponsored programs have occasionally been adversely affected by the cyclical nature of the real estate market. Some Wells programs invested funds in properties at the high end of a real estate cycle, resulting in sales of such properties for less than their purchase price. In addition, some Wells public programs have owned properties that have experienced long periods of time when no tenants were paying rent. Such occurrences have been sporadic, however.

Table of Contents

From the inception of the first Wells public program through December 31, 2002, the Wells public programs had sold four properties and one outparcel of land. No assurance can be made that any of the Wells public programs will ultimately be successful in meeting their investment objectives.

The aggregate dollar amount of the acquisition and development costs of the 91 properties purchased by the nine sponsored Wells public programs in the last 10 years (other than Wells Fund XIV), as of December 31, 2002, was approximately \$12.4 billion of which approximately \$36.5 million (or approximately 1.5%) had not yet been expended on the development of certain of the projects which are still under construction. Of the aggregate amount, approximately 98.34% was or will be spent on acquiring or developing office or industrial buildings, and approximately 1.66% was or will be spent on acquiring or developing shopping centers. Of the aggregate amount, approximately 23.11% was or will be spent on new properties, 68.63% on existing or used properties and 8.26% on construction properties. Following is a table showing a breakdown of the aggregate amount of the acquisition and development costs of the properties purchased by these nine Wells public programs as of December 31, 2002:

<u>Type of Property</u>	<u>New</u>	<u>Used</u>	<u>Construction</u>
Office and Industrial Buildings	22.82%	68.21%	7.31%
Shopping Centers	0.29%	0.42%	0.95%

Summary of the Wells Public Programs

Wells Fund VI terminated its offering on April 4, 1994, and received gross proceeds of \$25,000,000 representing subscriptions from 1,793 limited partners (\$19,332,176 of the gross proceeds were attributable to sales of Class A Units, and \$5,667,824 of the gross proceeds were attributable to sales of Class B Units). Limited partners in Wells Fund VI are entitled to change the status of their units from Class A to Class B and vice versa. After taking into effect conversion elections made by limited partners subsequent to their subscription for units, as of December 31, 2002, \$22,687,161 of units of Wells Fund VI were treated as Class A Units, and \$2,313,227 of units were treated as Class B Units. As of December 31, 2002, Wells Fund VI owned interests in the following properties:

<u>Property Name</u>	<u>Location</u>	<u>Property Type</u>	<u>Major Tenant(s)</u>
Hartford	Hartford, CT	four-story office building	Hartford Fire Insurance Company
Stockbridge Village II	Stockbridge, GA	restaurant properties	multiple tenants
Stockbridge Village I Expansion	Stockbridge, GA	restaurant and retail building	multiple tenants
Stockbridge Village III	Stockbridge, GA	shopping center	multiple tenants
Marathon	Appleton, WI	three-story office building	Jaakko Poyry Fluor Daniel
Holcomb Bridge	Roswell, GA	retail center and office development	multiple tenants
BellSouth	Jacksonville, FL	four-story office building	BellSouth Advertising and Publishing Corporation and American Express Travel Related Services, Inc.
Tanglewood Commons	Clemmons, NC	shopping center	Harris Teeter, Inc.

Holcomb Bridge was 40% vacant as of December 31, 2002. The general partners of Wells Fund VI are actively attempting to find new tenants for this space.

As of December 31, 2002, Wells Fund VI had sold its interest in the following properties from its portfolio:

Table of Contents

<i>Date of Sale</i>	<i>Property Name</i>	<i>Purchase Price</i>	<i>Net Sale Price</i>	<i>Wells</i>	<i>Wells</i>	<i>Wells</i>
				<i>Fund VI</i>	<i>Fund VI</i>	<i>Fund VI</i>
				<i>% Ownership</i>	<i>Net Sale Proceeds</i>	<i>Taxable Gain</i>
Oct. 1, 2001	Cherokee Commons	\$ 10,650,750	\$ 8,434,089	11%	\$ 927,750	\$ 21,867
Oct. 7, 2002	Tanglewood Commons (outparcel only)	\$ 506,326	\$ 524,398	34%	\$ 178,295	\$ 6,144

The net sale proceeds generated from the above sale of Cherokee Commons and the outparcel of Tanglewood Commons are anticipated to be utilized by the general partners of Wells Fund VI to fund anticipated tenant improvements and other leasing costs associated with re-leasing Holcomb Bridge and are being retained to fund expansion costs, tenant improvements and leasing costs associated with a contemplated potential expansion of the Tanglewood Commons property.

Wells Fund VII terminated its offering on January 5, 1995, and received gross proceeds of \$24,180,174 representing subscriptions from 1,910 limited partners (\$16,788,095 of the gross proceeds were attributable to sales of Class A Units, and \$7,392,079 of the gross proceeds were attributable to sales of Class B Units). Limited partners in Wells Fund VII are entitled to change the status of their units from Class A to Class B and vice versa. After taking into effect conversion elections made by limited partners subsequent to their subscriptions for units, as of December 31, 2002, \$20,925,476 of units in Wells Fund VII were treated as Class A Units, and \$3,254,699 of units were treated as Class B Units.

As of December 31, 2002, Wells Fund VII owned interests in the following properties:

<i>Property Name</i>	<i>Location</i>	<i>Property Type</i>	<i>Major Tenant(s)</i>
Marathon	Appleton, WI	three-story office building	Jaakko Poyry Fluor Daniel
Stockbridge Village I Expansion	Stockbridge, GA	restaurant and retail building	multiple tenants
Stockbridge Village III	Stockbridge, GA	shopping center	multiple tenants
Holcomb Bridge	Roswell, GA	retail center and office development	multiple tenants
CH2M Hill	Gainesville, FL	two-story office building	CH2M Hill and Affiliated Engineers
BellSouth	Jacksonville, FL	four-story office building	BellSouth Advertising and Publishing Corporation and American Express Travel Related Services, Inc.
Tanglewood Commons	Clemmons, NC	shopping center	Harris Teeter, Inc.
Hannover Center	Stockbridge, GA	retail development	multiple tenants

Holcomb Bridge was 40% vacant as of December 31, 2002. The general partners of Wells Fund VII are actively attempting to find new tenants for this space.

As of December 31, 2002, Wells Fund VII had sold its interest in the following properties from its portfolio:

Selected financial information for Wells REIT I is summarized below:

	2002	2001	2000	1999	1998
Gross Revenues	\$ 139,969,246	\$ 49,308,802	\$ 23,373,206	\$ 6,495,395	\$ 395,178
Net Income	\$ 60,866,964	\$ 21,723,967	\$ 8,552,967	\$ 3,884,649	\$ 334,034
Dividends per \$1,000 Invested	\$ 75	\$ 76	\$ 73	\$ 70	\$ 31

Table of Contents

The information set forth above should not be considered in any way indicative of results to be expected from us.

All of the properties acquired by the above Wells public programs, except for those acquired solely by Wells REIT I, were purchased and developed on an all cash basis.

Potential investors are encouraged to examine the Prior Performance Tables in this prospectus for more detailed information regarding the prior experience of Wells Capital and its affiliates. In addition, upon request, prospective investors may obtain from Wells Capital without charge copies of offering materials and any reports prepared in connection with any of the Wells public programs, including a copy of the most recent Annual Report on Form 10-K filed with the SEC. For a reasonable fee, we will also furnish upon request copies of the exhibits to any such Form 10-K. Any such request should be directed to Wells Capital. Additionally, Table VI contained in Part II of the registration statement, which is not part of this prospectus, gives certain additional information relating to properties acquired by the Wells public programs. We will furnish, without charge, copies of such table upon request.

FEDERAL INCOME TAX CONSIDERATIONS

The following summary describes the material federal income tax considerations to us and our stockholders relating to this registration statement and the treatment of us as a REIT. The summary is not intended to represent a detailed description of the federal income tax consequences applicable to a particular stockholder in view of such stockholders' particular circumstances nor is it intended to represent a detailed description of the federal income tax consequences applicable to certain types of stockholders subject to special treatment under the federal income tax laws (such as insurance companies, financial institutions, broker-dealers, and, except to the extent discussed below, tax-exempt organizations and non-U.S. persons). This summary does not address state, local or non-U.S. tax considerations. Also, this summary deals only with our stockholders that hold common stock as capital assets within the meaning of Section 1221 of the Internal Revenue Code (the Code).

We base the information in this section on the current Code, current, temporary and proposed Treasury regulations, the legislative history of the Code and current administrative interpretations of the Internal Revenue Service (the IRS), including its practices and policies as endorsed in private letter rulings, which are not binding on the IRS and existing court decisions. Future legislation, regulations, administrative interpretations and court decisions could change current law or adversely affect existing interpretations of current law. Any change could apply retroactively. We have not obtained any rulings from the IRS concerning the tax treatment of the matters discussed below. Thus, it is possible that the IRS could challenge the statements in this discussion, which do not bind the IRS or the courts, and that a court could agree with the IRS.

Each investor is advised to consult his or her own tax advisor regarding the tax consequences to him or her of the purchase, ownership and sale of the offered stock, including the federal, state, local, foreign and other tax consequences of such purchase, ownership, or sale and of potential changes in applicable tax laws.

Federal Income Taxation of the Company

Beginning with our taxable year that will end December 31, 2003, we intend to elect to be taxed as a REIT under Sections 856 through 860 of the Code. We believe that beginning with that taxable year

Table of Contents

we have been organized and have operated in a manner to qualify for taxation as a REIT under the Code, and we intend to continue to operate in such a manner. We can provide no assurance, however, that we have operated or will operate in a manner so as to qualify or remain qualified as a REIT.

The sections of the Code relating to qualification and operation as a REIT are highly technical and complex. The following discussion sets forth the material aspects of the Code sections that govern the federal income tax treatment of a REIT and its stockholders. This summary is qualified in its entirety by the applicable Code provisions, relevant rules and regulations and administrative and judicial interpretations of Code provisions and regulations. We have not requested a ruling from the IRS with respect to any issues relating to our qualification as a REIT. Therefore, we can provide no assurance that the IRS will not challenge our REIT status.

Alston & Bird LLP has acted as tax counsel to us in connection with this offering. Alston & Bird LLP is of the opinion that based on our proposed method of operation, we are in a position to qualify for taxation as a REIT for the taxable year that will end December 31, 2003. Alston & Bird's opinion is based solely on our representations with respect to factual matters concerning our business operations and our properties. Alston & Bird LLP has not independently verified these facts. In addition, our qualification as a REIT depends, among other things, upon our meeting the requirements of Sections 856 through 860 of the Code throughout each year. Accordingly, because our satisfaction of such requirements will depend upon future events, including the final determination of financial and operational results, no assurance can be given that we will satisfy the REIT requirements during the taxable year that will end December 31, 2003, or in any future year.

If we qualify as a REIT, we generally will not be subject to federal income tax on the taxable income that we distribute to our stockholders each year. The benefit of that tax treatment is that it avoids the double taxation, or taxation at both the corporate and stockholder levels, that generally results from owning stock in a corporation. However, we will be subject to federal tax in the following circumstances:

First, we will be taxed at regular corporate rates on our undistributed REIT taxable income, including undistributed net capital gains.

Second, we may be subject to the alternative minimum tax on our items of tax preference.

Third, if we have net income from foreclosure property held primarily for sale to customers in the ordinary course of business, including income from the sale or other disposition of such property, we will be subject to tax at the highest corporate rate on such income to the extent that it does not constitute qualifying income for purposes of the 75% income test (discussed below).

Fourth, if we have net income from prohibited transactions (which are, in general, certain sales or other dispositions of property that is held primarily for sale to customers in the ordinary course of business but that is not foreclosure property), we will be subject to a 100% tax on such income.

Fifth, if we fail to satisfy either the 75% or 95% gross income test (discussed below) but have nonetheless maintained our qualification as a REIT because certain other safe harbor requirements have been met, we will be subject to a 100% tax on the net income attributable to (1) the greater of (a) the amount by which we fail the 75% income test or (b) the amount by which 90% of our gross income exceeds the amount of income qualifying for the 95% income test, multiplied by (2) a fraction intended to reflect our profitability.

Sixth, if we fail to distribute each year at least the sum of:

Table of Contents

- (1) 85% of our ordinary income for such year;
- (2) 95% of our capital gain net income for such year; and
- (3) any undistributed taxable income from prior periods,

then we will be subject to a 4% excise tax on the excess of the required distribution over the sum of (a) the amounts actually distributed and (b) retained amounts on which income tax is paid at the corporate level.

Seventh, if we acquire any asset from a corporation generally subject to full corporate-level tax in a carryover-basis transaction and we subsequently recognize gain on the disposition of such asset during the 10-year period beginning on the date on which we acquired the asset, then we generally will be subject to tax at the highest regular corporate rate on the lesser of the amount of gain that we recognize at the time of the sale or disposition and the amount of gain that we would have recognized if we had sold the asset at the time we acquired the asset, pursuant to guidelines issued by the IRS (the Built-In Gain Rules).

Eighth, subject to certain exceptions, we will be subject to a 100% tax if our transactions with our taxable REIT subsidiaries are not at arm's length, i.e. transactions in good faith by parties with independent interests under no compulsion to act.

Requirements for Qualification

To qualify as a REIT, we must elect to be treated as a REIT and must meet the requirements, discussed below, relating to our organization, sources of income and nature of assets.

Organizational Requirements

The Code defines a REIT as a corporation, trust or association that:

- (1) is managed by one or more trustees or directors;
- (2) uses transferable shares or transferable certificates to evidence beneficial ownership;
- (3) would be taxable as a domestic corporation but for Sections 856 through 860 of the Code;
- (4) is neither a financial institution nor an insurance company within the meaning of the applicable provisions of the Code;

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form S-11/A

- (5) has at least 100 persons as beneficial owners;
- (6) during the last half of each taxable year, is not closely held, i.e., not more than 50% of the value of the outstanding stock is owned, directly or indirectly, by five or fewer individuals, as defined in the Code to include certain entities;
- (7) files an election or continues such election to be taxed as a REIT on its return for each taxable year; and

Table of Contents

- (8) meets other tests described below, including with respect to the nature of its assets and income.

The Code provides that conditions (1) through (4) must be met during the entire taxable year and that condition (5) must be met during at least 335 days of a taxable year of 12 months or during a proportionate part of a taxable year of less than 12 months. For purposes of condition (6), an individual generally includes a supplemental unemployment compensation benefit plan, a private foundation, or a portion of a trust permanently set aside or used exclusively for charitable purposes, but does not include a qualified pension plan or profit sharing trust. Our beneficial ownership is evidenced by transferable shares. However, our charter currently includes certain restrictions regarding transfer of our common stock, which are intended (among other things) to assist us in continuing to satisfy conditions (5) and (6) noted above. We do not believe these restrictions cause our shares to be nontransferable within the meaning of Section 856(a)(2).

To monitor compliance with the share ownership requirements, the federal tax laws require us to maintain records regarding the actual ownership of our shares. To do so, we must require written statements each year from the record holders of significant percentages of our stock in which the record holders are to disclose the actual owners of the shares, i.e., the persons required to include in gross income the dividends paid by us. A list of those persons failing or refusing to comply with this requirement must be maintained as part of our records. Failure by us to comply with these record-keeping requirements could subject us to monetary penalties. A stockholder that fails or refuses to comply with the demand is required by Treasury regulations to submit a statement with its tax return disclosing the actual ownership of the shares and other information. If we satisfy these requirements and have no reason to know that condition (6) is not satisfied, we will be deemed to have satisfied such condition.

As a REIT, we are subject to other recordkeeping and reporting requirements, including, for example, information relating to activities performed by independent contractors and distributions.

In addition, a corporation generally may not elect to become a REIT unless its taxable year is the calendar year. We satisfy this requirement.

If a REIT owns a corporate subsidiary that is a qualified REIT subsidiary, the separate existence of that subsidiary will be disregarded for federal income tax purposes. Generally, a qualified REIT subsidiary is a corporation, other than a taxable REIT subsidiary, all of the capital stock of which is owned by the REIT. All assets, liabilities and items of income, deduction and credit of the qualified REIT subsidiary will be treated as assets, liabilities and items of income, deduction and credit of the REIT itself. A qualified REIT subsidiary of ours will not be subject to federal corporate income taxation, although it may be subject to state and local income taxation in some states. Other entities that are wholly owned by a REIT, including single member limited liability companies, are also generally disregarded as a separate entities for federal income tax purposes, including for purposes of the REIT income and asset tests.

A taxable REIT subsidiary of ours is a corporation in which we directly or indirectly own stock and that elects, together with us, to be treated as a taxable REIT subsidiary of ours. In addition, if a taxable REIT subsidiary of ours owns, directly or indirectly, securities representing 35% or more of the vote or value of a subsidiary corporation, that subsidiary will automatically be treated as a taxable REIT subsidiary of ours. A taxable REIT subsidiary is subject to federal income tax, and state and local income tax where applicable, as a regular C corporation.

Generally, a taxable REIT subsidiary can perform some impermissible tenant services without causing us to receive impermissible tenant services income under the REIT income tests. However,

Table of Contents

several provisions regarding the arrangements between a REIT and its taxable REIT subsidiaries ensure that a taxable REIT subsidiary will be subject to an appropriate level of federal income taxation. For example, the Code limits the ability of a taxable REIT subsidiary to deduct interest payments in excess of a certain amount made to us. In addition, we must pay a 100% tax on some payments that we receive or on certain expenses deducted by the taxable REIT subsidiary if the economic arrangements between us, our tenants and the taxable REIT subsidiary are not comparable to similar arrangements among unrelated parties. We cannot assure you that our taxable REIT subsidiary will not be limited in its ability to deduct interest payments (if any) made to us. In addition, we cannot assure you that the IRS might not seek to impose the 100% tax on services performed by our taxable REIT subsidiary for tenants of ours, or on a portion of the payments received by us from, or expenses deducted by, our taxable REIT subsidiaries. Moreover, all of our taxable REIT subsidiaries cannot total more than 20% of the total value of our assets.

In the case of a REIT that is a partner in a partnership, Treasury Regulations provide that the REIT will be deemed to own its proportionate share of the assets of the partnership and will be deemed to be entitled to the income of the partnership attributable to such share. In addition, the character of the assets and gross income of the partnership retain the same character in the hands of the REIT. Thus, our proportionate share of the assets, liabilities and items of income of Wells OP II will be treated as our assets, liabilities and items of income for purposes of applying and meeting the various REIT requirements. In addition, Wells OP II's proportionate share of the assets, liabilities and items of income with respect to any partnership (including any limited liability company treated as a partnership) in which it holds an interest would be considered assets, liabilities and items of income of Wells OP II for purposes of applying and meeting the various REIT requirements.

Income Tests

To maintain qualification as a REIT, we must meet two gross income requirements annually. First, we must derive directly or indirectly at least 75% of our gross income (excluding gross income from prohibited transactions) from investments relating to real property, including investments in other REITs or mortgages on real property (including rents from real property and, in certain circumstances, interest). Second, we must derive at least 95% of our gross income (excluding gross income from prohibited transactions) from the real property investments described in the preceding sentence as well as from dividends, interest, or gain from the sale or disposition of stock or securities (or from any combination of the foregoing).

Prior to the making of investments in properties, we may satisfy the 75% gross income test and the 95% income test by investing in liquid assets such as government securities or certificates of deposit, but earnings from those types of assets are qualifying income under the 75% gross income test only for one year from the receipt of proceeds. Accordingly, to the extent that offering proceeds have not been invested in properties prior to the expiration of this one year period, in order to satisfy the 75% gross income test, we may invest the offering proceeds in less liquid investments approved by our board of directors such as mortgage-backed securities or shares in other REITs. We intend to trace offering proceeds received for purposes of determining the one year period for new capital investments. No rulings or regulations have been issued under the provisions of the Code governing new capital investments, however, so that there can be no assurance that the IRS will agree with this method of calculation.

Rents we receive or that we are deemed to receive will qualify as rents from real property in satisfying the gross income requirements for a REIT described above only if several conditions are met. First, the amount of rent must not be based in whole or in part on the income or profits of any person but can be based on a fixed percentage of gross receipts or gross sales. Second, rents from real property excludes any amount received directly or indirectly from any corporation in which we own 10% or more

Table of Contents

of the total combined voting power of all classes of voting stock or 10% or more of the total number of shares of all classes of stock and from any other person in which we own an interest of 10% or more in the assets or net profits of such person. Third, rent attributable to personal property is generally excluded from rents from real property, except where such personal property is leased in connection with such real property and the rent attributable to such personal property is less than or equal to 15% of the total rent received under the lease. Finally, amounts that are attributable to services furnished or rendered in connection with the rental of real property, whether or not separately stated, will not constitute rents from real property unless such services are customarily provided in the geographic area. Customary services that are not provided to a particular tenant (e.g., furnishing heat and light, the cleaning of public entrances and the collection of trash) can be provided directly by the REIT. Where, however, such services are provided primarily for the convenience of the tenants or are provided to such tenants, such services must be provided by an independent contractor or a taxable REIT subsidiary. In the event that an independent contractor provides such services, the REIT must adequately compensate any such independent contractor, the REIT must not derive any income from the independent contractor and neither the independent contractor nor certain of its stockholders may, directly or indirectly, own more than 35% of the REIT, taking into consideration the applicable attributed ownership. Our rental income should not cease to qualify as rents from real property merely because we perform a de minimis amount of services to tenants of a property that are not usually and customarily provided and are considered rendered to the occupant. The income from these services will be considered de minimis if the value of such services (valued at not less than 150% of our direct cost of performing such services) is less than 1% of the total income derived from such property.

We do not anticipate deriving rent attributable to personal property leased in connection with real property that exceeds 15% of the total rent attributable to such lease or receiving rent from related party tenants.

Wells OP II may provide certain services with respect to our properties. We believe that these services will be of the type that are usually or customarily rendered in connection with the rental of space for occupancy only and that are not otherwise rendered to the tenants. Therefore, we believe that the provision of such customary services will not cause rents received with respect to our properties to fail to qualify as rents from real property. Noncustomary services and services rendered primarily for the tenants' convenience will be provided by an independent contractor or a taxable REIT subsidiary to avoid jeopardizing the qualification of rent as rents from real property.

Fees to perform property management services for properties that we do not own will not qualify under the 75% or the 95% gross income tests. Either we or Wells OP II also may receive certain other types of income with respect to our properties that will not qualify for either of these tests. We, however, believe that the aggregate amount of such fees and other non-qualifying income in any taxable year will not cause us to exceed the limits for non-qualifying income under the 75% and 95% gross income tests.

Except for amounts received with respect to certain investments of cash reserves, we anticipate that substantially all of our gross income will be derived from sources that will allow us to satisfy the income tests described above; however, we can make no assurance in this regard.

If we fail one or both of the 75% or 95% gross income tests for any taxable year, we may nevertheless qualify as a REIT for that year if we are eligible for relief under a certain provision of the Code. This relief provision generally will be available if: (1) our failure to meet such gross income tests is due to reasonable cause and not due to willful neglect; (2) we attach a schedule of the nature and amount of each item of income to our federal income tax return; and (3) the inclusion of any incorrect information on such schedule is not due to fraud with the intent to evade tax. We, however, cannot state whether in all circumstances we would be entitled to the benefit of this relief provision. For example, if we fail to satisfy

Table of Contents

the gross income tests because non-qualifying income that we intentionally receive exceeds the limits on such income, the IRS could conclude that our failure to satisfy the tests was not due to reasonable cause. As discussed above in *Federal Income Taxation of the Company*, even if this relief provision applies, a 100% tax would be imposed with respect to the part of our taxable income that fails the 75% or 95% tests.

Asset Tests

At the close of each quarter of our taxable year, we also must satisfy four tests relating to the nature and diversification of our assets. First, at least 75% of the value of our total assets must be represented by real estate assets, cash and cash items (including receivables) and government securities. Second, not more than 25% of the value of our total assets may consist of securities (other than those securities includible in the 75% asset test). Third, except for equity investments in REITs, qualified REIT subsidiaries or taxable REIT subsidiaries or other securities that qualify as real estate assets for purposes of the 75% asset test: (1) the value of any one issuer's securities owned by us may not exceed 5% of the value of our total assets; (2) we may not own more than 10% of any one issuer's outstanding voting securities; and (3) we may not own more than 10% of the value of the outstanding securities of any one issuer. Fourth, no more than 20% of the value of our total assets may be represented by securities of one or more taxable REIT subsidiaries.

Securities for purposes of the asset tests may include debt securities. However, debt of an issuer will not count as a security for purposes of the 10% value test if the debt securities are straight debt as defined in Section 1361 of the Code and one of the following conditions is met:

the issuer is an individual;

the only securities of the issuer that we hold are straight debt; or

the issuer is a partnership and we hold at least a 20% profits interest in the partnership.

With respect to each issuer in which we currently own an interest that does not qualify as a REIT, a qualified REIT subsidiary or a taxable REIT subsidiary, we believe that our pro rata share of the value of the securities, including debt, of any such issuer does not exceed 5% of the total value of our assets and that we comply with the 10% voting securities limitation and 10% value limitation with respect to each such issuer. In this regard, however, we cannot provide any assurance that the IRS might not disagree with our determinations.

After initially meeting the asset tests at the close of any quarter, we will not lose our status as a REIT for failure to satisfy the asset tests at the end of a later quarter solely by reason of changes in asset values. If the failure to satisfy the asset tests results from an acquisition of securities or other property during a quarter, we can cure the failure by disposing of a sufficient amount of non-qualifying assets within 30 days after the close of that quarter. We intend to maintain adequate records of the value of its assets to ensure compliance with the asset tests and to take such other actions within 30 days after the close of any quarter as necessary to cure any noncompliance.

Annual Distribution Requirements

To qualify for taxation as a REIT, we must meet the following annual distribution requirements.

First, we must make distributions (other than capital gain distributions) to our stockholders in an amount at least equal to (a) the sum of

Table of Contents

- (1) 90% of our REIT taxable income (computed without regard to the dividends paid deduction and by excluding our net capital gain), and
- (2) 90% of the net income, if any, from foreclosure property in excess of the excise tax on income from foreclosure property, minus (b) the sum of certain items of non-cash income.

We must pay these distributions in the taxable year to which they relate. Dividends paid in the subsequent year, however, will be treated as if paid in the prior year for purposes of such prior year's 90% distribution requirement if one of the following two sets of criteria are satisfied: (1) the dividends were declared in October, November, or December, the dividends were payable to stockholders of record on a specified date in such a month, and the dividends were actually paid during January of the subsequent year; or (2) the dividends were declared before we timely file our federal income tax return for such year, the dividends were distributed in the 12-month period following the close of the prior year and not later than the first regular dividend payment after such declaration, and we elected on our tax return for the prior year to have a specified amount of the subsequent dividend treated as if paid in the prior year. Even if we satisfy this annual distribution requirement, we will be subject to tax at regular corporate tax rates to the extent that we do not distribute all of our net capital gain or REIT taxable income as adjusted.

Second, we must distribute during each calendar year at least the sum of

- (1) 85% of our ordinary income for that year,
- (2) 95% of our capital gain net income for that year, and
- (3) any undistributed taxable income from prior periods.

In the event that we do not satisfy this distribution requirement, we will be subject to a 4% excise tax on the excess of such required distribution over the amounts actually distributed.

Third, if we dispose of any asset, which is subject to the Built-In Gain Rules, during the 10-year period beginning on the date on which we acquired the asset, we will be required to distribute at least 90% of the Built-In Gain (after tax), if any, recognized on the disposition of the asset.

We intend to make timely distributions sufficient to satisfy the annual distribution requirements. In this regard, the Wells OP II partnership agreement will authorize us, as general partner, to take such steps as may be necessary to cause Wells OP II to distribute to its partners an amount sufficient to permit us to meet these distribution requirements. In addition, we intend to distribute dividends pro rata to our stockholders that will not result in any dividend being treated as preferential within the meaning of Section 562(c) of the Code.

We expect that our REIT taxable income will be less than our cash flow due to the allowance of depreciation and other non-cash charges in computing REIT taxable income. Accordingly, we anticipate that we generally will have sufficient cash or liquid assets to enable us to satisfy the 90% distribution requirement. It is possible, however, that we may not have sufficient cash or other liquid assets to meet the 90% distribution requirement or to distribute such greater amount as may be necessary to avoid income and excise taxation. In such event, we may find it necessary to borrow funds to pay the required distribution or, if possible, pay taxable stock dividends in order to meet the distribution requirement.

In computing our REIT taxable income, we will use the accrual method of accounting. We are required to file an annual federal income tax return, which, like other corporate returns, is subject to

Table of Contents

examination by the IRS. Because the tax law requires us to make many judgments regarding the proper treatment of a transaction or an item of income or deduction, it is possible that the IRS will challenge positions we take in computing our REIT taxable income and our distributions. Issues could arise, for example, with respect to the allocation of the purchase price of properties between depreciable or amortizable assets and nondepreciable or non-amortizable assets such as land and the current deductibility of fees paid to Wells Capital or its affiliates. In the event that we are subject to an adjustment to our REIT taxable income (as defined in Section 860(d)(2) of the Code) resulting from an adverse determination by either a final court decision, a closing agreement between us and the IRS under Section 7121 of the Code, or any agreement as to tax liability between us and an IRS district director, we may be able to correct any resulting failure to meet the 90% annual distribution requirement by paying deficiency dividends to our stockholders that relate to the adjusted year but that are paid in the subsequent year. To qualify as a deficiency dividend, the distribution must be made within 90 days of the adverse determination and we also must satisfy certain other procedural requirements. If the statutory requirements of Section 860 of the Code are satisfied, a deduction is allowed for any deficiency dividend subsequently paid by us to offset an increase in our REIT taxable income resulting from the adverse determination. We, however, will be required to pay statutory interest on the amount of any deduction taken for deficiency dividends to compensate for the deferral of the tax liability.

Earnings and Profits

Throughout the remainder of this discussion, we frequently will refer to earnings and profits. Earnings and profits is a concept used extensively throughout corporate tax law, but it is undefined in the Code. Each corporation maintains an earnings and profits account that helps to measure whether a distribution originates from corporate earnings or from other sources. Distributions generally decrease the earnings and profits while income generally increases earnings and profits. If a corporation has positive earnings and profits, the distributions generally will be considered to come from corporate earnings. If a corporation has no earnings and profits, distributions generally will be considered a return of capital and then capital gain. In addition, a REIT cannot have, at the close of any taxable year, accumulated earnings and profits attributable to any non-REIT year and remain qualified as a REIT.

Failure to Qualify

If we fail to qualify as a REIT in any year and the relief provisions do not apply, we will be subject to tax (including any applicable alternative minimum tax) on our taxable income at regular corporate rates. Distributions to stockholders in any year in which we fail to qualify will not be deductible by us nor will they be required to be made. In such event, to the extent of positive current or accumulated earnings and profits, all distributions to stockholders will be dividends, taxable to individuals at preferential rates under the Jobs and Growth Relief Reconciliation Act of 2003 (the 2003 Act). Subject to certain limitations of the Code, corporate distributees may be eligible for the dividends-received deduction. Unless we are entitled to relief under specific statutory provisions, we also will be disqualified from taxation as a REIT for the four taxable years following the year during which qualification was lost. It is not possible to state whether in all circumstances we would be entitled to such statutory relief.

Sale-Leaseback Transactions

Some of our investments may be in the form of sale-leaseback transactions. In most instances, depending on the economic terms of the transaction, we will be treated for federal income tax purposes as either the owner of the property or the holder of a debt secured by the property. We do not expect to request an opinion of counsel concerning the status of any leases of properties as true leases for federal income tax purposes.

Table of Contents

The IRS may take the position that a specific sale-leaseback transaction, which we treat as a true lease, is not a true lease for federal income tax purposes but is, instead, a financing arrangement or loan. We may also structure some sale-leaseback transactions as loans. In this event, for purposes of the asset tests and the 75% gross income test, each such loan likely would be viewed as secured by real property to the extent of the fair market value of the underlying property. We expect that, for this purpose, the fair market value of the underlying property would be determined without taking into account our lease. If a sale-leaseback transaction were so recharacterized, we might fail to satisfy the asset tests or the income tests and, consequently, lose our REIT status effective with the year of recharacterization. Alternatively, the amount of our REIT taxable income could be recalculated which might also cause us to fail to meet the distribution requirement for a taxable year.

Taxation of U.S. Stockholders

When we use the term U.S. Stockholder, we mean a holder of common stock that, for federal income tax purposes:

- (1) is a citizen or resident of the United States;
- (2) is a corporation or partnership (including an entity treated as a corporation or partnership for United States federal income tax purposes) created or organized in or under the laws of the United States or of any of its political subdivisions;
- (3) is an estate the income of which is subject to federal income taxation regardless of its source, or
- (4) is a trust if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more United States persons have the authority to control all substantial decisions of the trust.

For any taxable year for which we qualify for taxation as a REIT, amounts distributed to taxable U.S. Stockholders will be taxed as discussed below.

Distributions Generally

Distributions to U.S. Stockholders, other than capital gain dividends discussed below, will constitute taxable dividends up to the amount of our positive current or accumulated earnings and profits. Dividends received from REITs are generally not eligible to be taxed at the preferential qualified dividend income rates applicable to individuals who receive dividends from taxable C corporations pursuant to the 2003 Act. An exception applies, however, and individual stockholders are taxed at such rates on dividends designated by and received from REITs, to the extent that the dividends are attributable to (i) income that the REIT previously retained in the prior year, and on which it was subject to corporate level tax, (ii) dividends received by the REIT from taxable corporations, or (iii) income from sales of appreciated property acquired from C corporations in carryover basis transactions. Because a REIT is not subject to tax on income distributed to its stockholders, the distributions made to corporate stockholders are not eligible for the dividends-received deduction. To the extent that we make a distribution in excess of our positive current or accumulated earnings and profits, the distribution will be treated first as a tax-free return of capital, reducing the tax basis in the U.S. Stockholder's shares of common stock and then the distribution in excess of the tax basis will be taxable as gain realized from the sale of the common stock. Dividends we declare in October, November, or December of any year payable to a stockholder of record on a specified date in any such month shall be treated as both paid by us and received by the stockholders on December 31 of the year, provided that we actually pay the dividends during January of

Table of Contents

the following calendar year. Stockholders are not allowed to include on their own federal income tax returns any of our tax losses.

We will be treated as having sufficient earnings and profits to treat as a dividend any distribution we make up to the amount required to be distributed in order to avoid imposition of the 4% excise tax discussed in Federal Income Taxation of the Company above.

Capital Gain Distributions

Distributions to U.S. Stockholders that we properly designated as capital gain distributions will be treated as long-term capital gains (to the extent they do not exceed our actual net capital gain) for the taxable year without regard to the period for which the stockholder has held the stock. However, corporate stockholders may be required to treat up to 20% of certain capital gain dividends as ordinary income. Capital gain dividends are not eligible for the dividends-received deduction for corporations. Long-term capital gains are generally taxable at maximum federal rates of 15% (through 2008) in the case of stockholders who are individuals, and 35% for corporations. Capital gains attributable to the sale of depreciable real property held for more than 12 months are subject to a 25% maximum federal income tax rate for taxpayers who are individuals, to the extent of previously claimed depreciation deductions.

We may elect to retain and pay income tax on any net long-term capital gain. In this instance, U.S. Stockholders will include in their income their proportionate share of the undistributed long-term capital gain. The U.S. Stockholders also will be deemed to have paid their proportionate share of tax on such long-term capital gain and, therefore, will receive a credit or refund for the amount of such tax. In addition, the basis of the U.S. Stockholders' shares will be increased in an amount equal to the excess of the amount of capital gain included in its income over the amount of tax it is deemed to have paid.

Certain Dispositions of Shares

In general, you will realize capital gain or loss on the disposition of common stock equal to the difference between (1) the amount of cash and the fair market value of any property received on such disposition, and (2) your adjusted basis of such common stock. Losses incurred on the sale or exchange of our common stock that you held for less than six months (after applying certain holding company rules) will be treated as a long-term capital loss to the extent of any capital gain dividend you received with respect to those shares.

The applicable tax rate will depend on the stockholder's holding period in the asset (generally, if the stockholder has held the asset for more than one year, it will produce long-term capital gain) and the stockholder's tax bracket. The IRS has the authority to prescribe, but has not yet prescribed, regulations that would apply a capital gain tax rate of 25% (which is generally higher than the long-term capital gain tax rates for non-corporate stockholders) to a portion of capital gain realized by a non-corporate stockholder on the sale of common stock that would correspond to our unrecaptured Section 1250 gain. Stockholders should consult with their own tax advisors with respect to their capital gain tax liability. In general, any loss recognized by a U.S. Stockholder upon the sale or other disposition of common stock that the stockholder has held for six months or less, after applying the holding period rules, will be treated as long-term capital loss, to the extent of distributions received by the U.S. Stockholder from us that were required to be treated as long-term capital gains.

Passive Activity Loss and Investment Interest Limitations

You may not treat distributions we make to you or any gain from disposing of our common stock as passive activity income. Therefore, you will not be able to apply any passive losses against such

Table of Contents

income. Dividends we pay (to the extent they do not constitute a return of capital) generally will be treated as investment income for purposes of the investment interest limitation. Net capital gain from the disposition of our common stock (or capital gain dividends) generally will be excluded from investment income unless you elect to have such gain taxed at ordinary income rates.

Treatment of Tax-Exempt Stockholders

Distributions we make to a tax-exempt employee pension trust or other domestic tax-exempt stockholder generally will not constitute unrelated business taxable income (UBTI) unless the tax-exempt stockholder has borrowed to acquire or carry our shares of common stock. Qualified trusts that hold more than 10% (by value) of the shares of pension-held REITs may be required to treat a certain percentage of such REIT's distributions as UBTI. We will attempt to monitor the concentration of ownership of employee pension benefit trusts in our shares, and we do not expect our shares to be deemed to be predominately held by qualified employee pension benefit trusts, as defined in the Code, to the extent required to trigger the treatment of our income as UBTI to such trusts.

Special Tax Considerations for Non-U.S. Stockholders

The rules governing United States income taxation of non-U.S. Stockholders are complex. We intend the following discussion to be only a summary of these rules. Prospective non-U.S. Stockholders should consult with their own tax advisors to determine the impact of federal, state, local and foreign tax laws on an investment in our common stock, including any reporting requirements.

In general, non-U.S. Stockholders will be subject to regular federal income tax with respect to their investment in us if the income from the investment is effectively connected with the non-U.S. Stockholder's conduct of a trade or business in the United States. A corporate non-U.S. Stockholder that receives income that is (or is treated as) effectively connected with a U.S. trade or business also may be subject to the branch profits tax under Section 884 of the Code, which is imposed in addition to regular federal income tax at the rate of 30%, subject to reduction under a tax treaty, if applicable. Effectively connected income must meet various certification requirements to be exempt from withholding. The following discussion will apply to non-U.S. Stockholders whose income from their investments in us is not so effectively connected (except to the extent that the FIRPTA rules discussed below treat such income as effectively connected income).

A distribution payable out of our current or accumulated earnings and profits that is not attributable to gain from the sale or exchange by us of a United States real property interest and that we do not designate as a capital gain distribution will be subject to a federal income tax, required to be withheld by us, equal to 30% of the gross amount of the dividend, unless an applicable tax treaty reduces this tax. Such a distribution in excess of our earnings and profits will be treated first as a return of capital that will reduce a non-U.S. Stockholder's basis in its common stock (but not below zero) and then as gain from the disposition of such stock, the tax treatment of which is described under the rules discussed below with respect to dispositions of common stock.

Distributions by us that are attributable to gain from the sale or exchange of a United States real property interest will be taxed to a non-U.S. Stockholder under the Foreign Investment in Real Property Tax Act of 1980, or FIRPTA. Such distributions are taxed to a non-U.S. Stockholder as if the distributions were gains effectively connected with a United States trade or business. Accordingly, a non-U.S. Stockholder will be taxed at the normal capital gain rates applicable to a U.S. Stockholder (subject to any applicable alternative minimum tax and a special alternative minimum tax in the case of nonresident alien individuals). Such distributions also may be subject to a 30% branch profits tax when

Table of Contents

made to a foreign corporation that is not entitled to an exemption or reduced branch profits tax rate under a tax treaty.

Although the law is not clear on this matter, it appears that amounts designated by us as undistributed capital gains in respect of the common stock generally should be treated with respect to non-U.S. Stockholders in the same manner as actual distributions by us of capital gain dividends. Under that approach, the non-U.S. Stockholder would be able to offset as a credit against its resulting federal income tax liability an amount equal to its proportionate share of the tax paid by us on the undistributed capital gains and to receive from the IRS a refund to the extent its proportionate share of this tax paid by us were to exceed its actual federal income tax liability.

Although tax treaties may reduce our withholding obligations, we generally will be required to withhold from distributions to non-U.S. Stockholders, and remit to the IRS, 35% of designated capital gain dividends (or, if greater, 35% of the amount of any distributions that could be designated as capital gain dividends) and 30% of ordinary dividends paid out of earnings and profits. In addition, if we designate prior distributions as capital gain dividends, subsequent distributions, up to the amount of such prior distributions that we designated as capital gain dividends, will be treated as capital gain dividends for purposes of withholding. In addition, we may be required to withhold 10% of distributions in excess of our current and accumulated earnings and profits. If the amount of tax withheld by us with respect to a distribution to a non-U.S. Stockholder exceeds the stockholder's United States tax liability, the non-U.S. Stockholder may file for a refund of such excess from the IRS.

We expect to withhold federal income tax at the rate of 30% on all distributions (including distributions that later may be determined to have been in excess of current and accumulated earnings and profits) made to a non-U.S. Stockholder unless:

a lower treaty rate applies and the non-U.S. Stockholder files with us an IRS Form W-8BEN evidencing eligibility for that reduced treaty rate;

the non-U.S. Stockholder files with us an IRS Form W-8ECI claiming that the distribution is income effectively connected with the non-U.S. Stockholder's trade or business so that no withholding tax is required; or

the distributions are treated for FIRPTA withholding tax purposes as attributable to a sale of a U.S. real property interest, in which case tax will be withheld at a 35% rate.

Unless our common stock constitutes a U.S. real property interest within the meaning of FIRPTA, a sale of common stock by a non-U.S. Stockholder generally will not be subject to federal income taxation. Our common stock will not constitute a U.S. real property interest if we are a domestically-controlled REIT. A domestically-controlled REIT is a REIT in which at all times during a specified testing period less than 50% in value of its shares is held directly or indirectly by non-U.S. Stockholders. We currently anticipate that we will be a domestically-controlled REIT and, therefore, that the sale of common stock will not be subject to taxation under FIRPTA. However, because the common stock will be publicly traded, we cannot assure you that we will be a domestically-controlled REIT. If we were not a domestically-controlled REIT, a non-U.S. Stockholder's sale of common stock would be subject to tax under FIRPTA as a sale of a U.S. real property interest unless the common stock were regularly traded on an established securities market and the selling stockholder owned no more than 5% of the common stock throughout the applicable testing period. If the gain on the sale of common stock were subject to taxation under FIRPTA, the non-U.S. Stockholder would be subject to the same treatment as a U.S. Stockholder with respect to the gain (subject to applicable alternative minimum tax and a special alternative minimum tax in the case of nonresident alien individuals). However, even if our common

Table of Contents

stock is not a U.S. real property interest, a nonresident alien individual's gains from the sale of common stock will be taxable if the nonresident alien individual is present in the United States for 183 days or more during the taxable year and certain other conditions apply, in which case the nonresident alien individual will be subject to a 30% tax on his or her U.S. source capital gains.

A purchaser of common stock from a non-U.S. Stockholder will not be required to withhold under FIRPTA on the purchase price if the purchased common stock is regularly traded on an established securities market or if we are a domestically-controlled REIT. Otherwise, the purchaser of common stock from a non-U.S. Stockholder may be required to withhold 10% of the purchase price and remit this amount to the IRS. Our shares of common stock will not be regularly traded on an established securities market.

Upon the death of a nonresident alien individual, that individual's common stock will be treated as part of his or her U.S. estate for purposes of the U.S. estate tax, except as may be otherwise provided in an applicable estate tax treaty.

Information Reporting Requirements and Backup Withholding Tax

U.S. Stockholders

In general, information reporting requirements will apply to payments of distributions on our common stock and payments of the proceeds of the sale of our common stock, unless an exception applies. Further, under certain circumstances, U.S. Stockholders may be subject to backup withholding at a rate of 28% for 2003 on payments made with respect to, or cash proceeds of a sale or exchange of, our common stock. Backup withholding will apply only if:

- (1) the payee fails to furnish his or her taxpayer identification number (which, for an individual, would be his or her Social Security Number) to the payor as required;
- (2) the IRS notifies the payor that the taxpayer identification number furnished by the payee is incorrect;
- (3) the IRS has notified the payee that such payee has failed to properly include reportable interest and dividends in the payee's return or has failed to file the appropriate return and the IRS has assessed a deficiency with respect to such underreporting; or
- (4) the payee has failed to certify to the payor, under penalties of perjury, that the payee is not subject to withholding. In addition, backup withholding will not apply with respect to payments made to certain exempt recipients, such as corporations and tax-exempt organizations. U.S. Stockholders should consult their own tax advisors regarding their qualifications for exemption from backup withholding and the procedure for obtaining such an exemption.

Backup withholding is not an additional tax. Rather, the amount of any backup withholding with respect to a payment to a U.S. Stockholder will be allowed as a credit against the U.S. Stockholder's federal income tax liability and may entitle the stockholder to a refund, provided that the stockholder furnishes the required information to the IRS.

Table of Contents

Non-U.S. Stockholders

Generally information reporting will apply to payments of distributions on our common stock, and backup withholding at a rate of 28% may apply, unless the payee certifies that it is not a U.S. person or otherwise establishes an exemption.

The payment of the proceeds from the disposition of our common stock to or through the U.S. office of a U.S. or foreign broker will be subject to information reporting and, possibly backup withholding unless the non-U.S. Stockholder certifies as to its non-U.S. status or otherwise establishes an exemption, provided that the broker does not have actual knowledge that the stockholder is a U.S. person or that the conditions of any other exemption are not, in fact, satisfied. The proceeds of the disposition by a non-U.S. Stockholder of our common stock to or through a foreign office of a broker generally will not be subject to information reporting or backup withholding. However, if the broker is a U.S. person, a controlled foreign corporation for U.S. tax purposes or a foreign person 50% or more whose gross income from all sources for specified periods is from activities that are effectively connected with a U.S. trade or business, information reporting generally will apply unless the broker has documentary evidence as to the non-U.S. Stockholder's foreign status and has no actual knowledge to the contrary.

Applicable Treasury regulations provide presumptions regarding the status of stockholders when payments to the stockholders cannot be reliably associated with appropriate documentation provided to the payer. Under these Treasury regulations, some stockholders are required to have provided new certifications with respect to payments made after December 31, 2000. Because the application of these Treasury regulations varies depending on the stockholder's particular circumstances, non-U.S. Stockholders should consult their tax advisors with regards to U.S. information reporting and backup withholding.

Tax Aspects of Wells OP II

General

We expect that substantially all of our investments will be held through Wells OP II. In general, partnerships are pass-through entities that are not subject to federal income tax. Rather, partners are allocated their proportionate share of the items of income, gain, loss, deduction and credit of a partnership and are potentially subject to tax thereon, without regard to whether the partners receive a distribution from the partnership. We will include in our income our proportionate share of Wells OP II's income, gain, loss, deduction and credit for purposes of the various REIT income tests and in the computation of our REIT taxable income. In addition, we will include our proportionate share of assets held by Wells OP II in the REIT asset tests.

Tax Allocations with Respect to our Properties

When property is contributed to a partnership in exchange for an interest in the partnership, the partnership generally takes a carryover basis in that property for tax purposes. That carryover basis is equal to the contributing partner's adjusted basis in the property rather than the fair market value of the property at the time of contribution. Pursuant to Section 704(c) of the Code, income, gain, loss and deduction attributable to such contributed property must be allocated in a manner such that the contributing partner is charged with or benefits from the unrealized gain or unrealized loss associated with the property at the time of the contribution. The amount of such unrealized gain or unrealized loss generally is equal to the difference between the fair market value of the contributed property at the time of contribution and the adjusted tax basis of such property at the time of contribution (a Book-Tax

Table of Contents

difference). Such allocations are solely for federal income tax purposes and do not affect the book capital accounts or other economic or legal arrangements among the partners.

Wells OP II may be formed by way of contributions of appreciated property, and future contributions to Wells OP II may also take the form of appreciated property. Consequently, Wells OP II agreement will require tax allocations to be made in a manner consistent with Section 704(c) of the Code.

In general, the partners who have contributed their interests in properties to Wells OP II (the Contributing Partners) will be allocated lower amounts of depreciation deductions for tax purposes than such deductions would be if determined on a pro rata basis. In addition, in the event of the disposition of any of the contributed assets that have a Book-Tax Difference, all taxable income attributable to such Book-Tax Difference generally will be allocated to the Contributing Partners and the Company generally will be allocated only its share of capital gains attributable to appreciation, if any, occurring after the closing of the acquisition of such properties. This will tend to eliminate the Book-Tax Difference over the life of Wells OP II. However, the special allocation rules of Section 704(c) of the Code do not always entirely eliminate the Book-Tax Difference on an annual basis or with respect to a specific taxable transaction such as a sale. Thus, the carryover basis of the contributed assets in the hands of Wells OP II may cause us to be allocated lower depreciation and other deductions and cause Contributing Partners to be allocated less taxable income. As a result, we could recognize taxable income in excess of distributed amounts, which might adversely affect our ability to comply with the REIT distribution requirements and Contributing Partners may realize income on the distribution of cash because their basis has not been increased sufficiently from income allocations. See Annual Distribution Requirements.

With respect to any property purchased by Wells OP II, such property initially will have a tax basis equal to its fair market value and Section 704(c) of the Code will not apply.

Basis in Operating Partnership Interest

Our adjusted tax basis in our interest in Wells OP II generally

- (1) will be equal to the amount of cash and the basis of any other property that we contributed to Wells OP II,
- (2) will be increased by (a) our allocable share of Wells OP II's income and (b) our allocable share of indebtedness of Wells OP II and
- (3) will be reduced, but not below zero, by our allocable share of (a) losses suffered by Wells OP II, (b) the amount of cash distributed to us, and (c) constructive distributions resulting from a reduction in our share of indebtedness of Wells OP II.

If the allocation of our distributive share of Wells OP II's loss exceeds the adjusted tax basis of its partnership interest in Wells OP II, the recognition of such excess loss will be deferred until such time and to the extent that it has an adjusted tax basis in our partnership interest. To the extent that Wells OP II's distributions, or any decrease in our share of the indebtedness of Wells OP II (such decreases being considered a cash distribution to the partners) exceed our adjusted tax basis, such excess distributions (including such constructive distributions) constitute taxable income to us. Such taxable income normally will be characterized as a capital gain if the interest in Wells OP II has been held for longer than one year, subject to reduced tax rates described above (See Taxation of U.S. Stockholders Capital Gain Distributions). Under current law, capital gains and ordinary income of corporations generally are taxed at the same marginal rates.

Table of Contents

Sale of the Properties

Our share of gain realized by Wells OP II on the sale of any property held by Wells OP II as inventory or other property held primarily for sale to customers in the ordinary course of Wells OP II's trade or business will be treated as income from a prohibited transaction that is subject to a 100% penalty tax. See Requirements for Qualification Income Tests. Such prohibited transaction income also may have an adverse effect upon its ability to satisfy the income tests for qualification as a REIT. Under existing law, whether property is held as inventory or primarily for sale to customers in the ordinary course of Wells OP II's trade or business is a question of fact that depends on all the facts and circumstances with respect to the particular transaction. We, however, do not presently intend to acquire or hold or allow Wells OP II to acquire or hold any property that represents inventory or other property held primarily for sale to customers in the ordinary course of our or Wells OP II's trade or business.

State and Local Tax

We may be subject to state and local tax in various states and localities. Our stockholders also may be subject to state and local tax in various states and localities. The tax treatment to us and to our stockholders in such jurisdictions may differ from the federal income tax treatment described above. Consequently, before you buy our common stock, you should consult your own tax advisor regarding the effect of state and local tax laws on an investment in our common stock.

ERISA CONSIDERATIONS

The following is a summary of some considerations associated with an investment in our shares by a qualified employee pension benefit plan or an individual retirement account (IRA). This summary is based on provisions of the Employee Retirement Income Security Act of 1974 (ERISA), and the Internal Revenue Code, each as amended through the date of this prospectus, and relevant regulations and opinions and other authority issued by the Department of Labor and the Internal Revenue Service. We cannot assure you that there will not be adverse tax or labor decisions or legislative, regulatory or administrative changes which would significantly modify the statements expressed herein. Any such changes may or may not apply to transactions entered into prior to the date of their enactment.

Each fiduciary of an employee pension benefit plan subject to ERISA, such as a profit sharing, section 401(k) or pension plan, or of any other retirement plan or account subject to Section 4975 of the Internal Revenue Code, such as an IRA, seeking to invest plan assets in our shares must, taking into account the facts and circumstances of each such plan or IRA (Benefit Plan), consider, among other matters:

whether the investment is consistent with the applicable provisions of ERISA and the Internal Revenue Code;

whether, under the facts and circumstances appertaining to the Benefit Plan in question, the fiduciary's responsibility to the plan has been satisfied;

whether the investment will produce UBTI to the Benefit Plan (see Federal Income Tax Considerations Treatment of Tax-Exempt Stockholders); and

the need to value the assets of the Benefit Plan annually.

Under ERISA, a plan fiduciary's responsibilities include the following duties:

Table of Contents

to act solely in the interest of plan participants and beneficiaries and for the exclusive purpose of providing benefits to them, as well as defraying reasonable expenses of plan administration;

to invest plan assets prudently;

to diversify the investments of the plan unless it is clearly prudent not to do so;

to ensure sufficient liquidity for the plan; and

to consider whether an investment would constitute or give rise to a prohibited transaction under ERISA or the Internal Revenue Code.

ERISA also requires that the assets of an employee benefit plan be held in trust and that the trustee, or a duly authorized named fiduciary or investment manager, have exclusive authority and discretion to manage and control the assets of the plan.

Prohibited Transactions

Section 406 of ERISA and Section 4975 of the Internal Revenue Code prohibit specified transactions involving the assets of a Benefit Plan which are between the plan and any party in interest or disqualified person with respect to that Benefit Plan unless an administrative or statutory exemption applies. These transactions are prohibited regardless of how beneficial they may be for the Benefit Plan. Prohibited transactions include the sale, exchange or leasing of property, and the lending of money or the extension of credit, between a Benefit Plan and a party in interest or disqualified person. The transfer to, or use by or for the benefit of, a party in interest, or disqualified person of any assets of a Benefit Plan is also prohibited, as is the furnishing of services between a plan and a party in interest. A fiduciary of a Benefit Plan also is prohibited from engaging in self-dealing, acting for a person who has an interest adverse to the plan or receiving any consideration for its own account from a party dealing with the plan in a transaction involving plan assets. Furthermore, Section 408 of the Internal Revenue Code states that assets of an IRA trust may not be commingled with other property except in a common trust fund or common investment fund.

Plan Asset Considerations

In order to determine whether an investment in our shares by Benefit Plans creates or gives rise to the potential for either prohibited transactions or a commingling of assets as referred to above, a fiduciary must consider whether an investment in our shares will cause our assets to be treated as assets of the investing Benefit Plans. Neither ERISA nor the Internal Revenue Code define the term plan assets, however, U.S. Department of Labor Regulations provide guidelines as to whether, and under what circumstances, the underlying assets of an entity will be deemed to constitute assets of a Benefit Plan when the plan invests in that entity (Plan Assets Regulation). Under the Plan Assets Regulation, the assets of corporations, partnerships or other entities in which a Benefit Plan makes an equity investment will generally be deemed to be assets of the Benefit Plan unless the entity satisfies one of the exceptions to this general rule. As discussed below, we have received an opinion of counsel that, based on the Plan Assets Regulation, our underlying assets should not be deemed to be plan assets of Benefit Plans investing in shares, assuming the conditions set forth in the opinion are satisfied, based upon the fact that at least one of the specific exemptions set forth in the Plan Assets Regulation is satisfied, as determined under the criteria set forth below.

Table of Contents

Specifically, the Plan Assets Regulation provides that the underlying assets of REITs will not be treated as assets of a Benefit Plan investing therein if the interest the Benefit Plan acquires is a publicly-offered security. A publicly-offered security must be:

sold as part of a public offering registered under the Securities Act of 1933, as amended, and be part of a class of securities registered under the Securities Exchange Act of 1934, as amended, within a specified time period;

part of a class of securities that is owned by 100 or more persons who are independent of the issuer and one another; and

freely transferable.

Our shares are being sold as part of an offering of securities to the public pursuant to an effective registration statement under the Securities Act, and are part of a class registered under the Securities Exchange Act. In addition, we anticipate having well in excess of 100 independent stockholders. Thus, both the first and second criterion of the publicly-offered security exception will be satisfied.

Whether a security is freely transferable depends upon the particular facts and circumstances. For example, our shares are subject to certain restrictions on transferability intended to ensure that we continue to qualify for federal income tax treatment as a REIT. The regulation provides, however, that where the minimum investment in a public offering of securities is \$10,000 or less, the presence of a restriction on transferability intended to prohibit transfers which would result in a termination or reclassification of the entity for state or federal tax purposes will not ordinarily affect a determination that such securities are freely transferable. The minimum investment in our shares is less than \$10,000; thus, the restrictions imposed in order to maintain our status as a REIT should not cause the shares to be deemed not freely transferable.

In the event that our underlying assets were treated by the Department of Labor as the assets of investing Benefit Plans, our management would be treated as fiduciaries with respect to each Benefit Plan stockholder, and an investment in our shares might constitute an ineffective delegation of fiduciary responsibility to Wells Capital, our advisor, and expose the fiduciary of the Benefit Plan to co-fiduciary liability under ERISA for any breach by Wells Capital of the fiduciary duties mandated under ERISA. Further, if our assets are deemed to be plan assets, an investment by an IRA in our shares might be deemed to result in an impermissible commingling of IRA assets with other property.

If Wells Capital, our advisor, or its affiliates were treated as fiduciaries with respect to Benefit Plan stockholders, the prohibited transaction restrictions of ERISA and the Internal Revenue Code would apply to any transaction involving our assets. These restrictions could, for example, require that we avoid transactions with entities that are affiliated with us or our affiliates or restructure our activities in order to obtain an administrative exemption from the prohibited transaction restrictions. Alternatively, we might have to provide Benefit Plan stockholders with the opportunity to sell their shares to us or we might dissolve or terminate.

If a prohibited transaction were to occur, the Internal Revenue Code imposes an excise tax equal to 15% of the amount involved and authorizes the IRS to impose an additional 100% excise tax if the prohibited transaction is not corrected in a timely manner. These taxes would be imposed on any disqualified person who participates in the prohibited transaction. In addition, Wells Capital and possibly other fiduciaries of Benefit Plan stockholders subject to ERISA who permitted the prohibited transaction to occur or who otherwise breached their fiduciary responsibilities, or a non-fiduciary participating in a prohibited transaction, could be required to restore to the Benefit Plan any profits they realized as a result

Table of Contents

of the transaction or breach, and make good to the Benefit Plan any losses incurred by the Benefit Plan as a result of the transaction or breach. With respect to an IRA that invests in our shares, the occurrence of a prohibited transaction involving the individual who established the IRA, or his or her beneficiary, would cause the IRA to lose its tax-exempt status under Section 408(e)(2) of the Internal Revenue Code.

We have obtained an opinion from Alston & Bird LLP that it is more likely than not that our shares will be deemed to constitute publicly-offered securities and, accordingly, that it is more likely than not that our underlying assets should not be considered plan assets under the Plan Assets Regulation, assuming the offering takes place as described in this prospectus. If our underlying assets were not deemed to be plan assets, the problems discussed in the immediately preceding three paragraphs are not expected to arise.

Other Prohibited Transactions

Regardless of whether the shares qualify for the publicly-offered security exception of the Plan Assets Regulation, a prohibited transaction could occur if we, Wells Capital, any selected broker-dealer or any of their affiliates is a fiduciary (within the meaning of Section 3(21) of ERISA) with respect to any Benefit Plan purchasing the shares. Accordingly, unless an administrative or statutory exemption applies, shares should not be purchased by a Benefit Plan with respect to which any of the above persons is a fiduciary. A person is a fiduciary with respect to a Benefit Plan under Section 3(21) of ERISA if, among other things, the person has discretionary authority or control with respect to the Benefit Plan or plan assets, or provides investment advice for a fee with respect to plan assets. Under a regulation issued by the Department of Labor, a person shall be deemed to be providing investment advice if that person renders advice as to the advisability of investing in our shares and that person regularly provides investment advice to the Benefit Plan pursuant to a mutual agreement or understanding (written or otherwise) (1) that the advice will serve as the primary basis for investment decisions, and (2) that the advice will be individualized for the Benefit Plan based on its particular needs.

Annual Valuation

A fiduciary of an employee benefit plan subject to ERISA is required to determine annually the fair market value of each asset of the plan as of the end of the plan's fiscal year and to file a report reflecting that value with the Department of Labor. When the fair market value of any particular asset is not available, the fiduciary is required to make a good faith determination of that asset's fair market value assuming an orderly liquidation at the time the determination is made. In addition, a trustee or custodian of an IRA must provide an IRA participant with a statement of the value of the IRA each year. In discharging its obligation to value assets of a plan, a fiduciary subject to ERISA must act consistently with the relevant provisions of the plan and the general fiduciary standards of ERISA.

Unless and until our shares are listed on a national securities exchange or are included for quotation on NASDAQ, it is not expected that a public market for the shares will develop. To date, neither the Internal Revenue Service nor the Department of Labor has promulgated regulations specifying how a plan fiduciary should determine the fair market value of the shares, namely when the fair market value of the shares is not determined in the marketplace. Therefore, to assist fiduciaries in fulfilling their valuation and annual reporting responsibilities with respect to ownership of shares, we intend to have our advisor prepare annual reports of the estimated net asset value of our shares.

Until three full fiscal years after we have ceased raising significant funds from equity sales, we intend to use the most recent offering price of our shares as the per share net asset value. Thereafter, we will have our advisor estimate our per share net asset value. You should be cautioned, however, that such valuations will be estimates only and will be based upon a number of assumptions that may not be

Table of Contents

accurate or complete. We do not currently anticipate obtaining appraisals for our properties and, accordingly, the advisor's estimates should not be viewed as an accurate reflection of the fair market value of our properties, nor will they represent the amount of net proceeds that would result from an immediate sale of our properties. In addition, property values could decline. For these reasons, our estimated valuations should not be utilized for any purpose other than to assist plan fiduciaries in fulfilling their annual valuation and reporting responsibilities. Further, we cannot assure you:

that the estimated values we obtain could or will actually be realized by us or by our stockholders upon liquidation (in part because estimated values do not necessarily indicate the price at which assets could be sold and because no attempt will be made to estimate the expenses of selling any of our assets);

that our stockholders could realize these values if they were to attempt to sell their shares; or

that the estimated values, or the method used to establish values, would comply with the ERISA or IRA requirements described above.

DESCRIPTION OF SHARES

Our amended and restated charter authorizes the issuance of 1,000,000,000 shares of capital stock, of which 900,000,000 shares are designated as common stock with a par value of \$0.01 per share, and 100,000,000 shares are designated as preferred stock. In addition, our board of directors may amend our charter to increase or decrease the amount of our authorized shares.

As of the date of this prospectus, 100 shares of our common stock were issued and outstanding, and no shares of preferred stock were issued and outstanding.

Common Stock

The holders of common stock are entitled to one vote per share on all matters voted on by stockholders, including election of our directors. Our charter does not provide for cumulative voting in the election of our directors. Therefore, the holders of a majority of the outstanding common shares can elect our entire board of directors. Subject to any preferential rights of any outstanding series of preferred stock, the holders of common stock are entitled to such dividends as may be declared from time to time by our board of directors out of legally available funds and, upon liquidation, are entitled to receive all assets available for distribution to our stockholders. Holders of shares of common stock will not have preemptive rights, which means that you will not have an automatic option to purchase any new shares that we issue.

Our board of directors has authorized the issuance of shares of our capital stock without certificates. We expect that, until our shares are listed on a national securities exchange or the Nasdaq Stock Market, we will not issue shares in certificated form. We maintain a stock ledger that contains the name and address of each stockholder and the number of shares that the stockholder holds. With respect to uncertificated stock, we will continue to treat the stockholder registered on our stock ledger as the owner of the shares until the new owner delivers a properly executed form to us, which form we will provide to any registered holder upon request.

Preferred Stock

Our charter authorizes our board of directors to designate and issue one or more classes or series of preferred stock without stockholder approval. Our board of directors may determine the relative rights,

Table of Contents

preferences and privileges of each class or series of preferred stock so issued, which may be more beneficial than the rights, preferences and privileges attributable to the common stock. The issuance of preferred stock could have the effect of delaying or preventing a change in control. Our board of directors has no present plans to issue preferred stock, but may do so at any time in the future without stockholder approval.

Meetings and Special Voting Requirements

An annual meeting of the stockholders will be held each year, at least 30 days after delivery of our annual report. Special meetings of stockholders may be called only upon the request of a majority of our directors, a majority of the independent directors, the chairman, the president or upon the written request of stockholders holding at least 10% of the shares entitled to be cast on any issue proposed to be considered at the special meeting. The presence in person or by proxy of stockholders entitled to cast a majority of all the votes entitled to be cast at the meeting constitutes a quorum. Unless otherwise provided by the Maryland General Corporation Law or our charter, the affirmative vote of a majority of all votes cast is necessary to take stockholder action, except that a plurality of the votes cast is sufficient to elect a director.

Our charter provides that, to the extent permitted by Maryland law, the concurrence of the board is not required in order for the stockholders to amend the charter, dissolve the corporation or remove directors. However, we have been advised that Maryland law does require board approval in order to amend our charter or dissolve. Without the approval of a majority of the shares entitled to vote on the matter, the board of directors may not:

amend the charter to adversely affect the rights, preferences and privileges of the stockholders;

amend charter provisions relating to director qualifications, fiduciary duties, liability and indemnification, conflicts of interest, investment policies or investment restrictions;

cause our liquidation or dissolution after our initial investment in property;

sell all or substantially all of our assets other than in the ordinary course of business; or

cause our merger or reorganization.

Wells Capital, as our advisor, is selected and approved annually by our directors. While the stockholders do not have the ability to vote to replace Wells Capital or to select a new advisor, stockholders do have the ability, by the affirmative vote of a majority of the shares entitled to vote on such matter, to elect to remove a director from our board.

Restriction on Ownership of Shares

Ownership Limit

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form S-11/A

In order for us to qualify as a REIT, not more than 50% of our outstanding shares may be owned by any five or fewer individuals, including some tax-exempt entities. In addition, the outstanding shares must be owned by 100 or more persons independent of us and each other during at least 335 days of a 12-month taxable year or during a proportionate part of a shorter taxable year. We may prohibit certain acquisitions and transfers of shares so as to ensure our continued qualification as a REIT under the Internal Revenue Code. However, we cannot assure you that this prohibition will be effective.

Table of Contents

In order to assist us in preserving our status as a REIT, our charter contains a limitation on ownership that prohibits any person or group of persons from acquiring, directly or indirectly, beneficial ownership of more than 9.8% of our outstanding shares. Our charter provides that any transfer of shares that would violate our share ownership limitations is null and void and the intended transferee will acquire no rights in such shares, unless the transfer is approved by our board of directors based upon receipt of information that such transfer would not violate the provisions of the Internal Revenue Code for qualification as a REIT.

Shares which, if transferred, would be in excess of the 9.8% ownership limit will be transferred automatically to a trust effective on the day before the reported transfer of such shares. The record holder of the shares that are held in trust will be required to submit such number of shares to us in the name of the trustee of the trust. We will designate a trustee of the share trust that will not be affiliated with us. We will also name one or more charitable organizations as a beneficiary of the share trust. Shares held in trust will remain issued and outstanding shares and will be entitled to the same rights and privileges as all other shares of the same class or series. The trustee will receive all dividends and distributions on the shares held in trust and will hold such dividends or distributions in trust for the benefit of the beneficiary. The trustee may vote any shares held in trust.

At our direction, the trustee will transfer the shares held in trust to a person whose ownership will not violate the ownership limit. The transfer shall be made within 20 days of our receipt of notice that shares have been transferred to the trust. During this 20-day period, we will have the option of redeeming such shares. Upon any such transfer or redemption, the purported transferee or holder shall receive a per share price equal to the lesser of (1) the price per share in the transaction that caused the ownership limit violation or (2) the market price per share on the date of the transfer or redemption.

Any person who (1) acquires shares in violation of the foregoing restrictions or who owns shares that were transferred to any such trust is required to give immediate written notice to us of such event, or (2) transfers or receives shares subject to such limitations is required to give us 15 days written notice prior to such transaction. In both cases, such persons shall provide to us such other information as we may request in order to determine the effect, if any, of such transfer on our status as a REIT.

The foregoing restrictions will continue to apply until our board of directors determines it is no longer in our best interest to continue to qualify as a REIT. The ownership limit also does not apply to the underwriter in an offering of shares or to a person or persons exempted from the ownership limit by our board of directors based upon appropriate assurances that our qualification as a REIT would not be jeopardized.

Any person who owns 5% or more of the outstanding shares during any taxable year will be asked to deliver a statement or affidavit setting forth the number of shares beneficially owned, directly or indirectly.

Suitability Standards and Minimum Purchase Requirements

State law and our charter require that purchasers of our stock meet standards regarding (i) net worth or income and (ii) minimum purchase amounts. These standards are described above at *Who May Invest* immediately following the cover page of this prospectus. The standards apply not only to purchasers in this offering, but to potential transferees of your shares. As a result, the requirements regarding suitability and minimum purchase amounts, which are applicable until our shares of common stock are listed on a national securities exchange or the Nasdaq National Market, may make it more difficult for you to sell your shares.

Table of Contents

Dividends

Dividends will be paid on a quarterly basis regardless of the frequency with which such dividends are declared. Dividends will be paid to investors who are stockholders as of the record dates selected by our board of directors. We expect to calculate our quarterly dividends based upon daily record and dividend declaration dates so our investors will be entitled to be paid dividends immediately upon their purchase of shares. We then make quarterly dividend payments following such calculation.

We are required to make distributions sufficient to satisfy the requirements for qualification as a REIT for tax purposes. Generally, income distributed as dividends will not be taxable to us under the Internal Revenue Code if we distribute at least 90% of our taxable income.

Dividends will be declared at the discretion of our board of directors. Our board will be guided, in substantial part, by its desire to cause us to comply with the REIT requirements. Because we may receive income from interest or rents at various times during our fiscal year, dividends may not reflect our income earned in that particular distribution period but may be made in anticipation of cash flow that we expect to receive during a later quarter and may be made in advance of actual receipt of funds in an attempt to make dividends relatively uniform. We may borrow money, issue securities or sell assets in order to make dividend distributions.

We are not prohibited from distributing our own securities in lieu of making cash dividends to stockholders, provided that the securities so distributed to stockholders are readily marketable. Stockholders who receive marketable securities in lieu of cash dividends may incur transaction expenses in liquidating the securities.

Dividend Reinvestment Plan

We currently have a dividend reinvestment plan available that allows you to have dividends and other distributions otherwise distributable to you invested in additional shares of our common stock. The following discussion summarizes the principal terms of the dividend reinvestment plan. The full text of our Dividend Reinvestment Plan is included as Exhibit A to this prospectus.

Eligibility

Participation in the dividend reinvestment plan is limited to investors who have purchased shares in this offering. We may elect to deny your participation in the dividend reinvestment plan if you reside in a jurisdiction or foreign country where, in our judgment, the burden or expense of compliance with applicable securities laws makes your participation impracticable or inadvisable.

Election to Participate

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form S-11/A

You may elect to participate in the dividend reinvestment plan by completing the Subscription Agreement or other approved enrollment form available from the dealer manager or a participating broker-dealer. Your participation in the dividend reinvestment plan will begin with the next distribution made after receipt of your enrollment form. Once enrolled, you may continue to purchase shares under our dividend reinvestment plan until we have sold all of the shares registered in this offering or have terminated this offering. You can choose to have all or a portion of your dividends reinvested through the dividend reinvestment plan. You may also change the percentage of your dividends that will be reinvested at any time if you complete a new enrollment form or other form provided for that purpose. Any election to increase your level of participation must be made through your participating broker-dealer

Table of Contents

or, if you purchased your shares in this offering other than through a participating broker-dealer, through the dealer manager.

Stock Purchases

Shares will be purchased under the dividend reinvestment plan on the quarterly distribution payment dates. You will acquire shares from the Company for \$10 per share, except that if you qualify for a discount in this offering you may also reinvest the related dividends at the same discounted purchase price. The purchase of fractional shares is a permissible, and likely, result of the reinvestment of dividends under the dividend reinvestment plan.

Account Statements

Our dealer manager or a participating broker-dealer will provide a confirmation of your quarterly purchases under the dividend reinvestment plan. The dealer manager or participating broker-dealer is to provide the confirmation to you or your designee within five business days after the end of each quarter, which confirmation is to disclose the following information:

each distribution reinvested for your account during the quarter;

the date of the reinvestment;

the number and price of the shares purchased by you; and

the total number of shares in your account.

In addition, within 90 days after the end of each calendar year, we will provide you with an individualized report on your investment, including the purchase dates, purchase price, number of shares owned, and the amount of distributions made in the prior year. We will send to all participants in the plan, without charge, all supplements to and updated versions of this prospectus which we are required to provide under applicable securities laws.

Fees and Commissions

We will pay dealer manager fees and selling commissions in connection with sales under the dividend reinvestment plan to the same extent that we paid those fees and commissions on the shares sold in this offering to which the dividends relate. Therefore, if you purchase shares in this offering at a discount due to the waiver of those fees and commissions, the purchase price of shares purchased with any related dividends will be similarly reduced. We will not receive a fee for selling shares under the dividend reinvestment plan.

Voting

You may vote all whole shares acquired through the dividend reinvestment plan.

Tax Consequences of Participation

If you elect to participate in the dividend reinvestment plan and are subject to federal income taxation, you will incur a tax liability for distributions allocated to you even though you have elected not to receive the distributions in cash but rather to have the distributions withheld and reinvested pursuant to the dividend reinvestment plan. Specifically, you will be treated as if you have received the distribution

Table of Contents

from us in cash and then applied such distribution to the purchase of additional shares. You will be taxed on the amount of such distribution as a dividend to the extent such distribution is from current or accumulated earnings and profits, unless we have designated all or a portion of the dividend as a capital gain dividend. See *Federal Income Tax Considerations Taxation of U.S. Stockholders and Distributions Generally*. In addition, any fees and selling commissions paid by us when reinvesting dividends on your behalf will constitute additional distribution income. We will withhold 28% of the amount of dividends or distributions paid if you fail to furnish a valid taxpayer identification number, fail to properly report interest or dividends or fail to certify that you are not subject to withholding.

Termination of Participation

You may terminate your participation in the dividend reinvestment plan at any time by providing us with written notice. Any transfer of your shares will effect a termination of the participation of those shares in the dividend reinvestment plan. You must promptly notify us should you no longer meet the suitability standards described above at *Who May Invest* immediately following the cover page of this prospectus or cannot make the other representations or warranties set forth in the Subscription Agreement at any time prior to the listing of the shares on a national stock exchange or the Nasdaq National Market. We will terminate your participation to the extent that a reinvestment of your dividends in our shares would cause you to exceed the ownership limitation contained in our charter.

Amendment or Termination of Plan

We may amend or terminate the dividend reinvestment plan for any reason at any time upon 10 days' prior written notice to participants.

Share Redemption Program

Our share redemption program may permit you to sell your shares back to us after you have held them for at least one year, subject to the significant conditions and limitations described below. The share redemption program is not available to those who purchase their shares from another stockholder.

Currently, the price at which we would repurchase your stock under the share redemption program is \$8.20 unless the shares are being redeemed in connection with the death of a stockholder. Our share redemption program provides that this \$8.20 redemption price will remain fixed until three years after we complete our offering stage. (We define the completion of our offering stage as the time that we complete this offering or any subsequent public equity offerings commenced within one year of the completion of a public equity offering. For purposes of this definition, we do not consider a public equity offering to include secondary offerings or offerings related to a dividend reinvestment plan, employee benefit plan or the redemption of interests in Wells OP II). Thereafter, the redemption price will equal 95% of our per share net asset value of our shares as estimated by our advisor and reported to you. (See *ERISA Considerations Annual Valuation* above.) Our share redemption program generally limits the number of shares we can redeem to (1) those that we can purchase with net proceeds from the sale of shares under our dividend reinvestment plan and (2) no more than 3.0% of the weighted average number of shares outstanding during the prior calendar year. In the event that you are redeeming all of your shares, there is no holding period requirement for shares purchased pursuant to our dividend reinvestment plan.

In several respects, however, we treat redemptions sought upon the death of a stockholder differently from other redemptions. First, there is no one-year holding requirement. Second, the redemption price is the amount the stockholder paid for the shares in this offering until three years

after we complete our offering stage. At that time, the redemption price will be the amount the stockholder paid for the shares or 100% of our advisor's estimate of our per share net asset value, whichever is greater.

Table of Contents

Finally, we will not limit redemptions upon the death of a stockholder with respect to the proceeds from our dividend reinvestment plan or the number of our outstanding shares.

We will redeem shares on a first-come, first-serve basis. Qualifying stockholders who desire to redeem their shares should give written notice to the Company at 6200 The Corners Parkway, Suite 250, Norcross, Georgia 30092, ATTN: Client Services. Within one month of receipt of a redemption request, we intend to redeem the shares of qualifying stockholders or inform the stockholder that we will not redeem their shares. Upon receipt of notice that we will not redeem the shares, a stockholder may permit the request to remain pending until such time that we can purchase the shares under the program. A stockholder can seek to withdraw a redemption request upon written notice to that effect received at the above address at any time prior to the time that we effect a redemption.

Our board of directors may terminate or amend our share redemption program at any time. In addition, our board of directors has delegated to our officers the right to reject any request for redemption at any time and for any reason.

Our share redemption program is only intended to provide stockholders a limited ability to redeem shares for cash until a secondary market develops for the shares. No such market presently exists, and we cannot assure you that any market for your shares will ever develop.

Registrar and Transfer Agent

Wells Capital, a registered transfer agent, will serve as the registrar and transfer agent for our common stock.

Restrictions on Roll-Up Transactions

In connection with any proposed transaction considered a Roll-up Transaction involving us and the issuance of securities of an entity, which we refer to as a Roll-up Entity, that would be created or would survive after the successful completion of the Roll-up Transaction, an appraisal of all properties shall be obtained from a competent independent appraiser. The properties shall be appraised on a consistent basis, and the appraisal shall be based on the evaluation of all relevant information and shall indicate the value of the properties as of a date immediately prior to the announcement of the proposed Roll-up Transaction. The appraisal shall assume an orderly liquidation of properties over a 12-month period. The terms of the engagement of the independent appraiser shall clearly state that the engagement is for our benefit and the benefit of our stockholders. A summary of the appraisal, indicating all material assumptions underlying the appraisal, shall be included in a report to stockholders in connection with any proposed Roll-up Transaction.

A Roll-up Transaction is a transaction involving the acquisition, merger, conversion or consolidation, directly or indirectly, of us and the issuance of securities of a Roll-up Entity. This term does not include:

a transaction involving our securities that have been for at least 12 months listed on a national securities exchange or included for quotation on Nasdaq; or

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form S-11/A

a transaction involving the conversion to corporate, trust, or association form of only us if, as a consequence of the transaction, there will be no significant adverse change in stockholder voting rights, the term of our existence, compensation to Wells Capital or our investment objectives.

Table of Contents

In connection with a proposed Roll-up Transaction, the person sponsoring the Roll-up Transaction must offer to stockholders who vote no on the proposal the choice of:

- (1) accepting the securities of a Roll-up Entity offered in the proposed Roll-up Transaction; or
- (2) one of the following:
 - (A) remaining as stockholders of us and preserving their interests therein on the same terms and conditions as existed previously; or
 - (B) receiving cash in an amount equal to the stockholder's pro rata share of the appraised value of our net assets.

We are prohibited from participating in any proposed Roll-up Transaction:

that would result in the stockholders having democracy rights in a Roll-up Entity that are less than those provided in our bylaws and described elsewhere in this prospectus, including rights with respect to the election and removal of directors, annual reports, annual and special meetings, amendment of our articles of incorporation, and dissolution of us;

that includes provisions that would operate to materially impede or frustrate the accumulation of shares by any purchaser of the securities of the Roll-up Entity, except to the minimum extent necessary to preserve the tax status of the Roll-up Entity, or which would limit the ability of an investor to exercise the voting rights of its securities of the Roll-up Entity on the basis of the number of shares held by that investor;

in which investor's rights to access of records of the Roll-up Entity will be less than those provided in the section of this prospectus entitled "Description of Shares - Meetings and Special Voting Requirements;" or

in which any of the costs of the Roll-up Transaction would be borne by us if the Roll-up Transaction is not approved by the stockholders.

THE OPERATING PARTNERSHIP AGREEMENT

General

Wells Operating Partnership II, L.P., which we refer to as "Wells OP II," was formed in July 2003 to acquire, own and operate properties on our behalf. As a result of this structure, we are considered to be an umbrella partnership real estate investment trust or UPREIT. An UPREIT is a structure REITs often use to acquire real property from owners on a tax deferred basis (the sellers can generally accept partnership units and defer taxable gain otherwise required to be recognized by them upon the disposition of their properties). Such owners may also desire to achieve diversity in their investment and other benefits afforded to stockholders in a REIT. For purposes of satisfying the asset and income tests for qualification as a REIT for tax purposes, the REIT's proportionate share of the assets and income of Wells OP II will be deemed to be assets and income of the REIT.

We expect that substantially all of our assets will be held by Wells OP II. We are the sole general partner of Wells OP II. Wells Capital, our advisor, has purchased \$200,000 of limited partnership units in Wells OP II and is currently the only initial limited partner. As the sole general partner, we have the exclusive power to manage and conduct the business of Wells OP II.

Table of Contents

The following is a summary of material provisions of the limited partnership agreement of Wells OP II. This summary is qualified by the specific language in the limited partnership agreement. You should refer to the limited partnership agreement, which we have filed as an exhibit to the registration statement, for more detail.

Capital Contributions

As we accept subscriptions for shares, we will transfer substantially all of the net proceeds of the offering to Wells OP II as a capital contribution; however, we will be deemed to have made capital contributions in the amount of the gross offering proceeds received from investors. Wells OP II will be deemed to have simultaneously paid the selling commissions and other costs associated with the offering. If Wells OP II requires additional funds at any time in excess of capital contributions made by us and Wells Capital or from borrowing, we may borrow funds from a financial institution or other lender and lend such funds to Wells OP II on the same terms and conditions as are applicable to our borrowing of such funds. In addition, we are authorized to cause Wells OP II to issue partnership interests for less than fair market value if we conclude in good faith that such issuance is in the best interest of Wells OP II and us.

Operations

The limited partnership agreement of Wells OP II provides that, so long as we remain qualified as a REIT, Wells OP II is to be operated in a manner that will enable us to satisfy the requirements for being classified as a REIT for tax purposes. As a general partner of Wells OP II, we are also empowered to do anything to ensure that Wells OP II will not be classified as a publicly traded partnership for purposes of Section 7704 of the Internal Revenue Code. Classification as a publicly traded partnership could result in Wells OP II being taxed as a corporation, rather than as a partnership.

Distributions and Allocations of Profits and Losses

The limited partnership agreement provides that Wells OP II will distribute cash flow from operations to its partners in accordance with their relative percentage interests on at least a quarterly basis in amounts we, as general partner, determine. The effect of these distributions will be that a holder of one unit of limited partnership interest in Wells OP II will receive the same amount of annual cash flow distributions as the amount of annual dividends paid to the holder of one of our shares.

Similarly, the limited partnership agreement provides that taxable income is allocated to the partners of Wells OP II in accordance with their relative percentage interests. Subject to compliance with the provisions of Sections 704(b) and 704(c) of the Internal Revenue Code and corresponding Treasury Regulations, the effect of these allocations will be that a holder of one unit of limited partnership interest in Wells OP II will be allocated taxable income for each taxable year in an amount equal to the amount of taxable income to be recognized by a holder of one of our shares. Losses, if any, will generally be allocated among the partners in accordance with their respective percentage interests in Wells OP II. Losses cannot be passed through to our stockholders.

If Wells OP II liquidates, debts and other obligations must be satisfied before the partners may receive any distributions. Any distributions to partners then will be made to partners in accordance with their respective positive capital account balances.

Table of Contents

Rights, Obligations and Powers of the General Partner

As Wells OP II's general partner, we generally have complete and exclusive discretion to manage and control Wells OP II's business and to make all decisions affecting its assets. This authority generally includes, among other things, the authority to:

acquire, purchase, own, operate, lease and dispose of any real property and any other property;

construct buildings and make other improvements on owned or leased properties;

authorize, issue, sell, redeem or otherwise purchase any debt or other securities;

borrow money;

make or revoke any tax election;

maintain insurance coverage in amounts and types as we determine is necessary;

retain employees or other service providers;

form or acquire interests in joint ventures; and

merge, consolidate or combine Wells OP II with another entity.

Wells OP II will pay all the administrative and operating costs and expenses it incurs in acquiring and operating real properties. Wells OP II also will pay all of our administrative costs and expenses and such expenses will be treated as expenses of Wells OP II. Such expenses will include:

all expenses relating to our formation and continuity of existence;

all expenses relating to the public offering and registration of our securities;

all expenses associated with the preparation and filing of our periodic reports under federal, state or local laws or regulations;

all expenses associated with our compliance with applicable laws, rules and regulations; and

all of our other operating or administrative costs incurred in the ordinary course of business.

The only costs and expenses we may incur for which we will not be reimbursed by Wells OP II will be costs and expenses relating to properties we may own outside of Wells OP II. We will pay the expenses relating to such properties directly.

Exchange Rights

The limited partners of Wells OP II, including Wells Capital, have the right to cause Wells OP II to redeem their limited partnership units for cash equal to the value of an equivalent number of our shares, or, at our option, we may purchase their limited partnership units for cash or by issuing one share of our common stock for each limited partnership unit redeemed. These exchange rights may not be exercised, however, if and to the extent that the delivery of shares upon such exercise would:

Table of Contents

result in any person owning shares in excess of the ownership limit in our charter;

result in our shares being owned by fewer than 100 persons;

result in us being closely held within the meaning of Section 856(h) of the Code; or

cause us to own 10% or more of the ownership interests in a tenant within the meaning of Section 856(d)(2)(B) of the Code.

Furthermore, limited partners may exercise their exchange rights only after their limited partnership units have been outstanding for one year. A limited partner may not deliver more than two exchange notices each calendar year and may not exercise an exchange right for less than 1,000 limited partnership units, unless such limited partner holds less than 1,000 units. In that case, he must exercise his exchange right for all of his units.

Change in General Partner

We are generally not allowed to withdraw as the general partner of Wells OP II or transfer our general partnership interest in Wells OP II (except to a wholly owned subsidiary). The principal exception to this is if we merge with another entity and (1) the holders of a majority of partnership units (including those we hold) approve the transaction; (2) the limited partners receive or have the right to receive an amount of cash, securities or other property equal in value to the amount they would have received if they had exercised their exchange rights immediately before such transaction; (3) we are the surviving entity and our stockholders do not receive cash, securities, or other property in the transaction; or (4) the successor entity contributes substantially all of its assets to Wells OP II in return for an interest in Wells OP II and agrees to assume all obligations of the general partner of Wells OP II. If we voluntarily seek protection under bankruptcy or state insolvency laws, or if we are involuntarily placed under such protection for more than 90 days, we would be deemed to be automatically removed as the general partner. Otherwise, the limited partners have no right to remove us as general partner.

Transferability of Interests

With certain exceptions, the limited partners may not transfer their interests in Wells OP II, in whole or in part, without our written consent as the general partner. In addition, pursuant to our charter Wells Capital may not transfer its interest in Wells OP II as long as it is acting as our advisor, except pursuant to the exercise of its right to exchange limited partnership units for our shares, in which case similar restrictions on transfer will apply to the shares of our common stock received by Wells Capital.

Amendment of Limited Partnership Agreement

An amendment to the limited partnership agreement requires the consent of the holders of a majority of the partnership units (including the partnership units we hold). Additionally, we, as general partner, must approve any amendment. However, certain amendments require the consent of the holders of a majority of the partnership units (excluding the partnership units we or one of our affiliates holds). Such amendments include:

any amendment affecting the exchange right to the detriment of the limited partners (except for certain business combinations where we merge with another entity and leave Wells OP II in existence to hold all the assets of the surviving entity);

Table of Contents

any amendment that would adversely affect the limited partners' rights to receive distributions, except for amendments we make to create and issue preferred partnership units;

any amendment that would alter how we allocate profits and losses, except for amendments we make to create and issue preferred partnership units;

any amendment that would impose on the limited partners any obligation to make additional capital contributions.

PLAN OF DISTRIBUTION

General

We are publicly offering a maximum of 600,000,000 shares through Wells Investment Securities, our dealer manager, a registered broker-dealer affiliated with Wells Capital, our advisor. (See "Conflicts of Interest.") Except as noted below, we are offering the shares at a price of \$10.00 per share on a "best efforts" basis, which means that the dealer manager must use only its best efforts to sell the shares and has no firm commitment or obligation to purchase any of the shares. We expect to be able to sell all 600,000,000 shares offered by this prospectus by _____, 2005 even if no shares are sold under the dividend reinvestment plan. If, however, we have not sold all of the shares in this offering by _____, 2005, we may only continue to offer in this offering any remaining unsold shares exclusively through our dividend reinvestment program. We reserve the right to terminate this offering at any time.

Compensation of Dealer Manager and Participating Broker-Dealers

Except as provided below, Wells Investment Securities, our dealer manager and affiliate, will receive selling commissions of 7.0% of the gross offering proceeds, or \$0.70 per share. The dealer manager will also receive 2.5% of the gross offering proceeds, or \$0.25 per share, in the form of a dealer manager fee as compensation for acting as the dealer manager and for expenses incurred in connection with marketing our shares and paying the employment costs of the dealer manager's wholesalers. Out of its dealer manager fee, the dealer manager may pay salaries and commissions to its wholesalers in the aggregate amount of up to 1% of the gross offering proceeds. We will not pay referral or similar fees to any accountants, attorneys or other persons in connection with the distribution of the shares. We will pay the same selling commissions and dealer manager fees on shares purchased pursuant to the dividend reinvestment plan as we paid in connection with the sale of the underlying shares to which the dividends relate.

The dealer manager may authorize certain other broker-dealers who are members of the NASD, which we refer to as participating broker-dealers, to sell our shares. In the event of the sale of shares by a participating broker-dealer, the dealer manager will reallow its selling commissions in an amount equal to 7.0% of the gross offering proceeds attributable to the participating broker-dealer. In addition, the dealer manager may reallow to a participating broker-dealer a portion of the dealer manager fee earned on the proceeds raised by the participating broker-dealer. This reallowance would be in the form of a marketing fee and may also include a reimbursement of certain of a participating broker-dealer's distribution-related costs, such as the costs and expenses of attending our educational conferences and direct attendance fees we may pay to attend a seminar sponsored by a participating broker-dealer. That portion of the reallowance constituting a marketing fee shall not exceed 1.5% of the gross sales of the broker-dealer and, in the aggregate, the entire dealer manager reallowance will not exceed 1.5% of the gross offering proceeds. In addition, we will reimburse any participating broker-dealer for bona fide due diligence expenses, not to exceed 0.5% of the gross offering proceeds attributable to the participating broker-dealer.

Table of Contents

The table below sets out the nature and amount of compensation we will pay to the dealer manager and the participating broker-dealers in this offering, assuming the sale of 600,000,000 shares at \$10 per share.

Dealer Manager and Participating Broker-Dealer Compensation ⁽¹⁾

Dealer manager fee	\$ 150,000,000 ⁽²⁾
Selling commissions	\$ 420,000,000 ⁽²⁾⁽³⁾
Salary allocations of sales managers, wholesaler support personnel and personnel coordinating due diligence of participating broker-dealers	\$ 3,100,000 ⁽⁴⁾
Expense reimbursements for retail seminars ⁽⁵⁾	\$ 4,380,000 ⁽⁴⁾
Expense reimbursements for educational conferences ⁽⁵⁾	\$ 400,000 ⁽⁴⁾
Legal fees allocable to dealer manager	\$ 500,000 ⁽⁴⁾
Reimbursement of due diligence expenses ⁽⁶⁾	\$ 250,000 ⁽⁴⁾
Total	\$ 578,630,000⁽⁴⁾

- (1) Assumes maximum of 600,000,000 shares sold in this offering. Excludes compensation payable to affiliates of dealer manager for services other than underwriting. See Management Compensation.
- (2) Assumes no shares purchased by our directors, officers or employees or those of Wells Capital or its affiliates. As described below, the dealer manager fee and selling commissions are waived for those purchasers.
- (3) Assumes all shares sold through participating broker-dealers entitled to selling commissions. As described below, the selling commissions are waived for certain categories of investors.
- (4) Amounts shown are estimates.
- (5) These fees consist of expense reimbursements for actual costs incurred by employees of Wells Capital or its affiliates to attend educational conferences that we sponsor and seminars sponsored by participating broker-dealers.
- (6) We will reimburse the bona fide due diligence expenses of only the participating broker-dealers, up to a maximum of 0.5% of the gross proceeds attributable to a participating broker-dealer.

Under the rules of the NASD, total underwriting compensation, including sales commissions, the dealer manager fee and underwriter expense reimbursement, may not exceed 10% of our gross offering proceeds, except for bona fide due diligence expenses, which may not exceed 0.5% of our gross offering proceeds. The NASD and many states also limit our total organization and offering expenses to 15% of gross offering proceeds. With Wells Capital's obligation to reimburse us to the extent the organization and offering expenses (other than the dealer manager fee, selling commissions and due diligence reimbursements) exceed 2% of our gross offering proceeds, our total organization and offering expenses are capped at 12% (assuming a \$10 per share sale price), as shown in the following table:

Table of Contents**Organization and Offering Expenses**

<u>Expense</u>	<u>Maximum Percent of Gross Offering Proceeds</u>
Dealer manager fee	2.5%
Selling commissions	7.0%
Reimbursable due diligence expenses	0.5%
All other organization and offering expenses	2.0%
Total	12.0%

We will indemnify the participating broker-dealers and the dealer manager against some civil liabilities, including liabilities under the Securities Act and liabilities arising from breaches of our representations and warranties contained in the underwriting agreement. If we are unable to provide this indemnification, we will contribute to payments the indemnified parties may be required to make in respect of those liabilities.

In the event that an investor (1) has engaged the services of a registered investment adviser or other financial advisor with whom the investor has agreed to pay compensation for investment advisory services or other financial or investment advice, or (2) is investing in a bank trust account with respect to which the investor has delegated the decision-making authority for investments made in the account to a bank trust department, we will sell shares to or for the account of such investor for \$9.30 per share, reflecting that selling commissions in the amount of \$0.70 per share will not be payable. Additionally, we will waive the selling commissions on shares purchased as a reinvestment of dividends paid on such underlying shares under our dividend reinvestment plan. The net proceeds to us will not be affected by waiving the commissions payable in connection with such transactions. Neither the dealer manager nor its affiliates will compensate any person engaged as an investment adviser by a potential investor as an inducement for such investment adviser to advise favorably for an investment in us.

We may sell shares to retirement plans of participating broker-dealers, to participating broker-dealers and their family members in their individual capacities, to IRAs and qualified plans of their registered representatives or to any one of their registered representatives and the family members of their registered representatives in their individual capacities for \$9.30 per share, reflecting that selling commissions in the amount of \$0.70 per share will not be payable in consideration of the services rendered by such broker-dealers and registered representatives in the offering. For purposes of this discount, we consider a family member to be a spouse, parent, child, sibling, mother- or father-in-law, son- or daughter-in-law or brother- or sister-in-law. The net proceeds to us from such sales made net of commissions will be identical to the net proceeds we receive from other sales of shares.

Our directors and officers, as well as directors, officers and employees of Wells Capital or its affiliates, may purchase shares in this offering at a discount. The purchase price for such shares shall be \$9.05 per share reflecting the fact that selling commissions in the amount of \$0.70 per share and dealer manager fees in the amount of \$0.25 per share will not be payable in connection with such sales. The net offering proceeds we receive will not be affected by such sales of shares at a discount. Wells Capital and its affiliates shall be expected to hold their shares purchased as stockholders for investment and not with a view towards distribution.

If an investor purchases 500,000 shares at any one time, the purchase price for those shares will be \$9.40, which price reflect a reduction of selling commissions from 7% of gross offering proceeds to 1%

Table of Contents

for purchases of that size. The volume discount will not affect the net proceeds we receive. We offer this volume discount only to single investors, i.e., separate investors cannot aggregate their purchases as a group to qualify for the discount.

Subscription Procedures

We will not sell any shares unless we sell a minimum of 250,000 shares by _____, 2004 (one year from the date of this prospectus). Pending satisfaction of this condition, all subscription payments will be placed in an account held by the escrow agent, SouthTrust Bank, in trust for subscribers' benefit, pending release to us. If we do not sell at least 250,000 shares by _____, 2004, we will return all funds in the escrow account (including interest), and we will stop selling shares.

You should pay for your shares by check payable to Wells Real Estate Investment Trust II, Inc. Subscriptions will be effective only upon our acceptance, and we reserve the right to reject any subscription in whole or in part. Subscriptions will be accepted or rejected within 30 days of receipt by us and, if rejected, all funds shall be returned to the rejected subscribers within 10 business days. We may not accept a subscription for shares until at least five business days after the date you receive this prospectus. You will receive a confirmation of your purchase. We generally admit stockholders on a daily basis.

An investor's initial purchase of shares in Wells REIT II must be for whole shares and for not less than 100 shares (\$1,000). (See Suitability Standards and Minimum Purchase Requirements.) Except in Ohio, Maine, Minnesota, Nebraska and Washington, investors who have satisfied the minimum purchase requirement in other Wells-sponsored public real estate programs may purchase less than the minimum number of shares discussed above, provided that such investors purchase a minimum of 2.5 shares (\$25). After investors have satisfied the applicable minimum purchase requirement, minimum additional purchases must be in increments of at least 2.5 shares (\$25), except for (1) additional purchases made by residents of Maine, who must still satisfy the minimum purchase requirements set forth under Suitability Standards and Minimum Purchase Requirements Minimum Purchase Requirements above, and (2) purchases made pursuant to our dividend reinvestment plan or reinvestment plans of other Wells-sponsored public real estate programs. Residents of Maine must execute a new Subscription Agreement Signature Page to make additional investments.

Investors who desire to purchase shares in this offering at regular intervals may be able to do so through their participating broker-dealer, or if they are investing in this offering other than through a participating broker-dealer, the dealer manager by completing an automatic investment plan enrollment form. Participation in the automatic investment plan is limited to investors who have already met the minimum purchase requirement in this offering of \$1,000. The minimum periodic investment is \$100 per month, except for Maine residents who must still satisfy the minimum purchase requirements described above.

Our dealer manager or a participating broker-dealer will provide a confirmation of your monthly purchases under the automatic investment plan. The dealer manager or participating broker-dealer is to provide the confirmation to you or your designee within five business days after the end of each month, which confirmation is to disclose the following information:

the amount of the investment;

the date of the investment;

the number and price of the shares purchased by you; and

Table of Contents

the total number of shares in your account.

We will pay dealer manager fees and selling commissions in connection with sales under the automatic investment plan to the same extent that we pay those fees and commissions on shares sold in this offering outside of the automatic investment plan.

You may terminate your participation in the automatic investment plan at any time by providing us with written notice. Your participation in the plan will also terminate should you no longer meet the suitability standards described above at **Who May Invest** immediately following the cover page of this prospectus.

Investors who desire to establish an IRA for purposes of investing in shares may do so by having Wells Advisors, Inc., a qualified non-bank IRA custodian affiliated with our advisor, act as their IRA custodian. In the event that an IRA is established having Wells Advisors, Inc. as the IRA custodian, the authority of Wells Advisors, Inc. will be limited to holding the shares on behalf of the beneficiary of the IRA and making distributions or reinvestments in shares solely at the discretion of the beneficiary of the IRA. Wells Advisors, Inc. will not have the authority to vote any of the shares held in an IRA except strictly in accordance with the written instructions of the beneficiary of the IRA.

The dealer manager or any participating broker-dealer who sells shares on our behalf has the responsibility to make every reasonable effort to determine that the purchase of shares in this offering is a suitable and appropriate investment based on information provided by the stockholder regarding the stockholder's financial situation and investment objectives. (See **Who May Invest Suitability Standards** immediately following the cover page of this prospectus).

SUPPLEMENTAL SALES MATERIAL

In addition to this prospectus, we may utilize certain sales material in connection with the offering of the shares, although only when accompanied by or preceded by the delivery of this prospectus. These supplemental sales materials may include information relating to this offering, the past performance of Wells Capital, our advisor, and its affiliates, property brochures and articles and publications concerning real estate. In certain jurisdictions, some or all of our supplemental sales material may not be permitted.

We are offering shares only by means of this prospectus. Although the information contained in our supplemental sales materials will not conflict with any of the information contained in this prospectus, the supplemental materials do not purport to be complete and should not be considered a part of or as incorporated by reference in this prospectus or the registration statement of which this prospectus is a part.

LEGAL MATTERS

The validity of the shares of our common stock being offered hereby will be passed upon for us by Alston & Bird LLP, Raleigh, North Carolina. Alston & Bird LLP has also represented Wells Capital, our advisor, as well as various other affiliates of Wells Capital, in other matters and may continue to do so in the future.

EXPERTS

Our balance sheet at September 16, 2003, appearing in this registration statement and related prospectus has been audited by Ernst & Young LLP, independent auditors, as set forth in their

Table of Contents

report thereon appearing elsewhere herein, and is included in reliance upon such report given on the authority of such firm as experts in accounting and auditing.

WHERE YOU CAN FIND MORE INFORMATION

We have filed a registration statement on Form S-11 with the SEC with respect to the shares of our common stock to be issued in the offering. This prospectus is a part of that registration statement and, as allowed by SEC rules, does not include all of the information you can find in the registration statement or the exhibits to the registration statement. For additional information relating to us, we refer you to the registration statement and the exhibits to the registration statement. Statements contained in this prospectus as to the contents of any contract or document referred to are necessarily summaries of such contract or document and in each instance, if the contract or document is filed as an exhibit to the registration statement, we refer you to the copy of the contract or document filed as an exhibit to the registration statement.

After commencement of the offering, we will file annual, quarterly and special reports, proxy statements and other information with the SEC. We intend to furnish our stockholders with annual reports containing consolidated financial statements certified by an independent public accounting firm. The registration statement is, and any of these future filings with the SEC will be, available to the public over the Internet at the SEC's website at <http://www.sec.gov>. You may read and copy any filed document at the SEC's public reference room in Washington, D.C. at 450 Fifth Street, N.W., Judiciary Plaza, Washington D.C. Please call the SEC at (800) SEC-0330 for further information about the public reference rooms.

We also maintain an Internet site at <http://www.wellsref.com> at which there is additional information about us and our affiliates, but the contents of that site are not incorporated by reference in or otherwise a part of this prospectus.

Report of Independent Auditors

To the Board of Directors and Stockholder

Wells Real Estate Investment Trust II, Inc.

We have audited the accompanying balance sheet of Wells Real Estate Investment Trust II, Inc. as of September 16, 2003. This balance sheet is the responsibility of the Company's management. Our responsibility is to express an opinion on this balance sheet based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the balance sheet is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the balance sheet. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall balance sheet presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the balance sheet referred to above presents fairly, in all material respects, the financial position of Wells Real Estate Investment Trust II, Inc. at September 16, 2003 in conformity with accounting principles generally accepted in the United States.

WELLS REAL ESTATE INVESTMENT TRUST II, INC.

NOTES TO BALANCE SHEET

September 16, 2003

1. ORGANIZATION

Wells Real Estate Investment Trust II, Inc. (Wells REIT II) was formed on July 3, 2003 as a Maryland corporation that intends to qualify as a real estate investment trust (REIT). Wells REIT II expects to engage in the acquisition and ownership of commercial real properties throughout the United States, including properties that are under construction, are newly constructed or have operating histories. Wells REIT II may invest in office buildings, shopping centers, other commercial and industrial properties or other real estate properties. All such properties may be acquired directly or through joint ventures with real estate limited partnerships sponsored by Wells Capital, Inc. (the Advisor), affiliates of the Advisor, or third parties.

Substantially all of Wells REIT II s business is expected be conducted through Wells Operating Partnership II, L.P. (Wells OP II), a Delaware limited partnership. Wells OP II was formed on July 3, 2003, and is expected to acquire, develop, own, lease, and operate real properties on behalf of Wells REIT II, either directly, through wholly owned subsidiaries or through joint ventures. Wells REIT II owns a 1% general partnership interest in Wells OP II and possesses full legal control and authority over the operations of Wells OP II. On September 9, 2003, the Advisor purchased 20,000 limited partner units in Wells OP II in exchange for \$200,000.

As of September 16, 2003, Wells REIT II and Wells OP II have neither purchased nor contracted to purchase any properties, nor has the Advisor identified any properties in which there is a reasonable probability that Wells REIT II or Wells OP II will invest.

As of September 16, 2003 Wells REIT II had sold 100 shares to the Advisor at the proposed initial public offering price of \$10 per share and no other shares have been issued by Wells REIT II.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation and Basis of Presentation

The balance sheet includes the accounts of Wells REIT II and any entities for which Wells REIT II has a controlling financial interest. In determining whether a controlling financial interest exists, Wells REIT II considers ownership of voting interests, protective rights and participatory rights of the investors. Any intercompany balances and transactions are eliminated upon consolidation. As of September 16, 2003, Wells REIT II has no investments in other entities, except for its interest in Wells OP II.

Entities in which Wells REIT II does not have a controlling financial interest are accounted for using the equity method of accounting.

Upon formation, Wells REIT II adopted Financial Accounting Standards Board Interpretation No. 46 Consolidation of Variable Interest Entities (FIN 46). The interpretation provides additional guidance on the appropriate accounting for variable interest entities. Wells OP II is a variable interest entity (VIE), as that term is defined in Fin 46. Under FIN 46, the primary beneficiary of a VIE is required to consolidate the VIE. Wells REIT II is not the primary beneficiary of Wells OP II as of

F-4

Table of Contents

September 16, 2003 as it does not bear the majority of the expected losses of Wells OP II, as defined by FIN 46. As such, Wells REIT II has accounted for its 1% general partnership interest in Wells OP II under the equity method of accounting.

Use of Estimates

The preparation of the balance sheet in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the balance sheet and accompanying notes. Actual results could differ from those estimates.

Cash and Cash Equivalents

Wells REIT II considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents. Cash equivalents may include cash and short term investments. Short term investments are stated at cost, which approximates fair value and may consist of investments in money market accounts. There are no restrictions on the use of Wells REIT II's cash as of September 16, 2003.

Distribution Policy

Wells REIT II intends to make distributions each taxable year (not including a return of capital for federal income tax purposes) equal to at least 90% of the taxable income of Wells REIT II. Wells REIT II expects to declare dividends in advance of the quarter to which they relate based on a daily rate and pay the dividends at the end of the quarter.

Dividends to be distributed to stockholders will be determined by the board of directors of Wells REIT II and will be dependent upon a number of factors relating to Wells REIT II, including funds available for payment of dividends, financial condition, the timing of property acquisitions, capital expenditure requirements, and annual distribution requirements in order to maintain Wells REIT II's status as a REIT under the Internal Revenue Code.

Offering and Related Costs

Organization and offering costs (as described in note 4) of Wells REIT II are incurred or paid by the Advisor on behalf of Wells REIT II. As of September 16, 2003, the Advisor had incurred organization and offering expenses on behalf of Wells REIT II of approximately \$1,012,000, which will be reimbursed by Wells REIT II upon the sale of shares to the public under the terms of the Advisory Agreement discussed in Note 4. Upon reimbursement, organizational costs will be expensed, and offering costs will be charged to stockholders' equity.

Allocation of Purchase Price of Acquired Assets

Upon the acquisition of real properties, it is Wells REIT II's policy to allocate the purchase price of properties to acquired tangible assets, consisting of land and building, and identified intangible assets and liabilities, consisting of the value of above-market and below-market leases, other value of in-place leases and value of tenant relationships, based in each case on their fair values.

The fair values of the tangible assets of an acquired property (which includes land and building) will be determined by valuing the property as if it were vacant, and the as-if-vacant value is then allocated to land and building based on management's determination of the relative fair value of these assets. Management will determine the as-if vacant fair value of a property using methods similar to those used by independent appraisers. Factors considered by management in performing these analyses will include

Table of Contents

an estimate of carrying costs during the expected lease-up periods considering current market conditions and costs to execute similar leases. In estimating carrying costs, management will include real estate taxes, insurance, and other operating expenses and estimates of lost rental revenue during the expected lease-up periods based on current market demand. Management will also estimate the cost to execute similar leases including leasing commissions, legal and other related costs.

In allocating fair value of the identified intangible assets and liabilities of an acquired property, above-market and below-market in-place lease values will be recorded based on the present value (using an interest rate which reflects the risks associated with the leases acquired) of the difference between (i) the contractual amounts to be paid pursuant to the in-place leases and (ii) management's estimate of fair market lease rates for the corresponding in-place leases, measured over a period equal to the remaining non-cancelable term of the lease. The capitalized above-market lease values will be amortized as a reduction of rental income over the remaining non-cancelable terms of the respective leases. The capitalized below-market lease values will be amortized as an increase to rental income over the initial term and any fixed rate renewal periods in the respective leases.

The aggregate value of other acquired intangible assets, consisting of in-place leases and tenant relationships, will be measured by the excess of (i) the purchase price paid for a property after adjusting existing in-place leases to market rental rates over (ii) the estimated fair value of the property as if vacant, determined as set forth above. This aggregate value will be allocated between in-place lease values and tenant relationships based on management's evaluation of the specific characteristics of each tenant's lease. Should future acquisitions of properties result in allocating material amounts to the value of tenant relationships, an amount will be separately allocated and amortized over the estimated life of the relationship. The value of in-place leases exclusive of the value of above-market and below-market in-place leases will be amortized to expense over the remaining non-cancelable periods of the respective leases. If a lease were to be terminated prior to its stated expiration, all unamortized amounts relating to that lease will be written off.

Income Taxes

Wells REIT II intends to elect to be taxed as a REIT under the Internal Revenue Code of 1986, as amended, and intends to operate as such beginning with its taxable period ending December 31, 2003. To qualify as a REIT, Wells REIT II must meet certain organizational and operational requirements, including a requirement to distribute at least 90% of Wells REIT II's ordinary taxable income to stockholders. As a REIT, Wells REIT II generally will not be subject to federal income tax on taxable income that it distributes to stockholders. If Wells REIT II fails to qualify as a REIT in any taxable year, it will then be subject to federal income taxes on its taxable income at regular corporate rates and will not be permitted to qualify for treatment as a REIT for federal income tax purposes for four years following the year during which qualification is lost unless the Internal Revenue Service grants Wells REIT II relief under certain statutory provisions. Such an event could materially adversely affect Wells REIT II's net income and net cash available for distribution to stockholders. However, Wells REIT II intends to organize and operate in such a manner as to qualify for treatment as a REIT.

3. STOCKHOLDER'S EQUITY

General

Wells REIT II's charter authorizes it to issue 1,000,000,000 shares of capital stock, consisting of 900,000,000 common shares and 100,000,000 preferred shares, each as defined by the charter.

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form S-11/A

The common shares have a par value of \$0.01 per share and entitle the holders to one vote per share on all matters upon which stockholders are entitled to vote, to receive dividends and other distributions as

F-6

Table of Contents

authorized by the board of directors in accordance with the Maryland General Corporation Law and to all rights of a stockholder pursuant to the Maryland General Corporation Law. The common stock has no preferences or preemptive, conversion or exchange rights. As of September 16, 2003, Wells REIT II has issued 100 shares of common stock.

Wells REIT II is authorized to issue one or more series of preferred stock. Prior to the issuance of such shares, the board of directors shall have the power from time to time to classify or reclassify, in one or more series, any unissued shares constituting such series and the designation, preferences, conversion, and other rights, voting powers, restrictions, limitations as to dividends and other distributions, qualifications and terms and conditions of redemption of such shares. As of September 16, 2003, Wells REIT II has issued no shares of preferred stock.

Stock Option Plan

On September 16, 2003, the board of directors and stockholder of Wells REIT II adopted a Stock Option Plan, which provides for grants of non-qualified stock options to be made to selected employees of the Advisor and Wells Management Company, Inc. (Wells Management). A total of 750,000 shares have been authorized and reserved for issuance under the Stock Option Plan. At September 16, 2003, no stock options have been granted under the plan; therefore all 750,000 shares are available for option grants, subject to limitations set forth in the charter. The exercise price per share for the options must be the greater of (1) \$11.00, or (2) the Fair Market Value (as defined in the Stock Option Plan) on the date the option is granted. The conflicts committee of Wells REIT II s board of directors, upon recommendation and consultation with the Advisor and Wells Management, will grant options under the plan. The conflicts committee has the authority to set the term and vesting period of the stock options as long as no option has a term greater than five years from the date the stock option is granted. If the conflicts committee determines that the potential benefits of the stock options may be inappropriately diluted or enlarged as a result of certain corporate transactions or events, the conflicts committee may adjust the number and kind of shares or the exercise price with respect to any option. No stock option may be exercised if such exercise would jeopardize Wells REIT II s status as a REIT under the Internal Revenue Code, and no stock option may be granted if the grant, when combined with those issuable upon exercise of outstanding options or warrants granted to Wells REIT II s advisor, directors, officers or any of their affiliates, would exceed 10% of Wells REIT II s issued and outstanding shares. No option may be sold, pledged, assigned or transferred by an employee in any manner other than by will or the laws of descent or distribution.

Independent Director Stock Option Plan

On September 16, 2003, the board of directors and stockholder of Wells REIT II adopted an Independent Director Stock Option Plan (the Director Plan), which provides for grants of stock to be made to independent non-employee directors of Wells REIT II. A total of 100,000 shares have been authorized and reserved for issuance under the Director Plan. At September 16, 2003, no options have been granted under the plan; therefore all 100,000 shares are available for option grants, subject to limitations set forth in the charter. Options to purchase 2,500 shares of common stock at the greater of (1) \$12 per share are granted upon initially becoming an independent director of Wells REIT II, or at the date the stockholders approved the Director Plan. Of these shares, 20% are exercisable immediately on the date of grant. An additional 20% of these shares become exercisable on each anniversary following the date of grant for a period of four years. Additionally, effective on the date of each annual shareholder meeting, beginning in 2004, each independent director will be granted an option to purchase 1,000 additional shares of common stock at the greater of (1) \$12 per share or (2) the Fair Market Value, as defined in the Director Plan. These options are 100% exercisable at the completion of two years of service after the date of grant. All options granted under the Director Plan expire no later than the tenth anniversary of the date of grant and may expire sooner if the independent director dies, is disabled, or ceases to serve as a director. In the

Table of Contents

event that the potential benefits of the stock options may be inappropriately diluted or enlarged as a result of a certain corporate transaction or event, a corresponding adjustment to the consideration payable with respect to all stock options shall be made. No stock option may be exercised if such exercise would jeopardize Wells REIT II's status as a REIT under the Internal Revenue Code, and no stock option may be granted if the grant, when combined with those issuable upon exercise of outstanding options or warrants granted to Wells REIT II's advisor, directors, officers or any of their affiliates, would exceed 10% of Wells REIT II's issued and outstanding shares. No option may be sold, pledged, assigned or transferred by an independent director in any manner other than by will or the laws of descent or distribution.

Dividend Reinvestment Plan

On September 16, 2003, the board of directors and stockholder of Wells REIT II adopted a dividend reinvestment plan (the "DRP"), through which common stockholders may elect to reinvest an amount equal to the dividends declared on their common shares in additional shares of Wells REIT II's common stock in lieu of receiving cash dividends. Shares may be purchased at a fixed price of \$10 per share except that investors who qualify for a discount in the Wells REIT II's public offering may also reinvest the related dividends at the same discounted purchase price. Participants in the DRP may purchase fractional shares so that 100% of the dividends will be used to acquire shares of the Wells REIT II's stock. Wells REIT II will pay dealer manager fees and selling commissions in connection with sales under the dividend reinvestment plan to the same extent it paid those fees and commissions on the shares to which the dividends relate. The board of directors, by majority vote, may amend or terminate the DRP for any reason upon 10 days prior written notice to the participants of the DRP. Participants may purchase shares under the DRP until all of the shares registered as part of Wells REIT II's initial public offering have been sold.

Share Redemption Program

The board of directors of Wells REIT II has approved a share redemption plan for stockholders who hold their shares for more than one year, subject to certain limitations and penalties. The share redemption program provides that Wells REIT II may repurchase a stockholder's stock for \$8.20 per share. This redemption price will remain fixed until three years after Wells REIT II completes its initial public offering or any subsequent public equity offerings (other than secondary offerings or offerings related to a dividend reinvestment plan, employee benefit plan or the issuance of shares upon redemption of interests in Wells OP II). Thereafter, the redemption price would equal 95% of the per share net asset value of Wells REIT II as estimated by the Advisor. However, redemptions sought upon the death of a stockholder do not require a one-year holding period, and the redemption price is the amount paid for the shares until three years after completion of the above-mentioned offering stage. At that time, the redemption price would be the higher of the amount paid for the shares or 100% of the Advisor's estimated per share net asset value. The shares redeemed under the plan other than upon the death of a stockholder may not exceed the lesser of (i) the amount redeemable from proceeds from the sale of shares through the DRP, or (ii) 3% of the weighted average common shares outstanding during the preceding year. Wells REIT II will have no obligation to repurchase shares under its share redemption program. The board of directors may amend or terminate Wells REIT II's share redemption program at any time.

4. RELATED PARTY TRANSACTIONS

Advisory Agreement

Wells REIT II has entered into an Advisory Agreement with the Advisor, which entitles the Advisor to earn specified fees upon the completion of certain services with regard to the investment of funds in real estate projects and sales of properties, among other services.

Table of Contents

The Advisor will incur or pay organization and offering costs (other than selling commissions, the dealer manager fee and the reimbursable due diligence expenses of participating dealers) of Wells REIT II. These costs include Wells REIT II's legal, accounting, printing, and filing fees and other offering expenses, such as the salaries of the Advisor's employees and other costs of the Advisor relating to the preparation of supplemental sales materials and holding educational conferences. If Wells REIT II raises \$2,500,000 from the sale of capital stock to the public, Wells REIT II is obligated to reimburse the Advisor for those costs in an amount equal to the lesser of actual costs incurred, or 2% of the gross proceeds from the offering and sale of shares of common stock to the public. As of September 16, 2003, the Advisor had incurred organization and offering expenses on behalf of Wells REIT II of approximately \$1,012,000, for which Wells REIT II will reimburse the Advisor upon the sale of shares to the public. If Wells REIT II does not raise at least \$2,500,000 as described above, Wells REIT II has no obligation to reimburse the Advisor for these costs.

Wells REIT II will pay an asset management fee to the Advisor for services related to formulating and implementing strategies to administer, promote, manage, operate, maintain, improve, finance and refinance, market, lease, and dispose of properties. The asset management fee will be payable monthly in an amount equal to one-twelfth of 0.5% of the sum of the cost of all occupied properties Wells REIT II owns plus the cost of investments in joint ventures, provided that the amount paid in any calendar quarter may not exceed 0.7% of the net asset value of those investments at each quarter's end after deducting debt used to acquire or refinance properties. Additionally, Wells REIT II will reimburse the Advisor for all costs and expenses the latter incurs in fulfilling its duties as the asset portfolio manager. These costs and expenses may include wages and salaries and other employee-related expenses of the Advisor's employees engaged in the management, administration, operations, and marketing functions. Employee-related expenses include taxes, insurance and benefits relating to such employees, and legal, travel and other out-of-pocket expenses which are directly related to the services they provide. The Advisor will allocate its reimbursable costs of providing these services among Wells REIT II and the various Wells Real Estate Funds based on time spent on each entity by individual personnel.

Wells REIT II will pay a fee to the Advisor for services related to the acquisition and disposition of investment properties. Wells REIT II will pay the Advisor acquisition fees equal to 3.5% of the aggregate purchase price of all shares Wells REIT II sells. These acquisition fees serve as compensation for services the Advisor will render in connection with the investigation, selection and acquisition of properties. Wells REIT II will pay the acquisition fees upon its receipt of proceeds from the shares it sells, but the Advisor will be obligated to reimburse Wells REIT II for any unearned acquisition fee upon termination of the Advisory Agreement. Wells REIT II will also reimburse the Advisor for expenses it pays to third parties in connection with acquisitions or potential acquisitions. Additionally, when Wells REIT II sells a property, it will pay the Advisor a fee equal to 3.0% of the sales price if the Advisor provided a substantial amount of services in connection with the sale (as determined by the conflicts committee). This fee may be in addition to real estate commissions paid to third parties. However, the total real estate commissions (including such disposition fee) may not exceed the lesser of (i) 6.0% of the sales price of each property or (ii) the level of real estate commissions customarily charged in light of the size, type, and location of the property. As of September 16, 2003, the Advisor has not incurred any such fees on behalf of Wells REIT II.

The Advisor may also earn success-based fees in connection with the listing of REIT II's shares of common stock or the sale of REIT II's assets. If Wells REIT II sells properties and receives proceeds enabling it to distribute to stockholders all of the capital stockholders invested plus an amount sufficient to provide stockholders with an annualized, non-cumulative return of 8.0%, the Advisor will be entitled to an incentive fee. This incentive fee will equal 10% of the net sales proceeds remaining only after Wells REIT II has made the distributions providing shareholders a complete return of capital and the 8.0% return. Furthermore, if Wells REIT II lists its shares on a national securities exchange or national over-

Table of Contents

the-counter market system, the Advisor will be entitled to a fee. This fee will only be payable if the market value of Wells REIT II's outstanding stock exceeds the sum of the amount of capital stockholders invested plus the amount that would be required to be paid to stockholders to provide an annualized, non-cumulative return of 8.0%. The fee would equal 10% of that excess and would be offset by any incentive fees previously paid. Further, if Wells REIT II pays this fee following a listing of shares, it will not be obligated to pay any further incentive fees to the Advisor. As of September 16, 2003, the Advisor has not incurred any such fees on behalf of Wells REIT II.

The Advisory Agreement has a one-year term and automatically renews unless either side gives notice of its intent not to renew. Wells REIT II may terminate the Advisory Agreement upon 60 days written notice. If Wells REIT II terminates the Advisory Agreement, Wells REIT II will pay the Advisor all unpaid reimbursements of expenses and all earned but unpaid fees. In addition, the Advisor would be entitled to 10% of the amount, if any, by which

the sum of the net value of Wells REIT II's properties plus all distributions paid to the termination date exceeded

the difference between (A) the sum of (1) the total investments by stockholders (after any redemptions) plus (2) distributions attributable to the sale of properties plus (3) the amount of distributions that would be required to be paid to stockholders to provide an annualized, non-cumulative return of 8.0% and (B) any prior incentive fee paid to the Advisor.

Dealer Manager Agreement

Wells REIT II has executed a dealer manager agreement whereby Wells Investment Securities, Inc. (WIS), an affiliate of the Advisor, performs the dealer manager function for Wells REIT II. For these services, WIS shall earn a fee of 7% of the gross offering proceeds from the sale of the shares of Wells REIT II. Additionally, WIS shall earn a dealer manager fee of 2.5% of the gross offering proceeds at the time the shares are sold. Some of the fees under the dealer manager agreement may be re-allowed to participating broker dealers.

Conflict of Interest

The Advisor also is a general partner or advisor in various other entities affiliated with the Wells Real Estate Funds. As such, there are conflicts of interest where the Advisor, while serving in the capacity as general partner or advisor for Wells Real Estate Funds, may be in competition with Wells REIT II in connection with property acquisitions or for tenants in similar geographic markets.

5. NASD Enforcement Action

On August 26, 2003, WIS, and Leo F. Wells, III the president and chairman of the board of directors of Wells REIT II, settled and NASD enforcement action against them by entering into a Letter of Acceptance, Waiver and Consent (AWC) with the NASD which contained findings by the NASD including that WIS and Mr. Wells had violated certain of its Conduct Rules related to providing non-cash compensation of more than \$100 to associated persons of NASD member firms in connection with their attendance at the annual educational conferences sponsored by WIS in 2001 and 2002, and that WIS and Mr. Wells failed to adhere to all the terms of a written undertaking made in March 2001, and thereby engaged in conduct that was inconsistent with high standards of commercial honor and just and equitable principles of trade in violation of an NASD Conduct Rule. WIS consented to a censure and Mr. Wells consented to suspension from acting in a principal capacity with a member firm for one year. WIS and Mr. Wells also agreed to the imposition of a joint and several fine in the amount of \$150,000. Wells REIT II does not

expect any material impact on the financial results or operations of Wells REIT II as a result of this statement.

6. ECONOMIC DEPENDENCY

F-10

Table of Contents

Wells REIT II will be dependent on the Advisor for certain services that are essential to Wells REIT II, including the sale of Wells REIT II s shares of common and preferred stock available for issue, asset acquisition and disposition decisions and other general and administrative responsibilities. Additionally, Wells REIT II will be dependent upon Wells Management to provide certain property management, leasing and asset management services. In the event that these companies are unable to provide the respective services, Wells REIT II will be required to obtain such services from other sources.

F-11

Table of Contents

PRIOR PERFORMANCE TABLES

The following Prior Performance Tables (Tables) provide information relating to real estate investment programs sponsored by Wells Capital, Inc., our advisor, and its affiliates (Wells Public Programs) which have investment objectives similar to Wells Real Estate Investment Trust II, Inc. (Wells REIT II), including the provision of current income to the stockholders through the payment of cash dividends, the preservation and return of capital contributions to such stockholders and the realization of growth in the value of the properties acquired upon the ultimate sale of such properties). (See Investment Objectives and Criteria.) Except for Wells Real Estate Investment Trust, Inc. (Wells REIT I), all of the Wells Public Programs have used capital, and no acquisition indebtedness, to acquire their properties.

Prospective investors should read these Tables carefully together with the summary information concerning the Wells Public Programs as set forth in the Prior Performance Summary section of this prospectus.

Investors in Wells REIT II will not own any interest in the other Wells Public Programs and should not assume that they will experience returns, if any, comparable to those experienced by investors in other Wells Public Programs.

The Advisor is responsible for the acquisition, operation, maintenance and resale of the real estate properties for both Wells REIT II and other Wells Public Programs. The financial results of other Wells Public Programs thus may provide some indication of our advisor's performance of its obligations during the periods covered. However, general economic conditions affecting the real estate industry and other factors contribute significantly to financial results.

The following tables are included herein:

Table I Experience in Raising and Investing Funds (As a Percentage of Investment)

Table II Compensation to Sponsor (in Dollars)

Table III Annual Operating Results of Wells Public Programs

Table IV (Results of Completed Programs) has been omitted since none of the Wells Public Programs have been liquidated.

Table V Sales or Disposals of Property

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form S-11/A

Additional information relating to the acquisition of properties by the Wells Public Programs is contained in **Table VI**, which is included in Part II of the registration statement which Wells REIT II has filed with the SEC. Copies of any or all information will be provided to prospective investors at no charge upon request.

The following are definitions of certain terms used in the Tables:

Acquisition Fees shall mean fees and commissions paid by a Wells Public Program in connection with its purchase or development of a property, except development fees paid to a person not affiliated with the Wells Public Program or with a general partner or advisor of the Wells Public Program in connection with the actual development of a project after acquisition of the land by the Wells Public Program.

F-12

Table of Contents

Organization Expenses shall include legal fees, accounting fees, securities filing fees, printing and reproduction expenses and fees paid to the sponsor in connection with the planning and formation of the Wells Public Program.

Underwriting Fees shall include selling commissions and wholesaling fees paid to broker-dealers for services provided by the broker-dealers during the offering.

TABLE I
EXPERIENCE IN RAISING AND INVESTING FUNDS
(UNAUDITED)

This Table provides a summary of the experience of the sponsors of Wells Public Programs for which offerings have been completed since December 31, 1999. Information is provided with regard to the manner in which the proceeds of the offerings have been applied. Also set forth is information pertaining to the timing and length of these offerings and the time period over which the proceeds have been invested in the properties. All figures are as of December 31, 2002.

(1) Does not include general partner contributions held as part of reserves.

(2) Includes acquisition fees, real estate commissions, general contractor fees and/or architectural fees paid to affiliates of the general partners.

(3) Total dollar amount registered and available to be offered was \$70,000,000. Wells Real Estate Fund XII, L.P. closed its offering on March 21, 2001, and the total dollar amount raised was \$35,611,192.

(4)

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form S-11/A

Because Wells Real Estate Investment Trust, Inc. terminated its first offering prior to December 31, 1999, this amount includes only Wells Real Estate Investment Trust, Inc.'s second and third offerings. The total dollar amount registered and available to be offered in the second offering was \$222,000,000. Wells Real Estate Investment Trust, Inc. began its second offering on December 20, 1999 and closed its second offering on December 19, 2000. It took Wells Real Estate Investment Trust, Inc. 10 months to invest 90% of the amount available for investment in the second offering. The total dollar amount raised in its second offering was \$175,229,193. The total dollar amount registered and available to be offered in the third offering was \$1,350,000,000. Wells Real Estate Investment Trust, Inc. began its third offering on December 20, 2000 and closed its third offering on July 26, 2002. It took Wells Real Estate Investment Trust, Inc. 21 months to invest 90% of the amount available for investment in the third offering. The total dollar amount raised in its third offering was \$1,282,976,862.

Table of Contents

- (1) Includes \$124,542 in equity in earnings of joint ventures and \$35,837 from investment of reserve funds in 1999; \$664,401 in equity in earnings of joint ventures and \$265,467 from investment of reserve funds in 2000; \$1,577,523 in equity in earnings of joint ventures and \$83,671 from investment of reserve funds in 2001; and \$1,726,553 in equity in earnings of joint ventures and \$777 from investment of reserve funds in 2002. As of December 31, 2002, the leasing status was 100% including developed property in initial lease up.
- (2) Includes partnership administrative expenses.
- (3) Included in equity in earnings of joint ventures in gross revenues is depreciation of \$72,427 for 1999; \$355,210 for 2000; \$1,035,609 for 2001; and \$1,107,728 for 2002.
- (4) In accordance with the partnership agreement, net income or loss, depreciation and amortization are allocated \$195,244 to Class A Limited Partners, \$(71,927) to Class B Limited Partners and \$(500) to the General Partners for 1999; \$1,209,438 to Class A Limited Partners, \$(353,210) to Class B Limited Partners and \$0 to General Partners for 2000; \$2,591,027 to Class A Limited Partners, \$(1,035,609) to Class B Limited Partners and \$0 to the General Partners for 2001; and \$2,655,622 to Class A Limited Partners, \$(1,107,728) to Class B Limited Partners, \$ 0 to General Partners for 2002.
- (5) Pursuant to the terms of the partnership agreement, an amount equal to the cash distributions paid to Class A Limited Partners is payable as priority distributions out of the first available net proceeds from the sale of partnership properties to Class B Limited Partners. The amount of cash distributions paid per unit to Class A Limited Partners is shown as a return of capital to the extent of such priority distributions payable to Class B Limited Partners. As of December 31, 2002, the aggregate amount of such priority distributions payable to Class B Limited Partners totaled \$1,524,597.

Table of Contents

EXHIBIT A

DIVIDEND REINVESTMENT PLAN

Wells Real Estate Investment Trust II, Inc., a Maryland corporation (the **Company**), has adopted a Dividend Reinvestment Program (the **DRP**), the terms and conditions of which are set forth below. Capitalized terms shall have the same meaning as set forth in the **Company**'s charter unless otherwise defined herein.

1. **Number of Shares Issuable**. The number of shares of Common Stock authorized for issuance under the **DRP** is an amount equal to 600,000,000 minus the number of shares purchased in the **Offering** (as defined below) other than through reinvestment of dividends and other distributions (**Distributions**).

2. **Participants**. **Participants** are purchasers of Common Stock issued in the offering covered by the **Company**'s Registration Statement on Form S-11 (file no. 333-107066) (the **Offering**) who elect to participate in the **DRP**.

3. **Dividend Reinvestment**. The **Company** will apply that portion (as designated by a **Participant**) of the **Distributions** declared and paid in respect of a **Participant**'s shares of Common Stock to the purchase of additional shares of Common Stock for such **Participant**. Such shares will be sold through the broker-dealer and/or dealer manager through whom the **Company** sold the underlying shares to which the **Distributions** relate in the **Offering**. As such, the **Company** will pay selling commissions and the dealer manager fee as described in the registration statement relating to the **Offering** to the same extent as it did with respect to the sale of the underlying shares in the **Offering**.

4. **Procedure for Participation**. Qualifying stockholders may elect to become a **Participant** by completing and executing the Subscription Agreement, an enrollment form or any other **Company**-approved authorization form as may be available from the dealer manager or participating broker-dealers. To increase their participation, **Participants** must complete a new enrollment form and make the election through the dealer manager or the **Participant**'s broker-dealer, as applicable. Participation in the **DRP** will begin with the next **Distribution** payable after receipt of a **Participant**'s subscription, enrollment or authorization. Shares will be purchased under the **DRP** on the date that the **Company** makes a **Distribution**. **Distributions** will be paid quarterly and are calculated with a daily record and **Distribution** declaration date.

5. **Purchase of Shares**. **Participants** will acquire Common Stock at a fixed price of \$10.00 per share until the termination of the **Offering**, except that **Participants** who qualify for a discount in the **Offering** may also reinvest the related dividends at the same discounted purchase price. **Participants** in the **DRP** may also purchase fractional shares so that 100% of the **Distributions** will be used to acquire shares. However, a **Participant** will not be able to acquire shares under the **DRP** to the extent such purchase would cause it to exceed the **Ownership Limit**.

Table of Contents

6. Taxation of Distributions. The reinvestment of Distributions in the DRP does not relieve Participants of any taxes which may be payable on such Distributions. In addition, any selling commissions and fees paid by the Company in effecting the reinvestment of Distributions on behalf of Participants shall constitute additional dividend income to the Participants.

7. Share Certificates. The shares issuable under the DRP shall be uncertificated until the board of directors determines otherwise.

8. Voting of DRP Shares. In connection with any matter requiring the vote of the Company's stockholders, each Participant will be entitled to vote all of the whole shares acquired by the Participant through the DRP. Fractional shares will not be voted.

9. Reports. Within 90 days after the end of the calendar year, the Company shall provide each Participant with (i) an individualized report on the Participant's investment, including the purchase date(s), purchase price and number of shares owned, as well as the amount of Distributions received during the prior year; and (ii) all material information regarding the DRP and the effect of reinvesting dividends, including the tax consequences thereof. The Company shall provide such information reasonably requested by the dealer manager or a participating broker-dealer in the Offering in order for the dealer manager or participating broker-dealer to meet its obligation to deliver written notification to Participants of the information required by Rule 10b-10(b) promulgated under the Securities Exchange Act of 1934.

10. Termination by Participant. A Participant may terminate participation in the DRP at any time by delivering to the Company a written notice. To be effective for any Distribution, such notice must be received by the Company at least ten business days prior to the last day of the fiscal period to which the Distribution relates. Any transfer of shares by a Participant will terminate participation in the DRP with respect to the transferred shares. Upon termination of DRP participation, Distributions will be distributed to the stockholder in cash.

11. Amendment or Termination of DRP by the Company. The board of directors of the Company may amend or terminate the DRP for any reason upon 10 days' written notice to the Participants.

12. Liability of the Company. The Company shall not be liable for any act done in good faith, or for any good faith omission to act. To the extent that indemnification may apply to liabilities arising under the Securities Act of 1933, as amended, or the securities act of a state, the Company has been advised that, in the opinion of the Securities and Exchange Commission and certain state securities commissioners, such indemnification is contrary to public policy and, therefore, unenforceable.

13. Governing Law. This DRP shall be governed by the laws of the State of Maryland.

Expense Reimbursement for Sales Seminars	4,380,000
Salaries	3,100,000
Miscellaneous expenses	305,000
Total	\$ 33,770,995

Item 32. Sales to Special Parties

Not applicable.

Item 33. Recent Sales of Unregistered Securities

In connection with our incorporation, we issued 100 shares of our common stock to our president in a private offering exempt from the registration requirements pursuant to Section 4(2) of the Securities Act.

Item 34. Indemnification of Directors and Officers

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form S-11/A

Subject to the significant conditions set forth below, the Company has included in its charter a provision limiting the liability of its directors and officers to the corporation and its stockholders for money damages except for liability resulting from (a) actual receipt of an improper benefit or profit in money, property or services or (b) active and deliberate dishonesty established by a final judgment as being material to the cause of action.

II-1

Table of Contents

Subject to the significant conditions set forth below, the charter also provides that the Company shall indemnify a director, officer or the advisor or any of its affiliates (each an Indemnitee) against any and all losses or liabilities reasonably incurred by such Indemnitee (other than when sued by or in right of the Company) in connection with or by reason of any act or omission performed or omitted to be performed on behalf of the Company in such capacity.

Under the Company's charter, the Company shall not indemnify an Indemnitee for any liability or loss suffered by an Indemnitee, nor shall it exculpate an Indemnitee, unless all of the following conditions are met: (i) an Indemnitee has determined, in good faith, that the course of conduct that caused the loss or liability was in the best interests of the Company; (ii) the Indemnitee was acting on behalf of or performing services for the Company (iii) such liability or loss was not the result of (A) negligence or misconduct by the Indemnitee, excluding an Independent Director; or (B) gross negligence or willful misconduct by an Independent Director; and (iv) such indemnification or agreement to hold harmless is recoverable only out of the Company's net assets and not from its stockholders. Notwithstanding the foregoing, an Indemnitee shall not be indemnified by the Company for any losses, liability or expenses arising from or out of an alleged violation of federal or state securities laws by such party unless one or more of the following conditions are met: (i) there has been a successful adjudication on the merits of each count involving alleged securities law violations as to the particular indemnitee; (ii) such claims have been dismissed with prejudice on the merits by a court of competent jurisdiction as to the particular indemnitee; and (iii) a court of competent jurisdiction approves a settlement of the claims against a particular indemnitee and finds that indemnification of the settlement and the related costs should be made, and the court considering the request for indemnification has been advised of the position of the Commission and of the published position of any state securities regulatory authority in which securities of the Company were offered or sold as to indemnification for violations of securities laws.

The charter provides that the advancement of Company funds to an Indemnitee for legal expenses and other costs incurred as a result of any legal action for which indemnification is being sought is permissible only if (in addition to the procedures required by Maryland law) all of the following conditions are satisfied: (i) the legal action relates to acts or omissions with respect to the performance of duties or services on behalf of the Company; (ii) the legal action is initiated by a third party who is not a stockholder or the legal action is initiated by a stockholder acting in his or her capacity as such and a court of competent jurisdiction specifically approves such advancement; and (iii) the Indemnitee undertakes to repay the advanced funds to the Company, together with the applicable legal rate of interest thereon, in cases in which such Indemnitee is found not to be entitled to indemnification.

It is the position of the Commission that indemnification of directors and officers for liabilities arising under the Securities Act is against public policy and is unenforceable pursuant to Section 14 of the Securities Act.

The Company also has purchased and maintains insurance on behalf of all of its Directors and executive officers against liability asserted against or incurred by them in their official capacities with the Company, whether or not the Company is required or has the power to indemnify them against the same liability.

(b) Financial Statement Schedules

Schedule II Valuation and Qualifying Accounts has been omitted because of the absence of the conditions under which they are required or because the information required by such omitted schedules is set forth in the financial statements or the notes thereto.

Item 37. Undertakings

(a) The Registrant undertakes to file, during any period in which offers or sales are being made, a post-effective amendment to this Registration Statement (i) to include any prospectus required by Section 10(a)(3) of the Securities Act of 1933 (the "Act"); (ii) to reflect in the prospectus any facts or events arising after the effective date of this Registration Statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the Registration Statement; and (iii) to include any material information with respect to the plan of distribution not previously disclosed in the Registration Statement or any material change to such information in the Registration Statement.

Table of Contents

(b) The Registrant undertakes (i) that, for the purpose of determining any liability under the Act, each such post-effective amendment shall be deemed to be a new Registration Statement relating to the securities offered therein and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof, (ii) that all post-effective amendments will comply with the applicable forms, rules and regulations of the Commission in effect at the time such post-effective amendments are filed, and (iii) to remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(c) The Registrant undertakes to send to each shareholder, at least on an annual basis, a detailed statement of any transactions with the Advisor or its affiliates, and of fees, commissions, compensation and other benefits paid, or accrued to the Advisor or its affiliates, for the fiscal year completed, showing the amount paid or accrued to each recipient and the services performed.

(d) The Registrant undertakes to file a sticker supplement pursuant to Rule 424(c) under the Act during the distribution period describing each property not identified in the prospectus at such time as there arises a reasonable probability that such property will be acquired and to consolidate all such stickers into a post-effective amendment filed at least once every three months with the information contained in such amendment provided simultaneously to the existing shareholders; each sticker supplement should disclose all compensation and fees received by the Advisor and its affiliates in connection with any such acquisition; the post-effective amendment shall include audited financial statements meeting the requirements of Rule 3-14 of Regulation S-X only for properties acquired during the distribution period.

(e) The Registrant undertakes to file, after the end of the distribution period, a current report on Form 8-K containing the financial statements and any additional information required by Rule 3-14 of Regulation S-X, to reflect each commitment (i.e., the signing of a binding purchase agreement) made after the end of the distribution period involving the use of 10% or more (on a cumulative basis) of the net proceeds of the offering and to provide the information contained in such report to the shareholders at least once each quarter after the distribution period of the offering has ended.

(f) The Registrant undertakes to provide to the shareholders the financial statements required by Form 10-K for the first full fiscal year of operations.

(g) The Registrant undertakes to furnish to each shareholder, within forty-five (45) days after the close of each quarterly period, the information specified by Form 10-Q.

(h) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the Registrant pursuant to the foregoing provisions, or otherwise, the Registrant has been informed that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the Registrant in the successful defense of any action,

Table of Contents

suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.
