NOTES TO FINANCIAL STATEMENTS

June 30, 2004 and 2003

NOTE A BASIS OF PRESENTATION

The accompanying unaudited financial statements have been prepared in accordance with generally accepted accounting principles (GAAP) for interim financial information and Item 310(b) of Regulation S-B. They do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation have been included.

The results of operations for the periods presented are not necessarily indicative of the results to be expected for the full year. For further information, refer to the financial statements of the Company as of December 31, 2003 and for the year then ended, including notes thereto included in the Company's Form 10-KSB.

NOTE B INVENTORY

Inventories, consisting of purchased finished goods ready for sale, are stated at the lower of cost (as determined by the first-in, first-out method) or market.

NOTE C REALIZATION OF ASSETS

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate continuation of the Company as a going concern. However, the Company has incurred net losses aggregating \$9,594,123 and is expected to continue to incur net losses in the future. If revenues do not increase substantially in the near future, additional sources of funds will be needed to maintain operations. These matters give rise to substantial doubt about the Company's ability to continue as a going concern.

Management and other personnel have been focused on product and service development in lieu of product marketing. In an effort to make the transition from a development stage company to a viable business entity, the Company's management team has diligently explored several market segments relative to the Company's product and service lines over the past 3 years. From that exploration, the Company has decided it is in its best interests to explore the use of existing, well-established distribution channels for marketing and selling the DriverMax[®] product line. Management also believes a large market exists for the Company's testing services and the information provided by those services. A combination of the products and services has been developed as a long-term program for current and potential customers, particularly in regulated markets. The Company has designed such a program for the school bus fleet in the state of Iowa and is now providing these services to school districts that will pay the program fees. Management will focus on the Company's efforts on the sales of products, services, and programs with sensible controls over expenses. Management believes these steps, if successful, will improve the Company's liquidity and operating results,

allowing it to continue in existence.

NOTE D STOCKHOLDERS EQUITY

During the six months ended June 30, 2004, the Company issued 12,500 shares of common stock in conjunction with a private placement debt offering to qualified investors only. The fair market value of these shares of \$5,250 has been recorded as deferred compensation and is being amortized over the term of the debt of 36 months. The Company also sold 1,000,000 shares of common stock in an unregistered transaction to an unrelated investor for cash aggregating \$250,000 and issued 7,000 shares of common stock to an officer pursuant to an option exercise for cash aggregating \$5,000.

A major stockholder returned 1,000,000 common shares to the Company in exchange for warrants to purchase 1,000,000 shares at \$.25 each with no expiration date. The 1,000,000 shares returned were cancelled.

The Company extended the expiration date of 267,916 warrants which were to expire on June 24, 2004 to June 25, 2006. The warrants entitle the warrant holders to acquire one common share for each warrant at \$1.00 per share.

SFAS 123 requires the Company to provide proforma information regarding net income and earnings per share as if compensation cost for the Company's stock option plans had been determined in accordance with the fair value based method prescribed in SFAS 123. The fair value of the option grants is estimated on the date of grant utilizing the Black-Scholes option pricing model with the following weighted average assumptions for grants: expected life of options of 5 years, expected volatility of 82%, risk-free interest rate of 3.5% and no dividend yield. The weighted average fair value at the date of grant for options granted approximated \$.17. These results may not be representative of those to be expected in future years.

Under the provisions of SFAS 123, the Company's net (loss) and (loss) per share for the six months ended June 30, 2004 would have been (increased) to the proforma amounts indicated below:

Net (loss)	
As reported	\$ (675,632)
Proforma	\$ (845,632)
Basic and diluted (loss) per share	
As reported	\$ (.05)
Proforma	\$ (.06)

On August 12, 2000, the Company determined that resales of Iowa-Only Offering Shares by Iowa residents to non-Iowa residents violated certain provisions of the Securities Act of 1933. In response, the Company undertook an offering to rescind the earlier Iowa-Only Offering. As a result, the Iowa-Only Offering Shares, 1,561,248 shares, in the amount of \$7,806,240, were classified as temporary equity.

Edgar Filing: MIRENCO INC - Form 10QSB

Once approved for distribution, the Rescission Offer was outstanding from January 26, 2001 to February 26, 2001. During this period Iowa-Only Offering Stockholders had the option to reject the Rescission Offer formally in writing; to take no action within the 30 days, thereby retaining their outstanding Iowa-Only Offering Shares; or to accept the Rescission Offer formally in writing. Seventy-one formal rescission acceptances representing 52,340 shares were received from Iowa-Only Offering Stockholders, resulting in a total of \$276,690 being paid in cash to these stockholders for the return of their original investment plus interest at 8% annually. The maximum obligation under this offer was estimated to be \$8,100,000, including the original investment plus interest at 8% per year. As a result of the rescission, the Company has paid interest in the amount of \$14,990.

As a result of the Rescission Offer, the Company had classified the Iowa-Only Offering Shares and proceeds as a liability. These shares remained as a liability until such time as the violations under the securities laws have been cured. Subsequent to the close of the original sale of Iowa-Only Offering Shares, the Company believed that Iowa-Only Offering Stockholders are estopped from arguing injury. However, the Company was contingently liable to such stockholders during the period covered by the statute of limitations, a period of 3 years from the date of the Rescission Offer which expired on February 26, 2004 at which time the Company reclassified the amounts to equity.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

General and Background

We have incurred annual losses since inception while developing and introducing our original products and focusing management and other resources on capitalizing the Company to support future growth. Relatively high management, personnel, consulting and marketing expenditures were incurred in prior years in preparation for the commercialization of our products. We expect distribution, selling, general and administrative expenses to increase directly with sales increases, however, as a percentage of sales, these expenses should decline.

From February 1, 2004 up to the date of this report, the Company has been actively involved in raising capital. This activity has resulted in the issuance of \$235,000 in debt and \$255,000 in equity. The equity transaction resulted in the issuance of 1,007,000 shares of common stock. A major stockholder has contributed 1,000,000 shares of common stock back to the Company for cancellation in exchange for warrants to purchase 1,000,000 shares of common stock at 25¢ per share.

From July 30, 1999 through July 30, 2000, we raised \$7,806,240 from our Iowa-Only Offering. On August 12, 2000, we determined that resales of Iowa-Only shares by Iowa residents to non-Iowa residents violated certain provisions of the Securities Act of 1933. In response, the Company undertook an offering to rescind the earlier Iowa-Only Offering. As a result, the Iowa-Only Offering Shares, 1,561,248 shares, in the amount of \$7,806,240, were classified as a liability.

Once approved for distribution, the Rescission Offer was outstanding from January 26, 2001 to February 26, 2001. During this period Iowa-Only Offering Stockholders had the option to reject the Rescission Offer formally in writing; to take no action within the 30 days, thereby retaining their outstanding Iowa-Only Offering Shares; or to accept the Rescission Offer formally in writing. Seventy-one formal rescission acceptances representing 52,340 shares were received from Iowa-Only Offering Stockholders, resulting in a total of \$276,690 being paid in cash to these stockholders for the return of their original investment plus interest at 8% annually. As a result of the rescission, the Company has paid interest in the amount of \$14,990.

Previously the Company had classified the Iowa-Only Offering Shares and proceeds as a liability. On February 26, 2004 the statutory limitations on actions expired and the Company reclassified the amounts to equity.

Liquidity and Capital Resources

Cash and equivalents are currently the Company's substantial source of liquidity. The changes in Cash and Equivalents for the six months ended June 30, 2004 and 2003 can be reviewed in the Statements of Cash Flows in PART I Item 1 above. During the six months ended June 30, 2004, revenues of \$16,000 were recognized from the arrangement with the Iowa Foundation for Educational Administration, Inc. for emissions testing services being conducted on the Iowa School Bus fleet. This was substantially less than original revenues expected to be received from this project. The remainder of these revenues were removed from the Company's books by the Direct Write Off method. If any of these revenues are recovered in the future, they will be recorded as revenues in the period recovered. While the amount is difficult to predict, management still anticipates that additional revenue will be realized by year-end from this arrangement.

According to the terms of our purchase agreement with American Technologies to acquire the patents and trademarks, we will pay a 3% royalty of annual gross sales for a period of 20 years, which began November 1, 1999.

Results of Operations

Gross sales for the six months ended June 30, 2004 were \$61,491 higher than gross sales for the same period one year ago. However, cost of sales for the six months ended June 30, 2004 was \$91,995 higher resulting in a reduction of \$30,504 in gross profit margin. This reduction was the result of costs of the emissions testing program on sales not recognized in income for the period. A total of 21 individuals, 19 full time and two part time, were employed with the Company at June 30, 2004 compared to 16 at June 30, 2003. The increases in personnel were directly related to marketing and testing services offered by the Company. In the six months ended June 30, 2004, \$96,768 of employment costs were included in Cost of Sales compared to none in the corresponding period in the prior year.

Royalty expense for the six months ended June 30, 2004 and 2003 was 3% of sales calculated per the patent purchase agreement with American Technologies, LLC.

Marketing and advertising expenses were less during the six months ended June 30, 2004 compared to the six months ended June 30, 2003 due to reduced use of advertising and increased use of company personnel in marketing efforts.

Edgar Filing: MIRENCO INC - Form 10QSB

A comparative breakdown of Other general and administrative expenses per the Statements of Operations included in PART I Item 1 above is as follows:

	Six months ended June 30, 2004	Six months ended June 30, 2003	Note
Depreciation and amortization	32,384	40,176	1
Insurance	39,682	32,684	2
Professional fees	129,191	130,879	3
Office expenses	30,576	29,395	4
Research and development	2,537	38,226	5
Travel	41,020	54,310	6
Utilities	29,286	33,390	7
Total general and administrative expenses	304,676	359,060	

1. Depreciation and amortization expense were less than the same period in the prior year because of a significant number of computers and related equipment becoming fully depreciation in the intervening period.
2. The increase in insurance expense is primarily due to the addition of product liability coverage and increases in general rates. Rates for this type of coverage have increased nationwide over the past year.
3. Professional fees expense incurred during the first six months of 2004 were comparable with the first six months of 2003.
4. Office expenses for the six months ended June 30, 2004 were comparable with the first six months of 2003.
5. Research and Development costs decreased because in the six months ended June 30, 2003, the Company acquired equipment and supplies to implement the testing program as well as developing the EconoCruise[®] product.
6. Travel expense was less for the six months ended June 30, 2004 than the first six months of 2003 because there was less foreign travel in 2004.
7. Utilities for the six months ended June 30, 2004 were \$4,104 less than in the same period in the prior year.

Interest income continues to decline significantly with the reduction in cash invested in certificates of deposit.

Interest expense for the six months ended June 30, 2004 and 2003 relates to the financing of the purchase of Company vehicles from the majority shareholder and to an investor loan and bank loan obtained in 2004.

Item 3. CONTROLS AND PROCEDURES

Edgar Filing: MIRENCO INC - Form 10QSB

An evaluation of the Company's disclosure controls and procedures and internal controls and procedures was performed on July 22, 2004. Based on that review, management concludes that the Company's disclosure controls and procedures adequately ensure that information required to be disclosed by the Company in the reports that it files or submits under the Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. There have been no significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the evaluation date. There have been no corrective actions with regard to significant deficiencies and material weaknesses since the evaluation date.
