The Registrant's board of directors (the Board of Directors) has determined that, effective as of April 28, 2005, the next scheduled meeting of the Compensation Committee of the Board of Directors (the Compensation Committee), Compensation Committee members who attend Compensation Committee meetings will receive \$2,500 cash compensation, plus reimbursement for reasonable out-of-pocket travel expenses, for each such meeting attended.

**Item 7.01. Regulation FD Disclosure.**

On February 8, 2005, the Registrant's Chief Executive Officer, Bill Watkins, and Chief Financial Officer, Charles Pope, made a webcast presentation at the Thomas Weisel Partners Tech2005 Conference. In their presentation, they stated that (1) current market conditions reflect levels of demand for the Registrant's products that are consistent with expectations, although modestly higher than expected with respect to enterprise drives, as to which higher demand the Registrant might not be able to fully satisfy; (2) current pricing trends reflect modest declines which are consistent with expectations; and (3) the Registrant now expects that it will be able to achieve a higher gross profit margin in the current quarter of approximately 23%.

This current report on Form 8-K contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements include, but are not limited to, statements related to future financial performance, price and product competition, customer demand for our products, and general market conditions. These forward-looking statements are based on information available to the Registrant as of the date of this current report and current expectations, forecasts and assumptions and involve a number of risks and uncertainties that could cause actual results to differ materially from those anticipated by these forward-looking statements. Such risks and uncertainties include a variety of factors, some of which are beyond the Registrant's control. In particular, such risks and uncertainties include the variable demand and the aggressive pricing environment for disc drives; dependence on the Registrant's ability to successfully introduce, qualify, manufacture in volume on a cost-effective basis and sell on a timely basis and with acceptable quality the new disc drive products announced by the Registrant in June 2004; and the adverse impact of competitive product announcements and possible excess industry supply with respect to particular disc drive products. Information concerning additional factors that could cause results to differ materially from those projected in the forward-looking statements is contained in the Registrant's Annual Report on Form 10-K/A as filed with the U.S. Securities and Exchange Commission on September 3, 2004 and in the Registrant's Quarterly Report on Form 10-Q as filed with the U.S. Securities and Exchange Commission on January 28, 2005. These forward-looking statements should not be relied upon as representing the Registrant's views as of any subsequent date and the Registrant undertakes no obligation to update forward-looking statements to reflect events or circumstances after the date they were made.

The information contained in this report and the attached press release is furnished but not filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended.
