Forward Looking Statements

The information included and incorporated by reference in this Current Report on Form 8-K contains forward-looking statements within the meaning of the federal securities laws, including statements and projections related to 2006 FFO, growth in the e-commerce market, the digital communication and distribution market, and the data storage market, the market effects of regulatory requirements, the disaster recovery market, the replacement cost of our assets, redevelopment costs in our buildings, and time periods to stabilization of our development space, the effect new leases will have on our rental revenues and results of operations, lease expiration rates, the effect of leasing and acquisition on our FFO, and annualized GAAP rent. Such statements are based on management's beliefs and assumptions based on information currently available to management. Such statements are subject to risks, uncertainties and assumptions and are not guarantees of future performance and may be affected by known and unknown risks, trends, uncertainties and factors that are beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected. Some of the risks and uncertainties that may cause our actual results, performance or achievements to differ materially from those expressed or implied by forward-looking statements include, among others, the following: adverse economic or real estate developments in our markets or the technology industry; general and local economic conditions; defaults on or non-renewal of leases by tenants; increased interest rates and operating costs; inability to acquire new properties (including those which we are in the process of acquiring); difficulty acquiring or operating properties in foreign jurisdictions and changes in foreign laws and regulations, including those related to taxation and real estate ownership and operation; our failure to obtain necessary outside financing; increased construction costs; decreased rental rates or increased vacancy rates; difficulties in identifying properties to acquire and completing acquisitions; our failure to successfully operate acquired properties and operations; our failure to maintain our status as a REIT; possible adverse changes to tax law; environmental uncertainties and risks related to natural disasters; financial market fluctuations; changes in foreign currency exchange rates; and changes in real estate and zoning laws and increases in real property tax rates. The risks described above are not exhaustive, and additional factors could adversely affect our business and financial performance. We discussed a number of additional material risks in our annual report on Form 10-K for the year ended December 31, 2005 and other filings with the Securities and Exchange Commission. Those risks continue to be relevant to our performance and financial condition. Moreover, we operate in a very competitive and rapidly changing environment. New risk factors emerge from time to time and it is not possible for management to predict all such risk factors, nor can it assess the impact of all such risk factors on the business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. We expressly disclaim any responsibility to update forward-looking statements, whether as a result of new information, future events or otherwise.

Item 7.01 Regulation FD Disclosure

The information furnished in this Item 7.01 of this Current Report on Form 8-K, including the exhibit attached hereto, shall not be deemed filed for any purpose, including for the purposes of Section 18 of the Exchange Act, or otherwise subject to the liabilities of that Section.
