Section 2 Financial Information

Item 2.02. Results of Operations and Financial Condition.

On August 30, 2006, the Company issued a press release (the "Earnings Release") announcing the financial results for its third quarter ended July 31, 2006. The full text of the Earnings Release is attached as Exhibit 99.1 to this Current Report on Form 8-K.

The Earnings Release included the following non-GAAP financial measures (the "non-GAAP Measures"): (i) net income before restructuring charges and timberland gains; (ii) diluted earnings per Class A and Class B share before restructuring charges and timberland gains; (iii) operating profit before restructuring charges and timberland gains; (iv) operating profit before restructuring charges; and (v) net debt. Net income before restructuring charges and timberland gains is equal to GAAP net income plus restructuring charges less timberland gains, net of tax. Diluted earnings per Class A and Class B share before restructuring charges and timberland gains is equal to GAAP diluted earnings per Class A and Class B share plus the effects of restructuring charges less the effects of timberland gains, net of tax. Operating profit before restructuring charges and timberland gains is equal to GAAP operating profit plus restructuring charges less timberland gains. Operating profit before restructuring charges is equal to GAAP operating profit plus restructuring charges. Net debt is equal to GAAP long-term debt plus short-term borrowings less cash and cash equivalents.

The Company discloses the non-GAAP Measures described in Items (i) through (iv), above, because management believes that these non-GAAP Measures are a better indication of the Company's operational performance than GAAP net income, diluted earnings per Class A and Class B share and operating profit since they exclude restructuring charges, which are not representative of ongoing operations, and timberland gains, which are volatile from period to period. These non-GAAP Measures provide a more stable platform on which to compare the historical performance of the Company.

In addition, the Company disclosed the non-GAAP Measure of net debt, described in Item (v), above, because management believes that this non-GAAP Measure gave a better indication of the Company's debt position as of the fiscal quarter end than long-term debt. As of July 31, 2006, the Company held significant cash and cash equivalents that could have been used to pay down long-term debt, but management chose not to do so, among other reasons, to avoid associated prepayment premiums, repatriation costs and breakage fees.

Section 7 Regulation FD.

Item 7.01 Regulation FD Disclosure.

The Company hosted a conference call on August 31, 2006, to discuss its financial results for its third quarter ended July 31, 2006. During that call, the Company presented information regarding its existing financial performance goals for 2006 and issued new financial performance goals through 2009. These existing and new financial performance goals were also included in the slide presentation made during the conference call.

The full slide presentation, including the slide presenting the existing and new financial performance goals, is available for review at the Investor Center on the Company's website, www.greif.com, until December 6, 2006. To the extent the new financial performance goals included non-GAAP financial measures, a slide has been included showing the most directly comparable GAAP financial measures and a reconciliation to the most comparable GAAP financial measures.
