Item 5.03. Amendments to the Articles of Incorporation or Bylaws; Change in Fiscal Year.

At the Meeting, the Board adopted a resolution amending and restating NCI's Bylaws (as amended and restated, the Bylaws) to reflect changes in the technologies used to perform ministerial tasks and to permit electronic communication and storage.

Descriptions of the provisions adopted or changed and, if applicable, the previous provision are provided below. These descriptions are summaries and are qualified in their entirety by the Bylaws filed herewith as Exhibit 10.5, the text of which is incorporated by reference in this Section 5.03.

Electronic Notices, Waivers, Consents and Resignations. Provisions were changed to allow notice to be given electronically for all meetings of stockholders, special meetings of the Board, and as otherwise required. Notice by electronic delivery will be deemed given when dispatched, and any person entitled to notice may waive it by electronic transmission. The members of the Board may consent to any action without a meeting by electronic transmission. The members of the Board may also consent to any action without a meeting by electronic transmission or transmissions, and any director or officer may resign by electronic transmission to NCI.

Previously, NCI's Bylaws did not provide for electronic notices, waivers, consents and resignations and provided for notice and waiver using obsolete methods of transmittal (e.g., telegraph, telex and cable). The new provisions eliminate references to these technologies.

Electronic Transmittal and Storage. Provisions were similarly changed to allow the minutes of proceedings of the Board or any committee thereof, as well as any records kept by NCI in the regular course of its business, to be stored in electronic form. Provisions were also added to provide for such records and filings to be stored in electronic form.
