Set forth below are several non-GAAP financial measures that are included in the attached press release together with the most directly comparable GAAP financial measure.

For the three and twelve months ended December 31, 2007, our net income was \$5.7 million and \$40.1 million, respectively, and for the same periods in 2007, our net income per diluted share was \$0.03 and \$0.24, respectively. In our press release referred to above, we disclose Funds From Operations, or FFO, as defined by the National Association of Real Estate Investment Trusts (NAREIT), to be \$36.5 million and \$137.6 million for the three and twelve months ended December 31, 2007, respectively. For the same periods in 2007, diluted FFO per share was \$0.18 and \$0.69, respectively.

For the three and twelve months ended December 31, 2006, our net loss was \$148.2 million and \$158.0 million, respectively. For the same periods in 2006, our net loss per diluted share was \$0.96 and \$1.05, respectively. In our press release referred to above, we disclose our net income for the three months ended December 31, 2006, excluding the internalization charge, to be \$2.9 million and our net loss for the twelve months ended December 31, 2006, excluding the internalization charge, to be \$6.9 million. Our net income per diluted share for the three months ended December 31, 2006, excluding the internalization charge, was \$0.02 and our net loss per diluted share for the twelve months ended December 31, 2006, excluding the internalization charge, was \$0.04. Our FFO was \$(128.5) million and \$(61.3) million for the three and twelve months ended December 31, 2006, respectively. We disclose our FFO for the three and twelve months ended December 31, 2006, excluding the internalization charge, to be \$22.6 million and 89.8 million, respectively, and FFO per diluted share excluding the internalization charge, to be \$0.15 and \$0.60 for the same periods in 2006, respectively. We believe that net income (loss) and FFO data excluding the internalization charge is useful supplemental information regarding our operating performance as it allows investors to more easily compare our operating results without taking into account the significant charge that we incurred in the fourth quarter of 2006 in connection with the internalization of our management.

For the three and twelve months ended December 31, 2007, income from continuing operations was \$3.7 million and \$4.0 million, respectively. In our press release referred to above, we disclose our property net operating income to be \$50.1 million and \$194.2 million for the same periods in 2007, respectively. For the three and twelve months ended December 31, 2006, loss from continuing operations was \$155.0 million and \$172.7 million, respectively. In our press release referred to above, we disclose our property net operating income to be \$48.9 million and \$167.9 million for the same periods in 2006, respectively. For the three months ended December 31, 2007, our income from continuing operations increased 102.4% from a loss of \$155.0 million for the three months ended December 2006 to income of \$3.7 million for the same period in 2007. In our press release referred to above, we disclose that our property net operating income for the three months ended December 31, 2007 increased 2.3% compared to the same period in 2006. Additionally, in our press release, we disclose that our same store property net operating income for the three months ended December 31, 2007 increased 0.3% compared to the same period in 2006 and increased 1.7% on a cash-adjusted basis.

Our percentage of debt to total assets was 41.6% and 38.6% at December 31, 2007 and 2006, respectively. In our press release referred to above, we disclose that the percentage of debt to book value of total assets, excluding accumulated depreciation and amortization, was 37.4% and 36.1%, respectively. We believe that this percentage, calculated using total assets, excluding accumulated depreciation and amortization, is a useful supplemental measure of our leverage. The market value of real estate assets often does not decline in the formulaic manner in which depreciation and amortization accrues with respect to those assets for GAAP accounting purposes. Accordingly, we believe that providing a supplemental measure of our leverage based on the book value of our total assets, excluding the cumulative effect of these depreciation and amortization accruals, provides investors with a useful supplemental measure of our leverage.
