The following factors, among others, could cause actual results to differ from those set forth in the forward-looking statements: (a) regulatory approvals and the satisfaction of the closing conditions to the acquisition of RehabCare by Kindred, including approvals from the shareholders of the respective companies, and Kindred's ability to complete the required financing as contemplated by the financial agreements; (b) the ability to integrate the operations of the acquired hospitals and rehabilitation services operations and realize the anticipated revenues, economies of scale and productivity gains in connection with the RehabCare acquisition and any other acquisitions that may be undertaken during 2011; (c) the impact of unanticipated issues, expenses and liabilities associated with those acquisitions and the risk that RehabCare fails to meet its obligations; (d) the potential for diversion of management time and resources in seeking to complete the RehabCare acquisition and integrate it with Kindred's other operations; (e) the impact of Kindred's significantly increased levels of indebtedness as a result of the RehabCare acquisition; and (f) the impact of operating flexibility and ability to fund ongoing operations with additional borrowings, particularly in light of the current market conditions and the potential for
