Process for Determination of Executive and Director Compensation. Executive compensation is determined by the Compensation Committee pursuant to the authority granted to it by the Board. Director compensation is determined by the Board upon recommendation by the Compensation Committee. The

Table of Contents

Compensation Committee has engaged consultant Towers Watson (formerly Towers Perrin) and considered data and analysis prepared by these consultants regarding competitive pay practices among the Company's peer group and restaurant industry to determine the appropriate level of director and executive officer compensation. Additionally, the Compensation Committee considered the recommendation of the Chief Executive Officer of Denny's Corporation (the CEO) with respect to compensation levels of executive officers other than the CEO.

Also when making compensation decisions, the Compensation Committee annually analyzes tally sheets prepared for each of the named executive officers. These tally sheets were prepared by our human resources department and our compensation consultant. Each of these tally sheets presents the dollar amount of each component of the named executive officers' compensation, including current cash compensation (base salary and bonus), accumulated deferred compensation balances, outstanding equity awards, retirement benefits, perquisites and any other compensation. These tally sheets reflect the annual compensation for the named executive officers (both target and actual), as well as the potential payments under selected performance scenarios and termination of employment and change-in-control scenarios.

The overall purpose of these tally sheets is to bring together, in one place, all of the elements of actual and potential future compensation of our named executive officers, as well as information about wealth accumulation (discussed in more detail in "Post-Termination Arrangements" in the Executive Compensation Compensation Discussion & Analysis section elsewhere in this Proxy Statement), so that the Compensation Committee may analyze both the individual elements of compensation (including the compensation mix) as well as the aggregate total amount of actual and projected compensation. For additional information regarding the basis for determining executive and director compensation, see the Executive Compensation Compensation Discussion and Analysis section elsewhere in this Proxy Statement.

Compensation Risk Assessment. For 2010, a group of senior management from various departments of the Company, under the direction of the Compensation Committee, completed a process by which an assessment was made of the level and materiality of identified risks associated with the Company's compensation practices and policies for its employees, which was discussed with the Compensation Committee. Specifically, this group assessed the Company's incentive plans against a set of indicators that included pay mix, performance metrics, target setting/pay determination and governance/administration. Based on this assessment, the Compensation Committee determined that the risks arising from the Company's compensation practices and policies are not reasonably likely to have a material adverse impact on the Company.

Compensation Committee Interlocks and Insider Participation. The following persons served as members of the Compensation Committee during the fiscal year ended December 29, 2010: Gregg R. Dedrick (July to December), Brenda J. Lauderback, Donald R. Shepherd, Donald C. Robinson (January to May) and Louis P. Neeb. None of the members of the Compensation Committee were officers or employees of the Company during 2010 or any time prior thereto. During 2010, none of the members of the Compensation Committee had any relationship, directly or indirectly, with the Company requiring disclosure under Item 404 of Regulation S-K, and none of our executive officers served on the compensation committee (or equivalent) or the board of directors of another entity whose executive officers served on our Board or Compensation Committee.

Compensation Committee Report. The Compensation Committee has reviewed and discussed with management the Compensation Discussion and Analysis section of this Proxy Statement and based on this review and discussion, the Compensation Committee has recommended to the Board that the Executive Compensation Compensation Discussion and Analysis section be included in the Company's Annual Report on Form 10-K for the year ended December 29, 2010 and in this Proxy Statement.

Corporate Governance Policy and Practice. The Board and management clearly recognize the importance of a firm commitment to key corporate governance standards. Consequently, it is the goal of the Board and management to develop and adhere to a set of standards, that not only complies to the letter with all applicable regulatory guidance, but implements "best practices" of corporate governance.

The Company's Corporate Governance Policy is posted on the Company's website at www.dennys.com.

Director Nominations Policy and Process. The Governance Committee will consider director-nominees recommended by stockholders. A stockholder who wishes to recommend a person or persons to the Board for consideration as a nominee for election to the Board must send a written notice to the Governance Committee by mail addressed to the attention of the Secretary of Denny's Corporation at the corporate address set forth above. The written notice must set forth (i) the name of each person whom the stockholder recommends be considered as a nominee, (ii) a business address and telephone number for each nominee (e-mail address is optional), and (iii) biographical information regarding each nominee, including the person's employment and other relevant experience. To be considered by the Governance Committee, a stockholder director-nominee recommendation must be received no later than the 120th calendar day before the first anniversary date of Denny's Corporation's proxy statement prepared in connection with the previous year's annual meeting. The Governance Committee did not receive any stockholder director-nominee recommendations by December 15, 2010 (120th day before the first anniversary of the date of release of the 2010 Proxy Statement).

In addition, in accordance with the Company's Bylaws, stockholders may directly nominate persons for election to the Board of Directors at an annual meeting. Such nominations must be sent by written notice to the Secretary of Denny's Corporation at the corporate address set forth above and must comply with the applicable timeliness and information requirements of the Company's Bylaws. Please see the "Other Matters 2012 Stockholder Proposals" section elsewhere in the Proxy Statement for more information. The Company's Bylaws were amended on November 12, 2008, to, among other things, clarify and present in greater detail the requirements for stockholders to nominate directors or present other items of business at an annual meeting.

The Governance Committee believes that a nominee recommended for a position on the Board must meet the following minimum qualifications:

he or she must be at least 21 years of age;

he or she must have experience in a position with a high degree of responsibility in a business or other organization;

he or she must be able to read and understand basic financial statements;

he or she must possess integrity and have high moral character;

Table of Contents

he or she must be willing to apply sound, independent business judgment;

he or she must have sufficient time to devote to being a member of the Board; and

he or she must be fluent in the English language.

Annually, the Governance Committee will identify the areas of expertise or skill needed on the Board for the upcoming Board term. The Governance Committee will identify potential nominees for director from (i) the slate of current directors, (ii) referrals from professional search firms, typically in those instances when the committee identifies a needed skill or expertise not possessed by the current slate of directors, and (iii) recommendations from stockholders.

The Governance Committee will evaluate a potential nominee by considering whether the potential nominee meets the minimum qualifications identified by the committee, as well as considering the following factors:

whether the potential nominee has leadership, strategic, or policy setting experience in a complex organization, including any scientific, governmental, educational, or other non-profit organization;

whether the potential nominee has experience and expertise that is relevant to the Company's business including any specialized business experience, technical expertise, or other specialized skills, and whether the potential nominee has knowledge regarding issues affecting the Company;

whether the potential nominee is highly accomplished in his or her respective field;

whether the potential nominee has high ethical character and a reputation for honesty, integrity, and sound business judgment;

whether the potential nominee is independent, as defined by NASDAQ or other applicable listing standards, whether he or she is free of any conflict of interest or the appearance of any conflict of interest, and whether he or she is willing and able to represent the interests of all Denny's Corporation stockholders;

any factor affecting the ability or willingness of the potential nominee to devote sufficient time to the Board's activities and to enhance his or her understanding of the Company's business; and

how the potential nominee would contribute to diversity, with a view toward the needs of the Board.

The manner in which the Governance Committee evaluates a potential nominee will not differ based on whether the potential nominee is recommended by a stockholder.

Additionally, with respect to an incumbent director whom the Governance Committee is considering as a potential nominee for re-election, the committee will review and consider the incumbent director's service during his or her term, including the number of meetings attended, level of participation, and overall contribution to the Company.

The Company paid fees to a professional search firm to help identify and evaluate potential nominees for director to present to stockholders for election at the 2010 Annual Meeting.

Edgar Filing: DENNYS CORP - Form DEF 14A

Board Leadership Structure and Risk Oversight

Over the past ten years, the Company has separated the positions of CEO and Board Chair and has appointed an independent Board Chair. During a seven-month period (June 2010 – January 2011), Ms. Smithart-Oglesby, in addition to her role as Board Chair, also held the position of Interim CEO while the Company conducted the hiring process for a permanent CEO. At the conclusion of that seven-month period, and with the hiring of Mr. Miller as the Company's CEO, the two positions were again separated. Ms. Smithart-Oglesby now serves solely as Board Chair. The Company believes having a separate CEO and Board Chair is an important part of its overall commitment to the highest standards of corporate governance and believes that it allows the Board to effectively develop and oversee its business strategy and monitor risk. The separate positions also allow the Board to freely perform its management oversight function. Additionally, each member of the Board, with the exception of Messrs. Miller and Wolfinger, is independent under the applicable standards. It is the Board's policy to appoint a Lead Director during any time when the Board Chair position is not held by an independent director. Consequently, during the seven-month period referenced above, Mr. Neeb, as an independent director, was appointed by the Board to serve as the Lead Director. As Lead Director, Mr. Neeb's responsibilities included (i) regularly meeting (by phone or in person) with the Interim CEO to discuss the financial and operational status of the Company, (ii) staying abreast of Company issues in greater depth than required of other Board members in order to assist, if necessary, during the period of transition of Company leadership, and (iii) leading periodic executive sessions of the independent Board members.

The Board has the ultimate responsibility for risk management. However, the Board has delegated the responsibility of risk assessment and risk management to the Audit Committee. Periodically, with the assistance of management, the Audit Committee undertakes an extensive Company-wide risk assessment. This extensive risk assessment identifies the main strategic, operational and financial risks the Company is facing based on its strategic objectives. The assessment also identifies the steps that management is or should be taking to address and mitigate exposure to such risks, and the Audit Committee will periodically receive reports from management regarding the steps that management is taking to address and mitigate such risks.

Board Meeting Information

During 2010, there were fourteen (14) meetings of the Board. Each director serving on the Board in 2010 attended at least 75% of the meetings of the Board (and, as applicable, committees thereof) during the year.

Communications Between Security Holders and Board of Directors

THE BOARD UNANIMOUSLY RECOMMENDS A VOTE FOR EACH OF THE TEN NOMINEES TO THE BOARD OF DIRECTORS OF DENNY S CORPORATION.**SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

As a result of the adoption of the Sarbanes-Oxley Act of 2002, and related regulations adopted by the SEC, and by each national securities exchange, audit committees of public companies are formally charged with the responsibility for the appointment, compensation, retention and oversight of the independent registered public accounting firm that serves as the Company's independent auditor. The Audit Committee takes this responsibility very seriously and for the year 2011, the Audit Committee has selected KPMG as the independent registered public accounting firm of the Company. This selection is submitted for ratification of and approval by the stockholders at the Annual Meeting. Representatives of KPMG are expected to attend the Annual Meeting. They will have an opportunity to make a statement, if they so desire, and to respond to appropriate questions. If the stockholders do not ratify this selection, other independent registered public accounting firms will be considered by the Audit Committee.

2010 and 2009 Audit Information

KPMG served as the Company's independent registered public accounting firm to audit the Company's financial statements for the fiscal years December 30, 2009 and December 29, 2010. The fees billed in the fiscal years ended December 30, 2009 and December 29, 2010 for KPMG's services to the Company were:

	Year ended December 30, 2009	Year ended December 29, 2010
Audit Fees	\$ 590,000	\$ 590,000
Audit-Related Fees	45,000	45,000
Tax Fees		5,000
All Other Fees		
Total Fees	\$ 635,000	\$ 640,000

In the above table, in accordance with applicable SEC rules:

audit fees are fees billed by the independent registered public accounting firm for professional services for the audit of the annual Consolidated Financial Statements included in the Company's Form 10-K and review of the Condensed Consolidated Financial Statements included in the Company's Form 10-Qs, and for services that are normally provided by the independent registered public accounting firm in connection with statutory and regulatory filings or engagements, including comfort letters, consents, registration statements, statutory audits and reports on internal controls required by the Sarbanes Oxley Act of 2002;

audit-related fees are fees billed by the independent registered public accounting firm for assurance and related services that are reasonably related to the performance of the audit or review of the financial statements, and generally include fees for audits of the Company's employee benefit plans and audit or attest services not required by statute or regulation;

tax fees are fees billed by the independent registered public accounting firm for professional services for tax compliance, tax advice, and tax planning; and

all other fees are fees billed by the independent registered public accounting firm to the Company for any services not included in the first three categories above.

Table of Contents

The Audit Committee has considered and determined that the services for which audit-related and tax fees were billed were compatible with KPMG maintaining its independence.

Audit Committee's Pre-approval Policies and Procedures

It is the policy of the Audit Committee to pre-approve all audit and permitted non-audit services proposed to be performed by the Company's independent registered public accounting firm. The process for such pre-approval is typically as follows. Audit Committee pre-approval is sought at one of the committee's regularly scheduled meetings following the presentation of information at such meeting detailing the particular services proposed to be performed. Additionally, the Chair of the Audit Committee has been delegated the authority by the committee to pre-approve, where necessary, such services requiring pre-approval in between regularly scheduled committee meetings. The Chair will report any such decisions at the committee's next scheduled meeting. In 2010, the services described above were pre-approved by the Audit Committee pursuant to policy of the Audit Committee, and none of such services were approved pursuant to the exception provided by Rule 2-01(c)(7)(i)(C) under Regulation S-X.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR RATIFICATION AND APPROVAL OF THE SELECTION OF KPMG AS THE INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM OF THE COMPANY FOR THE YEAR 2011.

ADVISORY VOTE ON EXECUTIVE COMPENSATION

As required by Section 14A of the Exchange Act, the Company is seeking a non-binding advisory vote from stockholders on the compensation of our named executive officers disclosed in this Proxy Statement. This proposal, commonly referred to as a say on pay proposal, gives our stockholders the opportunity to express their views on the compensation of our named executive officers. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our named executive officers and our compensation program.

As described in further detail in Executive Compensation Compensation Discussion and Analysis, our compensation program is designed to attract, motivate and retain top quality leadership talent while ensuring that their interests are aligned with the interests of our stockholders and that their efforts are focused on the Company's key strategic objectives.

It is our firm belief that our executive compensation program, with its balance of annual cash incentives designed to reward the achievement of key performance goals set for the year and longer-term equity vehicles designed to reward executives for stock price performance over a longer term, ideally compensates our executives for performance directly linked to stockholder value creation.

In addition, the Board of Directors has enacted a number of policies including share ownership requirements, incentive clawbacks, the elimination of employment contracts and the elimination of tax gross-ups (except for certain limited gross-ups available to most salaried employees under the Company's broad-based relocation policy) which ensure that the Company's practices are aligned with market-based best practices.

Stockholders are encouraged to read the Compensation Discussion and Analysis section of the Proxy Statement and the accompanying compensation tables and related narrative disclosure included in the Executive Compensation section of this Proxy Statement for more information regarding our compensation program.

We are asking stockholders to approve the compensation of our named executive officers as disclosed herein by adopting the following advisory resolution at the 2011 Annual Meeting:

RESOLVED, that the compensation paid to the Company's named executive officers, as disclosed in the Proxy Statement for the 2011 Annual Meeting of Stockholders pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, compensation tables and narrative discussion, is hereby APPROVED.

Although this vote is non-binding, the Board and the Compensation Committee will take into account the outcome of the vote when considering future executive compensation decisions.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR THE RESOLUTION TO APPROVE THE COMPENSATION PAID TO THE COMPANY'S NAMED EXECUTIVE OFFICERS, AS DISCLOSED IN THIS PROXY STATEMENT PURSUANT TO ITEM 402 OF REGULATION S-K, INCLUDING THE COMPENSATION DISCUSSION AND ANALYSIS, COMPENSATION TABLES AND NARRATIVE DISCUSSION.

ADVISORY VOTE ON FREQUENCY OF

THE STOCKHOLDER VOTE ON EXECUTIVE COMPENSATION

Section 14A of the Exchange Act also requires the Company to hold a non-binding, advisory vote of stockholders at least every six years to determine whether advisory votes on executive compensation should be held every one, two or three years. After careful consideration, the Board has determined that holding an advisory vote on executive compensation every year is the most appropriate policy for the Company at this time.

Table of Contents

and recommends that stockholders vote for future advisory votes on executive compensation to occur on an annual basis. We believe that say-on-pay votes should be conducted every year so that our stockholders may annually express their views on our executive compensation program. The Compensation Committee, which administers our executive compensation program, values the opinions of our stockholders and will consider the outcome of these votes in making its decisions on executive compensation.

Stockholders have the opportunity when voting to choose among four options (holding the vote every one, two or three years, or abstaining) and, therefore, stockholders will not be voting to approve or disapprove the Board's recommendation. You may cast your vote by choosing the option of every year, two years, three years, or abstain from voting.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR THE OPTION THAT FUTURE ADVISORY VOTES ON THE EXECUTIVE COMPENSATION OF THE COMPANY BE CONDUCTED EVERY YEAR.

F. Mark Wolfinger, our Executive Vice President, Chief Administrative Officer and Chief Financial Officer

Robert Rodriguez, our Executive Vice President, Chief Operating Officer

Frances L. Allen, our Executive Vice President, Chief Marketing Officer

Nelson J. Marchioli, our former President and Chief Executive Officer

Executive Summary

2010 Performance Highlights. Central to the Company's compensation philosophy and strategy is the goal of compensating and rewarding our executives for performance that is aligned with value creation for our stockholders. In 2010, the Company's performance was highlighted by:

- i The highest number of domestic openings (136 units) in the Company's history, including 100 Flying J Travel Center conversions, 24 new Company store openings and six university locations.

- i Net income for 2010 of \$22.7 million or \$0.22 per diluted share.

2010 compensation to our executive officers reflects this performance as further described herein.

Our Pay Governance Reflects Best Practices. Denny's has been diligent to listen to its stakeholders and to monitor and adopt best practices in pay governance. The following compensation and pay governance practices have been adopted by the Company:

- i Stock ownership guidelines for the Company's executive officers and directors,
- i Compensation clawback policy applicable to the Company's executive officers and other employees,
- i The elimination of all employment agreements for executive officers and other employees,
- i Reduction of severance benefits payable to executive officers, with all executives now covered under one standard executive severance plan,
- i Anti-hedging policy that prohibits executive officers and directors from engaging in certain transactions such as puts, calls or other derivatives relating to the Company's securities,

Table of Contents

- i Equity awards to new executives composed primarily of restricted stock units that vest based on stock price increases,
- i Severance benefits following a change-in-control, including equity awards, have a double-trigger provision, which requires both a change in control and a qualifying termination within a specified period following the change in control,
- i No special retirement benefits for executive officers other than participation in a 401(k) plan or nonqualified deferred compensation plan on the same basis as other employees,
- i Elimination of all tax gross-ups, except for certain limited gross-ups available to most salaried employees pursuant to the Company's broad-based relocation program,
- i Reduction of maximum payout for long-term incentive awards from 200% to 150%, and
- i A prohibition against the repricing or exchange of underwater stock options and stock appreciation rights without stockholder approval.

Compensation Objective and Design

The Compensation Committee has developed compensation programs for the Company's executive officers with guidance and analysis from their consultant, Towers Watson. The overall design objective of our compensation program is to attract, motivate and retain top quality leadership talent while ensuring that their interests are aligned with the interests of our stockholders and that their efforts are focused on the Company's key strategic objectives. When evaluating and designing compensation programs, the Committee reviews market survey data, proxy information from our restaurant peer group, and industry compensation practices.

The Company's reward strategy is designed to be integrated across different timeframes, performance metrics and types of payout. Its goal is to reward executives for the achievement of performance goals that are directly linked to stockholder value creation. Our annual cash incentives are designed to reward the achievement of key Company performance targets set for the year. Longer-term equity vehicles such as performance shares and target performance cash awards reward executives for stock price performance relative to the Peer Group over a three-year period and are settled in stock (performance shares) and cash (target performance cash awards). The Company also uses stock options, which have a ten-year life and reward executives for long-term stock price growth.

Table of Contents

In 2010, we provided executive officers with a compensation package that included the following elements: (i) base salary, (ii) annual cash incentive bonus opportunities, (iii) long-term incentives, and (iv) benefits and perquisites. Each of these compensation elements is described and analyzed in further detail in the table below and the narrative that follows:

Compensation Element	Description	Objectives/Performance Linkage	Performance Time Horizon
Base Salary	Fixed portion of cash compensation	Provide compensation for day-to-day responsibilities that competitively reward day-to-day performance	Salary levels are dependant upon sustained individual performance over long time periods
Annual Cash Incentives (Bonus)	Cash payments dependent upon internal measures of Company performance	Provides incentive to achieve key annual performance goals critical to the Company's overall success	Payouts are dependant upon annual performance
Long-Term Incentive Compensation	Performance shares and target performance cash awards which vest based on the Company's total shareholder return (TSR) vs. peer companies Stock options whose value is dependent upon stock price growth from the date of grant	Provides direct linkage to the long-term success of the Company (as measured by stock price) and encourages retention of key leadership talent	Performance grants and options vest over a 3-year period; options have a 10- year life, providing a true long-term link to stock price performance
Benefits and Perquisites	Retirement, health and other benefits designed to provide financial safeguards to executives; perquisites such as telecom allowances that have a direct business use	Provide health care and financial security benefits to our executive officers similar to those provided to all our management employees; allow executives to focus on company business; provide market competitive package to recruit and retain executive talent	Most benefits are provided to all salaried employees on essentially the same terms, so there is no direct performance linkage
Discretionary Bonuses and Awards	Typically paid in cash or restricted stock units (RSUs) to recognize individual performance	Reward extraordinary performance and attract top executive talent while retaining executives through long-term vesting and potential wealth accumulation	Immediate recognition of discretionary efforts leading to tangible and significant company outcomes

Use of Market Data and Peer Groups

To assist in evaluating and determining competitive levels of compensation for the various elements of pay, the Compensation Committee relied in 2010 upon various sources of data which included:

Competitive compensation market analysis of published surveys from the Chain Restaurant Compensation Association (covering the chain restaurant industry) and Towers Watson U.S. CDB General Industry Executive Database, which provide aggregated information on base salary, total cash (base salary and bonus), and total direct compensation (base salary, bonus and long-term incentives) for each benchmark executive position.

Additional data on long-term incentive opportunities in the hospitality, restaurant and retail industries, for a general understanding of current compensation practices.

Proxy data collected and analyzed from a peer group of 20 restaurant companies operating in the family dining, casual and quick service segments. This restaurant peer group consisted of the following companies:

Bob Evans Farms, Inc.	Darden Restaurants, Inc.	Red Robin Gourmet Burgers, Inc.
Brinker International, Inc.	DineEquity, Inc.	Ruby Tuesday, Inc.
Buffalo Wild Wings, Inc.	Domino's Pizza, Inc.	Sonic Corporation
Burger King Holdings, Inc.	Jack in the Box, Inc.	Steak & Shake
California Pizza Kitchen, Inc.	O'Charley's, Inc.	(Biglari Holdings, Inc.)
CKE Restaurants, Inc.	Panera Bread Company	Texas Roadhouse, Inc.
Cracker Barrel Old Country Store, Inc.	Papa John's International, Inc.	Wendy's/Arby's Group, Inc.

The peer group above includes public restaurant companies which are similar to the Company in terms of revenue, system-wide sales, geographic coverage, and mix of franchised and corporate-owned stores. The Committee believes that this peer group presents an accurate picture of industry practices. We use data from the peer group to assess market practices for executive pay, the use and mix of pay devices, and perquisites and benefits.

The Company strives to provide pay opportunities (e.g., base salary, target bonus and long-term incentive awards) that are at approximately the competitive median (i.e., the size-adjusted 50th percentile) of our restaurant peer group. Company incentive plans are designed to have significant differentiation in payouts based on performance. As a result, actual compensation payouts are intended to be market-appropriate given our performance for the applicable year or period. The Compensation Committee annually analyzes tally sheets for each executive officer (as further described in the Compensation Committee section elsewhere in this Proxy Statement). This review helps ensure that executive compensation decisions are aligned with stockholder interests, that termination provisions are appropriate and aligned with market practices, and that the value of executive share holdings and unvested incentives track changes in stockholder value.

Base Salary

How Amounts are Determined. In general, the Compensation Committee considers a variety of factors when setting base salaries for executive officers, including market salary information, experience and tenure with the Company, individual performance and internal pay equity. The Compensation Committee annually reviews the performance of executive officers and scope of responsibility to determine whether adjustments to base salaries are appropriate in light of individual and Company performance, as well as overall market conditions and proxy peer data.

No Salary Adjustments for 2009 and 2010. In November 2008, the Compensation Committee, in response to the economic downturn and its potential impact on the Company, determined that there would be no annual salary increases for Company employees, including the Company's executive officers, for 2009. A similar

Table of Contents

year-end review of base salaries and individual and Company performance at the end of 2009 resulted in no adjustments to the base salaries of executive officers for 2010.

The base salaries of Frances Allen and Robert Rodriguez, each a named executive officer hired during the second half of 2010, were negotiated in connection with the hiring process, based on competitive market data and the Company's desire to attract top executive talent to fill key leadership positions, as well as internal pay equity.

Annual Cash Incentives

2010 Corporate Incentive Plan for Nelson Marchioli and Mark Wolfinger

Overview. Prior to the beginning of the 2010 fiscal year, the Compensation Committee adopted the Denny's 2010 Corporate Incentive Program (the 2010 CIP), which provides our non-field management and staff, including our executive officers, with an opportunity to earn an annual cash bonus based on the Company's achievement of specified performance objectives and individual performance ratings. The performance goals originally established under the 2010 CIP were based on positive Same-Store Sales and Adjusted Income Before Taxes, the same two performance metrics that were used for the 2009 annual bonus program.

Nelson Marchioli and Mark Wolfinger were our only executive officers serving at the time the 2010 CIP was adopted, and, with Mr. Marchioli's departure from the Company in June 2010, Mr. Wolfinger was the only named executive officer eligible to receive a payout under the 2010 CIP. Ms. Smithart-Oglesby, who served as interim CEO from June 8, 2010 until January 31, 2011, also did not participate in the 2010 Corporate Incentive Plan. Her pay package, including her 2010 bonus opportunity, is described in detail in the section titled "2010 Interim CEO Compensation" below. The 2010 incentive opportunities for Frances Allen and Robert Rodriguez, who were each hired during the second half of 2010, are described separately below.

Target Incentive Opportunities. Under the 2010 CIP, a participant was eligible to earn a target incentive award ("Target Award") equal to a percentage of his or her base salary, with the percentage varying depending on the participant's position. Target Awards were determined for participants based upon a review of competitive market practices, including comparisons of the participant's incentive level with published survey data and proxy information from our restaurant peer group. The Target Award for Mr. Marchioli was \$780,000, or 100% of his base salary; and the Target Award for Mr. Wolfinger, was \$367,500, or 75% of his base salary.

Performance Goals for 2010 Incentives. As originally adopted, payouts under the 2010 CIP would be earned by participants based on the Company's achievement of pre-established goals under two performance criteria: (i) Same-Store Sales; and (ii) Adjusted Income Before Taxes. The amount of actual bonus earned could range from 0% of the Target Award, if certain threshold goals are not met, to a maximum of 150% of the Target Award, if targeted goals are exceeded. In addition, participants' individual performance ratings impact the amount, resulting in a possible incentive range from 0% to 172.5% of a participant's Target Award. For example, an employee with a sub-par performance rating would receive no payout, whereas a superior performance rating could earn up to 172.5% of a participant's target award if the Company meets or exceeds the maximum performance range for all performance goals. The performance goals and the associated payouts for 2010 were as follows:

	At Threshold		At Target		At Maximum	
	Performance		Performance		Performance	
	Goal	Payout(1)	Goal	Payout(1)	Goal	Payout(1)
Same-Store Sales(2)	n.a.	None	+0.1%	75%	+6.0%	112.5%
Adjusted Income Before Taxes(3)	\$ 23.0m	12.5%	\$ 27.0m	25%	\$ 40.0m	37.5%

(1) As a percentage of a participant's Target Award.

(2) There was no payout for Same-Store Sales if actual performance fell below target performance.

(3) Adjusted Income Before Taxes is a non-GAAP financial measure that is calculated by adjusting net income to exclude the impact of income taxes, operating gains and losses, non-operating income and share-based compensation.

Table of Contents

Supplemental Incentive Opportunity for 2010 CIP Participants. During the first half of 2010, the Company’s Board of Directors undertook a review of the Company’s strategic direction. As a result of that review, the Company instituted several significant changes to Company operations in the middle of 2010 under a 100-day strategic initiative. The changes included Mr. Marchioli’s departure, a renewed emphasis on guest counts and customer transactions, and the rollout of our \$2-4-6-8 value menu. In connection with this new strategic initiative, the Board determined that the Same-Store Sales metric used under the 2010 CIP was no longer the most appropriate overall indicator of the Company’s performance. As a result, in light of the Company’s shift in strategic focus, the Compensation Committee decided that it would be appropriate to provide the 2010 CIP participants, including Mark Wolfinger, with an opportunity to earn a partial annual incentive based primarily on improvement in guest traffic during the second half of 2010, together with a holistic review of overall Company performance during such period. This incentive opportunity was in lieu of the opportunity to earn an incentive based on the Same-Store Sales metric.

The maximum amount that could be earned under this supplemental incentive opportunity was set at 25% of the amount that originally could be earned under the 2010 CIP for achieving target performance under the Same-Store Sales metric (or 18.75% of the Target Award).

2010 Performance Results. Based upon actual 2010 performance results, (i) the target performance goal relating to adjusted income before taxes was slightly exceeded, resulting in a payout of 25.25% of each participant’s total Target Award, and (ii) the target performance goal relating to improvement in guest traffic during the second half of 2010 was achieved, resulting in a payout of 18.75% of each individual’s total Target Award. With respect to Mr. Wolfinger, the only executive officer eligible to receive a payout under the 2010 CIP, the Compensation Committee’s decision as to his 2010 annual incentive payment was not automatic or formulaic, but instead was based on a subjective review of the Company’s success in executing key strategic changes implemented during 2010, including the improvement in guest traffic during the second half of 2010, and based further on Mr. Wolfinger’s individual performance and accomplishments in 2010. Considering these factors together, the Compensation Committee approved an incentive award for Mr. Wolfinger equal to 50.6% of his Target Award, or \$185,955, based on the following:

Performance Metric	Payout as a Percentage of Target Bonus	Basis/Rationale
Adjusted Income Before Taxes	25.25%	Amount earned based on actual results under original 2010 CIP performance metric.
Improvement in Guest Traffic	18.75%	Amount earned based on improvement in guest traffic, which was identified and communicated as a critical performance metric for the 2 nd half of 2010; reflects the successful implementation of key strategic changes and initiatives implemented mid-year.
Individual Performance Rating	6.6%	Discretionary adjustment based on individual performance rating. Specifically, Mr. Wolfinger: <ul style="list-style-type: none"> ▪ Was key driver of successful menu pricing strategy and other mid-year strategic initiatives, ▪ Played critical role in managing CEO transition and recruitment of new CMO and COO, ▪ Led negotiations, structuring and execution of Flying J restaurant deal

The Committee believes that Mr. Wolfinger’s performance in the face of a variety of challenges before the Company in 2010 was extraordinary, and resulted in increased stockholder value as Denny’s achieved significant sales and traffic trend improvements in the second half of the year, as measured against budget, historic trends and industry trends.

2010 Incentive Opportunities for New Executive Officers

Frances Allen. The Company hired Frances Allen, effective July 21, 2010, to serve as the Company's Executive Vice President and Chief Marketing Officer. For 2010, Ms. Allen was awarded an opportunity to earn a target incentive award equal to 75% of her base salary, prorated for the portion of 2010 for which she was employed by the Company. Ms. Allen could earn a payout of her incentive award based on her achievement in 2010 of the following individual performance objectives:

Develop and introduce new marketing and brand positioning strategy,

Deliver a plan and build consensus for implementation of new brand positioning,

Improve efficiency and effectiveness of fourth quarter marketing plan, and

Assess marketing structure and identify areas for improvements.

Based on a subjective and qualitative review and assessment of Ms. Allen's performance in 2010, the Compensation Committee determined that she had successfully completed each of her individual performance objectives. Based on this assessment, the Compensation Committee approved an incentive award payout of \$133,516 for Ms. Allen, which represents 100% of her target opportunity, pro rated for the portion of 2010 for which she was employed by the Company.

Robert Rodriguez. The Company hired Robert Rodriguez, effective September 8, 2010, to serve as the Company's Executive Vice President and Chief Operating Officer. For 2010, Mr. Rodriguez was awarded an opportunity to earn a target incentive award equal to 75% of his base salary, prorated for the portion of 2010 for which he was employed by the Company. Mr. Rodriguez could earn a payout of his incentive award based on his achievement in 2010 of the following individual performance objectives:

Increase Company sales and profits from date of hire to year-end,

Increase franchisee participation in marketing co-ops for 2011,

Complete an annual and long-term operating strategic plan with quantifiable objectives, and

Meet with all key Company franchisees and refine strategic plan for operations taking into account franchisee input.

Based on a subjective and qualitative review and assessment of Mr. Rodriguez's performance in 2010, the Compensation Committee determined that he had successfully completed each of his individual performance objectives. Based on this assessment, the Compensation Committee approved an incentive award payout of \$98,953 for Mr. Rodriguez, which represents 100% of his target opportunity, pro-rated for the portion of 2010 for which he was employed by the Company.

Long-Term Incentive Compensation

In General. A key component of the total compensation package of our executive officers is a long-term equity incentive program that is designed to meet the following objectives:

Edgar Filing: DENNYS CORP - Form DEF 14A

- (i) Reward long-term Company profitability and growth,
- (ii) Promote increased stockholder value and align our executives' interests with the interests of our stockholders,
- (iii) Offer competitive awards aligned with market practice,
- (iv) Promote stock ownership among executives,
- (v) Encourage a long-term perspective among executive officers, and

Table of Contents

(vi) Provide an incentive for executives to remain with the Company.

In 2009, the Compensation Committee approved a new long-term incentive structure that supports the Company's strategic business goals, aligns with the interests of stockholders, and improves the competitiveness of the Company's total executive compensation package. The Long-Term Incentive (LTI) plan design, which was generally unchanged for 2010, consists of stock options, as well as performance shares and target performance cash awards, which are awarded to participants under the Denny's Long-Term Performance Incentive Program or 2010 LTPIP. The Grants of Plan Based Awards Table presents all equity awards made to the named executive officers in 2010.

Fiscal Year 2010 Long-Term Incentive Grants. The Compensation Committee intends to make LTI grants to all eligible Denny's employees, including named executive officers in the first quarter of each fiscal year, generally at the first Compensation Committee meeting of each fiscal year. The annual LTI grants made at the beginning of 2010 to Company executives and employees were composed of three different devices: performance shares, target performance cash awards and stock options. These three devices provide incentive for mid-term and long-term stockholder value creation in excess of peer company results, encourage executive retention, and promote stock ownership, while balancing share dilution and cash expenses.

Nelson Marchioli, our CEO at the time these grants were made, did not receive any LTI grants in 2010. Mark Wolfinger, our CFO, is the only named executive officer who participated in the fiscal year 2010 LTI grants (see the section below on New Hire LTI Awards for a discussion of grants made to other named executive officers).

Performance shares and target performance cash awards. Approximately half (by value) of the 2010 annual LTI awards was composed of performance shares and target performance cash awards (each equaling approximately 25% of the total value of the total LTI opportunity). The performance shares and target performance cash awards have value to the extent that the Company's Total Shareholder Return (TSR) over a three-year period equals or exceeds peer companies' TSR performance, with no payout at all if relative TSR performance is below a threshold amount.

Under the program, participants were awarded a target number of performance shares and target performance cash awards. Payouts will be between 0% and 150% of the target based on the Company's Total Shareholder Return ranking relative to the Company's peer group (listed previously) over the three-year performance period which consists of the Company's fiscal years 2010, 2011 and 2012 and begins December 31, 2009 and ends December 26, 2012. The performance shares and target performance cash awards will be earned and vested at the end of the performance period based on TSR performance. The performance shares convert to and are settled in shares of Denny's stock on a one-for-one basis. The target performance cash awards are settled in cash. TSR, which combines share price appreciation and dividends paid to show a total return to the stockholder, will be calculated as follows:

$$\text{TSR} = (\text{ending stock price} - \text{beginning stock price} + \text{reinvested dividends}) / \text{beginning stock price}$$

Denny's TSR performance ranking compared to its Peer Group determines the payout level as shown below:

	Denny's TSR Performance Ranking vs. Peers	Payout as a % of Target(1)
Below Threshold	<25 th %ile	0%
Threshold	25 th %ile	50%
Target	50 th %ile	100%
Maximum	90 th %ile	150%

(1) Payouts are interpolated between payout levels.

Table of Contents

Stock options. The other half (by value) of the 2010 annual LTI awards was composed of stock options, which reward the recipient only if, and to the extent that, the Company's stock price increases from the date of grant. These options were granted with an exercise price equal to the closing price of the Company's Common Stock on the date of grant. Options remain outstanding for up to ten years from grant and vest in three equal annual installments beginning one year from the date of grant. Options provide the most direct link to absolute stockholder returns and, due to their 10-year term, provide a longer-term focus than other pay elements.

When determining the 2010 annual LTI awards, the Compensation Committee reviewed two sets of market data to determine competitive levels: (1) Towers Watson U.S. CDB General Industry Executive Database, and (2) restaurant peer group proxy data. The Compensation Committee strives to grant LTI awards with an expected fair value at grant approximately equal to market median practices for the Peer Group and similarly-sized general industry companies. In both 2009 and 2010, however, the Compensation Committee approved LTI awards well below market median practices (and the Compensation Committee's pay philosophy) due to the Compensation Committee's desire to reduce share usage and compensation costs. For most continuing LTI plan participants, the number of shares granted in 2010 was the same as in 2009. As noted previously, Mr. Marchioli, our CEO at the time, did not receive any equity awards in 2010.

New Hire LTI Awards. In connection with the hiring of Robert Rodriguez and Frances Allen, the Company made one-time LTI awards both to induce these individuals to join the Company and to provide an appropriate LTI incentive for the portion of 2010 that they were employed by the Company (because these two individuals were not employed at the beginning of the year, they did not participate in the 2010 LTI grants described above).

These one-time LTI awards provide a strong alignment with stockholder interests and are consistent with market best practices. They consist of stock options and price-vesting restricted stock units, as shown in the table below. The stock options vest ratably over three years from the date of grant and expire 10 years from the date of grant. The price-vesting restricted stock units vest in four equal installments, with one-quarter of the award vesting upon attainment of the following stock prices: \$4.00, \$4.50, \$5.00 and \$5.50 (each stock price must be attained for 20 consecutive trading days). The restricted stock units convert into common shares of Company stock on a 1:1 basis upon vesting. Any unvested restricted stock units will be forfeited five years from the executive's start of employment.

Executive	Award Type	Number of Options or Shares	Grant Date Fair Value of Award
Robert Rodriguez	Stock options	100,000	\$160,890
	Price-vesting	250,000	\$543,750
	restricted stock units		
Frances Allen	Stock options	100,000	\$160,890
	Price-vesting	200,000	\$418,000

Benefits and Perquisites

In General. Company executives are eligible to participate on the same basis as other salaried employees in health and welfare plans, qualified retirement and savings plans, and other benefit plans intended to provide a financial safety net of coverage for various significant life events, such as death, disability and retirement. Along with other members of the management team, the named executive officers also participate in a non-qualified savings plan intended to allow them to contribute to a retirement plan without regard to IRS limits on the amount of earned compensation that can be voluntarily deferred into a 401k retirement plan. The named executive officers also receive certain perquisites including telecommunication allowances, car allowances and

Table of Contents

reimbursement for executive physicals. These perquisites serve a business purpose, are limited in value and are consistent with those of restaurant and other companies of similar size.

Retirement and Savings Plans

Deferred Compensation Plan/401(k) Plan. Generally, all employees are eligible to participate in the Company's 401(k) Plan, but due to IRS limits, most executives are not eligible to receive the Company's matching contribution of up to three percent of compensation under the 401(k) Plan. Therefore, a non-qualified deferred compensation plan is offered to certain management level employees, including the named executive officers, to provide retirement benefits similar to those available to other Denny's employees. The deferred compensation plan lets participants: (i) defer up to 50% of salary and 100% of annual incentive bonus on a pre-tax basis, and (ii) receive a Company match up to three percent, which is the same match offered to all employees in the Company's 401(k) plan.

2010 Interim CEO Compensation

Debra Smithart-Oglesby, our Board Chair, served as the Company's Interim CEO from June 8, 2010 until January 31, 2011, when John C. Miller was hired as CEO. Ms. Smithart-Oglesby continued to serve as an executive of the Company for the month of February, in order to assist in Mr. Miller's transition. While serving as interim CEO and an executive of the Company, Ms. Smithart-Oglesby continued to receive her Board pay. In addition to her regular Board pay, Ms. Smithart-Oglesby received the following pay elements for taking on the responsibilities and duties of serving as Interim CEO and for serving in a full-time executive capacity when assisting in Mr. Miller's transition:

Base salary: Ms. Smithart-Oglesby was paid \$50,000 per month of executive service.

Incentive opportunity: Ms. Smithart-Oglesby was eligible for a discretionary bonus of \$25,000 per month of executive service, with the final payout to be determined by the Compensation Committee. For fiscal 2010, the Compensation Committee decided that the Company's performance and Ms. Smithart-Oglesby's role in guiding the Company during a turbulent period merited a full payout of this incentive. The factors the Compensation Committee considered when making the decision to pay this incentive included:

The Company's significantly improved financial performance in the second half of 2010, following her placement into the interim CEO role, as measured by guest traffic, system-wide sales trends and the Company's net income of \$22.7 million for the full year,

Significantly improved franchisee relations,

Ms. Smithart-Oglesby's efforts to successfully refinance the Company's debt, including a reduction of total debt by \$15 million, and

The significant number of new restaurant openings in 2010 (136 units), including expanding the Denny's brand to non-traditional locations such as universities.

One-time restricted stock unit award: 17,731 restricted stock units, having a grant date value of \$50,000, were awarded to her on June 10, 2010. This award vests and converts to shares of Common Stock one year from the date of grant, as long as she continues to serve as a Board director.

Other compensation elements: Consistent with other executives, Ms. Smithart-Oglesby received a vehicle allowance of \$1,100 per month and a telecom allowance of \$162.50 per month. She also received a housing reimbursement of \$1,515 per month, to cover her temporary living expenses in Spartanburg, SC. Ms. Smithart-Oglesby did not receive any other benefits while serving in an executive capacity.

Table of Contents

The Compensation Committee believes that the compensation and other arrangements paid to Ms. Smithart-Oglesby during this time were reasonable and appropriate.

New CEO Compensation

John C. Miller joined Denny's on February 1, 2011 as CEO and President. The Compensation Committee believes that Mr. Miller's pay level is reasonable and appropriate, and that the terms of his employment are consistent with market best practices. His compensation package consists of the following pay elements:

Base salary and annual target incentive: Mr. Miller's annual base salary is set at \$550,000 and his target annual incentive is 100% of base salary. Like all executives of Denny's, his salary and target bonus will be periodically reviewed and may be adjusted by the Compensation Committee at their discretion. He is not guaranteed any future increases in base salary or target incentive.

Signing award: Mr. Miller received a cash signing award of \$250,000. Mr. Miller will forfeit this award if he is terminated for cause or voluntarily leaves the Company within the first year of his employment; further, he will forfeit a pro-rata portion of this award if he is terminated for cause or voluntarily leaves the Company within the second or third years of his employment.

2011 long-term incentive awards: Mr. Miller received a long-term incentive award on February 1, 2011, the details of which are reflected in the table below.

Award device	Key Terms of Award	Number of Options,	Grant Date Fair Value of Award
		Shares or Units	
		Granted	
Stock options	Vest ratably over 3 years, 10 year term	200,000	\$396,000
Price-vesting Restricted Stock Units (RSUs)	Vest based on achievement of stock price goals: 25% of the award vests upon attainment of each of the following prices: \$5.00, \$5.50, \$6.00 and \$6.50 ⁽¹⁾	200,000	\$658,500
Performance shares	Vest three years from grant based on relative TSR performance vs. peer group	50,000 (target)	\$231,500
Total			\$1,286,000

(1) Each of the stock price goals must be maintained for at least 20 consecutive trading days for the RSUs to vest.

The stock options and performance shares granted to Mr. Miller carry the same vesting and performance conditions and goals as the grants made to all other LTI award participants. The performance shares are vested at the end of a three-year performance cycle based on the Company's Total Shareholder Return (TSR) as compared to a company peer group. Between 0% and 150% of the targeted number of shares may vest based on this relative TSR performance metric.

Termination and severance payments: Like other executives, Mr. Miller participates in the Company's Executive Severance Pay Plan. Under this Severance Plan, Mr. Miller is not eligible for any severance benefits or the vesting of any outstanding incentive awards unless he is terminated without cause or terminated for good reason. He is not eligible for any tax gross-ups related to benefits, perquisites or severance payments. This plan is described in more detail in the section titled "Post Termination Payments" below.

Table of Contents

Other terms and conditions: Like all other Denny's employees, Mr. Miller does not have an employment agreement. He participates in the same benefit and perquisite programs available to all other eligible executives, including the Company's Deferred Compensation Plan. Mr. Miller is subject to the Company's share ownership, share hedging and clawback policies. His share ownership target is 3 times his base salary.

Post-Termination Payments

In General, All of our executive officers participate in the Denny's Corporation Executive Severance Pay Plan (the "Severance Plan"). The Severance Plan was adopted in January 2008 to provide severance payments and benefits to our executive officers in a consistent manner. In the event of a participant's employment termination without cause or for good reason (as such terms are defined in the Severance Plan), the Severance Plan provides for, among other items, salary continuation and health benefits for 12 months. Under the Severance Plan's change in control provisions, a participant is entitled to an enhanced severance payment plus health benefits for 24 months. Two events must take place—a change in control of the Company and a qualifying associated termination—before a participant is entitled to these benefits. Under the Severance Plan, no benefits are payable following a termination for cause or voluntary termination (resignation). Potential benefits under the Severance Plan for Mr. Wolfinger, Mr. Rodriguez and Ms. Allen are discussed further under the section entitled "Summary of Termination Payments and Benefits" later in this Proxy Statement.

Why the Company Uses the Element. We provide involuntary termination severance benefits to protect individuals from events outside their control and to offer compensation packages similar to those commonly found in our market for competing executive talent. Furthermore, we provide enhanced benefits in the event of a change in control to protect against disruption during change in control activities.

Post-Termination Payments in 2010. Effective June 30, 2010, Nelson Marchioli separated from the Company. On July 23, 2010, the Company received notice from Mr. Marchioli that he had elected to arbitrate issues with respect to the settlement of any outstanding obligations related to his employment. On November 2, 2010, the Company settled all outstanding obligations with Mr. Marchioli. Pursuant to the terms of the Settlement Agreement, Mr. Marchioli received: (i) a lump sum from the Company in the amount of \$2,250,000, (ii) performance-based incentive awards and outstanding stock option awards held by Mr. Marchioli, as of his departure from the Company, generally subject to the terms and conditions set forth in his May 1, 2009 employment agreement, as if Mr. Marchioli's termination of employment was under circumstances constituting a Termination without Cause under the employment agreement, and (iii) any and all of Mr. Marchioli's previously deferred compensation, together with any accrued interest or earnings valued as of December 31, 2010. The Settlement Agreement also contained mutual releases between the Company and Mr. Marchioli and confirmed his resignation from the Board of Directors of Denny's Corporation effective as of June 30, 2010.

Tax Considerations

Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code") places a limit of \$1 million on the amount of compensation that we may deduct in any year with respect to any one of our named executive officers. This limitation does not apply to compensation that meets the requirements under Section 162(m) for "qualified performance-based" compensation. The 2010 CIP and the 2010 LTPIP were designed to meet the requirements of Section 162(m) and be fully deductible by the Company. The Compensation Committee intends to maximize deductibility of executive compensation while retaining some discretion to compensate executives in a manner commensurate with performance and the competitive landscape for executive talent.

Table of Contents

Compensation and Corporate Governance Best Practices

Share Ownership Guidelines. The Company has adopted stock ownership guidelines for its directors and executive officers. The guidelines require that ownership levels for directors and executive officers shall be fixed share amounts equal to:

(i) for directors and CEO 3 X annual cash board retainer/base salary;

(ii) for executive officers 2 X base salary.

The fixed share amount shall be determined based upon the closing price of the Company's stock as of the effective date of these guidelines (January 25, 2011), or in the case of a newly hired or appointed executive officer or director, his/her starting date, whichever is applicable. Directors and executive officers have 3 years from the later of the effective date of the guidelines or an individual's start date, whichever is applicable, to acquire the designated amounts. Any executive or director who has not obtained the required level by the required time period will not be permitted to sell Company stock until the required level is obtained and maintained.

Compensation Clawback Policy. The Company has adopted a compensation clawback policy for named executive officers and certain other senior officers that provides for the recoupment by the Company under certain circumstances of annual cash bonuses, stock-based awards, performance-based compensation, and any other forms of cash or equity compensation other than salary. In the event of a restatement of the Company's previously issued financial statements as a result of an error, omission, fraud or non-compliance with financial reporting requirements (but not including any restatement or adjustment due to a change in applicable accounting principles, rules or interpretations), or a determination by the Compensation Committee that a material error was made in computing the amount of any incentive compensation, the Compensation Committee has discretion to direct the Company to recover from one or more current or former employees the incremental incentive compensation in excess of the incentive compensation that would have been earned, paid or vested based on the related or adjusted financial results.

Anti-Hedging Policy. The Company has adopted a policy that prohibits executive officers and directors from engaging in transactions in puts, calls or other derivatives relating to Company securities on an exchange or any other organized market. The policy also prohibits executive officers and directors from engaging in certain forms of hedging or monetization transactions with respect to Company stock, such as prepaid variable forward contracts, equity swaps, collars, forward sale contracts and exchange funds.

No Repricings without Stockholder Approval. The Company's 2004 Omnibus Incentive Plan and 2008 Omnibus Incentive Plan expressly prohibit, directly and indirectly, the repricing or exchange of underwater stock options and stock appreciation rights without stockholder approval.

The Denny's, Inc. Deferred Compensation Plan (the "Deferred Compensation Plan") allows participants to defer current compensation on a pre-tax basis. Participation is restricted to a select group of management or highly compensated employees of the Company.

Under the terms of the Deferred Compensation Plan, a participant may elect to defer up to 50% of base salary and up to 100% of bonus. Denny's will match 100% of each participant's deferrals up to 3% of the participant's compensation. Deferrals will be credited to the participant's account on a periodic basis consistent with the payroll cycle. Deferral elections will remain in effect from plan year to plan year unless modified or revoked by the participant during an enrollment period.

The participant's account will be credited with earnings and losses based on the investment options selected by the participant. The participant may request a change in the allocation of an account balance or future deferrals at any time. A participant is at all times 100% vested in his or her deferral account.

Upon termination of employment for any reason (except following a change in control), a participant will receive his or her account balance in a lump sum or in installments based on his or her election. Account balances less than \$50,000 will be distributed in a lump sum. At the death of a participant, the remaining amount in the participant's account will be paid to his or her beneficiary in accordance with the participant's election. Upon a termination of employment within two years of a change in control, a participant will receive his or her account balance in a lump sum distribution. In the event of an unforeseen financial emergency, the plan administrator may approve a participant's withdrawal up to the amount necessary to satisfy the hardship. A participant may change the distribution schedule prior to termination of employment from a lump sum to annual installments, but not from annual installments to a lump sum. All changes must be made at least 13 months prior to termination of employment.

The Deferred Compensation Plan also provides for an In-Service Distribution account, typically used to save for specific financial needs at a specified date, such as college tuition payments. A participant may elect to receive some or all of a particular year's deferral and related earnings on a particular date prior to retirement or termination of employment. Distributions can be made in a lump sum or, if the balance is at least \$10,000, in 2-5 annual installments. A participant may extend an In-Service Distribution date by at least 5 years or may cancel the date, which results in the account balance being combined with the termination of employment account.

As a result of Code Section 409A, certain key employees (including the named executive officers) may be subject to a six-month waiting period for distributions following termination.

Summary of Termination Payments and Benefits

In 2010, Messrs. Wolfinger and Rodriguez and Ms. Allen were participants in the Severance Plan, which provides for severance payments and benefits in the event of a participant's employment termination without cause or for good reason (as such terms are defined in the Severance Plan), plus enhanced benefits if such termination is in connection with a change in control of the Company. Ms. Smithart-Oglesby served the Company as Chief Executive Officer on an interim basis, and therefore, during 2010, was not participant in such plan.

Effective June 30, 2010, Nelson Marchioli separated from the Company. On July 23, 2010, the Company received notice from Mr. Marchioli that he had elected to arbitrate issues with respect to the settlement of any outstanding obligations related to his employment. On November 2, 2010, the Company settled all outstanding obligations with Mr. Marchioli. Pursuant to the terms of the Settlement Agreement, Mr. Marchioli received: (i) a lump sum from the Company in the amount of \$2,250,000, (ii) performance-based incentive awards and outstanding stock option awards held by Mr. Marchioli, as of his departure from the Company, generally subject to the terms and conditions set forth in his May 1, 2009 employment agreement, as if Mr. Marchioli's termination of employment was under circumstances constituting a Termination without Cause under the employment agreement, and (iii) any and all of Mr. Marchioli's previously deferred compensation, together with any accrued interest or earnings valued as of December 31, 2010.

The following table summarizes the approximate value of the termination payments and benefits that each of Messrs. Wolfinger and Rodriguez and Mss. Smithart-Oglesby and Allen would have received if they had terminated employment at the close of business on December 29, 2010. The table also summarizes the actual payments and benefits paid to Mr. Marchioli in connection with his separation from the Company as of June 30, 2010. The amounts shown in the table exclude distributions under our 401(k) retirement plan that is generally available to all of our salaried employees, as well as the executive's accrued but unpaid obligations. The amounts also exclude benefits and payments that are disclosed in the Pension Benefits Table elsewhere in this Proxy Statement and the Nonqualified Deferred Compensation Table elsewhere in this Proxy Statement.
