FORWARD LOOKING STATEMENTS

The following Management's Discussion and Analysis of Financial Condition and Results of Operations contain forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and Section 27A of the Securities Act of 1933, as amended, that involve risks and uncertainties. Forward-looking statements give our current expectations and projections relating to our financial condition, results of operations, plans, objectives, future performance and business. You can identify these statements by the fact that they do not relate strictly to historical or current facts. These statements may include words such as anticipate, estimate, expect, project, intend, plan, and other words and terms of similar meaning in connection with any discussion of the timing or nature of future operating or financial performance or other events. All statements other than statements of historical facts included in this report that address activities, events or developments that we expect, believe or anticipate will or may occur in the future are forward-looking statements.

These forward-looking statements are largely based on our expectations and beliefs concerning future events, which reflect estimates and assumptions made by our management. These estimates and assumptions reflect our best judgment based on currently known market conditions and other factors relating to our operations and business environment, all of which are difficult to predict and many of which are beyond our control. Although we believe our estimates and assumptions to be reasonable, they are inherently uncertain and involve a number of risks and uncertainties that are beyond our control. In addition, management's assumptions about future events may prove to be inaccurate. Management cautions all readers that the forward-looking statements contained in this report are not guarantees of future performance, and we cannot assure any reader that those statements will be realized or the forward-looking events and circumstances will occur. Actual results may differ materially from those anticipated or implied in the forward-looking statements due to the factors listed in this section and in Part II: Item 1A. Risk Factors in this report.

All forward-looking statements speak only as of the date of this report. We do not intend to publicly update or revise any forward-looking statements as a result of new information or future events or otherwise, except as required by law. These cautionary statements qualify all forward-looking statements attributable to us or persons acting on our behalf.

Statements made in this Quarterly Report on Form 10-Q, unless the context otherwise requires, include the use of the terms we, us, our and MagnaChip refer to MagnaChip Semiconductor Corporation and its consolidated subsidiaries. The term Korea refers to the Republic of Korea or South Korea.

**1. General**

***The Company***

MagnaChip Semiconductor Corporation (together with its subsidiaries, the Company) is a Korea-based designer and manufacturer of analog and mixed-signal semiconductor products for high-volume consumer applications. The Company's business is comprised of three key segments: Display Solutions, Power Solutions and Semiconductor Manufacturing Services. The Company's Display Solutions products include display drivers for use in a wide range of flat panel displays and mobile multimedia devices. The Company's Power Solutions products include discrete and integrated circuit solutions for power management in high-volume consumer applications. The Company's Semiconductor Manufacturing Services segment provides specialty analog and mixed-signal foundry services for fabless semiconductor companies that serve the consumer, computing and wireless end markets.

**2. Significant Accounting Policies**

***Basis of Presentation***

The accompanying unaudited interim consolidated financial statements of the Company have been prepared in accordance with generally accepted accounting principles in the United States of America (US GAAP). These interim consolidated financial statements include all adjustments consisting only of normal recurring adjustments and the elimination of all intercompany accounts and transactions which are, in the opinion of management, necessary to provide a fair presentation of financial condition and results of operations for the periods presented. These interim consolidated financial statements are presented in accordance with ASC 270, *Interim Reporting*, (ASC 270) and, accordingly, do not include all of the information and note disclosures required by US GAAP for complete financial statements. The results of operations for the three months ended March 31, 2011 are not necessarily indicative of the results to be expected for a full year or for any other periods.

The December 31, 2010 balance sheet data was derived from audited financial statements, but does not include all disclosures required by US GAAP.

***Recent Accounting Pronouncements***

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2010-06 (ASU 2010-06), which amends the disclosure requirements of ASC 820, *Fair Value Measurements and Disclosures*, (ASC 820) as of January 1, 2010. ASU 2010-06 requires new disclosures for any transfers of fair value into and out of Level 1 and 2 fair value measurements and separate presentation of purchases, sales, issuances and settlements within the reconciliation of Level 3 unobservable inputs. The Company previously adopted ASC 820 on January 1, 2008 and January 1, 2009 for financial assets and liabilities and for nonfinancial assets and liabilities, respectively. ASU 2010-06 is effective for annual and interim periods beginning after December 15, 2009, except for the Level 3 reconciliation which is effective for annual and interim periods beginning after December 15, 2010. The adoption of ASU 2010-06 as of January 1, 2010 did not have a material effect on the Company's financial condition or results of operations. The adoption of ASU 2010-06 in relation to the Level 3 reconciliation as of January 1, 2011 also did not have a material impact on the Company's financial condition or results of operations.

**3. Completion of Initial Public Offering**

Prior to the Company's initial public offering (IPO), the Company's board of directors and the holders of a majority of its outstanding common units elected to convert the Company from a Delaware limited liability company to a Delaware corporation (the Corporation) and to change the Company's name from MagnaChip Semiconductor LLC to MagnaChip Semiconductor Corporation. The corporate conversion was completed on March 10, 2011. In connection with the corporate conversion, outstanding common units of the Company were automatically converted into shares of common stock of the Corporation, outstanding options to purchase common units of the Company were automatically converted into options to purchase shares of common stock of the Corporation and outstanding warrants to purchase common units of the Company were automatically converted into warrants to purchase shares of common stock of the Corporation, all at a ratio of one share of common stock for eight common units.

On March 16, 2011, the Company also completed an IPO of 9,500,000 shares of common stock at an offering price of \$14.00 per share and on March 11, 2011 listed on the NYSE. All shares were sold in the form of depositary shares and each depositary share represented an ownership interest in one share of common stock. Of the 9,500,000 shares, 950,000 shares were newly issued by the Company and 8,550,000 shares were sold by selling stockholders. The Company received \$12,369 thousand of net proceeds from the issuance of the new shares of common stock after deducting underwriters' discounts and commissions, and the Company did not receive any proceeds from the sale of shares of common stock offered by the selling stockholders. The Company incurred \$10,591 thousand of IPO expenses that were initially recorded as other current assets and, upon completion of IPO, reclassified as reduction of additional paid-in capital in the consolidated balance sheets.

**Table of Contents****MagnaChip Semiconductor Corporation and Subsidiaries****Notes to Consolidated Financial Statements - (Continued)****(Unaudited; tabular dollars in thousands, except share data)****7. Derivative Financial Instruments**

The Company's Korean subsidiary entered into option, forward and zero cost collar contracts to hedge the risk of changes in the functional-currency-equivalent cash flows attributable to currency rate changes on U.S. dollar denominated revenues.

Details of derivative contracts as of March 31, 2011 are as follows:

Date of transaction	Type of derivative	Total notional amount	Month of settlement
May 25, 2010	Option	\$ 30,000	January to June 2011
May 25, 2010	Forward	78,000	January to June 2011
August 12, 2010	Zero cost collar	108,000	July to December 2011
January 17, 2011	Zero cost collar	60,000	January to June 2012
March 16, 2011	Zero cost collar	24,000	January to March 2012

The option, forward and zero cost collar contracts qualify as cash flow hedges under ASC 815, *Derivatives and Hedging*, (ASC 815), since at both the inception of the contracts and on an ongoing basis, the hedging relationship was and is expected to be highly effective in achieving offsetting cash flows attributable to the hedged risk during the term of the contracts. The Company is utilizing the hypothetical derivative method to measure the effectiveness by comparing the changes in value of the actual derivative versus the change in fair value of the hypothetical derivative.

The fair values of the Company's outstanding option, forward and zero cost collar contracts recorded as assets and liabilities as of March 31, 2011 and December 31, 2010 are as follows:

		March 31, 2011	December 31, 2010
<b>Derivatives designated as hedging instruments:</b>			
<b>Asset Derivatives:</b>			
Options	Other current assets	\$ 23	\$ 104
Forward	Other current assets	\$ 4,605	\$ 6,674
Zero cost collars	Other current assets	\$ 2,309	\$ 1,544
<b>Liability Derivatives:</b>			
Zero cost collars	Other non current liabilities	\$ 149	\$

For derivative instruments that are designated and qualify as cash flow hedges, the effective portion of the gain or loss on the derivative is reported as a component of accumulated other comprehensive income (AOCI) and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. Gains and losses on the derivative, representing either hedge ineffectiveness or hedge components excluded from the assessment of effectiveness, are recognized in current earnings.
