(Zip Code)

Securities registered pursuant to Section 12(b) of the Act:

Edgar Filing: MONEYGRAM INTERNATIONAL INC - Form 10-K

Title of each class	Name of each exchange on which registered
Common stock, \$0.01 par value	New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☐ No ☒

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Exchange Act. Yes ☐ No ☒

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. ☒

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer ☐ Accelerated filer ☒ Non-accelerated filer ☐ Smaller reporting company ☐

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

The aggregate market value of voting and nonvoting common stock held by non-affiliates of the registrant, computed by reference to the last sales price as reported on the New York Stock Exchange as of June 30, 2011, the last business day of the registrant's most recently completed second fiscal quarter, was \$277.3 million.

57,834,779 shares of common stock were outstanding as of February 28, 2012.

DOCUMENTS INCORPORATED BY REFERENCE

Certain information required by Part III of this report is incorporated by reference from the registrant's proxy statement for the 2012 Annual Meeting of Stockholders.

PART I

Item 1. BUSINESS

Overview

MoneyGram International, Inc. (together with our subsidiaries, MoneyGram, the Company, we, us and our) is a leading global payment service company. Our major products include global money transfers, bill payment solutions and financial paper products. We help people and businesses by providing affordable, reliable and convenient payment services.

The MoneyGram® brand is recognized throughout the world. We offer more choices and more control for people separated from friends and family by distance or those with limited bank relationships to meet their financial needs. Our money transfer services are available at approximately 267,000 agent locations in approximately 192 countries and territories. Our services enable consumers throughout the world to transfer money and pay bills, helping them meet financial demands of their daily lives. Our bill payment services also help businesses operate more efficiently and cost-effectively.

Our principal executive offices are located at 2828 N. Harwood Street, Suite 1500, Dallas, Texas 75201, and our telephone number is (214) 999-7552. Our website address is www.moneygram.com.

History and Development

We conduct our business primarily through our wholly owned subsidiary MoneyGram Payment Systems, Inc., or MPSI, under the MoneyGram brand. Through its predecessor, Travelers Express Company, Inc., or Travelers Express, the Company has been in operation for over 70 years.

In March 2008, we completed a recapitalization pursuant to which we received an infusion of \$1.5 billion of gross equity and debt capital, referred to herein as the 2008 Recapitalization. The equity component consisted of the sale to affiliates of Thomas H. Lee Partners, L.P., or THL, and affiliates of Goldman, Sachs & Co. or Goldman Sachs, and collectively with THL, the Investors, in a private placement of 760,000 shares of Series B Participating Convertible Preferred Stock of the Company, or the B Stock, and Series B-1 Participating Convertible Preferred Stock of the Company, or the B-1 Stock, and collectively with the B Stock, the Series B Stock, for an aggregate purchase price of \$760.0 million. We also paid Goldman Sachs an investment banking advisory fee equal to \$7.5 million in the form of 7,500 shares of the B-1 Stock.

As part of the 2008 Recapitalization, our wholly owned subsidiary, MoneyGram Payment Systems Worldwide, Inc., or Worldwide, issued Goldman Sachs \$500.0 million of senior secured second lien notes with a 10-year maturity, or the Second Lien Notes. We also entered into a senior secured amended and restated credit agreement with JPMorgan Chase Bank, N.A., or JPMorgan, as agent for a group of lenders, bringing the total facility to \$600.0 million. The amended facility included \$350.0 million in two term loan tranches and a \$250.0 million revolving credit facility.

In May 2011, we completed a second recapitalization, referred to herein as the 2011 Recapitalization. Pursuant to the 2011 Recapitalization, (i) THL, as the holder of all of the B Stock, converted all of the shares of B Stock into shares of our common stock in accordance with the Certificate of Designations, Preferences and Rights of Series B Participating Convertible Preferred Stock of MoneyGram International, Inc., (ii) Goldman Sachs, as the holder of all of the B-1 Stock, converted all of the shares of B-1 Stock into shares of Series D Participating Convertible Preferred Stock of the Company, or D Stock, in accordance with the Certificate of Designations, Preferences and Rights of Series B-1 Participating Convertible Preferred Stock of MoneyGram International, Inc., and (iii) THL received approximately 3.5 million additional shares of our common stock and \$140.8 million in cash, and Goldman Sachs received approximately 15,503 additional shares of D Stock and \$77.5 million in cash. The 2011 Recapitalization was approved unanimously by our board of directors following the recommendation of a special committee of the board of directors comprised of independent and disinterested members of our board of directors.

Table of Contents

Concurrently with entering into the Recapitalization Agreement, Worldwide and the Company entered into a consent agreement, or the Consent Agreement, with certain affiliates of Goldman Sachs, or the GS Note Holders, who are holders of the Notes. Pursuant to the Consent Agreement, the parties thereto entered into a supplemental indenture to the indenture governing the Notes that amended the indenture in order to permit the 2011 Recapitalization. In addition, the Company entered into a new senior secured credit facility, or the 2011 Credit Facility, comprised of a \$150 million, five-year revolver and a \$390 million six-and-a-half-year term loan, which refinanced the Company's existing senior secured credit facility and provided the funding for the 2011 Recapitalization.

On November 14, 2011, the Company filed a certificate of amendment to its Amended and Restated Certificate of Incorporation to effect a reverse stock split of the Company's common stock at a reverse stock split ratio of 1-for-8 and to decrease the number of authorized shares of common stock from 1,300,000,000 to 162,500,000. As the par value of common stock was not affected, \$3.5 million was transferred from common stock to additional paid in capital. In connection with the reverse stock split, the conversion ratio of the D Stock to common stock decreased from 1,000 to 125. All share and per share amounts have been retroactively adjusted to reflect the stock split with the exception of the Company's treasury stock, which was not a part of the reverse stock split.

In November and December 2011, the Company completed a secondary offering pursuant to which the Investors sold an aggregate of 10,237,524 shares in an underwritten offering. In connection with the secondary offering, 63,950 shares of D Stock were converted to 7,993,762 shares of common stock. The Company did not receive proceeds from the offering.

In connection with the secondary offering, the Company exercised an option to redeem \$175.0 million of its Second Lien Notes. The redemption was completed through the issuance of a \$150.0 million incremental term loan under the 2011 Credit Agreement, with the remaining balance paid from cash and cash equivalents. In connection with the redemption, the Company incurred a prepayment penalty of \$23.2 million.

Our Business

Our global money transfer and bill payment services are our primary revenue drivers. Money transfers are transfers of funds between consumers from one location to another. The sender pays a fee based on the transfer amount and the destination location. The designated recipient may receive the transferred funds at any agent location. In select countries, the designated recipient may also receive the transferred funds via a deposit to the recipient's bank account, mobile phone account or prepaid card. We typically pay both our send and receive agents a commission for the transaction.

We provide money transfer services through our worldwide network of agents and through a limited number of Company-owned retail locations in the United States and Western Europe. We also offer our money transfer services through the Internet, agent websites, mobile phone, kiosks, ATMs, receive cards and direct-to-bank account products in various markets around the world.

Our primary bill payment service offering is our ExpressPayment® service, which we offer at all of our money transfer agent locations in the United States and at certain agent locations in select Caribbean countries. Through our ExpressPayment service, a consumer can pay cash for bills at an agent location and obtain same-day notification of payment to the consumer's account with its creditor, also referred to as a biller. Our consumers can also use our ExpressPayment service to load and reload prepaid debit cards. Our ExpressPayment bill payment service is also available for payments to select billers via the Internet at www.moneygram.com.

We also derive revenue through our money order and official check services. We provide money orders through retail and financial institutions located throughout the United States and Puerto Rico, and we provide official check outsourcing services to financial institutions across the United States. Consumers use our money orders to make bill payments or in lieu of cash or personal checks. Official checks are used by consumers where a payee requires a check drawn on a bank and by financial institutions to pay their own obligations.

During 2011, 2010 and 2009, our 10 largest agents accounted for 45 percent, 50 percent and 48 percent, respectively, of our total company fee and investment revenue and 48 percent, 54 percent and 53 percent,

Table of Contents

respectively, of the fee and investment revenue of our Global Funds Transfer segment. Wal-Mart Stores, Inc. is our only agent that accounts for more than 10 percent of our total company fee and investment revenue. In 2011,

2010 and 2009, Wal-Mart accounted for 29 percent, 30 percent and 29 percent, respectively, of our total company fee and investment revenue, and 31 percent, 32 percent and 32 percent, respectively, of the fee and investment revenue of our Global Funds Transfer segment. Our contract with Wal-Mart in the United States, which runs through January 2013, provides for Wal-Mart's sale of our money order and money transfer services and real-time, urgent bill payment services at its retail locations on an exclusive basis.

Our Segments

We manage our business primarily through two segments: Global Funds Transfer and Financial Paper Products. The table below presents the components of our consolidated revenue associated with our segments for the year ended December 31:

	2011	2010	2009
Global Funds Transfer			
Money transfer	83.4%	79.4%	76.7%
Bill payment	9.0%	10.8%	11.6%
Financial Paper Products			
Money order	4.9%	5.9%	6.4%
Official check	2.6%	3.5%	4.1%
Other	0.1%	0.4%	1.2%
Total revenue	100.0%	100.0%	100.0%

Additional financial information about our segments and geographic areas appears in *Note 16, Segment Information*, of the Notes to Consolidated Financial Statements.

Global Funds Transfer Segment

The Global Funds Transfer segment is our primary segment, providing money transfer and bill payment services to consumers, who may be unbanked or underbanked. Unbanked consumers are those consumers who do not have a traditional relationship with a financial institution. Underbanked consumers are consumers who, while they may have a savings account with a financial institution, do not have a checking account. Other consumers who use our services are convenience users and emergency users who may have a checking account with a financial institution but prefer to use our services on the basis of convenience, cost or to make emergency payments. We primarily offer services to consumers through third-party agents, including retail chains, independent retailers and financial institutions.

In 2011, our Global Funds Transfer segment had total fee and investment revenue of \$1,153.0 million. We continue to focus on the growth of our Global Funds Transfer segment outside of the United States. During 2011, 2010 and 2009, operations outside of the United States generated 32 percent, 28 percent and 27 percent, respectively, of our total company fee and investment revenue, and 35 percent, 31 percent and 31 percent, respectively, of our Global Funds Transfer segment fee and investment revenue in each of these years. In 2011, we added approximately 40,000 net locations, bringing our global agent network to approximately 267,000 locations.

Table of Contents

Following is a summary of our agent locations by geography:

YEAR ENDED DECEMBER 31,	2011
Latin America	18,000
Mexico	14,000
North America	41,000
Western Europe	46,000
Eastern Europe	46,000
Indian subcontinent	45,000
Asia Pacific	35,000
Africa	18,000
Middle East	4,000
Total Agent Locations	267,000

We provide Global Funds Transfer products and services utilizing a variety of proprietary point-of-sale platforms. Our platforms include AgentConnect®, which is integrated into an agent's point-of-sale system, and DeltaWork® and Delta T3®, which are separate software and stand-alone device platforms. Through our FormFree® service, customers may contact our call center and a representative will collect transaction information over the telephone, entering it directly into our central data processing system. We also operate two customer care centers in the United States, and we contract for additional call center services in various countries. We provide call center services 24 hours per day, 365 days per year and provide customer service in approximately 30 languages.

Money Transfers We derive our money transfer revenues primarily from consumer transaction fees and the management of currency exchange spreads on money transfer transactions involving different send and receive currencies. We have corridor pricing capabilities that enable us to establish different consumer fees and foreign exchange rates for our money transfer services by location, for a broader segment such as defined ZIP code regions or for a widespread direct marketing area.

As of December 31, 2011, we offer money transfers to consumers in a choice of local currency or United States dollars and/or euros in 141 countries, which we refer to as multi-currency. Our multi-currency technology allows us to execute our money transfers directly between and among several different currencies. Where implemented, these capabilities allow consumers to know the amount that will be received in the local currency of the receiving country, or in U.S. dollars or euros in certain countries.

Bill Payment Services We derive our bill payment revenues primarily from transaction fees charged to consumers for each bill payment transaction completed. Through our bill payment services, consumers can make urgent payments or pay routine bills through our network to certain billers. We maintain relationships with billers in key industries, also referred to as verticals. These industries include the credit card, mortgage, auto finance, telecommunications, corrections, satellite, property management, prepaid card and collections industries. Our bill payment services also enable consumers to load and reload prepaid debit cards. Our bill payment services also allow customers to make low-cost, in-person payments of non-urgent utility bills for credit to a biller, typically within two to three days.

Financial Paper Products Segment

Our Financial Paper Products segment provides money orders to consumers through our retail and financial institution agent locations in the United States and Puerto Rico, and provides official check services for financial institutions in the United States.

In 2011, our Financial Paper Products segment generated revenues of \$93.3 million. Since early 2008, our investment portfolio has consisted of lower risk, highly liquid, short-term U.S. government securities that produce a lower rate of return, which has resulted in lower revenues and profit margins in our Financial Paper Products segment.

Table of Contents

Money Orders We generate revenue from money orders by charging per item and other fees, as well as from the investment of funds underlying outstanding money orders, which generally remain outstanding for fewer than ten days. We sell money orders under the MoneyGram brand and on a private label or co-branded basis with certain of our large retail and financial institution agents in the United States.

In 2011, we issued approximately 161.9 million money orders through our network of 55,100 agent and financial institution locations in the United States and Puerto Rico. In 2010, we issued approximately 174.2 million money orders through our network of 57,308 agent and financial institution locations in the United States and Puerto Rico.

Official Check Outsourcing Services As with money orders, we generate revenue from our official check outsourcing services from per item and other fees and from the investment of funds underlying outstanding official checks, which generally remain outstanding for fewer than 4.1 days. In 2009, we restructured our official check business model by reducing the commissions we pay our financial institution customers and increasing per item and other fees. As of December 31, 2011, we provide official check outsourcing services at approximately 8,500 branch locations of more than 1,300 financial institutions. We issued 24.2 million and 30.3 million official checks in 2011 and 2010, respectively.

Product and Infrastructure Development and Enhancements

We focus our product development and enhancements on innovative ways to transfer money and pay bills. We continually seek to provide our customers with added flexibility and convenience to help them meet the financial demands of their daily lives. We also invest in our infrastructure to increase efficiencies and support our strategic initiatives.

We are reaching new customers through alternate and self-service money transfer delivery channels. We offer our money transfer services on the Internet via our MoneyGram Online service in the United States, United Kingdom and through agent websites in Italy, Saudi Arabia and Japan. In Italy, Abu Dhabi and the Philippines, we also offer our money transfer services via mobile phone and continue to enhance our money transfer services to consumers through the addition of kiosks, ATMs, receive cards and direct-to-bank account products in various markets. We also introduced the convenience of cash-to-card services through key agents in the Philippines, which allows their customers to collect remittances on a card, which can then be used to pay for purchases at participating stores. We continue to expand product offerings in key markets such as multi-currency options in China, direct-to-account in Brazil and customer-directed receives in the Ukraine.

We have made enhancements to our MoneyGram Online service and will continue to make further enhancements to provide a better consumer experience and efficiency in completing a transaction for our online customers, as well as more cost-effective transaction processing. MoneyGram Online transactions and revenue grew 30 percent in 2011 over the prior year. We also enhanced our MoneyGram rewards program, and now offer members the ability to receive a text message on their mobile phones informing them that the funds they transferred have been picked up by their receiver.

We continue to invest in our infrastructure to provide a better overall consumer and agent experience, reduce our costs and create efficiencies. We have made important infrastructure enhancements to our settlement and commission processing, data management, financial systems and regulatory and compliance reporting. We continue our efforts to enhance our agent on-boarding process, improving our speed to market for new agents.

Sales and Marketing

We have global marketing, product management and strategic partnership teams located in numerous geographies, including the United States, United Kingdom, Italy, Spain, United Arab Emirates, India and China.

We employ a strategy of developing products and marketing campaigns that are both global yet also tailored to address our customer base and local needs. We market our products through a number of dedicated sales and marketing teams, and continually assess the effectiveness of our sales and marketing efforts.

A wide range of marketing methods continue to support our sales efforts. A key component of our advertising and marketing efforts is our global branding. We use a marketing mix to support the global brand, which includes

Table of Contents

traditional media and digital and social media, point of sale materials, MoneyGram-branded signage at our agent locations, a loyalty program and targeted direct marketing programs and seasonal campaigns and sponsorships.

Our sales teams are organized by geographic area, channel and product. We have dedicated support teams that focus on developing our agent and biller networks to enhance the reach of our money transfer, bill payment and money order products. Our agent requirements vary depending upon the type of outlet or location, and our sales teams continue to work to improve and strengthen our agent partnerships with a goal of providing the optimal customer experience.

Competition

While we are the second largest money transfer company in the world, the market for our money transfer and bill payment services remains very competitive. The market consists of a small number of large competitors and a large number of small, niche competitors. Our competitors include other large money transfer and electronic bill payment providers, banks and niche person-to-person money transfer service providers that serve select regions. Our largest competitor in the money transfer market is Western Union, which also competes with our bill payment services and money order businesses. As new technologies for money transfer and bill payment services emerge that allow consumers to send and receive money and to pay bills in a variety of ways, we face increasing competition. These emerging technologies include online payment services, card-based services such as ATM cards and stored-value cards, bank-to-bank money transfers and mobile telephone payment services.

We generally compete for money transfer agents on the basis of value, service, quality, technical and operational differences, price and commission. We compete for money transfer consumers on the basis of number and location of outlets, price, convenience, technology and brand recognition. Due to increased pricing competition, in the first half of 2010 we introduced a \$50 price band that allows consumers to send \$50 of principal for a \$5 fee at most locations, or \$4.75 at a Wal-Mart location.

Regulation

Compliance with laws and regulations is a highly complex and integral part of our day-to-day operations. Our operations are subject to a wide range of laws and regulations of the United States and other countries, including international, federal and state anti-money laundering laws and regulations; financial services regulations; currency control regulations; anti-bribery laws; regulations of the U.S. Treasury Department's Office of Foreign Assets Control, or OFAC; money transfer and payment instrument licensing laws; escheatment laws; privacy, data protection and information security laws; and consumer disclosure and consumer protection laws. Failure to comply with any applicable laws and regulations could result in restrictions on our ability to provide our products and services, as well as the potential imposition of civil fines and possibly criminal penalties. See *Risk Factors* for additional discussion regarding potential impacts of failure to comply. We continually monitor and enhance our global compliance programs to comply with the most recent legal and regulatory changes. During 2011, we increased our compliance personnel headcount and made investments in our compliance-related technology and infrastructure.

Anti-Money Laundering Compliance. Our money transfer services are subject to anti-money laundering laws and regulations of the United States, including the Bank Secrecy Act, as amended by the USA PATRIOT Act, as well as similar state laws and regulations and the anti-money laundering laws and regulations in many of the countries in which we operate, particularly in the European Union. Countries in which we operate may require one or more of the following:

reporting of large cash transactions and suspicious activity;

screening of transactions against the government's watch-lists, including but not limited to, the watch-list maintained by OFAC;

prohibition of transactions in, to or from certain countries, governments, individuals and entities;

limitations on amounts that may be transferred by a consumer or from a jurisdiction at any one time or over specified periods of time, which require the aggregation of information over multiple transactions;

Table of Contents

consumer information gathering and reporting requirements;

consumer disclosure requirements, including language requirements and foreign currency restrictions;

notification requirements as to the identity of contracting agents, governmental approval of contracting agents or requirements and limitations on contract terms with our agents;

registration or licensing of the Company or our agents with a state or federal agency in the United States or with the central bank or other proper authority in a foreign country; and

minimum capital or capital adequacy requirements.

Anti-money laundering regulations are constantly evolving and vary from country to country. We continuously monitor our compliance with anti-money laundering regulations and implement policies and procedures to make our business practices flexible, so we can comply with the most current legal requirements.

We offer our money transfer services primarily through third-party agents with whom we contract and do not directly control. As a money services business, we and our agents are required to establish anti-money laundering compliance programs that include: (i) internal policies and controls; (ii) designation of a compliance officer; (iii) ongoing employee training and (iv) an independent review function. We have developed an anti-money laundering training manual available in multiple languages and a program to assist with the education of our agents on the various rules and regulations. We also offer in-person and online training as part of our agent compliance training program and engage in various agent oversight activities.

Money Transfer and Payment Instrument Licensing Almost all states in the United States, the District of Columbia, Puerto Rico and the United States Virgin Islands and Guam require us to be licensed to conduct business within their jurisdictions. Our primary overseas operating subsidiary, MoneyGram International Ltd, became a licensed payment institution under the Payment Services Regulations adopted in the United Kingdom pursuant to the European Union Payment Services Directive. Licensing requirements generally include minimum net worth, provision of surety bonds, compliance with operational procedures, agent oversight and the maintenance of reserves or permissible investments in an amount equivalent to outstanding payment obligations, as defined by our various regulators. The types of securities that are considered permissible investments vary across jurisdictions, but generally include cash and cash equivalents, U.S. government securities and other highly rated debt instruments. Most states and our other regulators require us to file reports on a quarterly or more frequent basis to verify our compliance with their requirements. Many states and other regulators also subject us to periodic examinations and require us and our agents to comply with anti-money laundering and other laws and regulations.

Escheatment Regulations Unclaimed property laws of every state, the District of Columbia, Puerto Rico and the United States Virgin Islands require that we track certain information on all of our payment instruments and money transfers and, if they are unclaimed at the end of an applicable statutory abandonment period, that we remit the proceeds of the unclaimed property to the appropriate jurisdiction. Statutory abandonment periods for payment instruments and money transfers range from three to seven years. Certain foreign jurisdictions also may have unclaimed property laws, though we do not have material amounts subject to any such law.

Privacy Regulations In the ordinary course of our business, we collect certain types of data that subject us to certain privacy laws in the United States and abroad. In the United States, we are subject to the Gramm-Leach-Bliley Act of 1999, or the GLB Act, which requires that financial institutions have in place policies regarding the collection, processing, storage and disclosure of information considered nonpublic personal information. We are also subject to privacy laws of various states. In addition, we are subject to laws adopted pursuant to the European Union's Data Protection Directive, or the Data Protection Directive. We abide by the U.S. Department of Commerce's Safe Harbor framework principles to assist in compliance with the Data Protection Directive. In some cases, the privacy laws of a European Union member state may be more restrictive than what is required under the Data Protection Directive and may impose additional duties with which we must comply. We also have confidentiality/information security standards and procedures in place for our business activities and with our third-party vendors and service providers. Privacy and information security laws, both domestically and internationally, evolve regularly, and conflicting laws in the various jurisdictions where we do business pose challenges.

Table of Contents

Banking Regulations We completed an underwritten secondary offering of 10,237,524 shares of our common stock held by Goldman Sachs and others in November and December 2011. Prior to that time, we were deemed a controlled subsidiary of Goldman Sachs & Co., a bank holding company under the Bank Holding Company Act of 1956, as amended, or the BHC Act, as a result of Goldman Sachs' ownership of shares of our non-voting D Stock. Although the D Stock is not convertible into common stock of the Company while beneficially owned by Goldman Sachs, the D Stock may be sold or transferred to a third party which may then convert the D Stock into common stock. In conjunction with the secondary offering of our common stock, we also made a partial redemption of our Second Lien Notes held by Goldman Sachs in the aggregate principal amount of \$175 million. As result of these transactions and discussions with the Federal Reserve, Goldman Sachs has informed us that the Company is no longer deemed a controlled subsidiary of Goldman Sachs. Therefore, we believe we are no longer subject to the regulations that apply to controlled subsidiaries of bank holding companies, or to reporting requirements, examination or supervision by the Federal Reserve under the BHC Act.

Recent Federal Legislation in the United States The Dodd-Frank Wall Street Reform and Consumer Protection Act, or the Dodd-Frank Act, was signed into law on July 21, 2010. While the Dodd-Frank Act will likely impose additional regulatory requirements upon us, it is difficult to gauge the impact on our business because many provisions of the Dodd-Frank Act require the adoption of rules and further studies. The Dodd-Frank Act creates a new Bureau of Consumer Financial Protection, or the Bureau, which issues and enforces consumer protection initiatives governing financial products and services, including money transfer services, in the United States. We will be required to provide enhanced disclosures to our money transfer customers, which will require us to modify our systems and current consumer disclosures. Enhanced disclosure requirements, error resolution procedures, the extent of vicarious liability for acts of our agents, refund requirements and other matter impacting how we offer international remittances in the United States were set forth in the Final Remittance Rule that was issued by the Bureau on January 20, 2012 and published in the Federal Register on February 7, 2012. The effective date of the Remittance Rule is February 7, 2013.

Regulation of Prepaid Cards We sell our MoneyGram-branded prepaid card in the United States, in addition to loading prepaid cards of other card issuers through our ExpressPayment system. Prepaid card services are generally subject to federal and state laws and regulations, including laws related to consumer protection, licensing, escheat, anti-money laundering and the payment of wages. These laws are evolving, unclear and sometimes inconsistent. The extent to which these laws are applicable to us is uncertain and we are currently unable to determine the impact that any future clarification, changes or interpretation of these laws will have on our services.

Clearing and Cash Management Bank Relationships

Our business involves the movement of money. We move money through a network of clearing and cash management banks, and our relationships with these clearing banks and cash management banks are a critical component of our ability to move funds on a global and timely basis.

We rely on two banks to clear our retail money orders and we currently have eight official check clearing banks. We believe these relationships provide sufficient capacity for our money order and official check outsourcing services.

We maintain contractual relationships with a variety of domestic and international cash management banks for automated clearing house, or ACH, and wire transfer services for the movement of consumer funds and agent settlements. There are a limited number of international cash management banks with a network large enough to manage cash settlements for our entire agent base. In addition, some large international banks have opted not to bank money service businesses. As a result, we also utilize regional or country-based banking partners in addition to large cash management banks.

Intellectual Property

The MoneyGram brand is important to our business. We have registered our MoneyGram trademark in the United States and a majority of the other countries where we do business. We maintain a portfolio of other trademarks that are also important to our business, including our globe with arrows logo, ExpressPayment, MoneyGram Rewards, FormFree, and PrimeLink marks. In addition, we maintain a portfolio of MoneyGram branded domain names.

Table of Contents

We rely on a combination of patent, trademark and copyright laws, and trade secret protection and confidentiality or license agreements to protect our proprietary rights in products, services, know-how and information. We believe the intellectual property rights in processing equipment, computer systems, software and business processes held by us and our subsidiaries provide us with a competitive advantage. We believe we take appropriate measures to protect our intellectual property to the extent such intellectual property can be protected.

We own U.S. and foreign patents related to our money order and money transfer technology. Our U.S. patents have in the past given us competitive advantages in the marketplace. We also have patent applications pending in the United States that relate to our money transfer, money order and bill payment technologies and business methods. We anticipate that these applications, if granted, could give us continued competitive advantages in the marketplace. However, our competitors also actively patent their technology and business processes.

Employees

As of December 31, 2011, we had approximately 1,399 full-time employees in the United States and 737 full-time employees outside of the United States. In addition, we engage contractors to support various aspects of our business. None of our employees in the United States are represented by a labor union. We consider our employee relations to be good.

Executive Officers of the Registrant

Pamela H. Patsley, age 55, has served as Chairman and Chief Executive Officer since September 2009. Ms. Patsley was appointed Executive Chairman in January 2009. Ms. Patsley also serves on the boards of directors of Texas Instruments, Inc. and Dr. Pepper Snapple Group, Inc. Ms. Patsley previously served as Senior Executive Vice President of First Data Corporation, a global payment processing company, from March 2000 to October 2007, and President of First Data International from May 2002 to October 2007. From 1991 to 2000, Ms. Patsley served as President and Chief Executive Officer of Paymentech, Inc., prior to its acquisition by First Data Corporation. Ms. Patsley also served as Chief Financial Officer of First USA, Inc.

Juan Agualimpia, age 49, has served as Executive Vice President, Chief Marketing Officer since February 2011. Mr. Agualimpia previously served as Senior Vice President and Chief Marketing Officer from March 2010 to February 2011. From March 2009 to March 2010, Mr. Agualimpia engaged in marketing project consulting. Mr. Agualimpia has 20 years of leadership experience in marketing, brand management, customer relationship management and product development, including as Vice President and General Manager for the Art & Coloring Global Business Unit of Newell Rubbermaid from 2005 to March 2009.

David B. Brown, age 49, has served as Senior Vice President, Chief Accounting Officer since January 2012. Mr. Brown previously served as Chief Financial Officer of Dresser, Inc., a privately held energy industry infrastructure manufacturer, from 2010 to 2011. Prior to that, Mr. Brown served in various roles of increasing responsibility at Dresser, Inc. from 2007 to 2010. From 2003 to 2007, Mr. Brown held various financial positions at The Brink's Company. From 1996 to 2003, Mr. Brown held financial positions at LSG Sky Chefs. In 1995, Mr. Brown was a consultant for Halliburton, and from 1985 to 1995 he held the position of Audit Senior Manager at Price Waterhouse L.L.P.

Timothy C. Everett, age 49, has served as Executive Vice President, General Counsel and Corporate Secretary since January 2010. Mr. Everett previously served as Vice President and Secretary of Kimberly-Clark Corporation, a multi-national consumer product company, from 2003 to 2009. Prior to that, Mr. Everett served in various roles of increasing responsibility at Kimberly-Clark from 1993 to 2003. From 1990 to 1993, Mr. Everett was an associate with the global law firm, Akin Gump Strauss Hauer & Feld, LLP. From 1984 to 1987, Mr. Everett was an auditor with the accounting firm Ernst & Young, LLP.

W. Alexander Holmes, age 37, has served as Senior Vice President, Corporate Strategy and Investor Relations since June of 2009. Mr. Holmes previously served as Senior Vice President, Global Sourcing and Strategic Initiatives at First Data Corporation, a global payment processing company, from 2007 to 2009. From 2004 to 2007, Mr. Holmes served in various roles of increasing responsibility at First Data Corporation. Prior to that, Mr. Holmes managed the Benelux region at the Western Union Company, a global money transfer company, from 2002 to 2003. Mr. Holmes joined First Data in 2000 and served in various finance roles until

Table of Contents

early 2002. From 1997 to 2000, Mr. Holmes was at the University of Colorado's system administration office where he managed a number of ERP implementation projects.

Daniel J. O'Malley, age 47, has served as Executive Vice President, Americas and Emerging Markets since June 2011. Mr. O'Malley previously served as Executive Vice President, Americas since December 2009. From April 2007 to December 2009, Mr. O'Malley served as Senior Vice President, Global Payment Systems/President Americas. Mr. O'Malley previously served as Vice President, Global Payment Systems/Americas from April 2003 to April 2007, Vice President, Customer Service from June 1999 to April 2003, Director, Operations from 1996 to 1999, Regulatory Project Manager from 1995 to 1996, Manager of the Southeast Processing Center from 1989 to 1995 and Coordinator of the Southeast Processing Center from 1988 to 1989. Prior to joining the Company, Mr. O'Malley held various operations positions at NCNB National Bank and Southeast Bank N.A. from 1983 to 1988.

Steven Piano, age 46, has served as Executive Vice President, Human Resources since August 2009. From January 2008 to August 2009, Mr. Piano served as Global Lead Human Resource Partner with National Grid, a multi-national utility company. From 1996 to January 2008, Mr. Piano held a variety of human resources positions with First Data Corporation, a global electronic payment processing company, serving most recently as Senior Vice President - First Data International. From 1987 to 1996, Mr. Piano held human resources positions with Citibank, Dun & Bradstreet, Nielsen Media Research and Lehman Brothers.

James E. Shields, age 50, has served as Executive Vice President and Chief Financial Officer since July 2010. From 2009 until July 2010, Mr. Shields engaged in independent financial consulting. During 2008, Mr. Shields served as senior vice president finance and treasurer for Royal Caribbean Cruise Lines. From 2005 to 2008, he served as vice president and treasurer of Celanese Corporation, a \$6 billion chemical company with worldwide operations. Prior to that, Mr. Shields was vice president and chief financial officer for consumer markets at Qwest Communications International Inc.

J. Lucas Wimer, age 46, has served as Executive Vice President, Operations and Technology since April 2010. From January 2008 to April 2010, Mr. Wimer was a principal at THL Partners, where he was responsible for business transformation programs across the THL portfolio. From September 2003 to December 2007, he led infrastructure development for Capital One. From 1996 to 2003, Mr. Wimer provided management consulting, global project and practice leadership in performance measurement, cost reduction, merger integration and restructuring to the financial services industry for IBM Business Consulting Services, formerly PricewaterhouseCoopers.

Available Information

We make our reports on Forms 10-K, 10-Q and 8-K, Section 16 reports on Forms 3, 4 and 5, and all amendments to those reports, available electronically free of charge in the Investor Relations section of our website (www.moneygram.com) as soon as reasonably practicable after they are filed with or furnished to the Securities and Exchange Commission, or the SEC. Our principal executive offices are located at 2828 N. Harwood Street, 15th Floor, Dallas, Texas 75201, and our telephone number is (214) 999-7552.

Item 1A. RISK FACTORS

Various risks and uncertainties could affect our business. Any of the risks described below or elsewhere in this Annual Report on Form 10-K or our other filings with the SEC could have a material impact on our business, financial condition or results of operations.

RISK FACTORS

Risks Related to our Business and Industry

Continued weakness in economic conditions, in both the United States and global markets, could adversely affect our business, financial condition and results of operations.

Our money transfer business relies in part on the overall strength of global economic conditions as well as international migration patterns. Consumer money transfer transactions and international migration patterns are

Table of Contents

affected by, among other things, employment opportunities and overall economic conditions. Our customers tend to be employed in industries such as construction, manufacturing and retail that tend to be cyclical and more significantly impacted by weak economic conditions than other industries. This may result in reduced job opportunities for our customers in the United States or other countries that are important to our business, which could adversely affect our results of operations. In addition, increases in employment opportunities may lag other elements of any economic recovery.

Our agents or billers may have reduced sales or business as a result of weak economic conditions. As a result, our agents could reduce their number of locations or hours of operation, or cease doing business altogether. Our billers may have fewer customers making payments to them, particularly billers in those industries that may be more affected by an economic downturn such as the automobile, mortgage and retail industries.

If general market conditions in the United States or other national economies important to our business were to deteriorate further, our results of operations could be adversely impacted. Additionally, if our consumer transactions decline or international migration patterns shift due to deteriorating economic conditions, we may be unable to timely and effectively reduce our operating costs or take other actions in response, which could adversely affect our results of operations.

If consumers' confidence in our business or in traditional money transfer providers generally deteriorates, our business, financial position and results of operations could be adversely affected.

Our business is built on consumers' confidence in our brands and our ability to provide fast, reliable money transfer services. Erosion in consumers' confidence in our business, or in traditional money transfer providers as a means to transfer money, could adversely impact transaction volumes, which would in turn adversely impact our business, financial position and results of operations.

A number of factors could adversely affect consumers' confidence in our business, or in traditional money transfer providers generally, many of which are beyond our control, and could have an adverse impact on our results of operations. These factors include:

changes or proposed changes in laws or regulations that have the effect of making it more difficult for consumers to transfer money using traditional money transfer providers;

actions by federal, state or foreign regulators that interfere with our ability to transfer consumers' money reliably, for example, attempts to seize money transfer funds;

federal, state or foreign legal requirements, including those that require us to provide consumer data to a greater extent than is currently required;

any significant interruption in our systems, including by fire, natural disaster, power loss, telecommunications failure, terrorism, vendor failure, unauthorized entry and computer viruses; and

any breach of our security policies or legal requirements resulting in a compromise of consumer data.

Many of our money transfer consumers are migrants. Consumer advocacy groups or governmental agencies could consider the migrants to be disadvantaged and entitled to protection, enhanced consumer disclosure, or other different treatment. If governments implement new laws or regulations that limit our right to set fees and/or foreign exchange spreads, or if consumer advocacy groups are able to generate widespread support for positions that are detrimental to our business, then our business, financial position and results of operations could be adversely affected.

A material slow down or complete disruption in international migration patterns could adversely affect our business, financial condition and results of operations.

Edgar Filing: MONEYGRAM INTERNATIONAL INC - Form 10-K

Our money transfer business relies in part on international migration patterns, as individuals move from their native countries to countries with greater economic opportunities or a more stable political environment. A significant portion of money transfer transactions are initiated by immigrants or refugees sending money back to their native countries. Changes in immigration laws that discourage international migration and political or other

Table of Contents

events (such as war, terrorism or health emergencies) that make it more difficult for individuals to migrate or work abroad could adversely affect our money transfer remittance volume or growth rate. Sustained weakness in global economic conditions could reduce economic opportunities for migrant workers and result in reduced or disrupted international migration patterns. Reduced or disrupted international migration patterns, particularly in the United States or Europe, are likely to reduce money transfer transaction volumes and therefore have an adverse effect on our results of operations.

If we lose key agents or are unable to maintain our Global Funds Transfer agent or biller networks, our business, financial condition and results of operations could be adversely affected.

Revenue from our money transfer and urgent bill payment services is derived from transactions conducted through our retail agent and biller networks. Many of our high volume agents are in the check cashing industry. There are risks associated with the check cashing industry that could cause this agent base to decline. We may not be able to retain all of our current retail agents or billers for other reasons, as the competition for retail agents and billers is intense. If agents or billers decide to leave our agent network, or if we are unable to add new agents or billers to our network, our revenue would decline.

Larger agents and billers in our Global Funds Transfer segment are increasingly demanding financial concessions and more information technology customization. The development, equipment and capital necessary to meet these demands could require substantial expenditures and there can be no assurance that we will have the available capital after servicing our debt, or that we will be allowed to make such expenditures under the terms of our debt agreements. If we are unable to meet these demands, we could lose customers and our business, financial condition and results of operations could be adversely affected.

A substantial portion of our transaction volume is generated by a limited number of key agents. During 2011 and 2010, our 10 largest agents accounted for 45 percent and 50 percent, respectively, of our total company fee and investment revenue and 48 percent and 54 percent, respectively, of the fee and investment revenue of our Global Funds Transfer segment. In 2011 and 2010, our largest agent, Wal-Mart, accounted for 29 percent and 30 percent, respectively, of our total company fee and investment revenue and 31 percent and 32 percent, respectively, of the fee and investment revenue of our Global Funds Transfer segment. The term of our agreement with Wal-Mart runs through January 2013. If Wal-Mart or any of our other key agents do not renew their contracts with us, or if such agents reduce the number of their locations, or cease doing business, we might not be able to replace the volume of business conducted through these agents, and our business, financial condition and results of operations could be adversely affected. Further, if Wal-Mart or any of our other key agents renew their contracts with us, but on less favorable terms, our business, financial condition and results of operations could be adversely affected.

MoneyGram and our agents are subject to numerous U.S. and international laws and regulations. Failure to comply with these laws and regulations could result in material settlements, fines or penalties or changes in our or our agents' business operations and may adversely affect our business, financial condition and results of operations.

Our business is subject to a wide range of laws and regulations that vary from country to country. The money transfer business is subject to a variety of regulations aimed at preventing money laundering and terrorism. We are subject to U.S. federal anti-money laundering laws, including the Bank Secrecy Act and the requirements of OFAC, which prohibit us from transmitting money to specified countries or on behalf of prohibited individuals. Additionally, we are subject to anti-money laundering laws in many countries where we operate, particularly in the European Union. We are also subject to financial services regulations, money transfer and payment instrument licensing regulations, consumer protection laws, currency control regulations, escheat laws and privacy and data protection laws. Many of these laws are constantly evolving, unclear and inconsistent across various jurisdictions, making compliance challenging.

There has been increased public attention and heightened legislation and regulations regarding money laundering, terrorist financing, corporate use and disclosure of personal information, data protection, information security and consumer privacy. The legal, political and business environments in these particular areas are

Table of Contents

evolving, inconsistent across various jurisdictions and often unclear, which increases our operating compliance costs and our legal risks. Subsequent legislation, regulation, litigation, court rulings or other events could expose us to increased program costs, liability and reputational damage.

In particular, we are subject to regulations imposed by the Foreign Corrupt Practices Act, or the FCPA, in the United States and similar anti-bribery laws in other jurisdictions. We are also subject to reporting, recordkeeping and anti-money laundering provisions in many jurisdictions, including the Bank Secrecy Act in the United States, as amended by the USA PATRIOT Act of 2001. Because of the scope of our global operations, we experience a higher risk associated with the FCPA and similar anti-bribery laws than many other companies. We are also subject to regulatory oversight and enforcement by FinCEN. Any determination that we have violated these laws could have an adverse effect on our business, financial condition and results of operations. We are subject to several investigations by the U.S. federal government and several U.S. state governments.

The Dodd-Frank Act increases the regulation and oversight of the financial services industry. The Dodd-Frank Act addresses, among other things, systemic risk, capital adequacy, deposit insurance assessments, consumer financial protection, interchange fees, derivatives, lending limits, thrift charters, changes among the bank regulatory agencies, and the ability to conduct business with holding company affiliates. Many of the provisions of the Dodd-Frank Act require studies and regulations. The Dodd-Frank Act requires enforcement by various governmental agencies, including the new Bureau. Money transmitters such as the Company will be required to provide additional consumer information and disclosures, adopt error resolution standards meeting the Bureau's regulatory requirements, and adjust refund procedures for international transactions originating in the United States. We may be liable for failure of our agents to comply with the Dodd-Frank Act. The Bureau and the regulations it has adopted and will adopt will necessitate operational changes and additional costs, but we cannot predict its effects upon us or our business at this time. The new legislation and implementing regulations associated with the Dodd-Frank Act may increase our costs of compliance, and may require changes in the way we conduct business.

Changes in laws, regulations or other industry practices and standards may increase our costs of operations and may disrupt our business as we develop new business and compliance models. For example, the European Union's Payment Services Directive, or PSD, imposes potential liability on us for the conduct of our agents and the commission of third party fraud utilizing our services. We modified our business operations in the European Union in 2009 and 2010 in light of the PSD and will likely experience additional costs associated with addressing PSD compliance. If we fail to comply with the PSD, our business, financial condition and results of operations may be adversely impacted. Additionally, the United States and other countries periodically consider initiatives designed to lower costs of international remittances which, if implemented, may adversely impact our business, financial condition and results of operations.

Changes in laws, regulations or other industry practices and standards, or interpretations of legal or regulatory requirements may reduce the market for or value of our products or services or render our products or services less profitable or obsolete. Changes in the laws affecting the kinds of entities that are permitted to act as money transfer agents (such as changes in requirements for capitalization or ownership) could adversely affect our ability to distribute our services and the cost of providing such services. Many of our high volume agents are in the check cashing industry. Any regulatory action that negatively impacts check cashers could also cause this portion of our agent base to decline. If onerous regulatory requirements were imposed on our agents, the requirements could lead to a loss of agents, which, in turn, could lead to a loss of retail business.

Any violation by us of the laws and regulations set forth above could lead to significant fines or penalties and could limit our ability to conduct business in some jurisdictions. Regulators in the United States and other jurisdictions are demonstrating a greater inclination than they have in the past to hold money services businesses like ours to higher standards and to monitor for possible violations of laws and regulations by agents. Our systems, employees and processes may not be sufficient to detect and prevent violations of the laws and regulations set forth above by our agents, which could also lead to us being subject to significant fines or penalties. In addition to these fines and penalties, a failure by us or our agents to comply with applicable laws and regulations also could seriously damage our reputation and result in diminished revenue and profit and increase our operating costs.

Table of Contents

Failure by us or our agents to comply with the laws and regulatory requirements of applicable regulatory authorities could result in, among other things, revocation of required licenses or registrations, loss of approved status, termination of contracts with banks or retail representatives, administrative enforcement actions and fines, class action lawsuits, cease and desist orders and civil and criminal liability. The occurrence of one or more of these events could have a material adverse effect on our business, financial condition and results of operations.

Litigation or investigations involving us or our agents could result in material settlements, fines or penalties and may adversely affect our business, financial condition and results of operations.

We have been, and in the future may be, subject to allegations and complaints that individuals or entities have used our money transfer services for fraud-induced money transfers, as well as certain money laundering activities, which may result in fines, penalties, judgments, settlements and litigation expenses. We also are the subject from time to time of litigation related to our business. The outcome of such allegations, complaints, claims and litigation cannot be predicted.

Regulatory and judicial proceedings and potential adverse developments in connection with ongoing litigation may adversely affect our business, financial condition and results of operations. There may also be adverse publicity associated with lawsuits and investigations that could decrease agent and customer acceptance of our services. Additionally, our business has been in the past, and may be in the future, the subject of class action lawsuits, regulatory actions and investigations and other general litigation. The outcome of class action lawsuits, regulatory actions and investigations is difficult to assess or quantify but may include substantial fines and expenses, as well as the revocation of required licenses or registrations or the loss of approved status, which could have a material adverse effect on our business, financial position and results of operations. Plaintiffs or regulatory agencies in these lawsuits, actions or investigations may seek recovery of very large or indeterminate amounts, and the magnitude of these actions may remain unknown for substantial periods of time. The cost to defend or settle future lawsuits or investigations may be significant.

We are subject to several investigations by the U.S. federal government and several U.S. state governments.

We have been served with subpoenas to produce documents and testify before a grand jury in the U.S. District Court for the Middle District of Pennsylvania. The subpoenas sought information related to, *inter alia*, our U.S. and Canadian agents, as well as certain transactions involving such agents, fraud complaint data, and our consumer anti-fraud program during the period from 2004 to 2009. We have provided information requested pursuant to the subpoenas, and continue to provide additional information relating to the investigation. In addition, the Company has been provided with subpoenas for the testimony of certain current and former employees in connection with the investigation. The Company has also been notified of a request for interviews of one current executive officer and one former chief executive officer of the Company. The U.S. Department of the Treasury Financial Crimes Enforcement Network, or FinCEN, also requested information, which we subsequently provided, concerning our reporting of fraudulent transactions during this period. In November 2010, we met with representatives from the U.S. Attorney's Office for the Middle District of Pennsylvania, or the MDPA USAO, and representatives of FinCEN to discuss the investigation. In July 2011, we had further discussions with the MDPA USAO and representatives of the Asset Forfeiture and Money Laundering Section of the U.S. Department of Justice, or the US DOJ. We have been informed that we are being investigated by the federal grand jury in connection with these matters for the period 2004 to early 2009 as well as our anti-money laundering program during that period. In January 2012, meetings were held between our representatives, the MDPA USAO and the Criminal Division of the US DOJ to discuss the investigation. We continue to engage in discussions and cooperate with such government representatives regarding the ongoing investigation. During the course of these discussions, we were advised that consideration is being given to a range of possible outcomes, including the seeking of criminal penalties against us. However, no conclusions can be drawn at this time as to the outcome of the investigation and we are unable to predict the probable loss, or range of loss, if any, associated with this matter.

We have also received Civil Investigative Demands from a working group of nine state attorneys general who have initiated an investigation into whether we have taken adequate steps to prevent consumer fraud during the

Table of Contents

period from 2007 to 2011. The Civil Investigative Demands seek information and documents relating to our procedures to prevent fraudulent transfers and consumer complaint information. We continue to cooperate fully with the states' attorneys in this matter. We have submitted the information and documents requested by the states. No claims have been made against us at this time.

If any charges or claims are brought with respect to these investigations, we could face substantial fines, damage awards, attorneys' and other legal expenses and fees, or regulatory consequences, such as the revocation of required licenses or registrations or the loss of approved status, which could have a material adverse effect on our business, financial position and results of operations. In addition, if any charges or claims are brought, and regardless of whether or not successfully prosecuted, we could face negative publicity that could adversely affect our important customer relationships, which could have a material adverse effect on our business, financial position and results of operations. Adverse developments related to these investigations, including any expansion of their scope, could negatively impact our Company and could divert the efforts and attention of our management team from our ordinary business operations.

We conduct money transfer transactions through agents in some regions that are politically volatile or, in a limited number of cases, that are subject to certain OFAC restrictions.

We conduct money transfer transactions through agents in some regions that are politically volatile or, in a limited number of cases, are subject to certain OFAC restrictions. It is possible that our money transfer service or other products could be used by wrong-doers in contravention of U.S. law or regulations. Such circumstances could result in increased compliance costs, regulatory inquiries, suspension or revocation of required licenses or registrations, seizure or forfeiture of assets and the imposition of civil and criminal fees and penalties. In addition to monetary fines or penalties that we could incur, we could be subject to reputational harm that could have a material adverse effect on our business, financial condition and results of operations.

Our substantial debt service obligations, significant debt covenant requirements and our credit rating could impair our financial condition and adversely affect our ability to operate and grow our business.

We have substantial debt service obligations. Our indebtedness could adversely affect our ability to operate our business and could have an adverse impact on our stockholders, including:

our ability to obtain additional financing in the future may be impaired;

a significant portion of our cash flows from operations must be dedicated to the payment of interest and principal on our debt, which reduces the funds available to us for our operations, acquisitions, product development and other corporate initiatives;

our debt agreements contain financial and restrictive covenants that could significantly impact our ability to operate our business, and any failure to comply with them may result in an event of default, which could have a material adverse effect on us;

our level of indebtedness increases our vulnerability to changing economic, regulatory and industry conditions;

our debt service obligations could limit our flexibility in planning for, or reacting to, changes in our business and the industry;

our debt service obligations could place us at a competitive disadvantage to our competitors who have less leverage relative to their overall capital structures;

our ability to pay cash dividends to the holders of our common stock is significantly restricted; and

we may be required to pay significant fees to obtain the necessary consents from holders of our debt to amend or reduce our debt.

Table of Contents

Our credit rating is non-investment grade. Together with our level of leverage, this rating adversely affects our ability to obtain additional financing and increases our cost of borrowing.

Sustained financial market illiquidity, or illiquidity at our clearing, cash management and custodial financial institutions could adversely affect our business, financial condition and results of operations.

We face certain risks in the event of a sustained deterioration of financial market liquidity, as well as in the event of sustained deterioration in the liquidity, or failure, of our clearing, cash management and custodial financial institutions. In particular:

We may be unable to access funds in our investment portfolio, deposit accounts and clearing accounts on a timely basis to settle our payment instruments, pay money transfers and make related settlements to agents. Any resulting need to access other sources of liquidity or short-term borrowing would increase our costs. Any delay or inability to settle our payment instruments, pay money transfers or make related settlements with our agents could adversely impact our business, financial condition and results of operations.

Clearing and cash management banks that conduct our official check, money order and money transfer businesses could fail or experience sustained deterioration in liquidity. This could lead to our inability to clear our payment service instruments and move funds on a global and timely basis as required to settle our obligations and collect partner receivables.

Our revolving credit facility is one source of funding for our corporate transactions and liquidity needs. If any of the banks participating in our credit facility were unable or unwilling to fulfill its lending commitment to us, our short-term liquidity and ability to engage in corporate transactions such as acquisitions could be adversely affected.

We may be unable to borrow from financial institutions or institutional investors on favorable terms, which could adversely impact our ability to pursue our growth strategy and fund key strategic initiatives, such as product development and acquisitions.

We maintain cash at commercial banks in the United States in amounts in excess of the Federal Deposit Insurance Corporation limit of \$250,000. In the event of a failure at a commercial bank where we maintain our deposits, we may incur a loss to the extent such loss exceeds the insurance limitation.

If financial liquidity deteriorates, there can be no assurance we will not experience an adverse effect, which may be material, on our ability to access capital and on our business, financial condition and results of operations.

Failure to maintain sufficient capital could adversely affect our business, financial condition and results of operations.

If we do not have sufficient capital, we may not be able to pursue our growth strategy and fund key strategic initiatives, such as product development and acquisitions. Further, we may not be able to meet new capital requirements introduced or required by our regulators. Further, although we are no longer considered a bank holding company for purposes of U.S. law or the law of any other jurisdiction, as a global provider of payments services and in light of the changing regulatory environment in various jurisdictions, we could become subject to new capital requirements introduced or imposed by our regulators that could require us to issue securities that would qualify as Tier 1 regulatory capital under the Basel Committee accords or retain earnings over a period of time. In addition, given our leveraged nature and the significant restrictive covenants in our debt agreements, there can be no assurance that we will have access to sufficient capital. Failure to meet capital requirements or to have access to sufficient capital could materially impact our business, financial condition and results of operations.

We face credit risks from our retail agents and financial institution customers.

The vast majority of our Global Funds Transfer segment is conducted through independent agents that provide our products and services to consumers at their business locations. Our agents receive the proceeds from the sale of our payment instruments and money transfers, and we must then collect these funds from the agents. If an

Table of Contents

agent becomes insolvent, files for bankruptcy, commits fraud or otherwise fails to remit money order or money transfer proceeds to us, we must nonetheless pay the money order or complete the money transfer on behalf of the consumer.

Moreover, we have made, and may make in the future, secured or unsecured loans to retail agents under limited circumstances or allow agents to retain our funds for a period of time before remitting them to us. As of December 31, 2011, we had credit exposure to our agents of approximately \$352.0 million in the aggregate spread across 12,000 agents, of which four owed us in excess of \$15.0 million.

Our official checks outsourcing business is conducted through financial institutions. Our financial institution customers issue official checks and money orders and remit to us the face amounts of those instruments the day after they are issued. We are liable for payment on all of those instruments except cashier's checks. As of December 31, 2011, we had credit exposure to our official check financial institution customers of approximately \$350.8 million in the aggregate spread across 1,300 financial institutions, of which one owed us in excess of \$15.0 million.

We monitor the creditworthiness of our agents and financial institution customers on an ongoing basis. There can be no assurance that the models and approaches we use to assess and monitor the creditworthiness of our agents and financial institution customers will be sufficiently predictive, and we may be unable to detect and take steps to timely mitigate an increased credit risk.

In the event of an agent bankruptcy, we would generally be in the position of creditor, possibly with limited security or financial guarantees of performance, and we would therefore be at risk of a reduced recovery. We are not insured against credit losses, except in circumstances of agent theft or fraud. Significant credit losses could have a material adverse effect on our business, financial condition and results of operations.

An inability by us or our agents to maintain adequate banking relationships may adversely affect our business, financial condition and results of operations.

We rely on domestic and international banks for international cash management, ACH and wire transfer services to pay money transfers and settle with our agents. We also rely on domestic banks to provide clearing, processing and settlement functions for our paper-based instruments, including official checks and money orders. Our relationships with these banks are a critical component of our ability to conduct our official check, money order and money transfer businesses. An inability on our part to maintain existing or establish new banking relationships sufficient to enable us to conduct our official check, money order and money transfer businesses could adversely affect our business, financial condition and results of operations. There can be no assurance that we will be able to establish and maintain adequate banking relationships.

If we cannot maintain a sufficient relationship with a limited number of large international banks that provide these services, we would be required to establish a global network of banks to provide us with these services. Utilizing a global network of banks could alter the pattern of settlement with our agents and result in our agent receivables and agent payables being outstanding for longer periods than the current remittance schedule, potentially adversely impacting our cash flow. Maintaining a global network of banks may also increase our overall costs for banking services.

We and our agents are considered Money Service Businesses in the United States under the Bank Secrecy Act. U.S. regulators are increasingly taking the position that Money Service Businesses, as a class, are high risk businesses. In addition, the creation of anti-money laundering laws has created concern and awareness among banks of the negative implications of aiding and abetting money laundering activity. As a result, certain of our agents have been denied access to retail banking services in certain markets regardless of the mitigating factors and controls in place to prevent anti-money laundering law violations. If our agents are unable to obtain sufficient banking relationships, they may not be able to offer our services, which could adversely affect our business, financial condition and results of operations.

Table of Contents

We may be unable to operate our official check and money order businesses profitably if we are not successful in retaining those partners that we wish to retain.

We have reduced the commission rate we pay to our official check financial institution customers, and have implemented, and in some cases increased, per-item and other fees for our official check and money order services. Due to the current low interest rate environment, our official check financial institution customers have been receiving low or no commission payments from the issuance of payment service instruments. Our official check financial institution customers have a right to terminate their agreements with us if they do not accept these pricing changes. As a result of the pricing changes, a low interest rate environment and contractual rights, there can be no assurance that we will retain official check financial institution customers and money order agents that we wish to retain. If we are not successful in retaining customers and agents that we wish to retain, and we are unable to proportionally reduce our fixed costs associated with the official check and money order businesses, our business, financial condition and results of operations could be adversely affected.

We face fraud risks that could adversely affect our business, financial condition and results of operations.

Criminals are using increasingly sophisticated methods to engage in illegal activities such as paper instrument counterfeiting, fraud and identity theft. As we make more of our services available over the Internet and other unmanned media, we subject ourselves to new types of consumer fraud risk because requirements relating to customer authentication are more complex with Internet services. Certain former retail agents have also engaged in fraud against consumers or us, and existing agents could engage in fraud against consumers or us. We use a variety of tools to protect against fraud; however, these tools may not always be successful. Allegations of fraud may result in fines, settlements and litigation expenses.

The industry is under increasing scrutiny from federal, state and local regulators in connection with the potential for consumer fraud. Negative economic conditions may result in increased agent or consumer fraud. If consumer fraud levels involving our services were to rise, it could lead to regulatory intervention and reputational and financial damage. This, in turn, could lead to government enforcement actions and investigations, reduce the use and acceptance of our services or increase our compliance costs and thereby have a material adverse impact on our business, financial condition and results of operations.

We face intense competition, and if we are unable to continue to compete effectively, our business, financial condition and results of operations would be adversely affected.

The markets in which we compete are highly competitive, and we face a variety of competitors across our businesses, in particular our largest competitor, The Western Union Company, or Western Union. In addition, new competitors or alliances among established companies may emerge. Further, some of our competitors have larger and more established customer bases and substantially greater financial, marketing and other resources than we have. With respect to our money transfer, urgent bill payment and money order businesses, our primary competitor is Western Union. We cannot anticipate every effect that actions taken by our competitors will have on our business, or the money transfer and bill payment industry in general.

Money transfer, money order and bill payment services within our Global Funds Transfer segment compete in a concentrated industry, with a small number of large competitors and a large number of small, niche competitors. We also compete with banks and niche person-to-person money transfer service providers. The electronic bill payment services within our Global Funds Transfer segment compete in a highly fragmented consumer-to-business payment industry. Competitors in the electronic payments area include financial institutions, third parties that host financial institution and bill payment services, third parties that offer payment services directly to consumers and billers offering their own bill payment services.

Our official check business competes primarily with financial institutions that have developed internal processing capabilities or services similar to ours and do not outsource official check services. Financial institutions could also offer competing official check outsourcing services to our existing and prospective official check customers.

There can be no assurance that growth in consumer money transfer transactions, bill payment transactions and other payment products will continue. In addition, consolidation among payment service companies has occurred

Table of Contents

and could continue to occur in the future. If we are unable to continue to grow our existing products, while also growing newly developed and acquired products, we will be unable to compete effectively in the changing marketplace, and our business, financial condition and results of operations could be adversely affected.

If we fail to successfully develop and timely introduce new and enhanced products and services or if we make substantial investments in an unsuccessful new product, service or infrastructure change, our business, prospects, financial condition and results of operations could be adversely affected.

Our future growth will depend, in part, on our ability to continue to develop and successfully introduce new and enhanced methods of providing money transfer, money order, official check, bill payment and related services that keep pace with competitive introductions, technological changes and the demands and preferences of our agents, financial institution customers and consumers. If alternative payment mechanisms become widely substituted for our current products and services, and we do not develop and offer similar alternative payment mechanisms successfully and on a timely basis, our business and prospects could be adversely affected. We may make future investments or enter into strategic alliances to develop new technologies and services or to implement infrastructure changes to further our strategic objectives, strengthen our existing businesses and remain competitive. Such investments and strategic alliances, however, are inherently risky and we cannot guarantee that such investments or strategic alliances will be successful. If such investments and strategic alliances are not successful, they could have a material adverse effect on our business, financial condition and results of operations.

There are a number of risks associated with our international sales and operations that could adversely affect our business.

We provide money transfer services between and among approximately 190 countries and territories and continue to expand in various international markets. Our ability to grow in international markets and our future results could be harmed by a number of factors, including:

changes in political and economic conditions and potential instability in certain regions, including in particular the recent civil unrest, terrorism and political turmoil in North Africa, the Middle East and other regions;

restrictions on money transfers to, from and between certain countries;

money control and repatriation issues;

changes in regulatory requirements or in foreign policy, including the adoption of domestic or foreign laws, regulations and interpretations detrimental to our business;

possible increased costs and additional regulatory burdens imposed on our business;

the implementation of U.S. sanctions, resulting in bank closures in certain countries and the ultimate freezing of our assets;

burdens of complying with a wide variety of laws and regulations;

possible fraud or theft losses, and lack of compliance by international representatives in foreign legal jurisdictions where collection and legal enforcement may be difficult or costly;

reduced protection of our intellectual property rights;

unfavorable tax rules or trade barriers;

inability to secure, train or monitor international agents; and

failure to successfully manage our exposure to foreign currency exchange rates, in particular with respect to the euro.

Table of Contents

If we are unable to adequately protect our brand and the intellectual property rights related to our existing and any new or enhanced products and services, or if we infringe on the rights of others, our business, prospects, financial condition and results of operations could be adversely affected.

The MoneyGram^(R) brand is important to our business. We utilize trademark registrations in various countries and other tools to protect our brand. Our business would be harmed if we were unable to adequately protect our brand and the value of our brand was to decrease as a result.

We rely on a combination of patent, trademark and copyright laws, trade secret protection and confidentiality and license agreements to protect the intellectual property rights related to our products and services. We also investigate the intellectual property rights of third parties to prevent our infringement of those rights. We may be subject to third party claims alleging that we infringe their intellectual property rights or have misappropriated other proprietary rights. We may be required to spend resources to defend such claims or to protect and police our own rights. Some of our intellectual property rights may not be protected by intellectual property laws, particularly in foreign jurisdictions. The loss of our intellectual property protection, the inability to secure or enforce intellectual property protection or to successfully defend against claims of intellectual property infringement could harm our business, prospects, financial condition and results of operation.

Failure to attract and retain key employees could have a material adverse impact on our business.

Our success depends to a large extent upon our ability to attract and retain key employees. The loss of one or more members of our executive management team could harm our business and future development. A failure to attract and retain key personnel could also have a material adverse impact on our business.

A breach of security of our systems could adversely affect our business.

We obtain, transmit and store confidential customer, employer and agent information in connection with certain of our services. These activities are subject to laws and regulations in the United States and other jurisdictions. The requirements imposed by these laws and regulations, which often differ materially among the many jurisdictions, are designed to protect the privacy of personal information and to prevent that information from being inappropriately disclosed. Any security breaches in our computer networks, databases or facilities could harm our business and reputation, cause inquiries and fines or penalties from regulatory or governmental authorities, cause a loss of customers and subject us to lawsuits. We rely on a variety of technologies to provide security for our systems. Advances in computer capabilities, new discoveries in the field of cryptography or other events or developments, including improper acts by third parties, may result in a compromise or breach of the security measures we use to protect our systems. We may be required to expend significant capital and other resources to protect against these security breaches or to alleviate problems caused by these breaches. Third-party contractors also may experience security breaches involving the storage and transmission of our data. If users gain improper access to our or our contractor's systems or databases, they may be able to steal, publish, delete or modify confidential customer information. A security breach could expose us to monetary liability, lead to reputational harm and make our customers less confident in our services, which could have a material adverse effect on our business, financial condition and results of operations.

Because our business is particularly dependent on the efficient and uninterrupted operation of our computer network systems and data centers, disruptions to these systems and data centers could adversely affect our business, financial condition and results of operations.

Our ability to provide reliable service largely depends on the efficient and uninterrupted operation of our computer network systems and data centers. Our business involves the movement of large sums of money and the management of data necessary to do so. The success of our business particularly depends upon the efficient and error-free handling of transactions and data. We rely on the ability of our employees and our internal systems and processes to process these transactions in an efficient, uninterrupted and error-free manner.

In the event of a breakdown, catastrophic event (such as fire, natural disaster, power loss, telecommunications failure or physical break-in), security breach, improper operation, improper action by our employees, agents, customer financial institutions or third party vendors or any other event impacting our systems or processes or

Table of Contents

our vendors' systems or processes, we could suffer financial loss, loss of customers, regulatory sanctions, lawsuits and damage to our reputation. The measures we have enacted, such as the implementation of disaster recovery plans and redundant computer systems, may not be successful. We may also experience problems other than system failures, including software defects, development delays and installation difficulties, which would harm our business and reputation and expose us to potential liability and increased operating expenses. In addition, any work stoppages or other labor actions by employees who support our systems or perform any of our major functions could adversely affect our business. Certain of our agent contracts, including our contract with Wal-Mart, contain service level standards pertaining to the operation of our system, and give the agent a right to collect damages and in extreme situations a right of termination for system downtime exceeding agreed upon service levels. If we experience significant system interruptions or system failures, our business interruption insurance may not be adequate to compensate us for all losses or damages that we may incur.

If we are unable to effectively operate and adapt our technology to match our business growth, our business, financial condition and results of operations could be adversely affected.

Our ability to continue to provide our services to a growing number of agents and consumers, as well as to enhance our existing services and offer new services, is dependent on our information technology systems. If we are unable to effectively manage the technology associated with our business, we could experience increased costs, reductions in system availability and loss of agents or consumers. Any failure of our systems in scalability, reliability and functionality could adversely impact our business, financial condition and results of operations.

The operation of retail locations and acquisition or start-up of businesses create risks and may adversely affect our operating results.

We operate Company-owned retail locations for the sale of our products and services. We may be subject to additional laws and regulations that are triggered by our ownership of retail locations and our employment of individuals who staff our retail locations. There are also certain risks inherent in operating any retail location, including theft, personal injury and property damage and long-term lease obligations.

We may, from time to time, acquire or start up businesses both inside and outside of the United States. The acquisition and integration of businesses involve a number of risks. We may not be able to successfully integrate businesses that we acquire or open, including their facilities, personnel, financial systems, distribution, operations and general operating procedures. If we fail to successfully integrate acquisitions or start-up businesses, we could experience increased costs and other operating inefficiencies, which could have an adverse effect on our results of operations. The diversion of capital and management's attention from our core business that results from acquiring or opening new businesses could adversely affect our business, financial condition and results of operations.

Concerns regarding the European debt crisis and market perceptions concerning the instability of the euro, the potential re-introduction of individual currencies within the Eurozone, or the potential dissolution of the euro entirely, could adversely affect our business, results of operations and financing.

As a result of the debt crisis with respect to countries in Europe, in particular most recently in Greece, Italy, Ireland, Portugal and Spain, the European Commission created the European Financial Stability Facility, or the EFSF, and the European Financial Stability Mechanism, or the EFSM, to provide funding to countries using the euro as their currency, or the Eurozone, that are in financial difficulty and seek such support. In March 2011, the European Council agreed on the need for Eurozone countries to establish a permanent financial stability mechanism, the European Stability Mechanism, which will be activated by mutual agreement, to assume the role of the EFSF and the EFSM in providing external financial assistance to Eurozone countries after June 2013. Despite these measures, concerns persist regarding the debt burden of certain Eurozone countries and their ability to meet future financial obligations, the overall stability of the euro and the suitability of the euro as a single currency given the diverse economic and political circumstances in individual Eurozone countries.

These concerns could lead to the re-introduction of individual currencies in one or more Eurozone countries, or, in more extreme circumstances, the possible dissolution of the euro currency entirely. Should the euro dissolve

Table of Contents

entirely, the legal and contractual consequences for holders of euro-denominated obligations would be determined by laws in effect at such time. In addition, concerns over the effect of this financial crisis on financial institutions in Europe and globally could have an adverse impact on the capital markets generally.

Changes in tax laws and unfavorable outcomes of tax positions we take could adversely affect our tax expense and liquidity.

Our future tax rate could be adversely affected by changes in tax laws, both domestically and internationally. From time to time, the United States and foreign, state and local governments consider legislation that could increase our effective tax rates. If changes to applicable tax laws are enacted, our results of operations could be negatively impacted.

We file tax returns and take positions with respect to federal, state, local and international taxation, including positions that relate to our historical net security losses, and our tax returns and tax positions are subject to review and audit by taxing authorities. We expect to receive a Notice of Deficiency within the next 12 months disallowing approximately \$908.5 million of cumulative deductions taken relating to net security losses. Through December 31, 2011, we recognized a cumulative federal benefit of approximately \$136.1 million relating to these deductions. If our petition regarding the Notice of Deficiency is denied, the Company would be required to make cash payments of \$105.4 million based on benefits taken through December 31, 2011. An unfavorable outcome in this audit or other tax reviews or audits could result in higher tax expense, including interest and penalties, which could adversely affect our results of operations and cash flows. We establish reserves for material known tax exposures; however, there can be no assurance that an actual taxation event would not exceed our reserves.

Failure to maintain effective internal controls in accordance with Section 404 of the Sarbanes-Oxley Act could have a material adverse effect on our business.

We are required to certify and report on our compliance with the requirements of Section 404 of the Sarbanes-Oxley Act, which requires annual management assessments of the effectiveness of our internal control over financial reporting and a report by our independent registered public accounting firm addressing the effectiveness of our internal control over financial reporting. If we fail to maintain the adequacy of our internal controls, as such standards are modified, supplemented or amended from time to time, we may not be able to ensure that we can conclude on an ongoing basis that we have effective internal controls over financial reporting in accordance with Section 404. In order to achieve effective internal controls we may need to enhance our accounting systems or processes, which could increase our cost of doing business. Any failure to achieve and maintain an effective internal control environment could have a material adverse effect on our business.

Risks Related to Ownership of our Stock

THL owns a substantial percentage of our common stock, and its interests may differ from the interests of our other common stockholders.

As of December 31, 2011, THL held approximately 64.1 percent of our common stock. As a result, THL is able to determine the outcome of matters put to a stockholder vote, including the ability to elect our directors, determine our corporate and management policies, including compensation of our executives, and determine, without the consent of our other stockholders, the outcome of any corporate action submitted to our stockholders for approval, including potential mergers, acquisitions, asset sales and other significant corporate transactions. THL also has sufficient voting power to amend our organizational documents. We cannot provide assurance that the interests of THL will coincide with the interests of other holders of our common stock. THL's concentration of ownership may discourage, delay or prevent a change in control of our Company, which could deprive our stockholders of an opportunity to receive a premium for their common stock as part of a sale of our Company and might reduce our share price.

In view of their significant ownership stake in the Company, THL has appointed four members to our Board of Directors. The size of our Board has been set at nine directors, four of which are independent. Our Certificate of Incorporation provides that, as long as the Investors have a right to designate directors to our Board, THL shall have the right to designate two to four directors who shall each have equal votes and who shall have such number

Table of Contents

of votes equal to the number of directors as is proportionate to the Investors' common stock ownership, calculated on a fully-converted basis, as if all of the shares of D Stock were converted to common shares. Therefore, each director designated by THL will have multiple votes and each other director will have one vote.

We have significant overhang of salable common stock and D Stock held by the Investors relative to the public float of our common stock.

The trading market for our common stock was first established in June 2004. The public float in that market now consists of approximately 62.3 million shares issued and 57.8 million shares outstanding as of December 31, 2011. In accordance with the terms of the Registration Rights Agreement entered into between us and the Investors at the closing of the 2008 Recapitalization, we have an effective registration statement on Form S-3 that permits the offer and sale by the Investors of all of the common stock or D Stock currently held by the Investors. In 2011, the Investors sold 10.2 million shares of common stock pursuant to this registration statement, which leaves the Investors with 50.7 million shares of common stock that can still be sold pursuant to the registration statement. The registration statement also permits us to offer and sell up to \$500 million of our common stock, preferred stock, debt securities or any combination of these securities, from time to time, subject to market conditions and our capital needs. Sales of a substantial number of shares of our common stock, or the perception that significant sales could occur (particularly if sales are concentrated in time or amount), may depress the trading price of our common stock.

Our charter documents and Delaware law contain provisions that could delay or prevent an acquisition of the Company, which could inhibit your ability to receive a premium on your investment from a possible sale of the Company.

Our charter documents contain provisions that may discourage third parties from seeking to acquire the Company. These provisions and specific provisions of Delaware law relating to business combinations with interested stockholders may have the effect of delaying, deterring or preventing certain business combinations, including a merger or change in control of the Company. Some of these provisions may discourage a future acquisition of the Company even if stockholders would receive an attractive value for their shares or if a significant number of our stockholders believed such a proposed transaction to be in their best interests. As a result, stockholders who desire to participate in such a transaction may not have the opportunity to do so.

Our board of directors has the power to issue series of preferred stock and to designate the rights and preferences of those series, which could adversely affect the voting power, dividend, liquidation and other rights of holders of our common stock.

Under our certificate of incorporation, our board of directors has the power to issue series of preferred stock and to designate the rights and preferences of those series. Therefore, our board of directors may designate a new series of preferred stock with the rights, preferences and privileges that the board of directors deems appropriate, including special dividend, liquidation and voting rights. The creation and designation of a new series of preferred stock could adversely affect the voting power, dividend, liquidation and other rights of holders of our common stock and, possibly, any other class or series of stock that is then in existence.

The market price of our common stock may be volatile.

The market price of our common stock may fluctuate significantly in response to a number of factors, some of which may be beyond our control. These factors include the perceived prospects or actual operating results of our business; changes in estimates of our operating results by analysts, investors or our management; our actual operating results relative to such estimates or expectations; actions or announcements by us or our competitors; litigation and judicial decisions; legislative or regulatory actions; and changes in general economic or market conditions. In addition, the stock market in general has from time to time experienced extreme price and volume fluctuations. These market fluctuations could reduce the market price of our common stock for reasons unrelated to our operating performance.

Table of Contents**Item 1B. UNRESOLVED STAFF COMMENTS**

None.

Item 2. PROPERTIES

Location	Use	Segment(s) Using Space	Square Feet	Lease Expiration
Dallas, TX	Corporate Headquarters	Both	46,291	6/30/2021
Minneapolis, MN	Global Operations Center	Both	134,000	12/31/2015
Brooklyn Center, MN	Global Operations Center	Both	75,000	4/30/2015
Lakewood, CO	Call Center	Global Funds Transfer	113,849	3/31/2015
London, UK	Global Operations Center	Both	20,738	1/31/2021

Information concerning our material properties, all of which are leased, including location, use, approximate area in square feet and lease terms, is set forth above. Not included in the above table is approximately 34,211 square feet in Minneapolis, Minnesota that has been sublet.

Subsequent to December 31, 2011, the Company entered into an agreement to lease 25,287 square feet of office space in Frisco, Texas and an agreement for early termination of one of its leases in Lakewood, CO consisting of 45,684 square feet. The Company has vacated this portion of the property per the agreement. We also have a number of other smaller office locations in Arkansas, California, Florida, New York, France, Germany, Italy, Spain and the United Kingdom, as well as small sales and marketing offices in Australia, China, Greece, India, Italy, the Netherlands, Nigeria, Russia, South Africa, Spain, Ukraine, United Arab Emirates, and Switzerland. We believe that our properties are sufficient to meet our current and projected needs.

Item 3. LEGAL PROCEEDINGS

Edgar Filing: MONEYGRAM INTERNATIONAL INC - Form 10-K

The matters set forth below are subject to uncertainties and outcomes that are not predictable with certainty. The Company accrues for these matters as any resulting losses become probable and can be reasonably estimated. Further, the Company maintains insurance coverage for many claims and litigations alleged.

Litigation Commenced Against the Company:

Shareholder Litigation On April 15, 2011 a complaint was filed in the Court of Chancery of the State of Delaware by Willie R. Pittman purporting to be a class action complaint on behalf of all shareholders and a shareholder derivative complaint against the Company, THL, Goldman Sachs and each of the Company's directors. Ms. Pittman alleges in her complaint that she is a stockholder of the Company and asserts, among other things, (i) breach of fiduciary duty and disclosure claims against the Company's directors, THL and Goldman Sachs, (ii) breach of the Company's certificate of incorporation claims against the Company, THL and Goldman Sachs, and (iii) claims for aiding and abetting breach of fiduciary duties against Goldman Sachs. Ms. Pittman purports to sue on her own behalf and on behalf of the Company and its stockholders. Pittman sought to, among other things, enjoin or rescind the 2011 Recapitalization. On April 29, 2011 the plaintiff filed an amended complaint to add two additional plaintiffs, Susan Seales and Stephen Selzer. On May 16, 2011 a hearing to enjoin or rescind the 2011 Recapitalization was held in the Court of Chancery of the State of Delaware, and at the hearing, the plaintiffs' request for a preliminary injunction was denied. The 2011 Recapitalization was completed on May 18, 2011. Since that time, Ms. Pittman has withdrawn as a putative class representative; Ms. Seales and Mr. Selzer remain as plaintiffs. The plaintiffs seek to recover damages of some or all of the cash and stock payments made to THL and Goldman Sachs by the Company in connection with the recapitalization transaction. This litigation is ongoing and is scheduled for trial in the second quarter of 2012.

On May 12, 2011 a complaint was filed in the County Court at Law No. 3 in Dallas County, Texas by Hilary Kramer purporting to be a class action complaint on behalf of all shareholders and a shareholder derivative complaint against the Company, THL, Goldman Sachs and each of the Company's directors. Ms. Kramer alleges

Table of Contents

in her complaint that she is a stockholder of the Company and asserts, among other things, (i) breach of fiduciary duty claims against the Company's directors, THL and Goldman Sachs and (ii) claims for aiding and abetting breach of fiduciary duties against Goldman Sachs. Ms. Kramer purports to sue on her own behalf and on behalf of the Company and its stockholders. Ms. Kramer sought to, among other things, enjoin the 2011 Recapitalization. The defendants have moved for the Texas court to stay this litigation in favor of the Pittman litigation in Delaware, which has an overlapping class definition.

Other Matters The Company is involved in various claims and litigation that arise from time to time in the ordinary course of the Company's business. Management does not believe that after final disposition any of these matters is likely to have a material adverse impact on the Company's financial condition, results of operations and cash flows.

Government Investigations:

MoneyGram has been served with subpoenas to produce documents and testify before a grand jury in the U.S. District Court for the Middle District of Pennsylvania. The subpoenas sought information related to, *inter alia*, MoneyGram's U.S. and Canadian agents, as well as certain transactions involving such agents, fraud complaint data, and MoneyGram's consumer anti-fraud program during the period from 2004 to 2009. MoneyGram has provided information requested pursuant to the subpoenas and continues to provide additional information relating to the investigation. In addition, the Company has been provided with subpoenas for the testimony of certain current and former employees in connection with the investigation. The Company has also been notified of a request for interviews of one current executive officer and one former chief executive officer of the Company. The U.S. Department of the Treasury Financial Crimes Enforcement Network, or FinCEN, also requested information, which information was subsequently provided by MoneyGram, concerning MoneyGram's reporting of fraudulent transactions during this period. In November 2010, MoneyGram met with representatives from the U.S. Attorney's Office for the Middle District of Pennsylvania, or the MDPA USAO, and representatives of FinCEN to discuss the investigation. In July 2011, MoneyGram had further discussions with the MDPA USAO and representatives of the Asset Forfeiture and Money Laundering Section of the U.S. Department of Justice, or the US DOJ. MoneyGram has been informed that it is being investigated by the federal grand jury in connection with these matters for the period 2004 to early 2009 as well as MoneyGram's anti-money laundering program during that period. In January 2012, meetings were held between representatives of the Company, the MDPA USAO and the Criminal Division of the US DOJ to discuss the investigation. MoneyGram continues to engage in discussions and cooperate with such government representatives regarding the ongoing investigation. During the course of these discussions, the Company was advised that consideration is being given to a range of possible outcomes, including the seeking of criminal penalties against the Company. However, no conclusions can be drawn at this time as to the outcome of the investigation, and we are unable to predict the probable loss, or range of loss, if any, associated with this matter.

MoneyGram has also received Civil Investigative Demands from a working group of nine state attorneys general who have initiated an investigation into whether the Company has taken adequate steps to prevent consumer fraud during the period from 2007 to 2011. The Civil Investigative Demands seek information and documents relating to the Company's procedures to prevent fraudulent transfers and consumer complaint information. MoneyGram continues to cooperate fully with the states in this matter. MoneyGram has submitted the information and documents requested by the states. No claims have been made against MoneyGram at this time.

Other Matters The Company is involved in various government inquiries and other matters that arise from time to time. Management does not believe that after final disposition any of these matters is likely to have a material adverse impact on the Company's financial condition, results of operations and cash flows.

Item 4. MINE SAFETY DISCLOSURES

Not applicable.

Table of Contents**PART II****Item 5. MARKET FOR THE REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES**

Our common stock is traded on the New York Stock Exchange under the symbol **MGI**. No dividends on our common stock were declared by our Board of Directors in 2011 or 2010. See **Management's Discussion and Analysis of Financial Condition and Results of Operations** **Mezzanine Equity and Stockholders' Deficit** and **Note 12 Stockholders' Deficit** of the Notes to Consolidated Financial Statements. As of February 28, 2012, there were 10,482 stockholders of record of our common stock. On November 14, 2011, we effected a one-for-eight reverse stock split of our issued and outstanding common stock. All share and per share amounts have been retroactively adjusted to reflect the stock split with the exception of the Company's treasury stock, which was not a part of the reverse stock split.

The high and low sales prices for our common stock for the periods presented were as follows:

Fiscal Quarter	2011		2010	
	High	Low	High	Low
First	\$ 27.44	\$ 19.44	\$ 31.28	\$ 20.24
Second	\$ 33.12	\$ 25.12	\$ 32.08	\$ 18.72
Third	\$ 29.28	\$ 16.72	\$ 23.20	\$ 15.92
Fourth	\$ 23.04	\$ 15.90	\$ 23.52	\$ 18.00

The Board of Directors has authorized the repurchase of a total of 12,000,000 shares, as announced publicly in our press releases issued on November 18, 2004, August 18, 2005 and May 9, 2007. The repurchase authorization is effective until such time as the Company has repurchased 12,000,000 common shares. The Company may consider repurchasing shares from time-to-time, subject to limitations in our debt agreements. Shares of MoneyGram common stock tendered to the Company in connection with the exercise of stock options or vesting of restricted stock are not considered repurchased shares under the terms of the repurchase authorization. As of December 31, 2011, we have repurchased 6,795,017 shares of our common stock under this authorization and have remaining authorization to repurchase up to 5,204,983 shares. The Company repurchased 17 shares in the fourth quarter of 2011. The following table summarizes the share repurchases during the three months ended December 31, 2011:

Period	(a) Total number of shares purchased	(b) Average price paid per share	(c) Total number of shares purchased as part of publicly announced plans or programs	(d) Maximum number of shares that may yet be purchased under the plans or programs ⁽¹⁾
October 1 – October 31				
November 1 – November 30				
December 1 – December 31	17	16.28	17	5,204,983
Total	17		17	5,204,983

Edgar Filing: MONEYGRAM INTERNATIONAL INC - Form 10-K

The terms of our debt agreements place significant limitations on the amount of restricted payments we may make, including dividends on our common stock. With certain exceptions, we may only make restricted payments in an aggregate amount not to exceed \$25.0 million, subject to an incremental build-up based on our consolidated net income in future periods. As a result, our ability to declare or pay dividends or distributions to the stockholders of the Company's common stock is materially limited at this time. No dividends were paid on our common stock in 2011 and 2010.

STOCKHOLDER RETURN PERFORMANCE

The following graph compares the cumulative total return from December 31, 2006 to December 31, 2011 for our common stock, our peer group index of payment services companies and the S&P 500 Index. The peer group index of payment services companies, referred to as the Peer Group Index, consists of: Euronet Worldwide Inc., Fidelity National Information Services, Inc., Fiserv, Inc., Global Payments Inc., MasterCard, Inc., Online Resources Corporation, Total System Services, Inc., Visa, Inc. and The Western Union Company. The graph assumes the investment of \$100 in each of our common stock, our Peer Group Index and the S&P 500 Index on December 31, 2006, and the reinvestment of all dividends as and when distributed.

- (1) Total other expense, net for 2011 includes net securities gains of \$32.8 million from the receipt of settlements equal to all outstanding principal from two securities classified in other asset-backed securities previously written down to a nominal fair value and debt extinguishment costs of \$37.5 million relating to the termination of the 2008 senior facility in connection with the 2011 Recapitalization and the partial redemption of the Second Lien Notes. Total other expense, net for 2008 includes net securities losses of \$340.7 million from the realignment of the investment portfolio in the first quarter of 2008, other-than-temporary impairments and declines in the value of our trading investments. Total other expense, net for 2007 includes net losses of \$1.2 billion related to other-than-temporary impairments in the Company's investment portfolio.
- (2) Income from continuing operations before income taxes for 2011 includes \$4.8 million of legal accruals related primarily to shareholder litigation, \$3.4 million of asset impairments and \$23.5 million of expense related to our global transformation initiative. Income from continuing operations before income taxes for

Table of Contents

2010 includes a \$16.4 million gain related to the reversal of a patent lawsuit; \$1.8 million of legal accruals related primarily to shareholder litigation; \$1.8 million of asset impairments and \$5.9 million of expense related to our global transformation initiative. Loss from continuing operations before income taxes for 2009 includes \$54.8 million of legal reserves relating to securities litigation, stockholder derivative claims, a patent lawsuit and a settlement with the FTC; \$18.3 million of goodwill and asset impairments and a \$14.3 million net curtailment gain on our benefit plans. Loss from continuing operations before income taxes for 2008 includes a \$29.7 million net loss on the termination of swaps, a \$26.5 million gain from put options on our trading investments, a \$16.0 million valuation loss from changes in the fair value of embedded derivatives on our Series B Stock and a goodwill impairment of \$8.8 million related to a discontinued business. Loss from continuing operations before income taxes for 2007 includes a goodwill impairment of \$6.4 million related to a discontinued business.

- (3) Assets in excess of payment service obligations are substantially restricted assets less payment service obligations as calculated in Note 2 *Summary of Significant Accounting Policies* of the Notes to Consolidated Financial Statements. Substantially restricted assets are composed of cash and cash equivalents, receivables and investments.
- (4) Mezzanine Equity related to our Series B Stock. Following the 2011 Recapitalization, all amounts included in mezzanine equity were converted into components of stockholders' deficit and no shares of Series B Stock remained issued at December 31, 2011. See Note 11 *Mezzanine Equity* of the Notes to Consolidated Financial Statements for the terms of the Series B Stock.
- (5) Investable balances are composed of cash and cash equivalents and all classes of investments.
- (6) Net investment margin is determined as net investment revenue (investment revenue less investment commissions) divided by daily average investable balances.
- (7) Includes 29,000, 27,000, 28,000, 30,000 and 18,000 locations in 2011, 2010, 2009, 2008 and 2007, respectively, which offer both money order and money transfer services.

Item 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with our Consolidated Financial Statements and related Notes. This discussion contains forward-looking statements that involve risks and uncertainties. MoneyGram's actual results could differ materially from those anticipated due to various factors discussed below under "Cautionary Statements Regarding Forward-Looking Statements" and under the caption "Risk Factors" in Part 1, Item 1A of this Annual Report on Form 10-K.

Basis of Presentation

The financial statements in this Annual Report on Form 10-K are presented on a consolidated basis and include the accounts of the Company and our subsidiaries. See Note 2 *Summary of Significant Accounting Policies* of the Notes to the Consolidated Financial Statements for further information regarding consolidation. References to MoneyGram, the Company, we, us and our are to MoneyGram International, Inc. and its subsidiaries and consolidated entities. Our Consolidated Financial Statements are prepared in conformity with accounting principles generally accepted in the United States of America, also referred to as GAAP.

Edgar Filing: MONEYGRAM INTERNATIONAL INC - Form 10-K

Fee and other revenue Fee and other revenue consists of transaction fees, foreign exchange revenue and miscellaneous revenue. Transaction fees are earned on money transfer, money order, bill payment and official check transactions. Money transfer transaction fees vary based on the principal amount of the transaction, the originating location and the receiving location. Money order, bill payment and official check transaction fees are fixed per transaction. Foreign exchange revenue is derived from the management of currency exchange spreads on money transfer transactions involving different send and receive currencies. Miscellaneous revenue primarily consists of processing fees on rebate checks and controlled disbursements, service charges on aged outstanding money orders and money order dispenser fees.

Investment revenue Investment revenue consists of interest and dividends generated through the investment of cash balances received primarily from the sale of official checks, money orders and other payment instruments.

Table of Contents

These cash balances are available to us for investment until the payment instrument is presented for payment. Investment revenue varies depending on the level of investment balances and the yield on our investments. Investment balances vary based on the number of payment instruments sold, the principal amount of those payment instruments and the length of time that passes until the instruments are presented for payment.

Fee and other commissions expense We incur fee commissions primarily on our money transfer products. In a money transfer transaction, both the agent initiating the transaction and the agent disbursing the funds receive a commission that is generally based on a percentage of the fee charged to the consumer. We generally do not pay commissions to agents on the sale of money orders. In certain limited circumstances for large agents, we may pay a fixed commission amount based on money order volumes transacted by that agent. Other commissions expense includes the amortization of capitalized agent signing bonus payments.

Investment commissions expense Investment commissions consist of amounts paid to financial institution customers based on short-term interest rate indices times the average outstanding cash balances of official checks sold by that financial institution.

Table of Contents

Following is a summary of our operating results in 2011:

Total fee and other revenue increased in 2011 due to an increase in money transfer fee and other revenue, partially offset by lower revenue from bill payment products and the Financial Paper Products segment and the impact of certain businesses and products that were discontinued in 2010. Volume growth of 14 percent and the higher euro exchange rate drove the increase in money transfer fee and other revenue, partially offset by lower average money transfer fees per transaction, corridor mix and the \$50 price band. See further discussion under *Fee and Other Revenue and Commissions Expense*.

Investment revenue decreased in 2011 due to a decline in average investment balances and lower yields earned on our investment portfolio.

Total commissions expense increased in 2011 due to money transfer volume growth, the higher euro exchange rate and signing bonus amortization, partially offset by lower volumes from bill payment products.

Total operating expenses increased in 2011 due to higher commissions expense, \$15.2 million of incremental restructuring and reorganization costs, investments in marketing and higher legal and compensation costs. Legal costs in 2010 benefited from a \$16.4 million reversal of a patent litigation settlement.

During 2011, the Company recognized \$32.8 million of settlements equal to all outstanding principal from two securities. These securities had previously been written down to a nominal fair value.

Interest expense decreased 16 percent to \$86.2 million in 2011 from \$102.1 million in 2010, reflecting lower interest rates from refinancing activity, partially offset by higher outstanding debt balances.

We had an income tax benefit of \$19.6 million on pre-tax income of \$39.8 million in 2011, primarily reflecting the release of \$34.0 million of valuation allowances on U.S. deferred tax assets related to historical net securities losses and a \$9.7 million benefit from the disposition of a business.

The increase in the euro exchange rate increased total revenue by \$16.5 million and total expenses by \$12.7 million, for a net increase to our income before income taxes of \$3.8 million.

Following is a summary of significant actions taken by the Company and economic conditions during the year that impacted our operating results, liquidity and capital structure in 2011:

Capital Transactions Following shareholder approval on May 18, 2011, the Company completed the 2011 Recapitalization with THL and Goldman Sachs. As a result of the recapitalization, (i) THL converted all of its shares of the B Stock into 35.8 million shares of common stock and (ii) Goldman Sachs converted all of its shares of the B-1 Stock into 157,686 shares of D Stock, and (iii) THL received 3.5 million additional shares of common stock and \$140.8 million in cash, and Goldman Sachs received 15,503 additional shares of D Stock and \$77.5 million in cash. Under the 2011 Recapitalization, the Investors received a cash dividend payment for amounts earned under the terms of the B and B-1 Stock for the period from March 26, 2011 through May 18, 2011. During the year ended December 31, 2011, the Company recognized expense of \$5.4 million for transaction costs related to the 2011 Recapitalization, which are recorded in the *Other* line in the Consolidated Statements of Income.

On November 14, 2011, the Company effected a reverse stock split of the Company's common stock at a ratio of 1-for-8 and decreased the number of authorized shares of common stock from 1,300,000,000 to 162,500,000. All share and per share amounts have been retroactively adjusted to reflect the stock split with the exception of the Company's treasury stock, which was not a part of the reverse stock split.

Edgar Filing: MONEYGRAM INTERNATIONAL INC - Form 10-K

In November and December 2011, the Company completed a secondary offering pursuant to which the Investors sold an aggregate of 10,237,524 shares in an underwritten offering. In connection with the secondary offering, 63,950 shares of D Stock were converted to 7,993,762 shares of common stock. The Company did not receive proceeds from the offering and incurred transaction costs totaling \$1.0 million for the year ended December 31, 2011, which are recorded in the Other line in the Consolidated Statement of Income.

Table of Contents

Debt Refinancings On May 18, 2011, the Company entered into a credit agreement in connection with the New Credit Facility, referred to herein as the 2011 Credit Agreement, consisting of a \$150.0 million, five-year revolving credit facility and a \$390.0 million, six-and-one-half-year term loan. On November 21, 2011, the Company entered into an amendment to the 2011 Credit Agreement and obtained an incremental term loan in an aggregate principal amount of \$150 million. The net proceeds from the term loan under the 2011 Credit Agreement were used to consummate the 2011 Recapitalization and to refinance the Company's existing 2008 senior facility. In connection with this refinancing, the Company incurred a \$5.2 million debt extinguishment loss from the pro-rata write-off of unamortized deferred financing costs.

In connection with the secondary offering, the Company exercised an option to redeem a portion of its Second Lien Notes in November 2011. The redemption was completed through the issuance of the \$150.0 million incremental term loan under the 2011 Credit Agreement, with the remaining balance paid from cash and cash equivalents. In connection with the redemption, the Company incurred a prepayment penalty of \$23.2 million and wrote-off \$9.1 million of unamortized deferred financing costs, for a total debt extinguishment loss of \$32.3 million.

Global Economic Conditions Throughout 2011, worldwide economic conditions continued to remain weak, as evidenced by high unemployment rates, government assistance to citizens and businesses on a global basis, continued declines in asset values, restricted lending activity and low consumer confidence, among other factors. Historically, the money remittance industry has generally been resilient during times of economic softness as money transfers are deemed essential to many, with the funds used by the receiving party for food, housing and other basic needs. However, given the global reach and extent of the current economic recession, the growth of money transfer volumes and the average principal of money transfers continued to fluctuate by corridor and country in 2011, particularly in Europe.

The Company experienced transaction growth in Northern Europe, which was somewhat offset by weakness in Spain, Italy and Greece from economic and regulatory factors. New regulations in Italy, which include a tax on non-European Union residents and send limits at non-bank locations, limited our consumers' ability to send money and slowed growth in the country. The impact of the new legislation was partially offset as a large Italian agent has a higher send limit than non-bank locations.

In addition, bill payment products available in the United States are not as resilient as money transfers given the consumer credit markets and the more discretionary nature of some items paid for by consumers using these products. Accordingly, the volume of bill payment transactions continued to be adversely impacted in 2011, particularly in the auto, housing and credit card sectors. The Company continues to actively pursue strategic initiatives to mitigate the economic impact on bill payment products, including the addition of 1,500 billers to the MoneyGram network and expansion of the products into Canada during 2011. While there have been some indicators of moderation and improvement during the fourth quarter of 2011, particularly in the United States, we continue to have limited visibility into the future and believe growth rates will continue to be hampered in 2012.

Money Transfer Pricing In the first half of 2010, we introduced a \$50 price band that allows consumers to send \$50 of principal for a \$5 fee at most locations, or a \$4.75 fee at a Wal-Mart location. As discussed further in *Global Funds Transfer Segment*, the \$50 price band impacted revenue growth, as 2011 was the first full year of the pricing change.

Global Transformation Initiative In the second quarter of 2010, we announced the implementation of a global transformation initiative to realign our management and operations with the changing global market and streamline operations to promote a more efficient and scalable cost structure. The initiative includes organizational changes, relocation of certain operations and investment in technology, among other items. The Company has incurred \$20.7 million and \$5.4 million of cash outlays in 2011 and 2010, respectively, and recorded \$23.5 million and \$5.9 million of expenses during 2011 and 2010, respectively. We anticipate this initiative to generate annual pre-tax cost savings of \$25.0 million to \$30.0 million when fully implemented in 2012.

Table of Contents**FEE AND OTHER REVENUE AND COMMISSIONS EXPENSE**

The following discussion provides a summary overview of results. See discussion for the Global Funds Transfer and Financial Paper Products segments for more detailed explanations of our results.

YEAR ENDED DECEMBER 31,	2011	2010	2009	2011 vs. 2010	2010 vs. 2009
<i>(Amounts in thousands)</i>					
Fee and other revenue	\$ 1,230,858	\$ 1,145,312	\$ 1,128,492	7%	1%
Fee and other commissions expense	547,573	500,759	497,105	9%	1%
Fee and other commissions expense as a % of fee and other revenue	44.5%	43.7%	44.1%		

Fee and Other Revenue

In 2011, fee and other revenue growth of \$85.5 million, or seven percent, was primarily driven by money transfer transaction volume growth, a higher euro exchange rate and higher foreign exchange revenue, partially offset by changes in corridor mix, lower average face value per transaction and the \$50 price band in the United States. Bill payment products, money order and official check fee and other revenue decreased due to volume declines.

In 2010, fee and other revenue growth of \$16.8 million, or one percent, was primarily driven by money transfer transaction volume growth, changes in corridor mix and higher foreign exchange revenue, partially offset by a lower euro exchange rate and the introduction of the \$50 price band in the United States. Official check fee and other revenue increased from repricing initiatives, partially offset by the run-off of financial institution customers. Bill payment products and money order fee and other revenue decreased from volume declines, with bill payment products also being adversely impacted by lower average fees per transaction due to industry mix.

Fee and Other Commissions

In 2011, fee and other commissions expense growth of \$46.8 million, or nine percent, was primarily due to money transfer volume growth, a higher euro exchange rate and increased signing bonus amortization, partially offset by lower bill payment and money order volumes. Signing bonus amortization increased due to the signing of new agents. Commissions expense grew at a faster rate than revenue due to pay-out at a higher tier level from volume growth for certain key agents and corridor mix. Commissions expense as a percent of fee and other revenue increased to 44.5 percent in 2011 from 43.7 percent in 2010, primarily from the continued shift in overall product mix towards the Global Funds Transfer segment, particularly the money transfer product. Agents in the Global Funds Transfer segment are compensated through commissions we pay to them, whereas our Financial Paper Products agents and financial institution customers primarily earn their revenue through per item fees they charge directly to the consumer.

In 2010, fee and other commissions expense growth of \$3.7 million, or one percent, was primarily due to money transfer transaction volume growth, partially offset by a lower euro exchange rate, a decrease in signing bonus amortization, lower average money transfer commission rates, declines in volumes for bill payment, money order and official check, and lower average bill payment fees from changes in industry mix. Signing bonus amortization decreased as certain historical signing bonuses were fully amortized in the prior year. Commissions expense as a percent of fee and other revenue increased to 43.7 percent in 2010 from 44.1 percent in 2009, primarily from the continued shift in overall product mix towards the Global Funds Transfer segment, particularly the money transfer product.

Net Investment Revenue Analysis

YEAR ENDED DECEMBER 31,	2011	2010	2009	2011 vs. 2010	2010 vs. 2009
<i>(Amounts in thousands)</i>					
Investment revenue	\$ 16,911	\$ 21,341	\$ 33,219	(21)%	(36)%
Investment commissions expense	(431)	(737)	(1,362)	(42)%	(46)%
Net investment revenue	\$ 16,480	\$ 20,604	\$ 31,857	(20)%	(35)%
Average balances:					
Cash equivalents and investments	\$ 3,255,405	\$ 3,684,317	\$ 4,246,507	(12)%	(13)%
Payment service obligations	2,310,993	2,659,171	3,048,100	(13)%	(13)%
Average yields earned and rates paid ⁽¹⁾ :					
Investment yield	0.52%	0.58%	0.78%		
Investment commission rate	0.02%	0.03%	0.04%		
Net investment margin ⁽²⁾	0.51%	0.56%	0.75%		

⁽¹⁾ Commissions are paid to financial institution customers based on amounts generated by the sale of official checks only.

⁽²⁾ Average yields and rates are calculated by dividing the applicable amount of Net investment revenue by the applicable amount shown in the Average balances section. The Net investment margin is calculated by dividing Net investment revenue by the Cash equivalents and investments average balance.

Investment revenue in 2011 decreased \$4.4 million, or 21 percent, compared to 2010. Lower average investment balances from the run-off of certain official check financial institution customers terminated in prior periods drove \$2.5 million of the decrease, while lower yields earned on our investment portfolio drove a decrease of \$1.9 million.

Investment revenue in 2010 decreased \$11.9 million, or 36 percent, compared to 2009. Lower yields earned on our investment portfolio drove \$7.5 million of the decrease, while lower average investment balances from the run-off of certain official check financial institution customers terminated in prior periods drove \$4.4 million of the decrease.

Investment commissions expense in 2011 decreased \$0.3 million, or 42 percent, compared to 2010 primarily from lower interest rates. Due to the sustained low federal funds rate, most of our financial institution customers continue to be in a negative commission position as of December 31, 2011, meaning we do not owe any commissions to our customers. While the majority of our contracts require that the financial institution customers pay us for the negative commission amounts, we have opted at this time to impose certain per-item and other fees rather than require payment of the negative commission amounts. We continue to monitor the negative commissions and assess our current fee structure for possible further changes.

Investment commissions expense in 2010 decreased \$0.6 million, or 46 percent, compared to 2009 from lower rates resulting from the second phase of the repricing initiative that was implemented in the second quarter of 2009 and lower average investment balances.

Table of Contents**OPERATING EXPENSES**

The following discussion relates to operating expenses, excluding commissions expense.

Compensation and benefits Compensation and benefits includes salaries and benefits, management incentive programs, related payroll taxes and other employee related costs. Following is a summary of the change in compensation and benefits:

YEAR ENDED DECEMBER 31,	2011	2010
<i>(Amounts in thousands)</i>		
Compensation and benefits expense for the prior year	\$ 226,422	\$ 199,053
Change from:		
Incentive compensation	8,084	1,636
Salaries and related payroll taxes	6,458	3,561
Restructuring and reorganization	3,603	2,970
Impact of change in Euro currency	2,542	(2,826)
Employee stock-based compensation	(9,994)	11,470
Other employee benefits	(1,419)	10,558
Compensation and benefits expense for the years ended December 31,	\$ 235,696	\$ 226,422

In 2011, incentive compensation increased primarily from stronger performance against current year objectives. Salaries and related payroll taxes increased from ordinary salary increases and our changing employee base mix as we invest in our sales, market development and compliance functions, partially offset by lower headcount from our restructuring and outsourcing initiatives. Restructuring and reorganization costs increased primarily due to employee severance costs associated with the centralization and relocation of certain functions. Employee stock-based compensation decreased from grants fully vesting in prior periods and forfeitures, partially offset by new grants. Other employee benefits decreased due to medical claim reimbursements in 2011 and non-restructuring severance costs in 2010. We incurred higher expense associated with our legacy defined benefit plans from the impact of lower interest rates on our obligations under those plans, net of a reduction in the number of eligible participants and reduced benefits in the legacy post-retirement medical plan.

In 2010, incentive compensation increased from higher participation levels that increased the compensation base as compared to the prior year, partially offset by lower sales incentives accruals. Salaries and related payroll taxes increased from ordinary salary increases. Restructuring and reorganization costs increased primarily due to employee severance costs associated with the centralization and relocation of certain functions. Stock-based compensation increased from grants made in 2010 and the second half of 2009 in connection with executive hires. Other employee benefits in 2009 included a \$14.3 million net curtailment gain on benefit plans, partially offset by \$3.9 million of executive severance costs.

Transaction and operations support Transaction and operations support expense primarily includes: marketing; professional fees and other outside services; telecommunications; agent support costs, including forms related to our products; non-compensation employee costs, including training, travel and relocation; bank charges; and the impact of foreign exchange rate movements on our monetary transactions, assets and liabilities

Table of Contents

denominated in a currency other than the U.S. dollar. Following is a summary of the change in transaction and operations support:

YEAR ENDED DECEMBER 31, <i>(Amounts in thousands)</i>	2011	2010
Transaction and operations support expense for the prior year	\$ 185,782	\$ 284,277
Change from:		
Legal reserves	10,990	(72,078)
Restructuring and reorganization	10,690	1,303
Marketing costs	10,434	6,901
Consultant fees and outsourcing	6,647	(641)
Foreign currency transaction losses	3,287	2,474
Goodwill and asset impairments	(1,558)	(16,206)
Other	1,322	(5,223)
Provision for loss	168	(15,025)
Transaction and operations support expense for the years ended December 31,	\$ 227,762	\$ 185,782

In 2011, transaction and operations support expense increased from the following items, inclusive of \$0.3 million of incremental expense from the higher euro exchange rate:

Legal fees and reserves increased primarily due to a \$16.4 million benefit in 2010 from the reversal of a reserve for a patent litigation matter, partially offset by lower settlement reserve additions for securities and other litigation matters. In addition, we incurred overall lower legal fees for regulatory matters, general advisement and licensing matters supporting operational activities.

Restructuring and reorganization costs increased primarily due to employee relocation and resourcing costs for the centralization and relocation of certain functions, including preparation for further centralization and operational changes in 2012.

Marketing costs increased from our expanded investment in marketing and the timing of marketing campaigns in 2011. During 2011, the Company increased its investment in marketing as a percent of revenue to return to historic levels and support growth in money transfer. In future years, we expect to return to more normalized increases in marketing expense.

Consultant fees and outsourcing costs increased primarily due to the outsourcing of certain transactional support and information technology activities, as well as tax advisement and our continued investment in the enhancement of our operational processes and systems that support our infrastructure.

Foreign exchange losses increased due to the impact of high volatility in foreign currency exchange rates on our growing assets, liabilities, revenue and expenses not denominated in the U.S. dollar.

Other expenses primarily relate to incremental employee costs from headcount additions to support business growth and initiatives and invest in the development of our personnel, as well as increased security costs from process enhancements and business and product growth. Targeted cost savings initiatives related to telecommunications and agent forms partially offset these increases.

Included in 2010 expense is \$1.5 million impairment from the disposition of a corporate aircraft.

Edgar Filing: MONEYGRAM INTERNATIONAL INC - Form 10-K

In 2010, transaction and operations support expense decreased from the following items, inclusive of a \$3.1 million benefit from a lower euro exchange rate:

Legal reserves and fees benefited in 2010 from a \$16.4 million reversal of a reserve for a patent litigation matter. In addition, expenses in 2009 included \$54.8 million of settlements related to securities litigation, the Federal Trade Commission and an unfavorable patent litigation ruling.

Restructuring and reorganization costs relate to the early phases of our global business transformation, primarily for the relocation of certain functions and preparation for 2011 actions.

Table of Contents

Marketing costs increased to support transaction and agent growth.

Foreign exchange losses increased due to the impact of high volatility in foreign currency exchange rates on our growing assets, liabilities, revenue and expenses not denominated in the U.S. dollar.

Other expenses decreased from targeted cost savings initiatives, particularly related to telecommunications and agent forms, partially offset by costs related to the implementation of the European Union Payment Services Directive and international licensing requirements.

Provision for loss increased primarily due to the closure of an international agent.

Goodwill and asset impairments in 2009 related to the disposition of two businesses and a corporate aircraft, discontinuation of certain bill payment product offerings and the Financial Paper Products segment.

Occupancy, equipment and supplies Occupancy, equipment and supplies expense includes facilities rent and maintenance costs, software and equipment maintenance costs, freight and delivery costs and supplies. Expenses in 2011 increased \$1.3 million, or three percent, compared to 2010 primarily due to \$1.0 million of restructuring costs relating to facility consolidation and relocation, partially offset by cost reductions due to our facilities rationalization efforts. As reflected in the amounts discussed above, the increase in the euro exchange rate increased occupancy, equipment and supplies expense by \$0.6 million in 2011.

Expenses in 2010 decreased \$0.9 million, or two percent, compared to 2009 due to lower delivery, postage and freight costs from controlled spending and the timing of agent roll-outs, partially offset by \$1.6 million of facility cease-use and related charges associated with restructuring activities. As reflected in the amounts discussed above, the decrease in the euro exchange rate decreased occupancy, equipment and supplies expense by \$0.6 million in 2010.

Depreciation and amortization Depreciation and amortization expense includes depreciation on point of sale equipment, agent signage, computer hardware and software, capitalized software development costs, office furniture, equipment and leasehold improvements and amortization of intangible assets. Depreciation and amortization decreased \$2.0 million, or four percent, in 2011 compared to 2010, primarily from lower depreciation expense on point of sale equipment, computer hardware and other equipment, partially offset by an increase in amortization of capitalized software from the 2010 implementation of a new system that increased the flexibility of our back office and improved operating efficiencies. As reflected in the amounts discussed above, the increase in the euro exchange rate increased depreciation and amortization expense by \$0.5 million in 2011. In connection with our global transformation initiative, we plan to make further investments in our infrastructure to enhance operating efficiencies and support our continued growth. As a result of these investments, depreciation and amortization expense may increase in the future.

Depreciation and amortization decreased \$9.0 million, or 16 percent, in 2010 compared to 2009, primarily from lower depreciation expense on point of sale equipment, computer hardware and other equipment, signs and amortization of capitalized software. As reflected in the amounts discussed above, the decrease in the euro exchange rate decreased depreciation and amortization expense by \$0.5 million in 2010.

Table of Contents**OTHER EXPENSE, NET**

Net Securities Gains Following is a summary of the components of net securities gains:

YEAR ENDED DECEMBER 31, (Amounts in thousands)	2011	2010	2009	2011 vs. 2010	2010 vs. 2009
Realized gains from available-for-sale investments	\$ (32,820)	\$	\$	\$ (32,820)	\$
Realized losses from available-for-sale investments			2		(2)
Other-than-temporary impairments from available-for-sale investments	4	334	4,069	(330)	(3,735)
Valuation gains on trading investments and related put options			(4,304)		4,304
Realized gains from trading investments and related put options		(2,449)	(7,557)	2,449	5,108
Net securities gains	\$ (32,816)	\$ (2,115)	\$ (7,790)	\$ (30,701)	\$ 5,675

Net securities gains of \$32.8 million in 2011 reflect the receipt of settlements equal to all outstanding principal from two securities classified in other asset-backed securities. These securities had previously been written down to a nominal fair value. In 2010, net securities gains include a \$2.4 million realized gain from the call of a trading investment, net of the reversal of the related put option, partially offset by \$0.3 million of other-than-temporary impairments related to other asset-backed securities. Net securities gains of \$7.8 million in 2009 reflect a \$7.6 million net realized gain from the call of two trading investments, net of the reversal of the related put options. Valuation gains of \$4.3 million on the put option related to the remaining trading investment were partially offset by \$4.1 million of other-than-temporary impairments related to other asset-backed securities.

Interest expense Interest expense decreased to \$86.2 million in 2011 from \$102.1 million in 2010 due to lower interest rates from our refinancing activities, partially offset by higher debt balances. Based on our outstanding debt balances and interest rates in effect at December 31, 2011, our interest expense is estimated at approximately \$65.4 million in 2012. This amount will be reduced by any prepayments of debt we may make in 2012. As a result of our debt refinancings in 2011, we anticipate a significant reduction in interest expense in 2012.

Interest expense decreased to \$102.1 million in 2010 from \$107.9 million in 2009 from lower outstanding debt balances, partially offset by \$8.6 million of pro rata write-offs of deferred financing costs and debt discount related to the \$165.0 million of debt prepayments in 2011. In 2009, we recorded a \$2.7 million pro rata write-off of deferred financing costs and debt discount in connection with the prepayment of \$185.0 million of debt in 2009.

Debt Extinguishment Loss The Company recognized total debt extinguishment losses of \$37.5 million in 2011. In connection with the refinancing of our 2008 senior debt facility in May 2011, we recorded \$5.2 million of debt extinguishment costs, primarily from the write-off of unamortized deferred financing costs. In connection with the partial redemption of the Second Lien Notes in November 2011, the Company incurred a prepayment penalty of \$23.2 million and wrote-off \$9.1 million of unamortized deferred financing costs. See Note 9 *Debt* in the Notes to Consolidated Financial Statements for further information.

Other Other expenses as summarized below include items deemed to be non-operating based on management's assessment of the nature of the item in relation to our core operations.

(Amounts in thousands)	2011	2010	2009
Capital transaction costs	\$ 6,446	\$	\$
Disposal loss from asset dispositions	972		
Impairment loss from asset dispositions	4,458		
Gain on forward foreign currency contracts			(2,401)
Total other	\$ 11,876	\$	\$ (2,401)

Table of Contents

Capital transactions costs relate to the 2011 Recapitalization and the secondary offering. Losses from asset dispositions relate to land sold as part of our global business transformation and a former bill payment service. Impairment losses relate to land sold and held for sale and intangible assets acquired in the second quarter of 2011. In 2009, the Company recognized a gain upon maturity of derivative contracts hedging forecasted revenues denominated in Euro.

Income taxes In 2011, the Company recognized a tax benefit of \$19.6 million, reflecting benefits of \$34.0 million for the reversal of a portion of the valuation allowance on domestic deferred tax assets and \$9.7 million on the sale of assets. Partially offsetting the benefit is tax expense for non-deductible restructuring expenses and a valuation allowance on a portion of deferred tax assets as a result of losses in certain jurisdictions outside of the United States. The effective tax rate for 2011 reflects the expected utilization of net tax loss carry-forwards based on the Company's review of current facts and circumstances, including the three year cumulative income position and expectations that the Company will maintain a cumulative income position in the future. Changes in facts and circumstances may cause the Company to record additional tax expense or benefits in the future. Based on current facts and circumstances, the Company does not anticipate any valuation allowance adjustments that will materially affect the effective rate in 2012.

In 2010, the Company had tax expense of \$14.6 million, including the release of \$11.9 million of valuation allowances on deferred tax assets in the U.S. jurisdiction. The decrease in the tax reserve in 2010 was driven by the favorable settlement or closing of years subject to state audit. Reversals and payments of 2009 legal reserves reduced the tax base on which loss carryovers can be utilized and the corresponding release of valuation allowances.

In 2009, the Company recognized a tax benefit of \$20.4 million, primarily reflecting the release of \$17.6 million of valuation allowances on deferred tax assets. Our pre-tax net loss of \$22.3 million, when adjusted for our estimated book to tax differences, resulted in taxable income, which allowed us to release some valuation allowances on our tax loss carryovers. These book to tax differences include impairments on securities and other assets and accruals related to separated employees, litigation and unrealized foreign exchange losses.

During the second quarter of 2010, the IRS completed its examination of the Company's consolidated income tax returns for 2005 to 2007, and issued its Revenue Agent Report, or RAR, challenging the Company's tax position relating to net securities losses and disallowing the related deductions. The Company disagrees with the RAR regarding the net securities losses and filed a protest letter. The Company had conferences with the IRS Appeals Office in 2010 and through October 2011, but was unable to reach agreement with the IRS Appeals Division. The Company is also currently under examination for its 2008 and 2009 tax returns, which had similar deductions. As a result, the Company expects to receive Notices of Deficiency within the next 12 months disallowing approximately \$908.5 million of cumulative deductions taken for net securities losses in its 2007, 2008 and 2009 tax returns. As of December 31, 2011, the Company has recognized a cumulative benefit of approximately \$136.1 million relating to these deductions. If the Notices of Deficiency contain adjustments with which the Company does not agree, the Company anticipates that it will file a petition in the United States Tax Court contesting such adjustments. While we believe our position will be sustained, if the Company's petition is denied in its entirety, the expense the Company would recognize as of December 31, 2011 is \$144.0 million, including any interest. The Company continues to believe that the amounts recorded in its consolidated financial statements reflect its best estimate of the ultimate outcome of this matter.

EARNINGS BEFORE INTEREST, TAXES, DEPRECIATION AND AMORTIZATION (EBITDA) AND ADJUSTED EBITDA

We believe that EBITDA (earnings before interest, taxes, depreciation and amortization, including agent signing bonus amortization) and Adjusted EBITDA (EBITDA adjusted for significant items) provide useful information to investors because they are an indicator of the strength and performance of ongoing business operations, including our ability to service debt and fund capital expenditures, acquisitions and operations. These calculations are commonly used as a basis for investors, analysts and credit rating agencies to evaluate and compare the operating performance and value of companies within our industry. In addition, our debt agreements require compliance with financial measures similar to Adjusted EBITDA. Finally, EBITDA and Adjusted EBITDA are financial measures used by management in reviewing results of operations, forecasting, assessing cash flow and capital, allocating resources and establishing employee incentive programs.

Table of Contents

Although we believe that EBITDA and Adjusted EBITDA enhance investors' understanding of our business and performance, these non-GAAP financial measures should not be considered an exclusive alternative to accompanying GAAP financial measures. The following table is a reconciliation of these non-GAAP financial measures to the related GAAP financial measures.

YEAR ENDED DECEMBER 31, <i>(Amounts in thousands)</i>	2011	2010	2009
Income (loss) before income taxes	\$ 39,770	\$ 58,380	\$ (22,322)
Interest expense	86,165	102,133	107,911
Depreciation and amortization	46,051	48,074	57,091
Amortization of agent signing bonuses	32,618	29,247	35,280
EBITDA	204,604	237,834	177,960
Significant items impacting EBITDA:			
Net securities gains	(32,816)	(2,115)	(7,790)
Severance and related costs	(31)	(346)	4,353
Restructuring and reorganization costs	23,470	5,853	
Capital transaction costs	6,446		
Asset impairment charges	3,372	1,829	18,329
Debt extinguishment	37,522		
Stock-based compensation expense	16,281	26,011	14,152
Net curtailment gain on benefit plans			(14,339)
Legal accruals	4,817	(14,572)	54,750
Adjusted EBITDA	\$ 263,665	\$ 254,494	\$ 247,415

For 2011, EBITDA decreased \$33.2 million, or 14 percent, to \$204.6 million from \$237.8 million in 2010. Adjusted EBITDA for 2011 increased \$9.2 million, or four percent, from \$254.5 million in 2010 to \$263.7 million in 2011, primarily due to money transfer growth, partially offset by increases in marketing spend, compensation, fee commissions expenses and lower net investment revenue.

For 2010, EBITDA increased \$59.9 million, or 34 percent, to \$237.8 million from \$178.0 million in 2009, reflecting lower legal accruals and asset impairment charges and the benefits of cost savings initiatives, partially offset by higher stock-based compensation and a net curtailment gain recorded in 2009. Adjusted EBITDA for 2010 increased \$7.1 million, or three percent, to \$254.5 million from \$247.4 million in 2009, primarily due to money transfer growth and cost savings initiatives.

SEGMENT PERFORMANCE

Our reporting segments are primarily organized based on the nature of products and services offered and the type of consumer served. We primarily manage our business through two reporting segments, Global Funds Transfer and Financial Paper Products. The Global Funds Transfer segment provides global money transfers and bill payment services to consumers through a network of agents and, in select markets, company-operated locations. The Financial Paper Products segment provides money orders to consumers through our retail and financial institution locations in the United States and Puerto Rico, and provides official check services to financial institutions in the United States. Businesses that are not operated within these segments are categorized as Other, and primarily relate to discontinued products and businesses. Segment pre-tax operating income and segment operating margin are used to review operating performance and allocate resources.

Segment accounting policies are the same as those described in Note 2 *Summary of Significant Accounting Policies* in the Notes to the Consolidated Financial Statements. We manage our investment portfolio on a consolidated level, with no specific investment security assigned to a particular segment. Investment revenue is allocated to each segment based on the average investment balances generated by that segment's sale of payment instruments during the period. Net securities (gains) losses are not allocated as the segments do not have control

Table of Contents

over portfolio investment decisions. While the derivatives portfolio is also managed on a consolidated level, each derivative instrument is utilized in a manner that can be identified to a particular segment. Interest rate swaps historically used to hedge variable rate commissions were identified with the official check product in the Financial Paper Products segment, while forward foreign exchange contracts are identified with the money transfer product in the Global Funds Transfer segment. Any interest rate swaps related to our credit agreements are not allocated to the segments.

Also excluded from operating income for Global Funds Transfer and Financial Paper Products are interest and other expenses related to our credit agreements, items related to our preferred stock, operating income from businesses categorized as Other, certain pension and benefit obligation expenses, director deferred compensation plan expenses, executive severance and related costs and certain legal and corporate costs not related to the performance of the segments.

Unallocated expenses in 2011 include \$9.5 million of corporate costs and \$0.4 million of costs associated with our global transformation initiative. In 2010, unallocated expenses include \$7.4 million of corporate costs, \$5.9 million of costs associated with our global transformation initiative and \$1.8 million of asset impairments.

Following is a reconciliation of segment operating income to the consolidated operating results:

YEAR ENDED DECEMBER 31, (Amounts in thousands)	2011	2010	2009
Operating income:			
Global Funds Transfer	\$ 124,793	\$ 139,314	\$ 82,647
Financial Paper Products	29,168	36,508	27,372
Other	(1,556)	(2,367)	(4,316)
Total segment operating income	152,405	173,455	105,703
Other unallocated expenses	9,888	15,057	30,305
Total operating income	142,517	158,398	75,398
Net securities gains	(32,816)	(2,115)	(7,790)
Interest expense	86,165	102,133	107,911
Debt extinguishment costs	37,522		
Other	11,876		(2,401)
Income (loss) before income taxes	\$ 39,770	\$ 58,380	\$ (22,322)

Table of Contents**GLOBAL FUNDS TRANSFER SEGMENT**

YEAR ENDED DECEMBER 31, <i>(Amounts in thousands)</i>	2011	2010	2009	2011 vs. 2010	2010 vs. 2009
Money transfer revenue:					
Fee and other revenue	\$ 1,039,525	\$ 926,489	\$ 890,675	12%	4%
Investment revenue	562	244	163	130%	50%
Total money transfer revenue	1,040,087	926,733	890,838	12%	4%
Bill payment revenue:					
Fee and other revenue	112,625	126,467	134,535	(11)%	(6)%
Investment revenue	4	81	76	(95)%	7%
Total bill payment revenue	112,629	126,548	134,611	(11)%	(6)%
Total Global Funds Transfer revenue:					
Fee and other revenue	1,152,150	1,052,956	1,025,210	9%	3%
Investment revenue	566	325	239	74%	36%
Total Global Funds Transfer revenue	1,152,716	1,053,281	1,025,449	9%	3%
Commissions expense	\$ 545,688	\$ 496,645	\$ 488,116	10%	2%
Operating income	\$ 124,793	\$ 139,314	\$ 82,647	(10)%	69%
Operating margin	10.8%	13.2%	8.1%		

Total revenue in the Global Funds Transfer segment consists primarily of fees on money transfers and bill payment transactions. For 2011 and 2010, Global Funds Transfer total revenue increased \$99.4 million and \$27.8 million, respectively, driven by money transfer volume growth, partially offset by a decline in bill payment revenue.

Money Transfer Fee and Other Revenue

YEAR ENDED DECEMBER 31, <i>(Amounts in thousands)</i>	2011	2010
Money Transfer fee and other revenue for the prior year	\$ 926,489	\$ 890,675
Change from:		
Volume	126,673	77,441
Euro exchange rate	16,456	(18,088)
Corridor mix and average face value per transaction	(19,889)	2,471
Introduction of \$50 price band	(9,286)	(24,628)
Other	(918)	(1,382)

Money Transfer fee and other revenue for the year ended December 31,	\$ 1,039,525	\$ 926,489
--	--------------	------------

In 2011, money transfer fee and other revenue increased 12 percent, driven by transaction volume growth of 14 percent and a higher euro exchange rate, partially offset by unfavorable changes in corridor mix, lower average face value per transaction and lower average money transfer fees from the \$50 price band in the United States.

In 2010, money transfer fee and other revenue increased four percent due to transaction volume growth of nine percent, favorable changes in corridor mix and higher average face value per transaction, partially offset by lower average money transfer fees from the introduction of the \$50 price band in the United States and the lower Euro exchange rate. In addition, money transfer fee and other revenue in 2009 included \$1.3 million of early termination fees.

Table of Contents

Money Transfer Transactions and Agent Locations

YEAR ENDED DECEMBER 31,	2011 vs. 2010	2010 vs. 2009
Total transactions	14%	9%
Transactions originating outside of the United States	15%	15%
Transactions originating in the United States	13%	6%
Transactions originating in the United States excluding those sent to Mexico	13%	8%
Transactions and the related fee revenue are viewed as originating from the send side of a transaction. Accordingly, discussion of transactions by geographic location refers to the region originating a transaction. Money transfer transactions originating in the United States, excluding transactions sent to Mexico, increased due primarily to an increase in intra-United States remittances. Transactions sent to Mexico grew by 12 percent. Mexico represented approximately nine percent of our total transactions in 2011 and 2010.		

Our money transfer agent base expanded 18 percent, 20 percent and eight percent in 2011, 2010 and 2009, respectively, primarily due to expansion in Africa, Asia Pacific, Indian subcontinent, Eastern Europe, Latin America and Western Europe.

Bill Payment Fee and Other Revenue

Bill payment fee and other revenue decreased 11 percent in 2011, with lower volumes contributing an \$11.3 million decline and lower average fees from changes in industry mix contributing a \$2.5 million decline. In 2010, bill payment fee and other revenue decreased six percent, with lower average fees from changes in industry mix contributing a \$5.3 million decline and lower volumes contributing a \$2.8 million decline. The impact of changes in industry mix reflect our continued growth in new emerging verticals that generate lower revenue per transaction than our traditional verticals. Due to economic conditions in the United States, volumes in our traditional verticals, such as auto and mortgage, continue to be negatively impacted. Bill payment transaction volume decreased seven percent and one percent in 2011 and 2010, respectively.

Global Funds Transfer Commissions Expense

YEAR ENDED DECEMBER 31, (Amounts in thousands)	2011	2010
Global Funds Transfer commissions expense for the prior year	\$ 496,645	\$ 488,116
Change from:		
Money Transfer volume growth	43,046	23,662
Euro exchange rate	7,941	(7,406)
Money transfer commission rates	452	(1,240)
Signing bonuses	3,644	(3,874)
Bill payment volumes	(6,238)	(2,946)
Bill payment commission rates	164	368
Other	34	(35)

Global Funds Transfer commissions expense for the year ended December 31	\$ 545,688	\$ 496,645
--	------------	------------

Commissions expense consists primarily of fees paid to our third-party agents for money transfer and bill payment services, as well as the amortization of capitalized agent signing bonuses. In 2011, signing bonus expense increased due to new agent signings. In 2010, signing bonus expense decreased as certain historical signing bonuses were fully amortized or written off in the prior year.

Operating Margin

The Global Funds Transfer segment operating margin decreased to 10.8 percent in 2011 from 13.2 percent in 2010. The lower margin in 2011 primarily reflects changes in corridor mix and average face value per money

Table of Contents

transfer transaction, higher signing bonus expense and higher marketing and compensation expense, partially offset by money transfer revenue growth net of related commissions expense. Included in the 2010 operating margin is a \$16.4 million benefit from a legal accrual reversal in 2010 related to a Global Funds Transfer patent, which added a 155 basis point benefit to the 2010 operating margin.

The operating margin for the Global Funds Transfer segment increased to 13.2 percent in 2010 from 8.1 percent in 2009. Included in the 2010 operating margin is a \$16.4 million benefit from a legal accrual reversal in 2010, which added a 155 basis point benefit to the 2010 operating margin. In 2009, the operating margin included \$34.5 million of legal reserves related to a patent lawsuit and a settlement agreement with the Federal Trade Commission, an incremental \$15.0 million provision for loss in 2009 from the closure of an international agent and a \$3.2 million goodwill impairment charge related to a discontinued bill payment product. After considering these items, the 2010 operating margin benefited from money transfer volume growth and lower signing bonus amortization, partially offset by lower bill payment revenue.

FINANCIAL PAPER PRODUCTS SEGMENT

YEAR ENDED DECEMBER 31, (Amounts in thousands)	2011	2010	2009	2011 vs. 2010	2010 vs. 2009
Money order revenue:					
Fee and other revenue	\$ 57,350	\$ 64,342	\$ 69,296	(11)%	(7)%
Investment revenue	3,100	3,951	5,584	(22)%	(29)%
Total money order revenue	60,450	68,293	74,880	(11)%	(9)%
Official check revenue:					
Fee and other revenue	21,069	25,696	23,690	(18)%	8%
Investment revenue	11,813	15,526	24,213	(24)%	(36)%
Total official check revenue	32,882	41,222	47,903	(20)%	(14)%
Total Financial Paper Products revenue:					
Fee and other revenue	78,419	90,038	92,986	(13)%	(3)%
Investment revenue	14,913	19,477	29,797	(23)%	(35)%
Total Financial Paper Products revenue	93,332	109,515	122,783	(15)%	(11)%
Commissions expense	\$ 2,396	\$ 3,931	\$ 8,295	(39)%	(53)%
Operating income	\$ 29,168	\$ 36,508	\$ 27,372	(20)%	33%
Operating margin	31.3%	33.3%	22.3%		

Total revenue in the Financial Paper Products segment consists of per-item fees charged to our financial institution customers and retail agents and investment revenue. Financial Paper Products revenue decreased \$16.2 million and \$13.3 million in 2011 and 2010, respectively.

Table of Contents**Financial Paper Products Revenue**

YEAR ENDED DECEMBER 31, <i>(Amounts in thousands)</i>	2011	2010
Financial Paper Products revenue for the prior year	\$ 109,515	\$ 122,783
Change in:		
Investment Revenue		
Lower yields	(1,946)	(7,480)
Average investable balances	(2,484)	(4,398)
Other investment revenue	(134)	1,557
Money order fee and other revenue	(6,992)	(4,954)
Official check fee and other revenue	(4,627)	2,007
Financial Paper Products revenue for the year ended December 31	\$ 93,332	\$ 109,515

Money order fee and other revenue decreased in 2011 due to a seven percent decline in volumes attributed to the attrition of agents from repricing initiatives, the continued migration by consumers to other payment methods, consumer pricing increases as agents pass along fee increases and the general economic environment. Official check fee and other revenue decreased from 2010 due to the run-off of official check financial institution customers. See *Net Investment Revenue Analysis* for discussion related to changes in investment revenue.

In 2010, money order fee and other revenue decreased due to a 15 percent decline in volumes attributed to the anticipated attrition of agents from repricing initiatives, the continued migration by consumers to other payment methods, consumer pricing increases as agents pass along fee increases and the general economic environment. Official check fee and other revenue increased from 2009 due to our official check repricing initiatives, partially offset by the run-off of official check financial institution customers. See *Net Investment Revenue Analysis* for discussion related to changes in investment revenue.

Financial Paper Products Commissions Expense

YEAR ENDED DECEMBER 31, <i>(Amounts in thousands)</i>	2011 vs. 2010	2010 vs. 2009
Financial Paper Products commissions expense for the prior year	\$ 3,931	\$ 8,295
Change in:		
Money order agent rebates from repricing initiatives	(957)	(1,267)
Signing bonus amortization	(272)	(2,472)
Investable balances	(97)	(174)
Investment rate	(209)	(451)
Financial Paper Products commissions expense for the year ended December 31	\$ 2,396	\$ 3,931

Commissions expense in the Financial Paper Products segment includes payments made to financial institution customers based on amounts generated by the sale of official checks times short-term interest rate indices, payments on money order transactions and amortization of signing bonuses. Commissions expense decreased 39 percent and 53 percent in 2011 and 2010, respectively, due primarily to lower money order agent rebates from our repricing initiatives and lower signing bonus amortization, as well as lower investment balances resulting from the run-off of official check financial institution customers. See *Net Investment Revenue Analysis* for further discussion of investment commissions expense.

Table of Contents

Operating Margin

The operating margin for the Financial Paper Products segment decreased to 31.3 percent in 2011 from 33.3 percent in 2010 due to volume and investment revenue declines. The operating margin for the Financial Paper Products segment increased to 33.3 percent in 2010 from 22.3 percent in 2009, reflecting \$6.1 million of goodwill and asset impairment charges in 2009 related to our money order business and lower commissions, partially offset by lower investment revenue in 2010.

TRENDS EXPECTED TO IMPACT 2012

The discussion of trends expected to impact our business in 2012 is based on information presently available and contains certain assumptions regarding future economic conditions. Differences in actual economic conditions during 2012 compared with our assumptions could have a material impact on our results. See *Cautionary Statements Regarding Forward-Looking Statements* and Part I, Item 1A, *Risk Factors* of this Annual Report on Form 10-K for additional factors that could cause results to differ materially from those contemplated by the following forward-looking statements.

Throughout 2011, global economic conditions remained weak. We cannot predict the duration or extent of the severity of these economic conditions, nor the extent to which these conditions could negatively affect our business, operating results or financial condition. While the money remittance industry has generally been resilient during times of economic softness, the current global economic conditions have continued to adversely impact the demand for money remittances. Given the global economic uncertainty, we have less visibility to the future and believe growth rates could continue to be impacted by slow economic conditions. In addition, bill payment products available in the United States have not been as resilient as money transfers.

While there is uncertainty around the global economy and the remittance industry, the World Bank, a key source of industry analysis for developing countries, is projecting seven percent remittance growth in 2012. Our growth has historically exceeded the World Bank projections. Our expansion in key global growth markets and strong partnership focus with our agents will continue to fuel this growth. Additionally, agent expansion and increasing productivity in our existing agent locations through marketing support, customer acquisition and new product innovation will drive growth. We believe all of these efforts will not only help to mitigate the effects of the current global economic conditions, but position us for enhanced market share and growth when the economy begins to recover.

For our Financial Paper Products segment, we expect the decline in overall paper-based transactions to continue in 2012. As a result of the pricing initiatives undertaken in prior years, we have reduced the commission rates paid to our official check financial institution customers and instituted certain per item and other fees for both the official check and money order services. In addition, the historically low interest rate environment has resulted in low or no commissions being paid to our official check financial institution customers. As a result, we anticipate that the Financial Paper Products segment will continue to experience financial institution and agent attrition in 2012.

We continue to see a trend among state, federal and international regulators toward enhanced scrutiny of anti-money laundering compliance, as well as consumer fraud prevention and education. As we continue to revise our processes and enhance our technology systems to meet regulatory trends, our operating expenses for compliance may increase.

Acquisition and Disposal Activity

Acquisition and disposal activity is set forth in Note 3 *Acquisitions and Disposals* of the Notes to Consolidated Financial Statements.

Table of Contents**LIQUIDITY AND CAPITAL RESOURCES**

We have various resources available to us for purposes of managing liquidity and capital needs, including our investment portfolio, credit facilities and letters of credit. We refer to our cash and cash equivalents, short-term investments, trading investments and related put options and available-for-sale investments collectively as our investment portfolio. We utilize the assets in excess of payment service obligations measure shown below in various liquidity and capital assessments. While assets in excess of payment service obligations, as defined, is a capital measure, it also serves as the foundation for various liquidity analyses.

Assets in Excess of Payment Service Obligations

<i>(Amounts in thousands)</i>	2011	2010
Cash and cash equivalents (substantially restricted)	\$ 2,572,174	\$ 2,865,941
Receivables, net (substantially restricted)	1,220,065	982,319
Short-term investments (substantially restricted)	522,024	405,769
Available-for-sale investments (substantially restricted)	102,771	160,936
	4,417,034	4,414,965
Payment service obligations	(4,205,375)	(4,184,736)
Assets in excess of payment service obligations	\$ 211,659	\$ 230,229

Liquidity

Our primary sources of liquidity include cash flows generated by the sale of our payment instruments, our cash and cash equivalent and short-term investment balances, proceeds from our investment portfolio and credit capacity under our credit facilities. Our primary operating liquidity needs relate to the settlement of payment service obligations to our agents and financial institution customers, as well as general operating expenses.

To meet our payment service obligations at all times, we must have sufficient highly liquid assets and be able to move funds globally on a timely basis. On average, we receive in and pay out a similar amount of funds on a daily basis to collect and settle the principal amount of our payment instruments sold and related fees and commissions with our end consumers and agents. We use the incoming funds from sales of new payment instruments to settle our payment service obligations for previously sold payment instruments. This pattern of cash flows allows us to settle our payment service obligations through on-going cash generation rather than liquidating investments or utilizing our revolving credit facility. We have historically generated, and expect to continue generating, sufficient cash flows from daily operations to fund ongoing operational needs.

We also seek to maintain funding capacity beyond our daily operating needs to provide a cushion through the normal fluctuations in our payment service assets and obligations, as well as to provide working capital for the operational and growth requirements of our business. While the assets in excess of payment service obligations would be available to us for our general operating needs and investment in the Company, we consider our assets in excess of payment service obligations as assurance that regulatory and contractual requirements are maintained. We believe we have sufficient liquid assets and funding capacity to operate and grow our business for the next 12 months. Should our liquidity needs exceed our operating cash flows, we believe that external financing sources, including availability under the 2011 Credit Agreement, will be sufficient to meet our anticipated funding requirements.

Cash and Cash Equivalents and Short-term Investments To ensure we maintain adequate liquidity to meet our operating needs at all times, we keep a significant portion of our investment portfolio in cash and cash equivalents and short-term investments at financial institutions rated Aa3 or better by Moody's Investor Service, or Moody's, and AA- or better by Standard & Poors, or S&P, and in U.S. government money market funds rated Aaa by Moody's and AA+ by S&P. As of December 31, 2011, cash and cash equivalents and short-term

Table of Contents

investments totaled \$3.1 billion, representing 97 percent of our total investment portfolio. Cash equivalents and short-term investments consist of money market funds that invest in U.S. government and government agency securities, time deposits and certificates of deposit.

Clearing and Cash Management Banks We collect and disburse money through a network of clearing and cash management banks. The relationships with these banks are a critical component of our ability to maintain our global cash management requirements on a timely basis. We have agreements with nine clearing banks that provide clearing and processing functions for official checks, money orders and other draft instruments. We have seven official check clearing banks, of which four banks are currently operating under post-termination arrangements of their contracts. The remaining three active banks provide sufficient capacity for our official check business. We rely on two banks to clear our retail money orders and believe that these banks provide sufficient capacity for that business. One clearing bank contract has financial covenants that include the maintenance of total cash, cash equivalents, receivables and investments in an amount at least equal to total outstanding payment service obligations, as well as the maintenance of a minimum 103 percent ratio of total assets held at that bank to instruments estimated to clear through that bank. Financial covenants related to special purpose entities, or SPEs, include the maintenance of specified ratios of greater than 100 percent of cash, cash equivalents and investments held in the SPE to outstanding payment instruments issued by the related financial institution.

We also maintain relationships with a variety of domestic and international cash management banks for ACH and wire transfer services used in the movement of consumer funds and agent settlements. There are a limited number of international cash management banks with a network large enough to manage cash settlements for our entire agent base, and some of these large international banks have opted not to bank money service businesses. As a result, we also utilize regional or country-based banking partners in addition to large cash management banks.

Special Purpose Entities For certain of our financial institution customers, we established individual SPEs upon the origination of our relationship. Along with operational processes and certain financial covenants, these SPEs provide the financial institutions with additional assurance of our ability to clear their official checks. Under these relationships, the investment portfolio assets and payment service obligations related to the financial institution customer are all held by the SPE. In most cases, the fair value of the investment portfolio must be maintained in excess of the payment service obligations. As the related financial institution customer sells our payment service instruments, the principal amount of the instrument and any fees are paid into the SPE. As payment service instruments issued by the financial institution customer are presented for payment, the cash and cash equivalents within the SPE are used to settle the instrument. As a result, cash and cash equivalents within SPEs are generally not available for use outside of the SPE. We remain liable to satisfy the obligations, both contractually and under the Uniform Commercial Code, as the issuer and drawer of the official checks regardless of the existence of the SPEs. Accordingly, we consolidate all of the assets and liabilities of these SPEs in our Consolidated Balance Sheets, with the individual assets and liabilities of the SPEs classified in a manner similar to our other assets and liabilities. Under limited circumstances, the financial institution customers that are beneficiaries of the SPEs have the right to either demand liquidation of the assets in the SPEs or to replace us as the administrator of the SPE. Such limited circumstances consist of material, and in most cases continued, failure to uphold our warranties and obligations pursuant to the underlying agreements with the financial institutions.

Consistent with 2010, the combined SPEs held 2 percent of our \$3.2 billion portfolio as of December 31, 2011. As the SPEs relate to financial institution customers we terminated in connection with the restructuring of our official check business, we expect the SPEs to decline as a percentage of our portfolio.

Table of Contents

Credit Facilities Our credit facilities consist of the 2011 Credit Agreement and Second Lien Notes. See Note 9 *Debt* of the Notes to the Consolidated Financial Statements for further information. Following is a summary of principal payments and debt issuance from January 1, 2009 to December 31, 2011:

(Amounts in thousands)	2008 Senior Facility			2011 Credit Agreement		Second Lien Notes	Total Debt
	Tranche A	Tranche B	Revolving facility	Term loan	Incremental term loan		
Balance at January 1, 2009	\$ 100,000	\$ 248,125	\$ 145,000	\$	\$	\$ 500,000	\$ 993,125
2009 payments		(41,875)	(145,000)				(186,875)
2010 payments		(165,000)					(165,000)
2011 new debt issued				390,000	150,000		540,000
2011 payments	(100,000)	(41,250)		(50,000)	(375)	(175,000)	(366,625)
Balance at December 31, 2011	\$	\$	\$	\$ 340,000	\$ 149,625	\$ 325,000	\$ 814,625

Outside of payments relating to refinance debt, we have paid down \$427.3 million of our outstanding debt since January 1, 2009. We continue to evaluate further reductions of our outstanding debt ahead of scheduled maturities. Following is a summary of our outstanding debt at December 31:

(Amounts in thousands)	Interest Rate for 2011	Original Facility Size	Outstanding		2012 Interest ⁽¹⁾
			2011	2010	
Senior Tranche A Loan, due 2013	5.75%	\$	\$	\$ 100,000	\$
Senior Tranche B, net of discount, due 2013	7.25%			39,946	
Senior revolving credit facility, due 2013	5.75%				
2008 Credit Agreement				139,946	
Senior secured credit facility, net of discount, due 2017	4.52%	390,000	339,232		15,555
Senior secured incremental term loan, net of discount, due 2017	4.50%	150,000	146,656		6,820
Senior revolving credit facility, due 2016		150,000			
2011 Credit Agreement		690,000	485,888		22,375
Second lien notes, due 2018	13.25%	500,000	325,000	500,000	43,063
Total debt		\$ 1,190,000	\$ 810,888	\$ 639,946	\$ 65,438

⁽¹⁾ Reflects interest expected to be paid in 2012 using the rates in effect on December 31, 2011, assuming no prepayments of principal. Our revolving credit facility has \$137.3 million of borrowing capacity as of December 31, 2011, net of \$12.7 million of outstanding letters of credit. The incremental term loan has quarterly principal payments of \$0.4 million beginning September 30, 2011, with the remaining outstanding principal due November 2017. At each reset period, we may elect an interest rate for the 2011 Credit Agreement, based on the BOA prime rate plus 225 basis points or the Eurodollar rate plus 325 basis points. If the Eurodollar rate is elected, there is a minimum rate of 1.25 percent. Fees on the daily unused availability under the revolving credit facility are 62.5 basis points. Since inception of the 2011 Credit Agreement and through the date of this filing, the Company elected the Eurodollar rate as its primary interest basis, with a minimal amount of the term debt at the BOA prime rate. Our 2011 Credit Agreement has a provision to step down our applicable borrowing margin by .25 percent if our leverage ratio falls below 3.0.

Edgar Filing: MONEYGRAM INTERNATIONAL INC - Form 10-K

Our 2011 Credit Agreement contains various financial and non-financial covenants. A violation of these covenants could negatively impact our liquidity by restricting our ability to borrow under the revolving credit

Table of Contents

facility and/or causing acceleration of amounts due under the credit facilities. The financial covenants in our 2011 Credit Agreement measure leverage, interest coverage and liquidity. Leverage is measured through a senior secured debt ratio calculated as consolidated indebtedness to consolidated EBITDA, adjusted for certain items such as net securities (gains) losses, stock-based compensation expense, certain legal settlements and asset impairments, among other items, also referred to as adjusted EBITDA. This measure is similar, but not identical, to the measure discussed under *EBITDA and Adjusted EBITDA*. Interest coverage is calculated as adjusted EBITDA to net cash interest expense. Liquidity is measured as assets in excess of payment service obligations adjusted for various exclusions. We are in compliance with all financial covenants as of December 31, 2011 by a substantial margin.

The terms of our 2011 Credit Agreement also place restrictions on certain types of payments we may make, including dividends on our common stock, acquisitions and the funding of foreign subsidiaries, among others. We do not anticipate that these restrictions will limit our ability to grow the business either domestically or internationally. In addition, we may only make dividend payments to common stockholders subject to an incremental build-up based on our consolidated net income in future periods. No dividends were paid on our common stock in 2011, and we do not anticipate declaring any dividends on our common stock during 2012.

Equity Registration Rights Agreement The Company and the Investors also entered into a Registration Rights Agreement, or the Equity Registration Rights Agreement, on March 25, 2008, with respect to the Series B Stock and D Stock, and the common stock owned by the Investors and their affiliates, also referred to collectively as the Registrable Securities. Under the terms of the Equity Registration Rights Agreement, we are required to file with the SEC a shelf registration statement relating to the offer and sale of the Registrable Securities and keep such shelf registration statement continuously effective under the Securities Act of 1933, as amended, or the Securities Act, until the earlier of (1) the date as of which all of the Registrable Securities have been sold, (2) the date as of which each of the holders of the Registrable Securities is permitted to sell its Registrable Securities without registration pursuant to Rule 144 under the Securities Act and (3) fifteen years. The holders of the Registrable Securities are also entitled to six demand registrations and unlimited piggyback registrations during the term of the Equity Registration Rights Agreement. On July 17, 2011, the SEC declared effective a shelf registration statement on Form S-3 that permits the offer and sale of the Registrable Securities, as required by the terms of the Equity Registration Rights Agreement. The registration statement also permits the Company to offer and sell up to \$500 million of its common stock, preferred stock, debt securities or any combination of these, from time to time, subject to market conditions and the Company's capital needs. In December 2011, the Company completed the secondary offering pursuant to which the Investors sold an aggregate of 10,237,524 shares of Company common stock at a price of \$16.25 per share in an underwritten offering.

Credit Ratings As of December 31, 2011 our credit ratings from Moody's and S&P were B1 and BB-, respectively. Our credit facilities, regulatory capital requirements and other obligations are not impacted by the level of our credit ratings. However, higher credit ratings could increase our ability to attract capital, reduce our weighted average cost of capital and obtain more favorable terms with our lenders, agents and clearing and cash management banks.

Contractual and Regulatory Capital

Regulatory Capital Requirements We have capital requirements relating to government regulations in the United States and other countries where we operate. Such regulations typically require us to maintain certain assets in a defined ratio to our payment service obligations. Through our wholly owned subsidiary and licensed entity, MPSI, we are regulated in the United States by various state agencies that generally require us to maintain a pool of liquid assets and investments in an amount generally equal to the regulatory payment service obligation measure, as defined by each state, for our regulated payment instruments, namely teller checks, agent checks, money orders and money transfers. The regulatory requirements do not require us to specify individual assets held to meet our payment service obligations, nor are we required to deposit specific assets into a trust, escrow or other special account. Rather, we must maintain a pool of liquid assets. Provided we maintain a total pool of liquid assets sufficient to meet the regulatory and contractual requirements, we are able to withdraw, deposit or sell our individual liquid assets at will, without prior notice, penalty or limitations.

Table of Contents

The regulatory requirements in the United States are similar to our internal measure of assets in excess of payment service obligations set forth in *Assets in Excess of Payment Service Obligations*. The regulatory payment service assets measure varies by state. The most restrictive states may exclude assets held at banks that do not belong to a national insurance program, varying amounts of accounts receivable balances and/or assets held in the SPEs. The regulatory payment service obligation measure varies by state, but in all cases is substantially lower than our payment service obligations as disclosed in the Consolidated Balance Sheets as we are not regulated by state agencies for payment service obligations resulting from outstanding cashier's checks or for amounts payable to agents and brokers. All states require MPSI to maintain positive net worth, with one state also requiring MPSI to maintain positive tangible net worth of \$100.0 million.

We are also subject to regulatory requirements in various countries outside of the United States, which typically result in needing to either prefund agent settlements or hold minimum required levels of cash within the applicable country. The most material of these requirements is in the United Kingdom, where our licensed entity, MoneyGram International Limited, is required to maintain a cash and cash equivalent balance equal to outstanding payment instruments issued in the European community. This amount will fluctuate based on our level of activity within the European Community, and is likely to increase over time as our business expands in that region. Assets used to meet these regulatory requirements support our payment service obligations, but are not available to satisfy other liquidity needs. As of December 31, 2011, we had approximately \$79.5 million of cash deployed outside of the United States to meet regulatory requirements.

We were in compliance with all financial regulatory requirements as of December 31, 2011. We believe that our liquidity and capital resources will remain sufficient to ensure on-going compliance with all financial regulatory requirements.

Available-for-sale Investments Our investment portfolio includes \$102.8 million of available-for-sale investments as of December 31, 2011. U.S. government agency residential mortgage-backed securities and U.S. government agency debentures compose \$78.5 million of our available-for-sale investments, while other asset-backed securities compose the remaining \$24.2 million. In completing our 2008 Recapitalization in 2008, we contemplated that our other asset-backed securities might decline further in value. Accordingly, the capital raised assumed a zero value for these securities and any further unrealized losses and impairments on these securities are already funded and would not cause us to seek additional capital or financing.

Other Funding Sources and Requirements

Contractual Obligations The following table includes aggregated information about the Company's contractual obligations that impact our liquidity and capital needs. The table includes information about payments due under specified contractual obligations, aggregated by type of contractual obligation.

Contractual Obligations

(Amounts in thousands)	Total	Payments due by period			
		Less than 1 year	1-3 years	4-5 years	More than 5 years
Debt, including interest payments	\$ 1,219,547	\$ 68,513	\$ 136,120	\$ 135,103	\$ 879,811
Operating leases	53,952	12,927	22,446	10,956	7,623
Signing bonuses	11,337	4,700	6,105	532

Marketing	8,338	8,338			
Other obligations	291	291			
Total contractual cash obligations	\$ 1,295,385	\$ 96,689	\$ 164,671	\$ 146,591	\$ 887,434

Table of Contents

Debt consists of amounts outstanding under our 2011 Credit Agreement and the Second Lien Notes at December 31, 2011, as shown in *Schedule of Credit Facilities*, as well as related interest payments, facility fees and annual commitment fees. Our Consolidated Balance Sheet at December 31, 2011 includes \$810.9 million of debt, net of unamortized discounts of \$3.7 million, and \$0.3 million of accrued interest on the debt. The above table reflects the principal and interest that will be paid through the maturity of the debt using the rates in effect on December 31, 2011, and assuming no prepayments of principal and the continued payment of interest on the Second Lien Notes. Operating leases consist of various leases for buildings and equipment used in our business. Signing bonuses are payments to certain agents and financial institution customers as an incentive to enter into long-term contracts. Marketing and signage are purchase order commitments. Other obligations are unfunded capital commitments related to our limited partnership interests included in Other asset-backed securities in our investment portfolio. We have other commitments as described further below that are not included in this table as the timing and/or amount of payments are difficult to estimate.

We have a funded, noncontributory pension plan that is frozen to both future benefit accruals and new participants. Our funding policy has historically been to contribute the minimum contribution required by applicable regulations. We made contributions of \$7.9 million to the defined benefit pension plan during 2011. We anticipate a minimum contribution of up to \$10.2 million to the pension plan trust in 2012. We also have certain unfunded pension and postretirement plans that require benefit payments over extended periods of time. During 2011, we paid benefits totaling \$4.6 million related to these unfunded plans. Benefit payments under these unfunded plans are expected to be \$4.1 million in 2012. Expected contributions and benefit payments under these plans are not included in the above table, as it is difficult to estimate the timing and amount of benefit payments and required contributions beyond the next 12 months. See Note 10 *Pensions and Other Benefits* of the Notes to the Consolidated Financial Statements for further information.

The liability for unrecognized tax benefits was \$9.6 million as of December 31, 2011. In addition, the Company expects to receive Notices of Deficiency from the IRS disallowing cumulative deductions taken for 2007, 2008 and 2009. If the Notices of Deficiency contain adjustments with which the Company does not agree, the Company anticipates that it will file a petition in the United States Tax Court contesting such adjustments. While we believe the Company's position will be sustained, if the Company's petition is denied in its entirety, the Company would be required to make cash payments of \$105.4 million based on benefits taken through December 31, 2011. As there is a high degree of uncertainty regarding the timing of potential future cash outflows associated with liabilities, we are unable to make a reasonably reliable estimate of the amount and period in which these liabilities might be paid. These amounts are excluded from the table above as there is a high degree of uncertainty regarding the amount and timing of future cash outflows.

In limited circumstances, we may grant minimum commission guarantees as an incentive to new or renewing agents for a specified period of time at a contractually specified amount. Under the guarantees, we will pay to the agent the difference between the contractually specified minimum commission and the actual commissions earned by the agent. As of December 31, 2011, the minimum commission guarantees had a maximum payment of \$7.2 million over a weighted average remaining term of 3.5 years. The maximum payment is calculated as the contractually guaranteed minimum commission times the remaining term of the contract and, therefore, assumes that the agent generates no money transfer transactions during the remainder of its contract. As of December 31, 2011, the liability for minimum commission guarantees is \$1.7 million. Minimum commission guarantees are not reflected in the table above.

Table of Contents**Analysis of Cash Flows****Cash Flows from Operating Activities**

YEAR ENDED DECEMBER 31, <i>(Amounts in thousands)</i>	2011	2010	2009
Net income (loss)	\$ 59,406	\$ 43,801	\$ (1,906)
Total adjustments to reconcile net income (loss)	61,617	72,398	158,909
Net cash provided by operating activities before changes in payment service assets and obligations	121,023	116,199	157,003
Change in cash and cash equivalents (substantially restricted)	291,767	510,883	700,557
Change in trading investments and related put options, net (substantially restricted)		29,400	32,900
Change in receivables, net (substantially restricted)	(245,319)	63,037	186,619
Change in payment service obligations	20,639	(658,782)	(594,545)
Net change in payment service assets and obligations	67,087	(55,462)	325,531
Net cash provided by continuing operating activities	\$ 188,110	\$ 60,737	\$ 482,534

Operating activities generated net cash of \$188.1 million, \$60.7 million and \$482.5 million in 2011, 2010 and 2009, respectively. Our net cash provided by operating activities before changes in payment service assets and obligations was \$121.0 million, \$116.2 million and \$157.0 million in 2011, 2010 and 2009, respectively. Changes in our payment service assets and obligations generated an additional \$67.1 million and \$325.5 million of operating cash flows in 2011 and 2009, respectively, and utilized \$55.5 million of operating cash flows in 2010, from the timing of collection and settlement of our payment service assets and obligations, as well as the changes in composition of our investment portfolio. While we consider our overall investment portfolio to be part of our operations, in accordance with GAAP, investments in cash and cash equivalents and trading investments are presented as part of operating activities, while investments in short-term and available-for-sale investment securities are presented as part of investing activities. To understand the cash flow activity of our core business, the cash flows from operating activities relating to the payment service assets and obligations should be reviewed in conjunction with the net cash flows from investing activities related to our short-term investments and available-for-sale investments.

We received income tax refunds of \$3.8 million and \$43.5 million during 2010 and 2009, respectively, and made income tax payments of \$3.9 million and \$2.2 million, respectively. We also reinvested \$141.0 million and \$32.9 million of proceeds from our available-for-sale investments and trading investments, respectively, into cash and cash equivalents during 2009.

Due to our regulatory capital requirements, we deem our payment service assets in their entirety to be substantially restricted. As a result, we do not separately display in our statement of cash flows an unrestricted measure of cash and cash equivalents and the related change in such measure for the period. If we were to separately display such an unrestricted measure, it would approximate our assets in excess of payment service obligations measure, and the amount of change for the period would approximate the change in our assets in excess of payment service obligations for the period. Our assets in excess of payment service obligations decreased \$18.6 million, \$83.1 million and \$77.7 million during 2011, 2010 and 2009, respectively, primarily reflecting our continued debt pay-downs.

Table of Contents**Cash Flows from Investing Activities**

YEAR ENDED DECEMBER 31, <i>(Amounts in thousands)</i>	2011	2010	2009
Net investment activity	\$ (28,729)	\$ 135,216	\$ (259,001)
Purchases of property and equipment	(44,223)	(40,191)	(37,948)
Cash paid for acquisitions, net of cash acquired	(53)	(330)	(3,210)
Proceeds from disposal of assets and businesses	2,683	7,537	4,500
Net cash (used in) provided by investing activities	\$ (70,322)	\$ 102,232	\$ (295,659)

Investing activities used cash of \$70.3 million in 2011, primarily for the purchase of \$28.7 million of short-term investments, net of investment maturities and settlements and \$44.2 million of capital expenditures, partially offset by proceeds of \$2.7 million from disposal of assets and a business. Proceeds of \$511.6 million from the maturity and settlement of available-for-sale and short-term investments were reinvested into short-term investments.

Investing activities generated cash of \$102.2 million in 2010, primarily from excess proceeds of \$135.2 million from the maturity and settlement of investments that were reinvested into cash equivalents and proceeds of \$7.5 million from the sale of the corporate airplane, partially offset by the purchase of \$40.2 million of capital expenditures and a \$0.3 million payment, net of cash acquired, for the acquisition of Blue Dolphin.

Investing activities used cash of \$295.7 million in 2009, primarily for the purchase of \$259.0 million of short-term investments, net of investment maturities, \$37.9 million of capital expenditures and \$3.2 million for the acquisition of Raphaels Bank, partially offset by proceeds of \$4.5 million from the sale of FSMC, Inc.

Cash Flows from Financing Activities

YEAR ENDED DECEMBER 31, <i>(Amounts in thousands)</i>	2011	2010	2009
Proceeds from issuance of debt	\$ 536,025	\$	\$
Transaction costs for issuance and amendment of debt	(17,066)		
Payments on debt	(366,625)	(165,000)	(41,875)
Prepayment penalty on debt	(23,188)		
Payments on revolving credit facilities			(145,000)
Additional consideration issued in connection with the conversion of mezzanine equity	(218,333)		
Transaction costs for the conversion and issuance of stock	(5,444)		
Cash dividend paid on mezzanine equity	(20,477)		
Transaction costs for the secondary offering	(3,396)		
Proceeds from exercise of stock options	716	2,031	
Net cash used in financing activities	\$ (117,788)	\$ (162,969)	\$ (186,875)

In 2011, financing activities used \$117.8 million of cash primarily associated with the debt prepayments and transaction costs related to our 2011 Recapitalization and debt refinancing. In 2010, financing activities used \$163.0 million of cash primarily for \$165.0 million prepayments on Tranche B of our 2008 senior facility, partially offset by \$2.0 million of cash from the exercise of stock options. In 2009, financing activity used cash of \$186.9 million for payments totaling \$145.0 million to pay our revolving credit facility in full and payments totaling \$41.9 million on Tranche B of our 2008 senior facility, consisting of a \$40.0 million prepayment and \$1.9 million of mandatory quarterly payments.

Table of Contents

Mezzanine Equity and Stockholders' Deficit

Mezzanine Equity See Note 11 *Mezzanine Equity* of the Notes to the Consolidated Financial Statements for information regarding the mezzanine equity.

Stockholders' Deficit The Company is authorized to repurchase up to 12,000,000 shares. As of December 31, 2011, we had repurchased a total of 6,795,017 shares of our common stock under this authorization and have remaining authorization to purchase up to 5,204,983 shares.

Under the terms of our outstanding credit facilities, we are limited in our ability to pay dividends on our common stock. No dividends were paid on our common stock in 2011 and we do not anticipate declaring any dividends on our common stock during 2012.

Off-Balance Sheet Arrangements

None.

Enterprise Risk Management

Risk is an inherent part of any business. Our most prominent risk exposures are credit, interest rate, foreign currency exchange and operational risk. See Part 1, Item 1A *Risk Factors* for a description of the principal risks to our business. Appropriately managing risk is important to the success of our business, and the extent to which we effectively manage each of the various types of risk is critical to our financial condition and profitability. Our risk management objective is to monitor and control risk exposures to produce steady earnings growth and long-term economic value.

Management implements policies approved by our Board of Directors that cover our investment, capital, credit and foreign currency practices and strategies. The Board receives periodic reports regarding each of these areas and approves significant changes to policy and strategy. An Asset/Liability Committee, composed of senior management, routinely reviews investment and risk management strategies and results. A Credit Committee, composed of senior management, routinely reviews credit exposure to our agents.

Following is a discussion of the risks we have deemed most critical to our business and the strategies we use to manage and mitigate such risks. While containing forward-looking statements related to risks and uncertainties, this discussion and related analyses are not predictions of future events. MoneyGram's actual results could differ materially from those anticipated due to various factors discussed under *Cautionary Statements Regarding Forward-Looking Statements* and under *Risk Factors* in Part 1, Item 1A of this Annual Report on Form 10-K.

Credit Risk

Credit risk, or the potential risk that we may not collect amounts owed to us, affects our business primarily through receivables, investments and derivative financial instruments. In addition, the concentration of our cash, cash equivalents and investments at large financial institutions exposes us to credit risk.

Investment Portfolio Credit risk from our investment portfolio relates to the risk that we may be unable to collect the interest or principal owed to us under the legal terms of the various securities. Our primary exposure to credit risk arises through the concentration of a large amount of our investment portfolio at a few large financial institutions, also referred to as financial institution risk, as well as a concentration in securities issued by, or collateralized by, U.S. government agencies.

At December 31, 2011, the Company's investment portfolio of \$3.2 billion was primarily comprised of cash, U.S. government money market funds, bank deposits and bank time deposits. Based on investment policy restrictions in the Company's second lien note indenture, investments are limited to U.S. Government Securities and securities of agencies of the U.S. Government, certificates of deposit and time deposits with banks with

Table of Contents

minimum debt ratings of A3 (Moody's) and A- (S&P), commercial paper with minimum ratings of A-1 (Moody's) and P-1 (S&P) and U.S. dollar denominated SEC registered senior notes of corporations with minimum ratings of A3 and A-. No maturity in the portfolio can exceed 24 months from the date of purchase.

The financial institutions holding significant portions of our investment portfolio act as custodians for our asset accounts, serve as counterparties to our foreign currency transactions and conduct cash transfers on our behalf for the purpose of clearing our payment instruments and related agent receivables and agent payables. Through certain check clearing agreements and other contracts, we are required to utilize several of these financial institutions. As a result of the credit market crisis, several financial institutions have faced capital and liquidity issues that led them to restrict credit exposure. This has led certain financial institutions to require that we maintain pre-defined levels of cash, cash equivalents and investments at these financial institutions overnight, with no restrictions to our usage of the assets during the day. While the credit market crisis and recession affected all financial institutions, those institutions holding our assets are well capitalized, and there have been no significant concerns as to their ability to honor all obligations related to our holdings.

With respect to our credit union customers, our credit exposure is partially mitigated by National Credit Union Administration insurance. However, as our credit union customers were not insured by a Temporary Liquidity Guarantee Program (TLGP) - equivalent program, we have required certain credit union customers to provide us with larger balances on deposit and/or to issue cashier's checks only. While the value of these assets are not at risk in a disruption or collapse of a counterparty financial institution, the delay in accessing our assets could adversely affect our liquidity and potentially our earnings depending upon the severity of the delay and corrective actions we may need to take. Corrective actions could include draws upon our 2011 Credit Agreement to provide short-term liquidity until our assets are released, reimbursements of costs or payment of penalties to our agents and higher banking fees to transition banking relationships in a short timeframe.

The concentration in U.S. government agencies includes agencies placed under conservatorship by the U.S. government in 2008 and extended unlimited lines of credit from the U.S. Treasury. The implicit guarantee of the U.S. government and its actions to date support our belief that the U.S. government will honor the obligations of its agencies if the agencies are unable to do so themselves.

Table of Contents

The following table shows categories of our investment portfolio held within and outside of the United States, with each section progressing from the Company's perceived lowest to highest credit risk. All but \$24.2 million of the investment portfolio is invested in cash, cash equivalents, short-term investments and investments issued or collateralized by U.S. government agencies. Approximately 97 percent of the portfolio is invested in cash, cash equivalents and short-term investments, with 97 percent of our total investment portfolio invested at financial institutions located within the United States. At December 31, 2011, our investment portfolio was distributed among 53 financial institutions as shown below. To prevent duplication in counts, the number of financial institutions holding our investment portfolio is shown on an incremental basis.

<i>(Amounts in thousands)</i>	Number of Financial Institutions	Amount	Percent of Investment Portfolio
Cash equivalents collateralized by securities issued by U.S. government agencies	6	\$ 555,659	17%
Available-for-sale investments issued or collateralized by U.S. government agencies	N/A	78,539	2%
Cash, cash equivalents and short-term investments at institutions rated AA	7	1,749,917	55%
Cash, cash equivalents and short-term investments at institutions rated A	6	664,609	21%
Cash, cash equivalents and short-term investments at institutions rated below BBB	8	15,976	1%
Other asset-backed securities	N/A	24,232	1%
Investment portfolio held within the United States	27	3,088,932	97%
Cash held on-hand at owned retail locations	N/A	8,861	
Cash, cash equivalents and short-term investments held at institutions rated AA	6	27,745	1%
Cash, cash equivalents and short-term investments at institutions rated A	7	41,049	1%
Cash, cash equivalents and short-term investments at institutions rated below A	13	30,382	1%
Investment portfolio held outside the United States	26	108,037	3%
Total investment portfolio	53	\$ 3,196,969	100%

Receivables We have credit exposure to receivables from our agents through the money transfer and money order settlement process. These receivables originate from independent agents who collect funds from customers who are transferring money or buying money orders, and agents who receive proceeds from us in anticipation of payment to the recipients of money transfers. The Company has a credit risk management function that conducts the underwriting of credit on new agents as well as conducting credit surveillance on all agents to monitor their financial health and the history of settlement activity with us. The Company's credit risk management function also maintains daily contact with agents, and performs a collection function. The annual credit losses from our agents are less than .55 percent, and have been declining for the last three years. As of December 31, 2011, we had a credit exposure to our official check financial institution customers of approximately \$350.8 million in the aggregate spread across 1,300 financial institutions, of which one owed us in excess of \$15.0 million.

We also have credit exposure to receivables from our financial institution customers for business conducted by the Financial Paper Products segment. Financial institutions will collect proceeds for official checks and money orders and remit those proceeds to us. Credit risk among financial institutions has increased in the current macroeconomic environment. We actively monitor the credit risk associated with financial institutions such as banks and credit unions, and have not incurred any losses associated with the failure or merger of any bank or non-bank financial institution customer.

Table of Contents

The timely remittance of funds by our agents and financial institution customers is an important component of our liquidity. If the timing of the remittance of funds were to deteriorate, it would alter our pattern of cash flows and could require us to liquidate investments or utilize our revolving credit facility to settle payment service obligations. To manage this risk, we closely monitor the remittance patterns of our agents and financial institution customers and act quickly if we detect deterioration or alteration in remittance timing or patterns. If deemed appropriate, we have the ability to deactivate an agent's equipment at any time, thereby preventing the initiation or issuance of further money transfers and money orders.

Agents typically have from one to three days to remit the funds, with longer remittance schedules granted to international agents and certain domestic agents. As of December 31, 2011, we had credit exposure to our agents of \$352.0 million in the aggregate spread across over 12,000 agents, of which four agents owed us in excess of \$15.0 million.

While the extent of credit risk may vary by product, the process for mitigating risk is similar. We assess the creditworthiness of each potential agent before accepting them into our distribution network. This underwriting process includes not only a determination of whether to accept a new agent, but also the remittance schedule and volume of transactions that the agent will be allowed to perform in a given timeframe. We actively monitor the credit risk of our existing agents by conducting periodic financial reviews and cash flow analyses of our agents that average high volumes of transactions and monitoring remittance patterns versus reported sales on a daily basis.

Credit risk management is complimented through functionality within our point of sale system, which can enforce credit limits on a real-time basis and monitor for suspicious and unauthorized transactions. The system also permits us to remotely disable an agent's terminals and cause a cessation of transactions.

Derivative Financial Instruments Credit risk related to our derivative financial instruments relates to the risk that we are unable to collect amounts owed to us by the counterparties to our derivative agreements. Our derivative financial instruments are used solely to manage exposures to fluctuations in foreign currency exchange rates. If the counterparties to any of our derivative financial instruments were to default on payments or experience credit rating downgrades, the value of the derivative financial instruments would decline and adversely impact our operating income. We manage credit risk related to derivative financial instruments by entering into agreements with only major financial institutions and regularly monitoring the credit ratings of these financial institutions.

Interest Rate Risk

Interest rate risk represents the risk that our operating results are negatively impacted, and our investment portfolio declines in value, due to changes in interest rates. Given the credit risk profile of the investment portfolio and the low level of interest rates, we believe there is a low risk that the value of these securities would decline such that we would have a material adverse change in our operating results. As of December 31, 2011, the Company held \$600.9 million, or 19 percent, of the investment portfolio in fixed rate investments.

At December 31, 2011, the Company's Other asset-backed securities are priced on average at five percent of face value for a total fair value of \$24.2 million. Included in other asset-backed securities are collateralized debt obligations backed primarily by high-grade debt, mezzanine equity tranches of collateralized debt obligations and home equity loans, along with private equity investments. While the Company does believe its Other asset-backed securities are at a risk of further decline, the 2008 Recapitalization completed on March 25, 2008 included funds to cover all losses on these securities, as well as the trading investments. Accordingly, any resulting adverse movement in our stockholders' equity or assets in excess of payment service obligations from further declines in investments would not result in regulatory or contractual compliance exceptions.

Our operating results are primarily impacted by interest rate risk through our net investment margin, which is investment revenue less commissions expense. As the money transfer business is not materially affected by investment revenue and pays commissions that are not tied to an interest rate index, interest rate risk has the most impact on our money order and official check businesses. We are invested primarily in interest-bearing cash

Table of Contents

accounts, deposit accounts, time deposits and certificates of deposit, and U.S. government money market funds. These types of investments have minimal risk of declines in fair value from changes in interest rates. Our commissions paid to financial institution customers are variable rate, which was zero in 2011, based primarily on the federal funds effective rate and are reset daily. Accordingly, both our investment revenue and our investment commissions expense will decrease when rates decline and increase when rates rise.

In the second quarter of 2008, we repriced our official check product to an average below the federal funds rate to better match our investment commission rate with our lower yield realigned portfolio. In the current environment, the federal funds effective rate is so low that most of our financial institution customers are in a negative commission position, in that we do not owe any commissions to our customers.

Our 2011 Credit Agreement is variable rate resulting in decreases to interest expense in a declining rate environment and increases to interest expense when rates rise. The Company may elect an interest rate for the senior credit facility at each reset period based on the BOA prime bank rate or the Eurodollar rate.

The income statement below incorporates substantially all of our interest rate sensitive assets and liabilities together with forecasted changes in the balance sheet and assumptions that reflect changes in all interest rates pertaining to the balance sheet. This analysis assumes that interest rates change suddenly, as in an interest rate shock, and remain at the changed level for the next twelve months. Components of our pre-tax income that are interest rate sensitive include Investment Revenue, Investment Commissions Expense, and Interest Expense. In the current interest rate environment where rates are approaching zero, our risk associated with declining rates is not material. A rapidly rising interest rate environment would be beneficial to the Company because variable rate assets exceed our variable rate liabilities, and certain of our variable rate liabilities will not react to increases in interest rates until those rates exceed the floor set for the index rate on the corresponding debt.

The following table summarizes the changes to affected components of the income statement under various ramp scenarios:

	Basis Point Change in Interest Rates					
	Down 200	Down 100	Down 50	Up 50	Up 100	Up 200
(Amounts in thousands)						
Investment revenue	\$ (2,041)	\$ (1,978)	\$ (1,757)	\$ 4,194	\$ 8,402	\$ 16,853
Investment commissions expense	NM	NM	NM	\$ (204)	\$ (455)	\$ (5,989)
Interest expense	NM	NM	NM	\$	\$	\$ (953)
Change in pretax income	\$ (1,985)	\$ (1,923)	\$ (1,701)	\$ 3,991	\$ 7,947	\$ 9,911

NM = Not meaningful

The following table summarizes the changes to affected components of the income statement under various shock scenarios:

	Basis Point Change in Interest Rates					
	Down 200	Down 100	Down 50	Up 50	Up 100	Up 200
(Amounts in thousands)

Change in pretax income	\$ (4,264)	\$ (4,048)	\$ (3,247)	\$ 8,893	\$ 16,386	\$ 11,257

NM = Not meaningful

Table of Contents

Foreign Currency Risk

We are exposed to foreign currency risk in the ordinary course of business as we offer our products and services through a network of agents and financial institutions with locations in 192 countries and operate subsidiaries in 12 countries. Translation risk, generated from translating foreign currency-denominated earnings into U.S. dollars for reporting purposes, is not hedged as this is not considered an economic exposure. In 2011, the decline of the euro exchange rate (net of hedging activities) resulted in a net decrease to our operating results of \$3.0 million over 2010. By policy, we do not speculate in foreign currencies; all currency trades relate to underlying transactional exposures.

Substantial increases in the credit risk of countries within the European Union, coupled with recessionary forces, have caused high levels of volatility, and a trend of declining value of the euro against the U.S. dollar. High inter-day volatility will result in higher risk of currency revaluation due to the timing differences between when our customers pay our agents for their money transfers, and when those proceeds are collected. In addition, currency volatility can also impact the value of cash balances that are maintained to support the level of our customer activity. Other countries that had extremely high volatility versus the U.S. dollar in 2011 were India and Mexico, both of which are significant corridors for our money transfer business.

Resolution of the financial crisis affecting Europe relative to the risk of default on the sovereign debt of Greece, Italy, Spain, and Portugal, will be necessary to reduce our foreign currency risk. The impact of austerity measures being taken by all of the highly leveraged countries that participate in the euro will also continue to exert recessionary forces on much of the European Union, which in turn can continue to exert a weakening force on the euro. Economic uncertainty in the United States and its major trading partners will also cause higher levels of volatility for all major currencies versus the U.S. dollar which could increase foreign currency risk on an ongoing basis.

Our primary source of transactional currency risk is the money transfer business in which funds are frequently transferred cross-border and we settle with agents in multiple currencies. Although this risk is somewhat limited due to the fact that these transactions are short-term in nature, we currently manage some of this risk with forward contracts to protect against potential short-term market volatility. The primary currency pairs, based on volume, that are traded against the dollar in the spot and forward markets include the European euro, Mexican peso, British pound and Indian rupee. The duration of forward contracts is typically less than one month.

Realized and unrealized gains or losses on transactional currency and any associated revaluation of balance sheet exposures are recorded in Transaction and operations support in the Consolidated Statement of Income (Loss). The fair market value of any open forward contracts at period end are recorded in Other assets in the Consolidated Balance Sheets. The net effect of changes in foreign exchange rates and the related forward contracts for the year ended December 31, 2011 was a loss of \$8.7 million.

Had the euro appreciated/depreciated relative to the U.S. dollar by 20 percent from actual exchange rates for 2011, pre-tax operating income would have increased/decreased \$14.7 million for the year. There are inherent limitations in this sensitivity analysis, primarily due to the assumption that foreign exchange rate movements are linear and instantaneous, that the unhedged exposure is static, and that we would not hedge any additional exposure. As a result, the analysis is unable to reflect the potential effects of more complex market changes that could arise, which may positively or negatively affect income.

Table of Contents

Operational Risk

Operational risk represents the potential for loss resulting from our operations. This may include, but is not limited to, the risk of fraud by employees or external parties, business continuation and disaster recovery, errors related to transaction processing and technology, unauthorized transactions and breaches of information security and compliance requirements. This risk may also include the potential legal actions that could arise as a result of an operational deficiency or as a result of noncompliance with applicable regulatory requirements. Management has direct responsibility for identifying, controlling and monitoring operational risks within their business. Business managers maintain a system of controls to provide transaction authorization and execution, safeguarding of assets from misuse or theft, and to ensure the quality of financial and other data. Our Business Resiliency group works with each business function to develop plans to support business resumption activities including technology, networks and data centers. Our internal audit function tests the system of internal controls through risk-based audit procedures and reports on the effectiveness of internal controls to executive management and the Audit Committee of the Board of Directors.

Table of Contents**CRITICAL ACCOUNTING POLICIES**

The preparation of financial statements in conformity with GAAP requires estimates and assumptions that affect the reported amounts and related disclosures in the consolidated financial statements. Actual results could differ from those estimates. On a regular basis, management reviews its accounting policies, assumptions and estimates to ensure that our financial statements are presented fairly and in accordance with GAAP. Our significant accounting policies are discussed in Note 2 *Summary of Significant Accounting Policies* of the Notes to Consolidated Financial Statements.

Critical accounting policies are those policies that management believes are very important to the portrayal of our financial position and results of operations, and that require management to make estimates that are difficult, subjective or complex. Based on these criteria, management has identified and discussed with the Audit Committee the following critical accounting policies and estimates, including the methodology and disclosures related to those estimates.

Description Fair Value of Investment Securities	Judgments and Uncertainties	Effect if Actual Results Differ From Assumptions
<p>The Company has available-for-sale investments that are recorded at their estimated fair value. Our available-for-sale investments are comprised primarily of U.S. government agency debenture securities and residential mortgage-backed securities collateralized by U.S. government agency debenture securities. In addition, we hold other asset-backed securities and have historically held three trading investments.</p>	<p>The degree of management judgment involved in determining the fair value of an investment is dependent upon the availability of quoted market prices, observable market inputs and the extent to which the relevant investment markets are active.</p>	<p>As of December 31, 2011, we hold investments classified as other asset-backed securities with a fair value of \$24.2 million. Using the highest and lowest prices received or internally estimated during the valuation process, the range of fair value for these securities was \$23.5 million to \$28.1 million.</p>
<p>We estimate fair value for our investments as an exit price, or the exchange price that would be received for an asset in an orderly transaction between market participants. Observable price quotes for our exact securities are not available. For our government agency debentures and residential mortgage-backed securities, similar securities trade with sufficient regularity to allow observation of market inputs needed to estimate fair value. For our other asset-backed securities, the overall liquidity and trading within the relevant markets is not strong. Accordingly, observable market inputs are not as readily available and estimating fair value is more subjective.</p>	<p>The use of different market assumptions or valuation methodologies may have a material effect on the estimated fair value amounts. Due to the subjective nature of these assumptions, the estimates determined may not be indicative of the actual exit price if the investment was sold at the measurement date. In the current market, the most subjective assumptions include the default rate of collateral securities, loss severity and risk premiums as it relates to our other asset-backed securities.</p>	<p>At December 31, 2011, \$18.8 million, or less than one percent, of our total investment portfolio was valued using internal pricing information. No third party price was able to be obtained for these securities.</p>

Table of Contents

	Description	Judgments and Uncertainties	Effect if Actual Results Differ From Assumptions
Goodwill			
	<p>We perform impairment testing of our goodwill balances annually as of November 30 and whenever events or changes in circumstances indicate the carrying value of our goodwill may not be recoverable.</p> <p>Goodwill impairment is determined using a two-step process. The first step identifies if a potential impairment exists by comparing the fair value of each reporting unit to its carrying amount. If the fair value exceeds the carrying amount, goodwill is not considered to have a potential impairment and the second step of the test is not necessary. However, if the carrying amount exceeds the fair value, the second step is performed to determine the implied fair value of a reporting unit's goodwill by comparing the reporting unit's fair value to the allocated fair values of all assets and liabilities as if the reporting unit had been acquired in a business combination. If the carrying amount of goodwill exceeds its implied fair value, an impairment is recognized in an amount equal to that excess.</p>	<p>Fair value of a reporting unit and goodwill is estimated using a discounted cash flow model. The estimates and assumptions used in this model regarding expected cash flows, growth rates, terminal values and the discount rate require considerable judgment and are based on historical experience, financial forecasts and industry trends and conditions.</p> <p>Our discount rate is based on our debt and equity balances, adjusted for current market conditions and investor expectations of return on our equity. In addition, an assumed terminal value is used to project future cash flows beyond base years. Assumptions used in our impairment testing are consistent with our internal forecasts and operating plans.</p>	<p>The carrying value of goodwill assigned to the Global Funds Transfer reporting unit at December 31, 2011 was \$428.7 million. No goodwill is assigned to the other reporting units. The annual impairment test indicated a fair value for the Global Funds Transfer reporting unit that was substantially in excess of the reporting unit's carrying value.</p> <p>If the discount rate for the Global Funds Transfer reporting unit increases by 50 basis points from the rate used in our fair value estimate, fair value would be reduced by approximately \$177.9 million, assuming all other components of the fair value estimate remain unchanged. If the growth rate for the Global Funds Transfer reporting unit decreases by 50 basis points from the rate used in our fair value estimate, fair value would be reduced by approximately \$35.1 million, assuming all other components of the fair value estimate remain unchanged.</p> <p>Our estimated fair value for the Global Funds Transfer reporting unit would continue to be substantially in excess under either scenario.</p>

Table of Contents

	Description	Judgments and Uncertainties	Effect if Actual Results Differ From Assumptions
Pension			
	Through our qualified pension plan and various supplemental executive retirement plans, collectively referred to as our pension plans, we provide defined benefit pension plan coverage to certain of our employees and employees of Viad Corp, our former parent. Our pension obligations under these plans are measured as of December 31, or the measurement date. Pension benefit obligations and the related expense are based upon actuarial projections using assumptions regarding mortality, discount rates, long-term return on assets and other factors.	Our assumptions reflect our historical experience and management's best judgment regarding future expectations. Certain of the assumptions, particularly the discount rate and expected return on plan assets, require significant judgment and could have a material impact on the measurement of our pension obligation.	The discount rates for the 2011, 2010 and 2009 net periodic benefit cost pension plans and SERPs were 5.30 percent, 5.80 percent and 6.30 percent, respectively. The discount rate for the projected benefit obligation for the pension plan for 2011 and 2010 was 4.90 percent and 5.30 percent, respectively, while the discount rate for the SERPs was 4.80 percent and 5.30 percent, respectively.
	Our pension plan assets are primarily invested in interest-bearing cash accounts and commingled trust funds issued or sponsored by the plan trustee. Our investments are periodically realigned in accordance with the investment guidelines.	At each measurement date, the discount rate is based on the then current interest rate yield curves for long-term corporate debt securities with maturities rate AA comparable to our obligations.	The long-term expected rate of return for the 2011, 2010 and 2009 net periodic benefit cost for the pension plan was eight percent. The actual rate of return on average plan assets in 2011 and 2010 was 4.14 percent and 4.80 percent.
		The expected return on pension plan assets is based on our historical market experience, our pension asset allocations and our expectations for long-term rates of return. We also consider peer data and historical returns to assess the reasonableness and appropriateness of our assumption. Our pension plan asset allocations are reviewed annually and are based upon plan obligations, an evaluation of market conditions, tolerance for risk and cash requirements for benefit payments.	Lower discount rates increase the plan obligation and subsequent year pension expense, while higher discount rates decrease the plan obligation and subsequent year pension expense. Decreasing the discount rate by 50 basis points would have increased 2011 pension expense by \$0.4 million. If the discount rate increased by 50 basis points pension expense would have decreased by \$0.3 million. Changing the expected rate of return by 50 basis points would have increased/decreased 2011 pension expense by \$0.5 million.

Table of Contents

	Description Tax Contingencies	Judgments and Uncertainties	Effect if Actual Results Differ From Assumptions
	<p>We are subject to income taxes in the United States and various foreign jurisdictions. In determining taxable income, income or losses before taxes are adjusted for various differences between local tax laws and generally accepted accounting principles.</p> <p>We file tax returns in various states within the United States and various countries. Our tax filings for various periods are subject to audit by various tax authorities, with United States federal income tax filings for 2005 and 2009 subject to audit.</p>	<p>Changes in tax laws, regulations, agreements and treaties, foreign currency exchange restrictions or our level of operations or profitability in each taxing jurisdiction could have an impact on the amount of income taxes that we provide during any given year. The determination of taxable income in any jurisdiction requires the interpretation of the related tax laws and regulations and the use of estimates and assumptions regarding significant future events, such as the amount, timing and character of deductions and the sources and character of income and tax credits.</p>	<p>Changes in our current estimates due to unanticipated events, or other factors, could have a material effect on our financial condition and results of operations.</p>
	<p>The benefits of tax positions are recorded in the income statement if we determine it is more-likely-than not, based on the technical merits of the position, that the tax position will be sustained upon examination, including any related appeals or litigation.</p>	<p>These assumptions and probabilities are periodically reviewed and revised based upon new information.</p>	<p>Actual tax amounts may be materially different from amounts accrued based upon the results of audits due to different interpretations by the tax authorities than those of the Company. While we believe that our reserves are adequate to cover reasonably expected tax risks, an unfavorable tax settlement generally requires the use of cash and an increase in the amount of income tax expense that we recognize. A favorable tax settlement generally requires a decrease in the amount of income taxes that we recognize.</p>

Income Taxes Valuation of Deferred Tax Assets

Deferred tax assets and liabilities are recorded based on the future tax consequences attributable to temporary differences that exist between the financial statement carrying value of assets and liabilities and their respective tax basis, and operating loss and tax credit carry-backs and carry-forwards on a taxing jurisdiction basis. We measure deferred tax assets and liabilities using enacted statutory tax rates that will apply in the years in which we expect the temporary differences to be recovered or paid.

The carrying amount of deferred tax assets must be reduced through a valuation allowance if it is more-likely-than-not the deferred tax asset will not be realized.

In the period in which a valuation allowance is recorded, we would record significant tax expense, whereas a tax benefit would be recorded in the period a valuation allowance is reversed.

In assessing the need for a valuation allowance, we consider both positive and negative evidence related to the likelihood that the deferred tax assets will be realized. Our assessment of whether a valuation allowance is required or should be adjusted requires judgment and is completed on a taxing jurisdiction basis.

We consider, among other matters: the nature, frequency and severity of any cumulative financial reporting losses; the ability to carry back losses to prior years; future reversals of existing taxable temporary differences; tax planning strategies; and projections of future taxable income.

We also consider our best estimate of the outcome of any on-going examinations based on the technical merits of the position, historical procedures and case law, among other items.

As of December 31, 2011, we have recorded a valuation allowance of \$476.3 million against gross net deferred tax assets of \$546.1 million. The valuation allowance primarily relates to our tax loss carryovers and basis difference in revalued investments.

While we believe that the basis for estimating our valuation allowance is strong, changes in our current estimates due to unanticipated events, or other factors, could have a material effect on our financial condition and results of operations.

Table of Contents

Description	Judgments and Uncertainties	Effect if Actual Results Differ From Assumptions
Stock-based compensation		
The Company has a stock-based compensation plan, which includes stock options, restricted stock units, restricted stock awards and stock appreciation rights. Certain awards are subject to market and performance conditions at threshold, target and maximum levels.	Assumptions for stock-based compensation include estimating the future volatility of our stock price, expected dividend yield, employee turnover and employee exercise activity.	A 10 percent change in our volatility, forfeiture rate and term of grant for the year ended December 31, 2011, would have affected net income by \$1.6 million.
For purposes of determining the fair value of stock option awards, the Company uses the Black-Scholes single option pricing model. Compensation cost, net of estimated forfeitures, is recognized using a straight-line method over the vesting or service period.	Performance-based share awards require management to make assumptions regarding the likelihood of achieving market and performance goals. Assumptions used in our assessment are consistent with our internal forecasts and operating plans and assume achievement of performance conditions at target.	If the Company assumed that the performance conditions for stock-based awards would not be met, stock-based compensation expense would have decreased by \$9.6 million. If the Company assumed that share awards would meet their maximum threshold, expense would have increased by \$0.6 million.

Recent Accounting Developments

Recent accounting developments are set forth in Note 2 *Summary of Significant Accounting Policies* of the Notes to Consolidated Financial Statements.

CAUTIONARY STATEMENTS REGARDING FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K and the documents incorporated by reference herein may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements with respect to, among other things, the financial condition, results of operations, plans, objectives, future performance and business of MoneyGram and its subsidiaries. Forward-looking statements can be identified by words such as believes, estimates, expects, projects, plans, anticipates, continues, will, should, and other similar expressions. These forward-looking statements speak only as of the date they are made, and MoneyGram undertakes no obligation to publicly update or revise any forward-looking statement, except as required by federal securities law. These forward-looking statements are based on management's current expectations, beliefs and assumptions and are subject to certain risks, uncertainties and changes in circumstances due to a number of factors. These factors include, but are not limited to:

continued weakness in economic conditions, in both the United States and global markets;

consumers' confidence in our business;

a material slow down or complete disruption of international migration patterns;

our ability to maintain agent or biller relationships, or a reduction in transaction volume from these relationships;

the ability of us and our agents to comply with U.S. and international laws and regulations, including the Dodd-Frank Act;

Edgar Filing: MONEYGRAM INTERNATIONAL INC - Form 10-K

litigation involving MoneyGram or its agents, which could result in material settlements, fines or penalties;

ongoing investigations involving MoneyGram by the U.S. federal government and several state governments which could result in criminal or civil penalties, revocation of required licenses or registrations, termination of contracts, other administrative actions or lawsuits and negative publicity;

Table of Contents

our offering of money transfer services through agents in regions that are politically volatile or, in a limited number of cases, that are subject to certain OFAC restrictions;

our substantial debt service obligations, significant debt covenant requirements and credit rating;

sustained financial market illiquidity, or illiquidity at our clearing, cash management and custodial financial institutions;

our ability to maintain sufficient capital;

our ability to manage credit risks from our retail agents and official check financial institution customers;

the ability of MoneyGram and its agents to maintain adequate banking relationships;

our ability to retain partners to operate our official check and money order businesses;

our ability to manage fraud risks from consumers or agents;

our ability to compete effectively;

our ability to successfully develop and timely introduce new and enhanced products and services;

our investments in new products, services or infrastructure changes;

our ability to manage risks associated with our international sales and operations;

our ability to attract and retain key employees;

our ability to adequately protect our brand and intellectual property rights and to avoid infringing on the rights of others;

a security or privacy breach in our systems;

disruptions to our computer systems and data centers;

our ability to effectively operate and adapt our technology to match our business growth;

Edgar Filing: MONEYGRAM INTERNATIONAL INC - Form 10-K

our ability to manage risks related to the operation of retail locations and the acquisition or start-up of businesses;

the European debt crisis and market perceptions concerning the euro, the potential re-introduction of individual currencies within the Eurozone or the potential dissolution of the euro;

changes in tax laws or an unfavorable outcome with respect to tax positions, or a failure by us to establish adequate reserves for tax events;

our ability to maintain effective internal controls;

our capital structure and the special voting rights provided to designees of THL on our Board of Directors; and

the risks and uncertainties described in the Risk Factors and Management's Discussion and Analysis of Financial Condition and Results of Operations sections of this Annual Report on Form 10-K, as well as any additional risk factors that may be described in our other filings with the SEC from time to time.

Item 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk disclosure is discussed under Enterprise Risk Management in Item 7 of this Annual Report on Form 10-K.

Item 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The information called for by Item 8 is found in a separate section of this Annual Report on Form 10-K on pages F-1 through F-65. See the Index to Financial Statements on page F-1.

Table of Contents

Item 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

Item 9A. CONTROLS AND PROCEDURES

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in the Company's reports filed or submitted under the Securities Exchange Act of 1934, as amended, or the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in company reports filed or submitted under the Exchange Act is accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

As of the end of the period covered by this report (the "Evaluation Date"), the Company's management carried out an evaluation, under the supervision and with the participation of the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) of the Exchange Act. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the Evaluation Date, the Company's disclosure controls and procedures were effective.

There were no changes in the Company's internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) during the fiscal quarter ended December 31, 2011 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Management's annual report on internal control over financial reporting is provided on page F-2 of this Annual Report on Form 10-K. The attestation report of the Company's independent registered public accounting firm, Deloitte & Touche LLP, regarding the Company's internal control over financial reporting is provided on page F-3 of this Annual Report on Form 10-K.

Item 9B. OTHER INFORMATION

None.

PART III

Item 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The information called for by this Item is contained in Item 1 of this Annual Report on Form 10-K under the caption Executive Officers of the Registrant and in our definitive Proxy Statement for our 2012 Annual Meeting of Stockholders, and is incorporated herein by reference.

All of our employees, including our principal executive officer, principal financial officer, principal accounting officer and controller, or persons performing similar functions, also referred to as the Principal Officers, are subject to our Code of Conduct. Our directors are also subject to our Code of Conduct. These documents are posted on our website at www.moneygram.com in the Investor Relations section, and are available in print free of charge to any stockholder who requests them at the address set forth below. We will disclose any amendments to, or waivers of, our Code of Conduct for directors or Principal Officers on our website.

Item 11. EXECUTIVE COMPENSATION

The information called for by this Item is contained in our definitive Proxy Statement for our 2012 Annual Meeting of Stockholders, and is incorporated herein by reference.

Table of Contents

Item 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The information called for by this Item is contained in our definitive Proxy Statement for our 2012 Annual Meeting of Stockholders, and is incorporated herein by reference.

Item 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

The information called for by this Item is contained in our definitive Proxy Statement for our 2012 Annual Meeting of Stockholders, and is incorporated herein by reference.

Item 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

The information called for by this Item is contained in our definitive Proxy Statement for our 2012 Annual Meeting of Stockholders, and is incorporated herein by reference.

PART IV

Item 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

- (a) (1) The financial statements listed in the Index to Financial Statements and Schedules are filed as part of this Annual Report on Form 10-K.
- (2) All financial statement schedules are omitted because they are not applicable or the required information is included in the Consolidated Financial Statements or notes thereto listed in the Index to Financial Statements.
- (3) Exhibits are filed with this Annual Report on Form 10-K or incorporated herein by reference as listed in the accompanying Exhibit Index.

EXHIBIT INDEX

Exhibit

Number	Description
2.1	Separation and Distribution Agreement, dated as of June 30, 2004, by and among Viad Corp, MoneyGram International, Inc., MGI Merger Sub, Inc. and Travelers Express Company, Inc. (Incorporated by reference from Exhibit 2.1 to Registrant's Quarterly Report on Form 10-Q filed on August 13, 2004).
2.2	Recapitalization Agreement, dated as of March 7, 2011, among MoneyGram International, Inc., certain affiliates and co-investors of Thomas H. Lee Partners, L.P. and Goldman, Sachs & Co. and certain of its affiliates (including Annex A Form of Certificate of Amendment of Certificate of Designations, Preferences and Rights of Series D Participating Convertible Preferred Stock of MoneyGram International, Inc.) (Incorporated by reference from Exhibit 2.1 to Registrant's Current Report on Form 8-K filed March 9, 2011).
2.3	Amendment No. 1 to Recapitalization Agreement, dated as of May 4, 2011, among MoneyGram International, Inc., certain affiliates and co-investors of Thomas H. Lee Partners, L.P. and Goldman, Sachs & Co. and certain of its affiliates (Incorporated by reference from Exhibit 2.1 to Registrant's Current Report on Form 8-K filed May 6, 2011).
3.1	Amended and Restated Certificate of Incorporation of MoneyGram International, Inc., as amended (Incorporated by reference from Exhibit 3.1 to Registrant's Annual Report on Form 10-K filed on March 15, 2010).
3.2	Certificate of Amendment of Amended and Restated Certificate of Incorporation of MoneyGram International, Inc., dated May 18, 2011 (Incorporated by reference from Exhibit 3.1 to Registrant's Current Report on Form 8-K filed May 23, 2011).
3.3	Certificate of Amendment of Amended and Restated Certificate of Incorporation of MoneyGram International, Inc., filed with the Secretary of State of the State of Delaware on November 14, 2011 (Incorporated by reference from Exhibit 3.1 to Registrant's Current Report on Form 8-K filed November 14, 2011).
3.4	Bylaws of MoneyGram International, Inc., as amended and restated September 10, 2009 (Incorporated by reference from Exhibit 3.01 to Registrant's Current Report on Form 8-K filed on September 16, 2009).
3.5	Amendment to Bylaws of MoneyGram International, Inc., dated as of January 25, 2012 (Incorporated by reference from Exhibit 3.1 to Registrant's Current Report on Form 8-K filed January 27, 2012).
3.6	Certificate of Designations, Preferences and Rights of Series A Junior Participating Preferred Stock of MoneyGram International, Inc. (Incorporated by reference from Exhibit 4.3 to Registrant's Quarterly Report on Form 10-Q filed on August 13, 2004).
3.7	Certificate of Designations, Preferences and Rights of the Series B Participating Convertible Preferred Stock of MoneyGram International, Inc. (Incorporated by reference from Exhibit 4.2 to Registrant's Current Report on Form 8-K filed on March 28, 2008).
3.8	Certificate of Designations, Preferences and Rights of the Series B-1 Participating Convertible Preferred Stock of MoneyGram International, Inc. (Incorporated by reference from Exhibit 4.3 to Registrant's Current Report on Form 8-K filed on March 28, 2008).
3.9	Amended and Restated Certificate of Designations, Preferences and Rights of Series D Participating Convertible Preferred Stock of MoneyGram International, Inc., dated May 18, 2011 (Incorporated by reference from Exhibit 3.2 to Registrant's Current Report on Form 8-K filed May 23, 2011).
3.10	Certificate of Elimination of the Series B Participating Convertible Preferred Stock of MoneyGram International, Inc., dated May 18, 2011 (Incorporated by reference from Exhibit 3.3 to Registrant's Current Report on Form 8-K filed May 23, 2011).
3.11	Certificate of Elimination of the Series B-1 Participating Convertible Preferred Stock of MoneyGram International, Inc., dated May 18, 2011 (Incorporated by reference from Exhibit 3.4 to Registrant's Current Report on Form 8-K filed May 23, 2011).
3.12	Certificate of Elimination of Series A Junior Participating Preferred Stock, dated September 27, 2011 (Incorporated by reference from Exhibit 3.1 to Registrant's Current Report on Form 8-K filed September 28, 2011).

Table of Contents

- 4.1 Form of Specimen Certificate for MoneyGram Common Stock (Incorporated by reference from Exhibit 4.1 to Amendment No. 4 to Registrant's Form 10 filed on June 14, 2004).
- 4.2 Indenture, dated as of March 25, 2008, by and among MoneyGram International, Inc., MoneyGram Payment Systems Worldwide, Inc., the other guarantors party thereto and Deutsche Bank Trust Company Americas, a New York banking corporation, as trustee and collateral agent (Incorporated by reference from Exhibit 4.1 to Registrant's Current Report on Form 8-K filed on March 28, 2008).
- *4.3 First Supplemental Indenture relating to the 13.25% Senior Secured Second Lien Notes due 2018, dated as of August 6, 2009, among MoneyGram Payment Systems Worldwide, Inc., as issuer, MoneyGram International, Inc. and the other guarantors named therein and Deutsche Bank Trust Company Americas, as trustee and collateral agent.
- *4.4 Second Supplemental Indenture relating to the 13.25% Senior Secured Second Lien Notes due 2018, dated as of July 29, 2010, among MoneyGram Payment Systems Worldwide, Inc., as issuer, MoneyGram International, Inc. and the other guarantors named therein and Deutsche Bank Trust Company Americas, as trustee and collateral agent.
- 4.5 Third Supplemental Indenture relating to the 13.25% Senior Secured Second Lien Notes due 2018, dated as of April 19, 2011, among MoneyGram Payment Systems Worldwide, Inc., as issuer, MoneyGram International, Inc. and the other guarantors named therein and Deutsche Bank Trust Company Americas, as trustee and collateral agent (Incorporated by reference from Exhibit 4.1 to Registrant's Current Report on Form 8-K filed on April 21, 2011).
- 4.6 Fourth Supplemental Indenture relating to the 13.25% Senior Secured Second Lien Notes due 2018, dated as of September 29, 2011, among MoneyGram Payment Systems Worldwide, Inc., as issuer, MoneyGram International, Inc. and the other guarantors named therein and Deutsche Bank Trust Company Americas, as trustee and collateral agent (Incorporated by reference from Exhibit 4.1 to Registrant's Current Report on Form 8-K filed September 30, 2011).
- 4.7 Fifth Supplemental Indenture relating to the 13.25% Senior Secured Second Lien Notes due 2018, dated as of November 15, 2011, among MoneyGram Payment Systems Worldwide, Inc., as issuer, MoneyGram International, Inc. and the other guarantors named therein and Deutsche Bank Trust Company Americas, as trustee and collateral agent (Incorporated by reference from Exhibit 4.1 to Registrant's Current Report on Form 8-K filed November 16, 2011).
- 4.8 Sixth Supplemental Indenture relating to the 13.25% Senior Secured Second Lien Notes due 2018, dated as of November 21, 2011, among MoneyGram Payment Systems Worldwide, Inc., as issuer, MoneyGram International, Inc. and the other guarantors named therein and Deutsche Bank Trust Company Americas, as trustee and collateral agent (Incorporated by reference from Exhibit 4.1 to Registrant's Current Report on Form 8-K filed November 22, 2011).
- 4.9 Registration Rights Agreement, dated as of March 25, 2008, by and among the several Investor parties named therein and MoneyGram International, Inc. (Incorporated by reference from Exhibit 4.5 to Registrant's Current Report on Form 8-K filed on March 28, 2008).
- 4.10 Amendment No. 1 to Registration Rights Agreement, dated as of May 18, 2011, by and among MoneyGram International, Inc., certain affiliates and co-investors of Thomas H. Lee Partners, L.P., and certain affiliates of Goldman, Sachs & Co. (Incorporated by reference from Exhibit 4.1 to Registrant's Current Report on Form 8-K filed May 23, 2011).
- 4.11 Exchange and Registration Rights Agreement, dated as of March 25, 2008, by and among MoneyGram Payment Systems Worldwide, Inc., each of the Guarantors listed on the signature pages thereto, GSMP V Onshore US, Ltd., GSMP V Offshore US, Ltd. and GSMP V Institutional US, Ltd. (Incorporated by reference from Exhibit 4.6 to Registrant's Current Report on Form 8-K filed on March 28, 2008).
- 10.1 Employee Benefits Agreement, dated as of June 30, 2004, by and among Viad Corp, MoneyGram International, Inc. and Travelers Express Company, Inc. (Incorporated by reference from Exhibit 10.1 to Registrant's Quarterly Report on Form 10-Q filed on August 13, 2004).
- 10.2 Tax Sharing Agreement, dated as of June 30, 2004, by and between Viad Corp and MoneyGram International, Inc. (Incorporated by reference from Exhibit 10.2 to Registrant's Quarterly Report on Form 10-Q filed on August 13, 2004).

Management's Responsibility Statement

The management of MoneyGram International, Inc. is responsible for the integrity, objectivity and accuracy of the consolidated financial statements of the Company. The consolidated financial statements are prepared by the Company in accordance with accounting principles generally accepted in the United States of America using, where appropriate, management's best estimates and judgments. The financial information presented throughout the Annual Report is consistent with that in the consolidated financial statements.

Management is also responsible for maintaining a system of internal controls and procedures over financial reporting designed to provide reasonable assurance that the books and records reflect the transactions of the Company and that assets are protected against loss from unauthorized use or disposition. Such a system is maintained through accounting policies and procedures administered by trained Company personnel and updated on a continuing basis to ensure their adequacy to meet the changing requirements of our business. The Company requires that all of its affairs, as reflected by the actions of its employees, be conducted according to the highest standards of personal and business conduct. This responsibility is reflected in our Code of Ethics.

To test compliance with the Company's system of internal controls and procedures over financial reporting, the Company carries out an extensive audit program. This program includes a review for compliance with written policies and procedures and a comprehensive review of the adequacy and effectiveness of the internal control system. Although control procedures are designed and tested, it must be recognized that there are limits inherent in all systems of internal control and, therefore, errors and irregularities may nevertheless occur. Also, estimates and judgments are required to assess and balance the relative cost and expected benefits of the controls. Projection of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The Audit Committee of the Board of Directors, which is composed solely of outside directors, meets quarterly with management, internal audit and the independent registered public accounting firm to discuss internal accounting control, auditing and financial reporting matters, as well as to determine that the respective parties are properly discharging their responsibilities. Both our independent registered public accounting firm and internal auditors have had and continue to have unrestricted access to the Audit Committee without the presence of management.

Management assessed the effectiveness of the Company's internal controls over financial reporting as of December 31, 2011. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission in its Internal Control-Integrated Framework. Based on our assessment and those criteria, management believes that the Company designed and maintained effective internal control over financial reporting as of December 31, 2011.

The Company's independent registered public accounting firm, Deloitte & Touche LLP, has been engaged to audit our financial statements and the effectiveness of the Company's system of internal control over financial reporting. Their reports are included on pages F-3 and F-4 of this Annual Report on Form 10-K.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of

MoneyGram International, Inc.

Dallas, Texas

We have audited the internal control over financial reporting of MoneyGram International, Inc. and subsidiaries (the Company) as of December 31, 2011, based on criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Responsibility Statement. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2011, based on the criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements as of and for the year ended December 31, 2011 of the Company and our report dated March 8, 2012 expressed an unqualified opinion on those financial statements.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of

MoneyGram International, Inc.

Dallas, Texas

We have audited the accompanying consolidated balance sheets of MoneyGram International, Inc. and subsidiaries (the Company) as of December 31, 2011 and 2010, and the related consolidated statements of income (loss), comprehensive income (loss), cash flows and stockholders' deficit for each of the three years in the period ended December 31, 2011. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of MoneyGram International, Inc. and subsidiaries at December 31, 2011 and 2010, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2011, in conformity with accounting principles generally accepted in the United States of America.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2011, based on the criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 8, 2012 expressed an unqualified opinion on the Company's internal control over financial reporting.

Table of Contents**MONEYGRAM INTERNATIONAL, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****Note 1 Description of the Business**

MoneyGram International, Inc. and its wholly owned subsidiaries (MoneyGram) offers products and services under its two reporting segments: Global Funds Transfer and Financial Paper Products. The Global Funds Transfer segment provides global money transfer services and bill payment services to consumers through a network of agents. The Financial Paper Products segment provides payment processing services, primarily official check outsourcing services, and money orders through financial institutions and agents. The Company's headquarters is located in Dallas, Texas, United States of America. References to MoneyGram, the Company, we, us and our are to MoneyGram International, Inc. its subsidiaries and consolidated entities.

2011 Recapitalization Following shareholder approval on May 18, 2011, the Company completed its recapitalization transaction in accordance with the Recapitalization Agreement (the Recapitalization Agreement), dated as of March 7, 2011, as amended, by and among the Company, affiliates and co-investors of Thomas H. Lee Partners, L.P. (THL) and affiliates of Goldman, Sachs & Co. (Goldman Sachs, and collectively with THL, the Investors). Pursuant to the Recapitalization Agreement, (i) THL converted all of its shares of Series B Participating Convertible Preferred Stock, par value \$0.01 per share (the B Stock), into 35.8 million shares of common stock and (ii) Goldman Sachs converted all of its shares of Series B-1 Participating Convertible Preferred Stock, par value \$0.01 per share (the B-1 Stock, and collectively with the B Stock, the Series B Stock), into 157,686 shares of Series D Participating Convertible Preferred Stock, par value \$0.01 per share (the D Stock), and (iii) THL received 3.5 million additional shares of common stock and \$140.8 million in cash, and Goldman Sachs received 15,503 additional shares of D Stock and \$77.5 million in cash. Collectively, these transactions are referred to as the 2011 Recapitalization . Under the 2011 Recapitalization, the Investors received a cash dividend payment for amounts earned under the terms of the B and B-1 Stock for the period from March 26, 2011 through May 18, 2011. As a result of the 2011 Recapitalization, all amounts included in mezzanine equity were converted into components of stockholders' equity. During 2011, the Company recognized \$5.4 million for transaction costs related to the 2011 Recapitalization, which are recorded in the Other line in the Consolidated Statements of Income.

Following is a summary of the transactional components of the 2011 Recapitalization and their corresponding impacts to Mezzanine Equity and the components of Stockholders' Deficit in the Consolidated Balance Sheets:

	Mezzanine Equity	D Stock	Common Stock	Stockholders' Deficit Additional Paid-in Capital	Retained Loss	Total Activity
<i>(Amounts in thousands)</i>

Reverse Stock Split On November 14, 2011, the Company filed a certificate of amendment to its Amended and Restated Certificate of Incorporation to effect a reverse stock split of the Company's common stock at a reverse stock split ratio of 1-for-8 and to decrease the number of authorized shares of common stock from 1,300,000,000 to 162,500,000. All share and per share amounts have been retroactively adjusted to reflect the stock split with the exception of the Company's treasury stock, which was not a part of the reverse stock split.

Secondary Offering In November and December 2011, the Company completed a secondary offering (the Secondary Offering) pursuant to which the Investors sold an aggregate of 10,237,524 shares in an underwritten offering. In connection with the Secondary Offering, 63,950 shares of D Stock were converted to 7,993,762 shares of common stock. The Company did not receive proceeds from the offering and incurred transaction costs totaling \$1.0 million for the year ended December 31, 2011, which are recorded in the Other line in the Consolidated Statement of Income.

Participation Agreement between the Investors and Wal-Mart Stores, Inc. As previously disclosed, the Investors have a Participation Agreement with Wal-Mart Stores, Inc. (Wal-Mart), under which the Investors are obligated to pay Wal-Mart certain percentages of any accumulated cash payments received by the Investors in excess of the Investors' original investment in the Company. While the Company is not a party to, and has no obligations to Wal-Mart or additional obligations to the Investors under, the Participation Agreement, the Company must recognize the Participation Agreement in its consolidated financial statements as the Company indirectly benefits from the agreement. A liability and the related expense associated with the Participation Agreement would be recognized by the Company in the period in which it becomes probable that a liquidity event will occur that would require the Investors to make a payment to Wal-Mart (a liquidity event). Upon payment by the Investors to Wal-Mart, the liability would be released through a credit to the Company's additional paid-in capital. The amount of the non-operating expense could be material to the Company's financial position or results of operations, but would have no impact on the Company's cash flows. As liquidity events are dependent on many external factors and uncertainties, the Company does not consider a liquidity event to be probable at this time, and has not recognized a liability or expense related to the Participation Agreement. The additional consideration paid to the Investors in connection with the 2011 Recapitalization did not result in a liquidity event as the amounts received by the Investors are less than their original investment in the Company.

Note 2 Summary of Significant Accounting Policies

Basis of Presentation The consolidated financial statements of MoneyGram are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP). The Consolidated Balance Sheets are unclassified due to the short-term nature of the settlement obligations, contrasted with the ability to invest cash awaiting settlement in long-term investment securities.

Principles of Consolidation The consolidated financial statements include the accounts of MoneyGram International, Inc. and its subsidiaries. Intercompany profits, transactions and account balances have been eliminated in consolidation. The Company participates in various trust arrangements (special purpose entities or SPEs) related to official check processing agreements with financial institutions and structured investments within the investment portfolio.

Working in cooperation with certain financial institutions, the Company historically established separate consolidated SPEs that provided these financial institutions with additional assurance of its ability to clear their official checks. The Company maintains control of the assets of the SPEs and receives all investment revenue generated by the assets. The Company remains liable to satisfy the obligations of the SPEs, both contractually and by operation of the Uniform Commercial Code, as issuer and drawer of the official checks. As the Company is the primary beneficiary and bears the primary burden of any losses, the SPEs are consolidated in the consolidated financial statements. The assets of the SPEs are recorded in the Consolidated Balance Sheets in a manner consistent with the assets of the Company based on the nature of the asset. Accordingly, the obligations have been recorded in the Consolidated Balance Sheets under Payment service obligations. The investment revenue generated by the assets of the SPEs is allocated to the Financial Paper Products segment in the Consolidated Statements of Income (Loss). For the years ending December 31, 2011 and 2010, the Company's

Table of Contents

SPEs had cash and cash equivalents of \$46.8 million and \$83.2 million, respectively, and payment service obligations of \$41.9 million and \$76.9 million, respectively.

In connection with the SPEs, the Company must maintain certain specified ratios of greater than 100 percent of segregated assets to outstanding payment instruments. These specified ratios require the Company to contribute additional assets if the fair value of the segregated assets is less than the outstanding payment instruments at any time. The segregated assets consist solely of cash and cash equivalents; therefore, the Company does not anticipate a need to contribute additional assets in the future to maintain the specified ratios as required by the SPEs. Under certain limited circumstances, the related financial institution customers have the right to either demand liquidation of the segregated assets or to replace the Company as the administrator of the SPE. Such limited circumstances consist of material (and in most cases continued) failure of MoneyGram to uphold its warranties and obligations pursuant to its underlying agreements with the financial institution customers.

Certain structured investments owned by the Company represent beneficial interests in grantor trusts or other similar entities. These trusts typically contain an investment grade security, generally a United States Treasury strip, and an investment in the residual interest in a collateralized debt obligation, or in some cases, a limited partnership interest. For certain of these trusts, the Company owns a percentage of the beneficial interests which results in the Company absorbing a majority of the expected losses. Therefore, the Company consolidates these trusts by recording and accounting for the assets of the trust separately in the consolidated financial statements.

Management Estimates The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

Substantially Restricted The Company's licensed entity MPSI is regulated by various U.S. state agencies that generally require the Company to maintain a pool of assets with an investment rating of A or higher (permissible investments) in an amount equal to the payment service obligations, as defined by each state, for those regulated payment instruments, namely teller checks, agent checks, money orders and money transfers. The regulatory payment service assets measure varies by state, but in all cases excludes investments rated below A-. The most restrictive states may also exclude assets held at banks that do not belong to a national insurance program, varying amounts of accounts receivable balances and/or assets held in one of the SPEs. The regulatory payment service obligations measure varies by state, but in all cases is substantially lower than the Company's payment service obligations as disclosed in the Consolidated Balance Sheets as the Company is not regulated by state agencies for payment service obligations resulting from outstanding cashier's checks or for amounts payable to agents and brokers.

In connection with its second lien notes, one clearing bank agreement and the SPEs, the Company also has certain financial covenants that require it to maintain pre-defined ratios of certain assets to payment service obligations. The financial covenants under the credit facilities are described in Note 9 *Debt*. One clearing bank agreement has financial covenants that include the maintenance of total cash, cash equivalents, receivables and investments in an amount at least equal to payment service obligations, as disclosed in the Consolidated Balance Sheets, as well as the maintenance of a minimum 103 percent ratio of total assets held at that bank to instruments estimated to clear through that bank. Financial covenants related to the SPEs include the maintenance of specified ratios of cash, cash equivalents and investments held in the SPE to the outstanding payment instruments issued by the related financial institution customer.

The regulatory and contractual requirements do not require the Company to specify individual assets held to meet its payment service obligations, nor is the Company required to deposit specific assets into a trust, escrow or other special account. Rather, the Company must maintain a pool of liquid assets sufficient to comply with the requirements. No third party places limitations, legal or otherwise, on the Company regarding the use of its individual liquid assets. The Company is able to withdraw, deposit or sell its individual liquid assets at will, with no prior notice or penalty, provided the Company maintains a total pool of liquid assets sufficient to meet the regulatory and contractual requirements.

The Company is not regulated by state agencies for payment service obligations resulting from outstanding cashier's checks; however, the Company restricts a portion of the funds related to these payment instruments due

Table of Contents

to contractual arrangements and Company policy. Assets restricted for regulatory or contractual reasons are not available to satisfy working capital or other financing requirements. Consequently, the Company considers a significant amount of cash and cash equivalents, receivables and investments to be restricted to satisfy the liability to pay the principal amount of regulated payment service obligations upon presentment. Cash and cash equivalents, receivables and investments exceeding payment service obligations are generally available; however, management considers a portion of these amounts as providing additional assurance that business needs and regulatory requirements are maintained during the normal fluctuations in the value of the Company's payment service assets and obligations. The following table shows the amount of assets in excess of payment service obligations at December 31:

<i>(Amounts in thousands)</i>	2011	2010
Cash and cash equivalents (substantially restricted)	\$ 2,572,174	\$ 2,865,941
Receivables, net (substantially restricted)	1,220,065	982,319
Short-term investments (substantially restricted)	522,024	405,769
Available-for-sale investments (substantially restricted)	102,771	160,936
	4,417,034	4,414,965
Payment service obligations	(4,205,375)	(4,184,736)
Assets in excess of payment service obligations	\$ 211,659	\$ 230,229

Regulatory requirements also require MPSI to maintain positive net worth, with one state requiring that MPSI maintain positive tangible net worth. In its most restrictive state, the Company had excess permissible investments of \$445.7 million over the state's payment service obligations measure at December 31, 2011, with substantially higher excess permissible investments for most other states. The Company was in compliance with its contractual and financial regulatory requirements as of December 31, 2011.

Cash and Cash Equivalents (substantially restricted) The Company defines cash and cash equivalents as cash on hand and all highly liquid debt instruments with original maturities of three months or less at the purchase date.

Receivables, net (substantially restricted) The Company has receivables due from financial institutions and agents for payment instruments sold and amounts advanced by the Company to certain agents for operational and local regulatory compliance purposes. These receivables are outstanding from the day of the sale of the payment instrument until the financial institution or agent remits the funds to the Company. The Company provides an allowance for the portion of the receivable estimated to become uncollectible as determined based on known delinquent accounts and historical trends. Receivables are generally considered past due one day after the contractual remittance schedule, which is typically one to three days after the sale of the underlying payment instrument. Receivables are evaluated for collectability by examining the facts and circumstances surrounding each customer where an account is delinquent and a loss is deemed possible. Receivables are generally written off against the allowance one year after becoming past due. Following is a summary of activity within the allowance for losses:

<i>(Amounts in thousands)</i>	2011	2010	2009
Beginning balance	\$ 19,971	\$ 24,535	\$ 16,178
Charged to expense	6,571	6,404	21,432
Write-offs, net of recoveries	(16,038)	(10,968)	(13,075)
Ending balance	\$ 10,504	\$ 19,971	\$ 24,535

Investments (substantially restricted) The Company classifies securities as short-term, trading, or available-for-sale in its Consolidated Balance Sheets. The Company has no securities classified as held-to-maturity. Time deposits and certificates of deposits with original maturities of greater than three months are classified as short-term investments and recorded at amortized cost. Securities that are bought and held principally for the purpose of resale in the near term are classified as trading securities. The Company records

Table of Contents

trading securities at fair value, with gains or losses reported in the Consolidated Statements of Income (Loss). Securities held for indefinite periods of time, including any securities that may be sold to assist in the clearing of payment service obligations or in the management of the investment portfolio, are classified as available-for-sale securities. These securities are recorded at fair value, with the net after-tax unrealized gain or loss recorded as a separate component of stockholders' deficit. Realized gains and losses and other-than-temporary impairments are recorded in the Consolidated Statements of Income (Loss).

Interest income on Residential mortgage-backed securities for which risk of credit loss is deemed remote is recorded utilizing the level yield method. Changes in estimated cash flows, both positive and negative, are accounted for with retrospective changes to the carrying value of investments in order to maintain a level yield over the life of the investment. Interest income on mortgage-backed securities for which risk of credit loss is not deemed remote is recorded under the prospective method as adjustments of yield.

The Company applies the cost recovery method of accounting for interest to its investments categorized as Other asset-backed securities. The cost recovery method accounts for interest on a cash basis and treats any interest payments received as deemed recoveries of principal, reducing the book value of the related security. When the book value of the related security is reduced to zero, interest payments are then recognized as income upon receipt. The Company applies the cost recovery method of accounting as it believes it is probable that the Company will not recover all, or substantially all, of its principal investment and interest for its Other asset-backed securities given the sustained deterioration in the investment and securities market, the collapse of many asset-backed securities and the low levels to which the securities have been written down.

Securities with gross unrealized losses at the balance sheet date are subject to a process for identifying other-than-temporary impairments. Securities that the Company deems to be other-than-temporarily impaired are written down to fair value in the period the impairment occurs. The assessment of whether such impairment has occurred is based on management's evaluation of the underlying reasons for the decline in fair value on an individual security basis. The Company considers a wide range of factors about the security and uses its best judgment in evaluating the cause of the decline in the estimated fair value of the security and the prospects for recovery. The Company considers an investment to be other-than-temporarily impaired when it is deemed probable that the Company will not receive all of the cash flows contractually stipulated for the investment. The Company evaluates mortgage-backed and other asset-backed investments rated A and below for which risk of credit loss is deemed more than remote for impairment. When an adverse change in expected cash flows occurs, and if the fair value of a security is less than its carrying value, the investment is written down to fair value through a permanent reduction to its amortized cost. Securities gains and losses are recognized upon the sale, call or maturity of securities using the specific identification method to determine the cost basis of securities sold. Unrealized gains and losses resulting from changes in the fair value of trading investments and put options related to trading investments are recognized in the period in which the change occurs. Any impairment charges and other securities gains and losses are included in the Consolidated Statements of Income (Loss) under Net securities (gains) losses.

Payment Service Obligations Payment service obligations primarily consist of: outstanding payment instruments; amounts owed to financial institutions for funds paid to the Company to cover clearings of official check payment instruments, remittances and clearing adjustments; amounts owed to agents for funds paid to consumers on behalf of the Company; commissions owed to financial institution customers and agents for instruments sold; amounts owed to investment brokers for purchased securities; and unclaimed instruments owed to various states. These obligations are recognized by the Company at the time the underlying transactions occur.

Fair Value of Financial Instruments Financial instruments consist of cash and cash equivalents, investments, derivatives, deferred compensation and debt. The carrying values of cash and cash equivalents and short-term investments approximate fair value due to the short-term nature of these instruments. The carrying value of debt is stated at amortized cost, and for disclosure purposes the fair value is estimated. See Note 4 *Financial Instruments and Fair Value Measurement* for information regarding the principles and processes used to estimate the fair value of financial instruments.

Derivative Financial Instruments The Company recognizes derivative instruments in the Consolidated Balance Sheets at fair value. The accounting for changes in the fair value depends on the intended use of the

Table of Contents

derivative and the resulting designation. For a derivative instrument designated as a fair value hedge, the Company recognizes the change in fair value in earnings in the period of change, together with the offsetting change in the hedged item.

Cash flows resulting from derivative financial instruments are classified in the same category as the cash flows from the items being hedged. The Company does not use derivative instruments for trading or speculative purposes.

Property and Equipment Property and equipment includes agent equipment, communication equipment, computer hardware, computer software, leasehold improvements, office furniture and equipment, land and signs, and is stated at cost net of accumulated depreciation. Property and equipment, with the exception of land, is depreciated using a straight-line method over the useful life or term of the lease or license. Land is not depreciated. The cost and related accumulated depreciation of assets sold or disposed of are removed from the financial statements, with the resulting gain or loss, if any, recognized under the caption Occupancy, equipment and supplies in the Consolidated Statements of Income (Loss). Estimated useful lives by major asset category are generally as follows:

Agent equipment	3 years
Communication equipment	5 years
Computer hardware	3 years
Computer software	5-7 years
Leasehold improvements	10 years
Office furniture and equipment	7 years
Signage	3 years

For the years ended December 31, 2011 and 2010, software development costs of \$9.4 million and \$14.2 million, respectively, were capitalized. At December 31, 2011 and 2010, there was \$39.3 million and \$40.9 million of unamortized software development costs included in property and equipment.

Tenant allowances for leasehold improvements are capitalized as leasehold improvements upon completion of the improvement and depreciated over the shorter of the remaining term of the lease or 10 years.

Goodwill and Intangible Assets Goodwill represents the excess of the purchase price over the fair value of net assets acquired in business combinations and is assigned to the reporting unit in which the acquired business will operate. Intangible assets are recorded at their estimated fair value at the date of acquisition or at cost if internally developed. Goodwill and intangible assets with indefinite lives are not amortized, but are instead subject to impairment testing. Intangible assets with finite lives are amortized using a straight-line method over their respective useful lives as follows:

Customer lists	4-15 years
Patents	15 years
Non-compete agreements	3 years
Trademarks	36-40 years
Developed technology	5 years

Goodwill and intangible assets are tested for impairment annually as of November 30, or whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. Goodwill is tested for impairment using a fair-value based approach, and is assessed at the reporting unit level. The carrying value of the reporting unit is compared to its estimated fair value, with any excess of carrying value over fair value deemed to be an indicator of potential impairment, in which case a second step is performed comparing the recorded amount of goodwill to its implied fair value. Intangible assets with finite lives and other long-lived assets are tested for impairment by comparing the carrying value of the assets to the estimated future undiscounted cash flows to be generated by the asset. If an impairment is determined to exist for goodwill and intangible assets, the carrying value of the asset is reduced to the estimated fair value.

Table of Contents

Payments on Long-Term Contracts The Company makes payments to certain agents and financial institution customers as an incentive to enter into long-term contracts. The payments, or signing bonuses, are generally required to be refunded pro rata in the event of nonperformance under, or cancellation of, the contract by the customer. For contracts requiring payments to be refunded, the signing bonuses are capitalized and amortized over the life of the related contract as such costs are recoverable through future operations or, in the case of early termination, through penalties or refunds. Amortization of signing bonuses on long-term contracts is recorded in *Fee and other commissions expense* in the Consolidated Statements of Income (Loss). The carrying values of the signing bonuses are reviewed annually or whenever events or changes in circumstances indicate that the carrying amounts may not be recoverable. Signing bonuses for contracts that do not require a refund in the event of nonperformance or cancellation are expensed upon payment in *Fee and other commissions expense* in the Consolidated Statements of Income (Loss).

Income Taxes The provision for income taxes is computed based on the pre-tax income included in the Consolidated Statements of Income (Loss). Deferred tax assets and liabilities are recorded based on the future tax consequences attributable to temporary differences that exist between the financial statement carrying value of assets and liabilities and their respective tax basis, and operating loss and tax credit carry-backs and carry-forwards on a taxing jurisdiction basis. The Company measures deferred tax assets and liabilities using enacted statutory tax rates that will apply in the years in which we expect the temporary differences to be recovered or paid. Our ability to realize our deferred tax assets depends on our ability to generate sufficient taxable income within the carry-back or carry-forward periods provided for in the tax law. We establish valuation allowances for our deferred tax assets based on a more-likely-than-not threshold. To the extent management believes that recovery is not likely, a valuation allowance is established in the period in which the determination is made.

The liability for unrecognized tax benefits is recorded as a non-cash item in *Accounts payable and other liabilities* in the Consolidated Balance Sheets. The Company records interest and penalties for unrecognized tax benefits in *Income tax (benefit) expense* in the Consolidated Statements of Income (Loss). See Note 14 *Income Taxes* for further discussion.

Treasury Stock Repurchased common stock is stated at cost and is presented as a separate component of stockholders' deficit. See Note 12 *Stockholders' Deficit* for further discussion.

Foreign Currency Translation The Company converts assets and liabilities of foreign operations to their U.S. dollar equivalents at rates in effect at the balance sheet dates, recording the translation adjustments in *Accumulated other comprehensive loss* in the Consolidated Balance Sheets. Income statements of foreign operations are translated from the operation's functional currency to U.S. dollar equivalents at the average exchange rate for the month. Foreign currency exchange transaction gains and losses are reported in *Transaction and operations support* in the Consolidated Statements of Income (Loss).

Revenue Recognition The Company derives revenue primarily through service fees charged to consumers and its investing activity. A description of these revenues and recognition policies is as follows:

Fee and other revenue consists of transaction fees, service revenue, foreign exchange revenue and other revenue.

Transaction fees consist primarily of fees earned on money transfer, money order, bill payment and official check transactions. The money transfer transaction fees vary based on the principal value of the transaction and the locations in which these money transfers originate and to which they are sent. The money order and bill payment transaction fees are fixed fees charged on a per item basis. Transaction fees are recognized at the time of the transaction or sale of the product.

Service revenue primarily consists of service charges on aged outstanding money orders and money order dispenser fees.

Foreign exchange revenue is derived from the management of currency exchange spreads on money transfer transactions involving different send and receive currencies. Foreign exchange revenue is recognized at the time the exchange in funds occurs.

Table of Contents

Investment revenue is derived from the investment of funds generated from the sale of payment instruments, primarily official checks and money orders, and consists of interest income, dividend income and amortization of premiums and discounts.

Fee and Other Commissions Expense The Company pays fee commissions to third-party agents for money transfer and bill payment products. In a money transfer transaction, both the agent initiating the transaction and the agent disbursing the funds receive a commission that is generally based on a percentage of the fee charged to the customer. The Company generally does not pay commissions to agents on the sale of money orders. Fee commissions are recognized at the time of the transaction. Other commissions expense includes the amortization of capitalized signing bonus payments.

Investment Commissions Expense Investment commissions expense consists of amounts paid to financial institution customers based on short-term interest rate indices times the average outstanding cash balances of official checks sold by the financial institution. Investment commissions are recognized each month based on the average outstanding balances of each financial institution customer and their contractual variable rate for that month.

Marketing and Advertising Expense Marketing and advertising costs are expensed as incurred or at the time the advertising first takes place and are recorded in the Transaction and operations support line in the Consolidated Statements of Income (Loss). Marketing and advertising expense was \$57.5 million, \$47.1 million and \$40.2 million for 2011, 2010 and 2009, respectively.

Stock-Based Compensation All stock-based compensation awards are measured at fair value at the date of grant and expensed over their vesting or service periods. Expense, net of estimated forfeitures, is recognized using the straight-line method. See Note 13 *Stock-Based Compensation* for further discussion of the Company's stock-based compensation.

Restructuring and Reorganization Expenses Restructuring and reorganization expenses may consist of direct and incremental costs associated with restructuring and related activities, including severance; outplacement and other employee related benefits; facility closures, cease-use or related charges; asset impairments or accelerated depreciation; and other expenses related to relocation of various operations to existing or new Company facilities and third-party providers, including hiring, training, relocation, travel and professional fees. The Company records severance-related expenses once they are both probable and estimable related to severance provided under an on-going benefit arrangement. One-time, involuntary benefit arrangements and other exit costs are generally recognized when the liability is incurred. The Company evaluates impairment issues associated with restructuring activities when the carrying amount of the assets may not be fully recoverable, and also reviews the appropriateness of the remaining useful lives of impacted fixed assets.

In connection with restructuring and related activities during 2011 and 2010, the Company recorded total expenses of \$23.5 million and \$5.9 million, respectively. Restructuring activities consisted of severance costs recorded in the Compensation and benefits line, general restructuring costs recorded in the Transaction and operations support line and facilities and certain related asset write-off charges recorded in the Occupancy, equipment and supplies line in the operating expense section of the Consolidated Statements of Income. During 2011, the Company recognized an impairment charge of \$2.3 million for restructuring-related efforts to dispose of land held for non-operating purposes. The impairment charge was recorded in the Other line of the Consolidated Statements of Income. Restructuring costs recorded consist of the following:

(Amounts in thousands)	2011	2010	2009
Restructuring costs in operating expenses:			
Compensation and benefits	\$ 4,696	\$ 2,970	\$
Transaction and operations support	13,707	1,303	
Occupancy, equipment and supplies	2,694	1,580	
Restructuring costs in non-operating expenses:			
Other	2,373		
Total restructuring costs	\$ 23,470	\$ 5,853	\$

Table of Contents

Other Expenses Other expenses are recorded in a separate section below operating income and include items based on management's assessment of their nature as non-operating. Included in other expenses and reported separately are securities (gains) losses, interest expense and debt extinguishment costs. Following is a summary of other costs:

(Amounts in thousands)	2011	2010	2009
Capital transaction costs	\$ 6,446	\$	\$
Disposal loss from asset dispositions	972		
Impairment loss from asset dispositions	4,458		
Gain on forward foreign currency contracts			(2,401)
Total other	\$ 11,876	\$	\$ (2,401)

Earnings Per Share The Company utilizes the two-class method for computing basic earnings per common share, which reflects the amount of undistributed earnings allocated to the common stockholders using the participation percentage of each class of stock. Undistributed earnings is determined as the Company's net income less dividends declared, accumulated, deemed or paid on preferred stock. Deemed dividends include preferred stock accretion and the additional consideration paid in connection with the 2011 Recapitalization. The undistributed earnings allocated to the common stockholders are divided by the weighted-average number of common shares outstanding during the period to compute basic earnings per common share. For 2011, the D Stock is included in the weighted-average number of common shares outstanding using the if-converted method as the D Stock is deemed a common stock equivalent. Diluted earnings per common share reflects the potential dilution that could result if securities or incremental shares arising out of the Company's stock-based compensation plans and the outstanding shares of Series B Stock were exercised or converted into common stock. Diluted earnings per common share assumes the exercise of stock options using the treasury stock method and the conversion of the Series B Stock using the if-converted method. Non-vested performance based awards are included in diluted shares outstanding if the performance condition is met at the end of the reporting period.

For the calculation of earnings per share for discrete periods after June 30, 2011, the Company will no longer apply the two-class method of calculating basic earnings per share as the Series B Stock is no longer outstanding and the D Stock is deemed a common stock equivalent.

Potential common shares are excluded from the computation of diluted earnings per common share when the effect would be anti-dilutive. All potential common shares are anti-dilutive in periods of net loss available to common stockholders. Stock options are anti-dilutive when the exercise price of these instruments is greater than the average market price of the Company's common stock for the period. The Series B Stock is anti-dilutive when the incremental earnings per share of Series B Stock on an if-converted basis is greater than the basic earnings per common share. Following are the weighted-average potential common shares excluded from diluted loss per common share as their effect is anti-dilutive or their performance conditions are not met:

(Amounts in thousands)	2011	2010	2009
Shares related to stock options	5,162	4,665	2,705
Shares related to restricted stock and stock units	62		4
Shares related to preferred stock	20,989	53,969	47,719
Shares excluded from the computation	26,213	58,634	50,428

Recent Accounting Pronouncements and Related Developments In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*, (ASU 2011-04). ASU 2011-04 amends Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, (ASC 820), providing a consistent definition and measurement of fair value, as well as similar disclosure requirements between U.S. GAAP and International Financial Reporting Standards. ASU 2011-04 changes certain fair value

Table of Contents

measurement principles, clarifies the application of existing fair value measurement and expands the ASC 820 disclosure requirements, particularly for Level 3 fair value measurements. ASU 2011-04 will be effective for the Company's interim and annual periods beginning after December 15, 2011, with early adoption prohibited. The Company is currently evaluating the adoption of ASU 2011-04, but does not expect it to have a material effect on the Company's Consolidated Financial Statements, although additional disclosures may be required.

In June 2011, the FASB issued ASU No. 2011-05, *Comprehensive Income (ASC Topic 220): Presentation of Comprehensive Income*, (ASU 2011-05) to amend financial statement presentation guidance for other comprehensive income (OCI). Under ASU 2011-05, the statement of income and OCI can be presented either as a continuous statement or in two separate consecutive statements. As such, the option to present the components of other comprehensive income as part of the statement of stockholders' equity is eliminated. The amendments in ASU 2011-05 do not change the items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income. ASU 2011-05 will be effective for the Company as of January 1, 2012. The Company is currently evaluating the impact of this standard on the presentation of its Consolidated Financial Statements.

In September 2011, the FASB issued ASU No. 2011-08, *Testing Goodwill for Impairment* (ASU 2011-08). ASU 2011-08 provides entities an option of assessing qualitative factors when testing goodwill for impairment before calculating the fair value of a reporting unit in step 1 of the goodwill impairment test. If an entity determines that the fair value of a reporting unit is more likely than not less than its carrying value, then performing the two step impairment test is required after performing a qualitative assessment. Otherwise, the two step impairment test is not necessary. ASU 2011-08 is effective for the Company as of January 1, 2012, with early adoption permitted. The Company is currently evaluating the impact of this standard on its annual goodwill impairment test, but does not expect any impact to the Company's Consolidated Financial Statements.

Note 3 Acquisitions and Disposals

PropertyBridge After evaluating the Company's market opportunity for certain of its electronic payment services, the Company received approval from its Board of Directors and began to actively pursue the sale of certain assets of PropertyBridge, Inc. (PropertyBridge) in 2011. In connection with this decision, the Company recorded an impairment charge of \$2.3 million. In October 2011, certain assets and liabilities associated with PropertyBridge were sold, resulting in a loss on disposal of \$0.3 million. The impairment charge and loss on disposal are recorded in the Other line in the Consolidated Statements of Income (Loss). A tax benefit of \$9.7 million was recorded in the income tax (benefit) expense line of the Consolidated Statements of Income (loss) upon disposition of the remaining assets.

The assets, liabilities and loss on disposal related to the PropertyBridge transaction are immaterial to the Consolidated Balance Sheets as of December 31, 2011 and the Consolidated Statements of Income (Loss) for the year ended December 31, 2011.

Blue Dolphin Financial Services N.V. On February 5, 2010, the Company acquired Blue Dolphin Financial Services N.V. (Blue Dolphin), a former super-agent in Belgium and the Netherlands, for a purchase price of \$1.4 million, including cash acquired of \$1.1 million, and an earn-out potential of up to \$1.4 million. The acquisition of Blue Dolphin provided the Company with the opportunity for further network expansion in the Netherlands and Belgium under the European Union Payment Services Directive and additional control over sales and marketing activities.

The Company finalized its purchase price allocation in 2010, resulting in \$3.1 million of goodwill assigned to the Company's Global Funds Transfer segment, and the forgiveness of \$2.7 million of liabilities. The final earn-out was calculated as of December 31, 2010 in the amount of \$0.8 million. As a result, the Company recorded a gain of \$0.2 million in the Transaction and operations support line in the Consolidated Statements of Income (Loss). The Company also incurred \$0.1 million of transaction costs related to the acquisition in 2010, which are included in the Transaction and operations support line in the Consolidated Statements of Income (Loss).

Table of Contents

The operating results of Blue Dolphin subsequent to the acquisition date are included in the Company's Consolidated Statements of Income (Loss). The financial impact of the acquisition is not material to the Consolidated Balance Sheets or Consolidated Statements of Income (Loss).

R. Raphaels & Sons PLC On February 2, 2009, the Company acquired the French assets of R. Raphaels & Sons PLC (Raphaels Bank) for a purchase price of \$3.2 million. The acquisition of Raphaels Bank provided the Company with five money transfer stores in and around Paris, France that have been integrated into its French retail operations.

The Company finalized its purchase price allocation in 2010, resulting in \$2.0 million of goodwill assigned to the Company's Global Funds Transfer segment. The Company incurred \$0.2 million of transaction costs related to this acquisition in 2008 which are included in the Transaction and operations support line in the Consolidated Statements of Income (Loss). The operating results of Raphaels Bank subsequent to the acquisition date are included in the Company's Consolidated Statements of Income (Loss). The financial impact of the acquisition is not material to the Consolidated Balance Sheets or Consolidated Statements of Income (Loss).

FSMC, Inc. On May 15, 2009, the Company's subsidiary FSMC, Inc. (FSMC), entered into an agreement with Solutran, Inc. to sell certain assets and rights for a price of \$4.5 million. As a result of the sale, which was completed in the third quarter of 2009, the Company recorded an impairment charge of \$0.6 million to write off goodwill associated with FSMC. This impairment charge is recorded in the Transaction and operations support line in the Consolidated Statements of Income (Loss). The operating results of FSMC are not material to the Company's Consolidated Statements of Income (Loss) and the assets and liabilities are not material to the Company's Consolidated Balance Sheets. FSMC is included in the Company's Other results for segment reporting purposes.

ACH Commerce After evaluating the Company's market opportunity for certain of its electronic payment services, the Company announced a decision in December 2008 to exit the ACH Commerce business. In connection with this decision, the Company recognized an impairment charge of \$8.8 million to write off the goodwill associated with ACH Commerce. In the third quarter of 2009, the Company recorded an impairment charge of \$1.4 million for its proprietary software related to ACH Commerce. The impairment charge was recorded in the Transaction and operations support line in the Consolidated Statements of Income (Loss). ACH Commerce is not material to the Consolidated Statements of Income (Loss) or the Consolidated Balance Sheets. ACH Commerce is included in the Company's Other results for segment reporting purposes.

Other Disposals During 2010, the Company completed the sale of its corporate airplane with net proceeds of \$7.5 million. Upon completion of the sale in the third quarter of 2010 the Company recorded an impairment charge of \$1.5 million. In 2009, in connection with this decision to sell the airplane, the Company recognized a \$7.0 million impairment charge. Impairment charges are recorded in the Transaction and operations support line in the Consolidated Statements of Income (Loss).

Note 4 Fair Value Measurement

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability, or the exit price, in an orderly transaction between market participants on the measurement date. A three-level hierarchy is used for fair value measurements based upon the observability of the inputs to the valuation of an asset or liability as of the measurement date. Under the hierarchy, the highest priority is given to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1), followed by observable inputs (Level 2) and unobservable inputs (Level 3). A financial instrument's level within the hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Following is a description of the Company's valuation methodologies used to estimate the fair value for assets and liabilities:

a) Assets and liabilities that are measured at fair value on a recurring basis

Edgar Filing: MONEYGRAM INTERNATIONAL INC - Form 10-K

Available-for-sale Investments For U.S. government agencies and residential mortgage-backed securities collateralized by U.S. government agency securities, fair value measures are generally obtained

F-20

Table of Contents

from independent sources, including a pricing service. Because market quotes are generally not readily available or accessible for these specific securities, the pricing service generally measures fair value through the use of pricing models and observable inputs for similar assets and market data. Accordingly, these securities are classified as Level 2 financial instruments. The Company periodically corroborates the valuations provided by the pricing service through internal valuations utilizing externally developed cash flow models, comparison to actual transaction prices for any sold securities and any broker quotes received on the same security.

For other asset-backed securities, investments in limited partnerships and trading investments, market quotes are generally not available. If available, the Company will utilize a fair value measurement from a pricing service. The pricing service utilizes a pricing model based on market observable data and indices, such as quotes for comparable securities, yield curves, default indices, interest rates and historical prepayment speeds. If a fair value measurement is not available from the pricing service, the Company will utilize a broker quote if available. Due to a general lack of transparency in the process that the brokers use to develop prices, most valuations that are based on brokers' quotes are classified as Level 3. If no broker quote is available, or if such quote cannot be corroborated by market data or internal valuations, the Company will perform internal valuations utilizing externally developed cash flow models. These pricing models are based on market observable spreads and, when available, observable market indices. The pricing models also use inputs such as the rate of future prepayments and expected default rates on the principal, which are derived by the Company based on the characteristics of the underlying structure and historical prepayment speeds experienced at the interest rate levels projected for the underlying collateral. The pricing models for certain asset-backed securities also include significant non-observable inputs such as internally assessed credit ratings for non-rated securities, combined with externally provided credit spreads. Observability of market inputs to the valuation models used for pricing certain of the Company's investments deteriorated with the disruption to the credit markets as overall liquidity and trading activity in these sectors has been substantially reduced. Accordingly, securities valued using a pricing model have consistently been classified as Level 3 financial instruments.

Derivative Financial Instruments Derivatives consist of forward contracts to hedge income statement exposure to foreign currency exchange risk arising from the Company's assets and liabilities denominated in foreign currencies. The Company's forward contracts are well-established products, allowing the use of standardized models with market-based inputs. These models do not contain a high level of subjectivity and the inputs are readily observable. Accordingly, the Company has classified its forward contracts as Level 2 financial instruments. See Note 6 *Derivative Financial Instruments* for more information on the forward contracts.

Other Financial Instruments Other financial instruments consisted of put options related to trading investments. The fair value of the put options related to trading investments were estimated using the expected cash flows from the instruments through their assumed exercise date. These cash flows were discounted at a rate corroborated by market data for a financial institution comparable to the put option counter-party, as well as the Company's interest rate on its debt. The discounted cash flows of the put options were then reduced by the estimated fair value of the related trading investments. Given the subjectivity of the discount rate and the estimated fair value of the trading investments, the Company classified its put options related to trading investments as Level 3 financial instruments. The fair value of the put options is remeasured each period, with the change in fair value recognized in the Consolidated Statements of Income.

Deferred compensation The assets associated with the deferred compensation plan which are funded through voluntary contributions by the Company consist of investments in mutual funds. These investments were classified as Level 1 as there are quoted market prices for these funds.

Table of Contents

Following are the Company's financial assets and liabilities measured at fair value by hierarchy level as of December 31:

	Balance at December 31, 2011	Fair Value at December 31, 2011			
(Amounts in thousands)		Level 1	Level 2	Level 3	Total
Financial assets:					
Available-for-sale investments (substantially restricted):					
United States government agencies	\$ 8,827	\$	\$ 8,827	\$	\$ 8,827
Residential mortgage-backed securities agencies	69,712		69,712		69,712
Other asset-backed securities	24,232			24,232	24,232
Investment related to deferred compensation trust	8,118	8,118			8,118
Forward contracts	399		399		399
Total financial assets	\$ 111,288	\$ 8,118	\$ 78,938	\$ 24,232	\$ 111,288
Financial liabilities:					
Forward contracts	\$ 46	\$	\$ 46	\$	\$ 46

	Balance at December 31, 2010	Fair Value at December 31, 2010			
(Amounts in thousands)		Level 1	Level 2	Level 3	Total
Available-for-sale investments (substantially restricted):					
United States government agencies	\$ 8,641	\$	\$ 8,641	\$	\$ 8,641
Residential mortgage-backed securities agencies	128,585		128,585		128,585
Other asset-backed securities	23,710			23,710	23,710
Investment related to deferred compensation trust	10,693	10,693			10,693
Forward contracts	1,117		1,117		1,117
Total financial assets	\$ 172,746	\$ 10,693	\$ 138,343	\$ 23,710	\$ 172,746
Financial liabilities:					
Forward contracts	\$ 535	\$	\$ 535	\$	\$ 535

Table of Contents

The table below provides a roll-forward of the financial assets classified in Level 3 which are measured at fair value on a recurring basis for the years ended December 31:

	2011			2010	
	Other	Total Level 3	Trading Investments and Related Put Options	Other	Total Level 3
	Asset-Backed Securities	Financial Assets		Asset-Backed Securities	Financial Assets
<i>(Amounts in thousands)</i>					
Beginning balance	\$ 23,710	\$ 23,710	\$ 26,951	\$ 22,088	\$ 49,039
Realized gains			2,449		2,449
Realized losses					
Principal paydowns	(657)	(657)	(29,400)	(3,711)	(33,111)
Other-than-temporary impairments	(4)	(4)		(334)	(334)
Unrealized gains instruments still held at the reporting date	10,047	10,047		7,632	7,632
Unrealized losses instruments still held at the reporting date	(8,864)	(8,864)		(1,965)	(1,965)
Ending balance	\$ 24,232	\$ 24,232	\$	\$ 23,710	\$ 23,710

Realized gains and losses and other-than-temporary impairments related to these available-for-sale investment securities are reported in the Net securities (gains) losses line in the Consolidated Statements of Income (Loss) while unrealized gains and losses related to available-for-sale securities are recorded in accumulated other comprehensive loss in stockholders' deficit.

b) Assets and liabilities that are disclosed at fair value

Debt is carried at amortized cost; however, the Company estimates the fair value of debt for disclosure purposes. The fair value of debt is estimated using market quotations, where available, credit ratings, observable market indices and other market data. As of December 31, 2011, the fair value of the senior secured facility is \$479.8 million compared to the carrying value of \$489.6 million. As of December 31, 2011 the fair value of the Company's second lien notes is estimated at \$335.6 million compared to a carrying value of \$325.0 million. As of December 31, 2010, the fair value of Tranche A and Tranche B under the Company's senior facility is estimated at \$95.3 million and \$40.0 million, respectively, compared to carrying values of \$100.0 million and \$39.9 million, respectively.

c) Assets and liabilities measured at fair value on a non-recurring basis

Assets and liabilities measured at fair value on a non-recurring basis relate primarily to the Company's tangible fixed assets, goodwill and other intangible assets which are re-measured only in the event of an impairment. The following table represents non-recurring fair value for those assets remeasured to fair value during the year ended December 31, 2011 and 2010:

	Impairments	Remaining Net Carrying Value December 31, 2011	Impairments	Remaining Net Carrying Value December 31, 2010
<i>(Amounts in thousands)</i>				
Land	\$ 2,356	\$ 410	\$	\$
Customer Lists	2,038	486	414	3,235
Aircraft			1,500	
Capitalized software	677			
Total	\$ 5,071	\$ 896	\$ 1,914	\$ 3,235

Fair value re-measurements are normally based on significant unobservable inputs (Level 3). Tangible and intangible fixed asset fair values are normally derived using a discounted cash flow model based on expected future cash flows discounted using a weighted-average cost of capital rate. When it is determined an impairment loss has occurred, the carrying value of the asset is reduced to fair value with a corresponding charge to the Consolidated Statements of Income (Loss).

F-23

Table of Contents*d) Other Fair Value Measurements*

The Company also records the investments in its defined benefit pension plan trust at fair value. The majority of the plan's investments are interest-bearing cash or common collective trusts issued and held by the plan's trustee. The fair values of plan investments held by the trustee of the plan are determined by the trustee based on the current market values of the underlying assets. In instances where market prices are not available, market values are determined by using bid quotations obtained from major market makers or security exchanges or bid quotations for identical or similar obligations. See Note 10 *Pension and Other Benefits* for further description of investments held by the plan.

Note 5 Investment Portfolio

The Company's portfolio is invested in cash and cash equivalents, short-term investments, trading investments and available-for-sale investments, all of which are substantially restricted as described in Note 2 *Summary of Significant Accounting Policies*. Components of the Company's investment portfolio as of December 31, are as follows:

<i>(Amounts in thousands)</i>	2011	2010
Cash	\$ 2,016,451	\$ 1,042,381
Money markets	555,659	1,818,138
Deposits	64	5,422
Cash and cash equivalents (substantially restricted)	2,572,174	2,865,941
Short-term investments (substantially restricted)	522,024	405,769
Available-for-sale investments (substantially restricted)	102,771	160,936
Total investment portfolio	\$ 3,196,969	\$ 3,432,646

Cash and Cash Equivalents (substantially restricted) Cash and cash equivalents consist of cash, money-market securities and time deposits. Cash primarily consists of interest-bearing deposit accounts and non-interest bearing transaction accounts. The Company's money-market securities are invested in six funds, all of which are AAA rated and consist of United States Treasury bills, notes or other obligations issued or guaranteed by the U.S. government and its agencies, as well as repurchase agreements secured by such instruments. Deposits consist of time deposits with original maturities of three months or less, and are with financial institutions rated BBB as of the date of this filing.

Short-Term Investments (substantially restricted) Short-term investments consist of time deposits and certificates of deposit with original maturities of greater than three months but no more than thirteen months, and are issued from financial institutions rated AA- as of the date of this filing.

Table of Contents

Available-for-sale Investments (substantially restricted) Available-for-sale investments consist of mortgage-backed securities, asset-backed securities and agency debenture securities. After other-than-temporary impairment charges, the amortized cost and fair value of available-for-sale investments are as follows at December 31:

	Amortized Cost	Gross Unrealized Gains	2011 Gross Unrealized Losses	Fair Value	Net Average Price
<i>(Amounts in thousands, except net average price)</i>					
Residential mortgage-backed securities-agencies	\$ 65,211	\$ 4,501	\$	\$ 69,712	\$ 107.63
Other asset-backed securities	8,951	15,281		24,232	5.49
United States government agencies	7,723	1,104		8,827	98.08
Total	\$ 81,885	\$ 20,886	\$	\$ 102,771	\$ 21.83

	Amortized Cost	Gross Unrealized Gains	2010 Gross Unrealized Losses	Fair Value	Net Average Price
<i>(Amounts in thousands, except net average price)</i>					
Residential mortgage-backed securities-agencies	\$ 121,677	\$ 7,001	\$ (93)	\$ 128,585	\$ 106.37
Other asset-backed securities	10,690	13,020		23,710	4.68
United States government agencies	7,273	1,368		8,641	96.01
Total	\$ 139,640	\$ 21,389	\$ (93)	\$ 160,936	\$ 25.27

At December 31, 2011 and 2010, approximately 76 percent and 85 percent, respectively, of the available-for-sale portfolio is invested in debentures of U.S. government agencies or securities collateralized by U.S. government agency debentures. These securities have always had the implicit backing of the U.S. government and the Company expects to receive full par value upon maturity or pay-down, as well as all interest payments. Included in other asset-backed securities are collateralized debt obligations backed primarily by high-grade debt, mezzanine equity tranches of collateralized debt obligations and home equity loans, along with private equity investments. The Other asset-backed securities continue to have market exposure. The Company has factored this risk into its fair value estimates, with the average price of an asset-backed security at \$0.05 per dollar of par at December 31, 2011.

Gains and Losses and Other-Than-Temporary Impairments At December 31, 2011 and 2010, net unrealized gains of \$21.5 million and \$21.3 million, respectively, are included in the Consolidated Balance Sheets in Accumulated other comprehensive loss. During 2011, 2010 and 2009, net losses of less than \$0.1 million, \$0.3 million and \$4.1 million, respectively, were reclassified from Accumulated other comprehensive loss to Net securities (gains) losses in connection with other-than-temporary impairments and realized gains and losses recognized during the year. Net securities (gains) losses were as follows for the year ended December 31:

	2011	2010	2009
<i>(Amounts in thousands)</i>			
Realized gains from available-for-sale investments	\$ (32,820)	\$	\$
Realized losses from available-for-sale investments			2
Other-than-temporary impairments from available-for-sale investments	4	334	4,069
Valuation gains on trading investments and related put options			(4,304)
Realized gains from trading investments and related put options		(2,449)	(7,557)
Net securities gains	\$ (32,816)	\$ (2,115)	\$ (7,790)

Edgar Filing: MONEYGRAM INTERNATIONAL INC - Form 10-K

During 2011, the Company recognized settlements of \$32.8 million equal to all of the outstanding principal from two securities classified in its other asset-backed securities . These securities had previously been written down

F-25

Table of Contents

to a nominal fair value, resulting in a realized gain of \$32.8 million in 2011 recorded in Net securities gains in the Consolidated Income Statements. The Company's final trading investment was called at par during 2010, resulting in a \$2.4 million gain, net of the reversal of the related put options, recorded in Net securities gains.

Investment Ratings In rating the securities in its investment portfolio, the Company uses ratings from Moody's Investor Service (Moody's), Standard & Poors (S&P) and Fitch Ratings (Fitch). If the rating agencies have split ratings, the Company uses the highest rating across the rating agencies for disclosure purposes. Securities issued or backed by U.S. government agencies are included in the AAA rating category. Investment grade is defined as a security having a Moody's equivalent rating of Aaa, Aa, A or Baa or an S&P or Fitch equivalent rating of AAA, AA, A or BBB. The Company's investments at December 31 consisted of the following ratings:

	2011			2010		
	Number of	Fair	Percent of	Number of	Fair	Percent of
(Dollars in thousands)	Securities	Value	Investments	Securities	Value	Investments
AAA, including United States agencies	24	\$ 78,267	76%	25	\$ 136,893	85%
Below investment grade	60	24,504	24%	64	24,043	15%
Total	84	\$ 102,771	100%	89	\$ 160,936	100%

Had the Company used the lowest rating from the rating agencies in the information presented above, there would be less than a \$0.1 million change to investments rated A or better as of December 31, 2011 and no change at December 31, 2010.

Contractual Maturities The amortized cost and fair value of available-for-sale securities at December 31, by contractual maturity, are shown below. Actual maturities may differ from contractual maturities as borrowers may have the right to call or prepay obligations, sometimes without call or prepayment penalties. Maturities of mortgage-backed and other asset-backed securities depend on the repayment characteristics and experience of the underlying obligations.

	2011		2010	
	Amortized	Fair	Amortized	Fair
(Amounts in thousands)	Cost	Value	Cost	Value
After one year through five years	\$ 7,723	\$ 8,827	\$ 7,273	\$ 8,641
Mortgage-backed and other asset-backed securities	74,162	93,944	132,367	152,295
Total	\$ 81,885	\$ 102,771	\$ 139,640	\$ 160,936

Fair Value Determination The Company uses various sources of pricing for its fair value estimates of its available-for-sale portfolio. The percentage of the portfolio for which the various pricing sources were used is as follows at December 31, 2011 and 2010: 69 percent and 81 percent, respectively, used a third party pricing service; 13 percent and 6 percent, respectively, used broker pricing; and 18 percent and 13 percent, respectively, used internal pricing.

Assessment of Unrealized Losses At December 31, 2011, the Company had no unrealized losses in its available-for-sale portfolio. As of December 31 2010, the Company had nominal unrealized losses in its available-for-sale portfolio, with one residential mortgage-backed agency security in an unrealized loss position aged 12 months or more, after the recognition of other-than-temporary impairment charges.

Note 6 Derivative Financial Instruments

The Company uses forward contracts to manage its foreign currency needs and exchange risk arising from its assets and liabilities denominated in foreign currencies. While these contracts mitigate certain foreign currency risk, they are not designated as hedges for accounting purposes. The Transaction and operations support line in

F-26

Table of Contents

the Consolidated Statements of Income (Loss) includes the following losses (gains) related to assets and liabilities denominated in foreign currencies:

<i>(Amounts in thousands)</i>	2011	2010	2009
Net realized foreign currency losses	\$ 2,911	\$ 7,204	\$ 102
Net losses (gains) from the related forward contracts	5,748	(1,840)	5,189
Net losses (gains) from foreign currency transactions and related forward contracts	\$ 8,659	\$ 5,364	\$ 5,291

As of December 31, 2011 and 2010, the Company had \$65.5 million and \$123.8 million, respectively, of outstanding notional amounts relating to its forward contracts. At December 31, the Company reflects the following fair values of derivative forward contract instruments in its Consolidated Balance Sheets:

<i>(Amounts in thousands)</i>	Balance Sheet Location	Derivative Assets		Derivative Liabilities	
		2011	2010	2011	2010
Forward contracts	Other assets	\$ 399	\$ 1,117	\$ 46	\$ 535

The Company is exposed to credit loss in the event of non-performance by counterparties to its derivative contracts. Collateral generally is not required of the counterparties or of the Company. In the unlikely event a counterparty fails to meet the contractual terms of the derivative contract, the Company's risk is limited to the fair value of the instrument. The Company actively monitors its exposure to credit risk through the use of credit approvals and credit limits, and by selecting major international banks and financial institutions as counterparties. The Company has not had any historical instances of non-performance by any counterparties, nor does it anticipate any future instances of non-performance.

Historically, the Company entered into foreign currency forward contracts with 12-month durations to hedge forecasted foreign currency money transfer transactions. The Company designated these forward contracts as cash flow hedges. All cash flow hedges matured in 2009. For the year ended December 31, 2009, the Company recognized a gain of \$2.4 million in the Other expense line in the non-operating section of the Consolidated Statements of Income (Loss). Included in this gain is \$0.8 million of unrealized gains reclassified from Accumulated other comprehensive income (loss) upon the final settlement of these cash flow hedges for the years ending December 31, 2009.

Note 7 Property and Equipment

Property and equipment consists of the following at December 31:

<i>(Amounts in thousands)</i>	2011	2010
Computer hardware and software	196,168	187,604
Signage	80,303	62,774

Edgar Filing: MONEYGRAM INTERNATIONAL INC - Form 10-K

Agent equipment	69,643	67,766
Office furniture and equipment	36,733	32,633
Leasehold improvements	27,562	23,947
Land	410	2,907
	410,819	377,631
Accumulated depreciation	(294,478)	(262,520)
Total property and equipment	\$ 116,341	\$ 115,111

F-27

Table of Contents

Depreciation expense for the year ended December 31 is as follows:

<i>(Amounts in thousands)</i>	2011	2010	2009
Computer hardware and software	\$ 21,064	\$ 20,314	\$ 23,351
Signage	9,616	8,688	10,891
Agent equipment	6,469	8,989	11,449
Office furniture and equipment	3,962	3,772	4,600
Leasehold improvements	3,744	3,885	3,526
Total depreciation expense	\$ 44,855	\$ 45,648	\$ 53,817

At December 31, 2011 and 2010, there was \$9.9 million and \$3.9 million, respectively, of property and equipment that had been received by the Company and included in Accounts payable and other liabilities in the Consolidated Balance Sheets.

Following its decision to sell land in 2011, the Company recognized a \$2.4 million impairment charge. During 2011, the Company also recognized a \$0.7 million capitalized software impairment charge, primarily in connection with the disposition of assets in the Global Funds Transfer segment. The impairment charges recorded in 2011 were included in the Other line in the Consolidated Statements of Income (Loss).

In connection with its decision to sell its corporate airplane, the Company recognized a \$7.0 million impairment charge in 2009 and a \$1.5 million impairment charge in 2010. The sale was completed in the third quarter of 2010. In 2009, the Company fully impaired \$1.4 million of software related to its ACH Commerce business based on changes in its exit plan. The impairment charges recorded in 2010 and 2009 were included in the Transaction and operations support line in the Consolidated Statements of Income (Loss).

Note 8 Goodwill and Intangible Assets

Following is a roll-forward of goodwill by reporting segment:

<i>(Amounts in thousands)</i>	Global Funds Transfer	Financial Paper Products	Other	Total
Balance as of January 1, 2009	\$ 426,794	\$ 2,487	\$ 5,056	\$ 434,337
Acquisitions	2,012			2,012
Impairment charge	(3,176)	(2,487)	(582)	(6,245)
Divestitures			(4,474)	(4,474)
Balance as of December 31, 2009	\$ 425,630	\$	\$	\$ 425,630
Acquisitions	3,061			3,061
Balance as of December 31, 2010	\$ 428,691	\$	\$	\$ 428,691

Edgar Filing: MONEYGRAM INTERNATIONAL INC - Form 10-K

Balance as of December 31, 2011	\$	428,691	\$		\$	428,691
---------------------------------	----	---------	----	--	----	---------

Goodwill acquired in 2010 relates to the acquisition of Blue Dolphin which is a component of the Global Funds Transfer segment and is not deductible for tax purposes.

The Company impaired \$3.2 million of goodwill in 2009 allocated to the Global Funds Transfer segment associated with a decision to discontinue certain bill payment product offerings. In connection with the sale of FSMC in 2009, the Company recorded a charge of \$0.6 million to impair goodwill that was in excess of the final sale price. In addition, goodwill was reduced by \$4.5 million from the sale of FSMC. The FSMC reporting unit was not a component of the Global Funds Transfer or Financial Paper Products segments.

The Company performed an annual assessment of goodwill during the fourth quarters of 2011, 2010 and 2009. As a result of the 2009 annual assessment, it was determined that the fair value of the retail money order reporting unit, a component of the Financial Paper Products segment, was fully impaired. The Company recorded

F-28

Table of Contents

an impairment charge of \$2.5 million to the Financial Paper Products segment in 2009, which was calculated as the excess of the implied fair value of the retail money order reporting unit over the carrying amount of goodwill. Goodwill impairment charges are included in the Transaction and operations support line of the Consolidated Statements of Income (Loss).

Following are the gross goodwill balances and accumulated impairments at December 31, 2011 and 2010:

<i>(Amounts in thousands)</i>	Gross Goodwill	Accumulated Impairments
Global Funds Transfer	\$ 431,867	\$ (3,176)
Financial Paper Products	2,487	(2,487)
Other	15,746	(15,746)

Intangible assets are included in Other assets in the Consolidated Balance Sheets and consist of the following:

<i>(Amounts in thousands)</i>	Gross Carrying Value	2011 Accumulated Amortization	Net Carrying Value	Gross Carrying Value	2010 Accumulated Amortization	Net Carrying Value
Amortized intangible assets:						
Customer lists	\$ 7,272	\$ (6,074)	\$ 1,198	\$ 15,592	\$ (11,149)	\$ 4,443
Non-compete agreements	137	(68)	69	137	(40)	97
Trademarks and license	597	(1)	596	613	(15)	598
Developed technology	146	(100)	46	1,519	(965)	554
Total intangible assets	\$ 8,152	\$ (6,243)	\$ 1,909	\$ 17,861	\$ (12,169)	\$ 5,692

In 2011, the Company acquired the agent contracts of a former super-agent in Spain for a purchase price of \$1.0 million, which will be amortized over a life of four years. The acquisition of these agent contracts provides the Company with further network expansion in its money transfer business in its Global Funds Transfer segment.

The Company recognized an impairment charge of \$2.0 million in 2011, primarily due to a disposition of assets and acquisition activity, for certain agent contracts utilized in the Global Funds Transfer segment. The impairment charge was recorded in the Other line in the Consolidated Statements of Income (Loss). In 2010, the Company recorded impairment charges of \$0.4 million related to customer lists as a result of acquired customer terminations in the Transaction and operations support line of the Consolidated Statements of Income (Loss). In 2009, the Company recorded impairment charges of \$3.6 million related to customer lists and trademarks associated with its retail money order business in the Transaction and operations support line of the Consolidated Statements of Income (Loss).

Intangible asset amortization expense for 2011, 2010 and 2009 was \$1.2 million, \$2.4 million and \$3.3 million, respectively. The estimated future intangible asset amortization expense is \$0.4 million, \$0.2 million, \$0.2 million, \$0.1 million and \$0.1 million for 2012, 2013, 2014, 2015 and 2016, respectively.

Balance at December 31, 2011	\$	\$	\$ 339,232	\$ 146,656	\$ 325,000	\$ 810,888

(1) For the year ended December 31, 2011, the weighted average interest rates were 4.52% for the Senior secured credit facility, 4.5% for the Senior secured incremental term loan and 13.25% for the Second Lien Notes. For the year ended December 31, 2010 the weighted average interest rates were 5.75% for the Senior Tranche A Loan, 7.25% for the Senior Tranche B Loan and 13.25% for the Second Lien Notes.

2008 Senior Facility In connection with the 2011 Recapitalization, the 2008 senior facility was terminated. Prior to the termination, the Company was able to elect an interest rate for the 2008 senior facility at each reset period based on the JP Morgan prime bank rate or the Eurodollar rate. During 2011, 2010 and 2009, the Company elected the United States prime bank rate as its interest basis.

2011 Credit Agreement On May 18, 2011, Worldwide entered into the 2011 Credit Agreement of \$540.0 million with BOA as Administrative Agent for a group of lenders. The 2011 Credit Agreement is comprised of a \$390.0 million six-and-one-half-year term loan maturing the earlier of November 2017 and 180 days prior to the scheduled maturity of the Second Lien Notes, and a \$150.0 million five-year revolving credit facility, maturing May 2016. The term loan was issued by Worldwide at 99.75% of par. On November 21, 2011, Worldwide entered into an amendment related to the 2011 Credit Agreement and obtained an incremental term loan in an aggregate principal amount of \$150 million. The incremental term loan was issued to Worldwide at 98.0% of par. The discounts for the term loan and the incremental term loan are recorded as a reduction in the carrying value of the loans and will be amortized over the life of the debt using the effective interest method. The incremental term loan has quarterly principal payments of \$0.4 million beginning September 30, 2011, with the remaining outstanding principal due November 2017.

Edgar Filing: MONEYGRAM INTERNATIONAL INC - Form 10-K

The Company may elect an interest rate for the 2011 Credit Agreement at each reset period based on the BOA alternate base rate or the Eurodollar rate. The interest rate election may be made individually for the term loan, incremental term loan and each draw under the revolving credit facility. The interest rate is either the BOA prime rate plus 225 basis points or the Eurodollar rate plus 325 basis points. Since inception of the 2011 Credit Agreement, the Company elected the Eurodollar rate as its primary interest basis, with a minimal amount of the term debt at the BOA alternate base rate. Under the terms of the 2011 Credit Agreement, the interest rate determined using the Eurodollar rate has a minimum rate of 1.25 percent.

F-30

Table of Contents

Fees on the daily unused availability under the revolving credit facility are 62.5 basis points. Substantially all of the Company's non-financial assets are pledged as collateral for the loans under the 2011 Credit Agreement, with the collateral guaranteed by the Company's material domestic subsidiaries. The non-financial assets of the material domestic subsidiaries are pledged as collateral for these guarantees. As of December 31, 2011, the Company has \$137.3 million of availability under the revolving credit facility, net of \$12.7 million of outstanding letters of credit that reduce the amount available. At December 31, 2011 there are no amounts outstanding under the revolving credit facility.

Amortization of the debt discount for 2011, 2010 and 2009 include pro-rata write-offs as a result of the term debt and the Tranche B prepayments, respectively. Following is the debt discount amortization recorded in Interest expense in the Consolidated Statements of Income for the years ended December 31:

(Amounts in thousands)	2011	2010	2009
Amortization of debt discount	\$ 330	\$ 2,253	\$ 2,934
Accelerated amortization of debt discount upon prepayments	127	5,902	1,851
Total amortization of discount	\$ 457	\$ 8,155	\$ 4,785

Second Lien Notes As part of the Company's recapitalization transaction in March 2008 (the 2008 Recapitalization), Worldwide issued \$500.0 million of second lien notes to Goldman Sachs, which will mature in March 2018. The indenture governing the second lien notes was amended in March 2011 to permit the 2011 Recapitalization. In August 2011, following the downgrade of U.S. government debt, the indenture was amended to update the definition of highly rated investments. On November 21, 2011 the indenture was further amended to allow Worldwide the ability to redeem a portion of its Second Lien Notes after the completion of a qualified equity offering of its common stock. On November 23, 2011, Worldwide exercised under this right and incurred a prepayment penalty totaling \$23.2 million, which is recognized in the Debt extinguishment costs line in the Consolidated Statements of Income (Loss).

Prior to the fifth anniversary, the Company may redeem some or all of the second lien notes at a price equal to 100 percent of the principal, plus any accrued and unpaid interest plus a premium equal to the greater of one percent or an amount calculated by discounting the sum of (a) the redemption payment that would be due upon the fifth anniversary plus (b) all required interest payments due through such fifth anniversary using the treasury rate plus 50 basis points. Starting with the fifth anniversary, the Company may redeem some or all of the second lien notes at prices expressed as a percentage of the outstanding principal amount of the second lien notes plus accrued and unpaid interest, starting at approximately 107 percent on the fifth anniversary, decreasing to 100 percent on or after the eighth anniversary. Upon a change of control, the Company is required to make an offer to repurchase the second lien notes at a price equal to 101 percent of the principal amount plus accrued and unpaid interest. The Company is also required to make an offer to repurchase the second lien notes with proceeds of certain asset sales that have not been reinvested in accordance with the terms of the second lien notes or have not been used to repay certain debt.

Inter-creditor Agreement In connection with the above financing arrangements, both the lenders under the 2011 Credit Agreement and the trustee on behalf of the holders of the second lien notes entered into an inter-creditor agreement under which the lenders and trustee have agreed to waive certain rights and limit the exercise of certain remedies available to them for a limited period of time, both before and following a default under the financing arrangements.

Debt Covenants and Other Restrictions Borrowings under the Company's debt agreements are subject to various covenants that limit the Company's ability to: incur additional indebtedness; create or incur additional liens; effect mergers and consolidations; make certain acquisitions; sell assets or subsidiary stock; pay dividends and other restricted payments; invest in certain assets; and effect loans, advances and certain other transactions with affiliates. In addition, the 2011 Credit Agreement has a covenant that places limitations on the use of proceeds from borrowings under the facility.

The indenture governing the second lien notes contains a financial covenant requiring the Company to maintain a minimum liquidity ratio of at least 1:1 for certain assets to outstanding payment service obligations. The 2011

Table of Contents

Credit Agreement also has quarterly financial covenants to maintain the following interest coverage and total leverage ratios:

	Interest Coverage minimum ratio	Total Leverage not to exceed
Present through September 30, 2012	2.00:1	4.75:1
December 31, 2012 through September 30, 2013	2.15:1	4.625:1
December 31, 2013 through September 30, 2014	2.15:1	4.375:1
December 31, 2014 through September 30, 2015	2.25:1	4.00:1
December 31, 2015 through September 30, 2016	2.25:1	3.75:1
December 31, 2016 through maturity	2.25:1	3.50:1

At December 31, 2011, the Company is in compliance with its financial covenants by a substantial margin.

Deferred Financing Costs The Company capitalized financing costs in Other assets in the Consolidated Balance Sheets and amortized them over the term of the related debt using the effective interest method. Amortization of the deferred financing costs during 2011, 2010 and 2009 include the write-off of a pro-rata portion of deferred financing costs in connection with the payments on the Second Lien Notes, the incremental term loan, the term debt and the Senior Tranche B. Amortization is recorded in Interest expense in the Consolidated Statements of Income. Following is a summary of the deferred financing costs at December 31:

	2008 Senior Facility		2011 Credit Agreement				
	Senior Tranche	Senior secured credit facility	Senior secured incremental term	Senior revolving credit facility	Second Lien Notes	Total Deferred Financing Costs	
(Amounts in thousands)	B Loan						
Balance at January 1, 2009	\$ 16,586	\$	\$	\$	\$ 30,872	\$	47,458
Amortization of deferred financing costs	(3,875)				(3,251)		(7,126)
Write-off of deferred financing costs	(854)						(854)
Balance at January 1, 2010	11,857				27,621		39,478

Write-off of deferred financing costs	(2,734)						(2,734)
Balance at January 1, 2011	5,793				24,347		30,140
Capitalized deferred financing costs		8,732	3,151	4,024	5,000		20,907
Amortization of deferred financing costs	(968)	(750)	(51)	(501)	(3,583)		(5,853)
Write-off of deferred financing costs	(4,825)	(1,100)	(8)		(9,115)		(15,048)
Balance at December 31, 2011	\$	\$ 6,882	\$ 3,092	\$ 3,523	\$ 16,649	\$	30,146

Debt Extinguishment Losses The Company recognized total debt extinguishment losses of \$37.5 million in 2011. In connection with the refinancing of our 2008 senior debt facility in May 2011, we recorded \$5.2 million of debt extinguishment costs, primarily from the write-off of unamortized deferred financing costs. In connection with the partial redemption of the Second Lien Notes in November 2011, the Company incurred a prepayment penalty of \$23.2 million and wrote-off \$9.1 million of unamortized deferred financing costs.

Interest Paid in Cash The Company paid \$78.5 million, \$83.5 million and \$94.4 million of interest in 2011, 2010 and 2009, respectively.

Maturities At December 31, 2011, debt totaling \$481.0 million will mature in 2017 and \$325.0 million will mature in 2018, while debt principal totaling \$8.6 million will be paid in increments of \$0.4 million quarterly through 2017.

Note 10 Pensions and Other Benefits

Pension Benefits The Pension Plan is a frozen non-contributory funded defined benefit pension plan under which no new service or compensation credits are accrued by the plan participants. Cash accumulation accounts continue to be credited with interest credits until participants withdraw their money from the Pension Plan. It is the Company's policy to fund the minimum required contribution each year.

F-32

Table of Contents

Supplemental Executive Retirement Plans The Company has obligations under various Supplemental Executive Retirement Plans (SERPs), which are unfunded non-qualified defined benefit pension plans providing postretirement income to their participants. As of December 31, 2011, all benefit accruals under the SERPs are frozen with the exception of one plan for which service is frozen but future pay increases are reflected for active participants. It is the Company's policy to fund the SERPs as benefits are paid.

Postretirement Benefits Other Than Pensions The Company has unfunded defined benefit postretirement plans that provide medical and life insurance for its participants. The Company amended the postretirement benefit plan to close it to new participants as of December 31, 2009. Effective July 1, 2011, the plan was amended to eliminate eligibility for participants eligible for Medicare coverage. As a result of this plan amendment, the Company no longer receives the Medicare retiree drug subsidy. The Company's funding policy is to make contributions to the postretirement benefits plans as benefits are paid.

Actuarial Valuation Assumptions The measurement date for the Company's defined benefit pension plan, SERPs and postretirement benefit plans is December 31. Following are the weighted-average actuarial assumptions used in calculating the benefit obligation and net benefit cost as of and for the years ended December 31:

	2011	Pension 2010	2009	2011	SERPs 2010	2009	Postretirement Benefits 2011	2010	2009
Net periodic benefit cost:									
Discount rate	5.30%	5.80%	6.30%	5.30%	5.80%	6.30%	5.30%	5.80%	6.30%
Expected return on plan assets	8.00%	8.00%	8.00%						
Rate of compensation increase				5.75%	5.75%	5.75%			
Initial healthcare cost trend rate							9.00%	9.50%	8.50%
Ultimate healthcare cost trend rate							5.00%	5.00%	5.00%
Year ultimate healthcare cost trend rate is reached							2019	2019	2013
Projected benefit obligation:									
Discount rate	4.90%	5.30%	5.80%	4.80%	5.30%	5.80%	4.90%	5.30%	5.80%
Rate of compensation increase				5.75%	5.75%	5.75%			
Initial healthcare cost trend rate							8.50%	9.00%	9.50%
Ultimate healthcare cost trend rate							5.00%	5.00%	5.00%
Year ultimate healthcare cost trend rate is reached							2019	2019	2019

The Company utilizes a building-block approach in determining the long-term expected rate of return on plan assets. Historical markets are studied and long-term historical relationships between equity securities and fixed income securities are preserved consistent with the widely accepted capital market principle that assets with higher volatility generate a greater return over the long run. Current market factors, such as inflation and interest rates, are evaluated before long-term capital market assumptions are determined. The long-term portfolio return also takes proper consideration of diversification and rebalancing. Peer data and historical returns are reviewed for reasonableness and appropriateness.

A one-percentage point change in assumed health care trends would have the following effects for 2011:

(Amounts in thousands)	One Percentage Point Increase	One Percentage Point Decrease
Effect on total of service and interest cost components	\$ 12	\$ (10)
Effect on postretirement benefit obligation	238	(196)

Table of Contents

Pension Assets The Company employs a total return investment approach whereby a mix of equity and fixed income securities are used to maximize the long-term return of plan assets for a prudent level of risk. Risk tolerance is established through careful consideration of plan liabilities, plan funded status and corporate financial condition. The investment portfolio contains a diversified blend of equity and fixed income securities. Furthermore, equity securities are diversified across United States and non-United States stocks, as well as growth, value, and small and large capitalizations. Other assets, such as real estate and cash, are used judiciously to enhance long-term returns while improving portfolio diversification. The Company strives to maintain an equity and fixed income securities allocation mix of approximately 60 percent and 40 percent, respectively. Investment risk is measured and monitored on an ongoing basis through quarterly investment portfolio reviews and annual liability measurements.

The Company's weighted-average asset allocation for the defined benefit pension plan by asset category at the measurement date of December 31 is as follows:

	2011	2010
Equity securities	55.9%	59.8%
Fixed income securities	38.3%	34.4%
Real estate	4.3%	3.9%
Other	1.5%	1.9%
Total	100.0%	100.0%

The Company records its pension assets at fair value as described in Note 4 *Fair Value Measurement*. Following is a description of the Plan's investments at fair value and valuation methodologies:

Short-term securities These securities are highly liquid investments that are short-term in nature and are comprised of interest-bearing cash accounts and time deposits with original maturities of less than three months, and are valued at historical cost, which approximates fair value. Amounts in these investments are typically the result of temporary timing differences between receipts from other investments and reinvestment of those funds or benefit payments to plan participants.

Common collective trusts issued and held by the trustee These investments in equity and fixed income securities comprise the substantial portion of the pension plan trust and are held in various common/collective trusts that are maintained by a bank, trust company, or similar institution that is regulated, supervised and subject to periodic examination by a state or federal agency. Common collective trusts are held by the trustee for the collective investment and reinvestment of assets contributed from employee benefit plans maintained by more than one employer or a controlled group of corporations. The fair value of the common collective trust is determined based on the price per unit held as of the end of a period as determined by the trustee in accordance with their valuation methodology.

Real estate The pension plan trust holds an investment in a real estate development project. The fair value of this investment represents the estimated market value of the plan's related ownership percentage of the project based upon an appraisal as of each balance sheet date. As of December 31, 2011 and 2010, there is no unfunded commitment or potential redemptions related to this asset. The fund strategy for this asset is long-term capital appreciation.

Experience fund investment contracts These investments are actuarially determined annuity reserves for certain participants for whom annuities were purchased under a group annuity contract and were superseded and converted into an investment contract. The fair value is determined by multiplying their balances at cost times a discount factor, which is intended to recognize the difference between the investment yield at cost and the investment yield which prevailed generally at the balance sheet date for new investments of a similar nature. During 2010, these contracts were transitioned out of the plan to the group annuity carriers who assumed the obligation to pay the guaranteed benefits directly to the annuitants. As a result of the transition, the excess assets of approximately \$1.0 million were

returned to the plan and invested into common collective trusts.

F-34

Table of Contents

Following are the Plan's financial assets recorded at fair value by hierarchy level as of December 31:

(Amounts in thousands)	2011			Total
	Level 1	Level 2	Level 3	
Short-term securities	\$	\$ 1,644	\$	\$ 1,644

International securities		6,282		6,282
Common collective trust fixed income securities				
Core fixed income	4,943	13,949		18,892
Long duration fixed income		17,973		17,973
Real estate			4,194	4,194
Experience fund investment contracts		27		27
Total financial assets	\$ 6,892	\$ 96,050	\$ 4,194	\$ 107,136

The Company's pension plan assets include one security that the Company considers to be a Level 3 asset for valuation purposes. This security is an investment in a real estate joint venture and requires the use of unobservable inputs in its fair value measurement. The fair value of this asset as of December 31, 2011 and 2010 was \$4.8 million and \$4.2 million, respectively. The change in reported net asset value for this asset resulted in an unrealized gain of \$0.6 million for 2011 and an unrealized loss of \$1.5 million for 2010.

Plan Financial Information Net periodic benefit expense (income) for the defined benefit pension plan and SERPs and postretirement benefit plans includes the following components for the years ended December 31:

(Amounts in thousands)	Pension and SERPs			Postretirement Benefits		
	2011	2010	2009	2011	2010	2009

Table of Contents

The Company recognized a net \$1.5 million curtailment gain in 2009 from the amendment of two SERPs and accumulated participant terminations. The amendment of the postretirement benefit plan resulted in a curtailment gain of \$12.8 million in 2009. The postretirement benefits expense for 2011 and 2010 was reduced by less than \$0.1 million and for 2009 it was reduced by \$0.4 million due to subsidies received under the Medicare Prescription Drug, Improvement and Modernization Act of 2003. The Company will not receive any subsidies in 2012.

Amounts recognized in other comprehensive income (loss) and net periodic benefit expense as of December 31 are as follows:

(Amounts in thousands)	Pension and SERPs	2011
		Postretirement Benefits
Net actuarial loss	\$ 7,625	\$ 1,790

Table of Contents

The estimated net loss and prior service cost for the defined benefit pension plan and SERPs that will be amortized from Accumulated other comprehensive loss into Net periodic benefit expense during 2012 is \$5.9 million (\$3.6 million net of tax) and less than \$0.1 million, respectively. The estimated net loss and prior service credit for the postretirement benefit plans that will be amortized from Accumulated other comprehensive loss into Net periodic benefit expense during 2011 is \$0.4 million (\$0.2 million, net of tax) and \$0.6 million (\$0.4 million net of tax), respectively.

The benefit obligation and plan assets, changes to the benefit obligation and plan assets, and the funded status of the defined benefit pension plan and SERPs and the postretirement benefit plans as of and for the year ended December 31 are as follows:

	Pension and SERPs		Postretirement Benefits	
	2011	2010	2011	2010
<i>(Amounts in thousands)</i>				
Change in benefit obligation:				
Benefit obligation at the beginning of the year	\$ 221,491	\$ 211,616	\$ 1,027	\$ 4,521
Interest cost	11,365	11,876	51	253
Actuarial loss	3,444	11,417	1,790	1,100
Plan amendments				(4,154)
Medicare Part D reimbursements			27	32
Benefits paid	(12,701)	(13,418)	(860)	(725)
Benefit obligation at the end of the year	\$ 223,599	\$ 221,491	\$ 2,035	\$ 1,027

	Pension and SERPs		Postretirement Benefits	
	2011	2010	2011	2010
<i>(Amounts in thousands)</i>				
Change in plan assets:				
Fair value of plan assets at the beginning of the year	\$ 107,136	\$ 102,908	\$	\$
Actual return on plan assets	4,042	9,931		
Employer contributions	11,665	7,715	860	725
Benefits paid	(12,701)	(13,418)	(860)	(725)
Fair value of plan assets at the end of the year	\$ 110,142	\$ 107,136	\$	\$
Unfunded status at the end of the year	\$ (113,457)	\$ (114,355)	\$ (2,035)	\$ (1,027)

The unfunded status of the Pension and SERPs decreased by less than one percent as the benefit obligation increased \$2.1 million and the fair value of the pension plan assets increased \$3.0 million during the year. The unfunded status of the defined benefit pension plan was \$50.6 million and \$45.8 million at December 31, 2011 and 2010, respectively, and the unfunded status of the SERPs was \$62.8 million and \$68.6 million at December 31, 2011 and 2010, respectively.

Following are the components recognized in the Consolidated Balance Sheets relating to the defined benefit pension plan and SERPs and the postretirement benefit plans at December 31:

	Pension and SERPs		Postretirement Benefits	
	2011	2010	2011	2010
<i>(Amounts in thousands)</i>				

Edgar Filing: MONEYGRAM INTERNATIONAL INC - Form 10-K

Components recognized in the Consolidated Balance Sheets:

Pension and other postretirement benefits liability	\$ (113,457)	\$ (114,355)	\$ (2,035)	\$ (1,027)
Accumulated other comprehensive loss:				
Unrealized losses for pension and postretirement				
benefits, net of tax	60,536	59,706	2,026	1,067
Prior service cost (credit) for pension and postretirement				
benefits, net of tax	153	171	(2,187)	(2,575)

F-37

Table of Contents

The projected benefit obligation and accumulated benefit obligation for the defined benefit pension plan, SERPs and the postretirement benefit plans are in excess of the fair value of plan assets as shown below:

(Amounts in thousands)	Pension Plan		SERPs		Postretirement Benefits	
	2011	2010	2011	2010	2011	2010
Projected benefit obligation	\$ 160,787	\$ 152,904	\$ 62,812	\$ 68,587	\$ 2,035	\$ 1,027
Accumulated benefit obligation	160,787	152,904	62,812	68,587		
Fair value of plan assets	110,142	107,136				

Estimated future benefit payments for the defined benefit pension plan and SERPs and the postretirement benefit plans are as follows:

(Amounts in thousands)	2012	2013	2014	2015	2016	2017-21
Pension and SERPs	\$ 14,018	\$ 14,094	\$ 14,166	\$ 20,034	\$ 14,336	\$ 72,804
Postretirement benefits	153	166	172	161	154	577

The Company has a minimum required contribution of approximately \$10.2 million for the defined benefit pension plan in 2012, and will continue to make contributions to the SERPs and the postretirement benefit plans to the extent benefits are paid. Aggregate benefits paid for the unfunded plans are expected to be \$4.1 million in 2012.

Employee Savings Plan The Company has an employee savings plan that qualifies under Section 401(k) of the Internal Revenue Code of 1986, as amended. Contributions to, and costs of, the 401(k) defined contribution plan totaled \$3.5 million, \$3.4 million and \$3.7 million in 2011, 2010 and 2009, respectively. MoneyGram does not have an employee stock ownership plan.

International Benefit Plans The Company's international subsidiaries have certain defined contribution benefit plans. Contributions to and costs related to international plans were \$1.2 million, \$1.0 million and \$0.8 million for 2011, 2010 and 2009, respectively.

Deferred Compensation Plans The Deferred Compensation Plan for Directors of MoneyGram International, Inc., which allowed non-employee directors to defer all or part of their retainers, fees and stock awards, was permanently discontinued as of January 1, 2009. The deferred compensation plans are unfunded and unsecured, and the Company is not required to physically segregate any assets in connection with the deferred accounts. The Company has rabbi trusts associated with each deferred compensation plan which are funded through voluntary contributions by the Company. At December 31, 2011 and 2010, the Company had a liability related to the deferred compensation plans of \$3.4 million and \$3.8 million, respectively, recorded in the Accounts payable and other liabilities line in the Consolidated Balance Sheets. The rabbi trust had a market value of \$8.1 million and \$10.7 million at December 31, 2011 and 2010, respectively, recorded in Other assets in the Consolidated Balance Sheets.

Note 11 Mezzanine Equity

Preferred Stock In connection with the 2011 Recapitalization, all amounts included in mezzanine equity were converted into components of stockholders' deficit. Following the closing of the 2011 Recapitalization, no shares of Series B Stock remained issued and outstanding and the Company filed a Certificate of Elimination to eliminate all shares of Series B Stock. See Note 1 *Description of Business* 2011 Recapitalization for further information.

Edgar Filing: MONEYGRAM INTERNATIONAL INC - Form 10-K

Prior to May 18, 2011, the Series B Stock was recorded in the Company's Consolidated Balance Sheets as Mezzanine equity as it had redemption features not solely within the Company's control. During 2011 and 2010 the transaction costs relating to the issuance of the B Stock and B-1 Stock were accreted to the Series B Stock redemption value over a 10-year period using the effective interest method.

The Series B Stock paid a cash dividend of 10 percent. During 2011 and 2010, the Company accrued dividends through a charge to Additional paid-in capital to the extent available and through a charge to Retained loss

F-38

Table of Contents

for the remainder as accumulated and unpaid dividends were included in the redemption price of the Series B Stock.

At December 31, 2010 the Company had 800,000 shares and 500,000 shares, respectively, of B and B-1 Stock authorized. For 2010, 495,000 shares and 272,500 shares, respectively, of B and B-1 Stock were issued and outstanding. Following is a summary of mezzanine equity activity:

	Series		
(Amounts in thousands)	B Stock	B-1 Stock	B Stock
Balance at December 31, 2009	539,084	325,244	864,328
Dividends accrued	80,622	44,383	125,005
Accretion	8,493	1,527	10,020
Balance at December 31, 2010	628,199	371,154	999,353
Dividends accrued	19,951	10,983	30,934
Accretion	67,946	12,078	80,024
Conversion	(716,096)	(394,215)	(1,110,311)
Balance at December 31, 2011	\$	\$	\$

Note 12 Stockholders Deficit

Reverse Stock Split On November 14, 2011, the Company filed a certificate of amendment to its Amended and Restated Certificate of Incorporation to effect a reverse stock split of the Company's common stock at a reverse stock split ratio of 1-for-8 and to decrease the number of authorized shares of common stock from 1,300,000,000 to 162,500,000. As the par value of common stock was not affected, \$3.5 million was transferred from common stock to additional paid in capital. In connection with the reverse stock split, the conversion ratio of the D Stock to common stock decreased from 1,000 to 125. All share and per share amounts have been retroactively adjusted to reflect the stock split with the exception of the Company's treasury stock, which was not a part of the reverse stock split.

Following is a summary of the activity of the Company's stock authorized, issued and outstanding at December 31:

	D Stock			Common Stock			Treasury
(Amounts in thousands)	Authorized	Issued	Outstanding	Authorized	Issued	Outstanding	Stock
December 31, 2009				162,500	16,355	10,314	(6,041)
Stock option exercises and release of restricted stock, net of shares withheld for taxes					(966)	139	1,105
December 31, 2010				162,500	15,389	10,453	(4,936)
Conversion of B Stock to common stock					39,325	39,325	
Conversion of Series B-1 Stock to D stock		173	173				

Edgar Filing: MONEYGRAM INTERNATIONAL INC - Form 10-K

Conversion of D stock to common stock	(64)	(64)			7,994	7,994	
Stock option exercises and release of restricted stock units					(444)	63	507
December 31, 2011	200	109	109	162,500	62,264	57,835	(4,429)

On September 27, 2011, the Company filed a Certificate of Elimination to eliminate the Company's Series A Junior Participating Preferred Stock, par value \$0.01 per share (the "Series A shares"), which results in the shares resuming their status as undesignated preferred stock of the Company. At December 31, 2010, the Company had 2,000,000 shares of Series A Junior Participating Preferred Stock authorized. There was no Series A Junior Participating Preferred Stock issued or outstanding in 2011 and 2010.

F-39

Table of Contents

Equity Registration Rights Agreement In connection with the 2008 Recapitalization, the Company and the Investors entered into a Registration Rights Agreement (the "Equity Registration Rights Agreement") on March 25, 2008, as amended on May 18, 2011, with respect to the Series B Stock and D Stock, and the common stock owned by the Investors and their affiliates (collectively, the "Registrable Securities"). Under the terms of the Equity Registration Rights Agreement, we are required, after a specified holding period, to use our reasonable best efforts to promptly file with the Securities and Exchange Commission (the "SEC") a shelf registration statement relating to the offer and sale of the Registrable Securities. We are obligated to keep such shelf registration statement continuously effective under the Securities Act of 1933, as amended (the "Securities Act"), until the earlier of (1) the date as of which all of the Registrable Securities have been sold, (2) the date as of which each of the holders of the Registrable Securities is permitted to sell its Registrable Securities without registration pursuant to Rule 144 under the Securities Act and (3) fifteen years. The holders of the Registrable Securities are also entitled to six demand registrations and unlimited piggyback registrations during the term of the Equity Registration Rights Agreement. On December 14, 2010, we filed a shelf registration statement on Form S-3 with the SEC that permits the offer and sale of the Registrable Securities, as required by the terms of the Equity Registration Rights Agreement. The registration statement also permits the Company to offer and sell up to \$500 million of its common stock, preferred stock, debt securities or any combination of these, from time to time, subject to market conditions and the Company's capital needs. The registration statement was declared effective by the SEC on July 7, 2011.

Secondary Offering In November 2011, the Company completed a secondary offering pursuant to which the Investors sold an aggregate of 10,237,524 shares in an underwritten offering. In connection with the secondary offering, 63,950 shares of D Stock were converted to 7,993,762 shares of common stock, which resulted in a decrease to D Stock of \$165.0 million and an increase to common stock and additional paid in capital. The Company did not receive proceeds from the offering.

Preferred Stock The Company's Amended and Restated Certificate of Incorporation provides for the issuance of up to 7,000,000 shares of preferred stock that may be issued in one or more series, with each series to have certain rights and preferences as shall be determined in the unlimited discretion of the Company's Board of Directors, including, without limitation, voting rights, dividend rights, conversion rights, redemption privileges and liquidation preferences.

Series D Participating Convertible Preferred Stock In connection with the 2011 Recapitalization, the Company issued 173,189 shares of D Stock to Goldman Sachs. Each share of D Stock has a liquidation preference of \$0.01 and is convertible into 125 shares of common stock by a stockholder other than Goldman Sachs who receives such shares by means of (i) a widespread public distribution, (ii) a transfer to an underwriter for the purpose of conducting a widespread public distribution, (iii) a transfer in which no transferee (or group of associated transferees) would receive 2 percent or more of any class of voting securities of the Company, or (iv) a transfer to a transferee that would control more than 50 percent of the voting securities of the Company without any transfer from such transferor or its affiliates as applicable (each of (i) (iv), a "Widely Dispersed Offering"). The D Stock is non-voting while held by Goldman Sachs or any holder who receives such shares by any means other than a Widely Dispersed Offering (a "non-voting holder"). Holders of D Stock other than Goldman Sachs and non-voting holders vote as a single class with the holders of the common stock on an as-converted basis. The D Stock also participates in any dividends declared on the common stock on an as-converted basis.

Common Stock The Company's Amended and Restated Certificate of Incorporation provides for the issuance of up to 162,500,000 shares of common stock with a par value of \$0.01. In connection with the spin-off, MoneyGram was recapitalized such that there were 15,388,120 shares of MoneyGram common stock issued. On May 18, 2011, the Company issued an additional 39,325,154 shares of common stock in connection with the 2011 Recapitalization. See Note 1 *Description of Business 2011 Recapitalization* for further information. The holders of MoneyGram common stock are entitled to one vote per share on all matters to be voted upon by its stockholders. The holders of common stock have no preemptive, conversion or other subscription rights. There are no redemption or sinking fund provisions applicable to the common stock. The determination to pay dividends on common stock will be at the discretion of the Board of Directors and will depend on applicable laws and the Company's financial condition, results of operations, cash requirements, prospects and such other factors.

Table of Contents

as the Board of Directors may deem relevant. No dividends were paid in 2011. The Company's ability to declare or pay dividends or distributions to the holders of the Company's common stock is restricted under the Company's 2011 Credit Agreement and the indenture governing the Company's second lien notes.

Treasury Stock The Board of Directors has authorized the repurchase of a total of 12,000,000 shares. As of December 31, 2011, the Company has repurchased 6,795,017 shares of common stock under this authorization and has remaining authorization to repurchase up to 5,204,983 shares. In relation to the reverse stock split, the Company repurchased 17 shares in 2011.

Accumulated Other Comprehensive Loss The components of Accumulated other comprehensive loss at December 31 include:

(Amounts in thousands)	2011	2010
Net unrealized gains on securities classified as available-for-sale, net of tax	\$ 21,479	\$ 21,296
Cumulative foreign currency translation adjustments, net of tax	1,021	5,194
Prior service credit (cost) for pension and postretirement benefits, net of tax	2,034	2,404
Unrealized losses on pension and postretirement benefits, net of tax	(62,562)	(60,773)
Accumulated other comprehensive loss	\$ (38,028)	\$ (31,879)

Note 13 Stock-Based Compensation

The MoneyGram International, Inc. 2005 Omnibus Incentive Plan (2005 Plan) provides for the granting of equity-based compensation awards, including stock options, stock appreciation rights, restricted stock units and restricted stock awards (collectively, "share-based awards") to officers, employees and directors. The Company is authorized to issue a total of 5,875,000 of share-based awards. As of December 31, 2011, the Company has remaining authorization to issue future grants of up to 1,312,624 shares.

The calculated fair value of share-based awards is recognized as compensation cost using the straight-line method over the vesting or service period in the Company's financial statements. Stock-based compensation is recognized only for those options, restricted stock units and stock appreciation rights expected to vest, with forfeitures estimated at the date of grant and evaluated and adjusted periodically to reflect the Company's historical experience and future expectations. Any change in the forfeiture assumption will be accounted for as a change in estimate, with the cumulative effect of the change on periods previously reported being reflected in the financial statements of the period in which the change is made.

Following is a summary of stock-based compensation expense for the years ended December 31:

(Amounts in thousands)	2011	2010	2009
Expense recognized related to stock options	\$ 15,564	\$ 25,643	\$ 14,488
Expense recognized related to restricted stock units	716	360	
Expense recognized related to restricted stock		8	(307)
Expense related to stock appreciation rights ⁽¹⁾			

Edgar Filing: MONEYGRAM INTERNATIONAL INC - Form 10-K

Stock-based compensation expense	\$ 16,280	\$ 26,011	\$ 14,181
----------------------------------	-----------	-----------	-----------

⁽¹⁾ Expense recognized related to stock appreciation rights for 2011 was nominal. There was no expense related to stock appreciation rights for 2010 and 2009.

Stock Options Beginning in 2009, option awards are generally granted with an exercise price equal to the closing market price of the Company's common stock on the date of grant. All outstanding stock options contain certain forfeiture and non-compete provisions.

Pursuant to the terms of options granted in 2009, 2010 and prior to the fourth quarter 2011, 50 percent of the options awarded become exercisable through the passage of time (the "Time-based Tranche") and 50 percent of the options awarded become exercisable upon the achievement of certain market and performance conditions (the

F-41

Table of Contents

Performance-based Tranche). The Time-based Tranche generally becomes exercisable over a five-year period in either (a) an equal number of shares each year or (b) for some issuances in 2009, a tranching vesting schedule whereby 15 percent of the Time-based Tranche vests immediately and then at rates of 10 to 20 percent each year. The Performance-based Tranche becomes exercisable upon the achievement within five years of grant of the earlier of (a) a pre-defined common stock price for any period of 20 consecutive trading days, (b) a change in control of the Company resulting in a pre-defined per share consideration or (c) in the event the Company's common stock does not trade on a U.S. exchange or trading market, resulting in the Company's common stock meeting pre-defined equity values. All options granted in 2009, 2010 and 2011 have a term of 10 years. Beginning in the fourth quarter of 2011, all options issued are time-based.

For purposes of determining the fair value of stock option awards, the Company uses the Black-Scholes single option pricing model for the Time-based Tranches and awards and a combination of Monte-Carlo simulation and the Black-Scholes single option pricing model for the Performance-based Tranches. The following table provides weighted-average grant-date fair value and assumptions utilized to estimate the grant-date fair value of the options granted during the years ended December 31:

	2011	2010	2009
Expected dividend yield ⁽¹⁾	0.0%	0.0%	0.0%
Expected volatility ⁽²⁾	71.3%-72.9%	72.9%-74.8%	72.8%-76.9%
Risk-free interest rate ⁽³⁾	1.3%-2.9%	1.8%-3.3%	2.3%-3.2%
Expected life ⁽⁴⁾	6.3-6.5 years	5.3-6.5 years	5.3-6.5 years
Weighted-average grant-date fair value per option	\$16.23	\$16.40	\$11.92

⁽¹⁾ Expected dividend yield represents the level of dividends expected to be paid on the Company's common stock over the expected term of the option. The Company does not anticipate declaring any dividends at this time.

⁽²⁾ Expected volatility is the amount by which the Company's stock price has fluctuated or will fluctuate during the expected term of the option. The Company's expected volatility is calculated based on the historical volatility of the price of the Company's common stock since the spin-off from Viad Corporation on June 30, 2004. The Company also considers any known or anticipated factors which will likely impact future volatility.

⁽³⁾ The risk-free rate for the Black-Scholes model is based on the United States Treasury yield curve in effect at the time of grant for periods within the expected term of the option, while the risk-free rate for the Monte-Carlo simulation is based on the five-year United States Treasury yield in effect at the time of grant.

⁽⁴⁾ Expected term represents the period of time that options are expected to be outstanding. The expected term was determined using the simplified method as the pattern of changes in the value of the Company's common stock and exercise activity since late 2007 has been inconsistent and substantially different from historical patterns. Additionally, there have been minimal stock option exercises which would be representative of the Company's normal exercise activity since 2007. Accordingly, the Company does not believe that historical terms are relevant to the assessment of the expected term of the grant. Based on these factors, the Company does not believe that it has the ability to make a more refined estimate than the use of the simplified method.

A summary of the Company's stock option activity for the year ended December 31, 2011 is as follows:

	Shares	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term	Aggregate Intrinsic Value (\$000)
Options outstanding at December 31, 2010	4,987,301	\$ 26.47		
Granted	1,314,690	23.14		
Exercised	(35,314)	18.40		
Forfeited/Expired	(901,592)	39.91		
Options outstanding at December 31, 2011	5,365,085	\$ 23.45	7.98 years	\$ 4,121
Vested or expected to vest at December 31, 2011	5,183,595	\$ 23.52	7.94 years	\$ 4,072

Edgar Filing: MONEYGRAM INTERNATIONAL INC - Form 10-K

Table of Contents

The following represents stock option compensation information as of December 31, 2011:

(Amounts in thousands)	2011	2010	2009
Intrinsic value of options exercised	\$ 221,937	\$ 1,263	\$
Cash received from option exercises	\$ 716	\$ 2,031	\$
Unrecognized stock option expense	\$ 24,397		
Remaining weighted-average vesting period	1.6 years		

Restricted Stock Units In the fourth quarter of 2011, the Company issued a grant of performance-based restricted stock units to certain employees which will vest and become payable in shares to the extent the Company attains the performance goals applicable to the performance period. The performance goal is based on the degree to which the Company's average annual adjusted EBITDA, defined as earnings before interest, taxes, depreciation and amortization and less certain non-recurring or other unexpected expenses, meets, exceeds or falls short of the target performance goal of achieving an average annual adjusted EBITDA increase of 10 percent over a three year period. Under the terms of the grant, 50 percent of the target restricted stock units may vest on the second anniversary if the performance goal is achieved as of that date. The number of restricted stock units that vest is determined on a pro rata basis by the extent to which the performance goal is met within a threshold minimum and maximum. In the event the target performance goal is not met, but the Company achieves a minimum performance goal of an average annual adjusted EBITDA growth of five percent, the participant will be entitled to vest in 50 percent of the target number of restricted stock units. In the event the Company achieves its maximum performance goal of an average annual adjusted EBITDA growth of 20 percent, the participant will be entitled to 200 percent of the target number of restricted stock units.

In 2011 and 2010, the Company granted time-based restricted stock units to members of the Board of Directors, excluding the Chairman of the Board, as compensation for services to be provided. The restricted stock units vest on the first anniversary of their issuance and may only be settled in the Company's common stock.

The fair value of restricted stock units is calculated based on the stock price at the time of grant. For performance based restricted stock units, expense is recognized if achievement of the performance goal is deemed probable, with the amount of expense recognized based on the Company's best estimate of the ultimate achievement level. For the 2011 performance based restricted stock units, the grant date fair value at the minimum, target and maximum thresholds is \$1.4 million, \$2.7 million and \$5.4 million, respectively. As of December 31, 2011, the Company believes it is probable it will achieve the performance goal at the target level on the third anniversary. For grants to employees, expense is recognized in the Compensation and benefits line and expense for grants to Directors is recorded in the Transaction and operations support line in the Consolidated Statements of Income using the straight-line method over the vesting period.

A summary of the Company's restricted stock unit activity for the year ended December 31, 2011 is as follows:

	Total Shares	Weighted Average Price
Restricted stock units outstanding at December 31, 2010	27,984	\$ 21.44
Granted	339,036	17.77
Vested	(27,984)	21.44
Forfeited	(1,360)	17.03
Restricted stock units outstanding at December 31, 2011	337,676	\$ 17.77

Table of Contents

The following represents restricted stock and restricted stock unit compensation information as of December 31, 2011:

<i>(Amounts in thousands)</i>	2011	2010	2009
Market value of restricted stock vested		283	1,550
Market value of restricted stock units vested	600		
Unrecognized restricted stock unit expense	\$ 2,377		
Remaining weighted-average vesting period	2.7 years		

Unrecognized restricted stock unit expense and the remaining weighted-average vesting period are presented under the Company's current estimate of achievement of the target performance goal on the third anniversary. Unrecognized restricted stock unit expense as of December 31, 2011 under the minimum and maximum thresholds is \$1.0 million and \$4.4 million, respectively.

Restricted Stock Awards Restricted stock awards were valued at the quoted market price of the Company's common stock on the date of grant and expensed using the straight-line method over the vesting or service period of the award. All restricted stock awards vested during 2010.

Stock Appreciation Rights In November 2011, the Company issued a grant of stock appreciation rights to certain employees which entitle the holder to any per share appreciation from the price at issuance. The grants vest and become exercisable over a four-year period in an equal number of shares each year. Upon exercise, the employee will receive an amount which is equal to the excess of the closing sale price of the Company's common stock at the time of exercise over the grant price paid in cash up to a maximum of \$12.00.

The fair value of stock appreciation rights was calculated using a Black-Scholes single option pricing model and is recorded as a liability in the Other liabilities line in the Consolidated Balance Sheets. Expense for stock appreciation rights is recognized in the Compensation and benefits line in the Consolidated Statements of Income (Loss) using the straight-line method over the vesting period.

A summary of the Company's stock appreciation rights activity for the year ended December 31, 2011 is as follows:

	Total Shares	Weighted Average Price
Stock appreciation rights outstanding at December 31, 2010		\$
Granted	8,600	17.03
Stock appreciation rights outstanding at December 31, 2011	8,600	\$ 17.03

Note 14 Income Taxes

The components of income (loss) before income taxes are as follows for the year ended December 31:

Edgar Filing: MONEYGRAM INTERNATIONAL INC - Form 10-K

(Amounts in thousands)

	2011	2010	2009
United States	\$ 39,749	\$ 56,872	\$ (19,975)
Foreign	21	1,508	(2,347)
Income (loss) before income taxes	\$ 39,770	\$ 58,380	\$ (22,322)

F-44

Table of Contents

Foreign income consists of statutory income and losses from the Company's international subsidiaries. Most of the Company's wholly owned subsidiaries recognize revenue based solely on services agreements with the primary United States operating subsidiary. Income tax (benefit) expense is as follows for the year ended December 31:

<i>(Amounts in thousands)</i>	2011	2010	2009
Current income tax expense (benefit):			
Federal	\$ 39,961	\$ (757)	\$ (8,172)
State	6,293	147	669
Foreign	6,913	5,166	2,002
Current income tax expense (benefit)	53,167	4,556	(5,501)
Deferred income tax (benefit) expense	(72,803)	10,023	(14,915)
Income tax (benefit) expense	\$ (19,636)	\$ 14,579	\$ (20,416)

As of December 31, 2011 and 2010, the Company had a net income tax payable of \$51.5 million and \$6.3 million, respectively, recorded in the Accounts payable and other liabilities line in the Consolidated Balance Sheets and a net income tax receivable of \$1.6 million and \$1.3 million, respectively, recorded in the Other assets line in the Consolidated Balance Sheets, respectively. Income taxes paid were \$3.7 million, \$3.9 million and \$2.2 million for 2011, 2010 and 2009, respectively. The Company received \$3.8 million and \$43.5 million federal income tax refunds in 2010 and 2009, respectively.

A reconciliation of the expected federal income tax at statutory rates for year ended to the actual taxes provided is as follows:

<i>(Amounts in thousands)</i>	2011	2010	2009
Income tax at statutory federal income tax rate	\$ 13,920	\$ 20,433	\$ (7,813)
Tax effect of:			
State income tax, net of federal income tax effect	1,897	1,309	2,051
Valuation allowance	(31,442)	(10,016)	(16,090)
International taxes	1,338	1,405	1,249
Net permanent differences	(5,995)	51	3,092
Decrease in tax reserve	(230)	(377)	(2,469)
Other	876	1,774	(436)
Income tax (benefit) expense	\$ (19,636)	\$ 14,579	\$ (20,416)

In 2011, the Company recognized a tax benefit of \$19.6 million, reflecting benefits of \$34.0 million for the reversal of a portion of the valuation allowance on domestic deferred tax assets, partially offset by an increase in the valuation allowance on a portion of deferred tax assets as a result of losses in certain jurisdictions outside of the United States. The effective tax rate for 2011 reflects the expected utilization of net operating loss carry-forwards based on the Company's review of current facts and circumstances, including the three year cumulative income position and expectations that the Company will maintain a cumulative income tax position in the future. Changes in facts and circumstances may cause the Company to record additional tax expense or benefits in the future. Net permanent differences in 2011 include a benefit of \$9.7 million from the sale of assets, partially offset by the effect of non-deductible capital transaction costs and restructuring expenses of \$2.1 million and \$0.9 million, respectively.

In 2010, the Company had tax expense of \$14.6 million, including the release of \$11.9 million of valuation allowances on deferred tax assets in the U.S. jurisdiction. The decrease in the tax reserve in 2010 was driven by the favorable settlement or closing of years subject to state audit.

Other for 2010 includes a change in the tax treatment of the Medicare subsidy under the 2010 federal healthcare legislation and adjustments to the deferred taxes on fixed assets.

Table of Contents

In 2009, the Company recognized a tax benefit of \$20.4 million, primarily reflecting the release of \$17.6 million of valuation allowances on deferred tax assets. Our pre-tax net loss of \$22.3 million, when adjusted for our estimated book to tax differences, resulted in taxable income, which allowed us to release some valuation allowances on our tax loss carryovers. These book to tax differences include impairments on securities and other assets and accruals related to separated employees, litigation and unrealized foreign exchange losses. Net permanent differences in 2009 include the effect of non-deductible expense of \$2.3 million related to asset impairments. The decrease in tax reserve in 2009 was driven by the favorable settlement or closing of years subject to state audit. Included in Other for 2009 is \$1.6 million of expense for the reversal of tax benefits upon the forfeiture of share-based awards, partially offset by \$1.1 million of tax benefits from changes in estimates to previously recorded tax amounts as a result of new information received during the year.

During the second quarter of 2010, the IRS completed its examination of the Company's consolidated income tax returns for 2005 to 2007, and issued its Revenue Agent Report (RAR) challenging the Company's tax position relating to net securities losses and disallowing the related deductions. The Company disagrees with the RAR regarding the net securities losses and filed a protest letter. The Company had conferences with the IRS Appeals Office in 2010 and through October 2011, but was unable to reach agreement with the IRS Appeals Division. The Company is also currently under examination for its 2008 and 2009 tax returns, which had similar deductions. As a result, the Company expects to receive Notices of Deficiency within the next 12 months disallowing approximately \$908.5 million of cumulative deductions taken for net securities losses in its 2007, 2008 and 2009 tax returns. As of December 31, 2011, the Company has recognized a cumulative benefit of approximately \$136.1 million relating to these deductions. If the Notices of Deficiency contain adjustments with which the Company does not agree, the Company anticipates that it will file a petition in the United States Tax Court contesting such adjustments. The Company continues to believe that the amounts recorded in its consolidated financial statements reflect its best estimate of the ultimate outcome of this matter.

The Company's deferred tax assets and liabilities at December 31 are composed of the following:

<i>(Amounts in thousands)</i>	2011	2010
Deferred tax assets:		
Postretirement benefits and other employee benefits	\$ 56,851	\$ 54,754
Tax loss carryovers	414,231	328,398
Tax credit carryovers	35,465	47,602
Basis difference in revalued investments	101,058	106,863
Bad debt and other reserves	5,246	7,185
Valuation allowance	(476,290)	(485,790)
Total deferred tax asset	136,561	59,012
Deferred tax liabilities:		
Depreciation and amortization	(66,713)	(63,316)
Gross deferred tax liability	(66,713)	(63,316)
Net deferred tax asset (liability)	\$ 69,848	\$ (4,304)

Net deferred tax asset positions are reflected in the Other assets line in the Consolidated Balance Sheets, while net deferred tax liability positions are included in the Accounts payable and other liabilities line in the Consolidated Balance Sheets. Substantially all of the deferred tax assets relate to the U.S. jurisdiction.

In 2010, based on cumulative losses, a valuation allowance was recorded for a substantial portion of our net deferred tax asset. During 2011, the Company released a portion of the valuation allowance based on a three year cumulative income position and the expectation that the Company will maintain a cumulative income position in the future. Changes in facts and circumstances in the future may cause the Company to record additional tax benefits as further deferred tax valuation allowances are released and carry-forwards are utilized. The Company continues to evaluate additional available tax positions related to the net securities losses in prior years.

Table of Contents

The amount and expiration dates of tax loss carry-forwards (not tax effected) and credit carry-forwards as of December 31, 2011 are as follows:

<i>(Amounts in thousands)</i>	Expiration Date	Amount
United States federal and state loss carry-forwards	2012 -2031	1,071,134
United States federal tax credit carry-forwards	2020 -2024	10,794
United States federal tax credit carry-forwards	Indefinite	24,671

The Company, or one of its subsidiaries, files income tax returns in the United States federal jurisdiction and various states and foreign jurisdictions. With a few exceptions, the Company is no longer subject to foreign or United States federal, state and local income tax examinations for years prior to 2005. The Company is subject to foreign, United States federal and certain state income tax examinations for 2005 through 2009. A United States federal income tax examination for 2005 through 2007 is currently in administrative appeals and a United States federal income tax examination for 2008 and 2009 currently in process.

Unrecognized tax benefits are recorded in Accounts payable and other liabilities in the Consolidated Balance Sheets. Following is a reconciliation of unrecognized tax benefits for the year ended December 31:

<i>(Amounts in thousands)</i>	2011	2010	2009
Beginning balance	\$ 10,204	\$ 10,711	\$ 13,089
Additions based on tax positions related to the current year			832
Settlements		(296)	(1,029)
Lapse in statute of limitations	(533)	(211)	(2,181)
Reductions for tax positions of prior years	(37)		
Ending balance	\$ 9,634	\$ 10,204	\$ 10,711

As of December 31, 2011, the liability for unrecognized tax benefits was \$9.6 million, all of which could impact the effective tax rate if recognized. The Company accrues interest and penalties for unrecognized tax benefits through Income tax expense (benefit) in the Consolidated Statements of Income (Loss). For the years ended December 31, 2011, 2010 and 2009, the Company accrued approximately \$0.2 million, \$0.3 million and \$0.6 million, respectively, in interest and penalties in its Consolidated Statements of Income (Loss), respectively. As of December 31, 2011 and 2010, the Company had a liability of \$1.6 million and \$1.7 million, respectively, for interest and penalties related to its unrecognized tax benefits. As of December 31, 2011, it is not possible to reasonably estimate the expected change to the total amount of unrecognized tax positions over the next 12 months.

The Company does not consider its earnings in its foreign entities to be permanently reinvested. As of December 31, 2011 and 2010, a deferred tax liability of \$5.9 million and \$4.8 million, respectively, was recognized for the unremitted earnings of its foreign entities.

Note 15 Commitments and Contingencies

Operating Leases The Company has various non-cancelable operating leases for buildings and equipment that terminate through 2021. Certain of these leases contain rent holidays and rent escalation clauses based on pre-determined annual rate increases. The Company recognizes rent expense under the straight-line method over the term of the lease. Any difference between the straight-line rent amounts and amounts payable under the leases are recorded as deferred rent in Accounts payable and other liabilities in the Consolidated Balance Sheets. Cash or lease

Edgar Filing: MONEYGRAM INTERNATIONAL INC - Form 10-K

incentives received under certain leases are recorded as deferred rent when the incentive is received and amortized as a reduction to rent over the term of the lease using the straight-line method. Incentives received relating to tenant improvements are recognized as a reduction of rent expense under the straight-line method over the term of the lease. Tenant improvements are capitalized as leasehold improvements and depreciated over the shorter of the remaining term of the lease or 10 years. At December 31, 2011, the deferred rent liability relating to these incentives was \$2.7 million.

F-47

Table of Contents

Rent expense under operating leases was \$16.6 million, \$15.3 million and \$13.8 million during 2011, 2010 and 2009, respectively. Minimum future rental payments for all non-cancelable operating leases with an initial term of more than one year are (amounts in thousands):

2012	\$ 12,927
2013	11,714
2014	10,733
2015	8,551
2016.	2,405
Thereafter	7,623
Total	\$ 53,953

Credit Facilities At December 31, 2011, the Company has overdraft facilities through its senior facility consisting of \$12.7 million of letters of credit to assist in the management of investments and the clearing of payment service obligations. All of these letters of credit are outstanding as of December 31, 2011. These overdraft facilities reduce amounts available under the senior facility. Fees on the letters of credit are paid in accordance with the terms of the senior facility described in Note 9 *Debt*.

Minimum Commission Guarantees In limited circumstances as an incentive to new or renewing agents, the Company may grant minimum commission guarantees for a specified period of time at a contractually specified amount. Under the guarantees, the Company will pay to the agent the difference between the contractually specified minimum commission and the actual commissions earned by the agent. Expense related to the guarantee is recognized in the *Fee commissions expense* line in the Consolidated Statements of Income (Loss).

As of December 31, 2011, the liability for minimum commission guarantees is \$1.7 million and the maximum amount that could be paid under the minimum commission guarantees is \$7.2 million over a weighted average remaining term of 3.5 years. The maximum payment is calculated as the contractually guaranteed minimum commission times the remaining term of the contract and, therefore, assumes that the agent generates no money transfer transactions during the remainder of its contract. However, under the terms of certain agent contracts, the Company may terminate the contract if the projected or actual volume of transactions falls beneath a contractually specified amount. With respect to minimum commission guarantees expiring in 2011 and 2010, the Company paid \$0.4 million and \$0.5 million, respectively, or 34 percent and 22 percent, respectively, of the estimated maximum payment for the year.

Other Commitments The Company has agreements with certain co-investors to provide funds related to investments in limited partnership interests. As of December 31, 2011, the total amount of unfunded commitments related to these agreements was \$0.3 million. The amortization expense was recognized as part of *Transaction and operations support* expense in the Consolidated Statements of Income (Loss).

Legal Proceedings The matters set forth below are subject to uncertainties and outcomes that are not predictable with certainty. The Company accrues for these matters as any resulting losses become probable and can be reasonably estimated. Further, the Company maintains insurance coverage for many claims and litigations alleged. In relation to various legal matters, including those described above, the Company had \$3.0 million and \$2.3 million of liability recorded in the *Accounts payable and other liabilities* line in the Consolidated Balance Sheets as of December 31, 2011 and 2010, respectively. A charge of \$1.9 million, a net gain of \$12.7 million and charges totaling \$54.9 million, net of insurance recoveries, were recorded in the *Transaction and operations support* line in the Consolidated Statements of Income (Loss) during 2011, 2010 and 2009, respectively.

Litigation Commenced Against the Company:

Shareholder Litigation On April 15, 2011 a complaint was filed in the Court of Chancery of the State of Delaware by Willie R. Pittman purporting to be a class action complaint on behalf of all shareholders and a shareholder derivative complaint against the Company, THL, Goldman Sachs and each of the Company's directors. Ms. Pittman alleges in her complaint that she is a stockholder of the Company and asserts, among

Table of Contents

other things, (i) breach of fiduciary duty and disclosure claims against the Company's directors, THL and Goldman Sachs, (ii) breach of the Company's certificate of incorporation claims against the Company, THL and Goldman Sachs, and (iii) claims for aiding and abetting breach of fiduciary duties against Goldman Sachs. Ms. Pittman purports to sue on her own behalf and on behalf of the Company and its stockholders. Pittman sought to, among other things, enjoin or rescind the 2011 Recapitalization. On April 29, 2011 the plaintiff filed an amended complaint to add two additional plaintiffs, Susan Seales and Stephen Selzer. On May 16, 2011 a hearing to enjoin or rescind the 2011 Recapitalization was held in the Court of Chancery of the State of Delaware, and at the hearing, the plaintiffs' request for a preliminary injunction was denied. The 2011 Recapitalization was completed on May 18, 2011. Since that time, Ms. Pittman has withdrawn as a putative class representative; Ms. Seales and Mr. Selzer remain as plaintiffs. The plaintiffs seek to recover damages of some or all of the cash and stock payments made to THL and Goldman Sachs by the Company in connection with the recapitalization transaction. This litigation is ongoing and is scheduled for trial in the second quarter of 2012.

On May 12, 2011 a complaint was filed in the County Court at Law No. 3 in Dallas County, Texas by Hilary Kramer purporting to be a class action complaint on behalf of all shareholders and a shareholder derivative complaint against the Company, THL, Goldman Sachs and each of the Company's directors. Ms. Kramer alleges in her complaint that she is a stockholder of the Company and asserts, among other things, (i) breach of fiduciary duty claims against the Company's directors, THL and Goldman Sachs and (ii) claims for aiding and abetting breach of fiduciary duties against Goldman Sachs. Ms. Kramer purports to sue on her own behalf and on behalf of the Company and its stockholders. Ms. Kramer sought to, among other things, enjoin the 2011 Recapitalization. The defendants have moved for the Texas court to stay this litigation in favor of the Pittman litigation in Delaware, which has an overlapping class definition.

Other Matters The Company is involved in various claims and litigation that arise from time to time in the ordinary course of the Company's business. Management does not believe that after final disposition any of these matters is likely to have a material adverse impact on the Company's financial condition, results of operations and cash flows.

Government Investigations:

MoneyGram has been served with subpoenas to produce documents and testify before a grand jury in the U.S. District Court for the Middle District of Pennsylvania. The subpoenas sought information related to, *inter alia*, MoneyGram's U.S. and Canadian agents, as well as certain transactions involving such agents, fraud complaint data, and MoneyGram's consumer anti-fraud program during the period from 2004 to 2009. MoneyGram has provided information requested pursuant to the subpoenas and continues to provide additional information relating to the investigation. In addition, the Company has been provided with subpoenas for the testimony of certain current and former employees in connection with the investigation. The Company has also been notified of a request for interviews of one current executive officer and one former chief executive officer of the Company. The U.S. Department of the Treasury Financial Crimes Enforcement Network (FinCEN) also requested information, which information was subsequently provided by MoneyGram, concerning MoneyGram's reporting of fraudulent transactions during this period. In November 2010, MoneyGram met with representatives from the U.S. Attorney's Office for the Middle District of Pennsylvania (the MDPA USAO) and representatives of FinCEN to discuss the investigation. In July 2011, MoneyGram had further discussions with the MDPA USAO and representatives of the Asset Forfeiture and Money Laundering Section of the U.S. Department of Justice (US DOJ). MoneyGram has been informed that it is being investigated by the federal grand jury in connection with these matters for the period 2004 to early 2009 as well as MoneyGram's anti-money laundering program during that period. In January 2012, meetings were held between representatives of the Company, the MDPA USAO and the Criminal Division of the US DOJ to discuss the investigation. MoneyGram continues to engage in discussions and cooperate with such government representatives regarding the ongoing investigation. During the course of these discussions, the Company was advised that consideration is being given to a range of possible outcomes, including the seeking of criminal penalties against the Company. However, no conclusions can be drawn at this time as to the outcome of the investigation, and we are unable to predict the probable loss, or range of loss, if any, associated with this matter.

Table of Contents

MoneyGram has also received Civil Investigative Demands from a working group of nine state attorneys general who have initiated an investigation into whether the Company has taken adequate steps to prevent consumer fraud during the period from 2007 to 2011. The Civil Investigative Demands seek information and documents relating to the Company's procedures to prevent fraudulent transfers and consumer complaint information. MoneyGram continues to cooperate fully with the states in this matter. MoneyGram has submitted the information and documents requested by the states. No claims have been made against MoneyGram at this time.

Other Matters The Company is involved in various government inquiries and other matters that arise from time to time. Management does not believe that after final disposition any of these matters is likely to have a material adverse impact on the Company's financial condition, results of operations and cash flows.

Note 16 Segment Information

The Company's reporting segments are primarily organized based on the nature of products and services offered and the type of consumer served. The Company primarily manages its business through two reporting segments, Global Funds Transfer and Financial Paper Products. The Global Funds Transfer segment provides global money transfers and bill payment services to consumers through a network of agents and, in select markets, company-operated locations. The Financial Paper Products segment provides money orders to consumers through retail and financial institution locations in the United States and Puerto Rico, and provides official check services to financial institutions in the United States. One of the Company's agents of both the Global Funds Transfer segment and the Financial Paper Products segment accounted for 29 percent, 30 percent and 29 percent of total revenue in 2011, 2010 and 2009, respectively. Businesses which are not operated within these segments are categorized as "Other," and primarily relate to discontinued products and businesses. Segment pre-tax operating income and segment operating margin are used to review operating performance and allocate resources.

Prior to the fourth quarter of 2011, the Company managed the Global Funds Transfer segment as two geographical regions or operating segments, the Americas and EMEAAP, to coordinate sales, agent management and marketing activities. These operating segments were aggregated into one reporting segment. As the Company no longer monitors performance and allocates resources by region, the Company has one operating and reporting segment for Global Funds Transfer.

Segment accounting policies are the same as those described in Note 2 *Summary of Significant Accounting Policies*. The Company manages its investment portfolio on a consolidated level, with no specific investment security assigned to a particular segment. However, investment revenue is allocated to each segment based on the average investable balances generated by that segment's sale of payment instruments during the period. Net securities (gains) losses are not allocated to the segments as the investment portfolio is managed at a consolidated level. While the derivatives portfolio is also managed on a consolidated level, each derivative instrument is utilized in a manner that can be identified to a particular segment.

Also excluded from operating income for Global Funds Transfer and Financial Paper Products are interest and other expenses related to the Company's credit agreements, items related to the Company's preferred stock, operating income from businesses categorized as "Other," certain pension and benefit obligation expenses, director deferred compensation plan expenses, executive severance and related costs, certain legal and corporate costs not related to the performance of the segments and restructuring and reorganization costs. Unallocated expenses in 2011 include \$4.8 million of legal settlements and related costs for securities litigation associated with our May 2011 Recapitalization, \$0.3 million of asset impairments and other net corporate costs of \$4.8 million not allocated to the segments. Unallocated expenses in 2010 include \$1.8 million of asset impairments in addition to other net corporate costs of \$7.4 million not allocated to the segments. Unallocated expenses in 2009 include \$20.3 million of legal reserves related to securities litigation and stockholder derivative claims, a net curtailment gain on benefit plans of \$14.3 million, \$7.0 million of asset impairments and \$4.4 million of executive severance and related costs in addition to other net corporate costs of \$12.9 million not allocated to the segments.

Table of Contents

The following tables set forth revenue, operating results, depreciation and amortization, capital expenditures and assets by segment for the year ended December 31:

<i>(Amounts in thousands)</i>	2011	2010	2009

Geographic areas International operations are located principally in Europe. International revenues are defined as revenues generated from money transfer transactions originating in a country other than the United States. Long-lived assets are principally located in the United States. The table below presents revenue by major geographic area for the year ended December 31:

<i>(Amounts in thousands)</i>	2011	2010	2009
United States	\$ 768,662	\$ 762,276	\$ 789,222
International	479,107	404,377	372,489
Total revenue	\$ 1,247,769	\$ 1,166,653	\$ 1,161,711

Note 17 Quarterly Financial Data (Unaudited)

The summation of quarterly earnings per share may not equate to the calculation for the full year as quarterly calculations are performed on a discrete basis.

Table of Contents

- (1) Operating expenses in the first, second, third and fourth quarter of 2011 include restructuring and reorganization costs of \$2.9 million, \$5.6 million, \$6.4 million and \$6.2 million, respectively. Operating expenses in the second, third and fourth quarter of 2011 include legal accruals of \$2.6 million, \$1.3 million and \$0.9 million, respectively. Other expenses in the second quarter of 2011 include net securities gains of \$32.8 million, restructuring and reorganization costs of \$2.3 million, capital transaction costs of \$5.5 million, asset impairment charges of \$1.8 million and debt extinguishment loss of \$5.2 million. Other expenses in the third quarter of 2011 include impairment loss from asset disposition of \$0.9 million. Other expenses in the fourth quarter of 2011 include debt extinguishment loss of \$32.3 million, capital transaction costs of \$1.0 million and asset impairment charges of \$0.3 million.
- (2) Operating expenses in the second quarter of 2010 include an impairment charge of \$1.5 million. Operating expenses in the second, third and fourth quarters of 2010 include restructuring and reorganization costs of \$1.9 million, \$1.6 million and \$2.3 million, respectively. Operating expenses in the third quarter of 2010 include legal accruals of \$1.8 million. Operating expenses in the fourth quarter of 2010 include the reversal of a legal accrual of \$16.4 million.

Note 18 Condensed Consolidating Financial Statements

In the event the Company offers debt securities pursuant to an effective registration statement on Form S-3, these debt securities may be guaranteed by certain of its subsidiaries. Accordingly, the Company is providing condensed consolidating financial information in accordance with SEC Regulation S-X Rule 3-10, *Financial Statements of Guarantors and Issuers of Guaranteed Securities Registered or Being Registered*. If the Company issues debt securities, the following 100 percent directly or indirectly owned subsidiaries could fully and unconditionally guarantee the debt securities on a joint and several basis: MoneyGram Payment Systems Worldwide, Inc.; MoneyGram Payment Systems, Inc.; and MoneyGram of New York LLC (collectively, the Guarantors).

The following information represents condensed, consolidating Balance Sheets as of December 31, 2011 and 2010, along with condensed, consolidating Statements of Income (Loss) and Statements of Cash Flows for the years ended December 31, 2011, 2010 and 2009. The condensed, consolidating financial information presents financial information in separate columns for MoneyGram International, Inc. on a Parent-only basis carrying its investment in subsidiaries under the equity method; Guarantors on a combined basis, carrying investments in subsidiaries that are not expected to guarantee the debt (collectively, the Non-Guarantors) under the equity method; Non-Guarantors on a combined basis; and eliminating entries. The eliminating entries primarily reflect intercompany transactions, such as accounts receivable and payable, fee revenue and commissions expense and the elimination of equity investments and income in subsidiaries. As described in Note 2 *Summary of Significant Accounting Policies* the Company has corrected the presentation of certain investments in time deposits and certificates of deposit in the 2009 condensed, consolidating financial statements.
