CHAIRMAN'S STATEMENT

In 2011, we firmly seized the valuable market opportunities arising from the rapidly proliferating mobile Internet applications and the increasing demand of industry informatisation to continue to deepen our strategic transformation. We pragmatically promoted the development of our Three New Roles – a leader of intelligent pipeline, a provider of integrated platforms, and a participant in content and application development and proactively expanded into emerging areas such as mobile Internet. We accelerated the optimisation of business structure and continuously enhanced our operational and management capabilities, facilitating effective promotion in the scale development of our mobile, wireline broadband and industry informatisation services. Revenue and profit continued to maintain robust growth and the Company's overall competitive strengths have been further enhanced.

Operating Results

In 2011, the Company achieved favourable development. The operating revenues amounted to RMB245,041 million. Excluding the amortisation of upfront connection fees, the operating revenues were RMB244,943 million, an increase of 11.7% over last year. The revenue structure continued to be optimised, laying a solid foundation for future sustainable development. Mobile service revenue reached RMB68,248 million, an increase of 43.0% over last year, further increasing its proportion to 27.9% of total revenue and became the largest service of the Company. Revenue from wireline broadband service was RMB60,801 million, an increase of 12.3% over last year and maintained rapid growth. Wireline voice revenue was RMB49,764 million, its proportion to total revenue declined to 20.3% and the operating risks were further alleviated. EBITDA^{1,2} was RMB94,266 million, an increase of 6.5% over last year while EBITDA margin³ was 40.8%. The profit attributable to equity holders of the Company was RMB16,404 million, an increase of 10.5% over last year, demonstrating concurrent achievement in scale development of subscriber and enhancement in profitability. Basic earnings per share was RMB0.20. Capital expenditure was RMB49,551 million, accounted for 20.2% of revenue and free cash flow⁴ was RMB20,288 million.

Taking into account the return to shareholders, the Company's cash flow and its capital requirements for the forthcoming acquisition of mobile network assets from parent company, the Board of Directors has decided to recommend at the forthcoming Annual General Meeting that a dividend being an equivalent of HK\$0.085 per share be declared, which is the same as last year.

Full services development achieving new breakthroughs

Through more than three years of practice and exploration, we have continuously deepened our understanding and grasp of the pattern of full services operation and enriched our operating experience. We effectively promoted the scale development of the Company's three core services, further consolidating and strengthening our competitive advantages.

¹ For convenience of investors' analysis, EBITDA was calculated before CDMA network capacity lease fee.

² Including the amortisation of upfront connection fees, EBITDA was RMB94,364 million, profit attributable to equity holders of the Company was RMB16,502 million, and basic earnings per share was RMB0.20.

³ EBITDA margin was calculated based on EBITDA divided by the operating revenues excluding mobile terminal sales.

⁴ Free cash flow was calculated from EBITDA (excluding amortisation of the upfront connection fees) minus CDMA network capacity lease fee, capital expenditure and income tax.

3G leading mobile service scale expansion

In 2011, China's mobile telecommunications market has gradually migrated from 2G to 3G services. With accelerated growth in 3G services, the market potential was huge and the Company firmly seized this historic opportunity for development. Through a series of development initiatives such as comprehensively promoting the terminal-driven marketing model, optimising channel distribution, enhancing service capability, enriching mobile applications and strengthening brand building, the Company effectively promoted scale development of its mobile service; Through the transformation of self-operated sales outlets to handset speciality stores like electronic appliance stores to strengthen sales and marketing to enhance customers' experience, together with implementation of flexible and effective incentive schemes to motivate open channel sales initiatives, new addition of subscribers increased rapidly; Through cooperation and incentive across terminal value chain to motivate value chain participants, the variety of smartphones, in particular the smartphones priced around RMB1,000, proliferated robustly. Sales volume of 3G smartphones continued to rise, which well supported the rapid expansion of 3G subscribers base; Through continuous innovation in service measures and focusing on the enhancement of electronic channel service capabilities to boost the mobile service scale expansion; Strengthening cooperation with external parties, constantly launching popular mobile Internet applications, through sales and marketing to enhance customers' experience and continuous follow-up marketing strategies to increase the usage and vigorousness level of the applications and promote the development by applications; Targeting the youngster market, the brand e-Surfing Fly Young was launched, gathering various resource advantages such as network, applications, service, etc., in order to seize the mobile Internet active user market. In 2011, the net addition of mobile subscribers was 35.95 million, reaching a total of 126 million and the Company became the world's largest CDMA operator. Our mobile subscriber market share further increased to 13.0%, with 3G subscribers totalling 36.29 million and 3G subscriber market share was 28.5%. The Company's market influence was further enhanced, demonstrating scale benefit driving enhancement in corporate overall profitability.

While we are achieving the scale development of our mobile subscribers base, with a firm foothold in the present and an outlook to the future, we vigorously promoted the transformation from voice-centric to data traffic operation and stand at the forefront for future development: We leveraged our strengths and capabilities in integrated platform and gathered popular Internet applications such as instant messaging, Weibo, group buying and Best Tone services, reinforcing application-driven usage and enriching data content. We leveraged our Cloud computing service capability while proactively exploring and expanding the development into emerging services such as mobile payment and positioning services to enhance data traffic value. We innovated the data traffic marketing model, through strengthening sales and marketing to enhance customers' experience and cultivating users' habit of usage to increase data revenue. In 2011, mobile data revenue was RMB29,620 million, an increase of 57.4% over last year.

Broadband upgrade boosting rapid development

Broadband network has become the most important infrastructure in the informatisation society and broadband development will become an important initiative to promote national economic growth. With the growing demand for e-commerce, the continuously enriching applications in the Internet of Things and continuous acceleration in Three Networks Convergence, the demand from high-bandwidth applications has become an important driver for bandwidth upgrade, injecting new vitality into the Company's broadband service development. The Company duly launched the Broadband China Fibre Cities project and accelerated fibre rollout and the upgrade of Fibre-to-the-Home (FTTH), comprehensively implementing bandwidth upgrade to create a superior network for better customer experience, further consolidating our competitive edges. By the end of 2011, all cities in service areas basically had 8 Mbps bandwidth access capability, while 20 Mbps bandwidth coverage reached 70%. In addition to the broadband upgrade, we vigorously developed products that demanded high bandwidth such as iTV, e-Surfing Video and e-Cloud storage, constantly enriching the content of the e-Surfing Broadband brand. We also proactively introduced bandwidth intensive contents and applications such as popular online games and online videos from our external partners to provide users with a differentiated perception of high-bandwidth, effectively promoting an increase in broadband subscribers and value enhancement: In 2011, the net addition of wireline broadband subscribers was 13.33 million and the total number of wireline broadband subscribers reached 76.81 million.

Key industries-focused development expanding informatisation applications

Industry informatisation is an important area in national economic informatisation. Facing the rich gold mine of industry informatisation applications market, we fully leverage our integrated strengths in ICT and government & enterprise service teams. With the brand e-Surfing Navigator as the lead, we focused on industries such as government supervision and enforcement, finance, corporate clients and clustered small to medium-sized enterprises. We developed key applications such as e-Surfing RFID, e-office administration, transport and logistics, digital campus and vehicle information services and accelerated the scale replication and promotion of the products. Riding on the opportunity of assisting customers to establish digital enterprises, we achieved synergy in integrating our products such as mobile 3G and broadband access into informatisation solutions, effectively driving the scale development of our fundamental services. At the same time, we proactively expanded and developed the Cloud service market. We constructed the nationwide Cloud resources service management platform on an efficient and centralised basis and proactively promoted Cloud computing for industry applications to continuously enhance our capabilities in providing industry informatisation solutions.

Commitment to innovate, Three New Roles transformation achieving substantive progress

We broke through from conventional thinking and reinforced our awareness of and capability for innovation, striving to explore the development patterns of emerging services, and increase our innovation initiatives in networks, platforms, products, mechanisms and system. We pragmatically implemented our Three New Roles strategy and endeavoured to develop new differentiated competitive edges to promote the scale development of our services.

We actively promoted intelligent pipeline construction: We strived to achieve differentiated allocation of network resources, focusing on enhancing our service assurance capabilities for high-end users, relieving network capacity expansion pressure and saving on capital expenditure. At the same time, we conducted trial of our intelligent bandwidth upgrade products for broadband networks whereby bandwidth resources can be quickly configured according to user's requirement, in order to achieve self-served bandwidth upgrade by broadband access users so as to improve customer's experience.

We accelerated the construction of integrated platforms and open operations: We further optimised our platform structure, gradually incorporating various types of application platform resources into the integrated resource management platform for the implementation of centralised efficient operations. We also increased our efforts in transferring the platform resources into the Cloud so as to achieve sharing of user information and capability resources. We built a collective eco-environment for Internet applications and constantly improved our basic support capabilities such as authentication, positioning and billing for the integrated platform. We promoted our capabilities in open platforms to external parties to accomplish exchanging of revenue, subscribers and data traffic.

We strengthened our innovative strengths in content applications and proactively expanded Internet applications: For self-developed applications products, we constantly improved their penetration and vigorousness levels through our integrated offering, preliminarily accomplishing business scale expansion: The number of registered users of five products, including iMusic, e-Surfing apps store and e-game all exceeded 30 million respectively. Emerging services such as e-Surfing Chat instant messaging and positioning services were progressively launched to the market. We formed the Open Mobile Internet Alliance and innovated new modes of cooperation. We also proactively introduced premium third-party contents and applications such as Tencent QQ, Weibo and UC Browser, and further promoted collaborative development in areas like Cloud applications and e-commerce.

We persisted to promote innovation in mechanism and system: In the field of emerging services, we proactively explored corporatisation reform. We accelerated the pace of the corporatisation reform of emerging services such as business travel, video and payment while implementing flexible incentive schemes to invigorate and create professional corporates with competitive edges for the rapid better development of the emerging services. We established a Business Innovation Department to strengthen our centralised efficient operation of innovative products. We also set up an incubator base to create an internal environment to cultivate innovation and incubate new products in the Internet area, thus initially forming a new system of innovative business operations.

Precision management and improvement in efficiency

We persisted in the direction of value management and continued to strengthen precision management, optimising resource allocation and enhance operational capability: We focused on three aspects, namely mobile network utilisation, marketing resource utilisation and operational efficiency of sales outlets. We further deepened the sub-division of performance evaluation units and diligently increased the corporate operating efficiency. We optimised our investment structure, fully leveraging on the functions of resource allocation in guiding business development. We increased our investment in key networks and services such as broadband and mobile and continuously improved investment return.

We acted in accordance with the development pattern of mobile Internet to strengthen our co-ordination and centralised efficient operations in areas such as sales and marketing systems and to make a concerted effort to expand the market. We further perfected our IT system, making every effort to achieve one-point access and entire-network operation, effectively promoting the development of our mobile Internet service.

We proactively embarked on serving the public and achieving excellence in performance program. Based on customers' perception, we enhanced our customer service capabilities in all aspects to continuously improve customer satisfaction, gradually establishing our differentiation advantages: We created superior broadband services, further enhanced our service support capabilities for broadband installation, maintenance and contract renewal and maintained industry-leading service quality level. We focused on 3G service and innovative customer interfaces. Instant messaging services such as QQ have reached scale operation, with the average monthly service volume exceeding two million times. The service capabilities of online channels such as on-line Palm Service Centre have also significantly improved, and Weibo has become a key channel to handle customer inquiries. The Company's mobile Internet service capabilities have begun to take shape.

Corporate Governance and Social Responsibility

We continue to strive to maintain a high level of corporate governance and corporate transparency to ensure healthy development of the Company and enhance corporate value. In 2011, our persistent efforts in corporate governance have been widely recognised by the capital markets. We have been accredited with a number of awards and appreciation, including No. 1 Best Managed Company in Asia by *Euromoney*, being the first company receiving such honour for three consecutive years, the Overall Best Managed Company in Asia and Best Telecom Company in Asia by *FinanceAsia*, and Asia's Best Companies in Corporate Governance and The Best Corporate Social Responsibility in China by *Corporate Governance Asia*.

We put great emphasis on environmental protection and vigorously promoted technical improvement for energy savings as well as collaborative building and sharing of mobile base stations. While investing in the conservation of resources, we contributed to energy saving and emission reduction for the community. We proactively practise the concepts of environment-friendly and low-carbon humanistic concept development, fully demonstrating our new image as a green telecom operator. We successfully achieved communications assurance for the Universiade in Shenzhen, the International Horticultural Exposition in Xi'an, and disaster relief, which demonstrated our efforts towards corporate social responsibility and received a high degree of recognition from all sectors of society.

Outlook

At present, 3G service is entering a phase of accelerated growth and will grow explosively. Wireline broadband service is still in a period of high growth. The commercialisation of new services such as mobile Internet, Cloud computing and Internet of Things is further accelerating, which will open up a new area for the Company's development. The national policy of promoting cultural development will also provide new development opportunities. However, at the same time, we also face new challenges, such as the integration of the information industry and intensifying market competition.

Looking forward, we are fully confident. The Company will ride on the industry development trend, in alignment with the theme of promoting scale development through dual-leadership in innovation and services to create a differentiated competitive edge. We will adhere to the principle of efficiency and continue to accelerate the scale development of mobile, wireline broadband and informatisation applications. We will strive to enhance our strengths in innovation, service, efficient centralisation and operation management, and take more solid steps towards the goal of being a world-class integrated information service provider so as to create more value for shareholders.

Finally, on behalf of the Board of Directors, I would like to take this opportunity to express my sincere appreciation to all our shareholders and customers for their support. I would also like to express my sincere thanks to Mr. Shang Bing and Mr. Zhang Chenshuang for their valuable contribution during their tenure of office as executive directors of the Company.

Notes:

1. BASIS OF PRESENTATION

The Group's financial statements included in the Annual Report have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB). IFRS includes International Accounting Standards (IAS) and interpretations. These financial statements also comply with the disclosure requirements of the Hong Kong Companies Ordinance and the applicable disclosure provisions of the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited.

2. CHANGES IN ACCOUNTING POLICIES

The IASB has issued a number of amendments to IFRSs and one new Interpretation that are effective for accounting period beginning on or after 1 January 2011. Of these, the following developments are relevant to the Group's financial statements:

IAS 24 (revised 2009), Related Party Disclosures

Improvements to IFRSs (2010)

The Group has not yet applied any new and revised standard or interpretation that is not yet effective for the current accounting period.

(i) IAS 24 (revised 2009), Related Party Disclosures

IAS 24 (revised 2009), Related Party Disclosures revises the definition of a related party. As a result, the Group has re-assessed the identification of related parties and concluded that the revised definition does not have any material impact on the Group's related party disclosures in the current and previous periods. The revised standard also provides limited relief from disclosure of information by government-related entities in respect of transactions with the government to which the Group is related or transactions with other entities related to the same government. As such, the adoption of IAS 24 (revised 2009), Related Party Disclosures has resulted in a change in the disclosures for the related party transactions with government-related entities in the financial statements.

(ii) Improvements to IFRSs (2010)

Improvements to IFRSs (2010) omnibus standard introduces an amendment to IFRS 1, First-time adoption of International Financial Reporting Standards. In the amendment to IFRS 1, a first-time adopter of IFRSs is allowed to use an event-driven fair value measurement as deemed cost for some or all of its assets and liabilities, even when the measurement date is after the IFRS transition date, provided that the measurement date is during the period covered by the entity's first IFRS financial statements. This amendment can be adopted retrospectively by existing IFRS reporters at the latest in the annual period beginning on or after 1 January 2011.

The accounting periods covered by the first IFRS financial statements of the Predecessor Operations, the First Acquired Group and the Second Acquired Group are from 1 January 1999 to 31 December 2001, from 1 January 2001 to 30 June 2003 and from 1 January 2001 to 31 December 2003, respectively. During the Restructuring, the First Acquisition and the Second Acquisition, as required by the applicable laws and regulations of the PRC, the Group's financial statements prepared under Accounting Standards for Business Enterprises and other relevant rules (collectively PRC GAAP), accounted for property, plant and equipment and lease prepayments at deemed cost based on the valuations performed by China Enterprise Appraisals Co., Ltd. as at 31 December 2001, 31 December 2002 and 31 December 2003 respectively. As the valuations were performed as at a date later than the respective dates of transition to IFRSs, the Group was not permitted at that time to adopt these valuations as deemed cost for the respective IFRS financial statements and instead adopted the following IFRS accounting policies:

property, plant and equipment were recognised at carrying amounts determined in accordance with IAS 16 at the respective dates of transition to IFRS and subsequently carried at revalued amount, being its fair value at the dates of revaluations; and

A-12

lease prepayments were recognised at historical cost and therefore, the related revaluation gains arising from the revaluation in 2001, 2002 and 2003 as mentioned above were not recognised.

As a result of the amendment to IFRS 1, the Group has:

retrospectively adjusted the amounts reported for previous periods in the respective IFRS financial statements to be consistent with the retrospective recognition of property, plant and equipment and lease prepayments acquired during the Restructuring, the First Acquisition and the Second Acquisition at their deemed cost in the respective first IFRS financial statements based on the results of valuations, with consequential adjustments for depreciation and amortisation charged in subsequent periods; and

changed its accounting policy for property, plant and equipment from the revaluation model to the cost model. The revaluation surplus and deficit related to the revaluation performed in 2004 and 2007, has also been adjusted retrospectively. This change is to align the Group's accounting policy with industry peers to provide more relevant financial information to the users of the Group's consolidated financial statements and to eliminate the differences between the Group's financial statements under IFRS and those under PRC GAAP.

The following table summarises the retrospective adjustments that have been made in accordance with amendment to IFRS 1 to each of the line items in the financial statements:

3. SEGMENTAL REPORTING

An operating segment is a component of an entity that engages in business activities from which revenues are earned and expenses are incurred, and is identified on the basis of the internal financial reports that are regularly reviewed by the chief operating decision maker in order to allocate resource and assess performance of the segment. For the periods presented, management has determined that the Group has one operating segment as the Group is only engaged in an integrated telecommunications business. The location of the Group's assets and operating revenues derived from activities outside mainland China are less than 1% of the Group's assets and operating revenues, respectively. No geographical area information has been presented as such amount is immaterial. No single external customer accounts for 10 percent or more of the Group's operating revenues.

4. OPERATING REVENUES

Operating revenues represent revenues from the provision of telecommunications services. The components of the Group's operating revenues are as follows:

	Note	2011 RMB millions	2010 RMB millions
Wireline voice	(i)	49,764	62,498
Mobile voice	(ii)	38,628	28,906

Note:

- (i) Except for certain subsidiaries and branches which are taxed at preferential rates of 15% or 24%, the provision for mainland China income tax is based on a statutory rate of 25% of the assessable income of the Company, its mainland China subsidiaries and branches as determined in accordance with the relevant income tax rules and regulations of the PRC.
- (ii) Income tax provisions of the Company's subsidiaries in Hong Kong and Macau Special Administrative Regions of the PRC, and in other countries are based on the subsidiaries' assessable income and income tax rates applicable in the respective tax jurisdictions which range from 12% to 35%.
- (iii) Amounts represent miscellaneous expenses in excess of statutory deductible limits for tax purposes.
- (iv) Amounts primarily represent miscellaneous incomes which are not subject to income tax.

7. BASIC EARNINGS PER SHARE

The calculation of basic earnings per share for the years ended 31 December 2011 and 2010 is based on the profit attributable to equity holders of the Company of RMB16,502 million and RMB15,347 million respectively, divided by 80,932,368,321 shares.

The amount of diluted earnings per share is not presented as there were no dilutive potential ordinary shares in existence for the periods presented.

8. DIVIDENDS

Pursuant to a resolution passed at the Directors' meeting on 20 March 2012, a final dividend of equivalent to HK\$0.085 per share totaling approximately RMB5,583 million for the year ended 31 December 2011 was proposed for shareholders' approval at the Annual General Meeting. The dividend has not been provided for in the consolidated financial statements for the year ended 31 December 2011.

Pursuant to the shareholders' approval at the Annual General Meeting held on 20 May 2011, a final dividend of RMB0.071208 (equivalent to HK\$0.085) per share totaling approximately RMB5,763 million in respect of the year ended 31 December 2010 was declared and paid on 30 June 2011.

Pursuant to the shareholders' approval at the Annual General Meeting held on 25 May 2010, a final dividend of RMB0.074514 (equivalent to HK\$0.085) per share totaling approximately RMB6,031 million in respect of the year ended 31 December 2009 was declared and of which RMB5,608 million was paid on 30 June 2010 and the remaining amounts were settled by June 2011.

Note:

- (i) In connection with the Restructuring and the Acquisitions, the land use rights of the Predecessor Operations, the First Acquired Group and the Second Acquired Group were revalued as required by the relevant PRC rules and regulations. The tax bases of the land use rights were adjusted to conform to such revalued amounts. Prior to the adoption of the amendment to IFRS 1, the land use rights were not revalued for financial reporting purposes and accordingly, deferred tax assets were created with corresponding increases in other comprehensive income in previous years and accumulated in shareholders' equity under the caption of other reserves.

As a result of the adoption of amendments to IFRS 1, the revalued amounts of land use rights of the Predecessor Operations, the First Acquired Group and the Second Acquired Group were adopted as deemed costs. Therefore, the tax bases and the amounts for financial reporting purpose of the land use rights were the same, and accordingly the respective deferred tax assets were eliminated retrospectively.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

Summary

In 2011, the Group firmly seized the development opportunities, further deepened the strategic transformation, vigorously developed the mobile, broadband, and industry application services, effectively promoted the development of full services operation and continuously improved the profitability of the Group. The Group's operating revenues in 2011 were RMB245,041 million, an increase of 11.5% from 2010; operating expenses were RMB220,912 million, an increase of 12.5% from 2010; profit attributable to equity holders of the Company was RMB16,502 million and basic earnings per share was RMB0.20; EBITDA¹ was RMB94,364 million and the EBITDA margin² was 40.8%.

Excluding the amortisation of upfront connection fees, the operating revenues of the Group in 2011 were RMB244,943 million, an increase of 11.7% from 2010; profit attributable to equity holders of the Company was RMB16,404 million, an increase of 10.5% from RMB14,850³ million in 2010, basic earnings per share was RMB0.20; EBITDA was RMB94,266 million and the EBITDA margin was 40.8%.

Operating Revenues

In 2011, facing the challenges from intense market competition, the Group continued to improve its full services operation standards, transform its mode of development and enhance its comprehensive service. The operating revenues maintained positive growth, and the revenue structure has been further optimised. Operating revenues in 2011 were RMB245,041 million, an increase of 11.5% from 2010. Excluding the amortisation of upfront connection fees of RMB98 million, operating revenues in 2011 were RMB244,943 million, an increase of 11.7% from 2010. Of this, the total mobile revenue was RMB82,701 million, an increase of 53.3% from 2010. The wireline services revenue was RMB162,242 million, a decrease of 1.9% from 2010. The mobile service revenue⁴, wireline broadband revenue, wireline value-added services revenue and integrated information application services revenue account for 27.9%, 24.8% and 12.2% of the total operating revenues, respectively. The revenue structure has become more reasonable.

¹ EBITDA was calculated from operating revenue minus operating expenses (which excluded depreciation and amortisation and CDMA network capacity lease fee). As the telecommunications business is a capital intensive industry, capital expenditure, the level of gearing and finance costs may have a significant impact on the net profit of companies with similar operating results. Therefore, we believe EBITDA may be helpful in analyzing the operating results of a telecommunications service provider such as the Company. Although EBITDA has been widely applied in the global telecommunications industry as a benchmark to reflect operating performance, financial capability and liquidity, it is not regarded as a measure of operating performance and liquidity under generally accepted accounting principles. It also does not represent net cash from operating activities. In addition, our EBITDA may not be comparable to similar indicators provided by other companies.

² EBITDA margin was calculated from EBITDA divided by operating revenues excluding the revenue from the sales of mobile terminal equipment.

³ In 2011, the Group retrospectively adopted the amendment to IFRS 1. Please refer to the note 2 of the Group Result presented in this announcement for details.

⁴ Mobile service revenue represents total mobile revenue minus other mobile revenue. Of this, in 2011, other mobile revenue amounted to RMB14,453 million.

The following table sets forth a breakdown of the operating revenues of the Group for 2010 and 2011, together with their respective rates of change:

	For the year ended 31 December		Rates of
	2011	2010	Change
	<i>(RMB in millions, except percentage data)</i>		
Wireline voice	49,764	62,498	(20.4%)
Mobile voice	38,628	28,906	33.6%
Internet	74,992	63,985	17.2%
Value-added services	25,529	22,571	13.1%
Integrated information application services	20,473	15,519	31.9%
Managed data and leased line	14,273	12,389	15.2%
Others	21,284	13,499	57.7%
Upfront connection fees	98	497	(80.3%)
Total operating revenues	245,041	219,864	11.5%

Wireline Voice

As the trend for substitution of wireline voice to mobile and Internet services has intensified, revenue from wireline voice service continued to decrease. In 2011, revenue from wireline voice services was RMB49,764 million, a decrease of 20.4% from RMB62,498 million in 2010, accounting for 20.3% of our operating revenues.

Mobile Voice

The mobile service has maintained rapid growth in 2011. The revenue from mobile voice services was RMB38,628 million, an increase of 33.6% from RMB28,906 million in 2010, accounting for 15.8% of our operating revenues. In 2011, the net increase in the number of mobile subscribers was 35.95 million, reaching 126 million.

Internet

In 2011, revenue from Internet access services was RMB74,992 million, an increase of 17.2% from RMB63,985 million in 2010, accounting for 30.6% of our operating revenues. Through the Broadband China Fibre Cities project, the Group upgraded the network bandwidth, which effectively promoted the rapid growth of broadband service. The revenue from our Internet access services continued to grow. At the end of 2011, the number of wireline broadband subscribers increased by 21.0% to 76.81 million, a net increase of 13.33 million subscribers from the end of 2010. In 2011, the wireline broadband revenue of the Group was RMB60,801 million, an increase of 12.3% from 2010. Revenue from mobile internet access services was RMB13,301 million, an increase of 47.5% from 2010.

Value-Added Services

In 2011, revenue from value-added services was RMB25,529 million, an increase of 13.1% from RMB22,571 million in 2010, accounting for 10.4% of our operating revenues. The increase in revenue was mainly attributable to the rapid growth of mobile value-added services. Revenue from mobile value-added services was RMB12,067 million, an increase of 53.6% from 2010. However, due to the decline in PAS services, revenue from wireline value-added services decreased by 8.5% when compared with 2010.

Integrated Information Application Services

In 2011, revenue from integrated information application services was RMB20,473 million, an increase of 31.9% from RMB15,519 million in 2010, accounting for 8.4% of our operating revenues. The increase in revenue was mainly due to the rapid development of the IT service and applications services as well as Best Tone type of information services. Revenue from mobile integrated information application services was RMB4,172 million, an increase of 117.3% from 2010.

Managed Data and Leased Line

In 2011, revenue from managed data and leased line services was RMB14,273 million, an increase of 15.2% from RMB12,389 million in 2010, accounting for 5.8% of our operating revenues. As the demand from customers for network resources and informatisation continues to increase, the revenue growth from domestic leased circuits services, IP-VPN services and leased optic fibre channel has increased relatively rapidly. Revenue from mobile managed data and leased line services was RMB80 million.

Others

In 2011, revenue from other services was RMB21,284 million, an increase of 57.7% from RMB13,499 million in 2010, accounting for 8.7% of our operating revenues. The growth of revenue was mainly attributable to the sales revenue of mobile terminal equipment. Revenue from other mobile services was RMB14,453 million, an increase of 132.0% from 2010.

Upfront Connection Fees

Upfront connection fees received by the Group from subscribers were amortised over an expected customer relationship period of 10 years. Effective from 1 July 2001, the Group ceased to charge new subscribers upfront connection fees. The termination date for the amortisation of upfront connection fees was 30 June 2011. The amortised amount was RMB98 million in 2011, representing a decrease of 80.3% from RMB497 million in 2010.

Operating Expenses

In order to promote the scale development of full services operation and increase our future competitiveness, the Group has centralised resources deployment, appropriately increased resources input, adhered to tilting more resources towards rapid growing business, high-value customers and highly-profitable regions. In the meantime, the Group has optimised its precision management, continuously increased the efficiency in the use of resources, and effectively promoted the dual increase in the full services scale and profitability. In 2011, the operating expenses of the Group were RMB220,912 million, an increase of 12.5% from 2010. The ratio of operating expenses to operating revenues was 90.2%, which slightly increased when compared to 2010.

The following table sets forth a breakdown of the operating expenses of the Group in 2010 and 2011 and their respective rates of change:

	For the year ended 31 December		Rates of
	2011	2010	Change
		(restated)	
	(RMB in millions, except percentage data)		
Depreciation and amortisation	51,224	52,215	(1.9%)
Network operations and support expenses	52,912	47,432	11.6%
Selling, general and administrative expenses	48,741	42,130	15.7%
Personnel expenses	39,167	35,529	10.2%
Other operating expenses	28,868	19,106	51.1%
Total Operating expenses	220,912	196,412	12.5%

Depreciation and Amortisation

In 2011, depreciation and amortisation was RMB51,224 million, a decrease of 1.9% from RMB52,215 million in 2010, accounting for 20.9% of our operating revenues. The decline was due to the continuous prudent control of capital expenditure by the Group.

Network Operations and Support Expenses

In 2011, network operations and support expenses were RMB52,912 million, an increase of 11.6% from RMB47,432 million in 2010, accounting for 21.6% of our operating revenues. The increase was mainly attributable to the increase in CDMA network capacity lease fee. The CDMA network capacity lease fee in 2011 amounted to RMB19,011 million, an increase of 42.7% from 2010.

Selling, General and Administrative Expenses

In 2011, selling, general and administrative expenses amounted to RMB48,741 million, an increase of 15.7% from RMB42,130 million in 2010, accounting for 19.9% of our operating revenues. The growth was mainly attributable to the increase in the deployment of selling resources so as to promote the scale development of mobile and broadband services, etc. In the meantime, the Group continued to implement stringent cost control measures on general and administrative expenses. Compared to the same period of last year, general and administrative expenses increased by 1.2%, which was lower than the rate of increase in revenues in the same period.

Personnel Expenses

In 2011, personnel expenses were RMB39,167 million, an increase of 10.2% from RMB35,529 million in 2010, accounting for 16.0% of our operating revenues. The increase in personnel expenses was mainly due to the appropriate increased efforts in motivating the talents and frontline employees.

Other Operating Expenses

In 2011, other operating expenses were RMB28,868 million, an increase of 51.1% from RMB19,106 million in 2010, accounting for 11.8% of our operating revenues. The increase was mainly attributable to the increase in the cost of mobile terminal equipment sold. The cost of mobile terminal equipment sold amounted to RMB12,866 million in 2011, an increase of 159.2% from 2010.

Net Finance Costs

In 2011, the Group's net finance costs were RMB2,254 million, a decline of 37.4% from RMB3,600 million in 2010. Net interest expenses fell by RMB1,085 million. The decrease was mainly attributable to the significant decline of the Group's interest-bearing debt. Net exchange gains were RMB51 million in 2011, while net exchange losses were RMB92 million in 2010. The change in net exchange gain/loss was mainly attributable to the appreciation of the RMB against the Japanese Yen.

Profitability Level

Income Tax

The Group's statutory income tax rate is 25%. In 2011, the Group's income tax expenses were RMB5,416 million with the effective income tax rate of 24.6%. The effective income tax rate of the Group was lower than the statutory income tax rate mainly because of the preferential income tax rate enjoyed by our branches located in special economic zones of China and some subsidiaries.

Profit Attributable To Equity Holders of the Company

In 2011, profit attributable to equity holders of the Company was RMB16,502 million, an increase of 7.5% from RMB15,347 million in 2010. Excluding the amortisation of upfront connection fees, the profit attributable to equity holders of the Company was RMB16,404 million, an increase of 10.5% from RMB14,850 million in 2010.

Capital Expenditure and Cash Flows

Capital Expenditure

In 2011, in order to promote the development and reinforce the leading advantage of broadband services, the Group continued to increase the investment in broadband network construction, and increase the penetration rate of fibre access and broadband access speed. In the meantime, the Group emphasized investment effectiveness, optimised investment structure, and effectively controlled investments in wireline voice services and infrastructure, etc. In 2011, capital expenditure of the Group was RMB49,551 million, an increase of 15.1% from RMB43,037 million in 2010.

Cash Flows

In 2011, net increase in cash and cash equivalents for the Group was RMB1,649 million, while the net decrease in cash and cash equivalents was RMB8,934 million in 2010.

The following table sets forth the cash flow position of the Group in 2010 and 2011:

	For the year ended 31 December	
	2011	2010
	<i>(RMB millions)</i>	
Net cash flow from operating activities	73,006	75,571
Net cash used in investing activities	(43,637)	(45,734)
Net cash used in financing activities	(27,720)	(38,771)
Net increase/(decrease) in cash and cash equivalents	1,649	(8,934)

In 2011, the net cash inflow from operating activities was RMB73,006 million, a decrease of RMB2,565 million from RMB75,571 million in 2010.

In 2011, the net cash outflow for investing activities was RMB43,637 million, a decrease of RMB2,097 million from RMB45,734 million in 2010, mainly resulting from an increase in proceeds from the disposal of assets compared to 2010, and the repayment of CDMA business acquisition, amounting to RMB5,374 million in 2010.

In 2011, the net cash outflow for financing activities was RMB27,720 million, a decrease of RMB11,051 million from RMB38,771 million in 2010. The decrease in net cash outflow was mainly due to the decrease in the Group's repayment of the bank loans and other loans when compared to 2010.

Working Capital

At the end of 2011, the Group's working capital (total current assets minus total current liabilities) deficit was RMB67,682 million, a reduction of deficit of RMB3,996 million from RMB71,678 million in 2010. As at 31 December 2011, the Group's unutilised committed credit facilities was RMB118,970 million (2010: RMB98,576 million). At the end of 2011, the Group's cash and cash equivalents amounted to RMB27,372 million, amongst which cash and cash equivalents denominated in Renminbi accounted for 94.4% (2010: 91.2%).

Assets and Liabilities

In 2011, the Group continued to maintain a solid capital structure. By the end of 2011, the total assets of the Group fell to RMB419,115 million from RMB420,529 million at the end of 2010, while total indebtedness decreased to RMB52,103 million from RMB73,576 million in 2010. The ratio of the Group's total indebtedness to total assets fell from 17.5% at the end of 2010 to 12.4% at the end of 2011.

Indebtedness

The indebtedness analysis of the Group as of the end of 2010 and 2011 is as follows:

	As at year ended 31 December	
	(RMB millions)	
	2011	2010
Short-term debt	9,187	20,675
Long-term debt maturing within one year	11,766	10,352
Long-term debt (excluding current portion)	31,150	42,549
Total debt	52,103	73,576

At the end of 2011, the total indebtedness of the Group was RMB52,103 million, a decrease of RMB21,473 million from the end of 2010. The main reason for the decrease was the Group's repayment of a portion of bank loans and other loans. Of the total indebtedness of the Group, the Company's loans in Renminbi, US Dollars, Japanese Yen and Euro accounted for 94.7% (2010: 96.0%), 1.3% (2010: 1.0%), 3.1% (2010: 2.2%), and 0.9% (2010: 0.8%), respectively. 96.3% (2010: 98.5%) of this indebtedness are loans with fixed interest rates, while the remainders are loans with floating interest rates.

As of 31 December 2011, the Group did not pledge any assets as collateral for debt (2010: Nil).

Most of the Group's revenue receipts from and payments made for its business were denominated in Renminbi, therefore the Group did not have significant risk exposure to foreign exchange fluctuations.

PURCHASE, SALE OR REDEMPTION OF SHARES

For the year ended 31 December 2011, neither the Company nor any of its subsidiaries has purchased, sold or redeemed any of the Company's listed shares.

AUDIT COMMITTEE

The audit committee has reviewed with the management and the Company's international auditors, KPMG, the accounting principles and practices adopted by the Group and discussed internal control and financial reporting matters (including the review of the Company's Annual Report for the year ended 31 December 2011).

COMPLIANCE WITH THE CODE ON CORPORATE GOVERNANCE PRACTICES

The Company is dedicated to enhance corporate governance. We continuously promote and improve the internal control system of the Company, improve the information disclosure, enhance transparency, continuously develop corporate governance practice and devote to protect the interest of shareholders.

The roles of Chairman and Chief Executive Officer of the Company were performed by the same individual for the year of 2011. In the Company's opinion, through supervision of the Board and the independent non-executive Directors, and effective control of the Company's internal check and balance mechanism, the same individual performing the roles of Chairman and Chief Executive Officer can achieve the goal of improving the Company's efficiency in decision-making and execution, and effectively capturing business opportunities. Many international leading corporations also have a similar arrangement.

Save as stated above, the Company has been in compliance with all the code provisions as set out in Appendix 14 Code on Corporate Governance Practices of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the Listing Rules) in the year 2011.

COMPLIANCE WITH MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted the Model Code as set out in Appendix 10 of the Listing Rules to govern securities transactions by Directors. Further to the specific enquiries made by the Company to all Directors, they have confirmed their compliance with the Model Code during their term of services in the year from 1 January 2011 to 31 December 2011.
