RISK FACTORS

Investing in our common stock being resold by the selling stockholders pursuant to this prospectus supplement involves a high degree of risk. You should carefully consider the following risk factors, as well as the other information in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference in the accompanying prospectus, and carefully read the risks described in the documents incorporated by reference in the accompanying prospectus, including those set forth under the caption "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2011, before investing in our common stock. Any of these risks could cause our actual results to vary materially from recent results or from anticipated future results or could materially and adversely affect our business, financial condition and results of operations. This effect could be compounded if multiple risks were to occur. The occurrence of any of these risks might cause you to lose all or part of your investment. Please also refer to the section above entitled "Cautionary Statement."

Risks Related to the Offering

Fluctuations in the price of our common stock, including as a result of actual or anticipated sales of shares by stockholders, may make our common stock more difficult to resell.

The market price and trading volume of our common stock have been and may continue to be subject to significant fluctuations due not only to general stock market conditions but also to a change in sentiment in the market regarding the industries in which we operate, our operations, business prospects or liquidity or this offering. During the period from January 1, 2010 to May 14, 2012, our common stock has fluctuated from a high of \$3.95 per share to a low of \$1.64 per share. In addition to the risk factors discussed in our periodic reports and in the accompanying prospectus, the price and volume volatility of our common stock may be affected by actual or anticipated sales of common stock by existing stockholders, including the sale of the resale shares by the selling stockholders, whether in the market or in subsequent public offerings. Stock markets in general have experienced extreme volatility recently that has at times been unrelated to the operating performance of particular companies. These broad market fluctuations may adversely affect the trading price of our common stock, regardless of our operating results.

As a result, these fluctuations in the market price and trading volume of our common stock may make it difficult to predict the market price of our common stock in the future, cause the value of your investment to decline and make it more difficult to resell our common stock.

USE OF PROCEEDS

We will not receive any proceeds from the sale of the resale shares by the selling stockholders.

Table of Contents**SELLING STOCKHOLDERS**

DESCRIPTION OF DEBT SECURITIES

We may issue the debt securities offered by this prospectus under an indenture to be entered into between us and a trustee to be selected by us. We have summarized certain provisions of this indenture below. The summary is not complete and is qualified in its entirety by reference to the indenture. The form of indenture is filed as an exhibit to the registration statement for these securities that we have filed with the SEC. If we elect to issue debt securities under another indenture, we will describe certain provisions of that indenture in a prospectus supplement.

When we offer to sell a particular series of debt securities, we will describe the specific terms of the securities in a prospectus supplement.

We encourage you to carefully read the summary below, the applicable prospectus supplements and the indenture.

General

Our indenture provides that we may issue debt securities in one or more series and does not limit the amount of debt securities that may be issued. The debt securities may be senior debt securities or subordinate debt securities. We will include in a supplement to this prospectus the specific terms of debt securities being offered, if any, on which debt securities may be convertible into or exchangeable for common stock or other debt securities. Unless we indicate otherwise in the applicable prospectus supplement, the debt securities will be our direct unsecured obligations. Any debt securities designated as senior will rank equally with any of our other senior and unsubordinated debt. Any debt securities designated as subordinated will be subordinate and junior in right of payment to any senior indebtedness. There may be subordinated debt securities that are senior or junior to other series of subordinated debt securities. We may also issue additional amounts of a series of debt securities without the consent of the holders of that series.

The applicable prospectus supplement will describe the terms of any series of debt securities being offered, including the following:

the title and principal amount of the series and whether the series will be senior debt securities or subordinate debt securities;

if other than U.S. dollars, the currency or currencies in which the debt securities are denominated or payable and the manner for determining the equivalent amount in U.S. dollars;

the date or dates on which the principal (and any premium) will be payable, or the method for determining these date(s);

the interest rate or rates, or the method of determining the rate or rates, at which the debt securities will bear interest;

the date or dates from which interest will accrue and the date or dates on which interest will be payable;

the place or places where payments will be made;

any provisions for redemption of the debt securities at our option;

any provisions that would obligate us to redeem or purchase the debt securities pursuant to any sinking fund or analogous provisions or at the option of a holder;

the portion of the principal amount that will be payable upon acceleration of stated maturity, if other than the entire principal amount;

whether we will issue the debt securities in the form of global securities, the depositary for global securities and provisions for depositary arrangements and other applicable terms;

Table of Contents

whether we will pay any additional amounts on the debt securities in respect of any tax, assessment or governmental charge and, if so, whether we will have the option to redeem the debt securities rather than pay those additional amounts;

any provision that would determine payments on the debt securities by reference to an index;

the person to whom we will pay any interest, if other than the record holder on the applicable record date;

the manner in which any interest payable on any temporary global security will be paid on an interest payment date;

any changes in or additions to the events of default or covenants contained in the indenture;

any defeasance or covenant defeasance provisions;

any conversion or exchange features of the debt securities;

whether the debt securities are senior or subordinated and the terms of subordination applicable to any series of subordinated debt securities;

the identity of the trustee, authenticating agent, security registrar and/or paying agent, if other than the trustee;

whether the debt securities will be secured or unsecured and the terms of any security arrangements; and

any other terms of the debt securities (which will not conflict with the terms of the indenture).

We may sell the debt securities, including original issue discount securities, at a substantial discount below their stated principal amount. If there are any material special U.S. federal income tax considerations or other material special considerations applicable to debt securities we sell at an original issue discount, we will describe them in the applicable prospectus supplement. In addition, we will describe in the applicable prospectus supplement any material special U.S. federal income tax considerations and any other material special considerations for any debt securities we sell which are denominated in a currency or currency unit other than U.S. dollars.

Form and Denominations

Unless we indicate otherwise in the applicable prospectus supplement, debt securities issued as registered securities will be denominated in U.S. dollars in multiples of \$1,000. The indenture provides that we may issue debt securities in global form and in any denomination. Please see Global Securities below.

Registration, Transfer and Exchange

A holder may exchange registered debt securities for other registered debt securities of the same series, in authorized denominations and with the same principal amount and terms. Debt securities may be exchanged, and a transfer of registered debt securities may be registered, at the office of the security registrar. We may also designate a transfer agent for this purpose for any series of debt securities. No service charge will be made for any exchange or transfer, but payment of any taxes or other governmental charges will be required. We may change the place for exchange and registration of transfer, and may rescind any designation of a transfer agent, at any time. If debt securities of a series are issuable in registered form, we will be required to maintain a transfer agent in each place of payment for that series. We may at any time designate

additional transfer agents with respect to any series of debt securities.

If debt securities of a particular series are to be redeemed, we will not be required to issue, exchange or register the transfer of:

any debt securities of that series, during a period beginning 15 days before selection of debt securities to be redeemed and ending at the close of business on the day the redemption notice is mailed; or

Table of Contents

any registered debt security selected for redemption, except the unredeemed portion of any debt security being redeemed in part.

Global Securities

We may issue one or more series of the debt securities in the form of global securities that will be deposited with a depository. This means that we will not issue certificates to each holder of debt securities of that series. Instead, one or more global securities will be issued to the depository, which will keep a computerized record of its participants (for example, your broker) whose clients have purchased these debt securities. The participant will then keep a record of its clients who purchased these debt securities.

Beneficial interests in global securities will be shown on, and transfers of those interests will be made only through, records maintained by the depository and its participants. We will make payments on the debt securities represented by a global security only to the depository, as the registered holder of these debt securities. All payments to the participants are the responsibility of the depository, and all payments to the beneficial holders of the debt securities are the responsibility of the participants.

Certificates for the debt securities of the series in question may be issued to beneficial holders in some circumstances, including termination of the depository arrangements by us or the depository.

If debt securities are to be issued as global securities, the prospectus supplement will name the depository and will describe the depository arrangements and other applicable terms.

Payment and Paying Agents

Unless otherwise indicated in the applicable prospectus supplement, payments for registered debt securities will be made at the office of the trustee in New York, New York. However, we may choose instead to pay principal by check to the registered owner against surrender of the debt securities or to pay interest on registered debt securities by (i) check mailed to the address of the registered owner or (ii) transfer to an account located in the United States maintained by the registered owner. Unless otherwise indicated in the applicable prospectus supplement, each interest payment on registered debt securities will be made to the person in whose name the debt security is registered at the close of business on the regular record date for the interest payment.

We may from time to time designate additional offices or agencies for payment with respect to any debt securities, approve a change in the location of any such office or agency and, except as provided above, rescind the designation of any such office or agency.

Payments on any debt securities that are payable in a currency other than dollars may be made in dollars in certain circumstances when that currency is no longer used. The prospectus supplement for any such debt securities will describe the circumstances in which this will occur.

Any moneys we deposit with the trustee or paying agent for the payment of principal (or premium, if any) or interest, if any, on any debt security that remains unclaimed at the end of two years after the payment is due and payable will be repaid to us upon our request. Thereafter, the holder of the debt security will look only to us for that payment.

Covenants

Any covenants pertaining to a series of debt securities will be set forth in a prospectus supplement relating to such series of debt securities. Except for covenants applicable to debt securities as described in the applicable prospectus supplement, there are no covenants or other provisions contained in the indenture that may afford holders of debt securities protection if there is a leveraged buyout or other highly leveraged transaction involving us.

Table of Contents

Consolidation, Merger and Sale of Assets

We may consolidate with or merge into any other corporation, or convey or transfer our properties and assets substantially as an entirety to any other entity, so long as certain specified conditions are met, including:

the corporation surviving the merger or consolidation, or which acquires the assets, is organized under the laws of the United States, or any state of the United States, and expressly assumes our obligations under the indenture; and

after giving effect to the transaction, there is no event of default under the indenture (as defined below) or event which, after notice or lapse of time or both, would become an event of default.

The successor corporation formed by the consolidation or merger, or to which the conveyance or transfer is made, shall succeed to and be substituted for us under the indenture and thereafter we will be relieved of all obligations and covenants under the indenture, the debt securities.

Covenant Defeasance

The prospectus supplement will state whether the indenture's covenant defeasance provisions apply to the series of debt securities being offered. If these provisions apply, (i) we may omit to comply with certain covenants and (ii) the noncompliance will not be deemed to be an event of default under the indenture and the debt securities, if we irrevocably deposit with the trustee, in trust, sufficient money or U.S. government securities to pay the principal of (and premium, if any), interest, if any, and any other sums payable on the debt securities when due. We must also deliver to the trustee an opinion of counsel to the effect that the holders of the debt securities will not recognize income, gain or loss for federal income tax purposes as a result of the deposit and defeasance of certain obligations and will be subject to the same federal income tax consequences as if the deposit, defeasance and discharge had not occurred. Our obligations under the indenture and debt securities, other than with respect to the relieved covenants referred to above, and the events of default, other than the relieved event of default referred to above, will remain in full force and effect.

Modification of Indenture and Waiver of Certain Covenants

Without the consent of the holders of the debt securities of each series affected, we and the trustee may execute a supplemental indenture for limited purposes, including adding to our covenants or events of default, curing ambiguities, appointing a successor trustee and other changes that do not adversely affect the rights of a holder of debt securities.

With the consent of the holders of a majority in principal amount of the outstanding debt securities of each series affected, we and the trustee may also execute a supplemental indenture to change the indenture or modify the rights of the holders of debt securities of any series. However, the consent of the holder of each outstanding debt security affected is required for execution of a supplemental indenture that would (i) change the maturity of principal or interest, if any, on any debt security, reduce the amount of any principal, premium or interest payment, change the currency in which any debt security is payable or impair the right to bring suit to enforce any payment rights, or (ii) reduce the percentage of holders of debt securities of the series whose consent is required to authorize the supplemental indenture.

The holders of a majority of the outstanding principal amount of the debt securities of any series may waive our compliance with certain covenants in the indenture with respect to that series.

The indenture contains provisions for determining whether the holders of the requisite percentage of outstanding principal amount of a series of debt securities have given any request, demand, authorization, direction, notice, consent or waiver, in cases where debt securities were issued at a discount, or where the principal amount was denominated in a foreign currency. In addition, for these purposes, debt securities owned by us or our affiliates are deemed not to be outstanding.

Table of Contents

Defaults and Certain Rights on Default

An event of default with respect to any series of debt securities is defined in the indenture as any of the following events:

failure to pay any interest on the debt securities of the series for 30 days after it is due;

failure to pay principal of (and premium, if any, on) the debt securities of the series when due, whether at maturity, upon acceleration or upon redemption;

failure to perform any other covenant in the indenture for 90 days after notice;

certain events of bankruptcy, insolvency, receivership or reorganization relating to us; or

any other event of default made applicable to a particular series of debt securities and described in the applicable prospectus supplement for that series.

An event of default for a particular series of debt securities does not necessarily constitute an event of default for any other series. We are required to deliver to the trustee annually a written statement as to the fulfillment of our obligations under the indenture.

If an event of default for any series of debt securities occurs and continues, the trustee or the holders of at least 25% of the outstanding principal amount of the debt securities of the series may declare the principal amount of all the debt securities of the series to be immediately due and payable. The declaration may, under certain circumstances, be rescinded by the holders of a majority of the outstanding principal amount of the debt securities of the series.

Other than its duties in case of an event of default, the trustee is not obligated to exercise any of its rights or powers under the indenture at the request of any of the holders of debt securities, unless the holders offer to the trustee reasonable security or indemnity. If they provide this reasonable security or indemnity, subject to certain limitations described in the indenture, the holders of a majority of the outstanding principal amount of the debt securities of any series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee. The holders of a majority of the outstanding principal amount of the debt securities of any series may waive any past default with respect to debt securities of the series except a default in payment on any of the debt securities of the series or a default with respect to a covenant that cannot be modified without the consent of the holder of each debt security affected.

Conversion Rights

If applicable, the terms of debt securities of any series that is convertible into or exchangeable for our common stock or other securities or property will be described in an applicable prospectus supplement. These terms will describe whether conversion or exchange is mandatory, at the option of the holder or at our option. These terms may include provisions pursuant to which the number of shares of our common stock or other securities or property to be received by the holders of debt securities would be subject to adjustment.

Governing Law

The indenture and the debt securities will be governed by and construed in accordance with the laws of the State of New York.

DESCRIPTION OF CAPITAL STOCK

The following description of our capital stock, as amended or superseded by any applicable prospectus supplement, includes a summary of certain provisions of our restated certificate of incorporation and our amended bylaws. This description is subject to the detailed provisions of, and is qualified by reference to, our restated certificate of incorporation and our amended bylaws, copies of which have been incorporated by reference as exhibits to the registration statement of which this prospectus is a part.

We are authorized to issue (1) 250,000,000 shares of common stock, with a par value of \$0.001 per share, of which 46,452,726 shares were outstanding as of March 15, 2012 and (2) 50,000,000 shares of preferred stock, with a par value of \$0.001 per share, of which 1,000,000 shares are designated as Series A convertible preferred stock and 176,756 shares were outstanding as of March 31, 2012. The authorized shares of our common stock and preferred stock are available for issuance without further action by our stockholders, unless the action is required by applicable law or the rules of any stock exchange or automated quotation system on which our securities may be listed or traded. If the approval of our stockholders is not so required, our board of directors may determine not to seek stockholder approval.

Certain of the provisions described below could have the effect of discouraging transactions that might lead to a change of control of us. These provisions:

establish a classified board of directors whereby our directors are divided into three classes, nearly equal in number as possible, and elected for staggered three-year terms in office so that only a portion of our directors stand for election in any one year;

require stockholders to provide advance notice of any stockholder nominations of directors or any proposal of new business to be considered at any meeting of stockholders;

require a supermajority vote to remove a director or to amend or repeal certain provisions of our restated certificate of incorporation; and

preclude stockholders from amending our bylaws or calling a special meeting of stockholders.

Common Stock

Dividends. Holders of common stock are entitled to such dividends as may be declared by our board of directors out of funds legally available therefor. Dividends may not be paid on common stock unless all accrued dividends on preferred stock, if any, have been paid or set aside. In the event of our liquidation, dissolution or winding-up, the holders of common stock will be entitled to share pro rata in the assets remaining after payment to creditors and after payment of the liquidation preference plus any unpaid dividends to holders of any outstanding preferred stock.

Voting. Each holder of common stock is entitled to one vote for each such share outstanding in the holder's name. No holder of common stock is entitled to cumulate votes in voting for directors.

Other Rights. Our restated certificate of incorporation provides that, unless otherwise determined by our board of directors, no holder of shares of common stock will have any right to purchase or subscribe for any stock of any class that we may issue or sell.

Preferred Stock

General. Our restated certificate of incorporation permits us to issue up to 50,000,000 shares of our preferred stock in one or more series and with rights and preferences that may be fixed or designated by our board of directors without any further action by our stockholders. The designations and the relative rights, preferences and limitations of the preferred stock of each series will be fixed by an amendment to our restated certificate of incorporation relating to each series adopted by our board, including:

the maximum number of shares in the series and the distinctive designation;

Table of Contents

the terms on which dividends, if any, will be paid;

the terms on which the shares may be redeemed, if at all, including any restrictions on the repurchase or redemption of such shares by us while there is an arrearage in the payment of dividends or sinking fund installments if applicable;

the terms of any sinking fund for the purchase or redemption of the shares of the series;

the amounts payable on shares in the event of liquidation, dissolution or winding up;

the terms and conditions, if any, on which the shares of the series shall be convertible into our shares of any other class or series or any other securities of ours or of any other corporation;

the restrictions on the issuance of shares of the same series or any other class or series; and

the voting rights, if any, of the shares of the series.

Although our board of directors has no intention at the present time of doing so, it could issue a series of preferred stock that could, depending on the terms of the series, impede the completion of a merger, tender offer or other takeover attempt.

Series A Convertible Preferred Stock

General. Our Certificate of Designation of Series A Convertible Preferred Stock, authorizes us to issue up to 1,000,000 shares designated as Series A Convertible Preferred Stock. Holders of Series A convertible preferred stock are entitled, in preference to holders of common stock, to such dividends as the board of directors may declare out of funds legally available for the purpose and payments upon our dissolution, liquidation and winding-up of ORBCOMM.

Dividends. Holders of the Series A convertible preferred stock are entitled to receive a cumulative 4% dividend annually (calculated on the basis of the redemption price of \$10.00 per share) payable quarterly in additional shares of the Series A convertible preferred stock.

Conversion. Shares of the Series A convertible preferred stock are convertible into 1.66611 shares of common stock: (1) at the option of the holder at any time or (2) at our option beginning six months from the issuance date and if the average closing market price for our common stock for the preceding twenty consecutive trading days equals or exceeds \$11.20 per share.

Voting. Each share of the Series A convertible preferred stock is entitled to one vote for each share of common stock into which the preferred stock is convertible.

Liquidation. In the event of any liquidation, sale or merger of ORBCOMM, the holders of the Series A convertible preferred stock are entitled to receive prior to and in preference over the common stock, an amount equal to \$10.00 per share plus unpaid dividends.

Redemption. The Series A convertible preferred stock may be redeemed by us for an amount equal to the issuance price of \$10.00 per share plus all unpaid dividends at any time after two years from the issuance date.

No Sinking Fund. The shares of the Series A convertible preferred stock will not be entitled to benefit of any sinking or purchase fund to applied to the redemption to purchase of such stock.

Other. The affirmative vote or written consent of the holders of at least two-thirds (2/3) of the aggregate number of shares at the time outstanding of the Series A convertible preferred stock is required for us to authorize, create or increase any capital stock ranking equal or prior to the Series A convertible preferred stock as to dividends or liquidation rights, or change any of the powers, preferences or rights given to the Series A convertible preferred stock to adversely affect it.

Certain Provisions in our Restated Certificate of Incorporation and Amended Bylaws

Our restated certificate of incorporation and amended bylaws contain various provisions intended to (1) promote the stability of our stockholder base and (2) render more difficult certain unsolicited or hostile attempts to take us over which could disrupt us, divert the attention of our directors, officers and employees and adversely affect the independence and integrity of our business.

Classified Board of Directors. Pursuant to our restated certificate of incorporation and amended bylaws the number of directors is fixed by our board of directors. Other than directors elected by the holders of any series of preferred stock or any other series or class of stock except common stock, our directors are divided into three classes. Each class consists as nearly as possible of one third of the directors. Directors elected by stockholders at an annual meeting of stockholders will be elected by a plurality of all votes cast. The terms of office of the three classes of director will expire, respectively, at our annual meetings in 2012, 2013 and 2014. The term of the successors of each such class of directors will expire three years from the year of election.

Removal of Directors; Vacancies. Under Delaware law, unless otherwise provided in our restated certificate of incorporation, directors serving on a classified board of directors may be removed by the stockholders only for cause. Our restated certificate of incorporation provides that directors may be removed only for cause upon the affirmative vote of holders of 75% of the voting power of all the then outstanding shares of capital stock entitled to vote generally in the election of directors, voting together as a single class.

Our restated certificate of incorporation provides that any vacancy created by removal of a director shall be filled by a majority of the remaining members of the board of directors even though such majority may be less than a quorum.

Special Meetings; Written Consent. Our restated certificate of incorporation and amended bylaws provide that a special meeting of stockholders may be called only by a resolution adopted by a majority of the entire board of directors. Stockholders are not permitted to call, or to require that the board of directors call, a special meeting of stockholders. Moreover, the business permitted to be conducted at any special meeting of stockholders will be limited to the business brought before the meeting pursuant to the notice of the meeting given by us. In addition, our amended and restated certificate provides that any action taken by our stockholders must be effected at an annual or special meeting of stockholders and may not be taken by written consent instead of a meeting. Our amended bylaws establish an advance notice procedure for stockholders to nominate candidates for election as directors or to bring other business before meetings of our stockholders.

Our restated certificate of incorporation provides that the affirmative vote of at least 66-2/3 % of the voting power of all of our outstanding capital stock entitled to vote generally in the election of directors, voting together as a single class, would be required to amend or repeal the provisions of our restated certificate of incorporation with respect to:

the election of directors;

the right to call a special meeting of stockholders;

the right to act by written consent;

amending our restated certificate of incorporation or amended bylaws; or

the right to adopt any provision inconsistent with the preceding provisions.

In addition, our restated certificate of incorporation provides that our board of directors may make, alter, amend and repeal our amended bylaws and that the amendment or repeal by stockholders of any of our amended bylaws would require the affirmative vote of at least 66-2/3% of the voting power described above, voting together as a single class.

Delaware Takeover Statute

We are subject to Section 203 of the Delaware General Corporation Law, which, subject to certain exceptions, prohibits a Delaware corporation from engaging in any business combination (as defined below) with any interested stockholder (as defined below) for a period of three years following the date that such stockholder became an interested stockholder, unless: (1) prior to such date, the board of directors of the corporation approved either the business combination or the transaction that resulted in the stockholder becoming an interested stockholder; (2) on consummation of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, excluding for purposes of determining the number of shares outstanding those shares owned (x) by persons who are directors and also officers and (y) by employee stock plans in which employee participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer; or (3) on or subsequent to such date, the business combination is approved by the board of directors and authorized at an annual or special meeting of stockholders, and not by written consent, by the affirmative vote of at least 66-2/3% of the outstanding voting stock that is not owned by the interested stockholder.

Section 203 of the Delaware General Corporation Law defines business combination to include: (1) any merger or consolidation involving the corporation and the interested stockholder; (2) any sale, transfer, pledge or other disposition of 10% or more of the assets of the corporation involving the interested stockholder; (3) subject to certain exceptions, any transaction that results in the issuance or transfer by the corporation of any stock of the corporation to the interested stockholder; (4) any transaction involving the corporation that has the effect of increasing the proportionate share of the stock of any class or series of the corporation beneficially owned by the interested stockholder; or (5) the receipt by the interested stockholder of the benefit of any loans, advances, guarantees, pledges or other financial benefits provided by or through the corporation. In general, Section 203 defines an interested stockholder as any entity or person beneficially owning 15% or more of the outstanding voting stock of the corporation and any entity or person affiliated with or controlling or controlled by such entity or person.

The foregoing summary is qualified in its entirety by the provisions of our restated certificate of incorporation and amended bylaws, copies of which have been filed with the SEC.

Transfer Agent and Registrar

Computershare (successor to The Bank of New York Mellon's Shareowner Services business) is the transfer agent and registrar for our common stock and our Class A convertible preferred stock. The transfer agent for any other series of preferred stock that we may offer under this prospectus will be named and described in the prospectus supplement for that series.

The unit agreement under which a unit is issued may provide that the securities included in the unit may not be held or transferred separately, at any time or at any time before a specified date.

SELLING STOCKHOLDERS

This prospectus also relates to the possible resale by certain of our stockholders, whom we refer to as the selling stockholders in this prospectus, of up to 910,000 shares of our common stock issued in private placements in connection with our acquisitions of (1) the business of PAR Logistics Management Systems Corporation on January 12, 2012 and (2) the remaining 48% equity interest in Satcom International Group plc, a majority owned subsidiary of ours, not previously owned by us (other than a 0.12% equity interest held by a Satcom shareholder that is no longer in existence) on March 28, 2012.

Information about the selling stockholders, where applicable, who offer securities under the registration statement of which this prospectus is a part will be set forth in the prospectus supplements, post-effective amendments and/or filings we make with the SEC under the Exchange Act that are incorporated herein by reference. The prospectus supplement for any offering by the selling stockholders of shares of common stock will include the following information:

the name of each participating selling stockholder;

the nature of any position, office or other material relationship which each selling stockholder has had within the past three years with us or any of our predecessors or affiliates;

the number of shares of common stock held by each selling stockholder prior to the offering;

the number of shares of common stock to be offered for each selling stockholder's account; and

the number and, if applicable, the percentage of shares of common stock held by each of the selling stockholders after the offering. The selling stockholders may not sell any shares of our common stock pursuant to this prospectus until we have identified such selling stockholders and the shares being offered for resale by such selling stockholders in a subsequent prospectus supplement. The selling stockholders, however, may sell or transfer all or a portion of their shares of our common stock pursuant to any available exemption from the registration requirements of the Securities Act.

Sales through Underwriters or Dealers

Underwriters or the third parties described above may offer and sell the offered securities from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. If underwriters are used in the sale of any securities, the securities will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions described above. The securities may be either offered to the public through underwriting syndicates represented by managing underwriters, or directly by underwriters. Generally, the underwriters' obligations to purchase the securities will be subject to certain conditions precedent. The underwriters will be obligated to purchase all of the securities if they purchase any of the securities unless otherwise specified in the applicable prospectus supplement in connection with any particular offering of securities.

During and after an offering through underwriters, the underwriters may purchase and sell the securities in the open market. These transactions may include short sales, over-allotment and stabilizing transactions and purchases to cover positions created by short sales. The underwriters may also impose a penalty bid, which means that selling concessions allowed to syndicate members or other broker-dealers for the offered securities sold for their account may be reclaimed by the syndicate if the offered securities are repurchased by the syndicate in stabilizing or covering transactions. These activities may stabilize, maintain or otherwise affect the market price of the offered securities, which may be higher than the price that might otherwise prevail in the open market. If commenced, the underwriters may discontinue these activities at any time.

Some or all of the securities that we offer through this prospectus may be new issues of securities with no established trading market. Any underwriters to whom we sell the offered securities for public offering and sale may make a market in those securities, but they will not be obligated to do so and they may discontinue any market making at any time without notice. Accordingly, we cannot assure you of the liquidity of, or continued trading markets for, any securities that we offer.

We or the selling stockholders may sell some or all of the securities covered by this prospectus through:

purchases by a dealer, as principal, who may then resell those securities to the public for its account at varying prices determined by the dealer at the time of resale;

block trades in which a dealer will attempt to sell as agent, but may position or resell a portion of the block, as principal, in order to facilitate the transaction; or

ordinary brokerage transactions and transactions in which a broker-dealer solicits purchasers.

Direct Sales and Sales through Agents

We or the selling stockholders may sell the securities directly. Direct sales to investors may be accomplished through subscription offerings or through subscription rights distributed to our stockholders. In connection with subscription offerings or the distribution of subscription rights to stockholders, if all of the underlying offered securities are not subscribed for, we may sell such unsubscribed offered securities to third parties directly and, in addition, whether or not all of the underlying offered securities are subscribed for, we may concurrently offer additional offered securities to third parties directly.

If indicated in an applicable prospectus supplement, we or the selling stockholders may sell the securities through agents from time to time, which agents may be affiliated with us or the selling stockholders. The applicable prospectus supplement will name any agent involved in the offer or sale of the securities and any commissions we or the selling stockholders pay to them. Generally, any agent will be acting on a best efforts basis for the period of its appointment, unless otherwise specified in the applicable prospectus supplement.
