Documents	Description
99.1	Material Change Report of the registrant dated October 17, 2012.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

AETERNA ZENTARIS INC.

Date: October 17, 2012

By: /s/ Dennis Turpin
Dennis Turpin
Senior Vice President and Chief Financial Officer

TYLE="font-family:Times New Roman" SIZE="2"> 96.2%

Income from equity investees

121.9 113.6 1.2% 1.1%

Operating income

\$562.0 \$503.9 5.7% 4.9%

Supplemental ratios as a % of related revenues:

Store operating expenses

41.9% 42.7%

Other operating expenses

16.6% 20.5%

Cost of sales including occupancy costs decreased as a percentage of revenues primarily due to the implementation of in-store operational efficiencies designed to reduce product waste, and due to lower dairy costs in the US, partially offset by higher coffee costs.

Store operating expenses as a percentage of company-operated retail revenues decreased primarily due to reduced headcount and spending in the regional support organization as a result of our restructuring efforts, and the effect of initiatives to improve store labor efficiencies.

Restructuring charges include lease exit and related costs associated with the actions to rationalize our global store portfolio and reduce the global cost structure.

Operating margin expansion was primarily due to the improved labor efficiency and reduced product waste in company-operated stores, partially offset by increased restructuring charges.

Fiscal Year Ended	Sep 27, 2009	Sep 28, 2008	Sep 27, 2009	Sep 28, 2008
	% of Total Net Revenues			
Operating income	\$ 562.0	\$ 503.9	5.7%	4.9%
Interest income and other, net	37.0	5.2	0.4%	0.1%
Interest expense	(39.1)	(53.4)	(0.4)%	(0.5)%

Edgar Filing: Aeterna Zentaris Inc. - Form 6-K

Earnings before income taxes	559.9	455.7	5.7%	4.4%
Income taxes	168.4	144.0	1.7%	1.4%
Net earnings including noncontrolling interests	391.5	311.7	4.0	3.0
Net earnings (loss) attributable to noncontrolling interests	0.7	(3.8)	0	0
Net earnings attributable to Starbucks	\$ 390.8	\$ 315.5	4.0%	3.0%
Effective tax rate including noncontrolling interests			30.1%	31.6%

Net interest income and other increased due primarily to the impact of foreign currency fluctuations on certain balance sheet amounts. Also contributing to the increase were lower unrealized market value losses on our trading securities portfolio compared to fiscal 2008. Interest expense decreased due to a lower average balance of short term borrowings and lower average short term borrowing rates in fiscal 2009 compared to the prior year. At the end of fiscal 2009, we had no short term debt.

The relatively low 2009 effective tax rate was primarily due to a tax benefit recognized for retroactive tax credits and an income tax credit related to the settlement of an employment tax audit in fiscal 2009. As a result of the audit settlement, approximately \$17 million of expense was recorded in store operating expenses, with an offsetting income tax credit and no impact to net earnings.

Table of Contents*United States*

Fiscal Year Ended	Sep 27,	Sep 28,	Sep 27,	Sep 28,
	2009	2008	2009	2008
As a % of US Total Net Revenues				
Total net revenues	\$ 7,061.7	\$ 7,491.2	100.0%	100.0%
Cost of sales including occupancy costs	\$ 2,941.4	\$ 3,184.1	41.7%	42.5%

Income from equity investees	0.5	(1.3)	0.0%	0.0%
Operating income	\$ 530.1	\$ 454.0	7.5%	6.1%

Supplemental ratios as a % of related revenues:

Store operating expenses	42.8%	44.0%
Other operating expenses	13.6%	19.4%

Company-operated retail revenues decreased year over year primarily due to a 6% decrease in comparable store sales, comprised of a 4% decrease in transactions, and a 2% decrease in average value per transaction.

Operating margin expanded primarily due to lower store operating expenses, lower cost of sales including occupancy costs, and lower other operating expenses as a percentage of total revenues. This improvement was primarily due to operational changes designed to improve labor efficiency and reduce product waste in company-operated stores, and to lower non-store support costs. Partially offsetting the favorability were higher restructuring charges during the year. We incurred higher lease exit and related costs due to the higher number of actual store closures compared to the prior year period.

International

Fiscal Year Ended	Sep 27,	Sep 28,	Sep 27,	Sep 28,
	2009	2008	2009	2008
As a % of International Total Net Revenues				
Total net revenues	\$ 1,914.3	\$ 2,099.6	100.0%	100.0%
Cost of sales including occupancy costs	\$ 961.3	\$ 1,052.8	50.2%	50.1%
Store operating expenses	610.0	664.2	31.9%	31.6%
Other operating expenses	71.2	87.3	3.7%	4.2%

Restructuring charges	27.0	19.3	1.4%	0.9%
Total operating expenses	1,876.7	2,045.0	98.0%	97.4%
Income from equity investees	53.6	54.2	2.8%	2.6%
Operating income	\$ 91.2	\$ 108.8	4.8%	5.2%

Supplemental ratios as a % of related revenues:

Edgar Filing: Aeterna Zentaris Inc. - Form 6-K

Store operating expenses	37.9%	37.4%
Other operating expenses	23.2%	26.8%

Table of Contents

Company-operated retail revenues decreased primarily due to unfavorable foreign currency exchange rates, particularly for the British pound and Canadian dollar. Partially offsetting the decrease were the net new store openings during the fiscal year.

Specialty revenues decreased primarily due to continued softness in the hospitality industry and unfavorable foreign currency exchange rates.

Operating margin decreased primarily due to higher restructuring charges and higher store operating expenses as a percentage of total revenues. Restructuring charges of \$27.0 million recognized during the year had a 50 basis point impact on operating margin compared to the prior year, due to the previously announced store closures. Higher store operating expenses as of percentage of company-operated retail revenues were driven by an increase in store impairment charges and a decline in sales leverage impacting salaries and benefits. Partially offsetting the decrease in operating margin were lower other operating expenses due to headcount reductions in the non-store support functions.

Global Consumer Products Group

Fiscal Year Ended	Sep 27,	Sep 28,	Sep 27,	Sep 28,
	2009	2008	2009	2008
	As a % of CPG Total Net Revenues			
Total specialty	\$ 674.4	\$ 680.9	100.0%	100.0%
Cost of sales	\$ 350.5	\$ 344.5	52.0%	50.6%
Other operating expenses	95.3	113.8	14.1%	16.7%
Depreciation and amortization expenses	4.8	5.4	0.7%	0.8%
General and administrative expenses	8.8	7.9	1.3%	1.2%
Restructuring charges	1.0	0.0	0.1%	0.0%
Total operating expenses	460.4	471.7	68.3%	69.3%
Income from equity investees	67.8	60.7	10.1%	8.9%
Operating income	\$ 281.8	\$ 269.9	41.8%	39.6%

Total net revenues increased primarily due to higher revenues from packaged coffees, partially offset by lower foodservice revenues caused by continued softness in the hospitality industry.

Growth of operating margin was primarily due to lower other operating expenses in the foodservice business due to lower compensation costs and lower marketing expenses.

Other

Fiscal Year Ended	Sep 27,	Sep 28,	%
	2009	2008	Change
Total specialty revenues	\$ 124.2	\$ 111.3	11.6%

Restructuring charges	58.1	36.7	58.5%
Total operating expenses	465.3	440.1	5.7%
Operating loss	\$ (341.1)	\$ (328.8)	3.7%

Edgar Filing: Aeterna Zentaris Inc. - Form 6-K

Substantially all of net revenues in Other are generated from the Seattle's Best Coffee operating segment. The increase in revenues for Seattle's Best Coffee was primarily due to the increase in points of distribution for Seattle's Best Coffee including sales to new national accounts. Total operating expenses increased \$25.2 million primarily as a result of increased restructuring activities within the non-store support organization.

Table of Contents**SUMMARIZED QUARTERLY FINANCIAL INFORMATION (unaudited, in millions, except EPS)**

	First	Second	Third	Fourth	Total
2010:

⁽¹⁾ Includes pretax restructuring charges of \$18.3 million, \$7.9 million, \$20.4 million and \$6.4 million for the first, second, third and fourth fiscal quarters respectively.

⁽²⁾ Includes pretax restructuring charges of \$75.5 million, \$152.1 million, \$51.6 million and \$53.2 million for the first, second, third and fourth fiscal quarters respectively.

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

Starbucks cash and short-term investments were \$1.4 billion and \$666 million as of October 3, 2010 and September 27, 2009, respectively. We actively manage our cash and short-term investments in order to internally fund operating needs, make scheduled interest and principal payments on our borrowings, and return cash to shareholders through common stock dividend payments and share repurchases. Our short-term investments consisted predominantly of US Treasury and US Agency securities.

Our portfolio of long-term available for sale securities consists predominantly of high investment-grade corporate bonds, diversified among industries and individual issuers. We also have investments in auction rate securities (ARS), nearly all of which are classified as long-term. ARS totaling \$41 million and \$56 million were outstanding as of October 3, 2010 and September 27, 2009, respectively. The reduction in ARS was due to \$12 million in redemptions during the fiscal year with all redemptions done at par. While the ongoing auction failures will limit the liquidity of these ARS investments for some period of time, we do not believe the auction failures will materially impact our ability to fund our working capital needs, capital expenditures, shareholder dividends or other business requirements.

Starbucks \$1 billion unsecured credit facility (the 2005 credit facility) was available for working capital, capital expenditures, and other corporate purposes. In November of 2010, subsequent to the end of the 2010 fiscal year, we replaced the 2005 credit facility, which was scheduled to mature in August 2011. The new credit facility is described in more detail below. The 2005 credit facility was paired with a commercial paper program whereby we could issue unsecured commercial paper notes, up to a maximum amount outstanding at any time of \$1 billion. The commercial paper program was secured by the credit facility, and the combined borrowing limit was \$1 billion for the commercial paper program and the credit facility. During fiscal 2010 and 2009, there were no borrowings under the 2005 credit facility or commercial paper program. As of October 3, 2010, a total of \$15 million in letters of credit were outstanding under our revolving credit facility.

The 2005 credit facility contained provisions requiring us to maintain compliance with certain covenants, including a minimum fixed charge coverage ratio. As of October 3, 2010 and September 27, 2009, we were in compliance with each of these covenants. The \$550 million of 10-year 6.25% Senior Notes also require us to maintain compliance with certain covenants, including limits on future liens and sale and leaseback transactions on certain material properties. As of October 3, 2010 and September 27, 2009, we were in compliance with each of these covenants.

In November of 2010, subsequent to the end of the 2010 fiscal year, we replaced the 2005 credit facility with a \$500 million unsecured credit facility (the 2010 credit facility) with various banks, of which \$100 million may be

Table of Contents

used for issuances of letters of credit. The 2010 credit facility is available for working capital, capital expenditures and other corporate purposes, including acquisitions and share repurchases. The new 2010 credit facility is currently set to mature in November 2014. The interest rate for any borrowings under the credit facility, based on Starbucks current ratings and fixed charge coverage ratio, is 1.50% over LIBOR. The specific spread over LIBOR will depend upon our long-term credit ratings assigned by Moody's and Standard & Poor's rating agencies and our fixed charge coverage ratio. The credit facility contains provisions requiring us to maintain compliance with certain covenants, including a minimum fixed charge coverage ratio which measures our ability to cover financing expenses. Starbucks has the option, subject to negotiation and agreement with the related banks, to increase the maximum commitment amount by an additional \$500 million. Under Starbucks commercial paper program we may issue unsecured commercial paper notes, up to a maximum aggregate amount outstanding at any time of \$500 million, with individual maturities that may vary, but not exceed 397 days from the date of issue. The program is backstopped by the 2010 credit facility, and the combined borrowing limit is \$500 million for the commercial paper program and the credit facility. Starbucks may issue commercial paper from time to time, and the proceeds of the commercial paper financing will be used for working capital needs, capital expenditures and other corporate purposes, including acquisitions and share repurchases.

We expect to use our cash and short-term investments, including any potential future borrowings under the credit facility and commercial paper program, to invest in our core businesses, including new product innovations and related marketing support, as well as other new business opportunities related to our core businesses. We believe that cash flow generated from operations and existing cash and short-term investments should be sufficient to finance capital requirements for our core businesses as well as shareholder distributions for the foreseeable future. We may use our available cash resources to make proportionate capital contributions to our equity method and cost method investees. Any decisions to increase ownership interest in our equity method investees or licensed operations will be driven by valuation and fit with our ownership strategy. Significant new joint ventures, acquisitions and/or other new business opportunities may require additional outside funding.

Other than normal operating expenses, cash requirements for fiscal 2011 are expected to consist primarily of capital expenditures for remodeling and refurbishment of, and equipment upgrades for, existing company-operated retail stores; systems and technology investments in the stores and in the support infrastructure; and new company-operated retail stores. Total capital expenditures for fiscal 2011 are expected to range from \$550 million to \$600 million.

In March 2010, Starbucks declared its first ever cash dividend to shareholders at \$0.10 per share. This quarterly dividend was paid on April 23, 2010. The third quarter dividend was raised to \$0.13 per share and was paid on August 20, 2010, bringing the total cash dividend payout for fiscal 2010 to \$171 million. On September 14, 2010, we declared a cash dividend of \$0.13 per share to be paid on December 3, 2010 with an expected payout of \$97 million. Starbucks repurchased 11 million shares of common stock (\$286 million) during fiscal 2010 under share repurchase authorizations. The number of remaining shares authorized for repurchase at the end of the fiscal year totaled 10 million. Subsequent to year end, on November 15, 2010 we announced an additional share repurchase authorization made by the Board of Directors in the amount of up to 10 million shares in addition to the 10 million remaining under the previous authorization.

Cash provided by operating activities was \$1.7 billion for fiscal 2010 as compared to \$1.4 billion for fiscal 2009. The increase was primarily due to higher net earnings for the period.

Cash used by investing activities for fiscal 2010 totaled \$790 million as compared to \$421 million in fiscal 2009. The increase results primarily from the use of a portion of our available cash balances to purchase US Agency and investment grade bonds. Capital expenditures in fiscal 2010 totaled \$441 million, primarily for remodeling and renovating existing company-operated retail stores, opening new retail stores, and investment in information technology systems.

Cash used by financing activities for fiscal 2010 totaled \$346 million as compared to \$642 million in fiscal 2009. The change primarily reflects net repayments of commercial paper and short-term borrowings under the credit facility totaling \$713 million in fiscal 2009, offset by dividend payments of \$171 million and common share repurchases of \$286 million in fiscal 2010.

Table of Contents

The following table summarizes our contractual obligations and borrowings as of October 3, 2010, and the timing and effect that such commitments are expected to have on our liquidity and capital requirements in future periods (*in millions*):

Contractual Obligations ⁽¹⁾	Total	Payments Due by Period			
		Less than 1 Year	1 - 3 Years	3 - 5 Years	More than 5 Years
Operating lease obligations ⁽²⁾	\$ 4,084.2	\$ 718.4	\$ 1,279.4	\$ 1,006.6	\$ 1,079.8
Debt obligations ⁽³⁾	790.8	34.4	68.8	68.8	618.8
Purchase obligations ⁽⁴⁾	613.2	556.7	52.3	4.2	0.0
Other obligations ⁽⁵⁾	107.7	1.8	22.3	9.5	74.1
Total	\$ 5,595.9	\$ 1,311.3	\$ 1,422.8	\$ 1,089.1	\$ 1,772.7

- (1) Income tax liabilities for uncertain tax positions were excluded as we are not able to make a reasonably reliable estimate of the amount and period of related future payments. As of October 3, 2010, we had \$68.4 million of gross unrecognized tax benefits for uncertain tax positions.
- (2) Amounts include the direct lease obligations, excluding any taxes, insurance and other related expenses.
- (3) Debt amounts include principal maturities and scheduled interest payments on our long-term debt.
- (4) Purchase obligations include agreements to purchase goods or services that are enforceable and legally binding on Starbucks and that specify all significant terms. Purchase obligations relate primarily to green coffee, with these amounts comprising approximately 90% of the total of this item.
- (5) Other obligations include other long-term liabilities primarily consisting of asset retirement obligations, capital lease obligations and hedging instruments. Starbucks currently expects to fund these commitments with operating cash flows generated in the normal course of business.

Off-Balance Sheet Arrangement

Off-balance sheet arrangements relate to certain guarantees and are detailed in Note 17 to the consolidated financial statements in this 10-K.

COMMODITY PRICES, AVAILABILITY AND GENERAL RISK CONDITIONS

Commodity price risk represents Starbucks primary market risk, generated by our purchases of green coffee and dairy products, among other things. We purchase, roast and sell high-quality whole bean arabica coffee and related products and risk arises from the price volatility of green coffee. In addition to coffee, we also purchase significant amounts of dairy products to support the needs of our company-operated retail stores. The price and availability of these commodities directly impacts our results of operations and can be expected to impact our future results of operations. For additional details see Product Supply in Item 1, as well as Risk Factors in Item 1A of this 10-K.

FINANCIAL RISK MANAGEMENT

Edgar Filing: Aeterna Zentaris Inc. - Form 6-K

Market risk is defined as the risk of losses due to changes in commodity prices, foreign currency exchange rates, equity security prices, and interest rates. We manage our exposure to various market-based risks according to an umbrella risk management policy. Under this policy, market-based risks are quantified and evaluated for potential mitigation strategies, such as entering into hedging transactions. The umbrella risk management policy governs the hedging instruments the business may use and limits the risk to net earnings. We also monitor and limit the amount of associated counterparty credit risk. Additionally, this policy restricts, among other things, the amount of market-based risk we will tolerate before implementing approved hedging strategies and prohibits speculative trading activity. In general, hedging instruments do not have maturities in excess of five years.

Table of Contents

The sensitivity analyses disclosed below provide only a limited, point-in-time view of the market risk of the financial instruments discussed. The actual impact of the respective underlying rates and price changes on the financial instruments may differ significantly from those shown in the sensitivity analyses.

Commodity Price Risk

We purchase commodity inputs, including coffee, dairy products and diesel that are used in our operations and are subject to price fluctuations that impact our financial results. In addition to fixed-price and price-to-be-fixed contracts for coffee purchases, we have entered into commodity hedges to manage commodity price risk using financial derivative instruments. We performed a sensitivity analysis based on a 10% change in the underlying commodity prices of our commodity hedges, as of the end of fiscal 2010, and determined that such a change would not have a significant effect on the fair value of these instruments.

Foreign Currency Exchange Risk

The majority of our revenue, expense and capital purchasing activities are transacted in US dollars. However, because a portion of our operations consists of activities outside of the US, we have transactions in other currencies, primarily the Canadian dollar, British pound, euro, and Japanese yen. As a result, we may engage in transactions involving various derivative instruments to hedge revenues, inventory purchases, assets, and liabilities denominated in foreign currencies.

As of October 3, 2010, Starbucks had forward foreign exchange contracts that hedge portions of anticipated international revenue streams and inventory purchases. In addition, we had forward foreign exchange contracts that qualify as accounting hedges of our net investment in Starbucks Japan to minimize foreign currency exposure.

Starbucks also had forward foreign exchange contracts that are not designated as hedging instruments for accounting purposes (free standing derivatives), but which largely offset the financial impact of translating certain foreign currency denominated payables and receivables. Increases or decreases in the fair value of these hedges are generally offset by corresponding decreases or increases in the US dollar value of our foreign currency denominated payables and receivables (i.e. hedged items) that would occur within the hedging period.

The following table summarizes the potential impact to Starbucks future net earnings and other comprehensive income (OCI) from changes in the fair value of these derivative financial instruments due in turn to a change in the value of the US dollar as compared to the level of foreign exchange rates. The information provided below relates only to the hedging instruments and does not represent the corresponding changes in the underlying hedged items (*in millions*):

October 3, 2010

	Increase/(Decrease) to Net Earnings		Increase/(Decrease) to OCI	
	10% Increase in Underlying Rate	10% Decrease in Underlying Rate	10% Increase in Underlying Rate	10% Decrease in Underlying Rate
Foreign currency hedges	\$ 46	\$ (46)	\$ 13	\$ (13)

Equity Security Price Risk

We have minimal exposure to price fluctuations on equity mutual funds and equity exchange-traded funds within our trading portfolio. The trading securities approximate a portion of our liability under the MDCP. A corresponding liability is included in accrued compensation and related costs on the consolidated balance sheets. These investments are recorded at fair value with unrealized gains and losses recognized in net interest income and other in the consolidated statements of earnings. The offsetting changes in the MDCP liability are recorded in general and administrative expenses. We performed a sensitivity analysis based on a 10% change in the underlying equity prices of our investments as of the end of fiscal 2010 and determined that such a change would not have a significant effect on the fair value of these instruments.

Table of Contents**Interest Rate Risk**

We utilize short-term and long-term financing and may use interest rate hedges to manage the effect of interest rate changes on our existing debt as well as the anticipated issuance of new debt. At the end of fiscal years 2010 and 2009, we did not have any interest rate hedge agreements outstanding.

The following table summarizes the impact of a change in interest rates on the fair value of Starbucks debt (*in millions*):

October 3, 2010

	Fair Value	Change in Fair Value	
		100 Basis Point Increase in Underlying Rate	100 Basis Point Decrease in Underlying Rate
Debt	\$ 637	\$ (36)	\$ 36

Our available-for-sale securities comprise a diversified portfolio consisting mainly of fixed income instruments. The primary objectives of these investments are to preserve capital and liquidity. As of October 3, 2010, our long-term available-for-sale securities included ARS. Please see Note 3 for further information. Available-for-sale securities are recorded on the consolidated balance sheets at fair value with unrealized gains and losses reported as a component of accumulated other comprehensive income. We do not hedge the interest rate exposure on our available-for-sale securities. We performed a sensitivity analysis based on a 100 basis point change in the underlying interest rate of our available-for-sale securities as of the end of fiscal 2010, and determined that such a change would not have a significant effect on the fair value of these instruments.

APPLICATION OF CRITICAL ACCOUNTING POLICIES

Critical accounting policies are those that management believes are both most important to the portrayal of our financial condition and results and require the most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain. Judgments and uncertainties affecting the application of those policies may result in materially different amounts being reported under different conditions or using different assumptions.

We consider our policies on asset impairment, goodwill, stock-based compensation, operating leases, self insurance reserves and income taxes to be the most critical in understanding the judgments that are involved in preparing our consolidated financial statements.

Asset Impairment

When facts and circumstances indicate that the carrying values of long-lived assets may not be recoverable, we evaluate long-lived assets for impairment. We first compare the carrying value of the asset to the asset's estimated future cash flows (undiscounted). If the estimated future cash flows are less than the carrying value of the asset, we calculate an impairment loss based on the asset's estimated fair value. For store assets, the fair value of the assets is estimated using a discounted cash flow model based on future store revenues and operating costs, using internal projections. For other assets, we use the valuation approach that is appropriate given the relevant facts and circumstances.

Our impairment loss calculations contain uncertainties because they require management to make assumptions and to apply judgment to estimate future cash flows and asset fair values, including forecasting asset useful lives. Further, our ability to realize undiscounted cash flows in excess of the carrying values of our assets is affected by factors such as the ongoing maintenance and improvement of the assets, changes in economic conditions, and changes in operating performance. As we periodically reassess estimated future cash flows and asset fair values, changes in our estimates and assumptions may cause us to realize material impairment charges in the future.

Table of Contents

Goodwill Impairment

We test goodwill for impairment on an annual basis, or more frequently if circumstances, such as material deterioration in performance or a significant number of store closures, indicate reporting unit carrying values may exceed their fair values. If the carrying amount of goodwill exceeds the implied estimated fair value, an impairment charge to current operations is recorded to reduce the carrying value to the implied estimated fair value. We conduct our annual goodwill impairment test for consolidated entities in our third fiscal quarter.

Our impairment loss calculations contain uncertainties because they require management to make assumptions and to apply judgment to estimate the fair value of our reporting units, including estimating future cash flows, and if necessary, the fair value of a reporting units' assets and liabilities. Further, our ability to realize the future cash flows used in our fair value calculations is affected by factors such as changes in economic conditions, changes in our operating performance, and changes in our business strategies. As we periodically reassess our fair value calculations, including estimated future cash flows, changes in our estimates and assumptions may cause us to realize material impairment charges in the future.

As a part of Starbucks ongoing operations, we may close certain stores within a reporting unit containing goodwill due to underperformance of the store or inability to renew our lease, among other reasons. We abandon certain assets associated with a closed store including leasehold improvements and other non-transferrable assets. Under GAAP, when a portion of a reporting unit that constitutes a business is to be disposed of, goodwill associated with the business is included in the carrying amount of the business in determining any loss on disposal. Our evaluation of whether the portion of a reporting unit being disposed of constitutes a business occurs on the date of abandonment. Although an operating store meets the accounting definition of a business prior to abandonment, it does not constitute a business on the closure date because the remaining assets on that date do not constitute an integrated set of assets that are capable of being conducted and managed for the purpose of providing a return to investors. As a result, when closing individual stores, we do not include goodwill in the calculation of any loss on disposal of the related assets. As noted above, if store closures are indicative of potential impairment of goodwill at the reporting unit level, we perform an evaluation of our reporting unit goodwill when such closures occur.

Stock-based Compensation

We measure the fair value of stock awards at the grant date based on the fair value of the award and recognize the expense over the related service period. For stock option awards we use the Black-Scholes-Merton option pricing model which requires the input of subjective assumptions. These assumptions include estimating the length of time employees will retain their stock options before exercising them (expected term), the estimated volatility of our common stock price over the expected term and the expected dividend yield. In addition, we are required to estimate the expected forfeiture rate and only recognize expense for those stock awards expected to vest. We estimate the forfeiture rate based on historical experience. Changes in our assumptions could materially affect the estimate of fair value of stock-based compensation; however, a 10% change in our critical assumptions including volatility and expected term would not have a material impact for fiscal year 2010.

Operating Leases

We lease retail stores, roasting and distribution facilities and office space under operating leases. We provide for an estimate of asset retirement obligation (ARO) expense at the lease inception date for operating leases with requirements to remove leasehold improvements at the end of the lease term. Estimating AROs involves subjective assumptions regarding both the amount and timing of actual future retirement costs. Future actual costs could differ significantly from amounts initially estimated. In addition, the large number of operating leases and the significant number of international markets in which we have operating leases adds administrative complexity to the calculation of ARO expense, as well as to the other technical accounting requirements of operating leases such as contingent rent. Estimating the cost of certain lease exit costs involves subjective assumptions, including the time it would take to sublease the leased location and the related potential sublease income. The estimated accruals for these costs could be significantly affected if future experience differs from that used in the initial estimate.

Table of Contents

Self Insurance Reserves

We use a combination of insurance and self-insurance mechanisms, including a wholly owned captive insurance entity and participation in a reinsurance treaty, to provide for the potential liabilities for certain risks, including workers' compensation, healthcare benefits, general liability, property insurance, and director and officers' liability insurance. Liabilities associated with the risks that are retained by Starbucks are not discounted and are estimated, in part, by considering historical claims experience, demographic factors, severity factors and other actuarial assumptions. The estimated accruals for these liabilities could be significantly affected if future occurrences and claims differ from these assumptions and historical trends.

Income Taxes

We recognize deferred tax assets and liabilities based on the differences between the financial statement carrying amounts and the respective tax bases of our assets and liabilities. Deferred tax assets and liabilities are measured using current enacted tax rates expected to apply to taxable income in the years in which we expect the temporary differences to reverse. We routinely evaluate the likelihood of realizing the benefit of our deferred tax assets and may record a valuation allowance if, based on all available evidence, we determine that some portion of the tax benefit will not be realized.

In addition, our income tax returns are periodically audited by domestic and foreign tax authorities. These audits include questions regarding our tax filing positions, including the timing and amount of deductions taken and the allocation of income among various tax jurisdictions. We evaluate our exposures associated with our various tax filing positions and record a related liability. We adjust our liability for unrecognized tax benefits and income tax provision in the period in which an uncertain tax position is effectively settled, the statute of limitations expires for the relevant taxing authority to examine the tax position, or when more information becomes available.

Deferred tax asset valuation allowances and our liability for unrecognized tax benefits require significant management judgment regarding applicable statutes and their related interpretation, the status of various income tax audits, and our particular facts and circumstances. We believe that our estimates are reasonable; however, actual results could differ from these estimates.

RECENT ACCOUNTING PRONOUNCEMENTS

STARBUCKS CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Fiscal Years ended October 3, 2010, September 27, 2009 and September 28, 2008

Note 1: Summary of Significant Accounting Policies

Description of Business

Starbucks purchases and roasts high-quality whole bean coffees and sells them, along with handcrafted coffee and tea beverages and a variety of fresh food items, through its company-operated retail stores. We also sell coffee and tea products and license our trademarks through other channels such as licensed stores, and through certain of our licensees and equity investees, we produce and sell a variety of ready-to-drink beverages. All channels outside the company-operated retail stores are collectively known as specialty operations. Additional details on the nature of our business are in Item 1 of this 10-K.

In this 10-K, Starbucks Corporation (together with its subsidiaries) is referred to as Starbucks, the Company, we, us or our .

We have three reportable operating segments: United States (US), International, and Global Consumer Products Group (CPG).

Principles of Consolidation

The consolidated financial statements reflect the financial position and operating results of Starbucks, including wholly owned subsidiaries and investees controlled by us. Investments in entities that we do not control, but have the ability to exercise significant influence over operating and financial policies, are accounted for under the equity method. Investments in entities in which we do not have the ability to exercise significant influence are accounted for under the cost method. Intercompany transactions and balances have been eliminated.

Fiscal Year End

Our fiscal year ends on the Sunday closest to September 30. Fiscal year 2010 included 53 weeks, with the 53rd week falling in the fourth fiscal quarter. Fiscal years 2009 and 2008 included 52 weeks.

Estimates and Assumptions

Preparing financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. Examples include, but are not limited to, estimates for asset and goodwill impairments, stock-based compensation forfeiture rates, and future asset retirement obligations; assumptions underlying self-insurance reserves; and the potential outcome of future tax consequences of events that have been recognized in the financial statements. Actual results and outcomes may differ from these estimates and assumptions.

Cash and Cash Equivalents

We consider all highly liquid instruments with a maturity of three months or less at the time of purchase to be cash equivalents. We maintain cash and cash equivalent balances with financial institutions that exceed federally insured limits. We have not experienced any losses related to these balances, and management believes its credit risk to be minimal.

Cash Management

Our cash management system provides for the funding of all major bank disbursement accounts on a daily basis as checks are presented for payment. Under this system, outstanding checks are in excess of the cash balances at certain banks, which creates book overdrafts. Book overdrafts are presented as a current liability in accounts payable on the consolidated balance sheets.

Table of Contents***Short-term and Long-term Investments***

Our short-term and long-term investments consist primarily of investment grade debt securities, all of which are classified as available-for-sale. We have investments in auction rate securities within the long-term investment portfolio. Our trading portfolio is primarily comprised of equity mutual funds and equity exchange-traded funds. Trading securities are recorded at fair value with unrealized holding gains and losses included in net earnings. Available-for-sale securities are recorded at fair value, and unrealized holding gains and losses are recorded, net of tax, as a component of accumulated other comprehensive income. Available-for-sale securities with remaining maturities of less than one year and those identified by management at time of purchase for funding operations in less than one year are classified as short term, and all other available-for-sale securities are classified as long term. Unrealized losses are charged against net earnings when a decline in fair value is determined to be other than temporary. Management reviews several factors to determine whether a loss is other than temporary, such as the length and extent of the fair value decline, the financial condition and near term prospects of the issuer, and for equity investments, our intent and ability to hold the security for a period of time sufficient to allow for any anticipated recovery in fair value. For debt securities, management also evaluates whether we have the intent to sell or will likely be required to sell before their anticipated recovery, which may be at maturity. Realized gains and losses are accounted for using the specific identification method. Purchases and sales are recorded on a trade date basis.

Fair Value of Financial Instruments and Equity and Cost Investments

The carrying value of cash and cash equivalents approximates fair value because of the short-term maturity of those instruments. The fair value of our investments in marketable debt and equity securities, equity mutual funds and equity exchange-traded funds is based upon the quoted market price on the last business day of the fiscal year. Where an observable quoted market price for a security does not exist, we estimate fair value using a variety of valuation methodologies, which include observable inputs for comparable instruments and unobservable inputs. The specific methodologies include comparing the security with securities of publicly traded companies in similar lines of business, applying revenue multiples to estimated future operating results and estimating discounted cash flows. The fair value of our long-term debt is estimated based on the quoted market prices for the same or similar issues or on the current rates offered to us for debt of the same remaining maturities.

We measure our equity and cost method investments at fair value on a nonrecurring basis when they are determined to be other-than temporarily impaired. Fair values are determined using available quoted market prices or standard valuation techniques, including discounted cash flows, comparable transactions, and comparable company analyses.

Derivative Instruments

We manage our exposure to various risks within the consolidated financial statements according to an umbrella risk management policy. Under this policy, Starbucks may engage in transactions involving various derivative instruments, with maturities generally not longer than five years, to hedge interest rates, commodity prices and foreign currency denominated revenues, purchases, assets and liabilities.

We record all derivatives on the balance sheets at fair value. For a cash flow hedge, the effective portion of the derivative's gain or loss is initially reported as a component of other comprehensive income (OCI) and subsequently reclassified into net earnings when the hedged exposure affects net earnings. For a net investment hedge, the effective portion of the derivative's gain or loss is reported as a component of OCI.

Cash flow hedges related to anticipated transactions are designated and documented at the inception of each hedge by matching the terms of the contract to the underlying transaction. We classify the cash flows from hedging transactions in the same categories as the cash flows from the respective hedged items. Once established, cash flow hedges are generally not removed until maturity unless an anticipated transaction is no longer likely to occur. For discontinued or dedesignated cash flow hedges, the related accumulated derivative gains or losses are recognized in net interest income and other on the consolidated statements of earnings.

Table of Contents

Forward contract effectiveness for cash flow hedges is calculated by comparing the fair value of the contract to the change in value of the anticipated transaction using forward rates on a monthly basis. For net investment hedges, the spot-to-spot method is used to calculate effectiveness. Under this method, the change in fair value of the forward contract attributable to the changes in spot exchange rates (the effective portion) is reported as a component of OCI. The remaining change in fair value of the forward contract (the ineffective portion) is reclassified into net earnings. Any ineffectiveness is recognized immediately in net interest income and other on the consolidated statements of earnings.

We also enter into certain foreign currency forward contracts, commodity swap contracts, and futures contracts that are not designated as hedging instruments for accounting purposes. These contracts are recorded at fair value, with the changes in fair value recognized in net interest income and other on the consolidated statements of earnings.

Allowance for Doubtful Accounts

Allowance for doubtful accounts is calculated based on historical experience, customer credit risk and application of the specific identification method. As of October 3, 2010, September 27, 2009, and September 28, 2008, the allowance for doubtful accounts was \$3.3 million, \$5.0 million and \$4.5 million, respectively.

Inventories

Inventories are stated at the lower of cost (primarily moving average cost) or market. We record inventory reserves for obsolete and slow-moving items and for estimated shrinkage between physical inventory counts. Inventory reserves are based on inventory turnover trends, historical experience and application of the specific identification method. As of October 3, 2010, September 27, 2009, and September 28, 2008, inventory reserves were \$18.1 million, \$21.1 million, and \$25.5 million, respectively.

Property, Plant and Equipment

Property, plant and equipment are carried at cost less accumulated depreciation. Depreciation of property, plant and equipment, which includes assets under capital leases, is provided on the straight-line method over estimated useful lives, generally ranging from two to seven years for equipment and 30 to 40 years for buildings. Leasehold improvements are amortized over the shorter of their estimated useful lives or the related lease life, generally 10 years. For leases with renewal periods at our option, we generally use the original lease term, excluding renewal option periods, to determine estimated useful lives. If failure to exercise a renewal option imposes an economic penalty to us, we may determine at the inception of the lease that renewal is reasonably assured and include the renewal option period in the determination of appropriate estimated useful lives. The portion of depreciation expense related to production and distribution facilities is included in cost of sales including occupancy costs on the consolidated statements of earnings. The costs of repairs and maintenance are expensed when incurred, while expenditures for refurbishments and improvements that significantly add to the productive capacity or extend the useful life of an asset are capitalized. When assets are retired or sold, the asset cost and related accumulated depreciation are eliminated with any remaining gain or loss reflected in net earnings.

Goodwill

We test goodwill for impairment on an annual basis, or more frequently if circumstances, such as material deterioration in performance or a significant number of store closures, indicate reporting unit carrying values may exceed their fair values. If the carrying amount of goodwill exceeds the implied estimated fair value, an impairment charge to current operations is recorded to reduce the carrying value to the implied estimated fair value.

As a part of Starbucks ongoing operations, we may close certain stores within a reporting unit containing goodwill due to underperformance of the store or inability to renew our lease, among other reasons. We abandon certain assets associated with a closed store including leasehold improvements and other non-transferrable assets. Under GAAP, when a portion of a reporting unit that constitutes a business is to be disposed of, goodwill associated with the business is included in the carrying amount of the business in determining any loss on disposal. Our evaluation

Table of Contents

of whether the portion of a reporting unit being disposed of constitutes a business occurs on the date of abandonment. Although an operating store meets the accounting definition of a business prior to abandonment, it does not constitute a business on the closure date because the remaining assets on that date do not constitute an integrated set of assets that are capable of being conducted and managed for the purpose of providing a return to investors. As a result, when closing individual stores, we do not include goodwill in the calculation of any loss on disposal of the related assets. As noted above, if store closures are indicative of potential impairment of goodwill at the reporting unit level, we perform an evaluation of our reporting unit goodwill when such closures occur.

We conduct our annual goodwill impairment test for consolidated entities in our third fiscal quarter.

Other Intangible Assets

Other intangible assets consist primarily of trademarks with indefinite lives which are tested for impairment annually or more frequently if events or changes in circumstances indicate that the asset might be impaired. Definite-lived intangible assets, which mainly consist of contract-based patents and copyrights, are amortized over their estimated useful lives, and are tested for impairment when facts and circumstances indicate that the carrying values may not be recoverable. Based on the impairment tests performed there was no impairment of other intangible assets in fiscal 2010, 2009 and 2008.

Long-lived Assets

When facts and circumstances indicate that the carrying values of long-lived assets may not be recoverable, we evaluate long-lived assets for impairment. We first compare the carrying value of the asset to the asset's estimated future cash flows (undiscounted). If the estimated future cash flows are less than the carrying value of the asset, we calculate an impairment loss based on the asset's estimated fair value. The fair value of the assets is estimated using a discounted cash flow model based on future store revenues and operating costs, using internal projections. Property, plant and equipment assets are grouped at the lowest level for which there are identifiable cash flows when assessing impairment. Cash flows for retail assets are identified at the individual store level. Long-lived assets to be disposed of are reported at the lower of their carrying amount, or fair value less estimated costs to sell.

We recognized net impairment and disposition losses of \$67.7 million, \$224.4 million and \$325.0 million in fiscal 2010, 2009 and 2008, respectively, primarily due to underperforming company-operated retail stores. The net losses in fiscal 2009 and 2008 include \$129.2 million and \$201.6 million, respectively, of asset impairments related primarily to the US and International store closures as part of Starbucks store portfolio rationalization which began in fiscal 2008. Depending on the underlying asset that is impaired, these losses may be recorded in any one of the operating expense lines on the consolidated statements of earnings: for retail operations, the net impairment and disposition losses are recorded in restructuring charges and store operating expenses; for specialty operations, these losses are recorded in restructuring charges and other operating expenses; and for all other operations, these losses are recorded in cost of sales including occupancy costs, general and administrative expenses, or restructuring charges.

Insurance Reserves

We use a combination of insurance and self-insurance mechanisms, including a wholly owned captive insurance entity and participation in a reinsurance treaty, to provide for the potential liabilities for certain risks, including workers' compensation, healthcare benefits, general liability, property insurance, and director and officers' liability insurance. Liabilities associated with the risks that are retained by us are not discounted and are estimated, in part, by considering historical claims experience, demographic factors, severity factors and other actuarial assumptions.

Revenue Recognition

Consolidated revenues are presented net of intercompany eliminations for wholly owned subsidiaries and investees controlled by us and for licensees accounted for under the equity method, based on our percentage ownership. Additionally, consolidated revenues are recognized net of any discounts, returns, allowances and sales incentives, including coupon redemptions and rebates.

Table of Contents

Stored Value Cards

Revenues from our stored value cards, such as Starbucks Cards, are recognized when tendered for payment, or upon redemption. Outstanding customer balances are included in deferred revenue on the consolidated balance sheets. There are no expiration dates on our stored value cards, and we do not charge any service fees that cause a decrement to customer balances.

While we will continue to honor all stored value cards presented for payment, management may determine the likelihood of redemption to be remote for certain cards due to, among other things, long periods of inactivity. In these circumstances, if management also determines there is no requirement for remitting balances to government agencies under unclaimed property laws, card balances may then be recognized in the consolidated statements of earnings, in net interest income and other. For the fiscal years ended October 3, 2010, September 27, 2009 and September 28, 2008, income recognized on unredeemed stored value card balances was \$31.2 million, \$26.0 million and \$13.6 million, respectively.

Customers in the US who register their Starbucks Card are automatically enrolled in the My Starbucks Reward program and earn points (stars) with each purchase. A free beverage coupon is issued to the customer once 15 points have been accumulated. The value of points earned by our program members is included in deferred revenue and recorded as a reduction in revenue at the time the points are earned, based on the value of points that are projected to be redeemed.

Retail Revenues

Company-operated retail store revenues are recognized when payment is tendered at the point of sale. We maintain a sales return allowance to reduce retail revenues for estimated future product returns based on historical patterns. Retail store revenues are reported net of sales, use or other transaction taxes that are collected from customers and remitted to taxing authorities.

Specialty Revenues

Specialty revenues consist primarily of product sales to customers other than through company-operated retail stores, as well as royalties and other fees generated from licensing operations. Sales of coffee, tea and related products are generally recognized upon shipment to customers, depending on contract terms. Shipping charges billed to customers are also recognized as revenue, and the related shipping costs are included in cost of sales including occupancy costs on the consolidated statements of earnings.

Specific to retail store licensing arrangements, initial nonrefundable development fees are recognized upon substantial performance of services for new market business development activities, such as initial business, real estate and store development planning, as well as providing operational materials and functional training courses for opening new licensed retail markets. Additional store licensing fees are recognized when new licensed stores are opened. Royalty revenues based upon a percentage of reported sales and other continuing fees, such as marketing and service fees, are recognized on a monthly basis when earned. For certain licensing arrangements, where we intend to acquire an ownership interest, the initial nonrefundable development fees are deferred to other long-term liabilities on the consolidated balance sheets until acquisition, at which point the fees are reflected as a reduction of our investment.

Other arrangements involving multiple elements and deliverables as well as upfront fees are individually evaluated for revenue recognition. Cash payments received in advance of product or service delivery are recorded in deferred revenue until earned.

Advertising

We expense most advertising costs as they are incurred, except for certain production costs that are expensed the first time the advertising campaign takes place.

Table of Contents

Advertising expenses, recorded in store operating expenses, other operating expenses and general and administrative expenses on the consolidated statements of earnings, totaled \$176.2 million, \$126.3 million and \$129.0 million in fiscal 2010, 2009 and 2008, respectively. As of October 3, 2010 and September 27, 2009, \$5.6 million and \$7.2 million, respectively, of capitalized advertising costs were recorded on the consolidated balance sheets.

Store Preopening Expenses

Costs incurred in connection with the start-up and promotion of new store openings are expensed as incurred.

Operating Leases

We lease retail stores, roasting, distribution and warehouse facilities, and office space under operating leases. Most lease agreements contain tenant improvement allowances, rent holidays, lease premiums, rent escalation clauses and/or contingent rent provisions. For purposes of recognizing incentives, premiums and minimum rental expenses on a straight-line basis over the terms of the leases, we use the date of initial possession to begin amortization, which is generally when we enter the space and begin to make improvements in preparation of intended use.

For tenant improvement allowances and rent holidays, we record a deferred rent liability in accrued occupancy costs and other long-term liabilities on the consolidated balance sheets and amortize the deferred rent over the terms of the leases as reductions to rent expense on the consolidated statements of earnings.

For premiums paid upfront to enter a lease agreement, we record a deferred rent asset in prepaid expenses and other current assets and other assets on the consolidated balance sheets and then amortize the deferred rent over the terms of the leases as additional rent expense on the consolidated statements of earnings.

For scheduled rent escalation clauses during the lease terms or for rental payments commencing at a date other than the date of initial occupancy, we record minimum rental expenses on a straight-line basis over the terms of the leases on the consolidated statements of earnings.

Certain leases provide for contingent rents, which are determined as a percentage of gross sales in excess of specified levels. We record a contingent rent liability in accrued occupancy costs on the consolidated balance sheets and the corresponding rent expense when specified levels have been achieved or when we determine that achieving the specified levels during the fiscal year is probable.

When ceasing operations in company-operated stores under operating leases, in cases where the lease contract specifies a termination fee due to the landlord, we record such expense at the time written notice is given to the landlord. In cases where terms, including termination fees, are yet to be negotiated with the landlord, we will record the expense upon signing of an agreement with the landlord. In cases where the landlord does not allow us to prematurely exit the lease, but allows for subleasing, we estimate the fair value of any sublease income that can be generated from the location and expense the present value of the excess of remaining lease payments to the landlord over the projected sublease income at the cease-use date.

Asset Retirement Obligations

We recognize a liability for the fair value of required asset retirement obligations (ARO) when such obligations are incurred. Our AROs are primarily associated with leasehold improvements which, at the end of a lease, we are contractually obligated to remove in order to comply with the lease agreement. At the inception of a lease with such conditions, we record an ARO liability and a corresponding capital asset in an amount equal to the estimated fair value of the obligation. The liability is estimated based on a number of assumptions requiring management's judgment, including store closing costs, cost inflation rates and discount rates, and is accreted to its projected future value over time. The capitalized asset is depreciated using the convention for depreciation of leasehold improvement assets. Upon satisfaction of the ARO conditions, any difference between the recorded ARO liability and the actual retirement costs incurred is recognized as an operating gain or loss in the consolidated statements of earnings. As of October 3, 2010 and September 27, 2009, our net ARO asset included in property, plant and equipment was \$13.7 million and \$15.1 million, respectively, while our net ARO liability included in other long-term liabilities was \$47.7 million and \$43.4 million, as of the same respective dates.

Table of Contents

Stock-based Compensation

Starbucks maintains several equity incentive plans under which we may grant non-qualified stock options, incentive stock options, restricted stock, restricted stock units (RSUs) or stock appreciation rights to employees, non-employee directors and consultants. We also have employee stock purchase plans (ESPP). RSUs issued by us are equivalent to nonvested shares under the applicable accounting guidance.

Foreign Currency Translation

Our international operations generally use their local currency as their functional currency. Assets and liabilities are translated at exchange rates in effect at the balance sheet date. Income and expense accounts are translated at the average monthly exchange rates during the year. Resulting translation adjustments are recorded as a component of accumulated other comprehensive income on the consolidated balance sheets.

Income Taxes

We compute income taxes using the asset and liability method, under which deferred income taxes are provided for the temporary differences between the financial statement carrying amounts and the tax basis of our assets and liabilities. We will establish a valuation allowance for deferred tax assets if it is more likely than not that these items will either expire before Starbucks is able to realize their benefits, or that future deductibility is uncertain. Periodically, the valuation allowance is reviewed and adjusted based on management's assessments of realizable deferred tax assets. We recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. Starbucks recognizes interest and penalties related to income tax matters in income tax expense.

Earnings per Share

Basic earnings per share is computed on the basis of the weighted average number of shares and common stock units that were outstanding during the period. Diluted earnings per share includes the dilutive effect of common stock equivalents consisting of certain shares subject to stock options and RSUs, using the treasury stock method. Performance-based RSUs are considered dilutive when the related performance criterion has been met.

Common Stock Share Repurchases

We may repurchase shares of Starbucks common stock under a program authorized by our Board of Directors, including pursuant to a contract, instruction or written plan meeting the requirements of Rule 10b5-1(c)(1) of the Securities Exchange Act of 1934. Under applicable Washington State law, shares repurchased are retired and not displayed separately as treasury stock on the financial statements. Instead, the par value of repurchased shares is deducted from common stock and the excess repurchase price over par value is deducted from additional paid-in capital and from retained earnings, once additional paid-in capital is depleted.

Recent Accounting Pronouncements

In 2007, the Financial Accounting Standards Board (FASB) issued authoritative guidance on accounting and reporting for noncontrolling interests in subsidiaries. The guidance clarifies that a noncontrolling interest in a subsidiary should be accounted for as a component of equity separate from the parent company's equity. It also requires the presentation of both net earnings attributable to non-controlling interests and net earnings attributable to Starbucks on the face of the consolidated statement of earnings. We adopted the new guidance relating to noncontrolling interests beginning September 28, 2009 on a prospective basis, except for the presentation and disclosure requirements, which were applied retrospectively as follows:

we reclassified minority interests previously reported on our consolidated statements of earnings as a component of net interest income and other to a separate line below net earnings including noncontrolling interests

Table of Contents

we reclassified minority interests previously reported on our consolidated balance sheets as a component of other long-term liabilities to noncontrolling interests and included it as a component of equity

In June 2009, the FASB issued authoritative guidance on the consolidation of variable interest entities (VIE), which will be effective for our first fiscal quarter of 2011. The new guidance requires a qualitative approach to identify a controlling financial interest in a VIE, and requires ongoing assessment of whether an entity is a VIE and whether an interest in a VIE makes the holder the primary beneficiary of the VIE. We believe the adoption of this new guidance will not have a material effect on our consolidated financial statements.

Note 2: Restructuring Charges

The restructuring efforts we began in fiscal 2008 to rationalize our store portfolio and the non-retail support organization were essentially completed in fiscal 2010. No material future costs related to these efforts are expected. On a cumulative basis we closed 918 stores on a global basis as part of this effort.

Restructuring charges by type of cost, by reportable segment and reconciliation of the associated accrued liability (*in millions*):

	Total	By Type of Cost			By Segment		
		Lease Exit and Other Related Costs	Asset Impairments	Employee Termination Costs	US	International	Other
Costs incurred and charged to expense in fiscal 2010	\$ 53.0	\$ 53.0	\$ 0.2	\$ (0.2)	\$ 27.2	\$ 25.8	\$ 0.0
Costs incurred and charged to expense in fiscal 2009	332.4	184.2	129.2	19.0	246.3	27.0	59.1
Costs incurred and charged to expense in fiscal 2008	266.9	47.8	201.6	17.5	210.9	19.2	36.8
Cumulative costs incurred to date	652.3	285.0	331.0	36.3	484.4	72.0	95.9
Accrued liability as of September 28, 2008	\$ 53.4	\$ 48.0		\$ 5.4			
Costs incurred in fiscal 2009, excluding non-cash charges ⁽¹⁾	211.6	192.6		19.0			
Cash payments	(161.0)	(137.8)		(23.2)			
Accrued liability as of September 27, 2009	\$ 104.0	\$ 102.8		\$ 1.2			
Costs incurred in fiscal 2010, excluding non-cash charges ⁽¹⁾	53.4	53.7		(0.3)			
Cash payments	(68.2)	(67.3)		(0.9)			
Accrued liability as of October 3, 2010 ⁽²⁾	\$ 89.2	\$ 89.2		\$ 0.0			

⁽¹⁾ Non-cash charges and credits for lease exit and other related costs primarily represent deferred rent balances recognized as expense credits at the cease-use date.

⁽²⁾ The remaining liability relates to lease obligations for stores that were previously closed where Starbucks has been unable to terminate the lease or find subtenants for the unused space.

Table of Contents**Note 3: Investments (in millions):**

		Amortized Cost	Gross Unrealized Holding Gains	Gross Unrealized Holding Losses	Fair Value

Total short-term investments		\$ 80.0			\$ 66.3
Long-term investments:					
Available-for-sale securities	State and local government obligations	\$ 57.8	\$ 0.0	\$ (2.1)	\$ 55.7
Available-for-sale securities	Corporate debt securities	14.7	0.8	0.0	15.5
Total long-term investments		\$ 72.5	\$ 0.8	\$ (2.1)	\$ 71.2

Available-for-sale securities

Proceeds from sales of available-for-sale securities were \$1.1 million, \$5.0 million and \$75.9 million in fiscal years 2010, 2009 and 2008, respectively. For fiscal years 2010, 2009 and 2008, realized gains and losses on sales and maturities were immaterial.

As of October 3, 2010, long-term available-for-sale securities of \$191.8 million included \$41.3 million invested in auction rate securities (ARS). As of September 27, 2009, long-term available-for-sale securities of \$71.2 million included \$55.7 million invested in ARS. ARS have long-dated maturities but provide liquidity through a Dutch auction process that resets the applicable interest rate at pre-determined calendar intervals. Due to the auction failures that began in 2008, these securities became illiquid and were classified as long-term investments. The investment principal associated with the failed auctions will not be accessible until:

successful auctions resume;

Table of Contents

an active secondary market for these securities develops;

the issuers replace these securities with another form of financing; or

final payments are made according to the contractual maturities of the debt issues which range from 20 to 35 years.

We do not intend to sell the ARS, nor is it likely we will be required to sell the ARS before their anticipated recovery, which may be at maturity. In fiscal 2010, two ARS were fully called at par value of \$6.1 million and three ARS were partially called at par value of \$6.0 million.

The gross unrealized holding losses on our state and local government obligations as of October 3, 2010 and September 27, 2009 are all related to our ARS investments. Our ARS are collateralized by portfolios of student loans, substantially all of which are guaranteed by the United States Department of Education.

Long-term investments (except for ARS) generally mature within three years.

Trading securities

Trading securities are comprised of marketable equity mutual funds and equity exchange-traded funds that approximate a portion of the liability under the Management Deferred Compensation Plan (MDCP), a defined contribution plan. The corresponding deferred compensation liability of \$82.7 million and \$68.3 million as of October 3, 2010 and September 27, 2009, respectively, is included in accrued compensation and related costs on the consolidated balance sheets. The changes in net unrealized holding gains/losses in the trading portfolio included in earnings for fiscal years 2010 and 2009 were a net gain of \$4.1 million and a net loss of \$4.9 million, respectively.

Note 4: Derivative Financial Instruments

Cash Flow Hedges

Starbucks and certain subsidiaries enter into cash flow derivative instruments to hedge portions of anticipated revenue streams and inventory purchases in currencies other than the entity's functional currency. Outstanding forward contracts, which comprise the majority of our derivative instruments, hedge monthly forecasted revenue transactions denominated in Japanese yen and Canadian dollars, as well as forecasted inventory purchases denominated in US dollars for foreign operations.

Net Investment Hedges

Net investment derivative instruments are used to hedge our equity method investment in Starbucks Coffee Japan, Ltd. (Starbucks Japan) as well as our net investments in our Canada, UK and China subsidiaries, to minimize foreign currency exposure.

Other Derivatives

To mitigate the translation risk of certain balance sheet items, we enter into certain foreign currency forward contracts that are not designated as hedging instruments. These contracts are recorded at fair value, with the changes in fair value recognized in net interest income and other on the consolidated statements of earnings. Gains and losses from these instruments are largely offset by the financial impact of translating foreign currency denominated payables and receivables, which are also recognized in net interest income and other.

We also enter into certain swap and futures contracts that are not designated as hedging instruments to mitigate the price uncertainty of a portion of our future purchases of dairy products and diesel fuel. These contracts are recorded at fair value, with the changes in fair value recognized in net interest income and other on the consolidated statement of earnings.

Table of Contents

Fair values of derivative instruments on the consolidated balance sheet (*in millions*):

Financial Statement Location	Cash Flow Hedges		Net Investment Hedges		Other Derivatives	
	Oct 3, 2010	Sep 27, 2009	Oct 3, 2010	Sep 27, 2009	Oct 3, 2010	Sep 27, 2009
Prepaid expenses and other current assets	\$ 0.1	\$ 6.3	\$ 0.0	\$ 0.4	\$ 0.0	\$ 1.0
Other assets	0.0	5.5	0.0	0.0	0.0	0.0
Other accrued expenses	10.6	6.6	5.6	4.7	4.0	9.9
Other long-term liabilities	6.4	5.6	8.1	6.4	0.0	0.0
Total losses in accumulated OCI ⁽¹⁾	13.9	3.9	26.7	19.8		

⁽¹⁾ Amount that will be dedesignated within 12 months for cash flow hedges is \$6.4 million as of October 3, 2010. Ineffectiveness from hedges in fiscal years 2010 and 2009 was insignificant. Outstanding cash flow hedge and net investment hedge contracts will expire within 36 months and 30 months, respectively.

The following table presents the pretax effect of derivative instruments on other comprehensive income and earnings for fiscal years ending (*in millions*):

	Cash Flow Hedges		Net Investment Hedges		Other Derivatives	
	Oct 3, 2010	Sep 27, 2009	Oct 3, 2010	Sep 27, 2009	Oct 3, 2010	Sep 27, 2009
Gain/(Loss) recognized in earnings	\$ (5.9)	\$ (0.2)	\$ 0.0	\$ 0.0	\$ 1.0	\$ 22.2
Gain/(Loss) recognized in OCI	\$ (20.9)	\$ 7.8	\$ (10.8)	\$ (10.8)		

Notional amounts of outstanding derivative contracts (*in millions*):

	Cash Flow Hedges		Net Investment Hedges		Other Derivatives	
	Oct 3, 2010	Sep 27, 2009	Oct 3, 2010	Sep 27, 2009	Oct 3, 2010	Sep 27, 2009
Foreign exchange	\$ 593	\$ 708				
Dairy	\$ 20	\$ 25				
Diesel	\$ 0	\$ 7				

Note 5: Fair Value Measurements

Fair value accounting guidance defines fair value, establishes a framework for measuring fair value under GAAP and expands disclosures about fair value measurements, for both financial and non-financial assets. It also establishes a fair value hierarchy that prioritizes the inputs used to measure fair value.

Assets and Liabilities Measured at Fair Value on a Recurring Basis (in millions):

	Fair Value Measurements at Reporting Date Using			
	Balance at Oct 3, 2010	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Trading securities	\$ 49.2	\$ 49.2	\$ 0.0	\$ 0.0

Edgar Filing: Aeterna Zentaris Inc. - Form 6-K

Available-for-sale securities	428.3	190.8	196.2	41.3
Derivatives	0.1	0.0	0.1	0.0
Total	\$ 477.6	\$ 240.0	\$ 196.3	\$ 41.3
Liabilities:				
Derivatives	\$ 34.7	\$ 0.0	\$ 34.7	\$ 0.0

Table of Contents

	Fair Value Measurements at Reporting Date Using			
	Balance at Sept 27, 2009	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Trading securities	\$ 44.8	\$ 44.8	\$ 0.0	\$ 0.0
Available-for-sale securities	92.7	19.0	18.0	55.7
Derivatives	13.2	0.0	13.2	0.0
Total	\$ 150.7	\$ 63.8	\$ 31.2	\$ 55.7

Liabilities:

Derivatives	\$ 33.2	\$ 0.0	\$ 33.2	\$ 0.0
-------------	---------	--------	---------	--------

Trading securities include equity mutual funds and exchange-traded funds. For these securities, we use quoted prices in active markets for identical assets to determine their fair value, thus they are considered to be Level 1 instruments.

Available-for-sale securities include government treasury securities, corporate and agency bonds and ARS. For government treasury securities, we use quoted prices in active markets for identical assets to determine their fair value, thus they are considered to be Level 1 instruments. We use observable direct and indirect inputs for corporate and agency bonds, which are considered Level 2 instruments. Level 3 instruments are comprised solely of ARS, all of which are considered to be illiquid due to the auction failures that began in 2008. We value ARS using an internally developed valuation model, using inputs that include interest rate curves, credit and liquidity spreads, and effective maturity.

Derivative assets and liabilities include foreign currency forward contracts, commodity swaps and futures contracts. Where applicable, we use quoted prices in an active market for identical derivative assets and liabilities that are traded on exchanges. Derivative assets and liabilities included in Level 2 are over-the-counter currency forward contracts and commodity swaps whose fair values are estimated using industry-standard valuation models. Such models project future cash flows and discount the future amounts to a present value using market-based observable inputs, including interest rate curves and forward and spot prices for currencies and commodities.

Changes in Level 3 Instruments Measured at Fair Value on a Recurring Basis (in millions):

	Oct 3, 2010	Sep 27, 2009
Beginning balance of ARS	\$ 55.7	\$ 59.8
Total (increase)/decrease in unrealized losses included in other comprehensive income	(1.5)	3.9
Realized losses recognized in net earnings	(0.2)	0.0
Calls	(12.0)	(8.0)
Transfers in (out) of Level 3	(0.7)	0.0
Ending balance of ARS	\$ 41.3	\$ 55.7

Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis

Effective September 28, 2009, we adopted new fair value measurement guidance for all nonfinancial assets and liabilities recognized or disclosed at fair value in the financial statements on a nonrecurring basis. These assets and liabilities include items such as property, plant and equipment, goodwill and other intangible assets that are measured at fair value resulting from impairment, if determined to be necessary.

We measure certain financial assets, including equity and cost method investments, at fair value on a nonrecurring basis. These assets are recognized at fair value when they are determined to be other-than-temporarily impaired.

Table of Contents

During fiscal 2010, we recognized fair market value adjustments with a charge to earnings to assets measured at fair value (Level 3) on a non-recurring basis, as follows:

	Carrying Value before adjustment	Fair value adjustment	Carrying value after adjustment
Property, plant and equipment ⁽¹⁾	\$ 26.8	\$ (22.3)	\$ 4.5

⁽¹⁾ The fair value was determined using a discounted cash flow model based on future store revenues and operating costs, using internal projections. The resulting impairment charge was included in store operating expenses.

Fair Value of Other Financial Instruments

The carrying value of cash and cash equivalents approximates fair value because of the short-term nature of those instruments. The estimated fair value of the \$550 million of 6.25% Senior Notes based on the quoted market price was approximately \$637 million and \$591 million as of October 3, 2010 and September 27, 2009, respectively.

Note 6: Inventories (in millions)

	Oct 3, 2010	Sep 27, 2009
Coffee:		
Unroasted	\$ 238.3	\$ 381.6
Roasted	95.1	76.7
Other merchandise held for sale	115.6	116.0
Packaging and other supplies	94.3	90.6
Total	\$ 543.3	\$ 664.9

Other merchandise held for sale includes, among other items, serveware and tea.

Levels of inventory vary due to seasonality driven primarily by the holiday season, commodity market supply and price variations, and changes in our use of fixed-price and price-to-be-fixed coffee contracts.

As of October 3, 2010, we had committed to purchasing green coffee totaling \$156 million under fixed-price contracts and an estimated \$401 million under price-to-be-fixed contracts. Price-to-be-fixed contracts are purchase commitments whereby the quality, quantity, delivery period, and other negotiated terms are agreed upon, but the date at which the base C coffee commodity price component will be fixed has not yet been established. For these types of contracts, either Starbucks or the seller has the option to fix the base C coffee commodity price prior to the delivery date. Until prices are fixed, we estimate the total cost of these purchase commitments. We believe, based on relationships established with our suppliers in the past, the risk of non-delivery on such purchase commitments is remote.

Note 7: Equity and Cost Investments (in millions)

Oct 3, 2010 Sep 27, 2009

Edgar Filing: Aeterna Zentaris Inc. - Form 6-K

Equity method investments	\$ 308.1	\$ 313.2
Cost method investments	33.4	39.1
Total	\$ 341.5	\$ 352.3

Equity Method Investments

As of October 3, 2010, we had a 50 percent ownership interest in each of the following international equity investees: Starbucks Coffee Korea Co., Ltd.; Starbucks Coffee Austria GmbH; Starbucks Coffee Switzerland AG;

Table of Contents

President Starbucks Coffee Taiwan Ltd.; Shanghai President Coffee Co.; and Berjaya Starbucks Coffee Company Sdn. Bhd. (Malaysia). In addition, we had a 39.9 percent ownership interest in Starbucks Coffee Japan, Ltd. These international entities operate licensed Starbucks retail stores. We also have licensed the rights to produce and distribute Starbucks branded products to The North American Coffee Partnership with the Pepsi-Cola Company. We have a 50 percent ownership interest in The North America Coffee Partnership which develops and distributes bottled Frappuccino® beverages, Starbucks DoubleShot® espresso drinks, and Seattle's Best Coffee® ready-to-drink espresso beverages.

Our share of income and losses from our equity method investments is included in income from equity investees on the consolidated statements of earnings. Also included in this line item is our proportionate share of gross margin resulting from coffee and other product sales to, and royalty and license fee revenues generated from, equity investees. Revenues generated from these related parties, net of eliminations, were \$125.7 million, \$125.3 million and \$128.1 million in fiscal years 2010, 2009 and 2008, respectively. Related costs of sales, net of eliminations, were \$65.3 million, \$64.9 million and \$66.2 million in fiscal years 2010, 2009 and 2008, respectively. As of October 3, 2010 and September 27, 2009, there were \$31.4 million and \$37.6 million of accounts receivable from equity investees, respectively, on our consolidated balance sheets, primarily related to product sales and store license fees.

As of October 3, 2010, the aggregate market value of our investment in Starbucks Japan was approximately \$286 million, based on its available quoted market price, which exceeds its carrying value of \$154 million.

Summarized combined financial information of our equity method investees, which represent 100% of the investees' financial information (*in millions*):

Financial Position as of	Oct 3, 2010	Sep 27, 2009	
Current assets	\$ 390.1	\$ 315.8	
Noncurrent assets	570.3	657.6	
Current liabilities	260.6	292.0	
Noncurrent liabilities	70.5	76.5	

Results of Operations for Fiscal Year Ended	Oct 3, 2010	Sep 27, 2009	Sep 28, 2008
Net revenues	\$ 2,128.0	\$ 2,100.1	\$ 1,961.0
Operating income	245.3	192.5	171.3
Net earnings	205.1	155.8	136.9

Cost Method Investments

As of October 3, 2010, we had a \$33.4 million investment of equity interests in entities that develop and operate Starbucks licensed retail stores in several global markets. As of October 3, 2010 and September 27, 2009, management determined that the estimated fair values of each cost method investment exceeded the related carrying values. There were no significant impairments recorded during fiscal years 2010, 2009 or 2008.

We have the ability to acquire additional interests in some of these cost method investees at certain intervals. Depending on our total percentage of ownership interest and our ability to exercise significant influence over financial and operating policies, additional investments may require the retroactive application of the equity method of accounting.

Table of Contents**Note 8: Property, Plant and Equipment** *(in millions)*

	Oct 3, 2010	Sep 27, 2009

Revolving Credit Facility and Commercial Paper Program

Our existing \$1 billion unsecured credit facility was replaced in November 2010 with a new \$500 million unsecured credit facility with various banks, of which \$100 million may be used for issuances of letters of credit. As with the 2005 credit facility, the new 2010 credit facility is available for working capital, capital expenditures and other corporate purposes, including acquisitions and share repurchases. The 2010 credit facility is currently set to mature in November 2014. The interest rate for any borrowings under the 2010 credit facility, based on Starbucks current ratings and fixed charge coverage ratio, is 1.50% over LIBOR. The specific spread over LIBOR will depend upon our long-term credit ratings assigned by Moody's and Standard & Poor's rating agencies and our fixed charge coverage ratio. The 2010 credit facility contains provisions requiring us to maintain compliance with certain covenants, including a minimum fixed charge coverage ratio which measures our ability to cover financing expenses. Starbucks has the option, subject to negotiation and agreement with the related banks, to increase the

Edgar Filing: Aeterna Zentaris Inc. - Form 6-K

maximum commitment amount by an additional \$500 million.

Under our commercial paper program we may issue unsecured commercial paper notes, up to a maximum aggregate amount outstanding at any time of \$500 million under the new credit facility, with individual maturities that may

Table of Contents

vary, but not exceed, 397 days from the date of issue. The program is backstopped by our new credit facility, and the combined borrowing limit is \$500 million for the commercial paper program and the credit facility. We may issue commercial paper from time to time, and the proceeds of the commercial paper financing will be used for working capital needs, capital expenditures and other corporate purposes, including acquisitions and share repurchases.

As of October 3, 2010, we had \$15 million in letters of credit outstanding under the old credit facility. As of September 27, 2009, letters of credit totaling \$14 million were outstanding.

Long-term Debt

In August 2007, we issued \$550 million of 6.25% Senior Notes (the notes) due in August 2017, in an underwritten registered public offering. Interest is payable semi-annually on February 15 and August 15 of each year. The notes require us to maintain compliance with certain covenants, which limit future liens and sale and leaseback transactions on certain material properties.

Interest Expense

Interest expense, net of interest capitalized, was \$32.7 million, \$39.1 million and \$53.4 million in fiscal 2010, 2009 and 2008, respectively. In fiscal 2010, 2009 and 2008, \$4.9 million, \$2.9 million and \$7.2 million, respectively, of interest was capitalized for new store and other asset construction projects, and included in net property, plant and equipment on the consolidated balance sheets.

Note 11: Other Accrued Liabilities and Other Long-term Liabilities (in millions)

	Oct 3, 2010	Sep 27, 2009
Accrued dividend payable	\$ 96.5	\$ 0.0
Other	166.3	147.5
Total other accrued liabilities	\$ 262.8	\$ 147.5

	Oct 3, 2010	Sep 27, 2009
Deferred rent	\$ 239.7	\$ 266.0
Unrecognized tax benefits	65.1	55.1
Asset retirement obligations	47.7	43.4
Other	22.6	25.1
Total other long term liabilities	\$ 375.1	\$ 389.6

Note 12: Leases

Rental expense under operating lease agreements (in millions):

Fiscal Year Ended	Oct 3, 2010	Sep 27, 2009	Sep 28, 2008
Minimum rentals	\$ 688.5	\$ 690.0	\$ 709.1
Contingent rentals	26.1	24.7	32.0
Total	\$ 714.6	\$ 714.7	\$ 741.1

Table of Contents

Minimum future rental payments under non-cancelable operating leases as of October 3, 2010 (*in millions*):

Fiscal Year Ending	
2011	718.4
2012	670.0
2013	609.4
2014	544.0
2015	462.6
Thereafter	1,079.8
Total minimum lease payments	\$ 4,084.2

We have subleases related to certain of our operating leases. During fiscal 2010, 2009 and 2008, we recognized sublease income of \$10.9 million, \$7.1 million and \$3.5 million, respectively.

We had capital lease obligations of \$2.6 million and \$7.8 million as of October 3, 2010 and September 27, 2009, respectively. Capital lease obligations expire at various dates, with the latest maturity in 2014. The current portion of the total obligation is included in other accrued expenses and the remaining long-term portion is included in other long-term liabilities on the consolidated balance sheets. Assets held under capital leases are included in net property, plant and equipment on the consolidated balance sheets.

Note 13: Shareholders Equity

In addition to 1.2 billion shares of authorized common stock with \$0.001 par value per share, we have authorized 7.5 million shares of preferred stock, none of which was outstanding at October 3, 2010.

Share repurchase activity during fiscal 2010 (*in millions, except for average price data*):

Number of shares acquired	11.2
Average price per share of acquired shares	\$ 25.5
Total cost of acquired shares	\$ 285.6

There were no share repurchases during fiscal 2009. As of October 3, 2010, 10.1 million shares remained available for repurchase under the current authorization. Subsequent to year end, on November 15, 2010 we announced an additional share repurchase authorization made by the Board of Directors in the amount of up to 10 million shares in addition to the 10 million remaining under the previous programs.

During the second quarter of fiscal 2010, the Starbucks Board of Directors approved the initiation of a cash dividend to shareholders. Quarterly cash dividends of \$0.10 and \$0.13 per share were paid on April 23, 2010 and August 20, 2010, respectively. During the fourth quarter of fiscal 2010 the Starbucks Board of Directors approved a cash dividend of \$0.13 per share which will be paid on December 3, 2010.

Comprehensive Income

Comprehensive income includes all changes in equity during the period, except those resulting from transactions with shareholders of the Company. It has two components: net earnings and other comprehensive income. Accumulated other comprehensive income reported on our consolidated balance sheets consists of foreign currency translation adjustments and the unrealized gains and losses, net of applicable taxes, on available-for-sale securities and on derivative instruments designated and qualifying as cash flow and net investment hedges.

Table of ContentsComprehensive income, net of related tax effects (*in millions*):

Fiscal Year Ended	Oct 3, 2010	Sep 27, 2009	Sep 28, 2008
Net earnings attributable to Starbucks	\$ 945.6	\$ 390.8	\$ 315.5
Unrealized holding gains/(losses) on available-for-sale securities, net of tax (provision)/benefit of \$0.1, \$(1.9) and \$2.4, respectively	(0.2)	3.3	(4.0)
Unrealized holding gains/(losses) on cash flow hedging instruments, net of tax (provision)/benefit of \$6.6, \$(2.4) and \$(0.4), respectively	(11.3)	4.0	0.7
Unrealized holding losses on net investment hedging instruments, net of tax benefit of \$4.0, \$4.0 and \$0.6, respectively	(6.8)	(6.8)	(0.9)
Reclassification adjustment for net losses realized in net earnings for cash flow hedges, net of tax benefit of \$0.8, \$0.8 and \$3.0, respectively	1.3	1.3	5.0
Net unrealized gain/(loss)	(17.0)	1.8	0.8
Translation adjustment, net of tax (provision)/benefit of \$(3.2), \$6.0 and \$0.3, respectively	8.8	15.2	(7.0)
Total comprehensive income	\$ 937.4	\$ 407.8	\$ 309.3

The favorable translation adjustment change during fiscal 2010 was primarily due to the weakening of the US dollar against several currencies including the Japanese yen and Canadian dollar, partially offset by the strengthening of the US dollar against the euro. The favorable translation adjustment change during fiscal 2009 was primarily due to the weakening of the US dollar against the Japanese yen, Australian dollar and the euro. The unfavorable translation adjustment change during fiscal 2008 was primarily due to the strengthening of the US dollar against several currencies including the Australian dollar, Korean won and Canadian dollar.

Components of accumulated other comprehensive income, net of tax (*in millions*):

Fiscal Year Ended	Oct 3, 2010	Sep 27, 2009
Net unrealized gains/(losses) on available-for-sale securities	\$ (0.9)	\$ (0.8)
Net unrealized gains/(losses) on hedging instruments	(40.5)	(23.7)
Translation adjustment	98.6	89.9
Accumulated other comprehensive income	\$ 57.2	\$ 65.4

As of October 3, 2010, the translation adjustment was net of tax provisions of \$4.2 million. As of September 27, 2009, the translation adjustment was net of tax provisions of \$1.0 million.

Note 14: Employee Stock and Benefit Plans

We maintain several equity incentive plans under which we may grant non-qualified stock options, incentive stock options, restricted stock, RSUs, or stock appreciation rights to employees, non-employee directors and consultants. We issue new shares of common stock upon exercise of stock options and the vesting of RSUs. We also have employee stock purchase plans (ESPP).

As of October 3, 2010, there were 27.9 million shares of common stock available for issuance pursuant to future equity-based compensation awards and 9.0 million shares available for issuance under our ESPP.

Table of Contents

Stock based compensation expenses recognized in the consolidated financial statements (*in millions*):

Fiscal Year Ended	Oct 3, 2010	Sep 27, 2009	Sep 28, 2008
Options	\$ 76.8	\$ 61.6	\$ 57.6
RSUs	36.8	16.6	5.6
ESPP	0.0	5.0	11.8
Total stock-based compensation expense on the consolidated statements of earnings	\$ 113.6	\$ 83.2	\$ 75.0
Total related tax benefit	\$ 40.6	\$ 29.3	\$ 24.0
Stock-based compensation capitalized in the respective fiscal year included in net property, plant and equipment and inventories on the consolidated balance sheets	\$ 1.9	\$ 1.3	\$ 1.9

Stock Option Plans

Stock options to purchase our common stock are granted at the fair market value of the stock on the date of grant. The majority of options become exercisable in four equal installments beginning a year from the date of grant and generally expire 10 years from the date of grant. Options granted in the 2009 exchange program vest over two years and expire seven years from the date of grant. The 2009 exchange program allowed for a one-time stock option exchange designed to provide eligible employees the opportunity to exchange certain outstanding underwater stock options for a lesser amount of new options with lower exercise prices. Options granted to non-employee directors generally vest over one to three years. Nearly all outstanding stock options are non-qualified stock options.

The fair value of each stock option granted is estimated on the grant date using the Black-Scholes-Merton (BSM) option valuation model. The assumptions used to calculate the fair value of options granted are evaluated and revised, as necessary, to reflect market conditions and our experience. Options granted are valued using the multiple option valuation approach, and the resulting expense is recognized over the requisite service period for each separately vesting portion of the award. Compensation expense is recognized only for those options expected to vest, with forfeitures estimated at the date of grant based on our historical experience and future expectations.

The fair value of stock option awards was estimated at the grant date with the following weighted average assumptions for fiscal years 2010, 2009 and 2008 (excludes options granted in the 2009 stock option exchange program described above):

Fiscal Year Ended	Employee Stock Options Granted During the Period		
	2010	2009	2008
Expected term (in years)	4.7	4.9	4.7
Expected stock price volatility	43.0%	44.5%	29.3%
Risk-free interest rate	2.1%	2.2%	3.4%
Expected dividend yield	0.1%	0.0%	0.0%
Weighted average grant price	\$ 22.28	\$ 8.97	\$ 22.11
Estimated fair value per option granted	\$ 8.50	\$ 3.61	\$ 6.85

The expected term of the options represents the estimated period of time until exercise, and is based on historical experience of similar awards, giving consideration to the contractual terms, vesting schedules and expectations of future employee behavior. Expected stock price volatility is based on a combination of historical volatility of our stock and the one-year implied volatility of Starbucks traded options, for the related vesting periods. The risk-free interest rate is based on the implied yield available on US Treasury zero-coupon issues with an equivalent remaining term. The dividend yield assumption is based on the anticipated cash dividend payouts. We did not pay any cash dividends prior to fiscal 2010. The amounts shown above for the estimated fair value per option granted are before the estimated effect of forfeitures, which reduce the amount of expense recorded on the consolidated statement of earnings.

Table of Contents

The BSM option valuation model was developed for use in estimating the fair value of traded options, which have no vesting restrictions and are fully transferable. Our employee stock options have characteristics significantly different from those of traded options, and changes in the subjective input assumptions can materially affect the fair value estimate. Because our stock options do not trade on a secondary exchange, employees do not derive a benefit from holding stock options unless there is an increase, above the grant price, in the market price of the our stock. Such an increase in stock price would benefit all shareholders commensurately.

Stock option transactions from September 30, 2007, through October 3, 2010 (*in millions, except per share and contractual life amounts*):

	Shares Subject to Options	Weighted Average Exercise Price per Share	Weighted Average Remaining Contractual Life (Years)	Aggregate Intrinsic Value
Outstanding, September 30, 2007	65.5	\$ 20.97	6.2	\$ 507.5
Granted	15.4	22.11		
Exercised	(6.6)	10.71		
Expired/forfeited	(11.3)	28.49		
Outstanding, September 28, 2008	63.0	20.96	5.7	114.9
Granted	30.9	8.97		
Granted under option exchange program	4.7	14.92		
Exercised	(7.2)	7.31		
Expired/forfeited	(13.5)	18.99		
Cancelled under option exchange program	(14.3)	29.34		
Outstanding, September 27, 2009	63.6	14.75	6.7	442.4
Granted	14.9	22.28		
Exercised	(9.6)	11.94		
Expired/forfeited	(8.2)	18.73		
Outstanding, October 3, 2010	60.7	16.52	6.6	611.3
Exercisable, October 3, 2010	27.3	17.48	4.6	264.1
Vested and expected to vest, October 3, 2010	55.8	16.53	6.5	564.7

The aggregate intrinsic value in the table above is the amount by which the market value of the underlying stock exceeded the exercise price of outstanding options, is before applicable income taxes and represents the amount optionees would have realized if all in-the-money options had been exercised on the last business day of the period indicated.

As of October 3, 2010, total unrecognized stock-based compensation expense, net of estimated forfeitures, related to nonvested stock options was approximately \$70 million, before income taxes, and is expected to be recognized over a weighted average period of approximately 2.7 years. The total intrinsic value of stock options exercised was \$118 million, \$44 million and \$50 million during the three fiscal year period ended October 3, 2010. The total fair value of options vested was \$108 million, \$75 million and \$99 million during fiscal years 2010, 2009 and 2008, respectively.

RSUs

We have both time-vested and performance-based RSUs. Time-vested RSUs are awarded to eligible employees and entitle the grantee to receive shares of common stock at the end of a vesting period, subject solely to the employee's continuing employment. Our performance-based RSUs are awarded to eligible employees and entitle the grantee to receive shares of common stock if we achieve specified performance goals for the full fiscal year in the year of award and the grantee remains employed during the subsequent vesting period. The fair value of RSUs is based on the closing price of Starbucks common stock on the award date. Expense for performance-based RSUs is recognized when it is probable the performance goal will be achieved.

Table of Contents

RSU transactions from September 30, 2007 through October 3, 2010 (in millions, except per share and contractual life amounts):

	Number of Shares	Weighted Average Grant Date Fair Value per Share	Weighted Average Remaining Contractual Life (Years)	Aggregate Intrinsic Value
Nonvested, September 30, 2007	0.2	\$ 27.83	3.0	\$ 4.7
Granted	2.0	16.43		
Vested	0.0	0.00		
Forfeited/Cancelled	(0.2)	17.27		
Nonvested, September 28, 2008	2.0	17.36	2.5	30.5
Granted	3.3	8.78		
Vested	0.0	0.00		
Forfeited/Cancelled	(0.9)	13.94		
Nonvested, September 27, 2009	4.4	11.55	1.6	88.2
Granted	2.3	22.27		
Vested	(0.7)	16.35		
Forfeited/Cancelled	(0.6)	12.27		
Nonvested, October 3, 2010	5.4	13.55	1.1	140.8

As of October 3, 2010, total unrecognized stock-based compensation expense related to nonvested RSUs, net of estimated forfeitures, was approximately \$44 million, before income taxes, and is expected to be recognized over a weighted average period of approximately 2.0 years.

ESPP

Our ESPP allows eligible employees to contribute up to 10% of their base earnings toward the quarterly purchase of our common stock, subject to an annual maximum dollar amount. The purchase price is 95% of the fair market value of the stock on the last business day of the quarterly offering period. The number of shares issued under our ESPP was 0.8 million in fiscal 2010.

Deferred Stock Plan

We have a deferred stock plan for certain non-employees that enables participants in the plan to defer receipt of ownership of common shares from the exercise of nonqualified stock options. The minimum deferral period is five years. As of October 3, 2010 and September 27, 2009, 3.4 million shares were deferred under the terms of this plan. The rights to receive these shares, represented by common stock units, are included in the calculation of basic and diluted earnings per share as common stock equivalents. No new initial deferrals are permitted under this plan; the plan permits re-deferrals of previously deferred shares.

Defined Contribution Plans

We maintain voluntary defined contribution plans, both qualified and non-qualified, covering eligible employees as defined in the plan documents. Participating employees may elect to defer and contribute a portion of their eligible compensation to the plans up to limits stated in the plan documents, not to exceed the dollar amounts set by applicable laws.

Our matching contributions to all US and non-US plans were \$23.5 million, \$19.7 million and \$25.3 million in fiscal years 2010, 2009 and 2008, respectively.

Table of Contents**Note 15: Income Taxes**Provision for income taxes (*in millions*):

Fiscal Year Ended	Oct 3, 2010	Sep 27, 2009	Sep 28, 2008
Current taxes:			
Federal	\$ 457.5	\$ 165.3	\$ 180.4
State	79.6	35.0	34.3
Foreign	38.3	26.3	40.4
Deferred taxes, net	(86.7)	(58.2)	(111.1)
Total	\$ 488.7	\$ 168.4	\$ 144.0

Reconciliation of the statutory US federal income tax rate with our effective income tax rate:

Fiscal Year Ended	Oct 3, 2010	Sep 27, 2009	Sep 28, 2008
Statutory rate	35.0%	35.0%	35.0%
State income taxes, net of federal income tax benefit	2.5%	2.6%	2.8%
Foreign earnings taxed at lower rates	-2.5%	-2.3%	-3.6%
Domestic production activity deduction	-0.9%	-2.3%	-2.6%
Credit resulting from employment audit	0.0%	-2.0%	0.0%
Other, net	-0.1%	-0.9%	-0.3%
Effective tax rate	34.0%	30.1%	31.3%

US income and foreign withholding taxes have not been provided on approximately \$646 million of cumulative undistributed earnings of foreign subsidiaries and equity investees. We intend to reinvest these earnings for the foreseeable future. If these amounts were distributed to the US, in the form of dividends or otherwise, we would be subject to additional US income taxes. Determination of the amount of unrecognized deferred income tax liabilities on these earnings is not practicable because such liability, if any, is dependent on circumstances existing if and when remittance occurs.

Table of Contents

Tax effect of temporary differences and carryforwards that comprise significant portions of deferred tax assets and liabilities (*in millions*):

	Oct 3, 2010	Sep 27, 2009
Deferred tax assets:		
Property, plant and equipment	\$ 32.6	\$ 0.0
Accrued occupancy costs	55.2	51.5
Accrued compensation and related costs	100.8	70.1
Other accrued expenses	25.0	24.5
Asset retirement obligation asset	14.9	13.9
Deferred revenue	58.4	39.3
Asset impairments	94.8	99.7
Tax credits	41.0	61.4
Stock based compensation	115.9	96.6
Net operating losses	43.7	20.1
Other	50.6	36.0
Total	\$ 632.9	\$ 513.1
Valuation allowance	(88.1)	(20.3)
Total deferred tax asset, net of valuation allowance	\$ 544.8	\$ 492.8
Deferred tax liabilities:		
Property, plant and equipment	(26.2)	(45.6)
Other	(19.1)	(25.4)
Total	(45.3)	(71.0)
Net deferred tax asset	\$ 499.5	\$ 421.8
Reported as:		
Current deferred income tax asset	\$ 304.2	\$ 286.6
Long-term deferred income tax asset (included in Other assets)	195.3	135.2
Net deferred tax asset	\$ 499.5	\$ 421.8

We will establish a valuation allowance if either it is more likely than not that the deferred tax asset will expire before we are able to realize their benefits, or the future deductibility is uncertain. Periodically, the valuation allowance is reviewed and adjusted based on management's assessments of realizable deferred tax assets. The valuation allowance as of October 3, 2010 and September 27, 2009 was related to net operating losses and other deferred tax assets of consolidated foreign subsidiaries. The net change in the total valuation allowance for the years ended October 3, 2010, and September 27, 2009, was an increase of \$67.8 million and \$0.3 million, respectively. During fiscal 2010, we recognized approximately \$40 million of previously unrecognized deferred tax assets in certain foreign jurisdictions, with a corresponding increase to the valuation allowance due to the uncertainty of their realization.

As of October 3, 2010, Starbucks had foreign tax credit carryforwards of \$26.1 million with expiration dates between fiscal years 2014 and 2019. As of the end of fiscal 2010, capital loss carryforwards were \$15.4 million with expiration dates between fiscal years 2014 and 2015. As of October 3, 2010, Starbucks had foreign net operating losses of \$145.6 million, the predominant amount having no expiration.

Taxes currently payable of \$24.7 million and \$57.2 million are included in accrued taxes on the consolidated balance sheets as of October 3, 2010 and September 27, 2009, respectively.

Uncertain Tax Positions

As of October 3, 2010, we had \$68.4 million of gross unrecognized tax benefits of which \$21.6 million, if recognized, would affect our effective tax rate. As of October 3, 2010 and September 27, 2009, we had accrued interest and penalties of \$16.8 million and \$9.9 million, respectively.

before benefit of federal tax deduction, recorded on our consolidated balance sheets.

Table of Contents

The following table summarizes the activity related to our unrecognized tax benefits (*in millions*):

	Oct 3, 2010	Sep 27, 2009	Sep 28, 2008
Beginning balance	\$ 49.1	\$ 52.6	\$ 58.3
Increase related to prior year tax positions	35.0	4.2	64.9
Decrease related to prior year tax positions	(21.4)	(11.6)	(37.2)
Increase related to current year tax positions	14.1	8.4	17.0
Decrease related to current year tax positions	(8.1)	(0.9)	(5.4)
Decreases related to settlements with taxing authorities	0.0	(3.0)	(11.1)
Decreases related to lapsing of statute of limitations	(0.3)	(0.6)	(33.9)
Ending balance	\$ 68.4	\$ 49.1	\$ 52.6

We are currently under routine audit by various jurisdictions outside the US as well as US state taxing jurisdictions for fiscal years 2003 through 2009. We are no longer subject to US federal or state examination for years before fiscal year 2006, with the exception of four states. We are subject to income tax in many jurisdictions outside the US. We are no longer subject to examination in any material international markets prior to 2003.

There is a reasonable possibility that approximately \$9.5 million of the currently remaining unrecognized tax benefits, each of which is individually insignificant, may be recognized by the end of fiscal 2011 as the result of a lapse of the statute of limitations.

Note 16: Earnings per Share

Calculation of net earnings per common share (EPS) basic and diluted (*in millions, except EPS*):

Fiscal Year Ended	Oct 3, 2010	Sep 27, 2009	Sep 28, 2008
Net earnings attributable to Starbucks	\$ 945.6	\$ 390.8	\$ 315.5
Weighted average common shares and common stock units outstanding (for basic calculation)	744.4	738.7	731.5
Dilutive effect of outstanding common stock options and RSUs	19.8	7.2	10.2
Weighted average common and common equivalent shares outstanding (for diluted calculation)	764.2	745.9	741.7
EPS basic	\$ 1.27	\$ 0.53	\$ 0.43
EPS diluted	\$ 1.24	\$ 0.52	\$ 0.43

Potential dilutive shares consist of the incremental common shares issuable upon the exercise of outstanding stock options (both vested and non-vested) and unvested RSUs, using the treasury stock method. Potential dilutive shares are excluded from the computation of earnings per share if their effect is antidilutive. The number of antidilutive options totaled 20 million, 17 million and 40 million, in fiscal years 2010, 2009 and 2008, respectively.

Note 17: Commitments and Contingencies**Guarantees**

We have unconditionally guaranteed the repayment of certain Japanese yen-denominated bank loans and related interest and fees of an unconsolidated equity investee, Starbucks Japan. The guarantees continue until the loans, including accrued interest and fees, have been paid in full. These guarantees expire in 2014. Our maximum exposure under this commitment as of October 3, 2010 is \$2.6 million and is limited to the sum of unpaid principal and interest, as well as other related expenses. These amounts will vary based on fluctuations in the yen foreign

Edgar Filing: Aeterna Zentaris Inc. - Form 6-K

exchange rate. Since there has been no modification of these loan guarantees subsequent to the adoption of accounting requirements for guarantees, we have applied the disclosure provisions only and have not recorded the guarantees on our consolidated balance sheets.

Table of Contents

We have commitments under which we unconditionally guarantee our proportionate share of certain borrowings of unconsolidated equity investees. These guarantees have varying expiration dates. As of October 3, 2010, our maximum exposure under these commitments is \$2.1 million, which excludes interest and other related costs. The fair value of these guarantees as of October 3, 2010 is \$2.2 million and is recorded on our consolidated balance sheets.

Legal Proceedings

Starbucks is party to various legal proceedings arising in the ordinary course of business, but is not currently a party to any legal proceeding that management believes would have a material adverse effect on our consolidated financial position or results of operations.

Note 18: Acquisitions

In the first quarter of fiscal 2010, we acquired 100% ownership of our business in France, converting it from a 50% joint venture with Sigla S.A. (Grupo Vips) of Spain to a company-operated market. We simultaneously sold our 50% ownership interests in the Spain and Portugal markets to Grupo Vips, converting them to licensed markets.

In the fourth quarter of fiscal 2010, we acquired 100% ownership of our business in Brazil, converting it from a 49% joint venture with Cafés Sereia do Brasil Participações S.A of Brazil to a company-operated market.

In the fourth quarter of fiscal 2010, we acquired 100% ownership of a previously consolidated 50% joint venture in the US with Johnson Coffee Corporation, Urban Coffee Opportunities (UCO). The following table shows the effects of the change in Starbucks ownership interest in UCO on Starbucks equity:

Fiscal Year Ended	Oct 3, 2010	Sep 27, 2009	Sep 28, 2008
Net earnings attributable to Starbucks	\$ 945.6	\$ 390.8	\$ 315.5
Transfers (to) from the noncontrolling interest:			
Decrease in additional paid-in capital for purchase of 50% interest in subsidiary	(26.8)	0.0	0.0
Change from net earnings attributable to Starbucks and transfers to noncontrolling interest	\$ 918.8	\$ 390.8	\$ 315.5

Note 19: Segment Reporting

Segment information is prepared on the same basis that our management reviews financial information for operational decision making purposes. We have three reportable operating segments: US, International, and CPG. In the fourth fiscal quarter of 2010, we changed the composition of our operating segments, presenting Seattle's Best Coffee as a separate operating segment that is now reported with Digital Ventures and unallocated corporate expenses within Other. Financial information for Seattle's Best Coffee was previously reported within the US, International, and CPG segments. This change reflects the culmination of internal management and reporting realignments, and the expected development of the Seattle's Best Coffee business. Segment information for all prior periods presented has been reclassified to reflect this change.

United States

US operations sell coffee and other beverages, complementary food, whole bean coffees, and a focused selection of merchandise primarily through company-operated retail stores. Specialty operations within the US include licensed retail stores.

International

International operations sell coffee and other beverages, complementary food, whole bean coffees, and a focused selection of merchandise through company-operated retail stores in Canada, the UK, and several other markets. Specialty operations in international markets primarily include retail store licensing operations in nearly 40 countries

Table of Contents

and foodservice accounts, primarily in the UK and Canada. Many of our international operations are in the early stages of development that require a more extensive support organization, relative to the current levels of revenue and operating income, than in the US.

Global Consumer Products Group

CPG operations sell a selection of whole bean and ground coffees as well as a selection of premium Tazo® teas through licensing arrangements in US and international markets. CPG operations also produce and sell ready-to-drink beverages which include, among others, bottled Frappuccino® beverages, Starbucks DoubleShot® espresso drinks, and Discoveries® chilled cup coffee. In addition, CPG operations produce and sell Starbucks VIA® Ready Brew, as well as Starbucks® super-premium ice creams through its marketing and distribution agreements and a joint venture. The US foodservice business sells coffee and other related products to institutional foodservice companies with the majority of its sales through national broadline distribution networks.

Other

Other includes Seattle's Best Coffee and Digital Ventures as well as expenses pertaining to corporate administrative functions that support the operating segments but are not specifically attributable to or managed by any segment, and are not included in the reported financial results of the operating segments.

Revenue mix by product type (*in millions*):

Fiscal Year Ended	Oct 3, 2010		Sep 27, 2009		Sep 28, 2008	
Beverage	\$ 6,750.3	63%	\$ 6,238.4	64%	\$ 6,663.3	64%
Food	1,878.7	18%	1,680.2	17%	1,511.7	15%
Whole bean and soluble coffees	1,131.3	10%	965.2	10%	987.8	9%
Other ⁽¹⁾	947.1	9%	890.8	9%	1,220.2	12%
Total	\$ 10,707.4	100%	\$ 9,774.6	100%	\$ 10,383.0	100%

⁽¹⁾ Other includes royalty and licensing revenues, beverage-related accessories and equipment revenues.

Information by geographic area (*in millions*):

Fiscal Year Ended	Oct 3, 2010	Sep 27, 2009	Sep 28, 2008
Net revenues from external customers:			
United States	\$ 8,335.4	\$ 7,787.7	\$ 8,227.0
Other countries	2,372.0	1,986.9	2,156.0
Total	\$ 10,707.4	\$ 9,774.6	\$ 10,383.0

No customer accounts for 10% or more of our revenues. Revenues are shown based on the geographic location of our customers. Revenues from countries other than the US consist primarily of revenues from Canada and the UK, which together account for approximately 64% of net revenues from other countries for fiscal 2010.

Total assets	1,956.9	1,066.0	54.6	2,595.1	5,672.6

The table below reconciles the total of the reportable segments operating income to the consolidated earnings before income taxes (*in millions*):

Fiscal Year Ended	Oct 3, 2010	Sep 27, 2009	Sep 28, 2008
Operating income	\$ 1,419.4	\$ 562.0	\$ 503.9
Interest income and other, net	50.3	37.0	5.2
Interest expense	(32.7)	(39.1)	(53.4)
Earnings before income taxes	\$ 1,437.0	\$ 559.9	\$ 455.7

Note 20: Subsequent Event

In the first quarter of fiscal 2011, Starbucks notified Kraft Foods Global, Inc. that we are discontinuing our licensing relationships. Through these relationships with Kraft, Starbucks sells a selection of Starbucks and Seattle's Best Coffee branded packaged coffees and Taz® teas in grocery and warehouse club stores throughout the US, and to grocery stores in Canada, the UK and other European countries. Kraft manages the distribution, marketing, advertising and promotion of these products. Discussions between Starbucks and Kraft are ongoing as of the date of the filing of this 10-K and there is the possibility of a commercial dispute between the parties. At this time Starbucks is unable to estimate the range of possible outcomes with respect to this matter.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of Starbucks Corporation

Seattle, Washington

We have audited the accompanying consolidated balance sheets of Starbucks Corporation and subsidiaries (the Company) as of October 3, 2010 and September 27, 2009, and the related consolidated statements of earnings, equity, and cash flows for each of the three years in the period ended October 3, 2010. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Starbucks Corporation and subsidiaries as of October 3, 2010 and September 27, 2009, and the results of their operations and their cash flows for each of the three years in the period ended October 3, 2010, in conformity with accounting principles generally accepted in the United States of America.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of October 3, 2010, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated November 22, 2010 expressed an unqualified opinion on the Company's internal control over financial reporting.

Item 9. *Changes in and Disagreements with Accountants on Accounting and Financial Disclosure*

Not applicable.

Item 9A. *Controls and Procedures* Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that material information required to be disclosed in our periodic reports filed or submitted under the Securities Exchange Act of 1934, as amended (the Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Our disclosure controls and procedures are also designed to ensure that information required to be disclosed in the reports we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer as appropriate, to allow timely decisions regarding required disclosure.

During the fourth quarter of fiscal 2010, we carried out an evaluation, under the supervision and with the participation of our management, including our chief executive officer and our chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based upon that evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective, as of the end of the period covered by this report (October 3, 2010).

During the fourth quarter of fiscal 2010, there were no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) that materially affected or are reasonably likely to materially affect internal control over financial reporting.

The certifications required by Section 302 of the Sarbanes-Oxley Act of 2002 are filed as exhibits 31.1 and 31.2, respectively, to this 10-K.

Report of Management on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is a process to provide reasonable assurance regarding the reliability of our financial reporting for external purposes in accordance with accounting principles generally accepted in the United States of America. Internal control over financial reporting includes maintaining records that in reasonable detail accurately and fairly reflect our transactions; providing reasonable assurance that transactions are recorded as necessary for preparation of our financial statements; providing reasonable assurance that receipts and expenditures are made in accordance with management authorization; and providing reasonable assurance that unauthorized acquisition, use or disposition of company assets that could have a material effect our financial statements would be prevented or detected on a timely basis. Because of its inherent limitations, internal control over financial reporting is not intended to provide absolute assurance that a misstatement of our financial statements would be prevented or detected.

Management conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework and criteria established in *Internal Control - Integrated Framework*, issued by the Committee of Sponsoring Organizations of the Treadway Commission. This evaluation included review of the documentation of controls, evaluation of the design effectiveness of controls, testing of the operating effectiveness of controls and a conclusion on this evaluation. Based on this evaluation, management concluded that our internal control over financial reporting was effective as of October 3, 2010.

Our internal control over financial reporting as of October 3, 2010, has been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their report which is included herein.

Table of Contents

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of Starbucks Corporation

Seattle, Washington

We have audited the internal control over financial reporting of Starbucks Corporation and subsidiaries (the Company) as of October 3, 2010, based on criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Report of Management on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of October 3, 2010, based on the criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements as of and for the fiscal year ended October 3, 2010, of the Company and our report dated November 22, 2010 expressed an unqualified opinion on those financial statements.
